HEAVY RAINS AID WESTERN CROPS

General Downpour Will Relieve Situation in Alberta and Saskatchewan.

DROUGHT IS BROKEN

Canadian Press Despatch.
Winnipeg, July 29.—Heavy rains of the past week throughout the Prairie Provinces were supplemented by further precipitation today. A general downpour was reported from points in Saskatchewan, which had suffered from the protracted drought. These districts report that the rain is urgently needed for summer fallow, and that it will materially relieve the crop and feed situation.

Heavy rainfall was also general in the territory tributary to Saskatoon. In Alberta the downpour, according to reports, will prove of incalculable benefit to all crops. The moisture was badly needed and hopes are beginning to revive that Alberta will have a considerable "comeback" and that there will be a fair average crop after all.

Light rain was general in Manitoba, but sufficient moisture has already fallen in that province for the crops in its final stage of growth.

ALL CROPS BENEFIT.
REGINA, July 29.—"Grain which was just on the border line of danger from drought will be saved, and crops even in the best areas will benefit," said F. H. Auld, deputy minister of agriculture, when today's rain had been general over the province.

"It has come too late to save the wheat in a few scattered areas," he continued, "but the chief value is that the feed situation is now reasonably safe. Even in the dry districts a second growth of oats will come along, which will insure farmers feed for their stock."

BARNs DESTROYED.

Shaunavon, Sask., July 29.—One of the heaviest and most damaging hail storms in the history of the district swept over Shaunavon and neighboring territory Monday afternoon. Many barns were destroyed by the strong wind, while livestock was struck by lightning on several farms. No human fatalities have been reported.

The hail loss in the area affected is reported as heavy, although it is impossible to estimate even approximately the extent of the damage to the crops. The streets in the town were level with water and gardens suffered badly from the veritable cloudburst. The storm lasted about twenty minutes.

CHILD PATIENTS VISIT SPRINGBANK

Boys From War Memorial Hospital Ride on Little Train and See the Zoo.

Never did the picknickers at Springbank see such a queer little party of motorists nor such a merry one as they did the other day when Mrs. Gordon Edgecombe and Mrs. F. J. Greenaway took four boys from the Sick Children's Hospital on a jaunt to the park. Merry because the boys were exuberant over everything which they saw, and believed in saying so. Queer, because they were clothed squaw-like in great gray blankets, their small legs in plaster casts, hitched up on boxes for comfort, and their hands struggling out of the mass of gray to propel ice cream cones mouthward.

These little gray-clad men took Springbank by storm. They drove behind the Shetland ponies, kind on-lookers helping to lift the helpless little bodies into the pony cart. They rode on the jolly little train, and had first place, too, just behind the engine, so that they could see. The trainman saw to that. Other patrons had to retire to the rear. Last of all there was the all-absorbing zoo, the wild animals which they had so longed to see and yet never had a chance before. It was indeed a happy day.

There followed the long ride home. Then to bed, and such a chattering as took place. Each little tongue wanted to outdo the other in telling about the sights, sights which might come more frequently if people with cars more cared a little more.

YOUNG MAN DROWNS IN DEEP HOLE IN RIVER

Joseph McQuade Dies in Maitland River West of Seaforth.

Special to The Advertiser.
Seaforth, July 29.—Joseph McQuade, 18-year-old son of Mr. and Mrs. Joseph McQuade of McKillop Township, was drowned in the Maitland River, about five miles from here, this afternoon.

Mr. McQuade, in company with three other young men, William Elliott, Fred Bolmage and Charles Bolmage, had motored out to the farm of Charles McGregor on the Kimbourn road, west of Seaforth. He waded out into the river, which is quite narrow at this point, and slipped into a hole nine feet deep, and which has a clay bottom. When his companions saw him disappear below the surface of the water they hurried to his assistance, but it was a half hour before the body was recovered. Coroner Dr. F. J. Burroughs was sent for, but he could do nothing to revive the lad.

Motorists Offer Various Solutions To Lessen Glaring Headlight Menace

HEADLIGHT MENACE OPINIONS DIFFER

Few Go to Garage to Have Bulbs Adjusted in Season.

LAWS IN LONDON

Opinions of London garage men differ greatly on the question of a solution for the glaring headlight menace.

They all agree on one point, that the law regarding headlights in the city should be enforced. Different views gathered by The Advertiser this morning at service stations show that there are many ways of looking at the glaring light problem. One garage man stated that in his opinion the only solution is the clear glass headlight with the green shade like a quarter moon protecting the top of the headlight. The next best thing was the yellow colored lens. The uncolored lens patterned to diffuse the light and other non-glare glasses were of little value. It was a rare thing for anyone to come to him to have their bulbs focused. He said that most motorists felt that when they had such lenses they were secure. The government had specified that they must have approved lenses, and having them assumed that they had done all they could do. No one had come to him to have their lenses focused. He adjusted his own because he got better driving results when they were properly lined up. It got on his nerves to be driving along with one light higher than the other.

Smaller Lights.

Another stated that the danger could be lessened if owners would not use such high candlepower bulbs. He knew of drivers who were using 42-candlepower lights. He got all the satisfaction he could from 21-candlepower. He had not much faith in the adjustments of the bulbs. In some cars the bulbs could not be adjusted readily because they were set-screw to make the adjustment. In that case the bracket to which the headlight is attached would have to be bent or sprung to lower the glare.

This was not a satisfactory solution. One garage man believed the spot light to be a safeguard if it were attached on the right side of the front spring of a car, so that it would throw illumination along the side of the road and show a driver the amount of leeway he had.

C. E. Bernard, secretary of the London Motor Club, is strong for the adjustment of the bulbs. He holds that an eighth of an inch movement of the bulb is all that is necessary to make the adjustment correct, and that the glare is then eliminated. The club has many diagrams and charts to show just what be expected of a bulb, and how it should be adjusted.

Increasing Peril. Garage men and motorists interviewed today stated that they were fully aware of the increasing danger of night driving. When a motor coming in the opposite direction was only encountered once in five miles, now they are running right on top of each other, and the danger is ever present.

All were of the opinion that dimmers only should be used on city streets, and that the headlights as far as the city was concerned.

The unlighted vehicle, the wagon, buggy and bicycle came in for considerable criticism. They were constant sources of danger at night. A driver rarely saw them until he was upon them, and the escape was often a matter of nothing short of phenomenal.

HOT DOG PURCHASE COSTLY FOR YOUTH

Gordon Fleming, 17, Fined \$5 For Using Abusive Language.

The purchase of a hot dog from Granton's refreshment booth by Gordon Fleming, 17 years old, proved to be a hundred times more expensive than Gordon first anticipated when he walked into Mr. Granton's booth on July 18.

Fleming was in police court this morning, charged by Mr. Granton of using grossly abusive language toward him. Granton claimed the young man was in the habit of entering his booth and swearing at him. When he was asked to stop on one occasion, the boy became rough.

He told Mr. Granton that he was not a member of his family, and insulted his family. Granton told the court, Fleming claimed that his family had been insulted first, but as he had pleaded guilty to the charge of using abusive language, he was not allowed to say anything further.

According to Chief of Police Robert Birell, Fleming has appeared in court before, and has had several warnings. Deputy Magistrate Gladman fined the lad \$5 and costs.

LOOKS INTO INSURANCE.

Secretary W. A. Tanner of the board of education, stated today that the matter of increased insurance on the new Empress avenue public school, now being built, was being investigated. At the present time there is only \$15,000 insurance on the building, and as the roof is complete and interior work is going on, it is felt that more insurance is justifiable.

CIVIC RUIN'S LATEST ACT CAUSE OF MUCH BROODING

Ungrateful Stone, To Break Away After Century of Allegiance.

FALLS FROM GRACE

Water Pipe Sinister Cause of Deed at Dundas Street Memorial.

The fall of the civic ruin on Dundas street, the joy of all provincial antiquarian societies, and the mecca of all passing tourists in search of the genuine antique, is showing signs of early disintegration, according to some of the occupants. Several days ago a water pipe running below the front door burst. A gang of expert workmen—some of the city hall officials—said they were plumbers—arrived and put the pipe in order. Now the front step of the hall has settled about two inches and broken away from the century-old allegiance to the second floor.

Not only this but there is a decided hollow in the pavement in front of the hall, a falling away from grace as it were, and the steps of the mighty who hold committee and council meetings below the rafters, must be carefully watched if there is not to be a backsliding of aldermen in the near future.

"It's a shame," said one of the officials today, as he stood on the second step with his pine in his mouth, and surveyed the prodigious first step. "Just think of that old stonework breaking away from us like that. After all these years to do a thing like that. It looks as if it were 'under the influence,' but I may be wrong. After all it was only a water pipe that burst. There's one thing, it might be worse. It might have been a stone from the roof and an alderman might have been the victim."

The thought of such a tragedy and loss clouded his aristocratic features, and he returned to his den to brood over the signs of decay evident in the civic center of his native city.

YOUTHFUL FORGER IS GIVEN TWO MONTHS

Cashed Check on Girl Friend—Is Warned by the Magistrate.

Because Alvin Rose, a young man of 22 years, had committed his first offence in forgery and restitution had been made, he was this morning sentenced by Deputy Magistrate Gladman to only two months in jail.

Crown Attorney Albert Judd pointed out to the court that the young man was not passing checks or forging names of various people, and that the offence had been committed against only one party, a young girl whom Rose had been taking out.

Magistrate Gladman stated that he could not take exactly the same view of the case as Mr. Judd, and that he thought later on Rose would take advantage of such a situation. There was little justification for the crime, he said. Rose had become restless and had traded upon the sympathy of a girl.

"If you hadn't stopped you probably would have gone on," Mr. Gladman said. "How ever, I will take into consideration that it is your first offence."

EDUCATIONAL SURVEY IS STILL IN DOUBT

Minority of Trustees Send Answers to Britain Questionnaires.

W. A. Tanner, secretary of the board of education, has had no further answers to questionnaires sent out to trustees regarding action for a British administrative survey of the department. Due to the holiday season answers have been received from only a minority of the trustees and early action in the matter is improbable.

"It isn't likely we'll have a special meeting, as the trustees stated at their last regular meeting that they wanted no sessions until September," Chairman Bryden Campbell stated today.

Information given would indicate that if a British survey of the schools is made, it will not be started until the middle of September.

WITH TWO SONS DEAD, WIDOW SEEKS PENSION

A pension case is now before George Turner, secretary of the G. W. V. A., which concerns a widow who had one son killed in France, one who died in Westminster Hospital last March from the effects of wounds received while in the Canadian army, and two boys who were so badly gassed that it is impossible for them to work.

The first son to die had given his money to his mother, but she has not received any money since his death. The second boy to die was setting a small pension up to two years ago, but this was stopped for some unknown reason. The other two boys are married and are unable to help their mother in any way.

The woman is an invalid, and is hardly ever well enough to leave the house. She wants the G. W. V. A. to try to obtain a pension from the government for her, as she believes that she is as much entitled to a widow's pension as anyone.

SIR JOHN DE ROBECK, commander-in-chief of the British Atlantic fleet, who directed a review at Spithead of the warships and 30,000 officers and men.

MAYOR LIKELY TO ATTEND SESSION

Unemployment and Immigration Problems To Be Discussed in Ottawa.

The mayor will probably attend the unemployment conference to be held in Ottawa, in connection with the provincial amendment of the act, may make an accounting of goods on hand on the date of the issue of the license and submit a summary thereof in duplicate to the collector of customs and excise.

The question of unemployment and immigration have been dealt with by Alderman McKay and the London Labor party, together with the Trades and Labor Council, for months past. On all sides there has been a severe criticism of the present methods of both the provincial and federal governments in encouraging immigration from Europe at a time when there was no work for them, and of allowing the cities to shoulder the burden of winter relief when the men were stranded in the winter months.

PRIZE LIST IS INCREASED BY ILDERTON FAIR BOARD

Special to The Advertiser. Lobo, July 29.—At a special meeting of the Ilderton fair board, the revision of the prize lists, reports from each sub-committee and applications for prizes were taken care of. Some increases were made in prizes for grain, an added special was given by Rev. A. Shaw, and E. P. McLeod for the best trained colt one year and under, shown on the line by a boy or girl 14 years old or under. The prizes are \$5, \$3, and \$2.

The will be a game of baseball between the Ilderton club and Delaware or some other league team. There will also be a novelty sack race before the grandstand.

Jas. McLeod of York County, department judge for the standing field crop competition, is judging the standing field wheat this week. Friday, Sept. 26 was set for the date of the fair.

CROP PROSPECTS BRIGHT IN COUNTY OF WATERLOO

Special to The Advertiser. Kitchener, July 29.—Crop reports from the northern half of Waterloo County are most encouraging. The winter wheat crop gives indications of being above the average, and cutting has already started. It is expected that the average yield for this year will be the average this year in this locality.

The root crops are reported in excellent condition, with a larger acreage, especially in turnips. Indications are for a light apple crop.

BEACHVILLE WORKMAN CAUGHT IN CONVEYOR

Special to The Advertiser. Beachville, July 29.—Peter Graham, an employee of the Beachville White Lime Co., had his hand and arm caught in a conveyor belt this morning while cleaning the rollers. No bones were broken, but both hand and elbow were badly cut. He was removed to Alexandra Hospital, Ingersoll, where he will remain for a few days.

SUCCESSFUL CONCERT.

Port Lambton, July 29.—One of the best concerts held here in some time was held in the Methodist Church on Monday night, and was attended by a large crowd, and was a success in every way.

The orchestra gave a number of selections which were well enjoyed. Trios by Orrin Fox, A. McCoy, and Van Vleet; piano solos by Miss Moss and Miss Merrill in the Methodist Church; violin solo by Miss Bessie Bowers; recitation by Miss Helen Leake, entitled, "Friday Afternoon in a Country Schoolhouse," featured the program.

TAXABLE GOODS NEED LICENSE

All Firms Must Have Sales Tax Permit If Products Are Taxable.

EFFECTIVE SEPT. 1

All manufacturers and producers of taxable products, even though their gross turnover is less than \$10,000 a year, are required to obtain a sales tax license and account for sales tax monthly in accordance with the regulations of the sales tax act.

The licenses are effective after Sept. 1. The penalty for neglect and refusal to take out a license is \$1,000. Bona fide wholesalers and jobbers may also be granted a consumption or sales tax license upon giving the necessary security, which is double the amount of the consumption and sales tax that would be payable under a three months' period, to be chosen by the collector of customs.

The security shall be in the form of a bond or by an incorporated guarantee company authorized to do business in Canada. Licensed wholesalers and jobbers are required by the act to keep adequate books and accounts for the purpose of rendering true statements to licensed manufacturers or producers and sales to others, and pay any tax imposed by the act.

The license of any wholesaler or jobber who contravenes any requirement of this section shall be cancelled forthwith, and the wholesaler or jobber shall not be granted a license within a period of two years after date of such cancellation.

Wholesalers or jobbers who obtain a consumption or sales tax license under the provincial amendment of the act, may make an accounting of goods on hand on the date of the issue of the license and submit a summary thereof in duplicate to the collector of customs and excise.

Claims for deductions of the tax paid on goods on hand on that date is required to be submitted in duplicate to the collector of customs and excise on Form N 17.

Deductions from sales tax returns may be made monthly until the amount of claim has been adjusted. The deduction for the material on hand also applies to the manufacturer and producer.

This was provided for from the first, but before the act was not assented to until after that date the act becomes effective on Sept. 1. It was carried out in this way to avoid confusion.

WALKERVILLE DRIVER HAS LICENSE STOPPED

Appears At Blenheim On Two Separate Charges of Speeding.

Blenheim, July 29.—Stiff fines for speeding and a "stop" for three months were handed in the local police court here this morning by Magistrate Whittington to young Magdalen, of Walkerville, who appeared before the court on two separate charges of speeding. The first, laid by Chief Lowes, who observed him passing through town at a high rate of speed, and on the second, laid by Chief Lowes, who observed him many miles away on a country road going. It was claimed, at times that he was driving at 60 m.p.h. The first charge he drew a fine of \$10 and costs, \$5.25; on the second he drew a fine of \$5 and costs, \$3.25, and was told that he is not to drive a car for three months.

There has been considerable business in the way of offenders of the motor vehicles act having to face the court and "coughing" for disqualification. The minimum fine has been \$10. There has been a marked increase of observation and marking on the part of the police, and having proper lights at night since the special speed cop made his appearance in the southern district. His methods have been commendable in carrying out his duties.

KITCHENER ABATTOIR CAUSE OF COMPLAINT

Board of Health Threatens To Close Place If Orders Not Observed.

Special to The Advertiser. Kitchener, July 29.—The board of health believes that local butchers are violating the regulations with regard to the abattoir on Guelph street, which they are using in common.

Members of the local and provincial boards expressed dissatisfaction with the conditions, but suggested improvements have not been made, so the local board threatens to close it unless the order is complied with.

The health of the city is good, although there are three cases of typhoid fever within the corporation limits and one outside. It is believed that these originated in other parts of the province.

The proposed project of the milk problem had to be called off a week owing to the inability of an expert of the provincial department to come here this week.

Residents of one of the newer residential districts in the west-end of the city presented a largely-signed petition to the city council, asking for an offensive odor from the plant of the Dominion Glue Company. The factory has been in operation for many years, while the majority of the houses were erected within recent years. The board will request the company to install the most modern equipment, as required by statute.

HERTZOG DISCARDS CLASS AREAS ACT

South African Government Not To Carry Out Smuts Plan.

Associated Press Despatch. Cape Town, S. A., July 30.—The Hertzog government does not intend to proceed with the late Smuts government's class areas act, but will consider the question of Asiatics in the South African union after the present session of the House of Assembly. Announcement to this effect was made in the house yesterday by Dr. C. W. Malan, minister of the interior, public health and education. It is expected that a new bill dealing with the question of Asiatics will be introduced.

The class areas act passed by the former government of South Africa provides for the setting aside of areas to be selected and supplied by local urban authorities for residential or trading purposes or both for a particular class of persons, namely, Asiatics. Persons residing in such areas are prohibited from acquiring unmovable property or leases of property. There are also restrictions on trading licenses.

The act aimed particularly at Indians residing in South Africa and has aroused considerable resentment among Indians generally.

MAYOR HOPES FAINT WILL AID TOWN HALL

To give the east end town hall a coat of paint that will make it look like a new building, the mayor hopes that the establishment of a new two-year agreement between the city and the Union Natural Gas Company, about to be completed, will pay more for natural gas from January 1, 1925, under the terms of the summer tariff will be 30 cents a thousand net for all gas used. Meter rates will be unchanged.

The existing agreement expires on October 31, but the old rates of 50c and 70c will continue to the end of the year.

OFFICERS ARE INSTALLED BY TILBURY ODDFELLOWS

Tilbury, July 28.—District Deputy E. W. W. of Tupperville installed the officers of Coronation Lodge, No. 343, I. O. O. F. He was assisted by the following staff from Tupperville: R. Tiffin, grand warden; L. Haggerty, financial secretary; E. Shaw, grand treasurer; J. McArthur, grand chaplain; J. Shaw, grand guardian.

At the conclusion of the ceremonies Mayor Sawyer congratulated the officers of the lodge, and the staff for the excellence of the work. After short addresses by Dr. Mills and others, the gathering adjourned to Kitzman's, where luncheon was served.

The following are the installed officers of Coronation Lodge: Rev. M. A. S. George Wallace, I.P.G., M. McLeod, N.G.; H. Cranston, V.G.; Dr. Mills, recording secretary; D. C. CATTLE POISONED.

Forest, July 29.—Guy Turner, Rosanquet Township, had two valuable cows die recently. The veterinary found that the cause of death was poisoning, and that the source was the white lead remaining in the bottoms of paint cans that had been left lying around.

Rye Bread Goes Up In Price

Associated Press Despatch. Vienna, July 30.—Announcement is made of an 8 per cent increase in the price of rye bread, which is the principal staple diet in Austria, owing to the rise of wheat on the overseas market.

WHEAT PRODUCERS SEEKING CHARTER

Associated Press Despatch. Regina, July 30.—Immediate steps are being taken by representatives of the Saskatchewan, Manitoba and Alberta wheat pools to obtain a Dominion charter of incorporation for the Canadian Co-operative Wheat Producers' Limited, a company in which the new interprovincial selling agency is to be known. The headquarters of the new company will be set up at Winnipeg.

Decision to establish the new organization for disposing of the 1924 crops from the three prairie provinces was reached last night at the close of a two-day conference between the executive members of the three pools at Regina.

The rechartering of the new organization will consist of nine members, three from each provincial pool. The new company will be capitalized at \$150,000, with each of the three pools taking an equal share of stock.

BREWERIES NOT WORRIED OVER PROMISED RUM PROBE

Canadian Press Despatch. Windsor, July 29.—Local breweries and distilleries stated today that they were not worrying over the promised probe of rum export by an official of the federal customs department.

The report has not even caused a flurry here, as the manufacturers state they have no possibility of getting a franchise to operate a fleet of buses in the city when the street railway question is settled.

Mayor Wenig says that he thinks every motor bus company on the American continent has had representatives here in the last six months. He says they take up a good deal of his time, but adds philosophically that at any rate the street railway question has had some advertising value for the city in one direction.

STONE TOWN TAKES ON WALLACEBURG TODAY

Special to The Advertiser. Wallaceburg, July 29.—The Wallaceburg intermediate lacrosse team will journey to St. Marys Wednesday for their return O. A. L. A. encounter. Very little change will be made in the line-up from that which has done such good service in the recent games. They will be without Wickham, their speedy home man, who was recently injured at practice. Lockhart, who has been resting, comes back into the lineup as fresh as ever. It is anticipated that the Glass Town boys will have little difficulty in maintaining their undefeated record of the season.

IRISH CANADIANS WILL PLAY AT WALLACEBURG

Wallaceburg, July 29.—It has been arranged that the Irish Canadian senior lacrosse team of Toronto, which includes Canada's star athlete, Lionel Ouchner, will visit Wallaceburg on Saturday, August 2, for an exhibition game with the undefeated Wallaceburg intermediate team. The game, which is being looked forward to with unusual interest, has been called for 2:30 p.m.

OPEN AIR SERVICES.

Lobo, July 29.—The Lobo open air service, held in Memorial Park on Sunday evening drew the largest crowd yet. Harold David presided. Rev. Mr. Stott preached. Rev. N. A. Campbell, Angus Fonger, and S. P. Wallace assisted. Solos by Prof. Gordon, Miss Stott, a number by the quartet, and several selections by the orchestra were given. Next Sunday will be the last of the series and will be under the first Lobo Baptist and Komoka Methodist churches.

BOARD PROPERTY FAILS TO ATTRACT

Education Department Receives No Offers For \$15,000 in Land.

FREE FROM TAXES

The board of education, with \$15,000 value of vacant property on its hands, is unable to find purchasers. Three properties announced for sale last month have so far failed to encourage bidding.

No amount felt in educational circles that Cheapside, Grand avenue and the Dakin and Price street properties cannot be sold. No taxes are being paid and there is no hardship felt in retaining the properties, which will not be used, however, for school purposes. For one reason or another they have been found of no use for academic building.

It is stated, however, that if the board were to get a good price for the properties, the money would revert to other active school properties in their respective districts. The Dakin and Price street property, if sold, will apply on the new Trafalgar school.

It was arranged some time ago that the Dakin and Price street land would be sold and the sale money help pay for construction of the new school.

The Grand avenue school property is reported to be valued at over \$3,000, there being over 200 feet frontage on Grand avenue worth at least \$15 a foot. This will apply on the Tecumseh avenue property. At the present time transfer of civic property to the board of education in a large 10-acre block where Tecumseh public school is situated is being discussed. The board has rights now to practically the entire block, though there are still two small indentations worth about \$2,000 each. If these are purchased, part of the sale price of the Grand avenue property may apply.

The Old Cheapside street school, formerly a dwelling house, and used for some time as the University library, is up for sale, and so far no purchasers have come forward. Sale of this property will result in a sum of money which may be applied for improvements to Ryerson school.

It is expected that before the next regular board session in September, some offers will be made for the idle property and that it will be cleared from the hands of the board.

FIFTEEN EXAMINERS ACTED IN RECENT TESTS

Forty Per Cent of Fees Charged Goes to City.

It was stated today that fifteen examiners had acted during recent departmental examinations held in London secondary schools. Not all of these had been on duty all through the examinations. Some of them had served only a day or two, others were on duty for ten days. They were paid at a rate of \$9 a day.

Fees in the departmental tests were \$1 per pupil for each examination. Of moneys collected from examinations 40 per cent goes to the city department for payment of stationery, the remainder of sums collected goes to the provincial department of education.

Figures of the total cost of examinations are not available.

CONFERENCE IS CALLED ON PROBLEM OF FEES

St. Marys Board of Education Invites Ingersoll Board To Meeting.

Ingersoll, July 29.—An invitation has been received by the board of education from the St. Marys board to send a delegation there to a conference of trustees on August 13 for the discussion of the question of fees to be charged county pupils. This is a matter that is creating keen interest in many places. J. J. McLeod and T. R. Mayberry were appointed delegates from the local board.

ANOTHER BUS COMPANY WOULD OPERATE HERE

Representatives of the Faguel Motor Bus Company from Kent, Ohio, were in the city yesterday seeking the mayor as to the possibilities of getting a franchise to operate a fleet of buses in the city when the street railway question is settled.

Mayor Wenig says that he thinks every motor bus company on the American continent has had representatives here in the last six months. He says they take up a good deal of his time, but adds philosophically that at any rate the street railway question has had some advertising value for the city in one direction.

CRUISER AWAITS FLIERS.

Associated Press Despatch. Kirkwall, Orkney Islands, Scotland, July 30.—The United States cruiser Richmond arrived in Houton Bay this morning to await the arrival of the U. S. army world fleet.

READING

Last night when you were reading, didn't your eyes feel a little strained or perhaps a little tired after reading for a few minutes? Didn't you promise yourself that you would have them looked after tomorrow. Now is the time to call and let F. Steele give your eyes a thorough, accurate examination and supply you with glasses that will make reading a pleasure instead of a discomfort. Mr. Steele has had nineteen years' experience in sight testing, and everything he does is absolutely guaranteed to give satisfaction.

CONFERENCE DATE IS SET TOO EARLY

Premiers of Dominions Find October Not Good Time.

WOULD UPSET PLANS

Canadian Press Despatch.
Ottawa, July 30.—Canada's representation at the forthcoming round-table conference of the empire, mentioned by Right Hon. J. H. Thomas, colonial secretary, in the British House of Commons yesterday, will be discussed at meetings of the cabinet to be held in the forthcoming week. Communications received from the British government so far regarding the conference, suggest October as a possible month for it, but they do not, it is understood, definitely take up the question of representation at the conference. The communications have been acknowledged, but representatives both for Canada and the other dominions, have still to be appointed.
There are difficulties in the way of holding the conference so early as October. So far as Canada is concerned, special representatives might be sent, although, to go to London, Premier King would probably have to abandon a proposed speaking tour in the west. In the case of the other dominions, the difficulties would be greater. Apart from the question of distance, New Zealand seems to be on the eve of a general election, which would make it practically impossible for Premier Masey to leave on short notice.
In Australia, difficulties have arisen in the lower house between the Nationalists and the Country Party, who constitute the coalition government of which Premier Bruce is the head. This might make it difficult for Premier Bruce to leave on short notice. In South Africa, General Hertzog, but lately became premier and might not desire to go to England within the next few weeks.

AVERAGE ENTRANCE CLASS AGE IS STEADY

Figure Is Fourteen Years and Eight Months For the Past Year.

According to Attendance Office M. M. Sims of the schools department, who returned from his vacation today, the average age of the public schools' graduating classes of 1923-24 was 14 years and 8 months. There is little change in the average age of Grade 8 pupils from one year to the next, Mr. Sims states.

The attendance department has not started yet on its fall work of dealing with work permits, so that there are no definite statistics regarding numbers of successful pupils. The average age of Grade 8 pupils, who will continue their studies in the autumn, there are over 800 students to be dealt with who attended Grade 8 classes during the past year.
Just now the attendance officer is working on a system for checking up the careers of those who were members of Grade 8 classes in the public schools to see what lines of work or study they enter in the fall.

QUEEN'S GIRLS LOSE.
The Queen's Park playground girls lost the deciding game of the first series for the championship to Birkette, 11-9, the other night. It was only a 5-minute game, and Miss Marion Drew is going to suggest at the next meeting of the supervisors that all games go seven innings, as there is plenty of light to permit them going that length of time.

Theatre Is Rented By Judge To Hold Policeman's Trial

Stage Is Turned Into Court-room and Spotlight Is Used.

DUNCAN SISTERS

Rosetta Claims Officer of Law Broke Her Nose and Rib.

Associated Press Despatch.
Chicago, July 29.—A wildly cheering audience today greeted Rosetta and Vivian Duncan, comedienne, when they appeared on the stage of the Evanston theatre as complainants against a Cicero policeman, who, Rosetta claims, broke her nose and her rib when she attempted to argue with him on the Fourth of July after the officer had arrested her brother for violating a traffic regulation.
An accommodating Evanston justice of the peace hired the theatre for the audience not only sent up flowers to the stage, but cheered Miss Rosetta's testimony, despite the admonitions of the justice. When a bailiff brought the policeman, named as defendant, a large bunch of onions, tied with a red ribbon and bearing a card inscribed "From a friend," the cheering broke out anew.
The justice, the Duncan sisters, bailiff, reporters and photographers monopolized the stage. The justice spent his time prior to opening the trial in the lobby and personally ushered his guests to their seats. When the audience was assembled the justice took his place in the center of the stage and the footlights were turned on.

Miss Rosetta Duncan's secretary was the first witness. She said the "Topsy" of the stage was "joking" with the policeman about being arrested, when Charles Widdock, the defendant, asserted there was no joke about it and struck the comedienne on the jaw. Then several policemen joined in beating up her employer, she said.
Rosetta then took the stand amid cheers, and repeated the story of the alleged assault.

20 Years Ago

In The Advertiser.

Over 200 people have been added to the population of ward one, according to figures of the assessment department following the yearly canvass.

July is the record month for births in London for the past two years, it being reported. In May of last year there were 88 and that was thought to be an unbeatable mark.

Mosher's bag-punching bull terriers will feature the entertainment bill at the Springbank Park theatre next week.

Today a colored man who has been appointed dog-catcher called on Chief Clark of the fire department and wanted to buy a horse.
"Ain't got an old fellow who can step a few?" he asked the chief. "I want one that can dust himself when trouble happens."
"What do you mean?" asked the chief.

"Well, you see, boss," he said, "I am a dog catcher, and sometimes when you pester a man's dog, you can't get a hump on any too soon. Ah, wants a horse that can dust." The chief saw the wisdom of the idea, but he had no horse to sell or loan. It is said the dog catcher was anxious to secure the big black dog the chief drives.

AUSTRALIA PLANNING TO AID FRUIT GROWERS

Government Arrangement Will Only Be Temporary, States Premier Bruce.

Associated Press Despatch.
Sydney, Australia, July 30.—It is anticipated that the Commonwealth will be distributed as follows: £2,000,000 for the remission of the income tax, £500,000 for a roads grant, £500,000 for the reduction of the country's debt, £3,000,000 for defence, £1,000,000 for bounties, and £1,000,000 to be for a reserve fund.
Premier S. M. Bruce states that the government has decided to assist the dried fruits industry by a monthly advance to the fruit growers of sums varying from 5 to 10 shillings per ton of fruit grown. This arrangement will be only temporary, however, pending a reorganization of the fruit growers' association for the improvement of the marketing conditions.

ARMED POSSES SEEK CAROLINA SLAYERS

Hundreds Take Up Trail of Murderers in Mountainous Districts.

Associated Press Despatch.
Wilmington, N.C., July 30.—Hundreds of armed men gathered early today in the swamps near Phoenix, 15 miles from here, to hunt for the slayers of Sam W. Lilly, deputy United States marshal, and Leon George, city prohibition officer, and special deputy marshal, who were shot to death last night from ambush.
The scene of the killing was an obscure trail through a swamp near Phoenix, over which Lilly and George were travelling in the former's automobile. The two had been unusually active lately in raiding moonshine plants in the vicinity.

KLAN CAMPAIGN BEING OPPOSED

Vigorous Protest Is Lodged Against Membership in Canada.

Canadian Press Despatch.
Vancouver, B. C., July 30.—A vigorous protest against the reported establishment in Vancouver of a branch of the Ku Klux Klan appears editorially in the Vancouver Sun this morning.

"Membership in the Ku Klux Klan must be made a criminal offence in Canada," the paper says, "because it permitted to grow and spread, that organization will have the same cancerous effect in the Dominion as it has had in the United States."

"The Klan, a branch of which has been formed in Vancouver," the Sun continues, "is a purely anti-Catholic and anti-Jewish organization. If the Ku Klux Klan is allowed to gain a foothold in Canada, 15 years of unifying effort will be a total loss, and the realization of united national ideals will be farther off than ever before."

"No religious war, no racial war," the article concludes, "will be tolerated in Canada."

"And it is up to Ottawa to say so plainly and definitely without delay."

SPRINGER HEIRS PLAN PICNIC AT SPRINGBANK

Report of Official Conducting Investigation Will Be Presented.

The London Springer Heir Club, composed of many of the heirs to the Springer estate in California, intend to hold an all-day picnic at Springbank on Wednesday, August 6, to which a cordial invitation is extended to all Springer heirs to attend.

This picnic will be unique in the fact that heirs from all over the United States and Canada will be present.

Mr. O'Hara, who is investigating the estate, and whose home is in Wilmington, Delaware, sent a telegram from Chicago to the effect that he had a favorable report to present.

After the business of the estate has been transacted, the program will include a baseball game between the married and single men, as well as a monster baby show.

Warren Lockwood, of St. Thomas, president of the London club, as well as the secretary, Mrs. A. H. Harker of Komoka, and the vice-president, Mrs. L. Moorehead, of London, are expected to speak.

The remainder of the committee is: Mrs. M. E. Mitchell, London, acting convener; Mrs. McGowan, Mrs. Benny, Mrs. George Faulds, Mrs. Springer, Mrs. W. Siddal, Mrs. C. Siddal, Mrs. M. Siddal, and Messrs. Moore, Little, Ben Kennedy, Fred Lockwood, Ernest Fisher, Lloyd Scott, Bert Scott, T. A. Edwards, and Shaw.

PERSIAN POLICE TRIED TO RESCUE VICE-CONSUL

Teheran Despatch Says Officials Were Overpowered by Mob.

Associated Press Despatch.
London, July 30.—According to the Morning Post, the Persian legation here is in receipt of an official statement from Teheran, declaring that, contrary to other advices, the Persian police made a great effort to rescue Major Imbrie, the United States vice-consul, who was killed by a mob in the Persian capital last week. One policeman was killed in this endeavor and several were injured. It was stated.
Far from neglecting their duty by failing to prevent the crowd from breaking into the hospital, where Major Imbrie had been removed, it is declared the police actually arrested practically everybody implicated in the hospital attack.

MRS. M. JOHNSTON WILL FACE JURY

Magistrate Considers Evidence Sufficient to Send Young Woman Up For Trial.

PLEADS NOT GUILTY

Mrs. May Johnston, who was arrested on July 10 on charges of vagrancy and theft, who, while she was confined to jail, attempted to commit suicide by drinking a bottle of carbolic acid, appeared in police court this morning. She is young and pretty and took her place in the prisoners' box immaculately dressed. She pleaded not guilty to the charges of theft of dresses from well-known local firms and elected the right to be tried before a jury at the fall assizes. The preliminary hearing was held this morning.

The first witness to be called by the crown was Miss Lily Booth, an employee of Gray's, Limited. She stated that two dresses, a gray and brown georgette crepe, were missed from the store some time in April. The dresses each valued about \$35.

Claiming that a \$35 dress was expensive enough to make an exclusive style, she stated that she could identify the dress which Mrs. Johnston had sold to another girl as the one taken from Gray's, Limited.

According to Detective Harry Down who took the witness stand following Miss Booth, he called Mrs. Johnston on the telephone and told her not to make any date with her husband because she had a date at the police station. He and Detective Bolton went out and arrested the girl first on a charge of vagrancy. He stated that when she was confronted with the dresses at the police station, she herself claimed she had stolen the gray georgette crepe from Gray's.

The first charge of theft, that of stealing the gray georgette crepe dress from Gray's, Limited, was enough, according to Deputy Magistrate Gladman to warrant a trial for the young girl at the fall assizes.

Hearing of the other three charges of theft continued, and witnesses from other ladies' ready-to-wear stores were called.

Howard Cluff acted for the defendant.

UNFAIR CRITICISM IS THORNTON'S BIG WORRY

Has Grave Fears For Future When Crow's Nest Cut Forecasts General Slash.

Canadian Press Despatch.
Vancouver, B. C., July 29.—Speaking here today at a luncheon tendered in his honor by the Canadian Club and the Board of Trade, Sir Henry Thornton, president of the Canadian National Railways, declared it was a comparatively easy matter to keep politics out of the purchasing and other departments of the railway, but it was most difficult to meet unfair criticism made for political purposes.

Sir Henry told his hearers that serious consequences might result from the establishment of the railway freight rates under the Crow's Nest Pass agreement should this mean a general reduction of freight rates throughout Canada.

"If the restoration of the Crow's Nest Pass agreement means a new and lower scale of freight rates throughout Canada, then I say that the position of the two great railroads will be serious," he said.

CLEVELAND LODGEMEN WILL VISIT LONDON

Myrtle Lodge, Knights of Pythias, met last night and put a large class of candidates through their preliminary tests.

The most important topic at the meeting was a communication received from Cleveland, Ohio, regarding the arrangements for their stay in this city on Aug. 11. The supreme council of this organization meets for the first time in Canada on August 14.

This lodge from Cleveland plans to make a trip by way of Detroit, Port Huron, Sarnia, London and Hamilton on their way to the convention.

The plan to stop in London one night of the trip, and have asked the lodges of London to make hotel arrangements for their party and also to arrange to accommodate fifteen motor-buses and 50 motor cars.

No definite plans have been made by the Knights of this city, but it is expected that they will ask the Chamber of Commerce to aid them in catering for the men overnight.

Picture Creates Stir In Commons

British Members Want To Know Who Gave Permission.

Associated Press Despatch.
London, July 30.—Quite a little storm has been raised in the House of Commons by hanging on a wall of one of the staircases of a picture commissioned by Lord Astor, representing his wife being introduced to the house by the Earl of Balfour and Mr. Lloyd George, when she took her seat in 1918.

Nobody seems to know who gave permission to hang the picture and several members of all the parties are offended because the sanction of the house was not obtained. No one, however, avows hostility to Lady Astor personally.

A large number of the members now have signed a round robin asking the premier to prevent the display in the House of Commons of portraits of any living persons unless the assent of the parliament is first obtained.

CONDITION OF ST. THOMAS MAN IS GREATLY IMPROVED

The condition of Fred Munney, 107 Christie street, St. Thomas, was reported by Victoria Hospital authorities this afternoon to be greatly improved.
Mr. Munney was injured when his car crashed into the back of a motor truck on the Springbank road, went into the ditch and hit a telegraph pole yesterday afternoon. He was accompanied by a number of other persons, but none were hurt. He suffered a broken arm and other injuries.

RETURNS TO EAST.
There is great rejoicing at No. 2 fire company, Rectory street, Geo. Gower, who has been at the central station for the past two months, has returned to his old place of business. Everyone seems to know George out of that way, but they should, as he has been stationed out there for five years. It was planned to have a band and to hold a regular parade the other day when he came back, but the rain put an end to all this, so he cleaned the windows instead of holding a celebration.

FATHER GIVES LIFE TO SAVE HIS SON

Joseph Justice, Returned Soldier, Pushes Boy From in Front of Train.

Canadian Press Despatch.
Toronto, July 29.—In saving his son, Clifford, aged 14, from death under the wheels of the C. N. R. international limited near the Rouge River bridge, Rosebank, this evening, Joseph H. Justice, aged 42, was instantly killed when hurled over an embankment by the train. The boy sustained a fractured skull and injuries to shoulders and arms. Justice, who was a returned soldier, had gone with his son and Richard Henwood and family on a picnic party to Rosebank. The party alighted from Henwood's motor car at a bridge nearby, and after the meal was over the various members of the party separated. The lad seated himself on one side of the tracks and a little to one side of the bridge. As the "flyer" approached, Justice saw his son's danger. With a rush and a shout to the boy, he cleared the intervening space between the picnic ground and the tracks, reaching the lad as the engine cleared the bridge, a few feet away. The plucky father managed to push his son from the rail, but not soon enough to save himself from being struck by the side of the engine. Both father and son were lifted by the flying mass of metal and flung over the embankment.

R. R. ENGINEERS MEET IN TORONTO

Delegates From Canada and U. S. Discuss Problems of Locomotive Engineers.

Canadian Press Despatch.
Toronto, July 29.—Delegates from all parts of Canada as well as a number of visitors from the United States were here attending the Canadian meeting of the Brotherhood of Locomotive Engineers. Not since 1914 has a similar meeting been held in Canada. The present convention has been called to discuss the problem peculiar to the locomotive engineers, and special interest was added to the today's sessions by the presence of President Warren S. Stone, of the International Brotherhood. The convention will continue until Friday of this week. Both today and throughout the remainder of the week the meetings of the brotherhood will be private.

Speaking at a reception tendered the visiting delegates, Mr. Stone said, "with 361 members of our organization killed at the cost of duty in the past 12 months the hazards of our profession can be well appreciated." No class of men perform service which means so much to the public. Out of every one hundred men who start out as firemen, only six ever become engineers. And out of every 100 firemen who eventually become engineers, only six succeed in reaching the more responsible post of passenger engineer. It takes therefore, one hundred firemen to make one passenger engineer.

Touching on the vital importance of transportation, he pointed out that it was not until the locomotive had been invented that there was real progress in the world. The engineers and trainmen in general were in reality the greatest nation builders of all.

NUMEROUS STUDENTS EXPELLED FOR POLITICS

Newspapers Claim Russian Pupils Banished From School by Bolsheviks.

By GEORGE WITTE.
Special Cable to The Advertiser and the Chicago Daily News. Copyright, Stockholm, July 29.—Many students whose political complexion displeases extreme bolsheviks are being expelled from the high schools and universities of Russia, according to the Helsingfors newspaper, Suomi Demokraatti. The Finnish daily claims to know that 189 out of 400 students of the national economic high school have been banished, and that proportion of expulsions from other institutions is just as high. The reason given by the authorities is the shortage of funds which necessitated the cutting down of enrollments.

The weeding out process is conducted by a committee composed of representatives of students, professors and workmen, which eliminates students whose knowledge of communistic politics and propaganda work is deemed unsatisfactory, even if their work in other branches is brilliant.

Many children of peasants and laborers suffered the same fate as those belonging to the bourgeoisie.

BURNELL QUILTS POST AS U. F. M. PRESIDENT

United Farmers of Manitoba Lose Chief—Turns To Wheat Pool.
Canadian Press Despatch.
Winnipeg, Man., July 29.—Colin H. Burnell resigned as president of the United Farmers of Manitoba today, giving as reason his desire to devote more time to the Manitoba wheat pool organization. He is the present head of the Manitoba Co-operative Wheat Producers' Limited.

At a meeting of the executive of the United Farmers of Manitoba today, the resignation was accepted and A. J. M. Poole of Kelowna, Man., a member of the directorate, was appointed as acting president until the annual meeting of the organization, to be held early next year.

FATHER GIVES LIFE TO SAVE HIS SON

Joseph Justice, Returned Soldier, Pushes Boy From in Front of Train.

Canadian Press Despatch.
Toronto, July 29.—In saving his son, Clifford, aged 14, from death under the wheels of the C. N. R. international limited near the Rouge River bridge, Rosebank, this evening, Joseph H. Justice, aged 42, was instantly killed when hurled over an embankment by the train. The boy sustained a fractured skull and injuries to shoulders and arms. Justice, who was a returned soldier, had gone with his son and Richard Henwood and family on a picnic party to Rosebank. The party alighted from Henwood's motor car at a bridge nearby, and after the meal was over the various members of the party separated. The lad seated himself on one side of the tracks and a little to one side of the bridge. As the "flyer" approached, Justice saw his son's danger. With a rush and a shout to the boy he cleared the intervening space between the picnic ground and the tracks, reaching the lad as the engine cleared the bridge, a few feet away. The plucky father managed to push his son from the rail, but not soon enough to save himself from being struck by the side of the engine. Both father and son were lifted by the flying mass of metal and flung over the embankment.

R. R. ENGINEERS MEET IN TORONTO

Delegates From Canada and U. S. Discuss Problems of Locomotive Engineers.

Canadian Press Despatch.
Toronto, July 29.—Delegates from all parts of Canada as well as a number of visitors from the United States are here attending the Canadian meeting of the Brotherhood of Locomotive Engineers. Not since 1914 has a similar meeting been held in Canada. The present convention has been called to discuss the problem peculiar to the locomotive engineers, and special interest was added to the today's sessions by the presence of President Warren S. Stone, of the International Brotherhood. The convention will continue until Friday of this week. Both today and throughout the remainder of the week the meetings of the brotherhood will be private.

Speaking at a reception tendered the visiting delegates, Mr. Stone said, "with 361 members of our organization killed at their post of duty in the past 12 months the hazards of our profession can be well appreciated. No class of men perform service which means so much to the public. Out of every one hundred men who start out as firemen, only six ever become engineers. And out of every 100 firemen who eventually become engineers, only six succeed in reaching the more responsible post of passenger engineer. It takes therefore, one hundred firemen to make one passenger engineer."

UNEMPLOYMENT CURE IS SOUGHT

Conference On Problem Will Open At Ottawa September 3.

CANVASS DOMINION

Canadian Press Despatch. Ottawa, July 29.—Hon. James Murdock, minister of labor, and Hon. Dr. J. H. King, minister of public works, will represent the federal government at a general conference on unemployment to be held in Ottawa commencing Wednesday, September 3.

The purpose of the conference is to endeavor to arrive at some concrete proposal looking to the elimination of unemployment during the coming winter. Representatives of the building trades have been called into the conference in the hope of finding means of extending constructional work through the winter months on a more extensive scale than heretofore. The conference will follow the general lines taken by the similar conference here last fall in the discussion of the immediate unemployment problems.

During the past weeks the federal department of labor has canvassed most of the Canadian cities regarding representation at the conference. The results have been very satisfactory, and it is anticipated that there will be a large representation from civic bodies. The Canadian Manufacturers' Association, the Canadian Building and Constructing Association and the Trades and Labor Congress of Canada will be represented. The provincial governments will have delegates. The expenses of delegates invited to the conference will be paid by the Dominion government.

AUSTRALIAN IS PRETTIEST BABY

Mary Wilson, of Melbourne, Awarded Empire \$1,000 Prize.

Associated Press Despatch. London, July 29.—Mary Wilson of Melbourne, Australia, has been chosen from sixty thousand entrants as the bonniest baby in the British Empire, according to an announcement made today by officials of the national baby week competition, conducted at Wembley. Baby Wilson, who is two years and eight months old, receives \$1,000.

James Edward Rowe of Whitby, Ont., was the winner of the second class for babies between nine months and two years of age, and with John Strang of St. Johns, Nfld., who finished at the top of the first class for infants three to nine months was \$500.

Kenneth Farrell of Mount Forest, Ont., is one of five babies in the first class who each receive a prize of \$100.

CYRILLE VANDENHECKE GOES TO DEATH IN CHAIR

Governor Cox Denies Request For Eleventh-Hour Respite in Sentence.

Associated Press Despatch. Boston, July 29.—Cyrille Vandennecke, formerly of Lawrence, Mass., and Renfrew, Ont., was executed in the electric chair at the Charlestown State Prison at 12:13 a.m. today (Wednesday).

Vandennecke started from his cell at 12:04 a.m., and entered the death chamber. At 12:06 one shock of 2,000 volts, 10 amperes was applied for one minute and 15 seconds after he had been fastened into the chair. After several tests he was pronounced dead by the physicians at 12:13 a.m.

Governor Cox had previously denied a request for an eleventh-hour respite in the sentence of death imposed on Vandennecke for the killing of Gislain Scherman at Lawrence six years ago.

Vandennecke was arrested at Renfrew, Ont., where he had gone after fleeing to Belgium. He had married a woman in Montreal while his wife was still living at Lawrence. It was a quarrel over his relations with Scherman's wife that led to the murder.

The condemned man had addressed to the governor a letter asking for respite, that he might have further opportunity to prove his innocence, which he had protested.

MARRIAGE ANNULMENT GOES TO SUPREME COURT

Canadian Press Despatch. Montreal, July 29.—The case is being heard in superior court here of a petition to annul the marriage of Paul Rose to Dame Rochon, which took place in Montreal in 1905. The grounds of the request are founded on Catholic marriage impediments, it being stipulated in the marriage law of that church that no marriage may be performed between a baptized Catholic and an unbaptized person. The woman declares that Rose was unbaptized at the time of the marriage, and asks the court to give civil effect to the annulment which has been obtained from ecclesiastical sources.

JULIA HOYT IS PRESENT
AT GRAND STEEPLECHASE

Finds Women's Gowns Are
Very Simple, With Shorter
Skirts.

TRIMMINGS ARE FEW

Men Dress For Races More
Than in Canada, Wearing
Gray Top Hats.

By JULIA HOYT.

Yesterday was the first of the two big races of the French season, the Grand Steeplechase d'Auteuil. The weather was warm and sunny. In all the years I have gone to Auteuil I have never seen anything near the huge number of people that was there. It was more or less to be expected, as they have just completed a new and much larger grandstands, but even so I heard on all sides expressions of surprise at the immensity of the crowd.

It was, of course, amusing; it was the first day that a good many really smart costumes were to be seen. But for my taste give me the more quiet days when it is not like pushing through a subway mob to get to the booths or to the stands where there is a possibility of getting a seat. The French are a very polite race in many ways, but they are certainly skilled in the art of pushing. A Frenchman thinks nothing of taking his elbow and planting it decisively in your back or stomach if you happen to be in his way. The women seem to walk around so absorbed in watching others that they think nothing of walking straight into you. Then they look at you in injured surprise.

Too Late for a Chair.
I was too late for any hope of getting a chair. The custom is to carry your chair with you wherever you go or if you have two, you tie them together with a handkerchief and no one else can touch them. The result of my failure to get one was that I saw very little of the races, but the jump right in front of me, and the finish.

Auteuil is a lovely race course, but it is very winding and wide, and unless one is standing on a chair or in the grandstand it is only possible to

ENGAGEMENTS

A charge of 75 cents for one insertion, or \$1 for two insertions is made for notices under this heading.

Orders for insertion of engagement notices must bear the name and address of sender and will not be taken over the telephone.

Mr. and Mrs. James Graham of this city announce the engagement of their daughter, Family Levina, to Mr. William Lewis Eagan of Detroit, only son of Mr. and Mrs. James Eagan of Durwood, the marriage to take place the first week of August, 1924.

WOMEN and THE HOME

PERSONALS

Miss Ivy Everetts of Woodstock is spending a few days with friends in the city.

Miss Iva Hughes of Woodstock was a week-end visitor with friends in London.

Miss Mildred Hughes spent the past week-end with Miss Frances Wheatley of Woodstock.

Dr. Kennedy and Mr. T. Brown of this city were guests at the Country Club dance, St. Thomas, recently.

Miss Helen Meaden, this city, has moved to Detroit, where she will make a brief visit before going to Hamilton to visit her mother, Mrs. C. Meaden.

Mrs. H. J. Widden, Wortley road, is entertaining at a tressau tea on Tuesday, August 5, in honor of her daughter, Miss Florence Widden, whose marriage to Mr. Wilbert F. H. Schott takes place next month.

Mrs. R. M. Graham entertained at a small house party at her brother's cottage, Port Stanley, over the past week-end, having as her guests Mrs. C. T. Campbell of this city and Mr. and Mrs. Holman and their son of Goderich.

Mr. and Mrs. Glennie Wilson leave the beginning of the week for Cedar Rapids, Iowa, where they will be the guests of Mrs. Wason's brother, Mr. Frank Whitton. On the

way they will visit friends in Chicago for a few days.

Dr. H. W. Hill of the Institute of Public Health, Dr. K. P. R. Neville and Dean Sherwood Fox of the University of Western Ontario will attend the conference of Canadian universities to be held in Toronto on Aug. 14, 15 and 16.

Miss Ida McDougall of Hamilton has returned home after visiting Mr. and Mrs. Leonard Tait, this city, at their cottage, Grand Bend. Miss McDougall's niece, Miss Alice McDougall, is remaining on as the guest of Miss Dorothy Tait.

Miss Elizabeth Thom, formerly of this city, who spent the past five years overseas working in connection with the Red Cross and Near East

relief in Armenia, and has been in the Chicago Hospital since last spring, is expected to return to the city in September to visit relatives here. It is possible that she will later return to her work in the Near East.

SPRINGER HEIRS TO PICNIC
AT SPRINGBANK WEDNESDAY

The Springer heirs from all parts of Western Ontario and different points in Canada and the United States will meet at Springbank on Wednesday, Aug. 6, at a great picnic arranged by the London Springer Heirs' Club. A feature of the picnic

will be an address and report from Mr. O'Hara of Chicago, the lawyer who is investigating the Springer estate. A sports program is also being arranged, a baby show and baseball match and speeches.

The following are in charge of the event: Warren Lockwood of St. Thomas, president; Mrs. M. E. T. A. Edwards.

Mitchell of London, acting convener; Mrs. Haskett, Mrs. Moorehead, Mrs. McGowan, Mrs. Benny, Mrs. George Pauls, Miss Springer, Mrs. W. Siddal, Mrs. C. Siddal, Mrs. M. Siddal, and Messrs. Moore, Little, Shaw, Ben Kennedy, Fred Lockwood, Ernest Fisher, Lloyd Scott, Bert Scott and Thomas, president, Mrs. M. E. T. A. Edwards.

My Best Recipe

MAYONNAISE DRESSING.

One cup water, one cup vinegar, one cup sugar, one tablespoonful mustard, one of less potent mustard, a pinch of salt and a small piece of butter, two eggs. Put the water, sugar, vinegar and butter on to boil. Make a smooth paste of the mustard and cornstarch with a little water. Then add the well-beaten eggs. Stir into the hot mixture and just bring to a boil.

CHURCH OF CHRIST.

The garden party to be held at C. Gould's home, 470 English street, tomorrow evening by the Christian Endeavor Society of the Church of Christ, Disciples, promises to be a very attractive event. The senior and junior societies have jointly planned an interesting program.

Lizard Trims Hats.

New York, July 29.—One of the newer hats shown here today has as its decoration a big bow of orange silk and lizard skin. The lizard skin has been cut into strips and pasted horizontally across the ribbon.

catch a glimpse every so often of the distant flying colors.

Men dress for the races much more both here and in England than they do in Canada. One custom which I find charming is wearing gray top hats and derbys. It relieves the somberness of the men's dark clothes and seems to fit in well with the light colors of the women's gowns.

Skirts Much Shorter.

I saw quite a good many white costume yesterday—sometimes worn with a white hat, sometimes with a black. The skirts are much shorter and the one or two long ones looked very much out of date indeed. As hats are large and small, but when large are flat and very simple, trimmed usually with one large flower on the side or a severe bow. As a matter of fact, the clothes in general are simple and untrimmed. One woman stood out in a plain black dress, hat and shoes, with one red flower on her dress, she carried a red flat purse. It was effective.

The new president, Domercue, arrived just before the big race. The people were not particularly interested in seeing him, but when he stepped forward in the box and lifted his hat they became quite enthusiastic, which was entirely a tribute to his personality. He is a fine looking man, and even at a distance seems to possess charm. They say he is going to be a very popular president of France.

An unusually attractive sport costume which was recently exhibited at the National Garment Retailers' Association fashion show held at the Commodore, is the two-piece yellow dannel designed by I. J. Rubin.

EMPRESS AVENUE LEAGUE.

The home of Mr. and Mrs. C. J. A. Guymer was the scene of an attractive garden party given last night by the members of the Empress Avenue Young People's League. The

lawn presented an attractive appearance lit up with Chinese lanterns and many colored electric lights. During the evening a fish pond, presided over by Miss Velma McPherson and Miss Evelyn Webster, drew many patrons, as did the pretty booth for refreshments. A delightful program was given, including vocal numbers by Miss Mildred McGuffin and Mr. Woods, a cornet solo by Glen Shepherd, readings by Miss Elsie McLeod, and a clever playlet entitled "The Beau of Bath" presented by Mrs. Frieda Stephens, Miss Kathleen Englund and Miss Jean Arkell. The garden party was arranged under the convenship of Mr. Guymer, president of the league, and his executive

Save the fruit flavor

Everyone loves the fragrance, flavor and delicacy of fresh, ripe raspberries. And now, when a supply of this luscious fruit is available, why not preserve a lot of it in jam or jelly form for Winter use? Follow the Certo recipes and you will make the most delicious raspberry jam or jelly you have ever tasted.

Certo process is easy and never fails.

Use Certo for all your jam and jelly-making. Certo never fails because it is the actual "jelly" property Nature has put in fruit. Certo contains no gelatine nor preservative. Any housewife following the simple Certo directions will get perfect jams and jellies. Be sure to make Certo Raspberry Jam.

Certo makes one-half more than old method.

With Certo you retain the color and all the flavor and fragrance of ripe fruit. Only one minute's boiling required; no juice, nor is its aroma or delicacy boiled away. With Certo the cost per jar is less and quality better than the old method. No re-boilings, no wasted batches of fruit and sugar, nor long hours in a hot kitchen when Certo process is used.

At your grocer's or send 40c in stamps direct to Douglas Packing Co., Limited, Cobourg, Ontario.

Recipes

Raspberry Jam

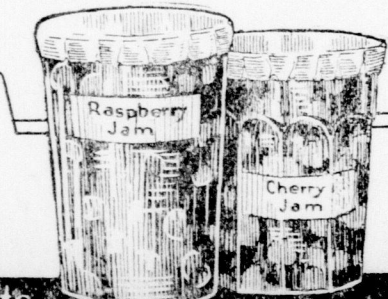

CRUSH WELL about 2 quarts ripe berries in separate portions so that each berry is crushed. Measure 4 level cups crushed berries into large kettle. Add 7 level cups sugar and mix well. Use hottest fire and stir constantly before and while boiling. **BOIL HARD** for ONE minute, remove from fire and stir in 1/2 bottle (scant 1/2 cup) Certo. From time jam is taken off fire, let stand not over 5 minutes, by the clock, before pouring. In the meantime, skim and stir occasionally to cool slightly, then pour quickly. Use same recipe for Strawberry, Blackberry or Loganberry Jam.

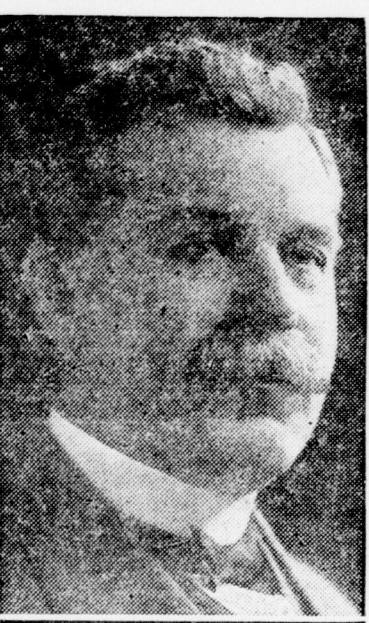

Raspberry Jelly

(See Recipe in Certo Booklet.)

Cherry Jam

Pit and CRUSH WELL about 5 1/2 lbs. cherries (sour cherries give finest flavor). Measure 4 level cups of the crushed, pitted cherries into large kettle, add 1/2 cup water. Tie 2 tablecloths of size in cloth and crush with hammer. Place with cherries to increase flavor. Stir until boiling, cover kettle with 10 minutes, then remove lid. Add 7 1/2 level cups sugar and mix well. Use hottest fire and stir constantly before and while boiling. **BOIL HARD** for ONE minute. Remove from fire and stir in 1 bottle Certo. Allow to stand with occasional stirring, 5 minutes only, by the clock. Skim and pour into glasses.

Gives Complete List of Girls To Avoid.

If You Would Be Happily Wedded, Don't Pick a Girl for Her Looks or Her Childish Prattle—Don't Marry a Reformer—Above All, Select a Girl With a Sense of Humor.

In picking out a wife:

Don't marry a girl just because she has a pretty face, because that is the one matrimonial blot on which you are bound to lose out eventually.

Time, ill-health, children, the general wear and tear of life rob a woman of her beauty so that she who was a living picture at twenty is often a chromo at thirty and a scarecrow at forty.

You can get awfully tired of looking at any one set of features, no matter how classical their outline is, nor how well they are assembled, if they are nothing but a lovely mask nor will you long thrill at the touch of golden tresses with a natural wave in them if they cover a dome of solid bone. Moreover, a beauty is almost self-centered in vain and accustomed to adulation, and she expects her husband to be always on his knees burning incense before her, instead of being willing to do a little business with the punk sticks herself.

Don't marry a girl who chicken-pecks her family unless you want to be a chicken-pecked yourself.

If Maud tells father and mother where to get off, and her little sisters and brothers stand in awe of her, be sure that the man she marries will wipe his feet on the doormat when he comes home at night and give up smoking because she does not like the odor of tobacco. Any girl who can boss her own family can terrorize a mere husband with one hand tied behind her.

Don't marry a girl who is a natural-born reformer. Before you are married to her, and when you have only occasional doses of it, it may seem very sweet and sentimental to you to have a dear little saint trying to lead you up to the higher life, but after marriage it doesn't make for harmony in the home to have a critic on the hearth.

No wife is more pestilential, or gets more on her husband's nerves, than the one who was born thinking that everything that she doesn't want to do is wrong, and that it is her sacred duty to interfere in all her husband's habits and pleasures.

Don't marry a poor girl who dresses beyond her means.

The girl who is willing to let her mother work her fingers to the bone sewing for her, and run her old father in debt to provide her with finery, will have no more mercy on her husband's pocketbook, and will keep his nose to the grindstone as long as he lives.

Don't marry a simple little ingénue who rolls her eyes at you, and asks you artless questions about things that any child should know.

There is something peculiarly attractive to men in female morons as long as they are young and have peaches-and-cream complexions. But the trouble is that they don't stay eighteen and lose their complexions, and then they are just plain fools. Whenever a man speaks of the woman to

New Kind of Girdle Reduces Waist and Hips —almost while you wait!

The instant you put on this new girdle—worn in place of your ordinary corset—the bulky fat on waist and hips seems to vanish, the waistline lengthens and your body becomes erect and graceful, youthfully slender. And—then with every step, with every breath, with every little motion it gently massages away the useless disfiguring fat and you look and feel many years younger.

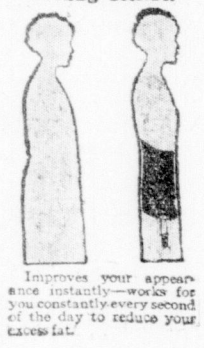

Lose Weight Every Day—And Look Well While Doing It!

Now women can have the youthful, boyish-looking figure that present-day fashions call for, without worrying about a clumsy waistline and bulging hips. For this new kind of girdle not merely instantly represses disfiguring useless fat, making your figure appear wonderfully slender, youthful and attractive—but actually massages away the fat, enabling you to lose weight every day, without any effort at all on your part! And you need not make a single change in your present mode of living to secure these amazing results.

Produces Same Results As An Expert Masseuse

The Madame X Reducing Girdle is built upon scientific massage principles. It is made of the most resilient steam-cured Para rubber, especially designed for reducing purposes and is worn over the undergarment. Fits as snugly as a kid-glove—has garters attached—and is so constructed that it touches and gently massages every portion of the surface continually. The constant massage causes a more vigorous circulation of the blood not only through these parts, but throughout the entire body! Particularly around the abdomen and hips this gentle massage is so effective that it often brings about a remarkable reduction in weight in the first few days.

Look Slender While Getting Slender

Improve your appearance instantly—wonder for you, constantly every second of the day to reduce your waistline!

Open Front Insures Perfect Comfort While You Sit, Work, or Play, And the Special Lacing Makes the Girdle Easy to Adjust as You Become More Slender.

Madame X Reducing Girdle Makes You Look Thin While Getting Thin.

Leading Stores throughout Canada are now being supplied with the Madame X Reducing Girdle. Ask to see them and also the REDUCING BRASSIERES. If yours has not yet got them, write for photographic description and name of nearest agent.

Beware of imitations—“MADAME X GIRDLE” is prominently stamped inside of each garment.

COUPON FROM LONDON ADVERTISER

WOMEN and THE HOME

whom he is married as his "child wife" he presents a tragedy of boredom that would draw tears of sympathy from a stone.

Don't marry a helpless, little clinging vine. It may make you feel about seven feet high, and big and strong and chesty as Jim Jeffries, for some dependent little creature to flap around your neck as limply as a wet dish rag and ask you what to do and what to think, but it is only at times that a man enjoys nourishing a parasite. He doesn't want it for a steady thing.

He wants a wife who will know when to do the clinging vine act and when to have as much backbone as a telephone post. He wants a wife who will defer to him, but who will go along and run her end of the matrimonial partnership without burdening him with the details.

Don't marry a girl who thinks she is artistic and who wears sloppy, floppy clothes, and whose hair looks as if it had been combed with a vacuum cleaner.

That kind of girl will never sweep under the beds nor gather up the soiled towels in the bathroom, nor keep a house where there is any comfort and order. Beware of the girl who tells you that her soul is above the sordid material things of everyday living, as you would the leprosy.

Don't marry a girl who is temperamental.

The girl who is always flaring up and getting angry about nothing may be fun to quarrel with before you are married, but it is far from amusing to have to walk on eggs after you are married to keep from riling a wife whose temper is set on a hair trigger and liable to explode at the slightest jostle. Every man's ideal of home is a place of peace and rest, not a battlefield where he has always to keep on his fighting clothes.

Avoid also the tender, sensitive little creature who bursts into tears on every occasion, and whose delicate sensibilities are always being wounded.

There are few wives more afflicting than those who keep their feelings spread all over the place, nor is there any domestic atmosphere more depressing than that of the household which has at its head a woman who always keeps her tears turned on at the tap.

Don't marry any woman who affects to despise domesticity.

A woman may have every charm and virtue in the world, but if she does not know how to get the most out of a dollar, how to set a good table and manage a house and make her family comfortable, she is a failure as a wife, and her husband will rise up and curse the day he married her.

Don't marry a woman without a sense of humor. There are so many things in married life over which a woman must either laugh or cry, and your happiness and well-being depend upon your wife having a funny bone.

If she can see that her husband is the greatest of all human jokes, she will smile at his fussy little ways and let him enjoy them in peace instead of trying to reform them, and she will smile at your peccadilloes and forgive them, instead of lambasting you for them.

Follow these don'ts, sons, and when you marry you will get the right girl, and be happy ever after.

DOROTHY DIX.

Mrs. Happy Jack Shows Her Children the Way To Jump Safely

By THORNTON W. BURGESS.

The four baby squirrels had held their breath as they had watched their mother make a flying jump from the branch of one tree to the branch of another tree, and then return the same way. When they looked down at the ground it made them shiver to think what a fall she would have had if she had missed her jump. But when she said that she was because of her big tail that she was able to make that long jump, the four little Happy Jacks were puzzled.

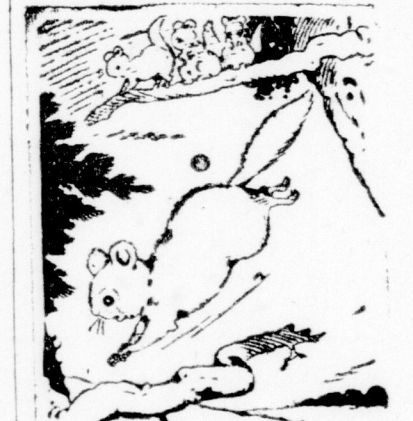

"I don't see what your tail had to do with it," said the boldest one. "Don't you?" replied Mrs. Happy Jack. "You come with me. I'll show you." She led the four down the tree to the ground and upon an old log. Close to it was another old log. She jumped across from one to the other. "Now you jump across," said she. The four little squirrels jumped. They carried their tails straight out behind them. "Now we'll jump back," said their mother. "And I want you each to keep your tails over your back when you jump."

She jumped across, but she didn't keep her tail over her back. She tried to try to. "Now remember what I told you about your tails," said she, and waited for the first one to jump. He jumped, but the instant he left that log he straightened his tail out behind him. It was the same with each of the others. "I thought I told you to keep your tails over your backs when you jumped," said she, severely.

The four little squirrels hung their heads. "I couldn't. I just couldn't," said one. "The instant I jumped my tail straightened out behind me in spite of myself." Each of the others said the same thing.

Mrs. Happy Jack's eyes twinkled. "Just so," said she. "Just so. That is what your tails are for. If one of you had managed to keep his tail over his back he probably would have had a fall. Those tails are to keep your balance in the air. A squirrel who loses his tail will not live very long."

He will not be able to make flying jumps in the treetops, and there will be many times when you will have to make flying jumps to get away from

She jumped across from one to the other.

an enemy? A squirrel who loses part of his tail is not likely to live as long as one who keeps a whole tail. "Would it have killed you if you had fallen when you jumped from that high up branch across to the other tree?" asked one of the youngsters.

"No," replied Mrs. Happy Jack. "I would have spread my legs out as far as possible, and then that big tail of mine would have kept me right side up and at the same time it would have helped to keep me from coming down as fast as if I had had no tail. A lot of our neighbors think we squirrels are vain because we take so much care of our tails. We are not vain. A handsome tail is worth having, but not for beauty alone. The better the tail the better off that squirrel is. Never forget this, and always take care of your tails."

"Yes," replied the four little squirrels together.

Chicago and Canadian Wheat.

Canadians are somewhat at a loss to understand the interest taken in the wheat crops of Western Canada by the "experts" of Chicago.

People of this country had come to take it for granted that United States had no further interest in Canadian wheat. Their tariff barriers indicated that they were through with it, that they wanted none of it across the line. Up to 1921 Canadian wheat went free into United States; then for a year it was taxed 35 cents per bushel; in September of 1922 it was dropped back to 30 cents, but the Fordney tariff provided a machine that could easily increase the rate, with the result that it is now taxed 42 cents per bushel.

But in spite of all this Chicago is interested in Canadian wheat. "Crop Expert B. W. Snow," of Chicago, who was in the west for a week, says there is rust in Manitoba, and announces his willingness "to co-operate with the Canadian authorities."

For what reason? The railways say there is no rust in Manitoba; Cora Hind, of the Winnipeg Free Press, accepted as the best Canadian authority on western crops, denies the rust rumor.

It is not possible to estimate the wheat crop of the west yet, because much of it is still filling out, but those U. S. experts had the figures all prepared ten days or two weeks ago. Canadians prefer to take the word of their own people, those who live in the west and have very reliable sources of information, and what is more important, no reason to give anything except actual conditions as they exist.

The feverish anxiety of Chicago experts to count bushels in the Canadian West is not particularly impressive, nor is it anything that need cause any great concern in Canada. Canada is chiefly interested in the welfare of the man who grows the wheat, not in the success of those who gamble in it after it is grown.

The Editor Needs a Change.

Toronto Mail and Empire says: "The King government must know that its stock never stood lower in the country than it does today."

The Toronto Conservative paper is published on the corner of King and Bay streets. It is a busy corner; the aroma of hot dogs and fried onions rises now and then, and there is always a lot of noise and bustle. The editor, to get a few moments of quiet, must shut the window and fan himself with an old newspaper.

He can't even stick his head out of the window, or stand at the side door where it's cool.

In such a place how can he know what the people of the country are thinking about? In the country around here people are not worrying much about the King government or any other government. They have the hay in, and are wondering if the hired man will stick it through the harvest. They are killing up the old binder, and putting a new edge on the scythe to cut in the fence corners, and perhaps now and then figuring out how a man in Chicago can knock down \$1,500,000 in wheat without following a seed drill or hearing a single sheaf.

But they are not worrying about the government. Donald Sutherland from Oxford and J. L. Stansell from Elgin came in here a few days back and tried to churn things up a bit. Perhaps that's where the Mail got the idea that people are all worked up and disgusted with the government.

That Mail and Empire editor should come on out of that noisy place where he sweats as he writes and writes as he sweats. A good sleep in a hammock tied between an apple tree and the veranda post, a couple of drinks of new butter-milk, and he'd see things differently.

Canada in the New York Market.

The sale of some millions of Canadian securities in New York has created a new interest in the conditions that made the disposal possible there at a lower figure than Canadians get for money loaned to the government.

Canadian National Railway bonds, guaranteed by the government, are considered an attractive investment. They rank equally with a straight government loan so far as security is concerned.

The rapidity with which a loan of \$30,000,000 was closed out is an indication of the condition of the New York money market. There is a tremendous total banked up there, much of it idle, waiting for an opportunity to be put to work.

Financial men find added proof of this in the quotations that have been made for some days on "call loans," which now runs around 2 1/2 per cent, and has gone as low as 1 1/2 per cent. These figures represent a rate that has not been equalled in years. "Call money," it might be mentioned, is largely used for purposes of speculation. It is secured on the deposit of security, for an indefinite period, but subject to recall by the bank without notice. So, with a rate for call money around two per cent, it is easily understood that a Canadian loan with good security should be quickly taken up at between four and five per cent.

It is this same supply of cheap money that is behind many of the rises that have been seen in the stock and wheat markets. Speculators figure they can get the use of it at around two per cent and buy stocks that may make them six or seven per cent. This condition keeps up a buying movement which, as long as it is sus-

tained, maintains the prices. If, for any reason, the money being used were called in by the banks loaning it, there would be a rush toward selling, and the markets would fall.

If Canadian loans can be placed in such a market, with interest payable at Canadian points in Canadian money, it is good business. If, however, a chance has to be taken on the discount on Canadian money being greater than at present during the life of the bonds, whereby interest would have to be paid at a rate to take up a discount of two or three per cent, the matter takes on a somewhat different aspect.

The effect of the New York loan, showing as it does explicit confidence of the New York money market in Canadian securities, even at a comparatively low rate, should have an effect on the exchange rate sufficient to wipe out the fractional discount now maintained. It should make the Canadian dollar worth 100 cents in New York.

John Bull and the Agitators.

Col. A. F. Hatch, president of the Canadian Manufacturers' Association, has been in England for some weeks. He has listened, apparently, to some of the agitators who speak in Hyde Park, the greatest center of untrammelled soap box oratory in the world.

So when Col. Hatch got a chance to make an address himself he told the folks in England that they should close up this Hyde Park talk shop. He said: "If this vicious propaganda is allowed, serious trouble is bound to occur. I believe I am right in saying that for Canada, we want it stopped."

Every country has its agitators, and every country deals with them in a different way. Russia locks them up, sends them off to Siberia, or at times executes them. United States has no fixed policy; she is feeling her way. At times the republic gathers them in and keeps them in jail, then lets them go when she realizes that they are assuming the role of martyrs.

Mussolini, premier and dictator of Italy, feeds them on large doses of castor oil; if that does not do the trick he uses more forceful means, but events in Italy show that the dictator there is not succeeding, and instead of having fewer agitators there are more.

Britain has tried in times past various ways, and Britain has had an experience that runs into a good many years. John Bull finally decided that the best thing for an agitator was to let him agitate until he gets sick and tired of it, and the people turn from him. So they flock to Hyde Park with their theories, their grudges and their nonsense, and there they spout. It keeps them out of mischief.

Col. Hatch may be a very good authority on manufacturing conditions in Canada, but when he undertakes to nudge John Bull and tell him how to deal with the agitators, he is wading in beyond the safety ropes.

If John Bull has found after a very wide experience with all manner of agitators that it is best to give them a pleasant place and let them agitate, why the Canadian people are not going to worry very much about it, even if Col. Hatch does.

Brantford's Just Complaint.

The Brantford Expositor draws attention to a matter of discrimination in railway rates, which, on the face of it, is likely to work an injustice to that city.

Brantford finds, on looking over the new rates in the Crow's Nest Pass arrangement, that it has not been placed on the same basis as other cities where factories are competing for western business.

Carloads of agricultural implements shipped from Hamilton to Winnipeg will cost 67 1/2 cents per 100 pounds, from Toronto 68 1/2 cents, while from Brantford the rate will be 82 1/2 cents. Binder twine in carload lots can be shipped from Montreal for 79 1/2 cents per 100 pounds, from Hamilton for 71 1/2 cents, while from Brantford the rate will be \$1.14, or a difference of 42 1/2 cents per 100 pounds in favor of Hamilton. On fifth class freight, such as paints, iron, nails, window glass, cordage, pipe and such articles, the rate from Hamilton will be 71 1/2 cents, while from Brantford it will be \$1.14 on 100 pounds on carload lots, or a difference of 42 1/2 cents in favor of Hamilton.

The only reply Brantford has received is word from the secretary of the railway commission stating that that body has no responsibility in the matter, a reply that is a mere gesture that carries no conviction.

The railway commission exists for the very purpose of avoiding such discrimination as the Expositor points to. It has the authority, and it should have remedied such a situation as soon as it became aware of its existence.

Note and Comment.

Woodstock's new slogan: "Come to Woodstock, famous for its 20-cent gas."

Chicago says wheat will go to \$2 per bushel. Here's hoping that the man who grows it will get the whole \$2.

It works this way. He starts calling her by her first name, and she ends up by calling herself by his last name.

With all the laws, rules and regulations we have, the chap who says, "Is it hot enough for you?" still runs at large.

There is to be a mouth-organ contest at the Toronto fair. Of course when it gets into such a great company it is referred to as a harmonica.

Hon. Mr. Motherwell is driving through Ontario, and says he sees no signs of a farmers' strike. He's wrong. The farmer strikes his bed at 9:30 and the floor at 5:30.

Government official at Sturgeon Falls waded into shallow water and caught a fish that weighed 87 pounds. It is very likely he hit it over the head with one of those voluminous government blue books that come in so handy for boiling the kettle on a camping trip.

INTIMACIES

Most problems in life are problems of intimacies.

What makes marriage so difficult is that it is a great intimacy.

People are so constituted that they cannot get along very well together unless they run in certain grooves and attend certain forms.

There are very few people with whom you can be free and careless. The first thing you know they will be a blow-up.

Formality often saves the situation. For sincerity requires a sincere soul to believe it and an open mind, while anybody can get behind good manners.

It is essential that husband and wife remain polite to each other. When they cease being so marriage is in danger.

Very often the complaint that people are formal is a complaint against shyness and not against exclusiveness.

Many people are not cordial and open for the simple reason that they do not want to be hurt. They have found out by experience that most people take advantage of intimacies to annoy them. Hence they retreat behind the veil of ceremony.

There are very few people in the world with whom we want to be intimate, or can afford to be. Intimacy requires understanding and understanding requires love.

To find an understanding love that forgives all because it comprehends all is very rare. It is for this reason that we must treat everybody with uniform courtesy, for it is behind this courtesy that we find our own protection.

Intimacies are trials of the soul. Our children come to know us and our wife comes to know us as no one else does.

That is the principal reason why most people get along so ill with their families. They are compelled to be great. It does not matter so much if they are good or not.

But it is impossible to live with anyone very long on terms of great intimacy who is not great.

Weather Prophets

I mind a-readin' some time back about some gent from Timbuctoo, who said we'd have no summer heat to scorch our carcass through and through.

For he had squinted at the stars, and turned his glass toward the sky, a-findin' we'd have two new moons in just one summer month July.

Well then he went to reckon how the things was all thrown out of gear, and weather that we'd have right would be most spooky-like and queer.

For this same thing had come before, a prophet in this '24, a-tellin' how we'd have the snow just like it come here once before.

And some folks read about the thing, they wrinkled up their noses and frowned, and "howed as how it weren't no use a-stickin' taters in the ground."

They worried on for quite a spell, they looked all shrivelled up and blue, because they read the words of him that hollered out from Timbuctoo.

But whether there be just two moons or whether there be 53, the hay crop's restin' in the barn, the apple's hangin' on the tree, the cows is givin' milk the same, the dust is flyin' down the road, and flies what come at evenin' time make fodder for the patient foad.

It seems that folks is built that way, a-gettin' scared of this or that, when some man has a spell of talk that comes out from 'neath his hat.

So let us take them prophets now, and stand 'em up in one long row, and hand to them a workin' tool, a spade, a pitchfork or a hoe.

We'll lead them to the tater patch, or where the corn waves in July, we'll teach 'em not to talk so loud about two moons hung in the sky—ARK.

A Lesson For Girls

(From the Detroit Free Press)
Two young Cleveland girls came to Detroit on a "vacation," unescorted. It was their first trip here and they were strangers in a strange city.

They craved a thrill and sought it in a dance hall on Jefferson avenue. They met up with two male specimens of the type that infests these places. If there was no flask, there was the automobile, for the dance hall sharks always manage to have one.

They danced till midnight. Would the young men take the girls home? Oh, yes, gladly. Straight home? Of course. They were so gentlemanly," the girls say now. Leaving aside the question of tastes, there was a joy ride out Michigan avenue, and perhaps some "necking." Anyway, the sharks showed their fangs, the girls fought off the tragedy as best they could, and after one jumped to safety, her girl friend was flung out of the car by the young rats. The girls are in a Detroit hospital, their vacation money gone.

It's the same old tale of foolish mothers allowing daughters too much rope. But it's a case, too, of very foolish daughters tempting evil. We venture a guess that some old-fashioned spanking would have spared these two Cleveland girls this vacation experience. Like many other girls who sought adventure and found anguish and remorse, the two have had a lesson.

It is only human to sympathize with them in their foolishness, but it is a pity that so many girls nowadays must learn that lesson before they know better.

Across the moon-lit lawn she came to me. Like a wisp of white she crossed the grass, scarcely seeming to touch the ground. She was not

mine—could never be mine—but my low call brought her to my arms, where she nestled as I pressed her to my heart. I could feel her little heart beating—beating as if she was too happy or too frightened. The rich man in the great house beside my little cottage called her his—but she came at my call.

I stroked her silken hair and pressed her small form in my arms. Suddenly a voice sounded from the great house. Her small form stiffened in my arms, her heart beat fast, flutteringly. I tried to soothe her with loving words and caresses, but all in vain. Like a flash she was gone, and I was alone with only a rude male voice breaking the silence.

"Kitty—Kitty—Come here and get your saucer of milk!"

THE JINGLE-TANGLE COUNTER.
My wife won't talk very much today,
I mixed cement in her beauty clay.
Early to bed, and early to rise,
And up every time the baby cries.

Try, Try, Again.
Tears were in her large brown eyes and she smiled sadly. Her husband's face was pale with anxiety. "David," she faltered, "I have missed you, oh so much!"

Then she raised the revolver and fired again.
This time she hit him.

All that glitters is not gold.
What's Wrong With This Picture?
Knick—"What kind of lit sticks does she use?"
Knack—"Don't know. Never tasted them."

Ima Model Daughter.
Ima goes to parties zay, plays the keyboard.
Spoils dad's collars.
Learns new lessons day by day, saves her pennies.
Dimes and dollars.

Some day off she'll go to college, write grave themes,
And make fine fudge.
Fill her head with useful knowledge, queen of sports.
Or I'm no judge.

Balanced quite with no reactions a model she.
Who'd knock 'em cold:
The cream of parents' satisfaction is Ima Ware.
One year old.

Father—"Be patient my boy, and study hard, then some day you may be mayor and pitch the first ball at the opening baseball game."

To the Editor

One Question Answered.

The Man Who Used to Dangle His Leg Out of the Buggy Now Uses a Car.

Editor of Advertiser:
Sir—In your notes the other day you asked what had become of the fellow who dangled his legs between the buggy wheels? Well, he is right here, and going strong. Instead of the horse buggy it is the old gas buggy he uses for his display—low shoes, silk socks, his pants leg up to his knee, and then hangs it over the door. He can be seen in connection with the one-hand driver and the flapper with three arms. Also the fellow that stands on the fender, hangs on with one hand, brushes the hair out of his eyes with the other hand. Then we have the fellow that rides on the radiator; also, of course, the road hog.

Come over some fine Sunday and get this dandy show for nothing. No there is no charge, no collection, only when there is a smash. There will be no dust to obscure your view as the neighbors and myself have gone down in our leaps to the tune of about \$50 and had the road sprayed so you will get a view of the above performances which go on any fine Sunday. Hoping you will come over if you care about this kind of comedy, I am yours truly,
L. S.

IT SPANS THE WORLD

Made for Days Like These

Nature provides for thirst. The luscious orange, the deliciously tart lime or lemon—what but Nature could produce such flavors—such thirst satisfiers!

This is the wonderful secret of the CRUSHES. Brimful of goodness, sparkling, wholesome—surely they were made for days like these! There isn't a finer soft drink in the world! There isn't a finer flavor. Drink your favorite CRUSH just as often as you want to.

It's as pure as pure can be—and it's nutritious. It refreshes, too, just try it! Get it everywhere you go—in the *krinkly* bottle. Order a case of 24 bottles and have it handy to serve with meals or in the evening just when you want an ice-cold drink. Orange-CRUSH is sold by confectioners, druggists, fruit stores—everywhere where drinks are sold.

Orange - CRUSH is genuine only in the *krinkly* bottle with the name blown right into the glass. No other bottle contains Orange-CRUSH goodness.

FIRST AT REUNION IS WOMAN OF 95

Mrs. Joseph Routier Registers At Headquarters For Celebration.

Special to The Advertiser. Stratford, July 29.—Eager to meet old friends again, Mrs. Joseph Routier is home for the Old Boys' Reunion. Mrs. Routier, who is 95 years of age, motored from Montreal with her son, Telesphore Routier, and is visiting her daughter, Mrs. L. McParland, 195 Waterloo street south. Mrs. Routier stood the trip well and was the first to register with the secretary of the Old Boys' committee.

DROP IN PRICE OF OIL REPORTED AT SARNIA

Imperial Oil, Ltd., Announces Reduction of 25 Cents Per Barrel.

Special to The Advertiser. Sarnia, July 29.—A reduction in price of crude oil was announced today by Imperial Oil, Ltd. Price per barrel is now \$2.23, representing a drop of 25 cents per barrel.

Gas Down. Gasoline dealers here were advised today by the Imperial Oil Co. that a 2½ cent reduction in the wholesale price of gasoline will be made probably on Wednesday. The fall is from 24½ to 24 cents, and it is expected the retail price will be brought down from 30 to 28 cents tomorrow.

PROHIBITION OFFICERS BOOTLEGGERS' VICTIMS

Bodies Found in Automobile Close To Phoenix, North Carolina.

Associated Press Despatch. Wilmington, N.C., July 29.—A posse, despatched from here to Phoenix, Brunswick County, tonight upon receipt of reports of a battle between prohibition officers and bootleggers, found the body of Deputy U.S. Marshal Lilly and City Prohibition Agent Leon George in their automobile two miles from the town. Both bodies were riddled with bullets fired at close range, and George's police dog was also found dead in the car. The posse went armed with riot guns to meet any emergency. The weapons of both officers were in their pockets and had not been fired. Word of the tragedy was brought to Phoenix by a negro who said he had heard 25 or 30 shots and had seen the bodies of the officers at a distance.

London May Ban Flow of Liquor

May Stop Shipments Which Eventually Reach U. S.

Associated Press Despatch. London, July 29.—The possibility of taking measures to put a stop to sending from the United Kingdom, liquor which ultimately reached the United States, was still under consideration, Arthur Ponsonby, under-secretary for foreign affairs, told a questioner in the House of Commons today. The difficulty was he said, to frame measures which would not hurt legitimate trade.

CANADIAN APPOINTMENT TO WASHINGTON DENIED

Canadian Press Despatch. Ottawa, July 29.—The report that Senator N. A. Belcourt, Canadian representative at the inter-allied conference in London was to be appointed Canadian minister at Washington, was officially denied here tonight. It was definitely stated that the government had made no appointment to Washington.

REBECCA BOY DIES IN CROSSING CRASH

Clive Strathdee Killed As Train Hits Auto West of Dorchester.

Special to The Advertiser.
Dorchester, July 29.—A fatal crossing accident occurred shortly after 2 o'clock this afternoon at Lees Crossing, about three miles west of Dorchester. Robert Strathdee, storekeeper at Rebecca, and his son, Clive, a lad about 15 years of age, were returning home from visiting Mr. Strathdee's mother and sister in Dorchester. When they reached the C. N. R. crossing their engine stalled and the car stopped directly in the path of No. 12 mail train, due to leave London at 2:05 p.m. The terrific force of the impact hurled the heavy touring car a distance of one hundred and sixty feet and reduced it to a shapeless mass of broken steel.

The father, who was at the wheel, was thrown three hundred feet, and the son was instantly killed, the body being badly mangled. The front of the locomotive was also considerably damaged.

First aid was given the injured man by the train crew and he was taken to the Ingersoll hospital. After the coroner, Dr. Doane of Harrietsville, viewed the remains the body of the boy was brought to Dorchester.

Mr. Strathdee will be able to return to his home tonight. He suffered a compound fracture of the left leg and many bruises.

Dr. Doane impaneled a jury which met in Dorchester and viewed the remains tonight. The inquest was adjourned until Tuesday, August 5, at 2:30 p.m., at the Dorchester hall. The jury is composed of William Shiels (foreman), A. S. Leitch, William Barr, Murray Malpass, Allen McCullum, Steve Budden, and Mr. Henry.

WHITE INDIANS' RACIAL HISTORY TO BE PROBED

British Association For Advancement of Science May Start Investigation.

Special to The Advertiser.
Toronto, July 29.—The British Association for the Advancement of Science will in all probability act upon the invitation of Richard O. Marsh, discoverer of the now famous white Indians, and view and pronounce upon these unique specimens of the human family. It is likely that the opinion of the world's leading anthropologists will go far to settle the question of their racial history and origin which has been the subject of disagreement among American authorities who have seen them.

With reference to the suggestion of Mr. Marsh that the white Indians, of which he has custody, be placed before the British scientists, Mr. O. J. R. Howarth, secretary of the association, today stated that there was every likelihood of the proposal being acted upon and the white Indians viewed and examined by the association under the auspices of the anthropological section of the association.

"I see no reason why that should not be done," stated Mr. Howarth. "I expect the members of the association will be very pleased to act upon the suggestion."

Three Americans To Start Today On Ocean Flight

Associated Press Despatch.

Brough, England, July 29.—With the guardian American cruisers and destroyers in position, all was in readiness today for the trans-Atlantic hop of the United States army round-the-world fliers tomorrow morning.

It was planned by Lieut. Lowell M. Smith, the flight commander, to start the three planes at 5 o'clock, taking off two hours later. The American globe girdlers hope to reach Kirkwall in the Orkney Islands at noon, where they will rest over night and replenish their supplies. The jump to the American continent will be commenced Thursday morning, weather permitting.

Aviator Crashes Into Top of Hill

Object Struck Was Hidden Under Low-Lying Clouds.

Canadian Press Despatch.
Calgary, July 29.—Cutting down through the storm-banked clouds while doing forest patrol duty in his aeroplane in the Porcupine Hill district on Monday, George Mercer, aviator, crashed into the top of a hill that was hidden by the low-lying clouds, and wrecked his aeroplane. Mercer broke his nose, but was not seriously injured.

WIFE OF YEAST KING IS GRANTED DIVORCE

Special to The Advertiser.
Paris, July 29.—The application of Mrs. Julius Fleischmann, wife of Julius Fleischmann, the American "yeast king," for divorce was granted today.

The name of Mrs. Fleischmann became linked in newspaper stories with that of Jay O'Brien, the polo player, but counsel for Julius Fleischmann, the yeast manufacturer, denied that Mrs. Fleischmann contemplated marrying O'Brien. The lawyer, Dudley Field Malone, also denied that Fleischmann intended giving his wife a bequest of \$5,000,000.

Tigers and Yanks Both Win, Leaving American League Top Positions Unchanged

ATHLETICS BREAK ASSISTS RECORD

Thurston of White Sox Loses
To Yankees After Winning
Ten Straight.

Associated Press Despatch.
Detroit, July 29.—After tying the score in the ninth inning, Detroit won from Philadelphia here today in the eleventh 4 to 3. Pratt batted in both the tying and winning runs. By winning today Detroit remained in second place.

Philadelphia broke the American League record for infield assists in the first nine innings of today's game, making 21. This number also ties the National League record, made by the New York Giants July 15, 1919.

SISLER'S BATTING FEATURES.
Associated Press Despatch.
St. Louis, July 29.—David Joe Fitzmaurice pitched Murray today, and the Browns defeated the Boston Red Sox 3 to 0, thus defeating the series. Sisler's homer in the fourth inning, his ninth of the season, brought in Evans ahead of him, and his sacrifice in the sixth scored. Murray allowed three hits, but he issued four passes.

SHAUTE WIN. FOR INDIANS.
Associated Press Despatch.
Cleveland, July 29.—Shaute held Washington to six hits today, and the Indians took the fifth game of the series 4 to 2. Shaute was driven from the box in the third, when the Indians scored three runs on two bases on balls, a hit batsmen and two hits. The Indians filled the bases with none out in the fifth, but Shaute retired the tribe with one run.

THURSTON'S STRING BROKEN.
Associated Press Despatch.
Chicago, July 29.—The winning streak of Pitcher Hollis Thurston, which had run for ten consecutive games, was broken today, when New York defeated Chicago 4 to 1 in the final game of the series. Thurston's record was saved last Sunday when the Yankees drove him off the mound, but lost the game because of a ninth-inning White Sox rally.

Ruth's homer, his 32nd of the season, saved up the game for the Yankees. The four-bagger of Ruth's was his 13th this month, and his 13th of the season. The record, established in June, 1921, the year he set his home run record of 59 circuit.

MITCHELL LACROSSE TEAM TAKES 12-8 WIN

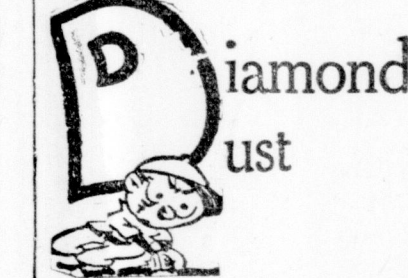

Stratford Loses Final Game
of Season in Classic
City.

Special to The Advertiser.
Stratford, July 29.—Mitchell defeated Stratford, 12-8, in the final lacrosse game of the season here tonight. Mitchell and Clinton will now fight it out for the group honors in the district of the Intermediate A. O. A. L. A. The first three periods were decidedly ragged with nothing but good hitting by the referee holding the game in any kind at all. The last period was good, snappy lacrosse, with Mitchell having a decided lead.

The teams:
Mitchell—McLacken goal; Sawyer, point; Cook, cover point; Piper, first defence; T. Stoneman, second defence; Moore, centre; McHenry, second home; V. Stoneman, first home; Elserman, outside; Thorne, inside; Edwards, Edgelauffer, flanks, subs.

Stratford—Turcott, goal; Seebach, point; Sewell, cover point; Young, first defence; Tenant, second defence; K. Murray, centre; Smith, second home; Lavalle, first home; McDermott, outside; Brown, inside; Noise, Murray, Sprout and Wisby, subs.

Referee—Gene Dobbs, Toronto.

Babe Ruth, in an interview the other day, stated that the Yankees in his opinion, would be through for some time as a pennant-winning team or even a possibility. He says that it is the history of the game that if a team, after winning three straight pennants, failed to win their fourth, they would plumb smash. Babe likely believes in the axiom of history repeating itself. The way he puts it is that the Yankees this year are fighting for their lives as well as the league pennant.

Citing a game the other day with Detroit, when Cobb was caught on second when there was only one out, the bases filled and the team in the midst of a rally. The Babe said he believed Cobb lost the game for the Tigers, and may have lost them the pennant.

Many of the fans of the New York Americans are disappointed with the fact that the world champions are playing in "tank" towns on every day that there is no game scheduled for them. The way the fans point out is that the team is under a very severe strain in the race for the pennant, and a chance to again compete for the world championship, and that the players do not get a chance to let up. The players have complained that muscles, brains and nerves are given a rest when an off-day is scheduled.

Colonel Ruppert, sole owner of the club since the retirement of Colonel Huston, is a millionaire many times over and does not need the petty thousand dollars that is the guarantee for all exhibition games. The Yanks are the richest club in the American League. The Senators the poorest, have cancelled all games outside the circuit.

St. Marys came out of the cellar of the C. A. at Sunshine Park last night, when they defeated Marconis 5 to 1 in a contest that was close until the losers began throwing the ball all over in the last inning to hand the east-enders three more runs. It was the first time this year that the St. Marys team has come from behind to win.

Kelleher and Freddie Miles both pitched good ball, but the former got support where the latter was wobbling. In the third inning the Lytle street moundman fanned the first two men to face him, walked the third and then pulled himself up by walking the next.

Marconis hit only one ball to the outfield. The work of Howard, former Fitzmaurice was of the spectacular order.

BAD SHOWING OF TEAM CAUSED BY FRICTION

"Tony" Vince in Interview
Gives Inside Information
on Olympic Contests.

Canadian Press Despatch.
Toronto, July 29.—"Tony" Vince, Varsity Olympic sprinter, returned home from his trip to France today, and in an interview stated that after a brief rest he expects to take to the track again and run in several of Varsity's coming meets. He intends to race opposite Confee in an exhibition event here in the fall.

Vince, explaining his own showing stated that while training in Montreal he sprained a tendon, which crippled him considerably. Though receiving little attention, the leg was quite itself when the team arrived in France. Over-training and running in the unfamiliar distances did not help matters, which caused the reissue of the Montreal trouble.

Vince, the Telegram states, declared that "all was not well" with the Canadian team abroad.

The Telegram continues: "The trip proved to be one long battle between Trainer Hughes and Coach Cornelius."

"It is asserted that Coach Cornelius issued instructions for no one to take a rubdown without seeking the head coach first. This resulted in the break that caused many close moments in the training quarters."

"The other countries had butts right at the stadium, with their own cooks and all personal attention. The Canadian team used two hotels in Paris, ate strange food and mounted up a huge taxi bill travelling to and from the stadium."

"The showing of Granville, the walker, was far from satisfactory."

C. MATHEWS LOCATED CALIFORNIA WIRE SAYS

Address of Missing Deputy
Treasurer For Province Is
Declared Available.

STORY AT TORONTO

Head of Provincial Authorities
Reticent Concerning Ac-
tion On Case.

Canadian Press Despatch.
Toronto, July 30.—It is reported this morning that telegraphic ad-
vices from San Francisco have been
received to the effect that Charles
Matthews, former deputy treasurer,
is now located in California, and
that his address is available for the
provincial police and other authori-
ties should they display any desire
to take steps looking for the appre-
hension of the former official
charged with violation of the secret
commission act.

It is stated also that the news of
Mr. Matthews' whereabouts was
telegraphed to General Williams,
head of the Ontario provincial police,
who authorized the issuing of cir-
culars offering a reward for the
apprehension of the former deputy
treasurer. Attorney-General Nickle
is in possession of the information,
and has turned it over to the proper
channels, according to his statement,
given out last night.

Telegram Arrives.
First intimation of the locating of
the long-wanted former deputy-
treasurer at Parliament Buildings,
the report continues, came to Com-
missioner of Provincial Police V. A.
S. Williams in his office at the
building yesterday afternoon in the
form of a telegram from a San
Francisco man, who stated that if
a suitable reward were offered the
address of Matthews would be dis-
closed.

Just what reply was sent to San
Francisco is not known. Commis-
sioner Williams' reply to questions
last night being: "I'm sorry, I can-
not tell you anything."

Attorney-General Nickle was ques-
tioned on the same subject, his re-
sponse being: "The attorney-general
has nothing whatever to say."

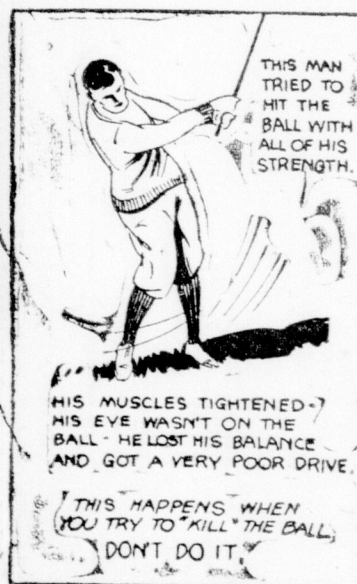

It is said that the informant of the
discovery of Charles A. Matthews in
San Francisco stated in his telegram:
"Matthews has friends and has evi-
dently been tipped off. Police ap-
parently do not care to find him."

Escapes Police.
"Charley" Matthews, as he was
popularly known at the Parliament
Buildings, escaped from police sur-
veillance in Toronto last spring, fol-
lowing the sensational disclosure be-
fore public accounts of the commit-
tee of the Legislature that he had
participated in a three-way split of
\$11,000 racket on a provincial govern-
ment bond transaction. He sat in
committee while Hart and Ross, two
of the principals in the purchase and
sale, told their stories. Next day he
was suspended from office.

Instructions emanating from As-
sistant Commissioner Alfred Cuddy
had Matthews put under surveillance
of two police officers, and for several
days afterward the former assistant
treasurer was shadowed in Toronto
wherever he went. Finally he es-
caped them by leaving his motor
in front of a Simcoe street printing
office, and leaving by the back door of
the establishment. The officers
watched the car most of the night,
but Matthews never returned, and
fled Toronto. This is the first word
that has been heard of him or his
whereabouts.

Golf

AS CHAMPIONS PLAY IT.

What advantages or disadvantages
are there in using all your strength
in driving a ball?

Answer by
IRA COUCH
Western junior amateur champion
in 1923 and champion of Chicago
District Golf Association in 1922.

There are no advantages that I
know of in using all your strength
when driving a ball, and the disad-
vantages are so numerous that I am
afraid it is a one-sided argument.
The most noticeable fault to find is
the loss of balance, and good bal-
ance is a very essential factor in
accurate driving. When one uses all
his strength to drive a ball the re-
sult is obviously a tightening of the
muscles and a loss of balance, and
the result is always a poor shot. It
is nice to be able to hit a ball hard
when in a bad situation in a match,
but it is most inadvisable to try such
a hazardous risk unless in the most
difficult of circumstances. The one
thing that has been drilled into all
golfers since the beginning of time
is, "Keep your eye on the ball," and
this is most impossible when trying
to hit the ball too hard.

Actress Is Sued By Third Husband

Peggy Hopkins Joyce En-
twined in Another Divorce.

Associated Press Despatch.
New York, July 29.—The Countess
Mornier, formerly Peggy Hopkins
Joyce, of musical comedy fame, who
has divorced two millionaire hus-
bands, today was served with papers
in a suit instigated by the count for
annulment of her most recent mar-
riage.

The former Peggy Joyce immedi-
ately countered this action with a
suit against Count Mornier for \$10,-
000 which she alleges she spent on
behalf of her husband since she mar-
ried him, last June.

98 Out of Every 100 Women Benefited

An Absolutely Reliable Statement Important to Every Woman

Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. — 50,000 Women Answer —

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Replies, to date, have been received from over 50,000 women answering that question.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.

Did you ever hear of anything like it? We must admit that we, ourselves, are astonished.

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

It's reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98

INSTALLMENT 21. THE FAMINE.

The months went by. White Fang grew stronger, heavier and more compact, while his character was developing along the lines laid down by his heredity and his environment. His heredity was a life-stuff that may be likened to clay. It possessed many possibilities, was capable of being moulded in to many different forms. Environment moulded the clay, to give it a particular form. Thus, had White Fang never come in to the fires of man, the Wild would have moulded him into a true wolf. But the gods had given him a different environment, and he was moulded into a dog that was rather wolfish but that was a dog and not a wolf.

And so, according to the clay of his nature and the pressure of his surroundings, his character was being moulded into a certain particular shape. There was no escaping it. He was becoming more morose, more uncompanionable, more solitary, more frowning, while the dogs were learning more and more that it was better to be at peace with him than at war, and Gray Beaver was coming to prize him more greatly with the passage of each day.

White Fang, seeming to sum up strength in all his qualities, nevertheless suffered from a certain weakness. He could not stand being laughed at. The laughter of men was a hateful thing. They might laugh among themselves about anything they pleased except himself, and he did not mind. But the moment laughter was turned upon him, he would fly into a most terrible rage. Grave, dignified, sombre, a laugh made him frantic to ridiculousness. It so outraged him and upset him that for hours he would behave like a demon. He knew the law too well to take it out on Gray Beaver; behind Gray Beaver was a club and god-head. But behind the dogs there was nothing but space, and into this space they fled when White Fang came on the scene, made mad by laughter.

In the third year of his life there came a great famine to the Mackenzie Indians. In the summer the fish failed. In the winter the caribou forsook their accustomed track. Moose were scarce, the rabbits almost disappeared, hunting and preying animals perished. Denied their usual food supply, weakened by hunger, they fell upon and devoured one another. Only the strong survived. White Fang was also a hunting animal. The old and the weak of them died of hunger. There was waiting in the village, where the women and children went without in order that what little they had might go into the bellies of the lean and hollow-eyed hunters who trod the forest in the vain pursuit of meat.

To such extremity were the gods driven that they ate the soft-tanned leather of their mocassins and mittens, while the dogs ate their harnesses off their backs and the very whip-lashes. Also, the dogs ate one another, and also the gods ate the dogs. The weakest and the more worthless were eaten first. The dogs that still lived, looked on and understood. A few of the boldest and wisest forsook the fires of the gods, which had now become a shambles, and fled into the forest, where, in the end, they starved to death or were eaten by wolves.

In this time of misery, White Fang, too, stole away into the woods. He was better fitted for the life than the other dogs, for he had the training of his cubhood to guide him. Especially adept did he become in stalking small live things. He would lie concealed for hours, following every movement of a cautious tree squirrel, waiting with a patience as huge as the hunger he suffered from, until the squirrel ventured out upon the ground. Even then, White Fang was not premature. He waited until he was sure of striking before he pounced. Then, and not until then, would he flash from his hiding place, a gray projectile, incredibly swift, infallibly failing its mark—the fleeing squirrel that fled not fast enough.

Successful as he was with squirrels, there was one difficulty before he could vent him from living and growing fat on them. There was not enough squirrels. So he was driven to hunt still smaller things. So acute did the hunger become at times that he was not above rooting out wood mice from their burrows in the ground. Nor did he scorn to do what even a weasel as hungry as himself and many times more ferocious.

In the worst of the famine he stole back to the fires of the gods. He did not go in to the fires. He lurked in the forest, avoiding discovery and robbing the snare at the rare intervals that game was caught. He even robbed Gray Beaver's snare of a rabbit at a time when Gray Beaver staggered and tumbled through the forest, sitting down often to rest, what of weakness and shortness of breath.

settled down and rested for a day. During the early summer, in the last days of the famine, he met Lip-lip, who had likewise taken to the woods, where he eked out a miserable existence. White Fang came upon him unexpectedly. Trotting in opposite directions along the base of a high bluff, they rounded a corner of rock and found themselves face to face. They paused with instant alarm and looked at each other suspiciously.

White Fang was in splendid condition. His hunting had been good, and for a week he had eaten his fill. He was even gorged from his latest kill. But in the moment he looked at Lip-lip his hair rose on end all along his back. It was an involuntary bristling on his part, the physical state that in the past had always accompanied the mental state produced in him by Lip-lip's bullying and persecution. As in the past he had bristled and snarled at the sight of Lip-lip, so now, and automatically, he bristled and snarled. He did not waste any time. The thing was done thoroughly and with despatch. Lip-lip essayed to back away, but White Fang struck him hard, shoulder to shoulder. Lip-lip was overthrown and rolled upon his back. White Fang's teeth drove a death struggle, during which White Fang walked around, stiff-legged and observant. Then he resumed his course and trotted on along the base of the bluff.

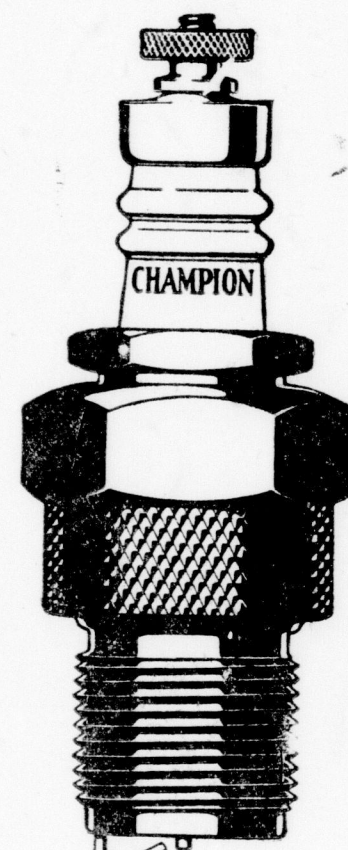

One day, not long after, he came to the edge of the forest, where a narrow stretch of open land sloped down to the Mackenzie. He had been over this ground before, when it was bare, but now a village occupied it. Still hidden amongst the trees, he paused to study the situation. Sights and sounds and scents were familiar to him. It was the old village changed to a new place. But sights and sounds and scents were different from those he had last had when he fled away from it. There was no whimpering nor wailing. Contented sounds saluted his ears, and when he heard the angry voice of a woman he knew it to be the anger that proceeds from a full stomach. And there was a smell in the air of fish. There was food. The famine was gone. He came boldly from the forest and trotted into camp straight to Gray Beaver's tent. Gray Beaver was not there, but Kloo-kooch welcomed him with glad cries and the whole of a fresh-caught fish, and he lay down to wait for Kloo-kooch's coming.

BRITISH AGREE TO ALTER EMPIRE REPRESENTATION

House of Commons Votes To Change Entire System Affecting Dominions.

ALL PARTIES AGREE

Present Plan Is Declared Unsatisfactory—Conference Is Planned.

Associated Press Despatch.
London, July 29.—The British government has determined to alter the entire system of dominion representation, declared today in the House of Commons during the discussion on the vote for the colonial office.

Mr. Thomas said the system of dominion representation at the present inter-imperial conference was not satisfactory, and that the government had decided to invite the dominions to send delegations to a conference which will consider the whole situation and avoid the difficulties hitherto encountered. It is hoped that the conference may be held in October.

When the colonial office vote came up, Right Hon. L. C. Amery, former first lord of the admiralty, raised the question of representation of the dominions.

Plan Unsatisfactory.
The makeshift arrangement now in force arrived at the last moment was unsatisfactory, he added, because of the panel system adopted. The representation should be on a footing of equality. The spirit of equality and the status between nations and the empire were being violated if the United Kingdom had a representative continuously at the conference and the dominions only partial representation through the panel.

"We ought to make it clear to the rest of the world," asserted Mr. Amery, "that they must take the British Empire as they find it, and we cannot diminish the status of our own dominions merely in order to meet the conveniences of other powers."

Lloyd George agreed with the previous speaker as to the importance of the matter of dominion representation. He pointed out the very great difference in the position of the dominions, as a result of their sacrifices in the great war. It was very important, he continued, that the dominions should feel that whatever policy was to be decided upon "we should take them into our councils as far as geographical conditions warranted."

After a brief reference to the Lausanne controversy, J. H. Thomas, colonial secretary, said the very fact that in the Canadian Parliament the prime minister of that dominion actually got up and discussed three alternatives, one of which was separation—that in itself was not only disturbing but ought to convince all members of all parties that this was a subject which must be tackled, not only seriously, but free from all party considerations of any kind. Today's debate proved, he continued, that on empire questions all parties could unite.

Reads Telegram.
The colonial secretary proceeded to read a telegram he had sent to the dominions on June 23, in which he had mentioned the government's concern regarding the adequacy of the present system of consultation with self-governing parts of the empire on matters of foreign policy and general imperial interests.

The despatch invited views and said the government was of an open mind and merely exploring the situation with a view to finding the solution. Mr. Thomas put it to the House that there had never been a frank statement from the British government to the dominions.

Referring to the question of representation at the present conference, Mr. Thomas said: "Anybody with a knowledge of European difficulties arising out of the Dawes report would be the first to admit that we could not turn that conference into a mass meeting. We could not to the dominions pointing out the difficulties and asking their help. We made it perfectly clear that upon no consideration would they be considered by any representative of the British government without a full discussion of the agreement. All accepted it except Canada."

"The difficulty with Canada was caused, we may as well be perfectly frank in this matter; it is a good thing, and it is the strength of the British Empire that we can be frank with each other without unpleasantness—Premier Mackenzie King was very frank and said to us: 'No, I believe by accepting anything less than the principle agreed at Versailles is lowering our status.'"

Parley Planned.
The colonial secretary proceeded to describe in full the consultations taking place daily between the dominions' representatives and the principal members of the government. He then said the position as regards representation was nevertheless not satisfactory and the present arrangement was not a solution.

They had determined to alter it, he said, therefore they had invited the dominions to a conference which was hoped to take place in October. Before the close of the debate Mr. Thomas said complete replies had not yet been received, and therefore he could not lay the papers on the table. All evidence, he said, showed the conference would be welcome. The government wished to explore the whole situation, with a view of averting difficulties which, unfortunately, we had to deal with hitherto. The discussion would recognize the fact, he added, that the dominions' interests must be considered and looked after. It must be shown to outsiders that domestic differences are not going to weaken us. The government believes the conference will be a genuine attempt to put imperial unity on a sound basis. The vote was agreed to.

PRICE OF BREAD INCREASED.
Canadian Press Despatch.
Vancouver, July 29.—The price of bread was increased one cent a loaf here this morning. The price is now nine cents for an eight-ounce loaf, or twelve for one dollar. Master bakers last night decided on an increase owing to a rise in the price of flour.

MINISTER AGRICULTURE TO DISCUSS EGG LAWS

Kent County Visit Arranged—Two Dealers Fined. One Dismissed.

Special to The Advertiser.
Chatham, July 29.—Farmers and grocers of this district are looking forward with interest to the visit of Hon. W. R. Motherwell, Dominion minister of agriculture, who, today, announced his intention of meeting on Friday with those who are having difficulty with the egg grading laws.

Two Are Fined.
Magistrate S. R. Arnold today announced his judgment in the three cases involving alleged egg grading law infractions recently tried before him.

Mr. McCann, produce dealer, who pleaded guilty to two charges, was fined five dollars and costs on each. D. F. McDuffy, produce dealer, who pleaded not guilty, was found guilty, judgment being recorded on three. Fines of five dollars and costs were imposed in connection with each of the three charges.

GAS GUSHER IS DISCOVERED ON SARNIA INDIAN RESERVE

Special to The Advertiser.

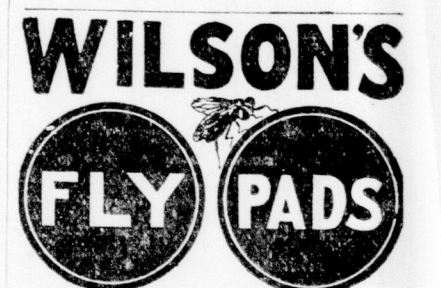

Sarnia, July 29.—Drilling for water on the plant site of the Dominion Alloy Steel Corporation, G. H. Pickard of Bridport today tapped a gas well. The gas pressure was strong and Mr. Pickard, who is an experienced driller, believes that the well will prove a very important one.

The well is at a depth of 120 feet, which is much shallower than other wells in the county. At Tilbury the gas comes from a depth of 1,200 feet, at Dawn 700 feet, and Leo Wilson's wells, Sarnia Township, average 100 feet. Investigation of the possibilities of the well is to be made by Dominion Alloy Steel Corporation and steps were taken immediately to cap the well and conserve the gas pending further investigation.

The presence of gas on the Sarnia Indian reserve has been suspected for a long time, but this is the first well that has been tapped in that part of the reserve.

eleven charges was preferred, was dismissed. Magistrate Arnold stated that he would not be justified in registering a conviction on the evidence in this case, which was based on extracts made from Smith's books by Inspector Morrison, in the dealer's absence. The entries, he said, did not show that the eggs had been bought or sold graded or ungraded.

HENRY FORD IS 61.
Special to The Advertiser.
Detroit, July 29.—Henry Ford will be 61 tomorrow, but all indications are that no celebration will mark the occasion. Mr. Ford is away today on a motor trip.

Further improvement in the

expansion could not negate its consequences to some degree. The failure of the last upswing to be more than it did was due directly to an unfavorable situation in these sectors. An analysis of relative production of basic materials over the twenty years would show that in some the high production of some periods of last upswing, average per unit production was less than in previous cycles before the war. The relative decline lay primarily in the relative economic position of our farm production, and to a lesser extent, in displaced foreign trade. With a movement in either or both these directions, probabilities of greater volume of output at least in the next upswing become exceedingly strong when it comes to a consideration of the

use will show a profit.
Increased demand under ea

tion would undoubtedly make the appearance of a significant demand which in its initial stages would be to a large extent satisfied by our views on the national activity for the fall months.

Apart from any further expected improvement in farm and stock prices, which would be a relief, which will increase volume rather than prices, and which may be relatively short.

Improvement from present prices in either or both these fields is necessary, but not only volume and duration in proportion to the extent of the improvement.

TEMPERANCE MEETING HELD IN WATDSVILLE CHURCH

Wardville, July 29.—J. G. Lethbridge, M.L.A., was the speaker at a temperance meeting in the Methodist Church, Sunday evening. Mr. Lethbridge spoke with force, and authority of a life-long fight for temperance laws, and from his present knowledge of the legislature. He upheld the A. T. A. as being the best

law we have ever had and said the funds used for the taking of the vote, would be better spent on the enforcement of the present law. He also stressed the fact that it is not the churches, preachers, laborers or manufacturers who want the law changed. The fact speaks out that if we lose this fight, it will be from lack of support of the churches. W. H. Parnall acted as chairman, and the united choir rendered special music.

MAYOR WENIGE'S MOTION CARRIED UNANIMOUSLY

Recommendation Made To Council For Immediate Work On Sewers.

NEW PAVEMENTS

Action Taken To Provide Work For Unemployed Throughout City.

The board of works yesterday carried unanimously a motion of the mayor that it should recommend to the council that all the work on storm sewers which was contemplated in the permission given by the private bills committee to spend \$200,000 on this work, be started immediately.

The board also carried another motion of the mayor to initiate pavements on Charles street, and on the Wharncliffe road north. A third motion, to go ahead with the paving of Oxford street east from Richmond to Adelaide, was lost, some of the members not wishing to reopen the street railway franchise question at the present time.

The two motions, of the mayor, which carried, were made by him as he said, "in view of the serious unemployment situation existing in the city, because the need is urgent, and because it will be greater in the winter." He stated that it would save money to do the work now than in the winter, that it would provide work immediately for a number of men, and that by giving them some money now, it might relieve the relief burden of the city during the winter.

Near Objects.

City Engineer Near objected, that he had already in his department nearly 500 men. "A number I believe," he said, "greater than in any city of similar size in Ontario," and that if all the extra work was used up now it would be exceedingly difficult to find work in the winter. He also declared that he had men coming to him now for work, who refused to work on the provincial highway "because they were only paying 30 cents an hour." The motion was carried with the understanding that the city engineer pay the prevailing wages for the kind of work done.

"As to providing work in the winter months," the mayor said, "we will take care of that when it comes and when the need is important. In the meantime the need for some work is very urgent and it behooves us to act now. Promises will not feed these men and their families."

Alderman Greer asked whether the mayor expected the Federal and Provincial governments to come to the aid of the various municipalities in the winter. The question the mayor could not answer, more than to urge the immediate need of the present time.

Pavements Not Wanted.

A delegation from Quebec street appeared with a petition signed by every resident of the street except four who live out of the city and one the owner of a vacant house, asking that the proposed pavement be not laid. They had no objection to the building of a storm sewer which is paid out of the general tax rate.

They claimed that the real difficulty of this street was a matter of lack of adequate drainage and that the sewer would give them efficient transportation, and all they needed now. After a long discussion the matter was laid over to Tuesday night for fuller discussion by the council. The board of works was fully in agreement with the idea of building the storm sewer now and leaving the pavement until later when it was asked for by the residents.

The city engineer asked what his authority would be to go on with the work and was instructed to wait until the meeting of the city council on Tuesday night when the matter would be settled.

Sewer Necessary.

Asked specifically by the chairman of the board as to the necessity for a storm sewer on this street, Mr. Near said that drainage was certainly needed if there was to be reasonable transportation on the street. "No kind of street," he stated, "can be built on an undrained foundation, and no kind of surface can be maintained."

The dredges and other plant which are
intended to be used on the work shall
have been duly registered in Canada
at the time of the filing of the tender
with the Department, or shall have been
built in Canada after the filing of the
tender.

Each tender must be accompanied by
an accepted check on a chartered bank,
payable to the order of the Minister of
Public Works, for 5 per cent of the
contract price, but no check to be for
less than fifteen hundred dollars. Bonds
of the Dominion of Canada and bonds
of the Canadian National Railway Com-
pany will also be accepted as security,
or bonds and a check if required to
make up an odd amount. By order,

Thursday will be the climax of our July Clearance, and much desirable merchandise, in too small quantities to advertise, will be marked by the sale tickets for final clearance. Many groupings from previous sales also will be found re-priced for final clearance. The Silks, Voile Dresses, Sweaters and Infants' Wear are each sufficient attraction for one day's selling, but these are only a part of our program for tomorrow, the last day of our July sales.

MIDSUMMER FROCKS OF VOILE \$7.95

Choose Gay Prints and Flower Colors.
A Manufacturer's Clearance, About Half Price

Delightfully crisp and new are these pretty Dresses, which our ever vigilant buyers have been fortunate enough to secure for you. The fine materials, the distinctive styles and trimming details, combined with the unusually favorable prices, make this a summer sale which it is a pleasure to sponsor. One hundred dresses for one hundred Thursday shoppers!

Just picture these appealing color harmonies! Sheer orchid voile with lemon yellow moire ribbon. Nile green voile, with pipings of white or interesting color triads of mauve, yellow and green velvet ribbons. Peach-colored domino voile with frills of Val lace. Navy blue vividly embroidered in red.

Voile Has Got Into Print

The slenderness of one Voile Frock is emphasized by its long stripes of orange and black, daintily printed with large white coin dots. Its crisp white collar is of organdy, its fluttering tie of orange and black ribbons \$7.95

Black and White

Many of these models enable you to "dress and grow thin," for their clever prints, their long panels, and their rows of trimming contribute to the slenderizing effect. Sizes 16 to 43 \$7.95
