

HEAVIER HORSES IN DEMAND INSTEAD OF GENERAL PURPOSE

John Gardhouse Says Farmers Should Steer Clear of Latter Class of Animals—More Vegetables Should Be Produced For Sale and Home Consumption.

An improved system of fair books was the subject treated by Percy Rogers, assistant manager of Canadian National Exhibition, at the morning session of the Ontario Association of Fairs and Exhibitions.

Mr. Rogers illustrated his address by a number of charts and in the discussion which followed the consensus of opinion was that the system would scarcely be applicable to small fairs. To give all a proper understanding of the method Mr. Rogers promised to have copies of his charts, with full explanations, sent to the secretaries of the 375 affiliated societies.

Dr. Rutledge spoke on light horses, reviewing their history from a hundred years back, when the "run was in vogue. The speaker finds great difficulty at present in securing a good road horse. At fairs pacers and trotters are often shown together. This was hardly advisable, as judges favor trotters in the six minutes allotted.

John Gardhouse, Highfield, spoke on the heavy horse. Small fairs should classify better. Farmers were advised to steer clear of the "general purpose" animal; heavier horses are in demand. Some discussion followed, led by C. F. Bally, assistant deputy minister of agriculture.

Vegetable Growing.

A strong protest against the neglect of very many in the matter of vegetable growing was made by W. J. Kerr, Woodroffe. Time and money are devoted to live stock and dairy products, and the same care should be given the growing of vegetables. Every farmer should grow enough for his own use. At present there is a numerous class who grow nothing in this line and have to buy from their neighbors. He advised interest in displays at fairs. Women are always interested. Offer inducements to the boys and girls to grow and cultivate plots. This will produce a nation of vegetable growers.

Rural School Fairs.

One of the most interesting papers of the day was that of F. C. Hart, Galt, who spoke on "Rural School Fairs." These fairs were opened in North Dumfries in 1909 with three schools. Now practically all the schools in the township participate. Prizes are offered and seed distributed to pupils of the district. The awards are very many in number and later for the finished product at fair time. Eggs for hatching, four dozen in number for each school, are distributed. Chickens, colts, oats, barley, farm implements and home-made bread are also in the exhibits of the rural schools.

Essays on the different agricultural branches for another educational side. For the best essays prizes are also offered. Mr. Hart's paper is to be published in full in the reports. The big exhibitions and the small farmers were handled by Newton Wylie in an address born of his experience as reporter, when agricultural events, fall fairs and conventions were his particular territory. He stated that at present the big exhibition neglects the small farmer, thus reversing the order of things, for it is the small farmer who ought to be encouraged. This discourages the entries at fairs. The honey exhibit at the Canadian National last year was instanced. Only one exhibitor appeared. He had 18 entries, with a prize in each. It was urged that directors of fairs should send out advance agents to explain the advantages of exhibiting and inducing them to make entries. This had been done, said Mr. Wylie, with good results in Nova Scotia, according to the testimony of Principal Cummings of Truro, to George.

An Extra Grant. A motion to ask for an extra grant of \$25,000 to the Ontario Agricultural Societies was unanimously carried.

The newly-elected president, Dr. Crow, took office in very brief but business-like address. He was on the program for a paper, but as time was pressing he deferred it until a more favorable opportunity. At his request the meeting closed with the singing of the national anthem.

New Officers. The election of officers resulted in the following: President, Dr. C. A. Crow, Chesley; first vice-president, J.

V. T. Bero is Dead

V. T. Bero of 128 Arthur street, who was in the hotel business in the city for twenty-four years, died in St. Michael's Hospital early yesterday morning after being ill two weeks. He was born in Ogdensburg, U.S.A., but came to Toronto when he was in his teens. He was chief caterer for the G.T.R. at the Union Station for a number of years, and later kept the old Club Hotel, on Yonge street, near College, for four years. He then sold out, and for the next twenty years he ran the Bero House, Queen and Dundas streets. The deceased leaves a widow, two daughters—Misses Maud and Leah Bero—and a son—Mr. Philip Bero—all of whom are in the hotel business. The funeral will be held on Saturday at 9 a.m. from the church, Rev. Father McEgan officiating.

CYCLOPEDIA BARGAIN TO BE WITHDRAWN SOON

There will not be many more days of The Toronto World's big sale of Everybody's Cyclopaedia, for the offer will be withdrawn when the present supply is disposed of, so quick action is urged.

The sets are on sale today, as explained in the coupon printed elsewhere in this issue. The regular selling price of the complete five-volume set is \$12, but today and tomorrow they go for only \$1.98 and one coupon.

Every reader of The World should take advantage of this great offer. It is the opportunity of a lifetime to get a complete reference library at less than the price of one volume. Every known fact needed for daily use is contained in this five-volume set. It is the straight road to success. The children at school should have access to it at all times. It should be in every home, school and place of business for daily use.

Mail orders will be filled on the same terms, express charges to be paid by the receiver. The sets are too bulky to be sent by mail.

Gambling losses estimated at \$1,000 between 1910 and May, 1912, were in the London Bankruptcy Court the other day. The regular selling price of the complete five-volume set is \$12, but today and tomorrow they go for only \$1.98 and one coupon.

"This helps one to understand why taxi-drivers cannot make it pay," said Mr. Hopkins, the Lambeth magistrate, recently, in fining a driver \$5 for failing to be ready for hire at once when his cab was first on the Camberwell New-road rank. He was stated to have left his cab unattended for 30 minutes, during which time three persons wanted to hire.

GREAT PROGRESS MADE BY ONTARIO

Tales of Tremendous Prosperity Told in Two Fine Speeches.

FIRST DEBATE IS OPEN

A. H. Musgrove and Captain Machin Moved and Second-ed Speech From Throne.

Tales of tremendous prosperity were unfolded by two Conservative members in the legislature yesterday, when the debate upon the speech from the throne began. A. H. Musgrove of North Huron, and Captain Machin of Kenora spoke for the government, while criticism of the Conservative policy was forthcoming from J. C. Elliott, Liberal member for West Middlesex. It was the first real bustle in the house, and as an indication that this parliament will be a heavy one, a night session was held. Mr. Musgrove was the first speaker, and for nearly two hours he applauded the actions of the government since its leaders, and in every phase of the speech, and even went outside of this to show that criticism of the government policy was entirely out of the question. He supported it by relating statistics to illustrate the growing wealth of the farming community, which had increased to \$213,000,000 in four years. With this great increase, chattel mortgages had decreased from \$40,000,000 to \$26,000,000. He told of the great boon to farmers by the increased agriculture grants.

Improved Farming. Dairy farming had improved so much in recent years, that poor butter was almost an unknown quantity. He called attention to the fact that farmers should pay more regard to "pedigreed" seed and less to pedigreed stock. The practical demonstrations by experts in the fruit industry, employed by the government, had greatly assisted the farmers.

That old snag which confronts the farmers, to wit, rural depopulation, was touched upon. He little wondered that the boy could not be kept on the farm when he could settle in other lines of business with less capital. "You might as well try to stop the birds from settling on the approach of winter as to try to keep the boy on the farm."

Immigrants were giving farmers a deal of trouble. The only solution of this knotty problem was to have a farm hand on a yearly wage and build a cottage for him and his family. He tacitly tackled other things, as farmers offered better inducements. Humanitarian Work. Respecting the government's humanitarian work, he said the placing of poor children from squalid surroundings into decent homes was the great thing, much better than bringing out uneducated children from the city.

Hon. Mr. Hanna's prison reform work was a common word in the United States and Great Britain, and the provincial secretary of Ontario had done history as the John Howard of prison reform.

He had no use for the critics of entrance examinations. He said the placing of boys or girls' ability to enter high school were necessary. It was impossible for a child to cram the necessary knowledge into his brain in two or three weeks prior to an examination, as some critics had asserted. "Entrance examinations are a fair test," he said. "The student might be raised, but this would probably keep boys and girls from entering high schools."

Students' Conduct. He criticized Toronto University students whose recent actions had a bad influence. They should show more self-reliance and self-respect. He did not blame the authorities of the university, as he, being a principal, knew how difficult it was to suppress the bad conduct of the students.

After boosting the hydro-electric system, he touched upon workmen's compensation, which, he said, was the best important question before the house. In regard to the charge of the Liberals that the commission took evidence just prior to the last election as a means of catching votes, he asked "Do any of you think for a moment that a man of Sir William Meredith's stamp would connive with anyone to commit such an act?"

Tax Reform. The speaker referred lengthily to the question of tax reform, and stated that the premier had influenced him or any other member of the committee in the matter of favoring his resolution and upsetting the bill presented by Mr. Rowell. He said that the Liberal leader's motion was crude and unworkable, and he endeavored to show why it was. Speaking of the attitude of The Ottawa Citizen (Conservative) which had scored Sir James for his stand against tax reform, Mr. Musgrove said: "No newspaper is able to count out any member of the government or the premier from his position. We are just as capable of judging what the people want as the newspaperman."

The Binding Link. Captain Machin's address dealt chiefly with the northland and its development. He said that the northland is a try would for once and all become the binding link between the east and west. The progress of methods of the government had given the north a square deal. It was a red letter day when the five million dollars was granted for its development and improvement, and the government had shown wisdom in appointing J. F. Whitson to administer the work. He said the mining people had prospered under the Whitney Government, because they had the utmost confidence in it.

WITNESS HAD POOR MEMORY

President of Dredging Company Unable to Explain Where Money Went.

OTTAWA, Feb. 6.—D. L. White, president of the Canadian Dredging Company, was examined in the public accounts committee this morning, relative to \$200 paid him by the company for traveling expenses.

Mr. White, in reply to repeated questions, said he could not recall where the money was spent. "I may have gone to Toronto, Buffalo, Ottawa or Montreal. I don't recollect," he said. "My reason is to show that the expenses were paid for trips to Ottawa about the appointment of dredging inspectors," his examiner, Mr. Stewart, K.C., explained.

Mr. White told the committee that he had been unable to find the books of the Canadian Dredging and Construction Company, which preceded the Canadian Dredging Company before reorganization. The committee adjourned till next Wednesday.

UNITED SHOE MACHINERY COMPANY OF CANADA

Interesting Canvass of the Company's Customers—Ninety-Two Per Cent. Express Themselves as Satisfied With Present Methods—The Position of the Company as Measured by "Good Will" of Shoe Manufacturers.

An interesting canvass of the shoe manufacturers of Canada has been recently completed by one of the financial papers, in the view of ascertaining the position of the United Shoe Machinery Company of Canada, measured by the "good will" of its customers. A circular inviting responses to a series of questions bearing relations of the Company with its customers, was sent to all the shoe manufacturers whose names were available, numbering 175. Of answers received 92 per cent. of the respondents stated that their relations with the Company have been satisfactory, while only 3.2 per cent. answered this question with an unfavorable negative. On the important point of leasing machines on royalty, 92 per cent. of the manufacturers have no objections to make. Another finding of the canvass is that 81.4 per cent. of the Canadian manufacturers believe that the Company's charges are reasonable, considering the quality of the service rendered.

This canvass, it is stated, adds another link to the chain of evidence adduced during the government hearing that the discontent with the Company's methods has few parallels among its customers. Of the 69 replies received, there were 6 who did not use the Company's machines, 63 whose views are summarized below in percentage figures:

Question No. 1 was: "How long have you had business relations with the United Shoe Machinery Company of Canada?" The average of the answers being about 12 years.

Answering the remaining questions were as follows:

1. Are your relations with them satisfactory to you?	92	3.2	4.8
2. Have your relations with them been satisfactory to you?	91	4.6	1.4
3. Do you object to royalty basis of leasing machines from United Shoe Mach. Co. of Canada?	8	90.6	1.4
4. Do you think royalties charges are unreasonable, considering the quality of service rendered?	17.4	81.4	1.2

The above figures show the strong position of the United Shoe Machinery Company of Canada with its customers. The Canadian canvass was undertaken after a decision of the Canadian board of investigation, which had judged the United Shoe Machinery Company of Canada a combination in restraint of trade, and yet suggested only slight modifications in the less serious.

The Canadian shoe manufacturers, being practically under the protection of the Government, were therefore free to express their dissatisfaction with the Company's methods, if they so desired. That there was an insignificant amount of complaint indicates that, if all shoe manufacturers could be heard from, there would be no important change in the figures. In this canvass, no manufacturer was visited by practically any influence brought to bear in any way on the character of the replies. The only source was to get the fullest possible number of replies, which would be absolutely independent in their expression of opinion.

It takes three seconds for a cable message to cross the Atlantic. Cable costs about \$200 a mile to lay, and the total amount existing at the bottom of the sea represents a value of \$250,000,000.

SERIOUS BLAME FOR MAYFLOWER WRECK

Nine Lives Sacrificed Because Regulations Were Grossly Disregarded.

OTTAWA, Feb. 6.—(Can. Press.)—R. A. Pringle, K.C. the commissioner who investigated the Mayflower wreck near Barry's Bay, in which nine lives were lost on Nov. 12, today presented his report to the minister of marine. It was tabled in parliament this afternoon. The findings show gross negligence and infringement of the Shipping Act on the part of the vessel's owners, Hudson Bros. of Combermere, one of whom went down with the vessel. The cause of the wreck was parting of seams due to heavy strain from the machinery. The timbers were sound, but alterations on the vessel had weakened her. The Mayflower sailed for a whole season without a certificate, and without a qualified captain, in face of repeated warnings from Mr. R. Davis of Kingston, inspector of hulls.

Inspector Lax? Knowing the facts, Commissioner Pringle finds that Davis should have taken steps to seize and detain the vessel. Davis took the ground that this was the duty of the customs department, but Mr. Pringle holds that he should have informed the customs department of the gross violation of the law. Hudson, the owner, is severely censured for sailing without a lifeboat, which had been damaged the day before the accident and left behind. With the lifeboat all on board might have been saved. The crew was found to be in a competent condition at the time of the accident.

Commissioner Pringle recommends that the marine department appoint a special official to see that no vessel not complying with the Shipping Act is allowed to ply in Canadian waters.

Cost of Filtration. Figures issued at the city hall yesterday, indicated the efficiency of the filtration plant, the percentage of bacteria removed averaging 90 per cent. The cost of running the filtration plant was shown to be \$1.80 exclusive of pumping, contrasted with \$3.70 for mechanical filtration. It is considered certain that Commissioner Harris will probably favor mechanical filtration, but not on account of the cost of operation.

WATTS' INDEPENDENT COUNSEL FOR SCHOOL CONTRACT PROBE

Trustee Fairbairn Objects to Alleged Political Affiliations of Geary, Doughty and Armstrong — School Age and Split First Book Time.

Trustee Fairbairn threw a bomb at the board of education meeting last night. He called attention to the fact that the investigation before Judge Winchester into school contracts had been at a standstill for over a year.

Trustee McTaggart said that Judge Winchester had informed him that he would be ready to resume the investigation on Feb. 15. The trustee had been unavailable, as Judge Winchester had not had time to go on with it until about a month ago, and it was adjourned then owing to the change in the board's solicitor.

Trustee Fairbairn said that he was glad to learn a date had been fixed for the resumption of the investigation, but he considered it was to be done in a way that would require independent counsel. He strongly objected to the political relationship of G. R. Geary, plumbing inspector of the board, and Mr. Armstrong, plumbing contractor, and Mr. Geary was president of the Central Conservative Association. Mr. Armstrong was president of Ward One Conservative Association and Mr. Armstrong was president of Ward 4. That they were in close relationship politically was shown by the sequel to the Central Conservative Association elections, when Mr. Armstrong was defeated for president. After the election the trustees held a meeting, at which Mr. Armstrong was chairman of committee, and he was supported by G. R. Geary. It would therefore give no ground for the board of control to be requested to employ special counsel to carry on the investigation.

CLARA BUTT SANG IN CHARMING WAY ST. THOMAS FIRE

With Her Husband, Kennerley Rumford, She Repeated First Success. Business Area Saved After Five Hours' Battle in Cutting Wind and Zero Weather.

ST. THOMAS, Feb. 6.—(Special).—The heart of the business centre of St. Thomas was saved today from destruction by fire by the determined efforts of the fire department, assisted by a citizens' brigade, including mercantile bankers, managers and real estate men, all of whom worked five hours in a cutting north wind at zero weather, to prevent the fire from spreading east of the Baldwin Robinson store, which is situated on the south side of Talbot street, almost opposite the St. Thomas Daily Times office. The loss is estimated at about \$100,000.

Shortly after the store was opened for business this morning dense volumes of smoke swept up from the basement. The employees saved only part of the firm's books, and fled to the street. The store, three storeys high, filled with furniture, pianos, burned fiercely, and the flames and smoke prevented the firemen from entering the building. Two who ventured in with the hose were overcome and had to be carried out.

At one time it was feared nothing could save the adjoining building to the east, including the jewelry store of C. H. Hepinstall, and the new Merchants Bank. The valuable stock of Hepinstall was removed to safety vaults. The store and bank, also Dr. Kamis' surgery, on the west side of the fire, were badly damaged by smoke and water.

Harvest Losses.
The loss on building and stock of Baldwin & Robinson was over \$60,000, covered by \$35,000 insurance, all in English companies, including Atlas, Hartford, Royal, Yorkshire, National and British America. The firm will start again in business. The Anderson Co. limited, to prevent the dense smoke from entering their store, covered all their windows on Hicks street with blankets.

The citizens all realize today that the fire protection in St. Thomas is far from being adequate, and steps will be taken at once to increase the equipment, including a stand-pipe, a powerful fire engine to re-entire the water pressure, and an auxiliary fire hall in the east end.

The lower house at Highgate, which operates the M. C. R. and P. M. R. safety gates, was destroyed by fire yesterday.

AMERICANS MUST PAY HIGH FEES TO PROTECT CANADIANS

Holstein-Friesian Association Raised the Prices of Import Certificates.

No Trust or Combine is Wanted, But Only Better Cattle.

Owing to the refusal of the American Holstein-Friesian Association to enter into a pact with the Canadian Association for the reciprocal interchange of stock records and registrations, the Canadians retaliated yesterday when they passed a resolution raising the import certificate fees from \$15 and \$5, to \$25 and \$10 on males and females respectively.

Almost all the Holsteins imported into Canada come from the United States, and on account of this the Canadian breeders for a number of years have been trying to arrange for reciprocity in records. The Dominion Government, in an effort to encourage the Canadian breeders, has been letting in pure bred stock duty free, provided that the animals are recorded in the herd book after they have arrived. The cost of these certificates has been \$10 and \$5, and the city thus escaped has been 30 per cent. The new price for certificates will be \$25 and \$10.

Some of the members of the Canadian Association claim that no "retaliation" was responsible for the raising of the certificates. But this claim cannot stand in light of the fact that Dr. Farewell of Oshawa moved that the fees should be raised to \$25 and \$10 to protect the Canadian breeders.

Wants No Trust.
P. W. Ellis opposed the higher schedule very strongly. "If the raising of the fees is to keep up the standard of our stock then it is good," he said, "but if it is to protect the trade, the fee is too big to be turned into a trust or combine."

D. C. Platt claimed that the American market was closed tight against Canadians, as it cost from \$30 to \$60 to have Canadian bred stock registered in the United States. He wanted to get even with his hard.

No Animosity.
R. F. Hicks explained that if the fees were raised to \$10 and \$5, the Canadian buyers pay the cattle duty of 30 per cent. instead and none could prevent them from registering animals in the Canadian herd book. He claimed that the purpose for raising the fees was to exclude poorly bred animals. There was, he said, no spirit of animosity.

It was reported that in the last year 23 bulls had been imported from the United States. Some of these cost as much as \$1000.

TWO WORKMEN WERE BURIED BENEATH TONS OF EARTH

Working on St. Clair Avenue Fill Thirty Feet Below the Surface When the Earth Caved in on Them—Italians Were So Badly Injured That Their Recovery Is Very Doubtful.

Caught by a landslide while working below the surface of the earth in the new fill for the St. Clair avenue bridge, two Italians were seriously injured yesterday afternoon that one of them is not expected to recover. Comrades worked madly to free the unfortunate fellows, who were almost buried beneath tons of dirt.

After a desperate fight the rescuers succeeded in freeing St. Pedro. It was some time later, however, before C. Suttro could be raised from the hole. He was unconscious, and had both legs broken, as well as being severely crushed. Pedro was found to be suffering from a fracture of the right leg and minor injuries.

Both men were rushed to the Western Hospital, where the staff was in waiting. It is thought that Pedro has a fair chance of recovery, but Suttro's life is despaired of.

The city work's department is removing the old embankment on St. Clair avenue, just west of Bazaar, to make way for the new bridge.

A gang of Italians were engaged piling dirt, the clay in the fill about 30 feet below the surface.

About 3 o'clock yesterday afternoon, while several men were in the hole, one side of the trench caved in for a distance of fifty feet, and the earth fell on the men.

The mass of dirt, weighing many tons, fell right on top of the men below. Some of the workers were struck with lumps and stones, thus receiving minor injuries.

Pedro and Suttro were unable to escape. They were buried. The foremen who rushed all the men to the surface, and with their own hands and other appliances they worked frantically to free the two imprisoned men before they died of asphyxiation. Fortunately the Italians were able to breathe, but when taken out they were both unconscious.

Engineer G. G. Powell, who is in charge of the work, had received an official report of the accident when the World called on him last night.

CHAIR WAS GIVEN TO FORMER REEVE

Handsome Present For John T. Watson From County Officials.

FINE SPEECHES MADE Third Presentation of Similar Kind in History of the Township.

A banquet was held at McFarlane's Hotel, Jarvis street, last night in honor of ex-Reeve John T. Watson of York Township. Ex-Reeve Henry Duncan, George Syme, ex-Reeve and George S. Henry were present besides those mentioned.

Deputy Reeves Thomas Griffith, Fred Miller, John Buchanan and Councilor W. Graham, W. J. Syme, clerk, W. J. Douglas, treasurer; Frank Barber, engineer; Messrs. Spence and Starr, solicitors; A. Snider, road commissioner; ex-Deputy Reeve Robert Barker; Assessors C. McDonald and J. J. McBeth.

After partaking of a sumptuous repast the toast to the King was duly honored and to Canada was responded to by ex-Reeve Duncan and Syme, as well as by Solicitor Spence, the former giving some reminiscences of their respective days of long service, while the latter gave a splendid address on the progress and development of the Dominion of Canada.

This being followed by a eulogistic speech by ex-Reeve Henry Duncan, in favor of his predecessors, he called upon ex-Reeve George S. Henry to make a presentation on behalf of the council and the officials, and in another flattering speech he presented ex-Reeve John T. Watson with a handsome easy chair.

In accepting the presentation, Mr. Watson wished he had the gift of speech-making to enable him to express his feelings in a proper way. However, he accepted the spontaneous gift in the following words:

"The municipal institutions" were responded to by the rest of the guests. Mr. Watson stated that this is the third presentation in the history of the Township of York. Some 28 years ago a presentation was made to ex-Reeve H. J. Duncan and a few years ago to ex-Reeve George S. Henry.

BADLY CRUSHED IN AN ELEVATOR

James Lemon, a Western Farmer, Probably Fatally Injured.

HE FELL INTO THE CAR Attempted to Go to Next Floor After the Gates Were Closed.

In attempting to enter the elevator car at the Walker House last night while it was in motion, James Lemon, aged about 43, a wealthy farmer on Weyburn, Sask., received serious injuries which may prove fatal.

James was crushed between the jam of the elevator door on the third floor and the carriage gate on the second floor.

Lemon came to Toronto some days ago and registered at the Iroquois Hotel. He had left his family at Markdale, while he visited this city yesterday.

Last night he attended the theatre with a party, including Thomas Merrett of Yorkville, who was in the car at the time. The car was closing the gates when Lemon was pushed back and fell into the car. Before the power could be shut off his abdomen was jammed between the aperture of the third floor and the flooring of the carriage.

Fireman Called.
It proved almost impossible to lower the car without allowing the unfortunate man to enable him to get out. The elevator could not be moved upwards or downwards but was held in its position.

The fire department was notified. The operator despatched Capt. Corbett with the aerial truck, which carries all rescue appliances, to the hotel.

But by the aid of the ladder the hotel employees and other willing workers had succeeded in freeing Lemon.

Drs. Rice and Riordan promptly responded to the call sent them. Dr. Burnham, who was staying at the hotel, also assisted. Lemon was found to be suffering from a rupture of the stomach and other slight injuries.

Mr. G. Wright, proprietor of the Walker House, assured the World that the elevator boy was in no way to blame for the accident.

ELLIOTT SAYS PREMIER GAVE TAX REFORM A BLACK EYE

Liberal Member For West Middlesex Expressed Regret That the Government Has Not Acted on the Will of the People by Providing For Assessment Reform.

After attacking the government, particularly Sir James Whitney, because of the opposition to tax reform, J. C. Elliott, ex-Liberal member for West Middlesex, in the legislature last night moved an amendment to the motion favoring the adoption of the speech from the throne, to the effect that the house regretted the government had not acted upon the will of the people in revising the Assessment Act.

Mr. Elliott spoke in the assembly because of the opposition to tax reform. He claimed that the purpose for raising the fees was to exclude poorly bred animals. There was, he said, no spirit of animosity.

It was reported that in the last year 23 bulls had been imported from the United States. Some of these cost as much as \$1000.

ESSEX'S MAYOR IS FIRE HERO

Dr. Bowie and Dr. Brien Caught Two Children Thrown From Window.

WINDSOR, Ont., Feb. 6.—(Can. Press).—Dr. Bowie, mayor of Essex, was the hero of a fire which for a time threatened to destroy that town at an early hour today. Dr. Bowie was awakened shortly after midnight by the cracking of flames. Rushing from his house in the zero weather, clad only in his pyjamas, he found the home of Mrs. Wall on fire. He rushed to the scene, and with his own hands and other appliances they worked frantically to free the two imprisoned men before they died of asphyxiation. Fortunately the Italians were able to breathe, but when taken out they were both unconscious.

Engineer G. G. Powell, who is in charge of the work, had received an official report of the accident when the World called on him last night.

TWO NEW THEATRES FOR TORONTO

Continued From Page 1.

The Yonge street building is waiting to be demolished. The Yonge Street House will have a floor area for the theatre, and a balcony in Toronto, the auditorium being 100 feet wide and the building 152 feet long. Seventy-five feet is the greatest width in any city theatre. There will be but one gallery. A feature of the theatre, novel in Toronto, is the long lobby, or entrance from Yonge street, in it enough people to nearly fill the theatre, and the lobby will be able to hold an audience is filing out into Victoria st. or thru the exits that will surround the house on every side. The lane along Massey Hall runs to the rear of the house and there are lanes both north and south of the site. Nearly every street car line runs within a block of the location.

Will Have Roof Garden.
There will be a roof garden on the house, with elevator connections, and constructed on the same lines as that in the new American Theatre in New York.

The site was purchased thru R. B. Board and the deal engineered by James Bicknell, K.C. In the company that will build the theatre Marcus Loew takes \$100,000 of the stock, Senator Cox of Cincinnati \$50,000 and Jos. Rybock of the Shubert Syndicate \$50,000. Local men will also participate in the financial part.

The College street land will cost about \$150,000, and while a big house will go up on it, the details are not yet ready.

Shea Going Ahead.
Shea people have their contractor in town preparing to build the hippodrome on Teraulay st. It was said yesterday that a dispute over narrow strip of land at the north of the site was holding back the commencement of operations.

The Miles theatrical people, who tied up the site for the College street theatre on Temperance street, have dropped their project along with their option money.

Many Friends Attended the Funeral Yesterday Afternoon at Grace Miller.

Josephine, Louise, Arthur, and Little Busters; Arthur, Louise, and Ralph Ruckliff, and George McFarlane, were especially well received, and Eugene Cowles scored a decided hit in his singing of "For He's an Englishman."

The same piece was presented with similar success at yesterday's matinee.

Indigestion for 2 Years

People seem to realize that indigestion is a disease of the stomach rather than of the stomach. Dr. Chase's Kidney-Liver Pills are the most effective treatment obtainable for chronic indigestion, because they cleanse the action of the liver and sweep the foul impurities from the system, and set the whole digestive system in perfect working order.

My husband suffered with indigestion for two years. We tried these different doctors, but they did not succeed. My husband very much. As he was getting very much worse, I began using Dr. Chase's Kidney-Liver Pills for the cure. My husband's indigestion was cured. My husband's indigestion was cured. My husband's indigestion was cured.

James Hales President

James Hales, barrister, was elected president of the British Welcome League by acclamation at the annual meeting held yesterday afternoon at the Royal Alexandra Hotel. MIDLAND ARE THE GROUP WINNERS PADDLERS BEATEN IN OVERTIME

T. C. C. Had Better of Play After Half-Time—Midland Tied Up Just Before Time Was Up on Lucky Shot.

By Lew Brown. ORILLIA, Feb. 6.—(Special Correspondence.)—Midland won their district here last night by defeating Toronto Canoe Club in the play-off after twenty minutes of over-time by the score of 5 to 3.

As a game full of thrills and hard, fast hockey this exhibition was hard to beat, and both teams put up a game and unflinching struggle from start to finish. The Canoe Club lay their defeat to the fact that their men would not stay on the ice in the final minutes of play.

Both teams turned out in excellent shape as at their last game, and every player was in grand condition. Midland liked the ice. Gooch and Swan were the stars, and their work was brilliant, while Chase and Macey for Midland were the shining lights.

Midland began to lose Luman busy and Waugh skilfully blocked a shot from a face-off. Dopp put one on Scott's pads from centre ice. Time called without a score with the Paddlers decidedly more the aggressive.

Chase got away, but Gooch stopped him. Macey got away and beat the defence. Gooch headed it up a minute later. The crowd were on their feet yelling themselves hoarse and the excitement was intense.

PLAYLOCK BEAT THE REVIVE RINK

C. Snow Won From G. H. Muntz—Trophy Semi-Finals Decided on the Keenest of Ice.

Lakeview and Aberdeens are left to contest the final for the single rink championship of Toronto. The semi-finals were curried last night on ice keen and fast. As Victoria C. Snow of Lakeview defeated G. H. Muntz of Toronto by 15 to 10, while at Queen's City, F. Blaylock of East Toronto knocked out the Revive rink of the Granite Club by 13 to 11.

The Aberdeen curried hard and vigorously, the skip especially performing in championship style. Blaylock's draw in the thirteenth end was brilliant as he added another three and then for five ends it was all Aberdeen. The score counted three singles in a row and reading 3 to 4 at half way. Next Rennie's end was tied. A two for each on alternate ends made it 10 all. Then Blaylock was three up with one end to go. He won the game the 15th by a long and lucky raise to Rennie's shot that looked safe. All the game's action could do was count one, the 16th and the game was over.

On account of the unfavorable weather the inter-rink committee have decided to abandon the inter-rink series and substitute a bonspiel commencing Feb. 10, with the following draw:
Feb. 10—Anderson v. B. Clark, Henderson v. Strickland, J. F. Ross v. Leonard, Perry v. C. D. Clark.
Feb. 11—W. D. Ross v. Laks, Grant v. MacArthur, Tait v. McMurtry, Muntz v. Biggar.
Feb. 12—Gallagher v. Gray, Wallace v. Taylor, Lightbourne v. Wetherald, Chapman v. Cronyn.
Feb. 13—Sivona v. Benedict, Jones v. Holland, Walsh v. "Bye", James v. McWhanney.

Montreal Skaters Coming

The Montreal Amateur Athletic Association have entered five skaters in the speed contests at the Arena Monday night. Wheeler, who is the best man from Montreal, is entered in all the events, while Logan will take part in the 100 and 440-yard events and the half-mile. W. S. Jackson will also compete in these events, while D. Drew and H. St. Pierre will enter the half-mile, mile and two-mile events. Two of America's best skaters will arrive on Sunday morning, including "Bobby" McLean, who has been clearing up all the races across the border.

Varsity to Meet O. A. C.

On Saturday at 3 p.m. Varsity will meet O.A.C. at the West End Y.M.C.A. in a swimming, diving, plunging and water polo contest. As the teams are very even in strength this year the contest will be interesting and spectacular. Events: (1) 40 yards race, (2) 40 yards on back, (3) 100 yards, (4) 200 yards, (5) plunge for distance, (6) fancy diving off springboard, (7) relay race, (8) water polo.

Rondeau Signs With Detroit

Detroit, Feb. 6.—The signed contract of Catcher Rondeau, a recruit, was received today by the Detroit American League Club. Cobb, Crawford and Dubuc and Catcher Stange have not as yet come to terms with President Navin as to their 1913 stipend. Local players have charged that the four players have agreed among themselves that the club must meet the demands of the quartet before any will sign.

Interassociation Basketball

St. Andrew's intermediates defeated Judan intermediates on the latter's floor by a score of 22 to 24. Half time score was 17 to 13. The game was fast from start to finish, being hampered by the roughness of a couple of Judan players. The winners lined up as follows: Holden, Crampton, McLary, Quinton and Hamilton.

SURPRISES ON CLOSING DAY AT THE HULL ICE MEETING

Henry R., the Favorite, Badly Beaten in Unfinished Race — Lady May in Straight Heats—The Summary.

OTTAWA, Feb. 6.—(Special).—For the wind-up day of the Hull Driving Club's meeting five races were down for decision, the unfinished classified trot and pace, where four horses had won a heat each, was the first race called after the burlesque running race, where three horses were entered and run a mile in about three minutes.

Henry R. was the favorite today in the unfinished, selling for \$20 and the field of Toronto, owned by J. C. Ward yesterday, won handsily, topping the first mile in 2:23 1/2 and the following one with the third race had 17 horses entered. The classification was very poor. For instance, Measur, Burns, formerly owned by Measur, Burns, who could not step miles better than any other horse, but of course, is not the Lady May of old, but she showed evidence of her former speed when straightened, but she was a break and was all but distanced to all appearances, but when she settled she made the other look chumps. She won by herself, the three straight heats in 2:27 1/2, 2:25 1/2, and 2:27 1/2.

The first was a classified trot and pace, with four starters out of eight named. Jonah Man was the favorite and sold for \$20. Oso B. won the first heat in 2:23 1/2, with the Gleaser second, Silver Tail third and Jonah Man fourth. Oso B. won the second heat, Gleaser second and Jonah Man third. Silver Tail was last, winning the race in three straight heats after losing the first two. This gave the Ward and Sheppard stable two firsts and one second in the concluding day of the races. The fifth race was the five-mile race with nine entries, but only four scored for the word. The Liar was barred in the pools and Prince C and Nomi sold equal choices. The Liar was held to 4, while as good as 3 to 1 could be had on Prince C, a good bold going trotter, who won as he pleased, with Nomi second. The Liar third, Undertaker fourth. The footing for the hopped horses was not as good as for the trotters. The time was slow, 12:54. The books lost a lunch book betting race. The attendance was equally as large as on any day with the possible exception of Wednesday, when the free-of-all was the drawing card. This concluded the ice races under the auspices of the Hull Driving Club. The summary follows:

- Classified trot and pace, purse \$300:

MELONS AND WATERED STOCK

What about watered stock? This is the next domestic question that confronts the Borden Government.

The second big domestic question to turn up is that of watered stock. We know what the Canadian Pacific Railway Company has done in this line...

And a still more immediate case is that of the Richelieu and Ontario Navigation Company, operated by Sir Rodolphe Forget...

What The World would like to see in connection with all new stock and bond issues made by public service companies in Canada is a procedure such as that explained by the commission...

NEW CITY GOVERNMENT. This North American continent has become more than ever discontented with the character of its civic government.

We do not see how Mr. Tom White, the minister of finance, can stand before the public as an up-to-date minister and permit these financial abuses...

CIVIC BUSINESS MANAGER. Fort William has taken the most business step of deciding to appoint a business manager for the city.

LAND TAX REFORM.

Mr. A. H. Musgrove, North Huron, made an excellent speech in the debate on the address in the legislature yesterday.

Mr. Musgrove applied himself especially to repudiating the imputation that Sir James Whitney had compelled the acquiescence of the assessment committee in reporting adversely on the tax reform bills introduced last session.

Mr. Musgrove repudiated entirely the slur thrown broadcast on those who had not good buildings on their farms as being necessarily slothful, indifferent or careless.

Under the land tax Mr. Musgrove figured that the tax rate would be raised from 24 to 28 mills, and the poor man would have to pay \$20 more, while the rich man would have to pay \$17.80 less.

RECRUITING IS COMING. WARNING OF BOURASSA

British Navy Is More in Need of Men Than Ships, He Says.

MONTREAL, Feb. 6.—That the British admiralty is more in need of men than battleships, and that the Borden Dreadnought proposal is only a first step towards the recruiting in Canada of men for the English navy, such is the affirmation made by Henri Bourassa in Le Devoir today.

NEW CONSUL AT COOKSHIRE, QUEBEC. ST. PAUL, Feb. 6.—(Can. Press.)—A. L. Woodbridge, a local newspaper man, is to take the position of consul agent at Cookshire, Que., filling a vacancy caused by the recent death of W. P. Given.

THE STAMP OF PUBLIC APPROVAL

PUBLIC approval of the light beer is most emphatic.

The Philosopher of Folly

NIGHT THOUGHTS. The wind blows chill o'er dale and hill, o'er mountain, lake and river, and as we doze on us it blows, whereat we shake and shiver; yet when in bed how much we dread to draw our forms from under the blankets warm to face the storm—and close the sash, by thunder, we hark to rise for fresh supplies to keep ourselves from freezing as fore and aft a zero draught blows in and sets us sneezing; we lie in pain and wish in vain the chillsome night would end; the wee small hours by magic powers to seem freeze extended; we fret and freeze beneath the covers which colder grows and colder it stings and unites and numbs and bites our forms from heel to toe.

shoulder, our limbs it rakes until with aches our minds grow dull and hazy; to mind a dash and close, the sash seems absolutely crazy. To do this thing we cannot bring ourselves by force of reason; the awful chill incites our will to fling the sash away in a trance we watch the dance the window-shade is doing, we shiver, shake and quail and quake, our want of courage ruing. We've sometimes heard of that rare bird who can from slumber waken and in one dash can close the window shade, we have always taken a cautious view—it may be true, but we are from Missouri. He does not rise; we know he lies and freezes like there like fury. Yet if there can be such a man, who, finding it grow chilly, can force his feet their way to beat to windward willy-nilly, who back to bed can slowly tread with elbow steady akimbo, we rise to say that such a jay the state should put in limbo.

ROBT. GLOCKLING DEAD. Well-Known Toronto Labor Man Passed Away at Indianapolis.

Robert Glockling, president of the International Union of Bookbinders, passed away at Indianapolis, after a short illness. Mr. Glockling was prominent in labor circles. He took important parts in several strikes and was recognized as one of the labor leaders of the country. He held various positions in trades unions and was president of the Trades Council. For several years he was secretary of the Ontario Labor Bureau, being the first official when that position was created by the Ontario Government. He resigned to take the presidency of the International union.

A number of relatives live in Toronto, including his brother, Wm. Glockling.

SWEPT OVER DAM TO DEATH. TRENTON, Feb. 6.—Fred Smith, carpenter in the employ of the Ambursen Hydraulic Construction Company, of Montreal, who was constructing a dam for Miller Bros. at Glen Miller, was drowned there this afternoon. He was on a crib hanging by a cable, when the cable gave way and he went over the dam, and was carried down in the rapids and disappeared under the ice.

NOTORIOUS "JACK" ROSE IS DECLARED BANKRUPT. NEW YORK, Feb. 6.—(Can. Press.)—"Jack" Rose, the former gambler and police informer whose testimony played so important a part in the conviction of Charles Becker, former police lieutenant, and the four gunmen for the murder of Herman Rosenthal, today appeared before a referee in Long Island City for examination in his bankruptcy petition, in which he declared that he is without funds and owes more than \$12,000. The twenty claims against him, Rose said, were for money borrowed, clothing and jewelry, and for medical services.

When none of the creditors appeared the referee ordered Rose's attorney to ask the court to declare him a bankrupt. Hearing on this petition probably will be held tomorrow.

Rose gave his address as Long Island City, and his present business that of promoter.

NOTORIOUS "JACK" ROSE IS DECLARED BANKRUPT

NEW YORK, Feb. 6.—(Can. Press.)—"Jack" Rose, the former gambler and police informer whose testimony played so important a part in the conviction of Charles Becker, former police lieutenant, and the four gunmen for the murder of Herman Rosenthal, today appeared before a referee in Long Island City for examination in his bankruptcy petition, in which he declared that he is without funds and owes more than \$12,000.

The twenty claims against him, Rose said, were for money borrowed, clothing and jewelry, and for medical services.

When none of the creditors appeared the referee ordered Rose's attorney to ask the court to declare him a bankrupt. Hearing on this petition probably will be held tomorrow.

Rose gave his address as Long Island City, and his present business that of promoter.

HAS FORGOT RIGHT TO EVADE COURT?

Point as to Whether M.P. Is Privileged During Session Is Raised.

MONTREAL, Feb. 6.—(Can. Press.)—The rights and privileges of a member of the Dominion Parliament were raised this morning in the course of an argument before Justice Beaudin in the practice court.

A long series of motions was before the court arising out of the proceedings taken against the shareholders of the Banque Internationale by Sir Rodolphe Forget, M.P.

The proceedings are to recover certain sums of money claimed by Sir Rodolphe on behalf of his Paris brokerage office, and being due to him on stock exchange speculations.

Mr. Genest, who represented Sir Rodolphe, brought up the question of the right of his client to his own witness in cases in which he was personally interested.

Mr. Genest contended that Sir Rodolphe had such a right, and that his client was being denied his feet with a query whether Sir Rodolphe was prepared to give evidence before the court as a member of parliament.

It was asked if he would be willing to appear, and counsel agreed on this course.

Arguments on 16 motions for particulars occupied the attention of the court for a considerable time. The petitioners—who are shareholders of the Banque Internationale, against whom Sir Rodolphe has taken action—ask that full details be given of the alleged indebtedness. The motions were all taken on delibere.

Judgment was also rendered in five other similar cases, ordering the required particulars to be furnished.

TWO INDIANS BADLY HURT. Fell from Building Under Construction at Kingston.

TUBERCULOSIS SERUM BROUGHT FROM GERMANY

First of Widely Discussed Friedmann Culture Now in United States.

NEW YORK, Feb. 6.—(Can. Press.)—Hurrying homeward from abroad with tuberculosis serum in his possession that he says is the first of the widely discussed Friedmann culture to be brought to this country, Dr. Austin D. Foster, a physician of Pittsburg, arrived on the steamship Potsdam from Europe today, and at once took a train for his home, where his wife, a consumptive, awaits the arrival of what Dr. Held believes will be a cure for her. Dr. Held has enough bacilli

only for one patient, he declared. That patient will be his wife.

Dr. Held was met at quarantine by Dr. Milton H. Foster, of the Ellis Island Health Service, and questioned in behalf of the U.S. government about the Friedmann cure. Dr. Held told Dr. Foster he had been convinced of the efficacy of the cure, and had obtained from Dr. Friedmann just enough serum to treat a patient suffering from tuberculosis of the bone.

Dr. Friedrich Franz Friedmann, the German scientist who discovered the serum last month, was offered \$1,000,000 by Charles E. Finlay, a banker of this city, if he would cure

Many parents think lightly of whooping cough, and treat it as a necessary evil, not giving the child who has it any special attention.

The seriousness of whooping cough was emphasized by the Medical Health Officer in Toronto a few months ago, when he reported 14 deaths during the month from whooping cough, and only ten from scarlet fever, typhoid fever, and measles combined.

WIFE DESERTION FAR TOO COMMON

Drink Also Doing Its Terrible Work, Say City Missionaries.

The monthly meeting of the Toronto City Mission Board was held in the board room of the Upper Canada Trust Society yesterday afternoon. Vice-president C. Med. Hay presided. There was a good attendance, and the reports were full of interest.

The three missionaries have been kept busy since the year-end in systematic house to house visiting in the worst parts of the city, and have met with a number of very sad cases. Their first work is to tell of Christ, and to show the care and love of Christians toward the suffering and unfortunate. Nearly 700 families were visited and 40 applications for aid were investigated and 45 received the necessary assistance in food, fuel and clothing, according to their needs. The total amount expended during January from the relief fund was \$102.25. Several cases of fraud were also detected. The assistance was also given the Smith family on Adelaide avenue since the father was killed on the railway a week ago. Drink is doing its terrible work, and wife desertion is far too common.

The jail continues to be as crowded as ever. The jail farm has given no relief. Fourteen services were held there during the month. Rev. Robert Hall has been instructed to be on the outlook for another missionary to assist him in the growing work.

Mr. H. L. Stark, treasurer, presented his report and showed \$220 due the treasurer.

GOTHAM REVELS IN PLETHORA OF EGGS

NEW YORK, Feb. 6.—(Can. Press).—Eggs, always a favorite article of food during Lent, promise to be unusually plentiful and cheap during the Lenten season now beginning, according to a statement by the New York Mercantile Exchange today.

"Because of the unprecedentedly mild weather the production of new eggs is above the usual volume for this early season," says the statement. "and prime fresh eggs are quoted today in the wholesale market at 28 to 26 1/2 cents per dozen, as compared with 38 to 39 cents on the same day last year, showing a saving to the consumer of 12 to 13 cents a dozen in this important commodity.

"Meanwhile considerable supplies of refrigerator eggs remain in storage, sufficient, probably, to supply the market at very moderate prices. Here again the housewife will find a great saving in comparison with the prices of last year."

"Those born today will be great patriots socially and owing to this, will be less patient with their slow progress in the business world. Success is indicated after many vicissitudes.

WATERLOO FEARS A COAL FAMINE

With Little Fuel Stored in Local Sheds, Embargo Is Serious.

WATERLOO, Feb. 6.—If the embargo placed by the G.T.R. on dead freight via the Niagara frontier lasts for any length of time Waterloo coal dealers will soon be wearing an anxious look. All fall and winter one

or two cars at a time have been all they have been able to receive, and they have now very little in their sheds, and are relying on their few cars a week which they receive and unload off the team tracks to keep them going.

If the embargo lasts many days, with the thermometer down as it is at present, the situation will become serious indeed.

GALT'S SUPERIOR WISDOM. GALT, Feb. 6.—(Special).—Recognizing the inadvisability of issuing 4 per cent debentures, Galt early last year raised the interest of all its issues to 4 1/2 per cent, and had no trouble in disposing of them at par.

Fuel for the human engine should be free from clinkers. You cannot "get up steam" in winter on an impoverished food. Bodily warmth and vigor come from a food that is rich in blood-making, muscle-making material.

SHREDED WHEAT

is all fuel-food—no waste, no indigestible material to clog the system and tax the vitality.

Heat the Biscuit in oven to restore crispness, then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Two Shredded Wheat Biscuits with hot milk will supply all the strength needed for a half day's work or play. It is also delicious and wholesome in combination with baked apples or stewed fruits.

MAIL CONTRACT

SEALED TENDERS addressed to the Postmaster-General will be received at Ottawa until noon on Friday, the 14th March, 1913, for the conveyance of His Majesty's Mails on a proposed contract for four years six months per week over Rural Mail Route from Alton, Ontario, to the Postmaster-General's pleasure.

LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, Feb. 6.—The easier American cables yesterday were offset by the disappointing rainfall in India and shorts covered, which resulted in an opening advance. Advices from Russia are unfavorable to wheat, consequently no business was done. The local trade in coarse grains was quiet. Demand for flour fair from local buyers and some sales of small lots were made over the cable. Millfed is unchanged. Demand for better variety heavy flour exports of wheat for week 4515, as against 2142 last year. Eggs fairly active. Provisions firm.

MONTREAL GRAIN AND PRODUCE

MONTREAL, Feb. 6.—There was a good enquiry from foreign buyers for flour, but the market was not very active. The statement concludes that as the result of this success of the Bulgarian troops, nearly the whole coast of the Sea of Marmora as far as Bulair is now in the hands of the Balkan allies.

Executors and Trustee Under Will
ONE of the most important features of any will is the appoint-
ment of the executor. It is becoming generally recognized
that to ensure the fullest possible service in the care of an estate,
it is well to appoint a Trust Company as "Executor and Trustee
under Will."

**MORE CONFIDENT
TONE IN EFFECT**

Toronto Stock Market Devel-
oped a Firmer Feeling on
General Principles.

SOME ISSUES WEAKER

Another Sharp Break in Pack-
ers—Brazilian Held Within
Very Narrow Range.

A more confident feeling was ap-
parent in the Toronto Stock Exchange
yesterday, and, with sustained buying
demand for the leading issues in ef-
fect, values gradually improved their
position. Traders had very little on
which to base an opinion, the trend of
European news being absolutely un-
changed, while Wall Street afforded no
feature whatever.

A recovery of over a point in Cana-
dian Pacific, which sold up to 238 1/2
in New York, was the leading feature
of the day. There was active trading
in the rights here, with the price
steady around 16. Many shareholders
are evidently not in a position to il-
lustrate the taking up of the new stock,
a fact which the continued tightness
in the money market would tend to
corroborate. Meanwhile, there has
been some selling of oil stock against
the purchase of rights, the margin
of profit afforded thereby is not large.

Brazilian held within a very narrow
range for the day, the price at no time
getting below 97 1/2 or above 98. The
close at the latter figure left a net ad-
vance of just a quarter of a point for
the day. Announcement that the com-
pany did not have a new stock issue
in prospect had no effect on senti-
ment, for the report had not been
credited in well-informed circles any-
way. Weakness in such stocks as
Toronto Railway, which sold off to
close at its lowest in about a month, B.
C. Packers, which slumped heavily
again, when real selling was attempt-
ed, and Steel Co. of Canada, which
was off to a new low record in years,
at 25 1/2, was not viewed with much in-
terest, as the downward disposition
was not general. Twin City was
strong, with the price up to 106 1/2.

The investment stocks were more
quiet than they have been of late. Im-
perial Bank gained a couple of points
at 222 1/2, thus making up its recent
loss. It opened the month at 223.
Dominion was a shade lower, and Can-
ada Permanent was about a point off
on profit-taking sales.

**HEAVY FIRE LOSS
DURING JANUARY**

Toll of Fire Fiend Only Surpassed
Twice in Twenty-Four
Months.

The Monetary Times estimate of
Canada's fire loss during January
amounted to \$3,913,385, compared with
December loss of \$1,769,905, and \$3,
002,850 for the corresponding period
of last year. The following is the es-
timate of January losses:

Fires exceeding \$10,000	\$1,921,508
Under \$10,000	1,991,877
Estimated unreported	1,481,438
Total	5,394,823
Estimated unreported	510,441
Total	\$3,913,385

This loss has only been exceeded
twice during the last two years, viz.,
in July, 1911, when the Porcupine con-
flagration increased the loss to \$5,
384,200, and in June, 1912, when the
destructive Chicomilti blaze sent the
total for that month up to \$4,329,412.

**BOND SALES FELL
BELOW FORMER RECORD**

The municipal bond sales in Cana-
da for January, as compiled by The
Monetary Times, amounted to \$1,237,
500, compared with \$491,590 for De-
cember, and \$2,138,531 for the cor-
responding period last year.

The following are the particulars
by provinces:

Alberta	\$975,000
Ontario	\$21,000
Saskatchewan	123,500
Nova Scotia	8,000
Total	\$1,237,500

**BRAZILIAN EARNINGS

**MILLIONS MORE FOR
THE MILLIONAIRES**

Big Men in Standard Oil Co.
Reap Fortunes as Result of
Recent Juicy "Melon."

Standard Oil shareholders have been
taken care of since the dissolution of
the trust by the supreme court of the
United States. The extra cash divi-
dend of \$40, declared by the New
Jersey company this week, for in-
stance, was equal in itself to the reg-
ular annual disbursements on the
stock of the old company prior to the
splitting up. In 1912 the payments
amounted to \$20.

Some of the largest holders of
Standard Oil of New Jersey stock will
reap fortunes from the forthcoming
extra distribution. In 1907, John D.
Rockefeller was the largest stockhold-
er, with 2,062,829 shares. The estate of
Charles Pratt was second with 523,000
shares. C. W. Harkness third with
424,000 shares. Oliver Payne ranked
next with 30,500. William Rockefeller held
11,700 shares. There may have been
some changes in their holdings
since then, but based on the 1907 re-
cord, they would receive cash from the
\$40 disbursement as follows:

John D. Rockefeller	\$8,907,680
Charles Pratt	2,112,000
C. W. Harkness	1,692,000
Oliver Payne	1,220,000
Henry M. Flagler	1,220,000
W. L. Eskew	610,000
L. V. Harkness	524,000
William Rockefeller	117,000
Total	468,000

**BANK OF ENGLAND
RESERVE INCREASED**

Minimum Discount Rate Held Un-
changed at Five Per
Cent.

LONDON, Feb. 6.—The rate of dis-
count of the Bank of England re-
mained unchanged at 5 per cent today.

The weekly statement of the bank
shows the following changes:

Total reserves	decreased \$501,000
Circulation	increased \$291,000
Gold	decreased \$210,198
Other securities	decreased \$257,000
Public deposits	increased \$1,783,000
Notes	decreased \$2,347,000
Government securities	unchanged
Bank's reserve to liability	47.02 per cent; last week it was 47.43 per cent.

**BULLISH ESTIMATES
IN COTTON REDUCED**

Erickson Perkins & Co. (J. G. Beatty)
wired: The local market moved up a
few points today on a small volume of
business. Talk of bullish week-end
figures tomorrow and scattered cov-
ering were responsible for the advance.
The demand continues for the advance.
Whereas last December
bullish enthusiasm was predicting to-
day's exports at \$1,783,000, other
figures, it looks now as they would
drop off to that of 1910-11. We
prefer sales on the bulls.

**COURT MUST APPROVE
SEGREGATION PLAN**

Erickson Perkins & Co. (J. G. Beatty)
wired: The Union Pacific segregation
plan to be presented to the court, but
it must be approved by the United
States district court, which, perhaps,
accounts for the lack of demonstra-
tion in the market. It cannot be as-
sumed that the court will favor the
plan. Hence, there may be nothing
of consequence from a market stand-
point for some days, even if it is
construed as a bull point.

**FOREIGN CAPITAL IN
MEXICAN OIL FIELD**

Advices from London, Eng., report
the formation of the Corona Petroleum
Co., which seems to be a subsidiary
organized by the Royal Dutch-Schell
combination, to be formed in Mexico.
The capital is \$5,000,000, and all but
about \$400,000 held in the names of the
directors, has been subscribed by one
of the Royal Dutch-Schell corner firms.
The Royal Dutch-Schell, a combina-
tion of the big Holland and British oil
companies, has been working for some
time to develop the Mexican oil field.
The company's plan is to attack upon the
enemy within its own frontier.

**VIENNA SYNDICATE
HAS "CORNERED" TIN**

According to advices to the tin trade
from New York, the rumored "corner"
in big tin has been practically per-
fected, despite the efforts of the ad-
vanced States Steel Corporation and other
large interests to break the grip of the
corner operators on the supply. The
situation is said to be controlled by a
Vienna syndicate, which has raised
prices by withdrawing heavy supplies
from the market. In London spot tin
is quoted around \$223, which is about
48 under the highest record of last
year.

**NEW YORK MARKET
IN NEED OF TONIC**

Bulls and Bears Are Inclined
to Hold Aloof Awaiting
Developments.

METAL MARKET WEAKER

Copper Stocks Lower on Dis-
couraging Conditions at
Home and Abroad.

NEW YORK, Feb. 6.—The favorite
mediums of speculation, by which stock
conditions are gauged, remained virtu-
ally on a dead level today. Some of
the less active issues moved more wide-
ly, but operations in the stocks which
"make the market" were perfunctory.
Interest lagged and the volume of busi-
ness fell off considerably. Sentiment
was still bearish, but traders on the
short side were held in check by fear
of over-extension of the short interest.
In the opinion of some traders, bear
commitments have reached proportions
which might spell discomfort for the
short interest in the event of the ap-
pearance of bullish factors. Traders on
the long side were disposed to await
developments and the market was al-
lowed to drift.

Coppers Again Weak.

There was some further selling of
coppers, which were heavy through the
day, but losses were only fractional.
The copper group was influenced by a
further break in the metal market in
London, and by reports of substantial
concessions in the domestic market.
The Harriman shares moved in an un-
certain way, being influenced by vary-
ing reports concerning the dissolution.
Expectations of a definite announce-
ment of the dissolution plan were ef-
fective in restricting trading, not only
in Union and Southern Pacific, but in
the market as a whole. Weakness
cropped out among a number of spe-
cifics, Union Bag and Paper prefer-
ence being the most noticeable. In
Pennsylvania, which has been heavy
recently, displayed a better tone.

**BANK CLEARINGS
SHOWED BIG GAINS**

Toronto's Record For Week
Is an Improvement of Seven
Millions Over Last Year.

Bank clearings in Toronto for the
week ended yesterday passed the
forty-five million dollar mark, evi-
dence of a most satisfactory year.
The total for the week was \$45,488,172,
or \$1,770,550 more than the same
week last year, and over seven mil-
lions compared with last year. The
record was set on four days, and in
some time. The detailed figures fol-
low:

This week	\$45,488,172
Last week	\$43,717,622
Last year	\$39,964,521
Two years ago	\$21,783,000
Three years ago	\$20,254,184

OTTAWA, Feb. 6.—Bank clearings
for the week ended today, \$4,274,392, as com-
pared with \$4,515,533 last year.

QUEBEC, Feb. 6.—Bank clearings
for the week ended today, \$3,210,627, cor-
responding week last year, \$2,811,458.

MONTREAL, Feb. 6.—Bank clearings
for week ended today, \$4,932,730; for
same week, 1912, \$4,723,794, and in 1911,
\$4,050,044.

**GILT EDGE STOCKS
LOWER IN LONDON**

Congestion of New Issues Reflec-
ed in Market—C. P. R. Im-
proved Its Position.

LONDON, Feb. 6.—Money was dear-
er and discount rates were firmer in
sympathy today.

The stock market was dull and un-
interesting most of the day, but specu-
lative issues closed a fraction hard-
er. Nigerian tin shares were firm
features. Consols and gilt-edged se-
curities sagged on the congestion of
new issues and the poor bank state-
ment, and copper shares finished weak
in sympathy with the metal.

American securities opened quiet at
irregular price changes, but later in the
forenoon advanced under the lead of
Canadian Pacific. Light realising fol-
lowed and values declined, but New
York supported the list in the late
trading and prices again advanced and
closed firm.

**EXCELLENT MARKET
FOR THE COBALTS**

Silver Issues Show Their Heels
Again—Porcupines Continue
Subject to Profit-Taking.

There was an excellent market for
Cobalts in the mining exchanges yester-
day, the incoming of a renewed
public opinion in some of the silver
issues, resulting in a decidedly firm
undertone in that section of the list.
The movement was reflected by a few
of the more active issues in the
five-and-ten-cent class, and various of
these showed indications of shaking
off their dullness and moving to higher
levels. The porcupines were slightly
reactionary, and more or less under
the influence of profit-taking sales.

City of Cobalt responded to the an-
nouncement that the proposals to in-
crease the capital and to make an
issue of bonds had both been turned
down by the shareholders, and the
stock rose to 40, a net gain of 5 points
for the day, and only a point under the
recent high record. Now that the
royalty has been reduced, it is ex-
pected that the company will be able
to justify its position.

Normal Turn in Market.

Other strong spots in the market
were to be found in such stocks as
Little Nipissing, Great Northern, Har-
graves, Right of Way and Timiskam-
ing. All of these improved their posi-
tion, while Peterson Lake and Bailey
were both very firm at their recent
advances. Kerr Lake sold at \$3.25, up
20 points for the session, and a new
high record for the year. Little Nip-
issing was in strong demand and pro-
ved one of the features.

The Porcupines were active, but on
the whole a shade easier. Declines
were not material, however, and it was
quite evident that the reaction was a
normal one. Porcupine Gold dropped
back to 23, off 1-1/2 for the day, and
a full 3 points under its recent record.
The option in this issue was evidently
greatly overdue. Pearl Lake sold
off to 49 on selling by disappointed
holders, who had anticipated that the
company was going deeper than the
vein at the 600 feet level now. It is,
of course, impossible to more than
estimate when such occurrences may
be expected to occur.

**OPEN FOLEY-O'BRIEN
AFTER SNOW GOES**

Company Will Conduct Aggres-
sive Development Campaign
—Ample Funds on Hand.

At an informal meeting of the direc-
tors of Foley-O'Brien, Ltd., held the
other day, it was decided not to re-
open the company's property in Por-
cupine until after the snow had dis-
appeared. It is anticipated that by
the time the snow is gone, the property
will be cleared up entirely.

The company have ample funds in
the treasury to carry on development
campaign, and will adopt an aggressive
policy. The No. 1 and No. 2 shafts
will be pumped out and the ore bodies,
opened up by J. E. O'Brien and M. L.
Foley, former owners of the property,
prior to the formation of the company,
will be thoroughly examined. No. 1 shaft
is down 76 feet and No. 2 about 165
feet. It was in No. 1 that the high-
grade ore was struck a couple of years
ago.

It is also planned to probe the sou-
thern portion of the company's hold-
ings with diamond drills. The fire of
July, 1911, exposed several promising
veins on the surface at this end of the
group.

**SOLD INTEREST IN
GOWGANDA CLAIMS**

Toronto and Montreal Men Get a
Hundred Thousand Dollars
For Portion of Holdings.

A one-half interest in the two claims
in the Gowganda district, formerly the
property of the Calcutta Lake Mining
Co., which went into liquidation some
time ago, has been sold to Western
Canadian interests by M. L. Foley of
Toronto and J. W. Blanchet of Mont-
real for \$100,000. Announcement of this
effect was made by Mr. Foley last
night.

The Calcutta Lake claims have been
classified among the most promising in
the Gowganda camp. The deepest
shaft on the property is down 275 feet,
and approximately 1600 feet of under-
ground work had been accomplished
when the workings were closed down,
owing to the fact that the company
ran out of funds.

It is probable that a new company
will be formed to develop the prop-
erty. A concentrator is to be instal-
led at once, to work on the large bodies of
low-grade ore now blocked out. It is
estimated that there are around 100,000
tons on the dump which will average
100 ounces of silver to the ton.

The nearest working neighbor to the
Calcutta Lake is the Powerful Mining
Co., controlled by a Montreal syndi-
cate, where high-grade ore is now be-
ing bagged. It is understood that this
ore is fully as rich as any that has
ever come out of Cobalt.

**NEW MCINTYRE MILL
BEGINS OPERATION**

The new mill of the McIntyre Mines,
Limited, in Porcupine, has been com-
pleted and has been put in operation.
It is expected that the output will run
from 70,000 to 80,000 per month at
the start. There is a large quantity
of ore at the mine ready for treat-
ment.

**GREAT NORTHERN
JOINS IN THE MOVE**

Great Northern is the latest Cobalt
to feel the effect of the market im-
provement. Information in connection
with this company is entirely in the
keeping of the directors, who seem to
be working strictly in the interests of
the shareholders. The Great Northern
Company have several holdings, both
in Cobalt and Porcupine, and in ad-
dition, a large interest in diamond
power plants. It has been rumored
recently that one of the Great North-
ern silver properties has proved out-
standingly well, and that a substan-
tial offer has been made to the company
for this claim.

**WINNIPEG LOAN WAS
ALMOST A FAILURE**

London advices state that the un-
derwriters have taken over 75 per
cent of the Winnipeg 4 1/2 per cent
issue at par. In view of the present
congestion of colonial securities in
London, the issues pending and the
failure of the Toronto loan, it is not
a matter for surprise that the public
should not subscribe for more than
25 per cent. The underwriters will
doubtless be able to place the re-
maining privately from time to time.

TURN IN WHEAT ON FIRMER CABLES

Failure of Rains in India Given as Reason for Flurry

CHICAGO, Feb. 6.—Short sellers of wheat were running to cover in the last hour today, defeated by a steady stream of commission house orders on a full scale. Purchasing was based to a considerable degree on unexpected strength in foreign markets. Closing figures here showed an advance of 3-8c to 4-1/8c. Corn wound up with a gain of 1-16 to 7-8c, oats at a rise of 5-8c to 11-1/2c.

Wheat traders generally ascribed the surprising firmness of cable quotations to failure of rains predicted for the United States and India, where the crop has recently been reported as without moisture. Bears, however, did not seem impressed with this reason for the advance, nor with the news from Russia telling of lack of snow in the fall-sown fields. Generally, the United States was argued to be more than offset.

May Wheat Cornered.

When the absorption of pit offerings in futures conditions for the plant in March was declared, the market was in a state of confusion. A buying flurry ensued and the possibility of a crop served as a decided bogen. There was fear also that big concentrated interests here had obtained control of the May option. No signs of a reaction were in sight as the final bell struck.

Corn, the easy at first on account of rain in Argentina, bulged late owing to buying on the part of large owners. There was also a notable purchasing movement in corn by commission houses because of the wide discount under corn and in consequence of primary receipts being lighter than receipts.

There was an active trade in provisions. Hogs appeared to be scarce and led especially in persistent demand.

CHICAGO GOSSIP.	
J. F. Bickel & Co. had the following:	
Wheat—After holding a shade above yesterday's price during the greater part of the session, it firm up in the last hour and closed about 1/4 higher. The advance in corn and oats started shortly covering and this with some scattered commission house buying quickly caused an upturn. We cannot consistently advise purchasers in view of the news and continue to advise sales.	
Naill, Beatty & Co. had the following:	
Wheat—During the morning there was every indication that the local wheat trade was in a rut from which there was no escape without something important in the way of news. Appearance of the news, however, was such that market did get out of the rut the last hour when advance and strongest advance of the week, if not for the month and that, too, without any important news to give the buying its start. New crop months dragged behind all day because the conditions over winter wheat belt are mostly favorable.	
Erickson Perkins & Co. had the following:	
There is no particular change in the situation as we view it, altho the sentiment seems to lean toward the long side of the market.	
Corn—We find no betterment in the	

Leith Serge

At a mid-season like this when the climate is a little of one thing and many a man finds himself perplexed in the choice of a suit.

It is in this predicament that a serge suit may be referred to as the line of least resistance.

The superiority of Leith Serge is an acknowledged fact and combined with the fact, and this and the superiority of the "Broderick Service" are a combination of complete satisfaction.

Winnipeg Grain Market.	
WINNIPEG, Feb. 6.—Prices were strong on the wheat market, altho trading in options was quiet and a very high volume of business transacted. Opening figures were 1/4 higher for both months on stronger Liverpool cables, and reports of severe weather conditions over the U. S. wheat belt. Further advances occurred following the opening, the gain for the day being 1/4 for May and 1/4 for July.	
Cash demand was fair and offerings practically nil. Exporters were buying all they could lay hands on. Prices were 1/4 higher for contract grades, old grades being also on the advance.	
There was a fair demand for oats and prices higher, while flax was quiet and bids weaker.

The Best Time for Ulster Buying

is right now, while prices are being made exceedingly low to clear our stocks of all small lots and broken lines. For immediate wear these warm, woolly ulsters are the lightest and most comfortable of coats. They have the English materials and cut that are most in demand now, and will be the correct thing for next winter as well.

Men's Overcoats and Ulsters

Include many on which we have reduced the price, as they are broken lines from our regular stock. They are absolutely the newest and most up-to-date styles we have shown this season, and have sold in the regular way at \$24.00, \$22.00 and \$20.00. Single-breasted Chesterfield style, with cuffs on sleeves, belted backs and box-pleated backs, self and velvet collars, slash and patch pockets; also single and double-breasted ulsters, with two-way collars; some have linings throughout; some fancy plaid backs, with satin yoke and sleeve linings. Sale price 15.00

Men's Fur Collar Overcoat

Another Reduction on Heavy Coats, made from a splendid English black beaver cloth, in double-breasted style with good linings, with an interlining of chamois, Russian marmot fur collar; a warm coat, neat, is very serviceable. Regular price \$24.00. Sale price 18.00

Worsted Trousers, neat, attractive, good wearing English trousering, in medium shades of gray, beautifully tailored. Worth \$3.00 and \$3.50. Sale price 2.49

Men's Knit Vests

To Clear Out Our \$2.50, \$2.75 and \$3.00 Scotch All-Wool Knit Vests, browns, grays and green. Sale price 1.98
