TRADE MARK COUNCIL 35

30TH YEAR.

ESTIMATES FOR 1911 PASSED BY HOUSE

Call for Expenditure of \$7,623,745.66 — New Items Are for Wing to Buildings, Government House and Central Prison.

Under the new fiscal system, by which the financial year ends on Oct. 31, it is necessary, if there is to be any money to run the province between that date and the time of the opening of the house, for the legislature to pass the main estimates almost a year ahead of the time when they will need to be expended. In accordance with this necessity, Hon. Col. Matheson yesterday brought down the main estimates for the year ending Oct. 31, 1911, which were passed through committee of supply the same afternoon.

The estimates call for an expenditure of \$7,623,745.66, of which \$6,969,845.56 is current expenditure, \$585,900 on capital account, and \$118,000 for other purposes.

A grant of \$50,000 is made towards a provincial museum. For the hydro-electric commission a further expenditure of \$200,000 on capital account is authorized.

New Government House. For the new Government House \$100,000 was voted; for the new wing of the parliament buildings \$200,000, and for the new provincial prison \$50,000.

Very few changes are noted in the salary items over the year 1910, as nearly all the increases were included in the supplementary estimates. Under salaries and contingencies there are decreases from \$138,935 to \$137,900 in the department of lands, forests and mines; from \$17,765 to \$17,245 in the provincial secretary's department and an increase in the department of agriculture from \$61,610 to \$62,010. The total of salaries and contingencies is \$615,585, as against \$594,620 for 1910.

Under civil government there is a decrease from \$624,620 to \$615,585. In the attorney-general's department there is a decrease from \$65,316 to \$65,376. The education department stands at the same figure, \$29,960. The department of lands, forests and mines shows a slight decrease from \$128,935 to \$127,900. The public works department gets \$66,660, a nominal increase; the treasury department \$32,804, a small decrease, and the provincial secretary's department a decrease from \$17,765 to \$17,245. The appropriation for the department of agriculture is \$62,010, a slight increase. The salary of the deputy minister is increased from \$900 to \$4,000. This is in addition to the \$600 extra included in the supplementary estimates. Among the miscellaneous items the cost of the official gazette is brought down from \$6500 to \$5000.

The cost of "legislation" is decreased from \$279,510 to \$255,450. This includes a cut of \$10,000 in the cost of the library.

Justice Less Expensive. The administration of justice will cost \$490,741.56, instead of \$477,888.20 in 1910. The increase from \$43,853.36 to \$50,000 for salaries of the provincial police, is accounted for by the fact that the former figure was only for ten months. For uniforms for the police there is a decrease from \$2850 to \$1500, and for traveling expenses an increase from \$4000 to \$4800. The administration of justice in districts is lowered from \$128,674. The decrease is in the districts of Thunder Bay, Kenora, Nipissing, Parry Sound and Manitoulin. In the Niagara River district appropriations amounting to \$18,113 are carried over from 1910.

The education department will require \$1,734,187 against \$1,750,528.88 for 1910. Items are a decrease from \$20,000 to \$10,000 for the text-book committee, and an increase from \$10,500 to \$12,000 to the education department of Queen's University. Under public institutions' maintenance there is a decrease from \$1,221,276.20 to \$1,219,325.

The total for the department of agriculture is \$624,606, a decrease of about \$500. Under colonization and immigration \$10,375 is carried over from 1910.

Hospitals and Charities. The votes to hospitals and charities is \$219,700, against \$247,000 for 1910, largely accounted for by \$37,000 being carried over from 1910. Maintenance and repair of public buildings will cost \$211,000, against \$222,208.08 for 1910. There is an increase from \$16,000 to \$20,000 for repairs and cleaning of the parliament buildings, and from \$19,000 to \$12,000 for furnishings.

The total for colonization roads is \$118,000, and the total charges on crown lands are brought down from \$625,050 to \$561,000.

Four thousand dollars less is asked for commutation on veterans' land grants, \$6000 being voted.

GOING SOME.

The World heard of the very latest last night in regard to the purchase of two blocks on Yonge street, north of Carlton; that they would be covered by a great, big building, three stories underground and fourteen stories above; that the bottom basement storey would be for boilers, the next for radials, the third for a steam railway station, and the eight storeys above ground for a departmental store, and a four or six-story hotel on top of this, with a roof-garden. There would be room in this immense structure for lawyers, real estate, banks, newspapers, theatres, etc.

Hon. G. W. Ross Is Seriously Ill

Ex-Premier of Ontario Stricken With Paralysis and Condition Gives Cause for Alarm.

An Ottawa special last night announced that Hon. G. W. Ross, former premier of Ontario, is seriously ill. A few days ago he had a stroke of paralysis, and is now in his room at the Hotel Cecil. His condition last night was regarded as serious. His wife and his son, who is member of the house of commons for West Middlesex, are constantly in attendance at his bedside.

B.C. LEGISLATURE PASSES A VOTE OF SYMPATHY

With Relatives of Avalanche Victims—Bodies Recovered Show Them Caught Unawares.

VANCOUVER, B.C., March 7.—(Special.)—A resolution eulogizing the heroism of the train crew killed by the avalanche at Rogers' Pass was passed by the legislature this afternoon.

Premier McBride stated that the total death list was 64; and moved that the legislature sympathize with the relatives of the dead. Those who knew mountain railroading knew the danger they incurred in their work, and recognized the heroic work of these men in protecting the traveling public.

It is feared that most of the bodies have been carried down into the canyon. Lechene, the fireman of the rotary, was standing on the north bank opposite to where the slide came down. The force of the preceding wind whisked him a hundred feet thru the air into the brush.

Men who should know say that a high wind started a small slide from the gully two or three miles above and higher than the timber line. The avalanche must have caught the workers unawares, for many of those found had picks lifted high or shovels slanted as they were at work.

The big rotary engine, weighing a hundred tons, was caught up out of cutting, turned over and over, and broke into pieces.

Most Unusual Says Shaughnessy. MONTREAL, March 7.—(Special.)—Sir Thomas Shaughnessy stated to-day regarding the avalanche catastrophe in Rogers' Pass, that it was brought about by conditions such as had not prevailed in the Rockies for the past twenty years, and probably would not recur for another twenty-five years.

"For twenty years," he said, "we have never had a single avalanche on one of our trains in the Mountains. We maintain constant patrols and our men know the mountains just as they know the members of their own families. They know exactly where and when snowslides are likely to occur, and they take precautions accordingly."

"This year the snowfall has been exceptionally heavy, and it has been followed by a great and sudden thaw, thus loosening vast masses of snow."

"Our snow sheds are great timbered bulwarks so constructed that they carry the snow slides over the track and shoot them into the valley beneath."

"The snow sheds are patrolled by our men every time before a train goes thru, and there is telephonic connection from every part by which trains can be stopped."

POISONED BY MISTAKE Found Wrong Box, Got Bichloride Tablets.

Frank Miller, aged 31, of 294 Western avenue, took bichloride tablets by mistake last night and was in a dangerous condition for a while.

Before going to bed at about 10.30, he looked for some medicine and got the wrong box. He did not discover his mistake until after he had taken the poison.

At St. Michael's Hospital, where he was, his stomach was washed out. He is out of danger.

NESBITT BARRED IN LUMSDEN ENQUIRY

Opinion of Eminent Counsel, Given Two Years Ago in Hodgins Case, Said to Rule Him Out Now.

OTTAWA, March 7.—(Special.)—Another sensation has developed in connection with the committee investigating the Lumsden charges.

The bombshell will be exploded tomorrow morning, when the committee meets, and it is that Wallace Nesbitt, K.C., who was appointed by the government majority at its meeting on Friday, to prosecute the enquiry, is disqualified from undertaking those duties by reason of having given a written opinion at the time of the Hodgins enquiry two years ago, which opinion was strongly against the truth of the charges made by the major, and therefore in favor of the contractors.

E. M. Macdonald had the assurance of Mr. Nesbitt several days ago that he would act as counsel if appointed by the committee, and on that understanding his name was submitted, and the appointment confirmed by Messrs. Geofrion, Clark, Macdonald and Wilson.

The news that Mr. Nesbitt is disqualified has caused a great stir in the corridors, and everyone is wondering what will happen now in the proceedings, which have been replete with sensational episodes since the committee first met.

To-Day's Session.

At to-morrow's meeting the three minority members, Messrs. Barker, Crothers and Lennox, will not appear, and the vote of the majority will be carried out to-day, the four Liberal members must either solemnly reconsider the motion appointing Mr. Nesbitt as counsel, or divide under the circumstances that no counsel is necessary, and continue the enquiry of their own bats.

The one thing which is puzzling members on both sides is the fact that Mr. Nesbitt's name was put before the committee and accepted notwithstanding the stand Mr. Nesbitt took in the Hodgins case, and his freely expressed opinion favorable to the government in that case.

COULDN'T BUILD A DREDGE CAN IT BUILD A NAVY?

Point Which John Herron Brings Up in Discussion of the Government's Navy Bill.

OTTAWA, March 7.—(Special.)—The navy debate is being dragged out by weary length, but to-morrow will probably see the end of it, or at least the end of the first stage.

Arthur Lacombe, liberal member for Quebec Centre, resumed the debate to-day. He supported the government bill on the ground that it was necessary for Canada. The tendency of empire was to break up, he said, and if the British Empire broke up, Canadians would need a navy to defend themselves. If the empire did not fall, they would need the navy to help maintain the supremacy of the British navy.

George H. Perley of Argenteuil, a Quebec Conservative, supported Mr. Lacombe's policy. The government had put forward its scheme as a fulfillment of the wishes of the British admiralty, yet there was nothing to show that the British Government even approved of the proposal.

John Herron, Alberta, said that last year he had not altogether approved of the resolution, which was unanimously passed by the house, but he was prepared to take his share of the responsibility for what had been done. He stood by it until the Canadian delegates had returned from the imperial conference, and had shown that they did not intend to stick to the resolution. Nor did the bill attempt in any way to carry more strongly the Quebec County.

The record of the marine department, in whose charge the navy was to be built, was not reassuring. For example, within the last year the department had built a dredge at Sorel which cost \$200,000 or more. It was launched, but when the machinery was installed, it would have sunk to the bottom had it not been caught with grappling irons and taken back to the docks, where a false bottom had to be put in to keep it afloat.

Mr. Herron concluded by reading a letter from a former German naval officer, now domiciled in Canada, and a naturalized British subject, which urged more strongly the Quebec County.

Other speakers were: C. S. Crockett, York; N. B. F. R. Lacombe, and Peter Elson, Middlesex, who supported Mr. Borden's amendment, and D. H. McAllister, Kings and Albert, N.B.; J. P. Turcotte, Quebec County; Dr. Molloy, Provencher, Man., who supported the bill.

FELL FIVE FLATS TO DEATH

Ontario Man Killed While at Work in Winnipeg.

WINNIPEG, March 7.—(Special.)—Thos. Windart, 34, employed in the construction of the new Makase Rubber Building, slipped and fell five storeys.

He died en route to the hospital. He was an Ontarian, not long in the west.

A CHASTENED CHANTICLEER

Twenty Thousand For Newsies' Home

Committee of Six Prominent Citizens Ask for Funds To Erect Comfortable Quarters For Little Urchins of the Street.

"The youth of a nation are the trustees of posterity." The Toronto union newsboys want a home and gymnasium. They want a place in which to meet one another and to get in touch with those forces that uplift. They have the stirring of citizenship in their breasts. They want older and bigger citizens to give them a helping hand and a few kind words.

To this end a committee of six, three chosen by the Toronto union newsboys and three chosen from among the citizens of Toronto—all approved of and endorsed by the Toronto union newsboys, has decided to ask the citizens of Toronto to subscribe \$20,000 for the purpose of founding a home and gymnasium for these urchins of the busy streets of this city.

The committee is: JAMES SIMPSON, chairman of the board of education.

SAMUEL LICHTMAN, president Newsboys' Union No. 16.

WM. GLOCKLING, president Trades and Labor Council.

ANGUS MACMURCHY, K.C., 164 Bay-street.

COL. A. G. HENDERSON, bureau of industrial, parliament buildings.

M. E. ZEPP, circulation manager The Toronto World, 40-44 West-Regina-street.

The Toronto World commends this proposal as most worthy and will do all in its power to assist the committee of six to bring their citizens' subscriptions for the newsboys' building fund up to the desired figure.

PREM. RUTHERFORD'S SCOOP

Brings Forward Resolution Appointing a Railway Commission.

EDMONTON, March 7.—(Special.)—The government forestalled the opposition to-day by bringing forward a resolution naming a railway commission consisting of Premier Rutherford, Deputy Minister of Public Works John Jones.

The board is to have the same authority and power as the lieutenant-governor in council. The resolution provides that payment of guarantee be only made when the board is satisfied that the portion specified is completed.

As Stocks' opinion has been strongly urged by Cushing, this move was calculated to weaken the opposition objections.

Stocks to-night, however, refused to act as one of the commission. His reason is that he disapproves of the great waterways deal and will have nothing to do with it.

HIS COMB CUT

STREET RAILWAY MAY NOT GO ON ANY STREET AND LAY DOWN TRACKS WITHOUT AUTHORITY OF THE ONT. RY. BOARD

A CHASTENED CHANTICLEER

YOUNG SON OF SEC. KNOX SLYLY WEDS A SHOP GIRL

Has Himself Been Attending School in Rhode Island—Long Journey in Quest of License.

PROVIDENCE, R. I., March 7.—Wearing a broad wedding band of gold and a large diamond engagement ring, Miss May Boler, 21 years old, until recently employed in a department store of this city, to-night claimed Philander C. Knox, jr., the 28-year-old son of the United States secretary of state, as her husband.

"We were married in Burlington, Vermont, Sunday evening at 7 o'clock, by a minister," she confessed to a reporter, after having maintained silence for four hours under a volley of enquiries.

The first revelation to-day of the romance proved rather disconcerting to young Knox. News of his efforts to obtain a marriage license in Vermont and New York States, and in Montreal, Que., preceded his return, early to-day, after a three days' absence. Refusing to tell Principal French, of the Morris Heights School, where he was a pupil, whether or not he had been married, he was confined to his room at the school, and when he persisted in his refusal, several hours later, he was dismissed from the institution.

With James E. Gillen, a youthful friend of Knox, the young woman, who says she is Mrs. Knox jr., returned to Providence, in company with the son of the secretary of state. She says that she did not know the name of the clergyman who officiated or even of the street that the parsonage, where she said the ceremony took place, is on.

She refused to recount any details of her romance or of the wedding trip. Young Knox did not appear at the house of his bride to-day.

Two Small Fires.

A two-story brick building at 147-149 Main-street, Dovercourt, was damaged to the extent of \$400 and the contents to the extent of \$150 last night.

The building was occupied by the McBrien Manufacturing Co. Cause of fire unknown. Covered by insurance.

Two hundred dollars damage was done last night to a building in Wolfe's Park, Sunnyside.

GIVE TO NEWSBOYS' BUILDING FUND

WATCHING POWER PROJECTS AT OTTAWA

Hon. Clifford Sifton Gives Views of the Conservation Commission—Opposed to Connee Application.

OTTAWA, March 7.—(Special.)—Hon. Clifford Sifton, chairman of the commission on conservation, was interviewed this evening in regard to two bills which are pending before the house, the Long Sault transmission line bill and Mr. Connee's bill to authorize the building of a canal from Lake Superior to Lake Winnipeg, and, incidentally to develop power along the route. He said:

"The position of the commission in regard to the St. Lawrence River bill is that it is unwise to pass any legislation which will complicate the position or tie the hands of the government when it comes to decide upon the applications pending before it for leave to dam the St. Lawrence River at the Long Sault Rapids.

"There is no objection to authorizing the building of a transmission line, provided that the bill does not come into force until proclaimed by the governor-general in council, but we think the bill should be confined to that alone. In this way the whole matter will be left to the responsibility of the government, who, we trust, will see that the Long Sault power scheme is not permitted to go thru.

"A point not heretofore mentioned in the discussion of this project is that the channel between Barnhart Island and Long Sault Island is secured to both nations as an international waterway by the Ashburton treaty. It cannot be interfered with without the consent of Canada. It would be a very serious mistake to admit of any compromise of the rights of Canada under that treaty.

Connee's Bill Dangerous.

"In reference to Mr. Connee's waterways bill, we are opposed to it in its entirety. It cannot be seriously claimed that the promoters intend to build the canal, which is the ostensible object of the bill. The cost would be prohibitive in the present stage of the country's development. No one suggests that the money could be raised for such an undertaking. If this view is correct, the bill would simply amount to giving a blanket charter over these important waterways and water powers. No public benefit can accrue from such a proceeding.

"Moreover, the fact that the waterways concerned are, in part, important international streams, is a serious objection. Whatever the merits of the bill, there can be no difference of opinion about the fact that international waterways should be kept under the strict control of the government. It makes very little difference how the proposed bill is cut down or amended. Once the company gets the charter it will have rights that will seriously complicate the position.

"It is to be noted that the City of Winnipeg, the City of Port Arthur, the City of Fort William, and the Province of Ontario are all opposing the bill."

Georgian Bay Canal, Too.

"What about the Georgian Bay Canal in this connection?"

"We think," said Mr. Sifton, "the same principles should apply to the Georgian Bay Canal. The company's charter was granted some years ago and now contains a clause authorizing the government to take it over. It is understood that the government did not object to the charter being renewed."

Continued on Page 7.

A RETROSPECT.

March 8, 1856.—The first locomotive crossed the Suspension Bridge at Niagara Falls.

March 8, 1891.—The people of Quebec, a provincial election being held, overthrew the Mercier party and put the Conservatives in power.

THE DON VALLEY ICED.

On Saturday night the Don Valleylanders had their yearly experience of the breaking of the Don. At about 9 o'clock a sudden roar was heard for a mile or more from the river and the people in ear of it jumped from their beds, grabbed their guns and shouted "The Fenians are coming," rushed out of doors, and there "reckelcted" might be the river going off in its annual ice burst, or that the member for South York was blowing more stumps after dark. These modest and simple folk are still looking for the Fenians at any and every hour of the night.

After the burst, the river suddenly started to rise, the ice moved, it flooded all the valley, then swamped the road at Thorncliffe farm, gate Sunday morning, clogged the river, and left acres and acres of ice-floes thirty by thirty feet each, all over. Dynamite had to be used to get some of the choked up passages open.

All thru the Don bush and valley you can now see the old-timers out watching the river, comparing it with former years. Keeping an eye upon a low-lying area a couple of acres, the flow of sap in the national tree and standing.

The New Spring Hat.

There is a considerable difference in the style of hats this year from those of last season. The English-made hat holds the market on quality and for "smart" designs. The Dinca Company have received all the advance shipments including those by Henry Heath of London, England, and Dunlap of New York, two of the most noted manufacturers in the world.

AT THE THEATRES

Princess

Anna Held in "Miss Innocence." Once upon a time a worthy clergyman preached a scathing denunciation of the moral tone of a certain novel, which fact being noised abroad, the public demand for the book was not to be appeased until the publishers had waxed rich from the sale of copies and the author from royalties. The deduction is obvious, and incidentally explains why the Princess Theatre was packed from pit to dome last night, with a significantly large percentage of the audience belonging to the masculine gender.

"Miss Innocence," with Anna Held as the young lady of crystalline conscience, did not meet the expectations of that portion of the audience who looked for the salacious. Perhaps, there was some process of expurgation before the Ziegfeld musical comedy crossed the line, but certain it is that some but the feminine half of the audience anything at all to cavil in dialog or lyrics. There is one daring ballet and a studio scene which might be termed Parisian, but otherwise the censor might apply the test of propriety, taking the average musical show as a standard, without discovering objectionable features in it. The musical numbers of such fetching qualities that several of them preceded the show by months and are already familiar to the ears of the ordinary rich and aristocratic stage effects, which evidence at every turn a determination to supply novelty.

Anna Held is so charmingly piquant, so much the mistress of a thousand wiles, chief among them the art of using her expressive eyes, that it is difficult to credit the statement that she is to retire into domesticity at the end of the season. In the dazzling finery of her bejeweled gowns, she glided many a feminine "cut" at the end of the first act, the enthusiasm of the audience was such that Miss Held had to speak, which she did with the coy demureness which has so well endeared her to the eyes of her admirers for a number of years, has fascinated theatregoers.

The presentation of a bouquet of roses to the actress was an incident rather more pleasing than any other episode. In the dashing café scene there was introduced by the chorus a generous display of Old Glory. The audience remained passive until the starry emblems were energetically waved, when a tempest of disapproval swept the theatre. Miss Held moved clever amidst later by daintily toying with a Union Jack, whereupon all was forgiven.

Charles A. Bigelow, comedian-in-chief, has the distinction of resembling closely the late Bill Nye, his cranial being almost completely deserted, and his physiognomy compelling the replica. Added to this asset, he has gifts of grotesque humor which equip him for the leading part in just such an absurd concoction as this jumble of decidedly light entertainment. One keen disappointment is the distinctly subordinate part in which Lawrence D'Orosy appears. He has the ability to opportunity to exhibit those splendid qualities as a comedian which made his work in "The Earl of Pavlovick" memorable, and which he should have given up a career at the head of a company for so meagre an allotment is to the public an unfathomable mystery. The support includes also, Alton Hegeman, Gene Lunaska, Frances Jarr, John Reinhard, William C. Powers, Peter Swift and Maurice Hegeman, all capable in their respective roles.

It would not be fair to say that Harry B. Smith is at his best in the book, which is of average quality only.

Royal Alexandra

Mabel Hite in a Certain Party. Miss Mabel Hite made an early and very favorable impression on the large audience that filled the Royal Alexandra last night, which later resulted in an ovation remarkable for its spontaneity and wholeheartedness. It was well deserved and earned, despite the strong flavor of United States methods which dominated the play, and much has been unfamiliar to those unacquainted with machine politics as carried on in the republic. Nevertheless, the points were quickly taken up and the plot is sufficiently interesting in itself to arouse and sustain popular interest.

The production is frankly described as the play-bill as a farce, but some of the so-called comedies presented nowadays would better suit the name. Coming from the pen of Edward W. Townsend and Frank Ward O'Malley, the story of "A Certain Party" centres round the candidature for the assembly of Homer Caldwell, who sports the Progressive party ticket. He, like all ticket candidates, is full of enthusiasm for reform, but in the stress of the contest he becomes ready to take advantage of the influence of the political bosses of his district. His house is in charge of his wicked sister, Mrs. Lorimer, a lady who does not appreciate her brother's political ambition, is in constant trouble with her household servants and much concerned about the morals of George Caldwell, the candidate's son, and much in love with her step-daughter, Grace Fairweather.

Nora, Grace's maid, the part taken by Miss Hite, before her appearance in the Caldwell household, has been in close touch with the district politicians, particularly Jerry Fogarty, the man's boss. George Caldwell has done her young brother a good turn and in gratitude she uses her influence with Fogarty to induce him to support Homer Caldwell's candidature. George has compromised his father by visiting the gambling house carried on by Sydney Finch, losing money there and giving the old man's cheque in payment of his losses. This cheque Finch uses as a bribe to compel the withdrawal of the Progressive candidate's program but Nora succeeds in having his rooms raided by the police and later by a trick obtains possession of the compromising cheque from her lover, Detective Sgt. James Barrett, whose promotion to a captaincy she is also anxious to secure. After some vicissitudes she obtains possession of the compromising cheque from her lover, Detective Sgt. James Barrett, whose promotion to a captaincy she is also anxious to secure.

Much of the fun of the farze is derived from the pictures of light life below stairs which are the prominent features of the farce. The party in the kitchen, their retreat upstairs and the awkwardness of the Caldwell domestic staff in gowns appear from Mrs. Lorimer's wardrobe provide scenes full of amusement. But there is more genuine humor and not a little on district politics. The comic jesting lurks a sly wink at the audience, which is not so much as the types are sharply distinguished.

Miss Hite's own performance is an exceedingly bright and clever comedienne. Her characterization was artistic and consistent, and at the same time thoroughly natural. From the moment of her appearance on the stage she caught the attention of the audience, and it was never lost. Indeed so appreciative was the theatre that she was recalled at the end of the first act. Miss Hite was recalled so insistently that quietness was only secured after her spoken acknowledgment, all the more significant since it took the simple form of "Thank you so much." Miss Beatrice Moreland was sufficiently dignified and austere as Mrs. Lorimer; Miss Madge Richardson made an attractive role of Grace Fairweather, and Miss Amy Ames showed a fine turn of Irish humor as Mrs. Jeremiah Fogarty.

Special interest was taken in the appearance of the comedian, most famous of baseballers, in the part of Detective-Sergeant James Barrett, which was filled with much acceptance. George Parren was excellent as Homer Caldwell, and Kelly made a distinct hit as Jerry Fogarty and filled the role of district politician to the life. Dudley Hawley as Geo. Caldwell, and the other good roles were all competently staged and will be given during the week with the usual Tuesday and Saturday matinees.

Story of a Hat Pin

Society Notes

My first recollection, after passing thru the inspector's hands at the factory, is of being unpacked from a large cardboard box and together with 23 companions laid upon the bargain counter. We were all sizes, that is our heads, but in length I was the king-pin of them all. From my polished crown to the tip of my point I measured 25 inches and my biggedy-piggidy with countless companions and sparkling in the February sunshine which filtered thru the windows of the department store, I wondered what my ultimate fate would be. It was bargain day in hats, and the women hustled and jostled in their efforts to make a good selection. Many a hand, some hot, some cold, some sparkling with jewels, and some scanning my face, I was picked up, one after a brief fondling and a look at the price to drop me again. Suddenly I was being carried by a large black hat, a little cry of delight and grabbed me up from where I had been making a good selection. "See, Mame!" she exclaimed, "this is just what I want. It will match this nice close-up of the hat."

"Isn't it rather long?" hazarded her companion. "Oh, it's the fashion to wear long hats now," rejoined the red-haired girl, and with two swift motions transferred her hat to her head. Her effort, however, to drive me thru the crowd, failed, and she turned to me, with a good half a foot of my business end sticking out from the black turban which she wore. The next minute I had lost sight of my mistress, and was being carried off by my new mistress. A crowded elevator caught her eye, and in she went. As the elevator door closed, my mistress turned to call out the door, his head struck sharply against me. My mistress, who had been carried off and clapped his hand to his head, I felt a trickle of something warm fall over my head.

They say that when the tiger has fresh victims, he believes me, the tiger has nothing on the hatpin. An uncontrollable desire of fury overwhelmed me, and I felt a murderous desire to prod everyone in reach. The women about the elevator and beyond remarking to her friend, that "it was a person's own lookout if they got punctured."

From the store we entered a street car, crowded, as most of the Toronto street cars are, by four o'clock. I had seen the way my mistress cleared a passage you would have readily concluded that she had paid no heed to the hatpin to make people get out of the way. There was no room to sit down, and I was standing in the aisle, but we got to the front of the car, and again I clutched a strap. Every now and again the car would give a jolt and I experienced a sharp jab by itself in my arm, shoulder or dig deeply into his arm. The sparks which were paid no heed to them, but my mistress paid little heed to them.

"People's own lookout," she said, in answer to an angry remonstrance from one strap-holder who received a sudden jolt. As the crowd thickened, I redoubled my efforts, and when I had harpooned an unwary passenger, until suddenly a huge hand reached out and snatched me from my mistress's grasp. I was with my lady's hat, and a good portion of my hair padding. I was held and flung over the heads of the travellers to the rear platform, where two stragglers who were kicked into the road.

"I never learned, I only remember being run over by a brewer's dray and evening my hair on the pavement," said the driver, who hustled me into a sack and sold me with a lot of other rubbish to a second-hand dealer.

Malcolm Gibbs

Obituary

Malcolm Gibbs, a prominent resident of Toronto, for many years, died on Monday at the residence of his son-in-law, Leslie M. Nelles, at Grimsby, of Bright's Disease. He had been ill for some months, and had spent the past few weeks at Grimsby and Grimsby in the hospital. He was a member of the Grand Lodge of King Solomon's Lodge, Royal Arch Masons. For some years he held a commission as justice of the peace and often presided over the sessions of the court until his retirement from that position a couple of years ago. He conducted an insurance office as the agent of the Western Assurance Company and other well-known companies. He was seventy-two years of age and a native of Scotland.

The funeral will take place on Wednesday at 10 o'clock from the residence of his son-in-law, Leslie M. Nelles, at Grimsby, to Mount Pleasant Cemetery.

W. J. Micks. The death occurred yesterday rather suddenly of W. J. Micks, of 123 Pearson St., a well-known commercial traveler, for Henry & Co. of Montreal, and member of the Commercial Travellers' Association. He was a member of Geta Lodge, A. F. and M. W. M. The late Mr. Micks had been ill only a short time, and is survived by a widow. He was about 45 years of age, and resided in Toronto for about 20 years.

Luther Kilborn. BROCKVILLE, March 7.—(Special.)—Luther Kilborn, a retired farmer, died today in Elizabethtown Township. He was of E. E. Loyallist stock and had been a resident of the neighborhood his entire life of 86 years. He was a license commissioner for Brockville for many years.

Will Require Special Act. A special act of the legislature will be necessary to validate the marriages of seven couples, who were united in matrimony by clergymen who came from the United States to perform the ceremony, as the latter have no authority to officiate in Ontario. Supt. Ste. Marie claims three of the couples.

Liquor & Tobacco Habits. A. McTAGGART, M.D., C.M., 75 BAY ST., Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity permitted by: Meredith, Chief Justice; Hon. G. W. Ross, ex-Premier of Ontario; Rev. N. B. Wash, D.D., President Victoria College; Rev. Father Tealy, President of St. Michael's College; J. F. Sweeney, Bishop of Toronto.

Dr. McTaggart's vegetable remedies for the liquor and tobacco habits are healthful, safe, inexpensive, home treatments. No hypodermic injections, no publicity, no loss of time from business, and a certain cure. Consultation or correspondence invited.

Grand

Star

"In Old Kentucky," the offering at the Grand Old Kentuck, is a notable instance of the survival of the fittest. The play is now in its seventeenth year, but that doesn't matter. It is always fresh and entertaining and is a real play. The large audience at the Grand last night was just as appreciative as on previous visits, and gave ample testimony that the play has not yet worn its welcome.

There is something about its vivid picture of life in the Daniel Boone state that makes a strong and lasting appeal. Its pretty love story is not overwrought or marred by cheap sentiment. Its situations are not ridiculous and impossible, and its mountain heroine does nothing that any little mountain girl in the same situation would not do. Her daring impersonation of a jockey, to save her sweetheart's fortune is not an improbable episode, and her ride to victory arouses all manner of enthusiasm on the part of the audience.

In the play are skillfully sketched. The dialog possesses more than average literary merit, and in fact, the drama is the ideal play of American life. A clever band of comic little dorks contribute largely to the hilarity of the piece, their scene being a most entertaining and realistic feature of the play. The race scene is full of excitement, especially when the thoroughbreds come under the wire with Queen Bess in the lead, ridden by "Madge." The play ends in a quiet last act, and the simple story leaves an impression on the mind that time cannot efface.

The cast this season is fully up to the standard. Miss Mildred Johnson is the new "Madge," and cleverly presents this fascinating character creation. Last night she was the recipient of enthusiastic applause, in which the balance of the company participated. Evidently "In Old Kentucky" is liked

WILSON'S INVALIDS' PORT

Lassitude Exhaustion

When you are tired-out, feel weak and weary, sleep does not refresh you and your appetite is poor

will revive your strength, induce natural sleep, improve appetite and restore nerve-power. Its restorative effect is not equalled by any other tonic.

Dr. H. W. BRANT, Cardston, Alta. "In a number of cases I have prescribed your 'Wilson's Invalids' Port' and I have found it entirely satisfactory in every case where used, being pleasant to take and producing a beneficial effect."

\$50,000 GIFT TO QUEEN'S

Dr. Douglas of New York Wishes Some Changes in Constitution—Carriage to give \$100,000

KINGSTON, March 7.—(Special.)—An endowment fund of \$50,000 for Queen's is assured by a donation of \$50,000, which Dr. Douglas of New York has offered, on condition that certain changes be made in the constitution of the university.

DEFENCE IS MANSLAUGHTER But Louis Young is Committed for Trial on Murder Charge.

ST. CATHARINES, Ont., March 7.—Prominent members and officials of the Church of Christ Disciples of Beamsville, who objected to what they alleged were autocratic actions of their pastor, Rev. S. M. Jones, on Saturday notified Mr. Jones that they would not allow him to use the church the following day, and to make sure their wishes would be carried out, they changed the locks on the church doors. Mr. Jones hired the town hall and held service there. Rev. Mr. Abbott of Toronto preached in the church. The Disciples have a pretty large following in Beamsville. Mr. Jones has been in charge of the flock for about ten years.

Immigration Officials Withdrawn. WINDSOR, Ont., March 7.—As a result of complaints being lodged with the city council regarding the overbearing manner of the United States Immigration officials stationed at the Windsor ferry dock, Commissioner Erick of Detroit yesterday withdrew his men from Canadian soil. For the past few years these men have worked on the Canadian side of the river by courtesy of the Canadian Government.

Love's Young Dream. DETROIT, March 7.—Anna Asker of Port Elio, Ont., aged 17, is detained by the police until her parents are heard from. She was taken in charge after her arrival with William Coffey of Berlin, Ont. They were eloping.

Tired? Just as tired in the morning as at night? Things look dark? Lack nerve power? Just remember this: Ayer's Sarsaparilla is a strong tonic, entirely free from alcohol. It gives red corpuscles into the blood; gives steady, even power to the nerves; strengthens the digestion.

STANLEY CUP HISTORY PLAYED FOR 17 YEARS

It Has Been Wanderers or Ottawa Since 1903—Hockey Gossip.

MONTREAL, March 7.—It was in 1903 that Lord Stanley donated a silver trophy cup to be representative of the best hockey played in the Dominion.

The date of St. Patrick's Day, 1902, is well remembered by Montrealers, when Montreal defeated Victoria of Winnipeg, and started home with the cup.

The cup has been played for since 1902, when Montreal defeated Queen's, and then was obliged to hand over the cup to the Wanderers, as the latter had won the championship of the old Amateur Hockey Association of Canada.

Visits to Montreal of the Winnipeg Victorias will always remain fresh in the minds of hockey enthusiasts. That Winnipeg team finished on Montrealers in February, 1904, as something new in the game, when they defeated the Montreal Victorias by a score of two to nil, and the white bowl went west for the first time.

The following December the Montreal Victorias went after the prize and captured it from Winnipeg, the score being six goals to Winnipeg's five. It was at that time the practice of determining the championship by a single contest.

The next match of any interest was in 1905, when the westerners came after the cup again. The series of three games ended in a dispute. The local Vics. won the first, and in the second they had a score of three goals to two, when Tony Gingras claimed he had been cut down by Bob Macdonald. The referee refused to allow the claim, and the visitors left the ice.

It was in this year that the Montreal Shamrocks came into form by winning the league championship. In the final match with the Victorias, the Irishman won by one nil, Harry Trilley scoring the goal.

In 1906, Winnipeg came after the trophy, winning the first, and losing the last two to Shamrocks. But in the western hockeyists were more successful, when they won the majority of the three games. Shamrocks had to give up the decline in their play, and have never since assumed their old form as a team.

Reference has already been made to how Montreal went after the cup in 1907. Winnipeg came back again in 1907, defeated in a series of four games, one being a draw.

When Ottawa won the championship in 1903 the cup went to them, and they held it till 1905. It had been formed in the fall of 1905, and in 1908 the Wanderers won the cup from Ottawa by taking the league championship.

The next season the Wanderers defended the cup successfully, but in 1908 they lost it to the Shamrocks. In January, but won it back in March. Last year the Wanderers lost the championship cup to Ottawa, and it is practically certain to return to Montreal.

The history of the cup has been the history of Ottawa and Wanderer clubs since 1903. It has been in their hands for two months in 1908. Apart from that short period, it has been in the possession of the Wanderers and Shamrocks, which have proved their superiority over all challengers, generally without much difficulty.

NEW RECORDS MADE BY CANADIAN AVIATORS

Baldwin and McCurdy Make Several Joint Flights in the Baddeck No. 2 in Cape Breton.

SYDNEY, N. S., March 7.—(Special.)—McCurdy and Baldwin, the Canadian aviators, broke the Canadian aviation records to-day with the aerodrome Baddeck No. 2.

The experiments began at 7.30 a.m., and the Baddeck, after a land run of three miles, was taken to the water, where it was towed by a launch. The aerodrome was towed to a point about half a dozen feet above the ice of Bras d'Or Lake, flew steadily for seven minutes. Two other flights of six minutes were made.

With radiators changed, the machine flew for 15 minutes at an average of 20 feet above ice, after which a half hour's flight was made. McCurdy says he could have continued for some time. A new radiator was used, built on curves similar to the machine itself.

This was the first time a passenger has been carried on the Baddeck. Dr. Graham Bell's new Olonox No. 1 was given a brief test by Baldwin.

Word was received to-night that Major Nansell of the Engineers will arrive tomorrow on the train, with a party on behalf of the militia department.

TAMPA, Fla., March 7.—The races to-day resulted as follows: FIRST RACE—Three furlongs: 1. Delena, 102 (Adams), 7 to 5.

BOSTON, Mass., March 7.—On Tuesday, April 19 (Patriot's Day), the Boston A.A. will hold the annual open American Marathon race, distance of 25 miles, over its usual course, as follows:

Start near Stevens' Corner, on the Hopkinton-road, one mile beyond the depot at Ashland, down towards the depot, and then almost straight road thru South Framingham, Natick, Wellesley, Newton Lower Falls, to the large signboards on the right of the road, take road to left on to the new boulevard, which points directly thru the Newtons, Chestnut Hill, leaving the Reservoir on the right, the Beacon-street, right into Exeter-street, finish at B. A. A. clubhouse.

Each man will be accompanied by a bicycle rider, who will give all the necessary assistance. Start will be made at exactly noon. As the railroad runs parallel with the course for the greater part of the distance, every man may feel that the railroad train is handy, should he desire to stop. Each man's attendant will see that he is given every attention, and should the runner desire to stop, thru any cause whatever, he will attend to him until he is safely aboard a train or car.

Intending competitors must realize that a course of training is necessary for such a long distance, and that it would be unwise to attempt to run in this race without preparation.

Prizes will be given to the first eight men and a souvenir to the following 25 men who may finish after the prize-winners. Souvenirs will also be presented to each caretaker of all contestants being placed.

The start will be made at Ashland at 12 noon. Arrangements will be made for the competitors at the hotel near the start. All competitors must be registered at least 24 hours before the start, and must be accompanied with the Amateur Athletic Union rules.

No athlete under 18 years of age will be allowed to compete. Entries will be closed on April 14 with George V. Brown, Boston Athletic Association, Exeter-street, Boston, Mass.

NEW YORK, March 7.—President Lynch of the National League announced the following contracts and releases to-night: Contracts—With Boston—Fred Lake, with Brooklyn—Wm. Bergen, Wm. A. Burch, Jr., Jake Daubert, A. G. Downey, S. S. Fletcher, John E. Hummel, T. J. Jordan, Elmer E. Lumley, Thomas McMillan, Otto Miller, G. N. Rucker, W. D. Scanlan, James W. Schirm and Fred W. Ulrich.

Racing in Far West Victoria Planning Also Vancouver

WANCOUVER, March 7.—The Vancouver and Victoria race meetings are getting a large number of the horses that have been campaigning at Jareze this season from the present outlook.

The Mexican track has closed its meetings and already the shoredraft strings have all gone to other racing points. Local turf gossip is to the effect that there will be good racing, both at Vancouver and Victoria, but that in neither case will the meetings be long.

It looks as if Victoria will have about 15 days in the early summer, with perhaps another short meeting later, and Vancouver will probably not have over 15 or 20 days. However, most of the horses were well satisfied with their campaign in British Columbia last season, and there will be a higher class of thoroughbreds there this summer.

A number of stables of Jareze horses were shipped to Salt Lake City, where a 40-day meeting will be given, commencing early in May. At the conclusion of this meeting the horses will be campaigned on the Montana circuit, which includes Butte, Anaconda and other points.

The pick of the Jareze stables, however, will be shipped direct to Louisiana, where the horses will be routed up for Lexington and Churchill Downs meetings. Among the horses known of the stable of Jareze are C. C. Van Meter, J. E. Wainwright, J. J. Marklein, J. C. Ferris, J. B. Respass, C. S. Willson, Dave Henry, Joe Young, R. Gilmore and A. Goodman.

COMMISSION TO WORK OF INDUSTRIES BRANCH

Ald. McCarthy's Proposal Goes to Special Committee—Funds for Y. M. C. A. Convention

A commission, composed of the assessment commissioner, property commissioner and the city clerk, may take over the work of the department of industries and public works.

Ald. McCarthy sprung the idea on the civil legislation and reception committee yesterday, and the outcome was the appointment of a special committee of Ald. Maguire, Graham and McCarthy to report on a policy to be followed, with special consideration to be given to the plan suggested.

The matter came up in the form of Controller Foster's proposal that a by-law abolishing the department be passed. Ald. McCarthy announced that he favored, instead, increasing the importance and efficiency of the department.

As the assessment commissioner had charge of the vacant land and the city clerk had charge of the city's improved property, they would be able to deal effectively with manufacturers in search of local sites and the city clerk could attend to the publicity end.

Ald. Maguire thought that, as the supplying of cheap hydro-electric power to the towns and cities of Ontario would place them all on a footing in this important respect, the city would have to devote its best energies to securing industries.

Y. M. C. A. Asks \$2,000 That the city contribute \$2,000 towards the expense of entertaining the delegates to the Triennial Y. M. C. A. Convention, to be held here Oct. 28-31, this year, was the request made by a deputation representing the local Y. M. C. A.

The visitors were G. A. Warburton, general secretary, Harry Ryrie, Alf Stokes and S. H. Wood. Mr. Warburton said that the convention, which is of international character, had not been held in Canada for 37 years, and that two thousand delegates were expected.

The committee, which was somewhat impressed by the size of the appropriation asked, pointed out that special efforts toward economy are being put forward this year. Chairman Ald. Maguire expressed appreciation of the importance of the convention, and suggested that the department make representations to the board of control, as the committee had no authority to vote so large an amount. This the visitors cheerfully promised to do.

The Ontario Retail Hardware and Stove Dealers' Association believe in taking time by the forelock. They are already arranging for next year's convention and exhibit and the local committee asked that the city grant the free use of St. Lawrence market and of a public hall, as their executive meets this month and they wish to begin planning for next February's show.

The reception committee will recommend to next year's council that the request be granted. Autos Must Stop. Ald. Maguire's motion to pass a by-law compelling the owners of motor cars to stop when hearing street cars which are standing still, so as to remove the danger to passengers alighting from or getting on cars, was favorably received.

But Mr. Durr's proposal to limit that all bicycles equip their machines with bells or horns, to be sounded on hearing the pedestrians, was thrown out without discussion. The members of the committee will back themselves with badges as in other years, said tokens to be worn when receiving visitors. Also the officers will be only about \$30. Ald. McDermid and Graham balked a trade.

"Dash it! This is a year of economy. Let's strike it out," exclaimed the latter. The committee was, however, in readiness to be and instructed the chairman and Secretary Somers to select an artistic design.

Picture Show Dangers. Ald. Maguire, who lives in perpetual dread of a home accident, occurring in one of the moving picture theatres, said there was grave danger from defective electric wiring. An insurance inspector had told him that he had complained to a picture show proprietor in the east end about the unprotected condition of the wires, and the latter had said he didn't carry any insurance and wasn't carrying kind.

The city architect and fire chief will be asked to have the wiring as well as the exits inspected. The civic island committee had a brief session for the transaction of a few items of routine business. It was reported that two of the island residents who had hitherto neglected to pay for the filling in of their property by the city sandpans had come up to the mark, but that nine others declined to make payment.

Rheumatic Families Inherit a Tendency to Disease.

Medical opinion confirms the view, that rheumatism and gout are transmitted from one generation to the other. Only by combating nerve and blood weaknesses can they be prevented. If they exist in the family, they develop quickly when the blood becomes impure or the nerves weak.

Mr. E. E. Hoffster, St. John's, says: "Early in life I was occasionally troubled with aching pains in the back. Later my joints became stiff in bad weather, and lately gouty conditions developed. These troubles I knew were very common in my family. I can recall how stiffened up my grandfather was from enlargement of the joints."

"A specialist in New York told me that only by maintenance of the most vigorous conditions could these family predispositions be prevented. Because of this advice five years ago, when Perrone was first introduced into this colony, I began a systematic building up of my system. The New York specialist's opinion was justified in my case, and I presume it is generally true.

"Before six months had passed I had gotten rid of every vestige of rheumatism and gout troubles. Perrone cured my rheumatism and my health too was visibly improved."

For rheumatism, gout and general bodily weakness, try it, 50c per box, six boxes for \$2.50, all dealers or The Catarhazone Co., Kingston, Ont.

PHILA. STRIKE IS REAL NATIONAL LABOR BATTLE

Intended to Show Employers Through U. S. Strength of Unionism—Gompers on Mission.

PHILADELPHIA, March 7.—There are many people who do not understand why the business and much of the industrial interests of Philadelphia should be paralyzed because of a controversy between the Philadelphia Rapid Transit Co. and several thousand of its motormen and conductors. The reply of the union leaders is that they can see a concerted movement upon the part of big employers to crush organized labor. They point to the fact that the Rapid Transit Co. is receiving hundreds of letters of endorsement from big employers and associations known for their bitter antagonism to organized labor.

There is a report that the general strike was inaugurated primarily to unionize Philadelphia, and more particularly to place organized labor throughout the country on a sounder basis in the industrial world. A report is published that this general labor movement was to have been started in Pittsburg, but that the trolley strike here gave a better opportunity. Among those who were on strike to-day were 18 organizations in the group of German trades unions, affecting nearly 7,000 men. These unions included musicians, job printers, textile workers, cooperators, carpenters, painters, machinists, barbers, bartenders, slate roofers, cigarmakers, boot and shoe workers, carriage and wagon painters and metal polishers.

The unions will now place the usual pickets on duty, and a house to house canvass will be made to bring out union men who did not obey the general strike order. The back drivers are convincing people to weddings and funerals, but are refusing all other fares.

"Not more than 12,000 persons have joined in the general sympathetic strike so far as I am able to learn," declared John E. Reybun, mayor of Philadelphia, this afternoon. "So far as the city administration is concerned, the strike is over, and the administration is now turning its attention to the more serious matters of city improvement, cleaning up of the streets and the other proper activities of municipal government."

The best information at hand is that the strike has not affected to any extent unorganized labor, which largely predominates in this city, and the large industrial establishments, which are not so seriously interfered with. It is seriously interfered with. It is seriously interfered with. It is seriously interfered with.

Strike to Spread Thru U. S.? CHICAGO, March 7.—President Roosevelt of the A. F. of L., would not say whether he would support the strike if it spread to New York. He said that his chief mission here is to consider the question of calling out the street car men in the four cities of Cleveland, Pittsburgh, Omaha and Philadelphia. He said that he would not say whether he would support the strike if it spread to New York.

To Organize the Unemployed. ST. LOUIS, March 7.—James Eads How, the millionaire "hobo," who has organized the unemployed into a National Unemployed Association, has been requested to go to Philadelphia to take charge of the unemployed there and prevent their being used to hinder the general strike of labor unions.

SAMPLE RIFLES SUBMITTED But N. R. A. Have Not Found Trace of Them. LONDON, March 7.—(C. A. P.)—At a meeting of the council of the N. R. A. a letter from the secretary of the Dominion Rifle Association was read, stating that three Ross rifles had been despatched for submission to the council. On receipt of the letter on Saturday the secretary of the N. R. A. wired a member of the council in Liverpool, asking him to enquire at every steamship office for the package containing the rifles. He failed to find it, so as rifles had not arrived they could not be submitted to the council to-day. The next meeting of the council, early in April.

PREMIER WRITES LITTLE GIRL Sends Her His Photo and Echoes Her Satisfaction. KINGSTON, March 7.—Little Laura Barrager, daughter of George Barrager, Big Island, tired of playing, asked her mother to let her write to Premier Whitney, if she agreed. She got back this reply: "My Dear Laura Irene Barrager—I receive your letter asking for my picture, and now enclose you one. You say you are glad the Tories got in last year. Yours very truly, J. P. Whitney."

PROFESSOR TO GO WEST. KINGSTON, March 7.—Weyburn, Sask., High School held out good inducements to Prof. John Marshall, assistant professor of English, at Queen's University, to assume the principalship, and it is understood he has accepted. He once taught at St. Thomas High School.

Ontario West L. O. L. ST. CATHARINES, Ont., March 7.—Some important questions are to come before the Orange Grand Lodge for Ontario West, which convenes in this city Wednesday, among them the bilingual agitation in connection with the public schools. The sessions will be held in St. Paul-street Methodist Church.

New Office Building. On the north side of King on the lot between the Royal Alexandra Theatre and the Canadian General Electric Building, Frederic Nicholls of the Canadian General Electric Company, will erect a six-story office building. In addition to offices, the structure, which will be known as the Nicholls Building, will contain show-rooms and warehouse accommodation. The plans are already drawn up and work will be commenced in the spring.

Spend Too Much on Sport. OTTAWA, March 7.—While \$5 is the amount the Ottawa Presbytery suggested each congregation should give to support Jewish missions, men in Ottawa can give \$5 for a single ticket to see a hockey match that lasts only a few hours, said Rev. J. H. Milne, in addressing his congregation at the Glebe Presbyterian Church here.

C. A. WEST, 135 Davenport Rd.

FOR RENT

About 1600 sq. feet on the second floor, Temple Building. Good light, two large vaults. Apply Room 104, Temple Building

MORE MONEY FOR SCHOOLS TO RELIEVE CONGESTION

Two New Buildings and Enlargement of Present Accommodation Recommended.

At the regular meeting of the property committee of the board of education, held yesterday afternoon, recommendations for the expenditure of the following sums were voted: For the erection of new schools, \$150,000; for the enlargement of present buildings, \$275,000; for fireproofing basements and special stairs for present buildings, from ceilings, brickwalls, etc., \$50,000.

Contrary to the recommendation of the management committee for the erection of a new eighteen room school on the present site of the Manning-avenue school to cost in the neighborhood of \$85,000, the committee decided that for the present a ten room school, built so that at a later date the other eight rooms might be added, would fill the requirements.

A recommendation was passed for the erection of a new school on the east side of Ossington-avenue, half way between St. Clair-avenue and the depot-road, to contain eleven rooms and estimated to cost about \$55,000. The intention of the committee in this move is to relieve the present congestion in the Dovercourt and Park schools.

To meet with the lack of accommodation it was recommended that additions be built to schools as follows: Norway school, 6 rooms and kindergarten; Roden school, 8 rooms; the Brown school, 8 rooms; Huron-street school, 2 rooms; Earlscourt, 6 rooms; Howard school, 6 rooms; Carlton school, 4 rooms; Annetto-street school, 4 rooms.

For the purchasing of new sites and the enlargement of the present sites, an expenditure of \$50,000 was recommended.

POLITICS IN FRANCE

M. Labori Says It's Perpetual Compromise With Power and Money. PARIS, March 7.—Fernand Labori, the lawyer and radical republican member of the chamber of deputies, following the examples of M. Lasies, anti-Semite, and M. Gauthier de Clagny, revisionist, who are retiring from parliament on the ground that the opposition is impotent, announces that he will not stand for re-election. M. Labori declares that, although he is an ardent republican, he can no longer serve the best interest of the country in the present state of parliamentarism, which he says makes political life a perpetual compromise with power, demagoguery and money.

UNABLE TO PAY RENT AGED FARMER SUICIDES.

OWEN SOUND, March 7.—Apparently dependent over not being able to meet the rent on his farm, which was due in short time, James Watson, aged 70, a farmer near Kilsyth, seven miles from here, committed suicide early this morning. Besides his widow he leaves a family of sons and daughters, who are reputed to be well off.

Nervous Prostration For Three Years

"Dr. Miles' Restorative Nerve-cure cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHRAN, 1214 Catherine St., Philadelphia, Penna. Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. There is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders. Restorative Nerve-cure soothes the irritated nerves, and assists the nerve cells to generate nerve force. Price \$1.00 at your druggist. He should supply you, if he does not, send price to us, we forward prepaid. DR. MILES MEDICAL CO., Toronto.

Fought Duel, Then Made Up. NICE, France, March 7.—Dr. Doyen, the French scientist, and Captain Van Langendonck of the Belgian army, fought a duel at the hippodrome at noon to-day. At the second attack Dr. Doyen picked the captain's right forearm, whereupon the seconds stopped the combat. The duelists were reconciled.

The affair followed a scene in the Casino yesterday when the scientist accused the captain of having insulted Madame Doyen. Horses are very scarce around Smith's Falls. ed7

Board of Education TENDERS WANTED

Sealed tenders, addressed to the Secretary-Treasurer of the Board, will be received until FRIDAY, 2 P.M. MARCH 11TH, 1910, for the several trades required for the ENLARGEMENT OF KIMBERLEY AVENUE SCHOOL. COBALT - Firmer Tone Exhibited by Mining Securities

Cobalt Securities Firmer With a Broadening Market

Monday Evening, March 7. The Cobalt stocks were generally firmer on a broadening market to-day. Trading in most instances showed some improvement over the dull, easy-going tendency of last week, and small advances were registered by those securities which were weakly out for speculation by speculators and traders on the market, toward the close an easier tone developed in certain sections of the list.

The higher priced securities Kerr Lake sold as high as \$3.25, ten points above Saturday; La Rose maintained around \$4.50 and closed there.

The market today showed good signs of broadening and a firm tendency in most instances. At the close sentiment was generally favorable to a more extended recovery, in some of the lower priced issues at least.

Editor World: There is a great deal of talk nowadays about Timiskaming. As I have just returned from the north country, I want to say a word to the small shareholders in this mine, and that is to hang on to every share you have and not a few more if you can at present price. There is enough ore in the camp now to pay all the company's indebtedness and twice over; and the new vein they have just opened up is one of very high grade ore.

Buffalo Mines Dividend. Buffalo Mines declare regular quarterly dividend of 5 per cent, and extra quarterly dividend of 3 per cent, payable April 1 on regular and May 15 on extra.

Standard Stock and Mining Exchange. LONG EXPECTED POWER WANT CONNECTION WITH METROPOLITAN RAILWAY

Cobalt Camp at Last Mines Power Co. Will Commence Delivery This Week and Rivals T. Herbert Lennox Has Bill Which Will Permit York Co. to Ask Ry. Board for Junction.

Considerable interest is being attracted to the incoming of hydraulic electric power to the Cobalt camp at the present time, the general opinion being that the various mines will be much benefited by the cheap delivery of power which is expected. In this connection The World was informed yesterday that the Cobalt Hydraulic Power Co. had been supplying a small amount of electricity to some of the mining companies for several weeks.

The Mines Power Co., Ltd., which is the largest producer of electrical and air power in the camp was at the King Edward Hotel yesterday. In discussing the Cobalt power problem with The World Mr. Wallberg stated, that his company would be delivering power to the camp during the present week and that his company would be the first to provide the mines with a cheap method of working their various properties.

The Mines Co., Ltd., is developing its electric current from the Matachewan Falls. In the camp they will have two central stations for generating compressed air and electricity to the various mines and in addition the whole district has been wired for a full supply of electricity.

The Mines Power Co. have signed contracts with large number of the Cobalt mines and with several of the properties which have been allowed to remain idle, because the various owners were not disposed to go to the expense of putting in a separate plant for the development of power.

Relief for the Doctors. Dr. E. Jessop (Lincoln) introduced a bill to amend the Ontario Medical Act. As the law now stands a medical practitioner who refuses or cannot pay an annuity fee to the College of Physicians and Surgeons has his name erased from the register, and if he continues to practice, can be summoned to the provincial court and fined from \$25 to \$100, or, in default, be sent to prison. Dr. Jessop's amendment provides that the name may not be erased, nor may the doctor be prosecuted, unless the fee may be collected in the division court.

Importing Undesirables. J. McWilliam (Wellington) thought there was some looseness in the conduct of immigration on the other side of the water, as undesirables were being brought out, who had to be deported.

Hon. A. G. MacKay said that as the government was assisting in the payment of domestics, they should be inspected by a paid officer of the government in addition to the inspection of the Dominion Immigration Department.

Hon. J. S. Duff stated that the government hoped to be recouped thru the employers who were furnished with servants, rather than by the domestics themselves.

Hon. A. G. MacKay said if Ontario had no agents in control in the old country there was no guarantee that the organization of the out-land grants would import persons suitable to go on the farm.

Mr. J. McWilliam (Wellington) thought there was some looseness in the conduct of immigration on the other side of the water, as undesirables were being brought out, who had to be deported.

Mr. J. S. Duff stated that the government hoped to be recouped thru the employers who were furnished with servants, rather than by the domestics themselves.

their hope was in the fact that the disease was not equally distributed, and that by introducing proper and safe methods the fearful scourge would be wiped out.

Prevention by segregation and registration of all cases of tuberculosis, said the speaker was the only way to deal with this disease, and he commended the Ontario Government for the financial help they had given in the erection of sanitariums.

In conclusion Dr. Elliott said that

Weak, lame or aching backs are the first sign of Kidney Trouble. Under ordinary conditions they ought to be strong and ready to bear the burdens of life.

It is hard to do housework with a weak and aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order.

Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

Miss Alberta B. Clarke, Stoney Creek, Ont., writes: "I was troubled with kidney trouble for several years; my back was weak, I had such terrible headaches, and was so restless I could not sleep at night and tried everything without any benefit. Meantime a friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well as I ever did and would advise everyone suffering from Kidney Disease to try them."

Price 50 cents per box, or 3 for \$1.25, at all dealers or The T. Milburn Co., Limited, Toronto, Ont.

In ordering specify "Doan's"

Methodist Parsonage Burned. DELTA, Ont., March 7.—The Methodist parsonage here was destroyed by fire shortly after midnight at 211 1/2 St. George Street.

Mr. Davidson was awakened by smoke in her chamber, and aroused the family.

Estate of Late Samuel Grier. The late Samuel Grier, merchant of Toronto, left an estate valued at \$21,000. The property is left by the will, to Mary Grier, daughter of his brother David; Mary Grier, daughter of his brother George, and to Sarah Ocre.

Canadian Purify Association. The Canadian Purify-Education Association will be addressed by Rev. R. J. Hutcheon (Unitarian minister) Tuesday, March 8, at 8 p.m., at the Guild Hall, McGill-street. The Parental Relation of the State to the Child will be his subject.

Home Circles' Convention. Delegates from the Maritime Provinces to the convention of the supreme court of Canadian Home Circles at Hamilton, passed thru Toronto yesterday.

Supreme officers J. T. Steeves of Hillsboro, N.B.; Chas. Shipley, senior guard, Northport, N.S.; and E. C. Phelan of the committee of appeals, of Amherst, N.S. Prominent delegates were Rev. St. John, N.B.; W. H. Steeves of Hillsboro, N.B.; B. Murray, Bayfield; W. R. Brownell, Northport, N.S.; G. A. Magee, Moncton, N.B.; Dr. Murray, Albert, and H. A. Corbett, Lower Millstream, N.S. Several ladies are accompanying the party. There will be over 2000 delegates at the convention.

Missionary Meeting. A missionary meeting open to all denominations and all friends of the cause, will be held on Wednesday evening at 8 o'clock, in the parlors of College-street Methodist Church. The meeting will be addressed by J. H. Gundy, the eloquent layman, who is devoting so much time and energy to the cause of missions.

Struck a "Gusher." Jack Wallace, of Wallace & Eastwood, received a wire yesterday from California, announcing that one of the biggest oil wells yet discovered in California, oil fields, was struck on property owned by Toronto interests, of which Messrs. Wallace & Eastwood and Frank Chapin are the principal owners.

NO GROCERS' COMBINE SAYS CHIEF JUSTICE

Finds That Members of Guild Were Merely Protecting the Interests of Trade.

That there is no combine among the grocers, is the judgment of Chief Justice Falconbridge in the action tried about two years ago against the Grocers' Guild.

The defendants have not, nor has any of them, intended to violate the law. Nor have they nor has any of them, intended maliciously to injure any persons, firms or corporations, nor to compass any restraint of trade unconnected with their own business relations.

As far as intention and good faith, or the want of it are elements in the offence with which they are charged, the evidence is entirely in their favor.

I therefore say that the defendants are not, nor is any of them guilty as charged.

But while the evidence did not sustain the charge of combining in restraint of trade, his lordship utters a "warning" to the members of the Guild.

There are minor matters as to which I, sitting as a jury, give the defendants (as I am bound to do), the benefit of the doubt; and as to which I warn the defendants and those in like case to be careful, etc., as to alleged efforts to coerce wholesale dealers into joining the Guild.

It is of the essence of the innocence of the defendants that they are not charged with any conspiracy, or with any agreement which they seek to enjoy should be extended to all persons and corporations who are strictly wholesalers, whether they choose to join the Guild or not.

The indictment charged that the defendants, H. C. Beckett, Thomas E. Bristol, John L. Davidson, George W. Escott, W. G. Craig, Joseph P. Eby and Thos. Kinneer, the Dominion Grocers' Guild, conspired:

To unduly limit the facilities in producing, manufacturing, supplying and dealing in sugar, tobacco, starch, canned goods, salt and cereals, and other articles and commodities which are the subject of trade and commerce.

And to unduly prevent, limit and lessen the manufacture and production of such articles and commodities.

And to unreasonably enhance the price of such articles and commodities.

And to unduly prevent and lessen competition in the production, manufacture, purchase, barter, sale and supply of such articles and commodities.

And to restrain and injure trade and commerce in relation to such articles and commodities.

And to unreasonably enhance the price of such articles and commodities.

New York Stock Operators Still Supporting Prices

Wall Street Has an Active and Buoyant Day's Business—Domestic List Quiet and Firm

World Office, Monday Evening, March 7. Extreme buoyancy on Wall-street today was against speculation on local securities, and the trading at the Toronto Stock Exchange was in somewhat lessened volume.

Price changes in domestic securities were restricted in most instances to fractions, but the demand was good and the market was therefore without any signs of pressure.

The most active issue was Rio, which was higher during the morning session, but reacted slightly under realizing sales later.

Buying of Rio continues on the prospect of an early increase in dividend, and the belief that another issue of common stock will be made.

Steel and Coal shares were inactive, and a little easier, but with the least support accorded to Nova Scotia Steel.

Profit-taking has stemmed the advance in Rio, but the offerings are being well taken and the upward movement is likely to be continued when realizing has ceased.

Steadiness prevailed the investment branch of the market, and in case of Bank of Commerce stock higher bids failed to produce offerings.

Sentiment, speculative and otherwise, continues to favor the market.

Wall Street Pointers. Anthracite trade still very dull, with output restricted.

Rumored important changes in Illinois Central, including presidency, which President Harahan denies.

Important bituminous coal combination forming, with the Guggenheim interest prominent.

National City Bank shows principal decrease in loan in bank statement, which is otherwise featureless.

New York City comptroller issues important statement of city finances, and expects to cut this year's expenses \$12,000,000.

Special meeting of Republic Iron and Steel, to authorize \$25,000,000 mortgage.

Advance in Steel common dividend dependent upon trade outlook developed in April.

Railroad Equipment orders show improvement over those of February.

President Schwab of Bethlehem Steel Co. refused all demands of strikers.

CLAUSTRICK OUT

Power of Railroads to Control Competing Lines Not Given.

WASHINGTON, March 7.—By a vote of 15 to 1, the house committee on interstate and foreign commerce today struck from the administration light-railroad bill the provisions relative to control of competing lines.

One of the provisions would have allowed railroads which own over fifty per cent of the stock in another railroad to purchase the remainder of the stock and would have legalized all past purchases of stock.

Need Not Give Thru Rates West. WASHINGTON, March 7.—The court holds that the Northern Pacific, Chicago and Northwestern, Union Pacific, Oregon Short Line and Great Northern roads need not obey the order of the interstate commerce commission to establish joint thru passenger rates westward.

NEVADA-UTAH CONTEST Neither Side Acknowledges Defeat in Fight for Control.

NEW YORK, March 7.—The interests who are opposing merger of Nevada Cons. with Utah Copper dispute the claim of the Guggenheim interests that approximately 950,000 shares of Nevada have been exchanged for Utah.

Transfer books this morning show that about 20,000 additional shares of Nevada were deposited last Saturday.

The closing with substantial Guggenheim interests about 900,000 shares of Nevada out of total of two million shares. The Phillips interests are confident that they have won the fight.

It is possible for Guggenheim interests to increase their holdings thru purchases in the closing with substantial market contest is not anticipated.

ON WALL STREET. Erickson Perkins & Co. had the following: New record prices were touched by certain stocks in the afternoon.

Domestic stocks advanced all around. U. S. Steel led all day and the metal group was strong. But the Standard falls also did well.

Both of the Harriman stocks were helped by the testimony of a director of Union Pacific that the company during the last three months had bought some 7,000 shares more of Southern Railway stock.

On loan letter, specialists promise to become prominent.

Finley Barrell wired J. P. Bickell: Stocks closed strong under leadership of Steel and Union Pacific. The confidence of investors that Steel would be put on a five per cent regular dividend rate was one of the important factors in the closing.

Charles Head & Co. to R. R. Bondard: After a slightly lower opening the market strengthened and resumed its upward march, showing that the professional traders took the short side at the start and found themselves unable to recover, much to their discomfort.

Closing indications that the bull movement will be carried still higher.

Railroad Earnings. Increase. Ches. & Ohio, 4th week Feb. \$188,473 L. & N., 4th week Feb. 180,474

SAVINGS DEPARTMENT

SAVINGS ACCOUNTS RECEIVE THE MOST CAREFUL ATTENTION AT ANY ONE OF THE BANK'S EIGHTEEN BRANCHES IN TORONTO.

PROSPECTS FAVOR HIGHER PRICES.

World Office Monday Evening, March 7. Last week's rally in domestic stocks has served the purpose of attracting more attention to the Toronto stock market, and led to conclusions that some good speculative opportunities are now offering.

Bullish sentiment was catered to today by an active and strong New York market, and profit-taking sales in domestics did not interfere with prices.

Brokers can take care of a considerably larger speculative account than at present exists, as they find funds for market purposes much more easily available than they were.

Prospects favor higher quotations. HERBERT H. BALL.
