OFFICE:.....MACDONNELL STREET.

MONDAY EVE'G, AUGUST 10, 1868.

The City Council of Toronto have decided to purchase McGill Square, to be turned into a public park.

On Monday last, a son of Mr. Don Wallace, near Elora, fell off a fence and broke his arm.

The Elora Board of Com. School Trustees have declined union with the Grammar School Board.

The fall exhibition in connection with the Centre Riding Agricultural Society, will be held at Fergus, on the 14th October.

A young man working in Mr. E. Hawley's saw-mill, Peel, had his arm fearfully lacerated a few days ago, by being caught in one of the belts.

On Friday week a farm of 200 acres was sold by Gara's, by auction, for \$3.05 per acre, cash. The seller was Mr. Cattenach, the purchaser Mr. Rathbun. The greater part of the land is swampy.

DEATH OF MR. DAVID MCKINNON.—We learn by our Hamilton exchanges that Mr. David McKinnon, barrister of that city died suddenly on Saturday morning last.

SPORTING.—Several of our Guelph sports left for Toronto this morning to be present at the pigeon match between the Canadian champion Ward, and a crack English shot, for \$300 aside, which comes off to-day. To-morrow there is to be a match between twelve Toronto and twelve Guelph men. The stake is merely which side shall pay the dinner for the entire party.

RAILWAY MEETING AT TEESWATER.—A despatch from Kincardine on Friday says:—There was a large meeting at Teeswater last evening, at which the railroad question was very fully discussed. The result was a splendid success, the Wellington, Grey and Bruce railroad being largely sustained and the narrow gauge condemned most emphatically. All the meetings recently held throughout Bruce have been attended with similar results.

The last issue of the Fergus News Record contains two advertisements—"Tenders Wanted." One is for the construction of the first section of the W. G. & B. Railway, between Guelph and Fergus, and the second for the erection of a stone drill shed, 100 feet by 50 ft., in the village. Fergus may be thankful that a question which has agitated more than one small community, namely, "a site," has been put to rest. The last mentioned advertisement will be found in our columns.

OTTAWA NEWS.—The Gazette of Saturday contains a proclamation giving the Queen's assent on the 19th of June to the Extradition Act between Canada and the States, and a copy of the Act. Also, a table showing the preference in rank of office holders, from the Governor-General to members of the Local Parliament. Also, a notification that the commission of the Prussian Consul has been withdrawn at Montreal, Quebec, and at St. John, N. B. Also, the commissions of the Hamburg and Lubec Consuls at Quebec, and Bremen Consul at St. John.

MISS RYE'S GIRLS.—From all accounts it would appear that Miss Rye did not make a very judicious selection of servant girls. One who had never previously been used to housework, has died, not from her new labours, but unfortunately from sunstroke. The Telegraph has the following:—"We have heard certain particulars regarding two of Miss Rye's girls, which, if correct, show that that lady is not such a philanthropist as people have been led to suppose. Two of the women brought out by her, state, that in the old country they occupied a highly respectable position. They are women of education and culture, speak French and German, and are accomplished in every sense of the term. They were formerly governesses, and were induced to come out to this country through Miss Rye's representations. Their story is that she led them to believe that women of their education would experience no difficulty in procuring excellent situations in Canada; that their services would be eagerly sought after, and that in a short time they might be able to ride in their own carriages. Being led away by these representations, they came with her, and on arriving here were handed over to some persons to do the work of ordinary house servants. Being unaccustomed to such a position, and being quite unable to perform the work, they related their story, and expressed a wish to be sent back to England. Several ladies having learned the facts, are now attempting to raise money to send them home. This is the story of the women themselves, and their appearance and language sustain them. Their case is a hard one, and is deserving of the attention of the charitable."

Ontario Teachers' Association.

The eighth annual meeting of the above Association was opened in Toronto on Tuesday. The Printing Committee were censured for not exercising greater care and vigilance in order to secure greater accuracy in the printed minutes of last meeting. The first topic of discussion that was taken up was "Is it desirable that prizes be awarded to the pupils of our schools; and if so, what is the best method of giving them?" There was considerable speaking on both sides of the question, and the majority seem to have taken the affirmative side.

At the evening session, the President delivered the opening address, taking as his subject the admission of girls into Grammar Schools. The speaker, in a lengthy address, took strong ground in favor of admission, and in his remarks criticized the course of the Chief Superintendent of Education in reference to the matter.

On Wednesday a communication was read from the Beamsville Board of Trustees, in favor of the appointment of a central board of examiners for the Province. The second subject discussed was "The importance of securing and keeping up the attention of pupils in order to successful teaching." Mr. Hodgson, of Weston, read a lengthy paper on the subject. He favored corporal punishment, though he would use it in connection with moral suasion. A short discussion took place on the question, but no resolutions were adopted.

A communication from the South Bruce Teachers' Association containing the following suggestions was read:—"That township Boards of School Trustees are decidedly preferable to sectional ones; that educational progress, in the shape of better school houses, more suitable apparatus, &c., greater permanency in the teachers' position, and other advantages, would be secured by the township Boards; and it is advisable to introduce a clause in the School Act to enable townships to make the necessary changes; and further, that a copy of this resolution be forwarded to the Teachers' Association in Toronto." After considerable discussion a motion for the adoption of the suggestions was put and lost. At the afternoon session the question as to the means of reclaiming the vagrant children in our cities and towns was taken up. A law empowering the authorities to take charge of vagrant children and provide for their education was strongly advocated. Afterwards Dr. Wilson addressed the Association on "Literary Forgeries, or the Maskings of the Eighteenth Century." The third subject for discussion was then introduced, viz: "Are any changes desirable in the examination and admission of candidates to the profession of teaching, so as to raise its status?" A committee was appointed to prepare a resolution on the question. At the evening session the fourth topic on the circular was submitted for discussion, viz: "What steps can be taken to improve the standard of our Common Schools?" After several members had given expression to their views a resolution was moved affirming the opinion of the Association to be in favor of compulsory attendance, as essential to the successful working of our free school system. The vote of the Association on the Printing Committee was, on motion made and carried, expunged.

On Thursday the committee on appointment of office reported the following list of officers: President, Dr. Nelles; 1st Vice do, R. Alexander; 2nd do, S. McAllister; 3rd do, A. McMurphy; 4th do, P. Leath; 5th do, Mr. Watson; 6th do, Dr. Crooks; treasurer, Mr. Anderson; recording secretary, Mr. Hodgson; correspondents, D. Ormiston, B. A. Delegate to the Lower Province, W. McCabe. Council—Messrs. Scarlett, Archibald, Dewar, McClure, Miller, Johnson. Report was adopted and a vote of thanks was passed to the retiring President, Mr. McCabe, and also to Mr. Hodgson, for their zeal in forwarding the interests of the Association.

A resolution was carried, to the effect that in the opinion of the association holidays for schools in rural districts should be four weeks, and in cities or towns six weeks, and that the holidays should commence on 1st July.

A motion was carried requesting the directors of the association to make arrangements for an excursion at the annual meeting.

Mr. Scarslet, delegate to the Protestant Teachers' Association of Quebec, presented a report giving a concise and business-like account of the proceedings of that convention. He received a vote of thanks. The following motion was then carried. "That the chief superintendent of education be requested to put the clause and the act referring to Teachers' Institutes into operation as soon as practicable."

On Friday the finance committee reported, that having examined the treasurer's books, they found that the sum of \$99.50 had been paid out, leaving a balance of \$175.63, with interest thereon to the present date. The report was adopted.

The following topic was then taken up: "Is the present regulation respecting the selection and copyright of school books conducive to the best interests of education?" The constant changes being made in text books, and the trouble, confusion and expense attendant thereon were loudly condemned.

The next topic was then taken up, as follows: "The co-education of the sexes and the advisability of the school law being so amended that girls may be recognized as pupils in the Grammar schools." The co-education of the sexes was strongly advocated, and no person spoke against it. Mr. Hodgson said he was the best authority for stating that it was clearly the intention of the act to open Grammar Schools to girls as well as boys. The meeting adjourned on Friday night.

The woods on the north shore of Lake Superior are reported to be rapidly burning up. Fires are raging through the standing pine timber with intense rapidity. Millions of dollars' worth have already been destroyed, and millions more will be before the consuming element can exhaust itself. The weather in that neighbourhood continues dry and warm. The atmosphere is so hazy that the steamers find navigation exceedingly difficult.

While two policemen were on duty near the Victoria Barracks at Ottawa, on Tuesday morning, they were fired at by a soldier of the 100th Regiment from a barrack window. Fortunately the shot did not take effect. The man was immediately arrested by one of the sergeants, while in the act of re-loading his rifle for a second attempt.

Annual Meeting of Grammar School Masters' Association.

The above Association met in Toronto on Tuesday last. After the usual formal opening of the meeting, some communications on the subject of the recognition of girls in our Grammar Schools, and upon the present programme of Grammar School instruction, were received. The afternoon session was chiefly occupied by discussing the propriety of admitting girls to the Grammar Schools. All who spoke favored the co-education of the sexes. A committee was also appointed to draft a series of resolutions on the question. Another committee was appointed to examine the constitution and by-laws, and suggest such amendments as might be considered necessary. At the evening session, Howard Hunter, M.A., Chairman of the committee on the U. C. College question, read an explanatory report, entering fully into the past history and present administration of U. C. College, and showing its relation to the Grammar Schools of Upper Canada. Fifteen hundred copies of the report are to be printed and distributed. The report of the Committee on text books approved of the authorized list with a few exceptions, and recommended that to that list a few not enumerated be added. On motion it was resolved that arrangements be made for an Association Excursion, to take place in the summer vacation of 1869, executive committee to make all necessary arrangements for it. The committee appointed to draft a series of resolutions on the subject of girls in Grammar Schools, presented their report, which recommended that the course of studies for girls and boys should be substantially the same; that the question of the co-education of the sexes in the higher schools be left to the decision of the local Board of Trustees in Grammar Schools be so amended as to give more prominence to Natural and Experimental Science, and to add to study of English Literature the Elements of Logic and of Mental Science, and that the study of Greek be optional, except in the case of students preparing for colleges or the professions.

In consequence of an assertion that the Grammar School moneys had been appropriated to the use of Common Schools the following resolution was carried: Resolved—That in the opinion of this association the Government grant for each year should be apportioned on the average daily attendance of Grammar School pupils during that year, and that at least this sum and the half from local sources be wholly expended in paying the salaries of the Grammar School masters for said year.

The Convention then proceeded to the election of officers for the ensuing year, when the following gentlemen were elected: President, Wm. Bassie, Esq., A.M., Galt Grammar School; Vice-President, Wm. McCabe, Esq., L.L.B., Oshawa G.S.; Treasurer, J. M. Buchan, Esq., A.M., Hamilton Gram. School; Secretary, J. H. Hunter, Esq., A.M., Dundas G.S.; Councilors, Rev. W. J. Sargent, A.B., Ingersoll G.S.; J. B. Dixon, A.M., Peterboro G.S.; J. S. Seath, A.B., Brampton G.S.

THE GUELPH POLICE COURT.

MONDAY, 10th.—Robert Oakes appeared again this morning to answer a charge of having allowed a disturbance in his house. A large number of witnesses were examined for both prosecution and defence and the case was again adjourned until to-morrow.

Andrew Stewart, a little boy without parents or friends who has been roaming about the streets for a length of time and exhibiting vicious habits, was charged by the Chief Constable with vagrancy. His Worship sent him to goal for 21 days, and said that in the meantime he would endeavour to secure admission for him into some asylum.

Geo. Stiffler was charged by John D. McWilliams, of Pushtich, with leaving his service before the term of his contract expired, and without his permission. All the evidence had been given the parties came to an agreement between themselves, and Stiffler goes back to put in his time.

AN EXTRAORDINARY SCENE IN IRELAND.—The Belfast papers describe an extraordinary scene before the house of the man Baird, in Monaghan, from which the Orangemen recently fired upon their assailants. After the length of time and the number who died from wounds that he received, his friends made a procession, carrying his remains in front of a hearse. When they arrived opposite Baird's, the procession halted, as by previous concert, and the whole number—about two thousand men—kneeling down shouted, "Murder, murder," and prayed maledictions upon Baird and his household. "For twenty minutes," says the Belfast News Letter, "they cursed him and his family, in a manner dreadful to listen to. They then got off their knees, and the coffin was raised to the shoulders of the six young men who had previously carried it. The hearse was again started, and the coffin bearers marched slowly after it, followed by a large crowd." The women took a prominent part in the attack on the Orangemen, and in the breaking of the windows. They gathered stones from the lanes ways near, for the use of their male friends, and some were in attendance with hammers to break them, so as to make them fit for throwing." It is to the credit of several of the Roman Catholic priesthood of the town, that they strove to persuade the Roman Catholic mob not to attack the Orangemen. At the grave Rev. Mr. Duffy, the parish priest, addressed those assembled, in a manner calculated to allay excitement. "He had done his duty most to keep the people under his care from being engaged in any disturbance, but his advice had not been attended to, and those who loved the danger must just perish therein." The military detachment has been withdrawn from the town, and all apprehension of a renewal of rioting has ceased.

U. S. NATIONAL DEBT.—The public debt statement just published, shows that the debt bearing coin interest has increased \$87,534,958; debt bearing currency interest decreased \$118,372,650. Total debt, decreased, \$10,168,899.

The largest saw-mill but one in the United States is located at Clinton, Iowa. It is worked by an engine of nine hundred horse power, and when in full operation would furnish employment for a thousand men.

BY TELEGRAPH

Despatches to the Evening Mercury.

(BY ATLANTIC CABLE.)

London, 7.—The races at Lewes commenced to-day. The Dewarrene handicap 100 sovereigns each, five furlong, with 100 added, for all ages, about five furlongs, was won by the Duke of Hamilton's three year old ch f Leonie.

London 8.—Late telegrams received from Shanghai bring the following intelligence.—A French trading station near the frontier line of Cochinchina was attacked on the 16th of June last by a band of Annam rebels. The post contained 25 men, all told, who made a gallant resistance. After a desperate fight, however, they were overpowered, captured and massacred. A strong French force was subsequently sent against the band. On the 21st of June, after a short fight, the French succeeded in dispersing the rebels. To-day was the second and last of the Lewes August meeting. The great feature to-day was the Lewes grand handicap of 15 sovereigns each with 200 sovereigns added, the second horse to receive 25 sovereigns out of the stakes—distance two miles. The race was won by 'Birdseek.'

Paris, Aug. 8th.—Lord Stanley and M. Moustier held a long conference here to-day, during which questions involving the present and prospective of Europe were fully discussed. It is understood that Lord Stanley, on behalf of British Government, expressed a desire for the maintenance of peaceful relations with all powers on the continent, and renewed expressions for the continuance of present friendly relations with France. M. Moustier responded in like manner, and held that while the Emperor Napoleon and Queen Victoria of England enjoyed amicable relations existing between the two countries, that fact was of itself a guaranty of future peace of Europe. The interview is understood to have been most satisfactory, and good results expected to spring from it.

Paris, Aug. 9.—The Standard says, at the interview between Lord Stanley and M. Moustier yesterday, the most satisfactory assurances of peace were exchanged, and confidence of both Ministers in future tranquility of Europe strongly confirmed by the opportunity they have had of renewing the good understanding which has so long existed between the two governments.

Lussemb, Aug. 9.—Her Majesty Queen Victoria arrived here yesterday.

American Despatches.

New York, Aug. 9th.—The steamship City of Baltimore arrived. The Monitor says the Franco-American Atlantic Cable will be finished by 15th Aug., 1869. La Liberté says Dr. Fausy has become a convert to Catholicism. It is rumored that three distinguished Jurists, Sir W. Page Wood, Justice Selwyn and Sir Fitzroy Kelly are to be raised to the British Peerage. The Italian Parliament has passed a bill granting pensions to widows and orphans of Doctors who died in attending cholera patients. A strike by journeymen bakers of Berlin was threatened on the 30th. Violent demonstrations were made at Prague, in name of Bohemian nationality. Picardis threatening Von Boust and insulting the Emperor were posted in several places. The garrison is about to be reinforced. Nine christian churches of the primitive Byzantine style of architecture, have been discovered at Lallibelo the Holy City of Abyssinia, which have not been visited by Europeans for over three centuries. A Berlin letter says the rumors of reconciliation between Prussian and Austrian Cabinets do not meet encouraging reception, besides such negotiations would not be undertaken in the absence of Bismarck. The entire provinces of Spain are suffering severely and are threatened with famine, the distress being greater than at any time for half a century.

General Election in Britain.

Mr. Hepworth Dixon accepts an invitation to stand as the Liberal candidate for Parliament for Marylebone, on condition that his constituency shall return him at their own expense, and make the election a model of electoral purity. He estimates the average cost of a seat in Parliament at two thousand pounds, and the total cost of electing a House of Commons at two million pounds. There can be no doubt that the degree of corruption practiced in Parliamentary elections in Great Britain far exceeds that prevalent in any of our elections. While there are occasionally in and near the larger cities, districts where from \$5,000 to \$15,000 are occasionally expended to carry an election, or more frequently to buy the nomination in the Convention of the party, whose nomination is equivalent to an election, yet these cases are exceptional.

The corruption manifest at the hustings in England is, however, only the outcrop of the underlying corruption which characterizes English legislation. All offices and appointments, and necessarily a great many voters, are for sale under certain polite and aristocratic forms. A commission in the Horse Guards, or a Bishopric in Ireland or India, has its current price. The money corruptly paid to obtain these offices must be corruptly won from the mal-administration of their duties. Thus the corruption which comes to the surface at the Parliamentary elections, like a scab, reveals a deeper corruption in the blood, pervading the whole body politic.

West York Election.

MR. WRIGHT AHEAD!

We received a special despatch from Toronto at 3 o'clock, stating that Wright was 7 ahead all over the riding at 11 o'clock, with every prospect of increasing his majority.

THE REPEAL MOVEMENT IN NOVA SCOTIA.

CONCILIATION A FAILURE!

The following is the despatch from the Globe's special correspondent on Saturday. The failure of the Conference yesterday afternoon took no one by surprise. Sir John A. Macdonald, Cartier, Mitchell and Kenny, were before the Repeal Committee, but made no progress, or at all events none sufficiently definite to be in writing, as they were asked to do. It is understood that Ministers said they merely came to inquire as to the cause and extent of the dissatisfaction in Nova Scotia. The Conference lasted about an hour. In the evening the Convention met again, and continued sitting till a late hour. Mr Howe made a full verbal report as to the doings of the Committee. The business of the Convention was closed by the adoption of the following resolution:—"Whereas this Convention have fully considered the reply of the British Government to the address of the representatives of the people of Nova Scotia to Her Majesty the Queen, praying for a repeal of the Act uniting Canada, Nova Scotia, and New Brunswick, and the course which it is expedient to pursue in the present crisis of the public affairs of this Province, be it therefore resolved, it is the opinion of this convention that it is necessary to use every further lawful and constitutional means to extricate the people of Nova Scotia from a confederation that has been forced upon them without their consent and against their will."

This resolution was adopted unanimously. Under it the Local Government and Assembly will, it is understood, proceed to devise means of continuing lawful and constitutional agitation. They will probably reply to the Duke of Buckingham's despatch, and urge that as the Dominion Government has not proposed measures of relief as his despatch seemed to promise, Nova Scotia has the right to renew the demand for separation from the Dominion. Other means of lawful agitation are advocated to which I have before referred. The idea is retained of requesting members of the House of Commons to absent themselves from the sittings of the Dominion Parliament. Several Dominion members refused to commit themselves to that course. The adoption of the above resolution is a triumph of the moderate wing of the repeal party, as all the members of the Local Legislature yielded and voted for the resolution. It puts at rest all apprehension of violent measures. It is said however, that the extremists resisted very stoutly, and for a long time it is surprising how much fear there was that a more violent course might be adopted. It is now believed that the Legislature will attend to the business of the country, which has been neglected since the Dominion was inaugurated. Though the crisis may be said to be past, considerable interest is felt to know what course the Local Government will propose to the Legislature on Monday. If some scheme of agitation is not proposed the extremists will be dissatisfied.

A BANK MANAGER SENT FOR TRIAL.—On the 1st of the present month, Mr. W. Rhind manager of the Quebec Bank, in Montreal, charged, under affidavit, the Drummondville Bank Extract Manufacturing Company with secreting their property, with intent to defraud their creditors, of whom the Quebec Bank was one. On Wednesday, the manager of the company laid affidavit before Mr. Brehaut, showing that no secretion of property had taken place, and charging Mr. Rhind with wilful and corrupt perjury for having made the statement. Thereupon Mr. Rhind was brought before the police magistrate, Mr. Brehaut, and bound over to take his trial at the next Court of Queen's Bench. Bail was accepted, Mr. Rhind in £200, and the Hon. Henry Starnes and Mr. Stephens in £100 each.

EMIGRATION.—The number of passengers brought by sailing and steam vessels from some of the principal ports in Europe, and the mortality and births on voyages for the month of July, were as follows: Cabin passengers in steamships—Bremen, 536; Glasgow, 72; Hamburg, 534; Havre, 275; London via Havre, 108; and Liverpool, 718. Steerage passengers in steamships—Bremen, 4,113; Glasgow, 1,110; Hamburg, 2,849; Havre via London, 983; and Liverpool, 9,095. Steerage passengers in sailing vessels—Bremen, 3,880; Hamburg, 985; Havre, 188; London, 95; and Liverpool, 3,893. The births numbered 15, and the deaths 83. The destination of 25,910 passengers arrived during July was as follows: Alabama 5, British Columbia 5, Canada 187, California 325, Connecticut 817, Delaware 7, District of Columbia 74, Georgia 8, Illinois 4,226, Iowa 690, Indiana 408, Kentucky 135, Kansas 158, Louisiana 15, Massachusetts 611, Maryland 125, Maine 49, Michigan 684, Minnesota 635, Nevada 1, Missouri 400, Mississippi 5, New Hampshire 30, Nova Scotia 6, New York 7,617, New Jersey 685, New Brunswick 2, Oregon 3, Rhode Island 104, Ohio 1,170, Pennsylvania 1,228, South Carolina 12, South America 25, Texas 30, Tennessee 46, Vermont 17, Utah 1,872, Virginia 52, West India 2, Wisconsin 2,927, Colorado 1.

Hymn of Nature.

So might reveling o'er
Blessing every flower and tree;
Mountain towering in the sky,
Where the tempest thunder by;
Valley in whose rocky deeps
Honest labor worship keeps;
River that unfettered rolls
Athens for all chainless souls;
Ocean that responds sublime,
Organ in the choir of time;
O, what glory, joy divine,
Make ye all a mighty shrine,
Blessings on the Father-God
For such splendor on the sod;
Nations join the massive strain,
Thunder out the grand refrain—
Blessings evermore to Him,
Incense to the Father-God,
Who takes for the dear child
Human spirits from out the sod.

CHAPTER XXVII.—AN UNPLEASANT RECEPTION.
To seek hot water beneath could ice,
Surely it is a great folly—
I have asked grace at a graceless face,
But there is none for my men and me
But had I ken'd ere I cam' frae hame
How thou unkind wad' be to me,
I wad have kept the Border side
In spite of all thy force an' thee

When Gilbert awakened from the sleep
into which he had been thrown by the potion
which Kirsty Hyslop had given him he expe-
rienced a peculiar sense of gratitude and re-
lief. He looked back to his illness, to the
presence of Mistress Douglas, and to her
strange disappearance as one might have
looked to something that had happened a
long time ago. But this calmness was gra-
dually overcome by an eager desire to be up
from his couch and out in the world doing
the work that had fallen to him.

Youth and the kindly treatment of his
strange leech and nurse—Kirsty—worked
wonders. She had told him of the ominous
manner in which Mistress Douglas had gone,
or, rather, had been stolen away, and when
at length he stood dressed upon the floor,
with renewed health fluttering through his
blood, one of his first thoughts was of his
fair friend, and he was ready for her sake to
confront even the great Earl Angus.

A few days more and he was able to walk
about, and at last came the day when he was
able to take leave of the apartment.
Kirsty stood with her hands clasped be-
hind her, and a queer inquisitive look on her
face.

"Ye're weel noo, an' ye're awa' frae
the house, as your wings can bear ye.
But ye'll come back again."
She spoke as if she were quite indiffer-
ent to the subject, and as if indicating a neces-
sity rather than a probability.

"I will come back, Kirsty, be sure," he said
gratefully, "and I'll try to make my coming
worth looking for."
"Nae doot, but ye'll live to come on your
ain account, no mine."
"Whatever it may be, I will be here before
long."

Whilst he had been lying under the wo-
man's care he had become so familiar with
her appearance that all her peculiarities dis-
appeared. He had learned, too, that be-
neath a rough exterior lay much kindness,
although his expression might be made in the
grimmiest manner. So he spoke with free-
dom to her, and with gratitude.

He walked to Selkirk, and there procured
a horse from the Souter's Inn. From the
garrulous host he learned something of Tus-
sliaw's route and the occasion of it.

At first he attributed the report that Sir
Walter Spens had appeared in person to res-
cue his wife from the Border as a mistake
arising from the timely interposition of some
unknown knight. But when he was shown
the proclamation of the Council of a reward
for the head of the traitor Spens, who had
been seen in Selkirk, he became amazed and
puzzled.

Marvelling at the strange story which had
been related to him, he rode to Edinburgh.
He put up at the hostelry of St. Andrew's
Rest, and there he heard something further
of the discovery that Spens still lived, and of
the unavailing efforts that had been made to
capture him. Thoughts and feelings galloped
so rapidly through his mind and heart that
had he asked himself the question whether
or not this intelligence gratified him, he
would have been perplexed at first for the
answer.

At last, however, he overcame the twinge of
pain he suffered in knowing that Margaret
Spens could never be more than a friend to
him, and rejoiced at the thought that what-
ever happened to him, she was safe with
her husband. Somehow the memory of Mary
Douglas had its share in reducing the pain
he might have experienced had his feelings
been what he fancied them to be when he
stood as the champion of the widow's cause.

He pledged them in his cup of Burgundy,
and then, feeling very much as if he had
been left alone in the world he proceeded to
Holyrood.

He was informed there that her Majesty
and the King and Court had returned from
Kelso on the previous day, and were at pre-
sent at the Castle, where he would find Cap-
tain Lindsay.

To the Castle Gilbert hastened, and his
heart palpitated a little as an ordinary usher
ed him into his Captain's presence.

TO BE CONTINUED.

THE WESTERN HARVEST.—The Chi-
cago Journal of Saturday last says a week
more of good sunny weather will insure
the safe and successful gathering of the
largest crop ever grown in the Northwest.
The corn and potato crops also promise
unprecedented abundance.

A boy named Hodgkins, who left his
home at Smith's Falls three years ago to
follow the fortunes of Howe's Circus, and
who had not since been heard of, was
recognized as one of the tumblers, by his
sister who attended a performance at the
same circus a short time ago. The boy
had paid so little attention to the route he
was travelling that he didn't know he
was at home.

THE FIRE AT COLLINGWOOD.—On Fri-
day we published a despatch to the effect
that the fires were raging in the woods
around Collingwood and threatening the
destruction of the town. It appears that
the fire is not yet extinguished, but owing
to a shift in the wind Collingwood is
no longer in danger. But at Stayner on the
Northern Railway eleven houses includ-
ing the railway station and the freight
and trunk house were burnt down, and the
track around the station was also partly
destroyed. Three miles north the
track was damaged for half a mile, and a
culvert destroyed. Men are at work and
the damage will be repaired as soon as
possible.

There is quite a run in the newspapers
now-days on wild men and big snakes.
The New Brunswick papers give graphic
accounts of a serpent, from sixty to a
hundred feet in length, which has taken
up its abode in Lake Utopia, in that
Province.

FOUND DROWNED.

NOTE.—At daybreak yesterday a fisherman
found the body of a young man on the rocks above
this place. Name unknown.—Daily News.

Received for Goods in one year 16,869,185
Profit realized in one year 1,311,130

On a capital of about four millions of dollars they do a business of about sixteen millions of dollars,
and are thus enabled to sell at a profit of 8 per cent. instead of the usual profit of 25 per cent., and
their customers save \$2,786,150 annually, besides receiving a share of the profits.

The subscribers have conducted their business on the same principles, with nearly the same results.
Their business has rapidly increased, which has enabled them to turn over their capital four times a
year, and sell at one-fourth of the profits of merchants, who only turn over their capital once a year.

Besides Paying a DIVIDEND to their Customers.

In proportion as the business increases, prices will either be reduced or larger dividends paid.

AN HONEST THEIF.—In May, 1867, Mr. J. Girouard, of Stanfold, was robbed of \$504 on the steamer from Montreal to Quebec. His pocket book contained, besides the above sum, a number of papers, promissory notes, &c. In October last he received the pocket book and papers, with a letter stating that the money could not be returned then, but would be in time, and in small sums. Lately Mr. Girouard has received a remittance of \$21, with the statement that the sender's business was prospering, and he hoped soon to refund the whole sum.

The New York Times, which is probably as well informed on the subject as any paper, hints that Mr. Seward will soon declare publicly for Grant.

India & China Tea Co.
Home Depot at London and Liverpool. Canada Depot, 23 Hospital Street, Montreal.

THE India and China Tea Company begs to call the attention of the Canadian community to their directly imported Teas, which for purity and excellence will be found unequalled.
The Company have made arrangements whereby they have secured the entire produce of some of the best plantations in Assam and on the slopes of the Himalayas, and by a judicious blending of these magnificent Teas with the best varieties of China produce, they are enabled to offer to the public Tea of quality and flavour hitherto unknown to the general consumer. These Teas are in high favour in England and France, and a single trial will prove their superiority.
The Company supply two qualities only, either Black, Green or Mixed. Their Black Teas will be found to possess great brilliancy and flavour, combined with colour and strength, and to be entirely different to the flat and vapid article usually sold as Black Tea, while their Green Teas are altogether free from the deleterious mineral powder so commonly used for coloring the leaf.
PRICES: Rich, full-flavoured Tea, for family use, a real genuine and fine article 70 cents per lb. Finest quality procurable, one dollar per lb.
All Teas above can be had either Black, Green or Mixed.
To be had in packets of Quarter Pound Half Pound, One Pound, and upwards, or in tin canisters of 5 lbs. and upwards from the Company's Agents in all the chief towns of Canada.—N. B. All the tea packages are lined with tin foil paper, and the Tea will consequently retain its flavour any length of time.
Opposite—All packages have the Company's trade-mark, without which none are genuine.
