DRAMA OF QUEBEC STAGED IN HOUSE; LEADERS SPEAK

Col. Currie Blames Government for Lax Enforcement of the Act.

LAURIER CRITICAL

Borden Declares There Shall Be No Obstruction, and Peace Shall Be Kept.

Ottawa, April 5.—The Quebec drama was staged in the House today. It was the most exciting day in the session. Public galleries were packed with persons and spectators of all classes and cheerers from both sides of the House were reminiscent of the days when the Military Service Act was first under discussion.

The sitting opened with the tabling of an order-in-council by the prime minister, which provided for the suspension of the act in the event of a riot or disturbance. He stated that the government was not in a position to enforce the act in the event of a riot or disturbance.

Montreal Gang Responsible. Sir Wilfrid Laurier expressed considerable excitement by the statement that the events of last Friday were caused by some secret association. What it was, he did not know, but he was sure its origin was not in Quebec.

Order Was Justified. The passing of the order-in-council was the subject of a long and heated debate. Sir Wilfrid Laurier stated that the order was justified under the circumstances.

The Motion Carried. Before the orders of the day were called Col. John A. Currie moved the adjournment of the House on a matter of importance, namely, the recent rioting, agitation, disturbance and non-observance of the law in the City of Quebec and all matters relative to it.

Speaker Rhodes ruled that the motion was in order. He said, however, that it was for the House to determine the desirability of discussing such an important matter at the present time. He therefore proposed to submit this question to the House.

Free Discussion. Col. Currie, in opening, said he had not introduced this matter because of the fact that it was a subject which should be discussed in a public manner. He believed, however, that it was a subject which should be discussed in a public manner.

Col. Currie referred to the conditions of the front as being critical. This was shown by Lloyd George's recent appeal for more men for the front. He regretted that this appeal was not met by the government.

The people of this country gave the government a mandate to carry out the conscription law. They were to see that men were sent to the front. However, the members of the House who were elected on this issue go home and look men and women in the face if they were not doing it.

Col. Currie closed by painting a vivid picture of conditions on the front and with appeal to his comrades of the House who had served overseas, to "keep faith with the living and the dead, as you promised in Flanders Field."

Mr. Stevens, Vancouver Centre, in seconding the motion, referred to the Speaker's request to members not to wander aside. He would abide by that warning, he said, but asserted that there was no more fitting place than Parliament to discuss this matter.

Mr. Stevens stated that his purpose was to ask: "Why did these riots occur in Quebec?" The statement made by the prime minister established the fact that they were the result of an effort to administer the Military Service Act.

Mr. Stevens referred to the justice department as an "embalming emporium" where a thing was sent when it was desired to bury it. It could not be said by the justice department that it had received tense opposition by any degree of expedition.

Mr. Stevens stated that he was a former member of the House, and that if an English applicant for exemption went to speak in Quebec he would be drafted. He was allowed exemption.

Mr. Stevens stated that he was an ex-member of this House. He said he did not intend to expose him by giving his name.

He pointed to disturbances in Toronto, in Calgary and to the fact that the premier of Ontario a month ago had called for a reduction in the number of troops. The trouble was not on one side, maintained Sir Wilfrid, and he held up a copy of "The Montreal Gazette," containing an article headed: "Civil powers make trouble for military."

"It is a serious thing to say," said Sir Wilfrid, "that from information I have received today from Quebec, I learn that the allegations of outrage and misbehavior. The civil and military authorities are working in perfect harmony."

GLEN GROVE SCHOOL CAN NOW BE BUILT

Controllers Consent to Transfer of Money From Sites Account.

OFFICIALS BUY COAL

City Buildings Will Be Well Supplied Next Winter.

If the city council on Monday approves the action of the board of control yesterday afternoon North Toronto will get the additional school accommodation it has been praying for. The controllers assented to the request of the board of education to transfer sums amounting to about \$200,000 from the sites account to the building account, making it possible to go ahead with the erection of Glen Grove school in Earlscourt, and to enlarge Park avenue and Queen Alexandra schools.

A letter was read from R. C. Harris, works commissioner, who stated that he would not proceed with the construction of the northern approach to Mount Pleasant road bridge this year, as such action would dislocate traffic on Merton street, the main highway to Leslie aviation camp.

The appointment of a legislative committee was approved. The committee will consist of the senior alderman from each ward and the senior member of the board of control. Its duties would be to consider legislation to be presented to Queen's Park.

Mr. Chisholm has laid in a large supply of coal for the city buildings. The city buildings will be well provided for next winter.

ARTILLERYMEN WANTED FOR HALIFAX GARRISON

Recruits for the Halifax Garrison Artillery for home duty in Halifax are now being enrolled in Toronto by Capt. E. O'Leary. One hundred and twenty-five men are required for this popular branch of the service with the siege guns. Its attractiveness is proven by the fact that within the past two days 39 men signed up, the majority of them being university students.

Capt. O'Leary is allowed to enlist men 18 and 20 years of age; men of 25 to 45 years, also married men. He cannot enrol men subject to the first call under the Military Service Act. The men accepted will receive the same pay and allowances as those in the Canadian expeditionary force. They sign up for the duration of the war. The garrison artillery recruiting officer is at the Toronto mobilization centre.

When asked yesterday about the verdict brought in by the jury at the Gillies inquest, which censured the military, Col. H. C. Bickford, Toronto district commandant, replied: "A war-time medical reorganization is being gone into. Beyond that, I have nothing to say."

After a month's service in the artillery, Gunner Alfred W. Jones died from meningitis on Thursday night at the military base hospital. He was 21 years of age. His remains are being taken to Brantford, his home city, for burial.

Toronto was visited yesterday by Surgeon-General R. H. Fetherston of Australia, accompanied by Lieut. Col. A. J. Wilson, T. G. Wilson, and Major D. Conner, staff officers. Surgeon-General Fetherston is touring military centres in the United States and Canada in order to gather data which will be of value in dealing with the returned soldier problem in the commonwealth. He said there were sufficient Australians in England to reinforce the seven Australian divisions overseas.

The Toronto mobilization centre accepted 33 of the 59 recruits examined yesterday and allotted them to active service units as follows: Central Ontario Regiment, 21st Railway Corps, 6; Canadian Engineers, 3; Artillery, 6; Canadian Gunners and Canadian Army Dental Corps, each one.

MUST GIVE STATEMENT EACH MONTH IN FUTURE

In the new regulations to be issued by the Ontario License Board regarding the sale of native wines, manufacturers will be required to submit monthly statements of native grapes purchased, and the sales, it was stated yesterday. In the past the board had the authority to ask for such statements, but these were only presented when a request had been made.

There may be a slight reduction in the number of standard hotels this year, judging by the applications for standard licenses reaching the board. A number of hotel properties are being used for other purposes, and this will have some effect. There will be sufficient accommodation for the travelling public, however.

HAD NOT BEEN DRINKING.

Arthur Leonard Chambers, son of the late Sergeant-Major Chambers, who was found dead in a River street residence a few days ago, denied that the death of his father could be attributed to drink. "My father was not drunk at 8 o'clock the night of his death," said Mr. Chambers, "and in any case he was never addicted to heavy drinking, and he really died from heart trouble, from which he was a sufferer."

REV. JOHN NEILL AT EMPIRE CLUB

Moderator Presbyterian General Assembly Speaks of Visit to Front.

Rev. John Neill, moderator of the Presbyterian General Assembly, addressed the Empire Club yesterday in review of his recent trip to the front. His remarks were naturally of a personal character, but were delivered with such good humor, breadth of sympathy, urbanity and picturesque-ness that there has been no more popular speaker during the season. His frequent anecdotes aroused much laughter, and he spoke with a freedom of prejudice that was highly gratifying.

There were none so optimistic anywhere as the men met at the front. Two years ago, they said, they were not prepared for the Germans, but today they were ready. There was much profanity and gambling, he said, but he thought his audience could understand that. He had not seen more than ten or twelve drunken men in London and France. He was a prohibitionist, he said, but he had learned to say that there was a great improvement in England. With regard to other "offs" the reports were "goods. No man was allowed to return to Canada suffering from venereal disease. The men he saw with their clear eyes and clean faces he could not and did not believe had been led astray."

One suggestion he wished to make in regard to returning soldiers. These men were citizens like the rest of us. Many of them had set good positions to go to the front. He thought they should be treated with all possible kindness.

"I do think," he added, "it would be a good thing if no liquors were sold on the boats, especially when they are in the danger zone. The men should have the clearest minds and coolest heads when they are in the danger zone."

ALLEGE CHANGES MADE.

Contending that the York County authorities changed the specifications drawn up for the construction of the Humber bridge at Catherine avenue, substituting quarry stone for ordinary river bed stone and increasing the cost of construction by \$446,113, G. T. Clarkson, liquidator of the Arnott Construction Co., entered action for the recovery of this amount from the York County Council.

SCHEME NOT ABANDONED.

No money has been provided in the civic estimates to start the city in the hog raising business at the jail farm, but this does not mean that the scheme has been definitely abandoned. A small start will probably be made and if the scheme proves profitable the scope of the work will be enlarged.

EVIDENCE CONTRADICTS OBSERVATORY RECORDS

The smelt case now being tried by Sir Glenholme Falconbridge, chief justice, in which the Danforth (Glebe Estate) is complainant against the W. Heston Co.'s factory at 994 Danforth avenue, is expected to finish today. Among the witnesses was John Harris, the present manager, who stated that when the property was bought in 1914 it was worth about \$190,000, and today it could be appraised at \$210,000. The firm employed 87 men. A real estate agent stated that the property generally from 142e avenue to Riverdale Park in the Danforth district was of a high class, that part of the glue works was not as high class. East of the glue works the values ranged from \$3000 to \$6000. West of Pape avenue the values ranged from \$600 to \$25,000. One of the witnesses who had lived in the vicinity of the factory for more than sixteen years had never been aware of the smell. Another witness had been so sensitive to the odors emanating from the factory that he had had to shut all his doors and windows during the warm days.

AUTUMN MAY SEE NEW UNION DEPOT

Conference Will Be Held to Inject "A Lil' Pep" in Work.

MUD WALL MUST WAIT

Would Cost Sixty Millions to Build, Says Mayor Church.

Some time next week a conference will be held between city officials, Sir George Bury of the C. P. R., Grand Trunk officials and the harbor commissioners in an endeavor to speed up work on the new Union Station. Sir George Bury made an inspection of the station last week, accompanied by Mayor Church, and he decided that "a little pep" were injected into the work of finishing the interior of the building, it would be ready for use by the traveling public before the end of the summer.

"The building can be used whether the windows are finished or not," said the mayor at the meeting of the board of control yesterday afternoon when the matter was broached by Controller McBride. "It would cost anywhere from \$40,000,000 to \$75,000,000 to finish the windows, according to Mr. Brudenbach and it is absolutely impossible to finish them for at least ten years. We do not want the station lying idle all that time," added the mayor.

BE PRETTY! TURN GRAY HAIR DARK

Look Young! Nobody Can Tell if You Use Grandmother's Simple Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is a messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous hair recipe, improved by the addition of other ingredients, at a small cost.

CONDITIONS SHOWN CAUSE WONDER

"Lest We Forget" at Regent Next Week Marvel in Pictures.

Kipling wrote his Recessional, so the story goes, after he had seen the victorious troops parade thru London at the close of the South African war. It is said that he was among the great crowds that cheered the soldiers. The spirit of victory filled his mind and the masses were carried away by the enthusiasm and patriotism.

In the silence of his own room—away from the throng, he wrote: "Lest we forget, lest we forget, lest we forget."

There comes to us, in perhaps the darkest hours of the present war, when victory still seems far off, but nevertheless sure, not a poem—the expression of one man, yet a work which in another way hides humanity to take into account some things which must not be forgotten. It is the work of an industry, possibly one of that industry's finest out-put, which is a prayer in the sense that Kipling's poem was a prayer, and yet the title: "Lest We Forget," is especially appropriate.

It is not a prayer in the sense that Kipling's poem was a prayer, and yet the title: "Lest We Forget," is especially appropriate.

GAS MAY NOT BE USED.

New Order Means Loss to Business Firms.

New fuel regulations issued by C. A. Magrath, Canadian fuel controller, forbid the use of gas produced from coal within the Province of Ontario to be used for advertising purposes or window lighting. A penalty of \$500 fine and imprisonment up to six months is provided for violation of the regulation. As a result of this order a hundred or more theatres, clothing stores, restaurants, etc., in Toronto, who installed gas lamps to circumsvent the order restricting the use of electricity, are out of pocket. Whether they use the lamps or not they are required to pay an annual inspection fee of \$10 to the city.

MUST NOT SEND MATCHES.

It is pointed out by military headquarters that the enclosure of matches in soldiers' comfort packages sent overseas is contrary to the shipping regulations and must be discontinued. The military authorities request the cooperation of the public in the observance of this regulation.

MUM IS THE WORD.

"I have nothing to say," said Dr. Hastings yesterday when asked if he were going to keep within his estimate as passed by council. "Are you going to dismiss eighteen nurses?" he was asked. "Mum's the word," said the doctor.

The seaweed known as Irish moss is used to some extent as a food by the peasantry along the coast, also as a jelly for invalids.

Telephone Economy Talk No. 7

Mouthpieces

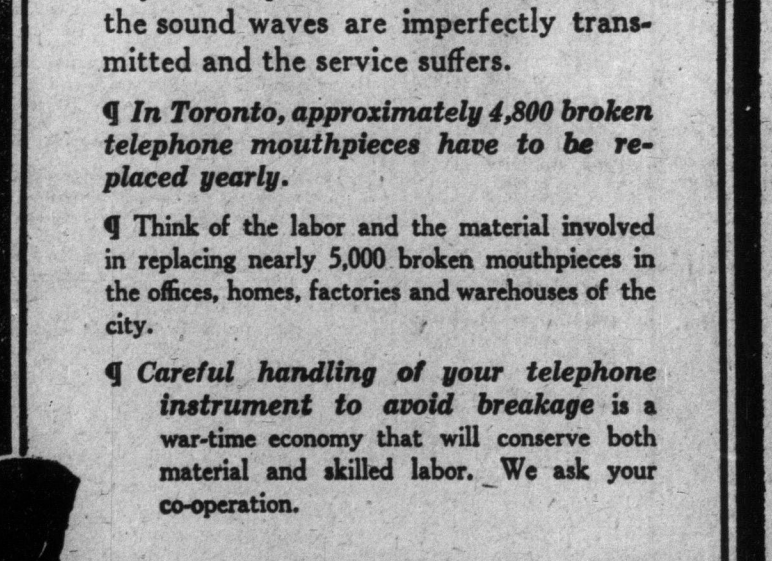

"WHAT do you mean by telephone economy?" a subscriber asks. Here is an example.

The mouthpiece is an important part of your telephone. When it is broken, the sound waves are imperfectly transmitted and the service suffers.

In Toronto, approximately 4,800 broken telephone mouthpieces have to be replaced yearly.

Think of the labor and the material involved in replacing nearly 5,000 broken mouthpieces in the offices, homes, factories and warehouses of the city.

Careful handling of your telephone instrument to avoid breakage is a war-time economy that will conserve both material and skilled labor. We ask your co-operation.

GIVING VETERANS HELP.

G. V. Gustar, secretary of the West Toronto branch of the G. W. V. A., stated yesterday that his office had placed 60 men in various positions during the past month. On Thursday morning he had dealt with five adjustment cases, two of these being referred to pensions and the other three being cases for back pay. The branch now has 852 members, and quite often the secretary worked at his desk from nine in the morning to midnight. There were not only the members themselves to consider, but also their other returned soldiers' dependents, and the dependents proved to be responsible for no small order. The man looking for a position could fend for himself for a day or two; not so the wife and mother with three or four children. Her case was urgent. The adjustment cases ranged all the way from mortgages to pensions, and the interesting were full of anxious requests.

ARRANGE FOR ADDITION TO MAPLE LEAF CLUB

The Maple Leaf Club in Grosvenor Gardens, London, is to be enlarged by the purchase of an adjoining house at a cost of \$25,000, it was announced yesterday by Hon. G. Howard Ferguson, acting prime minister. When it was made known that the Maple Leaf clubs were being taxed to capacity and that additional room was needed, the government did not hesitate realizing that the Canadian soldiers had first claim upon the province.

COL. C. G. WILLIAMS
TELLS OF NAVY'S WORK

Col. C. G. Williams addressed the Canadian Aviation Aid Club yesterday afternoon in the auditorium of the Y.M.C.A., College street. Mrs. Stewart Strathay presided, and the minutes and correspondence were read by Mrs. J. Peplar, the new secretary, who takes the place of Mrs. George, who has been compelled to retire thru ill-health.

Besides comforts, the club has, during the past month, contributed \$100 to the R.F.C. and the same amount to the prisoners of war fund.

There was a good attendance of women and all were thrilled with the address of Col. Williams on "The Navy." He spoke of the enormity of the task of the British navy in its ceaseless patrol of the 140,000 square miles of the North Seas against the second largest navy in the world. Of the million men in the British navy only a small proportion have become casualties.

The colonel's address was not confined strictly to the navy. He spoke of conditions in London during an air raid which occurred while he was there, when scores of women and girls were taken from a building that had been bombed by the Huns, in a condition he described as "bloody rags."

Captain Strathay of the original Princess "Pats" spoke of his experiences at the front, and was liberal in his descriptions of scenes in response to questions asked.

Advice of Archbishop of York
to Packed House at
Massey Hall.

MESSAGE FROM BRITAIN

Speaking as Representative
of British People on
War Matters.

Speaking as the representative of the British people, bringing a message from the oldest part of the old land, Rev. Dr. Cosmo Gordon Lang, Archbishop of York, told over 3000 people who crowded Massey Hall to the doors last night, that his nation must learn to realize as the men in the trenches realize, that only by consecrating its soul as well as its arms to the war, can it play the part laid down for it to play.

It was a historic meeting in more ways than one. It was the first occasion on which an Archbishop of York, the third civilian subject of the King, had ever visited Toronto, and it was the first time any one of the long line of York's archbishops had ever spoken to a large Canadian audience. It was the seventeenth meeting addressed by his grace since he landed at New York five weeks ago.

The archbishop stated at the outset of his address that he was not speaking as an ecclesiastic, but as a plain citizen of the old land, speaking to the citizens of Canada at the supreme moment in their common history. He said that their common ten days had been crowded with more of horror and terror, and with more deep international significance than any other days during the past four years of war.

"My visit to the United States has been a most memorable experience," said the archbishop, "it is impossible that anyone who like myself has seen and felt the great and memorable enthusiasm of the American people could not realize that that enthusiasm, slow though it was at first, is now moving like the falls of Niagara, gathering body as it sweeps along and will fall with irresistible force on the British Empire."

He stated that the events of the past few days had done more than all else before in waking up the United States.

Gratitude to Canada.
The great feeling of gratitude of the British people to the Canadians was expressed by the archbishop, "You in Canada offered us men before we declared war and before our leaders thought that we had been declared war. He had seen the Canadian army in France, and had stood on Vimy Ridge. "I wonder how near it is possible for wars to be averted," he said. "I wonder how near it is possible for wars to be averted."

"Which do I prefer?" "I would prefer that you should be big big eyes, then dimpled with and replied with one of those mischievous smiles which "screen" so well.

"You see," continued the wee philosopher, "that's why I'm doing this. I want to meet the thousands of people who have been my friends in the silent drama. Why, I have letters from people all over the world and here in Canada whom I have never met, and now we're getting acquainted. And I'm having heaps of size twelve and a half (children's), why, just think, you have six Cinderellas here and in Montreal there were only two."

Six Cinderellas. Oh! yes; that needs explaining. Violet has been daring the maidens of the Queen City to wear her shoes this week. They are size twelve and a half (children's), and anyone who can put this doll's slipper on is presented with box seats for the Hippodrome. Miss MacMillan's delight at Toronto's showing was genuine.

"You know everybody has been so nice to me, especially girls, this city has won the greatest number of the contest."

VIMY MEMORIAL.

Next Sunday a memorial to Lieut. W. H. Gregory, son of Robert Gregory, inspector of the morality department, city hall, will be unveiled in All Saints' Church. Lieut. Gregory was killed leading his men in charge in the battle of Vimy Ridge. Lieut. Gregory was well known in Toronto, being associated with many movements.

STANDARDIZING CLOTHES.
British Government Controls Wool Supply of the Empire.

Great Britain has purchased the entire wool production of New Zealand and intends to distribute it equitably. In other markets also Great Britain holds the trump card, according to Frank Score, of R. Score & Sons, Ltd., King street, who has been making a special study of the wool situation. "Prices have reached the limit," says Mr. Score. "When they do fall the British Government will let them down gradually so as not to cause a panic."

They are practically uniforming the people of England by standardizing clothes, to be sold at standard prices. Oxford and Cambridge greys are the colors chosen. Overcoatings and blue serges are the hardest wools to obtain, said Mr. Score.

NOTHING ELSE LIKE IT.
There has not been any motion picture production that can quite be compared to "Let Us Forget," which is showing at the Regent all next week. Everybody who has seen it says that it is the case. "They say too, that it explains and makes public a number of things which are not generally known about the German Empire. Further, it is a drama of a thrilling type."

International Schedule Next Week: Amateur Baseball Activity: Bowling Organize Many Clubs

DRAW INTERNATIONAL SCHEDULE FOR BUFFALO

Delegates Adjourn to Meet Next Week and Allot the Newark Franchise.

New York, April 5.—After an all-day session, which lasted until a late hour tonight, the promoters of the new International League adjourned to meet again at Buffalo on Thursday, April 11. At the Buffalo meeting a new schedule for the coming season will be considered and adopted. The committee in charge of the schedule, as appointed today, consists of President J. H. Farrell, Joseph J. Linnell of Buffalo and Charles T. Chapin of Rochester.

Seven clubs, representing Toronto, Buffalo, Rochester, Syracuse, Binghamton, Baltimore and Jersey City capitulate, have been accepted for league membership. Three applications from Newark, N.J., for the remaining franchise, were under consideration during the day, but it is not likely that an award will be made until next Thursday's meeting.

President Farrell's satisfactory progress had been made thus far in the organization of the league, and the deal of today's session was devoted to the consideration of bylaws and a constitution to govern the new enterprise.

It was decided that no more than the regular war tax of ten per cent. would be added to the admission prices during the coming season, so that the charges at all the ball grounds will be 25, 35 and 50 cents, according to the location of the seats. Double-headers will not be allowed during the first trip to the city, and no club will be allowed to transfer a player within thirty days of the close of the season. Unless some radical change is found to be necessary, the club owners have agreed that the playing season should begin May 8 and end Sept. 15.

CLASS DOUBLE-A BALL RE-DIVIDED DUE TO THIS PAIR OF ANGELS

(By Ida L. Webster.)

"If at first you don't succeed try, try again."

This is copy book stuff, but Jimmy McCaffery must have learned the lesson well, because his second attempt at success was a success. Thanks to him we have class AA baseball in our midst. Even now there are a flock of cranes hanging around with a funeral face saying, "Wait and see, you'll be sorry." The idea is, we wanted baseball here this season, because people knew that they needed some recreation for the strain which most Toronto sportsmen undergo. Mr. McCaffery worked like a Trojan, and the result is, we have baseball. It is now up to us to support the club, and make the same excellent showing that Toronto has always been famous for.

Did you ever try to start a regular no-limit poker game? You know how you work it. First you phone a few friends and you can think of being careful to exclude anyone who has ever been faintly suspected of membership in the pinks' club. After handing you a million excuses, and finally promising to break every other engagement on the calendar, you get them worked up to the pitch where they promise to be at your house at eight o'clock, that is all but one man. He arrives, and you are up in the air higher than a kite. You don't want to do the grand flop before him, and you cannot think of anyone to rope in. Without doubt it is the most harrowing situation in the world.

This is exactly what friend James has been up against. He would grab a fast freight to the more remote of an eligible backer for one of the defunct towns, go to the man, and undoubtedly talk him into coming away with assurance that the town would be taken care of. He would return to his office here, and prepare to smile, but before he was able to get his face properly adjusted for a good hearty, satisfied grin, he would receive a wire saying the deal was off. We cannot help thinking that most of us would have let the whole thing slip, and had he done so not one person would have blamed him in any way.

Mr. Dunn and Mr. McCaffery are in a class by themselves at the present moment. As The New York Sun stated yesterday, "These two men deserve more credit for the revival of the game than any other men of today." We'll say that that is making a statement in earnest. In fact, it would not be likely to be made for anyone else. Mr. Dunn and McCaffery into Nick Romanoff's ex-job. You know young blood is a great thing. They are at least crowned with glory.

The next big job on the president's list is the getting of a manager and a few ball players. However, this should not be so very difficult, as there are hundreds of ball players looking for work. In fact, the southern towns have any number of good players, whom no one but Connie Mack ever seems to discover. The old Sally League was like an incubator for the express purpose of hatching ball players, but few of them ever found their way around this circuit. If we are fortunate enough to secure Howley, it will be getting two birds with one stone sort of thing. A good catcher, and a popular manager. We are glad to hear that Kelly has accepted a position with the League, and wish him every success. He was rather unfortunate in this city last season, that is in the fans' opinion, and another panned him rather severely and Bill is not the sort of person who would let the stuff and come back smiling. This is a great drawback in a baseball player, because the public at large are about as dependable as the weather.

NIEHOFF TO ST. LOUIS

St. Louis, April 5.—Milton Watson, pitcher for the national baseball team, has been traded to the Philadelphia Nationals for Bert Niehoff, infielder, according to an announcement today by President Branch Rickey of the St. Louis Club. Niehoff is now a member of the Philadelphia team, and will leave shortly to start work.

BEDFORD GOES WEST

Hamilton, April 5.—Bob Bedford, who officiated as umpire in the International League last year, and who was slated for a berth in the new league, announced today that he had accepted a position with the Pacific Coast International League, and will leave shortly to start work.

THAT LAJOIE CASE

Indianapolis, April 5.—According to advices from Louisville, LaJoie is not practically certain that the National Baseball Commission will return National League pitcher LaJoie to the Brooklyn Club, and thus make him a free agent, with the right to determine for himself if he will manage the team. LaJoie has stated on several occasions that he is allowed to accept the offer of Owner McCall of the Indianapolis Club he will return to baseball.

BOWLERS WHO PLAY GOLF

Asked for Their Bowls

The committee of the D.L.B.T. that are holding the game for the returned soldiers, feel that it will only be necessary to let the bowlers of the city know that their bowls are required, and sufficient bowls will be donated.

There are many bowlers that have bowls they are not using. There are many retired bowlers, who are now playing golf.

They will now have an opportunity of putting their bowls to good use. Not only any one of the committee, if you have a set of bowls that you will donate for the use of returned soldiers.

SONS OF ENGLAND A.C. ELECT CRICKET DELEGATE

The Sons of England Athletic Club last night elected C. H. Briggs representative to the Church and Mercantile Cricket League.

It was decided to play a game of soccer today with the T.S.R. team. Next Saturday the S.O.E. play the British Imperials.

MITCHELL WINS.

Milwaukee, Wis., April 5.—Ritchie Mitchell, Milwaukee lightweight boxer, scored a technical knockout over Glenn Talbot of Canada tonight, in the 8th round of a 10-round bout. The referee stopped the proceedings to save Talbot further punishment.

ERNEST HAWKINS DIES.

Ingersoll, April 5.—The death of Ernest Hawkins, a widely-known citizen, occurred today following a long illness. He was 47 years of age and is survived by his wife and one son.

GRIFMEN MIDGETS

Joe Judge is the Tallest Man on the Washington Team.

Washington, April 5.—With the acquisition of Johnny Lavan as shortstop the Griffmen this year will have one of the smallest infielers in the major leagues, both as regards the height and weight of its members. Joe Judge is the largest of the quartet and the New Yorker is not a big man by any means, being far under the 150-pound mark. The baseman, five feet eight inches being his figure, minus shoes, while he tips the beam at 155 pounds, is just the same height as Judge, although apparently shorter, but in condition he weighs only 155.

At present he is about four pounds over weight.

Lavan stands five feet seven and one-half inches in his socks and weighs 162, while Eddie Foster is the midget of the crowd, reaching an all-time low of only five feet six and one-half inches, the scale stopping at the 150-pound mark when he steps on them. The average weight of the National's inner cordon is 154 pounds.

PIT-LEAGUERS TO PRACTICE TODAY

"Eddie" Spellman and Harry Baird Out With Hillcrests—Teams Strong.

The four teams entered in the Western City League, viz., Hillcrests, St. Francis, Moose and Wychwood will take advantage of the warm weather and have called a light workout for this afternoon. St. Francis, Wychwood and Moose will not likely work out at Wychwood, while Hillcrests will practice at Ramadon.

The Hillcrest team will have one of the strongest senior teams in the city this coming season, which will start early in May. Manager Nip Dwan of the northenders has been successful in rounding up a number of first-year stars, and is confident that his nine will prove strong opposition in the flag chase.

They secured two more players that will enable the north end nine to compete with the leading clubs. They are "Eddie" Spellman and Harry Pat Baird, two well-known players of the west end. Spellman is well known to the fans of Vermont Park, having played there with St. Cyrrians as shortstop, and while a member of this team was rated as the best in the league.

Baird plays third base with Epworths in the Western City League, but was forced to retire for two seasons owing to an injured leg. He is equally good in the infield or outfield positions.

Nip is dickering with a well-known twirler, who worked on the mound in great form for one of the local senior teams here last season. He will probably be found in one of the Hillcrest uniforms this summer along with Babe Dye, Cannon Ball Scott and Art Myles, who twirled for the Wychwood team in the "Pit" League last season.

Jim Duke Hennessey, Art Uk Allward, Jackie Spanton, Alf. Fotts and Tom Loudon, who played on the Hillcrest team, will be seen in action in the Bluebird street ball yard again this season.

Manager Britton of the St. Francis team has rounded up a strong team, but refuses to divulge any names.

The Moose team will be introduced with the exception of the pitching staff. Manager Burr Maxwell is on the hunt for a new twirler.

Bob Wilson, leader of the Wychwood nine, is also out rounding up players, and is expected to put a strong team on the "pit" diamond this summer.

The league will hold a meeting at the St. Francis Club rooms next week.

Police Investigate Charges Against Essex Farmers

Windsor, April 5.—Captain Minard, in charge of the Dominion police here, has investigated several charges against Sons of Essex farmers that they had failed to obey the order-in-council which requires that they report to the authorities any alien assemblies who may be in their employ. In the vicinity of Kingsville, one farmer is said to have been found who specifically expressed preference for Austrians over Canadians, because he "could get it under their coat out of them." This man will, it is understood, be arraigned in Kingsville Police Court tomorrow.

Everybody is Talking About the Same Thing These Days.

AND IT ISN'T A WONDER Seldom is There Such a Good Subject to Talk About.

"What is this big picture I hear is coming to the Regent next week?" "It is the master production, 'Lest We Forget'." "What is it about?" "Great Scott, man, haven't you been reading the papers?" Her vivid impression of that disaster was such that it was dramatized and an exact reproduction made so that you and I can see for ourselves just how terrible that was." "I understand, too, that it is an exposure of the German spy system, and

WHEN SHE SPEAKS IN CONNECTION WITH THE GREAT MOTION PICTURE DRAMA

"LEST WE FORGET"

The Star in This Eloquent Story Will Be Here Monday, Tuesday and Wednesday

READ THIS CAREFULLY

It is with the greatest pleasure that we announce the personal appearance of Miss Jolivet, for it was largely upon her experience as a survivor of the Lusitania and her knowledge of the German spy system that "Lest We Forget" was founded. By coming to the Regent she adds immensely to the interest in the great drama in which she takes such a prominent part, for it will be an innovation to hear from her lips the story which made the picture possible. Miss Jolivet will speak each afternoon and evening Monday, Tuesday and Wednesday.

REGENT ALL NEXT WEEK

MISS WISEMAN HONORED.

Miss Winifred Wiseman, who has done such good work in the interests of the Business Women's Club since taking over the office of president, and who is leaving on a two months' trip to England, was given public recognition for her fine services at this week's meeting, when Miss A. J. Menary, in the name of the executive, in wishing the traveler bon voyage, spoke of the excellent things she had done. An unusually attractive program of entertainment was given in honor of the departing president.

CONSERVATION OF HEALTH AN IMPORTANT DUTY

CARE IN DIET SAVES BOTH FOOD AND HEALTH

The Use of a Tonic to Keep the Blood Built Up and the Nerves From Being Undernourished Strongly Recommended at This Season.

Nature is always fighting to keep us well. Under normal conditions the forces of health within our bodies keep the disease germs in subjection. They are not expelled entirely, but they are kept harmless. Some indiscretion in diet and the digestion is upset; overwork and worry disturbs the nervous system, the blood gets thin and watery and the ever-present disease germs assert themselves. The blood fights the body's battles, but the blood can only keep you healthy when it is rich, red and pure. That is why it is of the greatest importance that thin-blooded people, people with pale faces, or those troubled with skin blemishes, or indigestion, or rheumatism, or any of the many ailments due to poor blood, should fortify themselves with a safe and effective tonic like Dr. Williams' Pink Pills. These pills purify and strengthen the blood and bring good health and efficiency to weak, ailing men, women and children.

PALE AND WEAK.

The blood is responsible for the health of the body. If it is bad, disease is bound to appear. One person may be seized with rheumatism and sciatica, another with anemia, indigestion, heart palpitation, headaches or backaches, or unstrung nerves. There is just one certain, speedy cure—Dr. Williams' Pink Pills. They make new, rich blood, and this good blood strengthens the whole system and brings good health and happiness. Miss Devina Lalibert, St. Jerome, Que., says: "Last year I seemed gradually to grow weak and run down. I did not sleep well, had a poor appetite, and grew pale and generally languid. I consulted a doctor who told me I was anemic, and gave me a tonic. This I took faithfully for some time, but it did not help me, and I appeared to be growing weaker, and finally I was hardly able to go about the house and almost wholly incapacitated for work. While in this condition a friend advised me to try Dr. Williams' Pink Pills, and I got several boxes. It was not long after I began their use when I could see an improvement, which first manifested itself in an improved appetite and better rest at night. From this on the improvement was rapid and I was not long in regaining perfect health. I think Dr. Williams' Pink Pills are a real blessing for all weak girls."

NERVOUS BREAKDOWN.

Nourish your nerves—that is the only way you can overcome life's worst misery—nervous exhaustion. The fits of depression and irritation, the prostrating headaches, the weakness and trembling of the legs, the unsteady hand and the imperfect digestion that mark the victim of nerve weakness, must end in nervous breakdown if neglected. Your nerves are crying out for pure blood and the mission of Dr. Williams' Pink Pills is to make new, rich blood. This explains why these pills have proved successful in so many cases of nervous disease that did not yield to ordinary treatment. For example, Mr. Wilfrid Donald, West Flamboro, Ont., says: "Before I began the use of Dr. Williams' Pink Pills I was in a serious condition. I was not only badly run down, but my nerves seemed to be completely shattered. I slept badly at night, and when I got up in the morning was as tired as when I went to bed. I seemed to be on the verge of a nervous breakdown. At this stage I began the use of Dr. Williams' Pink Pills. In the course of a few weeks I felt much relief, and completely restored my health. I can now sleep soundly, eat well, and am enjoying complete freedom from the old nervous troubles."

INDIGESTION CURED.

Thin, pale people who complain of indigestion must improve the condition of their blood to find relief. The most active blood builder in such cases is Dr. Williams' Pink Pills. They make the rich, red blood which quickens the digestive organs to their proper activity, and the dyspeptic who has tasted the sight and smell of food now looks forward to meal time with pleasure. Miss Edith M. Smith, R. R. No. 4, Perth, Ont., says: "I can honestly say I owe my present good health to Dr. Williams' Pink Pills. My stomach was terribly weak and I suffered from indigestion and sick headaches, and was always very nervous. I was troubled this way for nearly three years, and in that time took a great deal of doctor's medicine, which, however, did not help me. I could not eat anything without experiencing the most agonizing pain. My sick headaches were most violent and I could not rest night or day. I was asked one day by a friend to try Dr. Williams' Pink Pills and consented to do so. After taking them some time I found they were helping me, and I continued to take them steadily for several months, until I found that I was completely cured. While taking the pills I gained both in strength and weight, and I feel it impossible to praise Dr. Williams' Pink Pills too highly."

Do not be persuaded to take a substitute. See that the full trade mark name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around the box. If you cannot get these Pills through your dealer they will be sent by mail at 50 cents a box, or six boxes for \$2.50, by The Dr. Williams Medicine Co., Brockville, Ont.

ANNUAL BENEFIT THEATRICAL FOLK

Massed Attractions From All Playhouses Present Great Variety Program.

The thirty-third annual benefit of the Theatrical Mechanical Association was staged at the Royal Alexandra Theatre yesterday afternoon, before a capacity audience, who enjoyed one of the finest programs in the history of the organization. The performance, which is an annual tribute paid the active members of the profession, to their fellow artists, who have passed out of an active life, thru age or illness, is one of the many unselfish expressions of the actors' good-fellowship and always secures the heartiest co-operation on the part of every star, chorus girl and stage hand in Toronto.

The program opened with selections played by the massed orchestra under the direction of Jas. E. Blea, while to Dan Pierce, manager of the Star Theatre, fell many of the honors, for his untiring work back stage put a swing into the performance, too noticeable to be overlooked.

NOT SURE WHO IS PRESIDENT.

It has been stated by some members of Parkdale branch, G.W.V.A., that K. H. Jarvis, who is in Ottawa, had been appointed president of the "Army and Navy Veterans of Canada." It is understood that Sir Sam Hughes has been elected honorary president of the same association. F. Valentine, acting secretary of the Parkdale branch of the G.W.V.A., provincial secretary of the G.W.V.A., had heard that a Mr. Jarvis had been elected president at Ottawa, but did not believe that he was the president of the Parkdale branch of the G.W.V.A.

PLAYGROUNDS FESTIVAL.

The festival of the Moss Park Playgrounds Centre was carried out very attractively last night, Alderman Ramsden presiding and Chief Supervisor S. H. Armstrong in charge. The gymnasium work that had been done during the year was demonstrated by varied apparatus, boys and girls taking part. The "horse" exercise by the girls which consists in vaulting at graded heights over a wooden "horse" was a feature, as was also the little camp play, "Kilkaie," put on by the junior girls. Medals were presented to the champion junior hockey team and to the team of the intermediate baseball.

CANADIAN BUREAU FOR BELGIAN RELIEF

In view of the appalling position in Belgium, where there are at present thousands of little orphans who are to be cared for, the Belgian Relief Fund committee in Canada, has decided to establish in Brussels a Canadian bureau, from which help will be given in the name of Canada. In this way the Canadian donations will maintain their identity, and Belgium, which has already heard of the great part taken in this war by the valiant sons of Canada, will know how generous Canada is, and how willingly she lends a helping hand to the innocent victims of the war.

Ten thousand dollars a month has been guaranteed for the establishment of this bureau, and M. Baetens, a member of the commission for relief in Belgium, who will have charge of it, will see that every cent of this sum is properly applied to the relief of existing distress amongst the children.

LITTLE DONE FOR LEPERS.

Disease Chiefly Due to Unsanitary Conditions, Says Dr. Smith.

At the meeting of the mission to lepers, held at the Sherbourne House last night, the speaker, Dr. Smith, of India, who told of conditions among the lepers and of the small effort that is being made of segregation, the only law being that if one of the afflicted is found begging and unable to support himself he may then be arrested and taken to an asylum. Much of the disease is due to the unsanitary habits of the people. The old idea that the disease is due to eating fish or pork is more or less discounted. The speaker also told of the work of Miss Hatch at one of the leper centres. Dr. McArthur, who introduced the speaker, related some of his own experiences among lepers in Norway and Palestine, dealing particularly with the hospital just outside Jerusalem, where husband or wife may also enter with the afflicted partner.

PRISONER'S EXPERIENCES.

Lieut. Harvey Douglas was the speaker at the afternoon meeting of the College Heights and Rosedale Patriotic Association yesterday, when he told of some of his most interesting experiences while a prisoner in Germany. A fine musical program was given by Miss Marion Lawrason and Miss Kate Mendez.
