Hears Alderman Took a Bribe Lobbyist Spends \$1200 to Secure Permit \$3300 For Vote of Puddy Abattoir

**Dr. Lynd Mentioned in Affidavit
in Hands of Mayor With Ex-
Alderman Ramsden as One
of the Go-Betweens—Charges
Indignantly Denied and
Claimed to Be Wrongly
Based on Stolen Letters.**

ALD. LYND: "I have received no money whatever. My reason for changing my vote was fully explained in council at the time. A judicial investigation will be held immediately in the only answer I have to make to any charge that I have been guilty of accepting a bribe to influence my vote."
EX-ALD. RAMSDEN: "I may have spoken to several aldermen on the matter, but as far as bribery or money is concerned I know nothing about it."
EDWARD PUDDY: "Not a dollar passed from the firm's hands in any such way as that claimed."
ALLAN MCENAB: "It is entirely untrue. Puddy Bros. acted upon my suggestion. Don't put up a cent."
GEORGE ELLIOTT: "I know nothing of the matter. I never paid one cent to any alderman or agent to bribe an alderman, nor have I received any money from Puddy Bros. to promote their interests."

ALD. DR. A. LYND.

CHARGE IS BRIBERY.
That \$1200 was distributed between Ald. Lynd, ex-Ald. Ramsden and Geo. Elliott, a company promoter and a fourth man whose name is not given, but who acted as a go-between, in order to influence and secure the granting of a permit for the establishment of an abattoir by Puddy Bros. on Paton-street, is the serious charge which was made by affidavit and placed before Mayor Urquhart yesterday.

THIS AFFIDAVIT.
Much secrecy is maintained as to the contents of the affidavit, but it is substantially as follows:
That on the night of July 18, 1905, the final vote of the city council was taken, in the division of the city. The vote was taken by Ald. Lynd voting for the permit, which was granted by a vote of 12 to 9. The names of the aldermen who voted for the permit, and the names of the aldermen who voted against it, are not given. The amount named is \$3000, which is charged, was handed to Ald. Lynd as his share.

OPPOSES CATHOLIC PARTY.
True Witness Says There's Nothing to Agitate Against.
Montreal, Oct. 13.—(Special.)—The True Witness, organ of the English-speaking Catholics here, says: "Our French-Canadian contemporaries have been giving us the affirmative answer to the question of a Catholic centre party in the Canadian parliament. The discussion will give a new theme to their Orange conferees up in Ontario so that the declaration of another newspaper war is imminent."

**CHURCH CENSUS NOV. 29
THE MEETINGS NEXT WEEK**
All the Wards Will Be Organized—
Where Ward Meetings
Will Be Held.
The church Toronto house-to-house visitation for census was held on Wednesday, Nov. 29, 1905. A. M. Deane, the associate secretary, has made thorough arrangements in the various wards, so that the city will be entirely covered in order to bring out an account for every churchgoer. Ward meetings have been arranged for every division of the city during the following week.

MR. PATERSON TALKS.
A World reporter, was the first person to break the news to John Paterson, K.C., that the story had leaked. He was much surprised when asked what there was in the bribery charges he had made against the aldermen. "I didn't make any charges," he stated, and refused to believe that the matter was becoming public.

TERMINATING LOAN RE-NEWED.
Word has been received from Hon. Col. Matheson, who is in England negotiating for the renewal of the Temiskaming Railway loan, that he has arranged for the renewal of the loan by the Bank of Montreal.

GOV'S HOME COMING.
Dummer Township People Arranging Reception.
Peterboro, Oct. 13.—(Special.)—The residents of Dummer Township, particularly around the home of Charles Gow, regard the sentence of three months imposed on him for the manslaughter of the boy Thomas E. Hill with considerable satisfaction, as many of them apprehended that he would receive a much severer sentence.

**NO BLAME PLACED BY JURY
EVIDENCE TOO CONFLICTING**
Find That Michael Quealey Died From Carbolic Acid Self-Administered, But Why is Not Known.
Coroner McConnell last night concluded the inquest on Michael Quealey, who died from a dose of carbolic acid, said to have been taken by mistake.

SENATOR FULFORD MAY DIE.

Newton, Mass., Oct. 13.—The condition of Senator George T. Fulford of Brockville, Ont., who was injured Sunday in an auto accident, in which his chauffeur received fatal injuries, was not encouraging to-night.

Sir Henry Irving is Dead

"The Rest is Silence."

Most Distinguished Actor Receives Final Call—Succumbs From Attack of Syncope After the Performance at Bradford, England.
London, Oct. 13.—The English-speaking world has suffered an irreparable loss by the sudden death to-night of Sir Henry Irving, who was universally regarded as the most representative English actor of contemporary times. Sir Henry died literally in harness. He was giving a series of farewell performances in the English provinces and this week was playing an engagement at Bradford, appearing in several favorite roles. Thursday he represented King Henry's Daughter and 'The Bells,' and appeared in the excellent health, taking the exhausting part of Matthias in the latter play with all the vigor of youth.

VALUABLE WRECKAGE
A actor once applied to him for an engagement. "I am very sorry," said the latter, "but I have no opening. As the applicant was withdrawing Sir Henry sharply stopped him and asked: 'Are you married?' 'Yes,' replied the other with a sigh. Sir Henry told him to wait a moment, and scribbled a few lines. 'Here,' said he, 'take this with you. It is a letter of authority to give the unlucky number £10.'"
Dices in Cases.

SPUR FOR BOWMANVILLE.
Electric Connection Between Town and G. T. R. Favored.
Bowmanville, Oct. 13.—(Special.)—By appointment Messrs. C. E. Dewey, division engineer, M. S. Blacklock, superintendent eastern division, and other officials of the Grand Trunk Railway, to-day met in conference the mayor of Bowmanville, D. B. Simpson, K.C., Messrs. Alexander, Mitchell, Rehder, Wilson, Finlay and other representatives of the manufacturing interests of the town to try and agree upon a plan to provide better shipping facilities.

CHEESE MAN DISAPPEARS.
Joseph H. Wilson of Mountain Station is Heavily Injured.
Brookville, Oct. 13.—(Special.)—The people of Mountain Station and vicinity and particularly the patrons of Mountain No. 1 cheese factory are exercised over the disappearance of Joseph Wilson, proprietor of that factory. Wilson disappeared Monday on the noon train Monday and was expected home that night. He failed to return at the appointed time, and next morning there was nobody to receive milk at the factory when the patrons came around.

GLUES, BUT NO MURDERER POLICE STILL BAFFLED

Attorney General Will Send Special Officer To-Day to Probe Hamilton Mystery.

Hamilton, Oct. 13. (Special.)—The simple truth about the murder case today is that there is not one new development. The police have not one good clue to the identity of either the victim or the murderer. Crown Attorney Washington to-day applied to the attorney-general's department for a provincial officer and he was notified to-day that a detective would be on the job in the morning. The people of the city are getting worked up to a state of nervousness similar to that which existed after the Barron tragedy, and the police have been called to several hotels to assure the people that the murderer had not taken refuge under any of the beds. Two constables were committed to the crime, Mrs. Crowe, 27 George-street, to-night. She thought she heard suspicious noises, and the constables had to search the place before she was satisfied.

As stated in the World yesterday the assault theory has fallen flat thru the evidence of the doctors who held the post-mortem examination, but there is no new light on the mystery. The fact that the handkerchief was found in the dead woman's mouth led at first to the suspicion that it had been used as a gag, but it is such a small and flimsy affair that it would not serve the purpose. The police believe that it may have been used to chloroform her.

Frank Carter, proprietor of the hotel on the mountain, says that a man answering the description of the murderer walked into his place Wednesday night and asked for a drink. When he was shown a paper containing the murder description, he was not in the least perturbed. He carried a coat on his arm and held a parcel wrapped in a newspaper in one hand. Roy Dawson, a teamster, followed the man to the Mountain View Hotel, where he disappeared.

Prizes for Well Kept Lawns. The prizes given by the City Improvement Society for well kept lawns and flower beds were presented this evening before a large gathering in the council chamber. President Steele commended that private interests had gobbled up nearly all the attractive spots on the beach. He said the park board should take steps to acquire more park property there. He also endorsed the proposition to establish a local sanitary department for consumption. The prizes were presented by the following young ladies: Misses Marion Forrester, Wilhelmina Brick, Edna Ergin and Dorothy Hobson. The winners of the first prizes were: District No. 1, Jas. Sweetlove, No. 2, Chas. Mortimer, No. 3, George Roberts, No. 4, C. D. Nash, manufacturers' competition, Thomas Tipton Co., special prize, Chas. Mortimer.

Nash Inquest. The coroner's jury on the Nash accident will meet Tuesday morning at 10.30 at the City hospital to take the evidence of Edwin Dymos, the young man who was injured in the mishap. The assessment commissioner has received many notices of appeal against the business assessments.

The case of F. R. Close of the Duncan Lithographic Co. Company, who appeared in court this morning, charged with importing an alien workman, S. Globe, was adjourned for a week.

David S. Beapley, the aged man charged with immoral conduct, was fined \$50.

Bishop DuMoulin attributes the prevalence of crime in Hamilton and the

province to the Godless system of education. The effects of the Melbourne Macdowell Company were sealed last evening on behalf of John D. Egan, Gen. who had advanced \$50 to the company. They were freed later by an order on the box office at Niagara Falls.

The Toronto Daily and Sunday World delivered to any address in Hamilton before 7 a.m.; daily, 25 cents a month; Sunday, 15 cents per copy. Hamilton office, Royal Hotel Building, Phone 965. David Harum cigars, 2 for 15 cents, or 4 for 25 cents, at the store at Billy Carroll's Opera House Cigar Store, ed.

NEW EYELIDS CUT FROM ARM. Novel Skin-Grafting Process Successful, and Kerr's Sight Saved.

Columbus, O., Oct. 13.—W. L. Kerr was the victim of a natural gas explosion here some months ago in which his lower eyelids were burned away. His sight was not injured, but the condition of his eyes, because of the unprotected condition of his eyes, he would soon become blind.

An attempt to graft the bases of the missing eyelids made some weeks ago failed, but now, as a result of an operation performed at Mount Carmel Hospital, Kerr has new eyelids. In this operation living tissue was cut from his arm and quickly fashioned into lids, the bases at the same time being roughened for grafting. The new lids were then placed in position and secured by delicate ligatures.

This was done last Saturday. Kerr's eyes were bandaged shut and left in that condition until today. When the bandages were removed the surgeons pronounced the operation a success. The new lids have grown fast and Kerr will be very slightly disfigured. His sight will be saved.

ROOMS FULL OF PAPER. Release Menace as Hotel by Saving Tons of Newspapers.

Chicago, Oct. 13.—Fearful that the contents of the rooms were a menace, by fire, to the hotel and all its occupants, members of the fire department yesterday broke into the suite occupied for many years by Mrs. Hattie Cotton in the Plaza Hotel.

For years no other person had entered the rooms. Mrs. Cotton lived the life of a recluse, and would permit no one else to cross her threshold. The new room had grown fast and Kerr will be very slightly disfigured. His sight will be saved.

C.A. RISK DENTIST. Yonge and Richmond Sts. HOURS—9 to 6.

ASKS THAT HER SLAYER SHALL NOT BE HANGED. Wilmington, N.C., Oct. 13.—Mrs. Mary E. Wright, aged fifty-five years, was shot to day by her son-in-law, McGraw, and died after pleading for his life for several days and was in a desperate state of mind before the shooting. He lived with his mother-in-law. He entered the kitchen where she was and without a word of warning fired the bullet entering the right breast. Mrs. Wright pleaded that her son-in-law had not been on account of his three little children.

McGraw said he had been intending to kill his mother-in-law for some time. He evidently intended to commit suicide for he had written a letter telling what should be done with his children and saying he was driven to the crime by his mother-in-law and Christian Science. He warned all to beware of Christian Scientists. He was committed to jail without bail.

A GUARANTEED CURE FOR PILES. Itching, Bleeding, Burning, Stinging Piles. Your druggist will refund you if TAZO OINTMENT fails to cure you in 14 days. 25c.

R. A. Smith Cable Director. New York, Oct. 13.—R. A. Smith of Toronto, Ont., was elected a director of the Commercial Cable Company to-day.

MOTORMAN TELLS HIS STORY: CAR WAS BEYOND CONTROL

Dean Swears That Brake Did Not Respond—Was Not Chasing the Victim. The death of Cyrus Orton Rockwood, who was riding on his wheel, run down by a car at Queen and McCaul-streets, Tuesday morning, occupied Coroner Orr and a jury at the city hall last night for three hours. The court was crowded. Motorman Dean, who has been in custody since, was in the care of two policemen. He gave evidence, and when Crown Attorney Drayton put persistent questions, occasionally rubbed his head, as if in perplexity.

SINFUL NEGLECT

How is it possible for a sane man with good teeth to destroy them through careless neglect? SOZODONT is positively beneficial. It has made the toothbrush habit a real pleasure.

SOZODONT TOOTH POWDER

FORMS: LIQUID, POWDER, PASTE.

HEATERS

Globe Heaters, regular \$12.50, for \$10.00
The Toronto Heater, regular \$15, for \$12.50
Hot Blast Heaters \$12.50
Parlor Heaters, regular \$12, for \$10.00
Very Large Parlor Heaters, regular \$22.50, for \$20.00

GRAIN DEALERS PROTEST

Grain dealers and millers are complaining hard of the car shortage which is inconveniencing them greatly in their trade. The railway commission was asked to deal with the railway companies for the blockade seems to be so serious that it will greatly interfere with trade. At the board of trade yesterday afternoon numerous complaints were made at a meeting of the grain dealers' association.

THREE OFFICIALS GO

Employees of London Asylum Noted of Dismissal. London, Oct. 12.—(Special)—Daniel McKenzie, William Noble and William O'Neill were notified to-night of their dismissal. McKenzie was storekeeper for 12 years. Noble is painter, and O'Neill stoker on the insane asylum staff.

MINTO'S COACHMAN INJURED

London, Oct. 13.—John Wilks, Minto's coachman, a Canadian, who came over from Canada with Minto, is in a precarious condition thru his horse bolting, being thrown from the box, and suffering from a fracture of the skull and severe injuries to his spine.

CHEESE MARKETS

Listowel, Oct. 13.—At the cheese fair held here to-day 9 factories brought 3575 boxes of cheese. On the board 1000 was the best bid. Buyers afterwards offered 10c generally, but so far as normal no sales were made; salesmen were not anxious to hold a quarter or an eighth of a box. The world have bought a good deal of the cheese, but the prospects for doing business tonight are not bright.

SOZODONT TOOTH POWDER

FORMS: LIQUID, POWDER, PASTE.

The First Cost of a GERHARD HEINTZMAN PIANO

is more than any other Canadian instrument, but it is by far the cheapest piano in the end, as it will last a lifetime, the tone remaining rich and full after years of use.

The Gerhard Heintzman never disappoints the most exacting musician. You cannot afford to overlook these facts when purchasing a high-grade pianoforte.

Gerhard Heintzman, Limited 97 Yonge Street, Toronto.

Hamilton Warerooms—127 King Street East.

SIR HENRY IRVING IS DEAD SWears ALDERMAN TOOK A BRIBE

Continued From Page 1. Sunderland Theatre in 1856, and later became a member of the stock company in Edinburgh. In 1859 he played at the Princess Theatre, London, then returning to the provinces where he remained till 1866, when he reappeared in London at the St. James, and successively at the Queen's, Drury Lane, Gaiety and finally at the Lyceum, with which he was to be intimately associated. During this his period of apprenticeship he was specially noted for his eccentric comedy, creating such parts as that of Alfred Jingle, one of Dickens' cleverly drawn characters in "The Pickwick Papers."

His first distinct hit was made in 1870 as Digby Grant in Albany's "The Rose," which he followed up by other notable impersonations. In 1874 he appeared at part which is at once of ambition and despair of all actors—Hamlet, Prince of Denmark. De-pile his peculiar mannerisms and angularities in eccentric comedy, creating such parts as that of Alfred Jingle, one of Dickens' cleverly drawn characters in "The Pickwick Papers."

He was married to Florence, daughter of Surgeon-General O'Callaghan, and his eldest son, Henry Brodribb Irving, who has inherited much of his distinguished father's histrionic genius. He married Miss Dorothy Baird, who created "Tribby" at the Haymarket Theatre in 1885. Sir Henry was an admirer of the actor-manager, and was a member of the Alpheanum, Garrick, Marlborough and Reform Clubs.

Dr. Adam Lynd, alderman for the sixth ward, whose name is mentioned in the affidavit, was not indignant when The World asked him what his vote in favor of Puddy's having the location given to the city was worth. He said the result of his having visited the district, when with some members of the city at heart and with no self-interest, except that of the public building would do no harm on the new location, so exercising his right as a citizen to do so.

He said the result of his having visited the district, when with some members of the city at heart and with no self-interest, except that of the public building would do no harm on the new location, so exercising his right as a citizen to do so.

was quite legitimate in such cases and usually resorted to. He also denied absolutely that he had any connection at all with Mr. Elliott. He referred to the strong feeling that he stirred up in the neighborhood and gave the impression that this latest phase of the matter was simply a move on the part of the agitators to support their objections.

When it was suggested to him that an affidavit was a serious matter, he said he fancied they would find that they had run into a mare's nest.

Mr. Macnab's Denial. Allan Macnab, who was counsel for Puddy Bros., is vigorous in his denial that any crooked work was done or even attempted.

"It is entirely untrue," he said, when he had read the newspaper statements. "We never paid a cent to anybody. Puddy Bros. acted upon my instructions. Don't put up one cent. I told them when I took the matter in hand for them: if we cannot succeed in a legal way, we must go to court. Don't give a cent to anybody. I can get affidavits from every one of the firm to say they have spent money to secure a permit except in legal fees."

When the Messrs. Puddy note to approach anybody or offer anyone money. We always absolutely refused to do anything like that."

The reporter suggested that from the letter of the instructions it might be inferred that the matter was from Aldermen had been expected.

"Well," said Mr. Macnab, "it might be suggested that it was from Aldermen we might carry the thing thru. But I told the Puddys not to do anything like that for you would be just as amenable to prosecution. We fought the matter clear for the whole of the year."

Mr. Macnab repeated: "I told them, 'You can put a good many things thru if you put up the coin, but keep your skirts clean and don't try to buy anybody up. And we paid nothing to anybody. We took particular care not to do that.'"

Mr. Macnab recalled that the remarks of a member of an opposing delegation to the city council had hinted at such conduct, and he had spoken to George Puddy about it. He had said that if he had never paid a cent to anybody."

MEBRIED LEFT AT THE POST. Indigation, as deeply as it could be understood on a telephone, when he called up, was expressed by Ald. Macnab. He had not spoken to George whether he got any of that \$300 to help along the Driving Club. During his visit to the city as a councillor he has been cleared. No one of the lobbyists, the skaters or anyone else with sharp axes to grind have approached him with oil for the grindstone. From his attitude as expressed very freely, there is absolutely nothing in being Alderman these days except the honor, which is liable any time to be besmirched by allegations against some other Alderman without mentioning any names.

"I am not a man with the financial tale to tell as to how good any civic project would be to the town, have so far as the Alderman MEBRID, but he admits that he has the consolation that there are nearly three months left before his time to meet the electors comes again."

THE VOTE IN COUNCIL. This was the way the vote went on the final division. For the permit—Ald. Fleming, Harrison, Hay, Geary, Lynd, McBride, Church, Stewart, Jones, Noble, Dunhill.

Nays—The mayor, Controllers Hubbard and Spence, Ald. Chisholm, Vaughan, Keeler, Graham and McHugh.

The vote cast by Ald. Lynd in this occasion, he having previously recorded himself against the granting of a permit, came as a surprise to his constituents. Ald. Lynd had appeared at meetings of the Northwest Ratepayers' Association when the alderman matter was being discussed, and had declared himself opposed to the establishment of a skating rink.

The permit was first granted by council 18 months ago. It was revoked at a subsequent meeting it went thru the courts until Magistrate Kingsford confirmed the original permit. The matter was re-opened in council this time and was finally disposed of in June last.

B. C. RANCHER SUICIDES. London, Oct. 12.—Ozell Smith, formerly a rancher in British Columbia, shot himself dead in his boarding-house of Oxford-street, in consequence of losses in farming and the non-success of a patent in connection with bridges. He wrote pathetic farewell letters to his friends, including his wife.

PLANNING MILL BURNS. Luan, Oct. 12.—The planning mill and wash and oar factory belonging to Rylvan Gibson & Sons of this place were completely destroyed by fire at 11:20 tonight. The origin of the fire is a mystery.

WHAT RAMSDEN SAYS. Ex-Ald. Ramsden, who prominently appears in the case, and is a business friend of George Elliott, admitted freely that he was a friend of Puddy Bros., and that he thought that they were entitled as manufacturers to a location in the city, and that there had been a lot of opposition to them, much of which had been unmerited. He had been interested in getting the Puddys the site as their friend and in the city's interest. He had supported them when in the council and since leaving the council what influence he had with his old colleagues he tried to use for the furtherance of the cause.

"I may have spoken to several Aldermen about the matter, but as far as bribery money is concerned I know of nothing about it. I wanted them to get a location and voted for it when I was in council."

NOT A DOLLAR SAYS PUDDY. Edward Puddy, senior member of the firm of which there are six brothers, declared to-night that he had never so far as he knew not a single dollar had passed from the firm's hands in any such way as that claimed.

When asked as to who was referred to by the mention of an ex-alderman, Puddy said he did not know. He remarked, however, that he had asked ex-Ald. Ramsden, along with others, including Thomas Crawford, M.L.A., to use their influence in securing the permit.

He firmly denied that overtures had gone beyond this stage at any time, and thought that what had been done

"ON HIS UPPERS."

How did that slang phrase originate? "Weary Willie" the tramp, usually wears worn-out shoes.

But all worn-out shoes have the "uppers" (or portion above the sole), left in reasonably good condition. This is why "Weary Willie" is said to be "on his uppers."

It is the soles of shoes that wear out too soon, and a pair of "uppers" re-soled always look "second-hand."

"Took a long time to discover a process of making sole leather that would wear as long as the uppers."

"Had to be tough as rawhide, but flexible, light, and practically water-tight."

"Quick-Oak" Sole leather is the nearest thing to it that has ever happened and it wears like hatred.

Put a piece of this "Quick-Oak" Sole leather in a pail of water over night and it will hardly be wet through in the morning.

Put almost any other sole leather in the same vessel and one hour will completely saturate it. Consider the difference to your feet in damp weather, and to your purse all the time.

"Quick-Oak" Sole leather can be had only in "The Slater Shoe," because The Slater Shoe Company control the supply of that brand in Canada.

Every genuine "Slater Shoe" now has a "Quick-Oak" Sole, and the slate-frame trademark is stamped with the price on the lining inside, \$3.50, \$5.00.

The Slater Shoe

528 Queen Street West 117 Yonge Street 810 Queen St. East (J. Jupp & Son) Thos. Powell, Toronto Junct.

THE REPOSITORY.

Catalogues mailed on application. BURNS & SHEPPARD, Auctioneers and Proprietors.

His First Name is Charlie. A student in his shirt-tails provided considerable amusement for the residents of the park district on Gerrard-street for an hour yesterday before he came into the possession of a policeman at Jarvis and Gerrard-streets, and jumped from a second-story window as the first act of the excitement which he was out to create. He was noticed more because he had from the sergeant by an inquisitive thought it necessary to wear only a citizen. His first name is Charlie.

The Man

AT THE Desk.....

The man who uses Writing Inks will tell you that there is a vast difference between them. Some inks cake on the pen and do not flow smoothly—but

BARNES' NATIONAL INKS

are not in that class. They flow evenly from the pen, they retain their gloss and color, and do not cake or corrode the pen.

Ask your Stationer for the Barnes Writing Inks, and take no other. The Barber & Ellis Co. Limited 72 York Street.

ESTABLISHED 1864. JOHN CATTO & SON

See the new Bohemian Dress Goods in evening shades, offered at 75c a yard. The immense showing of greys and black and white suitings and fabrics is a prominent feature of this season's stock.

HARD JOB TO CONCEAL \$100,000 IN BANK NOTES

Bankers and bank clerks familiar with the bulkiness of a package of currency of the denominations specified in the account of the Adams Express Company robbery believe that the thief had a confederate who was aiding him in getting away with the stack of bank notes. They point out the fact that the package would fill a big suit case.

If Edward G. Cunliffe is carrying about with him the package of \$100,000 in currency that he is making a hard time of it concealing himself. There are some 2,000 bank notes in the package and it is not such an easy matter as might be imagined to lug them about without discovery.

They will fill ordinary dress suit cases and leave no room for collars, even when compressed, as is usually done by banks in making a shipment. Although paper money is light, \$100,000 with a considerable portion of it in small bills, cannot be carried about by one hand all day without causing some fatigue to the strongest man who has to lug it about in a suit case will not find his job a sinecure.

The bulkiness of the package that would be necessary, if the money were all carried in one bundle, is a strong argument against the theory that the thief carried the money in the trunk of a motor car. The trunk of a motor car is not large enough to hold a bundle of \$100,000 in bank notes.

The company was more than usually strong. Its chief attraction was Mr. Belmont's Gogorza, who proved himself a very capable man. Mr. Gogorza sang a heavy program very near dividing the enthusiasm of the audience with the other members of the company. Messrs. Hollman, Cellist, and Webster, who sang, acquitted themselves with regular credit, and received their share of well-merited appreciation.

Request to Church of Ascension. At the harvest home services of the Church of the Ascension last night the Rev. Mr. Vance, announced that a member, who had recently died, had bequeathed \$2000 to the church.

F. Wilkinson of St. Peter's Church preached the sermon. The services will be continued on Sunday, when Rev. G. C. Walling will preach. The morning and the evening services will be held on the 17th.

THE AMERICAN RUSH—American Tourist: "Say, how long will it take to see over the ruins?" Caretaker: "About an hour, sir." American tourist: "And how long will it take you to tell us about it?"

Man Medicine Receipt The Great Prescription for Man Medicine is Sent Absolutely Free—The Power Proof of Perfect Potency in Every Man Now Within Reach of All and the Prescription Free.

Your youth can and will come back again. Prove in your own discouraged system the power of the marvelous Man Medicine of the

There is iron in the blood, just as there is iron in the earth, and the human body can be mined as the earth is mined, and human life is earth life. Iron is the life-giving element in the blood, and without it, the body is as dead as the earth without iron.

Dr. Chagnin was so beloved by the inmates of the hospital that enough of his distributed blood to allow of the casting of a handsome medal of two ounces weight. A man seen here is, it is very fine and pure. There is, however, little likelihood of its ever supplanting the iron from the earth.

A New Standard. (London Outlook) Europe by the experiences of the war that there is to-day no western nation with a fibre so hardy, with the spirit of unity so intense and so extensive, with the capacity for self-surrender at once so disciplined and so instinctive, and with the sense of obligation so universal and positive, as Japan's. To a degree that the Occident not only cannot approach but finds it hard even to realize, Japan is a state animated by the passion of sacrifice for public ends. Europe, on the other hand, is a power of the very first class, secretive, inconspicuous, perspicacious, fearless, resourceful, and in evidence of a power of mind and material with all that makes a nation victorious and keeps her great.

2500 Smugglers Caught. Little less than 2500 smugglers adopted less picturesque methods than his prototype of a century or so ago, he is still very much in evidence. From a report of the commissioners of his majesty's customs we find that last year 2500 smugglers were caught, while endeavoring to bring tobacco or cigars or foreign spirits into England without the preliminary of paying duty.

"BARTLE" - EASTERN CUBA.

Left for "Bartle."

Mr. J. J. Milliken of Toronto and Mr. R. P. Bearman of Chesley, Ont., were the first to visit the property of the Cuban Realty Company after it was purchased. Having purchased 620 acres, these two well-known gentlemen have spent the most of the past summer at Bartle making preparations, and have now returned for the purpose of removing their families to make their permanent home at Bartle, Eastern Cuba.

Further Progress at "Bartle"

Plenty of pure spring water in never-failing streams is found running through different portions of The Cuban Realty property. Realizing the importance of an abundant supply of good water, the Company has ordered a complete waterworks system to be established at Bartle.

Arrangements have been completed with a competent nurseryman to proceed at once with the establishment of a nursery at Bartle. Several thousand one-year-old trees will be sent there, so that settlers may secure at the necessary trees and plants without leaving The Cuban Realty Colony.

Be Guided by Those Who Know About "Bartle," and, Knowing, Have Bought Land There.

Unquestionable evidence of confidence in Cuban Realty Company property at "Bartle," Eastern Cuba, is furnished by the fact that every intending purchaser, who has visited our property, has bought. Proof conclusive that they have been satisfied with the fertility of the soil, the favorable location of their lands and with the transportation facilities offered at "Bartle."

CALL OR WRITE FOR MAPS, PLANS AND PROSPECTUS. SAMPLES OF THE SOIL FROM EVERY PART OF THE CUBAN COMPANY'S REALTY PROPERTY ARE TO BE SEEN AT THE COMPANY'S OFFICES.

\$25 Price of Land Per Acre

No Land Has Been Sold \$25 at Less Than, Per Acre

Cuban Realty Company, Limited

Rooms 510-511 Temple Building, Toronto. Telephone Main 6066. DUNCAN O. BULL, General Manager.

MARKET FOR CATTLE, SHEEP AND HOGS ON MONDAY AND THURSDAY OF EACH WEEK. HORSE MARKET EVERY WEDNESDAY by private sale. Private Sales conducted during the week. Consignments of Live Stock solicited, which will be handled by experienced and reliable salesmen. A number of FRESH DRIVING AND DELIVERY HORSES have arrived this week.

NEED ACCOMMODATION FOR AGED.

Old People's Homes on Belmont St. Require Additions.

The board of management of the Home for the Aged, and the Industrial Institute, held their annual meeting yesterday, with Mrs. E. Gunther president, in the chair. The president delivered a forcible address, urging on the patrons and friends of the institute the need of funds to add a new wing to the building, as the institute is overcrowded and in need of more attendants. During the year there were 50 applications for admittance to the women's home, of which only fourteen could be accommodated. At the men's home there were 22 applications, and only three could be taken; there being 25 men cared for at present.

UNCLE SAM HONORS INVENTIVE GENIUS.

Six Gold Medals and Diplomas Awarded for Great Inventions.

The United States congress passed a special act and appointed an international jury of awards, authorizing them to go to St. Louis Exhibition, St. Louis, Mo., on inventions of a revolutionary character, the government agreeing to give the inventors of such gold medals and diplomas in recognition of their services to the world. Six awards were made, three this country, namely, Thomas A. Edison, George Westinghouse, for the Westinghouse air brake, and Charles F. Chapman, for the Chapman double ball-bearing. One went to Sir Charles Parsons of England for the steam turbine, and one each to France and Germany for important inventions.

FALLS FROM BURNING HOUSE AND IS INSTANTLY KILLED.

Newburg, N.Y., Oct. 13.—By the explosion of a gasoline stove in a dwelling at Walden this morning, the building was fired.

Mrs. Henrietta Laubenhake, aged 62, was overcome by smoke and fell from the third story window, she struck on her head on the sidewalk and was instantly killed.

C. of E. S. Association.

The Toronto Church of England Sunday School Association is now entering the twenty-fifth year of its active work and is the oldest of the parent societies in the British empire. The executive committee prepared a program of meetings, extending from October to May. At five of these meetings, Sunday schools, a united service for teachers, parents and elder scholars will be held in St. James' Cathedral at 8 p.m.

A GOOD INSURANCE INVESTMENT.

The Demand for a Canadian Company Has Been Met.

The extent of the field that was open in Canada for a strong local fire insurance company was but little understood before the organization of the Sovereign Fire Assurance Company of Canada, which has now become incorporated with a capital of two million dollars. The manner in which applications for agencies have been put in on the management clearly indicates the great need that existed for a good home company to take care of Canadian business. Insurance men, however, are not the only ones interested, as there has been a general demand for stock in the company. The paid-up capital will be one million dollars and of this there have been placed on the market \$250,000 at a premium of twenty-five per cent, in 50,000 shares of \$5 each. The business is a sound one and the business reputation of the managing director, Mr. Hoover, is sufficient to insure a steady and careful management.

BETTER PREVENT DIARRHOEA.

Prepare the system with occasional small doses of Nervine. This absolutely prevents diarrhoea, dysentery, cholera and sick headache. It is used by fifty years' old men. Nervine has been king of "summer cures"; try it yourself.

Madame Calve's Canadian Concerts.

Madame Calve, the famous soloist, is to give three concerts in an early date—commencing with Massey Hall on the 15th inst. The high character of these concerts is a compliment to the artistic talents of the artist, and the business reputation of the managing director, Mr. Hoover, is sufficient to insure a steady and careful management.

Women With Weakness.

For all weakness from which girls and women suffer, no surer remedy exists than Dr. Hamilton's Pills. They maintain that breaking health every woman so earnestly desires; they purify, cleanse, and bring strength that is lost. No medicine could be more beneficial than Dr. Hamilton's Pills. They are sold everywhere. Sold everywhere, 25c per box, or five boxes for one dollar.

What Sulphur Does.

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses. The public is evidently well informed. It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

FREE UNTIL CURED

Not One Penny in Advance or on Deposit

Forty years ago, when I first discarded drugs and devoted my whole attention to the study of Electricity, I could not afford to do business on a day's basis, but I have so perfected my Electric Appliances, and the knowledge I have gained from all these years of experience and research is so great, that I will now give my world-famed Dr. Sanden Electric Belt, with Electric Suspensory, to any man who suffers from Nervous Debility, Varicose, Losses, Rheumatism, Lame Back, Stomach, Liver and Kidney Troubles, absolutely

FREE UNTIL CURED

I don't ask you to pay or deposit one cent until I convince you. Simply call or write for a Belt and wear it for two months, and if cured pay me the usual price—in many cases not over \$5.00. If you prefer to pay cash, give you the usual wholesale discount. Be sure you get the genuine. My great success has brought forth many imitators, and I must caution the public against their worthless, blistering imitations.

Call to-day and take a Belt along, or write for one and my two valuable books on Electricity and its medical uses. Sent, sealed, free by mail.

DR. A. B. SANDEN, 140 YONGE STREET, TORONTO, ONT.

Hours, 9 to 6; Saturdays until 5 P. M.

PRICE WHEAT SEEDING INTERFERED WITH

Says the Modern Miller—Chicago Market Nervous and Irregular—Liverpool Firm.

World Office, Friday Evening, Oct. 13. Liverpool wheat market today 3/4 higher than yesterday and corn futures 1/4 higher than yesterday. At Chicago Dec. wheat closed 1/2 lower than yesterday; Dec. corn 1/4 lower and Dec. oatmeal weaker. Chicago corn: Wheat 28, contract 11; corn 100, 47; oats 30, 55. Liverpool: Wheat 28, contract 11; corn 100, 47; oats 30, 55.

Small cable says wheat firmest at Liverpool is due to firmer offerings of Russian and La Plata wheat. Kentucky report wheat area down 16 per cent of last year. Argentine shipments of wheat this year 650,000 bushels; last year 640,000, last year 722,000. Corn 2,224,000, last year 2,448,000. Argentine wheat: Wheat this year 2,448,000, last year 2,714,000, last year 1,073,000, last year 1,850,000; corn this year 521,075,000 bushels, divided as follows: New England and North Atlantic 2,732,000, 93,270,000. The South 34,000,000, 821,907,000. Central and South 33,803,000, 1,800,000,000. Other western 296,000, 6,722,000. Total 90,801,000, 2,821,075,000.

ST. LAWRENCE MARKET. Deliveries on the St. Lawrence yesterday were moderately large, but with the possible exception of dressed hogs, which is said to have declined 20c, the effect of the market was not marked. Receipts of grain were 300 bushels fall wheat, 1500 bushels barley, 600 bushels oats and a load of rye. West—About 300 bushels changed hands at from 80c to 85c per bushel. Hay—Twenty loads of hay sold at from 80c to 75c per ton. Potatoes—Deliveries of New Brunswick potatoes were heavy, largely to the displacement of the Ontario crop, which is virtually a drug on the local market. Delmas' stock of potatoes is said to be selling out of stores at from 75c to 80c a bushel. Car lots are quoted at from 70c to 75c a bushel. Potatoes—Delmas' stock is selling out of store at from 75c to 70c a bushel.

Apples—No change in price. St. Lawrence apples are all the way from 75c to 82c. Ordinary varieties for fall sale are quoted at from 75c to 80c. Dressed Hogs—The market for dressed hogs is weak and the tendency is toward lower prices. For dressed hogs, the market is 82c to 85c per cwt. Mr. Harris said that much of the dressed hogs are for export and for good stock is good, but for foreign grades are slow sale.

What, white, bush 80 75 to 80 75. What, red, bush 80 75 to 80 75. What, yellow, bush 80 75 to 80 75. Oats, bush 80 75 to 80 75. Rye, bush 80 75 to 80 75. Corn, bush 80 75 to 80 75. To-day for Men's Hats.

Today we expect to sell a heap of new Fall Hats, because that's a thing we usually do and because we have the goods to tempt you today.

Everything good in Men's Hats—nothing but the best made, and sold at a price that does not take into consideration either the superior quality or the big fellow's name on the inside band.

We are sole Canadian agents for Dunlop of New York and Henry Heath of London, England.

Derby Hats in black and brown felt, starting with Dineen's Special at \$2.50 and ending at Dunlop's New York Derby at \$5.00.

Alpine Hats in soft felt, of pearl, brown, black, grey, etc., by all the great makers, including Stetson of United States and Borsalino of Italy. Silk Hats—French, English and American—prices \$5.00 to \$8.00.

Stress Open Saturday Night.

DINEEN Corner Yonge and Temperance Streets

NEW YORK STOCKS FIRM

Continued From Page 11.

early trading, which carried prices to yesterday's low level. At this point, however, a good trade came in, and the cause of an advance in prices more than equal to the loss.

The support to the market was largely from southern operations, and weather conditions were made the basis of the arguments on this side.

There was no evidence of special pressure for delivery on contract, this being a notice day for October, and the market displayed an excellent tone through the session.

Southern spot markets were steady, practically unchanged. The Liverpool market continued to report 10,000 sales spot, as recently expected.

Frost as far south as Mexico, the ice does not appear to be doing much, but it is enough to make it killing, except perhaps over the northern latitudes of the belt.

The continued uncertainty of the market over existing conditions cannot be entirely attributed to weather news, and we will inclined to regard local speculative conditions as largely responsible for the market's strength.

The October option at 9 1/2 would mean a dip in southern interior markets, at the highest, in order to deliver on contract in New York, even with the usual allowance for our great differences, and at this time southern spot markets afford no opportunity for such transactions, and local professional interests will therefore prefer to cover short at once, or perhaps December at today's low level.

Dunlop's Trade Review. The majority of Montreal wholesalers express satisfaction with the trade movement. In hardware, heavy metals, structural iron, plumbers' supplies, cement, and general material, there is a brisk movement, with a tendency to increasing firmness in iron manufacturers; one large manufacturer of iron nails has advanced quotations 10 cents a keg, and an advance in boiler plate, iron pipe, is expected at any time. Crocoders are moving freely. Sugar continues easy, but without any further decline. The first direct fruit steamer is now in port, discharging a full cargo of new crop oranges and lemons. The late prolonged spell of bright, warm weather has caused some slackening in the clothing trade, but trade in this line is fair. Orders for spring frock coats are coming in well from throughout the other distant points, some manufacturers reporting business considerably ahead of this time last year, but not much cutting of stock is yet being done, and leather goods reports just a moderate volume of trade, but values are very firmly held, not only in leather, but in all lines of ordinary black and fancy leathers. Hides are scarce and firm at 1 1/2 to 1 3/4 for No. 1 lambskins, and advanced to 90. The export movement in dairy products is again more active, cheese

Wholesale trade in Toronto during the week of moderate proportions only. The weather has been somewhat against the movement of merchandise, which, however, is likely to become active under better conditions. So far this season trade has been better than in the corresponding months of the year, owing to the fact of early spring, but this is a complaint usually heard at this season. Ontario farmers are not so well advanced in their work as in the corresponding months of the year. There is an active demand for Manitoba wheat for export. In the district for the week four small and unimportant failures were reported.

MONUMENTS TO HEROES OF QUEENSTON HEIGHTS

U. E. Loyalists Will Ask Provincial Government to Remember Tecumseh and MacDonnell.

The ninety-third anniversary of the glorious victory of Queenston Heights was fittingly celebrated by the United Empire Loyalists last night at the Normal School, when resolutions were passed and proposals to the provincial government were made on the occasion. The opportunity was taken for a discussion regarding the proposals upon the old fort which, in spite of the mayor's statement to the contrary, the historical societies are suspicious that the city is premeditating. A resolution to the council proposes to the provincial government to erect a monument to the memory of Tecumseh and MacDonnell.

Mr. Casselman introduced a resolution requesting the city council to purchase the grounds of the old fort in good shape and to preserve the bastions and buildings in good repair. It was also asked that the district officer commanding be authorized to erect a salute battery at the old fort, to be used upon special occasions.

The city was asked to provide the street railway with a right of way thru the bastions, and to cooperate in the movement to preserve the old fort.

The resolution was introduced by Mr. E. Cook, expressed pride and satisfaction regarding the victory at Queenston Heights. Special mention was made of Lieut.-Col. John Macdonell, attorney-general, and Sir Isaac Brock's aide-de-camp, who was killed at the battle of Queenston and fell with Brock. It was incumbent upon the provincial government to pay proper respect to his memory.

A similar resolution was moved by Hon. Richard Haccourt, that a monument to the memory of Tecumseh, the great Indian chief, who was killed at Queenston, should be asked from the provincial government.

Miss Casselman read a paper on the old fort, dealing with its historical interest and its value as an object lesson to the young. She hoped the ground would be preserved, as it was strewn with the bodies of many brave defenders of the country.

The chairman of the evening was Eugene MacLaren. In his opening remarks he introduced the question of the preservation of the old fort. The best plan of frustrating the threatened proposals upon it would be to find an alternative route that would be feasible and place it before the council.

The chairman of the evening was Eugene MacLaren. In his opening remarks he introduced the question of the preservation of the old fort. The best plan of frustrating the threatened proposals upon it would be to find an alternative route that would be feasible and place it before the council.

The chairman of the evening was Eugene MacLaren. In his opening remarks he introduced the question of the preservation of the old fort. The best plan of frustrating the threatened proposals upon it would be to find an alternative route that would be feasible and place it before the council.

STOPS WORK ON CHAUDIERE CONTRACT GIVES AUTHORITY

Hon. Charles Hyman Hopes to Bring Conflicting Parties to Amicable Settlement.

Ottawa, Oct. 13.—(Special)—The Dominion government has taken a hand in the dispute over the works for the development of power on both sides of the Ottawa at the Chaudiere Falls. This morning, acting under instruction of the minister, Mr. Laidlaw, chief engineer of the department of public works, had notices served on all parties in interest for the immediate cessation of work. The order applies to the operation of deepening the channels at the Chaudiere, which is being done by the Ottawa interests, and also to the construction of a dam by the Hull powers interests on the north side of the river.

The Authority. The government finds it necessary to interfere in an act of parliament which was passed three years ago confederating the Ottawa and Hull interests under chapter 24 of the statutes of Canada, 1876. At that time the public mind was agitated by jobbery and navigation and the debates of parliament show many references to the Ottawa River, being navigable by the Ottawa interests, and other great water highways.

After the taking of much evidence by engineers, an act was passed which gave the department of public works the power which Mr. Hyman is now exercising.

The preamble of this act refers to the distribution of legislative power between the Ottawa River, being navigable by the Ottawa interests, and other great water highways.

It is not merely the authority of the department of public works to interfere, but rather a sense of justice which is being done in the interests involved are wasting time and money over water power rights, which the government is now bringing to a close.

Great Importance. The intervention of the department of public works is of the greatest importance in the actions that are pending in the courts. The first step in the controversy was taken on August 15, when the Hull concerning the Ottawa River, being navigable by the Ottawa interests, and other great water highways.

Some time ago the department of public works was notified that the Ottawa River, being navigable by the Ottawa interests, and other great water highways.

FIGHT FOR GOOD COUNCIL NOT LICENSE REDUCTION

Municipal Reform Association Believe Their Object Can Thus Be Better Attained.

After two hours, the gold in the quartz of the discussion, as President Dr. McKenzie said, was secured by the Municipal Reform Association last night, in St. George's Hall. It followed Rev. Dr. Chown, and the result is the relegating to second place in the civic campaign, as an issue, the question of a certain license reduction in favor of securing the election of aftermen who are in sympathy with the objects of the association. This decision shelved motions that would be better to go down a glorious defeat on straight local option, than to take a substitute.

W. G. Senior was the first to object. Their purpose was to elect aldermen and controllers who would not be pledged to local option or a stated reduction, but bound to reduce licenses as rapidly as possible. To campaign for local option and be defeated would be to hurt the cause through the country.

Dr. Chown said there was a danger of making it a temperance organization. The aim should be to elect aldermen and controllers who would not be pledged to local option or a stated reduction, but bound to reduce licenses as rapidly as possible. To campaign for local option and be defeated would be to hurt the cause through the country.

WAR IS NOW OVER

Ratification of Russian-Japanese Treaty to be Exchanged To-Day.

Washington, Oct. 13.—It has been arranged that the ratifications of the Russian-Japanese peace treaty shall be exchanged to-morrow. Mr. Takahira, the Japanese minister, will notify the state department that his emperor has signed the treaty at Tokio. The state department will notify the American embassy at St. Petersburg to that effect, and Mr. Piggott, the chargé d'affaires, will duly notify the Russian government in Paris, thru its own ambassador in that city, that the Russian emperor has signed his copy of the treaty. The French foreign office will notify its minister in Tokio, and he in turn will inform the Japanese foreign office, and this will be regarded as a formal exchange of ratifications.
