PRICE TWO CENTS.

L.&P.S.R. Will Lose Money by New Routing of Coal

Lake Erie Company Will Send Shipments From Rondeau to Chatham---Percentage On Earnings Will Drop.

A new rating on coal will be put into effect on Sept. 1, and as a result the London and Port Stanley will be given a body blow. The Lake Erie Coal Company, lessees of the London and Port Stanley Railway, have notified their customers regarding this matter. Just how much the earnings of the city's railway will decrease is not definitely known, but it will be considerable.

According to the new arrangement, all the coal landed at Rondeau will be handed over to the Grand Trunk and C. P. R. at Chatham. It has been the custom to send this coal to St. Thomas, and to London over this city's line, when it was taken for distribution by the G. T. R. In the future no coal from the Rondeau will come over the London and Port Stanley to this city.

ANOTHER MOVE.

It is the intention also to make a different arrangement regarding coal landed at Port Stanley. This has always been brought to London, and then handed over to the Grand Trunk and C. P. R. Henceforth, the coal will be brought to St. Thomas, and there given over to these companies. None except that to be used locally will be brought over the city's line to London.

The announcement of the new tariff came as a great surprise to those interested in the welfare of the London and Port Stanley Railway, as the earnings of the road will be seriously affected.

The haul from St. Thomas to London is more than half the journey from the Port, and London is to lose this business, while the city will lose altogether the percentage on the earnings for the coal formerly shipped from Rondeau.

SERIOUS FOR THE CITY.

"The change will be serious for the city," said an alderman to The Advertiser. "It simply means that the earnings of the London and Port Stanley will be reduced 50 per cent. The city receives 10 per cent of all earnings over \$80,000. The result will be that the corporation will obtain nothing more than the annual rental, amounting to \$10,000 a year. In cold cash, London will lose from \$8,000 to \$10,000 a year on the line. This is a serious business, and shows what the city is up against."

G. T. R. MAY GETM IT ALL. There is a rumor in circulation also that the Lake Erie Coal Company, issatisfied with the delay of the council in dealing with the London and Port Stanley, are negotiating with the Grand Trunk to handle all their coal at Port Burwell, cutting out entirely the Rondeau and Port Stanley shipping. This would cut the city out of 90 per cent, of the total earnings of the road, and leave little more than parcel freight and passenger business. None of the officials would discuss the matter, but it was stated privately to The Advertiser, that such an arrangement was possible

the London and Port Stanicy toard decide to lease the grounds to

place, and I am opposed to any ne gotiations concerning which all the members of the council are no t fully informed. The picnic

grounds at Port Stanley should go with the railway, and if it is de-

cided to lease them, to the highest bidder. It might pay the city to

retain them, and spend some money in keeping them in good order."

"The question of leasing the picnic grounds should be well con-

OTTAWA SUSPENDS TURKS BUTCHERED ENGINEER AND AIDE FOR THREE HOURS

First Details of the Dreadful Massacre of Innocent Bulgarians.

OFFICERS LOOKED

[Canadian Press.] Uskup, European Turkey, Aug. 10. Details of the massacre of Bulgarians by Mussulmans on Aug. 2 at Kotscha-na, 50 miles to the southwest of this city, shows that the butchery three hours, in which over 140 Bulgarians were cut to pieces.

The trouble began with the explosion of a bomb on the market square, when it was crowded with people. Five Bulgarians and six other persons were killed. Five minutes later a second bomb exploded in the same causing further deaths. Soon afterwards some bands of Mussulmans appeared on the street armed with guns, revolvers, knives and clubs, with which they carried out a whole-

sale butchery of Bulgarians, lasting three hours, while the Turkish officials were looking on. Later on Turkish troops arrived, but instead of arresting the Mussulmans, made a house-to-house search for Bulgarians, many of whom they drove to prison with their hands bound.

One hundred and forty dead bodies were found in the vicinity, more than a hundred of them being piled up in the courtyard of the Bulgarian church. Much looting was also done during the day. All those arrested were inno-cent Christians,

This Is Why Family and Church Quarrells Are Bitter. Rev. Joshua Standfield, D. D., of Indianapolis, occupied the pulpit of the First Methodist Church on Sunday, and at the evening service spoke from the text, Revelations, xxii., 1. The holy city that John had seen, and which he described in the text, was not hea-ven, but a forecast of the kingdom of God that will be fulfilled in this world. During the last 25 years the church church has commenced to realize this fact.

The city of God will be a perfect city, without crime, and will not exist until every person in the world has been redeemed. God has shown, by the crucifixion of Christ, that he does not redeem with justice, but with love

five horses adapted for carriage, light Only by the love and self-sacrifice of men can the city of God on earth be attained. The reason that family and church quarrels are the fiercest is because they are due to the fact that love has been misdirected. When this happens it is only by sacrifice and the power of Christ that the wrongs and misunderstandings can be righted. A person should find more satisfaction in claim-

ing to be a Christian than a citizen of the greatest powers of the world. A SHOOT AT THORNDALE

MWILL YOU WALK INTO MY PARLOR?"

The report that Mr. Borden now proposes to ask the Opposition to confer with the Government in formulating a non-party naval policy for Canado calla up a smile among Liberals who think and remember.

If Mr. Borden were not himself a deserter from such a policy, if he had not allied himself with the anti-navy element in Quebec, if he had been straightforward on this question, his présent proposal might be received with some consideration. The lip loyal ally of Messrs. Bourassa and Lavergne, Blondin and Nantel, has already branded the whole Liberal party with disloyalty, and now he would invite them to his council table!

Not imperial patriotism, but party exigencies, prompt Mr. Borden's move. He is in a very tight box, as a result of his twists and somersaults. Why not get out of the hole by simply putting Sir Wilfrid Laurier in another? Either, he supposes, Sir Wilfrid will consent to co-operate and be forced to ly scathing and calls Mr. Law a secgive his sanction to whatever may done, with the result incidentally that the pledge of a reference to the fuses, the cry of "traitor to the Empire' may be raised again. But it

deserted the Laurier policy, brought Mr. Bourassa to speak on the Conservative platform in Ontario, countenanced all sorts of anti-British cries in Quebec, and denunciations in the other provinces of the Laurier navy as "tin-pot" and separatist, has wasted a time will permit. Isn't he afraid whole year in the building of a Canadian navy, and will probably yet waste more precious time. If there were any "emergency". Mr. Borden's inaction would only have made it more acute. He has himself solely to blame for the standstill of which British Columbia particularly complains. But having got he can. into a hole he would like the Liberals to pull him out.

The British Admiralty has commended the plan of a Canadian navy which could assist the British fleet in war-time. Australia is proceeding onthe Laurier lines. Where Britain needs the help of her colonies is everywhere but in the North Sea. Her plans will completely and easily take care of the German fleet there if unfortunately need should be. But for the protection of her world-wide commerce she may be very grateful for Canadian cruisers in the Atlantic and the policing of the Pacific by the joint squadrons of Canada, Australia and New Zealand. A Canadian navy for home defence in two oceans as Laurier planned will Great Britain in time of war, helping to guarantee the food supply of

this patriotic Laurier policy. Let him therefore now take care of himself in the formulation of new plans. As far does not appear that there is any. Mr. Churchill spoke quite to the contrary. A permanent policy is for Mr. Borden to work out in the usual way of responsible government. The best thing he can do is to swallow the pill and go on with the Laurier plans. In that he will have the co-operation of the Liberal party.

Sir Wilfrid Laurier's views are before the world, embodied in the Naval ing down. The cost of living increase Act of 1909. Sir Wilfrid was man one per cent, the month of June over enough to put himself on record and were nearly 11 per cent higher than stand or fall by his policy. Nothing they were in June, 1910. Has whatever has happened since 1909, so the twelve months? far as is known, to cause him to de-

BONAR LAWLESSNESS.

Winston Churchill's slashing attack what the British Liberals have nicknamed Bonar Lawlessness, folows an exciting scene in the House of Commons just before the recess. It arose out of a discussion of the Belfast outrages, for which the Nationalists held the Unionist leaders respeech at Blenheim, in which he counselled Irish Unionists to resist home rule by force. Mr. Law respond-his strenuous days he spends in sleep and rest. He seems to think that by violence and offering to resign the leadership of his party if any considerable number of his supporters dis- obligations approved of his utterances.

Mr. Law's reply brought an overwhelming reproof from Mr. Asquith, who declared that Mr. Law's speech could find no parallel in the language of any responsible statesman in the country. He went to point out its tremendous implications:

"The right hon, gentleman (Mr. Law), tells us, that if this parlia-ment should see fit. in the exercise of what he admits to be well with-in its legal competence, to pass a home rule bill into law in the course of the next two years, in his opinion, his deliberate opinion, it would be the right of the minority of the people in Ireland to resist the application of that measure by force. Has the right hon, gentleman ever considered what might happen if in the whirligig of political fortunes he and his friends should become responsible for the government of the country-has he considered what might be the attitude of the people of Ireland in view of the advice which he has given-(ministerial cheers)—the attitude, not of a minority, but of a very large and overwhelming majority, if a subsequent parliament should refuse to them their constitutional de-

Mr. Asquith hastened to say that the majority in Ireland would not be justified in a resort to violence if the home rule bill were defeated, but they could appeal to the language of the Unionist leader in support of it. The statement of Mr. Law was "a declaration of war against constitutional government." Mr. Churchill is equalond Tillett of Tower Hill. But the belligerency of Mr. Law and Sir Edward Carson has not yet gone beyond the hypothetical stage, and may never people may be disregarded and an early go. Their aim is to try to raise the election avoided; or, if Sir Wilfrid re- temper of English Unionists to the pitch of their Irish brethren, in order 5 make home rule a vital issue in England. At present the English elechas been raised so often that once tors are more interested in other more will hardly matter. Sir Wilfrid questions. When the unpopularity of the insurance act passes away, as it will when the benefits begin to flow in, the Unionists will have no fighting The traitor is rather the man who ground unless they can find one in home rule. Lord Morley and Democracy (By Special Arrangement With the Winniper Telegram.]

The rumored retirement of Lord Morley from the political stage, on which he has played such a prominent and distinguished part for so many years, makes especially noteworthy an address which he gave recently as Chanceller of Manchester University. His subject was "Democracy and the Education of Opinion," and, during his speech, he made it clear that, in his opinion, it is difficult to define democracy, and still more difficult to educate opinion,

One of his most interesting suggestions was that there should be established in each university a chair of politics, that there should be a serious attempt made to lay down exact definitions of the terms that are used so glibly and with such variation of meaning by men of different political eamps. Since the days of Grotius there have been notable attempts at constructing a science of politics, but there is still much vagueness and indefiniteness in our use of words. "The ideas and words that seem simplest," said Lord Morley, "turn out most complex. If anybody doubts, ask him to try his hand, say, on Liberty, Equality and Fraternity. He will be very lucky if, besides being complex, he does not find their contents and applications directly contractictory. Take he thought it was worth one dollar to cavour's famous formula "A free say a few words to her by long-church in a free state," What could be simplier, more direct, more pleasant and easy music to the politician's ear; yet, of what harsh, afflicting and intractable discords was not this theme the prelude? Of Miberty, we have been told on the best authority, there are two hundred definitions Even the consecrated name of public opinion has many shades."

Even the words in the subject, which Lord Morley discussed, have "So's my son. That's why he wrote infinite reaches of connotation. Take the word "Democracy," who can settle upon its meaning? Messrs, Woodrow Wilson and Theodore Roosevelt use the word frequently, but we all know that they would divide on its meaning, while both of them might see certain aspects of the word which would not be apparent to Premier Asquith or to Lord Morley himself. Then we find the word "education" in Lord Morley's subject-there is plenty of room for debate as to the meaning of that much-used noun. When we come to the word "opinion," and by this he means "public opinion," we are in the woods again. I fancy that if we had half a dozen professors of politics, in England or in Canada o in the United States, their definitions and terms would take on national tinges, and, most likely, the Englishnen or Canadians would soon indulge in violent quarrels among them selves. And we all know that, such s our pride in our own individual cpinions, the poor professor of politics would be constantly dodging missiles from all quarters; his chair would soon be hammered to pieces.

The fact of the matter is that, no chair of politics could exist under present conditions. Even such a weather-beaten pilot of the ship of state as Lord Morley confessed. to. his Manchester audience that he scarcely knew which way the wind blew or in what direction the current of change was sweeping. In a striking passage he said:

"Time and mutations of political atmosphere are incessantly attaching a different significance to the same ideas and the same words; yet, we are apt to go with our manful bat-tles as if the tags and banners and vehement catchwords all stood for old causes. While intent, and with good reason, on the topics of the on strikes, aeroplanes, gold reserve, the price of Consols, China, Persia, Mesopotamian railways-is it possible that we are somnambulists, only half awake to strong currents racing in full blast over our heads and under the ground at our feet, and sweeping through the world of white men, black men, brown men, yellow

If the address at Manchester were Lord Morley's swan song, it is certainly lacking in the clear untroubled note of serenity and peace.

Cause of Flat Foot

Occupations in which it is necessary

to move about a few steps on the feet slowly are another cause. The physiological reason is that the

long arch bone of the foot has given way under pressure. Flat foot can be cured to a degree at least. There are two methods. The

easiest and quickest is to place inside the shoe a carefully molded arch which is made out of metal and does not look unlike a broad shoe horn. This, if properly fitted by an expert, will relieve the pain which comes with a broken arch. It will make walking comfortable and so give the weak muscles a chance to build up. The best way is to begin with a rather low metal arch and increase its height as the muscles tune up to their proper standard and posi-

DON'T 'DRESS UP' BABY IN SUMMER

Mother's Pride Hard on Little Folks When It's Hot are to be kept sacred to his memory.

. "ALL READY TO GO BYE-BYE." [By Idah McGlone Gibson.]

Don't "dress up" your baby if you take it out for a ride. Many mothers would find time to take their babies outdoors if they die not think it was necessary to fuss them all up in scratchy, starchy clothes. The best warm weather garment for a baby is made of very light-weight outing flannel which grows softer with every washing. Make up a dozen of these with no trimming, and put one on clean every night and morning. You will find that the laundering of these little slips is much less trouble than where more clothes are used and not changed so often.

Never use a diaper after it is once wet. Wash and dry thoroughly. The practice of drying it, before washing, and using it again, has been known to chafe and poison the delicate flesh until a bad case of eczema is the result. Don't put too heavy a diaper on the baby, as much cloth between its legs may easily cause it to become bow-legged.

If you have a cool place outdoors, put your baby to sleep in its cab with piece of mosquito netting over. Every minute your baby stays outdoors in he shade is helping it to live through the heat of summer in comfort. Be sure that the pad under the baby is perfectly clean, as is everything about her, and you will find that she wakes and greets you with a smile when you say: "Come, let's go bye-bye."

BLOND AND BRUNETTE

Hair and Eyes That Descend From the Grandparent.

In a paper by Professor V. Guiffrida-Ruggeri (Naples), read at the Engineers' Conference in London, it was pointed out that it was now certain that the races of man acted exactly as the races of animals. Two gray mice produced gray mice, and it had been shown that two Albino parhad been shown that two had ents had only Albino children, Blonde parents had only blonde children. If from two brunette parents there were four children, one of whom was blonde, it splied that both had sprung from crossings with the blonde type. Such was the case of the grandson who resembled the grandfather, the rule always being

hat of 25 per cent.

The same facts were verified by the color of the eyes and the smooth-ness of the hair. The children of parents with blue and dark eyes might themselves have dark eyes, with the latent; and if they married dressed up like 'ambonest'

amongst each other, one child in four had the blue eyes of the grandparent. Professor Antonio Mario, director of the Turin lunatic asylum, gave figures showing that over 52 per cent of as-sassins were children of fathers of advanced age. Only three per cent of the children of young parents were homicides

A LONDON WEDDING.

Feeling inquisitive and wondering

who the couple were to command the presence of so many of their clan, the countryman turned to an urchin near

"Sonny," said he, "who is it being married?" The small boy solemnly scratched his head for a full minute, as though

[By Billie Burke.] The First Word: Never mind the fashion. Dress your hair becomingly.

I see by the hair-shop windows and the shaps of the new fall hats, that the elaborate coiffure is still to be wern this fall and winter.

"What has the shape of the hat got to do with it?" you ask. A great deal; hair-dressing always follows the shape of the hat, and with the big crowns that one sees in all the new hats, one must dress one's hair in a way to fill

them out. Many young women follow every vag ry of fashion in regard to the hair, and regardless of the fact that they may have round faces and low foreheads, they will this year bring their braids and twists forward clear over their foreheads, and allow little curls which peep from under to reach their eyebrows. It will not matter to them whether their heads are large

or small, they will pile on take half because it is the fashion. Many women look well with their hair arranged elaborately, but it usthe simpler one combs one's hair, the hers in that soft, low coil at the nape range her hair so that it will have the simpler one combs one's hair, the hers in that soft, low coil at the nape range her hair so that it will have the same contour as these drawings and though many women can in their later.

London Divided a Double With Berlin On Saturday

London Won the First Game From Berlin by Scoring Three Runs in Final Inning, but Lost Second Game After Rallying and Tieing Score.

Mr. Barrett's Brigands had it all cut and dried to take two games from Demeau's Dyaks by last inning rallies on Saturday afternoon at the local pill box over the Thames. After carrying out the plot in the first fracas and putting through part of it in the second argument, Mr. Looey Bierbauer intervened and crabbed the whole proceedings. That is why the conspiracy did not work twice, and why the Dutchmen carried off the final session by the score of \$ to 4. The score in the first game was 7 to 6 in favor of the home folks after one of the preftiest and most exciting rallies seen at Tecumsch Park this season.

BRAMSLE BRAVELY BIFFED.

Mr. Bramble, the queen bee of Mr. Deneau's heaving dispensary, occupied the dome for the visitors, and he nearly got away with the game. Opposed to him was our own Sammy Smith, who was trotted out for his second effort in behalf of the locals' interests. Both picchers travelled along smoothly until the ninth and final chapter. Previous to that time, Mr. Smith had been having a triffe the best of it, and, when he ascended the eminence to get the last three men, he had the advantage over his rival by the score of 4 to 1. Then something happened; Mr. Smith blew up in a large cloud of smoke. He allowed two hits, passed two men, and hit another, and had forced in two mass with only one out when he was relieved of all further responsibility. Fitzpatrick took his place, and three more rems came in before the spasm was finally ended.

SOME AWFUL FINISH THIS!

The Indians went in to bat with the score 6 to 4 against them in their half. They determined to get the necessary markers to win out. They got 'em. Only five men faced Mr. Bramble, and three of these tallied, owing to the mighty swatting powers of Mr. Cocash and Mr. Fox, the latter gentleman scoring the last two counters with a handsome bingle to right. It was a close squeak, and the fans had all kinds of opportunity to display their vocal powers. When Mr. Fox shattered the atmosphere with his timely thump, there was some noise, believ

The second game came near having the same kind of ending, but, as mentioned before, a bone on the part of Mr. Bierbauer prevented. It is not often Looey loses a game for the home aggregation, so there was no excuse for his little nap at third base with only one out and one run needed to win. Mr. Minmie Matteson, perceiving that Looey had lost all recollection of time and place, promptly passed the pill to Mr. Bullock, who caught the slumbering gent a yard off the bag. It broke up the game as far as London was concerned. With the score a tie, it was necessary to play an extra inning, as seven innings had been agreed upon as the length of the contest. In the eighth, the followers of Mr. Deneau packed the joust so hopelessly out of the reach of the grasping home help that it was almost a crime. They got to Mr. Fitzpatrick for four runs, and it was all over.

The locals grabbed the lead in the second inning, when Mr. Bramble's assortment was combed for two hits and three runs. After Cocash had died on a foul fly, Fox singled to right and was forced at second on Neale's grounder to Bramble. Speer walked and Smith hit a long fly right into Burns' mit. The latter muffed it, however, and Neale and Speer counted. Linneburn followed with another hit in the same direction, and the sun got in Mr. Burns' way this time, the ball falling safe, and Sammy Smith scoring. Deneau then put Reidy in left, and sent Burns to right. The wisdom of the move was seen when Gilhooley sent out a high one to left with two men on, Reidy gobbled it up.

TORONTOS CINCH THE CHAMPIONSHIP

Defeat Tecumsehs in One-Sided Battle in the Queen City on Saturday.

FRENCHMEN GOING FAST

Take the Measure of the Irish at Montreal Saturday-Caps Win From Cornwall in Overtime.

Toronto Aug. 11.-In a week that saw the best exhibtion of lacrosse of the season, viz., the civic holiday struggle at the Beach, the enthusiasts of the city also witnessed the poorest game played so far this year. The Torontos defeated the Tecumsehs at the Island on Saturday by 9 to 4, but that score gives little idea of the superiority of the boys in blue over last year's champions. The men were not going fast enough to keep them always in-terested in the matter in hand, and consequently there were several ad-journments while the players settled difficulties. It may be remarked in passing that the D. L. A. cannot afford many exhibitions of this kind. People want lacrosse like these teams have proved they can play. The Torontos always seemed sure of the outcome of the game, and without apparently exerting themselves they went steadily to work to roll up a safe score, notching points at regular intervals. After placing the game on ice they tried out Spellen and Holmes to give them the experience which both require. Spellen has speed and grit when he learns to

use them Montreal 6, Shamrocks 4. Montreal, Aug. 11. — Montreal de-feated Shamrocks 6 to 4 yesterday afternoon, and though it was slow lacrosse it proved interesting to the end, for the Irish were coming fast, and it looked for a while in the second half as if the "winged wheelers" might not be able to insure their escaping the cellar position. The game was often delayed by minor injuries to players, and proved rougher than previous encounters. Frankie Hogan and Allman were each retired and received the major penalty for tripping, while Mc-Intyre received a cut on the head, the guilty party escaping. Capitals Won in Overtime.
Ottawa, Aug. 10. — It took 70 min-

utes of the fastest and most exciting lacrosse to decide the Capital-Cornwall struggle in the N. L. U. yesterday. The Capitals were eventually the winners, and the final score was 3 to 0. The result leaves Cornwall still at the top of the heap, but the Capitals now have a chance to tie them, a feat screamer to right, going to second on the throw to get Boyle at third. Linneburn was equal to the occasion, shoving another bingle to right, scoring a pair. Linneburn was stranded when Reidy got which can be accomplished by winning their remaining games from Montreal and Shamrocks, and beating the Corn-walls on their own field two weeks One goal virtually meant the game for either side, and on severa occasions Cornwall had the N. > Nationals 12, Irish 0. Montreal, Aug. 11, — Nationals administered an unmerciful whipping to the Irish-Canadians yesterday on the East End grounds, whitewashing Kennedy's boys by a score of 12 to 0. One of the largest crowds of the season turned out in expectation of an overtime game between the teams, and for the first quarter it looked as if their hopes might be realized. In the second, however, the Nationals ran in six in a row, and while the third quarter was also scoreless, they duplicated their feat of the second period in the

you as you see Whitman for the first time—see his slate eyes that look straight at you, his firm mouth and his long, aggressive jaw that snaps like a steel trap.

His words come out without vado, but with a determination you know will not be put aside. Absolutely Fearless. Perhaps Whitman's training is re-

sponsible for this fearlessness, this complete indifference, for intance, to the power of the great New York police system. Whitman's daddy, you see, was one of those old-fashioned New England circuit riders that jogged on horseback from Dan to Bersheba, spreading through Middlesex village and farm the gospel according to John Wesley. And very often it was to John Wesley. And very often it was wickedness, does not settle them, ers.

Toronto, Aug. 12.—Sir Donald Mann was asked what he thought of the action of the United States Senate in regard to the Panama Canal, and which in effect practically made the which in effect practically made the which in effect practically made imcanal free to American ships and im-

posed tolls on foreign ones.

Sir Donald thought the action of the Senate was ill-advised, but if Congress persisted in that policy then he was prepared to suggest that all the other nations co-operate in building and maintaining for all time and free of toll a second or even a third canal at the isthmus, and that at least two more were easily possible, one some distance at Panama south of the presdered his resignation yesterday to the mayor. His action comes as the climax to the general outcry on the United States and one at Nicaragua United States and one at Nicaragua Both of these projects have been fully surveyed and all the calculations made, and his idea was that one could be built for \$100,000,000 and one for \$150,000,000.

Sir Donald was asked if there was any treaty objections to other nations building these two canals. He said there was some kind of an agreement in the treaty covering the Panama Canal, but inasmuch as the Americans had seen fit to violate its obligations, there would be equal liberty to nations for doing the same, and in that way the canal could be built and maintained by governments other than that of the United States. He even went so far as to say that probably went so far as to say that probably there would be enough commerce for both of these canals, and that other nations could easily build and find trade for them. Sir Donald was so jaunty over it that it looked as if he would like to build one of the new ones himself.

MUST KEEP ALL DOGS UNDER QUARANTINE

Ingersoll Board of Health Takes No Chances as Result of Recent Scare.

[Special to The Advertiser.]

Ingersoll, Aug. 12.-The recommendation was embodied in a resolution passed by the board of health that the nayor issue a proclamation that all dogs be tied up or led on chains until the 21st day of September as a consequence of the supposed mad-dog episode of Tuesday last. It is not likely, however, in view of the sentiments already expressed that such a myelamation will be issued by the proclamation will be issued mayor until such time as it is definitely known that the dog has rables. John Shey made the acquaintance of Magistrate Paterson Saturday, and for a time his freedom was very uncertain and the attitude of the court was very favorable towards sending him to the prison farm at Guelph. The charge against Shey was vagrancy He was taken in tow by Constable Bearss early in the morning after emerging from the Noxon works, where it is supposed he had "lodged." He claimed to be capable of earning livelihood, but admitted being addict-ed to strong drink, and that he had been in police court before. Finally the magistrate suspended sentence and gave John half an hour in which

to make himself scarce. "Bud" Kelly, of Peterboro, for number of years a member of inger-soll's well known home-brew hockey team, is home on a visit. "Bud" has played hockey in Peterboro or two years, where he has a good position.

Walker, cheesemaker at the Paramount factory, dropped dead at his boarding-house here today. Deceased, who was a healthy-looking man, got up as usual and went into the factory to start the fire in the boiler house Having done this, he returned to the house for broakfast, and was sitting playing with the baby, when he sud-denly collapsed, and on examination

he was found to be dead. Dr. Gordon, the coroner, gave heart failure as the cause of death. Deceased was unmarried. His brother-in-law lives in Listowel, and his parents are out west. He was in his 23rd year. The remains will be sent to Listowel for interment.

Let the Buyer Beware

FOR centuries the principle of "Let the Buyer Beware"—"Caveat Emptor"—ruled the world of business. In fact, it was not a principle-but rather a lack of principle—yet it held sway everywhere until a decade or two ago.

When a merchant quoted a price, he made it high enough to stand almost unlimited whittling, and yet be profitable—to him. When he spoke of quality, his fingers were crossed, and you were not expected to believe him -unless you wanted to very badly.

Buying was a haggle—unless you were a hardened haggler you came out second best in every deal. "Caveat Emptor"-it was up to you. There was no confidence between buyer and

Business-once an aggregation of deals-has become the living embodiment of ideals.

Advertising has helped, because Advertising creates confidence in the buyer and proves the seller's confidence in his wares. Confidence has eliminated the haggle.

You see business confidence is a good deal like capital, in that it accumulates like savings. The groceryconsumer's confidence in a town will

be on deposit chiefly with a few capable square grocers; and dry-goods confidence, jewelry confidence, and so forth, are massed in the same way.

The retail merchant doesn't lock this confidence in his safe. He deposits it in turn with the wholesaler, who passes it on to the manufacturer. And the manufacturer, to make the circle complete, must give confidence to the consumer.

The manufacturer with goods to sell must draw upon all these reserves of confidence. He must demonstrate his own fairness in dealing, his integrity in maintaining quality, his willingness to put principle before

Advertising is the means through which the manufacturer makes this demonstration to you.

Advertising has given personality to commodities, so that you now recognize your "friends" among soap, tea, or collars, as readily as you recognize your human acquaintances.

Advertising fathered the "money back" principle, and has made buying a pleasure instead of a duel of wits.

Advertising has spread the one-price policy-erased "Caveat Emptor" from the language of business, and made buying safe to entrust to a child.

> Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—write if interested.

LOOKS LIKE FINE CROP

Winnipeg, Man., Aug. 11.—Generally favorable and optimistic is the crop report of the Canadian Pacific Railway covering the week ending Friday.

With the exception of the last two days the weather for the week throughout the west has been just a little cool for the growing crop, but late reports on Friday showed that fine, ripening weather prevailed. There has been no damage from either cool or cloudy weather, as there was not enough to retard ripening. Cutting over the whole province of Manitoba will likely be general by the 15th.

WHY ROSE SQUEALED

New York, Aug. 11.—The true story of what drove Jack Rose to the confession that put Lleutenant Becker in the Tombs charged with the murder of Herman Rosenthal, is told from the first time. It was the reply, whispered to him in the council room of the Tombs, to the third message he had sent to a police official asking whether he could rely on Becker's promises of protection.

This was the answer to his final appeal:
"The best thing for you to do is to kill yourself." That advice, sent to Rose one week after he had surrendered himself, was a plain intimation that he was to be left to shift for himself. So Rose, who had been hoping against hope, agreed then to the persuasion of his lawyer, James E. Sullivan, and sent Sullivan to District Attorney Whitman.

Today a letter from the Sacred Consistorial congregation at Rome, acourt of last resort, was read in all the churches throughout the dioceses of Montreal and Ste. Hyacinthe, preceded by a brief joint episcopal note from Archbishop Bruchesi and Bishop Bernard, fully supporting the interdiction rulings of the two prelates, rulings which were supported by the apostolc delegate at Ottawa, and condemning in the most severe terms the priests

who have opposed their ecclesiastical superiors. Following this, an authoritative announcement was given out that the priests had decided to submit to the ruling of the Holy See; that the Mr. Edwards whose claims against the col-lege had resulted in the civil court order declaring that the priests must not leave St. Johns until these claims had been duly settled, had agreed to accept \$56,000, permitting the priests the American immigration office at to go where they chose; and that the Saint Clair brought a suspicious-look- priests, following their submission, would be rehabilitated and their sus-

The letter from the Consistorial College refers to the petition of the priests, dated July 11, against the decrees of Archbishop Bruchesi, decrees of Archbishop Bruchesi, Bishop Bernard, and the Apostolic delegate, and declares absolutely against the pretensions of the priests. The letter (translated from the Latin text) continues, in part, as fol-lows, referring in particular to the necessity of their abandoning their college:

"As such a prolonged and stub-born resistance on the part of these priests to the orders of their bishops, o the sentences duly and legitimately accorded, and even to the notices and commands of the Holy See, is a thing absolutely condemnable, and as on the other hand they have resorted to futile pretexts, which they themselves could have avoided, in order to re-fuse obedience, it follows therefore that these priests must be considered in absolute rebellion against the legitimate authority of the church, and as such absolutely unworthy of having the education of children

FRUIT IS PLENTIFUL IN WINGHAM DISTRICT

Black Knot Is Reported Quite Bad in Plum Trees Some Places.

[Special to The Advertiser.] Wingham, Aug. 12.-Fruit promises well all through this district, and many of the trees are heavily loaded. Notwithstanding that black knot is very bad in the plum trees in many places, the fruit will be plentiful and

of good quality.

The general outlook for grain and roots is also very bright, and the flax growers report an abundant yield. Divergent Views of the Panama Canal Bill in United States Congress.

DISAGREE WITH SENATE

Senator Lodge Declares Congress at Present Is Determined to Destroy American Roads.

Washington, Aug. 11. — The House yesterday promptly disagreed to the Senate amendments to the Panama Canal bill and this radical anti-railroad measure has now gone to conference to be whipped into final form.
It is acknowledged by those who are opposed to the measure that the bill will lose none of its so-called "progressive" features in the tinkering by the conferees of the two Houses. As a matter of fact, the railroads will be lucky if the bill emerges from the conference with no more fangs than it

carries at present.

The House Democrats voted for an absolute prohibition against any railroad holding stock in a competing water line, and the Senate conferees will have a fight to limit this prohibition to ships that pass through the Panama Canal and leave it discremerce commission to say whether or not other railroad lines shall be compelled to divorce their ship holdings. The point has been made since the passage of the bill by the Senate as to whether or not the prohibition

against railroad-owned ships entering the canal will apply to the vessels of the Canadian Pacific line. Some senators hold that, since the Canadian Pacific is under the jurisdiction of the interstate commerce commission, in a few sections where it enters the Unites States its vessels will come within the prohibition. Other senators contend it would be ridiculous to attempt to include the Canadian Pacific boats within the scope of the

Pacific boats are given free entry to the canal, the spectacle will be presented of a foreign transcontinental line being granted a privilege which is denied absolutely to an American line that has been contributing its full share to dig the canal.

A good deal of interest was expressed in circles outside the Senate yesterday in the speech which Senator Lodge delivered against the present tendency on the part of Congress to destroy On the other hand, if the Canadian

THE DARROW TRIAL.

Los Angeles, Cal., Aug. 12. — Beginning today, the trial of Clarence S.

The time the defence was expected to use for the presentation of its arguments could not be ascertained accurately, but it was understood that counsel probably would use many hours in beginning the presentation of the defence to the jury and that Darrow himself would consume the greater part of a day in concluding it.
