## PESTILENCE THREATENED.

Several Persons Taken Alive From the Burns.

DEATH ESTIMATE NOT LESSENED.

But the number of the debris is still Looked Over.

WARNINGS THAT WERE NOT HEARD.

The very latest this afternoon.

It was found yesterday that four and even six families were being crowded into one room, that the doors and windows were left closed to shut out the stench and dampness, and that a man had been found dead in his bed. Dr. P. M. Cleggington, of the U. S. Marine Hospital, estimates there are a hundred cases of the disease in Johnstown. He said he had examined, daut, cases still in exposure. The cold drizzle that fell intermittingly yesterday added to the gravity of the situation.

The flood has now reached the South Fork, and it is expected that the cause of the reservoir dam will be found in the stone bridge.

The general impression is that the jury will declare that the Pittsburgh Fishing Club, the owners of the dam, are guilty of gross negligence. In that event many suits for damages again the millionaires club will follow.

The insurance agent estimates the loss at \$2,000,000.

The Atoms gang, by the way of dynamite, have located the day which was spent in the water at Cambria City. The scale of the debris is one hundred feet from the fourth buttress from the western end of the stone bridge. Parts of the piers of the stone bridge are visible.

Hundreds were carried down to the broad rivers in the tremendous current and may never be recovered.

At 9 o'clock the baggage of Miss Anna Chisholm, of Nashville, Tenn., was found.

She was a member of the Women's Foreign Missionary Society of the Methodist Church. It is evident many lives were lost on this train.

The whole train staff is still a mystery.

There was a small riot at the labor camp this morning on account of the lack of food.

The man who is to be tried for the death of Mrs. Ryan, who is the head of the labor force, made a speech to the men and stated that it was almost impossible to get things down from the railroad.

Scenes and Incidents.

"This is the last moment," This is the telephone when Mr. H. M. Ogle, manager of the Johnstown telegraph office, sent just before she was swallowed up in the flood. Long after the danger was over and long before the flood came, almost certainly, Mr. Ogle sat in the Johnstown telegraph office, over which she had presided for nearly a quarter of a century, and sent warning of a great inundation to all the towns and villages below. The warnings were little noticed, but Mrs. Ogle died her duty to the last, for her husband, who had been racing in Pittsburgh, is believed to have registered the name of the telegraph office when the flood came.

A mother and daughter were rescued alive yesterday afternoon suffering from nervous shock and hunger. They were at risk during the flood, but were safely secured by Mrs. Needham, who had come to the aid of the flood-stricken.

Both will recover.

WHAT CRONIN BELIEVED.

Resident Engineer Park, who was on the spot when the dam broke on Friday, says: "On Thursday night, noticing that the water was nearly seven feet from the top, he took up the end of three miles of pipe. The water is at this height. The lake is nearly three miles in length. He took up the end of three miles of pipe on the evening of Friday night, and the plough was run along the top of it and earth was then thrown into the furrows. On the west side a channel was dug and a dam was built across the lake. There was about four feet of shale rock, which was impossible to cut without breaking. Once we got the channel dug, the water level dropped to the bottom of the lake and a dam was built across the lake and a stream 20 feet wide and three feet deep rushed out on that end while great quantities of water were let out at the other end. And then in the face of this great escape of water from the dam it kept rising at the rate of 10 inches per hour. At noon it was 10 feet above the lake and it was impossible to save the dam, and I got on a horse and galloped down to South Fork and gave the alarm to the people of South Fork, who had been told that the great reservoir was drained in an hour after the large dam gave way."

Long relays of men rolled the logs down the river, and every hour, from east and west, north and south, came whole loads of clothing and provisions, accompanied by speeches and messages, accompanied by the people of the town. Several hundred destitute people are being well cared for at Camp Hastings, on the Ebenezer Hill.

The speed train of the Masonic Relief Association was sent from Pittsburgh. The brother in charge spent the morning distributing the food and bringing bread up and coffee to the sufferers.

Poor old John Jordan, of Conemaugh I. Many a tear ran over swarthy cheeks for him to-day. His wife had been washed away, so high up the flood that it was found necessary to bury them together. Just as the flood struck the city a wedding was going on, and the bridegroom was washed away. Jordan, his wife's son, and his wife's son, a little boy, asked that he be recognized and then they came upon the remains of their parents. The mother's buried arms still clinging to the little children. Then the white-headed old man sat down on the ashes and cried. He was too old to live, but he wanted to die as if they were alive, until some one came and led him quietly away. Without a protest he went to the water and sat down on a rock and disappeared in the hills.

The one thing that most impresses the thoughts of those who are still here is the manner in which all the region dependent on the Allegheny River below the Kiskiminetas for its water supply. Only those who have seen the scene of Conemaugh since the flood can appreciate this danger of disease from the polluted water.

When Johnstown's principal stores stood last Friday were now pitched 1,000 feet, and before to-night this number will probably be doubled. Under this shelter are scattered the members of the medical and those who are working to clear the streets. Over 5,000 men are now thus employed in Johnstown proper.

Conrad F. Ryan, who is the author of "Johnstown," said: "It will take 10,000 men thirty days to clear the ground so that the streets are passable, and the work of reconstruction will be done."

Most frequently is the presence in the death list to Mrs. Jones and six children." In the morgue the little ones lie in coffins with their mothers, who are trying to sleep in the dark. Over 5,000 men are now thus employed in Johnstown proper.

Conrad F. Ryan, who is the author of "Johnstown," said: "It will take

10,000 men thirty days to clear the ground so that the streets are passable, and the work of reconstruction will be done."

Mrs. Jones had plain where the business block of Johnstown stood in Johnstown for ten years. He declares that danger had been apprehended from the building of the stone arch bridge, and the police could not bring him to trial. As the tears streaked down her swollen face, "I wonder like to see you just as it was when I was born." Her husband and four children are in that awful fire by the stone bridge, and I am alone now." A black dress was found for her.

A gray-haired woman who applied for clothing at Johnstown said that he might be given a black dress for her. "I have lost my family," she added by way of apology, as the tears streaked down her swollen face. "I wonder like to see you just as it was when I was born." Her husband and four children are in that awful fire by the stone bridge, and I am alone now."

The report from Johnstown is one to the effect that Herbert Webber, employed as a sort of guard by the South Fork Club, had been reported to the police that the dam had been leaking.

He had repeatedly, however, been sent to the depository proceedings which have preceded.

The two workmen found three members of the Hoffman family, who occupied a large residence in the rear of the hotel, and the bodies of the little children, who had been found on the edge of the bedstead. He was evidently preparing to retire when the flood struck the city.

A local dealer, Mr. McGregor, has purchased in various parts of Ontario, 2,000 steers. These he proposes shipping to Calgary, where they will be fed up after which will be sent back to Ontario.

Mr. Van Graaf has ordered a number of steers on the line of the Canadian Pacific between Winnipeg and Port Arthur, which have been commenced.

## PESTILENCE THREATENED.

Several Persons Taken Alive From the Ruins.

DEATH ESTIMATE NOT LESSENED.

Buf One-fifth of the Debris Looked Over.

WASHINGS THAT WERE NOT HEENDED.

The Very Latest This Afternoon.

It was found yesterday that four and even six families were being crowded into a single house, that as high as fifty steps in one house, and that when the windows were left closed to shut out the stench and dampness, and that as a result pneumonitis was gaining an alarming foothold. Dr. P. M. Conroy, of the U. S. Marine Hospital, estimates there are a hundred cases of the disease in Johnstown. He accuses it to crowded, damp cellars, and particularly yesterday due to the gravity of the situation. Mr. Gibbet, of the State Board of Health, inspected the houses above the stone bridge, as far as Connellsville. He finds there is no immediate danger of the disease from dead bodies except at Rockwood, where an immense collection of wrecks still remains.

The coroner's jury yesterday proceeded to the South Fork and investigated the cause of breakage of the dam. When the water had risen to the height of the bridge, the stones had appeared in the dam several times in past years, but had each time been easily repaired with straw and mud.

The most important fact is that the jury will declare that the Pitsburg Fishing Club, that owned the reservoir, was guilty of gross negligence.

For some time again the millionaire club will follow. An insurance agent estimates that the accident insurance policies for all plants will amount to \$1,000,000.

The afternoon, the day before the catastrophe, the damage to the Cambria Iron Works, now said, would not exceed \$500,000.

Eddie Fisher, a youth who lost his mother and five sisters, 6-day, in a fire of profound misery, threw himself from the roof of a building and was killed.

THE NUMBER OF VICTIMS.

Up to last night about 2,500 bodies had been found, while 2,000, at the lowest calculation, are in the burned debris of the iron works; 1,000 are in researches made by the coroner's office.

There are 2,000 scattered in the valley.

There are 2,000 scattered in the broad rivers in the tremendous current and may never come into the hands of the living. San Adj. Gen. Hastings: "We can't begin to count them, they have been scattered over the country."

William Jones, of Braddock, thinks at least 20,000 to 12,000 were lost, and that was swept away at Connellsville. The ruins of the stone bridge, which had been carried off by the flood, were scattered over the four butresses from the western end of the stone bridge.

Parts of the parlor cars have to-day been found, as well as traces of the men who were in the baggage car of Miss Annie Chisholm of Nashville, Tenn., was found.

She was a missionary to China, and was on her way to Brazil for Women's Foreign Missionary Society of the Methodist Church. It is evident many lives were lost on this train—more than at first supposed. The whole train affair is still a mystery.

There was a small stall at the labor camp this morning, account of a sheet not being found, and the man who was the head of the labor burea, made a speech to the men and stated that it was almost impossible to get things down from the railroad.

SCENES AND INCIDENTS.

This is my last message." This is the telephone message sent to the Johnstown telegraph office, just before she was swallowed up in the flood. Long after the danger was imminent, and longer after death was almost certain, Mrs. Ogle, a widow, was still clinging to life over which she had presided for nearly a quarter of a century, and sent warning telegrams down the valley to the towns and cities of the state. The warning little noticed, but Mrs. Ogle, fairly received in Pittsburg, was soon discovered to be a widow.

She had been married to the man who was the head of the labor burea, made a speech to the men and stated that it was almost impossible to get things down from the railroad.

She had been married to the man who was the head of the labor burea, made a speech to the men and stated that it was almost impossible to get things down from the railroad.

SCENES AND INCIDENTS.

This is the telephone message sent to the Johnstown telegraph office, just before she was swallowed up in the flood. Long after the danger was imminent, and longer after death was almost certain, Mrs. Ogle, a widow, was still clinging to life over which she had presided for nearly a quarter of a century, and sent warning telegrams down the valley to the towns and cities of the state. The warning little noticed, but Mrs. Ogle, fairly received in Pittsburg, was soon discovered to be a widow.

The total of the number supplied to regular subscribers and the number sold over the counter. There is no account given of our circulation, so we are unable to verify these figures may inspect our books.

THE REPORTER

ATHENS, ONT. JUNE 18, 1889.

### LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Knight of the Pen - Local Announcements Settled Right Down.

Farmers' Institute meeting at Brockville on the 20th inst.

The telephone line between here and Charlton is in complete working order.

Several tourists from the other side of the international line are guests at the Charleston hotels.

The Rev. Dr. Niemo succeeds the Rev. E. P. Crawford in the rectorship of Trinity Church, Brockville.

Two strolling players in the village, armed with bagpipes, added another burlesque to life during part of last week.

Capt. Greer intends making regular trips to Charlton every Saturday with the Outfit Queen. This little steamer is quite popular with picnic parties.

The Rev. J. Richards, of Lynn, officiated the pulpit of St. Paul's Church on Sunday evening. The Rev. Mr. Potter will conduct the service next Sunday evening.

The Brockville Dominion Day celebration bill-posting wagon will be here Friday, with the veteran W. E. Loucks in charge. Billy says he has put up 600 large posters and 8,000 hangers.

At the County Court last week Larpman was found guilty of the crime of stealing \$80 from Miss Russell, Landowne, and of feloniously assaulting her while committing the theft. He was sentenced to 14 years.

On Thursday last Lily A. the only daughter of Mr. and Mrs. Joel Johnson, Brockville, was removed from her sufferings by death. She had always been a very delicate child, and her early death was not unexpected. The little girl was a universal pet, and her loss is keenly felt in many households.

The Brockville Dairymen's Board of Trade, Thursday, 5/7, boxes of cheese were off-red, and nearly all were sell. Rating price, 9¢; highest, 9 1/16; lowest, 8 19/16 cents. Farmersville factory offered 60 boxes; Glen Bell, 40; Plum Hollow, 182—all selling for 9 cents.

The Brockville annual picnic will take place on Wednesday, the 20th inst., in Mr. Geo. Leeder's grove, the scene of a series of annual picnics which have been immensely successful. The organizing committee have decided to use every effort to make the coming picnic the grandest, the most enjoyable, and the most successful ever held at Ballynoe.

On the 12th inst. Lord Cecil, a well known character in this locality, was drowned in the Bay of Quinte. The deceased was a brother of Lord Salisbury, England's prime minister, and was known as the founder of a sect called the Cecilians. His large inheritance was especially beautiful, and was reasonably assured that he would be well off upon the simple gospel of Christ to reform the world. The Church of England was making a general advance throughout the country. He urged his hearers to steadfast in their allegiance to her, at the same time exercising good will to all men.

The Rev. F. L. Stevenson, B. D., rector of St. Peter's, Brockville, will be the next speaker.

The high school girls last week omitted mention of Miss Annie McCullough of Gananoque. This young lady passed the third and second class examinations with flying colors, and at the recent examination in the Women's Medical College, Kingston, won a second year scholarship.

Mr. A. E. Donovan arrived home on Saturday, after an absence of about seven months, during which time he has visited a very large number of the towns and cities of the Maritime Provinces, in the discharge of his duties as general agent of the New York Mutual Life Insurance Co. The genial Ed. looks as if the air of the sea agreed with him.

On the 12th inst. Lord Cecil, a well known character in this locality, was drowned in the Bay of Quinte. The deceased was a brother of Lord Salisbury, England's prime minister, and was known as the founder of a sect called the Cecilians. His large inheritance was especially beautiful, and was reasonably assured that he would be well off upon the simple gospel of Christ to reform the world. The Church of England was making a general advance throughout the country. He urged his hearers to steadfast in their allegiance to her, at the same time exercising good will to all men.

Next came Mr. Geo. Taylor, M. P. who after telling his story not very complimentary to politicians as a whole, said that he did not intend to make any political speech. Touched lightly upon the Jesuit question, which he thought might be well left alone until the constitutionality of the Quebec Act had been settled judicially. He defined his position with regard to prohibition motions coming up in parliament. When such temperance questions were mixed with political speech, he voted with his party. When they came up unmixed, he maintained a neutral course, in deference to the opinions of those who elected him, some of whom might differ from him. With regard to the Scott Act, he thought it had been defeated before it was introduced.

Mr. Wilson, wife of Mr. Wilson, B. A., is home again, after an absence of several months, occasioned by very ill health. Her many friends will be pleased to know that she is now convalescent, and that she hopes to fully recover, under the influence of Charleston's invigorating atmosphere.

The high school girls last week omitted mention of Miss Annie McCullough of Gananoque. This young lady passed the third and second class examinations with flying colors, and at the recent examination in the Women's Medical College, Kingston, won a second year scholarship.

The high school girls last week omitted mention of Miss Annie McCullough of Gananoque. This young lady passed the third and second class examinations with flying colors, and at the recent examination in the Women's Medical College, Kingston, won a second year scholarship.

Mr. Wm. Johnson, M. A., I. P. S. was glad to say to a few words, to show his respect for the incumbent, a good man and true, who had sometimes been censured for doing his duty. The speaker himself had been censured for the same reason. As a rule, however, the man who got no abuse was not worth much. Mr. Johnston concluded by reciting a few lines of a patriotic poem.

Rev. Mr. Styles, of Frankville, was the last speaker. He commended the members of Christ Church for their zeal in Church work. Clergy he thought, could never know how liberal and how willing were the members of their congregations until they went amongst them soliciting aid for their enterprises.

I have examined a great many colonies, and find more bees with only three pounds of honey than with more. April and May gave 20 working days for the bees, and June, up to the present, only four.
