General Intelligence
 NON SECTARIAN

Divines All Meet on a Common Level
 With the co-operation of the other operators, J. A. Seidler, of the Webster Coal Company, located on the Mousonghela River, will take the initiative.

THURSDAY, July 14.
 special to the Express from Danville, Ill., says: "Strife between the miners commenced in this district last night. About 400 or 500 Belgian strikers and other foreigners gathered at the Pavane Mine and when a cage full of colored miners who had been at work reached the top of the shaft, they were assaulted with different kinds of weapons, some using knives and other status. One of the colored miners secured a bar of iron and a revolver and defended his life. Shots were fired, wounding several strikers. This infuriated the striking miners and they retaliated by an exchange of shots, at the same time retreating to the woods. Later the strikers attacked a train on the Chicago and Eastern Illinois carrying miners to the city. The miners inside the coaches opened fire and a number of shots were exchanged. It is reported that one miner was killed."

PITTSBURG, Pa., July 15.—The prospect for a settlement of the miners strike is brighter to-day than at any time since the struggle began, and both sides are almost ready to count on a resumption of work in the near future. The cheering announcement was made last night that W. T. Deamant, pres. of N. Y. and Chicago Gas. Coal Co., whose 1200 men have been constantly at work and without their assistance the success of the movement would have been jeopardized, has agreed to join with the other operators in a plan for settlement of strike on a true uniformity basis. This result has been brought through the efforts of members of joint arbitration commission who have been working assiduously to this end since meeting president Deamant yesterday.

ALASKA INDIANS IN BUSINESS.
MEETING THE COMPETITION OF MISSIONARIES AND GETTING RICH.
 The Alaska Miner says that the missionary may have had better than he knew. Several Indians, acting in the spirit of emulation, have started stores of their own, and in some instances carry a stock of from \$5,000 to \$10,000. There are six stores of this description on their islands. These educated Indians have arrived at the conclusion that there is money in commercial life, and have decided to compete with Mr. Duncan and his Portland associates. Mr. Duncan has met this competition, first by selling flour at \$1.25 a sack, and then raising dock rates to \$3 per ton. The Indians have determined to build a dock of their own, and have announced that they will complete it this summer and allow anyone to land there who wishes to.

PROBITIONISTS MEET.
SOME IMPORTANT BUSINESS TO COME UP FOR DISCUSSION.
 TORONTO, July 13.—The Provincial Prohibition Convention called by the Ontario branch of the Dominion Alliance, was called to order this morning in Horticultural Pavilion by Dr. J. J. MacLaren, Q.C., president. The Rev. Dr. Stone, president of the Toronto Methodist Conference, offered prayer. Aid F. S. Spence, secretary, presented the minutes of the last convention. The business committee was appointed, consisting of the Rev. Dr. Stone, Messrs. J. A. Miller, Lewis C. Peake, S. J. Duncan, Clark, the Rev. S. S. Bates, A. D. F. S. Spence, and H. Seaman. The annual report of the Alliance executive was read by Dr. MacLaren. It reviewed Canadian prohibition efforts during the past year and concluded:—As stated in the call for the present convention, there are three main objects to be accomplished: (1) It is possible that the proposed Dominion prohibition plebiscite will be held before another year has elapsed. In preparation for that event, careful attention must be given. (2) The thorough organization of the electorate, the judicious circulation of literature and the supplying of our workers with official instructions and advice, find all urgent matters that will need close and continuous attention. (3) It will be your duty to consider what action should be taken to secure an advance in restrictive legislation at the coming session of our Provincial Assembly which will be the last to be held before a general election. (4) We have also before us this general election, in which we must make such special efforts as will secure the return of a body more abreast with public opinion regarding the liquor traffic and more in sympathy with progressive legislation than the present Assembly has shown itself to be. Sincerely hoping that wisdom, earnestness and advice may characterize all the proceedings of the session, this statement is respectfully submitted.
 Witness:
F. S. SPENCE,
 Secretary.

WIFE MURDERER EXECUTED.
 HARTFORD, Conn., July 14.—Thomas F. Kippie, the New Haven wife murderer was hanged at the State prison at 12:30 o'clock this morning. Within eight minutes from the time the drop was sprung his head had ceased beating and in nineteen minutes he was cut down. The condemned man, when asked if he had anything to say before sentence was executed, replied: "Do a good job and don't make any foolish mistakes." These were his last words, with the exception of whom the rope was being adjusted about his neck, he said: "You're getting it pretty tight, ain't you?" The execution was successfully carried out. Kippie was convicted of stabbing his wife to death in a most brutal manner on Jan. 31, 1896.

DR. AGNEW'S OINTMENT CURES
 Salt Rheum, Eczema, Tetter, Barber's Itch, and like skin diseases and eruptions every day, every hour. In many places the saloon-keepers make no attempt to obey its provisions except those that relate to the payment of the fee and an outward observance of the law which is to their interest. We are told over and over again that Prohibition is a failure, but the same people who talk this are silent over the great failure of license laws.

A PERTINENT QUESTION.
 The Chicago "Lever" asks: "Where is the saloon-keeper that obeys the law? People talk about a license law as though it was sure to be obeyed. But this is not true. Our license laws are violated every day, every hour. In many places the saloon-keepers make no attempt to obey its provisions except those that relate to the payment of the fee and an outward observance of the law which is to their interest. We are told over and over again that Prohibition is a failure, but the same people who talk this are silent over the great failure of license laws."

OPERATORS PLANNING A COUP.
 MINES TO BE EQUIPPED WITH MACHINERY—COLORED WORKMEN ATTACKED.
 PITTSBURG, Pa., July 14.—It developed last night that a number of the colored operators have been quietly planning a coup, which is expected to bring dismay to the miners. It is the intention to do away with a great many diggers. When the mines are ready to start miners will be imported and put to work under heavy guard and the premises barricaded.

ALLEN LABOR LAW.
 THE GOVERNMENT TO TAKE ACTION TOWARD PROTECTING CANADIAN WORKINGMEN.—THE EXPERIMENT TO BE FIRST MADE IN THE NORTH-WEST.
 OTTAWA, July 13.—The Dominion government has adopted an entirely new plan, so as to protect the Canadian laborer and give him the benefit of the home market, something which the late administration never attempted. In fact, an entirely different policy was pursued with the result that American contractors pocketed the money for their contracts and left the Canadian laborer, who did the work, without any pay. Parliament had to be appealed to some cases, and legislation was passed against the railways to provide the wages of the workmen who were so denied. The case of the Toronto, Hamilton & Buffalo Railway is a recent example, but there are numerous instances in Manitoba and the North-West Provinces where workmen have been shamefully treated, and never had an opportunity of redress. In the first place, the government has decided to put the alien labor law in force in Manitoba, the North-West, and the same precaution will not count be taken wherever it is found necessary in the interest of Canadian workmen in other provinces and at other points in the Dominion. In addition to the protection afforded by the alien labor law it is understood that the government has also an understanding with the Canadian Pacific Railway to give the preference to Canada in all cases.
 The Minister of Customs has also issued an order to all collectors of customs requiring them to collect full customs dues from all parties who may bring into the country with them goods for working on railways. Hereafter this class of goods was limited under the clause which made settlers' effects free. Now this will not apply to persons who may come from the United States to work on the railways.

 Salt Rheum, Eczema, Tetter, Barber's Itch, and like skin diseases and eruptions every day, every hour. In many places the saloon-keepers make no attempt to obey its provisions except those that relate to the payment of the fee and an outward observance of the law which is to their interest. We are told over and over again that Prohibition is a failure, but the same people who talk this are silent over the great failure of license laws."

LOOK TO YOUR CHAINS.
 It will not infrequently be found that a chain becomes alternately tight and slack as it runs around the sprocket wheel. If the alternation takes place with each revolution of the pedals, and if there be no dirt on the periphery of the front sprocket wheel, very probably the crank axle is not fixed centrally in the rear sprocket, in which case a competent repairer may perhaps put matters right.
 On the other hand, if the alternation is observed to have some slight relation to the position of the chain, but not of the pedals, and recurs either with each complete revolution of the chain or with each half revolution, the cause probably depends partly on whether the chain is new or not. If it is new, there may be a stiff link which does not properly straighten out after leaving the chain wheel. In this case care of running will come with work.

CO. R. EMPLOYEES DISMISSED.
 I. C. R. July 13.—Some fourteen employees of the I. C. R. comprising nearly the whole staff of the terminus at Levis received notice of dismissal yesterday. It is said that ten other employees of the line at Chaudiere Junction have also been notified to quit.

THE WHEEL.

Foresters Annual Meeting.

High Court of New Brunswick of Independent Order of Foresters opened on Wednesday morning July 14th, the High Chief Ranger, Kinghorn of Fredericton presiding.

Delegates and members present, representing all the subordinate Courts, were about one hundred and seventy.

Immediately after High Chief Ranger Kinghorn had called the session to order he proceeded to appoint the standing committee of the gathering.

It is with feelings of pride we have witnessed the remarkable growth of our Order, starting as it did with a deficit of \$4,000; meeting all expenses of extension and management, paying legal and moral claims to the extent of four and a half millions, and from time to time adding to the surplus fund, until July 1st it stood with \$2,267,883.82 to its credit, being an increase of \$902,333.04 for the year; an average increase per month of \$41,877.92.

The membership has grown in the same manner. On June 1st we had 112,743 members, which is an increase for the year of 19,087, or an average of 1,591 per month. With such a record to look upon, it should inspire us with renewed zeal for the coming year.

Interested as we are in the order in general, the extension of our order in our own province commands our greatest attention. The following table will show the number of Courts and membership, with increase each year since the High Court of New Brunswick was organized:

Table with 4 columns: Year, Courts, Members, Increase. Data from 1883 to 1897.

With the number of Courts we have in the Province it is getting to be a difficult matter to find territory not already occupied, and I firmly believe our best efforts should be given, during this year, to caring for Courts already organized.

Northumberland S. S. Association.

The Northumberland County Sunday School Association met at Chatham on Monday and Tuesday, July 12th and 13th. The county was not represented as well as usual, although the work that was done through with highly successful.

The needs of parish school work in rural districts are very satisfactory. Reports of the different parishes were received and were very satisfactory.

The committee on the state of the order suggested that the members of the standing committee hold public meetings in localities where weak or languishing courts are situated, and that other special attention be given to such courts.

A resolution was adopted urging the supreme executive to reinstate certain members in expectation of the life department who have been suspended through what it is claimed to be no fault of theirs, but by the failure of the department executive to give due notice of the date of change of payment of assessment.

On motion of Hon. H. R. Zimmerman, in an eloquent address, seconded by Dr. Doherty, fraternal greetings were extended to Rev. A. McMillan, and through him to the Foresters of Ontario.

It was decided to appoint for the next year an inspector to assist the courts and organize new ones. A certain fixed salary, a certain percentage of new courts and reasonable travelling expenses will be paid this officer and his salary, which also is not to be a higher rate than eight hundred dollars.

The finance committee recommended the payment of the following salaries: High chief ranger, one hundred dollars; high chief secretary, twenty dollars; high chief treasurer, thirty-five; high chief auditor, fifteen; press committee, thirty; and for hall, ten dollars; also that eight hundred dollars be set aside for the year.

It was resolved that the provision for paying the mileage of one representative from each court to the high court be extended for another year.

Personal.

The Union Advocate invites all its readers to contribute to the items under the head of "personal." If you or your friends are going away on a holiday trip, or if you have friends visiting you drop a card or line to this office.

Miss May Burke, of Walden, Mass., and Miss Wardlaw, of New York, are visiting Mr. E. Lee Street.

Mr. W. Coventry, manufacturer of the Thomas organ and piano, is here calling on the people with his representative, Mr. Jas. Johnston, of Chatham. Any one wishing to purchase can get no better opportunity.

Miss Amy O'Neil, of Chelmsford, N. B., who has been in Portland the past eight years, has returned home. Miss O'Neil has made a host of friends while in the city particularly the members of Catholic society.

Dr. A. L. Brown gave a Bible reading in the school, giving some principles on which are founded the success of teaching. No one can listen to Miss Lucas without gaining a great fund of information.

Presentations.

The Methodist Sewing Circle of St. Luke's Church, Chatham, presented a handsome satin dress pattern to Mrs. Steel, wife of the pastor, on Tuesday evening. The presentation speech was made by Mrs. Mather, and Rev. Mr. Steel made a happy address of thanks on behalf of Mrs. Steel.

A very flattering address was presented to Rev. Mr. Steel by the Northumberland County Sabbath School Association at its recent meeting.

At the close of last Wednesday evening's prayer meeting an address and a purse containing three \$20 gold pieces was presented to Rev. Mr. Steel by members of the congregation. The World, in referring to this latter presentation, says: "Mr. Steel's pastorate of four years was a very successful one in every sense."

Death of Mr. Chamberlain.

OTTAWA, July 13.—Profound regret was expressed in the city at the intelligence from Lakefield, Ont., of the death of Col. Brown Chamberlain, for many years Queen's printer of Canada. Previously he was one of the proprietors of the Montreal Gazette, a member of the commons for the county of Missisquoi, and in 1870 received C. M. G. for his services in repelling the Fenian invaders at Ecole's Hill on the borders of the state of Vermont.

Mr. Chamberlain was born in New York, and spent his early years in that state. He was a member of the commons for the county of Missisquoi, and in 1870 received C. M. G. for his services in repelling the Fenian invaders at Ecole's Hill on the borders of the state of Vermont.
