TUBANTIA INQUIRY HAS

Special Cable to The Toronte World.

LONDON, May 18.—Latest news tonight from the Italian front indicates that the Italians have halted the big offensive which the Austrians launched against them from the Tyrol. The Italians merely withdrew before the storm to their main positions at Zegnatorta, in the Legarina valley, and they successfully repelled five powerful assaults of the enemy. The foe brought into use many powerful hatteries, which have poured an incessant rain of shells on the Italian defence. The Austrians were also defeated with serious losses in an attack on the Italian positions on the slopes of Monte Pari, in the Ledro valley. This assault had been prepared for by intense artiliery fire.

The Austrian offensive in the Tyrol has not even stayed the Italian advance on Trent, their latest exploit. this torpedo was not fired at the Tubantia March 16, but at a British warship March 6, missing its target. The government intends to press for a deeper inquiry."

FOLKESTONE, May 18.—At the Folkestone Police Court today, Pts. Christopher Clarke, 2272, 19th Battalion, Canadians, was charged with unlawfully wounding Pts. George Mackenzie, 8th Battalion, Canadians, of Manitoba.

Was Worried When Told That Scotland Yard Detectives Were Coming for Him.

NEW YORK, May 18.—Ignatius T. Trebitsch Lincoln, who admits that he is a great international spy, will be taken to London next week by Scotland Yard detectives, who arrive hers Monday.

The spy was a trifle perturbed at the Scotland Yard announcement made by the Brooklyn branch of the British consulate here. It is well known that a large section of England is in favor of a speedy funcral for the former converted clergyman and memter of parliament. He is wanted ostensibly for forgery.

Last night Lincoln had not more "revelations of an international spy" to issue.

Buttly Wollnding Fte. George Mackenzie stated that he was in the street when the prisoner asked him to fight. He refused. Whilst lighting a cigaret the prisoner struck him. They struggled on the ground. He felt something sharp strike him in the arm and tibes. The prisoner got away. He ran after him and catching him, they frought on the ground and then witness became insensible and woke to find himself in the hospital.

The prisoner said in court that he never remembered anything.

The medical evidence showed that Mackenzie had seven wounds, probably caused by a stab from a knife. One in the neck was very dangerous. If there had not been first aid rendering better.

Last night Lincoln had not more "revelations of an international spy" to issue.

PREMIER ASQUITH IN CONFERENCE AT CORK

He Left City After Two Hours' Talk With Irish Leaders.

COVET.

Mrs. Ida Bilton, 254 Bathurst street, 51 years of age, attempted to end her life yesterday afternoon in her room by inhaling illuminating gas.

When discovered by the landlady of the house, Mrs. Bilton was undressed and in bed. One of her skirts had been placed at the bottom of the door to keep the gas from escaping. Four jets of a gas stove were open. She was taken to the Western Hospital in the police ambulance. It is thought she will recover. PARLIAMENT IS **DULY PROROGUE**

Sir Charles Fitzpatrick De livered the Speech From the Throne.

NEW PENSIONS PLAN

Men in Ranks Are to Be More Generously Provided for.

minion will meet the needs of the situation and will be attended with marked advantage to the public interest.

Splendid Crops.

"The magnificent crops harvested during the past season have materially assisted in mantaining the stability of our national fabric. You will rejoice to learn that the vastly increasing volume of Canada's exports is still maintained and that the general prosperity of the country has not been perceptibly diminished by the war.

"In dealing with national problems of railway development you have made provision by which present needs will be met. Steps will be taken by my advisers without delay to insure an effective enquiry into the conditions by which those problems are surrounded and the most efficient meathods by which they can be solved.

"The provision for supplementing, with such aid as is required from the federal power, the operation of provincial legislation restricting the sale or use of intoxicating liquors, is in accordance with the marked advance of public opinion to which the provincial enactments are due.

"I deplore with you the partial destruction of the historic building in which the deliberations of parliament have been held since the founding of this Dominion. It is anticipated that in its restoration the distinctive features of its architecture will be preserved while at the same time more spacious and convenient accommodation will be provided.

Liberal Provision.

"Gentlemen of the house of commons:
"I thank you on behalf of his maj-

mons:
"I thank you on behalf of his majesty for the liberal provision which you have made for the public needs and for the increasing demands of the war. "Honorable gentlemen of the senate, gentlemen of the house of com-

gentlemen of the house of commons:

"It is my privilege now to relieve you for the present from your arduous labors, and I do so with an evergrowing confidence that, notwithstanding any temporary reverse, victory will crown our high cause, with a fervent prayer also and a humble faith that out of this time of trial and suffering our country will assuredly advance to a greater and nobler future."

When the house of commons convened at 2 o'clock, Hon. J. D.

Hazen presented the report
from the special committee
on pensions, which was given from the special committee on pensions, which was given out some days ago to the press. Ho said the committee had been greatly assisted by the advice of the gentlemen who had appeared before them, but he thought it was not invidious to name Frank Variey of Toronto as deserving of special mention. The pension scheme was intended to apply only to men who voluntered for service in the present war, but they would come under its provisions even tho they were killed or injured before actually going overseas. The scheme would be retroactive, dating back to Aug. 4, 1914. The administration of the pension scheme would be placed under the control of a pension board, from whose decision there would be no appeal. The members of this board would be appointed for ten years and could not be removed except for cause.

Favors Men in Ranks.

Pensions granted soldiers, he said, were not to be assigned, attached, anticipated or commuted. The distinctive feature of the new scheme was that privates and men in the lower ranks would receive much higher pensions than formerly. As to officers, from a lieutenant up, the pension rates would remain unchanged. The committee had endeavored to remove the great

remain unchanged. The committee had endeavored to remove the great discrepancies between the pensions allowed the rank and file and the pensions allowed to officers. This had been done by increasing the pen-

ons to privates, sergeants, sergeant-ajors, master gunners and warrant ficers. No decrease, however, has een made in the pension rates es-blished for officers from lieutenant o, because it was not considered so many men had received commissions. Another striking feature in the new pension scheme was placing unmarried and married men upon an equality. The pensions to married men had been somewhat increased and the pensions to unmarried men had been brought up to the same level.

Thus the pension for a private soldier totally disabled would be \$420, whether he was married or single. Formerly the pension was \$264 for an unmarried man, and \$394 for a married man.

Mr. Nickie (Kingston) said he hoped some plan would be evolved for taking care of reservists and their dependants.

Plea for Married Men.

Hon. Frank Oliver held that married men should be treated more favorably than unmarried men. It was prepositionally than unmarried the control of the co

than unmarried men. It was preposterous to argue that one person could live as cheaply as two.

Mr. Macdonell (South Toronto) said no injustice was being done the married men. They were getting more than formerly, having been advanced from \$396 to \$420 in the case of private soldiers, totally disabled.

True, the unmarried soldiers under the same conditions now got \$420, where formerly they only got \$264, but the increase granted them was not at the expense of the married soldiers.

Sir Robert Borden said that he hoped the government would be able to adopt the recommendations of the committee on pensions in their entirety.

Cannot Appeal Decisions.

on pensions in their entirety.

Cannot Appeal Decisions.

The members of that committee, he said, including Messrs, Green, Oliver Scott, Macdonell, Nickle, Lemieux and Macdonald, deserved the thanks of the house and the country. He thought it imporant that pensions should be kept out of politics, and hence there would be no appeal from the decisions of the pension board to the government or any member thereof. He would be glad to confer with the leader of the opposition before announcing the personnel of the board, and he could assure the house that the men appoint.

Economy in Printing.

Col. Hugh Clark (N. Bruce) said it had been arranged that the reports from three commissions should be discussed this afternoon, but the members of the pension committee had gallantly consumed two hours had gallantly consumed two hours and a half remaining before prorogation. In supporting the recommendations of the printing committee for greater economy in the publication and distribution of government reports, Cel. Clark agreed in the main with the observations made last Saturday by Col. John A. Currie (Simcoe). He said the committee wanted to put into effect the finance minister's slogan of "Production and thrift." He thought the government should practice thrift by producing less in the matter of

The Season of the Two-Piece Suit Finds Us Well Prepared. Among the Feature Items Being Smart Models at \$8.50, \$10.00, and to \$18.00

Two-Piece Suit to fit properly and keep its original smart lines must be specially made. The correct effect is seldom obtainable by merely leaving off the vest of an ordinary three-piece suit. Come to the Clothing Department on the Main Floor and we will demonstrate the big difference there is between the makeshift three-piece suit and the specially designed, superbly tailored, and reliab Wearing two-piece suits mentioned in the following. Of particular interest to young fellows should be the "semi" Norfolk items.

Coat and Trousers only, in light grey summer weight linens with a narrow thread stripe in a trifle darker material. There is also a wider stripe pattern. Three button coat has neat rounded corners and is half lined through the body. The trousers are smartly fashioned in the correct outing style with cuffs and belt loops. Sizes 34 to 44. Price 8.50

In a similar style there is a medium grey cheviot with a somewhat lighter thread stripe. Price 10.00

Another Two-piece Suit is well tailored of blue, soft finished cheviot with a narrow thread stripe pattern in green. The coat is a two-button, long soft roll lapels, well cut away in front, has patch pockets and is half lined with lus-

Just Arrived! New Styles in Summer-Weight Suits for Young Men

THESE NEW ARRIVALS in light weight two-piece suits are extremely fashionable for young men. They are cleverly tailored in two and three-button styles, with narrow and medium width lapels. The big feature and the part that is new and stylish about them is the new pinch back or narrow fitting waist with 1/2 belt sewn on at back, with narrow pleat effects running from shoulders to belt. They have patch pockets. cuffs on sleeves and are unlined. The materials include some new patterns in fawn, brown and olive mixtures; also some flannel effects in plain blue and brown shades. Sizes 34 to 44. Prices, \$18.00, \$18.50 and 20.00

-Main Floor, Queen St.

Balbriggan—the Ideal Warm Weather Underwear

Ideal, because the yarns used in their manufacture are soft, smooth, elastic and free from all irritating frizziness.

The Zimmerknit brand will keep you cool and comfortable. Made with long or short sleeves and ankle or knee length legs. Sizes 34 to 44.

For those men who wear belts all summer, the combination is the only comfortable under-wear to use and the "Mercury" brand is made of a finely woven balbriggan that will give the very acme of ease and comfort. Made with short sleeves and ankle length leg in natural coloralso short sleeves and knee length legs in white. All have closed crotch. Sizes 34 to 44. A suit 1.25

Soft Collars and Washable Ties

Most suitable for warm weather wear are the soft lounge collars—soft, cool and easy on the neck. They are made of plain white washable mercerized cottons in fancy stripe designs. The season's newest styles, include the stand-up-turndown, close fitting, with loop in front; round cornered and the long point shapes. Sizes for men and boys, 12½ to 16½. Price, 2 for . . .25

In the new shipment of men's wash ties, just received, there are some very attractive designs of helio, tan, pink, mauve and green stripes running perpendicular on light grounds. All have strong sturdy neckbands and are made of good

Belts and Coatless Suspenders

Neat fitting leather belts, very desirable to wear with the two piece outing suit, being well finished and in a thin, narrow style, in either straight band or tubular cut. They have one tongue buckle to match, with one or two keepers, and are in shades of black, tan and grey. Sizes

For Those who cannot wear the belt, the invisible suspender answers the purpose just as well. We recommend a line made from good quality white liste elastic webbings. They are in either two or four point styles, all with nickel ends and sliding back nickel buckles. Price, per

pair —Main Floor, Centre.

THE DAY'S EVENTS REVIEWED

(Continued from Page 1).

undertaken in co-operation with a Russian offensive in Galicia. Such

progress would not necessarily be a matter of days, but perhaps of

eral cause of the allies has been the retention of an Austrian force of at

least half a million men on their frontier and the infliction of a quarter to

half a million casualties on the enemy. If these extra Austrian troops, for instance, could have been used, say, at Verdun, with their complement of big guns, the French would have run much graver danger of defeat than

British submarines began their spring campaign against German shipping in the Baltic by sinking at least three German merchant ships after the crews had been saved. Two of these vessels were bound for Germany with iron ore. The vessels sunk were the steamers Herra, Kolga and

Bianca. The Kolga resisted search and she was shelled and two of her

crew were slightly injured. It is reported from Copenhagen that a great many British submarines are now operating in the eastern and southern

portions of the Baltic. That sea is now clear of ice. Last autumn German traffic was paralyzed for weeks by the British submarine squadron under

States, Germany can sink as many ships as she likes, providing that her submarines remove the passengers and crews after visit and search. But

the effectiveness of the British operation in the Baltic is likely to rouse

Germany in renewed fury and to re-open the controversy with Washington.

Vimy ridge after a strong bombardment. A strong hostile patrol was driven back while trying to rush a British post near Wieltje. Artillery was

continued yesterday with French gains in attacks and the capture of a small Teuton fort on the northeastern slope of the hill and the repulse of a strong German attack against Hill 304 and Avocourt wood. The artillery

action was extremely heavy in this region. In the night French aeroplanes

bombarded German munition depots, railway stations and camps in Alsace

Australian and New Zealand mounted troops carried out a successful enterprise against the Turks at Bayoud and Mageiba, on the Egyptian

frontier above the Suez Canal, despatches received from Egypt announce. The Turks made no resistance and fled at once. Thirty-six camels, a quantity of Turkish ammunition and one Turkish soldier were captured at

The French steamer Myra has been sunk, but whether by mine or

authorities are not satisfied that their steamer, Batavia V., was

marine is not stated. If it was by a mine, it can be safely said that the mine was laid by Germany. This form of piracy, it is to be noted, has never

been protested against by the United States or any other neutral. The

Estimates Passed and Twenty-Two and a Half Mills Was Decided Upon.

men and controllers are not yet sure, but after sitting for several minutes they finally, accepted the mayor's and city clerk's ruling that it was and slow-ly filed out of the council chamber.

The way the doubt arose was, the Controller Foster had moved a motion to adjourn. Ald. MacGregor put the following motion: "This council now assembled present a hearty vote of confidence in his worship the mayor as our first citizen as regards patrictism to his country and his King." This was seconded by Ald. Robbins, and would likely have been unanimous only the mayor refused to put it, stating that were it not for deficient hearing and eyesight be would have been in active service long ago. He declared the council adjourned, but the majority of the members desired to put Controller Foster in the chair and pass the motion.

Earlier in the afternoon the legal opinions regarding the war tax were read; these were from T. G. Meredith, K.C., and City Solicitor William Johnston, and were in reference to the powers of the provincal government to levy and collect a war tax on the municipalities of the province.

Government Justified.

Both opinions are against Mayor Church, and justify the action of the government. Mr. Meredith says: "If the narrow construction which has been placed upon some of the sections of the British North America Act was applied to sub-section 2 of section 92 of this act it might be held that the Provincial War Tax Act, 1915, did not come within the meaning of this section."

He thought, however, that at the present time the broadest construction possible would anny and so construction possible would apply and so construction possible would a

FIXED ASSESSMENT FOR

CANADA MOTOR COMPANY

At a special meeting of the York
Township Council hold yesterday the
application of the Canada Cycle &
Motor Co. for a fixed assessment preferred at iast Monday's meeting was
adopted, the company being granted a
rate of \$60,000 for five years, \$90,000
for ten years and \$120,000 for the remaining period of five years, \$90,000
for ten years and \$120,000 for the remaining period of five years, \$90,000
for ten years and \$120,000 for the remaining period of five years.
The mayor stated he did not agree
with either opinion and it was not he
with had asked for legal opinion. It was
not a matter so much of law as of policy,
and on that ground he was still opposed
to it. "Mr. Meredith, the mayor of
cutting and wounding Samuel ThornINTERVIEWED

ARMILTON, Friday, May 19—Westery
King, \$5 Sydney street, was arrested last
night by P. C. McBride on a charge of
cutting and wounding Samuel Thornton.

IMMARY

IMMAR

On motion of Ald. McBride and Ramsden there was an expression of approval for a Federal Daylight Saving Bill to have the clocks of the Dominion moved ahead one hour.

The matter of increases to district and deputy chiefs of the fire department was referred back to the committee.

With four items referred back the report of the committee of the whole was adopted by the council.

His Honor Mayor Church then said that Ald, McBride's remarks had been most unfair, and Ald, McBride said he had not said that the mayor's remarks were pro-German; if he was so reported the report was in error,

Ald, Ryding was congratulated at the opening of the meeting by Ald, McBride on behalf of his colleagues on his recent marriage and was presented with a handsome bouquet of roses for Mrs. Ryding. In his reply Ald, Ryding suggested that several other members of the council, including his worship, might follow his example.

ish, Whetter, Graham, Ball, Cowan, Robbins, Ryding, McBride and McBrien — 16.

Against—Church, Foster, Cameron, MacGregor, Wagstaff, Maguire and Ramsden—7. Controller O'Neill and Ald. Archibald were not present.

The council then passed the estimates and struck the tax rate of 22½ mills on the dollar.

Ald. Robbins did everything in his power to have a committee appointed to exonsider the redistribution of wards. Ald. McBride opposed this and stated that with 30,000 men out of the city and everything unsettled this was no time to gerrymander wards. Ald. Ball said that it should be first decided whether it there was a real need for redistribution or not; in the last few years he had not no ro not; in the last few years he had not heard of any real desire for redistribution. After many comparative statements of population, cost of redistribution and the present number of residents per acre compared with two years ago in each of the different wards it was finally decided by a vote of 14 to 5 that the recommendation of the board of control to appoint a committee to consider the matter be struck out.

Controller Foster opposed the laying of sewers on Queen street between Pape and Leelle at an estimated cost of \$50,000, but after a short discussion the recommendation was carried.

Daylight Saving Bill. On motion of Ald. McBride and Ramsdaf or a Federal Daylight Saving Bill.

NORTH WYCHWOOD TORIES

COUNTY HIGHWAY PLANS APPROVED

Government Advised Com-

mission to Be Careful of

Expenditures.

INISH KENNEDY ROAD

Will Also Complete Thorofare to Woodbridge and Extend System.

The York County Highway Commission was yesterday notified by the Ontario Government of their approval of the plans submitted for the genal of the plans submitted for the general improvement of the roads thruout the county, but advising that care be exercised in the expenditures during the continuance of the war.

E. A. James, highway engineer, stated last night that they were basing their calculations on an outlay of \$140,000, but this amount may be exceeded as the work progresses.

ing their calculations on an outlay of \$140,000, but this amount may be exceeded as the work progresses. He was not prepared to outline fully the work to be undertaken, but the commission will make a tour of the roads designated the early part of next week. The general outline plans for the completion of the Kennedy road, 2 1-2 miles, at Ellesmere, in Scarboro township, the completion of the Weston road into Woodbridge, about three miles, and the extension of the present good roads system west of Stouff-ville to beyond Ringwood on the townline between Markham and Whit-church.

Yonge street, the great highway to the north, will go still farther, and roads diverging east and west of the towns of Newmarket and Aurora will be started. It is understood that some attention will be given to the roads to the north and east of the city, which have not kept pace with the highways in the country. Another road which will in all probability come in for rebuilding its that running from Langstaff, a mile and a quarter north of Thornhill, to Unionville, a distance of 6 1-4 miles. This road is easy of construction, the cost will be comparatively little, and will, when completed, struction, the cost will be compara-tively little, and will, when completed, sive access to one of the finest districts in Ontario. Work will commence on

The annual meeting and election or officers of the North Wychwood Lib-Conservative Association was held last evening at the business premises, 178 Vaughan road. President Fred Powers occupied the chair.

The following were the officers elected: Pres., Richard Jones; first vicepres., W. J. Hughes; second vice-pres., H. Cross; sec., Fred Powers; treas., J. Duncan.

The appointment of the executive J. Duncan.

The appointment of the executive committee was placed in the hands of the newly-elected officers.

Alderman H. H. Ball delivered a fine

The association decided upon the premises, 173 Vaughan road, as a permanent place of meeting, and that the members meet quarterly.

ENDEAVOR TO OBTAIN EXPRESS DELIVERIES

Earlscourt Business Will Take Matter to Railway Board to

Get Service.

A meeting of the Earlscourt Business'
Men's Association was held last evening in Little's Hall, corner of Ascot
and Farlscourt avenues. President John
Walshe occupied the chair.
The principal business discussed was
the legit of approase deliveries in the committee to wait upon the various ratepayers' associations around entire city limits, asking for their co-operation to obtain express deliveries in a number of sections, and that a combined meeting be held in Brown's School, Avenue road, for organization and appointment of a chairman, and if the request was not granted by June 1 the matter be taken to the board of control for immediate application to the Dominion Railway Board.

J. R. Macnichol in a forceful address pointed out that the delivery of goods in the Earlscourt, Danforth, North Toronto and other outlying portions of the city was not a matter to be dallied

th indefinitely.
"We have been ignored for the past
"We have been ignored for the city

and others were equally emphatic that immediate action should be taken to force the express companies to have a delivery in these sections.

INIFORM SCALE OF GRANTS UNFEASABLE

Patriotic Fund Conference Advocates Change in System.

TO RAISE TEN MILLION

Ontario Will Be Asked to Contribute Half the Amount.

Embodying a declaration holding that the uniform scale of payments of money wives of soldiers is impracticable and advocating certain provisions regarding allowances to wives, resolutions were adopted at the closing sesdon, yesteruay afternoon, of the conce of delegates representing eastern organizations of the Canadian pariotic fund, in the Foresters' Building,

College street. The resolutions provided that the childless wife shall receive a \$5 monthly allowance; that no post-enlistment wives shall be assisted unless the wife is an expectant mother; that women without household duties should be en-

without household duties should be encouraged to work.

While the uniform scale was held to be impracticable, yet it was recommended "that the central executive be urged to obtain a uniformity in the scale of grants by neighboring committees similarly situated."

In Report Form.

The resolutions which were submitted in the form of a report, and were discussed before adopted, were the result of the appointment of a special committee, which was instructed to answer questions raised during the meeting. The resolutions follow:

"Resolved, that all childless wives, married before enlistment and where they have complied with requirements of the fund, be entitled to \$5 a month.

of the fund, be entitled to \$5 a month.
"That no post-enlistment wives be "That no post-enlistment wives be assisted unless the wife is an expectant mother, that while an expectant mother she be treated as a childless wife married before enlistment, and when the child is born, she be treated as a mother before enlistment.

"That women whose domestic duties do not require their attention, should be encouraged to work and that no

encouraged to work, and that no uction be made on account of casual earnings.
"That a uniform scale thruout eastern Canada is impracticable, but the central executive maximum allowance to dependents be not exceeded by any

branch, and that the central executive urged to obtain uniformity in the le of grants by neighboring commun. ces similarly situated."

Assist Small Branches.

The advisability of appointing an auditor for the organization was widely discussed and a difference of opinion resulted in the adoption of Sir Herbert Ames' suggestion that efficient men of the larger committees will supervise or assist in the clerical work of the smaller branches. Economic reasons, were assigned by those who disfavored the appointment of a qualified auditor. Charles L. Dunbar of Guelph declared that his branch had no admin-istration expense, and maintained that a situation of this kind gave the asso-ciation a better advantage in seeking

ciation a better advantage in seeking increases in its funds.

The honorary secretary, Sir Herbert Ames, asked that assistance be given him in establishing American auxiliaries west of Detroit, and suggested that names of Americans in accord with the purpose be sent him. The east was well organized, he said. Six thousand Americans have enlisted in Canada's behalf, the secretary announced in recommending that the giving of money by Americans be encouraged. He said \$100,000 had already been received.

Ontario's Share Five Million.

Ten million of dollars must be raised to meet expenses of the fund for the next year, according to Sir Herbert, in speaking at the morning session. Of this amount, Ontario is required to raise \$5,000,000, and \$4,100,000 will be expended in the province. Quebec and Ontario are to raise the larger amounts to assist the western provinces. Ontario's share means an average contri-

tario's share means an average contribution of \$1.92 per capita.

Total receipts of the fund from all sources up to April 30, were \$10,337,-229.75, according to the treasurer's report, submitted by E. L. Brittain. More than three million of this amount is on hand, and more than seven million dol-lars has been expended for relief pur-

poses.

Bert McCreath of Toronto, an orgarizer of the 50,000 club, said that 210 women in Toronto were collecting for the club.

CITY HALL NOTES

Very few prisoners have been kept in the Toronto jail during the past two months compared with the two months last year. For the week ending May 17 there were 96 men confined in the institution as compared with 198 last year. There were 25 women in the jail, or 24 less than in 1915.

Speaking with reference to the report of City Auditor Sterling regarding the board of education offices, Trustee McTaggart said yesterday that any difficulties or drawbacks in connection with the office system were entirely due to cramped quarters.

The works committee today will receive the report of Commissioner Harris regarding the cost of a six-inch main to provide fire protection to the Alexandra Industrial School for Girls. The commissioner thinks the school should be protected, and estimates the cost of the main from the city limits to the school at \$1664.

CUT ABOUT HEAD AND ARMS.

DEPARTMENT OF MILITIA AND DE-

Concern.

Justice Latchford commenced in the non-jury assize court yestercay the hearing of the action of James H. Tighe, who is suing the Jack Cannet, Publishing Company for a half interest in the company. Tighe claims that he paid \$1000 to the company for the half interest, but the defence allege that the \$1000 was paid as a loan and deny that he was promised an interest in the company. The case will be resumed this morning.

FENCE, OTTAWA.

SEALED TENDERS in duplicate) for the supply of Coal and Fuel Wood required to heat the Military Buildings at Toronto, Hamiton, Brantford, St. Catharines, Dundas, Burford, Hagersville, Brampton, Markdale, Meaford, Orillia, Owen Sound, Paris, Halleybury, Oshaws and Niagara Falls, Ont., for the period ending March 31, 1917, will be received up to Friday, May 26 next. Each tender is to be marked "Tender for Fuel," and addressed to the Director of Contracts, Milital Headquarters, Ottawa.

FRIDAY MORNING, MAY 19.

A Temporary Aberration

Mayor Church has been wrestling with a great psychological difficulty during the week. Observers who have regarded the mayor as a psychological phenomenon have been afforded new evidences in the last few days of the singular facts presented by duel, nowever, there has been a great logical phenomenon have been affordality. Just how many Tommies there this most trusted advisers are able to assert. They are not always able to assert, perhaps, how many they wish to We have species of the men who have gone to the front. triple, quadruple or multiple persondiscover. It is what we call an embarras de richesse when we are cam-

paigning in France. Mayor Church found himself in the predicament of having, from informa. There is no originality about it. As tion received or advice duly administered, to deliver himself of an opinion it is the property of anyone who wishes to adopt it. But the to the effect that contributions from mere expression of the opinion does the City of Toronto for war purposes not effect what the opinion itself conwere altogether to be abhorred and veys. If it means anything it means not to be thought of. The idea of that a radical change is occurring in the nature of humanity. Toronto as a city contributing solid cash for the benefit of war funds or hospitals, or any other patriotic purpose he denounced as an evil too preposterous to be borne. He was with

for war purposes.

world, and the kaiser was comforted, and wondered if he could get such a mayor to be burgomaster for Berlin

sorts of extensive premises, tenements, appurtenances, freeholds and so forth in the possession of other tax-payers whose interests he cherishes.

Only seven rash men stood up and bold Mayor Church they could not see syste to eye with this phase of him. He was too many for them in fact. They were not sure which Tommy they had to follow, and concluded to follow their excited with the mayor's personality. He resolved himself into several of the other Tommy the Kc. and Tommy the ward politician, and Tommy the loyalist. The convulsion in Tommy's nature was terrific. He almost came to pleces. As a lawyer, he rebuiked himself; as mayor, and as mayor, he stood on his dignity against the soldier's Joy, he revolted against the included the file of an address who he soldier's Joy, he revolted against the soldier's Joy, and the mayor and as mayor, and as mayor, and as mayor, and as mayor, he stood on his dignity against the soldier's Joy, and the properties of the soldier's Joy, he revolted against the soldier's Joy, and the properties of the soldier's Joy, and the properties of the properties of the soldier's Joy, he revolted against the soldier's Joy, and the properties of the properties of

The tragedy was averted, however, and the multiple personalities appear to have coalesced once more until the next crisis over the levy of a new war tax, or the next administration of advice from Teutonic sources. The burgomaster has had to subside before the claims of the K.C., and the force the claims of the K.C., and the force the claims of the K.C., and the force the claims of the front once soldier's Joy comes to the front once more with a flourish on the entraining ARREST OF SULLIVAN of troops.

The mayor has narrowly escaped dissolution. But the city is to be congratulate upon a still narrower es. Tim Healey Charges Former U.S. cape. We trust that the sister cities and provinces will not regard the multiple personality of our versatile mayor as typical of the municipality said in the house of commons today at large. The aldermen have, with that he understood James M. Sullithe exception of a few, returned to van, former American minister to the their right mind, and we shall all pay the war tax with much less reluctance than we shall pay the cost of some of the foolish postponements of the Dust.

The Ross Rifle

After the forcible things that have been said by our contemporaries in Ottawa and locally about the Ross rifle and the situation arising out of publication of Gen. Alderson's let-ter, there is little that can be added. The Canadian public must deplore any The Canadian public must deplore any attempt to conceal the facts, and the plea that the Germans might get to

The Toronto World hear about it can only be regarded as puerile. The Germans at the front may be depended upon to know a great deal more about the Ross rifle than anyone in Ontario.

Where there is so much smoke there oust be some fire, and the co ous criticism leveled against the rifle as a field weapon cannot be supposed to be foundationless. It may be freely admitted at once that the rifle is a good target one, but target practice and the usage on the field of battle present very different conditions. far as we can learn the soldier in action would rather take his chance with an old Martini-Henry than with the Ross. It is too clever a rifle, too delicate and finely strung for the rough service which is called for at the front. A gun that may be used one minute to club an enemy and the next to deliver fire against a re-inforced charge needs to be of the implest and strongest construction All this is to be further reported upon and no doubt the truth will be brought

It seems peculiar that any doubt should be thrown upon the letter. It appears to be a perfectly genuine and well-considered expression of opinion. The militia department is often sensitive to genuine and well-considered opinion. It will be a long time before the Dundonald incident is forgotten. There is no reason for the repetition of such an incident in connection with Gen. Alderson. The fact that he is no longer in command of the Canadian forces has aroused comment, but there is nothing official to go upon.

'Mene! Mene! Tekel! Upharsin!"

There is probably no nation in the world that keeps its religious views and its secular practice in such separate water-tight compartments as the British. It is usually considered to be a sign of cant or hypocrisy to re-We have spoken of the war as beginning a new era in the history of humanity. It has become a commonplace in many circles to take this view.

erous to be borne. He was with the material and selfish from the unthe Germans on this point absolutely worldly and unselfish, or any other form of classification that recognizes The word went all over the inhabited the unfitness of some and the fitness

BENCH WARRANT IS ISSUED FOR BAUGH

Was Called in Court Yesterday.

ASKED BAIL FORFEIT

Said to Be in Ill-Health and Judgment on Duckworth Ap-Confined to Montreal Hospital.

When Judge Winchester opened the sessions court at the city hall yesterday morning, officials called the name of E. L. Baugh both in and out of the court-room three times. No answer was received, but T. C. Robinette, K.C., counsel for Baugh, was on hand, with all his books and documents, and informed the crown and Judge Winchester that he had received a telegram stating that Baugh was confined to a Montreal hospital.

Baugh is a Montreal broker and at the last session was found guilty by Judge Winchester on a charge of fabrication of evidence in connection with the prosecution of Col. G. Stimson, a Toronto broker. At the trial Mr. Robinetts took objection to several points, and the appellate court granted a new trial.

and the appellate court granted a new trial.

Bail of \$20,000, of which \$15,000 was furnished by Baugh's mother, was necepted and accused was allowed out. Lt.-Col. R. Greer, crown attorney, declared that he had seen Baugh in Toronto a short time ago, and he looked to be in the best of health. He asked that the bail money be forfeited, but the judge said he would wait until he saw whether or not Baugh returned.

Two crown doctors will visit Baugh at the hospital, and if his condition does not satisfy them for his staying away, a bench warrant issued by Judge Winchester will be taken to Queliec and endorsed by a Quebec magistrate and Baugh will be brought back to Toronto for trial.

SUDDENLY COLLAPSED FROM APPENDICITIS

District Fire Chief Sinclair Rushed to Hospital and Operated on.

District Fire Chief Sinclair suddenby collapsed from appendicitis in Greenshields grocery store, corner Berkeley
and King streets, yesterday morning.
He was rushed to Wellesley Hospital
in the police ambulance.
Chief Sinclair was taken ill during
the night. Feeling slightly better in
the morning he went to the store to
make a purchase.

Efforts to Cover Up Defects of ternoon and is progressing favorably.

FINGER ALMOST SEVERED. Paper.

OTTAWA, May 18.—The Ottawn Citizen in its leading editorial today says:

William McLaughlin, 182 Ontario street, had one finger of his right hand almost severed when cut by a bottle at the O'Kecfe Brewing Company yesterday morning. He was taken to St. Michael's Hospital for treatment.

Timetables and handsome new folders, descriptive of Muskoka and Lake of Bays district, may be had on appli-Bays district, may be had on appli-cation at Grand Trunk city ticket of-fice, northwest corner King and Yonge

THE ANSWER.

"Charity begins at home, you know, quoted the man who did not want to d "Yes, but it doesn't have to stay there all the time," said the man who was collecting for the war sufferers in Europe.

Canadian forces, reported to Major-Gen. Gwatkin, chief of the general staff of the militia department of Can-ada, regarding the relative merits of the Ross and the Lee-Enfeld rifes, Unable to dany the truth of Gen. Al-derson's statements—expressed for publication—the government apple. army would seem to depend. When it is notorious that the earlier brigades of Canadian troops discarded their Ross rifles and had the Lee-Enfield, the impression created by a responsible Canadian minister seemingly depreciating the British arm should not be allowed to go uncontradicted this session.

"The Citizen has done what it deems to be its duty by publishing what Gen. Alderson, when in command of the

JUDGE MAY FIND **MISSING NOTEBOOK**

Failed to Appear When Name Can Probably Produce Notes Relating to Action Over King St. Lane.

HEARING AT OSGOODE

plication to Be Handed Out Monday.

Mr. Justice Middleton stated at yesterday's hearing at Osgoode Hall of the action of the Baldwin estate to close the lane between King and Pearl streets just east of York that he thought he could find and produce the missing notebook in which Justice Gwynne entered his note of the previous action in 1877 over this lane. Other judges entered their notes in the same books, and the books were indexed under the name of the first judge to use them.

The lane is 12 feet 3 inches in width, according to some plans, and the property on King street is valued at \$3.000 a foot. Practically all of yesterday's session was taken up with the examining of J. T. Small, K.C., and the reading of evidence by W. N. Tillay K.C.

the reading of evidence by W. N. Tilley, K.C.

Action has been entered by Mrs.
Margaret Axworthy against Charles
Herbert Axworthy to recover alimony

will be commenced for the increase of
the vault accommodation at Osgoode
Hall. J. Middleton, secretary to the
attorney-general, along with officials
from the hall, viewed the building,
and it is possible that the old common pleas court room and the rooms
below it will be involved in the changes
contemplated.

The decision of the second appellate
division as to the new trial of T. Duck-

The decision of the second appellate division as to the new trial of T. Duckworth, found guilty at Grand Valley of mudering his brother-in-law, will be announced on Monday morning.

Judgments will be given out Monday morning at 11 o'clock in the following cases by the second divisional appellate court: Re Stamford; King v. Duckworth; Dyer v. Wilson; Re Parkins Elevator Company; Gould v. C. N. R.

GERMAN FOOD PROBLEM. Physicians Say Public Health is Af-

LONDON, May 18.—A despatch to The Morning Post from Amsterdam yesterday says:

"The food question in Germany is at present in such a position that in the opinion of the physicians of Greater Berlin, who recently considered the matter, uniform regulation of the food supply is necessary in the interest of the health of the people. The committee decided to send a petition on the subject to the imperial chanceller.

"A conference was held at the Prussian home office today to devise measures for feeding the population

Important Changes in Grand Trunk

The anniversary of the landing of the Loyalists was celebrated by the United Empire Loyalist Association last night by a dinner at the Carls-Rite, when about one hundred people were present, the president, Col. MacQueen, being in the chair and proposed the health of His Majesty the King in a short and witty speech. General Sterling Ryerson, a past president of the association, gave the toast of "The Empire." Sergt. Major MacQueen sang, accompanied by his mother: Miss Rita Haynes danced very cleverly, Mr. Fred Plant playing the inspiring music for Ler.

After Mrs. Gooderham's address to the annual meeting of the I.O.D.E. the executive of the National Chapter presented her with an exquisite bouquet of Ophelia roses yesterday afternoon.

Lady Mackenzie has issued invitations to a garden party in aid of the 198th Battalion (Canadian Buffs) at Benvenuto on the King's birthday, June 3, from 4 to 7 o'clock.

Mr. and Mrs. W. K. George have gone to Southern Indiana and will spend a few weeks at French Lick. Mrs. E. F. B. Johnston, president of the I.O.D.E. preventorium and the board of management, have invited the dele-gates to visit the institution this morn-ing at 11 o'clock.

The Dean of Ontario has left Kingston en route to Boston.

General Sir William Otter is in Hali-fax, Nova Scotia.

General Sir William Otter is in Halifax, Nova Scotla.

At the annual meeting of the Women's Musical Club a most successful year was reported in every branch of the work the concert committee inaugurated this year, having been the best arrangement the club ever made. The philanthropic committee has done excellent settlement work and taught children unable to take lessons. The club has also instituted two glee clubs and sont \$250 to the Lena Ashwell Concert Fund for music at the front and \$860 given to the Secours National. The secretary has had letters of thanks from Miss Lena Ashwell and Mrs. Sidney Small. The result of the elections is that Mrs. George Dickson has been relected president, Mrs. F. N. G. Starr ist vice-pres., Miss Carolyn Warren 2nd vice-pres., and Mrs. W. G. A. Lambe 3rd vice-pres., Miss Carolyn Warren 2nd vice-pres., and Mrs. W. G. A. Lambe 3rd vice-pres., Mrs. Ellsworth recording secretary, Mrs. Dalton Davies corresponding secretary and Mrs. J. F. Ross treasurer. At the close of the meeting Mrs. Dickson was given a beautiful basket of flowers, and a vote of thanks by the executive for her untiring work in the interests of the club and the executive gave tea to the members. A very successful concert was given last night in Foresters' Hall in aid of the 234th Battalion, when a very interesting program was presented. Miss Brenda Macnes sang a new song by Mrs. Walter Windeyer called "Love's Dawn," which was particularly attractive. She was cleverely accompanied by Miss Rita Haynes. Miss Haynes also danced several national dances in her usual graceful manner. Mr. Fred Plant accompanied her, Mrs. William Donald Barron sang some very attractive songs. Mr. J. W. D. Windeyer, Mr. Lawrence Lugsden and Mr. Frank Oldfield also took part in the program, Mr. Windeyer making some wonderful magic, and the audience was an overflowing one of the friends of the battalion.

Mr. and Mrs. R. W. Higginbottom announce the engagement of their daugh.

Mr. and Mrs. R. W. Higginbottom announce the engagement of their daughter, Eleanor Beatrice, to Mr. Arthur Greer Allen, son of Mr. and Mrs. A. A. Allen, Toronto. The marriage will take place quietly early in June.

Mr. G. T. Somers and his sister, Mrs Burgess, left last evening for a few weeks' stay at French Lick and other southern places.

Mr. Stewart Wilson left for Halifax, Nova Scotia last week. Mrs. E. Keefer, who has been spending some months in Kingston, has arrived in town.

Announcements.

A MEETING, Ladies' Auxiliary, 203th
Battalion, at 86 Bloor street west, this
afternoon at 2 o'clock to make arrangements for Garden Party 9th of
June. All members cordially invited.

ENGAGEMENTS

For announcements under this heading a charge of 50 cents is made. Communications should be addressed to The World, and must bear the name and address of the sender, written in ink.

ENGAGEMENTS.

MRS. H. M. GIBBS of Philadelphia announces the engagement of her only daughter, Evelyn Alice, to Mr. R. K. (Bob.) Hodgson of Toronto. The wedding will take place early in June at Philadelphia. MR. AND MRS. DUNCAN MACINTYRE,

"Hill View Farm," Argyle, Ont., announce the engagement of their eldest daughter, Mae, to Mr. Percy Veale, son of Mr. and Mrs. Augustine Veale, Woodville, Ont. The marriage will take place early in June.

TEMPERANCE WOMEN HOLD ANNUAL MEETING

Association Well Satisfied With Work Accomplished During the Year.

The annual meeting of the Women's Christian Temperance Association was held last night in the Y. W. C. A. Hall McGill street. There were over 1000 members present and when the reports members present and when the reports of the various committees were read those present were well pleased with the work accomplished by the association. Mrs. R. G. Donald, president, occupied the chair and announced that 210 new members have been chrolied during the trees and the resolution. during the year and the association has now a membership of 2018. The has now a membership of 2018. The financial statement, presented by Mrs. Bundy, showed a balance on hand of \$1500 after meeting all expenses. During the year 46 cases of sox, shirts, other wearing apparel and over 20,000 yards of bandages and gauge were forwarded to the Canadians at

the front.
The following were elected to the The following were elected to the board and the president, secretary and financial secretary will be elected by the board when it meets in the near future: For three years, Mrs. R. C. Donald, Mrs. A. C. Crews, Mrs. C. T. Stark, Mrs. W. F. Bryans, Miss E. F. Aikens, Mrs. W. B. Creighton, Miss N. J. Nairn, Mrs. R. King, Mrs. I. E. Suckling, Miss M. E. Minty; for two years, Mrs. F. Sanderson, Miss W. Landmuir; for one year, Mrs. George S. Decks.

HUGHES HAD NO LIGHT ON DEALS

Col. Allison Swears General Was Quite Unaware of Commissions.

LIGNANTI WAS KEEN

Musician's Alertness in Busi-

Deals With Lignanti.

He admitted soliciting commissions on some deals with Lignanti. The agreement between them was made when Allison expected to leave for Russia. Lignanti was to look after his interest in his absence. He, in return, was to receive commissions on deals Lignanti was swinging.

Never, since he first met Sir Sam Hughes many years ago, had there been other than friendly relations between them, and any business he carried out for the general was purely for friendship and not for remuneration. With regard to profits on these dealings, he looked to the other and money. Never, since he first met Sir Sam Hughes many years ago, had there been other than friendly relations between them, and any business he carried out for the general was purely for friendship and not for remuneration. With regard to profits on these dealings, he looked to the other end for it, and drew a distinction between the supplies for the Canadian Government and for the European governments.

Witness could not remember how large sook la known prior to the war and he met Lignanti only a month previous. He said he was acquainted with none of the members of the shell committee

of the members of the shell committee prior to the war.

His first active interest in the munitions business was subsequent to a request of Gen. Sir Sam Hubbes, in August, 1914, to secure prices in the United States on certain articles mentioned in a war office cable. Asked if he expected to get any remuneration for securing this information, Col. Allison replied: "Not from Gen. Hughes," and he said he made no suggestion to the firms he saw that they should tender him any commission. When he reder him any commission. When he reported back to the general, Sir Sam proposed that Col. Allison sit with Gen. Grange of Washington, on a commission for the purchase of supplies in the United States. This idea was not carried out.

carried out. No Early Commissions.
Subsequently he went again to New York to ascertain prices on cartridges. Asked if he made any suggestions to the cartridge companies re commis-sions, Col. Allison replied: "Not at that

As a result of this information, the British Government placed several car-tridge orders. Col. Allison said he got no commission on these orders, nor did he contemplate such commissions at

that time.

These contracts, witness said, he knew had been entered into with Gen. Hughes, "representing the British secretary for war."
Did you subsequently arrange for eny commission for yourself? Yes, I did subsequently.

Names Withheld.
Mr. Hellmuth asked how this was arranged for. Col. Allison replied that he did not see that that purchase had anything to do with the commission, and he did not want to involve any

and he did not want to involve any American officers.

"Officers of the American Government?" asked Mr. Hellmuth.

"I do not care to say. I shared what I got with others," Col. Allison said. Gen. Hughes never knew he was getting any commission and he never shared any of it, nor did anybody Mr. Hellmuth asked what commis

Mr. Hellmuth asked what commission Allison got out of this. Mr. Henderson objected, and Col. Allison said, "I don't propose to give any of my private business here at all."

The next war business he undertook for Gen. Hughes was a shipment of general supplies. He got nothing from Gen. Hughes for this work.

Landed \$30,000,000 Contract.

Mr. Hellmuth asked witness about the purpose of his visit to Europe at this time. Col. Allison said he did not, prior to leaving, enter into any agreethis time. Col. Allison said he did not, prior to leaving, enter into any agreement with any Canadian or American concern about the munitions business. He had, tho, obtained options on some American concerns' output, which he hoped to dispose of on a commission basis. Witness said he visited England. France, Belgium and Italy, and sent a representative to Russia. He got no orders at that time, but later on England and France took some of his principals' whole output.

Hughes four or five times, Col. Allison being generally present. He had never discussed their details with Col. Allison, tho the contracts had first been brought to his attention by the latter. He had first come to Uttawa in connection with a cartridge contract which Col. Allison seemed to think was pending. Col. Allison had mentioned \$34, but Mr. Yoakum did not care to touch it under \$36. He had seen Gen. Hughes about the mathis principals' whole output.

His Russian representative, tho,

Musician's Alertness in Business Deals Commanded Allison's Admiration.

(Continued From Page 1).

noney.

He said he had not told Yoakum of He said he had not told Yoakum of the agreement and corroborated Yoakum's testimony that no arrangement existed between Yoakum and Lignanti.

Witness was taken over the negotiations of small ammunition which Sir Sam Hughes would have paid \$24 per thousand for at this time. With

manufacturers in the States and see if they would not manufacture time fuses at less than \$6, which was the price then discussed. The question of remuneration for himself was not discussed, he maintained. Col. Allison

ON FEMALE LAROI denied that Yoakum, his partner, was the first man to whom he broached the fuse proposition. He got pro-positions from scores of people before he saw him, people, he said, who knew nothing at all about fuses. Finally he took the matter up with Mr. Craven, who had manufacturing interests, and eventually got \$30,000 of commission on the fuse contract.

Dowler and Ryan. No remuneration was discussed at that time, and a few days later Craven introduced a Mr. Dowler and Mr. Ryan to him. These gentlemen intimated a price of \$5 or \$5.10 per time fuse. He then went to Yoakum and told him of the 5,000,000 fuse contract to be let. He said he proposed tract to be let. He said he proposed to Yoakum that he get an organiza-tion together with the idea of turning out fuses around \$4 per fuse. Witness said he did not hear of Cad-

well and Bassick's interest with Yon-kum until Col. Carnegie came to New York to look over various plants. Gen. Hughes, at this period, was becoming impatient for action and called him up on the telephone in New York and asked if he had succeeded in get-ting up on organization the company ting up an organization that could break the \$6 price which had previ-

ously been quoted.
"I told him I had taken the matter "I told him I had taken the matter up with people who thought they could," Col. Allison said.

Witness admitted that at this time he commenced to ascertain from various banks the standing of Dr. Harris and l'atterson of the International concern, who were in the field for the fuse business. Mr. Hellmuth asked what the bject of such investigation was Witness said he did it on instructions to get the financial standing structions to get the financial standing of various persons who were negotiat-ing fuse business with the shell com-

Mr. Henderson interjected at this point that the colonel had been in the lox long enough, and the commission adjourned.

Further information as to the cartridge contract which first brought Renjamin F. Yoakum to Ottawa to see Gen. Hughes was obtained from that New York financier before the Meratic Purification this marning. dith-Duft commission this morning.
Cross-examired by E. F. B. Johnston.
Mr. Yoakum said he had seen Gen.
Hughes four or five times, Col. Allison not care to touch it under \$36. He had seen Gen. Hughes about the mathis principals' whole output.

His Russian representative, tho, came back with a contract worth thirty millions, on which, witness said, he would eventually get a commission. He admitted that Col. Mackle, a Canadian, was the man who secured the \$30,000,000 contract.

Saw Hughes in England.

Concerning details of the business he transacted in England, witness said:

"It has nothing to do with this commission, and it is of such a deligate nature that I don't care to give any information concerning it."

Col. Allison said he met General Hughes in England but did not tell him of the commission he expected to the same said.

The cards were about the matter, the matter the contract. No commission had ever been disturbed to commission he accommission had ever been disturbed to commission had ever been disturbed to a proportion, while if Mr. Yoakum had received any col. Allison would have been entitled to a proportion, while if Mr. Yoakum had received any col. Allison would have been given an opportunity to go in with him.

Asked as to his opinion of the honest of the honest details of the cards were any col. Allison would h

You in the munition business on that tirp?

Yes, Major George W. Stephens. He was the only one at that time. The arrangement was made over there.
Col. Allison added that Col. McBain hecame interested early in 1915. The three worked together trying to get contracts from France, Russia, Italy and England. Witness said Mr. Johnston as to the number of their own. They simply met and joined forces.
Lignanti, Col. Allison said, was not over there at that time, altho he was in communication with him at New York.

Meeting With Yoakum.
Lignanti, Col. Allison said, was not over there at that time, altho he was in communication with him at New York.

Meeting With Yoakum.
Lignanti, he said, was arranging for other options for him. There was no remunerative arrangement between them. It was only a very few days aftor his arrival in New York that he met Yoakum, who wanted to know if any of the allies needed hay

agreement produced yesterday had ever resulted in anything except the fuse contracts and that with the Ed-

fuse contracts and that with the Edwards Valve Company.

To Mr. Nesbitt the witness stated that in all his dealings with the shell committee they never seemed to be influenced by anything but careful business considerations. He stated that it would be much easier now to build fuse factories in Canada, and commenced to wax eloquent as to the country's possibilities when Mr. Hellmuth objected that it was all wandering far afield.

Mr. Yoakum then told G.F. Henderson that in making his general agreement

Mr. Yoakim then told G.F. Henderson that in making his general agreement with Col. Allison for halving commissions on war business he had been influenced in no degree by the possibility of getting fuse contracts, as that was not known at the time. Col. Allison had taken no part in the negotiations with the shell committee regarding the fuses, and had not been told he would receive a commission till after the contract had been closed.

Letters Admissible?

To Sir William Meredith Mr. Yoakum said he hoped the American Ammunition Company would still be liable for the payment of commissions even if it had not made deliveries.

Mr. Hellmuth then put in a letter Mr. Hellmuth then put in a letter from Gen. Bertram to the Russell Motor Car Company stating that the question of manufacturing fuses in Canada "would be taken up with Gen. Hughes on his return from the

ON FEMALE LABOR

Trades Council Asks if it is Necessary to Employ

Women on Munitions. WANT UNIFORM WAGE

Charges That Toronto Firm Pays Women Only Fifteen Cents an Hour.

In an effort to protect the workers in Canada the District Trades and Labor Council at its meeting last night in the Labor Temple instructed the secretary to request the Dominion Congress at Ottawa to wait on Promier Borden and find out whether or not it is necessary to employ women in Canada to work on the manufacture of fuses and shells. Charges were made by delegates that 50 women were working in a fuse factory in Toronto for 15 cents an hour. The union machinists receive from 37 to 42 1-2 cents an hour and they protested that the Manufacturers' Association were inducing women to work in the factories by starting them at light work, and that in time they will not only have them doing heavy work, but will be turning the men out of their positions. In this city, it was stated, that there bor Council at its meeting last night

turning the men out of their positions. In this city, it was stated, that there is no shortage of male help.

The government will also, according to the resolution passed, be asked not only to investigate but to establish boards to protect the working class, as has been inaugurated by the government in Britain. Delegates expressed themselves as not being opposed to the women doing light work, such as the making of fuses, so long as it was necessary to hire female help, but intend demanding that they receive the same wages and work under the same conditions as the men. der the same conditions as the men.

The council refused to co-operate with the committee of one hundred in with the committee of one hundred in their plans for the establishing of hotel accommodation for travelers coming into Toronto after the prohibition act is put into force next September. The delegates declared that when the committee were discussing the prohibition bill they did not ask for labor representation, and on this account placed themselves on record as being opposed to anything which the committee favored.

An officer attached to the White House tells a story of a small boy whom Presi-dent Wilson encountered at Staunton.

dent Wilson encountered at Staunton, Va.

The president was speaking to a crowd from the steps of a seminary for girls. The boy pushed and shoved his way thru the crowd until he found himself squarely in front of the president, whereupon he shouted excitedly:

"Where is it? Where is it?"

Mr. Wilson stopped his speech and said good naturedly:

"Well, my boy, I suppose I am "it."

At this the youngster's face assumed a look of disgust. "Oh," he said, in a lower tone, "I thought it was a dos fight."

"MORTMAIN" AT STRAND IS A UNIQUE DRAMA

Feelings of a Man Under Chloroform Are Visualized in Vivid Manner.

A startling play and a refreshing departure from the old line of everyday love dramas is "Mortmain," at the Strand the last half of this week. It is unique in its first conception, and is decidedly different in the handling of thauthor's idea. Robert Edeson, in of thauthor's idea. Robert Edeson, in the leading role as Mortmain, who has been induced into borrowing money from a treacherous friend, is mixed up by circumstance with the death of the "friend." Many exciting and some even gruesome events pile one upon another in quick succession, and with a smoothness of climax until the final surprise brings the audience back to earth. Robert Edeson is assisted by Muriel Ostriche, the girl in the case, and both can claim honors for their we'll graduated acting in many parts that might easily be overdone. It is a that might easily be overdone. It is a

Final Preps. Woodbine

Fourteen Teams or More to Play Senior, Junior and Midget -Officers Elected.

The twenty-seventh annual meeting of the Toronto Lacrosse League was need last night at the Riverside Club, with

the following representatives in attendance:
Young Torontos, Wm. McArthur; Riversides, G. Dopp; Kew Beach, Dickenson; Capitals, J. R. Garlick; St. Simons, F. Jacobs; Maitlands, J. Stevenson; Elms, F. Waghorne.
Officers were elected as follows:
Honorary president, J. Dundas; president, J. Labatt; first vice-president, G. Dopp; second vice-president, T. Wadsworth; secretary-treasurer, J. R. Garlick, N. 1716, 116 Davenport road.
Fourteen teams are in sight, with a possibility of one or two additional. The following is the list:
Young Torontos, senior; Riversides, senior and junior; Kew Beach, two juniors; Capitals, junior.

It Simons, senior and funior; Maitiands, senior, funior and midget; Junction, senior and junior; Elms, senior.
There were 150 boys in attendance and the lacrosse prospects among the city clubs look bright. Messrs. McArthur, Jacobs, Stevenson and Dopp elucidated on the bright outlook. The delegates were entertained by half a dozen bouts that were boxed to decisions, as follows:

36 bs.—Duffy v, Hart. Draw in three rounds. Duffy won in the extra round.

100 bs.—H. Pinwinder v. Newberry. Newberry won.

115 bs.—Jamleson v. Borden. Borden

118 lbs.-J. Newberry v. Landegreen.

Newberry won. 125 bs.—Lawlor v. Tigert. Tigert won. 110 lbs.—R. Daniels v. J. Duffy. Duffy won in the extra round. RELIABILITY TOUR FROM OTTAWA.

A reliability tour, which is being organized by The Ottawa Free Press, with the co-operation of the Ottawa Valley Motor Car Association, and the automobile and accessory trade of Ottawa starts at Ottawa at 10 a.m. next, June 9, to finish at its destiny on June 10. The good roads demonstration to be held at Prescott on Friday evening, June 9, will be addressed by cabinet ministers from Canada and two or three leading men from New York State.

The City of Ogdensburg and the New York State Automobile Association are co-operating in holding a demonstration in Ogdensburg on Saturday evening, June 10, to celebrate the granting of reciprocity in licenses between New York and Ontario, and they are inviting, as their guests, several leading men in their state.

WELSH'S PUNISHMENT TOO SEVERE NEW YORK, May 18.—The New York State Athletic Commission today decided to recommend to the Wisconsin State Athletic Commission that it lift the four months' suspension imposed upon Freddie Welsh, lightweight boxing champion. Welsh was accused in Wisconsin of delaying a bout. The New York organization's decision was that the punishment

CEDAR RAPIDS, Iowa, May 18.—Tom Jones, manager for Joss Willard, world's champion heavyweight, received a telegram from J. Nash, manager of the Twin City Athletic Club of Minneapolis, offering the champion a purse of \$50,000. Nash wants Willard to meet Fred Fulton in a ten-round bout on Labor Day.

WINNIPEG, May 18.—May wheat dropped 2%c here today, July the same and October was 2%c down. Oats also closed down, May and July 1%c to 1%c, while October was unchanged. Barley was off 1%c. Flax was 1%c to 1%c lower for May and July, and October

The opening was weak, and while prices remained steady for a while, they eventually fell away. Oats were firm until the weakness in wheat developed, then declined. May ... 118½ 118½ 115½ 115½ July ... 118 118½ 115½ 115½ 115½ ... Oct. ... 115½ 115½ 113¼ 113¼ ... Oats—

MONTREAL GRAIN AND PRODUCE. MONTREAL, May 18 .- The export trade in grain continues very quiet here. Cables were weaker at a further decline of 6d to 7½d per quarter for wheat. Coarse grains firm. Flour firm. Milifeed in good demand. Butter steady with a fair demand. Cheese active and firm. Eggs firm.

BANK OF ENGLAND STATEMENT.

Baseball in England-News and Gossip.

It is many a long day since a ball game in Toronto has been postponed owing to cold weather. Yesterday's raw wind and overcast skies made the Island anything but an ideal place and the club did the wise thing in calling off the fixture with Richmond.

The 95th Battalion will be the guests of the club today.

England is to have her first baseball league. Canadian soldiers stationed near London are forming the organization. Besides the soldier teams it is expected to have a team composed of United States ammunition workers.

HUSTLER PITCHER WEAKENED.

PLAYGROUNDS BASEBALL. The City Playgrounds senior baseball teams had their final workout last night. The weather all week has been poor for the boys with sore arms. Oslers were working at Perth Square and when they run up against their old enemies, the Moss Park boys will have Mackie, who is back to his old form of two years ago, in the box with Gray receiving, Moss Park worked out at their home grounds and look good with Perkins and Corcoran for their battery. Patterson had his Elizabeth team all working at Harbor Square. Oscar Hett, who was to have handled the indicator for the Playground League, has not as yet recovered suificiently from an operation for appenditicis. Eddie Tolley has promised to take his place, and there is no doubt as to how the games at Perth Square will be run.

BEAVERS CHALLENGE SPORTSMEN. Tho they were trimmed last Saturday at the Island by the Sportsmen, the 204th Beaver Battalion baseball team are issuing a general challenge to any military baseball team to meet them in a friendly game for the forenoop of the 24th, Capt. Stanley of the team states that he would much prefer to match the Sportsmen again, but the Beavers will play the first nine which take up their challenge. At the same time it is to be noted that the 204th nine has been considerably strengthened by the addition of E. Holmes, catcher. Much of the trouble last Saturday was that the Beaver catcher could not hold Stanley's pitching. Holmes comes highly recommended, as he is an ex-policeman from the northwest, who played on some of the best western teams.

CHICAGO, May 18 .- Surmises that

marine warfare. Traders were quick to couple the tidings with earlier advices that President Wilson had accepted an invitation to address a meeting of the League to Enforce Peace, that a former French ambasador had been charged with a mission to the Pope, and that Count Von Bernstorff had warned Germans in the United States to give scrupulous obedience to the laws.

Unloading of speculative holdings of wheat became general, and quickly included much selling of an automatic stoploss character. The previous failure of the market to respond to bullish crop news had caused discouragement on the part of owners and had prepared the way for a smashing of values. In this connection a leading authority was quoted to the effect that the general prospect of the Kansas crop was not alarming despite big losses in the central and southern sections of the state. Beside, there were favorable crop advices from the Dakotas and Minnesota, and estimates were current that owing to a big carry over expected on July 1, the supply in the United States this year would be twenty million bushels greater than was raised last season.

Corn declined mainly as a result of the break in wheat. Reports of record-breaking industrial demand failed to act as an offset. Oats took the same course as other grains. Crop reports were favorable and receipts large.

Higher prices on hogs lifted provisions.

PROFITS INCREASED

MINING CORPORATION

The second annual report of the Mining Corporation of Canada, which holds the Cobalt Townsite, Chambers-Ferland and Cobalt Lakes, sets out that the production of silver by the concern was greater last year than that of any other silver mining company in Canada, and actually exceeded that of the nearest competitor by over 450,000 ounces. The financial report shows an output of 4,563,957 ounces, against 8,-185,124 in 1914; net profits of \$1,193,395, which compares with \$752,105 the previous year. Special expenditure and depreciation took \$1,193,295, and after paying dividends of \$518,750, a surplus for the year of \$674,645, was carried forward, bringing the total surplus of \$1,-167,376.

It will be news to most mining interests that English interests have come so much to the fore in Cobalt, as the operations of the Mining Corporation have received far less attention here than the report shows they have merited.

"Are those eggs fresh laid?"
"Absolutely, madam," the grocer replied. "The farmer I purchased themof absolutely will not allow his hens to lay them any other way."

TODAY AT 3.15 P.M. Richmond v. Toronto

Horon & Co. had the following at the There is no stopping those Giants. John McGraw has them going along nicely now and they added their eighth straight yesterday by downing the Pirates. Benton never let a Cardinal past second base.

The Cleveland Indians did a good stroke of business yesterday. They widened the gap at the top of the league and beat the great Walter John. The Braves lost a grand chance to lead the National League yesterday. Boston let the Reds beat them while the Dodgers were getting a licking.

definite moves for peace had begun the wheat market and begun the wheat market market to lead to day by sharp breaks in quotations. Black Broom, three-eighths in .37 2-5. Miss Gayle, a half in .53.

Fine Program of Seven Races for Odds-On Choice Beaten by Long Shot, Opening Day at Jamaica.

A program of seven races, including two features, the King's Plate and Minto Stakes, is down for decision on O.J.C. opening day tomorrow at Woodbine Park. The chief event, the King's Plate, seems all over but the shouting. However, the other six will furnish close competition, and the large crowd is assured the usual great afternoon's sport. Three of the races closed yesterday and filled splendidly. The Doncaster plate and the Carleton plate are covernight events. The King's Plate is the fourth on the program, the bugle to gound for the first at 2.36.

to 5. 3. Stellarina, 103 (J. McTaggart), FIRST RACE-Handicap. 700 added, 3-FIRST RACE—Handicap, 700 added, 3year-olds and up, 6 furiongs.

COLEMAN DISTRICT OF COBALT IS COMING

Splendid Record of Silver Producing Country to Be Upheld.

REVIEW OF MINES

Day Past for Belittling Beaver and Timiskaming - Others Going Ahead.

COBALT, May 18.—(From the man on the spot.—Cobalt No. 2, or that part of the Township of Coleman stretching south of Kerr Lake may have been eclipsed for past performance by the Mines of Cobalt No. 1, but today the man familiar with Cobalt conditions is hard to find who does not look to Cobalt No. 2, backed by Cobalt No. 3, for the lons-lived Cobalt.

The day has passed when Cobalt engineers can belittle Beaver and Timiskaming, but it is true nevertheless that this south end of Cobalt did not receive their serious attention in the sarry days as it should have.

Burr Cartwright and his associates did much for it by their work there.

did much for it by their work there. They saw Timiskaming make records did much for it by their work there. They saw Timiskaming make records and, after getting down to what seemed its last ore-shoot, Mr. Cartwright has seen it redeem itself. Most of his cwn profits in that mine went in the purchase and development of adjacent properties, and the Pan Silver was the outcome. Had he been able to keep at work a few weeks longer he would probably have had a shipping mine there. However, after spending a lot of money on it and an unsuccessful attempt at flotation the Pan closed down. Its resurrection will make another story. Adjoining the Timiskaming and worked in rich ore, the first practical evidence of the advantage of single mine management of these two properties, separated by an imaginary line, and with their main shafts only a few feet apart.

When F. L. Culver assumed control of the Beaver the treasury was getting low, and an increased capitalization enabled him to keep working. Veins at a depth of 200 feet were as strong and well-defined as any in the camp—well mineralized but low silver values.

Milling Ore,

Sufficient millins ore had not been found to warrant construction of a mill, but his persistency—as persistency in every case the writer can remained to the lower claims in tency in every case the writer can records.

When, however, Timiskaming and Beaver at the 350-ft. levels were producing as rich ore as mined in Cobalt, and making record shipments, the dritics began to predict. A favorite prediction that one had to listen to was "Wait till the underlying diabase is reached, and the veins will pinch, or if they remain the values will disappear," and they began to figure not "How long the veins would remain in keewatin and maintain their values," but "How soon they would come into the diabase and values would disappear."

While the theorists were working it out (in their minds and on their fingers), Timiskaming was paying dividends and Beaver getting there. Then, before the 600-ft, level was reached, the diabase contact was cut and sil-

the diabase contact was cut and silver values were maintained. With an until ore shipments are made. With Beaver working only a short distance away, this property has every utter disregard to the opinions prevalent in some quarters new veins were put at the Timiskaming in the under-

Adanac 35 men. Rochester has 15 like of \$11,83 rnl, as circular and \$00-ft. levels in the diabase, and the last car shipped from Timiskaming averaged 6000 oz. to the ton, or a stereday's World, another evidence is forthcoming of the great activity predicted by the writer for this end of New York, and the other day 100,000 oz. While silver was at 100 price the ore was stored in New York, and the other day 100,000 oz. Timiskaming silver were sold at 75 cents an oz. A dividend will surely soon be announced. Not only has find or obsen mined in the diabase at depth of 800-ft, but new veins have been runted in that formation in the formation that had so the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in an anagement for which no blame could attach to the original directories, resulted in the diabase, and the diabase at the control of the Cohrane, which is a property that was from it inception a clean-cut floation. Ample treasure was interested bend leave of \$250.00 at the reason of \$250.

A PRODUCTION MINE IN THE MAKING GIFFORD-COBALT

pushed at Gifford-Cobalt, with results eminently ble. In addition to bearing the endorsement of mining engineer who has ever made thorough extion, these factors are conducive to a big success ing the plan of underground development now in use under highly intelligent management.

LOWEST CAPITALIZATION IN COBALT WIDE VEIN SYSTEM ON SURFACE

CAUSE A MARKET FURORE

PRICE OF SILVER

LONDON, May 18 .- Bar silver, 364d. NEW YORK, May 18.—Bar silver, 75%c.

Timmins people started the first work on it. The Crown Reserve and Gifford-Cobalt negotiated some two years ago, but the deal fell thru, and the fact of Mr. Cohen's company now making an examination of the Cochrane may be assumed as evidence of his faith in Cobalt No. 2, for he is a shrewd business man, and Crown Reserve has a record for good management. It is a pity that this company had not followed up its early venture in Porcupine by other ventures in northern Ontario.

Rochester Find.

The Genesce, the Red Rock, the old Green-Meehan, the York Ontario, and others are already at work, and attention will be given to them in a later

Frank Burr Mosure.

Annual Report Hopeful of Further Finds on the Pro-

perty.

THE FAR EAST WILL BE THE **BIG USER OF SILVER**

Silver now appears to be firmly established at or above 75 cents an ounce. For three days the New York price has held at 75% cents bid and supplies are not pressing. The New York city bank in New York, in discussing the silver question, says: Silver is quoted in New York, at this writing at 75, the highest price reached since the Indian mints were closed to free coinage in 1893, if a few months in 1906 be excepted. At the outbreak of the war it was worth about 55 cents, but under a decline in the commercial demand and falling off of exports to Asia it went down to about 47 cents in the early part of 1915. The gathering of gold coin from circulation into the issue banks of Europe created a demand for silver coin to take its place in common use and the payments to soldiers and increased amounts of change required to pay the workers in the munition factories have been factors. Great Britain coined 28,000,000 counces of silver in 1915, which is five or six times the normal amount. France, Italy, Holland and other countries have purchased unusual amounts. The revival of trade in the United States created a new demand for change in this country and the mints resumed purchases in September last, since when about 5,000,000 counces have been acquired. The price rose gradually to about 60 cents, but has made the remainder of the rise in the last ten days, probablyas the result of governmental buying in London on a bare market."

The matter of chief importance in the near future regarding silver will be the immense demand from India, China and Japan, in fact all the eastern countries in which silver is the recognized standard of money transactions.

The demand for all commodities occasioned by the war has brought

the eastern countries in which silver is the recognized standard of money transactions.

The demand for all commodities occasioned by the war has brought prosperity to the far east and the declaration of peace will result in extending the boom. To carry on the increased business means more money, and this money must be silver. London, the market for silver bullion, is admittedly short of supplies, and these at present are only obtainable from Canada and the United States. The speculative and investment wave in the money metal stocks has for the time being centred in the Porcupine shares, but the huge profits made in these will cause a return to the Cobalts a little later. In the meantime shrewd investors are picking up the dividend-paying Cobalts and those actually engaged in development.

ATTENTION CENTRED STILL ON PORCUPINES

Could Not Re-

tain It.

Transactions at the Standard Stock change yesterday ran over 300,000 was strong thruout. The gold stocks again occupied the interest of the pub-lic and advances were made in practical-

Mining Notes

Mocatta and Goldsmid of London, say with reference to silver:

It is doubtful whether such an advance within one week has ever been seen in this market, and it is difficult to account for it, except that imperative orders for continental coinage have been placed on the market which have each day exceeded the supplies, and which have been difficult to fill, even at the advanced prices.

Apparently little discretion has been allowed in the buying, and competition for the small amounts offering, has run wild, causing this somewhat startling rise in the quotation.

Reading Issues Head Upward Movement With Substantial Gains.

C. P. R. ALSO ADVANCES

War Issues Turned Out to Be Irregular and Erratic.

NEW YORK, May 18.—High grade railway shares assumed the lead of to-day's broad and active market, which was not without its periods of uncer-tainty, despite a preponderance of sub-stantial gains at the close. Reading isfinish, the common and second preferred shares making new high records on their extreme gains of '7 and 3% points respectively, to par and 51%, while the first preferred advanced more moderately. Dealings in 'Reading issues amounted to fully 160,000 shares, or almost one-fifth of the day's total operations. The movement excited much gossip and surmise, but no explanation was vouchasfed in official quarters. Reading common had been foremost of the rails for several weeks, but not until recently did the preferred issues develop any activity. Wall street believes developments of importance are impending, and that a distribution of the company's valuable assets must follow in logical sequence.

Pronounced strength was displayed by other standard rails, especially Canadian Pacific, which advanced over 3 points, with 1 to 2 points for Lehigh Valley and other coalers, as well as New York Central, New Haven, St. Paul and the southern division.

War shares and other industrials and equipments were overshadowed by the prominence of rails, and were subject to further profit-taking and short selling on recurrent peace rumors. General Electric made a substantial addition to yesterday's rise, and Harvester Corporation was in renewed demand.

So-called whiskey stocks were active and strong for specific reasons, distillers securities responding to the resumption of dividends at the rate of 6 per cent, while U. S. Industrial Alcohol was supported by further rumors of prospective benefits to stockholders.

U. S. Steel gave promise during the foremon of regaining its old time leadership, advancing a point to 85, but soon losing most of its gain, only to come forward again in the feverishly active close. Total sales amounted to 760,000 shares.

More gold imports added to the steadiness of sterling and most other forms of foreign remittances hardened, with the exception of francs.

Bonds were firm, with total sales (par value) \$4,775,000.

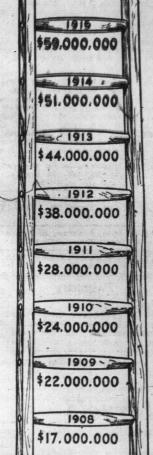

LONDON, May 18.—Money was plentiful today despite large purchases of treasury bills. Discount rates were dull.

The firmness continued

exchange, with special strength in Brazilian issues, due to the improvement in Brazil's trade and finances. Home rails and special mines were active and copper stocks strong, while Japanese bonds, the war loan and a majority of the glit-edged securities turned against buyers and the stock appeared to be short in most instances. American securities were dult but steady.

18-22 King St. East TORONTO

Lead of Nova Scotia Followed by Dominion Steel, Maple Leaf, Brazilian and Toronto Ry.

General all round improvement arrived on the Toronto Stock Exchange yesterday and the market had the appearance of more buying than at any time in several years. Nova Scotia Steel was again to the front, with an overnight advance which was carried to the extent of 5 points before a halt was called. The strenuous advance in Scotia brought a demand for Dominion Steel, which rose over 2 points. Speculative interest broadened yesterday, and this included Brazilian, Toronto Ry., Maple Leaf and Barcelona. Brazilian made practically a 5-point rise; Maple Leaf 5 points and tainty, despite a preponderance of substantial gains at the close. Reading issues led the movement from start to finish, the common and second preferred shares making new high records on their propositions. Brazilian made practically a 5-point rise; Maple Leaf 5 points and Toronto Rails 3½ points. Mackay, Cansues led the movement from start to finish, the common and second preferred at advances. The market thruout was broad and offerings were absorbed with remarkable ease, indicating a demand that must force further advances. The unlisted section was busy in the mining issues, which continue to show con-

> **NOVA SCOTIA STEEL** HAS DOUBLED IN PRICE

Huron & Co. had the following at the close:

MONTREAL. May 18.—Brazil was easily the feature of today's market. Opening at 55 it shot up 5 points to 60 on very heavy trading. As Brazil has the biggest capital of any Canadian stock, today's performance was quite remarkable and shows the absorbing power behind this market. New York buying and improvement in Brazilian exchange were given as the direct causes of today's rise.

Nova Scotia Steel made a new high record, selling at 135, while Steel of Canada and Dominion Steel were active and strong. Toronto Ry, gave a good account of itself without minimum restriction, closing only 5 points below the stock exchange pfice.

The scarcity of offerings at reduced minimums in other stocks was most encouraging, and it would seem that there is, little necessity now for artificial props.

SOVEREIGN PORCUPINE MINES IN THE VERY HEART OF THE RICHEST GOLD AREA IN THE WORLD

geologists and engineers of England, United States and Canada, that the Hellinger section of Percupine approximately two square miles—is the richest gold mineralized area in the entire world. Production of the precious vellow metal from properties situated within this "charmed circle of Midas" during the next score of years will doubtless reach staggering figures and greater than we would care to estimate. As a matter of fact there is approximately \$50,000,000 in sold already in sight in this section of the Porcupine Camp and the deep mining era has not yet

SOVEREIGN ADJOINS HOLLINGER.

In the above specified area of two square miles, Sovereign Porcupine Mines is situated close to the very centre, and it would be idiotic to believe that the vastness of the rich ore deposits now proven in every property surrounding Sovereign does not extend into it. The very fact that Hollinger Consolidated is now driving in high-grade ore within a stone's throw of this Company's property is sufficient proof, in our opinion, to base a positive conclusion upon,

ALL REQUIRED TO MAKE SOVEREIGN A PRODUCER IS CONSCIENTIOUS AND AGGRESSIVE DEVELOPMENT WORK.

trangements to this end are already completed, and our Mr. H. H. Sutherland is now in Porcupine, with capable and thoroughly experienced engineers, engaging a large corps of

Already sufficient surface development of the Company's property, which adjoins Hollinger and surrounded on every side by proven gold mines, has been completed to convince the most exacting and careful investor as to the positive mine-making potentialities of Sovereign Porcupine Mines. The results to follow the plan of underground development work already mapped out cannot be overestimated, and we are as positive as mortal could be, such opinions absolutely based upon engineers' reports, surface showings and substantiated by the official government reports.

SOVEREIGN WILL BECOME A BIG MINE.

The production in gold per month in the Hollinger section is, approximately, \$415,000. The Sovereign Company's holdings cover 15 per cent. of this proven area, and basing figures on past production, you can see the wonderful possibilities we

That those who reside in the Porcupine Camp, as well as those in closest touch with what is actually transpiring at each mine surrounding Sovereign Porcupine, are fully alive to the inestimable possibilities of the Company's properties is clearly demonstrated by the response to the recent initial public offer-

ing of this stock, and without breaking confidences we can frankly state

THE MINERS ARE BUYING SOVEREIGN PORCUPINE STOCK AS HEAVILY AS THEIR FINANCES WILL PERMIT. A recent underground survey made of the proven mines to the east and west of Sovereign shows the trend of the vein systems is heading directly towards the Company's property, which fact will soon be revealed in underground work scheduled to begin next week. One of Porcupine's most prominent engineers stated publicly last week:

"THE PROPERTIES OWNED BY SOVEREIGN PORCUPINE

SHOULD EASILY BEGIN PRODUCTION THIS YEAR." What has recently been recorded in the market value of McIntyre shares—an advance of over \$1.00 per share within the past few weeks—clearly barometers what is mont likely to follow as quickly as Sovereign Porcupine Mines stock is listed on the

Standard Stock Exchange, New York and Boston Curbs. A WORD TO THE WISE IS SUFFICIENT: BUY ALL SOVEREIGN STOCK YOU CAN FINANCE. It is our positive conviction, those who act upon our candid advice and buy at once will make money within the next

few months and equally so that those who buy and hold the stock will find such action even more profitable. Owning without any indebtedness whatever 160 acres of Owning without any indebtedness whatever 160 acres of the best located mining property in Porcupine, the greater portion of which has gold bearing veins proven in substantial widths and for considerable distance; the lowest capitalization in this Camp, \$1,000,000; adequate and strong treasury resources already established, 650,000 shares of stock; a directorate made up of prominent men in the mercantile world, whose every effort will be to make the Company a huge success, and last, but by no means least, producing gold mines surrounding its holdings, constitute the firm foundation upon which Sovereign Porcupine Mines, Limited, stands. Of this we are positive:

SOVEREIGN IS THE SPECULATIVE BONANZA OF PORCU-PINE AT 35 CENTS PER SHARE.

Bear in mind, of the 200,000 shares of treasury stock offered a few days ago for public subscription at 35 cents per share, only a limited amount still remains unsold, and if you desire to obtain a stock-ownership in what reliable engineers

THE PORCUPINE SENSATION OF 1916 we would recommend filing your application with us without further delay. All stock will positively be allotted in the order in which applications are received, and we reserve the right to return all money after the present offering of 200,000 treasury shares has been fully subscribed for at 35 cents.

DO NOT MISS THIS OPPORTUNITY. SOVEREIGN PORCUPINE, A MINE INEVITABLY.

ALUMNAE ASSOCIATIONS

Seventy-Five Girls of This Year's Class Guests of Honor at Pleasing Reception.

ENTERTAINED GRADUATES

Yesterday afternoon the graduate girls of 1216 were entertained at tea in the east hall by the United Alumnus Association of the University of Toronto, a very large number being present. There were 75 girls in the 1916 class, and the other guests of honor present included: President and Mrs. Falconer, Chancellor Bowles and Mrs. Bowles, Rev. Provost Maclein, Dean Clarke and Mrs. Clarke, and Miss Sulter,

Among the members of the executive assisting in the reception were:
Misses Gertrude Morley, Edna Walker,
Dr. C. C. Benson, Misses Cartwright,
Addison, Patterson, M. Hamilton, A.
Willson, A. W. Patterson, G. E. Hendrie and Dr. E. R. Gray.
The alumnae has a membership of over 400 in the city.

ALGONQUIN PARK.

This wonderful government reserve of 2,500,000 acres of forest, lakes and rivers set aside for a playground for the people has become one of the principal objective points of the summer tourist, the camper and canoeist, Good hotels and log cabin camps with most reasonable rates, situated in different parts of the park and operated by the Grand Trunk Railway System, offer first class accommodation for those who do not desire to live out-of-doors. Unlimited canoe routes for the camper, splendid fishing, beautiful country (1500 lakes in the park) and pure and invigorating air are found here at an by Mrs. W. H. Hearst, and Dr. Jennie Grey gave a practical address. Other features were a vocal competition and a symnastic exhibition given by the girls of the district. Demonstrations on tuberculosis, mother-craft and child welfare have been supplied by the health department.

(1500 lakes in the park) and pure and invigorating air are found here at an attitude of 2000 feet above sea level. Illustrated descriptive literature and all particulars may be had on application to any Grand Trunk agent or to city ticket office, northwest corner King and Yonge streets, or C. E. Horning, D.P.A., Toronto.

Clean bright faucets. No grease and grit

FITTING MEMORIAL TO ALL GRADUATES

President Falconer Addressed Alumni Association at University Yesterday.

OFFICERS ELECTED

After Sixteen Years' Affiliation With Association, President McLennan Retires.

A fitting memorial to the sacrifice of the 2500 undergraduates and graduates of the University of Toronto, who have entered service, will be made in following out the suggestion of President Falconer, in speaking before the 17th annual meeting of the Alumni Association at the university yesterday. The form of this memorial and the amount to be expended is uncertain, but that it will be on a large scale, is admitted by alumni officers.

'President McLennan retired from the presidency, after 16 years' affiliation with the association, and was succeeded by Hon. Justice Masten. The honorary president is John Gibson, and the secretary-treasurer, J. Fatterson; J. Murray Clark and Prof. Squair are two of the new vice-presidents.

An important action, taken at the

Fatterson; J. Murray Clark and Prof. Squair are two of the new vice-presidents.

An important action, taken at the meeting, was the amendment to the meeting, was the meeting to consider the constitution to create the office of general secretary, which will be filled by the board of governors. The appointed to the help of the annual of the effort and finance of the LO.D.E. had been expended during the year, were the founding of the annual of the ment of the meeting so many lines during the three days convention.

on's organization in the empire, and its leadership in patriotic work is everywhere recognized. But it is not merely on account of its bigness that we teel pride in our order, but because of the earnes.ness of its members."

The above paragraph, from the presidential address of Mrs. A. E. Goodertem, national president of the Daughters of the Empire, at their closing session yesterday, gives a good idea of the wonderful development of the the great organization and of the corresponding enthusiasm of the members, of which proof has been given along so many times.

alse in emphasizing the importance of the teaching of British history in the schools. In Ontario this teaching is op-tional with the teacher, Mrs. Smith told her audience. The committee of the LO.D.E., turn their attention prin-cipally to districts in northern Ontario, Alberta, Saskatchewan and other ter-lifory where the new-comer from

Alberta, Saskatchewan and other teritory where the new-comer from a foreign land prevails. To these British instory is taught thru the medium of pictures—reproductions of the best painting. The LODE, has also a circulating library of illustrated books, which are obtained very cheaply.

A Favorable Resolution.

The author of the paper on education also introduced a resolution which met with much favor from the memiers present, asking that every chapter now forming part of the order, adopt schools wherever there are foreign children, and supply them with distorical loan libraries and gradually equip them with historical illustrations, so that the new-comers may learn something of the ideals which are the outstanding characteristics of the British Empire of today.

Plea for Renunciation.

Renunciation on the part of the

Renunciation on the part of the women and girls of Canada was the subject of a plea, presented in picturesque language by Mrs. Grace Dean Macleod Rogers of Amherst, Nova Scotia. Mrs. Rogers pictured the sacrifices being made by the men and "bonnie boys," which often went as far as the extreme sacrifice of giving up their lives. Girls, she thought, should not mind giving up some of the galety naturally theirs during the war, to concentrate on patriotic work for the empire.

Mrs. Rogers, who is the author of "Tales of the Land of Evangeline," and other stories of Acadian life, is one of Nova Scotia's best known writers. She has three sons now at the front.

Secretary's Report.

Secretary's Report.

Other items on the long program of the set day of the session were the tecretary's report, read by Miss Mc-Gafin, who explained the system by which the work is done; the treasurer's report, read by Mrs. Bruce, and the crganizing secretary's report, read by Mrs. J. Murray Clark.

Mrs. Clark's report told that 130 new chapters have been formed, with an other terms of the discussion on the provincial government collecting all the war taxes they like, as often and as many as they like, if they will issue debentures for them

LY MAGAZINE PAGE FOR EVERYBODY

Diary of a Well-Dressed Girl

How She Made a Charming Frock for Afternoon Wear. W HY did Ted Campbell go into business? If I've heard this question once I've heard it a million times. The girls are "peeved" because he isn't at their beck and call any more. The dowagers miss his courtly attentions at the dansants, for he danced with young and old, and the men are wondering why the idea "to work" suddenly struck him. Poor Ted, he's furnished food for gossip for many a day to come.

Because Ted tells every one who asks him the question to come to me

Because Ted tells every one who asks him the question to come to me for the real reason, all sorts of rumors are afloat. Some say that I "turned him down," and in desperation he went to work. Others, that I have agreed to marry him, providing he "makes good" in business, while more intimate friends who know Ted and I were never sentimental about each other, believe that his debut into the business world is the fulfilment of a wager.

After stitching the severe plainness of the bodice.

I used four widths of the silk for the skirt, which made it four yards around. So that there wouldn't be so many gathers about the waist line I gored the widths. Then I turned up a deep hem and blind-stitched it in place. Using bias folds of the with the bodice.

After stitching the folds in place I

wager.

All this is very amusing to me. Ethel Thompson was even circulated the report that I have started my trousseau, because she happened to drop in yesterday and found me finishing a frock of pearl gray taffeta. Gray is a "bridey" color, but every one is wearing it now.

Of five folds each.

After stitching the folds in place I sathered the skirt and ttached it to the bodice. To finish the waist line I used a narrow girdle of the gray silk. With the addition of bullet buttons covered with silk the frock was complete. It is demure and girlish and the whole family likes it.

I shall take an impact of the folds in place I state and silve in the waist line I used a narrow girdle of the gray silk. With the addition of bullet buttons covered with silk the frock was complete. It is demure and girlish and the whole family likes it.

"bridey" color, but every one is wearing it now.

When I said that I needed a new afternoon frock Dad told me to buy gray taffeta, so, naturally, I wanted to please him.

I like the frocks that fasten at the back, and selected a pattern with a tightly fitted bodice and a flaring skirt of straight lines.

First I made a lining of strong white net and over it fitted the taffeta bodice. Instead of making darts in the

white net and over it fitted the taffeta bodice. Instead of making darts in the front I slashed the material and turned back the edges to form a wide box pleat.

THE LITTLE BLUE JEANS

Rainy Day Exercises for The "Kept In" Child BY LUCREZIA BORI

for Polse, a Sense of Balance, and to Develop Arm-2-A Game Similar to Quoits That Makes a Good All-Round Exercise

You have often heard a plaintive, childish voice sing: "Rain, rain, go away, come again another day," while the outdoor world was being drenched by a summer storm. Perhaps a picnic or a lawn party has had to be postponed, or maybe the disappointment is merely due to the fact that play out of doors has been interfered with. But whichever the case, it should be the desire of every mother to find some form of house entertainment that will offset the disappointment of the child's not being able to

MONG mother's treasures deep down in the trunk is a little

busted and shrunk. A relic of babyhood scenes. They're cheap sort o' breeches, all busted and shrunk. A relic of babyhood scenes. They're coptible to colds, the mothers deem it above. But mother and I wouldn't trade 'em for gold. They bring back some mem'ries we love. How well I recall it! 'Twas 'long in July. That youngster had growed like a weed, an' both of us watchin' him, mother an' I, decided some jears weed, an' both of us

out a series of gymnastic exercises such as the following:

The child should take a stick in each and with arms outstretched at the sides. A ring is placed over each the same time. It is not so easy as it sounds, and will require not a little practice. The child will delight in accomplishing this feat, gaining poise, a steadiness of hand, a sense of balance and a training of the arm muscles at the same time.

DETA

There

cles at the same time.

This movement is changed by holding the arms straight in front and twirling the rings.

Then the simple school symnastics with which every child is familiar can be done with grace hoops. A ring is held in each hand and the arms are held down at the sides. To a count of eight they should be raised even with the shoulders, then high above the head, then straight in front of the chest, and last assume the original position.

for the city old Dobbin took me. We hustled as fast as we could.

If the country of the city of Dobbin took me. We hustled as fast as we could.

Them pockets, you see, to s'prise him an' there is no better game than that played with gaze hosps for turnishing the him good. Them pockets jest fetched him; he couldn't keep an' pratited until he had us both laughin' aloud. He had in 'employed with a little could an' an' and san' a dime, an' 'most ev'rything that he found. He wore 'em all day until trundle-bed time, an' then deep and when he hissed us good night, he had all his treasures, includin' the dime, jest hugain' 'em tight. At six in the mornin'—if the educt be happy to night with him, jest hugain' 'em tight. At six in the mornin'—if the same yet had with with the mornin'—yet thoughts of the day make my eyes sort o' dim, but jest for a minute or two. We alin't got the plants of the covering and were yet game week in July. But we've got the jeans in the attic, an' where the children should they happe to in the stocking.

The prior devoutly when Bontiaces, not caring to listence and the stock as greater the children and the large with a little color to make any provided the part of the mixture thickens. Remove the part of the same of the symmetry and the part of the mixture thickens. Remove the part of the structure of the same of the symmetry and the part of the mixture thickens. Remove the part of the structure of the symmetry and the part of the structure of the symmetry and the part of the structure of the symmetry and the part of the symmetry and the

muscles.

If the energy of the children's playtime were but directed in the proper
channels much benefit would be derived from play. Mothers who give
intelligent thought to the welfare of
their little ones are realizing the unimited amount of good to be had from
"directed play."

DAINTY WHITE FROCKS

ment.

Frocks are very often self-trimmed, which means that a dainty white dress is as pretty with ruffles for trimming as with any extra adornment of expensive lace. A net frock, for instance, poised over a soft underslip of silk, is unusually pretty when simply trimmed with pleated ruches of net, hand-stitched with white embroidery silk.

Among the best materials for the graduation frock, including nets, are handkerchief linen, organdie and batiste or a very soft cotton voile. Sometimes a dainty all-over lace is preferred, and should only be chosen when the pattern is very fine. White ribbon is plenteously used for facings, hems, ruches and sirdles.

ly used for facings, hems, ruches and girdles.

One charming, youthful little model in organdie was made with a very full skirt, gathered to a normal waistline, and the hem and tucks finished with hemstitching. A dainty fichu was gracefully arranged and edged with narrow picot, and the sleeves finished at the elbow with two flounces, similarly trimmed. The girdle was white silk, arranged in soft folds, and finished off with tassel-weighted ends.

DETACHABLE WRIST WATCH.

There are times when one wishes to wear the watch on the wrist and other times when it is desired to carry it in the handbag, without the bulky bracelet. To meet this need a new wrist watch has been devised, having a sliding hook at the hinge side of the rim, which opens out to receive the sings. The monk who is the painter comes to be worn on the wrist and disappears to the worn on the wrist and the works conceals this hook.

CHEESE PUDDING

Boil up a pint of milk and pour it on to one tablespoonful of rice flour, which has been mixed with a little cold the status of the church. The kind-hearted monk urges Jean to become one of his order. Jean hesitates, not carring to lose the source which has been mixed with a little cold the cook, enters and announces that the brief that it is to be lose his liberty; but when Boniface, the pardon of the servant of the church. SPARROWS SPOILED

Attracted by Lights and Finding Studio a Good Nesting Place.

SPOIL MANY SCENES

They Are Often Cause of Much ANITA STEWART SAYS Amusement and Are Made Pets Sometimes

The sparrow is such a harmless creature that it is hard to believe he is capable of interference with the production of motion pictures. Yet he has spoiled many a botton picture scene for the director who as may be for the director, who, as may be expected, does not regard his interferthe sparrows fly in and swing on the steel supports.

steel supports.
One director of a big concern had just ordered the camera man to "shoot" a carefully rehearsed scent.
The row of arc lamps was switched on and just as the leading woman was on, and just as the leading woman was settling down nicely to her part, two sparrows swooped by her head. She and her companion players hastily quit the scene, as they at first mistook the

birds for bats.

The director's temper was ruffled. birds for bats.

The director's temper was ruffled, but the sparrows were driven out of the studio. However, they returned twice more, by which time the director was well nigh crazy. Altogether, the sparrows caused an hour's delay.

Another instance occurred in a romantic photoplay in which the heroenters his house and is reminded of his broken romance by seeing rice on three sparrows descended on the floor, the shows great sorrow, and started to pick the grains of rice off the carpet. The incident was so unexpected that the hero could not restrain his mirth, with the result that

There is a well authenticated story of a studio that was closed during nesting time. When the company returned and turned on the act lamps a protest went up from several hundred feathered throats in the nests above. It took a day and the fire department ladders to oust the little squatters.

A certain popular child player never attends the studio without a bag of rice, with which he feeds the sparrows. One day, however, as he was acting before the camera, a bunch of spar-rows flew by his side in expectation of receiving their usual daily ration. The youngster was so touched that he stopped to feed his little charges. Altho the scene was spoilt, the director's sympathy was aroused.

POPULARITY IS A BORE

For She Doesn't Get a Chance to Wear Anything But Evening Clothes-Isn't That Sad?

Anita Stewart, playing the part or Scphie, the beautiful nihilist girl in "The Suspect," the new seven-reel Blue Ribbon photodrama produced by S. Rankin Drew, has one decided complaint these days, which goes to prove that, after all, even popularity, that much-sought prize, has its disadvantages as well as its obvious advan-

Miss Stewart's trouble is that she never gets an opportunity to wear anything but evening gowns.

Tailor-mades are her particular pets in the way of clothes; but owing to the fact that the Vitagraph Co. of America keeps her at its big Long Is-

Active photography, as a mirror of intelligence and an expressor of the deeper emotions, is little more than two years old, yet there are some people who criticize its adolescent faults as if it were aged as literature.

How about it? First of all, it has served to lighten First of all, it has served to lighten the lives of untold toiling millions in this, the tensest age of history. Apart from any other ministry or malministry, it has been the incomparable kind servant.

Before those who cannot travel it has made the rest of the world move in its accustomed way.

It has returned to the stage a lost art: pantomime.

It has put red blood into a drama which was becoming waxen with its back-parlor problems and dress-suit sensations.

sensations.

Its great work as an educator is un-

It is the most valorous foe of intem-It is a mighty salesman.

It has done more for the native story than the stage ever did.

It has created at least two epic

It has created at least two epic plays.

It has borne a great tribe of the ruddiest, healthiest, huskiest players since the days of the strollers who traveled in vans from shire to shire.

And it is only two years old!

At two, Napoleon could have been crushed by the frailest drummer-boy; Demosthenes must have gurgled incoherently, and certainly Sumson was performing no dental operations on lions.

Ans.: Sydney Ainsworth was Dave in the play you mention. We do not know where Grace Darling is just now, but she left the Selig and is not playing at all just now. Perhaps she is married.

Ignorogaus: Who are the fallowing to the fact that in addition to grasping the technique of a new art, her screen performance is replete with artistic touches. Every second that her charming personality is on view is a delight; never does Miss Burke resort to commonplace. The producer Ignoramus: Who are the following players with now: Frederick Church, Wheeler Oakman, Jack Pickford?

Ans.: Church is now with Universal, Wheeler Oakman is with Fox and Jack Pickford has just started on a new Contract with the World Film. in her very first experience filmeraft."

This benevolent organization, which has done so much for the Belgian and French refugees; is giving a varied dramatic performance next Wednesday, evening in Oddfellows' Hall 229 College street, for the benefit of the fatherless children of France. The program is in three parts, illustrating the humor, genius and wit of England, Canada and France respectively. In part one a French one-act comedy will be played by Mile. Malaval's amateurs. Part two consists of a Greek myth, presented in the form of a dance, arranged by Misses Kingsford, Scobie and Bradfield. Part three will give for the first time in Canada the clever one act play, "Embers," by George Middleton, presented under the direction of Farnura Barton, who will himself take the leading role.

Burke herself, as to protect the company against loss, if for any reason, the garments were destroyed ere the pictures were finished. For instance, Miss Burke wears a frock in one early chapter of the story that is not again worn until well along towards the end of the tale. Yet if this gown were destroyed ere last scenes were several months.

RECIPES FOR THE CARD INDEX COOK BOOK

Potato Pancakes.

INGREDIENTS

medium potatoes. 1 1/2 teaspoonfuls salt. 2 onions.

5 oz. flour.

METHOD

Grate the potatoes and chop the onions very fine, stir in the salt and then the eggs. Mix very well and add the flour by slow degrees. Melt some lard or dripping in a deep pan, bring to a boil and drop the potato mixture in, in spoonfuls. Fry until a crisp golden brown, drain and serve very
