KISSES MOTHER Affectionate Scene in London Station—Greetings From Admiralty Sent

LONDON, Oct. 16—London gave the Prince of Wales the most affectionate welcome of all his homecomings this afternoon, when he returned from his tour of South Africa and South America. He was greeted at the Victoria Station by the King and Queen, other members of the Royal Family, and thousands of spectators.

KISSES MOTHER After shaking hands with the King, the heir apparent bent low over the Queen's hand. Then, dropping all formal salutations, he placed an arm about his mother, and kissed her affectionately on both cheeks.

ADMIRALTY WELCOME LONDON, Oct. 16—The admiralty today sent the following message to the Prince of Wales, aboard the Resolute: "On behalf of the Royal Navy, which is proud to have entrusted with Your Royal Highness's safety and comfort on your many sea voyages, we beg to offer you the most cordial welcome home on the conclusion of your long journey. We also beg to congratulate you on the great success of your tour, which realized the expectations of the nation in the most amicable manner of strengthening the links binding together and by confirming and intensifying our old and valued South American friendships."

PICTURESQUE SCENE Victoria Station was elaborately decorated with flags, and gay bunting, then ever before in its history, and the picturesque Welsh Guards were drawn up at attention to greet the prince, who is their colonel. In spite of the fact that the general public was excluded from the great station it was crowded, and a train service in that section, where the prince's special train arrived, was held up for a considerable time.

Chance Seen For Developing Maritimes' Fish Industry

OTTAWA, Oct. 15—I traveled from Montreal to Ottawa this morning with Arthur Boutillier of Halifax, president, and J. T. O'Connor of Montreal, vice-president, of the Canadian Fisheries Association. Naturally the talk turned on fish. Mr. Boutillier said that foreigners are taking, and that our waters off the Atlantic coast than our own fishermen are taking, and that there is unlimited opportunity to develop the industry if Canadians could be prevailed on to eat more sea food. There has been in recent years, he said, a great improvement in methods of taking and handling fish. Mr. O'Connor observed that fine fat haddock from Digby and Yarmouth in some cases deteriorated quickly, and he asked the cause. Mr. Boutillier replied that these were doubtless fish which remained many hours in the boats before being cleaned and iced. Here is a hint for the fishermen. They should bear in mind that somebody is to eat the fish they catch, and that every precaution should be taken to have them cleaned and iced as quickly as possible; for this means a better market.

THE Maritime Provinces could have no more enthusiastic admirer than Mr. O'Connor. "When I saw your beautiful country and realized its possibilities, and learned of the difficulties of your situation," he said, "I declared that if I were a native of the Maritimes I would be demanding a change in conditions, even as your people are now doing." Mr. O'Connor was especially charmed with Digby and the Annapolis Valley.

SHOOTING OF MAN WAS ACCIDENT

Detectives Report No Charge Against 3 Brooklyn Boys Here

Were After Rabbits When H. M. Garson was Hit as He Traveled Road

The shooting of Hyman M. Garson yesterday on the St. Stephen road near the entrance to the Five Fathom Hole road, which was done by three lads, Hugh T. McNulty, Stephen Purdy and John Jericho, all of Brooklyn, N. Y., was an accident according to the local detectives who investigated the affair.

The shooting and the fact that another motorist stopped a little further down the road and informed the boys of the accident gave rise to the suspicions of passengers on the Monahan bus operating between Saint John and St. Stephen that had been holding up automobiles and shooting persons who refused to stop.

The three boys, it was said today, left home on Oct. 5 with about \$18 each. Young McNulty spent the summer in this province about two years ago as he has relatives both on the west side and at Five Fathom Hole. They said they came here on freight cars arriving last Wednesday.

They purchased three .22 rifles this city and went to Five Fathom Hole. They were out shooting rabbits yesterday morning when the accident took place.

The boys did not, they assert, know of the accident until a motorist stopped and told them about it. They then went back to the place where it occurred but the truck with Mr. Garson had gone. It was seeing this driver stop and get out of his car and talk with persons with guns which gave rise, on top of the shooting, to the reports of hold ups.

They were held at the police station after Sergeant Detective Power and Detective Biddiscombe brought them to the city. No charge of any kind has been laid against them and so far as the detectives are concerned, none will be laid, they declared this morning as they were satisfied that the affair was purely accidental.

SMASHED TO BITS BY TRAIN

G. Black of West End Has Narrow Escape at Martinton

Motor Car and Incoming Express Crash and Driver Jumps Free.

A close escape from serious injury if not death, was the experience of G. Black, West Saint John, about 12:30 o'clock today when a coupe he was driving crashed into the Montreal train near Martinton station, the car being smashed to bits. Mr. Black received nothing more serious than a cut on the arm and a shaking up. He came in on the train, getting off at Fairville. He could not be reached for details of the accident, but eye-witnesses agreed a tragedy had been averted.

As near as could be learned, both were approaching the Martinton station where there is a level crossing. Mr. Black jammed on his brakes but the momentum carried him up against the side of the train where the car caught and was dragged and bumped along for a considerable distance, tearing down a pole near the station in its mad course. The car was a complete wreck by the time the train was halted. Mr. Black jumped free.

According to a report from C. P. R. headquarters, section near Martinton, the car and the train stopped, and Mr. Black jumped free. It is presumed he saw their warning but too late to bring his car to a stop. In some manner, the auto crashed into the shelter there and then rebounded, hitting the side of the engine.

No Need of Strong Medicines or Diet-Famous but Simple Old English Recipe Keeps Stomach in Good Condition, Banishes After-Eating Distress. If you are a victim of Stomach Troubles—Gas, Sourness, Pain or Bloating—you may have quick and certain relief by following this simple advice: Don't take strong medicines, artificial digestants or pull down your system by following unnecessary starvation diets. Never hurry your meal or overeat of anything, but within reason most folks may eat what they like—if they will keep their stomach sweet, clean and active and free from the souring acids that hinder or paralyze the work of digestion. A week's trial of Bisurated Magnesia, which may be obtained from any druggist for only a few cents, will easily convince you of the great value of this old English recipe. BISURATED MAGNESIA—not a laxative.

"ABOUT A YEAR AGO I consulted a specialist. He found my condition run down, gave me a serum to prevent colds, and advised Fleischmann's Yeast once a day. I followed directions for a month. To my delight my former vigor was restored. And my former complaint has disappeared. I am keeping it up. I feel fresh and vital every day." J. Milnor Dorsey, Trenton, N. J.

"SCRATCHES FESTERED, pin pricks turned to boils—I was a rival for Job's 'laurels.' My nerves were chaotic. I developed a morbid, craven terror of pain. A neighbor suggested yeast and, though cynically doubting the remarkable cures narrated, I took 4 cakes of Fleischmann's Yeast daily between meals for one month. The incredible happened. A boil just starting dried away painlessly, minor blemishes on my back, which I had had in series for years, totally disappeared; I grew steadily stronger, and life reassumed normal perspective. Finally I, who had dragged to my housework, half fainting from the least exertion, had surplus energy and wiped dishes dancing to photograph records!" Mrs. R. G. Booth, Fort Washington, N. Y.

"THIS SPRING, just recovering from a serious illness, I asked my physician if Yeast would do me any good. He said, that it was very good, so I began eating it. I am no longer troubled with indigestion, headaches, or stomach troubles of any kind, nor do I any longer wish to hide my face on account of the pimples. Instead of the pale sallow look, I have a good rosy complexion and a good appetite. Now I can eat a hearty meal, and enjoy it. Fleischmann's Yeast has wrought this wonderful change, for at present I use no other remedies." Jenny Chertland, St. Hyacinthe, Que.

And all found the Way to Health. For them fresh energy, a new zest in living came through one simple food. Not a "cure-all", not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food. The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

"TEN YEARS OF WORK as a press telegrapher, one of the most sedentary of occupations, had made me a chronic sufferer from constipation and many of its attendant evils. After a severe illness two years ago, a friend recommended Fleischmann's Yeast as a tonic and general body builder. I began by drinking a cake of yeast in milk, morning and night. Within a comparatively short time the constipation had entirely disappeared, my complexion cleared, and I felt as if years had dropped from my shoulders." Frank W. Dougherty, Erie, Pa.

SAINT JOHN, N. B., OCTOBER 16, 1925.

THE WEST SIDE FIRE

An investigation of the fire which destroyed the old Carleton City Hall being made and, no doubt, it will be thorough. It is eminently desirable that every relevant circumstance in connection with the matter should be examined patiently and impartially.

The end of the world series, giving the pain to Pittsburgh, was spectacular and sensational. To-day the United States newspapers are engaged in holding an inquest upon "Walter Johnson, but he shines even in defeat. The thousands of fans who actually witnessed the game, and the millions who followed it by means of the bulletin, certainly had more than the usual variety of baseball thrills.

Odds and Ends

The Subway Talkers

(Two beautiful young women are overheard.)

"Where does he get that stuff?"

"What stuff?"

"He's been judge in a lot of beauty contests."

"What about him?"

"Says girls are beautiful but dumb."

"He does?"

"He's been judge in a lot of beauty contests, says girls are beautiful but dumb."

"Proly some girl turned him down, so he says they're dumb."

"It's applesauce. Beautiful but dumb. Where's he get that stuff?"

"Maybe some girl turned him down, so he just says that."

"I bet he ain't beautiful, but I bet he's dumb."

"I bet he's dumb."

"That's what he is, a dumbbell. Where's he get that stuff?"

"Who is he?"

"He's been judge in a lot of beauty contests. Says girls are beautiful but dumb."

"I bet he's a dumb-bell himself."

"I bet he's just what he is—a dumb-bell."

—New York World.

Three Classic Instances.

(Winnipeg Tribune)

When Mark Twain was reported dead and that consequential happening brought to his notice, he reported that the report of his death was greatly exaggerated.

When Irving Cobb was similarly notified respecting a like report he blandly averred that it might be so, but he was not aware of it; that, anyhow, he did not believe all he read in the newspapers, as he once was in the business himself.

Commander Rodgers, of the gas attack "P.P.-2 No. 1," who was given up for dead, had this to say when he showed up where he could make himself heard. "You newspaper men are all right. I'll give you credit. You are on the job. You made a good job of consigning me and my crew to the deep—and then you made a fine job of it when you restricted me."

"It's a wonderful sensation. There's one advantage of being 'dead.' You soon learn what the world thinks of you."

In the Days of Gold.

(John J. Burke in the Californian)

In the good old days of the gold dust strife.

When the miners dug for the ore of life.

And the wilderness of gold and beast Gave way to legions from the East.

There were in Dead Man's Gulch, they say,

That poor Bill Williams passed away. Now, Bill was a man of brawn and brain

Whose search for gold had been in vain.

But Bill was loved, and the saying goes,

When poor old Bill turned up his toes

The miners moaned, and the townsfolk cried

As they placed poor Bill in his miner's shroud.

He being quite uncommon clay

Deserved a fitting obsequy

So a preaching person soon came round

To talk poor Bill beneath the ground.

Just Fun

"Let's play I'm a king and you're my queen," I suggested as he attempted to put his arms around her.

Whereupon she crowned him.

Head of a big corporation decreed that no woman working for him should bob her hair—but that was two years ago!

All I realized on my last investment was what a darned fool I had been.

During a big fire in a New York goods factory the owner became very excited. No wonder; he lost his noodle.

"We've certainly seen a great deal of each other during our lives," said one chorus girl to another as they retired from the stage.

LIKE MOTHER USED TO MAKE "Is your husband fond of home cooking?"

"Oh, yes, we always dine at a restaurant that makes a specialty of it." —Passing Show (London).

ASKING TOO MUCH. The convicted man had just received sentence and was being led out. "You poor man!" said a sympathetic woman near the door. "Is there anything I can do for you?"

"No, ma'am," replied the prisoner. "Unless you'd like to do this three years." —Boston Transcript.

HE KNEW AN EXCUSE. "What a lot of cases of people being poisoned through eating tinned food there's been lately, Mrs. Hopkins. Makes you nervous, don't it?"

"Yes," said Mrs. Hopkins, shaking her head. "I wouldn't touch the stuff. My poor husband always said it was 'drinking' out of a tin cup when he was in the army what give 'im delirium tremens'."

The philosopher who said long ago that it was dangerous to judge the contents of a bottle by the label it bore must have foreseen the conditions that prohibition was going to bring.

GO TO IT. When you feel that the whole darn world is wrong,

And your lips want to hum a melancholy song,

Get off in a corner, far away from your clan,

And yell the darn song just as loud as you can.

Then a sweet smile will come to your face,

For it's funny to sing in an out-of-the-way place.

One thing that the Bible omits is what Mrs. Noah said after the flood about the mud that was tracked into the ark.

LOVE, THEY SAY, IS LIKE A PHOTOGRAPHIC NEGATIVE — IT MUST BE DEVELOPED IN THE DARK.

THESE MOVIE STARS. Baby Pog has decided to let her name be used for advertising purposes by a face powder concern, but is still undecided about the reducing corset proposition.

Keeping that school girl complexion isn't half as hard for some cutes as getting that "bathing suit figure."

A man may lie about his golf score and cheat when he plays solitaire, but have you ever heard of one who paid a higher income tax than was necessary just to make an impression on the public?

I know a certain little lady and her name is Logan.

I wouldn't take her to a dog-fight if I knew both dogs.

One of the biggest problems of modern housekeeping is how to dispose of all the tin cans.

It doesn't pay to be crooked. Look at what happened to hairpins and cork-soles.

Living is expensive but a lot of people ate cheap.

Vanity bags—Oxford trousers.

WE GUARANTEE THIS. Speak well of others and they will have a high regard for your opinion.

GOT HER WISH. "Maud has eloped with a subway ticket-taker."

"She always said she would like to be carried off by a cave man."

UNAPPRECIATED BENEFIT. A doctor says that exercise is no good without excitement. Commuters who sprint for morning trains never seem to realize how good it is for them.

CUT DOWN EXPENSES. (London Daily Mail).

Transval coal at the present moment is selling at the pit mouth for 5s. 3d. a ton and German coal for 16s. when British coal of slightly superior quality costs 12s. to 15s.

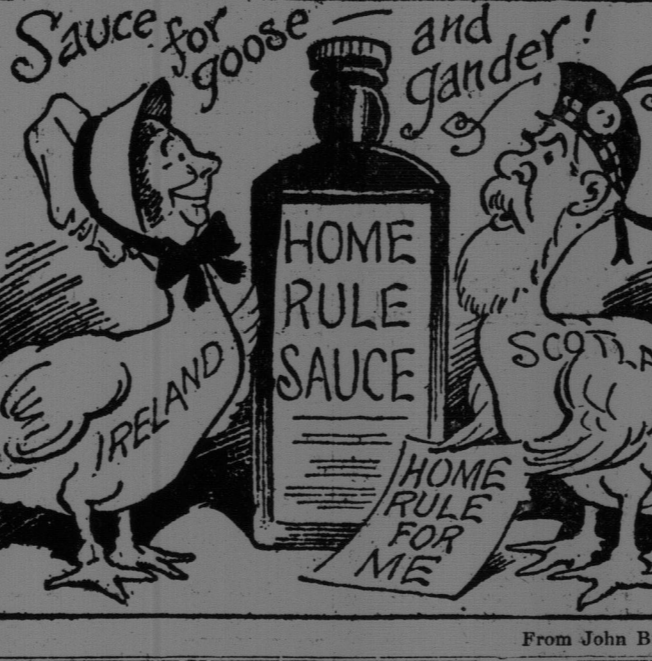

The only way in which our foreign market for coal can be recovered is by reducing the cost of production with a great effort, for which the government ought to give the lead by drastic retrenchment itself and requiring drastic retrenchment of the local authorities.

"THANK YOU." Hamilton Spectator: Recently the head of a large business concern in the United States offered a prize of \$5,000 for the best answer to the question: "How can my business be most speedily and surely improved?" The money went to a competitor, who simply wrote on a postcard the words "Say thank you!" It seems a very simple way of earning \$5,000, but the business man knew what he was doing when he awarded the prize, and if his large staff can be persuaded to act on the advice the sum will be returned many times over in extra business done.

IMPERIAL SETTLEMENT AND TRADE. (London Daily Chronicle).

Lord Clarendon, who represented the Overseas Settlement Committee, pointed out at the Grocers' Exhibition how necessary an increased market is to the Dominions, if they are to carry a larger population, and how closely the problems of emigration and settlement are linked up with that of trade.

What's Sauce For The Goose Is Sauce For The Gander

The Best of Advice

BY CLARK KINNAIRD

THAT "FAIR FLOATING ISLE OF PALMES"

CRANTING that we had both the will and the sense to choose our friends well, how few of us have the power!

Or, at least, how limited, for most, is the sphere of instinct.

Men do get, after all, LOVE their friends greatly.

They are not often transfused and translated by love in each other's presence.

You do not observe them purified, refined, and elevated by the love of a man.

If one abates a little the price of his groceries or gives his neighbor's daughter a vote of grandma's jelly, or takes him automobile riding frequently, it is esteemed a rare instance of friendship.

IT IS as Thoreau observed, "To say that a man is your friend means commonly no more than this, that he is not your enemy."

Most persons contemplate only what would be the accidental and trifling advantages of friendship, as that a friend can assist, in time of need, by his money, or his influence, or his counsel.

WE DO not wish for FRIENDS to feed and clothe our bodies,—neighbors are kind enough for that,—but to do a like office to our spirits.

For this few are blown enough, however disposed they may be.

When that hot-headed beer while, I do confess thou'rt smooth and fair,

And I might have gone near to love thee, Had I not found the slightest power

That lips could speak, had power to move thee: But I can let thee now alone,

As worthy to be loved by none.

I do confess thou'rt sweet; yet find Thee such an untrifling of thy sweets,

Thy favors are but like the wind That kisses everything it meets;

And since thou canst with more than one, Thou'rt worthy to be kissed by none.

The morning rose that untouched stands, Armed with her briars, how sweetly smells!

But plucked and strained through ruderal hands, No more her sweetness with her dew falls,

But scented and heavy both are gone: And leaves fall from her, one by one.

Such fate ere long will betide thee, When that hot-headed beer while,—

Like sere flowers to be thrown aside: And I will sigh, while some will smile,

To see thy love for more than one Hath brought thee to be loved by none.

—Sir Robert Aytton.

FOR OR AGAINST. (Glasgow Herald).

Whatever may be the case in the past, political issues in the near future are going to be so clear-cut that there will be no room for two anti-Socialist parties, and that if two are maintained in existence and in formal opposition to one another it will only be at the cost of enfeebling the Socialist party with power to which they have no real claim.

The more we buy the products of our Dominions, the more emigrants we can hope to settle on their territories; and the more emigrants we settle there, the more purchasers there will turn up for British exports, and the more work for British workmen.

Who's Who

IN THE DAY'S NEWS.

ELMER E. CROWLEY.

THE U. S. Shipping Board recently voted to accept the resignation of Admiral Leigh C. Palmer as president of the Emergency Fleet Corporation.

The resignation had been in their hands since his appointment in January, 1924, at the insistence of President Coolidge.

After forcing Admiral Palmer to resign his position they chose Elmer E. Crowley to succeed him as president of the corporation. Crowley is connected with the Export Steamship Company of New York and is said to be a practical shipping man. He was formerly employed by Palmer as assistant to the director of operations. Crowley is a resident of Boston.

Hard To Guess Live Weights

THOSE of you who have pets of your own will have found out perhaps what a very difficult matter it is to guess their weight. Make up your mind what Spot or Tibbles weigh, then put them on the scales and see how near the mark you are. The chances are that you will be very far from correct.

How much would you think the ordinary harvest mouse weighs? It will probably surprise you to know that it weighs just about the same as a large Canadian cent.

Ask your friends how many bees they think would be needed to weigh an ounce. What do you think yourself? Ten, twenty, forty . . . ? It takes as many as 300 bees to weigh an ounce, though those of you who have ever been stung might imagine that the stings alone would weigh more than that! So light are the bees that one wonders they are not blown away by the first gale they encounter.

When we come to weighing big animals, the results are not quite so easy to get. Somehow I should not be very keen on weighing a lion or a tiger, would you? You can take it from me, however, without bothering to experiment yourselves, that the elephants at the zoo are no featherweights. In fact, if one of them stepped on your foot by mistake you'd fancy his weight to be at least fifty tons!

What's Your Hard of Hearing and you want a position in our telephone exchange? "Yes, sir. At least I'll have an excuse for not answering."

Jack: "How are you getting along at home since your wife went away?" Tom: "Fine; I've reached the highest point of efficiency, I can now put my socks on from either end."

Maiden Aunt—"And what brought you to town, Henry?" Henry—"Oh, well, I just come to see the sights, and I thought that I'd call on you first."

The minister was resting after the morning services when his small son asked him sympathetically, "Does it make you tired to preach, papa?" "Yes, my son."

"Well, it makes me tired, too, to hear you, papa!"

A married lady was placidly knitting while her husband and a crowsy talked golf. "I think the little nine-hole course is more difficult than the eighteen-hole course," said the friend. "I'm not so sure about that," said the husband. His wife laid down her knitting. "But surely," she said, "it must be more difficult to play on the nine-hole course, as Mr. Brown says."

"Why?" asked her husband. "Well," replied his wife, "where there are eighteen holes it must be easier to get the ball into one of them."

Don't Go to Live With Your Daughter-in-Law, and Don't Make Her Live With You—Remember How Much You Wanted Your Own Home and Give Her the Same Privilege.

PERHAPS the reason why mothers-in-law and daughters-in-law seldom get along together is because neither woman is willing to look at the situation from the other woman's standpoint.

The mother-in-law forgets how she felt when she was a young wife, and the daughter-in-law has not enough imagination to visualize the time when she, too, will be a mother-in-law.

That is why so many good women make life a torment for each other and wreck the happiness of the men they adore and for whom they would make every sacrifice on earth except that of using some consideration and forbearance and tact in dealing with each other.

Here is a case in point: The other day a young woman came to me and wept out upon my breast the story of her misery. She was married to a fine man, whom she loved and who loved her, and who she had the kind and generous to her, and she had the darling baby, but the fly in her ointment was that she had to live with her in-laws.

Her husband's people are extremely well-to-do. They had a big empty house, and so when their son married they had him come to live with them because they could not endure the thought of being separated from him.

"IT ISN'T that they are unkind to me," sobbed the young wife; "on the contrary, they are good to me in many ways, although I always feel that I am being simply endured for John's sake. But it wouldn't make any difference if they were angels to me. What I want is my own house, where I can have my own things about me and do just as I want to do, and where John and the baby and I can be off to ourselves. I want some place where I can feel at HOME instead of being a perpetual guest."

"I have no authority in my mother-in-law's house, and it is right that I shouldn't have it. Her home, and she is a wonderful housekeeper and manager, but I want a chance to learn to be a good housekeeper and manager, too."

WHY, I have never even had a good look at my wedding presents! While we were on our honeymoon they were all packed up and sent to the storage, where they are likely to remain to the end of time; and when I think of my hope chest and all the towels, dollies and pillow slips that I spent so much time embroidering and monogramming, and that I have never used, I just shed barrels of tears.

"When I beg my husband to get us a home of our own, he says he can't see for the life of him why I am not satisfied where I am, and he tells me how much more comfortably we are living and how much less work I have to do than I would have if I had a house of my own, and his mother urges him not to give in to my foolish ideas and lectures me on how wrong I am to be discontented. So I suppose I shall never go to housekeeping, and I envy every woman who has a two-room shack of her very own."

When I hear a story like this, and I get innumerable variations of it, I always feel like saying to the mother-in-law:

"Woman, have a heart! Give to your daughter-in-law the privilege that you have had, of going off with her mate alone and building her nest in her own way. Don't go to live with her. Don't make her live with you. Leave her to herself to run her own house and rear her own children in her own way."

THIS will be a hard saying to many women who contend that their son's getting married does not alter their relationship, and that they still have a right to manage his affairs for him. But this inability of the mother to keep her fingers out of her children's pies is the crux of the whole in-law proposition and brings about more misery and heartache than any other one thing in the world.

That a mother-in-law should deny to her son's wife the right to her own home is a glaring wrong, because every woman knows that this yearning for her own home is the basic passion of every womanly woman's heart.

IT MANIFESTS itself in the little girl whose most cherished playthings are her tiny toy housekeeping things, her miniature cooking stove, and dishes, and pots and pans. It shows itself in the working girl who, in order to have some sort of a home of her own, will cook her meals over a gas jet and do light housekeeping in a biscuit tin. Long before there is any real man in sight a girl will start her God-knows-when chest and begin picking up linen against the time when she will have a real home of her own.

Getting married isn't simply getting a husband to a woman. It is getting a home. A little realm in which she is supreme, where she can express her own taste, where she can use her best china every day if she wants to and eat off tabacoina or dollies as she likes. And whether it is a palace or a three-room flat, the biggest thrill that any woman ever gets is when she looks around her first home and feels that she is monarch of all she surveys.

EVERY woman knows this. Every woman who has ever had her own home remembers exactly how she felt, and it is past belief that any woman could be cruel enough to deny it to another woman. Yet mothers, in their selfish desire to keep near them the children they love, will refuse a daughter-in-law this happiness, or, because they cannot deny themselves the pleasure of bossing everything about them, they will take the management of their affairs out of their sons' wives' hands. They know that a woman interferes with another woman's household management at her peril, but they are bound to ruin it.

So I say again to mothers-in-law, "Have a heart! Remember how much you wanted your own home when you were a young woman and how ardently you desired to run your own way, and give to your daughter-in-law the privilege you had."

ARISTOCRATS CAN AGITATE, TOO

At left, Lary Cynthia Mosely; above, at right, Mrs. Norman de R. Whitehouse. Below, left to right, Lady Warwick and Ross Pastor Stokes.

NEW YORK—Some of the best friends of labor have been recruited from the drawing room. In England and America, too, we find women of wealth and position who desert their social activities for the betterment of women in shops and factories.

Lady Cynthia Mosely, the very beautiful daughter of the late Lord Curzon, is causing considerable agitation now in England because in spite of her aristocratic lineage, she is running for Parliament on a straight Labor ticket.

Lady Warwick is another title holder who has used her influence to further the cause of the working woman and has been a friend of Soviet Russia ever since the downfall of the monarchy. Suffragists of two continents remember the many street corner addresses made by Mrs. Norman de R. Whitehouse in the old days before women of the United States and Great Britain had the vote. She has been a staunch feminist and worker for the working woman's causes ever since.

Rose Pastor Stokes was a working girl herself and knew the life of a factory girl before she married J. G. Phelps Stokes, the multi-millionaire, and in passing from one extreme to the other in the social scale she never forgot the women who pined the time clock. In spite of her wealth, she has remained a socialist and has written, lectured and contributed funds for the working class.

All of these women have not only worked for the worker themselves, but have interested other women of leisure in social and economic problems.

Adventures of the Twins

By OLIVE ROBERTS BARTON

A NEW WAY TO POP CORN.

Daddy Cracknuts and Mrs. Cracknuts went cruising happily along in their little automobile to the place where the big chestnut tree grew.

The sky was as blue as June and big white clouds floated around in it like froth on soda water.

You would never have dreamed that Jack Frost had been snooping around the night before with his hammer.

But he had. He'd been cracking nut-bars open—big prickly chestnut burrs! He cracked them so wide open that the satin brown nuts spilled down onto the ground.

Daddy Cracknuts and his wife were going to lay in their winter supply. They had given Chirk Chipmunk a lift as far as the pop-corn patch near the buckwheat field.

When they got there Chirk hopped out, and on they went until they came to the chestnut tree.

And there, if you please, were Scramble and Scamper Squirrel Cracknuts, their sons, waiting for them.

"Hello, Daddy! Hello, Mom! We thought we'd surprise you," they called from the tree. "We've been here since early morning."

"Well, I declare!" said Mr. and Mrs. Cracknuts happily. "This is quite a family party. Are there many nuts?"

"Oodles!" sang out Scramble. Mrs. Cracknuts started to fill baskets, while Daddy and the boys gathered.

"And when they started on their homeward trip, the little car was full nearly to the ceiling."

"We are going to have a fine pantry full of stores for the winter," said Mrs. Cracknuts. "It is certainly—"

Suddenly she stopped. "There's Chirk Chipmunk!" she cried. "We forgot all about him. And he has a bag full of stuff. Where shall we put him?"

"Well, I declare!" said Daddy Cracknuts. "I wonder! Hello, Chirk, how are you ever going to get in here? We're as full as a box of monkey's."

Fashion Fancies

By Marie Belmont

FLARES are again with us for fall, but instead of appearing at the front, they are often placed at the sides or in the back.

The smart coat above is developed in black broadcloth, of which there is no more effective material for the semi-dress coat. The cloth part of the coat is straight and narrow, and the fur is used to add decided flares at the sides.

Note the deep cuffs, which start just below the elbows. Both coats and frocks of the season favor long, close-fitting sleeves.

Wine Recipe That Was Worth \$1,650,000

A FORTUNE awaits the lucky inventor of a new food, drink or relish. No less than \$1,650,000 was once paid in the open market for the recipe of Chartreuse, that delectable liqueur whose secret was known only to the monks of La Grande Chartreuse.

Expelled from France in 1793, the fathers of this order were wise enough to take their jealously-guarded recipe with them. This "scrap of paper" originally consisted of a single sheet, but numerous additions and alterations, together with more detailed directions regarding the manufacture of their precious liqueur, caused the parchment to grow eventually into a book containing 100 pages.

A goodly proportion of your breakfast bacon has been cured by the famous Branderburg method. The secret of this process was purchased for \$60,000 by an enterprising firm of Wiltshire bacon curers, and their outlay must have been returned to them many times over.

Worcester sauce was invented by a retainer serving in a large country house. Finding that his relish was appreciated by the family and their guests, he sold his recipe for a few pounds to the original head of a famous sauce-making firm.

Although this transaction took place 200 years ago, no variation has been made in the ingredients of the popular table delicacy, and it is probably no exaggeration to say that the recipe is now worth over \$600,000.

Many years ago an Indian traded for a few rupees the formula for mixing the ingredients of a special kind of chutney. This was subsequently sold again for \$36,000, and produced a vast fortune for its final purchaser.

Your Birthday

October 16—You are full of determination and energy, and will never own yourself beaten. You are kindly, sympathetic, and generous, slow to anger, and quick to forgive. You will give a very happy and contented life, if you don't put business first in your life. Never listen to idle gossip, and treasure love.

Your birth-stone is the opal, which means hope. Your flower is the pop. Your lucky colors are yellow and white.

A Thought

PLANS FOR BRIDGE

Valencia Chapter, I. O. O. E., is giving an afternoon bridge and not a dance, as was previously stated. The afternoon bridge is to be held in the Pythian Castle in the first week in November and will be one of the largest the chapter has yet planned for, and it is expected that there will be 70 tables.

THE LAST FRONTIER Scientific Schools Tries New Honor System

By DAVID DIETZ

AN "HONORS GROUP" is the newest departure in scientific education. It has just been organized in the electrical engineering department of the Massachusetts Institute of Technology, one of the leading scientific institutions of the world.

The plan has been worked out as the result of a feeling which is prevalent not only at this school but at many colleges and universities throughout the country.

There is a feeling, both on the part of faculty members and students, that college rules are too iron-clad, that students are too much restricted by the mechanical details of the curriculum and that there is not sufficient room for the development of individual talents and ability.

In other words there is a feeling that colleges are being turned into glorified high schools and that the brilliant student cannot branch out for himself while in college, but must wait until he has finished college and entered a graduate school where individualized research is possible.

DAILY MOVIE SERVICE Interesting New Films Coming

By RUSSEL J. BIDWELL

HOLLYWOOD—Some interesting pictures for the coming cinema season loom on the film map. Of the pictures now nearing completion and attracting the most attention is "The Big Parade," which presents John Gilbert as the human doughboy of Laurence Stallard's famous war story.

This is the picture, rumors the crescendo of gossip, that will place Gilbert in the lead of all other male actors on the screen. Ronald Colman, as "the lowdown" goes, is offering the keenest competition to Gilbert by his portrayal of the tragic soldier in Fitzmaurice's "The Dark Angel."

Eric von Stroheim's "The Merry Widow," which also has John Gilbert in the cast along with Misa Murray, is soon to be released by the Metro-Goldwyn-Mayer Company. Gilbert plays an erratic prince, swayed with passion and anger, in this movie.

Stroheim has incited into Gilbert the stern military spirit which so characterized the noted director when he was on the screen as a "heavy."

All of which reminds us Stroheim is soon to be seen on the screen again. He is to play the villain in the Constantine Talmadge picture, "Balkan Love," adapted from "East of the Setting Sun," by George Barr McCutcheon. Stroheim is to enact the role of Crown Prince Vladimir Gave Slatkov, rebelled for screen purposes, Black Vladimir.

Burlesquing Story. Not only will the famous German individual play in the picture, but he will also be the director. McCutcheon, the author, will suffer when he sees his book on the screen.

Stroheim is burlesquing the entire story. . . it will be a satire, a comedy. . . not only on the writer but on his product.

Another interesting story that soon will be born of the cinema is John Kendrick Bangs' humorous novel, "The Housboat on the Sixty." Emmett Flynn, the director who owns the picture rights, plans to make it in the near future.

They Aren't So Dry. "A good chef gets more than a college professor." "Why shouldn't he? A lot more people take his course."

Horse Perishes As Two Barns Burned

MILL COYE, Queens Co., Oct. 15—Two barns and their contents and a horse belonging to J. W. Eastwood, secretary of the Farmers' Marketing Association, were burned here yesterday. Mr. Eastwood and one of his sons were on their way to the Narrows to catch the boat for Saint John when they looked back and discovered that their barns were afire.

The barns with the season's hay and straw, one horse, buggies, hayrack and the like were destroyed. This farm is a Soldiers' Settlement one. Mr. Eastwood served overseas with the artillery.

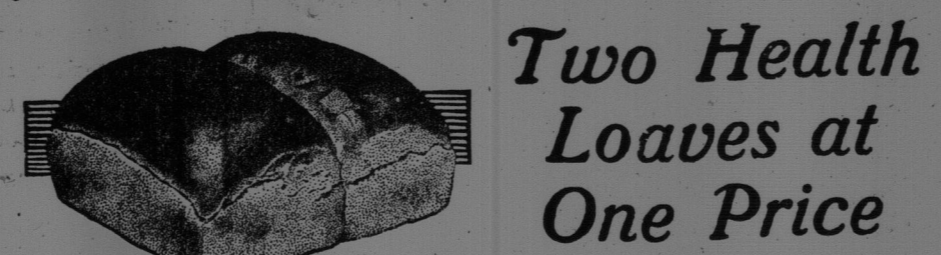

Missing Molars. As an addendum to our list of studies and comparisons printed the other day, J. R. contributes this: "I heard it said of an old woman that her teeth reminded the speaker of a sleeping car half an hour before starting time: no lowers and very few uppers."

BABY BOOTS

We are showing many new patterns this fall for "Baby." Style plays as important a part in baby footwear as in "grown ups." We can show you a very complete range, and would recommend an earlier selection—even for Christmas lists—while choosing is easier, avoiding holiday rush.

PLANS MADE BY HOSPITAL AID

Jelly Day Arrangements and Hallowe'en Treat are Discussed.

Plea Made for Visitors at Hospitals—Funny Papers are Requested.

The Women's Hospital Aid yesterday made plans for its annual jelly day for the General Public and Saint John County Hospitals and planned also for a Hallowe'en treat at General Public Hospital. Mrs. J. Boyle Trav-ers presided. Special pleas made for

the members to serve as visitors for the two hospitals. Mrs. J. J. Stothard reported as convener for the visiting at the General Public Hospital and said flowers and magazines had been abundant but funny papers had been lacking. Mrs. George Ewing was appointed convener for visiting next month.

NO FLOWERS. It was decided to discontinue for one month buying flowers for the General Public Hospital, as the allowance of \$2 a week was not enough to obtain an adequate supply of flowers. A special plea was made for members to go as visitors to the General Public Hospital each Tuesday. This service is specially desired.

Mrs. N. C. Scott said on the last three weeks Mrs. J. J. Gillis had had charge of the visiting in the County Hospital and treats had been taken each week. Mrs. T. H. Carter had provided for both hospitals parties that were much appreciated. Mrs. John Earle would be convener for visiting in the evening month. Mrs. R. S. Sime reported reviving interest in the cook book. Three more

books had been sold and there remained 78 unsold.

JELLY DAY.

Plans were made for the annual jelly day to be held on Nov. 10 and contributions are to be received during the week preceding. Those appointed to receive jams, jellies and preserves for the General Public Hospital were Mrs. Ralph Robertson, 74 Mecklenburg street, Mrs. N. C. Scott, 99 Douglas avenue, and Mrs. W. E. Morris, 206 Saint John street, West. Mrs. George Ewing, 142 Duke street, will receive the jams, jellies and preserves for the County Hospital.

Mrs. T. H. Carter was appointed convener for the Hallowe'en treat in the General Public Hospital. Miss Belle Howe, as social secretary, reported 56 visits in the month, three cabs supplied and seven cases reported to the aid, four families supplied with clothes, one person found work and \$82 paid to the hospital in fees through investigation of 83 tonal cases.

The short story was introduced into Europe by the Arabs.

Social Notes of Interest

Mrs. R. Downing Paterson honored the 13th birthday of her daughter, Miss Roberta Paterson, yesterday afternoon with a merry party to which were invited 16 of the latter's young friends. The table was very pretty with a birthday cake centering it, from which shone the light of 13 candles and in which were the most delightful surprises in favors for each guest. Yellow was the suggestion in the color scheme. As the girls are now past childhood, they enjoyed table games, with some of more action intermingling with their pleasure. Many pretty gifts were brought to Miss Robert by her guests who were the Misses Barbara Sayra, Gall Kaye, Helen Sancton, Ruth Allison, Joan Davidson, Joyce Foster, Frances Foster, Shuna Gilchrist, Charlotte Foster, Charlotte Crosby, Jane Crosby, Octavia McIntyre, Jean Stetson, Constance Mullin, Frances Vassie and Constance Sheraton.

Mr. and Mrs. Horace G. Black invited a few friends very informally on Wednesday evening for the pleasure of Miss Helen Smith, Mrs. Black's cousin, whose marriage to Dr. Grant Harper, of Waterloo, Ont., takes place next month.

Mrs. M. Y. Paddock, who is visiting in Fredericton, is the guest of Mrs. LeBaron Bull, University avenue.

Mr. and Mrs. George Amland, who have been on a trip to New York where they visited Mrs. Amland's brother on Staten Island, celebrated on Sunday their 20th wedding anniversary. While in New York they had the pleasure of visiting Rev. Mr. Harrower, who was the clergyman who performed the ceremony at their wedding. The trip was in part a celebration of their anniversary and extended over several weeks.

Miss Helen Smith was guest of honor yesterday afternoon at a tea given by Mrs. Arthur Rankine at the latter's residence, 155 Orange street. Mrs. R. Ernest Smith, mother of the bride-elect, presided over the tea. The rooms were decorated with pretty bells and the guests, who numbered forty, showered Miss Smith with novelties. Girl friends of the guest of honor served.

Mrs. J. T. Cornell, of Rothesay, is leaving on Saturday for her home in Massachusetts. Later she will go to Montreal, and will journey to Vancouver, B. C. with her daughter-in-law, Mrs. Julien Cornell and family, of Rothesay, who are going to join Mr. Cornell in the west, where he has been for several months. Mrs. Cornell, Sr., will visit her son and his wife and family for some time.

Women Secure

against lost charm this new way of solving oldest hygienic problem

SHEER gowns and ill-timed social or business demands hold no terrors for the modern woman. The insecurity of the old-time "sanitary pad" has been ended.

"KOTEX," a new and remarkable way, is now used by 8 in 10 better class women.

It's five times as absorbent as ordinary cotton pads! You dine, dance, motor for hours in sheerest frocks without a second's doubt or fear. It odorizes, too. And thus stops ALL danger of offending. Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it at any drug or department store, without hesitancy, simply by saying "KOTEX."

Do as millions are doing. End old, insecure ways. Enjoy life every day. Package of twelve costs only a few cents.

KOTEX

No laundry—discard like tissue

Several friends went out from the city on Wednesday afternoon to bid the two ladies farewell before they leave and were served at the tea hour informally by Mrs. A. E. Maasie, who asked them to meet the Messdames Cornell at her country home.

Mrs. E. L. Rising and Mrs. Harold W. Rising entertained again yesterday at the residence of the latter, 25 Gooderich street, for more than 200 guests having held another most successful reception on Wednesday afternoon. The rain which had threatened in the morning to make any entertainment impossible, was banished by bright sunshine in the afternoon, and the guests were able to keep their appointment with almost summer weather prevailing. Mrs. G. E. A. Anderson and Mrs. W. H. Hayward presided over the tea cups in the pretty dining room. Mrs. Dawson McKendrick and Miss Alice E. Rising ushered the guests. Mrs. Frank Robertson replenished and serving was carried out by Mrs. Kenneth Wilson, Mrs. George D. Scarborough, Miss Barbara Johnson, Mrs. W. E. Rowley, Mrs. Kenneth Creighton, Little Miss Eleanor Rising, daughter of Mr. and Mrs. W. C. Rising, in a lovely frock of palest green georgette, brought from Paris, opened the door for the guests.

Miss Aida Jacobson, a bride-elect of October, was the occasion for a delightful party at the home of her aunt, Mrs. H. Jacobson, 199 Douglas avenue, on Wednesday evening, when 50 of her friends assembled to present her a shower of linen and to express to her their good wishes. Bridge was enjoyed, the prizes being won by Mrs. E. Jacobson, Mrs. F. O. Garson and the Messrs. Louis Lipsett and Samuel Jacobson. The rooms were decorated in festive colors, and refreshments served from a very nicely appointed table.

Mrs. Freda Clark, of 283 Germain street, entertained Wednesday evening at her home in honor of Miss Olive A. Lamb, who will be a November bride. Miss Lamb is the member of a club of eight young women, some of whom are her associates at the Bank of Montreal, where she has been employed for some time. These were the guests and they presented her with a quaint set of Dutch silver candlesticks for her future home. Those invited and who participated in the pleasure of the presentation were Miss Effie Henderson, Miss Myrtle Wright, Miss Hazel Peters, Miss E. M. McHugh, Miss Lena Jones, Miss Myrtle Downey, Mrs. C. A. Feings, Miss G. E. Sullivan and Mrs. Lorne Whittaker. The prizes were won by Miss Jones and Miss McHugh. Mrs. Whittaker assisted the hostess in serving the guests, after cards were concluded.

Mrs. J. J. Doherty, 22 Celebration street, has recovered from her severe illness and is able to be about again.

Mr. and Mrs. Fred Meredith, who have spent the summer at Oak Point, N.B., were the guests of Mr. and Mrs. Frank Martin, Fairville, before returning to their home in Detroit.

It was announced that Miss Marjorie Trotter, Maritime Girls' Work secretary, would address the two groups of C. G. I. T. in Ludlow Street church on Sunday afternoon. Light refreshments were served and music was enjoyed. Taps were sung before the meeting closed.

COUNCIL FIRE IS SCOUT PLAN

Big Gathering of Lads at East Saint John Being Arranged

Other Important Matters Come into at Supper Gathering of Leaders.

As soon as it can be arranged there is to be a big gathering of all the Scouts of the city at a "Council Fire" in East Saint John and as part of a very busy season's programme for Scouts in this district there will be a winter training course for Scoutmasters and leaders and a practical training course for patrol leaders. These three important decisions were made at a meeting of the Scout leaders held last night as a supper gathering at the Mission troop rooms. The ladies' committee of the troop served the supper and were heartily thanked. Roland Frith welcomed the Scouts on behalf of the Mission troop and paid a glowing tribute to the value of Scouting. Dr. G. B. Peat, district commissioner, replied. Hon. B. J. Ritchie, chairman of the Boys' Industrial Home troop committee, spoke of the benefits of Scouting and the progress made by the local organization. He also spoke in favor of total abstinence.

SPLENDID RECORD.
Dr. Peat spoke of the splendid record of the last year, expressing confidence that the work would go ahead to still greater success in the coming year.

Dr. G. G. Corbett spoke of the first aid work done under the auspices of the St. John Ambulance Association and announced that the Scout leaders' team from Saint John, which had come second in the Dominion trophy competition had been only a quarter of one point behind the winning team, the Winnipeg First Aid Brigade. As the Saint John Scouts were entered in the competition for the first time and the winning team had had much experience, it was thought the showing was most remarkably good. The members of the Saint John team received their medallions as runners-up in the Dominion competition and the presentation was made by Dr. Corbett. Those receiving medallions were C. G. Hoyt, Donald W. White, L. G. Pincombe and L. L. Johnson. They were accorded very hearty applause. They each also received a first aid certificate for successfully completing the course of instruction last year. R. E. Adams also received a certificate. Other members of the class entitled to receive them were N. Smith, N. G. Smith and H. B. Wetmore.

CONGRATULATIONS.
E. A. Schofield congratulated the leaders on the great strides Scouting had made. He was heartily thanked for his own interest and assistance in the work.

The assistant district commissioner welcomed the new Scout leader, Arthur Anglin, who is vice-president for Rover Scouts.
Miss Irene Barber, secretary of the St. John Ambulance Association, who has always been a good friend to the Scouts and who had given splendid assistance as coach for the first aid team, was accorded the high distinction of receiving Scout honors.
When plans for the big gathering of Scouts at East Saint John were discussed O. J. Lawson was appointed

LIBERALS OPEN CAMPAIGN AT TWO MEETINGS

Hon. Dr. Foster, R. T. Hayes and Others Make Speeches

FAIRVILLE AND EAST SAINT JOHN RALLIES

Minister Goes Into Questions of Policy and Speaks of Work Here.

The opening guns in the Liberal campaign for the coming Federal election in the constituency of Saint John-Albert were fired last evening when the two candidates, Hon. Dr. W. E. Foster, Secretary of State, and R. T. Hayes, former M. L. A., addressed a meeting in the Community Hall at East Saint John and another one in Temperance Hall, Fairville. Other speakers were also heard.

Owing to the weather conditions the meetings were only fairly well attended. At East Saint John, J. C. Dalzell acted as chairman and besides the candidates, short addresses were given by W. A. Ross and E. J. Henneberry. In Fairville, A. W. Anderson acted as chairman. Dr. W. P. Broderick also spoke at this meeting. Hon. Dr. Foster spoke first in Fairville while Mr. Hayes was speaking in East Saint John. The two candidates then made rapid trips by automobile to enable them each to address the other meeting.

Hon. Dr. Foster in his opening remarks paid a special tribute to the worth of his colleague, Mr. Hayes. He said that this was the first time he had appealed to the voters of the county. He expressed his pleasure at the interest the ladies were showing in the campaign. Referring to Maritime rights, he said that the papers were full of the question and it was being discussed on every side. He thought that the policies of the Liberal party was putting forward would advance the interest of the Maritime Provinces. This question of rights, he pointed out, arose because of the spirit of dissatisfaction that had grown up because of the confederation pact. The policies of the Government today were to right these grievances.

The conditions today were partly caused by the decline of the lumber industry, he said. When Confederation was talked of, he said, and when later Sir John A. Macdonald brought down the National Policy, it was believed that it would help all Canada. It was soon found that while it helped central Canada the Maritime Provinces were far from benefiting from it. Local industries were swallowed up by larger ones in upper Canada and local factories closed. These disappeared and now the Maritime Provinces relied on its basic industries, namely, lumbering, fishing, mining and farming.

MEIGHEN POLICY.
Today Mr. Meighen was determined to raise the tariff still higher and announced his intention of doing so here. The Liberal party, on the other hand, was in favor of reducing the tariff making its use for revenue purposes only and not to protect powerful interests so that the manufacturers could sell their goods just below the cost of goods imported under a high tariff and then place huge profits in their pockets. In 1921, the speaker continued, Hon. Mr. Drayton, Finance Minister in the Meighen Government, gave out that there was an adverse trade balance of \$29,000,000. At that time \$860,000,000 products were exported to the United States and \$860,000,000 imported from

that country. By 1924, under the King Government, he said, the adverse trade balance had been wiped out and a favorable balance created of \$281,000,000. Deposits in the banks had increased and this money was available for further expansion. He felt that prosperity was returning now and the Maritime Provinces would benefit.

THE new, easy way to wax floors is with Johnson's Liquid Wax, applied with a Johnson Wax Mop and polished with a Weighted Brush.

JOHNSON'S POLISHING WAX

Waxed floors, besides being the most beautiful and distinctive, have many practical advantages. Johnson's Liquid Wax is a complete finish and polish for floors of all kinds—wood, linoleum, rubber, tile, marble, etc.

Your linoleum will look more beautiful—clean much easier—and last years longer if you polish it occasionally with Johnson's Liquid Wax. It brings out the pattern and color—protects linoleum from wear and imparts a beautiful, dry, dirt-repellant surface which washes off like a piece of glass. Johnson's Liquid Wax is recommended by all the leading manufacturers of linoleum.

Industry had been materially reduced and the party intended to still further reduce tariff on necessities and secure the revenue from articles classed as luxuries.

Turning to harbor improvements, the speaker said that he had been criticized because he had not spent the money on the west side instead of at Courtney Bay. He said that further facilities were needed to enable the western shipper to be certain that regular steamers would be available on all occasions to handle shipments without delay.

He outlined the work to be done under the order-in-council at Courtney Bay, mentioning the four wharves in the first unit of development with an elevator, sheds, new potato warehouse. He asserted that the \$300,000 voted was to be followed by large additional sums as the money was needed to carry on the work.

WEST INDIES TRADE.

The West Indies trade agreement will mean additional boats operating between these ports and the West Indies, and it is estimated that \$25,000,000 worth of business will result from this section alone. The steamers will take Maritime products to the West Indies and return with tropical fruits, etc. he said.

In concluding the speaker urged the electors to consider whether he as a member of the cabinet assisted by his colleague Mr. Hayes, or members sitting in opposition could do the most for the port at Ottawa, as he was confident that Premier King would be returned to power. He thought that there would be no doubt regarding their answer on Oct. 29.

Dr. W. P. Broderick referred to Fairville as "the Mecca of Liberals," and expressed his pleasure at again addressing the electors there as it was in Fairville he made his initial political speech in 1917. He said that the Conservative party was endeavoring to advocate protection as the cure for the ills of the country, but he asserted that the "golden era" of Canada's history was under the regime of Sir Wilfrid Laurier from 1896 to 1911. The great Liberal leader, he said, went down on the reciprocity issue, an issue which would have meant wonderful benefit for the Maritime Provinces, which in former years had immense markets in United States.

The increase in tariff meant, he said, that the taxes were going up just

the amount that the tariff went up. He said that he was against high tariff although he was not a free trader.

In concluding Dr. Broderick said he would give them the following slogan: "If you desire to 'foster' Maritime rights vote Foster and Hayes."

TELLS OF CAMPAIGN.

R. T. Hayes told of his recent trip through parts of central Canada. In Quebec, he said, Hon. Mr. Meighen was not mentioned in Conservative circles, as he was not very popular, and Mr. Patenaude was running the party. He said that the latter had not come out as a supporter of Mr. Meighen when challenged to state his position, but there was no doubt, the speaker declared, that he would stand shoulder to shoulder with Mr. Meighen after election. In Ontario protection was the big cry heard from the Conservative speakers on every hand.

While high tariff might furnish further employment in a few manu-

facturing centres in central Canada, it would be absolutely no benefit to this section, Mr. Hayes pointed out. It only meant increased cost of living here. While he knew certain industries had to have some protection he was against giving them high protection. In the shoe business, he said, only 3 per cent. of the goods were imported and these largely from Great Britain under the preferential tariff, so he thought there must be plenty of protection without putting up additional barriers as advocated by Mr. Meighen.

In conclusion Mr. Hayes said that in looking for developments here it was nice to have a friend at court and he urged that support be given the party on election day. He said that he was confident that the Liberal Government, if returned, would be able to make living conditions in Canada much better.

The meetings broke up with cheers for the candidates.

SUSPENSION OF ORDER SOUGHT

C. N. R. Cuts Maritimes From Alternative Routing Plan.

Local Board of Trade Asks the Railway Commissioners to Order Restoration.

WORD of the cutting off from the shippers of the Maritime Provinces of an alternative routing which they have enjoyed for many years has just been received by the Board of Trade and they have asked the Board of Railway Commissioners to suspend the order of the C. N. R. abolishing the routing via Saint John and Ste. Rosalie junction to Ontario and Quebec points.

Yesterday a wire was received by F. MacIure Bolanders, Commissioner of the Board of Trade, from F. C. Cornell, the expert engaged by the Maritime Provinces to prepare their case for submission to the Board of Railway Commissioners in the revision of rates hearing, who is now in Ottawa, of action along this line.

At the present time there is a tariff on the C. N. R., No. 035, providing that freight may be shipped under class rate from the Maritime Provinces to points in Ontario and Quebec via Saint John and Rosalie Junction. There has been filed with the Board of Railway Commissioners by the Canadian National Railway a

"HABIT, kept me from a Real Shave."

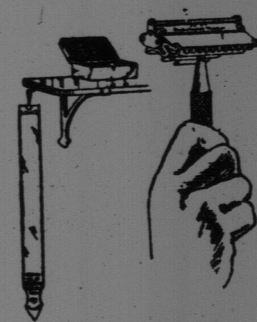

THAT'S what many men confess, once they've learned the advantages of the stropping feature of the Valet AutoStrop Razor.

"I formerly used an ordinary safety razor," many say "but only the first few shaves with a new blade were good. After that it was a choice between a poor shave or a new blade."

Now I give my Valet AutoStrop Razor blade a few strokes on the strop without removing it from the holder, and thus enjoy many perfect shaves from the same blade."

Changing Habits

If you're in a habit rut, why not break loose and find out how superior shaving is so easily attainable? If you'll just switch to a Valet AutoStrop Razor you will never return to old ways, for it is the only razor that automatically sharpens its own blades without removing them.

NEW YORK, Oct. 16.—Tremendous activity on the stock exchange yesterday, but also to the sudden determination of a large outstanding interest to take their losses. This action was probably dictated by the fact that for some days such stocks as G.M.O. and other offerings seemed to diminish in value.

The Operation I Avoided—

MRS. IDA M. COFFMAN

IF there is one thing more than another a woman dreads, it is a surgical operation, and to be told that one is necessary is very disheartening.

Hospitals are grand institutions, and undoubtedly many operations are necessary. However, we have received hundreds of letters from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after an operation had been deemed advisable.

Every woman who suffers as Mrs. Coffman did naturally wishes to avoid an operation if possible, and the remarkable statements which she makes in her letter will be read with interest by women everywhere.

Mrs. Coffman's Letter Follows:

Sidell, Illinois.—"I was a nervous wreck. I was suffering from a pain in my left side which was noticeable at all times, but sometimes it was almost unbearable and I could not even let the bed clothing rest on my body at night. I had been sick for seven years, but not so badly until the last eighteen months, and had become so run-down that I cared for nobody and would rather have died than live. I couldn't do my work without help and the doctor told me that an operation was all there was left for me. I would not consent to that so my husband brought me a bottle of Lydia E. Pinkham's Vegetable Compound and begged me to take it. I have taken fourteen bottles of it and I feel ten years younger. Life is full of hope. I do all my housework and had a large garden this year. I never will be without the Vegetable Compound in the house and when my two little girls reach womanhood I shall advise them to take it."—Mrs. Ida M. Coffman, R. R. No. 2, Sidell, Illinois.

Alberta Woman Avoids an Operation

Provost, Alberta.—"I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I should have an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bony baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

DARTMOUTH A.A.A. WANTS LOWERING OF RESIDENCE CLAUSE BARS

M. P. B. ANNUAL TO DEAL WITH MATTER TODAY

South End League Are Seeking Settlement Of Dispute

A RESOLUTION, sponsored by the Dartmouth A. A. A., declaring for the rescinding of the five-month residence clause for clubs in the amateur union is probably one of the chief items of business coming before the annual meeting of the M. P. B. of the A. A. U. of C. in Halifax today.

DOYLE BOOM ON. Interest also is aroused over the election of officers. It is known that Mr. Miller, present president, is faced with strong opposition and that there has been a quiet but powerful boom on the last few weeks in favor of "Sammy" Doyle, the E. E. I. president.

Those who left last evening for Halifax to represent Saint John clubs include the following: Y. M. C. I., W. E. Stirling, H. J. Adams, C. A. W. Carey, St. Peter's, J. Cleary, St. John the Baptist, Frank Elliott, Y. M. C. A., H. Hutton, South End, I. L. H. W. Stubbins, Water Department, F. Thurston. St. Roses will be represented in Halifax by "Bunker" Murphy, while A. T. Snodgrass, now in Halifax, also will represent the Water Department.

Arrangements have been made to have other Saint John clubs represented at the meeting. Proper credentials will be forwarded. All the business will be completed today.

Harris Resents Ban Johnson's Criticism In Pitching "Big Train"

Along The Sport Trail

NEAR the closing of the sixth game of the world series when it seemed certain a seventh game would be necessary, some enterprising fans left and took their places in line for tickets. They then sold their places to others. On top of this, rain cancelled the game the next day. Can you beat it.

MARITIME sportdom is interested in doings today in Halifax where the annual meeting of the M. P. B. is being held with representatives present from all parts of the eastern provinces.

THERE is quite an exodus of sport officials and talents this week-end. While a dozen or so officials are attending the Halifax meeting, both Trojans and Saint John High are playing rugby in Fredericton. The intermediates should draw well tomorrow.

"OL" SMITH, the hard-boiled catcher for the Pirates, nearly pulled a "boner" in that sixth game by trying to be funny. With Sam Rice on third, Judge stepped back from the plate to listen to a message from the bench. Smith, attempting to be funny and wise at the same time, left his box and walked over to hear what Everett Scott was saying. That left the home plate unprotected and Rice made a sudden move. Traynor and Aldridge yelied themselves horse at Smith. Aldridge running in to cover the plate. Smith didn't get so funny after that one.

ONE of the greatest reversals of form ever shown in the sporting world on this side of the water has been displayed in the last few days by the Pittsburgh Pirates, now the proud champions of the baseball world. Beaten to their knees by the great Walter Johnson with all hope lost and few conceding them a chance, they struggled up first on one foot, then on the other by mighty efforts and finally delivered the blow that conquered their opponents in one of the most dramatic world series games ever played.

For the Pirates of Pittsburgh today are champions of the world once again, after 16 long years, and all of them are stars of magnitude, and of the central planet carrying the grand old name of McKechnie, Pirate chieftain, turned to McInnis and sent him out upon the field before a hostile throng in Washington to claim the title, which was fast slipping from his grasp.

Washington's games were won by pitching; Pittsburgh's by hitting. The bats of the Pirates had been heralded as the most potent in the National game, but Johnson twice made them look like toothpicks. Their holders withdrew from the plate when the tall Kansas shot his fast one across. Two great failures stood out in the series—Roger Peckinpaugh, Washington shortstop, and Stanley Coveleskie, the Senator pitcher, who won three games from Brooklyn as a member of the Cleveland staff in the world series of 1920.

MAX CAREY IS LEADING BATTER FOR BIG SERIES

Veteran Is Followed by J. Harris, Rice, Smith And Traynor

MAX CAREY leads all the batters in the world series by his sensational work at bat yesterday, collecting four hits out of five times up and giving him an average of .458 for the series. "Joe" Harris, the hard-hitting Senator's outfielder, could not keep pace with the veteran and dropped back to .440 for second place.

Table showing batting averages for Washington and Pittsburgh players.

Composite score by innings: Pittsburgh 6 1 7 2 2 4 6 1—25 61 7; Washington 3 5 3 0 8 3 1 2—28 69 9.

Peckinpaugh's homer. But for that bad toss to Harris on Carey's grounder, Peckinpaugh might have been the hero instead of the "goat" of the final game, for in the half of the eighth he had driven the ball over the barrier in front of the scoreboard for a home run that put the Senators into a 7-6 lead.

Peck's starting total of eight errors was the most tragic new record, his string of misplays removing the names of Hans Wagner and Joe Sewell from the record books in this respect. The latter pair each had registered six errors in a single game.

Other new marks follow: Twelve one base hits by Sam Rice, breaking mark of nine set by J. Schilling of Pittsburgh in 1903, and equaled later by four others. Max Carey hit three times by pitcher, setting a new record, also tying record of four hits in a single game set by Tommy Leach in 1903, and equaled later by a dozen others.

With Senators on Bases as They Won Fourth Game

Above: "Muddy" Ruel, Washington catcher, safe at second in the sixth inning of the fourth game of the world's series; and (bottom) Walter Johnson "out by a mile" at second in attempting to stretch a long single into a double in the third inning of the same contest.

walked and Carey was safe on Peck's high throw to second. Thus the bases were filled as Cuyler strode to the plate. Johnson knowing it was the crisis, used every resource at his command. He worked the corners with his fast ball, but the count three and two, Cuyler swung and the ball streaked to far right field. The tumult was at its height as four Pirate runners streaked about the bases. It was only partially stilled as the umpire called Cuyler back to second and Carey to third, ruling the blow a double. Although the ball was not extracted from its tarpaulin resting place and returned to the infield until after Cuyler had cashed over the plate.

Wanderers beat Acadia. WOLFVILLE, N. S., Oct. 16.—The Halifax Wanderers defeated Acadia University, 3 to 0, in an exhibition rugby match played on the University campus here yesterday.

TREMAINE WON. CLEVELAND, Oct. 16.—Carl Tremaine knocked out Benny Gersche in the final round of a ten round bout here last night.

DOUBLE MADE OFF HIM. Morrison, temporarily checking the Senators after relieving Aldridge, was withdrawn for a pinch hitter when Joe Harris had got him for a double and driven in two runs in the fourth. Kremer, back after a day's rest, and Oldham, twirling in the ninth, were the final choices and the most effective ones, permitting only one safe ball, Peck's homer, in a stretch of five innings and holding Washington at bay while the Pirate bats were rampant.

SAYS SENTIMENT PLAYED NO PART IN SELECTION

Washington Manager Considers Criticism Is Reflection on Walter

WASHINGTON, Oct. 16.—Denying that he had pitched Walter Johnson in the final world series game at Pittsburgh yesterday, for "sentimental reasons," Bucky Harris, manager of the Washington Senators, declared on his return here early today, that he considered the criticism of his pitching selection by President Ben Johnson, of the American League, as a "reflection" on the Washington pitcher.

"Sentiment played absolutely no part in my decision to pitch Johnson," Harris declared, in his statement. "He pitched wonderful ball. I regard it as reflection on Walter Johnson to have such a thing said of him. President Johnson's remarks, if his telegram has been correctly quoted, are gratuitous and would have been better left unsaid."

The Washington manager said he had no allbills to offer for the loss of the final game, and the series. "The breaks were somewhat against us," he added. "Our team went down fighting and I feel that we will be in the thick of it next year. We are not dismayed by the defeat."

There is this also to say about Ben Johnson's remarks, if true. If anyone lost the series, it was not Walter Johnson, who really put them in the fight by two magnificent victories. If anyone is looking for a goat, it seems to us that Peck is the man—not Walter Johnson—Sport Ed's note.

Badminton The Saint John Badminton Association which was organized last spring held its first meeting of the season in St. Andrew's church rooms last night with Miss Bessie Dawson, president, in the chair and ten of the city clubs represented. It is hoped to have all the badminton clubs of the city in affiliation with the association, which is aiming to arrange for play between members of the different clubs. The association will have charge of the city tournament later in the season.

ALL COMERS' MATCH. The All Comers' Match in connection with the P. F. R. A. here will be held on the ranges Saturday afternoon at 2 o'clock. It will be shot over 200, 600 and 600 yards. A match open to all caddies in the city will be held at 3 p. m.

MISPLAYS DAMAGING. It was apparent from the start that Johnson faced trouble, but he might have pulled out the game had it not been for the damaging misplays by Peckinpaugh that figured largely in the Pirate offenses of the seventh and eighth innings. Hard and timely hitting with Johnson's bludgeon most prominent gave the Pirates three runs in the third and another in the fifth, but their next big spurt, in the seventh, started when Peck dropped Eddie

One Is Arrested Over Theatre Disturbances

Special Officer Held After Annoyances to Patrons Baffling Police Since Last July At Boston; Over Dozen Injured By Hurling of Scrap Iron, Lead Pipe and Rocks into Audience

Canadian Press Despatch. BOSTON, Mass., Oct. 15.—A chain of uneasy disturbances which since last July have annoyed patrons of a large vaudeville theatre here and which, for the last month, caused performances to be given with lights throughout the house was belatedly brought to an end today.

More than a dozen persons have been injured and police investigators have been baffled by the hurling of pieces of scrap iron, lead pipe and rocks into the audience of the theatre at practically every performance for ten weeks. A number of persons including several women were struck and injured.

Search for the cause which brought as many as 120 investigators into the theatre at one performance, failed for weeks. Yesterday, however, Walter Matthews, for two years a special officer in the theatre, was arrested, and today faced arraignment and examination by aleonists. Two policemen, smuggled behind a grating in the roof of the auditorium, yesterday saw Matthews, who was standing behind an aisle screen which protected him from the sight of those in the balcony, toss a missile over the rail. His arrest followed. Matthews declared he was unable to explain his act. "An irresistible impulse," made him do it, he insisted.

STATIONARY 1926 OCEAN RATES SEEN

Freight Charges Predicted Unchanged by White-Star Line Official.

MONTREAL, Que., Oct. 15.—Ocean freight rates will remain stationary next year, according to the opinion expressed here today by George H. Kidd, operating manager of the White-Star Dominion Line.

Mr. Kidd gave as his reason for this opinion the surplus of certain kinds of ocean tonnage and the fact that any steamship company increasing its rates would be faced with the competition of other lines to whom the present rates are adequate.

There is too much capital made out of this question of rates," said Mr. Kidd. "We found in Liverpool that the fluctuations of price in one article of food in 15 minutes on the Liverpool Exchange is at times greater than the freight rate on that article from Canada to England, so it can be seen that the effect of the rate on the price of the commodity crossing the ocean is comparatively small."

BUCK JONES in GOLD AND THE GIRL

FRIDAY and SATURDAY PRICES: Evening 10c and 25c Sat. Matinee 10c and 15c

Buck Jones, the cowboy pal, the dog, and Silver Buck, the horse—a screen trio hard to beat.

Silver Buck's best scene this time is in a wild chase Jones makes after a runaway wagon-load of gold bullion. His leap from the horse's back to the seat of the wagon is a real thrill. But there are many others featuring fist fights, pistol duels, rescues and captures. For the benefit of the fair sex, it might be added that there are two scenes on a certain rustic bridge where Buck meets the heroine and tells her... well the kind of things a real hero does tell the one woman he loves.

REX BEACH HERE TO BATTLE GOLD

Writer Takes Precautions and Comes to City From Camp

Enjoys Good Woodcock Shooting at Loch Lomond—Talks of Partridge.

Rex Beach, renowned novelist, who arrived in Saint John nearly a week ago to shoot over the woodcock covers of William McIntyre at Loch Lomond, has been in town for a couple of days...

WOODCOCK PLENTIFUL. Speaking of his fortunes with the sub, the writer was quite enthusiastic. He said he was having much good shooting, but while woodcock was plenty in Mr. McIntyre's preserve, partridge was singularly scarce.

Mr. Beach had read with interest the statements in today's paper that samples of New Brunswick partridge were to be sent to United States for scientific investigation into the possible causes of the epidemic, which some hunters say is killing the birds. The birds will be sent away alive.

The lists are now being made up to send to the printer. Any city person whose name is not on will not be able to vote at the election on October 20. PROMISES WELL. Judging from the work already begun in laying out walks and by-paths in Queen Square, West Saint John, the trans-harbor section of the city is going to have a very pretty garden spot, worthy of classification with King Square and Queen Square in the main part of the city. Commissioner Frink is working on this improvement for some time but scant funds available have held the work back.

As Hiram Sees It

MONTREAL—Well, sir, I like to get a bite to eat in one of them big restaurants once in a while. There's so much talk an' clatter in 'o dishes that I kin make as much noise with my soup as I want to. Yisterday it rained an' I hed to git a pair 'o rubbers. I'm glad Hanner packed my mittens an' scarf. I ast the maid to gimme an extra blanket so's I'd be ready for anything. I'm on the eighth floor an' me an' the elevator boys is callin' one another by our first names. Well, sir—this is a great town. There's a tag day once every day—an' beggars on their own account is as thick as fleas. I seen an old woman walk into one of them there taverns where men was sittin' at tables drinkin' beer. She walked round an' stopp'd in front of every one of 'em, but never said a word. Then she come out. One feller give her some change. They git so used to these poor critters that nobody pays any attention to 'em—but they git a livin' somehow.

FAIR WILL NET ABOUT \$10,000

Result for Protestant Orphanage May Even Be \$12,000.

Will Be Used to Reduce Overdraft—Provincial Follow-Up Talked Of.

It is expected the net receipts of the fair held in Saint Andrews Rink in aid of the New Brunswick Protestant Orphan's Home will run between \$10,000 and \$12,000. A closer estimate cannot be given at this time as some of the accounts remain unpaid and considerable money has yet to be handed in for tickets, etc.

The fair ran ten days and was vigorously carried on, chiefly by members of the Orange, Pythian and 'Prentice Boys' bodies as well as ladies' auxiliary branches, notably the L. O. B. A. and the Pythian Sisters, both of which societies exist for altruistic work only. There were many helpers at the fair unattached to fraternal organizations and those who attended to the immediate executive duties were men who had active lives in business circles.

WILL CUT OVERDRAFT.

The special object of the fair this year was to reduce an overdraft of more than \$25,000, being carried by the orphanage because it was stated, in lack of systematic support throughout the province. Four of the Protestant denominations hold special collection Sundays during the year but so far these province-wide efforts have not given the return hoped for. The running expenses of the institution are between \$45,000 and \$60,000 a year and aside from the raising of some investments bequeathed to be used in this way, the orphanage work is carried on by special efforts at money-raising and by voluntary subscriptions.
