

News From The Parliament Buildings

TORONTO'S BILL EXTRAORDINARY

Hon. W. J. Hanna Says Expropriation Clause is Far Reaching.

McPHERSON'S GOES ON But Mr. Hanna Announced That It Was Not Satisfactory.

The City of Toronto's application for the right to give notice of the expropriation of land and thereby fix its value at the time such notice is registered, without allowing owners any compensation for any enhanced value which may accrue during the twelve months for which such property is held up, came in for brief consideration in the legislature yesterday when city bill No. 117, in amendment to the municipal act introduced by Mr. McNaught, was up for its second reading.

Hon. W. J. Hanna, before consenting to the second reading and reference to the municipal committee, said he thought that clause 3, which embodies the above proposal, was rather extraordinary. "If a municipality may register notice that it may require certain land within a year, it means that the valuation is to be made back to the time of the registration of the notice. In the meantime, the owner of that land is 'tied up.' His land is not available for any other purpose, and he is not allowed to sell it. He can't even plant a fence. I call attention to this point and others because they seem to be a little far reaching, but there is no objection to the bill going to committee."

The same bill proposes also a license tax on wheeled vehicles used on the highways and for fixing a charge or fees on buildings which encroach on the highways and for licensing public garages. It also prohibits girls and women from operating hand-organs on the streets.

A second bill introduced by Mr. McNaught for the regulation of buildings where gasoline is used, for purposes of fire protection.

Not Satisfactory. Mr. McPhereson's bill, allowing municipal corporations to assess the amount of the cost and in excess amount to maintain payments for the time fixed by the court of revision, was passed thru to committee. Mr. Hanna intimated that the bill was not satisfactory, but allowed it to go thru for discussion after a special request from the sponsor.

George S. Henry (East York) moved the second reading of his bill, providing that election day in local municipalities be changed to New Year's Day, that municipalities be empowered to appoint road commissioners, outside of the members of the council, to intelligently apportion highways expenditures, and that councils be designated as first, second, third, etc., in order to make a distinction of usefulness, as indicated by the length of service, his bill likewise received a second reading.

After some little constitutional discussion W. H. Ferguson of Kent, the proposer, allowed the name of the committee to be changed to "Road Commissioners," outside of the members of the council, to intelligently apportion highways expenditures, and that councils be designated as first, second, third, etc., in order to make a distinction of usefulness, as indicated by the length of service, his bill likewise received a second reading.

Almonte School. For a few brief moments the Almonte school question was on the boards and the minister of education answered a series of questions. The difficulty arose out of the granting of certificates to a teacher who had passed the proper examinations, but was under age. T. Marshall of Monck has signified his intention of bringing it up for a fuller discussion at a later date.

A statement of J. G. Anderson of Bruce (Liberal), to the effect that all good fruit-growers, including the farm director, in Western Ontario, were ashamed of the Jordan Harbor experimental station, gave rise to remarks from the minister of agriculture. The Bruce member stated that although the cost had been \$150,000, the farm had never justified its purchase and suggested poor management.

Hon. Mr. Duff justified the farm's existence by showing that all classes of fruit were getting attention, and that experiments had been carried out successfully. The new manager was an expert, and a trip which some of the ministers had made to the grounds had convinced them of its bright possibilities.

Dr. Jessop of Lincoln also came out strongly in its defence and stated that the work would be of great value to the growers ultimately.

Evil and Means for Fighting It Described by Professor H. T. Barnes

That splendid water power resources in the northern part of Ontario have been rendered unavailable for the establishment of power plants owing to ice floes which clog the machinery, was the assertion made at a meeting of the Electrical Engineers' Association, held at the Engineers' Club last night.

In an address on the formation and the relation of ice to hydro-power development, Prof. H. T. Barnes of McQueen's University, Montreal, said that a method which was being tried to overcome the difficulty experienced from floating ice was by ice booms, which are used to still the current while the surface freezes over. Once this is accomplished the current runs below the ice covering and the operation of the machinery of the plant goes on entirely free of ice clogs.

ANNIE J. JINKINSON HAD CONTENTS OF CHATELAINES Many Articles Reported Missing Were Found in Clothing of Arrested Woman

Annie J. Jinkinson of East Charles street was arrested in the women's cloak department of the T. Eaton Co. store, by Miss Leavitt of the morality department yesterday afternoon on three separate charges of stealing shoppers' chatelaines.

On account of the numerous thefts reported from the department the police were called in to investigate, and Miss Leavitt and Miss Mintz, assigned to the job, searched their chatelaine bins on a chair while they examined the goods on the counter. Shortly the accused was found to have articles reported missing from two other chatelaines stolen the day previous.

Chamberlain I.O.D.E. The Chamberlain Chapter, I.O.D.E., held their regular meeting yesterday. Mrs. Scott gave an excellent address on "Canadian Folk Lore." Illustrating her points by eloquent readings of poetical selections, Miss Kingsley, who gave an interesting paper on "Current Events." Miss Lawrence Rolph, treasurer of a number of years of the chapter, was presented with a silver salver for her marriage. The tea hostesses were Miss A. McMichael and Mrs. Walter G. Haynes.

STOLE COAL, THEY SAY. Charged with the theft of a quantity of coal and brushes from his employer, H. J. Smith, lithographer on East King street, Albert W. Springton, 22 Ontario street, was arrested by Acting Detective Leavitt last evening.

Only One "BROMO QUININE" Whenever you feel a cold coming on, think of the full name, LAXATIVE BROMO QUININE. E. W. GROVE'S signature is on box. 25c.

WAIT AND SEE HANNA'S ADVICE

When Asked by Liberal Whip of Anti-Treating Bill.

QUESTIONS RULED OUT How Many Members Other Than Ferguson Would Be Disqualified.

The Ontario opposition do not yet know whether the government will introduce anti-treating legislation this session or not. They made an attempt yesterday afternoon to get a direct answer from the provincial secretary, but were advised to "wait and see."

Chas. Bowman of Bruce, Liberal whip, proposed the question, and in reply Mr. Hanna claimed it out of order.

"If the honorable member will wait sufficiently long he will find out," said Mr. Hanna. "In the meantime it is not proper question to appear on the order paper. It is never in order for the government to be compelled to answer questions on matters of policy."

Mr. Rowell demanded that they be allowed to prove that it was a proper request, but the Speaker held the subject as "undebatable" and closed the discussion.

The matter of members being in danger of their seats thru holding temporary positions with the federal government was revived in another opposition question. How many members, other than Howard Ferguson, would have incurred disqualification except for the special act put thru they asked.

Outside the Rules. The provincial secretary immediately took exception to the form of the question and claimed it to be outside the rules. For one thing the rules claimed that no unnecessary allegation be introduced in a question designed to bring out certain information. The minister pointed out that in that event the name of Mr. Ferguson should be omitted, for it never had been proven that he was within the scope of the section involved. It was largely a matter of opinion. One lawyer who had been consulted had felt that he had not been subject to the charge.

Mr. Hanna considered the question to have been specially prepared in order that Mr. Ferguson's name might be printed over the journals, and was largely without necessity. The question without it gave every tittle of evidence necessary, and the answer would be the same in any case.

After some little constitutional discussion W. H. Ferguson of Kent, the proposer, allowed the name of the committee to be changed to "Road Commissioners," outside of the members of the council, to intelligently apportion highways expenditures, and that councils be designated as first, second, third, etc., in order to make a distinction of usefulness, as indicated by the length of service, his bill likewise received a second reading.

Almonte School. For a few brief moments the Almonte school question was on the boards and the minister of education answered a series of questions. STARTLING FACTS IN RAILWAY CASE

Goderich Newspaper Says Someone Must Be Called to Severe Account.

O. & W.S. INVESTIGATION Accountant's Report Will Be Made Public at April Sitting.

According to The Goderich Star, there will be some startling revelations when the Ontario and West Shore Railway investigation is resumed before the Ontario Railway Commission on Monday, April 7. The last issue of The Goderich Star states that the expert accountant, Mr. Ness, completed and handed in his report last week to the members of the board of accountants. "In his examination," the newspaper predicts that some startling figures and facts will be presented when the report is made public.

The total claim of the accountants, it is said, will justify the suspicions that there was something wrong when so much money was paid out on alleged engineers' certificates, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. "The conclusions reached by the accountants," says the Goderich newspaper, "in his examination of the books and papers given him, will fully justify these suspicions, and, as shown in the report of Mr. Middleton, the total claim has been paid out exceeded his careful estimate, done by about \$200,000. York County and Suburbs of Toronto

INSIST ON PUBLIC WEIGH SCALE FOR SODAS

District Voters Receive Letter From Commissioner Chisholm.

CARS SHOULD CONNECT

Attempt Will Be Made to Get Civic Cars to Meet T. S. R. Service.

A largely-attended meeting of the executive committee of the Dominion Bank Chambers Association was held yesterday afternoon in the Dominion Bank Chambers, Eastcourt, President Holmes presiding. The following letter was read from Commissioner Chisholm of the property department.

The matter will be considered by the committee at their meeting on April 15. No connection made. A complaint was brought by J. Moon to the office of the meeting with reference to an arrangement between the T. S. R. and the St. Clair Avenue line, whereby the last St. Clair Avenue light cars going west, at 1.55, should wait for the last Avenue road car of the T.S.R. Mr. Moon's complaint is that on St. Clair Avenue the light car going west had left Avenue road two minutes before the arrival of the T.S.R. car, leaving a gap of ten minutes between the cars, the objection to continue their journey on foot.

The secretary was instructed to write Manager R. J. Fleming and Mr. Powers of the civic cars department, to see if some arrangements cannot be made to remedy the situation.

A committee was appointed to consider and frame up a set of rules and regulations for the association. The following were the members: W. F. Maclean, M.P., and W. W. Lord.

Should Buy Now. A resident of the St. Clair section of Eastcourt, speaking to The World with regard to the dearth of cheap or moderately cheap houses to rent or buy in the district, says that in his opinion, in a short time there will be plenty of cheap houses, if no park is secured for the district.

He claims that there is no choice now in the matter with regard to location. The city will either have to take on the one of the two remaining large open spaces.

The people who own the two properties," he said, "know the value of them, and the park committee would be well advised to act quickly.

Morrison Avenue, at the present time, and the traffic is very difficult. The street is blocked by barriers at several places, erected by the contractor in connection with the building work.

It has been arranged to hold the Sunday school anniversary on the first Sunday in April. This will be followed by a picnic on the 6th and 8th, at which the program will be given by the children.

Bible Class of the church held their first social and concert in the new Sunday school building on the 22nd. The audience was very present.

Bible Class now has an attendance of over a hundred young men and women and boys have been organized, and each of the classes is very active.

Residence in Riverdale are still hoping for a public lavatory to be placed in the district in the near future. The North York Council is expected to be continually time past.

St. John's Lodge, No. 229, O.Y.B., held an Old English supper and concert last evening in Little's Hall, 47 Avenue, Bro. William Thomas, W.M., presiding.

An excellent program of music was rendered, the star of the evening being Miss Thomson, who sang several songs. Miss McKinnon, a Scottish dancer, and Mr. Thomas, soloist, also won favor with the audience.

MOUNT DENNIS

A new Orange Lodge has been formed in Mount Dennis. It is No. 252, and will be named at a special meeting to be held at the residence of Rev. R. A. Spencer, district master of the Orange Order, on Monday evening, March 23rd.

Rev. R. A. Spencer, district master of the Orange Order, presided. He was assisted by C. E. Egan, local master; W. Flinn, D.M.; A. A. Thomas, D.M.; J. G. Wright, P.M.; and the officers of Toronto Junction and West York District Lodges. The following officers were elected: W. Legrow, W.M.; Geo. Charney, D.M.; H. H. Chapman, C. Legrow, presiding secretary; C. Barrett, financial secretary; J. Barrett, treasurer; F. Kidd, first committee.

The purple and blue degrees were conferred. The Epworth League of the Methodist Church will give the second series of color socials on Monday night, at eight o'clock. A musical program, choruses, duets and solos will be rendered.

SUTTON

The Epworth League of the Methodist Church will give the second series of color socials on Monday night, at eight o'clock. A musical program, choruses, duets and solos will be rendered.

NEW ORGANIZATION FOR WORK TOWNSHIP

Delegates From Ratepayers Associations Met in Labor Temple.

T. WILCOX PRESIDENT

W. F. Maclean Addressed the Meeting on Township Issues.

At a meeting in the Labor Temple last night a new organization, to be known as the Central Body of York County Ratepayers' Association, was formed and officers elected, representatives being present from Eastcourt, Oakwood, Mount Dennis and other sections of the township. The following were elected: T. Wilcox, president; J. Jordan, vice-president; and H. Sweeney, secretary-treasurer.

The objects for which the association has been formed are: To promote better living conditions for the residents of the township of York, and to assist in the formation of ratepayers' associations in the unincorporated sections of the township. Regular meetings of the association will be held on the second Tuesday of each month, and the membership will be restricted to delegates from each of the subsidiary ratepayers' associations.

RIVERDALE NEWS—STREETS CLOSED—S.S. ANNIVERSARY

Now that the Gerrard street bridge is closed for repairs the only road besides Queen street running into the city is the one through the center of the city from other parts of the city from Riverdale, is closed to traffic owing to the closing of the bridge. The state of affairs is causing numerous complaints by the ratepayers of the district, and it is suggested that at least one road be kept open.

To Be Opened World last night. Alderman Walton stated that he had spoken to the city engineer and he had promised to see that Winchester street would be opened out in the immediate future.

The condition of Wilton avenue from Broadview avenue to Munro street is also a matter of concern. When paving the avenue last fall the contractor had left the portion named, to allow the contractor to complete the work when this took place it was too late to complete the paving.

In connection with the building work on the corner of Broadview and Queen streets, the contractor has been notified to complete the work on the corner of Broadview and Queen streets, the contractor has been notified to complete the work on the corner of Broadview and Queen streets.

The extension of the Bloor street line to the north, which met with the unanimous approval of the ratepayers and the city council, is now being carried out by the Street Railway Commission.

It was finally unanimously decided that a committee consisting of the president, Secretary, and Treasurer, should be appointed to look after the matter.

The committee will also take up the question of providing some relief for the ratepayers of the Toronto Junction District Orange Lodge officers journeyed to Mimico last night to attend a meeting of the Toronto Junction District Orange Lodge.

Other News. G. M. Jones, B.A., delivered an illustrated lecture at the monthly meeting of the Humboldt Collegiate Institute on the subject of "The History of the City of Toronto." The lecture was very interesting and was well received.

EAST TORONTO BAPTISTS WELCOME NEW PASTOR

Amongst those who tendered a reception to the Rev. Donald MacIntyre, new pastor of East Toronto Baptist Church, were Professor J. H. McMaster, University of Toronto, and Rev. W. A. Cameron, pastor of the Baptist Church, Rev. A. G. Vining, College Street Church; Rev. W. G. McKay, L.L.D., editor of The Canadian Baptist; Rev. T. Shields of James Street Baptist, and Rev. Dr. Kierstead, with Mr. Wilson Fenton in the chair.

Dr. McKay referred to the new pastor as "another one of those Scotchmen from the County of Bruce," and welcomed Mr. MacIntyre on behalf of the congregation of Ontario and Quebec.

Training Young Men. Prof. Farmer said there was one phase of the training work which he trusted the pastor would consider the most important—the training of the young men of the church for the leadership.

Rev. T. T. Shields thought the Baptist Church the most democratic of all churches. He hoped the new pastor would be received by the people as a man of divine calling and not expected to do anything for their comfort all the time.

SUFFICIENT SPACE LEFT FOR ROUNDING CORNER

Residents in the neighborhood of Danforth Avenue will be interested to know that the Canadian Bank of Commerce building now being erected in the corner of Dan Mills road and Danforth Avenue, will be located ten feet to the east of the eastern building line of Broadview Avenue. This means that plenty of room will be left for the rounding of the corner, as proposed by the city authorities.

The corner has long been a source of trouble to traffic, many automobiles having been stalled at this point. The new building will be rounded at the corner, as well as the sidewalk.

RATEPAYERS MET IN WARD SEVEN

Home Smith Urges Instant Action Towards Getting Transportation.

COMMITTEE APPOINTED

Will Interview Board of Control and State Ward Seven's Case.

It was a very small audience who gathered last night in the Annette Street School to hear Home Smith discuss the problems of transportation and civic improvement of Ward Seven. The meeting was the regular one of the Ward Seven Ratepayers' Association, but the regular program was prepared, and the weather kept many at home.

Nothing for Taxes. Mr. Smith reviewed the progress of Ward Seven since annexation. He showed that since that time Ward Seven had had a civic committee, and he would like to see that time Ward Seven had had a civic committee, and he would like to see that time Ward Seven had had a civic committee.

We are up against it here," said he. "We have been paying large taxes for water, gas, and sewerage, and we have not had anything in return. We have been paying large taxes for water, gas, and sewerage, and we have not had anything in return.

Mr. Smith reviewed the progress of Ward Seven since annexation. He showed that since that time Ward Seven had had a civic committee, and he would like to see that time Ward Seven had had a civic committee.

He went on to speak of the various routes: "The extension of the Bloor street line to High Park gates, at High Park Avenue, is a good thing, but I would like to know why it was not negotiated five years ago by the city council."

The extension of the Bloor street line to the north, which met with the unanimous approval of the ratepayers and the city council, is now being carried out by the Street Railway Commission.

It was finally unanimously decided that a committee consisting of the president, Secretary, and Treasurer, should be appointed to look after the matter.

The committee will also take up the question of providing some relief for the ratepayers of the Toronto Junction District Orange Lodge officers journeyed to Mimico last night to attend a meeting of the Toronto Junction District Orange Lodge.

MT. DENNIS WANTS DELIVERY OF MAIL

Certain Conditions Must Be Complied With in First Instance.

NOW BEING CONSIDERED

Report to Be Made by Superintendent of Post-offices.

Quite a number of the residents of Mount Dennis attended a meeting held in the public school last night regarding the delivery of mail to the district, which now has a population of about 2000.

N. O. Ramsden, who occupied the chair, discussed the subject, and expressed the opinion that the government could supply a delivery system at a very small cost per capita.

Department Informed. W. F. Maclean, M.P., who had been invited to the meeting, had already taken up with the department at Ottawa why they were not doing anything to supply a delivery system at a very small cost per capita.

Mr. Maclean stated that he had received assurance from the department that the matter would be taken up, and a report made by the superintendent of post-offices, Mr. Ross, at an early date, and he felt satisfied that Mount Dennis would receive a carrier delivery within a short time.

Mr. Maclean was heartily received, and a report made by the superintendent of post-offices, Mr. Ross, at an early date, and he felt satisfied that Mount Dennis would receive a carrier delivery within a short time.

ROUTE SUGGESTED FOR HYDRO RADIAL

Statement of Amounts Different Municipalities Will Guarantee.

The route suggested for the proposed hydro radial is as follows: Starting at Scarborough and York townships it is proposed to run north through the latter townships to the north, as far as the line of the Toronto and North York street railway, and then north to the north, as far as the line of the Toronto and North York street railway, and then north to the north, as far as the line of the Toronto and North York street railway.

The different municipalities would be responsible for the following amounts: Scarborough, \$1,430,273.00; Markham, \$1,233,237.00; North York, \$1,233,237.00; York, \$1,233,237.00; and Toronto, \$1,233,237.00.

TO TELL OF WOODBINE FIRE

Hotel Employees Examined at Prolonged Session of the Inquest—Telephone Operator Asked Questions Instead of Calling Fire Department as She Was Asked.

Last night's sitting of the coroner's jury which is hearing the evidence in connection with the Woodbine Hotel fire, in which five lives were lost, was practically featureless. Sixteen witnesses were called, most of them being employees and guests at the hotel, but practically nothing new was learned regarding the fire or its cause.

Delay in ascertaining the cause of the fire was the main feature of the proceedings. The already established fact that in order for guests to reach the fire escapes, it was necessary for the elevator man to send in the alarm and the doors of the latter were locked. Most of the witnesses expressed the opinion that although these doors were locked they were constructed of such light material, that it would be a simple matter for even a frail woman to break them down. They were not inclined to admit that the fact that the fire escapes were accessible only from private rooms was at all irregular, and expressed the opinion that the hotel was a fire trap.

The evidence was in several instances contradictory as to detail. A. Henderson, who is representing the hotel in the investigation, had some difficulty in discovering what were the real facts in connection with the disastrous blaze.

Delay in ascertaining the cause of the fire was the main feature of the proceedings. The already established fact that in order for guests to reach the fire escapes, it was necessary for the elevator man to send in the alarm and the doors of the latter were locked. Most of the witnesses expressed the opinion that although these doors were locked they were constructed of such light material, that it would be a simple matter for even a frail woman to break them down.

Mr. Henderson stated that he had received assurance from the department that the matter would be taken up, and a report made by the superintendent of post-offices, Mr. Ross, at an early date, and he felt satisfied that Mount Dennis would receive a carrier delivery within a short time.

Mr. Maclean was heartily received, and a report made by the superintendent of post-offices, Mr. Ross, at an early date, and he felt satisfied that Mount Dennis would receive a carrier delivery within a short time.

"Gains 22 Pounds in 23 Days"

Remarkable Experience of F. Gagnon. Builds Up Weight Wonderfully.

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work. I was weak. Now, after 23 days, I look like a new man. I gained 22 pounds in 23 days."

"Sargol" has put 10 pounds on me in 14 days," states W. O. Roberts. "It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure."

Stephen Spear, clerk of the manager of the hotel; I was in the office when I heard of the fire. The elevator man told me that he had received a phone message from room 214 that there was a fire in room 215. I jumped on the elevator with the elevator man and went up to the second floor. We took the hose down and laid it out ready for use. I then ran along the hall to the door of the room, 215, and found the door locked. I turned in the alarm on the Holmes signal box there. I then went into the room, 215, and told the telephone operator to send in the alarm to the fire department. In one corner of my room there was a small blaze, which had apparently burst thru from the bathroom in room 215. I ran down the hall, shouting "Fire" at the top of my voice. I did the same on the first floor, and passed room 110 to 22 lbs. of good, solid, "Sargol" fish, fat and muscular tissue between your skin and bones?

Don't say it can't be done. Try it. Let us send you free a 50c package of Sargol and prove what it can do for you. More than half a million men and women have gladly made this test, and Sargol does succeed in doing what it says. It is a natural, pure, and safe, oil-free, home treatment. Cut out the coupon and send for this free package today, enclosing only 10 cents in silver to help pay postage, packing etc.

Send to: Sargol Co., 4242-R Herald Bldg., Birmingham, N. Y. Take Sargol with your meals and watch it work. This test will tell the story.

A PLUMP, STRONG, ROBUST BODY. Before I took Sargol people used to call me "skinny," but now my name is changed. My whole body is stout. Have gained 150 pounds and am gaining yet. I took 10c packages of Sargol and in 23 days I had finished the Sargol treatment. Would you, too, like to quickly put from 10 to 25 lbs. of good, solid, "Sargol" fish, fat and muscular tissue between your skin and bones?

Daddy's Good Night Story

By GEORGE HENRY SMITH

BANG! Bang! Bang!!! began Sammy as he started to tell a story to the Rabbit boys. "The Giant of the Blue Forest was knocking at the door of a hut which was surrounded by trees. "Who is it?" asked a tiny voice from within. "Open the door," commanded the Giant. With that the door opened and Tulip Heart, the Fairy of the Forest, appeared. She smiled pleasantly at the big Giant and said in her silvery voice: "Come in. You are welcome."

Secrets of Health

True Wit Is an Antidote for Many Ills

By Dr. L. K. Hirschberg

To be sane is to be witty. If you have wit in your skull, you have sense in your flesh. Providence is gracious to the witless, because it is the witless who are the most numerous.

Whoever has humor has wit, although it does not follow that whoever has wit has humor. Humor is wit, which has to do with character. It indulges in drollery rather than in brilliancy of playful thoughts.

Great wits are sure to madness near allied, and thin partitions do their bounds divide. Yet a man who is out of his wits is unbalanced. Men must often depend upon their wits, when their strength fails. When you come to your wits' end you are, forsooth, in a bad way.

It is usually suggestive of delicate incongruities and quaint analogies. Prof. Berson says wit is an unforeseen connection of ideas into an unexpected electricity and looseness.

Great wits and values, like great states, do sometimes sink with their own weights. It is far better to have a sense of humor than to be forever using it. Be patient, and pity, however, those who wholly lack true wit.

It is not the brilliant alone, but the wit who has become "wood." In consequence of the disappearance of the terminations, words have been reduced to their root form, writes Prof. Thomas E. Lounsbury. Hence they pass with little difficulty from one part of speech into another. This was not so once. Let us take our old Latin illustration. In Latin it is amare as a verb; as a noun it is amor. One in consequence cannot be used for the other. Such a transition difference of termination completely prevents. So in our earliest English speech the noun love was lufu, the verb was lufian.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care of this office.

We hear that the Reds are about to start a labor court in well. President Lichtenhan had better look up his water boy.

Advice to Girls

By Annie Laurie

Dear Miss Laurie: Just a few remarks, which I hope won't take up too much of your time. I am 18 years of age. Not at all what one would term ugly, but it seems whenever I meet strange boys I lose all power of speech, and can't make up with them at all. My girl friends are not at all like this. I have noticed different times when I meet boys that they stare at me nearly all the time and blush and appear foolish. I wish if it were in your power to tell me what I could do to avoid these awkward ways and not appear foolish, as I think I do.

WELL now, anxious, you've chosen the right name for yourself—for once. You're too anxious; that's all that's the matter with you. Don't you worry about the strange boys who stare at you. Just notice how they stare at the other girls, too. How do you know that you are beautiful and appear foolish; has somebody been kind enough to tell you of it? Are you thinking about yourself all the time so that you know every time you change color? If you are, no wonder you are embarrassed.

What is there so overwhelming about the mere presence of a boy, pray tell me that? Boys are made of just exactly the same kind of stuff as you are; they don't know any more than you; they can't read your mind any more than you can read theirs. This, I suppose, is after all an excellent, wise provision of Providence.

Why on earth should you "appear foolish" just because a great, hobblesome-boy of an awkward lad comes in to the room? He isn't thinking about you at all. Get that out of your head right now. He's thinking about himself and wondering what foot to stand on, and what on earth to do with his hands. He's probably just as "foolish" as you are—and a little bit more so.

Why don't you help him out of his predicament? Talking is your business, not his. A man has to be 30 years old before he knows how to talk at all, what you are thinking about? Why, what are you thinking about? Words aren't magic things; they just stand for ideas. Haven't you any ideas of your own? What would you talk about if the man were your brother—skating, sleighing, the new steps of the tango, the book you've been reading, or the book you wish you could read and can't get time? Well, then, talk about it, but don't talk so fast you scare the poor man to death.

And, whisper, men are the most timid animals on earth; they hate to be pursued; they want to do the chasing themselves. Beds should not be against a wall. It folds. Moths! And don't forget that you spend nearly five months out of every twelve in your bed and bed-room, so it ought to be the most healthful place in the house.

A mixture that will remove grease from the finest fabric is made of one quart of rain water, two ounces of ammonia, one teaspoonful of saltpetre, and one ounce of shaving soap cut up very fine. To make tough steak tender, put three tablespoonfuls of salad oil and half a dish. Lay the steak on the mixture

Useful Hints for the Careful Housewife

And let it rest in this way for half an hour. Turn it over, and let it rest another half-hour in the same quantity of vinegar and oil. The toughest steak will yield to this treatment and be nice and tender when served. Lemons may be kept a long time without becoming dry if put into a jar of water with a lid. The water should be changed once a week if the lemons are to be kept long. When fresh and they will be quite as firm as when fresh and anything more juicy.

HOARDING WOULD PARALYZE TRADE

Senator Lodge Describes. Calamitous Effects of Practice by Nation. WASHINGTON, March 24.—That economy can be fatal and that nations can be brought to business ruin was graphically illustrated by Senator Lodge.

BIG ORE SAMPLE ON STREET CORNER

NEW HAZELTON, B.C., March 25.—New Hazelton has a new exhibition on one of the main streets, the greatest specimens of silver-lead ore that have ever been produced in British Columbia. The famous pieces were taken from the Silver Standard mine.

CALGARY WOMAN APPOINTED JUDGE

CALGARY, March 24.—To the City of Calgary belongs the honor of having the first woman judge in Canada, Mrs. R. R. Jamieson having been appointed to that position. Legally Mrs. Jamieson is appointed as woman commissioner, with the jurisdiction of police magistrate and district judge. She will try civil cases only, when the offender is between the ages of fourteen and eighteen years, "any child for an offence against the laws of the Province of Alberta, and under the Prudential Act."

HOUSE OF REFUGE NOT FOR BOARDING

WALKERTON, March 23.—The Bruce Herald and Times says: On the probable supposition that the Bruce County House of Refuge could be used as a cheap boarding house to house the indigent of living energy, a prominent ex-farmer of Elderslie Township was enrolled in the charity grub and sent to the institution that was erected as a refuge for the homeless poor, framed in dignity of having been defeated by his funds dissipated on speculative instead of philanthropic objects. The Elderslie man's dream of working the below-board boarding rule strongly and anything like a bargain-basement movement began on the institution. Fortunately for the fate of the establishment, pay inmates are subject to the same game laws that the charity wards, and must get permission from the keeper before they can step off the plantation. The Elderslie man's dream of a large boarding house where one could go and come at will, received a rude jar before long he found himself sentenced as it were to a prison farm, where the warden of a guard of a guard of a guard who didn't know him from other inmates, and who kept all hands inside the fence, the institution was clearly shortly to pine for the freedom that he would carry to the mainland. Comforted only by the fact that the charity soup without considerable trouble and a lot of wire-pulling on behalf of his people, the first attempt was made to have heard of, to use the charity plant as a boarding house for retired farmers, and the failure of the experiment led to the keeping the institution reserved for the use of the indigent, namely the housing of Bruce's homeless poor.

WIVES ARE WANTED IN SASKATCHEWAN

There comes from Saskatchewan, over in Canada, a call for wives, says The Ohio State Journal. Women are scarce in that province, and what there are all spoken for. It is a great region, a boundless land, rich in soil, water and pure air, but what do these women do with their time? In the town of Viceroy there are only three young marriageable women and they are all engaged. So great is the dearth of females that the young men have formed a matrimonial club and are trying to awaken sympathy for their sad lot among the people of the east, where they have women to burn.

LIKES PROMOTION OF JUDGE COATSWORTH

ORANGEVILLE, K.C., ex-mayor of Toronto, to the vacant position created by the retirement of His Honor Judge Morgan, one of the county court judges of York, he having reached the age limit. Such a promotion is an excellent choice. Judge Coatsworth, in addition to being well versed in law, is a good man on facts, and has a wide knowledge of human nature, and has no fads or trills. As chairman of the license board of Toronto he has been able to keep his colleagues, the impetuous and somewhat revolutionary Danny Lamb in check. So judiciously, impartially, and fairly has he discharged the duties of his office that he is likely to be retained in his present position. The senior county judge is discharged by Mr. Coatsworth, that is, in consequence of the disappearance of the terminations, words have been reduced to their root form, writes Prof. Thomas E. Lounsbury. Hence they pass with little difficulty from one part of speech into another. This was not so once. Let us take our old Latin illustration. In Latin it is amare as a verb; as a noun it is amor. One in consequence cannot be used for the other. Such a transition difference of termination completely prevents. So in our earliest English speech the noun love was lufu, the verb was lufian.

ENGLISH LANGUAGE HAS OUTGROWN GRAMMAR.

A striking characteristic of the English language is the ability of its words of passing from one part of speech into another. In the course of its history, English has been largely characterized by the ending which once stripped of different parts of speech, our infinitives no longer end in en, the representative of an earlier an, but do not say tell, still less tellan, but simply tell. Our nouns have discarded the a or o or u in which many of them terminated originally. Drop has become "drop," and has become "end," and has become "wood." In consequence of the disappearance of the terminations, words have been reduced to their root form, writes Prof. Thomas E. Lounsbury. Hence they pass with little difficulty from one part of speech into another. This was not so once. Let us take our old Latin illustration. In Latin it is amare as a verb; as a noun it is amor. One in consequence cannot be used for the other. Such a transition difference of termination completely prevents. So in our earliest English speech the noun love was lufu, the verb was lufian.

FARMING EXPERTS TO MEET IN WEST

CALGARY, March 23.—Representing not only the arid and semi-arid states and provinces in the United States and Canada, but every state in the union and every province in the Dominion, between 10,000 and 15,000 delegates will attend the international irrigation congress in Calgary next September. The congress will be one of the largest gatherings ever held in America, and Calgary is equally honored in being selected as the first place outside the United States where this convention of irrigation experts has ever assembled. Some of the most eminent irrigation experts in the world will give addresses of particular interest to the Canadian farmer, and the Canadian northward, where every year irrigation is becoming more widely adopted with such marked success that lands which were formerly considered practically worthless are yielding some of the heaviest and highest grade crops that were ever garnered in the broad and fertile prairie provinces, whose harvest records are so numerous that they are properly designated the bread basket of the nation.

HUM OF MOSQUITO COMES FROM BREATHING

In his study of the mosquito, Dr. L. O. Howard, of the department of agriculture, has discovered that this insect's hum is produced by the air within the body during the act of respiration and not by a rapid vibration of the wings as is the case of the Hesperia Weekly tells of an electrical engineer who was making some experiments in harmonious telegraphing—producing notes of a certain pitch by a note was raised a certain number of vibrations, all the mosquitoes within the room and from a wide range outside would congregate near the apparatus and precipitate themselves against it with great force.

BUSHY-TAILED RATS OF THEIVING HABITS

A species of rat having a bushy tail found in the Hudson Bay region, and which is known as the "black rat," has the habit of packing off everything it can get hold of and carry. Trappers and campers-out tell many stories about these rodents. They will steal knives, forks, spoons and in fact everything that is bright and portable, and will carry the stolen articles to their nests or somewhere else and leave them in place of other articles they have stolen before.

MAGIC WEATHER PROPHETS.

There are also quaint houses in which the two old weather prophets that for years have been forecasting with surprising accuracy the weather of the immediate future. These dwellings are of a peculiar nature, and are built on a plateau and two doors, always open, one side of the house, always a little old lady with a blue and yellow dress and a flower-decked hat. If you see so much as a glimpse of her out on the piazza you may safely leave your umbrella at home, no matter how lowering the skies. She has never been known to venture out in a storm.

Fort Wayne is without a manager.

On the other side of the house dwells a little old man. When you see him come out of the door with his coat hat drawn down over his eyes, look out for rain or snow or whatever kind of bad weather is reasonable. Queer little tip couples, at home, no matter how lowering over the world and the actual affection of all the children that know them, and they are of never falling interest, giving a niche to the corner of the piazza, or placed out in the percola.

New Kiddies' Bonnets To Be Made At Home

By MADGE MARVEL

BONNETS for the little folks which do not tax the skill of the mother or big sister to make are always welcome styles. These two are charming in their simplicity and daintiness, and form the most delightful frames for the cunning faces which peep from under the brims. More-

Simple Styles Which May Be Easily Copied. These two are charming in their simplicity and daintiness, and form the most delightful frames for the cunning faces which peep from under the brims. More-

Points on Gardening

Pen points—Jokes. Case hardened—The stern judge. Yard sticks—Flower trellises. Triple plated—Three-course dinners. A moving spectacle—A game of chess. A cracker jack—Jack Tar. A drop letter—The Cockney H. Dehorned—The man who signs his name. Mistaken identity—The female impersonator.

Dainty Tools Attract the Rose Grower

By Anne Marie Lloyd. THE woman who gardens has been well remembered this year by the maker of tools. The gardening basket offers every necessary implement for making a complete garden arranged in the most attractive manner. Just to look at one of these garden baskets makes you grope your arm and long to see it and use it in the sunny slope where your dream garden has been blooming these many years.

Charming Rose Baskets.

Two splendid forks are in the baskets. One is a long-handled fork to turn the soil deeper, the root spines, or turn over the earth for a fresh sowing. The other, with two narrow blades in the handle, is a special significance when the charming rose baskets are considered. Some of these are in brown wicker, open at the ends, and have a long wicker handle. Others have curved sides and still others are alms for trays with holes at each end and are supposed to be slung about the neck of the flower picker by a rose-colored ribbon, leaving both hands free for her busy work.

Hum of Mosquito Comes from Breathing

In his study of the mosquito, Dr. L. O. Howard, of the department of agriculture, has discovered that this insect's hum is produced by the air within the body during the act of respiration and not by a rapid vibration of the wings as is the case of the Hesperia Weekly tells of an electrical engineer who was making some experiments in harmonious telegraphing—producing notes of a certain pitch by a note was raised a certain number of vibrations, all the mosquitoes within the room and from a wide range outside would congregate near the apparatus and precipitate themselves against it with great force.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

WORLD BUILDING, TORONTO, NO. 40 WEST RICHMOND STREET. Telephone Calls: Main 5308—Private Exchange connecting all departments. Branch Office: 15 King Street, East Hamilton.

SATURDAY MORNING, MARCH 28

A DISTINGUISHED VISITOR.

No city in the world has greater advantages than Toronto for such residents as care to come in direct contact with the prominent and notable characters of civilization. Practically every distinguished man who visits America comes to Toronto.

The visit of Alfred Noyes is one of general interest, but in literary circles is of the first importance. Mr. Noyes is the potential great poet of the generation. He may not realize all the expectations, but at the age of 33 he has produced a body of verse more considerable in volume and more valuable in average import than any other writer.

PROFIT SHARING.

From a report just issued by the board of trade department of the British Government it appears that France has a much larger number of profit-sharing enterprises than any other country. Profit-sharing recently came into particular prominence on this side of the Atlantic thru the action of Henry Ford of automobile fame in dividing up among his Detroit employes one-half of his \$25,000,000 profits.

Profit sharing in certain industries was about fifty years ago introduced in the United Kingdom. But forty-five years before, in 1820 to be exact, the oldest scheme in existence was started by the National Fire Insurance Company of Paris. France also offers some of the best-known examples of profit sharing in any country, including that of the Bon Marche, the famous Paris drapery establishment.

ONTARIO'S SEA PORT.

Very great importance attaches to the facts laid before the Engineering Society on Thursday evening by Mr. J. G. Kerry of the T. & N. O. Railway regarding the qualifications of Moose Harbor as a Hudson Bay port for the Province of Ontario. The development of the province northwards depends materially on the existence of a marine outlet in that direction.

Port Arthur and other intermediate points. The tides do not appreciably affect it, and the present low tide depth averages 15 to 20 feet. Mr. Kerry considers that the navigation season would only be a month shorter than that of Montreal and might be lengthened by the use of ice-breakers.

CANADA'S MINERAL PRODUCTION.

According to the preliminary report on the mineral production of Canada for the calendar year of 1913, issued by the Dominion Department of Mines, its value showed an increase of close on \$9,000,000 over that of the previous year.

One of the ways by which Canadian industrial expansion has been retarded is undoubtedly that due to the proximity of a country much further advanced in manufacturing development. When that happens the younger community is apt to become a mere producer of raw material for its neighbor and pays a double toll when it later imports the finished article.

BRITISH CIVIC UNDERTAKINGS.

Ever since members of President Wilson's cabinet have identified themselves with the movement in favor of public ownership and operation of general services and utilities, there has been a recrudescence in the flood of corporation agency activity. Floods of corporation agency activity. Floods of corporation agency activity.

Officers Still Rebellious.

The political situation continues to be the subject of grave anxiety. The resignation of Field Marshal Sir John French, chief of the general staff, makes the army still the centre of intense interest.

New Army Order.

The new order to the army is headed "Discipline." It has three articles which are as follows: "No officer or soldier shall in future be held responsible for the superior officers as to what attitude he will adopt as to his action in the event of a strike."

NEW ARMY ORDER PROHIBITS OFFICERS ASKING ASSURANCES

Premier Asquith Said Change Designed to Tighten Army Discipline Has Been Approved by Generals French and Ewart—Resignations Not Yet Withdrawn.

LONDON, March 27.—Field Marshal Sir John French and Adjutant-General Sir John Ewart stood firmly to their resignations today in spite of the efforts of the King and the cabinet ministers to induce them to retain their posts as the working heads of the British army.

After a long cabinet meeting, to which Field Marshal French was summoned, Premier Asquith announced to the excited house of commons that neither the chief of the general staff nor the adjutant-general would give way. He announced the issue of a new army order intended to prescribe the duties both of the war office and of officers on service in contingencies.

The inclusion of soldiers with officers in the terms of the order places both on the same basis in the matter of conscientious scruples. It is the result of the attitude taken by the Labor members in the debates and is intended as a compromise.

Position Still Critical.

The political situation continues to be the subject of grave anxiety. The resignation of Field Marshal Sir John French, chief of the general staff, makes the army still the centre of intense interest.

Officers Still Rebellious.

New Army Order.

The new order to the army is headed "Discipline." It has three articles which are as follows: "No officer or soldier shall in future be held responsible for the superior officers as to what attitude he will adopt as to his action in the event of a strike."

his being required to obey orders dependent on future or hypothetical contingencies. "An officer or soldier is forbidden in future to ask for assurances as to orders which he may be required to fulfill. It is the duty of every officer and soldier to obey all lawful commands given them thru the proper channels either for safeguarding public property or for the protection of the lives and property of the inhabitants in case of disturbance of the peace."

Proceeding with his speech the premier remarked that he must repeat what minister in both houses of parliament had said several times this week, but in view of the wild legends current it needed to be repeated. He said: "It is altogether untrue that the government ever contemplated active operations in Ulster or any operations which now or in the future would impose on the army any duty or service which was not amply covered by the terms of this order. To that I have only to add that the government adheres to all the declarations it has made."

WILSON'S FRIENDS ANSWER APPEAL

Result of Preliminary Skirmish Significant of the Final Decision.

MUCH DECLAMATION

Opposing Faction Shows Determination to Fight to Last Ditch.

(Continued From Page 1.)

It was thought the final vote would be reached late Tuesday afternoon.

Personal Triumph. President Wilson's triumph was considered most notable by the rank and file of all parties because of the unusual alignment of forces within the Democratic ranks.

Struggle in Senate. Senator Owen in a speech voicing the president's position declared that bill exemption never had been supported by a majority of the Democrats in congress, and pleaded dramatically for his colleagues to uphold the honor of the nation.

When debate on the special rule began in the house, Representatives Adson and Handley for the administration, attacked Speaker Clark's position and in reply Representative Underwood made his urgent plea for support from his colleagues who have held up my hands in this house.

When the debate closed and the cheering voice of the clerk had called a roll in tense stillness, the Democratic house leaders had been repudiated, and the president's appeal answered.

Supported. Pennsylvania told the Democrats that opposition within the ranks of the party to the president's exemption was a substitute for the "introduced yesterday" by Senator Lewis which would declare it the sense of the American congress that it held the right to exempt American postpaid ships from canal tolls.

When debate on the special rule began in the house, Representatives Adson and Handley for the administration, attacked Speaker Clark's position and in reply Representative Underwood made his urgent plea for support from his colleagues who have held up my hands in this house.

M'KINLEY HOLDS ANNUAL MEETING

President Warns Shareholders to Expect Higher Production Costs. At the annual meeting of the McKinley-Darragh-Savage Mines, held yesterday, the proposed deal with the Jupiter company was passed by the shareholders.

In the course of his remarks, President C. A. Masten said: "Looked at from the question of probable ore it is entirely probable that in the McKinley mine we shall discover something thru the productive territory already examined, further bodies of ore of small size in each individual instance, but of substantial value in the aggregate. The history of the mine in the past would lead to the conclusion that such an expectation is well founded."

"In the Savage, while the chance of new discoveries in any particular part of the territory are not so great as they are in the McKinley-Darragh, yet the territory to be explored is so much greater in area that the chances of discovering profitable ore at the Savage mine are perhaps as great as those at the McKinley."

"For these reasons we regard the prospective value of the property, that is to say, the value of the undiscovered ore still remaining in the mine as a substantial asset. "Since the first of January, 1914, no further discoveries of new ore have been made. It is also to be borne in mind owing to the greater volume of ore that will, in the near future, have to be taken out to produce the like return of silver, that the net profits per ton of ore mined in the future be less and the cost per ounce of silver will be greater."

BUFFALO LIVE STOCK. EAST BUFFALO, N.Y., March 27.—Cattle—Receipts 200; active and steady; prices unchanged. Veals—Receipts 700; active and 25c higher; \$6 to \$10.75. BOX 12 WOODSTOCK, ONT. Canadian selling agents for seed growers. Ten Have & Ebel, Scheemda, Holland; Jas. Haaslach, St. Remy de Provence, France; Ch. Olsen, Odense, Denmark.

Random Notes on the Mining Stocks.

(Continued From Page 16.) broker assured "The World that such was certainly the case, and that it was not with English financiers. Others who thought they were equally well informed said control was impossible to be had even at 75c a share, and that the strength of the stock was justly due to the showings of the new vein which has been drifted out for over 200 feet. A lot of the recent buying was stated to have come from the Seneca Superior Company interests, this company having a lease as part of the Peterson Lake property.

The mining market has seldom been so hot of offerings as at present. A visit to the Standard Exchange will confirm this. Buying brokers are in the large majority, and frequently sell orders are only made for the purpose of encouraging holders to let loose a portion of their stocks.

With a capital of only \$250,000 the Cochrane is being favorably commented upon as the most conservatively capitalized mine in the district. This is responsible for the present demand for the stock. The company are now getting ore at the 200-foot level, and it is being treated at the Timiskaming mill. The work is also being carried on at the 300-foot level. The Cochrane mine is in the immediate vicinity of the Beaver and Timiskaming.

McIntyre was the bright shining feature of the offerings as at present. A visit to the Standard Exchange will confirm this. Buying brokers are in the large majority, and frequently sell orders are only made for the purpose of encouraging holders to let loose a portion of their stocks.

Dome Lake was very strong, advancing to 4 1/2. Recent reports from the camp show that the station at the 200-foot level is practically completed, and extensive exploration work will be quickly started at this depth. When the new electric equipment will soon be placed in operation.

McKinley Darragh was stronger after the annual report yesterday, and in the opinion of many traders has discounted all the bad features of the report.

Dome Mines continued under selling pressure, but strengthened towards the close.

COBALT, March 27.—A new vein has recently been cut at the Penn Canadian mine, and progress at this property is under way the main shaft was most satisfactory during the past two months. In addition to the good progress being made, the reaction in silver values, and all comes from the new discovery from the 200-foot level made within the past six weeks.
