28TH YEAR

PROBLEMS FOR THE TEACHERS

Dr. Embree Doesn't Believe in Sidetracking Culture for Utility.

The general meeting of the Ontario Educational Association, which began its annual meeting yesterday in University Convocation Hall, was presided over by the president, Dr. L. E. Embree, inspector of city high schools, and was well attended. Among those on the platform were: Hon. R. A. Pynes, minister of education; President Falconer of the university; Chancellor Burwash and Prof. Ballantyne. The addresses were of an interesting and helpful character.

Hon. Mr. Pynes, who was cordially received, said that the Ontario Government had turned its first attention to the teacher. In order to increase the normal school, he had introduced a bill to increase the normal school, and he hoped soon to see four of them established. The government believed that insufficiently paid and took steps to secure for them greater remuneration, in the confidence that the people would not object to providing the means.

The minister of education confided that he had been day-dreaming. The vision before him was that of a Canadian national series of readers. He believed that such an institution would be a great unifying factor and would do much toward developing a national spirit of patriotism. Correspondence with other provinces with regard to the matter was in progress.

The Hand and the Brain.

Inspector Embree deprecated the idea that boys and girls must make their own problems as a preparation for the work of a world where problems not suited to their inclinations had to be confronted. Practical subjects were necessary as a training for social service, but the subjects that made for culture were still necessary to a complete education. The old prejudice against manual work was passing away, and they were becoming more in demand among business trades.

The teacher should be the monitor and guide of the child and the possessor of acquiring knowledge. The strength of the child's mental and moral fibre gained in the process.

The speaker outlined the results of a decade of kindergarten work justified the claims made for it, and some of the methods of working, explaining to the nervous energy of teachers, should be revised. Displays of kindergarten and manual training work tended to produce a wrong notion as to the main object of such work. The speaker considered there was less mental discipline in making a box than in translating an ode from Horace.

Too Much Specialization.

There was a regrettable tendency towards intense specialization in colleges, from which many students graduated with limited knowledge. Examinations should not be confined in entirety, as when properly conducted they were an important educational factor; and, in most cases, a fair test of the amount of knowledge assimilated by the student.

Speaking of the increasing proportion of female teachers, Inspector Embree said that formerly the best teachers in primary classes, but that the older boys should be largely under the control of men, and the older girls under the control of women, while the more advanced courses for boys and girls should be differentiated to suit their different temperaments and the different purposes of their education.

Danger Both Ways.

President Falconer thought that the work of educational specialists might be too intensive, and thus narrow the horizon of the students. There was a danger of loss of proportion. On the other hand, there was often the weakness of trying to cultivate too much ground, especially in Canada, where we are so alert and receptive. A shallow readiness to respond to questions should be guarded against, and effort made to secure more thoughtful answers to matters of subjects. Canada's excuse for educational defects, that the country was a new one, was one that would not stand long, and the nation must soon begin to hold its own in intellectual power and muscle.

ACCEPT WAGE SCHEDULE.

Longshoremen Will Not Strike at Montreal.

MONTREAL, Que., April 21.—(Special.)—All the labor troubles in this port are now definitely settled as far as this season is concerned, the longshoremen declining to accept 27 cents per hour for day work and 32 cents for night with a bonus of two cents for all those who work through the season.

In Quebec, however, the men still hold out for 37 cents. Next week Vice-President McNicoll will go down in person and see what he can do in the matter.

The shipping men here do not think the C.P.R. will bring the Embresses up to Three Rivers.

HANNA BY ACCLAMATION.

Probable Result of David Milne's Withdrawal.

SARNIA, April 21.—(Special.)—David Milne, Liberal candidate in West Lambton to oppose Hon. W. J. Hanrahan, announced today that he had dropped out of the race. The minister may, therefore, be returned by acclamation, as Mr. Milne was regarded as the strongest opponent available.

Increased Mayor's Salary.
LONDON, April 21.—(Special.)—Mayor Stevely's salary was to-night increased by the council from \$1200 to \$2000.

MYSTERIOUS DELAY IN NEGOTIATIONS

After Ten Days of Spasmodic Conference Steel-Coal Dispute Remains as Unsettled as Apparently—As Ever.

Deep mystery surrounds the movements of J. H. Plummer, president of the Dominion Steel Company, and James Ross, president of the Dominion Coal Company.

Mr. Plummer said last night that he had not seen Mr. Ross at all yesterday and that matters were exactly as they had been.

Mr. Ross would not say anything. People more or less in touch with both gentlemen, however, were of the opinion that there had been a conference of some kind in Byron E. Walker's office, at the Bank of Commerce.

Mr. Walker said that he was not in a position to say anything in regard to the negotiations that are going on.

Mr. Plummer said that the negotiations would probably be renewed today.

What the cause of the delay is neither of the principals would say. There have been, officially, here, ten days now. They are both very busy men.

If there was no hope of a settlement, they would long since have decided it. If there is ground for a settlement, what's the cause of all the delay and the carefully studied carelessness of the status of the negotiations as made public?

PROGRAM OF HISTORICAL PAGEANT AT QUEBEC

Affair Will Excel in Magnificence Anything of Kind Ever Seen Before.

QUEBEC, April 21.—(Special.)—The tercentenary committee has finally adopted the following order for the grand historical procession, illustrating the progress of Canada from barbarism to the termination of the French regime.

The procession will accompany Champlain when he arrives in port on his ship, thru the streets of the city, and to the foot of the monument of Dufferin terrace, where the Prince of Wales will be in readiness to receive him, and to the city hall.

The procession will be headed by men of the watch and heralds at arms, costumed in the time of Champlain.

It will be followed by the Carignan-Salieres, accompanied by his 110 sailors, preceded by a cross and the arms of France. Next will be Francis I, surrounded by his court, and the Carignan-Salieres, followed by the Carignan-Salieres, Pontgraves, the three chiefs of the expedition which founded Quebec, followed by the crew of Champlain's ship, the "Don De Dieu."

Henry Fourth, Sully and the court of France are next in order, and then come Dollard and his 16 French comrades at Long Sault. Next follow, in the order given, discoverers and founders of towns: Jacques Cartier, La Salle, Maisonneuve, etc., a cavalcade, representing De Tracy, with his suite, composed of 24 guards, and four companies of the Regiment of Carignan-Salieres, Duluth and the coureurs De Bois, Frontenac with the sovereign council, and his staff and guards, etc.

They are followed by the Carignan-Salieres, accompanied by her brothers and followers, and groups of Indians, Montcalm and Levis heading the Indian, French regiments and Wolfe and Murray at the head of the English troops; Guy Carleton and the principal officers of the regular troops, and the Carignan-Salieres, and his 300 volunteers De Chateaugay.

A few minor changes have been made in the official program, providing that five distinct representations of the grand pageant will be given, the first being on Tuesday, July 21, at that visitors at any time during the fetes will have an opportunity to view it. Champlain will be Thursday.

The grand fireworks and illumination of the feet occur the same night, and the Royal Society of Canada will meet on the evening of the 22nd to read eulogies of Champlain in both languages.

ITALIAN CRIMINALS.

Justice Lavergne Scores Low Class Foreigners.

MONTREAL, April 21.—(Special.)—In passing sentences to-day, aggregating 112 years, on a number of criminals, many of them Italians, Justice Lavergne said:

"For the last year or so crime seems to have become epidemic among Italians of the lower classes. Men with the worst of records in the old country invade our shores and lead here a life of crime. Examples should be made of them. I could sentence the prisoners for life. One of them has shot at me. I do not doubt that he intended to kill."

GOVERNMENT LAND SALES.

OTTAWA, April 21.—(Special.)—A return tabled to-day shows that the government has received since 1895 from sales of land in Manitoba \$1,975,451; in Ontario, \$1,455,715; in Alberta, \$1,465,715; in Saskatchewan, \$1,743,763; in cash, and \$168,308 in scrip.

WANT STREET EXTENDED AND A RAVINE PARK.

About 300 ratepayers met in the schoolroom of Clinton-street Methodist Church last night and appointed a strong delegation to wait on the board of control this morning. They will advocate the extension of Usher-street and Harbor-street and the purchase for a park by the city of the ravine at Crawford-street.

Al H. Wilcock and Keeler addressed the meeting.

10,000 C.P.R. MEN ON EDGE

New Working Schedule May Provoke Serious Disagreement.

MONTREAL, April 21.—(Special.)—There are two labor leaders in the city in the persons of Jas. Summerhill of the International Association of Machinists, and Fourth Vice-President Gallivan of the Boilermakers and Iron Shipbuilders' Union from Winnipeg, and they are evidently here with the object of watching the action of the C.P.R. in connection with the crisis which they alleged is in the air.

In fact they allege that if the company's new schedule is put in force ten thousand men will go out. It is believed by those closely in touch with the situation that a strike of the mechanics over the whole length of the railroad would involve several other branches of the railway's employees. It is taken as significant that the eastern "car men" are free to strike at any time, and their western comrades are bound by contract only till July 1.

If between now and May 1 no agreement is reached between the Canadian Pacific and its men a prominent member of the union in the power of the investigation of Disputes Act, that would have to be done before the first of May. A prominent member of the union is responsible for the statement that if the decision of the government commission were against them, the men would strike according to the proposed schedule of the company.

MARINE INVESTIGATION.

George Watson and J. L. Perrin Will Act as Counsel.

OTTAWA, Ont., April 21.—(Special.)—Mr. Borden interrogated the minister of marine concerning counsel appointed to act in connection with the investigation before Judge Cassels. Whom did they represent? Had counsel been appointed to represent Messrs. Cook, Kellar and Smith, whose report was to a certain extent under review by the new commission?

Mr. Borden stated that George Watson, K. J. L. Perrin, K.C., had been appointed to assist Judge Cassels. It had been intimated to him that Judge Cassels desired counsel to assist him.

Further questions elicited the information that the appointment was made at the request of the judge. "These particular gentlemen," said Mr. Borden, "were not suggested."

"I think Mr. Watson was mentioned by Judge Cassels."

Mr. Courtney and his colleagues would not be represented at the inquiry, the minister said.

"Is Mr. Watson," asked Mr. Northrup, "the same man who was appointed by the late Ontario government to investigate the West Elgin election?"

Mr. Borden did not know as to that.

CENSURED BY JUDGE.

Put Evil Ideas in Youth's Head, Says the Court.

CHATHAM, April 21.—(Special.)—Thomas Bissell of Dover, aged 17, faced Judge Houston this morning on a serious charge, brought against him by the parents of a girl under 14 years of age, who claimed she had been wronged by him. On account of the peculiar circumstances surrounding the case, judgment was reserved until May 28.

Samuel Eagleson, aged 46, who employed Bissell in a severe censure from the court. It seems that Eagleson had been in the habit of telling the boy of his own escapades and gallantries, and the judge blamed him for putting evil ideas in the young man's head.

IN VICTIM'S HOME CITY.

Moir, the Fugitive Soldier, Seen at Stratford.

STRATFORD, April 21.—Moir is in this city. This is the definite story which has come to the ears of the police.

Moir is believed to have reached the city last night. He limped and seemed desperately foot-sore and tired.

Moir had the nerve to visit a hotel in the city, and he was seen at 6 o'clock and asked for breakfast. It was too early. He was given a handout. No one recognized him at the time.

Moir was anxious to secure a drink and offered to pay a good price for some whiskey, but it is understood to have been refused.

CARRICK IN PORT ARTHUR.

Mayor of City Nominated by Conservatives.

PORT ARTHUR, April 21.—(Special.)—At the convention of the Conservatives of the riding of Port Arthur, Mayor Carrick was selected as a candidate in the provincial election.

Mr. Carrick was elected mayor by a large plurality over Messrs. Horrigan and George Moorring. Both of these men are mentioned as his opponents, Moorring as an independent and Horrigan as the Liberal candidate.

NOT A GOVERNMENT PLAN.

No such scheme has been brought to my attention either as a member of the government or otherwise," declared Premier Whitney yesterday, when the report was referred to him of the suggested building of a line to connect the T. and N. O. Railway and the Canadian Northern system.

STOP PAYMENT!

OLD MAN ONTARIO: No, Mr. Whitney, I have no millions for the man who is tricky with my municipalities and teacher toward me.

SENATE HAS ITS USES

SHOULDN'T BE PARTISAN

Hon. G. W. Ross Shows the Canadian Club That Upper Chamber Has Been Maligned.

Senator Ross entertained the Canadian Club last night with an exhaustive consideration of the question of senate reform and stated his preference in the event of such unnecessary interference with an almost perfect institution for a method of partial election and parliament of senators. Members of the committee from the Master Builders, who were present, were invited to assist Judge Cassels. It had been intimated to him that Judge Cassels desired counsel to assist him.

BUILDERS' LABORERS

HAVING A SLACK TIME

Only Fifty Per Cent. Are Working — Request for Increase in Wages is Refused.

It was reported at the Builders' Laborers' Union meeting last night that the first request for an increased scale of wages had been turned down by the Master Builders. The present rate ranges from 25 to 30 cents per hour. At present there are 1146 men in good standing in the union, of which number only about 50 per cent. are working. The union decided to celebrate Labor Day at the usual time, but to refuse for as proposed by certain local branches of organized labor.

TRANSMISSION LINE

IS REALLY IN SIGHT

Progress Being Made Toward Accomplishment of the Power Program.

Hon. Adam Beck was in Hamilton last night with Hon. J. S. Hendrie, A. F. Lobb and Engineer Sothman of the hydro-electric commission. The power situation was discussed with the city council and officials and Hon. Mr. Beck will be in town to-day.

As far as can be learned at Queen's Park everything is going smoothly in the preparations for the completion of the power scheme. The provincial treasurer has completed the signing of his \$2,000,000 of treasury bills and they have been despatched to England. The bills are in denominations of \$500 and \$1000. So there is money in the treasury for the transmission line.

It will not be long before the municipal contracts are signed, and the lawyers are all satisfied and licking the document into shape. By the way, it was reported that Brantford had dropped out of the race. This is not the case. The notice sent to the city solicitor to attend the meeting of solicitors miscarried, otherwise he would have been present. As soon as the contracts are signed tenders will be called for the erection of the transmission line, and another great stride will have been taken in the plan of providing cheap power for the people of Ontario.

The money has been provided. The contracts are about ready to sign. The transmission line is in sight.

JURISDICTION EXTENDED.

ALBANY, April 21.—The senate to-day passed the Page bill, extending the jurisdiction of the public service commission over telegraph and telephone companies, ferries and stage lines.

The bill now goes to the assembly for concurrence.

MORE CONDEMNATION

OF QUEBEC BRIDGE CO.

Appendix of Report of Royal Commission Laid on Table of the House of Commons.

OTTAWA, April 21.—(Special.)—A further appendix to the report of the royal commission which inquired into the collapse of the Quebec Bridge has been laid before parliament. It amplifies the previous condemnation of the Quebec Bridge Company's methods, pointing out in the first place that the method adopted by the company in providing tenders for the bridge was not in the best interests of the work. Owing to the financial weakness of the company, contractors had little assurance that they would receive any returns for their expenditure of time and money upon preparation of plans.

The latter task should have been entrusted to engineers independent of any contracting or manufacturing company. "An error of judgment made by the Quebec Bridge Co.," says the commission, "was the selection of an engineer who did not possess special knowledge and experience to prepare the specification."

This specification, however, was accepted by the government engineers themselves, and formed a part of the agreement whereby the government was to bonus the company to the extent of \$1,000,000.

After contrasting the specifications of the bridge with those of the Forth and the Blackwell's Island bridges, the commission concludes that the specifications of Quebec Bridge called for material slightly lower in ultimate strength than that used in any of the other bridges, while the bridge itself was of the longest span of all.

"The specification throughout shows that the whole subject was not considered with sufficient care, not only from a technical standpoint, but from a practical or business standpoint as well. Inconsistencies are of frequent occurrence, ambiguity and lack of precise definition pervade the whole."

SHOT AT CABRERA.

President of Guatemala Republic Almost Assassinated.

WASHINGTON, April 21.—Thru United States Ambassador Thompson, at the City of Mexico, the state department was informed to-day of the attempt on the life of President Cabrera, in Guatemala City yesterday, as he was going to the National Palace to receive United States Minister Heineke.

While the president was entering the palace several shots were fired and one of them hit the president in the finger. The country is tranquil.

LENGTH AND THE COST.

Transcontinental Railway Figures Tabled.

OTTAWA, April 21.—(Special.)—The estimated length of the Transcontinental Railway, as given in a return moved for by Mr. Borden and tabled to-day, from Winnipeg to Quebec is 1945 miles, and from Quebec to Montreal, 460 miles. The estimated average cost per mile is \$83,425. This does not include the cost of Quebec Bridge.

Farmer Hanged Himself.
MITCHELL, April 21.—(Special.)—Charles Smith of Fullarton Township went out to the barn, tied a rope around his neck and jumped from a beam. He was found dead an hour later. His mind had been unbalanced.

BERGERON MORE ZEALOUS THAN THE POPE

So Sir Wilfrid Laurier Said in Debate on School Question Started by Lavergne.

OTTAWA, April 21.—(Special.)—Mr. Lavergne (Montmagny) to-day moved adjournment to discuss a matter of "urgent public importance," but Deputy Speaker Marcell, who was in the chair, was not convinced of the urgency and required the mover to produce 20 members who desired the issue raised.

Mr. Lavergne had on his side of the house young Lorenzo Robitaille of Quebec, but 18 Conservatives rose in their places. Thus was a new school question flung into the debate of parliament.

What Mr. Lavergne proposed to discuss was that on April 13 he asked if the government was aware that chapters 2 and 25 of the Statute of Saskatchewan respectively, "An Act for Raising Money on the Credit General Fund of Saskatchewan," and "An Act to Provide for the Organization and Maintenance of Secondary Educational Sections," contained clauses contrary to the educational clause of the autonomy act of 1907, and if it was proposed to disallow said acts. Mr. Aylesworth returned the monosyllabic "No" to each question.

The first point, said Mr. Lavergne, was that the government did not know if the statutes were in force or not, and would not disallow them. He complained that the minister of justice had not taken trouble to look into the laws. When the Province of British Columbia saw fit to exclude a few Asiatics the house saw the government jump up immediately and disallow the act, yet it seemed that 40 per cent. of the people of Canada were less, in the estimation of the government, than a few Japs who had come to the country against the will of a whole province.

It was a fact that the minority of Saskatchewan thought that the statutes were in contravention of the rights granted them by this parliament two years ago.

Mr. Lavergne was not offering a legal opinion, but it looked to him that the rights of the minority were being jeopardized. "If," he said, "confederation is to be an equal partnership, it is superior race and an inferior race, and a superior religion and an inferior religion, I will say that confederation has been better days."

Mr. Aylesworth concurred.

Mr. Lavergne replied, first regretting that his answers to questions of Mr. Lavergne should have been directed to the minister of justice, and then to say that the government was not aware that the statutes of Saskatchewan were opposed to the provisions of the act constituting the new provinces. The subject had been given most careful consideration. The minister of justice proceeded that in the full consideration of the statutes, Mr. Lavergne himself, an able counsel, was not able to state that they were in contravention of the rights granted. He said that all that Mr. Lavergne could say was, they had a distinct flavor of illegality. But the statutes were not to be disallowed for a favor. Under no circumstances could it be clearly seen that provincial legislation overlapped the limits of jurisdiction fixed by section 92 of the British North America Act, there should be no interference by his excellency in council. The advisability of a provincial act, by justice or injustice, even, should not give cause for disallowance.

As to the legislation of British Columbia, it had not been disallowed by federal authority, but declared invalid by decree of the courts.

The insinuation hurled across the floor the other day that he himself had been suspected of being a Roman Catholic was a personal attack that he might have been spared, and one which he was not aware he had ever given anyone the right to make.

Mr. Bergeron declared that the substitution of clause 16, number 2, for clause 16, number 1, had opened the door to just the sort of evasion which the minority were now suffering in Saskatchewan.

The legislation of the province was certainly not in the spirit of the provision of parliament on passing the autonomy bill. Mr. Bergeron complained that a French Liberal organ in Montreal "which was not in partnership with the truth," had accused him of having gone to Saskatchewan to stir up the racial and creed questions to the detriment of the province.

Was French and Catholic.

The fact was that he had carefully avoided interference in provincial affairs; indeed, he had postponed a meeting in order not to interfere, yet he had been approached by French-Canadian Catholics, who told him that while they did not approve of Premier Scott's course on the autonomy bill, they would have to vote for Turgeon because he was a French-Canadian Catholic. He wanted to know if, in defending Saskatchewan legislation, Sir Wilfrid was aware that he was defending the principle of compelling Catholics to pay taxes to schools which their children could not attend. Was this state of affairs in Sir Wilfrid's mind when he changed clause 16, number 1, to clause 16, number 2. He hoped not, else it might have been in the minds of Messrs. Sifton and Fielding. Was the paper ablegate told when he accepted the autonomy bill, that he did not allow it might have been in the minds of Messrs. Sifton and Fielding. "Do I understand that the educational clause was submitted to the ablegate?" asked Col. Hughes.

"I leave it to my hon. friend's intelligence when I tell him that it was explained to the ablegate," replied Mr. Bergeron.

Mr. Lavergne was surprised at the result. What would he say to find that when Premier Robitaille was trying to do his best for the minority in Manitoba, he had been unbalanced.

COMPLAINTS ABOUT GAS.

Company Will Prepare a Statement in Explanation.

Mayor Oliver, who, as the city's representative, attended the meeting of the board of directors of the Consumers' Gas Co. yesterday, obtained a promise that the secretary would prepare a full report for the next meeting relative to the complaints of users that their bills have increased disproportionately.

The mayor says he has satisfied himself that the reason for the increased bills lies in the recent over-employment of gas mains, and that when the jets are turned on full the meters register a larger amount of gas than actually consumed.

The court of revision yesterday considered the appeals of property owners against the assessment for widening of Front street. The work was originally estimated at \$1800, but the actual outlay was \$2015. The city will pay.

Controller Ward will introduce a resolution in the city council condemning the practice of sending undesirable immigrants to Canada, and asking Hon. Frank Oliver to discourage it. The matter was brought up at yesterday's meeting of the board, when Controller Harrison suggested that the council should voice its opposition to the "dumping of undesirable men in Canada."

The board of control has received a letter from Sir Frederick Borden, minister of militia, asking for an extension of the time allowed the militia department to vacate the buildings on Garrison commons.

One or more of the controllers will go to Ottawa to endeavor to have arrangements that will facilitate the laying of a car line to the eastern entrance of the exhibition grounds.

Had Palpitation of the Heart

EVER SINCE SHE WAS NINE YEARS OLD, MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE.

If you find your health failing, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or throbbings on the slightest exertion or emotion, pain in the region of the heart, face pale, dizzy and faint spells, these all point to heart weakness, to nerve derangement, to a state of health common upon these, which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopeless invalidism.

From the depths many have been raised by this remarkable remedy, as its power is beyond all question most marvelous; but, why wait until you have gone so far? Taking these pills now will turn you from the perilous path of sickness and put you on the highway to health.

Miss Mary Wilson, Toronto, Ont., writes: "It is with the greatest of pleasure that I recommend Milburn's Heart and Nerve Pills. Ever since I was nine years of age I have been afflicted with palpitation of the heart, pain in my side and nervousness. As I grew older it kept increasing. After having tried numerous doctors medicines, but to no avail, I was induced to try your pills, and after using several boxes I began to improve, so kept on taking them for some time until now I can truthfully say I am in perfect health."

Milburn's Heart and Nerve Pills are 50 cts. per box or three for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.

Of Interest to Women

Women's Canadian Club.

The Women's Canadian Club of Toronto was organized yesterday, some 200 attending the meeting at the Church of the Redeemer. Lady Moss presided.

Mrs. Wm. Boulbee moved the resolution that a club be known as the Women's Canadian Club of Toronto be formed, the object being to give the women of Toronto an opportunity of hearing the distinguished men and women who visit Toronto.

The following list of officers, who have been doing such good work in the formation of the club, was announced: Hon. president, Lady Mortimer Clark; president, Lady Moss; first vice-president, Mrs. Falconer; second vice-president, Mrs. Bryon E. Walker; secretary, Mrs. D. DuVernay, 53 College-street; treasurer, Mrs. Garrett, Poplar Plains-road; executive committee, Mrs. Chancellor Hurvash and Mrs. Forsythe Grant. Two more members will be elected later on.

Lady Moss thanked the ladies for the honor conferred on her in being asked to preside at the meeting. Great regret, amounting almost to a grievance, had been rankling in the hearts of women interested in intellectual development, in being denied the benefit and inspiration of hearing the addresses of men of note who had come to speak to the men.

"We have heard of their coming and departure, thru the medium of the press, and have been able to gather a few crumbs of the treasures of thought and speech uttered," she said. "The touch of personality has been lost, and this touch is, after all, what leaves an impress on the minds of the hearer. We look forward to the day when the halls may be filled with men who seriously listen to men and women of note whom we hope to secure to speak."

Lady and Mrs. Clark sent in the first fees to the club. Efforts will be made to secure a suitable hall where meetings can be held, and all ladies desiring to become members may address the secretary or treasurer.

SENT TEN YARDS OF SILK. Only Cost Twenty Cents—Twas Silk Thread.

MONESSEN, Pa., April 21.—In response to newspaper advertisements to the effect that if \$2 were forwarded to a firm in Morgantown, W. Va., there would be sent ten yards of silk, a large number of persons in this vicinity availed themselves of what looked like a bargain.

To-day a majority of the customers received their yards of silk thread. The United States authorities and police are making an investigation.

World Fattest Department

Every woman whether she has to do the work about the house or not will find use for a simple, practical work apron, such as the one here pictured. It slips on and off easily and is the simplest of garments to make. Besides it is infinitely attractive and becoming with its long lines and square cut neck. The usual apron materials are suitable for reproduction, such as linen, gingham, holland and percale. The medium size will require 3 3/8 yards of 36-inch material.

Ladies' apron—33 1/2 sizes for small, medium and large. A pattern of this illustration will be mailed to any address on the receipt of ten cents in silver.

The annual ball of Q. O. R. officers was held last night at the King Edward. The function was graced by the appearance of Miss Clark and Miss Elise Clark, accompanied by Major Macdonald, A.D.C. Among those present were: Miss Gen. Cotton, D.D.C.; Sir Henry and Lady Pellatt, Lt.-Col. Mason and Gunther, Major and Mrs. Peuchen, Lieut. Morrison, Capt. and Mrs. Royce, Capt. and Mrs. Kirkpatrick, Mrs. and the Misses Chalcraft, Miss Evelyn Taylor, Miss Ethel Dickson, Miss Lady Dickson, Miss Nina Millman, Miss Mabel Lennox, Miss Marjory Perry, Miss Tomasina Madden, Miss Muriel White, Miss Lucille Graham, Miss Jessie MacMurrich, Miss McLaughlin, Capt. and Mrs. Wingate, Miss Eleanor Wedd, Miss Scott, Miss Madeline Walker, Cecil Denison, the Misses Kathleen, Marjory and Mona Murray, Mr. Rousseau Kleiser, Mr. Gerald Muntz, Miss Crawford, Miss Florence Bell and Mr. Edgar Lennox.

Hon. A. B. Aylesworth and Mrs. Aylesworth are in town.

Mrs. W. F. Elliott spent the weekend in Ottawa with Col. and Mrs. Lyons Biggar.

Miss Alice Burnham, Port Perry, is visiting Mrs. Harry Thompson, 275 Dovercourt-road.

Mrs. and Miss Wallbridge have returned from Preston Springs, where they have been for three weeks.

Mr. and Mrs. S. B. Stevenson of Dovercourt-road have returned from a three months' sojourn in Florida.

Mrs. Rupert Bruce (nee Irving) will receive for the first time since her marriage with her grandmother, Mrs. Irving, at 149 St. George-street, on Thursday and Friday of this week.

Mrs. H. W. Morton, Montreal, and her brother, D. R. Taylor, are spending the holidays in New York City.

There was a large audience in the Guild Hall last evening to hear Owen A. Smiley's pupil, Miss Winifred Parker in dramatic recital. A complete success was the result of her efforts and Miss Parker may feel emboldened to take up the career of which her right's appearance was the initial trial.

In every vein the young and pretty debutant was charming, whether in prose or poetry, humor or pathos and in the classic renditions a degree of excellence was reached which stamped her work as being that of one "to the main."

The assistance rendered by Miss Ruby Harkness Hamilton, soprano, was most effective in the contrast to the numbers of Miss Parker. Mrs. Hamilton is a grand opera singer and showed her versatility in several solos. Encores and bouquets were showered upon Miss Parker during the evening. Charles A. Crane was a most able accompanist.

Franziska Heinrich will make her private debut in Toronto in the Normal School on Friday evening under the distinguished patronage of His Honor and Lady Clark.

In St. Augustine's Church yesterday afternoon, at four o'clock, the rector, the Rev. F. G. Plummer, celebrated the marriage of Miss Alma Buckner, daughter of the late R. E. H. Buckner, R.N., and Mrs. Buckner, and Mr. Reginald Bloomfield, of Lakeland, Ont.

The bride, who was given away by Mr. Reginald Lockhart, wore a tailored suit of white tulle, trimmed in key pattern with white taffeta. A white hat trimmed with black tulle and veil was worn with this smart trousseau. The bridesmaids wore white silk collenne, handsomely trimmed with Irish lace and folds of ivory satin. A large number of persons in this vicinity attended the ceremony. Miss Violet Lewers attended her sister; Frank E. Blachford acted as his brother's best man, and Chris Trees and W. Blachford as ushers.

In St. Alban's Cathedral yesterday afternoon, Miss Belle Nash, second daughter of C. W. Nash and Mrs. Nash, became the wife of Stanley H. Sweetman, third son of Archbishop Sweetman. The ceremony was performed by Archbishop Sweetman, assisted by Rev. James Potheringham of St. Luke's Church. The bride wore a simple tulle and blue cloth smartly tailored, lilacs of the valley and roses trimming her pretty hat of the same shade, and a bouquet of lilacs of the valley complexing the costume. Jack W. Sweetman acted as his brother's best man, and the bride was attended by Miss Pettis Geddes.

Mr. and Mrs. Ernest H. Owen have moved from Crawford-street to their new home, No. 19 Spencer-avenue. Mrs. Owen will receive on Thursday, April 23, and not again this season.

Mrs. Arthur S. Lindsay, formerly Clara Noble, will receive for the first time since her marriage, this afternoon and evening, at her home, 100 Delaware-avenue.

Mrs. Martha Smith will address the ladies of the Northern W.C.T.U., today in Westminster Church, pavilion at 3 p.m., on the subject, "Soul Winning." Mrs. Brown of Collier-street will take the Bible lesson, and the honorary president, Mrs. Fotheringham, will be in the chair.

The Beach W.C.T.U. are holding a silver service on the lawn of the Presbyterian school room at Kew Beach. An interesting program is being arranged. Admission free.

Mr. and Mrs. J. G. Woodland and daughter, Miss Lottie Woodland, of St. Paul, Minn., will occupy the residence of Mr. Chas. Priestman, 182 Harbord-street, from May 1 till Oct. 1.

TORONTO MIGHT HAVE HAD LIBRARIANS' CONVENTION

At the concluding session of the Ontario Library Association yesterday the members were cordially invited to attend the convention of the American Library Association at Minneapolis, when about 2500 delegates will be present. Ottawa might have had this convention, but there was insufficient hotel accommodation. Toronto seemingly didn't try to coax them here.

A better method of distributing educational books among young readers was a subject to be a necessity. The Dewey decimal system of classification was endorsed.

SENDING A WAR VESSEL. WASHINGTON, April 21.—A United States war vessel will be sent to Venezuelan waters, but her mission is to be an entirely peaceful one. The closing of the port of La Guaira because of the existence of what is believed to be bubonic plague there, has made it necessary for the American state department to have at hand some vessel to be used as a despatch boat by Minister Russell in sending messages to Caracas or Port of Spain.

Banquet for Lemieux. NEW YORK, April 21.—(Special)—The Canadian Club will banquet Hon. Mr. Lemieux, postmaster-general of Canada.

Horse Show Costumes. The Toronto Horse Show in May promises to be the most brilliant in the history of the city. Society is preparing lavishly to make it so. The new designs in costumes are exceedingly beautiful. The most elaborate and striking of these have been designed especially for the horse show functions by Mrs. Baker, modiste, 15 Charles-street.

WILL VISIT ESQUIMAUX

BEHALF OF SCIENCE

Victor Stefansson and Prof. Anderson and Their Coming Journey into North Land.

Victor Stefansson, the well-known Arctic explorer, and authority on the Esquimaux, was in Toronto Monday, and after spending yesterday in Ottawa will return here to-day.

It will be remembered that some weeks ago he lectured at the university on his experiences during a winter spent with the Esquimaux near the mouth of the Mackenzie River. His expedition at that time was partly under the auspices of Toronto University.

He is again setting out almost immediately on another and more prolonged journey of at least 18 months' duration on a further quest for information concerning the strange tribes of the Arctic circle.

He is going down the Mackenzie River from Athabasca Landing in a boat which is being specially constructed there for missionary work, and which he will take out to Bishop Whittaker by arrangement with Bishop Reave.

After reaching Herschel's Island about August he will leave for the Ballie Islands, Cape Bathurst, on Eryuan "Narwhal," Captain Leavitt commanding, and if possible the Duke of York archipelago and even further north to Victoria Land.

The Esquimaux in these regions have never been visited before, tho Mr. Hanbury recently met one family while they were hunting on the mainland and Capt. Kilnberg met two groups who described other groups as existing in the interior.

Mr. Stefansson will try to get to the mouth of the Copper Mine River, but if he cannot accomplish this difficult and problematical journey he will devote himself to the Nusatarna or inland Esquimaux. Of these there are 200 or 300, half of whom never saw a white man. They are least known of all the groups.

This expedition will be his own and will be known as the Stefansson expedition, tho it is under the auspices of the American Museum of Natural History. This institution is sending Dr. Anderson with Mr. Stefansson. Dr. Anderson is an accomplished geologist and will make observations in that department of science.

The primary object of the expedition, however, is to collect ethnological instruments down the Mackenzie River for the purposes of the Dominion Government. Dr. Anderson is now being trained in the meteorological department in Toronto, so as to be able to give instruction in the use of the instruments where they are placed.

CAUTION NOT PESSIMISM. President Rowley Speaks of the Commercial Outlook of Dominion.

Apprehension regarding the trade outlook for the future is perhaps too generally held. Caution need not incite pessimism and the situation cannot perhaps be better stated than in the sentiments expressed by W. H. Rowley, president of the Eddy Paper Co. Mr. Rowley has the widest kind of acquaintance with the business life of the Dominion and his ideas regarding the future commercial prospects will be accepted as containing authoritative information on the topic. In the number of the Business Outlook Mr. Rowley talks as follows:

Dear Sir,—I delayed answering your enquiry about the business outlook generally in Canada for the coming spring until I had had full details for 1907, and late reports from all over Canada, so to judge of the outlook for the current year's business from every standpoint, for staple goods and wares of everyday use and necessity.

When clouds were rising in the States last autumn, we all looked for and soon found some little reflection of the trouble.

Mr. Milten, our joint manager, last summer made a tour of the west, visited every branch and agency and saw most of our customers in the wholesale grocery and jobbing trade, between Hull and Victoria, B. C. On his return I went to the eastern maritime provinces and visited nearly every city and large town in Nova Scotia and New Brunswick and saw hundreds of our customers and merchants in all lines of trade. Thus we have talked with many of the leading manufacturers and business men in all parts of Canada, and find that while caution was plainly observed everywhere in the purchase of wares and supplies required, and while there was an earnest effort, in some cases anxiety, to meet payments and reduce stocks, a little is not too overloaded, with a well-defined determination to shorten up credits and reduce outstanding indebtedness, there was no panic distress, no real cause for discouragement; there was, however, a little setback for some thirty days last fall, but the slight halt or hesitation noticeable in business in Canada in the latter part of October and early days of November was soon got over, and trade has since been good.

We did more business in 1907 than in 1906. January and February in 1908 show larger sales and better payments than in January or February for seven years past.

Altho our sales for 1907 showed a satisfactory increase for the year they were still some rumblings and murmurings about business falling off, and so on, so we had a conference of our managers and representatives from one end of Canada to the other, to find out what the actual conditions were during the first six weeks of the year (1908), and what their opinion was of the outlook for the rest of the year. The result of the conference fully justified the intention we had gathered and the view we had held, viz., that while care and caution had been exercised in the purchase of goods and merchandise, and that a determination to pay off their debts, and altho there was some fear in some quarters, there was no cause for any anxiety either as to the amount of business or the volume of trade that will be done this year in Canada in staple articles and goods that are in daily use.

About payments, and answering particularly your enquiry, we find them satisfactory in every respect. Out of a very large number of customers on our books, over 95 per cent. in number

GIVENAWAY

For the purpose of advertising the New Scale Williams Piano more thoroughly in Toronto and vicinity, the R. S. Williams & Sons Co., Limited, have hit upon the following novel idea, which will prove very interesting to old and young alike, and will bring some very tempting prizes to the successful contestants.

We offer the following puzzle, and while you are solving same, just bear in mind that there is no finer piano in all the world than this celebrated make.

READ INSTRUCTIONS CAREFULLY: Take the numbers 1, 2, 3, 4, 5, 6, 7, 8 and 9 and arrange them in the blank opposite, so that the total of any row (counting either up or down, diagonally or across) will always be just 15.

In order to get you started right, we have already placed three numbers (9, 5 and 1) in their spaces, leaving only six numbers more for you to arrange.

9 5 1

PUZZLE BLANK. Write your solution in the Puzzle Blank above, attach to it a letter or sheet of paper with your full name and address written very plainly and mail or bring to our store.

The contest is open to every family within a radius of 150 miles, but only one member of a family can compete.

For those who send in the correct, or nearest correct, as well as the CLEVEREST SOLUTIONS to this puzzle before 6 p.m., April 27, 1908, there are reserved the several prizes specified below, aggregating \$1000 in all.

THE PRIZES

1st Prize—A beautiful \$400 New Scale Williams Piano, absolutely free.

2nd Prize—A \$200 Piano Bond, good towards the purchase price of any Piano in our store.

3rd Prize—A \$100 Piano Bond, good towards the price of any new Piano in our store.

The Four Next Best Solutions will be awarded \$75 Piano Bonds, good on the purchase price of any New Piano in our store.

The Ten Next Best Solutions will be awarded (in the order of merit) Watches, Rings, etc., to the amount of \$75, making a total of \$1000.

Remember, it costs you nothing to compete for these prizes, only a little time and energy, and you may secure the beautiful piano absolutely free.

IMPORTANT NOTICE

If more than one member of a family tries to compete, or if any person sends in more than one answer, they will be disqualified and their answers thrown out.

No employe of our company will be allowed to compete. Remember, the contest closes Monday night, April 27, at 6 o'clock, and all solutions must be in by that time.

CHAPULTEPEC WINS FROM RESTIGOUCHE

Only Two Starters in Sterling Stakes at Aqueduct—Results at Oakland.

NEW YORK, April 21.—Chapultepec, at 9 to 10 in the betting, won the Sterling Stakes, one mile, at Aqueduct to-day, defeating Restigouche, the only other starter, by half a length. There was some rough riding inside of the fast furlongs, Chapultepec bearing over Restigouche, Notter, on the latter, claimed foul, but it was not allowed. Out of five carded it was not allowed, only two went to the post. Practically all thru the betting it was 9 to 10, and pick each side, giving a big four-minute delay. Restigouche went right to the front and led by 1 1/2 lengths to the stretch, where McDaniell brought Chapultepec up on the outside, and, catching Restigouche at the sixteen pole, won going away by 1 1/2 lengths in the fast time of 1:29 1/2.

Betting on the Roller Skaters.

GUELPH, April 21.—In defeating Will Conery, the Guelph boy, here to-day, in a ten-hour roller skating grind for the championship of the world, Dan Wiggins of Godech over skated 153-1/2 miles. Conery defeated Gates, the Australian champion, on the same rink several weeks ago by skating 119 laps, or 129 miles, making a new world's record for the time, and now this has been exceeded by over 40 miles by Wiggins in skating 153 laps without leaving the floor. The pace was set at a hot clip by Wiggins from the start, and by 1 o'clock he made his lead 2 1/2 miles. Conery never being able to get away, although he tried repeatedly, and at the finish he was 2 1/2 laps behind. Godech brought down a big bunch of supporters, and about \$1000 changed hands. Wiggins is practically unknown, and has a slow, tireless gait, all his own, seeming to move without effort, and finishing in good shape.

Gathering of Champions.

A SERIOUS CHARGE AGAINST THE LAW OFFICERS OF THE CROWN.

Mr. Whitney and Col. Matheson both stated that the previous mortgage of the Canadian Northern for several millions of dollars was so loosely drawn that the Ontario Government were, as a matter of fact, almost forced to increase the guarantee by two and a half millions more, in order to get a new mortgage that would really protect the province.

And when these two ministers made their statements, this charge of a most serious character against Attorney-General Gibson, in particular, and the Ross government in general, Mr. MacKay, the leader of the opposition, sat dumb under the charge. The charge must have been true, or either Mr. Gibson or Mr. Ross or Mr. MacKay long ere this would have hurled it back.

If the sworn law officers of the crown cannot be trusted to draw a mortgage so as to protect the crown, one of the last props of our system of government has disappeared.

The Globe is also dumb on this most serious charge.

SELF-CONDEMNED.

Provincial opposition papers plaintively complain that it is unfair to include Hon. A. G. MacKay and his following in the condemnation incurred in connection with the pushing thru of the Mackenzie and Mann guarantee in the moribund hours of the late session. No one can dispute that the first and greater responsibility for the grave omission to afford proper opportunity for public consideration and discussion of so serious and important a proposal rests on the shoulders of the government. But an opposition, if it is worthy of the name, has also duties and responsibilities of its own, and although these may differ in kind and degree from those of the cabinet, failure to fulfil them is as culpable in the one case as in the other.

The circumstances attending the original guarantee given by the Ross government sufficiently explains Mr. MacKay's attitude in the legislature. If Premier Whitney was justified in his contention that the form of that guarantee fell far short of providing the security to which the province was entitled, Mr. MacKay's unwillingness to face publicity becomes quite understandable and was a tacit admission that it could not be sustained. On the other hand, the premier's expressed conviction that the arrangement of which he asked confirmation was necessary for the protection of the province makes his delay in submitting it all the more inexplicable and unjustifiable. But as between the two leaders, while there is no doubt as to the responsibility of the original grant and the neglect properly to secure the province, Mr. MacKay, by making this new guarantee an electoral cry, is pronouncing his own condemnation and anything that has been or will be said by his political opponents cannot do more.

BRITISH POLITICAL OUTLOOK.

When Mr. Asquith meets the British parliament after the Easter recess he will find public business in a very congested and backward condition. This, of course, is due in part to the unavoidable delays consequent on the return of Sir Henry Campbell-Bannerman, but even had that not occurred the position would have been difficult of extrication. Under the pressure of experience of previous sessions and parliaments, the government presented an unusually long list of important and highly controversial measures, while the budget this year was expected to contain provision for the first installment of the old age pension fund. None of the bills has passed the second reading, nor has the budget been introduced, and it is evident that before the volume of business can be reduced to reasonable dimensions there must be an early and severe massacre of the innocents.

Whether the government so intended or not, public opinion has made it impossible to reform the crucial measure of the session. But as the situation is developing the introduction of this bill appears likely to facilitate an educational compromise which will remove that thorny and intricate question from the field of controversy. Strong influences are at work in favor of a policy of conciliation on the side of both churchman and nonconformist, tho it would be futile to deny that there are other interests that vie its disappearance with disfavor. Notwithstanding the early and extravagant demonstration of disapproval voiced by "the trade," there is a potent mass of better class public opinion behind licensing

reform in Britain that is now beginning to make itself heard. It has already brought the established and dissenting churches appreciably nearer and the courageous stand made by many of the bishops of the Church of England against what were practically gross attempts at intimidation, has evoked genuine sympathy and admiration.

There are, however, certain political elements to whom the removal of the education problem and the co-operation of the churches in licensing reform would be unacceptable. For a consummation of this kind could not but arrest the waning popularity of the Liberal government and give it all the prestige that attends a genuine and considerable effort after moral and social improvement. Mr. Balfour and such of the other opposition leaders who have been impelled towards tariff reform by the pressure behind them are credited with a desire to maintain the bitter conflict inseparable from religious strife, while contrariwise the tariff reform stalwarts, it is believed, would like the way cleared for it to become the one clear and leading political issue. The new premier has, therefore, a peculiarly complicated political situation to face with, as his most favorable avenue of escape, a compromise on the English education bill and the concentration of effort on licensing reform. If that fails him, a reconstruction of the government program is inevitable and the harvest of the session will probably be restricted to the less contentious measures now before parliament.

NIAGARA LEGISLATION.

Congress Will Take No Action This Session. WASHINGTON, D.C., April 21.—(Special.)—It is practically assured that there will be no legislation during the present session of congress affecting the subject of Niagara River. Some time ago it was intimated that the whole question was to remain in abeyance until the negotiations between the government and that of Canada. Since then the subject was referred to a joint commission and it has been the subject of continued discussion in the two countries for the past two months. But international affairs of this character are conducted with proverbial slowness and in spite of the desire of those most interested to have the question of the amount of water which may be used definitely settled before the adjournment of congress there is no probability that such a consummation will be achieved.

BELL MEMORIAL.

Over Forty Thousand Dollars Collected. BRANTFORD, April 21.—(Special.)—A general meeting of the subscribers of the Bell Telephone Memorial Association was held here this afternoon, when Secretary Hatley submitted a report showing \$46,700 to have been subscribed for the establishment of a suitable memorial to perpetuate the fame of Alexander Graham Bell and to mark Brantford as the birthplace of the telephone. Of the amount subscribed \$14,181.95 has been collected, which does not include the large government grants from Ottawa and Quebec. The disbursements were \$2300.

THE PASS OF HERMOPYLAE

BY HERBERT KAUFMAN. Xerxes once led a million soldiers out of Persia in an effort to capture Greece, but his invasion failed utterly because a Spartan general had entrenched a hundred men in a narrow mountain pass which controlled the road into Lacedaemon. The man who was first on the ground had the advantage.

Advertising is full of opportunities for men who are first on the ground. There are hundreds of advertising passes waiting for someone to occupy them. The first man who realizes that his line will be helped by publicity has a tremendous opportunity. He can gain an advantage over his competitors that they can never possess. Those who follow him must spend more money to equal his returns. They must not only invest as much to get as much, but they must as well spend an extra sum to counteract the influence that he has already established in the community.

Whatever men sell, whether it is actual merchandise or brain vibrations, can be more easily sold with the aid of advertising. Not one half of the businesses which should be exploited are appearing in the newspapers. Trade grows as reputation grows, and advertising spreads reputation. If you are engaged in a line which is waiting for a newspaper pioneer, realize what a wonderful chance you have of being the first of your kind to appeal directly to the public. You stand a better chance of leadership than those who have handicapped their strength by permitting you to get on the ground before they could outstrip you. You gain a prestige that those who follow you must spend more money to counteract.

If your particular business is similar to some other trade or business which has already been introduced to the reading public, it's up to you to start in right now and join your competitors in contesting for the attention of the community. The longer you delay the more you decrease your chances of surviving. Every man who outstrips you is another opponent who must be met and grappled with for the right of way.

P.S.—Talk No. 7 will appear in The World on Saturday, April 25.

PRACTICAL EDUCATION FOR COMING WORKERS

Technical Training is Advocated at Teachers' Convention—Some Important Suggestions.

About one thousand delegates registered at the 47th annual meeting of the Ontario Educational Association, which began at the University of Toronto yesterday. The various sections of the associations immediately settled down to work. An interesting feature of the various papers was the evident desire upon the part of all to bring educational methods in as close touch as possible with the needs of the country and the realization of the importance of technical training and kindred subjects. Addressing a joint meeting of the inspectors, trustees, public school and training departments, Dr. William Pakenham emphasized the great importance of technical training. For special training was as necessary as medical schools to train physicians or agricultural schools to train farmers. Dr. Pakenham also advocated the appointment by the government of public school inspectors, and the abolition of class distinction between public school, high school and university teachers.

The state does a great deal for the boy who has a taste for law, medicine, or teaching, but very little for his brother who intends going into the workshop," said W. L. Richardson, chairman of the manual arts section, in his opening address to the section. Industrial education aimed to produce efficient men and the basis of industrial education was manual training. The other papers in this section were "The use of one lathe in manual training," A. F. Hagerman; "Forms of constructive work for preliminary training in the manual arts," J. H. Wilkinson; "The Woodcock school and equipment," J. S. Mercer. "Urban problems—financial and administrative," was the title of a paper read by J. P. Hoag of Brantford, who claimed that the government should assist city schools in the same proportion that it had assisted rural schools. The problem of the city inspector, he said, was that there was too much teaching without allowing the pupils to work themselves. Value of Kindergarten. An added interest was given to the meeting of the kindergarten section by the fact that yesterday was the anniversary of the birth of Froebel, creator of the system. In discussing his work, Miss Grace Johnston, president of the section, said that from his own neglected childhood he had realized the need of great care being bestowed to give a truly harmonious development in the early years of childhood. Principal Scott of the Normal School said that the kindergarten formed the best introduction to industrial training.

WEAK MEN, HAVE COURAGE

If you get up in the morning with a dull brain, tired nerves, an ache in your back, a dread of the toll and hardships of everyday life, these are signs that your vitality is at a low ebb—that some of the organs or functions of your body are in a weakened, morbid condition. If you are a young man, and free rein for evil habits and passions has exhausted your vital energy, or if on the shady side of forty, you have not the strength and stamina that should be possessed by a man of your years, you can regain your health, strength and energy with Electricity. "None are so blind as those who will not see," but if you are open to conviction and want to improve your condition, I can convince you that my Belt does all I claim for it, and even more. You don't need to be taught that restless nights, sleeplessness, despondency, inability to concentrate your thoughts, loss of appetite, weak back, headache, pains here and there in various parts of your body, lack of energy and push, are all signs of nervous breakdown, physical debility; you know that, but what you want is a remedy that will restore the vitality that has been lost. If you have doctored and drugged and got no benefit, that's no sign you ought to give up. Drugs can't restore your vitality. Electricity is for men like you. It's the greatest nerve builder and body builder in the world to-day. To those who are tired of paying without results, and to those who doubt if anything will help them, I make this offer: If you will secure me my

"Galls and Their Producers" was the subject of an address by A. Cosens, president of the natural science section. The papers read in the English and history section were: "Milton and Religious Toleration," W. W. Wallace; "Examinations in English in Secondary Schools," H. T. J. Coleman, Ph.D.; "Mediaeval History in the High Schools," C. P. Lavelle, Ph.D.; "The Study of Mediaeval Literature" by W. H. Clawson, Ph.D.

A deputation waited on Hon. Dr. Pym and A. H. Colquhoun to discuss the schools laws of the province. To them the minister of education expressed himself as favorably impressed with the proposal to grant no certificate to teach, except as an assistant, to any person under twenty-one years of age; that he had under consideration the requiring of ten years' teaching in a public school before granting specialists' and inspection certificates; that in future principals of continuation schools where two teachers are engaged in the work shall be members of the entrance board; that the advisability of making manual training and domestic science compulsory in urban centres was under consideration, and he was considering the question of making the holidays in rural schools correspond with those in urban schools, and having the school year end on June 30.

Concerning the "state salary" adjustments, the association proposed to send a circular letter to trustees asking them to recognize that it is not fair to call for teachers to put themselves up at auction. Another circular letter will ask teachers to boycott these advertisements.

WOUND INCREASE FREIGHT RATES.

NEW YORK, April 21.—That railroad freight rates should be increased was the consensus of opinion at a conference of the presidents of nearly all of the eastern trunk lines held at the office of the Trunk Line Association yesterday.

No final action was taken in the matter, which will be further considered by the individual roads. George Baer, president of the Reading road, presided at to-day's conference.

ESTABLISHED 1854. JOHN CATTO & SON LINEN DAMASK VALUES EXTRAORDINARY

We have just unpacked the best lot of Linen Damask Table Cloths (about 500, slightly imperfect) that were ever imported. These represent the most dependable makes of manufacturers of highest repute, and embrace the latest patterns and most useful sizes. The bleached damasks, which are very slight—in some cases only soap stains—which will wash out after laundering once or twice—are insignificant, when the saving in price is considered.

There are about 500 Cloths in this lot, 2 x 2, 2 x 2 1/2, 2 x 3, 2 1/4 x 2 1/4, 2 1/2 x 2 1/2, 2 1/2 x 3.

These were bought at considerably less than their value, and will go into this sale at corresponding advantage to you, for instance:

\$3.00 value for \$2.00. or \$4.50 value for \$3.00.

Other prices proportionately reduced.

MME. ZEISLER'S RECITAL

Planista Performs Before Fair Audience in Massey Hall.

There are two rivalries for virtuoso honors in piano playing in America—Mrs. Carreno and Mrs. Fannie Bloomfield-Zeisler. There has never been any question as to which was the greatest interpretation artist, and the honors have always gone to Fannie Zeisler.

But in her bravado she has attempted interpretation works which were beyond her skill.

Not the least noticeable in this respect was her attempt last night in Massey Hall to render the movements of Chopin's sonata in B flat minor.

A sympathetic audience, tho' not large, heard her work in compositions from Beethoven to Paderewski, and the American, Howard Brockway, who, as a master of the history of music, is one of the finest choral composers the continent has yet heard.

Mrs. Zeisler's "forte" last night was almost virility in its execution, and the passages, which called for the utmost dexterity. In these she was exceptionally happy. But when, in the third movement of the Chopin sonata in B flat minor, she attempted to put masculinity into the "March Funebre," the woman in her got the best of her—and there were tears when men with breaking hearts would have sobbed. When will women pianists learn the difference between hearts that weep and brave hearts that sob—and are silent?

This is not a question in the abstract. Mrs. Zeisler should cut that particular sonata—the best in Chopin's repertoire. She may be "husky" and technically virile, but Joseph Hofmann knows the inner secret of Chopin above all others, and he has said to the world, "Let no woman, however virile, attempt Chopin." There is no pianist, not even exclusive Paderewski, who can make logical connection between the movements of the sonata, save Hofmann. But Mrs. Zeisler comes next to him. If she likes the compliment, let her have it. She is the most virile virtuoso on the concert platform to-day. J. D. Logan.

GUELPH OLD BOYS MEET.

Organization Launched in Preparation for Jollification Next Summer.

A Guelph Old Boys' Association was formed at a well-attended and enthusiastic meeting of former residents held last night. The immediate object of the new organization is to promote the success of the Old Home week to be held at Guelph next August. A social meeting will be held in Guild Hall on the evening of May 12.

These officers were elected: President, George L. Wilson; secretary, John Martin; assistant secretary, E. Adamson; treasurer, James Vevey; directors of music, Donald MacGregor, E. A. Peure and J. Bruce; chaplain, Rev. W. S. Griffin, D.D.; executive committee, George Anderson, W. R. Brock, S. K. King, E. Verney, K. Stewart, D. Hogt, T. Gallagher, A. Copp, W. Craig, M. Clancy, George Brown, C. Hallett, Thomas New and A. Taylor.

Lectures on Manual Training.

James P. Haney, superintendent of schools in New York City, is one of the special speakers for the Ontario Educational Association, which will be in Toronto, April 22-24. He will give three addresses, to which the public are invited.

He will speak on "Manual Training" in Room 3, Toronto University, at 1:30 p.m.; and again in Convocation Hall at 4 p.m.; and at 8 p.m. will speak on "Applied Designing," with illustrations made on the platform.

To-morrow at 1 p.m. he will address the Empire Club on "Industrial Education."

The Boost Club.

The regular monthly dinner of the Boost Club of Toronto was held in the St. Charles last evening, some 150 members and guests sitting in. Chairman C. E. Peabody was in charge.

A. W. Wright, president of the Public Ownership League, was the speaker of the evening, and his talk was an exposition of that subject.

The Rev. Dr. Hoesack, Deer Park; W. A. Sherwood, Dr. Hargreaves and C. P. Cummings also gave short addresses.

George Dixon, tor; Morley Sherris, bass; A. M. Kennedy and Roland Gul-ton, contributed to a program. A. T. Craig acted as accompanist.

to keep yourself at your best. To always feel as you feel on your good days. Cascarets ward off all the little ills.

Primitive men did not need Cascarets. They lived out-doors, ate plenty of fruit, and all of their food was coarse.

We modern people are different. We exercise too little, eat little fruit; and our food is too fine, too rich.

We can't have the bowels clogged up and keep well.

It means that the food retained there decays. The decay creates poisons. And those poisons are sucked into the blood through the very ducts intended to suck in the nutriment.

So we must make our choice.

We must live, to an extent, like the primitive man, else we must eat Cascarets.

Cascarets do what the right food would do, what plenty of exercise does.

The effect is as natural from one as the other.

The question is one of convenience.

If you choose Cascarets, take them as you take food. Not in large doses rarely, but a tablet at a time.

That is the way to keep well.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with CCC on every tablet. The price is 50 cents, 25 cents and 10 Cents per Box.

KEEP VISITORS OUT.

They Take Infection Into Hospitals, Says Dr. Sheard.

The newly elected officers of the Canadian Hospital Association, which concluded its second annual convention at the parliament buildings yesterday, are: President, Dr. Dobbie, Weston; first vice-president, Dr. MacIntyre, Kingston; second vice-president, H. E. Webster, Montreal; third vice-president, Miss Brent, Toronto; fourth vice-president, W. W. Kenny, Halifax; fifth vice-president, L. L. Cosgrave, Winnipeg; secretary, Dr. J. N. E. Brown, Toronto; treasurer, Miss Patton, Toronto.

Miss Brent, the retiring president, was congratulated on having launched the organization in such a successful way. Dr. J. N. E. Brown's work as secretary was also warmly commended.

Visitors to public institutions are a nuisance and an annoyance. They are an annoyance because they bring in infections and are in no power on the whole to keep them out.

John Ross Robertson stated that it had cost the Hospital for Sick Children \$100,000 to deal with infectious disease imported by visitors.

Dr. C. K. Clarke's paper on psychiatric work drew compliments from Dr. E. M. Ford of Johns Hopkins for the new provincial institution.

D. T. Sutton, editor of The National Hospital Record, Detroit, briefly introduced the topic of hospital hygiene and the public, advocating a policy of "snugging up" for officials and others.

The Nursing of Incurable Patients" was the first paper read in the afternoon, Miss M. M. Grey, superintendent of the Hospital for Incurables, read it.

Coroner J. E. Elliot will open an inquest at Murphy's undertaking rooms, West Queen-street, this afternoon.

Mrs. Scott lived with her only son, who has been unemployed for some time.

HOSE WAGON KILLS WOMAN ON WAY TO A BIG FIRE

Mrs. Scott the Victim—G. T. R. Grain Elevator Destroyed at Loss of \$80,000.

Fire yesterday morning totally destroyed the old G.T.R. grain elevator at the foot of Brook-street, at a loss of about \$80,000.

Incidentally there was a fatality when hose 8, from Dundas-street, unswerving ran over and instantly killed Mrs. Mary Scott, widow, 53 years old, living at 25 DeFoe-street. She was on her way to the Lytle pickle factory, where she was employed, and was accompanied by her granddaughter, Mary Scott, aged 14. They were crossing Queen-street, near Tecumseh, the little girl slightly in advance of the says she heard the gong ringing and got safely across the south car track, thinking her grandmother would not follow. But the aged woman, who was slightly deaf, apparently was unaware of her danger until the horses were nearly upon her. The team was pulled up almost at once, but the wagon pole and the wheels had caused fatal injuries. Ed. Mitchell was driving and was unable to stop the team in time. The driver, as was shown by the quickness with which the horses were stopped when the danger was noticed, District Chief Smith, who was on the wagon, said the woman was hardly half a dozen feet away on the track when he saw her. Coroner J. E. Elliot will open an inquest at Murphy's undertaking rooms, West Queen-street, this afternoon.

Fire a Hot One.

The fire itself was one of the hottest on record. Had it occurred east week during the southerly gales it would have swept the waterfront, and with an offshore wind the intense heat endangered the Niagara line steamers, 50 yards across the slip to the west, and a H.C.W. freighter and Edouard's boat houses some distance to the east. The fire tug Nellie Ely was a willing worker, but showed its utility by being unable to bring the heat, and caught fire, requiring a liberal application of water.

The elevator was one of the city landmarks, erected about 40 years ago, with a capacity of 250,000 bushels. It was 160 feet high and constructed of wrought iron. The top had a circular laid face to face, and it was as dry as a bone. It was covered with iron sheeting, and before the firemen arrived the place was a regular furnace. In a short time it was like a huge tower of solid flame, with little or no smoke.

The heat was tremendous, and the firemen under Chief Thompson and Deputy Chief Noble had a difficult time to keep the fire from spreading.

NO WEDDING BELLS.

But East Luther Girl Got \$500 Damages.

ORANGEVILLE, April 21.—(Special.)—It was in May, 1906, when the leaves were budding forth on the trees and the birds were warbling in the fulness of joy in the spring sunshine that Charlotte Barbaree, a promising young girl, met Joseph L. Eaton, a blacksmith of West Luther, and lost her heart.

The young man of 29, a widower without family, paid her marked attention until Jan. 24, 1907. They had previously become engaged, as he had proposed to her. Last May the engagement was broken and Miss Barbaree, who is a daughter of J. L. Barbaree, sued for damages.

The defendant did not appear in court, nor was he represented by counsel. Miss Barbaree told her story simply, encouraged by E. B. Lucas, M.L.A., counsel for the plaintiff. Justice Britton charged in favor of the young lady, and the jury awarded damages of \$500, costs to be paid by the defendant.

Police Get Merit Marks.

Police Constables Tucker and Brishin of No. 4 division were awarded merit marks by the police commissioners yesterday; the former for resuscitating a man who was almost asphyxiated at Burke's Hotel on April 7, and the latter for arresting two thieves who had broken into Charles Lauter & Co.'s store on Ontario-street in February, 1906.

P. C. Fyfe, whose health has been poor, was permitted to withdraw his resignation as telephone operator in the Central Police Station.

Twenty-five recruits will be sworn in Monday.

Ex-Controller Richardson says he has clinched the "old line" Conservative nomination for the legislature in East Toronto.

To Legalize an Expediency.

OTTAWA, April 21.—(Special.)—Mr. Fielding has given notice of "An Act Respecting a Certain Issue of Dominion Notes," and a bill to amend the Bank Act. This will legalize his action in issuing Dominion notes for the purpose of moving the crops of the Northwest last fall.

The annual excursion of the Huron Old Boys' Association of this city will be run to Goderich and Wingham, Ontario, by the G.T.R. in February, 1908.

The executive of the association will meet at the Rossin House on Friday evening next, to make the arrangements. The excursion will be over the G. T. Railway.

CUT THE LOVE OUT.

Fisher Wants None of it in the Cheese.

OTTAWA, April 21.—(Special.)—Progress was reported on Mr. Fisher's bill to amend the Meat and Canned Goods Act.

Mr. Macpherson (Vancouver) moved an amendment which was accepted, providing that the first purchase of canned goods may place his name on the package instead of the packer. This has been asked for by wholesale meat merchants.

Another bill to amend the Inspection and Sale Act was reported. It increases the penalties for false marking of fruits and adulteration of cheese. Mr. Fisher explained that one object was to prevent the practice of enclosing love tokens in cheese for export.

The Grads of '88.

Thirty graduates of the University of Toronto, of the year 1888, gathered last night to exchange old stories. About half of this number belonged in the city and the remainder came from all parts of Canada. Rev. H. F. LaMacque, a missionary in India, a member of the class, was also present. T. A. Gibson was the chairman, and Principal Maurice Hutton the guest of honor.

This class was one of the largest graduating from Varsity at that time, and in the 20 years has only lost seven members by death. One of these was McLeay, the Canadian actor, who died in England a few years ago.

On Wall Street.
 Charles Head & Co. to R. R. Bond: Again to-day the stock market is exceptionally dull, with only a few issues contributing the larger proportion of the dealings. A bearish sentiment had grown up over night owing to the promise given to the exceptionally unfavorable reports from business circles generally, and during the first half hour a reactionary movement prevailed, with the room contingent arrayed on the selling side. The absence of any liquidation, however, soon discouraged operations and the market appeared the appearance of substantial buying caused an abrupt change in sentiment. The stock advanced over a point and large transactions, the buying being accompanied by gossip to the effect that the quarterly report to be issued soon will make a much better showing than had been expected. The strength of this issue started short covering in other leaders and prices enjoyed advances extending over a point in some issues. In the last few minutes the demand for United States Steel increased and the stock closed at the highest price giving the whole list a stimulus. The closing was firm.
 Marshall, Spader & Co. to J. G. Beatty: Washington news that a currency measure of some kind may be passed at this session and special interest in the security markets is not likely to be passed.
 There is nothing in the forecast of the immediate future to suggest a change in market conditions. The character of the United States Steel statement in respect to its booked orders is quite likely to indicate small earnings for the present quarter. It is, however, known that volume of business does not exceed one-half of last year's total. The encouraging feature of the market appears to be apparent scarcity of stocks, particularly on declines.
 Ennis & Stoppard wired to J. L. Mitchell: The market was irregular with strong support in leading stocks and small offerings in evidence. London was considerable buyer of Steel and while the way is being paved for a fresh buying movement in rails and other products of the steel or equipment companies. It is stated that the Pennsylvania will in the immediate future announce a \$40,000,000 bond issue at 4 per cent., costing the company 4 1/4 per cent. to 4 1/2 per cent. as underwritten by a syndicate of brokers, who will place a large part of the issue abroad. If there is extensive foreign buying of this and other issues, the export movement may be considerably curtailed. In view of the fact that we are in a presidential year Washington will probably favor the plan of increased freight rates, and large shippers should be satisfied. The necessity for rate advances is continually indicated

by poor reports of gross earnings such as are coming to hand for second week of the current month. There is some prospect for a reduction in the Norfolk and Republic Steel preferred dividends. The powerful interests now devoting their attention to success of new securities may be relied upon to afford proper protection to the stock when occasion demands it.
 J. R. Helms & Co. wired to R. B. Holden: The market has been quite dull to-day and almost entirely professional. The market will likely continue professional, but we would refrain from buying stocks except on recessions and on any fair rally from present we would secure profits on long holdings. We look for a trading market for the time being and do not look for very extensive moves in either direction.

The Spring Derby

After all a hatter is known by the Derby Hats he sells. There lies his reputation.

We don't handle the ordinary Derby Hats. We sell exclusive designs by exclusive makers—and they don't cost any more than the other kind.

We are sole Canadian agents for Henry Heath of London, England, and Henry Dunlap of New York, two of the world's greatest makers.

We have only this year's designs. One of our hats puts the finishing touches to your costume.

WILL CLOTHE DIPLOMACY IN THE GARB OF ENGLISH SUMMER RESIDENTS WOULD LIKE TO VOTE

For All of Which the Star Reporter, Dean of the Gallery, Will Get \$2800 Per.

Better Officials Could Then Be Elected in the Northern Country.

OTTAWA, April 21.—(Special.)—William Mackenzie, the dean of the Ottawa press gallery, has been appointed by the government secretary for imperial and foreign correspondence at a salary of \$2800 a year.

Mr. Mackenzie was given the choice of this position or that of clerk of the crown in chancery, and chose the former, as being more congenial to his journalistic tastes. It is a new office, the creation of which Sir Wilfrid Laurier has had in contemplation for some time, in view of the increasing volume of diplomatic correspondence arising out of imperial and foreign negotiations.

His appointment to the responsible position is received with approval by his colleagues of the press gallery, who only a few seasons ago honored him with election to the presidency.

The salary of the clerk of the crown in chancery is \$2800.

Strikers Fire on Car. PENSACOLA, Fla., April 21.—The street car strike situation here took a serious turn to-day, when a number of strikers attacked a car about five miles out of the city limits and fired a fusillade from rifles. The conductor was wounded, three bullets striking and seriously injuring him. The motor-man was not hurt.

Fashionable Models Every day now makes the demand for low shoes greater.

And that means more people coming to the "Boston" for fashionable footwear.

Fashionable models include lasts suitable for men and women of every age—and every shape of foot.

YORK TOWNSHIP COUNCIL WANT MARKET KEPT OPEN

All the Suburban Townships Will Join in—Weston Council Looks to Hydro Commission.

The York Township Council, at their meeting on Monday, passed a resolution protesting against the closing of the St. Lawrence Market to the farmers, and the renting of the same for exhibition or amusement purposes. The Scarborough Township Council a week ago took similar action. Ezeve W. D. Annis of the same township was in the city yesterday and made arrangements for the meeting of a representative from each of the Townships of York, Scarborough, Markham, Etobicoke and Vaughan, who will later confer with Property Commissioners Harris, and probably the board of control, as to the rights (if any) of the farmers to the use of the St. Lawrence Market. Just now the market is open, but the horse show will shortly be in full swing, when the general public will be debarred from entering.

NORTH TORONTO.

NORTH TORONTO, April 21.—At the town council meeting to-night the large rates charged to telephone subscribers by the Bell Telephone Co. caused considerable discussion. Councillors Douglas, Parke and Irwin were appointed a committee to interview the managers.

The Martin Pump Co. must put the pump in proper order at once. A six-inch water main will be laid on Algoma-crescent.

The Davistown firehall will receive a metallic sheeting front.

Councillor Irwin urged the council to remit the liability of the North Toronto Hockey Club for their expenses during the winter season. Councillor Douglas opposed the idea of relieving them of their liabilities, but was willing to make a grant of \$200, and the grant of \$80 passed immediately.

William Tuck of York Mills was robbed of \$5 this afternoon about 1 o'clock, by a woman who called at his house, and while he was in the stable latched the door and took the money from his pocket and departed. The local police have been informed.

WOODBRIDGE.

WOODBRIDGE, April 21.—(Special.)—The death of Miss Laura Anne Wallace, daughter of Mr. and Mrs. Geo. Wallace, took place at the family residence here on Monday. Miss Wallace had been ill for a short time only and her death came as a great shock to the village. The funeral will take place on Thursday afternoon to the Methodist Cemetery.

EAST TORONTO.

Death of Old and Esteemed Resident of the Town. EAST TORONTO, April 21.—The death of Mrs. John Brown, which took place here on Monday, removes a well-known and highly respected member of the community. Mrs. Brown, who was 82 years of age, removed with her husband to East Toronto, then Little York, some 25 years ago, where they have since carried on a most successful business. Mrs. Brown is survived by a husband, three sons and two daughters. The latter are Miss Elizabeth at home, and Mrs. Joseph Boston of East Toronto. The funeral will be private, and will be conducted by Rev. Dr. Osborne of St. Saviour's Church, of which deceased was a member.

WESTON.

Town Council Decide to Ask for Niagara Power. WESTON, April 21.—Steam engines and dynamos will soon be things of the past as far as Weston is concerned. At the meeting of the council to-night it was decided to ask the hydro-electric commission for 200 horse-power. The capacity of the municipal plant is not by any means sufficient for practical purposes, and consequently some of the local manufacturers have had to resort to steam power, or dynamos.

North York license commissioners met in the court house in Newmarket to-day (Tuesday) at 11 a.m. for the granting of applications for the year 1908-09.

Thomas Yellowlees, extension secretary of the Ontario Sunday schools, assisted by the anti-slavery services in the Methodist Church here Sunday morning and evening.

WEST TORONTO. WEST TORONTO, April 21.—Supra Osborne of the C.P.R. surprised the city council this evening. He called on that body personally to protest against the increase in the company's water rate from three cents a thousand gallons to six and a quarter cents.

The West Toronto General Hospital will be a reality, under this name, if the council sanctions it as official, the old Heydon House will be converted into a hospital.

The reports from the manufacturers as to the number of their employees who reside in this city was referred to the executive committee. City Clerk Cannon said he had reports from all the factories except Gunn's Limited, and the Wilkinson Flow Co.

The Ontario Bowling Club opened their new alleys in St. James' Hall. The council, the public school board and the Collegiate Institute board played matches there this evening.

From 6.30 to 7.45 o'clock the cars were tied up, and information as to the cause could not be obtained.

SIMPSON COMPANY, LIMITED

H. H. Fudger, Pres.; J. Wood, Man. Wednesday, April 22.

Blue and Black Suits \$10.50, \$15.00, \$18.00

Don't you like blue and black suits? Most men look better in a blue serge than in any other. Neat yet manly and dignified, good looking. They fit so well—the cloth is the sort that lies snug and close to the shoulders. A man is never better dressed than when in a blue or a black serge. And it is never out of place.

We have opened up our spring stock and we wish you to see it.

Men's and Youths' Fine Navy Blue and Black Spring Suits, an 18-oz. Botany worsted, in fine clay twill, stylish cut, with long lapels, etc., in single or double-breasted sack style, mohair serge linings and fine interlinings, sizes 34-44. Thursday \$10.50

At \$12.00 and \$12.50—Fine soft-finished clay twill English worsted, deep navy blue and black shades, either single or double-breasted sack style; fashionable suits, tailored to fit and retain their shape, and interlined with haircloth and shrunken duck. On sale Thursday.

At \$15.00—Extra fine Suits of high-grade imported English worsted, very fine twill, in rich, permanent, deep blue and black shades, smart three-button single or double-breasted sack style, with fairly wide peaked lapels, no vent, shoulders moderately wide and square. This suit comes also in a fast black vicuna cloth, sizes 34-44. On sale Thursday.

Men's Smart Conservative New Spring Suits, plain three-button sack style, single-breasted, with moderate natural width shoulders and fairly long, medium wide lapel coat cut the correct length, no vent, sleeve finished plain. The materials are fine English chevrot, in blue and fast black vicuna cloth. Sizes 34-44. On sale Thursday \$18.00
