"Another whim," he muttered, then added, aloud: "The idea is preposterous in your present state of health. Are you entirely unmindful of the duty that you owe to Miss Sterne? The girl is devoted to you. Surely you will have no wish to drag her to that pestiferous part of the globe?"

"No; if I can gather strength sufficient for the journey, I shall be accompanied only by my valet, Markham," the baronet said. "He is honesty itself, and has been my compan ion for five-and-twenty years."

When Dr. Denver was gone, a strange glow flashed into Sir John's eyes, and his fingers worked convulsively. "Yes," he murmured, "dear Heaven,

why have I not summoned up sufficient courage to do it before There may yet be years of happiness before me, instead of rotting away like a useless log. It is understood that the E.P. ranch will be greatly increased and equipped as King George is actively participating in the activities there and is watching with interest the results of the undertaking.

It is understood that much more blooded stock from the King's farms are to be sent over as they can be handled and cared for, and that the ranch is to be put on a firm financial basis and provided with all the necessary appliances and methods which will make it a model institution within the next few years. It is proposed that the property will be considerably extended. Yast acreages of lands now lying to the west of the E.P., and extending all the way to forest reserves, it is hoped to add to the Prince's domain, giving the necessary graining area for a proposition such as

TRAMWAY LINE WILL BE IN OP-ERATION NEXT SUMMER

The levelling and grading of the new Tramways line to the top of the Mountain by way of Shakespeare road' will be completed in about a month, when the Tramways Company will begin laying rails. This street railway spur will therefore be in full opera-, tion next summer and will be of great, service in bringing citizens to the top of the mountain by street car, without in any way interfering with the safety of these in the great natural Mount! Royal Park. Since the demolition of the old elevator, which served its purpose for about thirty-five years, there has been no means of getting to the mountain top except by the famous steps or some of the numerous beautiful path that cut diagonally to the summit. The drives are also well patronized but now that there will be a tramway line, women and children will be enabled to reach the top without trouble, and enjoy the healthy? heights in the torrid days of summer.

Professor Claims This Old World Will Be Overcrowded in a Thousand

Dr. Raymond Pearl, professor of E. L. Oke biology and vital statistics of John's Hopkins University, Baltimore, has burst into print with the statement that the population limit of the world will be reached in a thousand years. This alarmist statement is to the effect that the production of food at that distant period will be insufficient for the people that inhabit the earth. that the present thinking generation dancing was indulged in until 12.30 when the visitors returned to their ity. Such prophecies, however, are

limit and they used to draw awful conclusions from their prognostications. They did not take into account many natural and unnatural things in their calculations. Countries grow and grow but still there was room for more. At this late day there is not a great country in Europe, the most settled continent, that has not enough land for many more inhabitants, if the people cared to return to the most ancient and honorable calling of agriculture. The earth and the fulness thereof is still sufficient for the inhabitants, with a tremendous surplus of natural resources, and it may be the same a thousand years hence. Certainly there will hardly be overcrowding in the world. Where keeper, Mr. E. D. Freeman, as starter, is the overcrowding? Certainly not POTATOES, in France, an old country. Los Angeles Times: Now the Proessor of Eugenics is telling us that in a few hundred years there will be no such institution as the family. The race will be perpetuated under the di-rection of a board of scientists. Life will be a labatory affair, with synthetic methods prevailing. If there is a shortage of 6-foot blondes in any section of the world, a call will be put into the propagation board and the laboratory incubator system will be invoked. This may make for efficiency, but we are proud to say that we will not be here when it happens. When they begin to make our statesme with a vacuum tube and a blowpipe

Next month I'll quit this thing of blowing the mark, the kopeck and the franc, and citizens will see me going with wads of plunder to the bank." Month after month he keeps on planning to save a sample of his pay, and while he plans hard luck is canning ten thousand spendthrifts every day. They lose their jobs, succumb to sickness, and then their folly they confess; their pocketbooks have not the thickness required in times of deadly stress. The paupers who are vainly raving in yonder poorhouse by the mere, once bravely planned to do some saving next week, next month, perchance next year. To-day's the time to cut out spending the hard earned scads in foolish ways; today's the proper time for ending the wasteful course that never pays. # Mrs. Weller makes her famous OysterStew with Libby's Milk

When Sunday night comes around, the family of Mrs. T. A. Weller of Danville, Va., always know that supper time will bring something of delicious interest.

Quite frequently it's oyster steward then there is rejoicing. For Mrs. Weller's oyster stew is a favorite dish of her family and friends

In making it, Mrs. Weller always uses Libby's Milk. She says it does not curdle as ordinary milk is so likely to do.

Then too, Libby's adds a richness of flavor and gives a smooth, creamy body very satisfying to appreciative appetites. It is a great enricher.

71/2 teaspoons of butter fat in every can

In every 16 oz. can of Libby's Milk there are 71/2 teaspoons of butter fat -that substance which gives to cream and butter their great food value and makes them such enrichers.

The reasons Libby's Milk is so rich in butter fat are, first of all, because it comes from herds selected by trained dairymen for the exceptional quality of milk. These herds are pastured in favored localities, where the meadows are thickly carpeted with grass and abundantly watered.

Right here in the heart of these famous dairy sections are our condenseries where we remove half the moisture from this milk, making it double rich.

Nothing is added to it; none of its food values are taken away. But that you may use it, and other women all over the country, we seal it in airtight cans and sterilize it.

So, you see, Libby's Milk is the finest cow's milk in the land, made double rich!

Use this double richness in YOUR cooking

Thousands of women have found what Libby's Milk adds to their cooking in richness and flavor. Try it in one of your favorite dishes; you will be delighted with the new quality of added richness.

Your grocer has Libby's Milk. Order a can, or better still, several, to have on hand, for once you have tried it, you will want to use it in all your milk cookery.

Write for free recipe folder

We will gladly send you a copy of a new folder containing some of the best recipes sent us by good cooks who use Libby's Milk. Write for it today.

### NDIA'S NEED FOR PREPARED-

The Englishman |Calcutta): Inians should realize that hardly any ountry in the world has been so freuently invaded, principally from the Northwest, but also from the sea. On Northwest frontier there are some hundreds of thousands of tribesnen, about a fourth of them armed often capable of collective action, and nhabiting a country where nature is seen at her very harshest. Beyond No Man's Land "if the student of the fate of nations looks at the map, he will ee that uncertainty rests with spewhich, roughly stretches northwest and westwards from the Hindu Kush. and Suleiman Range to the Carpathians and to the Eastern and Southern Mediterranean littorals. Ignoring for the moment the chaos in China and the east of Siberia the student can with justice believe that the events which are most likely to disturb the peace of the world in the next decade or more would take place within that

## An Amazing Feat

Daily News: To the non-athletic onoker it must seem an astonishing thing that a man of fifty should be able to walk from London to York in ess time than a horseman can ride it. It is not merely that Mr. Cummings spent less time than Mr. Drake and The Sheik actually on the road. If he had done that. but taken longer rests between it would have been a suffiently wonderful performance. But the pedestrian's time in this case beats the equestrian's even when stoppages for sleep and meals are included. That is an amazing feat. It is to be hoped, however, that horsemen will not be provoked to attempt to lower his record. It is one thing for a man to over-tax himself for a wager and another to over-tax a dumb beast which has nothing to gain from it.

The wonderful values shown in this advertisement are GEN-UINE. The marvellously big reductions which seem at first glance ridiculous, are, as we have just said, genuine in every case. Many of the items listed on this page are last year's models, others older. BUT in every instance, with very slight alterations, these splendid quality Coats, Costumes and Dresses can be brought up-to-the-minute in style. As already stated in our announcement we are selling our entire stock of Ladies' Apparel because we require the space it occupies for other purposes. UNDERSTAND—we are not trying to sell you any 1923 models but the quality of every garment we are offering you, at its Sale Price, is absolutely without parallel in its startling value. Confidence tricksters, who have ntlemen who are certain of getting omething for nothing from other entiemen who merely expect to get omething for nothing, says the Daily

A man who parts with a few thousand pounds to an absolute stranger hom he has known for only a few ninutes does not do so from any eeling of compassion or charity, but ecause he really thinks in his own mind that he is on "a good thing" and that the other man is the "mug." The old, old story has been cleverly old to him and he is fascinated by the lure of gold-and the apparent

simplicity of the other man. A rich uncle had died leaving milions for distribution among really leserving people. The victim is asked to assist in the distribution of this noney. He willingly consents, and ist to show that he has implicit onfidence in his new-found friend he ands him over hundreds of banknotes—and friend and money disap-

How are the victims picked up? How is it known who has money and who has not? There are various ways of settling

hese points. No visitor to London fails to go to the Tower of London, the British Museum, or the National Gallery, and t is here that the confidence tricksters, who are, of course, well dressd and well spoken, lie in wait for heir victims. They see at a glance who are the

jost likely "mugs," and by follow-

ng them back to their hotels very quickly get to know all about them. A trap is laid. A confederate strikes up an acquaintance and the new-made friends go for a walk together. Suddenly a man walking in front of them drops a wallet, which they pick up and restore to the owner, who is so grateful (for the wallet contains hundreds of thousands of ounds and a will) that he invites his riends to have a cup of tea and tells hem all about his rich uncle. Nowhere in St. John's to-day will be found a better display of Fall Merchandise than can be seen within the four walls of this mighty Store, and nowhere will be seen values of such significance to buyers at the present moment. Our foresightedness is mainly responsible for this, as we have bought heavily and arranged for deliveries long before this season commenced.

A glance through the following columns will certainly convince one that this Store has indeed many inducements for the thrifty, many opportunities that should be availed of, and for those of limited spending allowances, should prove a veritable Storehouse of value opportunities throughout every
