NINETEENTH YEAR

AN ANXIOUS TIME.

MARCHAND'S REPORT IS NOW IN PARIS

General Lord Kitchener is Also at the French Capital, Having Accompanied Capt. Baratier, the Bearer of the Document Which May Mean War—No Serious Disturbance in Paris Yesterday—Feeling Gaining Ground That There Will be No War.

THE REPORT HAS ARRIVED

Capt. Baratier, the Bearer of the Document, Reached the French Capital Last Night.

Paris, Oct. 26.—Gen. Lord Herbert Kitchener, commander of the Anglo-Egyptian forces in the Sudan, and Capt. Baratier, the French officer who brought Major Marchand's despatches from Fashoda, arrived here at 10 o'clock this evening. Gen. Kitchener left the railway station unnoted. Capt. Baratier received an ovation from hundreds of members of the Patriotic League and others. M. Marcel Hebert, a member of the Chamber of Deputies, on behalf of the Patriotic League, presented Capt. Baratier with a gold medal. The friendly demonstrations continued until Capt. Baratier reached his residence. There was no further incident.

A peaceful feeling.

A feeling distinctly peaceful regarding the Fashoda affair prevails in Paris this evening. President Faure is taking the crisis quietly and the belief is stronger than it was yesterday that M. Brisson fell because he wished to fail.

It is now rumored that General Chanoteau resigned the War Office portfolio out of pique at the refusal of the General Staff Committee to give him command of an army corps.

Extraordinary police precautions have been ordered against possible disturbances at the Court of Cassation to-morrow when the Dreyfus revision appeal will be heard.

Rhodias Endorses Rosebery.

London, Oct. 27.—(The Cape Town correspondent of The Times says: "Ceil Rhodias, addressing a meeting here today (Wednesday), said that Great Britain owed to Lord Rosebery her retention of Egypt and the occupation of Uganda."

A Customs Report.

The Cairo correspondent of The Daily Mail telegraphs a curious report that Major Marchand has been requested to withdraw from Fashoda by the way he reached it.

CONSPICIOUSLY ABSENT.

It is assumed, therefore, that whatever proposals he bears from Paris, were communicated yesterday to Sir Thomas Anderson, Permanent Under-Secretary of State for Foreign Affairs.

A report was in circulation in the city this evening that the Rothschilds had been informed that France had agreed to evacuate Fashoda, but the Foreign Office has no information on this subject.

The activity in naval preparations continues on both sides of the Channel.

Chinese Soldiers to be Punished.

Paris, Oct. 26.—In response to the demand of the British Minister, Sir Claude Macdonald, the Empress Dowager has issued an edict directing the punishment of the Chinese soldiers who, on Sunday, attacked a party of English railway engineers at the Marco Polo bridge on the Peking-Hankow line.

Cassagnac's Level Head.

Paris, Oct. 26.—M. Paul de Cassagnac, a remarkable article on the Fashoda question in The Economist, writes: "How could we make a stand against England in case of war? She possesses means of gripping us everywhere, in our colonies and in our naval cities, along our coast waters, whereas we cannot lay our hands on her anywhere. She would make short work of our fleet. War with England would put us in the position of Spain towards America. We should fight heroically, but we already be beaten. Our Ombudsman, Cervera, is already for the force. It is Admiral Fournier, who enjoys the blind confidence of the Republican Government. It is not, alas, Santiago that we should lack. Later on we should have to face the bill with Algeria or Indo-China."

"Therefore, it is materially and morally forbidden to think of war. This would be madness, blindness. Nobody goes to certain disaster with his eyes open."

"There still remains the other alternative: to beat a retreat and we shall not escape it. It is not the evacuation of Fashoda that constitutes our loss. The republic, having already committed the irreparable blunder of ceding Egypt to England, it is becoming her today to quibble about this or that portion of the Nile valley, which in reality would be useless to us."

War Insurance Risks.

Boston, Mass., Oct. 26.—In insurance circles in this city it is stated that war risks are being written on British and French ships. The rate is said to have been one quarter and one-eighth of one per cent. for British vessels bound to other than French ports.

W. Walsdorf Against IS MAD.

Has Taken Action Against The London Daily Mail for Libel.

London, Oct. 26.—William Walsdorf writes in The Times today the story that he writes to a Belgian by giving a dinner to 27 guests seated at three tables. One section of a redwood tree. He says that the section of tree placed in the grounds crosses over a dirt track as an object of curiosity, and was never intended to be used as a dining table. No bet was ever made on the seating capacity of the section. The whole story was a deliberate falsification.

He has entered proceedings against the paper which published the story. The account of the alleged dinner appeared in The Daily Mail.

What the Paris Show, at Dineens?

"For neckwear for ladies and misses is getting the good share of attention at Dineens. The new styles in neckties, scarves and abundance are shown, with a number of attractive new effects in collarettes and neck-covers—and the visitor's choice at Dineens' extends to a most fanciful variety of furs. There would be no use mentioning the things specially and showing them all ticketed in the lowest cash price, at Dineens'—unless to prove beyond question that fur prices at Dineens', 140 Yonge-street, corner Temperance, are lower than anywhere."

DIED UNDER AFRIC'S SON.

Lieut. Keating, a Canadian, succumbs in the Niger Country—Life for Queen and Country.

To die anywhere is hard; but to slip away from home and dear ones, under a foreign sky, in the radiant prime of manhood, pushes severity to the last notch. A brave young man, imbued with a soldier's ardent ambition to serve his Queen, born, reared and educated in Canada, joins the Imperial forces, and goes to aid in the extension of the Empire in the Niger country, Africa. Success is his companion, a glorious career opens up smilingly before him, when, suddenly, he receives the inevitable call to lay down his arms and be home for some time.

Lieutenant Keating's career, since died at the age of the weak white on active duty for his Queen.

The public press in London and Canada has recently published glowing accounts of Lieutenant Keating's exploits in Africa, and the news of his decease came like a chill in July. The first intimation of the sad affair was received on Tuesday by the father, Mr. E. H. Keating, manager of the Toronto Railway, in the form of a cablegram from the Imperial War Office. Mr. Keating was in Washington, D.C., and wired to Toronto that no public mention be made of the facts till the 10th of the next month.

The home of the deceased, at 106 Beaver-street, is one filled with sorrow.

There, a clergyman, Rev. F. D. Caplin, who is ministering consolation, informed The World that the bereaved mother is nearly heart broken, and has been in ill-health for some time.

The deceased received his commission of Lieutenant from the Royal Military College at Kingston in 1888, and joined the 490th regiment, under Col. French, lately stationed at Halifax, N.S., which was, about three months ago, ordered to Africa.

Several times stirring news of this gallant young officer had been received, and only yesterday The World published the story of his 200-mile march from Lokoja to Jebba, which distance he and his command covered in fifteen days.

There are few who knew the deceased in the city except his near relatives.

Col. Delamare, when seen last night, said he could just remember him as a bright young fellow with a dashingly appearance.

A BIG FIGHT IN PROSPECT.

Canadian Pacific Railway to Have a Tussle With American Roads.

The Battle Will Be Over a Southern Entrance to British Columbia to Compete With the C. P. R. and the Great Northern Road is the Head of the Movement—Montreal News.

Montreal, Oct. 26.—(Special.)—From present appearances it would seem that the officials of the Canadian Pacific Railway will soon have one of the biggest fights of their existence on their hands, and it is understood that at this early date steps are being taken to get things in shape for the battle, which is soon to begin with the American Railway interests, headed by the Great Northern Railway, over an entrance to Southern British Columbia to compete with the Canadian Pacific. The American roads profess to know that the C.P.R. is acutely afraid of the outcome of the fight, on account of the vast amount of capital which is said to be behind the move on the part of the Great Northern.

To Celebrate a Hanging.

The Government organ this evening says that Mr. L. O. David, the present City Clerk, but formerly the father of the Brl movement in this province, and Mr. J. H. Perrault, have been putting their heads together and the decision is to celebrate the anniversary of the hanging of Hindelang and De Lormier, for complicity in the rebellion of 1838. Hindelang was a French Protestant, who went to the scaffold shouting "Vive la Liberté." Now some one in the office of La Patrie has discovered that it has been 60 years since these men were executed, and that a demonstration is in order.

La Patrie, the organ of Hon. Mr. Tarte, also says: "We may say to our readers that Sir Wilfrid Laurier has manifested a strong desire to come to Montreal and deliver an address on that occasion."

An Editor Tones Down.

The French-Canadian proprietor of La Presse has evidently been calling his French editor to time as the tone of the paper has greatly changed during the past few days. This evening La Presse puts the whole blame of the Fashoda incident on the shoulders of the Brisson Ministry and says that if M. Hanotiaux had been Minister of Foreign Affairs the French "insulting" standing between England and France would have been avoided. It is certainly not too late, concludes La Presse, to bring about a worthy and honorable solution of the difficulty between two nations which have all possible reasons, financial, moral and social, to live in perfect harmony.

Scottish Rite Masons.

The triennial assembly of the Supreme Council of the A. and A. Rite, 33rd degree for the Dominion of Canada, is in progress at the Masonic Temple, in this city. A session has been cast over the Supreme Council by the death at Hamilton of Ill. Bro. John W. Murray, Sovereign Grand Commander, who was the oldest 33rd degree Mason in Canada, and was universally esteemed by the Masonic fraternity. An effort will be made to get the business of the Supreme Council through by this evening. The assembly will adjourn at 3.30 p.m., in so as to allow the members to attend

Peace Commissioners at Paris Show Some Conciliation.

London, Oct. 27.—The Paris correspondent of The Times says: "At today's sitting the Spanish Peace Commissioners presented a new counter-memorandum declaring their readiness provisionally to accept an article of a preliminary treaty, stipulating that Spain shall relinquish all rights to sovereignty in Cuba without formulating any other claim, and to leave in suspense all remaining questions, especially the Philippines."

"The Americans asked time until to-morrow to reply to this new memorandum. This is regarded as a favorable sign, but a slight relaxation of the rigidity the Americans had hitherto shown."

SOME ONTARIO CRIMES

Wm. Cox of Goderich Kills His Son-in-Law in a Quarrel—Ex Toronto Policeman Wanted For a Serious Crime at Newmarket—Man Sent Down For Three Years at Barrie for Wronging a Girl.

Goderich, Oct. 26.—This morning about 10 William Cox left his home and proceeded to his son-in-law, Frederick Beatty. On his arrival he asked Mrs. Beatty for his daughter, Lillie's, clothing. She told him her husband might beat her if she delivered it up. Mr. Cox asked where Beatty was, and on being told he was down in the orchard, he immediately went there.

The first thing Beatty said was: "What in the d— are you doing here?" and on being told, said: "Now I have you where I want you," and struck him (Cox) two or three times in the face. When Cox managed to get away he said: "If you strike me again, I'll shoot." Beatty said: "That's what I want," and pulled out his knife and made a jump at Cox. Cox shot him through the eye.

When Mrs. Beatty heard the report she ran out, and Cox told her to go for Mr. Thompson, a neighbor, while he went to Goderich for a doctor. Dr. Whitley immediately accompanied Cox to Beatty's home, but he was too late. He died about half an hour after being shot. Cox then came back to Goderich and gave himself up. He was remanded by Police Magistrate Senger till Saturday, when he will come up before the County Judge.

An inquest will be held at 1 o'clock to-morrow before Coroner Holmes. Crown Attorney Lewis will prosecute, and Philip Holt has been retained to defend the prisoner. Mr. Cox is highly respected by everybody, and has the sympathy of all who know him.

KEENA IS A BAD MAN.

That is if the Crime Charged Against Him by Newmarket Authorities is Correct.

Newmarket, Oct. 26.—Last Friday morning a girl about 15 years of age, named Clara Gould, gave birth to a child. It was a shocking revelation to this town, but most of all to her parents, who are respectable people. The girl was attending school regularly up to Thursday afternoon, and such a thing as occurred was not at all suspected. It is now publicly stated that the seducer is one Pat. Keena of this town. He has a grown-up family and an invalid wife. Since it became known that the girl had a child he attempted to get out, and the following warrant has been issued by the authorities for his arrest:

"Wanted, for seduction—Arrest Patrick J. Keena, warrant out, District Judge, No. 45, looks younger; height about 4 feet, weight about 185 pounds, light mustache, small side whiskers, straight nose and well built, throws out chest when walking and swings arms; was dressed in black suit; was on Toronto Police Force some time ago; fairly good scholar and writes a good hand; slight Irish brogue; supposed to have left here Friday night last. Send information to P. J. Anderson, Chief Constable, Newmarket, Ont."

His Toronto Record.

Patrick J. Keena, the man mentioned in the above despatch, joined the Toronto police force in 1888. He came to the city from Schonberg, and took up his residence on Widmer-street. Before coming to Toronto he kept a hotel, and was burnt out. He served two years on the force, and resigned to take charge of another hotel at Schonberg. In again he was burnt out, and later started in business as a bailiff. During the session of the Ontario Legislature previous to the last election he acted as messenger at the Parliament Buildings, and then moved to Newmarket.

EYE DOCTOR SENT DOWN

A Jury at Barrie Found Him Guilty of Wronging a Girl—He Got Three Years in Penitentiary.

Barrie, Oct. 25.—D. B. Johnston, a traveling spectacle vendor and eye doctor, from Toronto, was given three years in the Penitentiary by Chief Justice Meredith last night for criminal assault on a young girl about 15 years of age. The prisoner took the girl away from her home, near Thornton, on Aug. 21, telling her mother that he would take her to Toronto and get her a place. Instead of doing this he drove north towards Hillsdale, and it was the fact that he committed the offence. The prisoner denied the story point blank. He was defended by T. G. Robbette and Wm. Lount, C.C., conducted the prosecution. The judge, in his charge, indicated that he did not think the assault had been committed, but the jury decided otherwise, and after being out over two hours brought in a verdict of guilty shortly after midnight. Johnston has a wife and one child.

LUJELLA CEYLON TEA. Why it pays. Strength in the hidden parts is the keynote of a good shoe. Without it the shoe can not be comfortable—cannot wear well.

When one weak spot wears out, the shoe is done. One piece of poor material—workmanship—spoils the whole shoe. Unevenness from any cause—weakness, threads, tacks or lumps under the foot—is painful, and the wearer unconsciously wears out other parts of the shoe more quickly by exerting extra pressure upon them in the effort to relieve the tender places.

Because of these reasons it is economical to wear "Slater Shoes." Price, \$3.00, \$4.00 and \$5.00 stamped on the soles. "The Slater Shoe."

The mining stock market showed considerable activity today with Cariboo (McKinney) again the leader. In the morning this stock sold up to \$1.00 on the Toronto Mining Exchange, and in the afternoon it closed at \$1.10, or 10 points higher than the previous close. It was listed on the Montreal Stock Exchange yesterday and will be listed here to-day.

All About Rossland. We are in receipt of a copy of a handsome little publication issued by the Rossland Board of Trade to bring before the public the mines and industries of the camp. It is well printed on toned paper and nicely illustrated.

Ontario Gold. Golden Star Sold to Rich—Rush of Swede Boys Ore. Mr. A. C. Hobbell of the Golden Star Mining Company, near Mine Centre, Seton River, Ont., is quoted as saying that up to the present there had been expended on the property some \$80,000, and as an asset the company has over \$150,000 of ore on the stocks and \$2,000,000 in sight.

The Rat Portage Miner says that the "Swede Boys" had a mill run last week of ore taken from their mining location B12 on the Rat Portage. The mill is now being worked on a regular basis and is producing gold bullion of \$80 a ton. The run was made in the Tremaine stamp mill to the east of the Goss mine on Upper Manitou Lake.

Table with columns for stock names and prices. Includes items like Cariboo, Golden Star, and various mining stocks.

The Grand Prize. From Rossland Miner. The management of the Grand Prize has made very satisfactory progress with the development of that property since work was resumed. Not content with the showing that was made on a vein near the northern boundary, where a shaft was sunk by...

Simcoe's Politics. The Centre-Simcoe Conservatives are claiming that the particulars in the petition against A. B. Thomson have been filed a day too late. The Liberals retort that it is enough to satisfy the law that the particulars have been served within the 14 days. They were served a couple of minutes late for the clerk of the court on Tuesday. The petitioner is Andrew Hunter and the charges are about 60 in number.

Claims \$5000 Arrears. The case of Kennedy v. Beale was continued yesterday before Chancellor Bostwick. The case was brought to a close this morning. The plaintiff is claiming \$5000 as arrears of salary. The defence is that Kennedy was carrying on his own business, and was not employed by the plaintiff. The case will be heard on Thursday.

McMaster's Matters. To-morrow is field day at McMaster University and great have been the preparations for it. The winner of the McNaughton Challenge Cup for a year and also the Chancellor's gold medal for keeps.

The old management for a depth of about 20 feet. Superintendent McDonald, since taking charge, has done considerable surface work. This was the wisest move that could have been made, for he has exposed three other veins, one of which is supposed to be the Deer Park lead, while the others contain much better showings than have been found in the old workings of the mine. This surface work is mostly in the nature of open cuts. The Deer Park lead is exposed with a face of several feet. Temporarily satisfied with this work, was commenced a few days ago on a small outcrop that was found running across the centre of the claim from east to west. It was only about half an inch wide on the surface, but a 10-foot hole shows ledge matter for a distance of about six feet, contained in clear cut and smooth walls. Running through this are stringers of fine looking quartz, sprinkled with iron pyrites and molybdenite. But as this is too near the end line to justify extensive development, the vein to the opposite end of the property, where the showing is even better, and in all probability the future development of the Grand Prize will be conducted at this point.

Not a few of the best known mining men of the camp have lately visited the Grand Prize. Among the number are George Pfunder, Dr. Langhammer and Professor Luckman, and each one has spoken very encouragingly of the prospects of the property.

Yesterday Charles Litchfield of Spokane, who is manager of the Grand Prize, made a casual examination of the several workings, and expressed himself as very well pleased with the showings that have been made in the last few weeks. He seems confident that with the money now at his command he can make the Grand Prize a dividend paying mine.

THE REMAINDER BURNED. Portion of Factory Left After Recent Fire Destroyed.

Chatham, Ont., Oct. 25.—The remaining building at W. H. Tighe's evaporating factory, which was destroyed by fire last week, today was burned to the ground and the remaining portion of the factory was soon on hand, but nothing was saved. Today's loss was \$1000, which makes the total loss in one week for the property \$12,000. This is partly covered by insurance.

The quarantine has been raised on all persons who had been suspected of having been exposed to smallpox in the City of Chatham and also Chatham Township.

THE KENT MILLS COMPANY have shipped 4000 barrels of flour to Newfoundland this week.

AN INVESTIGATION IS IN PROGRESS here today as to the conduct of the origin of a recent fire. Enquiry was demanded by the Fire Office and several citizens.

THE DEMON DYSPEPSIA. In olden times it was a popular belief that demons moved invisibly through the ambient air, seeking to enter into men and trouble them. At the present day the demon dyspepsia, is a large and serious ailment, seeking to enter into those who are careless or unwise living habits. And once he enters a man, it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with this unseen foe is Farmelee's Vegetable Pills, which are ever ready for the trial.
