FREDERICTON'S BEST EXHIBITION OPENED

Fine Weather and Splendid Exhibits Augur Well for Its Success

Governor Snowball, Premier Tweedie, and Other Notables Take Part in Opening Ceremonies—Special Attractions Best Ever Seen at the Capital—Many St. John Exhibitors—Everything Points to Enormous Attendance During the Next Week.

Fredericton, N. B., Sept. 21.—(Special)—Lieutenant Governor Snowball formally opened the Fredericton Exhibition at 3 o'clock this afternoon under most favorable circumstances. The weather was beautifully fine though just a trifle warm for September, and the crowd, in attendance, was unusually large for the opening day.

The lieutenant governor, accompanied by Hon. Messrs. Tweedie, Farris, McNeill, and Private Secretary Barker, Mayor McNally, members of the city council, civic officials and military escort composed of Col. Chipman and officers of the seventy-first, Major Bridges of the army service corps and Lieutenants Gilman and Clements of the Eighth Hussars, arrived at the exhibition buildings shortly before 3 p. m. and were given a cordial welcome by the Fredericton brass band playing the national anthem.

President Campbell and members of the executive received the visitors in the open air to amusement hall, where the opening ceremony took place. President Campbell, on behalf of Agricultural Society No. 34, presented a letter of honor with a complimentary address as follows:

To the Honorable James Bunting Snowball, D. C. L., LL. D., Lieutenant Governor: In welcoming you and the members of your government on this opening day of your exhibition, I am sure that you will appreciate the honor conferred upon you by the agricultural community of this province in making you its representative in the various agricultural interests of the Dominion. It is a great pleasure to have you here, and we are sure that your presence will be a great help to the advancement of our common interests. Permit me, therefore, on behalf of the Agricultural Society, to extend to you our warmest wishes for the success of your exhibition and a most hearty welcome.

Our society, as indeed every person interested in the progress of agriculture in this province, is well aware of the increasing attention given by you and your government to the advancement of this, the greatest industry of the country, and following the teaching of the agricultural interests of the province, we are sure that you will be able to do much for the advancement of our common interests. Permit me, therefore, on behalf of the Agricultural Society, to extend to you our warmest wishes for the success of your exhibition and a most hearty welcome.

The governor replied in a most interesting speech which was attentively listened to. He referred briefly to his experience as a farmer and the interest he had always taken in agriculture. He was a believer in the progress of agriculture in this province.

CECIL RHODES' BROTHER DEAD Was Sentenced to Death for Taking Part in Jamieson Raid but Afterwards Released. London, Sept. 21.—The British South African Company in London this evening received information of the death in Cape Town, of Colonel Francis William Rhodes (retired), brother of the late Cecil Rhodes, and managing director of the African Trans-Continental Telegraph Company.

For participation in the Jamieson raid, Colonel Rhodes was sentenced to death, the sentence being subsequently commuted to imprisonment followed by banishment. The colonel served with distinction in the campaigns in the Sudan and on several occasions was mentioned for bravery.

FIVE-MASTER RAVES A STEAMER

Six Passengers and Two of Ship's Officers Were Injured

A TERRIFIC CRASH The Harwood Palmer, Coal Laden, Collided With the Junata in a Fog Off Chatham, Wednesday Night, and Smashed All Her Upper Works.

Boston, Sept. 21.—The injury of six passengers and two of the ship's officers by a collision at sea was reported by the steamer Junata of the Merchants and Miners' Transportation Company, bound from Boston to Baltimore and Norfolk, which put into this port late this afternoon, disabled and badly damaged. The Junata was rammed last night, thirty miles off Chatham, by the five-master steamer Harwood Palmer, bound from Baltimore for Portland (Me.), with a cargo of coal.

The injured—J. F. Johnson, North Abington (Mass.), leg broken, head cut and injured internally. Mr. and Mrs. John G. Ray, South Boston, bruised and badly shaken up. Mr. and Mrs. Fridell, Pittsburg (Pa.), bruised.

Corporal J. J. Mattery, U. S. Corps, Captain S. Nickerson, of the Junata; Quartermaster John Pickett. No one on board the schooner was injured. That the accident did not result in a general loss of life on the steamer is considered remarkable by everyone on board. The steamer had a great hole stove in her starboard side, amidships, her cabins from that point forward were ripped and torn into kindling, and her pilot house was wrecked and the foremast and smokestack were carried away.

The Junata returned to her dock here this afternoon and landed her passengers and arrangements were made to transfer the cargo. The Palmer lost her jibboom, bowsprit and headgear. The collision occurred at 9:30 o'clock last night when the Junata was steaming around Cape Cod. A fog hung over the vessel and the speed had been reduced to a crawl. A sharp lookout was being kept and Captain Nickerson was in the pilot house personally directing the movements of his ship. Suddenly the lookout shouted warning to the starboard and bearing down on the steamer rapidly. Captain Nickerson ordered that the wheel be put to starboard and the engines reversed, but even as his order was being executed the flapping of huge sails and hoarse fog alarm were heard and in less than a minute the vessel's look-out was struck and the Junata steamer was struck a terrific blow squarely amidships on the starboard side.

A Mass of Wreckage. Immediately following the first crash the schooner scraped along the side of the steamer, her spars and rigging turning the upper deck into a mass of wreckage. The Junata and the pilot house were torn apart as though made of paper and that any of the passengers or Captain Nickerson or Quartermaster John Pickett escaped alive is considered almost miraculous. The immense bowsprit of the schooner after unroofing the steamers and wrecking the Junata, became embedded in the upper works and was snapped off short.

All aboard the steamer remained cool and there was not the slightest evidence of a panic. As a precautionary measure the life boats were made ready by the crew and sailors not thus engaged went to the assistance of the male passengers who were vigorously working on the life boats which were lowered by the crew. Captain Nickerson and Quartermaster Pickett were buried. It was soon found that J. W. Johnson was the only person seriously injured. His stateroom was almost opposite the spot at which the schooner struck and was buried in the mass of wreckage. His right leg was cut and his head and face were injured, together with the others who were injured, were made as comfortable as possible, and Captain Nickerson began an investigation of the damages sustained by his ship.

Meanwhile it was learned that the schooner was damaged, but that the Junata was not seriously injured. Both the vessels hovered about the spot of the collision until daylight when the extent of the injuries sustained by the Junata was found to be above the head and face. Captain Nickerson decided that it would be safe to steam back to Boston. When he arrived here Johnson was removed to a hospital and the injuries of the others were attended to by a physician. The passengers were sent to Providence by train, whence they proceeded to their destinations on the steamer Essex. The headgear of the Palmer was carried away in the collision but so far as known she was not seriously damaged. A steamer tug was sent down to the Junata and the schooner is to be towed to her destination at Portland.

PRINCE LOUIS AT HALIFAX RACES

Made His Official Visits Thursday, Coming Into Port in a Launch

FIVE WARSHIPS ARRIVE ANOTHER QUEER LOAN

Halifax, N. S., Sept. 21.—(Special)—Five ships of the second cruiser squadron are now in port here. They are the Cornwall, Essex, Berwick, Bedford and Cumberland. The Drake, flagship of the fleet, is at anchor off the harbor entrance, having remained there for gun practice and will come into port tomorrow morning.

This morning Prince Louis came up to the city in a launch and paid official visits to Lieut. Governor Jones and General Sir Charles Parsons, K. C. M. G. It is understood that two visits were made on orders from England, the lieutenant governor as representative of the crown and to General Sir Charles Parsons, as senior officer commanding. His serene highness was received with a guard of honor from the Royal Garrison Regiment.

Mayor Maclellan made an official call on the prince this morning and at 12:30 his highness visited the city hall and was escorted to the council chamber. The prince, accompanied by the lieutenant governor, the mayor and the aldermen were in council, having met at 12:15 when H. S. H. arrived.

An address of welcome was read, to which his highness replied. In his reply he said these visits of squadrons will be regularly repeated during the portion of the year which the former permanent squadron used to spend in the northern part of the North American West Indies station.

After making the reply his serene highness, who wore the uniform of rear admiral and was accompanied by General Charles Parsons, both officers being decorated by their A. D. C.'s, was escorted to the main alley and other citizens present to bid him adieu.

Prince Louis Sees the Races. In the afternoon the prince was the guest of the exhibition commissioners at luncheon at the fair grounds, after which he occupied a seat on the grand stand and watched the racing. A sharp lookout was being kept and Captain Nickerson was in the pilot house personally directing the movements of his ship. Suddenly the lookout shouted warning to the starboard and bearing down on the steamer rapidly.

Canada Starts Fiscal Year With Increased Trade For Two Months Ended August There Was a Gain of Nearly \$400,000 Over Similar Period of Previous Year. Ottawa, Sept. 21.—(Special)—Completion of the trade returns for the first two months of the fiscal year terminating on August 31, was completed today. There appears to be no danger of a falling off in the customs revenue, which amounted to \$2,621,650 in 1905, being a betterment of \$77,611, when compared with the same period of the previous fiscal year. The total imports were \$42,688,285, exclusive of coin and bullion, a gain of \$2,187,263.

MR. PERKINS THE RACK AGAIN

Admits a Loss of \$300,000 of New York Life Money in One Deal.

Fifty Thousand Dollars Lent to One Man at 11-2 Per Cent. Interest—Witness is Rather Hazy on Some Transactions and Asks Time to Refresh His Memory.

New York, Sept. 21.—George W. Perkins, vice-president of the New York Life Insurance Company, and member of the witness stand before the special legislative committee probing insurance companies' methods during the greater part of today's session. When an adjournment was taken he was still on the stand with a number of questions pending, to reply to which he asked permission to look up the records and submit transcripts.

There was nothing of a sensational character in the testimony today, the only development of moment being the witness' disclosure in the New Orleans Traction Syndicate, in which the company sustained a loss of more than \$300,000.

Edmund V. Randolph, treasurer of the company, had been questioned rather sharply regarding this transaction, which would be on the stand last week. Today the matter was brought up when Counsel Hughes attempted to probe the matter.

There is one view that I have communicated to the press, and I will mention to you here. I would like to see a system inaugurated by which the heads of the various departments would be held accountable for results. They must show to the board the results of their management, and do it. Every man in charge of a department will be expected to have some backbone. He will make mistakes, but he will not make them in a way that will reflect on the company.

Another Curious Loan. It was brought out that John R. Hege, president of the Metropolitan Life Insurance Company, was carrying a running loan with the New York Life of \$50,000, at 11 per cent. interest. Mr. Perkins did not know whether this matter came before the finance committee and would also look the other way.

Witness could not explain why the New York Life had bought \$400,000 worth of bonds from the New York Life of \$200,000 worth should be sold back to that firm at the same price within two months, and no minutes of the finance committee could be found to explain it.

The transaction in Navigation Syndicate bonds of December 31, 1903, when Mr. Perkins for the New York Life, sold Mr. Perkins for the New York Life of \$800,000 in these bonds, came up again when the warrant for the check of \$800,256 was produced. These bonds were bought back by the New York Life for \$800,000 in 1904. Mr. Perkins testified, was for the adjustment of interest. Mr. Perkins would not acknowledge the transaction.

EMERSON SPEAKS OF USELESS EXPENSE ON THE INTERCOLONIAL

Minister Used Some Plain Language at Moncton Conference, and Said Change for the Better Must Come, or End of I. C. R. as a Government Road Would Be in Sight.

Hon. Mr. Emerson used some pretty plain language about the I. C. R. in the conference at Moncton with the heads of departments and other officials. He directed attention to useless expenditure and said improvement must be effected, or the end of the I. C. R. as a government road was in sight. The Moncton Transcript quotes the minister as saying, in part:

Such changes as will prevent the existing deficit being repeated are necessary. If this is impossible, or if we cannot make ends meet, then I say that the end of the Intercolonial as a government operated road is in sight. I am fully imbued with that idea, and I think the trend of events bears me out. Of course, somebody may say that if, in this, were so the people of the maritime provinces would arise in their political might and go against any government or set of men who might advocate the handing over of the Intercolonial to the private provinces. I think that is a disadvantage in a contest of that nature, when opposed by the force that would be on the other side. I direct your attention to these facts in order that you may see the thing as I see it, and that you may help demonstrate if it can be carried out on the present system without such a great disparity between receipts and expenditure.

There is one view that I have communicated to the press, and I will mention to you here. I would like to see a system inaugurated by which the heads of the various departments would be held accountable for results. They must show to the board the results of their management, and do it. WANTS BIGGER GUNS FOR YANKEE POACHERS

Captain of Cruiser Vigilant Applies to Ottawa for Quick-Firer—Other News of the Capital.

Ottawa, Sept. 21.—(Special)—It is more than likely that at the first meeting of the cabinet a formal application will be made through the imperial authorities to the government of Japan to allow the advantages of the Japanese minimum tariff. It is understood that all that is necessary for Canada to make the application and to have it granted, the matter came up at the last meeting of the cabinet, but it was left over until the next meeting.

Regarding the request of Capt. Dunn, of the Vigilant, to be provided with a quick-firing gun of sufficient calibre to insure a more wholesome respect among the American poachers for its onlooker, an examination of the Japanese minimum tariff, between Great Britain and the United States shows that the Canadian authorities are at present liberty to arm the Vigilant if they see fit with an arm fitted to a slot of eighteen pound action has been taken by

TROUBLESOME STATISTICS

Whether it is that the British have more sins to answer for than Canadians, or are more given to worry, they seem to be continually preparing statistics dealing with their divorces and their bill for drink and tobacco.

Then, but a few months ago, came the cheerful report of the chancellor of the exchequer in which he gave assurance that the British were becoming sober. Now it is the turn of the gloomier politician:

"This week Mr. Whittaker, the prohibition champion in parliament, quotes statistics to prove that the reduced consumption of liquor is not so much proof of national reform as of the successful rivalry of outdoor amusements as an evidence of bad trade.

Mr. Whittaker, no doubt, has much cause for lamentation. But the Britisher who is really looking for something to mourn over will turn to the divorce record. The statisticians are ready to give him black evidence. The population has increased two-thirds since the divorce court was created, but in that time the number of divorces has trebled.

A SECRET TREATY. The British foreign office is said to have learned that a secret treaty has just been signed by the German Emperor and the Czar. The compact is thought to be for defensive purposes only, and to refer particularly with the situation in Asia.

If the Czar and the Kaiser have joined hands for defensive or other purposes the Anglo-Japanese treaty is not "answered" in the sense of being lessened in value or significance.

Some Canadian fishermen were detained in a South American republic not long ago. This country believed their detention and punishment unjust. They said they were beyond the three-mile limit when taken by a cruiser.

Great Britain and America has been recently established a perfect understanding that the policy of the two nations shall be to conserve the present state of affairs in the Pacific.

P. E. ISLAND AND THE TARIFF. Assuming as it is commonly done now that the Tariff Commission will find the farmers of the West strongly opposed to any considerable increase in the tariff, the Charlottetown Guardian (Ind.) urges P. E. Islanders to prepare for the visit of the Commission and "join with the people of the far West in pressing these views upon the commissioners."

The Guardian points out, as has been pointed out in many other places, New Brunswick included, that the farmers are not properly organized to make upon the tariff commissioners the impression which their number and the importance of their interests demand.

"Especially do we conceive it to be against the interests of Prince Edward Island to have the tariff increased. We have few factories; our people are farmers, fishermen, merchants and professional men--all consumers rather than makers of manufactured goods.

There is as yet no evidence that a general increase in the tariff is contemplated. The important thing now, from New Brunswick's standpoint, is that all interests shall be properly represented when the Tariff Commission holds a session in St. John.

The Boston Transcript has just settled Canada's tariff future. It says in part: "Canada's national gain from the preference tariff of 1897 was immediate and enormous. It was the greatest advertisement which Canada or any other British colony ever received in Great Britain."

SHOOTING THE POACHERS. We haven't shot any American fish poachers on Lake Erie yet, but that has been no fault of theirs, and scarcely any of ours.

But while we have a right to shoot these fishermen, and while they are evidently determined that we shall shoot some of them, right now is a good time to suggest that two friendly, law-abiding and sensible peoples should be able to get along without running the risk of a serious quarrel, followed by bad blood, merely because American fishermen will not behave themselves. The poaching cannot be tolerated; but shooting to kill can but make a bad matter worse.

The United States government is opposed to poaching, no doubt. If that be the case an arrangement whereby the two countries would co-operate to render poaching at once unsafe and unprofitable would seem to be the best way out of what is becoming a very awkward situation.

shells--what indignation would have been felt in Canada, and what demands for action by the British navy would have been formulated? Suppose a fishing schooner should come into this port today or tomorrow, carrying the bodies of several of her crew who had been killed by shells from an American patrol.

The Montreal Witness makes this suggestion: "It is a pity that some other way to punish a poacher cannot be devised than shooting at him. If properly accredited representatives of the United States were on the Canadian cruises arranged that a poacher refusing to stop could be pursued to port and proceedings taken against him there, the United States would be doing a very friendly arrangement with the United States authorities is much to be preferred."

The Toronto Globe has a similar suggestion: "Some more rational way might be found of enforcing our fishing rights than that of firing guns at a straggling vessel against the corrupt Republican machine with which he was formerly identified. There is going to be a fierce campaign in the Quaker city this fall, and the echoes of it will be heard throughout the country."

"No anxiety need be felt about any trouble which Canada or Great Britain may cause a Canadian cruiser has fired upon a poaching American tug found and chased within the Dominion limits. The steam tug Harry C. Barnardo was discovered on the Canadian side of Lake Erie and pursued by the patrol cruiser Vigilant, which riddled the boat with shot, and might have sent her to the bottom had it not been for the timely intervention of the captain of the tug so desired. That poaching on sea as well as on land will continue to be carried on, in spite of patrol boats and gunboats, is patent to all people. No sympathy need be wasted on the poachers, who thoroughly understand the law and are not likely to undergo them, and moreover, do not feel themselves the victims of persecution if they are caught in the act of plying their illegitimate trade."

ELOQUENT WORDS. All Canadians may not do--keep step with Mr. W. K. George, retiring president of the Manufacturer's Association, when he walks the way of high protection, but there will be few who will not admire the eloquence and applaud the sentiments that marked his references to our common country in his last address at the Quebec meeting. Mr. George looked into the future. We may see it through his eyes:

"I would like you to try and picture to yourselves the future which lies before this Canada of ours. I feel how impatient my words are to paint the picture which my mind contains. But think of what our possibilities are. Our area is vast that many of the best portions of the world today would be lost in it. Our soil, gloriously fertile, and our natural resources almost limitless."

CASTORIA For Infants and Children. The Kind You Always Bought. Bears the Signature of J. C. Watson

NOTE AND COMMENT

The golf championship seems to be heading toward St. John once more.

Mr. Paul Morton, of the Equitable made some disclosures of his own yesterday. This is the plan known as starting a back fire.

The terrible accident here yesterday by which Mr. Harrison lost his life shocked the whole community. At a season when many are handling fowling pieces and rifles it seems again necessary to repeat the much worn warning about the danger of firearms.

Mr. Redmond has been twisting the British lion's tail for the edification of Irish-American audiences in Boston. The inference is that he had nothing really worth while saying. The tail-twisting act is fair vaudeville but it doesn't make the bit it used to, even in Boston.

Mr. John A. McCall, of the New York Life, says the Democrats are as bad as the Republicans in the matter of "working" the corporations for campaign funds. No one doubted it. But it is hard to see how that lightens the burden of accusation now resting upon certain high insurance officials.

His trip to Canada did Mayor Weaver good. He is back in Philadelphia, leading the reform forces in a stirring revolt against the corrupt Republican machine with which he was formerly identified. There is going to be a fierce campaign in the Quaker city this fall, and the echoes of it will be heard throughout the country.

Congressman James B. Perkins, of Rochester (N. Y.), says: "Were a vote on reciprocity with Canada to be taken in my district, which comprises Monroe county, I believe nine out of every ten votes would be in favor of it. We have many large business and manufacturing plants in Rochester. They want more trade with Canada." But Mr. Perkins would be shocked if it were suggested to him that his manufacturing constituents can get free access to this market only on certain conditions which the United States politicians generally are not prepared to accept.

This description of a shocking calamity in the American social colony at Newport appears in several New York papers: "June, a French poacher in the household of Mr. and Mrs. George B. De Forest, who died a few days ago, occupies the first canoe grave in the cottage colony. June was a pet of pets and it was the custom of Mr. and Mrs. De Forest to carry him back and forth between Newport and New York as they made the journey between their summer and winter residences." And every few hours in New York a man or a woman or a child is buried in Potter's field.

YORK COUNTY TEACHERS' INSTITUTE

Fredrick, N. B., September 21--The annual teachers' institute for the counties of York, Sunbury and Queens began its sessions at the high school this morning at 10 o'clock. There was a large attendance of teachers present. Upon the platform were Dr. Inch, President, Good, Inspector Bridges, Miss Thorne, secretary of the association, and others.

After enrollment the opening address was delivered by Frank A. Good, president of the association. The president took the subject of his remarks, 'The Teachers' Ideals.' On the conclusion of the address, President Good called upon Dr. Inch, chief superintendent of education, to say a few words to the assembled teachers.

HUGHES MAY LIVE

North End Man Who Attempted Suicide Thursday Doing Well at the Hospital.

Dependent because of prolonged ill health, John Hughes, of 11 Hilyard street, North End, attempted to commit suicide early Thursday morning by cutting his throat with a razor.

Mr. Hughes is fifty years old, and by trade a caulker. He has been ill for eight months, and his family, having reason to fear that he might commit a rash act, hid every razor in the house, and also every drug that might have been used with fatal effect.

About 5 o'clock Mrs. Hughes, whose room is near her husband's, heard a suspicious sound, and fearing that Mr. Hughes was in distress, hastened to his door and called, but received no answer. She then aroused the family, and her son John was the first to enter the room. He saw his father at full length on the floor, with blood flowing from a wound in the throat, and a razor lying near. Dr. Pratt and Sheffield were summoned, and after chloroform had been administered, the cut in the throat was sewed up.

Mr. Hughes was a sufferer from pleurisy and on Wednesday evening he appeared to be particularly despondent, and his manner occasioned unusual uneasiness. He has four children residing in the city, and one son living in Toronto.

Doctor Thomas J. Barnardo Dead. London, Sept. 20--Doctor Thomas John Barnardo, the well known founder of the "Boys' Home" and director of philanthropic institutions, by which over 55,000 orphans have been rescued, trained and placed out in life, died last night after a short illness. Dr. Barnardo had suffered from angina pectoris for some years. He was born in Ireland in 1845.

Thomas John Barnardo, F.R.C.S. Ed., F.R.G.S., F.S.S., was educated in private schools, and at hospitals in London, Edinburgh and Paris. While at London hospital in 1869 his attention was directed to the children in the streets, and he interested himself in their welfare. He first worked on his own, and in 1871 the first home was established. He founded the Village for Girls, Ilford, in 1873; founded the Majesty's Hospital for Sick Waifs, 1887; Young Helpers' League, 1891; received diploma and medal of Societe Nationale d'Encouragement du Bien, Paris, 1888. The number of Waifs' Homes increased, and Dr. Barnardo settled many of the graduates in new homes, over 14,000 being sent to Canada, and the colonies. His publications include--Something Attempted, Something Done, and the Rescue of the Waif; and he also wrote booklets, magazine articles, and established the National Waifs' Magazine, of which he was the editor.

Carnival Committee and Premier Tweedie Thought to Arrange Earlier Visit

THE PRINCE'S REGRETS

St. John Week of Attractions Must Be Postponed or Carried Out Without the Royal Admiral—Fair of Nations Arrangements.

Fredericton, Sept. 21.—(Special)—Premier Tweedie received a telegram today from the committee having in charge the arrangements in connection with the carnival to take place in St. John next month, asking the government to assist in securing the presence of Prince Louis of Battenburg. At the suggestion of the premier, the lieutenant-governor thereupon sent the following telegram to the prince:—

"Hon. L. J. Tweedie, Fredericton, N. B.: Plans for Prince Louis' visit changed. Will you use every effort to secure them in Halifax nearly six weeks. I am, I trust, sure that the committee here will be glad to have you. This will be a great opportunity by photographing and illustrating through leading illustrated papers."

Afterwards Mr. Macaulay had a talk over the telephone with the premier and was given to understand that inasmuch as the other provinces have been entertaining the prince it was the desire of the government to do the same, and that it would seem that the most fitting time for the visit of the prince would be during the week of the carnival. The premier said he would communicate further with Prince Louis at once. Thursday, however, it was known that the prince cannot come until the last four days of the month. Evidently the carnival people must now decide whether or not to wait.

Thursday afternoon J. H. McRobbie, R. B. Emerson and F. A. Dykeman met with the fair of nations committee. Mrs. W. W. White, Mrs. D. J. Brown, Mrs. T. H. Somerville, Mrs. A. A. Smith, Lady Little and Miss Leveson in the afternoon. Major White was present and offered some good suggestions respecting the conduct of the fair in order that it might be a success. He mentioned that a movement was on foot to have an intermission entertainment in the rink each evening of the fair. The ladies were desirous that the number of attractions might not be so great as would draw the people away from the rink, particularly the ladies who had been the first in the field. The committee from the carnival management stated that this was also their unanimous desire. The two committees will meet again on Tuesday at 5 p. m.

Early Thursday afternoon the ladies met in St. Andrew's rink and laid the ground for the event. The ladies were chosen by lot to take charge of the booths. They will meet again at 3 p. m. Tuesday before meeting the carnival committee. The ladies who have in charge the fair of nations have practically decided to begin the fair Tuesday evening, Oct. 3, with a high tide in the rink that evening. It is uncertain whether it will close Friday or Saturday.

W.F.T. HARRISON'S TRAGIC DEATH

Accidentally Shot While Handling Gun at His Home, Elliot Row.

AN INQUEST HELD

Verdict in Accordance With Dr. Holden's Evidence—Medical Man Positive Shooting was Accidental—News a Shock to Large Circle—Victim Popular Citizen.

St. John, Sept. 21, 1905. "Hon. L. J. Tweedie, Fredericton, N. B.: Plans for Prince Louis' visit changed. Will you use every effort to secure them in Halifax nearly six weeks. I am, I trust, sure that the committee here will be glad to have you. This will be a great opportunity by photographing and illustrating through leading illustrated papers."

William F. T. Harrison, deputy collector of inland revenue, accidentally shot and killed himself in his home in Elliot row Tuesday morning. His tragic death has aroused widespread commiseration. There were few young men in the community better entitled to the high regard in which he was so generally held.

Mr. Harrison resided with his widowed mother and brother Walter. The home was on the point of being broken up and much of the household goods were being packed. Mr. Harrison was an ardent sportsman, and it is thought that when packing his guns and ammunition, a cartridge was accidentally discharged. His death occurred shortly after 9 o'clock. His brother was still in bed when he heard the report of a gun and hastening to the room found him lying across a packing case, shot through the head. Deceased was born July 23, 1873. He was the second son of the late William F. Harrison, who conducted a wholesale grocery business on the North wharf. His older brother was Capt. Charles F. Harrison, who was one of the South African volunteers and who also served in South Africa during the Boer war. He leaves two brothers, A. Bertram Harrison, who is a graduate of the New York Academy of Dramatic Arts, and who has recently been engaged as stage manager for Henry Miller and Margaret Anglin, and another brother, Walter A., in the employ of T. H. Eszterhazy, who also leaves one sister, Mrs. Hart, of Kingston (Ont.). Jeremiah Harrison, of the hay and feed firm of that name, was an uncle of the deceased, and J. G. and W. Harry Harrison, of this city, cousins.

The inquest. A verdict of accidental death was returned by the coroner's jury Tuesday evening. It was shown that the gun found by the body was not in working order. There is a small catch which, by pressing forward or back, cocks the weapon or guards against the possibility of its discharge. The mechanism when carefully examined last evening was seen to be in a faulty condition, but such a fact is not regarded as being responsible for Mr. Harrison's lamentable death. In the course of the inquiry it developed that on Monday evening he mentioned that he would be packing his ammunition, and that he feared some of his cartridges were damp, and had swollen so much they would not fit the gun. It is thought that he might have been selecting serviceable cartridges when one was accidentally discharged.

Conor Berryman presided. The jury consisted of S. J. DeForest (foreman), Todd W. G. Kee, R. C. Clark and Samuel Watson. Walter H. Carnall was the first witness. He was shooting with Mr. Harrison last week, returning to the city on Sunday evening. The former had two guns, one being for the use of the witness. The calibre of the gun used by deceased was double barreled and the other was a number twelve double barreled hammerless. The witness was positive there were no cartridges in either gun on return to the city.

"Mr. Harrison," said the witness, "was in my shop on Monday evening for more than an hour. He talked of going on a hunting trip next week. When he came from the shop he said he was going home to pack up his things."

The witness was here shown the two shot guns used by himself on Sunday evening. He examined the one which he had carried and was positive that before entering the city he had removed both cartridges. "I am satisfied," he said, "that when I handed it over to Mr. Harrison both barrels were empty."

Dr. Chas. Hodson, who was called to the scene shortly after the fatality, described the appearance of the body. "A gun, with the muzzle pointing toward the said," he described the injury. "It should be said," he said, "that the injury was caused by the accidental discharge of the gun which he had probably taken by the muzzle and drawn towards him with the right hand from the stretcher on which it was probably lying, and the trigger, catching in the scope of the covering which was on the stretcher, discharged the piece."

Positively an Accident. "You consider death was accidental?" asked the coroner. "Death was undoubtedly due to accidental violence," answered the witness. "To a juror—"If he was pulling the gun toward him, across the stretcher, it is very probable the stretcher covering caught in the trigger."

An entertainment and pie social was held in the agriculture hall on Saturday night. The music furnished by Hughes' orchestra was much enjoyed. A dialogue, "The Music," was also given. The proceeds will go towards repairing the hall. The recent heavy rains have enabled Austin DeWitt, the contractor, to get the up to date spring half a mile from safe waters. The lumber is now being varied. Mrs. Manly Duplessis is very ill with typhoid fever. Dr. Murray is in attendance.

Miss Jennie R. Smith left here Thursday evening for Guelph, having been awarded a scholarship in the Macdonald Institute. On her way, Miss Smith will visit friends in Montreal. Mrs. Wilson, of New York, is visiting relatives here.

ST. JOHN'S MARKETS

Very little game as yet has found its way to the city market. Moose meat and venison are scarce, but there are some partridge and woodcock. The woodcock sells wholesale for about 60 cents a pair, while partridge bring 50 to 60 cents. Beet has gone down the past week per cent a round and case eggs are a cent higher.

The most important changes in the grocery market are the recent advance in the price of Manitoba flour and the reduction in the Ontario brands. Sugars also went down last week and canned goods, owing to the fact that the new packs are now on the market are also lower. Kerosene oil has advanced one cent a gallon. The following are the principal wholesale quotations corrected up to yesterday.
