SHOOTS WIFE AND SELF
HUNTSVILLE SCENE OF A TRAGEDY
JEALOUS MAN'S CRIME

Nelson Smith of Berlin Goes to Wife's Home, Where She Was Visiting, and Kills Her—Then Runs From House and Shoots Himself.
Huntsville, May 8.—(Special.)—Jealousy is held to have been responsible for a double tragedy on the outskirts of this town to-day, when Nelson Smith, an employe of the Galt, Hespeler, Preston and Berlin Railway, shot and killed his wife and then, a few moments later, ended his own life with a bullet.

Suburban Railway Services.
The News says editorially: The World deserves encouragement in its campaign for a suburban railway service out of Toronto. For years past Montreal has enjoyed the advantages of numerous daily trains to and from all the neighboring municipalities. Why should Toronto be discriminated against? Toronto's adequate local services of the character indicated would make towns as far distant as Brampton and Whitby virtual suburbs of Toronto. Business would be attracted to the city and city business and professional men would be able to give their families the benefit of country life. Dr. P. H. Bryce maintains that a family must get back to the land every third generation or lose its stamina and vitality. A suburban service for Toronto is worthy the consideration of the railways and of the railway commission.

SISTER FOUND HIM STANDING
HOLDING BODY IN HIS ARMS

Huntsville, May 8.—(Special.)—Smith arrived in town this morning. His home was in Berlin, where his mother and brothers reside. He had breakfast at a hotel and then, it is said, went to the district school, where he asked to see his six-year-old son. He greeted the lad affectionately and asked him if his mother was at home and on being told that she was, he set off for the house, where a brother-in-law admitted him. Smith seemed in his usual spirits and when he met his wife in the parlor and when she kissed her and seemed in the best of humor. The general conversation that followed was free from signs of anger or excitement, but a few minutes after Mrs. Goldie left the room she was horrified to hear two revolver shots.

Freight Handlers Go Out and Strike-Breakers Desert.

OWEN SOUND, May 8.—(Special.)—A strike that is assuming serious proportions commenced yesterday, when 250 freight truckers on the Canadian Pacific Railway's thru freight sheds walked out on the refusal of their demand for the restoration of last year's scale of wages, viz., 17 cents an hour. To break the strike the railway brought out from Toronto on the 5.10 Owen Sound express last evening over 90 men. The train was greeted by hundreds of men, the strikers being augmented by curious spectators. At midnight the cars containing the Toronto contingent were shunted down to the sheds. Here they were greeted with hoots and groans, and some of the more mischievous of the crowd threw stones, several of the car windows being smashed.

STRIKE ON C.P.R. AT OWEN SOUND

BALLOTS CAN'T BE PRODUCED

Stanstead By-Election Boxes Contain the Papers of Old Election.
OTTAWA, May 8.—(Special.)—A sensation has been caused by the disappearance of the ballots cast in the recent by-election in Stanstead, Que. In the house to-day R. L. Borden read a telegram from Sherbrooke to the effect that the clerk of the crown in chancery had been summoned to appear before the election court at Stanstead and had reported that the box purporting to contain the ballots of the by-election in January contained the ballots of the election of 1904.

HAD RECEIVED A LETTER.

Went to Huntsville as a Result Evidently Deeply Disturbed.
BERLIN, May 8.—(Special.)—News of the mad deed of Nelson Smith at Huntsville was received here late this afternoon with great surprise. He and his family were well-known here and in the vicinity. He had been employed on the G.T.R. from September last until about the middle of January, when he was laid off and secured employment on the G. H. & B. Railway. Superintendent Kirkwood, who was in charge of the work at Huntsville, spoke highly of Smith, as he knew him, saying that he was of seemingly quiet disposition and a good workman. He had told him that he was not a drinking man. He had been advanced to conductor of one of the freight cars. He had said he was pleased with his job and intended to settle in Preston and bring his wife there, although he had also intimated that there was some disagreement between them.

ARREST GERMAN PRINCE.

One of Kaiser's Intimates Accused of Gross Offences.
BERLIN, May 8.—Prince Philipp zu Eulenburg was placed under actual arrest to-day. The crown prosecutor took this step as a result of the testimony given by two men at his bedside in the effect that the prince had been guilty of wrongful actions with them 25 years ago. Prince zu Eulenburg was involved in the court scandal in Berlin that arose out of the charges brought by Maximilian Harden, editor of Die Zukunft. The prince was taken into custody at his castle at Liebenberg and brought in in an ambulance automobile forty miles to the Charity Hospital, where he was detained pending a further hearing of a charge of perjury against him. The prince's arrest is taken to mean the irrevocable ruin of this brilliant man, who was at one time a confidential friend of Emperor William.

QUEBEC FREIGHT HANDLERS ALSO TO BE SETTLED WITH

QUEBEC, May 8.—The Express of Britain arrived this morning. For many weeks it has been reported that the C.P.R. removing the terminus for the Express from Quebec to either Three Rivers or Montreal, and it was not until the vessel had actually sailed at Quebec this morning that these rumors could be definitely disposed of. The difficulty that has existed between the longshoremen and the C.P.R. is not by any means settled, but it has been decided to discharge the cargo at Quebec by the ship laborers, and after the freight is on the wharf the work of the longshoremen will then begin, and it will then be for the company either pay the increased price demanded or endeavor to employ outside labor.

GOVERNMENT HASN'T MONEY AND OPPOSITION'S TACTICS MAY PRECIPITATE CRISIS

No Ready Cash for Ordinary Expenditure of Service and None Will Be Voted Until Election Bill is Rendered Harmless.
OTTAWA, May 8.—(Special.)—Not a dollar for supply as long as the government adheres to its determination to bring under the municipal election law many classes of voters residing in the unorganized sections of the province. His other argument was that the bill would cover many irregularities. Mr. Lake (Qu'Appelle) commented on the failure of any government speaker to defend the application of the proposed act to the Province of British Columbia. No one had even suggested that the British Columbia lists were not properly fair.

IRISH COERCION ACT PASSES INTO HISTORY

By 201 to 7, House of Commons Passes Second Reading—Secretary Birrell Supports It.
LONDON, May 8.—By a vote of 201 to 7 the bill repealing the Irish Coercion Act of 1887 passed its second reading in the house of commons to-day. Chief Secretary for Ireland Birrell strongly supported the measure, declaring the Coercion Act to be unconstitutional and intolerable. He maintained that Ireland, as a whole, was law-abiding, although in parts there is a spirit of lawlessness, which he deplored.

BIG FREIGHT WRECK.

Eight Cars on the M. C. R. in a Heap Near Cayuga.
ST. THOMAS, May 8.—(Special.)—No fewer than 30 freight cars were mixed up in a wreck on the Michigan Central at Cayuga to-night. Most of the cars were thrown from the tracks and piled beside them in long lines. The cause of the mishap is not known. No one was injured, but the damage to rolling stock was heavy.

ANOTHER BODY.

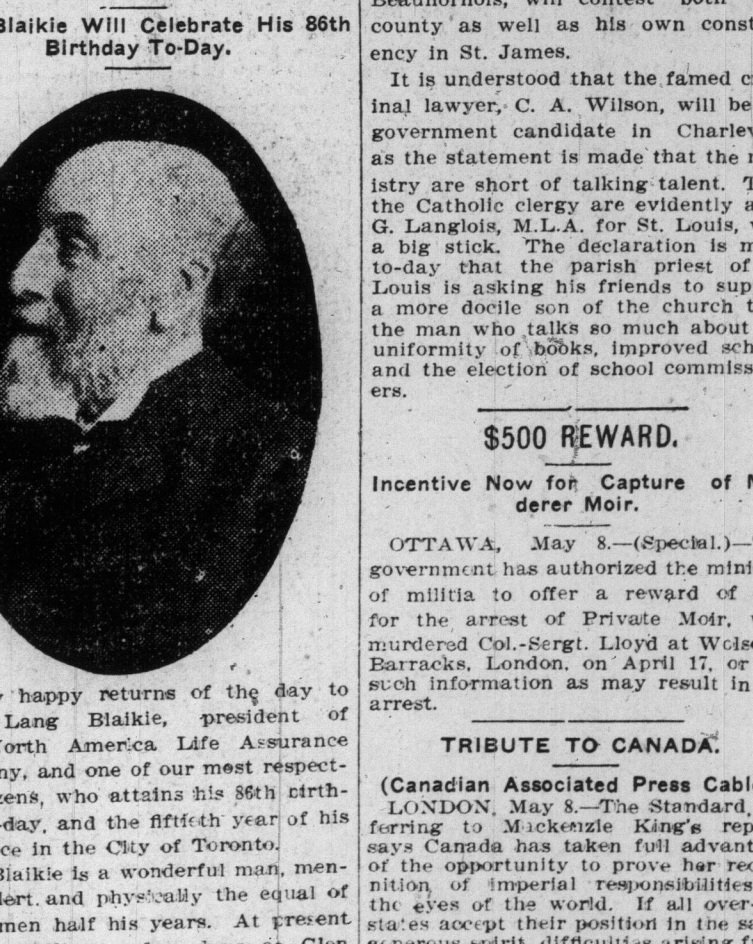

LAPORTE, Ind., May 8.—One more body was added to the death roll of the Bella Guinness farm to-day, making a total of ten corpses and skeletons exhumed in the ruins of the farmhouse that burned on April 28.

WATCHMEN WERE ASLEEP.

CAMPBELLTON, N.B., May 8.—Fire broke out at midnight in J. and D. A. Harguill's Door and Sash Factory. The two watchmen were said to have been sleeping at the time. It is estimated that the loss will be in the neighborhood of \$25,000.

FIFTY YEARS A RESIDENT.

J. L. Blaikie Will Celebrate His 86th Birthday To-Day.
Many happy returns of the day to John Lang Blaikie, president of The North American Life Assurance Company, and one of our most respected citizens, who attains his 86th birthday to-day, and the fiftieth year of his residence in the City of Toronto.

ROSS EDWARDS HAD FOOT CAUGHT IN FROG

SMITH'S FALLS, May 8.—(Special.)—Ross Edwards, a C.P.R. employe, had an exciting experience yesterday. He was working in the yard here and was in the act of turning a switch when his foot got caught in a frog. The train was backing down the track and was only a short distance from him, but he could not extricate himself. With great presence of mind, however, he grabbed the hand rail of the car when the train was close upon him and by sheer force succeeded in tearing his foot from the frog, but not before the flange of the wheel had grazed his ankle. His boot was literally torn in two, the upper portion coming off as the cut with a knife. He then managed to jump clear of the train and his limbs were all intact his foot was swollen to an abnormal size and had turned black.

MAY SHOW GRAFT.

Mr. Haultain to Make Charges in School Book Matters.
REGINA, Sask., May 8.—The Morning school book contract was defended by the minister of education in the assembly to-day in a two-hour speech, during which he resented charges of graft alleged to have been made by the leader of the opposition, and dared Mr. Haultain to make good.

THE WORLD AT THE ISLAND.
Delivery of The World at the Island will be resumed next Monday, May 11. Telephone orders to Main 252, or leave at 83 Yonge-street.

For and Against.
Emmanuel Devlin (Wright) argued that the new bill was necessary to

bring under the municipal election law many classes of voters residing in the unorganized sections of the province.

Mr. Lake made another strong appeal for the withdrawal of the provision.

Those who thought should be included in this invitation were: the Duke of Argyll and Earl of Argyll, the Marquis and Marchioness of Lansdowne, the Earl and Countess of Darby, the Viceroy of Ireland and Lady Aberdeen and the Viceroy of India and Lady Minto.

Tennis Courtown II. Breaks Down

NOTE AND COMMENT

The splendid showing made by Courtown II. in his early trials gave un- common interest to the feature race at the approaching Woodbine meet, and yesterday's unfortunate turn of affairs makes this year's King's Plate look a certainty for Mr. Seagram, who will likely have a couple at least in the money, and possibly all three.

It will be good news to the followers of the Toronto hounds to know that the pack at Scarborough, already one of the best on the continent, is soon to be augmented by ten of the very best animals from Mr. R. Burke's Tipperary Kennels at Grove Hill, and an equal number from the celebrated Badminton pack, of which His Grace the Duke of Beaufort is master.

A splendid sporting spirit was displayed yesterday at Upper Canada College, when fifty boys set out in the annual steeplechase regardless of the condition of the course and the swollen creek that the plucky runners had to cross. There are some pastimes too good for the elements to destroy, of which cross-country running is a notable example.

Never despair because Toronto is at the bottom. Blame the position on the rain. The champions went down three days ago while resting on their oars, and are still at the bottom because of the weather. Tommy, let it be that both Toronto and Jimmy Casey will to-day the McCafferys will go up ahead of Montreal as well as Providence, and should Jersey City lose, Toronto will be almost on equal terms with the Skeeters and Newark. So don't beat all surprised to see Mike Kelley's team lead the league by Victoria Day.

To-day at Newark winds up the present week trip abroad, and an extra game may take place on Sunday at Hoboken. Then Jersey City opens on Tuesday at the island a three-game series, followed by Providence and Newark, with four each, then Baltimore for morning and afternoon games on the holiday and two more May 26 and 27. In the three leading leagues the champions are at the extreme — Chicago Cubs at the top and Detroit Americans and Toronto in the cellar positions.

H.C.C.'S STEEPCHEASE MULQUEEN THE WINNER

Quinn is Second and Maclean Third—Holiday Takes Bronze Medal for Juniors.

The annual steeplechase for the Hendrie Cup took place yesterday at Upper Canada College, there being 30 runners in the two divisions. The rain of the past two days made the going heavy, and the creek more water than at any previous race. The senior boys started at 2:30. Saunders at once took the lead and held it to the water. Following closely were Mulqueen, Quinn, Maclean and Curry. At the creek the leader gave the other runners a wide lead, and Mulqueen followed three and a half miles, which was as follows: 1. Mulqueen, winner, cup and silver medal; 2. Quinn, bronze medal; 3. Ewen Maclean, first cake; 4. Curry, house boy's cake; 5. Pepler, day boy's cake; 6. G. Saunders; 7. J. Crowther; 8. Kingsford; 9. Bird; 10. Palmer; 11. Williams; 12. Letroy; 13. Copleland.

Officials for Spring Meeting.

At a meeting of directors of the O.L.C. held yesterday, the following officials were appointed: Stewards—Major F. Dainoffield, Major Wm. Hendrie, Capt. C. Robertson, J. Fitzgerald, Bartlett McLennan and making 12 in all, instead of one as formerly. This is the English style up to date. The team will be picked from the following: Bovel, Button, Nichols, Lobb, Theford, Bottomley, McMillan, Wilton, Altman, Jackson, Plaville and Montefiore. Grace Church Cricket Club have two games at Upper Canada College this afternoon. The team for the U.C.C. first eleven is as follows: Starley, W. Paris, Dr. Smith, S. H. Smith, L. G. Black, C. Hopkins, H. Carter, S. Collins, L. Rawlinson, C. Millward and A. N. Other. The team for U.C.C. second eleven: Yetman, C. D. Clark, Brown, Nutt, Crocker, Attwood, Bramhall, Campbell, Walcott, Harris, McKechnie. The club would like to see all old players who can possibly attend at the games to-day. Games will commence at 2:30 sharp. Grace Church C.C.'s Toronto League team wish to arrange home and away matches on the following dates: May 16 and 30, Aug. 16 and 29, and Sept. 12 and 19. Barrie Plater's Leg Fills After Nice Trial in the Mud

Unfortunate Accident at Woodbine Causes the Withdrawal of Courtown II From King's Plate Field.

Courtown II, the pride of the Dymont stable, the hope of the north and broken-down Woodbine raihbirds, has gone to the farm at Barrie for a year. The 3-year-old son of Courtown and Lady Berkeley did his work yesterday morning in the mud apparently to the satisfaction of trainers and onlookers. Louis Thompson had the dog up for the trial on account of the condition of the track, the colt being an exceptionally playful nature. He was pulled up apparently all right, there being no indication of lameness. But soon after entering his stall the trainer noticed that the front leg was filling. The injured member was washed out for the gulleus, so well did Courtown II, without improvement. Johnny Dymont was naturally dissatisfied over the matter. Still, circumstances, Courtown II, he considered the best colt he ever trained, and the first that ever went wrong in working out for the gulleus. So well did Courtown II, that he took him over the Canadian circuit as a 2-year-old, giving him several starts. The colt's best performance under silk was his second to Johnny Blake in a five-furlong dash at Hamilton last fall.

YANKEES IN ENGLAND WINNERS ON THE TURF

Croker's Rhodora Lands Thousand Guineas and Others May Follow.

LONDON, May 8.—Last year it was Croker's Derby, this year it is already Croker's Thousand Guineas, and last year it was the Ladies' Derby, this year it is the Ladies' Derby. The blue ribbon race is strong likelihood also that it may be Belmont's Derby this year. For Mr. Belmont's Norman III is present a favorite in the betting for the race. The day's victory of Mr. Croker's Rhodora, in the Thousand Guineas Stake at Newmarket, following the success of the American horse Ruby, in the Grand National and Norman III, in the Two Thousand Guineas Stake, making the sequence of American triumphs, these three events constituting the most important races yet contested this season. Rhodora is still lacking in condition and Mr. Croker, altho' hopeful, was in no way confident that his mare would give her brilliant performance of to-day, when she covered a mile in one minute 44-5 seconds, beating Norman III's time of one minute 4-5 seconds, made Wednesday. This fine showing was made Mr. Croker regret that the filly is not entered for the Derby or the St. Leger. The One Thousand Guineas Stake was run at Newmarket to-day and won by Rhodora from a field of eighteen horses, and was for the first time since her debut, owned by J. H. Houlihan, and Captain E. F. Brasher, and Lucien Lyne rode the winner. He displayed such judgment that Rhodora turned in to the front and won by a length ahead of Bracelet, with Ardentive and Courtney, the fourth horse, Rhodora is a half-stay to the King Edward and the Prince of Wales were present. Rhodora won comparatively easily. Lyne lay behind Elm Twist until the bushes were reached. Here he drew up to the front and romped home two lengths ahead of Bracelet, with Ardentive and Courtney, the fourth horse, Rhodora is a half-stay to the King Edward and the Prince of Wales were present.

Cricket To-Day.

Paradeau opens the season to-day with a friendly game with the Ontario Cathedral team on the Exhibition grounds. The following are the teams: Bovel, Button, Nichols, Lobb, Theford, Bottomley, McMillan, Wilton, Altman, Jackson, Plaville and Montefiore. Grace Church Cricket Club have two games at Upper Canada College this afternoon. The team for the U.C.C. first eleven is as follows: Starley, W. Paris, Dr. Smith, S. H. Smith, L. G. Black, C. Hopkins, H. Carter, S. Collins, L. Rawlinson, C. Millward and A. N. Other. The team for U.C.C. second eleven: Yetman, C. D. C.L.A. Takes Final Grouping Senior Delegates Disagree

Torontos Hold Their Initial Practice To-Day at Rosedale—Graham Applies for Reinstatement.

The district committee of the C.L.A., comprising Doyle J. K. Kearns, first vice president, J. K. Forsythe, Dick Bond and Secretary Hall met last night at the Troop Hotel and arranged the final grouping.

Orilla objected to being grouped with West Toronto and before this district was arranged it was near midnight. Finally it was decided to have the district divided into two sections, the winners to play home and home games, and the losers to play away and away games.

An application was received from Stubby Graham of Ferguson for reinstatement, but this was left over as the district committee had no power to vote on reinstatements.

No Senior Series.

The senior representatives, composed of Fred Hubert, Hamilton; Danny McLean, Brantford; Joseph Thompson and Mr. Lee St. Catharines, met also at the Troop Hotel, Buffalo or Beaverton not being represented.

With a good number of aspirants entered, the Central Y.M.C.A. Boys' Club will hold their annual spring sealed handicap race this afternoon. There will be three events. Boys 15 and 14 years of age will run one mile; boys 15 and 14, 1 1/4 miles, and those 17 and 18, two miles.

According to Signs. An Irishman was walking along a road, when he was suddenly struck between the shoulders by a golf ball. The force of the blow almost knocked him down. When he recovered he observed a golfer running toward him.

"Are you hurt?" said the player. "Why didn't you get out of the way?" "And why should I get out of the way?" said the golfer. "I didn't know there were any called 'runners' here."

"But I said 'runners,'" said the player, "and when I say 'runners' that is a sign for you to get out of the way."

"Well, then, why I say 'runners' that is a sign for you to get hit on the nose."

London Board of Trade. LONDON, May 8.—(Special.)—At the annual meeting of the board of trade, officers were elected as follows: President, Mayor Stevely; vice-president, O. T. McMahon; secretary-treasurer, John Neill.

C.L.A. Takes Final Grouping Senior Delegates Disagree

The West End will hold a trial to-day to decide who will represent the Y.M.C.A. Boys' Club in the several grades of the Marks Trophy race on May 18. The race will begin at the Y.M.C.A. building at 3 o'clock.

Sporting Notes.

The committee of the Canadian Association of Amateur Oarsmen will meet to-night at the King Edward to arrange the date and place for the Olympic trials. It is practically decided that the events will be rowed at St. Catharines on Friday, June 26, so that in the event of rough water or bad weather they may be held over for a day without keeping the contestants over Sunday.

Baseball Toronto Still In the Rain

AGAIN RAIN INTERFERED WITH LEAFS AT NEWARK

Two Other Postponements, Baltimore Winning Only Game From Rochester by 6 to 2.

Rain was again prevalent over the Eastern League circuit with the exception of Baltimore, where the Orioles trimmed the Broxtons, 4 to 2, thus boosting their several points higher in the race. To-day, weather permitting, Toronto play Newark, which will be the last game of the league schedule before they return to the island Tuesday.

Easy for Baltimore.

BALTIMORE, May 8.—Hungry for baseball, 3,000 fans braved threatening skies and a chilly wind to see the game to-day. Baltimore won easily.

DUMPING SOUTHERN LUMBER INTO CANADA.

If you happened any of these days to be going up to Cobalt over our state-owned railway, the Ontario and Temiskaming, you would see a strange sight: car loads of southern pine, from Georgia and neighboring states, going forward for construction purposes on the road. **NOTWITHSTANDING THAT YOU ARE IN ONE OF THE CENTRES OF PRODUCTION OF PINE LUMBER IN ONTARIO.**

Why is this? Because the pine is dumped into Canada and have no anti-dumping law? Yes. But the anti-dumping law only applies where there is a customs duty and there is no duty on lumber.

There ought to be at least two dollars a thousand on all lumber coming into Canada. Our Canadian mills have no great export market for their product these days, and even the home market is denied them by American mills slaughtering some of their product in Canada.

Furthermore, the Americans tax our lumber and shingles.

They keep us out of their market, they dump their product into ours; and our two governments, the one at Ottawa, the other at Toronto, act the unpatriotic part by not putting on a duty in the one case, and in the other case buying foreign stuff when they actually pass by the lumber of Ontario, on which they have already levied a liberal stamping tax.

It would be ludicrous were it not so serious.

In 1905 Sir Wilfrid Laurier told the lumbermen that then interviewed him to have a little more faith, that perhaps something would yet be done. This would be a good session to do it.

OLD AGE PENSION AND THE BRITISH BUDGET.

For the first time in many years, the British budget was presented on Thursday to the house of commons by the prime minister. As it was Mr. Asquith's budget it was only right that it should be openly fathered by its author, but so far as appears from the ebbled reports it contained nothing of an epoch-making character except the inauguration of the government's scheme for old-age pensions. The past year, as it witnessed the close of a remarkable period of industrial and commercial activity, yet permitted of an actual surplus of \$23,830,000, which, as is customary, will largely go in reduction of the national debt. For the year now current, Mr. Asquith estimated the total expenditure at \$763,345,000, and the revenue, on the present basis of taxation, at \$788,850,000, showing an apparent surplus of over \$24,000,000.

The only tax alteration proposed by the premier was a reduction of the duty on sugar from 4s 2d to 1s 10d per hundredweight. The resultant loss he placed at \$17,000,000, and this, with the ear-marking of \$6,000,000 in aid of old-age pensions, disposed of the estimated surplus. Thus the budget again caters specially to the mass of the people, and the income taxpayers remain burdened with the import raised to its present figure during the Boer war, and only partially lowered by the allowances made last year to certain classes of income earners. Britain probably consumes more sugar per head than any other country in the world, and the considerable reduction in the duty now made is a step towards the free breakfast table which at one time was a prominent feature of the Radical program. This concession is an appeal to the general electorate, and may be accepted as evidence that the government is concerned about the change in public opinion so much in evidence in the elections held during the past year.

Regarding old-age pensions, Mr. Asquith adopted a cautious policy none the less momentous since he brushed aside all contributory schemes and frustrated the intention of the government to provide for them out of the national treasury. All that is proposed in the meantime is a payment of \$1.25 per week to persons over seventy years of age, excluding criminals, lunatics, those already in receipt of poor-law relief, and all whose incomes otherwise exceed \$300 a year. On this footing he estimated the total number eligible at about 600,000, and the cost of the scheme at \$30,000,000 annually. As the scheme will not come into effect till Jan. 1, 1909, the provision for the current year only came to \$6,000,000. This, of course, only evades for the present the problem of how the ultimate amount charge is to be obtained, and it means that next year's budget must contain a radical revision of the nation's income and expenditure. Mr. Asquith professed belief that sufficient revenue would be forthcoming under the existing fiscal system, but on the face of a period of depression such as is now fairly under way, the outlook cannot be described as hopeful. On the other hand, old-age pensions are favored by tariff reformers, and it is part of their program that they can only be financed by a broadening of the basis of taxation. Old-age pensions are thus double-edged in their possible political effect,

and for weak or woe Britain is committed to a policy more socialistic than has yet been mooted. Mr. Asquith himself admitted that his scheme was only a beginning. Once in operation it cannot be withdrawn, and it will form an important factor in future developments of Britain's fiscal system.

CHEAP LIGHT AND POWER.

Now that the city has definitely allied itself with the hydro-electric commission the Electric Light Co.'s officials are renewing their prophecies of trouble and disaster. Experience, said Mr. J. J. Wright, is a great teacher, and in that he spoke truly. It is the bitter experience Toronto has had of its public service corporations that has created and maintained the determination to resume the franchises that have been misused. Had the Electric Light Co. and the Street Railway Co. and their associated power companies given the citizens square deals, popular sentiment would not have been so markedly in favor of public ownership and operation of the city utilities.

Mr. E. F. B. Johnston is reported to have made the statement that it was the law in England that every public utility taken over was paid for on the basis of a going concern, the price being based on its earning value. This is at best only partially true and as a broad generalization it is altogether misleading. As put, it applies only to perpetual franchises such as many of the private gas companies practically held. These were taken over on the basis of earning power, but limited franchises, such as the street railways, were resumed at their expiry at a valuation of the buildings, plant and equipment. The following is the clause of the British Tramways (street railways) Act of 1870, which regulates the compulsory purchase by a municipality, and it shows how erroneous was Mr. Johnston's view:

"Upon terms of paying the then value (exclusive of any allowance for past or present profits of the undertaking, or any compensation for compulsory sale, or other consideration whatever) of the tramway, and all lands, buildings, works, materials and plant of the promoters suitable to be used by them for the purpose of their undertaking."

This clause has been interpreted by the courts to mean that the local authority has only to pay "the then value" of the street railway—in other words, the original cost, less depreciation. This was at first disputed by the private corporations, but was finally settled in the cases between the London County Council and the London Street Tramway Co., and between the Edinburgh City Council and the Edinburgh Tramway Co. The London Co. claimed \$3,000,000 for about four and a half miles of line and for depots, but the arbitrator decided that "the then value" was \$600,000. No one knows better than Mr. Johnston that the Toronto Electric Light Co. only holds a terminable franchise and that at its expiry the city is entitled "to purchase all the interests and assets of the company, comprising plant, buildings and materials used or necessary for the carrying on of the business" at a price to be agreed on, or, failing agreement, as ascertained by the award of arbitrators. This the city can do in 1915, and it is ridiculous to pretend that an agreement of this kind must be treated as if it granted a perpetual franchise and that the price must be based on earning power.

Mr. Johnston is also credited with the statement that the company can sell power and light as cheaply as the commission can do in any quantities. If that is true why does its schedule of charges run from \$180 to \$351, while the commission states the retail price to consumers under its limited scheme at \$45? During all this long campaign the Toronto Electric Light Co. has never faced this question nor answered it with any but the vaguest of affirmations. Mr. Wright represented the government as being pushed along by the Ontario Power Co., "that is going to make the profit." But he did not explain why the Electrical Development Co. declined the offer of the commission to take power from it at the same price. The simple fact is that the electric ring played for a big stake and they have been beaten out by the determination of the citizens to be free once and for all from monopolist domination. The Electric Light Co. may sell power and light to compete with the public service, but the worst competition it can put up will be more than compensated when the city resumes the franchise under the protection of an independent source of electrical supply.

HOME BANK EXTENSIONS.

The head office of The Home Bank of Canada, 8 West King-street, Toronto, requiring more space, the office of the general manager and the staff, which was formerly on the ground floor, has been transferred to the first floor of the building, and the space thus vacated added to the premises of the Toronto branch.

These changes were found necessary owing to the increase in the business of the institution.

Before the end of the present month the Home Bank will open a new branch in Toronto, at the corner of East Queen and Ontario-streets, and another branch at 20 West Dundas-street, in West Toronto, or Toronto Junction, as the suburb was formerly known before its name was changed recently.

DUTHIE TO TOMLIN.

Editor World: In his opening campaign speech at Sheridan Hall on Thursday night, Mr. H. C. Tomlin read a speech and in it asked the question, "Since when did Mr. Wright and his friend Mr. Duthie become the only friends of public ownership?" And he is reported as adding every candidate on both sides would have to pledge himself to public ownership. The last statement is doubtless true, but why is it true? Because of the work done for years by such men as Mr. Wright, Mr. Tomlin, and Mr. Duthie? Or because there are many men in Toronto besides Mr. Wright and Mr. Duthie who have given work, time and money to advance the principle of public ownership, but Mr. Tomlin is not among the number. He is not a member of the Public Ownership League, and so far as I am able to learn never took any public interest in furthering its objects. It is easy to jump on the bandwagon and hurrah for a cause which other men have made popular, but when it comes to choosing the leaders to carry the cause on to completion, wise men don't jump on it, but among these eleventh hour converts I understand Mr. Tomlin was invited to Mr. Wright's meeting. Why did he not invite Mr. Wright to his? said in a former letter that if Mr. Tomlin were really sincere in his advocacy of public ownership he should retire in favor of Mr. Wright. I repeat it. Surely Mr. Tomlin will not say that he is Mr. Wright's equal either in ability or in knowledge of the question. Neither will he deny that the success of the struggle for public ownership will be furthered by Mr. Wright's election rather than by his. James Duthie.

ON THE OTHER HAND

Mr. Mack in Toronto Saturday Night, May 9, 1908, says: Representatives of the G.T.R. and the C.P.R. have furnished me with their side of the story of the seizure of the title to a block of land in the heart of Toronto, and the holding of it in readiness for four years preparatory to erecting a new union station. There are two sides to every story, and the railway people are able to show that the blame lies by their side. The delay for the delay and the damage done to the progress of Toronto. There has been litigation over certain portions of the land, carried in some cases from court to court as far as the privy council. Their chief argument against being allowed for the delay is, however, that the city last year put forward a demand for a viaduct just when the lawsuits over the right of way were pending. This demand, which was made for the purpose of enabling the city to purchase the land from the railway company, is a demand which the railway company is now endeavoring to fulfill. The city is still covered with debris, they say the fault lies with the private owners and the municipality which permits the wreckage to remain there. No doubt the guilt for the delay in the case of this city in this matter can be discovered when the facts are set out. But the damage done is very great. The city has received a serious loss. There have been lawsuits, adjourned conferences, and delays introduced, without there being over and behind all a governmental authority determined to see that the least end delays injurious to public interests. The railway commission can press this whole business to its conclusion. In the name of common-sense, let it be done.

New G. T. R. Equipment.

The new G.T.R. shops at Stratford, Ont., recently placed an order for complete equipment of ball bearings with the Chapman-Douglass Bearing Company, Limited, Toronto, manufacturers of ball bearings for all purposes. This firm now reports the closing of the contract for supplying the complete line of transmission equipment for the new G.T.R. shops at Battle Creek, Mich. These new orders, together with such other large installations of ball bearings as have been recently supplied to the Cosmos Cotton Company, Three Rivers, Que.; the Canadian Locomotive Company, Kingston, Ont.; and Imperial Cotton Company, Hamilton, Ont., would indicate that the value of ball bearings for power-saving purposes is becoming more and more clearly recognized each year. This firm claims a reduction of 75 per cent. of shaft friction when ball bearings are installed on line shafting.

Take This Chance.

One hundred lots in the new town, Lindenburgh, will be sold this afternoon at 2:30 and this evening at 8:00 at 87-89 East King-street, by the people's auctioneer, Charles M. Henderson. This is a great opportunity for workers to procure desirable sites for homes within a short distance of the heart of the city. Sales will be made with \$25 down and \$5 a month till fully paid. This site is said to be one of the most desirable and healthful in York County. Here is a great chance to get a lot of land and grow up with growing Toronto.

The Beautiful Muskoka Lakes

New Supreme Court Rules.

At a meeting of the supreme court of Ontario, held on the 2nd and 3rd days of May, 1908, the following rules were passed.
1229. Rules 1229 to 1298 inclusive, relating to certain proceedings, passed on Friday, the 27th day of March, 1908, and which were published in the issue of The Ontario Gazette, of 4th April, 1908, are hereby declared to be superseded and inoperative by reason of the act of the Ontario Legislature passed at its last session, embodying said rules.

1309. Rule 1237 is hereby amended

so as to read "the Rules and Rules in the Provinces on Alberta and Saskatchewan."

1301. Rule 163 is hereby repealed

and the following substituted therefor: "1301. (1) When a defendant is served within Ontario elsewhere than in a provincial judicial district he shall appear within ten days, including the day of service:

(2) If served within a provisional judicial district, otherwise ordered under rule 353, he shall appear within 20 days, including the day of service.

These rules come into force forthwith.

MAJOR HODGINS WAS THERE.

Ready to Make Good His Charges Before Committee.

OTTAWA, May 8.—Major Hodgins was present at the sitting of the judicial investigating committee this morning. All the Trans-continental commissioners were in attendance also, headed by S. N. Parent. There was a large attendance of members and of the general public.

At the outset, Frank Hodgins, K.C., who announced that he appeared for Major, asked for an adjournment, claiming that his client had only reached Toronto from Victoria yesterday, and that he had not had time to confer with the facts of the case.

This proposition led to a good deal of cross-firing, but finally it was agreed that Frank Hodgins, K.C., should file a statement of the charges with the clerk of the committee on Monday night, and that the investigation should be held on Tuesday with the examination of Major Hodgins.

Frank Hodgins asked that counsel should be assigned to the major; in other words, that the country should pay the costs of the lawyer of the man who makes the charge.

Bunyan's Immortal Allegory.

"The Pilgrim's Progress," illustrated by fifty hand-painted slides, will be the subject of Mr. Wilkinson's pictorial sermon to-morrow night at the people's Sunday service in Massey Music Hall. A special program of music will be presented. In addition to a first-class orchestra, solos will be sung by Messrs. Freddie Blakey, who is regarded as "the best boy singer in Toronto," Marie Currier and "The Angel Drill," and Harry Vincent. A special invitation is extended to the boys of the city, including the newboys, and every adult is asked to bring a boy.

May Charge Three With Perjury.

KINGSTON, May 8.—(Special).—George Anderson was found guilty of assaulting Robert Berde and given a six-month sentence in jail, and three witnesses will likely be charged with perjury. Rain has fallen to persistently—no seeing has been done yet in Ontario County.

CIVIC TRIPS NO SNAP SO SAY CONTROLLERS

Criticism of Aldermen Are Warmly Resented—Groyner for Kew Beach.

Mayor Oliver left last night for New York, there to join Dr. Sheard, Controller Harrison and Ald. Church, who are gathering knowledge in United States cities regarding water filtration.

His worship only consented to make the trip on the urging of the board of control. He said the deputation had asked him to accompany them, but he had declined to make no more trips without authorization of the city council.

The mayor spoke warmly, the recent criticisms of Ald. McMurrinch against so-called "junketing trips" evidently ranking in his mind. He declared with emphasis that he wasn't "stuck on" such jaunts.

Controller Hocken undertook to disabuse the public mind of the impression that these journeys abroad were regarded as desirable perquisites of the job of controller.

"None of us are, I guess," quoth he with an injured air. "I was with an injured air."

Controller Ward mused with the bitterness of one who, as a tribune of the people, has been misunderstood by the latter with blind fatuity.

"It is not pleasant to spend your time in making investigations and then be criticized," said he. Controller Hocken gave the gloomy reminder that such things must be so long as the people persist in electing small plebeians as aldermen.

The unanimity of the board shook the mayor's resolution, but it was not until the afternoon that he finally gave ear to the call of duty.

"The board recommended that the by-law for a trunk sewer and filtration plant be submitted June 27.

"The mayor brought up the question of constructing groyner on the lake front between Waverly-avenue and Lee-avenue as a protection against the waves. A deputation of beachers urged that something be done. It was decided that \$350 should be spent on groyner.

The Milne Coal Co. were awarded the contract for supplying bituminous slack coal for the city waterworks. Their price is \$2.75, and the next lowest tender, that of the Rochester and Pittsburg Coal and Iron Co., only one cent higher.

Held Up by Indians.

VANCOUVER, B.C., May 8.—(Special).—H. Telfer and P. Croft, timber cruisers, returned here this morning from the north on a trip of a two-day adventure with Naas River Indians.

They attempted to cross the Naas reserve, when the Indians held them up with rifles. Finally, after paying \$25, they were permitted to proceed.

SMITH'S FALLS GROWING.

Population increased by Railway Changes.

SMITH'S FALLS, May 8.—(Special).—In addition to eighty men who arrived here on Saturday from Carleton Place to become permanent residents, as a result of the C.P.R. making Smith's Falls the terminal point of the Chalk River division, sixty others have since come, making an addition to the population within the past week of one hundred and forty, and all are earning good wages. None of their families are here, and when they arrive it will mean an increase of between four and five hundred inhabitants.

Hasn't Asked for New Trial.

J. W. Curry denies the story printed in an evening paper to the effect that Justice Anglin had deferred sentence on Smith's case, having applied for a new trial.

"I may appeal to the minister of justice, but I haven't decided what I will do as yet," said Mr. Curry to The World last night.

LOOK OUT FOR HIM.

An Imposter Collecting Funds for Children's Hospital.

A clean shaven man of about 25 years of age, ruddy complexion, wearing a brown suit, and a christy hat, black boots and using a bike, was nearly caught yesterday afternoon collecting subscriptions for the Hospital for Sick Children.

He had a leather-covered subscription book with a printed paragraph from the hospital report pasted inside the front and back covers of the book and with this in hand he called at a residence on Isabella-street. The lady of the house, expecting that he was an impostor, made an excuse to detain him, and going to the rear of the house telephoned to the hospital on College-street, but before the official from the hospital arrived on his bike, the man cleared out, leaving his book and walking quickly along Isabella-street to Yonge, where he was lost sight of.

There are no collectors for the hospital and this man is, therefore, an impostor.

When Trusted Men Go Wrong.

Every once and a while the daily papers report the shortcomings of an apparently trustworthy and responsible clerk or official. There is no accounting for these unfortunate affairs. They arise from accident, and they are provided against as such. Our guarantee and fidelity bonds insure an employer against the loss entailed by such accidents. We bond clerks and officials, cashiers and collectors and trusted employees handling money in every department of business. WILL IMPRINT HISTORY OF REMAINS OF THE PEOPLE

Quebec Pageant Will Have Great Educational and Wonderful Spectacular Effects.

The pageant, which will be a feature of the Quebec tercentenary, will be the first celebration of the sort on the North American Continent. From time to time single scenes of past history have been represented; an instance of this was the appearance at the Chicago World's Fair of 1893 of vessels which were an attempt to reproduce the flotilla with which Columbus sailed to discover the new world. A pageant, however, in the sense in which the word is used here, is a series of scenes connected with the history of the actual spot where the performance takes place. For a pageant of this sort indispensable requirements are age and a history, and few places in the New World can have any considerable history, or have been the scene of successive events of importance. Quebec in these respects offers advantages possessed by scarcely any other place on the continent.

The pageant has sprung into popularity in England, and the last two or three years have seen a series of remarkable shows of this sort. Oxford has celebrated the history of a university whose origin is shrouded in mystery, the resignation and election of Abbess Elizabeth Broke in 1478; this event occurred in the days when disorders had arisen in the Middle Ages, and the abbey had become ill-managed. Seventh, the suppression of the nunnery and the purchase of the abbey. Three scenes from Stuart times completed the pageant; the visit of James I. in 1607, when he granted a charter of incorporation to the borough; the fight at Romsy Bridge, 1639, where the parliamentarians surprised and defeated a detachment of Royalists; and the passing of King Charles, in December, 1648.

HARBOTTLE'S SENTENCE 4 YEARS AT KINGSTON

Counsel Declares That Prisoner Has Already Been Himself Punished for His Error

Colin C. Harbottle, ex-secretary of the Toronto Club, and charged with the embezzlement of \$14,695.85 of the funds, yesterday pleaded guilty and was sentenced to four years in the penitentiary by Deputy Magistrate Kingsford.

"His counsel, T. C. Robinette, urged that Harbottle had returned without trouble after his arrest in Cuba and that he had taken away with him very little of the sums stolen.

"It is not a case where a man by designing and planning took money to spend on himself. He hadn't a cent when he was taken," he said.

"With regard to Harbottle himself, he is a man of 32. He was a leader in the athletic world. Then he went into military life and became a captain in the 8th Highlanders. His winning manner and his promptly endeared him to all, and made him a host of friends—too many friends perhaps. In this way we may see the cause of his trouble.

"This affair has ruined him; his character is gone; he is stripped of everything. For two years this thing has been knocking at his very soul. Think how he has suffered for the last two years; he has seen it coming; he has lived in a hell of torture. For himself he is punished; whatever term he may have to undergo is added to the punishment already endured.

"He is not a designing man. As for the punishment, society will mete out to him, that lies in the future, the money disappeared, he addressed the magistrate.

Crown Attorney Corley has known Harbottle since they were boys together and he labored under great emotion as he addressed the magistrate. Harbottle, he said, when arrested was almost destitute, occupying a room for which he paid a dollar, and dining at a Chinese restaurant at 21 cents for a dollar. As an amateur sportsman he had been known as a man who never cheated or tricked. As a man who was probably the best short distance runner in Ontario, he added: "He was never known to cheat. He rode his races fairly.

"I am not asking for an exemplary sentence, but I ask that the facts be set out by Mr. Robinette may be taken into your worship's most serious consideration. He is a very painful and deplorable case," said Magistrate Kingsford.

"I wish it hadn't been my duty to bring this man before you. He has been a soldier. Take what I give you like a soldier. You will have to go to the penitentiary and stay there for four years."

With good conduct deduction, it means 3 years and 2 months in prison. In reference to the charges of "poisoning" the witness in London, Mr. Corley said last night: "The question of the pressing of charges and the weight of sentence is no concern of the chief of police. His duty ends with the arrest of criminals, their punishment is in the hands of other crown officials. To the public who have some right to information, I would like to see a man withdrawn were all included in the larger charge to which he pleaded guilty. I do not think it is fair to find out that the sentence was the same as that meted out to Banwell and the offences are on record to be judged."

Capt. Harry Harbottle of Cleveland said that his brother had not been taken to the police office because of his arrival was taken at once to court. His "valuables" a suit case and a club grip, filled with clothing, had been handed over to the police, and later returned to Capt. Harbottle, as were also his other effects—a tie pin, signet ring and a watch, of considerable value more so family heirlooms than anything else.

SLEEPING DRAUGHTS AND SMOOTHING MIXTURES.

A wise mother will never give her little one a sleeping draught, except upon the advice of a competent doctor, who has seen the child. All these things are carried to the young people of the Toronto Central District Epworth League, which comprises that district east of Spadina-avenue and west of Yonge-street, and as far north as Richmond Hill, including Maple and Fairbank, will be held in the Young-street Methodist Church on Monday evening. An inspiring service is anticipated, as the Alexander chair will conduct the musical part of the program. The address will be delivered by Rev. C. O. Johnston, his subject being "The Average Life."

REALISTIC MIMIC BATTLE FEATURE OF TOURNAMENT

All Arms Will Be Seen in Active Service and Victoria Cross Rescue Made.

All arrangements have been perfected for the sixth military tournament to be held in the armories on May 13, 14, 15 and 16, in aid of the South African memorial. The program as arranged comprises all the well-known events and competitions that have served to render military tournaments so popular in the past, supplemented by displays of gymnastics and artillery drill by the cadets of the Royal Military College. The physical drill by united teams from the local regiments, musical drive and musical review, trooping the color, the march-past and other displays.

The big event will be the concluding number, "The Display of All Arms," which will be given each evening of the tournament. In this a touch of real warfare will be introduced. The detail as worked out shows a convoy escorted by cavalry, machine guns, infantry with a pontoon section, engineers and field ambulances. The convoy rescheduled to find that the bridge has been destroyed, and that the river is not fordable. A larger of gun-nets, writing the relief, fronting near the river bank. The horses are then unhooked and are slowly fed inside the laager. Infantry lines of outposts established, and the laager is completed. The signal is given by one of the outposts. On receipt of the message, the pontoon section commences to build the bridge. In this, the outposts are reinforced and the casualties in the outposts line are attended to and placed on stretchers and are carried to the ambulances. The engineers occupy 10 minutes in the building of the bridge; then the convoy crosses the river on the bridge, leaving the arena by the west door. The machine guns on crossing the bridge take post on either side of the bridge. The infantry outposts are gradually withdrawn, and cross the bridge and the river tank on either side, to hold the enemy in check and cover the retreat of the cavalry, who, as soon as the cavalry retire, commence dismantling the bridge.

During the retreat one cavalryman is wounded and falls from his horse, the horse being captured by a comrade of the wounded man, another cavalryman rescues his wounded comrade in the face of the enemy's fire, the enemy by this time appearing in the arena from the riding school, the cavalryman with his wounded companion being the last to take place in the riding school, and it soon develops that the position taken by the escort to the convoy, particularly since the bridge is dismantled, is too strong to be taken by the attacking force.

The promises to be a very effective spectacle, and no detail has been overlooked, trees having been placed on the bridge and other to give a touch of realism to the scene.

FINDLAY NOT GUILTY.

Jury Gives Him the Benefit of the Doubt.

"Thank you, gentlemen, thank you," exclaimed Douglas Findlay when the jury last night had given a verdict acquitting him on the first three charges of theft from the one-time firm of McDonald & Maybuck. The jury were out an hour and a half. Findlay still has to stand trial on three other charges. The evidence of Mr. Maybuck, McDonald's former partner, favored the prisoner. He told of knowing that McDonald had been hit pretty hard in stock speculation and horse race betting. Findlay swore that he had told McDonald of Bank Manager Gordon's request for a statement owing to condition of the firm's accounts and that McDonald had told him not to give the bank any information without first having his permission. Findlay also swore that Mr. McDonald had "cooked" the statement which was finally presented. The prisoner swore that he had taken his trip to the States to cover up the affair. Findlay had been receiving \$15 a week salary from the firm, and \$5 extra from McDonald, which was later doubted. He said he had played the races successfully.

Mr. Gordon swore that he had asked Findlay for a statement of the firm's affairs. Findlay had done so while McDonald was there and had said that "this covers all the accounts, but there may be some missing here and there," Findlay went away on the next day, Sunday. Mr. Dewar, in his address to the jury, said it had narrowed down to the veracity of either Mr. McDonald or the prisoner.

Mr. Blackstock quoted an old maxim that "a man in a prison cell is a young man, such as the prisoner could spend \$250 on clothes in one year in addition to spending \$1200 on diamonds alone. He characterized the assertion of Findlay that McDonald had started him on a downward course when he was very young as a falsehood.

He said that I could impress on jurors the importance of their verdicts. Weak minds, trembling on the brink of crime, are watching the machinery of the law at work and when a verdict is announced acquitting a man of a crime they believe him to be guilty of say to themselves, "He got away with it?" said the counsel.

Justice Anglin in his charge said that "thrift consist of using money unwisely for your own use. The case hinged upon the reliance placed upon the evidence of McDonald and the prisoner.

The heads of the fire departments throughout the United States and Canada will be in attendance.

CANARD FROM HAMILTON.

Cataract Co. Haven't New Contract From the Asylum.

Authorities at the parliament buildings and the hydro-electric power commission, including Premier Whitney, denied absolutely that a new three-year contract had been entered into with the Cataract Power Co. of Hamilton the supply of energy to the Hamilton Hospital for the insane. The usual arrangements for the supply of power on the expiration of a contract until new arrangements are made are understood to be in force. The report is regarded in official circles as merely one of the numerous attempts to unsettle public confidence by issuing misleading statements. The Hamilton officials are quite satisfied that in the long run no private company can compete with the government commission's rates. The private companies are aware that if they can succeed in burying the government scheme now no other such opportunity will ever recur for the public advantage. Hence their efforts to defeat it. The city officials are quite alive to this situation and will stand by the public interest.

Divine Predestination and Prescience

A Text Whose Misinterpretation Has Caused Great Injury, Affecting the Glory of God and the Peace of His Faithful—Correctly Interpreted This Text is Most Helpful, Stimulating, Encouraging—Pastor Russell's Sermon.

ON THE SEA, Homeward Bound, May 8.—Pastor C. T. Russell of Pittsburgh, Pa., U.S.A., addresses a large audience thru your columns on "Foreordination and Predestination of the Bible" from the text: "Whom he did foreknow he also did predestinate." (Rom. viii, 29).

It might be supposed that the doctrine of divine predestination would be a very comforting one to those who belonged to the elect class. This has been true to some extent. Thousands have been led to think of the Almighty as determining in advance of Adam's creation how many of his posterity would be born into the world who would reach the heavenly estate and what immense hosts would be consigned to eternal torment, and that they were to be eternally separated from God by the position being in view of the fact that they believed themselves to be of the favored few, the elect. Nevertheless, many have been the anxious hours of thought devoted to seeking full assurance of faith on this subject. Subtle fear persistently attacks and causes desiquit by asking the question: Are you sure that you are one of those predestinated to glory and not one of those predestinated to eternal torment? Are you certain that you are one of the Very Elect, making your calling and election sure? The Lord thus in the Prophecy pictures this uncertainty of mind which particularly attaches to those who hold this doctrine of predestination, but which also is applicable to others, for all with one consent agree that the Scriptures teach a narrow way of life and to us that few there are that find it—and with the thought that all except these few go to an eternity of torment, the question arises: How do we know that we are of those who are walking in the footsteps of Jesus, that you are one of the called, chosen, faithful? The trepidation of mind is dreadful, and we do not wonder that the majority of Christian people prefer not to think much about these things and to hope that there is no eternal torment; but immediately they are perplexed with the thought: If there is no eternal torment, how do we know that we are in any eternal life at all? Their difficulty lies in the misinterpretation of the Scriptures given which teach eternal purgatory, etc.

The statement of the Prophet to which we advert is, the bed is shorter than that a man can stretch himself on it, and the covering is narrower than a man can wrap himself in it. (Isa. xlvi, 1-4). In this connection the picture the Prophet tells a volume of truth, as nearly every Christian heart can agree. Our creeds, our prayers, our lives, our hearts, our minds, our consciences, our consciences are too short. Designed as resting places of faith, beds of ease, our hearts and minds are too narrow to receive the truth which the Prophet tells a volume of truth, as nearly every Christian heart can agree. Our creeds, our prayers, our lives, our hearts, our minds, our consciences are too short. Designed as resting places of faith, beds of ease, our hearts and minds are too narrow to receive the truth which the Prophet tells a volume of truth, as nearly every Christian heart can agree.

"The difficulty comes when we begin to attach to this reasonable thought of foreordination the erroneous, unscriptural thought that the majority of men are to spend an eternity of torture. When we begin to think of the error we corrupt the whole thought. Thus it has been, that we have blended and confused ourselves on the subject of foreordination. It was first determined that there was to be a class tormented; and this was determined by God, and was secondarily determined that God must have foreknown and must have foreordained this, and on this wrong foundation our theological blasphemy was reared. It is the time that we get back to the proper basis of reasoning, that we eliminate altogether from our theology the hell thought, and that we get back to the Bible teaching respecting hell, respecting the punishment of sin. Thus we have already begun to understand the error we have committed. We have already begun to understand the error we have committed. We have already begun to understand the error we have committed.

UTILIZING THE AIR. The Principle of Pneumatic Piano-Players Described.

Connect a little diaphragm with the striking lever of a piano, then cause the diaphragm to be full of air, and the lever will strike the string. That is the principle in a nutshell of the pneumatic piano-player. The greater the air pressure, the louder will be the tone. This is the principle of the Angelus, which is the piano-player perfected. There is no need to describe in detail the vacuum produced in the box and the rush of air thru the holes in the music roll that vacuum. That is a mere technicality. The main thing to remember is that in the Angelus the air pressure is so controlled by the performer that he can produce the most accomplished artist. Over, the means whereby this is accomplished are protected by the fingers of expression, and he can produce the most accomplished artist. My Free Electric Belt

Never before has another person made a free offer such as this. I do not distribute cheap samples broadcast, but am daily sending out dozens of my full power Dr. Sanden Electric Belts absolutely free of charge, and they are the same in every respect as though full cash prices were paid. The proposition is simple. If you are ailing, call at my office and take a Belt home with you. Or, if at a distance—no matter where—send your name and address, and I will at once arrange to deliver to you one of my Belts, with suspensory or other attachment needed. Use same according to my advice until cured, then pay me—many cases as low as \$5. Or, if not cured, simply return the Belt, which will close the transaction. That's all there is to it, if you prefer to buy for cash the full complete discount.

NOT ONE PENNY IN ADVANCE NOR ON DEPOSIT.

Not a cent unless you are made well. I make this offer to show men what I have done in my own remedy, and I can afford to take the risk because not one in a thousand when cured, will cheat me out of the small amount sent. It pays me and my patient. My business more than doubled last year. Each and all patients receive the benefit of my 40 years' experience, a knowledge of the value of my cure, and which is mine alone to give. I am the originator of the Electric Belt treatment, and all followers are imitators. This I will prove by any guarantee you ask. You wear my Belts with confidence, curing while you rest. Rheumatism, lumbago, dull aches over kidneys, pains in all parts of the body, kidney, bladder disorders, constipation and stomach troubles. Send for the belt to-day; or if you wish more information, write me fully of your case and receive my personal reply. I will also send any descriptive book, sealed, free of charge. I have thousands of recent testimonials from grateful patients. "Would you care to read some of them? I will put new life into you in two weeks' time. Don't you do the worrying. Put that on me. I will take all the time I have something to work for. Unless you are cured I get no pay." Address:

BOY HANGED HIMSELF.

Shocking Suicide at Hamlet of Eden Grove.

GUERPH, May 8.—A shocking suicide took place at Eden Grove, between Waikaroto and Paisley. A young boy named Calum, only eight years of age, hanged himself with a rope rather than go to school. It appears he had got into trouble at school, either with playmates or the teacher, and yesterday returned to go back. His mother insisted, and he said he would die first. No attention was paid to the threat, which was considered an idle one, and he was sent off.

Later the body was found hanging to a rope, which he had himself placed about his neck. The mother was terribly shocked with the discovery.

Flags Will Fly. The Ontario Education Department has issued a notice to provincial schools to celebrate Empire Day on Friday, May 22. The circular suggests patriotic instruction for the morning and patriotic recitations and addresses in the afternoon.

The department promises a Union Jack to every rural school before that date, and every schoolhouse must fly it. The Canadian ensign should also be used.

Buoyancy is Steadily Maintained at New York—Manipulation Non-Effective at Toronto.

World Office Friday Evening, May 8.

Transactions were well scattered in the business at the Toronto Stock Exchange to-day. Yesterday's buoyancy in a few issues, which was undoubtedly brought about to influence outside buying, failed in its object, as few orders for the specialties came to hand to-day. The market was a whole passed through its usual hum-drum existence. Trading brokers saw no opportunities to secure profits, and the majority of operations were again left to the insiders. The market was not so difficult as it is now, but the Rio and Sao Paulo were available without much difficulty. The Rio bonds were bid at 100, but it is doubtful if these securities were bought under this incentive. The only firm speculative securities were Macekay and Two in the latter refused to be drawn into activity. The only public buying, and this was of purely investment nature, was in shares of the financial institutions, which held steady under the demand.

announced, and will lead to the biggest move we have ever had. In his judgment, we are inclined to be more optimistic over our political situation. It is understood that a large part of the subscriptions to the \$25,000,000 Canadian Pacific common stock offered some months ago has been paid in advance. The final instalment is not due until October. The Canadian Pacific is going on with some of its extension work, but is inclined to proceed conservatively in this direction.

The general trend is toward lower levels, but hardly look for entire withdrawal of support, but expect to see bullish manipulation appear rather along the lines exhibited yesterday. Reading and the leader still. Much distribution has taken place in Northern Pacific, which is likely to be somewhat lower before aggressive support appears. St. Paul, Copper and Steels are also subject of a great deal of realizing. Whatever the Steel interests do in the matter of prices, a great amount of new business can be looked for unless they materially reduce their schedules. The hitch in the plan to raise freight rates is dubious, as bull sentiment was largely due to promulgation of this idea. Railroad business is at the lowest ebb since the last general depression and the fortnightly statistics of idle cars, soon to be announced, will show another record-breaking exhibit. It seems to us that more attention from now on will be given actual conditions of business and the prospects politically and otherwise, which should go far toward characterizing the present undeniably favorable crop situation. Distribution is going on and later the real weight of stocks will be of material assistance to the bears. We would take the selling side of aggressive leading issues on all. Disregard pool manipulation in the minor shares, as they are dangerous in the extreme.—Town Topics.

Wall Street Pointers.
General Electric report shows the company is in a very strong position to meet the present depression.

The regular 2 per cent. dividend will be declared on C. & W. in spite of the rumors to the contrary.

The number of St. Paul stockholders increased 60 per cent. since September last.

There is but light demand for stocks in the loan crowd.

The steel authorities expect iron ore operations to begin satisfactorily.

London settlement begins on Tuesday.

Thirty-one roads for the fourth week of April show an average gross decrease of 24.59 per cent.

Pig iron prices are weak, but no changes in quotations for finished steel.

The banks rated \$2,800,000 from the sub-treasury for the week ended Thursday.

It is rumored on the board that the Union Pacific Company has sold \$25,000,000 of the new bonds, but the announcement may come at any time.

The known movements of money for the week ended with the close of business on Thursday indicate a gain in cash of \$11,000,000.

We suggest a maintenance of the conservative bill stand upon the stock market. Purchases should be made along the standard issues on recessions for turns, but not climbing for stocks, taking a major portion of profits on buying in the daily trading position. In the event of unexpected recessions, we would average the good stocks. The market may be very irregular to-day.—Financial News.

CLEVELAND, O., May 8.—The Euclid-avenue Trust Company of this city to-day made an assignment to the Cleveland Trust Company in the Federal court. No statement of assets or liabilities has been given. The last statement issued by the concern gave the assets as \$1,700,000 and liabilities \$1,700,000.

Directors of the Union Pacific and Southern Pacific met within the next ten days for dividend purposes. Unless something entirely unforeseen arises, there is no question that the regular 10 per cent. rate will be continued on Union Pacific and 6 per cent. on Southern Pacific. There is a possibility also that the directors of the Union Pacific at their meeting next week will authorize the sale of \$30,000,000 new first mortgage bonds recently authorized. However, there is no need for hurry on the part of Union Pacific people to do their financing, and it may very well happen that the actual sale of bonds may be postponed beyond the forthcoming meeting.

Joseph says: The market will move temporarily within comparatively narrow limits. On the resumption of bullish sway, the Pacific shares will make new high records. There is no doubt that both Union and Southern Pacific, after a relative period of quiet, will advance from five to ten points above this level. Buy on little dips. Give attention to New York Central, in which the short interest is fairly large. Atchafalaya will sell ex-dividend at 2 1/2 per cent at the opening. Buy on recessions below 80. Specialties: Average Pennsylvania around 118-12. Hold some Amalgamated. Colorado Fuel is going higher.

NEW YORK, May 8.—Vice-President Ogden of the Canadian Pacific says the weather in Canada this spring has been very favorable to the agricultural interests, and he looks for a big fruit crop. Homeowners are still coming into the country in large numbers. Mr. Ogden believes that when the turn comes in business in both the United States and Canada, it will be pronounced public appears, there is as yet no pressure or distribution that does not appear to be easily taken care of by a strong buying movement.

Today's trading witnessed another display of strength, but with reduced activity, the feature being light offerings and steady pressure to buy in nearly all the active speculative issues.

Ennis & Stoppani wired to J. L. Mitchell: The market ruled very strong, with new high records for the stock in such issues as St. Paul, Union Pacific and Reading. Copper metal was lower here but was steady in London, and favorable views were expressed relative to the trade outlook. The stability of iron ore prices is regarded as one strong point in the steel situation.

The advance in Reading appears to have followed important accumulation of the stock, presumably including purchase of the Lakes Shore holdings. Union Pacific at 140 still yields 10 per cent. Short bills, 3 1/2 to 4, over 7 per cent to the investor and those best informed say the highest of the ten per cent. dividend rate. It is current rumor that over half of the new Union Pacific bonds have been placed abroad.

There will doubtless be reactions, but to the profits for 1908 seem very high on the constructive side of the account.

J. R. Helms & Co. wired R. B. Holden: American Sellers. The market advanced in the early trading, but the opening here was firm. In the last hour the market was irregular, and quite a little stock was found on the bulges, but it was well taken, and we still continue to look for higher prices, and suggest the purchase of stocks on all drives for moderate returns.

ENDEAVORING TO MAKE A MARKET.
World Office, Friday Evening, May 8.

The flurry in prices at the Toronto exchange yesterday was not successful in bringing in the buying that was anticipated, and yesterday's specialties gave a poor report of themselves to-day. The Rio pool succumbed under possible offerings, and after taking 20 shares nearly a point below last night's figures they lowered the support to 34. The Sao Paulo syndicate appears to have been equally unsuccessful in getting out stock, and numerous odd lots were put to-day at concessions. There is an evident attempt being made to get out the Rio bonds, but institutions who usually take such issues are suspicious of the overtures now being made. To-day's operations showed no real incentive for advancing prices, and many of the transactions were purely the result of endeavoring to make a market for certain securities.

At Bathurst-Street Methodist.
A particularly interesting musical program will be given in Bathurst-street Methodist Church on Sunday. The innovation of the quartet choir, decidedly new to Toronto, is being watched with interest by members of churches who have been accustomed to the "volunteer choir." Warren's "Even Me" and Dudley Buck's "Rock Me" will be sung by the quartet choir. Mrs. Christie will sing "Fear Ye Not, O Israel," by Dudley Buck, whilst Miss Irene Weaver and H. St. Clair Boynton will render Gounod's "Forever With the Lord."
