OPENING OF THE FREE CHURCH COLLEGE.—The Session of 1867 of the Free College, Halifax, was inaugurated on last Monday evening by Professor Lyall lecturing on the occasion in Chalmers' Church. His subject was, 'The Knowledge and the Measure of Knowledge.'

THE PRESBYTERY OF HALIFAX.—The Free Presbytery of Halifax met on Thursday, the 6th of this month, in the Rev. John Hunter, late of Harcourt, in the North of Quebec, who has been appointed by the Colonial Committee of the Free Church of Scotland to be the minister of Chalmers' Church, Halifax, was present and produced the usual documents with his translation.

A BARK VISITOR.—During the past week, a bark has been visited by Laurence Oliphant, Esq., who landed lately at Halifax, and passed through this Province, on his way to the United States and Central America. Mr. Oliphant is the author of the interesting book entitled 'Russia and the Shores of the Black Sea' and another, 'The Black Sea,' which is being published by 'Blackwood's Magazine.' During the latter part of Lord Elgin's administration in Canada, Mr. Oliphant filled the office of Civil Secretary and Superintendent of Indian Affairs.

TORONTO, October 16.—A destructive fire in the heart of what was formerly the town of Little York, has just obliterated one of the proudest monuments of the days of Governor Plessington. The fire originated in a cooper's shop, and consumed all the buildings in a space lying between King, Palace, Prince and Caroline streets. Among them was a handsome mansions which stood on the corner of Palace and Prince streets.

system of Canada, will, we trust, be completed as soon as possible.—Montreal Witness.

OPENING OF THE GRAND TRUNK RAILWAY.—The Grand Trunk Railway was yesterday opened for traffic through the entire route from Quebec to Stratford. A train left Montreal at half-past seven in the morning, and before eleven in the evening, the Montreal papers of the same day, were laid upon our table!

RAILROAD ACCIDENT.—The Belleville Intelligence says that on Wednesday last a fatal accident occurred on the Grand Trunk Railway, between Trenton and Smithfield. From what we can learn, the railroad runs nearly parallel with the travelled road, and two men were driving along the road, and being desirous of crossing the railroad track, before the engine and ballast train overtook them, whipped their horses into a run, but unfortunately, when upon the track, the horses became frightened, and refused to proceed, but stood rigidly upright, when the engine struck the wagon, and Samuel Doherty was killed almost instantaneously, and the other, whose name is Saxon, had both his legs taken off, and died shortly after.

MRS. STOWE'S SUCCESS in her new work, 'Dred,' is no longer doubted. There have been all sorts of criticism upon it, but its sale goes on bravely, 100,000 more have been disposed of in the first month from the date of publication, and her English publisher estimates that by Christmas 250,000 copies will have been sold. Our high type prints have also abridged efforts to write down Mrs. Stowe, because at heart they are secretly abettors of that slavery which Mrs. S. so unsparingly denounces. The semi-indefinite prints, like the Athenaeum, snarl at Dred in account of the religion that pervades it. But the general opinion is in favour of the work, and by the evangelical bodies, as well as by the immense sale of her book. While Dred is the book of the season, in the religious world proper, the Rev. Wm. Arthur's new work 'The Tongue of Fire,' is producing an amazing impression. It has already passed through four large editions and the end is not yet. We rejoice in this; and we trust that in all the churches, and especially among pastors, that book will have a wide circulation. The thoughtful, prayerful study of it would introduce a new epoch in the church's history. Long may Mr. Arthur be spared to wield his powerful, graphic, and balladized pen, for this he ought to have been one of our Methodist editors.—English Corr. Zion's Herald.

APPLES FOR ENGLAND.—Owing to the failure of the apple crop in Europe there is a large demand at New York for apples for exportation, and at least 10,000 barrels of Newton pippins, embracing the best of the crop, will be sent this fall. One firm already has contracts for England to the amount of 6,000 barrels. This variety of apples has the preference above all others, though Baldwin and Russets are exported to some extent.—Am. Ex.

Rupture Between Great Britain and Mexico.—The latest advices from Mexico announce that the representative of Great Britain in that country has suspended diplomatic intercourse with the Mexican Government, and that the British Legation has withdrawn to Taculaya, to await further instructions from London. The immediate cause of this rupture is said to be the refusal of the Mexican Government to grant the indemnity claimed by Barron, Forbes & Co., the details of which are already sufficiently known; but it is reasonably supposed that the long unsettled claims of British subjects for money lent to Mexico, and the repeated failure of the Mexican authorities to fulfil their engagements to the bondholders, have influenced Mr. Lamb in the decision to leave his post, and that if the British Government has adopted, and that the British Legation has withdrawn from Taculaya, to await further instructions from London. THE PRINCIPALITY.—The Paris correspondent of the Times states that France, in consequence of the union of the Principality, as that is one of the principal motives Austria has for not evacuating the territory.

PARIS, Oct. 23.—Something is said of a mediator on the part of Russia to act as a negotiator between Naples, France, and England.

It is believed that one of the demands which the Allies have put forward in their Neapolitan ultimatum is, that the Constitution shall be adopted and set upon, as that alone would be a sufficient guarantee for the good administration of the kingdom, and the Constitution has never been actually abrogated.

territory, but for which, he says, liberty would hold up her head in that country. At present the King of Naples has 12,000 Swiss soldiers in his army, which cost the country nearly 1,000,000 francs. Early in 1847 the number was only 6000. The Swiss have possession of all the fortresses of the capital, and are far better treated and better paid than the Neapolitan troops.

ITALY.—There are reports of disorders and menacing movements in different parts. The little republic of San Marino, which is almost surrounded by the States of the Church, has been the scene of a serious contest between the inhabitants and the political exiles from the Papal States, who found a refuge there. In Florence a conspiracy has been discovered, and no arrests have taken place. Among those arrested are some distinguished advocates and writers.

THE EAST.—Intelligence has been received from Constantinople to the 6th inst. The Porte had invited the Ambassador to a meeting, preparatory to the Convocation of the Divans, which are to express their wishes on the subject of the reorganization of the Principality. In Kurdistan the insurgents are in part dispersed. Several districts of Albania are in a state of agitation, but troops are on their march thither. The army of Ali Pacha will winter at Mentar. The Porte is to guarantee six per cent. interest on the railway of the Euphrates. A portion of the shares is reserved for the India Company and for Turkey. The Railway Company will be invested with exclusive privileges; it will receive gratuitous grants of land, and of mines bordering on the works. It is to establish a line of telegraph and of 'packet-boats' to connect India with England.

TERRIBLE DISASTER.—A steamer from Constantinople has brought the intelligence that a Greek merchant vessel, the ancient Thetis, of the tonnage of the New Testament, had smugled two hundred and thirty-five barrels of powder, which were concealed in its store. By some accident, which the particulars are not given, fire was communicated to the powder, and from the great quantity an explosion followed of fearful destructiveness. A great part of the city was laid in ruins, and nine hundred of the inhabitants are supposed to have perished. FRANCE.—The French Minister of State has directed certificates to be distributed to all the families having children born on the 16th March last, and therefore godchildren of their Majesties. Assistance has already been granted by the Civil List to the poorest among them, which is to be continued annually; and in case the parents should die, the orphans are to be provided for as the charge of the Civil List. The certificates are now being issued, and are to be held on the respective Circuits as follows: Paris, Feb. 1, 2, 3.—Rev. R. Waddell, T. B. A PUBLIC COLLECTION will be made at each service in aid of the Mission Fund.

Shadows. O the shadows, the beautiful shadows, Floating far over the hills away; As over the sky The light clouds fly, So over the mountains wander they.

essed it were incompetent to its judicious exercise. Thus, at the battle of Albuera, Bessford, a brave soldier, but a bad general, had a great share in the success of the British arms. When Captain Hardinge, then serving on the staff, assumed the terrible responsibility of issuing an order, which his chief had never given him, and led forward the Fusilier Brigade against the heights occupied by the enemy, at the moment when Bessford was preparing to retire, the description of this moment is one of the noblest passages in Napier's great work, and is universally read and quoted just now. Allow me to extract a few sentences. The brigade in its ascent of the hill was assailed by a hurricane of round and grape shot.
