

The Ottawa Standard

VOL. IX., NO. 71 TEN PAGES THURSDAY MORNING, JUNE 14, 1917. WEATHER—SHOWERY PRICE: TWO CENTS.

97 ARE KILLED IN LONDON; OTTAWA SITUATION TENSE

FOUR LOST ON GYPSUM EMPRESS

Three - Masted Parraboro Schooner Waterlogged and Abandoned.

CAPT. BURGESS WAS AMONG THOSE SAVED

Schooner Was One of Best Known of Maritime Fleet, Registering 723 Tons.

Special to The Standard. Parraboro, June 13.—A wire from Mobile to Mrs. Roland Burgess from the owners of the tern schooner Gypsum Empress, of which her husband was master, informed her that the Empress was waterlogged and abandoned on May 17; that four of the crew were drowned, and that Capt. Burgess and the remainder of the crew would be sent home by the American government.

SUBMARINES TORPEDO 38

London, June 13.—The weekly shipping report issued by the admiralty today states that twenty-two British merchantmen of more than 1,600 tons were sunk. Ten merchantmen of less than that tonnage also were sunk, together with six fishing vessels. A summary of the report follows:

- "Arrivals, 2,767; sailings, 2,822.
- "British merchant ships over 1,600 tons sunk by mine or submarine, including one previously, 22; under 1,600 tons, including one previously, 10.
- "British merchant ships unsuccessfully attacked, including seven previously, 23.
- "British fishing vessels sunk, six."

This week's figures show a considerable increase in submarine activity, as compared with recent weeks. Last Wednesday's statement reported a total of only 23 vessels sunk, against the 38 now announced. The aggregate is the largest of any for a month past. Last week only 15 vessels of more than 1,600 tons were sunk, and three of less than that tonnage.

CASUALTIES

night's list. Infantry. Killed in Action—Theodore Arsnauld, Rogersville, N. B. Presumed to have Died—Frank Bayes, Gouda Point, N. B. Frank Savoy, Paquet River, N. B. Wounded—J. A. Callahan, Jacques River, N. B. G. Duguay, Barryville, N. B. Artillery. Wounded—Gunner C. A. Wasson, Hampstead, N. B.

CONDITIONS FOR CAPTURE OF FOX, THE FUGITIVE, IN CITY OF ST. JOHN.

- 1st—Lay hands on him.
- 2nd—Present him to the Daily Standard of same date, showing him first page so he can read date lines.
- 3rd—Say to him: You are Fox, the Fugitive. Do you deny it?"
- 4th—All non-residents of the city and people employed in newspaper work and their families barred from participating in capture and rewards. Fox the sole arbiter.

NEARLY HUNDRED KILLED AND 437 WOUNDED IN HUN AIRPLANE RAID OVER LONDON

Total of Sixteen Women, Twenty-Six Children and Fifty-Five Men Lose Lives at Hands of Baby-Killers.

FIFTEEN GERMAN PLANES DROP MANY BOMBS

King George Motors to Stricken District and Visits Hospitals—Property Damage Heavy.

London, June 13.—In a swift and deadly raid on the city of London today German airplanes took a heavy toll in killed and wounded. Other places were attacked, so far as is known, by far the heaviest losses occurred in London town itself.

At a late hour tonight the casualties, as officially announced, numbered 534, including 97 killed and 437 wounded. Fifty-five men met death, and 223 men were wounded. Sixteen women and twenty-six children were killed, and 122 women and 94 children wounded.

The German squadron consisted of about fifteen machines, and the downtown section of London was their chief objective. Many bombs fell in the East End, where buildings were destroyed and others badly damaged and scores of persons fell victims to the explosions. In one instance alone ten children were killed in a school and fifty were injured.

The loss of only one German machine has been recorded.

Three hostile airplanes appeared over the busiest part of the downtown section of London at half past eleven this morning and worked a rapid transformation in the busiest streets. The sound of the explosions of bombs in the east end, and of anti-aircraft guns, from perches around the business districts, gave the public warning of danger. Vehicular traffic stopped instantly. Omnibus drivers ordered all passengers to alight, and buses, taxis, wagons and lorries were left stranded in the streets until the danger was past.

Shopkeepers and their patrons, bankers and their clients quietly and promptly adjourned their business and hurried to such places of safety as the mental state of each particular person demanded.

Special constables appeared by the hundred, as if by magic, in every street and corner of the narrow lanes of downtown district, and ordered pedestrians within doors. It was difficult, however, to keep the populace under cover, as many of the people were more interested in getting a glimpse of the battle overhead than in escaping danger.

Many on Roofs.

There was no way to keep the crowds off the roofs of the downtown buildings where presumably the danger of falling shrapnel was greatest, but where a view of the raiders could be obtained. From the roof of The Associated Press office the airplanes could be distinctly seen at a height of at least two miles in the triangular formation which is a familiar sight to anyone who has visited the western front. The trio were so high that they appeared like three shiny flakes of snow against the bright sky. The anti-aircraft gunners were doing fairly creditable work in this their first battle practice in many months.

The raiders apparently were a little too high for the guns, which, nevertheless, were very useful in forcing the enemy to keep at an altitude where it was impossible to locate any objectives.

The flank smoke from thirty or forty shrapnel bursts, sent in repeated volleys, from a dozen or more eager guns, hung long minutes in the sky, outlining the three aviators in a frame of white puffs.

Close to Germans.

It was plain to see that the snarling bursts were too close to the visitors for their comfort calling forth frantic series of machine gun signals from the squadron route over London as viewed from below, was like a great hairpin—a straight arrow flight into the city, then a wide curve and a straight arrow flight out again.

King George Appears.

While the damage done in the east end was widespread, it is probable that the monetary loss will not be heavy, for many of the buildings wrecked were those of small business. The raid had been over but a short time when the King, having heard of the damage in the east end, motored into and through the district. His promptitude in thus manifesting sympathy with the sufferers appeared to be deeply appreciated and he was warmly cheered as he rode slowly around. Later the King visited the hospitals.

OPPOSITION IS STRONG IN DEBATE

Messrs. Sutton, Peck, Young, Smith (Albert), Guphill and Hunter Talk.

GOVERNMENT TOLD WHERE IT IS WEAK

Top-Heavy Nature of Administration—Spoils System and Mr. Carter.

Special to The Standard. Fredericton, June 13.—The strong debating material in the opposition party was evident today in the budget debate. No less than six of the active members of the opposition were heard. Messrs. Sutton, Peck, Young, Smith (Albert), Guphill and Hunter invariably made excellent addresses and had easily the better of the debate.

Mr. Peck was the first opposition speaker in the evening. The senior member for Albert is one of that county's most energetic business men and he made a splendid impression. Mr. Peck referred to the Valley Railway as a necessary and claimed that the Hazen government was the only administration in the history of the province that dared to take the step to construct this road. He felt that arrangements would be made whereby the road would be taken over by the federal government. He felt that a proper adjustment of the stumpage rates on the classification of the lands would result in an increase in the revenues of \$200,000. He made a strong plea for assistance for the roads of Albert county and promised to give every support in seeing that the road monies for that county were judiciously expended. He thought that the government should take steps to increase the salaries of the school teachers.

Smaller Cabinet.

Mr. Peck advocated the running of the government by three men, who would devote their whole time to the provincial business. The member for Albert is a fluent talker and he is proving himself one of the most valuable representatives in the house.

Mr. Young of York handled the financial statement in a most capable manner. He referred to the public debt and said that the government should be fair and give credit to the province in the many bridges and splendid railroads. He contrasted the late government's methods with that of their predecessors, who had over-expended on ordinary accounts in 1916 to the amount of \$197,000, and in 1918 to the amount of \$250,000, for which bonds were required to be issued. The vast deficit predicted by the government occupied considerable of the attention of Mr. Young, who advocated the necessity of immediate steps to increase the revenue. Mr. Young also dealt intelligently with the Valley Railway issue. He presented his facts logically and well and made what was generally considered a clear and convincing address.

Mr. Smith of Albert.

Albert county's junior member, Mr. Smith, was last to the front in today's debate. Mr. Smith's pleasing personality goes a long way to impress the house. Although a new member, he showed a ready knowledge of the affairs of the province. His criticism of the government was forceful yet fair. He made reference to the increased production campaign and stated that while it was desirable to hold such a gathering he considered that viewed from the substantial results that accrued the campaign was more of an increased official campaign rather than one for increased production. He endorsed the proposals of the minister with respect to the roads and pledged his best endeavors to see that the roads in his constituency received their full share of the monies.

Too Many Supervisors.

He levelled some criticism at the government for their appointment of additional supervisors and superintendents in the public works department. He strongly pointed out the necessity of the government taking steps to increase the revenues and stated that his course in the house would be to support all measures which he considered of advantage to the province and to oppose those measures he considered prejudicial to the people's interests.

Hon. Mr. Dugal followed Mr. Smith and spoke for about half an hour in

SIR WILFRID ANNOUNCES THAT HE IS NOT READY TO DISCUSS CONSCRIPTION BILL

Momentous Debate Therefore Will Not Begin Until Next Week—Liberal Fabric Not Yet Sufficiently Cohesive to Trust Itself in Limelight

IF CONSCRIPTION IS DEFEATED GENERAL ELECTION LIKELY

Quebec Agitators Active, But Not All French Members Will Vote Against Government—The Slippery One in a Tight Box.

(SPECIAL TO THE STANDARD.) Ottawa, June 13.—Whatever success the Liberals are meeting with in their efforts to keep the party from going to pieces on the rock of compulsory military service an incident in the House this afternoon affords warrant for the statement that they have not yet reached the point where they are prepared to debate it.

After the routine of the afternoon had been disposed of, and just before the House went into committee of supply Sir Robert Borden announced that he would move the second reading of the bill tomorrow afternoon. Sir Wilfrid Laurier at once replied that he would not be ready then but that he would consume no more time than was absolutely necessary. This means that the bill may not be reached before Monday and the debate on it will probably occupy all the week.

What ground the Liberals will take, or how badly the party will split on the issue is still a matter of conjecture.

(Continued on Page 6)

M.P.S' LIVES THREATENED

Special to The Standard. Ottawa, June 13.—The Quebec campaign against the government's compulsory military service bill has invaded the House of Commons and terrorizing methods are being resorted to in order to force all French Canadian members to vote against conscription. Even the lives of the members have been threatened and warnings have also been received that their homes and property will be destroyed if they do not oppose the government measure.

The campaign of terror has had effect and it is now conceded that every French Canadian member from the province of Quebec, Liberal and Conservative alike, will vote against the conscription bill except Hon. P. E. Blondin and Hon. Albert Sevigny.

Should the government be defeated there will probably be an early election. It is understood that several conscription Liberals will enter the cabinet.

MORE C. G. R. APPOINTMENTS

Special to The Standard. Moncton, June 13.—Several more C. G. R. Officers changes are announced. A. T. Weldon, assistant general Freight Agent, is appointed to succeed D. A. Story as general Freight agent. A. J. Gray is appointed assistant general freight agent with an office at St. John. W. F. Tompkins is assistant general freight agent at Moncton. J. H. Morton is appointed divisional freight agent at Halifax.

The marriage of Arthur William Duffy, son of W. H. Duffy of Hillsboro to Miss Mildred Bernice Lockhart of Parraboro, N. E. was solemnized at the Highfield Baptist parsonage here this afternoon. Mr. and Mrs. Duffy left for St. John and across the Bay on a wedding trip.

(Continued on Page 2)

HUNS LOSE 7,342 MEN, PRISONERS

German Raiding Party Driven Off by the Canadian Troops.

ACTIVITY CONTINUES ALONG THE SOUCHEZ

Heavy Artillery Fire Between the French and Enemy in Belgium.

London, June 13.—"Our total captures since the morning of June 7," says the official report from British headquarters in France tonight, "include 7,342 German prisoners, among them 145 officers, also 47 guns, 242 machine guns and sixty trench mortars."

"A German raiding party was driven off with losses early this morning northeast of Lens."

"Our airplanes continued to carry out useful work yesterday. In the air fighting three German airplanes were brought down and two others were driven down out of control."

Canadians Active.

Canadian Headquarters in France, via London, June 13.—(By Stewart Lyon, Special Correspondent of the Canadian Press)—The activity on the Canadian front, which is still continuing, is confined to the northern sector in the region of Souchez river. His losses of several strong points during the past few days has stirred the enemy up to vigorous action. Last night he counter-attacked in the hope of recovering the machine gun positions. The attack broke down completely under the Canadian artillery and machine gun fire. The assaulting party retired in the direction of Lens, after sustaining material losses.

How costly to the enemy the continuous activity in the Souchez region is has been conclusively established by documentary evidence. The company roll in one of the enemy battalions in the line only two days shows that during those two days twenty-five out of a total strength of 114 were killed or wounded. On the third day seventeen were captured, making a total loss of 42. Other companies and battalions in the area must have lost men in about the same proportion. Some were subjected to gas in perhaps a higher ratio.

Paris, June 13.—The official communication by the war office tonight reads:

"There were intermittent actions by both armies in Belgium and in the region of Croone."

ROBBERY AT MARYSVILLE

Special to The Standard. Marysville, June 12.—What was probably one of the coolest and most daring robberies in this locality for some time, was committed at the home of Mr. and Mrs. H. J. Dennison. They had gone out leaving the house locked up and on returning some time later, were surprised to see a man rush out of the back door. When they had recovered from their surprise, and went to look for him, he had disappeared.

Later investigation showed that a trunk, in which \$200 had been kept had been tampered with, and \$60 was missing. The master is in the hands of the police, and developments are awaited with interest.

REWARDS FOR FUGITIVE.

\$50.00—The Standard.
10.00—French Consul Emil G. bury (present Fox with tin of Forest and Stream)
10.00 in trade—F. A. Johnson, women's wear.
10.00—F. A. Dykeman and Co., dry goods.
10.00—Imperial Tobacco Co., Murad cigarettes.
5.00—A. A. McIlkay, cigars.
10.00—Waterbury and Rising, shoes.

OPPOSITION IS STRONG IN DEBATE

(Continued from Page 1) Mr. Hunter said that if the government intended to make an exhaustive survey of the roads as had been announced that the expense in that connection would reach such a figure that there would be very little of the \$500,000 appropriation from capital account for permanent highways remaining for the actual road work.

His remarks were also to the Valley Railway were also most interesting. He claimed that the road should have been built twelve years ago and recalled the broken bridges of the predecessors of the late government which had only reached the point of sending out surveying parties on the eve of an election.

Mr. Sutton made a business-like address of a practical business man. The ex-Mayor of Woodstock demonstrated that the people of Carleton county had made no error in selecting him as one of their representatives. He presented a number of sound arguments that will appeal to the fair-minded portion of the electors of the province.

Mr. Sutton dwelt at considerable length on the Valley Railway question, showing the wisdom of the late government's course in constructing this railway to give the people the facilities they deserved. His remarks relative to the opposition will endeavor to convince them that they had voted to give the railway bill the three months' hot bothered Hon. Mr. Tweeddale a great deal, but Mr. Sutton handled interpretations of the minister of agriculture in a most able and satisfactory manner. Mr. Sutton also so referred to the worn out ties on the Transcontinental Railway which although purchased at prices considerably higher than the prevailing prices at the time were now worn out.

The same was true of concrete work on the N. T. R. The member for Carleton also referred to the campaign of vilification and slander that had been waged against him in his bye-election in Carleton county, saying it was regrettable that the man who was responsible for that character of a campaign was now a member of the government. He had been told that Hon. Mr. Foster was quite a fine man (loud government applause) but his informant also said that he was associated with men who would drag him down (loud opposition applause). As Hon. Mr. Smith remarked the government should wait until

Had Awful Attacks of Heart Trouble FOR 5 OR 6 YEARS.

Diseases and disorders of the heart and nervous system have become frightfully prevalent of late years. One can scarcely pick up a paper but he will find recorded instances of sudden deaths through heart failure, or of prominent men and women unable to prosecute their ordinary business or profession on account of a breaking down of the nervous system. We do not desire to unnecessarily alarm anyone, but to sound a word of warning.

When the heart begins to beat irregularly, palpitate and throbs, has shooting pains through it, is time to stop and think. To all sufferers from heart and nerve troubles Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. Frank Arsenau, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

"At the present time my sister is using them for nervousness and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 50c., or three boxes for \$1.25 at all dealers, or mailed direct on receipt of price by THE T. MILBURN CO., LIMITED, Toronto, Ont.

the honorable member had concluded his sentence. Mr. Sutton also referred to the dismissal of such a great number of officials from the government services.

Hon. Mr. Murray will speak tomorrow.

(From Official Report.) Fredericton, June 13.—The House met at three o'clock.

Hon. Mr. Smith (Carleton) gave notice of enquiry as to the condition of Bowness bridge, Westmorland Co., and also as to some appointments in the public works department which the present government came into office.

Hon. Mr. Baxter moved for suspension of the rules in favor of a bill to amend the rates and taxes set and leave having been given introduced the bill.

Hon. Mr. Robinson moved for the suspension of rules in favor of a bill to vest certain burial grounds in the parish of Sackville in trustees. Leave having been given he introduced the bill.

Mr. Sutton introduced three bills each with the title "an act to amend the acts relating to the town of Woodstock."

Mr. Crockett presented a bill to amend the act incorporating the Victoria alumni of the University of N. B.

Hon. Mr. Robinson introduced a bill to authorize the board of school trustees of the city of Moncton to invest their sinking funds.

The House went into committee with Mr. McGrath in the chair and agreed to the bill to amend the act relating to St. Stephen to provide a system of water works.

Charlotte County Affairs. Mr. Gappill moved that the order for third reading of the bill to amend the town council of the town of St. Andrews to provide a system of water works be discharged and the bill referred to the committee of the whole for further consideration.

The House again went into committee with Mr. Smith (Albert) in the chair and agreed to the bill to confirm the agreement between the Victorian Order of Nurses and the commissioners of the General Public Hospital at St. John.

The bill relating to the St. Croix Electric Light and Water Company was then taken up.

Mr. Tilley pointed out that the bill as drawn incorporated in this province the Calais Water and Power Co. and the St. Croix Water Co., both American concerns as full fledged companies in this province without paying any fee whatever.

Hon. Mr. Byrnie agreed and thanked the previous speaker for his suggestion.

Hon. Mr. Burchill said the bill was before the corporation's committee and had been considerably amended but the point raised by the member from St. John was not mentioned there.

The bill might perhaps be referred back to the committee for amendment.

Hon. Mr. Baxter suggested that time might be saved if provision was made in the bill for payment of the proper fees.

Ultimately on motion of Hon. Mr. Byrnie the bill was referred back to the corporations committee.

Mr. Crockett presented the petition of the board of trustees of the Victoria Public Hospital in favor of a bill relating to that institution.

The House again went into committee with Mr. Mesereau in the chair and agreed to the bill to authorize the town of St. Stephen to guarantee the bonds of Clarke Brothers and also the bill to incorporate the St. Michael's Society of the Diocese of Chatham.

Budget Debate. On the order of the day being called Mr. Mesereau continued the debate on the budget. He hoped that the government would provide some means of increasing the revenue and make it balance the expenditure.

The former government deserved some credit for increasing the territorial revenue but he felt there was still room for improvement.

Mr. Sutton of Carleton. Mr. Sutton congratulated the speaker on the high position he occupied and he also extended congratulations to the hon. member from Moncton and the ex-attorney general on the excellent speeches they had delivered in sending the debate on supply. He said he had not expected the debate to reach such a high level because the impressions he had gathered from newspaper reports of proceedings of the House had not been exactly correct.

policy to spend money for plans of 1,000 miles of roads. He was strongly in favor of the establishment of the patrol system for roads.

In many cases commissioners were without the proper machinery but if there were gangs of section men going about the province, the work would not cost more than half the money which it now costs.

Roads and Politics. His honorable friends had talked of taking the roads out of politics; they probably meant by that that they would be taken out of the hands of one party and turned over to the other.

He found no fault with the government for dismissing partisan officials, but he believed that men who had shown themselves thoroughly competent to do road work, should not be disturbed. He had been much interested in the discussion over Valley Railway matters and the information which had been brought out in regard to the attitude taken by certain hon. members with the title "an act to amend the proportions than he thought would be the case, when the work started. Part of the road was now completed, and the road was advanced on the lower section, and he thought the end of the year would see the work completed to St. John.

He did not think that the province had made a mistake in getting engaged in this enterprise. One of the most fertile sections of Carleton county had been without railway facilities prior to the advent of the Valley Road, and the people had found it of very great benefit. The road now stopped at Centerville, but he hoped that at no distant day it would be extended to a point on the Transcontinental. He believed when that was done that the road would be made to pay. The physical condition of the road was not so good as it should be, but he felt sure, would compare favorably with that of the Transcontinental.

Concerning the latter he would like to draw the attention of the hon. member who introduced the bill, to the bridge on the Tobique and to ask him what he thought of it as a specimen of concrete work.

Hon. Mr. Tweeddale said it was a first class job.

Bridge Work Crumbling. Mr. Sutton replied that if his hon. friend considered work that was fast crumbling away from exposure to the weather as first class work there was no more to be said, but he (Sutton) had been informed by competent men that that bridge was really a good job compared with some of the piers on the other side.

Mr. Robichaud remarked that that matter had nothing to do with the finances of the province.

Mr. Sutton said that he was comparing the class of work that was to be found on the Transcontinental with that which was to be found on the Valley Railway with the intention of showing the people of Carleton county that a freight rate something they could not get before as long as the C.P.R. had the monopoly. The people took the matter up with the Intercolonial and the result had greatly helped the merchants of Woodstock.

Another matter he would like to refer to was that of agricultural education. A few years ago the Intercolonial and the late L. P. Fisher presented to the government an agricultural school in the town of Woodstock and he very much regretted that the school was closed this year, but that the students would have to go to Sussex and the school was given to the government for the benefit of the people of that section of the province he sincerely hoped that the usual

Mr. Peck said before proceeding with his speech he would congratulate the speaker on his succession to the dignity which he held and which he so suitably filled. He had listened to the remarks made by other hon. gentlemen with much pleasure and he wished to offer his sincere congratulations to the hon. member from Moncton not only for the able manner in which he had presented his budget speech but for the very pleasant manner in which it had been delivered.

There was an old saying and that was that the government was worse than the old and when he heard the hon. gentleman present the facts and figures that he began to think that he was repeating the House and the country for a government which was worse than they said the last one was for already they had begun to talk of increased indebtedness with a deficit of \$332,000. If there was no means of providing for this money they would be that much in debt at the end of the fiscal year.

The premier had said that he did not intend to defend the acts of the government which went out in 1908 neither did he (Peck) intend the actions of the late government for they were perfectly satisfactory to the members on that side of the House and to the party they represented. As he went about the country he heard a great many people expressing surprise that out of the 48 men sent out of the legislature they could not find some better men to put into the government.

Already the hon. Ministers of Lands and Mines were being sleepless nights trying to figure out how he was going to get along with his crown land policy while another member of the government was looking for a road policy had stolen one from his predecessors.

For that hon. member on the opposition side of the House would put him on the back because it was a good policy and it was in the interest of the province that he should stand by it. The senior member from Northumberland said that the member could talk about what he liked in the budget debate.

He (Peck) was going to talk about \$2.50 at a few millions, but he would begin with the Intercolonial which was a first class road road cost millions of dollars and gave good

service to the people who lived along it. The people living in Westmorland Kent, Northumberland, Gloucestershire and Hastings counties, do not know what to do with out it. Their business would be dead but for that railway.

So much for that. There was another section of the province just as fertile just as worthy of development as the counties he had named the people of which had been clamoring for forty years for the same sort of railway facilities as their neighbors had but nothing was done for them until the late government took it up. He could not understand how it was that in view of the way the people of the North shore counties had condemned the late government for building the Valley railway that the members for Sunbury and Queens would associate with them.

How long did they suppose that the men from the North shore would stand behind the members for Sunbury and Queens the latter had tried to block the railway facilities they were going to get. They condemned a great expenditure that gave such great advantages to the counties of Sunbury and Queens. They must look forward to the day when they could unload the railways onto the Dominion government and wipe out the debt.

There seemed to be a tendency on the part of the members of the House to look towards the lumbermen. He did not want to be understood as lumbermen, because he did a little lumbering himself.

Last season millions had been spent in making up the government of the lumber in now piled up on the wharves. He thought they deserved encouragement rather than putting more expense on them. He personally would like to see the lumber lands classified and taxed according to their value, and land that was not used for lumber make it ten. Some lumber lands were not worth more than fifty cents an acre, others were worth ten dollars, but they were all taxed alike. An extra \$200,000 could easily be raised by proper methods. The minister of public works wanted half a million for permanent roads, and another hundred thousand for by-roads, and he (Peck) thought that he would be pretty generous with the by-roads because he knew how badly good roads were needed by the farmers. He would like to see the members of both sides get together and try to do something to raise the money. He did not wish to hurt the feelings of any gentleman opposite, but he did not think that the government of the province were paying at present as much as they ought to.

An increase of \$100 in stampage would add \$241,000 to the revenue. Stamp duty pays 50 cents a cord and it should pay considerably more considering that two cords of pulp wood makes three hundred dollars worth of newspaper.

A tax of 50 cents a cord on pulp wood could easily be borne. Ties and poles could be made to yield a revenue of \$350,000 without hurting anybody.

Night Session. The House resumed at 8 o'clock. Hon. Mr. Roberts said he had listened with a great deal of interest and profit to the masterly address of the hon. member from Moncton, an address which clearly fulfilled him to be classed as a statesman. He had listened too with considerable interest to the address of the hon. member from St. John, who was in every sense capable of delivering a statesmanlike oration, but on that occasion he had diverged from that course and embarked upon statistics.

He would like to have the privilege of copying the phrase and conferring some further title upon the ex-attorney general, who might describe as "The bridge and road builder of the political literature of the province of New Brunswick," whereby he smoothed out and covers up the rough places of the road of his party, bridging the deep ravines where the political irregularities of the party had been deposited but he (Roberts) feared that the people of the province would have no difficulty in discerning the fact that he (Baxter) had been forced to become both strategic and artful in order to offset the exposures of the member for Moncton.

Mr. Peck of Albert. Mr. Peck said before proceeding with his speech he would congratulate the speaker on his succession to the dignity which he held and which he so suitably filled. He had listened to the remarks made by other hon. gentlemen with much pleasure and he wished to offer his sincere congratulations to the hon. member from Moncton not only for the able manner in which he had presented his budget speech but for the very pleasant manner in which it had been delivered.

There was an old saying and that was that the government was worse than the old and when he heard the hon. gentleman present the facts and figures that he began to think that he was repeating the House and the country for a government which was worse than they said the last one was for already they had begun to talk of increased indebtedness with a deficit of \$332,000. If there was no means of providing for this money they would be that much in debt at the end of the fiscal year.

The premier had said that he did not intend to defend the acts of the government which went out in 1908 neither did he (Peck) intend the actions of the late government for they were perfectly satisfactory to the members on that side of the House and to the party they represented. As he went about the country he heard a great many people expressing surprise that out of the 48 men sent out of the legislature they could not find some better men to put into the government.

Already the hon. Ministers of Lands and Mines were being sleepless nights trying to figure out how he was going to get along with his crown land policy while another member of the government was looking for a road policy had stolen one from his predecessors.

For that hon. member on the opposition side of the House would put him on the back because it was a good policy and it was in the interest of the province that he should stand by it. The senior member from Northumberland said that the member could talk about what he liked in the budget debate.

He (Peck) was going to talk about \$2.50 at a few millions, but he would begin with the Intercolonial which was a first class road road cost millions of dollars and gave good

service to the people who lived along it. The people living in Westmorland Kent, Northumberland, Gloucestershire and Hastings counties, do not know what to do with out it. Their business would be dead but for that railway.

So much for that. There was another section of the province just as fertile just as worthy of development as the counties he had named the people of which had been clamoring for forty years for the same sort of railway facilities as their neighbors had but nothing was done for them until the late government took it up. He could not understand how it was that in view of the way the people of the North shore counties had condemned the late government for building the Valley railway that the members for Sunbury and Queens would associate with them.

How long did they suppose that the men from the North shore would stand behind the members for Sunbury and Queens the latter had tried to block the railway facilities they were going to get. They condemned a great expenditure that gave such great advantages to the counties of Sunbury and Queens. They must look forward to the day when they could unload the railways onto the Dominion government and wipe out the debt.

There seemed to be a tendency on the part of the members of the House to look towards the lumbermen. He did not want to be understood as lumbermen, because he did a little lumbering himself.

Last season millions had been spent in making up the government of the lumber in now piled up on the wharves. He thought they deserved encouragement rather than putting more expense on them. He personally would like to see the lumber lands classified and taxed according to their value, and land that was not used for lumber make it ten. Some lumber lands were not worth more than fifty cents an acre, others were worth ten dollars, but they were all taxed alike. An extra \$200,000 could easily be raised by proper methods. The minister of public works wanted half a million for permanent roads, and another hundred thousand for by-roads, and he (Peck) thought that he would be pretty generous with the by-roads because he knew how badly good roads were needed by the farmers. He would like to see the members of both sides get together and try to do something to raise the money. He did not wish to hurt the feelings of any gentleman opposite, but he did not think that the government of the province were paying at present as much as they ought to.

An increase of \$100 in stampage would add \$241,000 to the revenue. Stamp duty pays 50 cents a cord and it should pay considerably more considering that two cords of pulp wood makes three hundred dollars worth of newspaper.

A tax of 50 cents a cord on pulp wood could easily be borne. Ties and poles could be made to yield a revenue of \$350,000 without hurting anybody.

Night Session. The House resumed at 8 o'clock. Hon. Mr. Roberts said he had listened with a great deal of interest and profit to the masterly address of the hon. member from Moncton, an address which clearly fulfilled him to be classed as a statesman. He had listened too with considerable interest to the address of the hon. member from St. John, who was in every sense capable of delivering a statesmanlike oration, but on that occasion he had diverged from that course and embarked upon statistics.

He would like to have the privilege of copying the phrase and conferring some further title upon the ex-attorney general, who might describe as "The bridge and road builder of the political literature of the province of New Brunswick," whereby he smoothed out and covers up the rough places of the road of his party, bridging the deep ravines where the political irregularities of the party had been deposited but he (Roberts) feared that the people of the province would have no difficulty in discerning the fact that he (Baxter) had been forced to become both strategic and artful in order to offset the exposures of the member for Moncton.

Mr. Peck of Albert. Mr. Peck said before proceeding with his speech he would congratulate the speaker on his succession to the dignity which he held and which he so suitably filled. He had listened to the remarks made by other hon. gentlemen with much pleasure and he wished to offer his sincere congratulations to the hon. member from Moncton not only for the able manner in which he had presented his budget speech but for the very pleasant manner in which it had been delivered.

There was an old saying and that was that the government was worse than the old and when he heard the hon. gentleman present the facts and figures that he began to think that he was repeating the House and the country for a government which was worse than they said the last one was for already they had begun to talk of increased indebtedness with a deficit of \$332,000. If there was no means of providing for this money they would be that much in debt at the end of the fiscal year.

The premier had said that he did not intend to defend the acts of the government which went out in 1908 neither did he (Peck) intend the actions of the late government for they were perfectly satisfactory to the members on that side of the House and to the party they represented. As he went about the country he heard a great many people expressing surprise that out of the 48 men sent out of the legislature they could not find some better men to put into the government.

Already the hon. Ministers of Lands and Mines were being sleepless nights trying to figure out how he was going to get along with his crown land policy while another member of the government was looking for a road policy had stolen one from his predecessors.

For that hon. member on the opposition side of the House would put him on the back because it was a good policy and it was in the interest of the province that he should stand by it. The senior member from Northumberland said that the member could talk about what he liked in the budget debate.

He (Peck) was going to talk about \$2.50 at a few millions, but he would begin with the Intercolonial which was a first class road road cost millions of dollars and gave good

NEW NEWS SERVICE FOR THE DOMINION

Canadian National News Association Formed—E. W. McCready of St. John Director—C. F. Crandall Secretary.

Toronto, June 13.—At the annual meeting here today of the Canadian Press Limited, which includes in its membership practically all the daily papers publishers of the Dominion, the plan for the Canadian National News Association, which had already been approved by the existing Canadian co-operative news gathering and distributing organizations, was adopted unanimously.

Evening Session. Melvin E. Stone, general manager of the Associated Press, who was present, congratulated the publishers and people of Canada on this great forward step towards national unity and solidarity, pointing out how the proposed system of leased wires from coast to coast, day and night would tend to bring all parts of the Dominion into the closest association.

The Directors. Directors for the ensuing year were elected as follows: John Nelson, for British Columbia; J. H. Woods, for Alberta; W. F. Heron, for Saskatchewan; E. H. MacKinnon and R. L. Richardson for Manitoba; J. E. Atkinson, W. J. Blackburn, J. H. Chevier, C. F. Crandall, J. F. MacKay, E. Norton Smith, J. Ross Robertson and E. F. Slack, for Ontario and Quebec; E. W. McCready and G. Fred Pearson, for the Maritime Provinces.

At a subsequent meeting of the newly-elected directors E. F. Slack was elected president; E. H. MacKinnon, first vice-president; W. J. Blackburn, second vice-president and C. F. Crandall, secretary and treasurer. Mr. Knowles, manager of the evening paper section was appointed general manager of the new organization and J. P. B. Livesay, assistant general manager with headquarters at Winnipeg.

REV. MR. EARLE TO LEAVE FOR TRINIDAD, W. I.

Word has been received in this city of the death in Hilliard, Me., by accident in the mill, of Thomas Hamilton, formerly of St. John and Oak Point. Mr. Hamilton was foreman of the Jordan Lumber Company's mill.

Besides his wife he is survived by a son and daughter, Ruric and Mrs. Ralph Brown. He also leaves two brothers, John and William, Mrs. Ellen Flavin of Oak Point, Mrs. Eliza McHugh, of this city and Mrs. Margaret Cary, of Barmesville.

Nearly 100 Killed and 437 Wounded in Hun Airplane Raid

(Continued from page 1) The main result of today's raid, as in past cases, has been the killing of civilians, including many children. No military damage was done as there was no military objective in the section visited. It was not a case of accurate dropping of bombs when once the planes were over the city. In the east end, for instance, a bomb could not have been dropped without doing damage. The bombs cut a wide circle through the eastern part of the city, and while the raid was short-lived a large number of explosives were dropped in rapid succession. The results were as follows: 97 killed, 437 wounded, 1000 injured, 1500 houses damaged, 1500 shops damaged, 1500 churches damaged, 1500 schools damaged, 1500 hospitals damaged, 1500 public buildings damaged, 1500 private buildings damaged, 1500 industrial buildings damaged, 1500 commercial buildings damaged, 1500 educational buildings damaged, 1500 religious buildings damaged, 1500 public utility buildings damaged, 1500 private utility buildings damaged, 1500 government buildings damaged, 1500 military buildings damaged, 1500 naval buildings damaged, 1500 air force buildings damaged, 1500 communication buildings damaged, 1500 transportation buildings damaged, 1500 entertainment buildings damaged, 1500 recreation buildings damaged, 1500 health buildings damaged, 1500 social buildings damaged, 1500 cultural buildings damaged, 1500 scientific buildings damaged, 1500 artistic buildings damaged, 1500 historical buildings damaged, 1500 archaeological buildings damaged, 1500 ethnological buildings damaged, 1500 geographical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, 1500 metallurgical buildings damaged, 1500 chemical buildings damaged, 1500 physical buildings damaged, 1500 mathematical buildings damaged, 1500 astronomical buildings damaged, 1500 meteorological buildings damaged, 1500 zoological buildings damaged, 1500 botanical buildings damaged, 1500 geological buildings damaged, 1500 mineralogical buildings damaged, Deep Mystery Involves Whereabouts of Fox the Fugitive

Where is Fox the Fugitive?
 Entirely cut off from The Standard twenty-four hours, his whereabouts is now as much a mystery to The Standard as to the public.
 Is he in a hospital, picked up somewhere and refusing to make known his identity?
 Is he in jail, taken up as a "vag," or possibly having given himself into custody to get away from pursuit; giving an assumed name?
 Is he lying helpless in his hiding place?
 Has he taken refuge where he cannot get word to The Standard?
 Anyone knowing of a stranger in dire distress is requested to communicate with this office at once.

GRADUATION AT UNIVERSITY OF ST. JOSEPH

Hon. J. B. M. Baxter, Bishop LeBlanc and Hon. Senator Bourque Among Speakers.

Special to The Standard.

St. Joseph, June 14.—The 53rd annual commencement exercises of St. Joseph's University were held in the Lefebvre Memorial Hall under the presidency of His Lordship Bishop LeBlanc on Tuesday evening in the presence of a large number of visitors including many of the clergy of the diocese and relatives and friends of the graduates and students.

A literary and musical programme was carried out by members of the graduating class, after which addresses were delivered by Rev. B. LeCavaller, president of the University, Hon. Senator Bourque and Hon. Dr. J. B. M. Baxter.

Father LeCavaller cordially thanked the visitors for their attendance at the exercises and for their kindly interest in the work of the institution. Reviewing the troubled condition of society on account of the present war, he said that all felt that education, making for high standards of citizenship, true moral values, and broader racial sympathies, was never more essential than now.

Hon. Senator Bourque, who was the next speaker, expressed his pleasure at attending the exercises. He felicitated the faculty and the Catholic people on the great prosperity and continued progress, material as well as educational, at the college. He himself being an alumnus of the institution he well understood and keenly rejoiced over the work done and progress made by his alma mater.

Hon. Mr. Baxter.

Hon. Mr. Baxter, opening his remarks in the French language, expressed his pleasure at attending the exercises again this year, and thanked the assembly and the faculty for the cordial reception given him. Speaking at greater length in English he said that perhaps it occurred to many to wonder why he revisited the university at the commencement day. The natural interest one takes in young men at the graduates time of life was not the only reason for his coming. The chief reason was because he saw here at St. Joseph the progress of a work great in its effects not only on the moral and educational development of a large body of young men, but likewise great in its effect and possibilities for our province and Dominion. The life at this institution reminded him of an illustration he often thought of when he saw the natural beauty at the confluence of the St. John and the Kennebec rivers. After each expanse of waters had followed their individual course, they joined and from thence their course was the same. But their joining was attended with greater volume, nobler scenery and greater power. Thus it was with the English and French speaking citizens who make up the citizenship of Canada. Their union made for a broader national life, more diversified abilities and greater de-

velopment of our common country. It was at St. Joseph's, however, that he saw the most noteworthy example of this union. The faculty of the college worked out this union to splendid results. What was possible for the professors here should be also possible for the statesmen of Canada. The great national work of fusing the different races in our Dominion had a particular interest for him at St. Joseph. There was a lesson for him and for others to learn in co-ordinating national elements here, as well as lessons for the students. He referred to his regret at being unable to speak French as well as he would like, but he considered proficiency in that language a very desirable accomplishment. He showed how greatly the ability to speak perfect French had aided Rt. Hon. A. J. Balfour in his Canadian mission. Mr. Baxter concluded his remarks with felicitations to the graduates and students as well as to the faculty on the success of the year's work.

At 6.30 this morning His Lordship Bishop LeBlanc, after saying mass for the student body, administered the Sacrament of Confirmation to twenty of the younger students.

At 9.30 valedictory addresses were delivered in French by Mr. Emile Boucher and Mr. T. Frank Cashen of the Hourigan, Neepawa, Manitoba, Thesis: "The Church and Education."
 B. A. (Bachelor of Arts).—J. Emile Boucher, Riviere-du-Loup, P. Q.; T. Frank Cashen, Sydney Mines, N. S.; J. Albert Dionne, Edmundston, N. B.; Roy M. J. McDonald, St. John, N. B.; A. P. Noel McLaughlin, Bouctouche, N. B.; J. Henry Milligan, Milltown, N. B.

B. L. (Bachelor of Letters).—B. Maurice Bourgeois, Fitchburg, Mass., U. S. A.; P. Guillaume Brousseau, Tracadie, N. B.; P. Martin, St. Hilaire, N. B.

F. A. DYKEMAN'S Living Model Demonstration

OF THE MOST SENSIBLE GARMENTS A WOMAN CAN WEAR UNION SUITS AND OVERALLS OVER THREE MILLION WEARING THEM TODAY

This idea has spread from Europe to United States and Canada, where thousands of women are now for the first time wearing a cool, comfortable, clean, sensible, garment for work or pleasure. They have all the comfort, practicability, and cleanliness of a man's overall, yet they are cut so full that they look almost like a skirt. These are the original overalls and union-all suits.

On THURSDAY and FRIDAY AFTERNOONS, 2.30 till 4.30 we will hold a special demonstration of these garments on living models.

We feel it is a duty we owe the patrons of the store to show them this wonderful garment in the most up-to-date method (of living models), and we feel sure that the efforts we put forth will meet with a ready response from the ladies of this community.

Come and visit this demonstration. Make a special note of it. At Dykeman's.

WE WILL PAY TEN DOLLARS
 to the person capturing Fox if the captor shows to Fox at the time a sales slip for any purchase made in our store within two days.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

CONCERNING MR. BURNHAM.

Newspapers like the St. John Telegraph which, recognizing that the sentiment of their clientele is favorable to the Government's measure for conscription of man-power, are yet unwilling to definitely take the plunge to support it, are eagerly grasping at such small crumbs of comfort as happen to come their way and are endeavoring to claim that the Government's measure is but the halfway house to what should be done. Conscription of wealth is the latest thing those journals regard as desirable, and holding such a view, whether conscientiously or for reasons of political expediency, does not enter into the case. It is natural that they should publish with much display such incidents as the break of Major J. H. Burnham, member for Peterborough West.

Major Burnham is not opposed to conscription of men, but he also desires conscription of wealth. He thinks it is outrageous that the poor man in Canada should be called upon to give all he has—his service and possibly his life—while those more fortunately situated in regard to this world's goods, and unable to go on active service, should not be asked to give what they can—their money.

It may be pointed out that conscription of wealth, in the real meaning of that term, has not yet become necessary in this country. When it does we shall have it just as we are to have conscription of man-power, now that it has been established that the voluntary system will not suffice to keep the Canadian divisions up to strength. This country has done well in the imposition of war taxes. The money asked for in the way of war loans has been forthcoming with little or no effort, and it is well known that the Minister of Finance is prepared to introduce an income tax measure when that is needed. It is only by such a measure that there can be any approach to what is loosely termed conscription of wealth. If a man for instance owns a brick building, and obtains a revenue from it, the Government can hardly proceed to conscript the building in the same sense that a fighting man can be conscripted. That would be unfair to the property owner and of no value to the country. All that can be done is to impose a tax on the income the owner of that property derives from it, and this is what Thomas White's intention to do.

Even Major Burnham, if he is practical, could not hope for much more. Conscription of wealth by means of an income tax may become necessary, but at the present time it is unwise to attempt to embarrass the Government by any multiplicity of issues. It is conscription of man-power that is required now. Let us get through with that before considering other measures. Those who have read the Prime Minister's speech and the summary of the bill to provide for compulsory service will say at once that it is the Government's desire to be eminently fair to all classes. Unwise agitation at the present time for something more than the country has before it will hinder rather than help, and this is essentially a time when all the help that can be secured is urgently needed. Major Burnham is probably sincere in his position but he cannot hope to effect any good result by it, while he affords opponents of the measure an opportunity to cite his case as an instance of an Ontario Conservative who opposes the plan to reinforce our divisions at the front by the only means at hand.

THE VILLAIN IN THE PLAY.

Every tragedy has its villain, its evil genius, so to speak, and so also not infrequently has every era in the world's history that was ripe for revolution and change. Amidst the curious and somewhat contradictory reports that the censor permits to reach America from Petrograd there fits the shadow of a base fellow called Rasputin, who certainly for a time had his fill of adventure and dizzy delight. His role was that of the modern Cagliostro, whose craftiness with men and women he shamed into insignificance by the splendid abandon and profanity of his audacious views. This man who was in reality the power behind the throne in Russia of recent years as we are told by Abraham Yarnolinsky, strange as it may seem, was himself a common adventurer and an ignorant man, who, by the power of his magnetic personality, successfully played upon the sentiments both of the late Czar and his Hessian wife to such an extent that he practically controlled the will of the court. Men who were innocent were adjudged guilty of offenses they never performed, while men who were guilty were shielded

from the legitimate penalty of their crimes through the influence of this rascal than whom history scarcely describes a more consummate scoundrel. A common peasant from Siberia, where, in his earlier years he had committed several serious crimes, at length, he sought the white lights of Petrograd, and once there he insinuated himself into the graces of the nobility, and at last reached the domestic circle of the Czar. The story of this fellow's escapades in the Russian court up to the time that he was assassinated by an incensed group of young aristocrats at the palace of Prince Yusupov and his body cast into the waters of the Neva, will scarcely bear repeating. His regime at the Russian court certainly casts into a rather lurid light the late occupants of the throne and their association with such a vampire as well as the courtly patronage which was extended to him by them will not tend to reinstate those deposed rulers of the Russian people in the esteem of the world. Apparently it is the old story of Versailles told over again and it is a story so sordid and obnoxious that the new age of humanity that is crowding fast upon the world, an age purified by the cleansing fires of war, scarcely cares to hear.

The world is well rid of such occupants of the throne, and the morsel of honey that has been extracted from his decaying carcass has well been described by a Russian writer who has said that "Rasputin's historic role consists in that he united all Russia in a general hatred for the dark, irresponsible forces." Russia, whatever be its problems and trials, is well rid of its royal aristocrats, and those who are acquainted with the story of the doings of this Siberian muzhik at the royal palace will understand why the audience gathered within a Petrograd theatre answered with a mighty cheer when one of the performers started his number with these words, "Ladies and gentlemen, let me congratulate you upon our common joy" referring to the news of Rasputin's violent death.

But little sympathy will be entertained for the late Czar who was truly a weakling to permit this creature to enter his house. Of his wife we say nothing. It is perfectly apparent that neither of these people possessed those qualifications that modern nations demand of those who are permitted to occupy the place of honor and authority. The Russian writer to whom we have referred above concludes his very significant article in the Bookman with these words: "The heroes of the mysterious drama a la Ponson du Terrail, which took place in the palace on the Neva, were no revolutionists. They deemed it their duty as faithful servants of their Emperor and country to put an end to the career of the mystic blackguard. But their act resonated in the ears of the avenging nation like the first rumbling of a coming storm. These young aristocrats knew not that they had given a signal to the most radical and thorough of revolutions that has ever shaken up a body politic."

MR. POWELL'S LETTER.

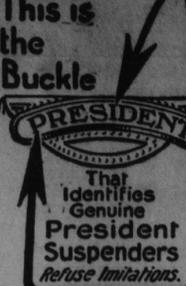

The Telegraph and the Times, with the idea of creating sympathy for Mr. Pugsley, have printed in full, three letters purporting to be written by the Hon. George E. Foster, Mr. George W. Fowler and Mr. H. A. Powell.

The attempt to extract comfort from the letter of Mr. Powell is really very funny. One thing is clear from the letter—that Judge Landry and his fellow commissioners are responsible for the report. Mr. Powell thought the commissioners were in error in finding that 250 of the three per cent. bonds had been signed with the provincial guarantee and delivered before they should have been delivered. The commissioners found differently. Whether they were delivered too soon or not is a matter of very little difference. The main point is that they were delivered.

In another matter Mr. Powell apparently wished the commissioners to be careful in their statement so that the local government would not be prejudiced for any claim it might make against the Dominion for double subsidy, but the commissioners thought it was their duty to set forth the facts as they found them, regardless of their effect upon obtaining a subsidy or their effect upon the reputation of the government. The action of the commissioners is distorted by the Telegraph into a conspiracy on the part of Judge Landry, Mr. MacDougall and Mr. Teed, commissioners, to falsify the record in order to injure Mr. Pugsley and the government.

The Telegraph editorially said in yesterday morning's issue that "This

This is the Buckle

PRESIDENT
That Identifies Genuine President Suspenders
Refuse Imitations.

letter (Mr. Powell's letter) has remained concealed until the present day, and has been in existence eight years, during all which time Mr. Pugsley's enemies have rung the changes on the charges made against him by the commission and "Now comes the production of these letters which have been on record in Fredericton but which have been kept in concealment by Dr. Pugsley's enemies while they were in control in this province."

This is very rich. After Mr. Powell's letter was received by Mr. Hazen, then Attorney-General, it was stolen from the latter's office. Either the original or a copy came to Mr. Tweedie's notice over five years ago. Mr. Hazen was unable to fix the guilt upon the official or other, who had stolen the letter and he publicly said nothing about it. The government has changed hands and the present government, how the simple advice of the writer we do not know, but The Standard does know that it is over five years since Mr. Tweedie first knew of its existence and contents, and the public being aware of the relations between Mr. Tweedie and Mr. Pugsley will assume that Mr. Tweedie did not during all these years conceal his information from his friend.

NEW SHOES WON'T HURT AFTER THIS

Cincinnati man tells how to shrivel up corns so they lift out

Ouch! ? ? ? ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says freezone is a sticky substance which dries immediately and never irritates or even irritates the surrounding tissue or skin. A quarter of an ounce, which will cost very little at any drug store, is said to be sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the insurance of the high heels.

\$13,000,000 CAR CONTRACT

Special to The Standard
Ottawa, June 13.—A \$13,000,000 contract for cars is under discussion here, between the Canadian government and the Canadian Car and Foundry of Amherst. The contract involves the construction of 5,000 freight cars, and the price under discussion is \$2,600 each. In case negotiations are successful shops at Fort William will be opened. The cars will be used on government railways and leased to other lines.

HAD BOILS

For Six Months.
B.B.B. DROVE THEM AWAY

When the blood becomes impure the very first symptoms which manifest themselves are a breaking out of various forms of skin trouble such as boils, pimples, sores, etc., and to get rid of these troubles you must cleanse the blood thoroughly with a good blood remedy.

The best blood cleansing remedy on the market today is Burdock Blood Bitters.

Thousands of people from one end of Canada to the other have used it during the past forty years, and have nothing but words of praise for its cleansing properties.

Mr. Rufus Beers, Upper Main River, N. B., writes: "I want to say a few words about your medicine, Burdock Blood Bitters. I had boils for six months and sometimes was so bad I could not work. I tried lots of cures but nothing would drive them away for good until I took B. B. B. In a short time I was all better. It is a dandy medicine. I keep it in the house all the time."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont., but so well and favorably is it known that there are many imitations on the market. See that our name appears on the wrapper.

Little Benny's Note Book.

Yesterday afternoon me and Ed Wernick and Sid Hunt was setting on Mary Watkins front steps telling Mary Watkins different things we wasn't afraid to do, and Ed Wernick sed, Do you see this ice waggin coming up the street, I ain't afraid to run rite in front of the horses heads, and I can prove it.

Wich jest then the ice waggin started to go past fast as anything, and wat did Ed Wernick do but jump up and run across the street rite in front of it, the driver looking around the side of the waggin and swearing at him farsee till the waggin turned around the corner.

And wen Ed Wernick came back and sat down agen, Mary Watkins sed, Goodness, Ed, how do you get that brave?

You haft to be born that way, sed Ed Wernick, and Sid Hunt sed, That ain't anything, do you know wat I ain't afraid to do? I ain't afraid to climb up on the letter box and stand there without holding on with my hands, thais as dangerous as anything and its agens the law, to.

And he went and did it, taking him about 5 minutes to get up, and some man had to catch him while he was falling off, and Mary Watkins sed, Wat ain't you afraid to do, Benny?

Heer comes a cop down the street, Benny, I bet you're afraid to run between his legs, sed Ed Wernick.

I bet I ain't either, I sed. And I started to go up the street and the cop keep on coming down, being a fat cop with plenty of room between his legs, and I thawt, G, that awnt to be hard. And I kept on going up and the cop keep on coming down and I waked rite past him, thinking, Maybe it will be easier to run throo them from the back. And wen I got past I looked around and thered didnt seem to be quite as much room between them from the back as there was from this front, and I thawt, Aw, wat do I care, Ill jest keep on going.

Wich I did, wacking around the corner and going home by the back way. Proving jest because you ain't afraid to do a thing, that dont say you haft to do it.

WHY WOMEN FEEL UNFIT

Nature's best handiwork never was intended to be handicapped by illness as so many women are. Nature's intention never was that women should be less capable, as women than men are as men. Yet how frequently young girls, business women, housewives and mothers complain of feeling unfit. What makes the growing girl so languid, the business girl so often depressed, the housewife and mother so often overwhelmed with worries and occasionally take sick women if they lack the help of new blood during their teens. Business girls become bloodless from too much indoor occupation, hasty meals and lack of exercise. Housewives overtax their blood by overwork, over-anxiety, nursing, neglecting the need of sufficient sleep, regular meals and fresh air relaxation. Hence the blood becomes watery and impure.

But women who keep their blood rich and red never need feel ill. Wholesome food, sufficient rest, outdoor relaxation and Dr. Williams' Pink Pills will keep every woman's health right. These pills alone have proved a priceless boon to weak anemic women, because of the new, rich red blood which every dose helps to make. Every girl and every woman should occasionally take Dr. Williams' Pink Pills to keep her blood rich and pure, and every weak and ailing girl and woman should take them without delay.

You can obtain these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Self-Timing Egg Cooker and Milk Warmer

There are four outstanding features about this device that are worth noting.

AUTOMATIC—Cooks eggs hard or soft and turns off current when through.

WIRELESS—Contains no hot wire coils to burn out.

ECONOMICAL—Uses only half the current of the ordinary electric toaster.

HEALTHFUL—Steams eggs, thus preventing the tough indigestible outer lining common to boiled eggs.

**NEW BRUNSWICK BOY
HAS NARROW ESCAPE
WHILE ASLEEP IN TENT**

Captain W. T. McFarlane of Newcastle Escapes Death—Shell Passes Through Tent—Explodes Short Distance Away.

In a letter to his parents at Newcastle, Capt. W. T. McFarlane writes of an interesting experience at the front. Captain McFarlane is a son of School Inspector P. G. McFarlane, of Newcastle.

The letter follows:
Franco, May 5, 1917.

Dear Mother:
I had an interesting experience the other night. Just after I went to bed and when Capt. Scott was going to bed I heard an enemy naval gun fire, and the shot sounded to be going over, so half awake as I was, for a second I forgot all about it, but only for a second. Believe me the shell went right through our tent and never touched either of us. It detonated about ten feet from my head. I was dazed for a few seconds. The noise of the explosion was terrific, for it was a six inch shell. I was covered with dirt, etc., which came down in jumps. You should see the crater. The shell penetrated the earth about four feet before detonating. Capt. Scott was tossed up in the air and his bed broken. When the row subsided I looked across the tent space and beheld the moon was staring me in the face. The tent had been blown to bits and disappeared. Evidently the time of miracles is not over yet. But why should you worry? Some guardian angel is taking care of me.

If all goes well here's hoping we'll be home yet this year.
Your Son,
W. T.

Miss Ada Myles of the Crosby Girls' Home, Fort Simpson, B. C. is visiting her brother, Wesley J. S. Myles, Douglas Avenue.

ROYAL YEAST

Has been Canada's favorite yeast for over a quarter of a century. Bread baked with Royal Yeast will keep fresh and moist longer than that made with any other, so that a full week's supply can easily be made at one baking, and the last loaf will be just as good as the first.

TOMORROW**

General Falling Off in Recruiting—End of 62nd Defence Regiment—Private Lincoln Wounded—Nursing Sister Murray.

HONOR ROLL.
Charles Earle, St. John, N. B. Canadian Engineers
V. O. Cox, Hants Co., N. S. Machine Gun Draft
Walter Reid, Newfoundland Divisional Signallers.

There was a general falling off in the matter of recruiting among all the local units yesterday. But three men were signed on. Out of five applications only one was found physical fit for the Machine Gun Draft.

It is now certain that 236th Battalion will leave on Friday morning for Valcartier. Several St. John people who have relatives and friends in the Kilties left yesterday to see the boys before their departure to the summer camping grounds.

Twenty-six recruits who enlisted in Boston within the last few days will arrive in Fredericton today to commence training.

It is reported that a draft from the Forestry unit will soon leave for overseas. The remainder of the unit will likely proceed to Valcartier to complete their training. Men enlisting in the province for the unit after its departure will be sent to the headquarters of the unit.

The end of the present week will in all probability see the end of the 62nd Canadian Defence Regiment. Lieut.-Col. J. L. McAvity is now busily engaged in making out the reports and records of the defence unit, which will be forwarded to the authorities.

Captain Symonds and Captain Winter, of the Military Hospital Commission were at the city yesterday in connection with hospital work. They left the city last night on the C. P. R.

Private S. Lincoln Wounded
Turnkey Samuel Clifford, 142 St. James street, is in receipt of word to the effect that his nephew, Private Samuel Lincoln, Infantry, was admitted to No. 39 General Hospital, Calais, June 4th, suffering from wounds. Pte. Lincoln is 20 years of age and enlisted in the 166th Battalion, and on going overseas was drafted to another unit.

Going Overseas.
Miss Grace M. Murray, superintendent of the Victoria Public Hospital, Fredericton, has asked to be relieved of her duties at the city yesterday, as she is under orders to proceed overseas in a short time to take up work in military hospitals.

THANKFUL MOTHERS

Mothers who have once used Baby's Own Tablets for their little ones are always strong in their praise of this medicine. Among them is Mrs. Marcella Boudreau, Moncton, N.B., who writes: "Baby's Own Tablets are the best medicine I know of for little ones. I am very thankful for what they have done for my children." The Tablets regulate the bowels and stomach, cure constipation and indigestion, break up colds and simple fevers; in fact they cure all the minor ills of little ones. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville.

A plant and tree was also planted in memory of Mrs. James McAvity, for a number of years a most worthy and beloved president of the North End union. Mrs. McAvity was always most energetic in the discharge of her duties and as the ladies look back to such helpful associations of the park they were comforted to know that those who had gone before had heard the Master's welcome greeting: "Well and faithfully done, enter into the joy of your reward."

**FOUNTAIN 20 FT. HIGH
ON GERMAIN STREET
YESTERDAY AFTERNOON**

Automobile Fractured a Hydrant—Thousands of Gallons of Water Delights Large Audience—No Great Damage Done.

School girls, school boys, news boys and other boys enjoyed a real motion picture on Germain street near the entrance of Trinity church yard late yesterday afternoon. As if there had not been sufficient water hereabouts lately, Scitiner's delivery auto backed up against a hydrant and let loose a few thousand gallons for delectation of a large part of youthful St. John.

The effect produced by the fractured hydrant was a grand one. The escaping water resolved itself into a fountain twenty feet in height and as a big policeman said it only needed electric lights to furnish all the splendor necessary.

The news boys on Church St. neglected their papers and enjoyed the free show, which was finally ended by two of Commissioner Wigmore's aquatic experts. Most of the water found its way down Church street and into Prince William and no damage was done to cellars.

**ANNIVERSARY SERVICE OF
N. E. FLOWER MISSION**

A number of ladies of the North End W. C. T. U. met at the home of their president, Mrs. E. A. Corbett, yesterday afternoon to observe the anniversary of the memorial and flower mission service. A number of interesting and instructive papers were read on flower mission work, one by Mrs. Robert Scott, one by Mrs. Bell, and one by Mrs. Murdoch.

After the close of this service the ladies adjourned to Riverview Park, where they planted flowers in memory of their departed sisters.

A tree and flower was planted in memory of Mrs. Baidley, who was one of the pioneer members of the organization and who was largely instrumental in securing this beautiful little park, the monument in memory of the fallen heroes in the South Africa

SHAMROCKS DEFEATED THISTLES IN EXCITING GAME YESTERDAY WHICH WENT SIX INNINGS

Whitey Gibbons Turned Tide of Victory in Shamrocks' Favor—Decision on Third Inning Play Given to Shamrocks—Some Excellent Playing Witnessed.

Displaying strategy emulating even that of Joffre, the hero of the Marne, Whitey Gibbons turned the tide of victory in the Shamrocks favor in the third inning last night. Although the method used by the heady short stop will be the cause of a big discussion at a meeting of the committee, yet, according to the ruling of the umpire the game will likely be thrown to the Shamrocks. Gibbons turned for third in this inning and it looked as though it was a sure out, but Mooney muffed the ball and it was kicked by Gibbons, apparently accidentally, so he kept right on for home. With the score 2-2 previous to this play it gave reason for an argument by the Thistles. However, Billy Howard gave the ruling in favor of Gibbons, thus making the score 3-2. This was the play that decided last night's contest. On the part of Gibbons it was clever work and if he can get by with it, who can blame him.

The Thistles scored two runs in the first, Dever and McNulty doing the trick. In the fourth inning they had another grand opportunity to register at least three more, but the work of Elliott in the box and Gibbons at short defeated their chance. O'Connor was the first man up in the fourth but his base getting aspirations were nipped in the bud by Knudson, who pulled down one travelling several feet over his head. Howard, Haggerty and Milan managed to get their feet on the sawdust. Only recently the team downed and three on she looked promising for Dever's followers. The next performer up for the Thistles, Hansen, hit a hot grounder to Gibbons, who caught the man running home. There was still hope entertained by the Thistles for a score in this inning. Dever was the next man up made a hit which looked to be good for a two bagger, but Kelly in left field executed the last hope of scoring.

The fifth and sixth innings featured some clever sphere juggling. The Shamrocks allowed no man to pass first, and the Thistles went one better and did not permit a man to even reach the initial bag. The game during the last period was a fine exhibition of real baseball and a credit to all the participants.

The work of "Mugsy McGraw" at first was a matter of many favorable comments. Only recently he returned from Boston and measured by his exhibition of housekeeping around first he learnt a whole lot of ball stuff which will no doubt render him a most valuable service for the remainder of the season.

There is a very small margin of superiority between the teams and as yet not even the best prophet on the beachers is able to state who controls that margin.

Elliott and Hansen allowed but four hits each and they were for the most part just one base hits. Gibbons pushed one over the ash heap, which looked like a three bagger, but according to field rules he only was allowed first on it.

Doyle of the Thistles got a two bagger.

The box score follows:

Shamrocks.	
	AB R H PO A E
Howard, r.f.	3 0 1 0 0

Baseball Dope.

This afternoon at 2:30 "Mugsy McGraw" will distribute baseball brains to the members of the other teams in the league. He reserves the right not to part with any of those used in last night's game.

"Mugsy" returned to the city on Saturday last bringing with him one dirty shirt, a celluloid collar, some real estate from the Braves diamond and an assortment of wrinkles.

No need of a talking machine for the Shamrocks since the human one has arrived back.

Gibbons no doubt will put on football boots for the next game.

Atlas carrying the world on his shoulders has got nothing on Gibbons carrying the Shamrock team around on his brain.

A field hospital near that cliff on the ash heap would be a charitable work.

Haggerty still continues to flirt with eternity.

Thistles and Shamrocks again tonight.

BASEBALL

AMERICAN LEAGUE.

Washington 7, Cleveland 5.

Washington, June 13—Washington won the first game of a double-header from Cleveland 7 to 6. Darpkes pitched the second game at the end of

Pittsburg 4, Toronto 3. Batteries—Anderson and Rainbird, Gibson; Grimes and Fischer. Philadelphia 3, Cincinnati 2. Cincinnati, June 13—Regan pitched brilliant ball here today against Philadelphia, but received woeful support and Cincinnati lost the first game of the series. The score: Philadelphia 4, Cincinnati 3. Batteries—Alexander and Killifer; Regan, Knetser and Wingo. At Chicago. Chicago-Boston, rain. At St. Louis. St. Louis-Brooklyn, rain.

INTERNATIONAL LEAGUE. Montreal 4, Toronto 1. Toronto, June 13—Gerner was too much for the Leafs today and the Royals won 4 to 1. The score: Toronto 4, Montreal 1. Batteries—Tippie, Warhop and Lalong; Gerner and Rainbird. Providence 5, New York 3. Providence, June 13—The Grays went into first place today by handing Newark a 5 to 3 defeat. The score: Providence 5, Newark 3. Batteries—Schultz and Mayer; Ross and Egan. Baltimore 5, Richmond 5. Richmond, June 13—With the bases full in the eleventh inning today Distell dropped a long fly by Bues, and Baltimore scored the winning run, defeating Richmond by a score of 5 to 5. The score: Baltimore 5, Richmond 5. Batteries—Farnham and Schaefer; Magala, Enright and Reynolds. Buffalo 3, Rochester 1. Rochester, June 13—Tyson held the hard-hitting Hustlers to five hits today and Buffalo defeated Rochester 3 to 1. The score: Buffalo 3, Rochester 1. Batteries—Tyson and Onslow; Lotz and Wendell.

SIR WILFRID ANNOUNCES THAT HE IS NOT READY TO DISCUSS CONSCRIPTION (Continued from Page 1) How Defeat Can Come. If they can agree to the introduction of the amendment to be prepared by the committee appointed yesterday, and by such means keep the most of their English members, there is a possibility that the measure may be defeated in the house, or if passed, the majority will be very small. There is much curiosity and not a little concern regarding the attitude of the French members. At first, it was supposed they would support the government. Pressure from the school of agitators in Quebec, however, indicates that this may not work out on the lines first thought, and it was stated this afternoon by a man closely in touch with the situation that while the

two ministers, Hon. Messrs. Blondin and Sevigny, would vote with the government, about the only other French support on which they can count is Dr. Chabot, Ottawa; Albert Champagne, Battleford, and F. J. Robideaux of Kent, N. B. J. H. Rainville, formerly counted with the conscriptionists, will now, it is reported, forsake his political party to oppose the compulsory service measure. On the other hand, the government is likely to draw much support from the ranks of British Liberals, although if the opposition amendment can be drawn to reconcile all parties there is the possibility that this support will not be as sweeping as at first indicated. It can fairly be said therefore that while present indications point to the passage of the compulsory service measure the majority in its favor will be smaller than the government had hoped for.

What will happen if the measure is defeated is another question upon which there are many opinions. There may be an election if the Liberals force it, now that the proposal of an official coalition has been defeated by the action of the Liberal leader, Sir Robert Borden and the great majority of his followers are opposed to the thought of plunging the country into the stress and strife of a general election during the period of war and particularly on such an issue as compulsory service. Should an election come, however, by autumn or before there can be no doubt of the result. Ontario would go more strongly Conservative than the rest of the province. Quebec, it is feared, would split largely on racial lines, with the majority of French members irrespective of their political affiliations pledged to the support of Laurier. The Maritime provinces would also show Conservative gains, and in this regard it is interesting to note that while the

Synopsis of Canadian Northwest Land Regulations.

The sole head of a family, or any male over 18 years of age, at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may acquire a quarter-section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years. In certain districts a homesteaded man may secure an adjoining quarter-section as pre-emption. Price \$3.00 per acre. Duties—Reside six months in each of three years after earning homesteaded patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homesteaded patent on certain conditions. A settler after obtaining homesteaded patent if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$2.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00. If of 100 acres may count time of employment as farm laborer in Canada during 1917, as residence duties under certain conditions. When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive one day priority in applying for entry at local Agent's Office (but not Sub-Agency). Discharge papers must be presented to Agent. W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for. Office in the capacity of organizer or

Every minute wasted on the road by slow, inefficient hauling and delivery costs you real money. Horses take from three to four times as long to cover the ground as it will take you when you install Smith Form-a-Truck in your service.

Three to four miles an hour is the best horses can do with a ton load. Smith Form-a-Truck replaces the slow, time-wasting walk of horses with a speed from ten to fourteen miles an hour under every condition of work.

And it costs no more to buy a Smith Form-a-Truck than it does to buy a good pair of horses equal to the work of hauling a ton load. If your hauling or delivery requires all-day service every working day of the year, you must have at least two teams for every wagon.

The sturdy, efficient, uniting Smith Form-a-Truck never takes time out for rest, never has to lay off the job. It works steadily day in and day out, always maintaining its high speed, always moving its load quickly, easily, and at lower cost than any other form of service you can buy.

Records of service obtained from over 18,000 Smith Form-a-Truck users show a ton mile cost of less than 8 cents. And the first Smith Form-a-Truck ever sold has been in service four years, covered 20,000 miles and cost only \$5 for repairs.

Get a Smith Form-a-Truck, attach it to any Ford, Dodge Bros., Overland, Buick, Chevrolet or Maxwell chassis and end your excessive hauling and delivery costs.

Put your hauling problems up to us. It doesn't cost you a cent to learn just how much money we can put back into your pocket that you are now putting into horses.

APPLES, ORANGES FIGS AND PRUNES

Are the Four Fruits Used in Making "Fruit-a-Lives"

"FRUIT-A-LIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-Lives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-Lives" is entirely different from any other preparation in the world, is just why you should give it a fair trial. In any trouble of the Stomach, Liver, Bowels, Kidneys or Skin, "Fruit-a-Lives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-Lives Limited, Ottawa.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings" will be received at this office until 4:00 p.m. on Tuesday, July 3, 1917, for the supply of coal for the Public Buildings throughout the Dominion. Combined specification and form of tender can be obtained on application at this office and from the caretakers of the different Dominion Buildings. Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Hon. the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter a contract when called upon to do so or fail to complete the contract. If the tender is not accepted the cheque will be returned. By order, R. C. DESROCHERS, Secretary, Department of Public Works.

NEWSPAPERS will not be paid for this advertisement if they insert it without authority from the Department.

The score by innings—Shamrocks 3, Thistles 2. 200000-3

Baseball Dope.

This afternoon at 2:30 "Mugsy McGraw" will distribute baseball brains to the members of the other teams in the league. He reserves the right not to part with any of those used in last night's game.

"Mugsy" returned to the city on Saturday last bringing with him one dirty shirt, a celluloid collar, some real estate from the Braves diamond and an assortment of wrinkles.

No need of a talking machine for the Shamrocks since the human one has arrived back.

Gibbons no doubt will put on football boots for the next game.

Atlas carrying the world on his shoulders has got nothing on Gibbons carrying the Shamrock team around on his brain.

A field hospital near that cliff on the ash heap would be a charitable work.

Haggerty still continues to flirt with eternity.

Thistles and Shamrocks again tonight.

BASEBALL

AMERICAN LEAGUE.

Washington 7, Cleveland 5.

Washington, June 13—Washington won the first game of a double-header from Cleveland 7 to 6. Darpkes pitched the second game at the end of

Pittsburg 4, Toronto 3. Batteries—Anderson and Rainbird, Gibson; Grimes and Fischer. Philadelphia 3, Cincinnati 2. Cincinnati, June 13—Regan pitched brilliant ball here today against Philadelphia, but received woeful support and Cincinnati lost the first game of the series. The score: Philadelphia 4, Cincinnati 3. Batteries—Alexander and Killifer; Regan, Knetser and Wingo. At Chicago. Chicago-Boston, rain. At St. Louis. St. Louis-Brooklyn, rain.

INTERNATIONAL LEAGUE. Montreal 4, Toronto 1. Toronto, June 13—Gerner was too much for the Leafs today and the Royals won 4 to 1. The score: Toronto 4, Montreal 1. Batteries—Tippie, Warhop and Lalong; Gerner and Rainbird. Providence 5, New York 3. Providence, June 13—The Grays went into first place today by handing Newark a 5 to 3 defeat. The score: Providence 5, Newark 3. Batteries—Schultz and Mayer; Ross and Egan. Baltimore 5, Richmond 5. Richmond, June 13—With the bases full in the eleventh inning today Distell dropped a long fly by Bues, and Baltimore scored the winning run, defeating Richmond by a score of 5 to 5. The score: Baltimore 5, Richmond 5. Batteries—Farnham and Schaefer; Magala, Enright and Reynolds. Buffalo 3, Rochester 1. Rochester, June 13—Tyson held the hard-hitting Hustlers to five hits today and Buffalo defeated Rochester 3 to 1. The score: Buffalo 3, Rochester 1. Batteries—Tyson and Onslow; Lotz and Wendell.

SIR WILFRID ANNOUNCES THAT HE IS NOT READY TO DISCUSS CONSCRIPTION (Continued from Page 1) How Defeat Can Come. If they can agree to the introduction of the amendment to be prepared by the committee appointed yesterday, and by such means keep the most of their English members, there is a possibility that the measure may be defeated in the house, or if passed, the majority will be very small. There is much curiosity and not a little concern regarding the attitude of the French members. At first, it was supposed they would support the government. Pressure from the school of agitators in Quebec, however, indicates that this may not work out on the lines first thought, and it was stated this afternoon by a man closely in touch with the situation that while the

two ministers, Hon. Messrs. Blondin and Sevigny, would vote with the government, about the only other French support on which they can count is Dr. Chabot, Ottawa; Albert Champagne, Battleford, and F. J. Robideaux of Kent, N. B. J. H. Rainville, formerly counted with the conscriptionists, will now, it is reported, forsake his political party to oppose the compulsory service measure. On the other hand, the government is likely to draw much support from the ranks of British Liberals, although if the opposition amendment can be drawn to reconcile all parties there is the possibility that this support will not be as sweeping as at first indicated. It can fairly be said therefore that while present indications point to the passage of the compulsory service measure the majority in its favor will be smaller than the government had hoped for.

What will happen if the measure is defeated is another question upon which there are many opinions. There may be an election if the Liberals force it, now that the proposal of an official coalition has been defeated by the action of the Liberal leader, Sir Robert Borden and the great majority of his followers are opposed to the thought of plunging the country into the stress and strife of a general election during the period of war and particularly on such an issue as compulsory service. Should an election come, however, by autumn or before there can be no doubt of the result. Ontario would go more strongly Conservative than the rest of the province. Quebec, it is feared, would split largely on racial lines, with the majority of French members irrespective of their political affiliations pledged to the support of Laurier. The Maritime provinces would also show Conservative gains, and in this regard it is interesting to note that while the

Synopsis of Canadian Northwest Land Regulations.

The sole head of a family, or any male over 18 years of age, at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may acquire a quarter-section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years. In certain districts a homesteaded man may secure an adjoining quarter-section as pre-emption. Price \$3.00 per acre. Duties—Reside six months in each of three years after earning homesteaded patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homesteaded patent on certain conditions. A settler after obtaining homesteaded patent if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$2.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00. If of 100 acres may count time of employment as farm laborer in Canada during 1917, as residence duties under certain conditions. When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive one day priority in applying for entry at local Agent's Office (but not Sub-Agency). Discharge papers must be presented to Agent. W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for. Office in the capacity of organizer or

SHAMROCKS DEFEATED THISTLES IN EXCITING GAME YESTERDAY WHICH WENT SIX INNINGS

Whitey Gibbons Turned Tide of Victory in Shamrocks' Favor—Decision on Third Inning Play Given to Shamrocks—Some Excellent Playing Witnessed.

Displaying strategy emulating even that of Joffre, the hero of the Marne, Whitey Gibbons turned the tide of victory in the Shamrocks favor in the third inning last night. Although the method used by the heady short stop will be the cause of a big discussion at a meeting of the committee, yet, according to the ruling of the umpire the game will likely be thrown to the Shamrocks. Gibbons turned for third in this inning and it looked as though it was a sure out, but Mooney muffed the ball and it was kicked by Gibbons, apparently accidentally, so he kept right on for home. With the score 2-2 previous to this play it gave reason for an argument by the Thistles. However, Billy Howard gave the ruling in favor of Gibbons, thus making the score 3-2. This was the play that decided last night's contest. On the part of Gibbons it was clever work and if he can get by with it, who can blame him.

The Thistles scored two runs in the first,

HOUSEWIVES' LEAGUE IN SESSION YESTERDAY

K—House Wives League A meeting of the membership, vigilance and civic committees of the Housewives' League was held yesterday afternoon at the office of W. V. Lawlor, Princess street. There was a full attendance of the members. Plans for Housewives week were talked over and committees appointed to complete arrangements. Reports of the various committees were received and it was decided to take some action in regard to prices charged for necessities of life. It was decided that if necessary a boycott would be called although this would be a last resort. But if there was not a decided drop in prices for food stuffs within the next week this action would be taken. The ladies mean business and unless prices come down will carry out their intention of declaring a boycott.

Who's Who and What's What in the Picture World and on the Stage--Favorites and What They Say and Do.

IMPERIAL

"The Bottle Imp." I think this is one of the best pictures I have ever seen. Now you may not agree with me, and may find my praise too high, but at least you will have to admit that it is a wonderfully acted, masterfully produced picture, and as for the story, well Robert Louis Stevenson had in his time, and has today, what one might safely call a reputation for inventive genius, and that is all I will say about the plot.

Of course I like imaginative picture plays, and the way the picture refused to leave its owner and the place, which grew up out of almost nothing, was just delightful to my mind. The Hawaiian scenery is alone worth seeing.

The cast headed by Sessue Hayakawa is excellent, and there is not one character which one would wish changed, except, perhaps, the author himself.

I wonder if Lloyd Osborn had sighted more after the tale.

Sessue Hayakawa displays his ability in the role of Lopaka the fisherman, and there is a chance for him to show his skill as a swimmer and as a wrestler in some of the additional scenes.

Beatrice Seely, Miss Gertrude Thompson, Miss Reta Carleton, Charles Adams and Charles Melaner.

of a student preacher in India; and that money amounting to nearly one hundred dollars had been raised.

The Women's Missionary Society reported satisfactory meetings and a number of new additions to its membership and special study and lectures on missions and educational themes. Two hundred dollars were raised for missionary work.

The Mission Band had held meeting during the winter months only \$11.20 were raised by the band. The Baby Band reported through its superintendent that \$10 had been raised as their quota to missionary work.

The church, as usual, had exceeded its allotment for the denominational budget, the offering this year being \$491.83. The receipts on current account were a little more than \$2,500; receipts on the building fund amounted to \$2,153.96; other funds \$405.00, which, together with the Sunday school fund made a total of about \$5,000. An expenditure of nearly six thousand dollars had been made on the church building during the year, thus equipping it for greater efficiency in its Sunday school work.

A report was given by Mrs. William Lynch, the indefatigable secretary of the local Red Cross society, which is not included in the church accounts but which showed excellent work done and more than two hundred dollars raised for the society's work.

feature offering of very high merit—story admirable.

The Motion Picture News says:—"When such master literature is so masterly interpreted as in this production, there can be no doubt of its reception from picture-lovers everywhere."

So you see I am not alone, and if you don't like it—well, I'm sorry.

Beside this feature there is a World Tour (Gaumont) of a Russian city; a Swiss city, and fine views of Pompeii, also some pictures of growing apples in New Brunswick. Could you ask for more?

MARY GIVES AMBULANCE. Mary Pickford last week donated an ambulance of the latest type to the local Red Cross at Los Angeles. The vehicle of mercy plays an important part in Miss Pickford's new Artcraft production, "The Little American," a picture of patriotic appeal, and upon the completion of the scenes in which it was used, the ambulance was turned over to the local organization, which expects to see service in France shortly. The ambulance was specially built for the Pickford picture and was designed by a surgeon connected with the American Ambulance Corps. It has twice the capacity for wounded cases of the former type.

OLOND'S WIFE AN ARTIST. Very few persons who frequent motion picture theatres are aware of the fact, says The Dramatic Mirror, that

NEW BAY STEAMER. The new steamer being built by Hugh Cann & Sons for the St. John Westport-Yarmouth route, is close to completion at Shelburne, and it is expected that it will be launched within two weeks. The craft will then be towed to Yarmouth to be fitted with engines and equipped by Burrall & Johnson machine shops. It is stated that she will be finally fitted for service about the last of July.

NEWS AND COMMENT FROM THE FINANCIAL WORLD

STEEL FORCE MORE KING IN MARKET

United States and Bethlehem Score New High Records—Stocks Generally Strong.

New York, June 13.—The market acquired a new lease of life today, primarily on the overnight decision of the directors of the United States Steel Corporation to declare another "extra" dividend of three per cent. on the common stock for the current quarter.

This action, it is believed, virtually insures full dividend returns of seventeen per cent. on the common shares for the calendar year. Moreover, it bespeaks the confidence of eminent trade authorities in the future of the steel industry.

Heavy Purchases. U. S. Steel was absorbed in countless lots of 1,000 to 20,000 shares, the price rising steadily to 124 1/2, an overnight advance of 3 1/2 points and closing at 133 1/2.

Bethlehem Steel, new stock, also established a new maximum at 155, and Industrial Alcohol recorded a similar achievement at 17 1/2, both issues receding moderately at the end.

A general increase of demand was manifested in all parts of the railway divisions, the inquiry ranging from high grade investment issues to many of the low-priced or re-organized roads.

Other Stocks Rise. Shippings, oils, motors, utilities and numerous unclassified specialties participated in the rise at gross advances of one to four points.

Yet another low record for rubles and slight easing of lines were the features of the exchange market.

Bonds were irregular, a few important issues tending downwards. Total sales, par value, aggregated \$2,225,000.

United States bonds declined 1/2 to one per cent. on call.

MORE MINE LABOR

Special to The Standard. Toronto, June 13.—The effect of government regulation recently passed relieving owners of mining claims from necessity of doing work upon their claims this year on condition that it is performed in 1918 is already improving the labor situation in the Cobalt and Porcupine mining camps.

About two thousand holders of mining claims have been relieved for work in mines through this summer. One thousand men have been made available in Porcupine camp alone, but it is claimed to be hundred additional workers can be employed in the big production plants there.

FURTHER IMPROVEMENT IN CANADIAN STOCKS

Stocks Prominent—Dominion Iron Gains Point and Scotia Two—Riordan Up and Steamship Strong.

Special to The Standard. Montreal, June 13.—Following the late rally of Tuesday there was some further improvement in Canadian stocks today, although the volume of business continued small and trading narrow.

Variable improvement shows in the balance of the list included recoveries of two for Riordan Pulp at 123, one for Cement at 61 1/2, and one for Canadian Car at 29.

Canada steamship stocks were favorably affected by the morning's announcement of the new dividend policy of the company.

CANADA STEAMSHIP PAYS SOME DIVIDENDS

Company in Generally Satisfactory Condition, Although Passenger Business Restricted.

Special to The Standard. Montreal, June 13.—At a meeting of the directors of the Canada Steamship Lines Limited today it was decided to revert to the old policy of quarterly dividends on the company's preferred stock, abandoning the decision of autumn, 1914, to defer all declarations in respect to a year's earnings until that year's account was closed.

The directors declared a dividend of 1 1/2 per cent. plus 5 1/2 per cent. to cover the quarter up to April 1st last, and made further announcement that the balance of year's seven per cent. dividend would be paid 1 1/2 per cent. on October 30th, and 3 1/2 per cent. on December 31st.

SHRINKAGE IN DOMINE ORE RESERVES

Labor Scarcity Serious Problem and Little Hope of Improvement Until After War.

Special to The Standard. Toronto, June 13.—In answer to a question as to the shrinkage in estimated ore reserves of Dome mines as compared with the estimate of the previous annual statement, Mr. C. E. Kaeding, general manager of the property, told shareholders at the annual meeting that the previous annual statement showed estimate approximately \$16,000,000 in ore reserves, of which over \$2,000,000 was extracted during the year.

Another question from shareholders was in respect to supply of labor and Mr. Kaeding said that conditions with regard to labor is bad, as there are not sufficient men, and the quality of mine workmen not nearly so good as in former times.

NEWS SUMMARY

(McDOUGALL & COWANS.) New York, June 13.—Directors of U. S. Steel Corporation at a special meeting yesterday declared an extra dividend on common stock payable July 23th.

Annual Meeting Today Will Hear Some Encouraging News—Improvement in Coal Situation.

Special to The Standard. Montreal, June 13.—President Workman's review of the exceptional position in which the company now finds itself and of its plans for the immediate future will be the feature of the annual meeting of Dominion Steel Corporation to be held tomorrow.

Part at least of the Dominion Steel's fine earning showing of the past year is attributed to the president's judgment in keeping the mills booked up with all they could handle, while not tying the company down to closely on long term contracts.

190 LIVES ARE LOST ON BIG FRENCH SHIP

Steamer Sequana Torpedoed in Atlantic—Leyland Line steamer Anglian Sunk.

Paris, June 13—The south Atlantic liner Sequana, with 550 passengers on board, has been torpedoed and sunk with a loss of 190 men.

The Sequana was sunk in the Atlantic. Among the passengers was a detachment of the Senegalese Rifles.

The Sequana, formerly the City of Corinthia, was owned by the South Atlantic Navigation Co., Paris. Her gross tonnage was 5,357. She was 450 feet long and was built in Belfast in 1896.

Leyland Liner Gone.

Boston, June 13—The Leyland Liner Anglian, which left Boston on May 23 for Liverpool, has been torpedoed and sunk by a German submarine, according to cable advice received by agents here today.

SIR W. W. SULLIVAN OF P. E. I. COURT RETIRES

Charlottetown, June 13—The resignation of Sir William Wilfrid Sullivan, Chief Justice of Prince Edward Island since November, 1889, because of the condition of his health, is announced.

Sir William was born in 1843, from 1878 until 1889, he was premier of Prince Edward Island. Upon the death of the late Hon. Edward Palmer Chief Justice, Mr. Sullivan was appointed Chief Justice in November, 1889.

THE POLICE COURT.

In the police court yesterday morning a fine of \$10 was allowed to stand against Frank Larrey for oversteering his automobile on Mecklenburg street.

Edward Evans was fined \$10 for exceeding the speed limit on Wentworth street.

J. C. Doore, reported for allowing his car to stand on Main street, May 27th, for longer time than allowed, had his case postponed until Friday to give him time to consult his books.

J. E. Belyea pleaded guilty to exceeding the speed limit in his car at Haymarket Square on the 10th instant and was fined \$10.

A West Side Barberman was before the court following a report for allowing a gambling in his shed. After some evidence was taken and it was shown no great harm was done, the case was dismissed.

Edward Adams was reported for burning a pile of brush in M. B. Edwards' yard corner Sydney and Mecklenburg streets. The case was adjourned until tomorrow.

HON. MR. VENIOT IS SEIZED WITH ILLNESS

Fredericton, June 13—Hon. P. J. Veniot, Minister of public works, was removed to the Victoria Public Hospital from Queen Hotel, this morning suffering from a severe attack of arteriosclerosis. An ambulance was necessary for the removal. After his arrival at the hospital and an examination it was found that the condition of the patient was not as serious as had been thought. With perfect quietness for a day he will be able to be out again. Dr. McGrath was called to attend Hon. Mr. Veniot and preparations had been made for an operation by Dr. J. C. Webster, of Chicago, who is spending the summer at Shediac. Dr. Webster is a noted abdominal surgeon. The operation will not be necessary.

WEDDINGS

Flower-Lowell.

At three o'clock yesterday afternoon on the Fairville Baptist Church, Miss Annie Pauline Lowell, daughter of Mrs. James Lowell of South Bay, was united in marriage to George Vernon Flower of St. John. Miss Dorothy L. Sutton was bridesmaid, and John A. Olive supported the groom and the ceremony was performed by Rev. P. R. Hayward.

Mr. and Mrs. Flower left on a two weeks' auto trip and on their return will make their home at South Bay.

Haye-Hicks.

A wedding of much interest was solemnized in Pettitocodiac at 12.30 noon, on Tuesday, June 12, when Richard C. B. Kaye, son of Mr. and Mrs. J. Sidney Kaye of St. John was united in marriage to Miss Eva Hicks daughter of Mrs. A. M. Hicks of Pettitocodiac. The ceremony was performed by Rev. Milton Addison in the United Baptist Church. The bride was attended by Miss Stella Jones, and Sidney B. S. Kaye, brother of the groom, acted as groomsmen. After the ceremony Mr. and Mrs. Kaye left on a honeymoon trip through Nova Scotia, and on their return will reside in Moncton.

McAlpine-Gillespie

On Tuesday evening in Trinity Church, in the presence only of immediate relatives, Rev. R. A. Armstrong married Mrs. Nita Golding Gillespie to Dr. Lemuel Allan McAlpine. Mr. and Mrs. McAlpine left by train for Boston and New York, and will return home by way of Montreal.

"WHAT OF TOMORROW"

Resolve to think you will find it a profitable pastime. The industrial ambition of our city is but the sum of the individual ambitions of our people encouraging the individual ambitions of our manufacturers.

What progress will our city make, to what degree of prosperity will it attain in ten years—in twenty years—in fifty years? Every loyal citizen who has the interest of his community at heart, who is sufficiently far sighted to plan for the future of his children, should give this question first consideration.

The foundation of our industrial supremacy has been laid. Our many natural advantages give promise of better things. The rest lies with us—the future is in our hands. If we show our appreciation of the opportunities offered us—if we encourage the pioneers of industry who showed confidence in us by investing their money here and their perseverance and industry have built up establishments that merit our recognition and support, by properly patronizing them the biggest step toward our industrial supremacy and greatness will have been taken.

The "Buy Home Products" rule is the wisest rule for you to follow.
