HAMILTON HAPPENINGS

LID DOWN ON POOL ROOMS ALDERMEN ARE WARY

One More Application Meets With Stern Rebuff—Inquest on Crossing Victim.

HAMILTON, Feb. 15.—(Special).—Quite a battle raged before the property, harbor and license committee of the city council to-night when the question of granting a pool room license to F. Sackrider, 645 East Barton-street, came up.

J. W. Nesbitt, K.C., who appeared for Sackrider, stated that a large number of business men, close to Sackrider's place, were in favor of the license.

J. Henderson, next door neighbor of the applicant, testified to his own character, but, in spite of this, and Ald. Ryan's eloquent plea that Sackrider was well equipped for missionary work, the committee refused the license by a five to one vote.

Ald. Davey, in speaking against the granting of the license, suggested to the minister that the churches provide some wholesome substitute for pool rooms.

Lawyer Held Ground. The jury, which, under Coroner Hopkins to-night, investigated the cause of the death of Morris Stubnitz, who was killed at the Sherman-avenue crossing of the Grand Trunk last Saturday morning, found that the deceased met his death through lack of warning, owing to the failure of the crossing gates to work and the absence of the crossing watchman from his post of duty at the time of the accident.

The proceedings were enlivened by a verbal passage-at-arms between Coroner Hopkins and James Chisholm, who appeared for the relatives of Stubnitz. The dispute was caused by the lawyer insisting upon asking a question which the coroner declared had been answered, and resulted in Coroner Hopkins ordering Mr. Chisholm from the court room. The latter, however, contended that he had a right to be there, and refused to depart.

According to the local police, the girl in the case which caused the arrest in Toronto yesterday of Julius and Emmanuel Kachrack and John Willis, was taken sick while passing thru this city a week ago and spent several days in the city hospital here, where she was sent on the order of Dr. H. Malen after he had been called to attend her.

Coasting Accident. A broken leg was sustained by Philip Hall, a 12-year-old lad, living at 38 West Plover-street, in a coasting accident on the Simcoe-street hill leading to the bay this evening. Hall was taken to the city hospital. Another

Waterloo Manufacturers. BERLIN, Feb. 15.—(Special).—The Waterloo County Manufacturers' Association will hold a banquet Friday night, which will be a most successful public with such realism, as well as make them laugh with her and weep with her as she chooses, then she is seated upon the pinnacle of the art temple.

Miss Stahl is an ardent student of human nature, an enthusiastic student, moreover, so much so that she is the confidante of a large following in whom she has once evinced some interest.

Back in her dressing-room, when the audience are filling the auditorium with ecstatic epithets, all the Maggie Peppers vanish and she is face to face with a woman who gives a warm handshake and a smile, and presto! the caller is Rose Stahl's friend forever. There is a sadness about her eyes, possibly a tired sadness, which is offset by the smile of sympathy which accompanies her attention to the caller's conversation. And there you have her charm! She can listen.

She is much interested in the problem of the shop girl, and has all respect for her, and particularly for the Maggie Pepper kind, who is determined to rise to the top step of the stairs. While shopping in town the other day she was accosted by an enthusiastic clerk, who exclaimed: "Aren't you Rose Pepper?"

She is a small woman with a great mind and sympathy enough for a whole realm of maiden girls, and, best of all, she is a good Canadian, hailing from Montreal.

Major and Mrs. Murray have sold their house on Jarvis-street and are moving out shortly.

The annual conversation takes place at Whittly Ladies' College this evening. A special train, leaving the Union station at 7 o'clock.

Mrs. G. P. Sylvester is the hostess at the W. A. A. Gallery this afternoon.

Mrs. and Mr. Charles Rosner, Rochester, N. Y., announce the engagement of their daughter, Jessie Pauline, to Mr. Sam Herbert, Toronto.

Mrs. Laidlaw is giving a luncheon to-day for Miss Elsie Wisbart.

Mrs. Hendrie is giving a dance in Hamilton this evening.

Miss Eva MacGregor gives a dance this evening for her guest, Miss Price.

Miss Helen Contee is in town from Ottawa.

Mrs. Borden is entertaining at an afternoon tea.

Mr. Gordon thought the women should start little lobbying among the Conservative representatives first. The present law existed because it seemed that if a wife voted the husband was disfranchised, which, the claimant, was an unmistakable weakness in the law.

BURN CAUSED OPEN SORE. Zam-Buk Worked a Wonderful Cure. Sometimes a bad burn, a deep cut, or some similar mishap, sets up a more permanent injury, in the form of an open, discharging sore. In such cases Zam-Buk will be found of unequalled value.

Mr. J. Nixon of 901 William-avenue, Winnipeg, a blacksmith at the C.P.R. shops, had his foot badly burned by some molten metal falling upon it. He says: "The burn was a very bad one, and after the first few days it left an open sore, which showed marked signs of blood-poisoning. It discharged freely and caused me terrible agony. For three weeks I suffered acutely and could get no ease. At last I obtained a preparation from the doctor, which seemed to stop the discharging and made me quite hopeful, but finally the wound became as bad as ever.

It was then advised to use Zam-Buk and from the first application I felt relief. The inflammation was thoroughly checked and the poisonous matter cleared away in a very short time after beginning to use Zam-Buk. Healing then began, and in less than two weeks the wound was thoroughly healed.

One of the main reasons of this case lies right here—try Zam-Buk first for any injury to the skin, disease or wound. Don't spend money and waste time in experiments. Zam-Buk is equally good for piles, blood-poisoning, festering sores, skin chaps, sores, various eruptions, scap sores, various ulcers, chilblains, etc. All drug stores carry it. Write for a free literature from Zam-Buk Co., Toronto, for price. You are warned against harmful substitutes and inferior preparations.

SLATER SHOE STORES OPEN EVENINGS

STOCK TAKING CLEAR UP Ladies' Boots

The clock is just about to strike stock-taking hour. We are making it clear up time for all the broken lots and there's the reason for putting 1376 pairs of Ladies' Boots into one big clearing lot for Friday and Saturday to sell at an almost ridiculous price. They're all leather—tan and black; all styles, all Goodyear welts, as fashionable lasts as you'd find in anybody's stock. All sizes—\$3.50 to \$5.00 values—a "golden opportunity" at 1.75

SLATER SHOE STORES 117 Yonge St. and Cor. College and Yonge

Rose Stahl a Student of Humanity

When we saw her in the role of Maggie Pepper we marvelled, for we knew that Miss Stahl was a finely educated woman, who had traveled extensively both on the continent and in America. Hence our surprise, for the Maggie Pepper dialect, spoken thru the medium of Rose Stahl's histrionic ability, would send fleeing all ideas that the originator of such a role had spent years upon her education, which after all is real art. When an actress can banish all ideas of acting and impress the public with such realism, as well as make them laugh with her and weep with her as she chooses, then she is seated upon the pinnacle of the art temple.

Miss Stahl is an ardent student of human nature, an enthusiastic student, moreover, so much so that she is the confidante of a large following in whom she has once evinced some interest.

WOMEN READY FOR THE VOTE

Large Deputation Will Interview Sir James Whitney to Ask That Present Law Be Changed.

Toronto's suffragettes are mobilizing for the coming of Queen's Park for the purpose of endeavoring to induce the members to repeal the legislation which denies the vote to women. The deputation will be headed by Mrs. Margaret Eaton School last night the Suffrage Association held a well-attended meeting and made preparations for action. Dr. Margaret Gordon presided.

It is a disgrace to civilization to class married women as idiots and even criminals," said Dr. Gordon. "For the law as now enforced does this. A married woman who owns property cannot vote, but her husband can if it is assessed in his name. Is it a correct move on our part to try and wipe out this element building in a body all the women who are in the world? I believe that all sensible authorities favor our cause. Why do not the men in provincial office?"

Dr. Gordon thought the women should start little lobbying among the Conservative representatives first. The present law existed because it seemed that if a wife voted the husband was disfranchised, which, the claimant, was an unmistakable weakness in the law.

LET NO BIG CONTRACTS FOR FORT CHURCHILL

Story About Plymouth Firm Getting Plum a Myth—Soon to Survey.

OTTAWA, Feb. 15.—(Special).—An emphatic denial was given by members of the government to-night to the story published from England to the effect that the contract had been secured by Pethick Brothers of Plymouth for the building of docks and granaries at Fort Churchill for the terminals of the new Hudson Bay Railway. It was stated that the story was ridiculous, as the government has not even decided yet whether the terminus of the road will be at Fort Churchill or Fort Nelson.

Engineers will leave for Winnipeg probably early next week, where they will take a dog train for the bay to examine the two ports. Work has also started to outfit a vessel to carry the carload possible moment for the bay to investigate and take surveys of the two ports from the seaside. The government hopes to have these reports ready some time this summer, so that a final decision as to the best terms can be made.

New Elections in Stamford. NIAGARA FALLS, Ont., Feb. 15.—(Special).—Nominations for a special election to fill the places made vacant by the resignations of Reeve Boutler and Councilor Tupper, Stamford Township, following the filing of charges of violating the election law, in the January election, will take place Feb. 23. The election will stand for re-election.

Must Raise \$10,000 To-Day. SALT STE MARIE, Ont., Feb. 15.—(Special).—The four day campaign to secure \$50,000 for the new Y.M.C.A. has but one day more to run, and to-night the amount subscribed is \$40,238.75. Among the large contributions to-day were: S. G. Stone, \$1000; Hon. W. Hoarst, \$500; and Toronto friend, \$500. The amount subscribed to-day is \$4,982.45.

The Daily Hint From Paris

An interesting wedding of yesterday was the marriage of Miss Hazel Kemp, youngest daughter of the Hon. A. E. and Mrs. Kemp, to Mr. F. Chaiten Stephens, son of the late George Washington Stephens and Mrs. Stephens of Montreal, which took place very quietly at the residence of the bride's father, Castle Frank.

The ceremony was performed by the Rev. Dean Cayley, rector of St. Simon's Church, in the drawing room, which was decorated with quantities of American Beauty roses and Easter lilies. Mr. Tattersall presided at the large organ on the staircase.

The graceful bride, who was given away by her father, looked lovely in wedding gown of rich white satin, Duchesse with an overdress of carriage-macrose lace embroidered with brilliant and amethyst pearls and lined with cloth of silver was caught between the shoulders with handsome diamond buckles. Her veil, which was of the same beautiful lace, was crowned with an empire shower of lilies of the valley, sweet peas, and white roses. The groom wore a tuxedo with a diamond and pearl bracelet.

Mrs. Stuart McFarlane attended as matron of honor, wearing a gown of sapphire blue velvet with Irish lace and black hat with plumes, and she carried pink sweet peas and wore the groom's gift of a bar of pearls and aquamarines. Mr. Reginald Galt of Montreal was best man.

After the ceremony the Hon. A. E. and Mrs. Kemp held a reception. Mrs. Kemp was wearing a gown of royal blue satin with grey chiffon, and painted roses and leaves, and rose point lace on the bodice. Her ornaments were diamonds and she carried a bouquet of orchards and lilies of the valley, black satin hat and feathers. Mrs. Scott Walde was in a white satin gown with gold, embroidered with pearls and amethyst and tulle of apricot broadcloth. Mrs. A. H. C. Proctor, another sister, wore tan satin with old Persian motifs with marquisette, and tan hat with willow plumes, and she carried simplicity roses and white heather. Mrs. Stephens wore a black and white plumes and strings of pearls and bouquet of mauve or violet and lilies of the valley.

Mr. and Mrs. Stephens left on the 5.20 train for New York and are sailing on the Olympic on Saturday for Cherbourg en route to Vienna. The bride traveled in a covert cloth suit and pink hat faced with black and white and white opey and ermine and rose gift was a house in Montreal.

A successful dance of last night was that of the Lakeview Golf Club, held at the King Edward, when about 500 people enjoyed the evening. The floor was carpeted with the best, and supper was served in the restaurant at small tables decorated with daffodils. The patrons present were: Mrs. Dineen, in a handsome gown of king's blue satin, with gold embroidery and diamonds; Mrs. Norman McLeod, in a gown of mauve blue and pearls; Mrs. Weir, in pale blue satin, with tulle and embroidery of gold; Mrs. Jess Applegate, white satin with pink diamonds and pearls; Mrs. Edward O'Sullivan, pale green nylon over satin, bouquet of lilies and violets, and Mrs. White, in white nylon fringed with satin.

Major and Mrs. Murray have sold their house on Jarvis-street and are moving out shortly.

The annual conversation takes place at Whittly Ladies' College this evening. A special train, leaving the Union station at 7 o'clock.

Mrs. G. P. Sylvester is the hostess at the W. A. A. Gallery this afternoon.

Mrs. and Mr. Charles Rosner, Rochester, N. Y., announce the engagement of their daughter, Jessie Pauline, to Mr. Sam Herbert, Toronto.

Mrs. Laidlaw is giving a luncheon to-day for Miss Elsie Wisbart.

Mrs. Hendrie is giving a dance in Hamilton this evening.

Miss Eva MacGregor gives a dance this evening for her guest, Miss Price.

Miss Helen Contee is in town from Ottawa.

Mrs. Borden is entertaining at an afternoon tea.

Mr. Gordon thought the women should start little lobbying among the Conservative representatives first. The present law existed because it seemed that if a wife voted the husband was disfranchised, which, the claimant, was an unmistakable weakness in the law.

BURN CAUSED OPEN SORE. Zam-Buk Worked a Wonderful Cure. Sometimes a bad burn, a deep cut, or some similar mishap, sets up a more permanent injury, in the form of an open, discharging sore. In such cases Zam-Buk will be found of unequalled value.

Mr. J. Nixon of 901 William-avenue, Winnipeg, a blacksmith at the C.P.R. shops, had his foot badly burned by some molten metal falling upon it. He says: "The burn was a very bad one, and after the first few days it left an open sore, which showed marked signs of blood-poisoning. It discharged freely and caused me terrible agony. Humphrey, 4 Rosedale-road, not Monday, but on Friday, Feb. 23, for the only time this season.

Out of Town Pictures

The principal features of the 11th Street Theatre of the Sun-day World this week will be a number of striking pictures of St. Charles Fire Department in action.

Our staff photographer was fortunate in securing some splendid rapid fire pictures with a camera of working at a speed of 1-1200th of a second. All these pictures were taken in the preceding a heavy snowfall, they are remarkably realistic and clean. Adorning the page also are photos of the Chief and Assistant Chief. There is a full page of snapshots taken by The World's staff in Hamilton, Ontario and foreign pictures, including the King and Queen's departure from India; Windsor Churchill at Belfast; Sir Edward Carson with Lord Londonderry; Belfast; Lloyd-George and the British Labor Party's Conference at Birmingham; Dr. Sun Yat Sen at Nanking; Ski Riding in Switzerland; First and Third Year Dental Students; Banquet of the Hospital-Friar's Association; Toronto Corps; Mrs. Crawford Goftat, President of the Women's Institute; Grillon; Miss Margaret Pennell, Secretary, Toronto Dickens Fellowship, and a number of baby pictures.

GEN. AINSWORTH DISGRADED

Announcement of Court-Martial Makes Sensation in Army Circles.

WASHINGTON, Feb. 15.—(Can. Press).—Adjutant-General Fred C. Ainsworth of the U. S. army has been relieved from duty at the war department, and soon will be ordered before a court-martial.

It is understood that he will be charged with conduct to the prejudice of good order and discipline, and perhaps insubordination.

Never before in the history of the army has the adjutant-general been court-martialled, and to-day's action of the secretary of war and the president proved a decided sensation.

Because of his exalted rank it is going to be difficult to assemble a court for the trial of General Ainsworth, who next to General Leonard Wood, is the senior officer of the army.

You Need A Tonic

ESTIMATES FOR CIVIC WORKS

Nearly Three Million Dollars Will Be Needed This Year For Sidewalks and Other Improvements.

The year's estimates for the civic works department amount to \$2,721,000. Following are the chief items: For maintenance of works in 1912, \$828,821, or an increase of \$91,826 over last year. For new bridges, \$277,015, including \$115,890 for the new Gerrard-street structure. For concrete works, sidewalks, curbs, etc., \$91,752. For special works on streets, grading, resurfacing, etc., \$55,250. For special sewers, \$145,200. For additional city plant, \$1650. For waterworks construction, \$1,044,299. For reservoir special, \$7438. For island works, \$15,532.

GRAND OPERA CHANGES

Several important announcements were made yesterday by the management of the Montreal Opera Company. Owing to the overwhelming demand for "Mignon" it was decided to substitute it for Xavier Leroux's "Le Chevalier" which, although a most interesting novelty, does not contain the exquisite melodic appeal of Ambroise Thomas' work. The title role will be sung by Madame Fely Dereyne, who

is recognized as the great living exponent of the part. Last month Mme. Dereyne sang the part at Boston with Tetrazzini in the subordinate role of Philline and divided honors with the world-famous prima donna. It was also announced that the noted prima donna Frances Alda would only sing one part in Toronto, that of "Nanon." She was to have sung Marguerite in "Faust" on Monday night, but as she is required for a special performance of Desdemona in Verdi's "Otello" in New York early next week the management of the Metropolitan Opera House refused to release her for more than one performance. Her place on Monday night will be taken by Beatrice La Palme, who made so fine an impression in the part on Tuesday night. In the singing lesson scene of "The Barber of Seville" to-morrow afternoon Mile. La Palme, who sings Rosina, will render the famous aria from David's "Pearl of Brazil."

Y. M. C. A.

On Sunday at 4.15 in the educational building parlors, 21 McGill-street, the meeting for women will be held. An address will be given by Mr. Lee on "The Way of Life." Miss Spencer will give a violin solo. Tea and social hour after the meeting.

North Toronto-Ottawa-Montreal Compartment Car Service.

A journey to Montreal or Ottawa on the luxurious compartment cars which the Canadian Pacific Railway operates between these points, cannot but convey the impression that this railroad is among the foremost in the world in its efforts to please its patrons. These beautiful cars are electric-lighted throughout. Attentive porters are at all times ready to render courteous and efficient service, and the fast, service and smooth roadbed causes the railroad journey to be considered a pleasure. Train leaves North Toronto daily at 10 p.m., arrives Ottawa 6.50 a.m., Montreal 7 a.m. Passengers may remain in the cars until 8 a.m. Reservations made and full information re fares, etc., furnished at city ticket office, 16 King-street east, or at North Toronto Station.

NORTH TORONTO GETS MORE LAND

Ontario Railway Board Issued an Order Whereby a Valuable Strip Is Annexed to the Town.

The Ontario Railway and Municipal Board, at its meeting yesterday afternoon, discussed and issued an order annexing a strip of land formerly owned by the Trust and Guarantee Company to the Town of North Toronto. The strip was split up into building lots and sold to private parties some time ago. The present owners to the number of sixty petitioned yesterday to be taken into the town, and as the county authorities were willing that they should go, and the town council willing to take them, little difficulty was encountered by the board in giving the order.

CONSERVATORY GOVERNORS.

At the last meeting of the board of governors of the Toronto Conservatory of Music His Honor the Lieutenant-Governor of Ontario Sir John Gibson, K.C.M.G., and C. N. Candee, Esq., general manager Gutta Percha and Rubber Manufacturing Co., were chosen to fill the vacancies on the board caused by the death of Mr. James Henderson, D.C.L., and Mr. E. A. Scadding.

AUTO SHOW.

Automobile dealers throughout the city are very enthusiastic over Toronto's sixth annual auto show, opening in the armories next Wednesday. In variety the cars will surpass even the recent Madison Square Garden Show at New York. From present indications it is believed we will see the greatest display of the products of the automobile industry ever got together on this side of the Atlantic. The armories, where the show is being held, will be known in official circles as a bond warehouse for the week of the show, Feb. 21 to 28, and the customs arrangements are this year again in the hands of the William Harper firm of customs brokers, who looked after the interests of the exhibitors along those lines in former years.

Toronto World

As both the Dominion Parliament and the Provincial Legislature are now in session, citizens generally are interested in the deliberations of these two important governing bodies. The Toronto Morning World delivered before breakfast to any address in the City of Toronto or suburbs, or despatched by first-mail each day to out-of-town readers, contains accurate and reliable reports of the proceedings, together with intelligent and timely comment on the various measures under discussion. Daily Edition, Twenty-five Cents per Month—Sunday Edition, Five Cents per Copy. If you are not now a reader of The World, attach your name to the following coupon, and send it to The World Office, 40 West Richmond Street, Toronto.

UNIVERSITY LECTURE.

The university Saturday afternoon lecture will be delivered to-morrow by Prof. James Cappon of Queen's University on "Modern Developments in Poetry." The lecture will be in the physics building at 8 o'clock.

WANT EXEMPTION FROM TAXATION

Upper Canada Bible Society Is Not a Money-Making Concern and So Has Applied.

The Upper Canada Bible Society has applied for exemption from taxation. The matter was brought before the legislative committee yesterday afternoon and sent on to council without comment, further than from Chairman Maguire, who said it was a most worthy object and that the society was accomplishing much good. The ground taken for the exemption is that the society is not a money making concern, and should be free from taxes, the same as a church.

HOSPITAL BYLAW GOES TO PEOPLE

Board of Control Will Send Request for \$225,000 for Children's Hospital to Public Vote.

The board of control was unanimous yesterday morning in recommending the city council to submit a bylaw to the people on Jan. 1, 1913, asking for \$225,000 for the erection of a new wing for the Hospital for Sick Children. On Feb. 21 the city will entertain the Builders' Exchange of America, which is to hold a convention here on 21st and 22nd of this month. It is expected that the city will take the delegates for a drive on the afternoon in question. On the 22nd the city will tender a luncheon to the boards of trade, which are to hold meetings in the city hall during a two days' convention.

SCALDING WATER FATAL.

Frankie Turley, the two-year-old boy who fell into a wash boiler of scalding water at his home, 100 Seymour-st., died yesterday in the Sick Children's Hospital. Big Smelter for Kingston. KINGSTON, Feb. 15.—(Special.)—The Buffalo-Ontario Smelting Refining Co. will erect a smelter to employ 800 hands. The company owns valuable mines in Cobalt and has properties at Lindsay and near Sharbot Lake. The ore will be smelted here and shipped to England. The entire capital is subscribed by men who own the mines.

Toronto Canoe Club Defeat Berlin Juniors 10-1

At Half-time There Was No Score.

Ravina Rink was crowded to the doors last night at first of the home and home games of the Junior O.H.A. semi-finals between Toronto Canoe Club and Berlin, the paddlers being returned winners by 10 to 1.

Some three hundred supporters accompanied the Berlin team, and none who looked for a good game left disappointed. The first part showed some of the finest and fastest specimens of Junior hockey seen this season, and excitement was intense at half time when the score was a blank tie.

Both teams retained the same line-ups used in their third round games. Toronto Canoe Club played their best game this season. The season's best game was played last night, for they started right in from the blow of the whistle and did not slacken until the last.

American League Now in Session

New Two-Man Record By McMillan and West

Workout for American Tourney Results in Some Great Fin Spilling.

Club Owners Refuse to Ratify Revised National Agreement and Have Referred It Back to Ban Johnson.

CHICAGO, Feb. 15.—The American Baseball League owners in session to-day, refused to ratify the revised National agreement, and referred it as a whole to President B. B. Johnson for revision. No date was set for his report.

Numerous objections were offered to the agreement, but the most unpopular clause seemed to be the one relating to inter-league waivers on drafted and purchased minor league players. It provides, among other things, that neither a drafted nor purchased player shall be sent to a minor league club until all the clubs in both leagues shall have had an opportunity to waive on him. Drafted players must be delivered immediately, but in the case of a purchased player, the clause provides "the waiver price of a purchased player shall be fixed by negotiation between the interested clubs and, in the event of their inability to agree, by the commissioner, whose decision shall be final of the drafted player the amount paid for his selection, plus \$200."

In the past it has not been necessary for team owners in either of the big leagues to obtain waivers on purchased players outside their own organization, and in cases where high priced players were obtained it has been customary to reimburse fully the seller for his outlay in obtaining the player.

Under the proposed ruling, several team owners see a possibility of high priced players going for the waiver price, a few hundred dollars, and \$200.

While the agreement was not ratified, Commissioner Johnson said that he would be with a few changes, they say, the whole document will be satisfactory to them.

THURSDAY MORNING, FEB. 15, 1912. THINGS WILL BE BETTER IN THE WEST.

The World has every sympathy with those farmers of the west who have not yet been able to get their grain shipped out, and also with the farmers who have not been able to get their wheat threshed. But it must always be remembered that the people who are in this predicament are fortunately not the great bulk of the farmers of the west. Any number of farmers have had their grain threshed, have shipped it, sold it and got their money; and immense quantities of grain are being shipped out every day now to the relief of other farmers who are selling and shipping. As a case in point, take that of the Canadian Northern Railway. A year ago that company had on Dec. 31 shipped out 24,000,000 bushels for the farmers along its line; at the end of December last, over 44,000,000 had been shipped over its line and sold, nearly double. And a news item from the west goes to show that the Canadian Northern, the its elevators at Port Arthur are full, will be able from now on to send out a lot of its wheat by Duluth, and thus give relief day by day to farmers along its line. We also see by the despatches that the Canadian Pacific is using all its energy to ship out wheat by train to storerooms in the east here and to Duluth. We further hear that the C. P. R. has room in its elevators at Port Arthur for 5,000,000 bushels. If this is so, it is certainly ought to allow the grain from the Grand Trunk and the Canadian Northern to be put there, and the Canadian Pacific ought to ask the government to assist the Grand Trunk and the Canadian Northern to get their wheat over the C. P. line from Port Arthur to the storerooms here in the east. In passing, is the elevator over at Port Colborne owned by the government at the present time idle, and could it not be utilized for storage?

And now we come to the main issue, and that is, what ought to be done for the relief of the western farmer? We believe the western farmer must provide his own granary on his own farm or co-operatively with his neighbors, and that any government assistance given in this respect must be from the provincial authorities. The farmer and the provincial government ought to provide local storage, and it ought to be so located that no trouble will be experienced in obtaining advances upon grain stored there from the banks until it can be sold and shipped out. As to terminal storage—the storage in elevators—we believe that ought to be controlled by the Dominion Government. There must be more of these big elevators—batteries of them. By an expenditure of \$500, a farmer can have a good corrugated iron wheat granary, holding 5000 bushels, on his farm, and he can extend this by sections as fast as he wants it, at a proportionate cost. Every farmer here in the east has to find such a storeroom for himself, and he has found it. He has to put most of his hay in barns and his threshed grain in his mow, and his threshed grain in his granary, and he has found a way of doing it. It is only just to the farmer in the east that his brother in the west should take care of himself in the same way, or that if he wants government assistance, he should look to his local government. But inasmuch as the railways must be allowed the best part of the year to move the crop, it is essential that the crop be adequately stored at the terminals so as to permit of reasonable handling of the season's crop. We can never expect our railways to be run profitably if they have to move all the grain of a year in two or three months. That means idle equipment at a great cost to somebody; but the equipment of elevators is comparatively cheap and gives the advantage of large quantities of grain being stored in our own country every year, which, for many reasons, is desirable; and yet allows people to get their money either by way of advance or by way of sale for the grain without any difficulty. As to next year, it is therefore incumbent on the government at Ottawa to see that more elevators be built at Port Arthur and Fort William, also on the Georgian Bay and in Montreal and other ocean ports. It is equally important that the provincial governments and the farmers organize a better system of local storage. With the increased railway facilities that are being provided and with these improved storage facilities, there is no reason why the present congested state of affairs should repeat itself on any other future occasion.

A CITY FRUIT MARKET. Controller Foster has taken a good

line in his advocacy of a city fruit market. It is unfortunate that the city officials always seem to get on the wrong side of questions of this sort. If the railways and the radial lines are to perpetuate the present monopoly the people will have no gratitude for Mr. Harris. Where there is a will there is a way, and if Mr. Harris is willing he can materially assist the development of the plan, than which none is more necessary for the benefit of the citizens. A good deal was said last year on this score, and there is no doubt of public feeling. What other cities have done Toronto can do, and it is unworthy of Mr. Harris' reputation to throw cold water on the proposal. We want neither cold water nor hot air on these matters, but reasonable business handling.

OUR OPERATIC VISITORS. Toronto is very well entitled to extend a sisterly greeting to Montreal in connection with their common interest in high-class music. The attendance at the performances of the Montreal Opera Company this week are a sufficient testimony of Toronto's appreciation of the splendid enterprise of our eastern fellow-enthusiasts, and it may be said that the testimony is a sincere tribute to the artistic merit of the productions, for we fear that our citizens would scarcely flock to the opera on the mere magic of the name of Montreal.

The Montreal Opera Company, like some of our local musical organizations, owes its continued existence to the support of some public-spirited men like the president of the company, Lieut.-Col. F. S. Meighen. What is done by the state in highly cultured nations like France and Germany, is left to the good taste and spirit of private citizens in English-speaking lands, and while there are some advantages in this, there is yet the great defect that the masses get the impression that these great musical events are not for them. The humanizing influence of great music is of such potency that it is the more to be regretted that the many have not the privileges of the few in this respect.

With Lieut.-Col. Meighen are associated Sir H. Montagu Allan, C.V.O., J. L. Perron, Esq., K.C., and Lieut.-Col. W. A. Grant as vice-presidents; Hon. J. L. Decarie, M.L.A., Rod. Forget, Esq., M.P., E. Fabre Surpeyer, Esq., K.C., and C. R. Hoamer, directors, and as honorary directors Bryce J. Allan, Esq., Boston, M. Camille Bellaque, Paris, Henry Higgins, Esq., London, Eben D. Jordan, Esq., Boston, Clarence H. Mackay, Esq., New York, Mon. Jean de Reszke, Paris, Sir Edmund Walker, C.V.O., Toronto. From their extensive repertoire the company has or will produce during the two weeks of the engagement Puccini's "La Tosca," "La Boheme," and "Madame Butterfly," Gounod's "Faust," Massenet's "Manon," Rossini's "Barber of Seville," Verdi's "Rigoletto," Bizet's "Carmen," Gounod's "Roméo and Juliette," only once produced here before, and such novelties as Massenet's "Le Jongleur de Notre Dame," Leroux's "Le Chemineau," and Gustave Charpentier's "Louise." The last alone would make the engagement memorable, as last night's crowded house might certify. The company does great credit to those who have taken the responsibility for the performances. The conductors are men whose experience and reputation are sufficient to ensure artistic and musically renderings, and the soloists are of exceptional ability. Those who heard M. Huberty as Me-phistopheles on Tuesday evening realized that only once or twice in a generation they enjoyed such singing. The orchestra is one of entirely unusual excellence and apart from the singers together, is a treat to hear.

Toronto is indeed fortunate in being able to supplement the performances of her own musical organizations with such productions as are furnished by the Montreal Opera Company.

THE COUNTRY HAYFORKED! The Telegram cartoon got near it last night, when it said that "implementation" in the Grand Trunk Pacific contract meant "horse-rakes." It should have said "hayfork." It was the best instance of a "hayfork" deal that we've ever seen put over. Where were the "law officers of the crown" and the minister of justice at the time the "hayfork" clause was inserted?

Another batch of streets are having their names changed. We ask again why Howland-road is allowed to remain down east off Gerrard-street while Howland-avenue is found up on Bloor-street, near Bathurst?

There should be no question about the choice of concrete for the new Gerrard-street bridge. It is much the cheaper in the long run, besides being handsomer and less noisy. The Wilton-avenue bridge is highly ornamental. With another such at Gerrard-street and the magnificent span of the Don viaduct further north, the Don Valley will be the show place of the city.

WM. A. ROGERS COMPANY. From the report, published elsewhere in this issue of The World, submitted by the board of directors to the annual general meeting of the Wm. A. Rogers, Limited, it will be seen that this company enjoyed another prosperous year. While the profits for 1911 were not quite up to those of 1910, this, as the president, Mr. S. J. Moore, explained, is not surprising in view of the general condition of business throughout the United States during most of the period under notice.

Our FEBRUARY Sale WILL SOON BE CLOSED. You have not replenished your stock of Shirts, Pyjamas, Underwear, as yet. Come now and save money on your buying. 15 DOZEN ENGLISH SHIRTS—Best make Zephyrs and Oxford. Regular up to \$2.00, for 75c. 10 DOZEN ENGLISH TIES—Best silk. Regular 50c and 75c. 3 pairs for 1.00. 3 DOZEN ENGLISH FLANNEL SHIRTS—Double cuffs and wristbands. Worth up to \$3.00, for 1.50. A few of those English Ulster Coats left yet. Selling at Half-Price. Wreyford & Co., 85 King St. West

Even at that, in both volume of business and amount of net profit, last year ranked second in the history of the company. Of the latter amount \$206,808.60, the dividends on preference and ordinary stock absorbed \$180,025, and the balance of \$26,783.60 has been retained in the business. The directors gave expression to the welcome belief that they are justified in increasing the rate of dividend upon the common stock from 10 per cent. to 12 per cent., beginning the first quarterly distribution at the increased rate on April 1 next. The directors have also decided to issue the balance of the common stock, amounting to \$182,860, at the rate of \$150 per share, available for subscription by preference and common shareholders in proportion to their holdings. This will provide additional capital to the extent of \$244,235, which it is intended to utilize in future business extensions. Further testimony to the profitable character of the business is afforded by the bonus of 10 per cent. payable in common stock of the company and to be distributed among shareholders of record on Feb. 15. When this is paid it will make a total distribution on bonuses of \$495,550 to common stockholders in three years. Another factor of importance is the excellent showing made in the matter of the surplus of the company, which has increased during the year under review by \$141,832.22, and now stand at \$1,146,732.84. This is equivalent to \$127 per share of the company's preferred stock.

SELECTION OF BRITISH PREMIER. Editor World: In your leading article to-day on the selection of the next British premier, you make the statement, "Lord Salisbury selected Mr. Balfour as his successor, and as the leader of the Conservatives, Mr. Gladstone, in the same way, selected Lord Rosebery, and not the Liberal members." Allow me to say that this statement with regard to Lord Rosebery is not in accordance with fact. Mr. Gladstone did not suggest Lord Rosebery as his successor; indeed, it is known that had he been consulted by Queen Victoria, he would have recommended Lord Spencer. This is made clear in Morley's "Life of Gladstone." Perhaps there is no part of his work more interesting than that dealing with the resignation of Mr. Gladstone, and his audience with Queen Victoria on his retirement from public life. "He told me," writes Mr. Morley, "that he had no reason to suppose that the Queen might ask him to resign, but he had no reason to suppose that she would ask him to resign. After some talk he said that if asked he should advise her to send for Lord Spencer. As it happened, his advice was not sought." J. H. Vianivombe. Toronto, Feb. 15, 1912.

We are obliged to our correspondent for this correction, as the passage he quotes escaped our memory at the moment of writing. In effect, it strengthens the argument that, hitherto, the prime minister of the United Kingdom has been selected by royalty and the aristocratic element rather than by the people.

BRAMPTON BRITISHERS AWAKENING. The fact that at the present time there are in Brampton nearly 300 people coming from the old country seems sufficient reason for the desire on the part of many of them to come often and in closer touch with each other. Newcomers are arriving every year, and many of them feel lonely, strangers in a strange land. Nobody knows about them; very few care. Many of them have to suffer from the shortcomings of others who preceded them and are not interesting specimens even to the churches. Then there are those who sooner or later become identified with the churches, and once their social life becomes limited to the particular church with which they have allied themselves, they seldom get an opportunity to mix with those who go to another church, even though they may have a great deal from the British point of view in common. Many there are, again, with set convictions, and although the vast majority

Deposits may be made and withdrawn by mail with perfect convenience.

just to make him feel a little more at home. All this it would appear possible to bring about if the right kind of organization can be called into existence. The intention is to hold a meeting on Saturday night next, Feb. 17, in the recreation room at the Delta Estate, kindly lent for the purpose, when the matter will be discussed in all its bearings, and it is to be hoped that all who can possibly attend will turn up and show their interest in the movement. Don't forget, Saturday night, at 8 o'clock precisely. CABINET GOVERNMENT. Editor World: In your issue of Tuesday, in your editorial under the heading, "Sir James is Just and Generous," you end up with the following statement: "Cabinet government, as at Queen's Park, is either a better form of government than council government at City Hall, or else the City Hall people have a poor conception of their opportunities and responsibilities." Unfortunately for a city the size and importance of Toronto, its present form of government is simply a misfit. There is no direct responsibility attached to the administration of any of the departments, and business is conducted in a haphazard way. There never can be proper and progressive civic government until such time as the cabinet system is applied. The time is ripe for a change of municipal government machinery in Toronto. The efficiency and competency of the present municipal system to carry out any large scheme, involving plans and execution, is daily becoming a byword. With responsibility divided between a mayor, a board of control and a committee of aldermen our civic government is farcical. A cabinet system along the lines suggested by Ald. Spence would, if adopted, create direct responsibility and develop initiative, besides it would produce a spirit of interest in municipal problems. Toronto, Feb. 14, 1912. W. H. Scott.

OUR PRESENTATION OF A \$4.00 DICTIONARY To Every Reader of the WORLD

You Need It Everybody Needs It The One Who Knows is the One Who Wins. A Satisfying Dictionary, Up-to-Date, a Condensed Encyclopedia. Magnificently and Completely illustrated with Monotones, Commercial Charts and Colored Plates which cost thousands of dollars. No other Similar Dictionary ever printed contains such a wealth of new ideas, or so many valuable aids to a thorough mastery of the English Language.

And Receive Your Choice of the Three Books Description of Webster's New Illustrated Dictionary With New Canadian Census. This most convenient and latest of all Dictionaries is based on Noah Webster's Dictionary, revised and brought up to date by the most recent American and English authorities, designed to meet every demand of a modern and reliable Dictionary. It includes all words in the English language that do not properly belong to a Dictionary of Technical Terms. In fact, its recent publication and recent coinage that cannot be found in any other Dictionary, no matter how cumbersome and pretentious. Surprising results are obtained in looking up the spelling, pronunciation and definition of a host of words which have been incorporated into our language only yesterday, as it were. Take, for instance: Aero, Aeroplane, Aviator, Biplane, etc., introduced as a result of recent aeronautical activity—also such new words as: Brainstorm, Billiken, Cordite, Dematured, Dunsmuir, Joy Ride, etc.—also Okapi, an animal allied to the Giraffe, and brought into prominence through expedition Roosevelt's explorations in Africa—also Hookworm, Lettergram, Nickelodeon, Stovaine, Hangar, Equilibrator, etc. Thus the evidences of painstaking revision are found on every hand.

O'Keefe's Stout Is Extra Mild. Those who prefer English Porter to Ale, will find O'Keefe's Stout uncommonly delicious. It has the rich flavor of the finest imported porter—but, being extra mild, will not make you bilious. All bottles sealed with Crown stoppers to prevent cork and tinfol getting in your glass. Sold everywhere. "The Stout That is Always O.K." THE O'KEEFE BREWERY CO. LIMITED, TORONTO.

ISLAND PLANTS GOOD SAYS JUDGE

Engineers Also State at Filtration Inquiry That the Plant is the Best on the Continent

"The filtration plant is all right," in the opinion of Consulting Engineer Tye, who was engaged by Judge Winchester to examine and report on the plant.

Mr. Tye stated that at present there was about a million gallons of water going to waste every twenty-four hours, but that in the course of a year or so he thought the crevices would fill up a little and the amount of water running to waste would then be only about half a million gallons per day.

Mr. Tye estimated that the loss to the city amounted to about \$50,000 per year, but there would be no commercial advantage in completely stopping the leakage.

Engineer Tye's explanation of the cracks was that when the trench which surrounds the plant was filled with water, the plant rose an inch or two and in doing so, the cracks were caused. There was no danger, he said, of the plant settling any more than it already has, yet the engineer thought the plant was the best on the continent.

No Future Provision. There was, however, one fault, and that was that provision had not been made for the growth of the city, and that already there is fifty per cent. more water used than at the time operations on the filtration plant were commenced.

Engineer Hazen said the plant met with the demands of the contract in every detail. Engineer Hazen agreed with the report presented by Expert Tye.

A Big Bungle. Other minds thought differently. Fred Henning, engineer at the island pumping station, had no hesitation in saying that the pumping plant was the biggest bungle that had been dumped into the city in a long time. He contended that there was no room for the machinery, and "there is a traveling crane there for ornament."

ACCEPTS ASQUITH'S CHALLENGE LONDON, Feb. 15.—(C. A. P.)—The Unionists, led by Bonar Law, have decided to accept the challenge thrown out by Premier Asquith to prove that the government was guilty of corruption in the matter of the appointment of officials. Bonar Law will move a vote of censure and a debate will take place after the proceedings following the King's speech have been concluded.

Meanwhile, Premier Asquith has been asked to issue a return showing the appointments during the Liberal term of office.

THE WEATHER

OBSERVATORY, TORONTO, Feb. 15. (8 p.m.)—A moderate depression is centred off the middle Atlantic coast while pressure is comparatively high over the Maritime Provinces. The weather has been for the most part fair and comparatively mild throughout the Dominion.

Probabilities—Lower Lakes and Georgian Bay—A few light local snowfalls or surges, but mostly fair and comparatively mild. Ottawa Valley and St. Lawrence—A few light local snowfalls or surges, but mostly fair, stationary or a little higher temperature.

Street Car Delays. Thursday, Feb. 15, 1912. 8.30 a.m.—Auto truck stuck on track at Bathurst and Robinson; 8 minutes delay to northbound cars.

BIRTHS. ROBINSON—On Feb. 14th, 1912, to Mr. and Mrs. Malcolm H. Robinson, 4 Poplar Plains road, a daughter. Child died shortly after birth.

MARRIAGES. BURNETT—BRUMWELL—At Bloomington, Feb. 14th, by the Rev. Chas. Fowler, Valma Grace, daughter of Mr. and Mrs. Joe Burnett, to Isaac Chester Brumwell of Victoria Square.

DEATHS. DICKSON—On Thursday, Feb. 15th, 1912, at the family residence, 238 Queen street East, Walter Aloysius, infant son of Walter and Catherine E. Dickson, aged 13 days.

MACLEAN—On Wednesday evening, Feb. 14, 1912, at his late residence, 3 Nassau street, William Maclean, Esq., in his 81st year.

MORTIMER—At the family residence, 41 Berkeley street, on Wednesday evening, Feb. 14, 1912, Mary Harris, dearly beloved wife of James Mortimer, Funeral notice later.

NEWMAN—On Thursday, Feb. 15, 1912, at his son's residence, 169 Withrow avenue, Edward Newman, aged 73 years, late of Belleville, Ont.

S. S. "BERMUDIAN" FAST TRIP TO BERMUDA. The Quebec Steamship Company's S. S. "Bermudian," the fastest steamer running to Bermuda, left last trip sailing from New York, Feb. 7, broke previous fast record by making the trip in 29 hours and 20 minutes, the best time ever made between New York and Bermuda at any season of the year.

Textile Workers Meet. The local textile workers will hold a meeting in the Zionist Institute, 245 Simcoe-st., Sunday afternoon, at 2 o'clock, to consider ways and means of helping the Lawrence strikers.

CONTROLLER MCCARTHY MAY LEAD TEMPERANCE FORCES

In the Face of a Determined and Prolonged Opposition He Succeeded in Having an Unpalatable Instruction Sent to the Executive by a Vote of at Least Twenty to One.

J. C. McCarthy is declared by insiders to be the coming provincial leader of the forces.

In the face of a determined and prolonged defence by President Gibson, F. S. Spence, Ben H. Spence and members of the executive staff, J. C. McCarthy, supported by Aid. Austin, captured the prohibition convention yesterday afternoon, and forced on the executive an unpalatable instruction by a vote of at least 20 to 1.

The report was negative as to individual electors. The no party or candidate was worthy of the support of temperance electors which failed to support the "banish the bar" platform.

It also suggested that where neither of the party candidates was acceptable, an effort should be made to put a temperance candidate in the field.

Not Far Enough. But the fray did not end until full swing was made in the afternoon, when in presenting the political action report, J. C. McCarthy said that, although chairman of the committee, he was not in favor of its adoption as it did not go far enough.

The report was negative as to individual electors. The no party or candidate was worthy of the support of temperance electors which failed to support the "banish the bar" platform.

It also suggested that where neither of the party candidates was acceptable, an effort should be made to put a temperance candidate in the field.

Bad Quarter Hour. The next fifteen minutes was what the Parisians call "a bad quarter hour."

It was Controller McCarthy's turn. Ex-Controller Spence had been giving the convention a whole lot of original advice on electioneering.

He proposed that the executive be instructed to appoint a special subcommittee, "whereby it shall be to carry out and carry out the foregoing policy of political action."

Such an exhibition of all the officers being up in arms had not been witnessed at an alliance convention since the two days' debate on the motion to censure Hon. G. W. Ross was before a convention and which was only defeated by a battalion of Queen's Park officials being brought down from the parliament buildings to save the day.

Party Feeling Ran High. Continued From Page 1. wards of an hour. Finally, however, Dr. Maloney drove up, and thru Peter White, K.C., of Pembroke, invited the crowd down to the market place, where they followed him.

That Agreement. The agreement by which the Conservatives of South Renfrew were alleged to have bound themselves, was the main topic of conversation at the Maloney meeting.

Dr. Maloney was greeted with loud cheers. South Renfrew had elected Mr. Low, but apparently he wasn't good enough for the Liberal leaders at Ottawa.

He had obtained an actual written pledge that he would be elected, said the speaker, a pledge that in business would hold good in a court of law.

Mr. Graham took up the Georgian Bay Canal matter, affirming that he would look after the deepening of the Welland Canal and the construction of the Georgian Bay Canal.

IRON WORKERS' OFFICIALS CHARGED WITH DIRECTING THE WHOLE CONSPIRACY

Continued From Page 1. to do a job for me. Mike will furnish finances.

That McNamara wrote to Webb in answer that the Boston and New York jobs were being considered.

That McNamara in 1909 wrote letters to power companies negotiating for explosives, the negotiations being similar to those which resulted in the blowing up of the Los Angeles Times building.

That McNamara wrote to Ryan: "I am writing Butler and Hockin about the work of the McClintic-Marshall Co. I have already written Cooley about the work of the other concern at Chalmers."

That McNamara wrote from New York to McNamara in April, 1910, in regard to dynamiting for the benefit of a local union at Peoria, Ill., as follows: "In regard to the Peoria request, I am of the same opinion as yourself. What is spent there should be thru Hockin by means, and I was not all thru the amount in view of all the circumstances."

That McNamara wrote to Ryan: "My friend Coleman took me around to show me where the eruption took place. It seems as tho they don't want to see the affair, as I counted ten watchmen and a couple of others prowling around. I think they were by means, and I was not all thru the amount in view of all the circumstances."

That McNamara wrote to Ryan: "I am writing Butler and Hockin about the work of the McClintic-Marshall Co. I have already written Cooley about the work of the other concern at Chalmers."

TORONTO MEN IN SMUGGLING PLOT

Two Arrests May Be Made Today Following Illegal Importation of Five Chinamen.

NIAGARA FALLS, Ont., Feb. 15.—(Special).—That startling developments in a recent smuggling case, when five Chinamen were illegally taken into the States at this port, will be made within twenty-four hours, with Toronto for the stage, was learned on good authority to-night.

Two Toronto men engineered the smuggling operations, and sufficient evidence has been obtained to convict them, according to The World's informant, who refused to divulge their names.

Representatives of the United States immigration service went to Toronto to-day to confer with authorities there on the subject.

Since the arrest of five Chinamen on the train after being smuggled into the States, the American officials have conducted exhaustive investigations, with the result that they fixed upon two Torontonians as the guilty parties.

It is understood that the same two men were implicated in several cases of smuggling aliens into Canada, and that they will immediately be arrested on these charges.

U.S. Troops at Juarez Stirred Up Turmoil. 'Twas a Case of "Somebody Blundered"—Desperadoes Burn Rail Bridges.

EL PASO, Texas, Feb. 15.—American soldiers invaded Mexican territory to-day by mistake and threw the City of Juarez into an uproar.

A squadron from the Eighteenth Infantry tried to save them from going from one international bridge to another over Mexican territory. They were arrested by Mexican Customs Guards, but later released.

All street cars to El Paso were stopped for an hour while the Americans were held on Mexican soil and for a time the situation was threatening.

Bandits Cut Loose. TUCSON, Ariz., Feb. 15.—Operating as Vasquez and Zapatas, bandits burned all the bridges of the Southern Pacific Railroad of Mexico north of Culiacan today and captured Navolato, Pericos and Altata. The municipal authorities were deroused and the revolutionists assumed charge. Railroad officials sent out a work crew escorted by rurales to repair the bridges.

Hundreds of other letters refer to Edward Smythe at Peoria, Ill., in August, 1910, in preparation for McNamara's visit, as follows: "I would suggest you be at the depot to meet him. You need not necessarily give us help to straight up the wants you do but him on the ropes."

Hundreds of other letters refer to Edward Smythe at Peoria, Ill., in August, 1910, in preparation for McNamara's visit, as follows: "I would suggest you be at the depot to meet him. You need not necessarily give us help to straight up the wants you do but him on the ropes."

TURRIF FIGHTS UNIFORM RATES

OTTAWA, Feb. 15.—(Special.)—"Why should there be this discrimination against the west?" asked J. G. Turrif...

Figures noted by Mr. Turrif showed 20 to 150 per cent. higher rates in the west than those in Ontario...

Hon. Robert Rogers declared that, as the government had brought these grievances to the attention of the railway commission...

Would anyone say, said Mr. Turrif, that it was just to let people of the west pay 50 to 100 per cent. more...

Mr. Turrif declared that the board of railway commissioners had power to say what freight rates should be...

In conclusion, Mr. Turrif moved, in amendment, seconded by W. J. Martin...

That in the opinion of this house the time has arrived when the government should lay down the principle that...

Parliament the Arbitrator. Hon. Frank Oliver declared it did not matter what were the technical rights...

H. H. Stevens (Vancouver) pointed out that British Columbia had been fighting for relief from a similar grievance...

No Fourth Class Clerks. Hon. L. P. Pelletier introduced a bill to amend the Class Service Act...

(b) Abolishing the junior and senior second class clerks and substituting therefor classes "a" and "b"...

(c) Dividing the first class clerks into division "a" and "b" with maximum salaries of \$1800 and \$1600 respectively...

(d) Increasing the minimum of the first class clerks from \$1200 to \$1400, and creating a new class of clerks to be known as chief clerks...

(e) Improving the position of office superintendents in city offices and changing what was formerly a fixed salary of \$1800 to a minimum salary of \$1800 and a maximum of \$2000...

(f) Providing for the employment of temporary clerks in the above named offices for a period of not more than one year, at a fixed salary of \$500, and temporary helpers to meet the exigencies of the service at a salary not exceeding \$2.50 a day...

(g) Increasing the salaries of certain inspectors, assistant inspectors and superintendents of railway mail service in recognition of years of service...

(h) Increasing the minimum of the salaries of inspectors and superintendents of the railway mail service from \$1800 to \$1800...

THREE KILLED, MANY INJURED TRAIN ROLLED OVER BANK

Accident to Pennsylvania Limited Near Huntingdon, Pa., Would Have Been of Appalling Magnitude But for Steel Construction of Coaches—Almost Plunged Into River.

HUNTINGDON, Pa., Feb. 15.—(Can. Press.)—Three persons were killed and 67 were injured to-day when the Pennsylvania Limited, eastbound, jumped the track at Warriors' Ridge, a short distance west of this place...

All of those killed were in the first dining car. Harry A. Mass and Mrs. J. E. Taverner, two of the killed, were dining at the time. The awful impact threw them into the forward end of the diner, and they were crushed to death...

In all there were 67 persons injured. Fifty-one were given attention in the local hospital, while the remainder, who sustained minor injuries, were looked after by the volunteer physicians. Of the 67 injured, 42 were passengers and 25 were railroad employes in charge of the train.

Saved by Steel Cars. This is said to be the first time on record that a train composed of all steel cars has been wrecked on the Pennsylvania line. It had not been for those ponderous life-savers the death toll would have been appalling...

Rushed to Rescue. Word was sent to Altoona, Tyrone and this town for all available physicians and nurses. In a short time two specials, one from here and another from Altoona, were rushing toward Warriors' Ridge.

Groups of the injured, who were pinned beneath the steel cars, were pitiful. As quickly as possible the relief party released the most seriously injured and hurried them to a local hospital.

WILL GENERAL HOSPITAL STAY?

Ward Two Business Men's Association intends making a strong plea to retain the present general hospital for the use of the east end. The present plans are to sell the property at the time the hospital moves into its new quarters on College-st.

Another strong point in the association's setting forth, is that \$20,000 has been spent just recently in laying new drains and other sanitary arrangements in connection with the hospital, and that if the hospital is sold, this money will have been practically wasted.

The hospital has been receiving the income from a large tract of land west of the Don and east of Parliament-st., which this property, tear down the present buildings and erect the working-men's houses, if the bylaw to set aside money for that purpose is passed.

DR. A. W. CHASE'S 25c CATARRH POWDER. It is sent direct to the diseased parts by the Improved Shower. Heals the ulcers, clears the air passages, stops drops in the throat and permanently cures Catarrh and Hay Fever.

"LOUISE"

Notwithstanding, or perhaps because of the announcement of the somewhat portentous length occupied in its performance, another splendid audience witnessed the first rendering in Toronto of Charpentier's "Louise" at the Royal Alexandra last night.

Another strong point in the association's setting forth, is that \$20,000 has been spent just recently in laying new drains and other sanitary arrangements in connection with the hospital, and that if the hospital is sold, this money will have been practically wasted.

The hospital has been receiving the income from a large tract of land west of the Don and east of Parliament-st., which this property, tear down the present buildings and erect the working-men's houses, if the bylaw to set aside money for that purpose is passed.

STAR BURLESQUE SMOKE IF YOU'RE DAILY MATINEE. LADY BUCCANERS. Next Week—Queens of the Polaris Burgers. ly appreciative and gave hearty recalls at the close of the acts. HAS MILES OF SMILES.

Reason for the Shine on the Face of the Sales Manager. Harry W. Thorp, the sales manager of the Holland Varnish Co., might be mistaken for the "original man with a smile," for he is certainly a Sunny Jim in these piping days of growing business.

"During the past month," said Mr. Thorp, "we have received from five of the leading carriage-makers of Canada the most enthusiastic endorsement of the DYKE Carriage Varnishes. Two of these concerns also manufacture automobiles and use our varnishes on the auto bodies; you may look for a finer finish than ever before on the Canadian-made motors after this. You see the 'DYKE' Varnishes have the China Wood Oil basis, which gives them a weather and wear-resisting surface never attained by the linseed oil varnishes. The 'DYKE' Varnish holds its sheen and shine longer, and a carriage or auto looks still new at the end of the season."

FIRE IN FEATHERS. Smouldering, smoking and smelling a fire in a pile of feathers gave the firemen a two-hour endurance test yesterday afternoon at the factory of the Canadian Feather Mattress Company at Spruce-st. The damage was \$1000 covered by insurance. The building one time was used by the Trinity Medical College.

OVERHAUL THE TRACKS

C.N.R. Will Make Extensive Repairs Between Winnipeg and Port Arthur. M. H. McLeod, general manager of the C.N.R., announces that the railway tracks between Winnipeg and Port Arthur will be overhauled and put in first-class condition. Several new bridges will be erected to replace trestles. These structures will be wide enough for the eventual double-tracking of the road. This is one of the most important sections of the C.N.R. in the west, as it is the principal route over which the heavy grain traffic of the spring and fall is carried. This work will be rushed thru at once in order to have the road in good shape for the harvest.

PRICELESS BOOKS STOLEN.

LONDON, Feb. 15.—(Can. Press).—No fewer than 217 historic books and manuscripts, some of which are of almost priceless value, have been stolen from the library of Peterboro Cathedral. The thefts are believed to have extended from January, 1904, to June, 1909, and were only discovered yesterday, when a middle-aged man was accused of stealing books nominally valued at £100.

BURLESQUE SHOT AND KILLED.

CINCINNATI, Ohio, Feb. 15.—Max Abbott of New York, a member of a burlesque company playing here, who was shot last night by George Stone, after a quarrel in a theatre, died today. Stone is a brother of Fred Stone of Montgomery & Stone.

GEORGIAN BAY CANAL SCHEME CRITICIZED

A. W. Wright Says the Advantages of a 22-foot Welland Canal Are Great—No Sectional View Should Be Taken—Ocean Vessels Make Railroads Reasonable.

A. W. Wright addressed a joint meeting of the Empire Club and the board of trade yesterday on "Canada's Canal Problem." His arguments tended to show that the Georgian Bay Canal was a questionable scheme as compared with the undoubted advantages of a 22-foot Welland Canal. He doubted the speed estimated for the Georgian Bay Canal of six miles an hour, when the Suez Canal is only five, and the Manchester Ship Canal five and a half miles. The solution of Canada's canal problem was in the construction of the Welland-St. Lawrence system.

He did not think the canals of the east could ever do more than carry a moiety of the harvest of the west, but they should make sure that everything in the territory tributary to these canals should pass thru them to the European markets. The Erie Canal had been a competing factor with the Welland. The first proposition was that the Welland should be enlarged, deepened, improved and made safe. They should think of more than merely wheat. They had great mineral products on the northern shores of the great lakes, and they might expect to see these ores manufactured in Ontario. He regarded the producer as more important than the consumer.

Mr. Wright discussed the relative merits of the Welland and the Georgian Bay canals, especially as factors in competing with the Erie Canal for eastern transport. He advocated the construction of the Welland deep waterway.

Canada is not worried about the cost as long as the money goes to the works, was a remark which evoked laughter.

No Sectional View. He agreed with Mayor Hopewell of Ottawa that the matter should not be regarded from a sectional standpoint. He was not sure that the Georgian Bay Canal would place them at their neighbors' expense, and for ever independent of their neighbors to the south.

They had been told the Georgian Bay Canal would be 180 miles shorter, a day and a half faster, and with a greater capacity than the Welland, while the cost would be \$100,000,000. He noted the difficulty about water supply on the height of land in crossing to the Mattawan. Practically vessel men declare that no sane owner would ever permit a vessel to go thru it. The tortuous and dangerous route, with three per cent. curves, fogs and other difficulties, with the necessity of tying up at night, would lengthen the passage to nine days. The utmost capacity of the canal is admitted to be 11,000 vessels per year, while the 800 locks pass over 20,000.

Return cargoes were essential to a proposal of the nature of the Georgian Bay Canal, but no return cargoes could be obtained at Montreal. The New York commission appointed to investigate the conditions, reported that a 12-foot canal was the utmost that could be done by the Lake Erie route, it was with a 12-foot canal Canada, therefore, had to compete. He was not one of those enthusiasts who believe that ocean vessels would come up into the lakes. Ocean vessels were not adapted to the lakes, and lake vessels could not make the ocean voyages. Mr. Wright said he would not attack the Georgian Bay Canal if it had merits. They were in a dangerous position if they let the Americans complete the Erie Canal before Canada was ready to compete. If the Erie Canal has five years start of the Welland the trade would be diverted to New York, and it would be very difficult to bring it back.

While he did not look for ocean liners on the lakes, he thought that once a freight steamer might come up, and they were the vessels which made the railroads reasonable. The Welland Canal would admit this traffic if placed on a 22-foot basis. He appealed to those present to rally the public in support of the new Welland Canal. It could be completed within five years from the start. If it were they would control the situation. There never would be an hour when they did not carry the grain of the Northwest to the ocean as cheaply and as quickly as their neighbors could do.

"After You, Yuan" Says Sun Yat Sen

Man Who Could Have Ruled China Makes Graceful Exit.

NANKIN, China, Feb. 15.—(Can. Press).—Dr. Sun Yat Sen's resignation of the presidency of the Chinese Republic has been accepted by the national assembly. His letter said: "Yuan Shi Kai has declared that he adheres unconditionally to the national cause. He would surely prove a loyal servant of the state. Besides this, Yuan Shi Kai is a man of constructive ability upon whom our united nation looks with the hope that he will bring about the consolidation of its interests. The happiness of our country depends upon your choice. Farewell!"

Another Negro Lynched. MEMPHIS, Tenn., Feb. 15.—A mob early today lynched an unidentified negro accused of having attacked a 16-year-old white girl yesterday. It is said the negro confessed in part. He was hanged from a bridge, and then the mob used his body for a pistol target.

WM. A. ROGERS, Limited

Report of the Annual General Meeting of Shareholders, Held at the Company's Offices in Toronto on Thursday, February 15, 1912, at 12 O'clock Noon.

The Annual General Meeting of the Shareholders of Wm. A. Rogers, Limited, was held at the Head Offices of the Company in Toronto on Thursday, February 15, 1912, at 12 o'clock noon. The President, Mr. S. J. Moore, occupied the chair. The Board of Directors presented the following Report:—

The Directors beg to present the Eleventh Annual Report, with accompanying statement of Assets and Liabilities, as at December 30, 1911.

Table with financial data: Balance brought forward from 1910, Bonus Dividend of 20% on Common Stock, Net Profits for the year, Dividends on Preference Stock Nos., Reserved for Dividend No. 44, Dividends on Common Stock Nos., Reserved for Dividend No. 40, Balance carried forward to 1912.

A Bonus Dividend of 10%, payable in the Common Stock of the Company, has been declared, and will be payable to Common Stockholders as of record February 1, 1912.

The Directors believe that they are justified in increasing the rate of dividend upon the Common Stock from 10% to 12%, and expect that the dividend payable April 1 next will be at the rate of 3%, instead of 2 1/2%, as formerly.

The Directors have decided to issue the balance of the Common Stock of the Company, giving Preferred and Common Shareholders the right to subscribe thereon in proportion to their holdings, at the rate of \$150 per share. Notices will be sent out at once to all the Shareholders containing the terms of subscription. By order of the Board, S. J. MOORE, President.

Statement of Assets and Liabilities, December 30, 1911.

Table with financial data: Capital Stock (Preference and Ordinary), Reserve Account, Realty and Plant Reserve Account, Dividends, Debits payable, Profit and Loss Account, ASSETS (Realty, Factories, Plant, Trade Marks and Good-will, Investments in other Companies, Stock-in-trade, Accounts and Bills Receivable, Cash at Bankers and in hand), Audited and found correct, CLARKSON & CROSS, Auditors.

Toronto, 12th February, 1912. The President, Mr. S. J. Moore, said: The Report which has just been presented will, I believe, be received with much satisfaction by the Shareholders. While the profits for 1911 are not quite up to those of 1910, Stock on a 12% basis, in view of the general condition of business throughout the United States during most of the year, in both volume of business and net profit the year 1911 ranks second in the history of the business. For the last six years the profits have been as follows:

Table with financial data: Profits for 1906, Profits for 1907, Profits for 1908, Profits for 1909, Profits for 1910, Profits for 1911.

Out of the profits for the year, amounting to \$305,805.60, \$180,025.00 has been distributed in dividends, and the balance, \$125,780.60, has been retained in the business. The Directors now propose to issue the balance of the Common Stock, which amounts to \$162,950.00, at \$150.00 per share, which will provide additional capital to the extent of \$244,425.00, and which will be used in further extensions to the business.

A bonus of 10%, payable in Common Stock, has been declared upon the Common Stock of the Company, payable to Shareholders of record on February 19th. When this is paid it will make a total distribution of bonuses of \$496,550.00 to the Common Stockholders in three years. It is now proposed to cease the distribution of stock bonuses, and to place the Common Stock on a 12% basis. It is not expected, however, that this will be the end of the bonus distributions, as, if the Company continues to prosper increasingly, other bonuses may from time to time be distributed out of the Net Profits of the Company.

Our balance sheet makes the usual excellent showing in the matter of surplus of Quick Assets. These have been increased during the year by \$141,582.22. They stand as follows:

Table with financial data: Cash at Bankers and in hand, Accounts and Bills receivable, Stock in trade, Debits payable, Dividends payable, Surplus of Quick Assets.

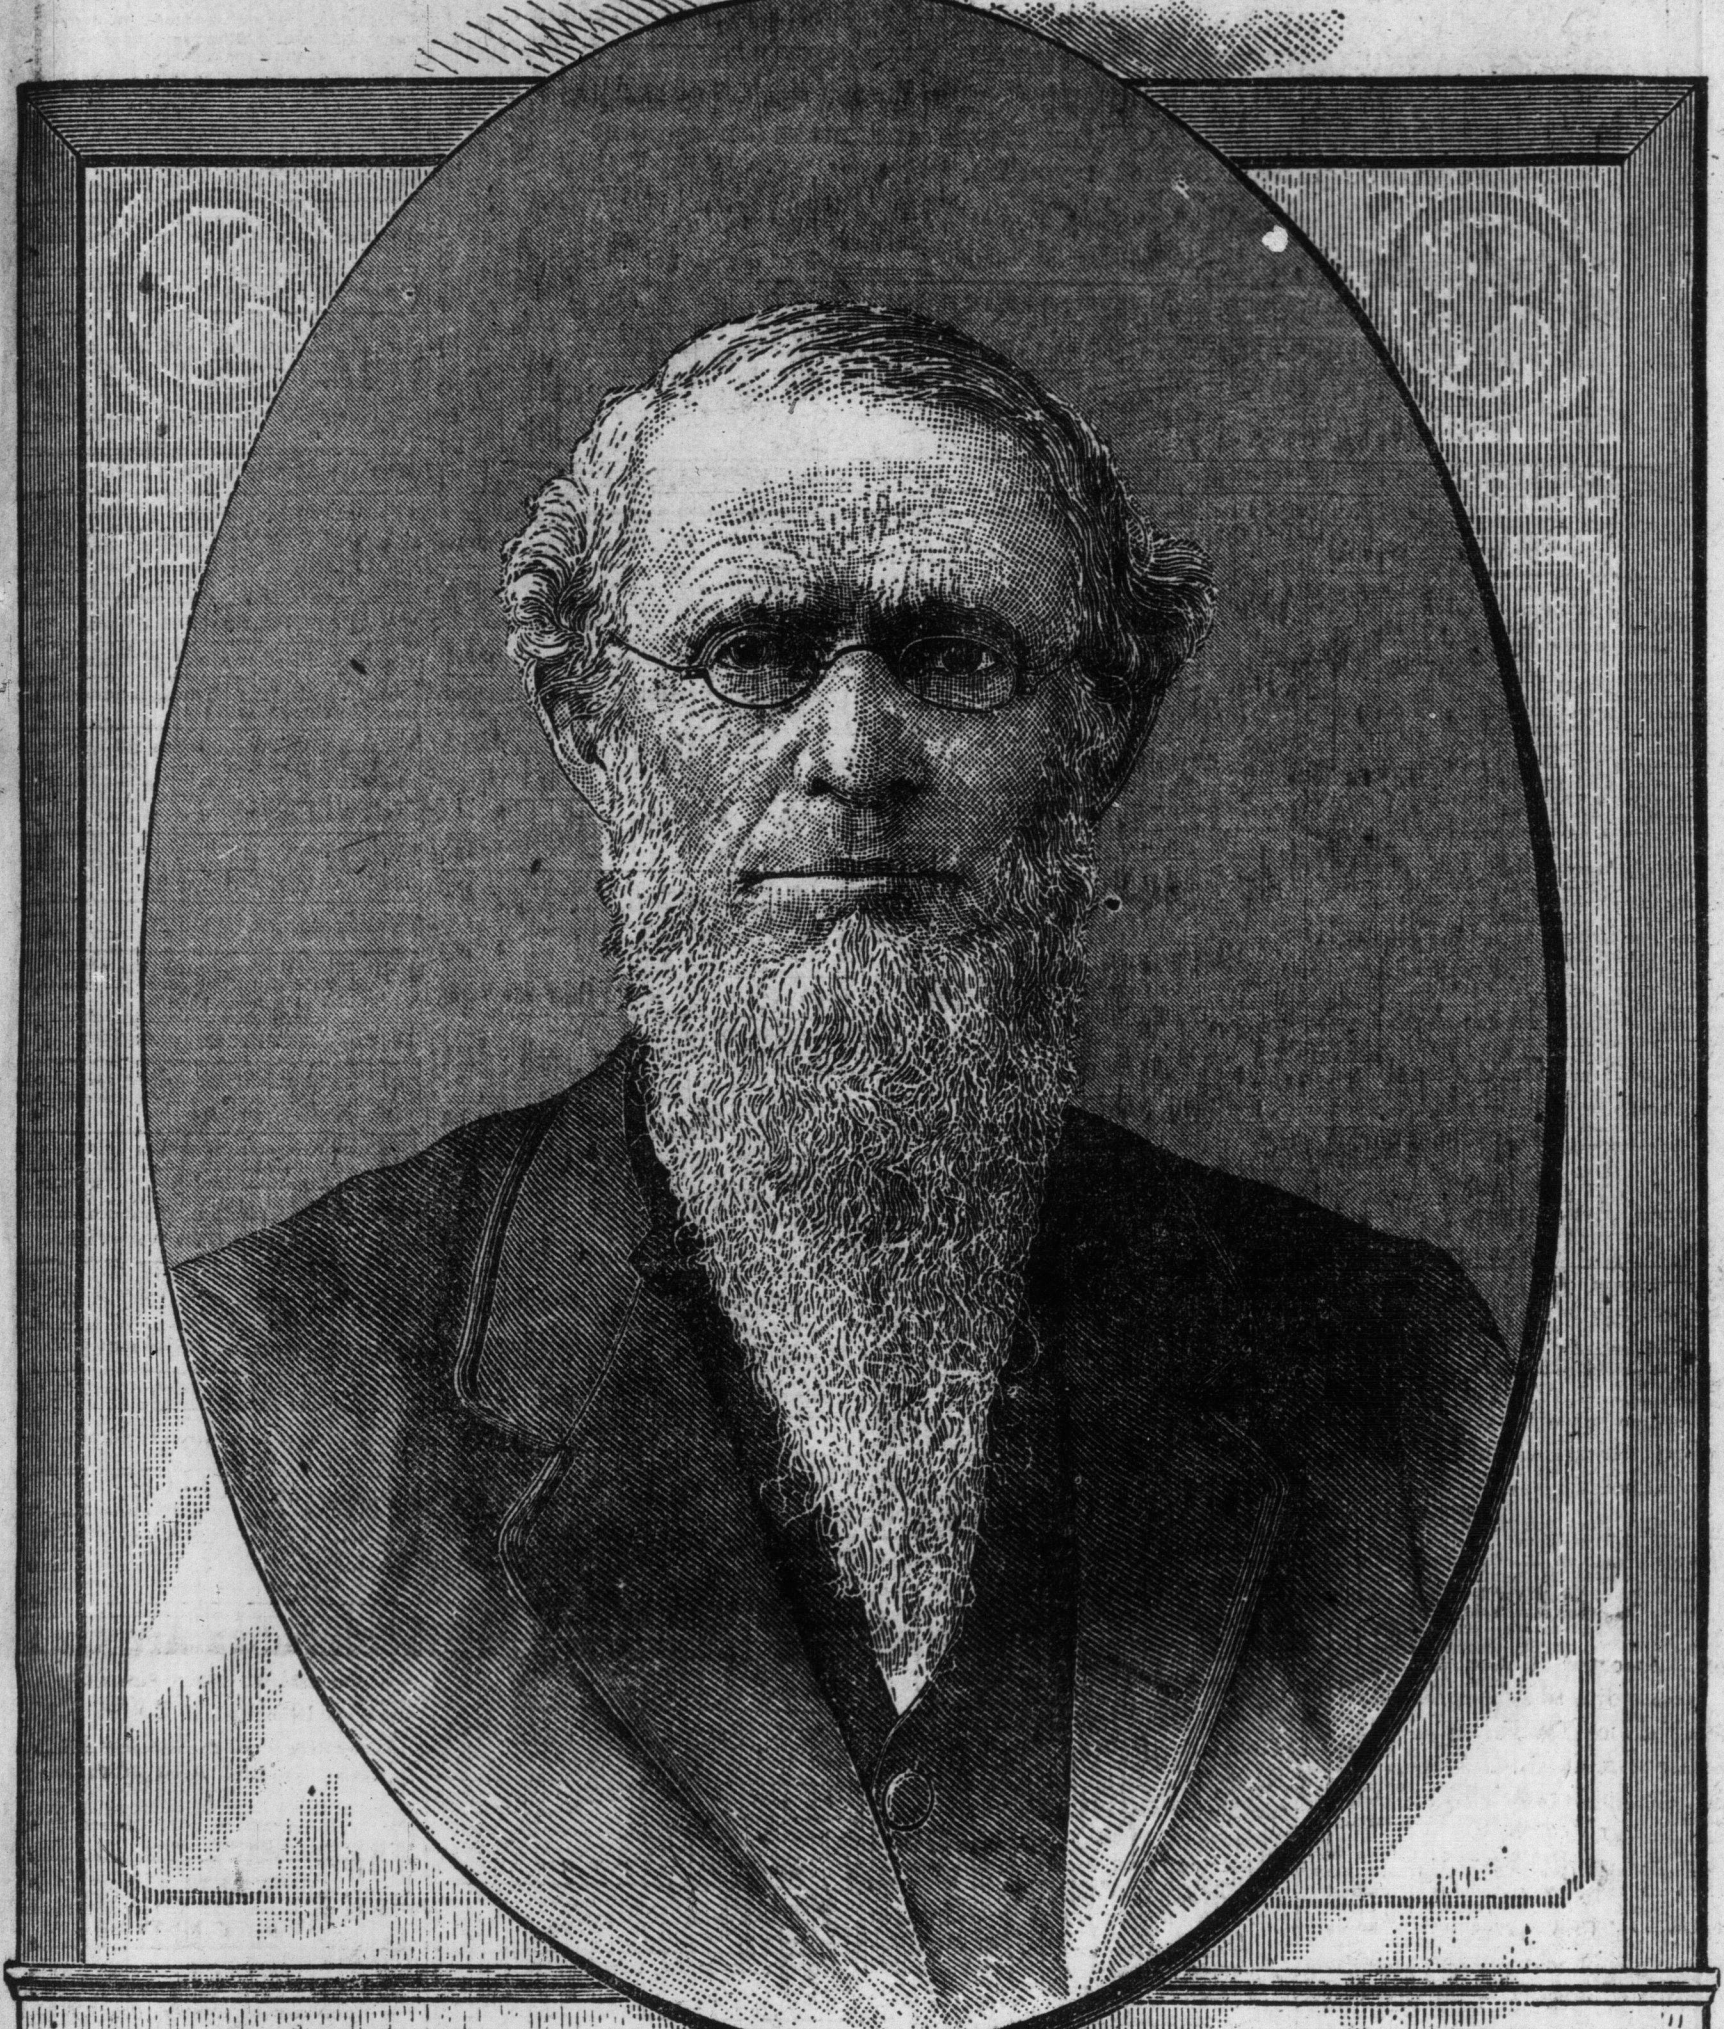

This is equivalent to \$127.00 per share of our Preferred Stock. It is a pleasure to call attention to the particularly favorable position of our Preferred Stock, as revealed by the following comparative tables:

Table with financial data: Year, Earnings, Net, Dividends on Pref. Stock, Surplus Earnings, Percentages Earned on Pref. Stock.

The average percentage earned on the Preferred Stock during the five-year period was 29 per cent., or four times the dividend requirement. Circulars will be mailed to-day to the Shareholders, giving full particulars regarding the new issue of Common Stock, and their rights in connection therewith.

I have pleasure in moving the adoption of the report, which will be seconded by Mr. Robert Kilgour.

After being seconded by Mr. Robert Kilgour the motion for the adoption of the report was submitted to the meeting and carried unanimously. The following is the Board of Directors for the ensuing year:—S. J. Moore, Hon. Chas. H. Duell, Wm. A. Rogers, Robert Kilgour, Hon. H. & Duell, Hon. W. Cary Ely and James Brown. Messrs. Clarkson & Cross were appointed Auditors. At a subsequent meeting of the Board Mr. S. J. Moore was elected President, and Hon. C. H. Duell Vice-President of the Company.

Respectfully A. W. Chase, M.D.

The Interesting Life Story of Dr. A. W. Chase

Dr. Alvin Wood Chase was born in the County of Cayuga, N.Y., and spent his boyhood in the vicinity of Buffalo, where he received his early education in a log schoolhouse. Even then, it is said, he outstripped his fellow-students and entertained the wish to study medicine. After completing his medical education, and graduating from the Eclectic College of Medicine at Cincinnati, Ohio, and the University of Michigan at Ann Arbor, Dr. Chase travelled throughout the greater part of Canada and the United States, gaining wonderful experience and invaluable information before he settled down to make his home at Ann Arbor, Mich. His success in private practice, his scientific investigations in search of better treatments, his work of collecting all the most successful prescriptions known to the profession, the publication of his now world-famous Receipt Book, the discovery of the great family medicines and the perfecting of them by tests made in his own practice, all these are incidents in a busy life of work for the benefit of humanity.

Dr. Chase became one of the most prosperous and well-to-do citizens of Ann Arbor, and was noted for his large gifts to educational and benevolent enterprises. News of his remarkable success in treating kidney and liver disorders, nervous troubles and other forms of serious disease soon spread abroad, and brought appeals for help from all over Canada and the United States. He began sending medicine to persons at a distance, but soon found it impossible to keep up with the demand on his time, and so resolved to put up his greatest prescriptions in convenient form for home treatment, and to place these in the hands of local dealers. This effort to simplify medical treatment and save the too often unreasonable doctor's bills met with a storm of opposition from members of the medical profession, who feared the effect on their practice, and looked with envy on the wonderful success of Dr. Chase. The many large gifts of Dr. Chase to all worthy objects prove that it was no mere desire for money-making that led him to so place on the market his great discoveries. Like a true physician, as he was, he thought most of relieving the sufferings of his fellow-men.

As the details of manufacturing and distributing the remedies increased, it was found advisable to form the Dr. A. W. Chase Medicine Co., with offices and laboratories in Toronto, Can., and Buffalo, N.Y. More recently the demand for these medicines in Europe has grown to such an extent that offices have been opened at St. Mary's Chambers, London, E.C., Eng., and to-day Dr. A. W. Chase's Medicines, as well as his famous Receipt Book, are known wherever the English language is spoken, and orders are received from such far-away points as Tasmania, New Zealand, British Guiana, Arabia, Nyassaland, Central Africa, and Assiout, Egypt.

RECEIPT BOOK A paper-covered copy of Dr. Chase's Receipts will be sent free to anyone mentioning this advertisement. Edmondson, Bates & Co., Limited, Toronto.

THIS BOOK HAS THE LARGEST CIRCULATION OF ANY RECEIPT BOOK EVER PUBLISHED.

ATLANTIC CITY HOTELS.

Marborough-Blenheim

ALWAYS OPEN. ATLANTIC CITY, N. J. CAPACITY 1100.

This house, which would be one of the notable attractions if located in New York, London or Paris, has added materially in creating Atlantic City's great all year season. The mild climate, southern exposure and breezing, dry sea air combined with the open piazzas and solarium overlooking the ocean to insure the comfort and enjoyment of the guests.

THE EXQUISITE MUSIC.
 always a feature, seems to be more than ever appreciated. Only solo artists of note appear.

THE WHITE SERVICE.
 used exclusively in all four dining-rooms (both American and European plans), is most satisfactory.

THE HOT AND COLD SEA WATER BATHS.
 in all private bathrooms (of which there are over 400), besides being most delightful and invigorating, have great therapeutic value. The water is pumped directly out of the ocean and contains all the curative agents for rheumatic and other troubles.

THE PURE CRYSTAL WATER.
 from our private artesian wells, 350 feet deep and flowing 200 gallons per minute pure and free from possibility of contamination, is used throughout the house for drinking and ice-making and all other purposes.

THE ROLLING CHAIRS.
 and Atlantic City's famous seven-mile Boardwalk along the Ocean's brink afford an outdoor recreation for old and young, sick and strong, in both clear and stormy weather, unequalled elsewhere in the world. Fine streets and good roads make good motor and horseback riding, and the finest all-year links in America make golf a pleasure at all times. The Theatres and Piazas are in full operation.

ART.

J. W. L. FORSTER, Portrait Painting, Rooms 24 West King street, Toronto.

London and Western Trusts Co. v. G. T. Radway, Co., et al. Motion for judgment for plaintiffs. F. McCarthy for defendants. Motion for order for examination of a second servant of the defendant company. Motion enlarged until 12th inst.

Glavin v. Aerold Mining Co.—Parkinson (Plaintiff) v. Aerold Mining Co. (Defendant) for an order of judgment for plaintiffs. Motion for order for examination of a second servant of the defendant company. Motion enlarged until 12th inst.

Judges' Chambers, Before Middleton, J. Cameron & Heep v. Cameron-Chapelle—F. Aylesworth for claimants; H. W. A. Foster for executor. Motion by claimant by way of appeal from an interpleader order made by the local judge. Order enlarged until 23rd inst. for further material.

Single Court, Before Middleton, J. Bank of Hamilton v. Pearen—A. R. Clute for plaintiff; G. A. Rodger for defendant; R. U. McPherson for executor. Motion by plaintiff for a order continuing in judgment and receiver. Order made continuing injunction and receiver until further order. Costs of the assignment of defendants. Costs of any fund or proceeds of the receiver to be paid into court.

Re Fieldstein and Helpert—J. M. Ferguson for plaintiff; L. S. Singer for defendant. Motion by vendor for an order declaring that vendor has a good title and that purchaser's title is not valid. Motion stands to supplement material.

Business Systems v. Regal Manufacturing Co.—J. A. Macintosh for plaintiff; G. D. Kelley (Ontario) for defendant. Motion by plaintiffs for an injunction. By consent enlarged one week.

Diels v. Carris—F. E. Hodgins K.C. for Quebec Bank; R. B. Henderson for plaintiff; F. Aylesworth for executor of bondholders; H. W. Mickle for interim receiver Craig. Motion by Quebec Bank to add bondholders as parties on the reference and for transfer of money in question. Order adding E. R. C. Clarkson, liquidator of a party with prejudice to right of receiver to move to stay reference. The liquidator to withdraw money in question from Sovereign Bank and keep fund intact and notice of any application to be made to be given to interim receiver.

Abbott v. Abbott—J. E. Jones for plaintiff; B. H. Sedgewick for defendant. Motion by plaintiff for an order for sale of defendant's lands to satisfy her claim for arrears of interest. Judgment: Plaintiff's charge may be enforced without separate action by a petition in the original cause. Order made for sale subject to the claims of prior encumbrancers unless such prior encumbrancers consent to a sale free from their claims. Subsequent encumbrancers consent to be allowed to prove their claims. Applicant seeks to have order provide for a sale free from her incumbrances right of dower and to provide for allowance to her of a lump sum in lieu of this right. This cannot be done. When the matter reaches the Master's office, if it appears that the execution may be made, the bond an arrangement may be made between the plaintiff and those concerned for the surrender of the dower right but this must be a matter of arrangement.

The plaintiff will have her costs of the motion and the sale out of the fund realized. Her costs up to judgment are an execution debt only.

Trial, Before Kelly, J. Dempster v. Russell—G. Slaght (Halleybury) for plaintiff; M. F. Pumarine (New Lusk) for defendant. Motion by plaintiff to recover \$2000 from certain land in the Township of Armstrong, which it was claimed was by term v. ed and paid for by last April, 1911, for damages for non-fulfillment of contract.

Judgment: Plaintiff did not refuse or fail to give defendants the clearance of encumbrances, timber dues, covenants, nor did he waive his rights under the agreement and there was no justification for defendants' failure or refusal to perform their part of the contract, and plaintiff is entitled to judgment.

I and the defendant timber agreed to be purchased and paid for by defendants and no sale paid for, calculated to be \$1200.

The trial will therefore be judgment for the plaintiff for the sum of \$2000 from last April, 1911, and costs. The claim

Pulp Wood Output Increases Slowly

More Than Sixty Per Cent. is Exported to United States for Manufacture.

OTTAWA, Feb. 15.—A review of the pulpwood exportation from Canada was issued today by R. H. Campbell, Director of the Canadian Forestry. The report reads in part:

"In 1910 only some 4000 cords more were cut for pulp in Canada than in 1909. Of the 1910 amount of 1,541,820 cords, 2,642 cords less were manufactured in Canada than in 1909, and 27,208 cords more were exported.

"Over 60 per cent. of the pulpwood cut in Canada during 1910 was sent out of the country without further labor being expended on it into pulp and paper being manufactured in the United States. The amount paid for this wood was \$3,204,042, or an average of \$6.38 per cord. As the average paid by Can-

Professionalism the Feature Of Quiet Day in Wall Street

New York Market Does Little More Than Hold Its Own—Few Developments of Interest.

NEW YORK, Feb. 15.—Under the leadership of Union Pacific and United States Steel, the stock market developed moderate strength in the first half hour of today's trading.

World Office, Thursday Evening, Feb. 15. The two new developments in the Canadian financial world yesterday—the motion on Winnipeg Electric Railway and the stock bonus and increased dividend on Rogers common—both of which were published in this morning's World, had been pretty fully discounted in the stock markets, as neither issue showed any activity to-day.

On the whole the Toronto market did nothing at all to-day in the way of interesting developments. The speculative movement was narrow, and in the particular instances where price alterations were in evidence, the changes were confined in extent to the movement of a few shares.

Several Small Advances. The South American traction issues, Rio and Sao Paulo, showed a more responsive movement to-day, and both of these securities showed advances. Rio selling up a fraction to 113 1/8, and Sao rising to 121 1/8, a full point above yesterday's closing quotations.

There was a fairly substantial investment done yesterday, and the market, and this carried higher. The purely investment issues, however, Electric Development was the strong spot, with a further advance to 207 1/2.

Standard Oil Dividend. NEW YORK, Feb. 15.—The Standard Oil Co. of New Jersey to-day declared a dividend of \$5 a share, compared with \$7 declared a month ago.

Another Bank Raises Dividend. The Bank of British North America has increased its dividend from 6 to 7 per cent per annum and is also paying the usual bonus of 1 per cent. The present declaration is 4 per cent. for the half year, with bonus of 1 per cent.

Oil Company Cut Melon. NEW YORK, Feb. 15.—Stockholders of the Vacuum Oil Co. to increase capital from two and a half million to fifteen million. New stock will be issued at par.

Copper Statistics. LONDON, Feb. 15.—The fortnightly statistics show that the European stocks of copper on Feb. 14 decreased 822 tons, while copper supplies abroad decreased 1,450,000 tons, making a total of 2,422 tons.

NEW EXCHANGE MEMBER. Mr. R. R. Bonnard was elected a member of the Toronto Stock Exchange yesterday. Mr. Bonnard has had a wide financial experience.

Hollinger Up a Dollar a Share Drastic Changes in Porcupines

Mining Market Declines Rapidly in Early Trading, But Scores Sharp Advance Later On—Cobalts Quiet.

World Office, Thursday Evening, Feb. 15.

The Porcupine mining stocks under the influence of the exchange-to-day. Early in the session prices showed a stubbornly buoyant undertone, but this soon gave way to an easier feeling, and under liquidating sales from all quarters, prices dropped in an alarming manner. Immediately after the noon recess, however, the market took another sharp turn, and quotations advanced rapidly, in some instances passing the records of the early trading, and closing generally at small net gains for the day.

The early realizing under way in the exchange was accepted as the effort of a bear coterie of traders to depress values, and that the movement was due to the fact that supporting interests let matters take their own course. The shorts, in fact, were selling into a bag, as was quickly evidenced when the resultant covering movement set in. Prices rose much more quickly than they had declined, and in some instances more than atoned for their early weakness.

Hollinger came to the front in no uncertain manner, the stock scoring a big gain for the day. In common with the rest of the list, the shares declined during the morning, the price getting to 45 cents under yesterday's low figure at 31.90. At that quotation, the movement here all the indications of short covering, and its extent is plainly evidenced in the assertion that the price advanced 30 points to \$1.50, and closed 10 only ten cents at that figure.

The shake-out in the cheaper Porcupines carried values down in short order, and in the early trading Domes Extension sold as low as 22, and Vipond at 42. Both these issues moved up rapidly later on, however, the former advancing to 45 and Vipond to 45. Other stocks showed much the same action, that of course, to a less extent.

There was nothing startling in the Cobalts, and outside of a few fractional price changes, little of interest was shown. Trading on the whole was more active than its usual wont.

Range Gold Output.

LONDON, Feb. 14.—The production of gold by the mines of the Rand in January was 727,060 fine ounces, valued at £1,190,830, compared with 709,908 fine ounces in December, 691,000 fine ounces in January last year, 691,287 ounces in January, 1910, and 615,113 ounces in the same month of 1909.

BIG NEW HOTEL FOR PORCUPINE CAMP

Porcupine, Feb. 13.—(From Our Man Up North.)—May 1 is the date set for the opening of the Hotel Continental, a new structure on the Porcupine Camp townsite, and the building is the work of prominent men from the front will attend. The day will be made a grand event.

The hotel is a model of perfection for a district so high. Seventy-seven rooms, steam heat, hot and cold water, large reception halls and parlors, are a few of the features not ordinarily found in a mining camp hotel.

The name, "Hotel Continental," will be illuminated across the front entrance in electric light. Major Bickford, who heads the syndicate owning the hotel, left the camp for Toronto yesterday.

APEX TO RESUME IN NEAR FUTURE

Porcupine, Feb. 13.—(From Our Man Up North.)—On Feb. 21, members of the board of directors and officers of the Apex Mines, Ltd. will visit the property. A thorough inspection of the work will be made and plans outlined for a continuance of operations. Work was closed down recently because of the impossibility of getting water for the power plant.

The Apex is considered one of Porcupine's fair prospects, lying on the West Domes ridge, one-half mile to the west of the Big Dome property. Prospecting work, after the installation of the compressor plant, had not progressed to a point that showed the full extent of the main lead.
