DEAR SIRS,—I suffered with constipa-tion and headache, and got a bottle of B. B. B. on trial, and found it did me so much good that I got several bottles, and it proved a sure cure. Mrs. ROBERT TAYLOR, Shipka P. O., Ont New York City experienced the coldest weather of the winter on Friday last. Gored by a Cow.

A fine colt belonging to Mr. Peter Lindsay, of Nixon, Out., was badly hooked by a cow. Two bottles of Hagyard's Yellow Oil cured it. This invaluable remedy should be in every house. THE testimony as to the merits of Burdock Blood Bitters is overwhelming and admits of no dispute. It is the best blood purifier extant. Its action on the stomach, liver, kidneys, and bowels is perfect. It cures dyspepsis, constipation, bad blood, billiousness, sick headache, and all skin diseases

Six people were killed and seventee injured in the Lake Shore smash on Thurs day night last.

"Take this, porter."

In the Pullman car of the westward bound express, half way across the continent, two passengers were gazing listlessly out over the wintry landscape. It was a bitter morning in February. North and south the treeless prairie rolled away in successive ridge and depression. The snow lay deep in the dry ravines and streaked the sea like surface with jagged lines of foam, between which lay broad spaces clean swept by the gale. Heavy masses of cloud, dark and forbidding, draped the sky from zenith to horizon, and the air was thick with spiteful gusts and spits of snow, crackling against the window panes, making fierce dashes every time a car door was hurriedly opened, and driving about the platforms like a myriad swarm of fleecy and ag-gressive gnats raging for battle. Every now and then, responsive to some wilder blast, a blinding white cloud came whirl-

ing from the depths of the nearest gully and breaking like spray over the snow fence along the line. Not a sign of life was visible. The tiny mounds in the villages of the prairie dogs seemed blocked and frozen; even the trusty sentinel had "deserted post" and huddled with his fellows for warmth and shelter in the bowels of the earth. Fluttering owl and skulking coyote, too, had vanished from the face of nature. Timid antelope—fleetest coursers of the prairie—and stolid horned cattle had gone, none knew whither; nor cared to know until the "blizzard" had subsided. Two heavy engines fought their way, panting, into the very teeth of the gale and slowly wound the long train after them upgrade among the footbills of the great. The bold glances of the four card playwarmth and shelter in the bowels of the grade among the foothills of the great plateau of the Rockies. Once in a while, when stopping for a moment at some group of brown painted sheds and earth battened shanties, the wind moaned brake chains beneath the car, and made such mournful noise that it was a relief to start once more and lose sound of its wailing in the general rumble. As for the scenery, only as a picture of shiver provoking monotony and desolation would one care to take a second look. And yet, some miles ahead, striving hard to reach the railway in time to in-

tercept this very train, a small battalion of cavalry was struggling through the blasts, officers and men afoot and drag-ging their own benumbed limbs and half benumbed chargers through the drifts that lay deep at the bottom of every "coulee." Some few soldiers remained in saddle; they were too frozen to walk at all. Some few fell behind, and would have thrown themselves flat upon the prairie in the lethargy that is but premonition of death by freezing. Like menhalf deadened by morphine, their rescue depended on heroic measures, humane in their seeming brutality. Officers who at approaches. She had good and sufficient

deadened by morphine, their rescue depended on heroic measures, humane in their seeming brutality. Officers who at other times were all gentleness now fell upon the hapless stragglers with kicks and blows. As the train drew up at the platform of a station in mid-prairie, a horseman enveloped in fur and frost and steam from his panting steed reined up beside the leading engine and shouted to the occupants of the cab:

"For God's sake hold on a few minutes. We've got a dozen frozen menwith us we must send on to Fort Warrener." And the train was held.

Meantime, those far to the rear in the sleeper knew nothing of what was going on ahead. The car was warm and comfortable, and most of its occupants were apparently appreciative of its shelter and coziness in contrast with the cheerless scene without. A motherly looking woman had produced her knitting, and was blithely clicking away at her needles, while her enterprising son, a youth of four summers and undaunted confidence woman had produced her knitting, and was blithely clicking away at her needles, while her enterprising son, a youth of four summers and undaunted confidence in human nature, tacked up and down the aisle and made impetuous incursions on the various sections by turns, receiving the various sections are considered abroad, and had a Heidelberg scar on his left cheek, and dark, and wavy hair—almost raven—was a devoted lover, though fully fifteen years Miss Nellie's scnior.

Full of bliss and comfort was Mrs. ing such modified welcome as could be accorded features streaked with mingled candy and cinders, and fingers whose propensity to cling to whatsoever they candy and cinders, and fingers whose propensity to cling to whatsoever they touched was due no more to instincts of a predatory nature than to the adhesive properties of the glucose which formed so large a constituent of the confections he had been industriously consuming since early morning. Four men playing whist in the rearmost section, two or three commercial travelers, whose intimacy with the porter and airs of easy proprietorship told of an apparent controlling interest in the road, a young man of reserved manners, reading in a section all by himself, a baby sleeping quietly upon the seat opposite the two passengers first mentioned, and a Maltese kitten curled up in the lap of one of them, completed the list of occupants. passengers his inentioned, and a season at the season at t kitten furnishes strong presumptive evidence of the sex and general condition of the two passengers referred to, and renders detail superfluous. A baby west. "Guard her well for rarely travels without a woman, or a whispered to Mrs. Rayner. kitten with a woman already encumbered with a baby. The baby belonged to the elder passenger, the kitten to the younger. The one was a buxom matron, the other a slender maid. In their ages there must have been a difference of fif-teen years; in feature there was still

tled type, which is so sore a trial to its possessor and yet so inestimable a com-fort to social rivals; but her features were handsome, her teeth fine, her dress, bearing and demeanor those of a woman of birth and breeding, and yet one who might have resented the intimation that she was not strikingly handsome.

She looked like a woman with a will of her own; her liead was high, her step was firm; it was of just such a walk as hers that Virgil wrote his "vera incessu patuit dea," and she made the young man in the section by himself think of that very passage as he glanced at her from under his heavy, bushy eyebrows. She looked, moreover, like a woman with a capacity for influencing people with a capacity for influencing people contrary to their will and judgment, and with a decided fondness for the exercise of that unpopular function. There was the air of grande dame about her, despite the simplicity of her dress, which, though of rich material, was severely plain. She wore no jewelry. Her hands were snugly gloved and undisfigured by the distortions of any ring except the marriage circlet. Her manner attested her riage circlet. Her manner attested her a person of consequence in her social circle and one who realized the fact. She had repelled, though without rudeness or discourtesy, the garrulous efforts of the motherly knitter to be sociable. She had promptly inspired the small, candy crusted explorer with such awe that he had refrained from further visits after his first confiding attempt to poke a sticky finger through the baby's velvety cheek. She had spared little scorn in her rejection of the bourgeois advances of the commercial traveler with the lan guishing eyes of Israel; he confided to his comrades, in relating the incident, that she was smart enough to see that it wasn't her he was hankering to know, but the pretty sister by her side; and when challenged to prove that they were sisters—a statement which aroused the skepticism of his shrewd associates—he

had replied, substantially:
"How do I know? 'Cause I saw their pass before you was up this morning cully. It's for Mrs. Capt. Rayner and sister, and they're going out here to Fort Warrener. That's how I know." And the porter of the car had confirmed the statement in the sanctity of the smoking

And yet-such is the uncertainty of feminine temperament—Mrs. Rayner was no more incensed at the commercial "gent" because he had obtruded his at-tentions than she was at the young man reading in his own section because he had refrained. Nearly twenty-four hours had elapsed since they crossed the Missouri, and in all that time not once had she detected in him a glance that betrayed the faintest interest in her or-still more remarkable—in the unques tionably lovely girl at her side. Intru-siveness she might resent, but indiffer-ence she would and did. Who was this

The bold glances of the four card players she had defiantly returned and vanquished. Those men, like the traveling gents, were creatures of coarser mold; tary occupant of the opposite section was a gentieman. The clear cut of his pale features, the white, slender hand and shapely foot, the style and finish of his quiet traveling dress, the soft modulation and refined tone of his voice on the one occasion when she heard him reply to some importunity of the train boy with his endless round of equally questionable his endless round of equally questionable figs and fiction, the book he was reading -a volume of Emerson-all combined to speak of a culture and position equal to her own. She had been over the trans continental railways often enough to know that it was permissible for gentle-men to render their fellow passengers some slight attention which would lead

Nellie was pledged, therefore, and this youth in the Pullman was not one of "those fellows in buttons," so far as Mrs.
Rayner knew, but she was ready to
warn him off, and meant to do so, until, warn him off, and meant to do so, unto, to her surprise, she saw that he gave no symptom of a desire to approach. By noon of the second day she was as determined to extract from him some sign of interest as she had been determined to respect to the contract of the contr wider disparity. The elder was a fine looking woman, and one who prided herself upon the Junoesque proportions which she occasionally exhibited in a stroll for exercise up and down the aisle. steadily growing business and good natured because it has always paid its way. Not that we have always had our own way unopposed. Far from it. But we have ever sold good honest goods in a straightforward way, doing business to make money and knowing that the best way to succeed was to deal with others as we would like others to deal with us. That means to give good value for the money you get.

Well, we are in better trim to do business this year

than we have ever been before. For we are into our own new brick building 40x75 feet, which we built in Moncton last year, directly opposite the market. Behind the brick building and connected with it by a bridge ten feet wide, we have another warehose 40x 44, two stories high and use it and the upper stories of the front building exclusively for our business. Here we receive CAR LOADS of ploughs, Harrows, Mowers, Rakes, Carriages, Churns, etc., etc. and re-ship to local agents in Westmorland and Kent Counties, as well as sell there to people direct.

In Newcastle we own and use another warehouse on the Public Wharf for supplying all our customers and agents north of that.

At Woodstock we own and use a fine building on Main Street, next above the F. C. B. Church, in just the same way, to supply the upper St. John River trade, and have another building at Bath Station on the N. B. R. for local business on that side of the river. Lastly we own and occupy a substantial warehouse just opposite the Post Office at New Carlisle, P. Q., from which point we distribute machinery and Carrages to customers in Bonaventure and Gaspe counties on

With these facilities and buying in very large quantities at rock bottom prices, we believe we can outsell everyone else in our line at lower prices, and intend to try and prove it to every buyer this season

"There is nothing to see, Kate—nothing but whirling drifts and a big water tank all covered with ice. Br-r-r-r how cold it looks!" she answered, after vainly flattening her face against the inner pane. "There must be something the matter, though," persisted Mrs. Rayner. "We have been here full five minutes, and we are behind time now. At this rate we'll never got to Warrener to night. I do never get to Warrener to-night. I do wish the porter would stay here where

"How very kind of you!" said the lady.
"Indeed I must not trouble you. I'm sure the porter will be here after a while." And even as she spoke, and as he was pulling on an overcoat, the train rumbled off again. Then came an exclamation, this time from the younger:

"Yes, take my flask; I shouldn't feel satisfied without doing something. And please say to the officer that I'm Mrs. Rayner mrs. Capt. Rayner, of the infantry—and ask if there isn't something I can do to help."

Two of the voung gentlemen who had been hovering around Miss Travers took themselves off without a moment's delay. The others remained to help their senior officer. Out into the whirling eddies of snow, bundling them up in the big, warm capes of their regulation overtexpelling bag.

And with that he hurriedly bowed and left her. The next moment, flask in hand, he was crossing the storm swept platform, and making his way to the platform and male head of the train.

"I believe he is an officer," said Mrs. Rayner to her sister. "Who else would be apt to know about the movement of

"Is there no name on the satchel?" asked Miss Travers, with pardonable curiosity. "He has an interesting face—not handsome." And a dreamy look came into her deep eyes. She was thinking, no doubt, of a dark, oval, distingue face with raven hair and mustache. The youth in the traveling suit was not tall. like Steven—not singularly, romantically handsome, like Steven. Indeed, he was of less interest to her than to her

Both ladies regarded this proceeding with natural astonishment, and Mrs. Rayner was about to interfere and question his right about to interfere and question his right to search the luggage of passengers, when the man turned hurrisdly towards them, exhibiting a little bundle of hand-kerchiefs, his broad Ethiopian face clouded with anxiety and concern

"The gentleman told me to take all his handkerchiefs. We'se got a dozen frozen soldiers in the baggage car—some of 'em mighty bad—and they'se tryin' to make 'em comfortable until they get to the fort."

them in the baggage car?—such a barn of a place! Why weren't they brought here, where we could make them warm and care for them?" exclaimed Mrs. Ray-

"Laws, ma'am! never do in the world to bring frozen people into a hot car! Sure to make their ears an' noses drop off, that would! Got to keep 'em in the cold and pile snow around 'em. That gentleman sittin' here—he knows," he continued; "he's an officer, and him and he doctor's workin' with 'em now." And Mrs. Rayner, vanquished by a statement of facts well known to her yet forgotten in the first impetuosity of her criticism, relapsed into the silence

of temporary defeat. "He is an officer, then," said Miss Travers, presently. "I wonder what he belongs to."
"Not to our regiment, I'm sure. Prob-

"No; there was no time. We were beyond hearing distance when he ran to the back door of the car; and there was

us, if he's an officer."
"Probably he doesn't know you—o we-are connected with the army, Kate.'

"Oh, yes, he does. The porter knows perfectly well, and I told him just before he left." "Yes, but he didn't know before that time, did he?"
"He ought to have known," said Mrs.

Rayner, uncompromisingly. "At least, he should if he had taken the faintest interest. I mentioned Capt. Rayner so that he could not help hearing."

This statement being one that Miss Travers could in no wise contradict—as it was one, indeed, that Mrs. Rayner could have dispensed with as unneces-

Another pause. "That's what I did it for," she wound up, conclusively.

"And that's what I thought," said Miss Travers, with a quiet smile. "However, he had no time then; he was hurrying off to see whether any of the soldiers had come on board. He took his flask with him, and apparently was in haste to offer some one a drink. I'm sure that to offer some one a drink. The sure that to offer some one a drink. The sure that not the faintest discourtesy was intended. There was not a symptom of rudeness, not a vestige of irritation or haste, in his tone. There came a rush of cold air from the front, and the swinging door blew open ahead of the porter, who was heard banging shut the outer portal. Then he hurried in.

"Where are they?" said the person the baby's wondering eyes, took in the picture like an instantaneous photograph, and then looked again into Mrs. Rayner's smiling face.

The train conductor stopped him to speak of some telegrams that had been sent, and both ladies noted the respect which the railway official threw into the tone in which he spoke. A deep flush rose to his forehead, suffusing his cheeks, and passed as quickly away. His mouth twitched and trembled.
