FOUR HOMES NEAR FREDERICTON ARE DESTROYED

Fire Causes Ravages in Woodstock Road

Hon. Mr. Tweeddale Better Today — Devcon Elections — Announcement of Fredericton Horse Races With Promise of Long List.

(Special to The Times).
Fredericton, April 19.—Four houses with part of the contents. The owners and occupants were: Joseph G. Gorman, Angus Campbell, William McDonald and Otto Brewer. A fifth dwelling occupied by Mrs. A. Treadwell was threatened. The furniture was removed, but the house did not burn.

The fire originated in the roof of Mr. Campbell's dwelling, but in a manner unknown. A fireman diving from the roof of the house, was seen to place a ladder against the building and descend to the ground. The annual town election is to take place in Devon on Tuesday, but will be a mere formality as the mayor, James Gagnon, was nominated as candidate for alderman in Ward No. 4, has withdrawn to avoid making a contest for one seat alone. The entire former council will be returned by acclamation. The personnel is as follows: Mayor, Gilbert Hord, aldermen, A. J. McEvo, Clarence Brown, Robert Forbes, George W. Ward, H. H. Plummer, W. B. Dayton, R. A. Malloy and E. J. Miles.

Chief Game Warden L. A. Gagnon has returned from Campbellton where three out of six charges of violation of the game act laid by the chief warden were heard before the magistrate. No decision was given in those cases, and the others will be heard later. Chief Warden Gagnon will visit other places in the province this week.

In the George street Baptist parsonage on April 17 William B. Lloyd and Alice C. Day, both of Chipman, were united in marriage by Rev. Z. C. Fairbank. They left by the evening train for Chipman, where they will reside.

Fredericton Races.
The Fredericton Trotting Park Association announces a programme for certain races to be held at the track on June 29 and July 1. Nine classes are listed. The programme as announced by H. O'Neil, secretary, is as follows: 225 trot, 230 trot, 235 trot, 240 trot and pace, 216 trot and pace, 216 trot and pace, 216 trot and pace, free-for-all trot and pace. There will be the largest amount of money ever offered in the maritime provinces for a certain season.

O'Neil has got in touch with a large number of stable hands and the assurance that many will have horses entering next week are those of the Dr. D. McNeill, John A. Hal, 2637, and who has signed his intention of sending his horse to Fredericton, and P. H. Rice of Fort Fairfield, Me., also expected to send his horses here. There will be thirty or forty horses training at the Fredericton track.

The track will be ready next week. Secretary O'Neil has submitted the list of classes to horsemen at Woodstock and is awaiting a reply. Last year the Fredericton Association brought here Adios Guy. This year there may be some surprises along the line.

New Dredge Company.
It is announced here that a company will be formed to operate the dredge at Fredericton, now on Gregory's blocks in St. John and which was bid in on Friday at auction by R. W. McNeil of Fredericton. The new company will chiefly contain Fredericton people, also that of the St. John river.

Mrs. Margaret Kelley, aged seventy-four years, died in Oromocto on Sunday afternoon at her residence. She is survived by one sister, Mrs. John Ward, her nephew, James Ward.

The examination of witnesses in the case of Herbert Adams of Matigouche, Quebec, and Eugene Guilmond of Campbellton, charged with uttering a forged check in this city in February, was continued before Police Magistrate Linerick this morning. Walter E. Vall, clerk at the Queen Hotel, and Daniel Lounsbury, a teller in the local branch of the Bank of Nova Scotia, gave evidence. Both identified the prisoner, Vall as a man who stayed at the hotel and Lounsbury as a man who presented the alleged forged check to be cashed.

France's Wheat Policy.
Paris, April 19.—The government's programme for wheat control provides for price fixing for three years, guaranteeing the producer an adequate return. The government will monopolize the importation of wheat and will retain its right to requisition domestic supplies.

Sniper Leaves Victims Dying In New York Streets

Mysterious Shootings on East Side Puzzle the Police.

New York, April 19.—Three mysterious shootings on the east side during the last twenty-four hours, all apparently the work of an unidentified sniper, are puzzling the police.

Charles Gagin, twenty-six, and Lamento Ordo, twenty-two, were each found dying early on Sunday in streets of the lower east side. Gagin was lying on the sidewalk in Goerick street, with a bullet through his head, and Ordo was in a similar condition in St. Mark's place. Both died without gaining consciousness.

Patrick Hayes, thirty-two, was found lying in First Avenue, near 77th Street. He was taken to a hospital where his condition is reported as serious.

They must have their passports.

Canadians Going to Europe via New York Otherwise Inconvenient.

New York, April 19.—Many Canadians travelling to Europe through this port have been experiencing difficulty in connection with passports. This has been due to ignorance of the passport regulations on the part of the travellers and the officials here, who have been unable to do anything to help them.

The passport office at New York has issued a circular letter to the consular offices in Canada, advising them that the passport regulations have been changed.

Recently a great many Canadian soldiers bound for the old country, have been arriving in New York from Canada at points other than those where their discharge certificates would be accepted in lieu of a passport.

Russian Reds Said to Have Promised Turkish and German Conspirators 200,000 Troops — Turks Report Check for Franks in Asia Minor.

Washington, April 19.—(By the Associated Press)—Talaat Pasha and Djemal Pasha, co-conspirators with Mustafa Kemal in the Turkish Nationalist movement, and fugitives for many months, have turned up in Munich and have been in conference with German Communists and emissaries of Lenin, according to official advices received in Washington.

The conference was said to have been for the purpose of organizing concerted revolutionary movements in Turkey, India, Egypt, Persia and elsewhere, and Moslem delegates from India, Persia, Azerbaijan, Afghanistan and Egypt were said also to have participated in a recent conference with Lenin in Moscow.

As Hiram Sees It

"Hiram," said the Times reporter, "all that a man is, is a result of what he eats."
"But they don't all eat the same thing," said Hiram.
"I mean food in general," said the reporter. "All kinds of food. We eat to live. If we did not eat we would not live."
"Well," said Hiram, "hes somebody been saying about it? I don't know about it? I mind one feller fatted for days—they eats the good things, then he feed a canary—but I guess you kin say in a general way we do live to eat."
"Having established a principle," said the reporter, "let us proceed to develop our argument. It is necessary to have cooks."
"We could spare some of 'em," said Hiram. "Now I got some of 'em, but they don't hev no taste or tasted like swill. Your point may be well taken," said the reporter. "It does not alter the main fact. We must have cooks. No sooner had man discovered that he was a man, and not a chimpanzee, than he also discovered that to remain a man he must abandon raw meat and roots and get himself a cook, leaving the nuts and berries to his poor relations who still live in the woods."
"The body of a baby boy, apparently only a week or so old, was kicked by a horse yesterday, occurred at three o'clock this morning. He was six years of age and lives one sister at home and another brother, Daniel, who is a student at the University of Toronto. The body was left in the street, and is still lying there. The water in the street was very high. Unless another rain follows, no damage is likely to be done."

R. W. E. Burnaby, president of the United Farmers of Ontario, who was nominated at Newmarket, Ont., by that body to contest the federal seat of North York against Hon. Mackenzie King.

The water in the street was very high. Unless another rain follows, no damage is likely to be done.

HAVE TO WORK FAST TO GET IT DONE THIS WEEK

(Special to Times).
Fredericton, April 19.—As the legislature enters upon the sixth full week of the session, not counting the two days devoted to opening the chief topic of conversation around the lobbies is the question whether this week will be the last or whether the business will stretch over into another week. The business which has been submitted to the house has been brought pretty well up to date, but there still is a large amount to be dealt with. If the house completes consideration of the bills now awaiting attention and those still to be introduced by the end of this week it will be accomplished only as a result of strenuous effort and marked restraint in debate.

Half Foot of Snow and Wind at 42 Miles an Hour — Reports of Severity Come From United States.

The snowfall, yesterday and last night registered half a foot and the wind reached a velocity of forty-two miles an hour in the city, the tram service was maintained with great difficulty, while throughout the province telephone and telegraph service was considerably hampered.

Despite the strong winds no reports of any serious damage have been received, although it is believed that the shore fishermen suffered some loss of gear. COMMON COUNCIL IN OVERALLS

This Is Suggestion of Commissioner Jones to Combat H. C. of L.—Mr. Fisher Demurs.

The adoption of the use of overalls to combat the ever-increasing prices of wearing apparel and to help reduce the high cost of appealing to public, was referred to by Commissioner Jones in the committee meeting of the common council this morning. People in cities and towns in Canada and the United States had taken up the overall vogue, he said, and it was possible to refer to it as the "overall" craze. He suggested that the common council might very well consider the matter, and expressed keen anticipation in the prospect of seeing Commissioner Fisher arrayed in the new fashion.

A THOUGHT FOR THIS WEEK.

The question of the St. John voter should turn over in his mind this week is not whether he can favor a friend or enemy in his opinion most likely to administer civic departments with ability and success. Other things being equal, he would naturally support a personal friend—

and that they may be placed in a position that will enable their city to be represented in athletic games here and elsewhere. All the organizations in the Playgrounds Association having to do with athletic games and sports are affiliated with the Amateur Athletic Union, and their representatives may aspire to compete not only at home but abroad, even at the Olympic itself.

The session of parliament is wearing on. St. John still waits to learn what is to be done to ensure better conditions for handling steamship traffic at this port next winter. The matter must not drop out of sight. There is too much at stake.

THE WATER POWERS.

The prospect of the development of the power at Grand Falls opens up a new vista before the people of the St. John valley. That power may be made of incalculable benefit to industries and farmers alike. The like is true in a more limited sense in regard to lesser water powers all over the province. The hydro-electric has transformed Ontario, New Brunswick, it is a source of the deepest satisfaction that there is in power a government which places public welfare ahead of corporate greed, and that the inauguration of deals which will not be sullied by deals which are not in the public interest. Private enterprise deserves to be aided and encouraged in a legitimate way, but the interest of the people in the development of the greatest of all public utilities the present time is the first consideration. This province is emerging from a condition in which its elected representatives thought more of party gain than of public welfare to one in which it is to be for the people's good. Enterprises which are legitimate and honest will not suffer, but those in authority must keep an ever watchful eye. Premier Foster, in the matter of the water powers near St. John that may be developed, has taken a firm stand; and by that action has aroused new hopes in relation to the industrial future of this city.

GET INTO THE GAME.

It has taken a dozen years to overcome the lethargy that had fallen upon this community in regard to playgrounds for the children. The first real step in advance was taken when the money raised by subscription by the Times and Telegraph, including some contributions from citizens of Montreal, enabled the playgrounds committee of the Women's Council, with the late Miss Mabel Peters at its head, to establish a few supervised playgrounds for small children in school yards. Even this development was not regarded with much favor by the school board of that day. About the same time the Every Day Club leased the old athletic grounds beyond the Marsh Bridge, rebuilt the fence and the grand stand, remade the running track, levelled the diamond, provided swings, slide and other apparatus at one end for children, and encouraged both baseball and athletics. When its lease expired the ground could have been bought for a song, but the city council of that day said the city owned too much land, and the chance to get a perpetual playground there was lost. Volunteer effort provided another diamond near the end of Hanover street, but that was later converted into a shipyard. Meanwhile a Playgrounds Association had been organized. The city gave an annual grant to aid in its work. Mr. Walter C. Allison, at a cost of over \$3,000, equipped a ground for small children in the south end, and presented it to the Association. But there was still no athletic field. Within the last three years something has been done, with civic assistance, to provide neighborhood playgrounds in the south, west and east ends. None of them, however, is as yet well equipped, and there is no ground at all in the north end. During the last few months the Playgrounds Association has been enlarged to represent every organization in the city interested in outdoor sports. It is about to seek incorporation. The extent of its usefulness to the community is limited only by the enthusiasm of its members and the opportunity given it to carry on its work. It is at this critical moment, when the council seeks to provide a real recreation field, that one member rises to say: "I forbid."

SUFFERING GERMANY.

The Huns are shot to pieces, the telegrams declare; things are not slick as grease is disorder's everywhere; the peasant and patrician are both in sad condition; they're eating ammunition, there is no grain to spare. No useful wheels are turning, the church bells do not ring; no smelly fumes are burning, no workmen's hammers swing; but gloom is all-prevailing, and wrath and litter walling; men are so busy railing they do not smile and sing. I ought to view with sorrow the troubles of the Hun, and say I hope tomorrow will see his anguish gone; and yet I see him sweating without a great regretting; he earned what he is getting, earned trouble by the ton. Had he but shown repentance for anything, might compose a ditty of condolence and pity, more generous than twenty, but as things are—O, what! The Hun has been so sassy, he thinks himself so smart, he thinks himself so classy, and greater-thought, that it is hard to view him with sympathy, beshrew him! so let his woes pursue him until his change of heart.

Domestic Happenings of Other Days

THE MARCH OF THE 104TH

One of the finest marches, made under the most trying circumstances possible, was made during the winter of 1918 when a regiment of British troops, the 104th, was sent to the front in the north of France. The march was made in full marching order and at the stormiest period of the winter. In twenty-seven days, with 1,000 men and forty-two officers, the battalion marched across the ice into the barracks at Quebec. It had not a pair of snowshoes and moccasins. There was a delay of three days at Lake Umbagog, where a severe blizzard prevented the march. The march was made in full marching order and at the stormiest period of the winter. LIGHTER VEIN.

It was bright and early when Simpson entered the office, and he found waiting by his desk. "Good morning, sir," quoth Simpson in tones he hoped sounded blither than he felt. "Morning," snapped the boss. "Where were you yesterday?" "I had to attend the funeral of an aunt, sir," replied Simpson. "I had to attend the funeral of an aunt, sir," replied Simpson. Runs for Ruth.

Mr. Andrews, the newly elected city clerk of Terre Haute, is active in Sunday school work. Last Sunday he advised the children of his class that the morning study would be about Ruth, referring, of course, to the glaucous "Now," said Andrews, after introducing the subject, "who can tell me anything about Ruth?" "Up went a little hand in the rear of the class. "Well, Willie," asked the teacher, "what do you know about Ruth?" "He made twenty-nine home runs last season," was the answer.—Indianapolis News.

EMPLOYMENT IN CANADA BETTER

Report for March Shows Improvement—Less Loss of Time Due to Strikes. Ottawa, April 18—The employment situation in Canada is improving, according to figures published in the Labour Gazette for April. The employment service connected with the Department of Labour placed 34,400 people in employment during March, and received 41,700 applications for employment. The department was notified of 28,200 vacancies. All these figures represent an increase over the previous month and the previous year. There was a steady increase in employment in all provinces except the prairies, where a decline was reported. There was less loss of time due to strikes in March. Twenty-two strikes were reported, involving 42,738 people. Sixteen strikes remained unsettled at the end of the month. Reports were received from five conciliation boards and applications were received for five more. Two boards were appointed in addition to those on applications received previously.

COST MORE TO LIVE LAST MONTH THAN IT DID IN FEBRUARY

Ottawa, April 18—Prices of commodities of life continued their steady march upward in the last month, increases being recorded in the cost of living branch of the Department of Labour in the prices of all commodities of general consumption except for a seasonable decrease in the price of eggs, butter and milk. Sugar advanced two cents a pound and potatoes thirty cents a bag. An average family budget in sixty cities the dominion is compiled by the department at \$13.98 for March, as compared with \$13.77 in February, \$13.07 in March, 1919. A sharp increase in the prices of building materials and metals is noted.

HERRERA WINS IN GUATEMALA

President Cabrera Has Capitulated—New Government is Announced. Guatemala City, April 18—President Cabrera has capitulated to the revolutionary forces of Carlos Herrera after the latter had enveloped his stronghold of La Palma. The president agreed to surrender himself yesterday, the revolutionists guaranteeing his personal safety and also retention of all the property legally obtained by him. The capitulation of Cabrera followed intermittent fighting which began on April 6. A new government was announced yesterday with Herrera as president and ministers who are prominent men and are said to enjoy the confidence of the country. Perfect order is reported throughout Guatemala's.

Cleans Thoroughly—Polishes Brilliantly

THE remarkable, beautiful effect obtained from the O-Cedar treatment, is due to the fact that O-Cedar "cleans as it polishes."

It is important that all dust and grime be removed from any surface, in order to give it its lustre which is something more than a mere surface polish.

This O-Cedar accomplishes. A few drops of O-Cedar on a wet cloth will form a soft lather that removes all accumulated dirt.

The final operation consists of a brisk rub with a dry cloth. The result is all that could be desired—a hard, dry lustre on furniture and floors; a dazzling radiance on your automobile.

O-Cedar Polish, 25c. and 50c. a bottle; \$1.25 and \$3.00 a can.
 O-Cedar Polish Mop, without handle, \$1.50. The handle, 54 inches long, is 25c. extra.

GOOD MUSIC IN CARLETON CHURCH

Features of the Services on Sunday—Address by Duncan McIntosh. The music at the services in the Ludlow street Baptist church, West End, was especially good yesterday. At the morning service E. Clyde Parsons was heard, the Lost Chord. At the evening service J. G. Stenhouse, with his very best voice, rendered the solo 'Hail, Thou My Hand, Dear Lord, and There's a Beautiful Land on High.' Duncan McIntosh sang very feelingly 'The Old Scotch Hymn, My Ain Country.' The church was filled to capacity. The organist was Hiss M. E. Mullin, church organist, a feature of the services. At the close of the evening service was attended by nearly 300 people, and several were turned away. R. H. Parsons was the leader, and the singing was a very high order. These 'sing-songs' are a feature of the evening, and a special talk by Duncan McIntosh, in which he graphically related the sinking of the steamship Titanic, closing with the story of the singing of 'Nearer My God to Thee,' which all present sang with great heartiness. At the conclusion of the service Mr. McIntosh recited a poem of his own composition, The Leading Light, asking that it be set to music and called Ludlow Street, as Ludlow street church was proving a leading light. Mr. McIntosh is a highland Scotchman, a gifted speaker, a singer and a poet of more than usual ability, and has made many friends in this city. This is his last year here this winter. He is chief steward of the steamship Prefecton, which will sail on Tuesday. These 'sing-songs' are proving very popular among west-enders.

N. Y. Elevator Strike.

New York, April 18—Striking elevator men and their unions have organized "hitting squadrons" of 3,500 strikers to force forty-five captains to canvas the city by the Battery to 90th street to induce non-union elevator men to join the union and leave their posts.

The strikers say that about 1,500 operators had returned to work after having been granted the union's demands.

FAINT AND DIZZY SPELLS

Weakness And Shortness of Breath

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking all-gone feeling, choking sensation, etc.

Many men and women become faint, pale and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ontario, writes: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When waking too early I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know you have helped me wonderfully and I have improved very much."

Price 50c a box at all druggists or mail order direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

PRESERVATION BY GLASS.

In Morrell's garage on Saturday evening Mr. Mats, vocational instructor in motor mechanics was presented with a handsome rocking chair by Charles Brennan, on behalf of "C" class, with their hearty thanks for his efficient and painstaking instruction. Mr. Mats, who has been taken wholly by surprise, very fittingly responded, giving the pupils much encouragement in their past work and hoping they would have the opportunity to follow it during another year in an advanced class.

Inflammatory Rheumatism Cured by B.B.B.

Rheumatism is a constitutional disease, caused by the uric acid in the blood. It manifests itself by pain and lameness attacking the muscles and joints of the body, which often swell and become hot and inflamed.

Anyone who has suffered month after month, and perhaps year after year with rheumatism, and who has been remoted after remedy in the hope of relief, and without success, should not give up hope.

Burdock Blood Bitters, by invigorating the digestive organs and eliminating the uric acid from the system, will give prompt and permanent relief.

Mrs. D. Barry, Fairbrook, Ont., writes: "I feel it my duty to let you know how much I have benefited my husband's rheumatism by using your Burdock Blood Bitters. He had been suffering for the past two years with inflammatory rheumatism. He tried many medicines but got no better. A friend advised him to take B. B. B. He did so, and in one week his feet felt like a new man, and was able to go to work the same as ever."

Burdock Blood Bitters has been on the market for over 40 years. Manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

Flush the Kidneys at Once When Backache or Bladder Bothers—Meat Forms Uric Acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jod Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jod Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

THE "OVERALLS" WEARING IDEA WINS RECRUITS

Started by Insurance Man in Tampa, Florida

Calicoes and Gingham for Women as Protest Against High Cost of Clothing — Views of One Merchant on Situation.

Tampa, Fla., April 18.—Whether the wearing of overalls and calico instead of blue serge, native Palm beaches, homespun, voiles and other expensive clothing will bring down the high cost of dressing is an experiment first started here and now spreading throughout the United States and characterized as "the Tampa idea." Mayors of cities, judges, bankers, doctors, lawyers, business men and others from Maine to California joined "overall clubs" and appeared in public in blue and khaki denim as a protest against the high cost of clothing. Many women joined the crusade by wearing gingham and calico gowns.

The new style movement, its originators say, is dictated in the spirit of public duty and necessity and does not indicate any lessening of desire on the part of either men or women for good and stylish apparel. They think, however, that it is worth while to try to popularize overalls for men and calicoes and gingham for women and it is no secret that the feminine experimenters are still looking for the return of silks, satins, organdies and the like to the limitations of their purses.

So it came about that Hafford Jones, secretary of an insurance company, started the Overall Club of Tampa. Each member pledged to wear overalls as a regular thing until clothing prices tumbled. Hundreds have joined and many are making good. Others say they are keeping the pledge just as faithfully by taking advantage of the clause which allows them to wear old clothes in lieu of overalls—just so they don't buy any new stuff.

When the men organized the women took up the battle, the New Thought and Unity Club, headed by Mrs. Clara Lawton Metcalf, pledging its membership to calico dresses. All of this had its first public demonstration on Easter Sunday.

Men and women, correctly garbed to harmonize with the new idea, gathered in the court house square. Addresses were made, new pledges received, and petitions signed asking city, state and national officials to take notice and give aid. Merchants looked on and frowned, and later announced that their sales had not fallen off a bit. They are not the only ones who smile knowingly at the movement and predict that just as the foregoing of the luscious porthouse steak and choice rib roasts increased the

cost of brisket, chicken and rump, the abandonment of beautiful silks and all wool garments will raise the cost of denims and calicoes.

"This overalls business is only a fool joke," says one of the principal clothiers. "Just so long as folks who work for wages demand \$15 silk shirts, \$3 silk neckties and \$2.50 silk socks, they will get them. And while they're buying that sort of stuff you may lay your heaviest bet on their also buying the best suits of clothing the market affords."

The overall club, however, insists that the war has only begun and that they'll stick it out and are gaining recruits in bunches.

The movement is being taken up all over the state. Clubs have been organized at Jacksonville, Lakeland, Centre Hill and other places. If someone would come along with a cartload of sabots the folks might buy and taken revenge on the boot-sellers.

A part of the Easter Sunday programme was for the denims and calicoes to pair off and go to church. Only a few couples had the nerve to stick it out and they presented odd Darby and Joan contrast to besikened and befeathered women and tailor-moulded men.

ALFRED H. EMERSON, owner of big stock farm, who says Tanlac built him right up after having a bad case of Flu, which left him in awful bad shape. Says Tanlac is only medicine that helped him.

"I have taken only one bottle of Tanlac, but it has done me more good than all the other medicines I have taken put together," said A. H. Emerson, when he called at Guppy's Drug Store, Portland, Me., the other day. Mr. Emerson lives near West Scarborough, Me., where he owns and operates one of the largest stock farms in that section of the country.

"After I got up from the flu last winter I was in mighty bad shape," he continued. "I was not only in a weakened, debilitated condition, but I also suffered awfully with indigestion. My stomach was so weak I could hardly digest anything and could hardly bear the sight of food, much less eat anything. As I was not able to eat nourishing food I kept getting worse and worse and I was badly discouraged over my condition as it looked like I would never get my strength back again. My nerves were all upset and my sleep was broken and irregular. I felt tired and worn-out from morning until night and could hardly drag one foot after the other."

"I took many different kinds of medicine but nothing did me a particle of good until I began taking Tanlac. As I said before, I have taken only one bottle, but it has made such a remarkable change in my condition I feel like a different person altogether. My appetite is splendid now and I can eat anything I want and as much as I want without the slightest touch of indigestion. My strength and energy have returned. I sleep sound and get up in the mornings feeling ready for a big day's work. Tanlac has put me back on my feet and everybody certainly ought to know about this medicine."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro and by the leading druggist in every town. —(Adv't.)

A LONG LIFE, GOOD HEALTH AND VITALITY

Is the Birthright of Men and Women

It All Depends Upon Good Blood and a Normal Healthy Circulation.

Men and women who are anemic, thin, pallid, all run-down, depleted, no energy, no strength and no vitality, miss all the joy of life—are prone to disease, and a burden to themselves and families, and their lives are shortened by this condition.

Here is a guaranteed non-secret remedy, and if you have drifted into this condition, why not take advantage of your druggist's guarantee and give VINOL a good trial.

You will certainly find that in a very short time your appetite will improve—it will enrich your blood, quicken your circulation, and strength and vigor will be imparted to every organ and muscle in your body and the bloom of health will return and life be worth living.

The reason physicians recommend VINOL is because they know it contains iron in its most easily assimilated form, together with the tissue, flesh and strength-building elements of cod liver and beef peptones, and glycerophosphates, which are recognized as the best blood and body building tonics known.

Wonder House Sold. Chertsey, Eng., April 18.—Miss Dora Schintze, an American woman, has bought the Ottershaw Park "wonder" house. It was built by F. Eckstein, the South African magnate, 500 men being engaged on it for a year. The interior work and the garden with its terraces are most elaborate, and an under-ground swimming bath and a big aviary are among the features of the place.

DON'T ROCK THE BOAT (Toronto Globe)

In 1919, "Peace Year," Canada made a new record for strikes and labor disputes. Including eight carrier over from 1918, there were 298 strikes and lock-outs, involving 138,988 employes and aggregate loss of 3,942,189 working days. Of the strikes, 157 terminated in favor of the employers and 84 for the employes, 23 being ended by compromise settlements, and 30 were put in the "indefinite" column.

The mere recital of the figures is the strongest plea for compromise of industrial disputes that could be made, plover or employe alike the record of says Samuel Gompers in a statement applicable to some employers. The grave and perplexing problems confronting them as executives are pressing the worker as an individual. To him they are as important as are the larger issues to the employer. Team-play is the solution.

ACTIVE SEASON FOR N. S. YACHTS

Meeting of Royal Squadron in Halifax—New Members—Schedule of Races.

(Halifax Echo)

The Royal Nova Scotia Yacht Squadron gathered last night for the April meeting and drew up plans for an active and interesting season. Through the kindness of the Lorne Club the meeting was held in their commodious quarters in Barrington street. Upwards of sixty were in attendance, Commodore DeWolf occupying the chair. The routine business included the passing of the estimates and the reports of various committees.

Perhaps the most interesting feature was the programme of the sailing committee which presented the fixtures for the coming season. The committee consists of Rear Commodore Rouse (chairman), Dr. Lessel P. L. Zwicker, John E. Wood, A. W. Weston and E. H. McMath. An extensive series of races was planned. The opening races will be held on June 12 and the season will extend until Sept. 4. The yachts are divided into four classes, the large class including the Gen and the Windward, the R and S class—a miscellaneous class of smaller yachts, and the one-design class. There are two races to Bedford included in the schedule in which all the yachts of the squadron will participate. The first sail to Chester about the first week in August where the Coronation Cup races will be contested. It is A. Corbett has presented three cups to the squadron which will be competed for by three classes of yachts, and will be awarded on the best showing made by the winning yacht in each class. It is planned to have at least one day's racing started from the mouth of the North West Arm.

The matter of a sub-station on the Arna has been the subject of investigation by a special committee. They were not able to report any definite conclusion to their negotiations and were empowered to carry on their work and report to a special meeting later in the season. The present facilities of the squadron at Green Bank will be improved, and used pending the permanent location being obtained at the breakwater.

The squadron is planning to entertain more extensively this season and will hold a ball at the Auditorium on Friday evening, April 23. This promises to be a unique affair as the squadron has not held a function of this kind for many years. It is probable that the old-fashioned squadron sups at the boat house will be revived this season.

It was announced that twenty-four new members had joined the club during the last two months. The boat house is now open and some yachts will take the water before the end of the month.

Schedule of yacht squadron races for season 1920:
June 12—Opening race. All yachts.
June 19—Royal Engineer's Cup. Yachts of regular club.
June 19—Squadron prizes. One design class.
June 26—Gen No. 1 Cup. Q class and over.

THEFT CASES AND OTHERS IN POLICE COURT

In the police court this morning Charles Ritchie, Thomas Connell and Albert Connell were charged with breaking and entering and stealing from the house of L. R. Ross, 540 St. John street, and also with attacking the caretaker, Neil Donovan, who, it is said, received hard usage. No evidence was given this morning as the detectives are working on the case and the accused were remanded. About 8:30 last evening the detective received a telephone message from Mrs. James Peacock stating that a crowd of ruffians were beating and robbing John Donovan. Detective Biddiscombe and Donahue summoned the police patrol and hurried to the scene. Detective Biddiscombe came upon Charles Ritchie in the bushes. He had a suit case filled with cigars, tools and other articles which, it is said, was the property of Mr. Ross. Later they met a team coming along with Thomas and Albert Connell driving Mr. Donovan's horse and carriage. These men resisted arrest and Detective Biddiscombe was forced to knock one of them out. William Lacey was charged with breaking and entering and setting fire to the house of Mrs. Lacey, Gernab street. Sergeant Sullivan said that the man had put a pile of paper on the floor and saturated it with kerosene oil and then set fire to it. The occupants succeeded in escaping but one old gentleman was forced to get out through a window. Sergeant Sullivan arrested Lacey. The damage done to the house and store amounted to \$1,000 and there was little insurance. Sergeant Sullivan said that he took this man to the asylum about ten or twelve years ago and that recently Mrs. Lacey had urged the authorities to keep the man confined. He was ordered to be sent back to the Provincial Hospital.

Clarence B. Whipple was charged with breaking and entering the house of James B. Kaye, West St. John, on Monday night last. Mr. Kaye told of going into his house Tuesday morning and finding his trunk open and his cash box opened. Fortunately there was nothing in it to take at the time. A son of Mr. Kaye told of returning on Monday evening and finding the house open. He said he noticed the accused standing in front of the house. He said he got Mr. Maxwell to go in with him but no person was in sight. The case was postponed.

William Kennedy and Jeremiah Wilson were arrested by Policeman Spinnery last night charged with being drunk and creating a disturbance in Mill street. They were each fined \$38.

A case against Alfred Foster, charged with breaking into a shed and stealing dry goods valued at \$400 from Thomas French, was taken up, and Detective Biddiscombe told of recovering some of the goods from the house of Mrs. Tucker in Brussels street, and also from the house of the accused in Middle street. Four men, charged with drunkenness, were remanded.

CLEANING UP FOR THE NEW COUNCIL

Several Outstanding Matters to Be Disposed of at City Hall — The Chauffeurs' Wages — Preparing for Paving—Objection to Polling Booths.

Arrangements for the cleaning up of outstanding matters in connection with the work of the common council in preparation for the handing over of the reins of office to the incoming council, were made at a committee meeting this morning. The mayor and all the commissioners were present, with the exception of Commissioner Bullock, who had been called to East St. John on city business.

Among the matters mentioned which it was decided to leave over until Thursday's meeting were the procuring of a set of plans for the use of the board of assessors and the matter of the tax appeal of Armour & Co.

In response to a letter from W. H. Porter regarding a line between his property and that of the city at Lake Robertson, a communication from G. G. Murdoch was read upholding the line which he had run in a recent survey of those lands for the city. The letter was ordered filed.

Commissioner Jones asked for authority to call for tenders for excavation and backfill for service pipes in Douglas avenue and City road. He said he would like to get this work done before paving was commenced and favored so doing if tender.

Mr. Fisher opposed the calling for tenders, saying that it was his experience that work of this description could be done more satisfactorily and at less expense by the city workmen. He said that as a rule when the work was done by contract the specifications are not carried out, whereas the city workmen could be prevailed upon to restore the surface in a proper manner.

Mr. Fisher said that the water department did not save the surface on the work done last year and the public works department was unable to restore the surface as it was. The authority asked for was given, Commissioner Fisher dissenting.

Commissioner Jones moved that authority be given to fit a dump body with a hoist to the C. M. truck of the department at a cost not to exceed \$400. Carried.

Mr. Fisher brought up the matter of increases to members of the teamsters' and chauffeurs' Union and moved that the chauffeurs in the Public Works Department be paid the union rate, \$416-2-8 a day from April 5. Carried.

In response to a request from the Commercial Club the common clerk was instructed to submit to the club the city's policy with regard to the establishment of new industries.

Mr. Thornton asked the common clerk if it would be necessary for returned soldiers who obtained certificates for the primary election to go through the same procedure for the final. The common clerk promised to obtain the necessary information from the recorder.

Mr. Fisher asked if care was taken to ascertain residence of applicants, and it was said as the discharge papers did not always show this, it was impossible to get this information with any degree of certainty.

Mr. Thornton said that now that the women were getting the franchise, more care should be taken in providing proper polling booths. He said some ladies declared that they would not vote again under the same circumstances as in the primaries.

It was explained that there was great difficulty in getting the proper polling places.

It was decided to leave to the common clerk the matter of opening a place in Carleton for the issuing of certificates to returned soldiers.

BISHOP AWAY

No Further Appointments Until Return From Rome Three Months Hence.

A large number gathered in the cathedral on Saturday at 10 o'clock for Solemn Benediction of the Most Blessed Sacrament prior to the departure of His Lordship Bishop LeBlanc for Rome. His Lordship officiated with Rev. W. M. Duke as deacon, Rev. W. L. Moore subdeacon, and Rev. Simon Gram as the sanctuary. Bishop LeBlanc, before imparting his blessings, spoke briefly, expressing his thanks to the people for the large assemblage, asking for their prayers and saying they would be in his prayers while he was away. Again at the depot there was a gathering to see His Lordship away on the train for New York, whence he will sail tomorrow on the steamship Patria for Rome. Cardinal Begin of Quebec will also be a passenger. The first stop will be at Gibraltar.

Bishop LeBlanc will be home in about three months. He said just before leaving that there would be no further appointments of priests in the diocese until his return.

Rev. Raymond McCarthy is at Milltown at present. Rev. A. P. Allan officiated at services in St. Rose's church, Fairville, yesterday, owing to the illness of Rev. Charles Collins, the pastor. Friends will be pleased to know that Father Collins is not seriously ill, and is much improved today. Rev. Simon Gram officiated in Holy Trinity church, and Father Robichaud of Moncton and Father Landry of Memramcook assisted at the cathedral.
