ADVERTISE IN THE PLANET

NOW OCCUPY NEW QUARTERS

Splendid New Bank Building Is A Credit To The Institution

OPENED UP ON MONDAY

The new Bank of Montreal adjoining the Opera House was opened to the public on Monday morning, when the staff moved out of their temporary quarters in the Sceno Block. The building is designed on a Colonial plan as regards architecture, and neatness and compactness are its main features both internally and externally. Two massive oak doors, with plate glass ovals, confront the visitor as he mounts the steps, and once beyond these portals a scene of up-to-date business life opens to the view.

Neat desks, ingenious filing cabinets and fittings of a most handsome nature give a highly artistic appearance to the office, which is finished in dark oak, with light drab walls and a bright white ceiling, and is remarkably light and airy. The counter curves in the centre where the tellers' office is situated and the broad sweep from the level gives it an imposing grace. Shining brass gratings keep the public at their distance on the counter and plate glass separates the different offices without obstructing the view, so that the orderly conduct of the banking business can be dissected and observed from any part of the banking room.

The managers' office is on the right of the corridor near the entrance and is fitted in a manner consistent with the general brightness and beauty of the building. Behind the banking room built solid with it is Mr. Massey's residence, and throughout this section of the office everything speaks of careful designing and fine execution.

Improvements to the surrounding land will shortly be made, concrete replacing the sods at the sides of the bank and garden, attention being bestowed on the river bank at the rear. Altogether the new bank is a fine building, well appointed and in keeping with its growing business in this city.

The staff who will conduct the bank under the capable management of Mr. Massey is as follows: F. J. Naffel, accountant; J. H. Wilson, teller; J. W. Merkel, ledger; J. F. Thomas, discount clerk; H. C. Gillis, clerk; H. Williamson, clerk, and E. S. Broomfield, messenger.

HE IS A WINNER

Othello The Invincible Carries Off Three Straights at Bay City—Ridgetown Races

Chatham sportsmen are delighted with the unprecedented record which Othello, Fairbanks' famous Chatham gelding, is making. The Detroit Free Press, in its report of the Bay City races, makes the following mention of the Maple City favorite:

"In the 219 trot Othello, the unbeaten Canadian gelding, favorite, took the third, fourth and fifth heats after Paquet had taken the first two. Every finish was under the whip, and twice the result was so close that spectators had to await the official announcement. David K., favorite in the 223 pace, went straight heats, although it looked like anybody's race in every heat, the field being well bunched behind him."

Chatham sportsmen claim, on good grounds, that Othello got a good deal from the judges' second and last day of the race meeting held at the Ridgetown Driving Park to-day. The weather was ideal.

The feature to-day was the wonderful fight shown by Mattie Weaver in the 215 class, winning second place against a field of fast ones, and after winning a six-heat contest yesterday.

CANNOT UNDERSTAND WHY COUNCIL SUBMITTED BY-LAW

Ex-Mayor Kranz Of Berlin Says A Proposition Like The One Offered By The Keystone Company Would Never Have Passed Industrial Committee In Berlin — A Few Other Reasons For Opposition

Much has been said for and against the beet sugar by-law, which will be voted upon to-morrow, and the general opinion among the majority of the ratepayers seems to be that there is too much mystery surrounding the proposition, and the ratepayers of this city are too cautious to vote for any measure where the fullest of details are not given, especially where there is an amount as large as \$75,000 at stake.

Among those who have offered advice on the subject there are probably none who speak more sensibly than Mr. Kranz, a former mayor of Berlin, who is at present spending a visit in this city.

In a conversation with this journal he advanced the opinion that such a proposition as this one if brought up in Berlin would never have got as far as the Industrial committee. Every point in connection with the scheme would have been threshed out in committee, and then it would have been made public.

"It seems with your present rate of taxation, that this is a very expensive by-law to pass. You hear a lot about how much a sugar factory benefits a town, but there are two sides to that question. It is not looked upon as the most desirable kind of an industry, even in Berlin. This matter of security is a dangerous question to tamper with. The best thing a town can do is to get the industries that they know are going to be successful and not to trust in something that they hope

is going to turn out all right. Cities should steer clear of an industry that is very apt to fail, let alone to lend them the sum of \$75,000. I can't understand your council submitting such a proposition as this one is. It doesn't look like a good one to me, and I have seen a lot of sugar factories during the past couple of years."

Mr. Kranz pointed out that the city, if they wish to encourage industries, could divide up that \$75,000 into small lots and loan them to the permanent industries that are now in the city employing men the year round. There are, no doubt, lots of them who would be glad to get a small loan, and if they did get it, they would be able to employ more men and increase their capacity. This is the real kind of building up that Chatham needs.

There is also another point in connection with this by-law that has not been given enough prominence, and that is that there are at present four Natural Gas companies looking for a franchise to pipe the city with natural gas. The gas will be used for light and power, and with gas for power, Chatham will have lots of desirable industries looking for location here. They will not be able to secure them in all probability if this by-law is passed.

The question remains with the electors to decide, and they will settle the matter one way or the other to-morrow. It is sincerely hoped that in the best interests of the city, that the scheme will be positively turned down.

DRAMATIC DEATH A GOOD OIL FIELD

Rather Than Face Disgrace Dr. Margaret Bell Takes Her Own Life. New Wells Are Being Continually Struck—Forty Wells Being Sunk.

Detroit, Mich., July 18. — Rather than be locked up and probably sent to prison on the charge of having caused the death of 19-year-old Mrs. Morningstar through an operation, Dr. Margaret Bell swallowed poison in her office when placed under arrest upon the ante mortem confession of Mrs. Morningstar. Her act was discovered immediately, and she was removed to a hospital, but all efforts to save her life were futile.

Dr. Bell was born in Ontario, and for several years taught school near Ridgetown. Fifteen years ago she came to this side and studied medicine. She graduated from a Chicago homeopathic college in 1904 and began practice in Detroit.

Her name had been coupled with several criminal practice cases here, but the authorities had before failed to secure sufficient evidence to warrant action.

KOGELSHATZ—FAIRBANKS

The wedding took place in Windsor yesterday of Frederick W. Kogelshatz, of Dayton, Ohio, and Miss Annie Fairbanks, of this city. Rev. Fr. Labadie officiated.

The groom formerly lived in this city, and the many Chatham friends of the contracting parties will extend congratulations.

FOR THE COLORED PEOPLE

In discussing the Intercolonial estimates in the House of Commons on Monday, Mr. Clements (West Kent) made an appeal on behalf of the colored citizens of Canada, of whom a large number lived in his county.

They were an industrious and law abiding class, he said. They were making progress in education, and several were members of the legal and medical professions, while others were school teachers. Many were well qualified for positions which were from time to time open in the train service of the Intercolonial Railway, and he hoped the Minister would give them consideration. Other Ministers, too, might give the colored people a chance in the public service.—Ridgetown Dominion.

Renewed For Four Years. Ottawa, July 19.—The contract for the Canada West Indian Co. steamship service has been renewed with Pickford & Black of Halifax for a period of four years.

Fatal Frollo. Montreal, July 19.—Elizabeth Waltz a chambermaid, was crushed to death in Sherbrooke flats elevator while skylarking with another employee.

Senator Vidal Better. Sarnia, July 19.—Senator Vidal, who has been seriously ill at his home here for some days, seemed somewhat better yesterday morning.

Shadows of Love Linger Even After the Substance Has Departed.

A GOOD OIL FIELD

New Wells Are Being Continually Struck—Forty Wells Being Sunk.

The development of the East Tilbury Oil and Gas field is proceeding at a rapid rate, although a slight scarcity of operators is holding back much of the work.

Two new wells were shot yesterday, and so far, out of a score of wells, not one has dropped below about 25 bbls. a day, and no dry holes have been struck. American capital is largely controlling the operations, although the Mackenzie-Mann Co., of Toronto, and the Norton and Church concern hold large interests for the Canadian side, while several individual Canadians are operating. Two Chatham syndicates are about to start work in the field.

The Egan well, on the property now to be worked by the Chatham Oil and Gas Syndicate, continues to pay a splendid oil and gas yield, and has already shown that it is situated in the heart of one of the best oil producing sections of the country. The other Chatham concern, which will operate leases held by P. D. McKellar and P. McNaughton, have been delayed by the late arrival of the drilling apparatus, but work is now being commenced. These leases are located in a direct line with the heaviest oil belt and prospects for several paying wells are bright.

Over \$90,000 a month is being spent on the field in drilling alone, nearly 40 more wells are being sunk and the actual value of the oil being obtained exceeds that of any other Canadian field.

A DESERVING CASE.

A few weeks ago a fire totally destroyed a house on Dufferin street and burnt out all but one room of the adjoining building.

Many people are commenting upon the fact that the residents of this house are still living in it, with their furniture in the one tenable room and the holes and cracks in the walls and ceiling stuffed with rags to keep out rain. They are colored people, in poor circumstances, and while their present state of distress continues they will be constantly suffering with discomforts.

As far as can be gathered nobody has interested himself in the case with philanthropic intentions but before long some of Chatham's benevolent citizens will, no doubt, interest themselves in relieving the family from their troubles.

A FREAK OF NATURE

Usually a freak of nature is more curious than pretty, but yesterday Thomas Dickinson, of Harvey street, brought a dahlia to this office which was both curious and beautiful. It had two perfect heads growing from the same stem, together they formed a complete ball. One was a rich red, the other was red striped with white. Mr. Dickinson showed it to McKenzie Ross Sons before bringing it to us, and they said in all their experience they had never seen a similar freak.

VOTE TAKEN TO-MORROW

Electrical Concern Should Fare Well at the Hands Of Ratepayers

AN ACCEPTABLE OFFER

To-morrow the electors of Chatham will be asked to vote upon a proposition to bring the International Electrical Company to this city. The proposition has now been before the ratepayers for some weeks, and the closest investigation has brought forth no reason why the by-law should not be carried. Once more the Planet gives the conditions of the agreement for the consideration of the electors, so that everyone may understand what they are voting for.

The City loans the Company the sum of \$20,000 to be repaid in twenty annual instalments with interest at three per cent. per annum. The Company receives exemption except from School Taxes and Local Improvements, and free water to the extent of 3,500 gallons per day for the first ten years.

The Company gives a first mortgage on Factory and Plant, which must be worth not less than \$30,000, and pays 3 per cent. interest on the loan.

The Factory and Plant must be worth not less than \$30,000, and give employment continuously to not less than 40 employees, exclusive of officials, and pay out yearly in wages not less than \$20,000.

The average yearly cost to the City of the interest in the loan will be \$157.50.

The cost to furnish free water should not exceed, and possibly be much less, than \$75.00.

Total—\$232.50. To offset this amount the City will receive in School Taxes on an assessment of \$20,000 the sum of \$150.00.

Net Cost—\$82.50. Four men moving into town to work for the Factory and assessed for \$1,000 will pay the entire cost to the City.

It will require two-thirds of all the votes of property owners in the City to carry this By-law, and we cannot afford to miss one vote in order to make sure, as many are out of town at this season, and a vote not cast is a vote against the By-law.

Every property owner can vote in each Ward in which he owns property. The following communications from reliable concerns give some idea of the value of the concerns:

Toronto, Jan. 7th, 1904. Wm. Gray & Sons Co., Chatham, Ont.:

Dear Sirs,—Replying to yours of Jan. 6th, we beg to advise that we have been using for the past three years eight slow speed motors made by the Electrical Construction Company, of London, and the machines have given us perfect satisfaction during that time.

NO "ROORBACKS"

In the literature which has been circulated by those who are working in the interests of the Beet Sugar By-law, the warning is given to look out for a "roorback" from those who are opposing the measure. If the insinuation contained in the warning is directed towards, or is in any way meant to apply to this journal, it is unjust and undesigned. Such unfair and degrading tactics are to be deplored in any election, and especially in such issues as the present one. The Planet is opposed to the passing of this by-law, but it always has been, and is still, opposed to the employment of such agencies as a "roorback" in contesting any election. This by-law has been fought upon its merits alone. We have nothing to hide, with the interests of the municipality to serve. Any opposition of a disgraceful nature, which may have been created by this journal, has been thrust upon us by the tactics instituted by those interested in the passing of the by-law. The Planet would go further and say that any "roorback" issued by either side in this question should be strongly condemned by every fair-minded ratepayer.

WHAT DO YOU EARN?

The oppressive heat with its accompanying depressing effects has evidently been felt by the Toronto World man and the following was evidently written to insure himself against becoming one of the class of men who get more than they earn.

"Mr. Man-Who-Works-For-a-Salary do you earn it? Many a man earns more than he gets, and likewise many a man earns less than he gets; then, of course, there is the man who earns just what he gets and no more. These are the three divisions in the field of salary-getters. To what class do you belong?"

"The man who watches the clock and disappears on the first stroke of twelve is a time-server and lacks the spirit that makes the faithful employee. The man who refuses to make an extra effort to finish a task that means money to his employer if finished early is not one whose heart is in his work, neither is his mind, but his hands may be. He is earning less than he gets. He is blocking the way of more efficient men and should get out. He is in the working tramp. He is destined to be an idler."

"You can work out the features of the other two classes at your leisure, but the point is that the true salary-getter works with his hands, his mind and his heart to do the task assigned him. It was a wise man who said in days of old, 'Whatever your hand findeth to do, do it with your might.' It is a universal and everlasting principle of fair dealing to yourself and to others. The man who skimps his task injures himself as well as his employer. Do with your might what you do, for if for some reason, real or imaginary, you work with tardy hands, with a preoccupied mind and a sickened heart, you cheat yourself. Is it wise to fool one's self?"

LAURIER'S QUEER POLITICS.

Under the above caption the Detroit Journal gives the following comment upon the administration of the affairs of the Dominion. The Journal man has evidently been following the course matters have been taking at Ottawa during the recent Parliament session:

"It is by just such things as the passing of the Lord's Day Act, that racial and religious antipathies are kept alive in Canada. The Presbyterians and Methodists of Ontario have all along kept 'blat' Sundays, and they have imposed them also upon the stranger within their gates by forbidding him to drop a line into a likely pool on the 'Sabbath,' and confiscating his gun if he dared to pull a trigger on that day. They wanted perfect rest on the Lord's Day, and while other people laughed at them no one thought of seriously interfering."

"In the Province of Quebec on the other hand, the people have been taught to attend strictly to their religious duties in the morning, and after dinner the day is regarded as a holiday. The people go in for all kinds of quiet amusements such as games or picnics or little excursions. In the evening there is generally a dance, especially in the country districts, and the young people gather to walk through the very formal square dances which alone are permissible to the French Canadian. The parish priest drops in to watch the young folks at their amusements and compliment the

Robt. Steel, resigning as pathmaster of Harwich, 125.

J. G. Kerr, re sidewalk for Erieau.

W. J. Mead, notifying that a number of bridges south of the Ridge required repairs and giving notice of claim of damages if any accident results.

W. J. Hamill, re fence on road allowance.

J. McMullin, request for part salary.

Addison Smith, requesting aid.

O. M. Association notice of annual J. H. Hughson, claiming \$50 damages.

Moved by Walters and Clark, that whereas R. Steel has made a request to Harwich Council to be released from the office of pathmaster, that his resignation be accepted, with the understanding that he returns his road-lis when completed.—Carried.

Moved by Corlett and Gerber, that the Clerk notify David Wilson to remove his fence off the road allowance between Cons. 2 and 3, W. C. R., as complaints have been made to this Council.—Carried.

Moved by Corlett and Corlett, that whereas a communication has been received from J. G. Kerr, Chatham, re the building of sidewalk at Erieau, resolved that the Com'r of Ward 3 be instructed to act with pathmaster of Erieau in repairing and building walk to the extent of the available funds of the statute labor account due that road division.—Carried.

Moved by Clark and Corlett, that notice having been given by W. J. Mead that certain bridges in the southern part of the township are out of repair, and whereas in the opinion of this Council these bridges are sufficiently strong for ordinary traffic, and whereas the Ontario Statutes provides that persons or parties owning or running traction engines on the Tp. roads shall carry plank for the protection of all wood bridges, resolved that all parties not carrying plank when running traction engines will be held responsible for any damage done to bridges through neglect to carry and use plank.—Carried.

Moved by Clark and Corlett, that notice having been given by J. H. Hughson to this Council to settle damages within ten days, resolved that this Council take no action.—Carried.

Moved by Clark and Corlett, that Addison Smith be instructed to sign the petition of Wm. Stenon and others to place the Baird D. & W. under the Drainage Act, the township being interested.—Carried.

Moved by Walters and Gerber, that the petition of W. Stenon and others concerning the Baird drain, be accepted by the Council and the Clerk be instructed to notify Messrs. Bell & McCubbin, Engineers, to make the necessary survey, plans and specifications on the same and report to this Council.—Carried.

Moved by McLarty and Councillor W. E. Galbraith, that whereas, waited on the Council in reference to a protest of 12 of Harwich's ratepayers assessed on Taff-Creek Drain, claiming assessment too high and offering to accept a reduction of \$125, the Reeve informed the deputation that the matter would be considered at the Court of Revision on the drain.

Moved by Corlett and Gerber, that the Clerk notify the pathmaster of Div. 14 the amount due said division from statute labor returns.—Carried.

Moved by Clark and Corlett, that the Clerk be instructed to notify the Township Solicitor to take the necessary steps to enforce the removal of all obstructions and encroachments upon the Township road at Erieau.—Carried.

Moved by Walters and Gerber, that the Clerk be instructed to notify the P. M. R. authorities that whereas a view is obstructed by coal sheds, and trains run too fast at the crossing on Colborne St., Chatham, thus endangering the lives of persons entering the city at this point, we request that they run their trains at a lower rate of speed at this crossing.—Carried.

Moved by Walters and Gerber, that whereas complaint has been made by Henry Hunter of stock running at large on Road Div. 125, that the Clerk notify Robt. Steel, Wm. Monagomery, Thos. Everett and S. Ashby to keep their stock off the road, they bring the parties complained against.—Carried.

Moved by Corlett and Gerber, that the Clerk notify J. W. Shackleton, C. E. Chatham, to survey the road allowance between Cons. 4 and 5, R. T., from lot 8 to 12 inclusive.—Carried.

Moved by Walters and Clark, that Samuel Ashby be appointed pathmaster for Div. 125, in place of Robt. Steel, resigned.—Carried.

Moved by Gerber and Clark, that Duncan McCoig be appointed pound-keeper in Ward 2.—Carried.

The treasurer, Jas. Leslie, presented his half-yearly expenditure statement.

The Council, as per resolution of last meeting of Court of Revision on the Hutchison drain, adjourned and

WOULD READJUST RATES.

Secretary Behan of C. M. B. A. Makes Suggestion Before the Royal Commission—The Actuarial Reports.

Toronto, July 18.—The insurance commission closed in Toronto for the holidays yesterday morning, after the Catholic Mutual Benefit Association of Kingston had been examined briefly by Messrs. Tilley and Geary. After a couple of days in Winnipeg, with the Great West Co., Judge McLavish will return to Ottawa for the summer and Mr. Kent will go down the St. Lawrence. Commissioner Langmuir will return to Toronto.

Michael Hackett, grand president of the C.M.B.A., was yesterday's witness. F. R. Latchford, K.C., appeared for the association. This association is not now in any way affiliated with the American order. It was incorporated in 1903. Besides the insurance, there is a sick benefit fund. The association makes twelve monthly levies, which is equivalent to twenty assessments. Levies are very frequent, bringing in large revenue. From 1894 to 1906, the total amount of lapsed insurance was \$7,113,000. Besides \$60,000 on deposit, there is a reserve of over two hundred thousand dollars. No money has been invested at all.

Actuarial Reports.
Mr. Tilley read the report of Actuary Landis, forwarded to the association in 1903, in which he claimed that the reserve should be over six million. To the commission, witness said that he thought the reserve was high enough for an assessment company. It might be altogether different in a regular insurance company.

Counsel then took up the matter of rates with the secretary, J. J. Behan. He believed that the association had reached the time to raise their rates so that proper reserve might be established. The present position of the society was safe enough, but he would change the system of grading in groups. This was not fair for the man who came in at 18, the assessment was too high, and for the man at 25, the assessment was too low. He would also change the age of entrance from the present age, 49 to 45.

Referring to Mr. Landis' report, Mr. Tilley asked the witness how the deficiency, which he had claimed could be made up, but Mr. Behan agreed with the former witness and said that in fraternal insurance there was no need for such immense reserve fund as long as the new members were coming in fast enough to pay death claims.

Readjustment of Rates.
He thought, however, that there would be great advantage to fraternal societies if there was a readjustment of rates, say from five to ten per cent. He would also favor making old members pay for the excessively low rate in the past. The membership of the association last year was 19,769.

Mr. Geary asked a few questions and Mr. Tilley answered to the commission that Mr. Fitzgerald was not ready to go under examination, but promised to try and get ready for the fall.

The commission then adjourned to meet in Winnipeg next Tuesday.

NO DIFFERENCE.

No distinction is made as to the kind of Piles that Dr. Leonard's Hem-Roid cures. Names Internal, External, Pile, Hemorrhoid, Stricture, etc., are simply names of the different stages through which every case will pass if it continues long enough.

Piles are caused by congestion or stagnation of blood in the lower bowel, and it takes an internal remedy to remove the cause.

Dr. Leonard's Hem-Roid is a tablet taken internally.

It is a permanent cure and no case of Piles has ever been found to fail to cure. Money back if it does. A guarantee with every package. Price \$1.00 at any drug store, or the Wilson-Fry Co., Limited, Niagara Falls, Ont.

Some men do the hardest kind of work trying to work others. Often the wildest colt turns out to be the most valuable horse.

BOOKBINDING

Orders for Bookbinding should be left at this office. It is surprising how nice a volume can be made of those magazines, even though they are somewhat soiled from much handling. "COVER" COATS.

Smart, but Simple, Made For Every-day Use.

"Cover" coat is the term which characterizes the new automobile, rain and traveling coats so generally in use this season and which are developed in a variety of materials, all of which possess those requisite dust resisting and rain repelling qualities so essential in garments of this class.

For both rain and automobile coats rubberized silk is a much favored material, which, as its name implies, protects from the elements, while in appearance it looks like silk, and some of the patterns are extremely chic. Then there is a fine English mohair which comes in plain, checked or striped weaves, which has the advantage of not only being stylish and smart, but repels the dust and dirt and shakes free of wrinkles after a long ride. On account of these good qualities it will in all probability be in demand during the summer.

In all of these garments, both for rainy day and traveling wear, the cut is extremely smart, making any one of them a desirable part of the wardrobe.

RAINPROOF MOTOR COAT.

robe. Occasionally there is some sort of trimming applied, and this is generally in a contrasting tone, which gives a touch of daintiness and lends an air to an otherwise severely plain garment.

Leather cuffs and collar in a contrasting color or shade are features of the motor coats, with large mottled buttons fastening in double breasted fashion from neck to hem. In nearly every case the motor coats button up close about the neck, which is finished with a small turnover collar, to be turned up in rough weather, while the rain and traveling models are cut with broad revers and smart coat collars.

In length the three-quarter model is well liked, owing to the fact that women have experienced considerable trouble in getting their skirts bedraggled when the hem of the long coat gets wet. It strikes the bottom of the skirt and soils it much more than a good drenching would.

One of the new features of the sleeves of automobile coats is that there has been provided a full inside cuff portion, which can be drawn snugly about the wrists with elastic and so prevent the arms from becoming chilled from the wind and protected from the dust.

How to Clean Straw Hats.

Almost any old hat, unless it is too disreputable in appearance, can be refurbished and made to do extra duty between seasons or on rainy days, thus saving the new one, besides occasionally affording a change in headgear.

Black straw hats, it is well known, can be blackened and much improved in appearance either with shoe blacking or with the blacking that is now made especially for hats and that may be obtained at most of the department stores.

A solution of oxalic acid applied with a stiff brush and a fresh ribbon or a bunch of flowers will do wonders for the old white straw hat.

For a black hat of fancy braid into which the dust seems to be hopelessly ground try the following method of cleaning: First pin it out flat on a board, using pins enough to hold it steady. Brush it thoroughly, then with a nailbrush rub on a solution of alcohol, water and a little ammonia and allow it to dry before taking it off the board. If after this treatment it is not a good color put on a coat of hat blacking.

A Mere Man's Observation.

A mere man closed his eyes and took in a fashionable thoroughfare the other afternoon with his sight. "You women may know the evolution of a fashion step by step and not be impressed as we are by it; all at once, as it were. Elbow sleeves are all the rage, I perceive. Even 'culling' ladies wear them, I observe, and dust their arms thickly with flour to improve their appearance. But do you know what the effect of this general short-sightedness is upon one man? As if every woman had suddenly left her washbowl to go gallivanting without rolling down her sleeves." And you will admit that it does.

To Clean a Lamp Chimney.

Hold over steam for a few minutes, then polish with a clean dry cloth. Chimneys done in this way are not so liable to break as when washed with water.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood, helps the kidneys and drives the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier full time you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free of charge. For the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the badge of honesty on every bottle wrapper, in the list of its ingredients. Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

Dr. Pierce's great thousand-page Illustrated Common Sense Medical Adviser will be sent from our office for one cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

TORONTO LIVE STOCK.

Toronto, July 17.—Receipts of live stock at the city market since Friday, as reported by the railways, were 56 car loads, composed of 753 cattle, 399 hogs, 997 sheep and lambs, with 230 calves.

Exporters.
Few shipping cattle were offered and the highest price reported was \$5 per cwt. for two loads having been sold by McDonald & Mayhew at that price. Prices ranged from \$4.00 to \$5.00 per cwt. Export bulls sold at \$3.50 to \$4.25 per cwt.

Butchers.
Best lots of butchers' cattle sold at \$4.50 to \$4.65, few bringing the latter price; trade was slow at \$4.00 to \$4.25; good steers, 800 to 1000 lbs., at \$4.25 to \$4.40; good steers, 800 to 1000 lbs., at \$3.90 to \$4.10; light stockers, \$3.25 to \$3.60; medium stockers, \$3 to \$3.25; common stockers, \$2.75 to \$3.

Milk Cows.
About 20 milk cows and springers were offered. The market for them was none too brisk. Prices ranged from \$30 to \$50 each.

Veal Calves.
The market for veal calves was not quite as brisk as usual. Prices for the bulk ranged from \$4 to \$6 per cwt.

There was a good demand for sheep and lambs at the following quotations: Export ewes at \$4 to \$4.25 per cwt.; export bucks at \$3.50 to \$4.00 per cwt.; lambs at \$7 to \$7.50 per cwt., or \$4 to \$6 each.

Hogs.
Deliveries of hogs were light. Mr. Harris reported prices unchanged at \$7.00 per cwt. for select and \$7.45 for lights and fats.

PARASOL MODES.

Beautiful Sunshades Made of Embroidered Silk and Linen.

Some of the later developments in parasols are especially worthy of note and serve in a rather fresh way to illustrate the tendency toward embroidery that has so often been mentioned in connection with other things. White is a pronounced favorite for these accessories of dress as it is for the gowns, and a great many beautiful white parasols are being shown, both in linen and in silk. Among the latest of these are some sent over from Japan, which are made of oriental silk embroidered in that exquisite shadow effect that the Japanese understand so well and are lined with very thin plain silk, the edges being finished with full puffs that are very dainty and graceful.

With all of these handles of many sorts are to be seen. There are the plain ones of white enamel and there are those of light colored wood, but

LINEN PARASOLS.

novely is found in those that accompany the Japanese silk and that are made of ivory or bone carved as only the oriental has the patience to carve in intricate and beautifully executed designs. Plainer, simpler parasols are to be found in the rough finished pones that are such favorites, and many of the later ones are shown in the natural color with narrow borders of oriental embroidery, which give them a distinctive touch while in no way interfering with their general usefulness.

First of this group of parasols is of white embroidered linen.

Second is of pale blue linen with band of white and embroidered white dots.

The third is of thin white silk, with band of point de venise and tiny ruffles of the same about the edge. There are also inserted medallions, each of which has a tiny ruffle of the lace about the edge.

For Tapering Fingers.

Frenchwomen have always taken great pride in tapering finger tips, and to this is probably due the invention of little devices for training them in the way they should go. They are little things, like steel thimbles, and are lined with soft felt. There are different sizes for the various fingers, and these are adjusted by pressing them to the desired size.

The pressure should not be hard enough to cause any discomfort. Of course results are not at once visible, but by continually wearing these little devices at night and as often during the day as convenient even very thick finger ends may be trained into a much more tapering effect.

How to Tie Shoe Laces.

The following is a good hint for tying shoe laces so that they shall not come loose: Proceed in exactly the same way as if you were tying an ordinary bow, but pass the right hand loop through the knot before drawing it up and give a steady pull on both loops. It should be remembered, however, when untying that the right hand string must be pulled, for if the other is pulled it will only tighten the knot.

Ancient Recipe For a Sweet Fortune.

Take storax, calamite and benjamin of each half an ounce, labdanum one ounce, musk two grains, and put them together in a fair brass mortar, which you must first warm so hot in the fire that with the heat thereof and beating with a little pestle it may work like wax, which, being thoroughly wrought, you may make it in little cakes or balls and so lay it up.

heat for all the time needed. A housekeeper will find that she need have no fear of food getting cold if she owns one of these.

Sore Lungs

We want everybody who has a hard cold in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells us there is nothing else equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and weak lungs. Doctors tell us the same thing. Ask your doctor about it.

Yesterday afternoon, just as the 3.30 C. P. R. train was approaching the Queen street crossing, the five-year-old daughter of Mr. Forbes, Queen street, walked on the track in front of the train. The gatekeeper had put the gates down and called to the girl to go back, but she disregarded his warning and it was only by a mere chance that she was able to jump across the track and escape her.

At a meeting held last evening the following were appointed as society representatives to the official board of Park street church: J. H. Bogart, E. C. Gammage, W. E. Smith, A. D. Westman, W. E. Gundy, A. Wemp and E. W. Jennings.

A cheque for fifty dollars drawn by the Fruit Growers Association was lost last night. As payment has been stopped the cheque is worthless, and the finder will confer a favor by sending it to the parties in whose favor it was drawn.

To-morrow evening at seven o'clock the Chatham Tecumsehs and the Wallaceburg lacrosse teams will do battle on Tecumseh Park. The local team had a good workout last evening, and The Planet has been assured by some of the management of the team that Walter Elliott, the star defense, will be seen on the line-up to-morrow night. Walter is getting into shape for the big game with St. Thomas. An effort is being made to secure a half holiday on the occasion of St. Thomas playing here. A good game is expected on the Park Saturday during the Pere Marquette picnic.

THE CHATHAM JAIL CASE

Toronto, July 18.—The provincial inspector of prisons and charities, Dr. Bruce Smith, in making his annual tour of inspection through Western Ontario this month will probably, among other things, investigate the circumstances surrounding the death of Jos. Myers in Chatham jail some time ago, who was reported to have died of starvation. The complaint of neglect against Dr. C. R. Charters will also be investigated.

OVER THE CHUTES

Loss Control of Boat and Shoot the Natural Chutes Unhurt.

Brookville, July 19.—Carried over a dam with a fall of ten feet, and hurled among rocks, was the unpleasant experience of two Merrickville women, Mrs. Haskins and Mrs. Churchill. They were enjoying a row on the Rideau in company with Mrs. Haskins' little son, Bert. They lost control of their boat by losing an oar and the skiff was carried over the dam.

The lad managed to grasp a pier in passing down the stream and held to it long enough to be jerked out. Then he scrambled out in time to see his mother and Mrs. Churchill go over the dam.

The former jumped out in making the descent and was miraculously landed on a boulder 50 feet from the waterfall, where she was rescued. The other woman clung to the skiff, which did not capsize and she, too, was taken ashore safely.

The ladies have since been under the care of a physician, but are progressing nicely towards recovery.

THE GRAND LODGE

Over a Thousand Delegates Attending the Sessions in Toronto.

Toronto, July 19.—A thousand or more members of the Grand Lodge of Canada A. F. and A. M. were in attendance at the fifty-first annual communication at Massey Hall, yesterday morning. Ald J. J. Graham, chairman of the civic reception committee, extended a welcome to the delegates and Bro. A. E. Hagerman, W. T. A. of St. Andrew's Lodge read an address from the city lodges to the grand master.

The grand master reviewed the work of the past year. The craft was in a healthy condition, the membership was increasing and the income (\$24,377) was \$1,800 greater than last year. The total membership was now over 37,000, an increase of 3,000.

He made reference to the deaths of R. T. Walkem, K. C., Senator Fulford, Walter Barwick, K. C., and the grand lodge of Canada had contributed \$1,000 to the masons in "Frisco," at the time of the disaster.

The report of the grand secretary of Hamilton showed that up to July 1st, \$30,389 had been collected for the semi-centennial fund. During the year \$4,694 was received from certificates, \$16,768 from dues, \$5,210 from fees and \$4,280 in the bank.

Most Worshipful Bro. Col. A. A. Stevenson was presented with a gold medal on the anniversary of his fifth year as a mason, thirty-eight of which was in connection with the grand lodge of Canada. Senator Kerr read the address.

At the afternoon session, Aubrey White, chairman of the committee on the condition of Masonry, urged the necessity for the selection of God-fearing and forceful men for the position of district deputies. The amount distributed by the grand lodge in benevolence during the year amounted to \$38,000, and the work was being extended.

The auditors' report shows total receipts of \$34,377 and expenditures in excess of all receipts of about \$4,000. The grand lodge held securities amounting to \$110,000.

The inspector of benevolence grants was allowed a yearly stipend of \$750.

TROUBLES OF SAN SALVADOR

A Central Americans Fight Fierce Battle But No One Is Killed

WAR GOES MERRILLY ON

San Salvador, July 17.—(Delayed in transmission.)—Shortly before the armistice was agreed to, over 10,000 Guatemalan soldiers made a desperate attack on the Salvadoran positions, by way of Metapan. The Guatemalan artillery, stationed on high plains fronting the Salvadoran positions, cannonaded the latter unceasingly, though the bad quality of the shells and the poor aim of the artillerymen resulted in the Salvadoran forces escaping without many casualties.

At about 3 p. m., in the midst of a torrential rain, the Guatemalans increased all along the line, and the Guatemalan infantry attacked the Salvadorans in close columns, endeavoring to dislodge them from the positions held by Gen. Torero and Col. Hernandez Artega. The battle lasted ten hours, and eventually resulted in a triumph for the Salvadoran army.

Patriotic Spirit.
Never in the history of any country has there been such a patriotic spirit shown as in Salvador at the present time. Rich and poor are serving alike, as was shown in the engagement yesterday. In one of the engagements, Adelberto Guirola, son of the millionaire, Angel Guirola, lost his life. He was a graduate of West Point, and when the war broke out enlisted with thousands of his countrymen. He was about 30 years of age, and worth half a million dollars in his own right. This is not the only case of rich men enlisting. There are members of almost every rich family in Salvador now at the front.

Peace Commissioners.
The peace commissioners of Salvador are Dr. J. R. Pacus and Senor Gallegas. They will go on board the U. S. cruiser "Marblehead," to-morrow, with the commissioners of Honduras, and proceed to San Jose, Guatemala, where the other commissioners will be taken on board, and the party will put to sea and draw up and sign the treaty of peace.

Armistice in Effect.
Washington, July 19.—The armistice between the warring Central American Republics went into effect at 6 o'clock yesterday morning. Mr. Munoz, the Guatemalan Minister, called at the State Department yesterday and announced that he had been advised by his Government of the selection of three commissioners and a secretary to represent Guatemala at the peace conference. They will go to San Jose, Guatemala, in time to board the "Marblehead," which is expected to reach there to-day.

DR. LOUDON'S RETIREMENT.

Board of Governors Fix His Allowance at \$5,600 Per Annum.

Toronto, July 19.—At a meeting of the board of governors of the university, the annual retiring allowance for Dr. Loudon, ex-president, was fixed at \$5,600, the amount of salary he has been receiving.

In the matter of securing a successor, it was stated that the special committee appointed will correspond with leading educationalists in Britain and in America, for information and advice as to the choice of a man.

Lady Curzon is Dead.
London, July 19.—Lady Curzon, wife of the former Viceroy of India, who had been ill for some days, died at 5.40 p. m. last evening. She never quite recovered from her serious illness at Walmer Castle, Kent, in 1904, and the recent hot weather brought on a pronounced attack of general debility, which was formerly Miss Mary Lett, daughter of the late Levi Z. Lett of Chicago.

Alberta Penitentiary Officials.
Ottawa, July 19.—The officials of the Alberta Penitentiary have been appointed as follows: Warden, M. McCauley of Fort Vermilion; deputy warden, R. H. Steadman of Penetanguishene; accountant, J. J. Cashman of Orillia; surgeon, Dr. Forin of Edmonton. Mr. Steadman was formerly deputy warden of the Penetanguishene Reformatory.

Telephones and Express.
Ottawa, July 19.—The work of plugging telephone and express business on the Railway Commission has commenced. Already a considerable number of requests for ratification of express rates are in the secretary's hands, while hundreds of applications for telephone connections are in, and thousands will soon be filed.

Marriage Was Valid.
Sherbrooke, Que., July 19.—Tuesday afternoon a divorce case came to two years in the penitentiary for bigamy. He claimed leniency, as he thought his first marriage in Lawrence, Mass., was no good, having been performed by a Protestant clergyman, while he was a Catholic.

Harvesters From England.
London, July 19.—(C. A. P.)—To meet the great shortage of harvest hands in the west, the C. P. R. announce a rate of \$4 from Liverpool to destination between August 1 and August 22. After working a month the harvesters are entitled to return for the same, not later than November 2.

Grain Commission.
Ottawa, July 19.—The commission for which \$10,000 was voted last session to enquire into the inspection and grading of wheat, is as follows: G. E. Goldie, Ontario; L. McNair, Manitoba, and John Miller, Saskatchewan. The secretary is J. R. Boyle, Alberta.

Congratulate Dreyfus.
Brussels, July 19.—The entire Liberal left in the Chamber of Deputies has united in a significant telegram to Major Dreyfus, felicitating him on the triumph of truth over intrigue.

LETTERS

PROPHETIC.

To the Editor of The Planet:
It becomes clear that "Ratepayer," in his letter yesterday, laid bare the intentions of the Beet Sugar Company, when he stated, "Is it not possible that another Council may be found equally pliable. In fact, how much of the \$13,800 donated by the city would be required at the next municipal elections to return a council ready to carry out the will of the Keystone Company?"

Compare this with the following paragraph taken from the leaflet circulated by the promoters of the Beet Sugar Ex-Lava:
"The Council of next year will have to decide whether or not all conditions have been fulfilled before any money is loaned."
Should the by-law, carry we will probably have the assistance of gentlemen from Toronto to aid us in making a wise selection, i. e., wise from their point of interest.

It Pays To Trade at Austin's

We generally have what you want even if we don't have it advertised, and you will find the prices right.

It pays to build more factories to build up our city.

It pays to vote for by-laws to build more factories.

It pays to live in a city with some GO in it.

Don't be a knocker.

Don't pay attention to the man who will use the sacred scriptures to make a parody on a man's name.

Don't take stock in what a man says who has not the courage to sign his name to what he says.

David Gordon says he has more faith in the sugar beet industry since his trip to Europe than before.

Be a D. A. Gordon and help build up your own city.

Don't let six cents a year stop you from bringing a big factory to the city.

Figure out what it will cost you at six cents on a thousand assessment. If you can afford to pay it, vote for the by-laws.

Remember, Austin's Midsummer Sale is providing many bargains for the prudent shopper.

Don't let Wallaceburg have all the advantages that are bound to come from the sugar industry.

Don't be a calamity, John. Look on the bright side and vote for the By-laws.

Don't pay attention to the wild statements issued at the last moment that are misleading, and which the author is ashamed to sign his name to.

Don't worry about the dividends from the industry. Let the men who put up \$400,000.00 (Four Hundred Thousand Dollars) lie awake about that part.

Don't forget that Austin's are giving snaps in the Furniture Department.

Don't forget that Austin's Clothing is the kind that wears best and costs the least money.

Don't shirk your duty. Come out and vote for the By-laws.

Do get out early and vote for both By-laws.

Do get your neighbour to do the same.

Vote for progress and prosperity July 20th.

Some citizens have been inquiring when the Regiment Band are going to play on the Park. For their information it might be stated that the City Council has not yet considered the matter, though it was expected that it would come up at the last meeting. The matter will be brought to their attention again next meeting.

The managers of the Central school have applied to the City Council, asking that body to secure a few locks of gravel from the Park. This gravel will be used on the grounds, which are at present in very bad shape during the rainy seasons. Tenders are being asked for the removal of some wood now at the Central school for McKeeough school, Central school having no further need for wood, as its heating is supplied by the Chatham Steam Heating Co. REVOLUTION IN BRAZIL.

Insurgents Reported to Have Captured Several Cities.

London, July 18.—The Leader's correspondent at Lisbon says that according to intelligence received there the insurrection in Matto Grosso, Brazil, is swelling to huge proportions. The insurgents, it is reported, have organized a large army and are marching on Rio Janeiro and already have captured several cities. Gen. Ribeiro with 40,000 federal troops, has been sent against the revolutionaries. Fearful carnage is reported, and the killed are said to be already more than 4,000.

THOSE ANNOYING BLACKHEADS.

External applications will never remove pimples or blackheads. Only by stimulating circulation and purifying the blood can it be done. For quick, sure release from these pests use Ferrerozone; it drives all humors out of the system. With the pure nutritious blood made by Ferrerozone it's impossible to suffer from any skin disease. You'll have a smooth, delightful skin, healthy color and beautiful complexion by using Ferrerozone—and you'll feel immensely better as well. Fifty cents buys a box containing fifty chocolate coated tablets at any drug store.

A Picture of Tenacity.

A writer who once saw Lord Tennyson on the platform of a railway station says of him: "He would have been tall, but his shoulders seemed some what bent. His hair was long; so was his beard. He wore an ugly inexpressible cape and a large slouch hat. He looked like a bandit in a melodrama, and I thought him some poor actor who had come out in some of the stage properties. He seemed so sad I felt quite sorry for him as I watched him walk up and down the platform."

WHAT CAUSES SNORING.

When asleep, people that snore breathe through the mouth instead of the nostrils, which are choked with catarrh. Just use Catarrh-zone before retiring and you'll quickly cure the snoring habit. By destroying the cause of catarrh and healing the membranes, Catarrh-zone makes a complete cure in every case; it cleans the nostrils, stops the discharge and prevents drooping in the throat in a few minutes. Nothing so pleasant or certain to cure snoring, catarrh or colds as Catarrh-zone—that's worth remembering.

Little Willie's Surprise.

Mr. and Mrs. Blank recently moved from the city to the suburbs. The first night in their new home their five-year-old son climbed into bed as soon as he was undressed.

Digby, N. S. Minard's Liniment Co., Limited.

Gentlemen,—Last August my horse was badly cut in eleven places by a barbed wire fence. Three of the cuts—small ones—healed soon, but the others became foul and rotten, and though I tried many kinds of medicine they had no beneficial result. At last a doctor advised me to use MINARD'S LINIMENT and in four weeks' time every sore was healed and the hair has grown over each one in fine condition. The Liniment is certainly wonderful in its workings.

APPLYING THE TORCH

Death and Destruction Spread Throughout Russia.

Peasants Wantonly Firing Estates of the Crown and Private Forests—300 Houses Burned Down at Natchatkin, and Several Persons Killed at as Many Different Places—Emperor Signs First Law Enacted.

St. Petersburg, July 18.—The Twentieth Century, formerly The Russ, yesterday claims that the report submitted by the commission of the general staff on the investigation of the fire at Natchatkin, a clerk in Carnegie's Steel Works, drink was his vice.

HOW TO CURE TOOTHACHE.

Any aching tooth can be relieved instantly with Nervilleine. Fill the cavity and rub the gums with Nervilleine also. If the face is swollen and sore bathe the painful parts with Nervilleine and cover with a flannel. This can't fail because Nervilleine kills the pain outright and prevents it from returning. Stronger, quicker, more satisfactory than any other liniment, Nervilleine has been the largest seller for nearly fifty years; try it yourself.

Husband a Bigamist.

Detroit, July 18.—A woman who says she is Mrs. Theodore Marcey of Hamilton, Ont., where she was born and lived until her marriage in June, 1902, to Marcey, yesterday swore out a warrant charging him with bigamy. She says Marcey disappeared after their marriage, and she recently found that he had married a Detroit woman and was living here.

Kingston, July 18.—A body unrecognizable from decomposition was found in Big Creek, South Fredericksburg. It is thought to have been an Irish emigrant.

THOUSANDS DIE OF CONSTIPATION.

No condition causes so many incurable diseases as constipation. It not only prevents the kidneys from eliminating the poisonous wastes, but causes anemia, stomach trouble and indigestion. Why won't you use Dr. Hamilton's Pills and get cured? This excellent medicine restores normal bowel action in one night. Thousands of men, women and children will be pure and clean, you'll be free from headaches, no more sour stomach—in short you'll have jovial spirits and perfect good health. Dr. Hamilton's Pills are sold everywhere, 25c. a box. Get the genuine.

The Law's Delay.

Montreal, July 18.—Martin Canton of East Syracuse, N. Y., under arrest here, charged with stealing \$8,000 from the village, announces his willingness to return without extradition proceedings, but will have to await the prescribed fifteen days, as provided by law.

Will Save the Novik.

Tokio, July 18.—The Japanese have refuted the Russian cruiser Novik, which they sank near Krasnovsk, Island of Saghalien in August, 1904. The Novik was one of Russia's fastest cruisers.

WOMEN WHO WEAR WELL.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. Freshness, the charm, the brilliance which is the bloom from a peach which is rarely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well.

Mental and moral activity keeps time of asking to aid in the movement, body healthy, strong and young, preserves from decay and renews life.

Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Sumner, Box 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urinate difficulties by day or night.

Drink Was His Vice.

Kingston, July 17.—George Snider, aged 36, spending a fortnight at Batavia, a fishing resort, cut his throat from ear to ear on Sunday morning, and died in an hour. He was from Pittsburgh, Pa., a clerk in Carnegie's Steel Works. Drink was his vice.

Who Was Fooled?

By MABEL MICHAELS

Copyright, 1906, by Homer Sprague

Billy Parker grinned joyously. It would be such a good joke on Miss Allen to send the letter. Here Hugh had been in the Philippines for two years. What would she think when she received a local letter in the well remembered handwriting?

In his mind's eye he could see her eagerly tearing open the letter in the postoffice. He would be outside to yell "April fool!" Miss Allen always stopped for her mail on her way to school. There could be no possible chance of a slip up if he mailed the letter Sunday.

He had been looking in Hugh's desk for some fish hooks when he had run across the envelope, carefully tucked away in the bottom of the drawer. There had been a time when he had carried a lot of the selfsame sort of letters to the teacher, but that had been before Hugh began to talk about the Philippines as a place for young men to grow up with the country.

All day Sunday Billy grinned over his anticipated joke, and Monday morning he entirely ignored the flannel cakes that he might be certain to be at the postoffice in time and went off leaving his mother greatly concerned over his falling appetite. Usually Billy preferred flannel cakes to promptness at school.

He had not long to wait, for presently Nita Allen came briskly along and entered the postoffice. As she turned away Billy noted that she held in her hand only a long blue envelope and a newspaper. He thought regretfully of the flannel cakes as he realized that his April fool had miscarried and turned and followed Miss Allen down the street.

There were the usual pranks played in the school yard, but Billy, always the leader in all mischief, stood apart and wondered. He was certain that he had stamped the letter properly, and anyway Mr. Meade would have given the letter to her and collected the money had the stamp fallen off. It was something he could not understand, though he puzzled his brain until the last bell rang, and he slipped into his seat just in time.

Some one must have been playing jokes on the teacher, for her eyes snapped and about her mouth there played a smile that made Billy want to

ask her. "What can you think of me?" she said, with glistering eyes. "If I told you," he said sincerely, "I should make a scandal by hugging you right here on the street. I think you are the dearest little woman in the world. I never had hoped to learn my answer so quickly."

"You have Billy to thank for that," she laughed.

"I don't know whether to thank or thank him," he smiled. "Perhaps it would be better to do both in that order."

"Hugh," mused Billy a few hours later as he lovingly fingered a gold piece. "Hugh says that I'm the April fool. I don't think so. He's in the front parlor acting more like a fool than I am. I wouldn't just sit kissin' a girl like that. I'd go up to the postoffice and show off before the fellers if I'd just come home."

Catching Your Shadow.

"You go out," said the Malay lady, "on the night before the full moon and stand with your back to the moon and your face to an ant hill, so that your shadow falls on the ant hill. Then you recite certain jampi (incantations) and, bending forward, try to embrace your shadow. If you fall try again several times, repeating more incantations. If not successful go the next night and make a further effort and the night after if necessary—three nights in all. If you cannot then catch your shadow wait till the same day in the following month and renew the attempt. Sooner or later you will succeed, and as you stand there in the brilliance of the moonlight you will see that you have drawn your shadow into yourself, and your body will never again cast a shade. Go home, and in the night, whether sleeping or waking, the form of a child will appear before you and put out its tongue. That child, and it will remain, while the rest of the child disappears. In a little while the tongue will turn into something that breathes—a small animal, reptile or insect—and when you see that the creature has life put it in a bottle, and the pest is yours."—Sweet-tanham's "Malay Sketches."

Benton Was Homely.

Some years ago there sat in the house of representatives as member from Missouri a gentleman named Benton. According to the congressman who tells the story, Mr. Benton was known as "the shrewdest and homeliest man that the state possessed at that time." In his early days at the bar Mr. Benton had, it is said, gone to Texas for the purpose of prosecuting a land claim. He lost the suit, but was so fortunate as to win an extremely handsome Texas girl, who accompanied him to his Missouri home. At St. Joseph the couple were met by a certain General Mitchell, a very plain spoken politician, to whom Mr. Benton introduced his bride. The old fellow looked very much surprised. He stared at Benton and beamed on the pretty bride. Finally, he could repress himself no longer, so he blurted out:

"Mrs. Benton, ain't there any men in Texas?"—American Spectator.

Education in Afghanistan.
Lahore, Punjab, British India, July 18.—The Amir of Afghanistan has issued a notable pronouncement on the subject of education in his dominion.

He says education is retrogressing, but the fault does not rest with the teachers, but with the Government officials, who discourage education, dreading its leveling tendencies. The Amir warns the high-born officials that they must either change their attitude in this connection, or be changed. Henceforth, he says, education will be the sole path to state service.

Came to Sudden Stop.
Halifax, July 19.—The trial of the election petition against Messrs. Roche and Carney came to an abrupt ending yesterday afternoon, when the judges announced that they had no jurisdiction to try the case.

Cold Storage for Fruit.
Ottawa, July 19.—The Department of Agriculture proposes to extend its cold storage car service from dairy products to fruit.

RUSSIA IN A FERMENT

No Crisis To Tribulations is
Yet in Sight—More
Dark Plotting

PEASANTS ARE RISING

St. Petersburg, July 19.—The political barometer is again falling. The confusion which seems to have taken possession of the upper spheres since the efforts to form a coalition Ministry failed, coupled with the alarming reports from the interior and the attitude of Parliament, make almost anything possible. There has been a marked renewal of apprehension that the crisis may end in a coup d'état against Parliament.

Big Plot to Kill.
The assassinations of Vice-Admiral Chouknin and Gen. Kozloff, the discovery that behind the murder of the general was a big plot to kill not only General Trepoft, but Prince Putailin and other courtiers, and the general edict of assassination, which has terrorized not only the local authorities, but even the police, together with the wild destruction of property by the peasantry in half a dozen provinces during the last few days, have again strengthened the small party of the court which believes in resorting to "extreme measures."

Lever to Move Czar.
The adoption by the lower House of Parliament of an address to the country will, it is feared, place in the hands of the reactionists the needed lever to move His Majesty. M. Petrajitski vainly warned the lower House Tuesday of the seriousness of the proposed step, but the majority of the Constitutional Democrats, of which party he is a prominent member, seem to be convinced that they must hold the peasants at all hazards. The members of the extreme left seemed to court a fight, preaching open revolution from the rostrum. The Novoe Vremya, which often reflects the views of the court, says yesterday that the adoption by the lower House of an address to the country would go beyond the jurisdiction of Parliament, and virtually constitute an appeal from the Government to the people.

Would Cross the Rubicon.
The paper which advocates the adoption of Parliament would cross the Rubicon, abandon its professed policy of trying to restrain the country, and instead of pacifying it, deliberately pour oil on the flames.

Despatches from the interior continue to tell without interruption stories of the burning of manor houses, robberies, murders, collisions between peasants and rural guards, and the hurried despatch of troops here and there. The centre of the peasants' uprising in their mania for the destruction of property do not discriminate between friends and enemies, as evidenced by the complete devastation of the estate of M. Kokoshkine, one of the most prominent Constitutional Democrats in the lower House.

Rising Everywhere.
The whole of the Province of Veronesse, by the way, is in a ferment, arising from the agrarian movement. The peasants are rising everywhere and burning estates. In Bobrovsk district more than 20 estates have been burned and 300 head of cattle killed or carried off. In this vicinity 15 estates have been destroyed. Troops have been sent to the disturbed districts.

The Situation "Hopeless."
Yesterday's reports describe the situation in that province as "hopeless," from the standpoint of the landlords. The situation is almost as bad in Poltava and Simbirsk provinces. In Krasnov Province, eighty peasants are reported to have been killed or wounded by dragoons.

Warned Colonel Flees.
It is reported that some of the soldiers of the Semenovskiy Guard Regiment have served notice on their commander, Col. Minn, that they intend to kill him at the first opportunity for forcing them to murder their fellow-citizens during the Moscow revolt, and that Minn, in fear of his life, fled from the camp at Krasnoyevsk.

To Intervene.
Paris, July 19.—The Journal yesterday says it is in a position to inform that in the course of the recent interview at Schoenbrunn Palace, near Vienna, between the Emperor of Austria-Hungary and the German Emperor, the two Emperors deliberated on the means to be taken in case of the outbreak of a revolution in Russia. Emperor Nicholas being advised of the general nature of the deliberations. It was decided in principle, the paper adds, that Germany and Austria will intervene in the Russian Empire with armed forces in case the Russian Emperor should be unable to maintain the control of Poland, the three Emperors therefore acting in concert for the maintenance of the status quo of their respective Polish possessions.

Condemnation of the Czar.
London, July 19.—The Socialist and Labor Interparliamentary committee yesterday heard M. Inklin, leader of the Group of Toll in the lower House of the Russian Parliament, and delegate of that body to the meeting of the committee, who spoke on the subject of Russian labor and its demands. He contended that the present Russian Parliament did not represent the people and could not do so until universal suffrage was granted. He moved a resolution, calling on all civilized countries to protest against the crimes "committed by the Government of the Russian Emperor." It was carried unanimously.

Came to Sudden Stop.
Halifax, July 19.—The trial of the election petition against Messrs. Roche and Carney came to an abrupt ending yesterday afternoon, when the judges announced that they had no jurisdiction to try the case.

Cold Storage for Fruit.
Ottawa, July 19.—The Department of Agriculture proposes to extend its cold storage car service from dairy products to fruit.

LETTERS

THAT G. T. R. PETITION.

Editor Planet:
This petition following after so many similar attempts looks to me like a combination of grand opera, comedy and tragedy, as follows:

Head office in Canada of G. T. R. Dramatic personal — President, Vice-President, Manager, General Ticket Agent, and others.

Enter President, just returned from England—Good morning, gentlemen! All—Good morning, Mr. President; hope you are well and had a pleasant trip.

President—Anything special, accidents or damages?

Manager—Nothing out of the ordinary.

President—Traffic increasing or decreasing?

Manager—Slight increase in freight last month.

General Ticket Agent—Passengers normal, but expect increase this month.

President—How so? What is going on?

General Ticket Agent—Expect deputation with petition from Chatham.

President—Ha, ha, ha! What about hog pens?

Manager—Party, but mostly radical road crossing.

President—What road is it?

Manager—Chatham and Wallaceburg want a level crossing to go to Lake Erie.

President—Hum; what has been done?

Vice-President—In reply to their request we explained the danger of level crossings, but intimated that they might go under, or fly over our trucks at their own expense.

President—Very good. I suppose you reminded them of our vested rights.

Vice-President—Of course, we always endeavor to carry out your instructions, and make that the ground work of our objections.

President—The expression looks imposing to the public. What is the city doing?

Vice-President—They had a mass meeting, I believe about a hundred attended; they decided to send a petition to us.

President—I see; of course there will be a deputation of prominent citizens with it.

Vice-President—Oh, undoubtedly, it means an outing at the expense of the taxpayer.

President—This prominent citizen business is a great institution; it gives us lots of time. If it were not for the supposed injury we are doing them there would never be any mass meetings, and consequently no one would ever know who were the prominent citizens.

All—Ha, ha, ha, ha.

Manager—And for that reason it is not likely they want these matters closed up, as these men would never be heard of again.

President—Ha, ha. It looks like it. How many years is it since they started at us on that hog pen affair?

Vice-President—Some 15 or 20 years, I think.

President—Anything on regarding them now?

Vice-President—Oh yes. The annual charges and threats.

President—Ha, ha. Threatened people and corporations live long. Anything new this year, or have they become acclimatized to the flavor of the pens?

Vice-President—Nothing new from Chatham, but we have been thinking of making some claims against that city.

President—Claims! What about?

Vice-President—Well, you see, the atmosphere becomes thoroughly impregnated with the hog pen flavor, and when the dew falls this is brought to the ground, thus enriching the soil and increasing the crop of vegetables, etc., for which we think we should receive some remuneration.

President—Hum, ha, ha, ha. Capital ideas, that will mean another deputation.

Enter Clerk—Beg pardon, gentlemen, there is a number of gentlemen from Chatham in the ante-room.

Pres.—Ah, as expected; do you know any of them?

Clerk—Oh, yes, sir; all but two that have not been here before; they are Messrs. and the two strangers.

Pres.—New blood to be initiated so the deputations won't die out. Ha, ha!

Show them in. I am away. (Exit.)

Enter deputation.
Vice-Pres.—With extended hands—Gentlemen, we are always delighted to meet the enterprising citizens of Chatham—shakes hands all round—Your city always class as one of our best customers, and to show our appreciation of your people we are having plans prepared for a very fine station there, which will be up-to-date in every particular.

Mr. —, for the deputation.—We are equally pleased to meet the officials of the G. T. R. (Manager, to himself—free trip). We have called today with this very largely signed petition, the purpose of which, as you will see, is that it will be a great detriment to Chatham if the Radial road is not permitted a level crossing of the G. T. R. tracks, and we hope that we will receive a favorable reply at your earliest convenience.

Vice-Pres.—We appreciate your position. Of course, you are aware that all important matters connected with the R. are under the exclusive jurisdiction of our highest officials. Our solicitor is now away on his vacation, and we received word from the Pres. some days ago that he expected to leave England shortly. After these officers and the rest of the deputation meet we hope to transmit you some answer exactly defining our position. In the meantime, gentlemen, I will expect you to meet me at dinner at Hotel — at 6 p. m. I.

Mr. —.—While thanking you for your kind invitation, which we accept, we regret that we cannot

STRAW HATS AT HALF-PRICE

Commencing Wednesday Morning we will Sell any Straw Hat in the Store at Half the Marked Price. Now is the time for a man whose hat is faded and sun-burnt, or for the man who has been putting off buying his Summer Straw until the reductions were on.

This is what it means:—

\$1.00 Straw Hats for **50c**
\$1.50 Straw Hats for **75c**
\$2.00 Straw Hats for **\$1.00**
\$3.00 Straw Hats for **\$2.00**
\$5.00 Straw Hats for **\$2.50**

Come while your size is here.

Plenty of Hats at Present.

THORNTON & DOUGLAS,

...LIMITED...

carry his kith with us a more definite answer, but, of course, we fully understand your position, as we know these matters must be settled by your full directorate Executive deputation.

Re-enter Pres.—Well, what is the outcome of the visit?

Vice-Pres.—Gives details of meeting.

Pres.—Excellently managed. We must always remember our exact relation to the public, but must never let the public realize what their position should be in relation to us. The Government of the country grants incorporation as a city to many thousands of inhabitants, and also grants incorporation as a company to a few capitalists. But the difference in the wording of the document is such that these thousands of the city are compelled to send a petition, in other words a prayer, to the company of capitalists asking as a favor that which a Free People, with an untrammelled Government, would demand as a right. The ground on which the people should stand is—Petition for a Favor, but Demand a Right. But our duty to our company is never to let the people realize this. Exit.
