Country Advised to Prepare CANADIANS GAIN for Big Business After War.

Washington, Nov. 27.—American bankers were warned by the federal reserve board today to avoid locking up their funds by purchasing treasury bills of foreign governments, involving long term obligations. While specifically diclaiming "any intention of reflecting upon the financial stability of any nation." the board advises all investors to proceed with caution and formally announced to member banks of the federal reserve system that with the liquid funds which should be available to American merchants, manufacturers and farmers, in danger of being absorbed for other purposes, it "does not regard it in the interest of the country at this time that they invest in foreign treasury bills of this character."

Windsor, Nov. 27 .- Pte. John Bacthus, doing guard duty at the Michigan Central Tunnel, was sandbaged from behind at his post last night by an unknown man, who escaped in the darkness. The guard is now in the spital in a serious condition. He re-ntly joined the 21st Regiment, coming from the United States. He is practically unknown here. He says that German sympathizers from Detroit are responsible for the assault and he happened to present the first opportunity. It was made public for the first time today that one of the guards was shot thru the hat while on duty about two weeks ago.

strategical success has been won by the Serblans and French in the capture of Hill 1050, northeast of Monastir, and its retention against repeated counter-assault, according to the official Serblan communication issued at Salonica today.

The attack was led by French zouaves, who were co-operating with the Serblans. It consisted of a series of partial onsets and it led to the carrying of this hill, which is of great strategic importance, by assault. The position was detended by picked German troops, the Chasseurs of the Guard, with orders to hold out at all costs. When the Germans were ousted by the brilliant tactics of the allies, the Germans brought up more troops and they launched several counter-attacks to regain the position. No consideration for the losses incurred was shown by the Germans, but their losses were large and they were beaten.

Washington, Nov. 27.—Another controversy between the American government and the entente allies is in prospect as a result of the frust of the British Government to grant safe conduct to Count Tarnowski, the newly appointed Austro-Hungarian ambassador to the U. S.

In the absence of official advices on the subject, officials of the state department were not in a position today to discuss it formally or to forecast the course the government is likely to pursue. It was made evident, however, that the unfavorable action of the British foreign office on the notice of the intention of the new ambassador to cross the Atlantic to his post came as an unpleasant surprise. Farmers in the city yesterday from all over the county generally agreed that there was little likelihood of their getting another turn at the fall plowing, tho some have not yet abandoned hope of a week's "Indian" summer. Generally over York County there is now little indication of winter, but up at Sutton they have a foot of snow, and on Saturday farmers were burily engaged drawing in big loads of cordwood to town. Further north and up around the shore of Lake Sincoe there was said to be even more.

Following a visit of inspection by License Commissioner Dan Mackenzie, accompanied by officers from the license department, Charles E. Parker of York Township was yosterday morning convicted by Magistrate W. H. Clay of keeping beer over two and one-half percent strength. The magistrate imposed a fine of \$200 and costs, W. G. Thurston, K.C., appeared for the crown, and Parker was defended by W. Henderson.

#### FALL MEETING OF THE COUNTY COUNCIL OPENS

CURVE IN LINE REMOVED Nothing of Great Importance Likely to Be Introduced-Lay Bridge Corner Stone.

> The York County Council held the naugural meeting of the fall session yes inaligural meeting of the fall session yesterday afternoon, Warden Knowles presiding, but no very important matters came up for discussion, and it does not look as the any contentious subjects are likely to be introduced in this, the closing term of the year. Ordinarily, the November session is given up to jockeying for positions at the January term for the coveted office of warden, and the subordinate positions on the county and other commissions, and the present is not likely to prove an exception.
>
> On Wednesday the members go out to the new Bloor street bridge in course of construction over the Humber River, and there they will be joined by R. Home Smith, and probably some members of the city council, and the corner-stone of the new structure will be laid.
>
> The presentment of the grand jury, a lengthy document, submitted to council, dealt with a wide range of matters. It recommended an increase in the pay of the jurors from \$2.50 to \$2 a day, and this was further supplemented by a communication from W. A. Littlejohn advising that the board of control was prepared to support the application.
>
> On Friday night Warden Knowles will be banqueted by his fellow-members of the council, and on Saturday the session will probably close. It is not likely that any action will be taken relative to an increased grant for the York County and Patriotic Fund, as it is felt that matters of finance ought to be left to the incoming council. erday afternbon, Warden Knowles pro

To reduce the Price of Bread from Nine Cents a loaf to 8 Cents in the face of high cost of materials, required great faith in the discriminating sense of the Toronto Public. It required conviction that, no matter if it were at the cost of some inconvenience, the people would hold up the hands of the man who struck the blow for lower prices. It is because George Lawrence believed the public protests against high bread prices were sufficiently sincere to induce them to join in a strong effort to bring bread prices down that he made the important move—to reduce the price. This can only be done by united action, because only in that way can a large enough volume of business be worked up to make an eight cent rate possible.

## Men and Women of Toronto! Will You Join the Crusade to Keep Down the Price of Bread by Supporting Its Leader-GEO. LAWRENCE, the Baker

It is your own cause that hangs in the balance. It is your duty and your privilege to fight for it. Not only support this movement by sending your bread order to George Lawrence, but get your friends to do so too. It is a big cause, a worthy cause, and will save many thousands of dollars for the bread consumers of Toronto. Every new customer is a help to bring up the volume of trade big enough to make 8 cents a loaf enough to carry over the point where the business loses money.

### ADDRESS PUBLIC MEETING VICE-REGAL PARTY **REACHES TORONTO**

Informality Marks Reception of Canada's New Governor-General.

#### WARMLY GREETED

Presented to Sir John Hendrie, Premier, Mayor and City Officials.

Informality marked the arrival and reception of his excellency, the Duke of Devonshire and party, by Ontario officials when Canada's new governorgeneral stepped from a C. P R. train ir the union station at 6.35 o'clock last night, to make his first official visit to Toronto.

A crowd of several hundred people jammed and pushed in the lower level entrance to catch a glimpse of the duke as he walked from the Pullman car to a waiting motor car standing at the Matter as a standing of the states. at the Station street entrance, which carried him to the government house.

As his excellency left the car somecne in the crowd called for cheers, and to those which arose from the throats of several scores of people in the throng, the duke responded by bowing and lifting his hat. He walked the remainder of the distance to the motor car with bared head.

The new governor-general wore a frock coat and high hat, and the members of his party, which included her excellency, the Duchess of Devonshire, Lady Blanche and Lady Maud, wore traveling dress. Others in the party were Lt.-Col. H. S Henderson, miliary secretary, Capt. Angus A. MacIntosh and Capt. Slaney-Johnson. Reception Committee.

The reception committee was composed of Sir John Hendrie, lieutenantgovernor of Ontario; Premier W. H. Hearst, Hon. T. W. McGarry, Hon. Finlay Macdiarmid and Hon. Dr. Preston, representing the cabinet; Mayor T. L. Church, Controllers O'Neill, Fosters of Controllers of Controllers of Controllers of Controllers of Controll Alec Fraser, Col. Bickford, Col. Os-borne and Col. Mewburn.

Those who were fortunate enough to escape the vigilance of the cordon of police keeping order under the direction of Inspector Dickson, and catch a glimpse of his excellency, saw a tall, handsome man with grayish-white hair and heavy moustache also tinged with gray. The duke is compactly built and stands erect.

The party occupied the last coach of

the train which pulled into the station the development of fire preventive ped, the lieutenant-governor, followed aids, such as trails, lookout towers, by Premier Hearst, cabinet ministers, telephone lines, etc., wherever feasbile, city officials and some of the military. The delegation will represent a varicty of interests and will include the greeting the man who is to represent following men:
Lt.-Col. J. B. Miller, president Canfor the next four years. Informal introductions were exchanged. The duke, smiling and courteous, was presented Hospital. He sailed for England to serve with the Royal Army Medical Corps in November, 1915. He was in the trenches for seven months.

TUESDAY MORNING, NOV. 28.

The Military Outlook.

Our hope is in Russia. The Roumanian situation looked decidedly gloomy yesterday, but it has frequently happened since the war began re some of the brightest shining on our victorious banners. The Rusans were unfortunately not ready as they had expected, and as it was unerstood they were when Roumania ade her declaration. If the allied plans had made their proper connection, the Russians would have supported the Roumanian offensive with munitions supply, or some failure in transport, or some defect of command.

The most discouraging phase of the war is the apathy in Canada regarding recruiting. It is true that reached a point which would have been new measures are being prepared, but regarded as in the last degree of the fact that they are necessary is not danger, but when the existence of the people recognize the justice of unis government or the unpopularity of a versal service, and the reluctance of minister of the crown causes little the authorities to deal justly with all alarm. It is probable that there will classes of the community is the chief be great changes by the spring uncause of the apathy. Those who would less the fortunes of war have strangely volunteer under ordinary circum- altered. stances are holding back when they observe the effect on the large body MEAN THEFT CHARGED of eligibles, who refuse to do anything towards winning the war and lifting the general burden.

When the most gallant and brilliant of the land have sacrificed themselves for the sake of those who do not value the sacrifice enough to reinforce. Yesterday afternoon, ten minutes after it, those who have the desire and the pirit are naturally deflected from their first purpose. It would be for the ing \$60 from Chas. W. Millard, 920 authorities to strengthen the natural Dundas street. Detective Croome will and nobler sentiments of the men of the Dominion by adopting measures which would elicit from all the effort they owe to the national existence.

#### Public Ownership Succeeds Under Difficulties

There has been eager attention exmerits of publicly and privately owned railways, which began by the address of Mr. Samuel O Dunn some weeks ago to the Canadian Club of Toronto. Mr. Dunn is editor of The Railway Age Gazette, and was naturally regarded as an authority on railway matters. The way in which his figures have been riddled by critics, and his choice of the Intercolonial Railway as typical example of public ewnership, ridictiled by those who know the facts, has made a notable impression altogether in favor of the pro-public ownership party.

The Intercolonial Railway was not built for commercial purposes at all, but as a political measure to unite the maritime provinces with the rest of the Dominion, and was a definite condition of the acceptance of confederation. Since the war broke out the Intercolonial has been found indispensable for military purposes, since without it it would have been impostole to get any troops out of Canada in winter time. The C. P. R., running thru the State of Maine, is not available for this purpose under the neutral. My laws.

Mr. Dunn took pains to figure up the cost to the country of the Intercolonial, including uncarned interest and set the amount at \$348,089,518. He omitted any mention of the grants and subsidies made to the privately owned

ailways when he figured up their suc ess. In cash the people have given these railways \$238,830,000; in land at a value of \$4 an acre, \$175,717,000; rchase of Grand Trunk Pacific bonds \$33,116,000; and government guaranees, \$350,622,000. This totals up to \$798,285,000 on which Mr. Dunn escharges. The C. P. R. land grants have realized for the railway, out of sales of over 21 million acres, out of a total of over 27 million acres, the sum of \$100,396,817.

The Timiskaming and Northern Ontario Railway was not examined by Mr. Dunn in his onslaught on public ownership, but it is a notable example what can be done by public ownership under conditions which private ownership refused to face

#### The British Coalition

Severe, but what many independen critics regard as justifiable comme has been hurled at the coalition government in Great Britain. The trouble with the British coalition is not that it is a coalition, but that it is an attempt at a compromise. All genuine coalitions must necessarily be compromises but this implies the spirit of coalition which has shown no evidence of its presence in British politics. Some of the best efforts of the wiser of the coalitionists have been nullified by the o-called coalitionists who had been acluded in the coalition by misappreown that they did not know the neaning of the word. There is no use rying peace when there is no peace and there is no use talking coalition nless the spirit of coalition is present. A great many people who talk about coalition would do anything in practice rather than coalesce, so that their talk is idle.

It is only in the presence of the hat the darkest hours have been just gigantic crisis of war that the British coalition has been at all possible. As in a prairie or forest fire deer and bear lynx and rabbits and men all huddle together in a common shelter, the British politicians have sought refuge from the European conflagration, but the disposition to eat each other up cannot be said to have been eliminated It is well to consider the incongnities tudied strategy. Some hitch in the and the incompatibilities of such a situation , before advocating its adop-

transport, or some defect of command, not to be understood till after the war, spoiled the well laid schemes, and instead of the original brilliant offensive rounding as now on the defensive. We trust it is such a defensive as brance's was, and not as Belgium's. At lake to believe existed in the past. The appearance of such men in Great appearance of such men in Great branch weather have been adverse, but the great guns rest neither day nor night, and the Germans perforce follow their example.

The most discouraging phase of the over the army itself. over the army itself.

The pressure of public opinion has consoling. The great mass of the empire is at stake the vitality of a

### Cardinal and Kaiser

Written for the Belgian Relief Community

By William Henry Taylor, Author of "Canadian Seasons," etc.

The Hebrew Seers in dreams foretold the fall Of mighty Babylon and bloated Tyre; Wise Daniel read Fate's writing on the wall, And keen Ezekiel's prophecies were dire.

Those doomsters' tongues are dumb—but cannons roar,
A curse is naught, the spectral horrors grow;
The weeping women still the Cross adore,
Tho Mercy flies from Belgium's tragic woe.

Why shudder at the age of bronze and stone, Or at the footprints of Attila's steed? At Nero's craze or Alva's crimes we groan, While now on Poles and Serbs the ogres feed.

When David sinned the prophet Nathan said:
"Thou art the man!" and Kaiser, so art thou;
The German Terror crowns thee as its Head,
And Herod's diadem adorns thy brow.

Why should we heap on William's gory hand The scientific sins of German hate?
Why, should his victims gone to Shadowland
Cry out from earth the curses of his fate?

Because the annals of our race can show No single parallel of cruel spite; But all, from Cain to Cortez in a row, Are blent in him a Curse-Lord composite.

We turn from William to a Man of God, Above all creeds, except the Bond of Love; To Belgium's shepherd Moses lent his rod. Who from the Rock of Ages points above.

When Time shall sift the ashes of this war A diamond will be found of purest flame, Refined by Anguish in its furnace for The halo o'er immortal Mercier's name.

The Cardinal has dared a martyr's death, His soul fears not the Junker Bissing's sting; His flock inhales new courage from his breath To scorn the dogs of the Accursed Thing.

God speed the day when this Red Sea of blood Divides its waves to let the Remnant go; May Mercier's rod then loose the vengeful flood, And Pharaoh's doom o'er William's charlot flow.

Mayor Martin of Montreal Says Situation is "Simply Frightful."

Montreal, Nov. 27 .- The federal authorities were "criminally respon sible" for the present cost of staple food commodities, contended Mayor Mederic Martin at a meeting of the board of control this morning, at which the commissioners discussed steadily mounting prices. The mayor said the food situation was "simply frightful."

Former Alderman Dan Gallery produced figures to show that in the first ten months of 1916, 588,577 gallons of milk were sent to the United States from Huntingdon, Que. at a price about four and a half cents lower than what Canadian distributors

Governor Whitman on Trail of Food Combines.

New York, Nov. 27.—Legislation intended to reduce the cost of living is under consideration by Gov. Whitman, he said at his hotel here today, after conferring with men interested in the campaign to effect lower food prices. The governor declined to make public the identity of the men, but it was understood they represented prominent financial interests.

"We are certainly investigating this matter, and all I care to say is that when our plan has been mapped out the public will find, I think, that there will be legislation to relieve conditions." the governor said.

WOMEN ARE ESPECIALLY ADAPTED TO SHELL MAKING

Film Showing Them at Work Big Feature of Strand Theatre Program.

The film showing woman labor on munitions, which was thrown on the screen yesterday at the Strand Theatre, and which will be on view in Toronto during the next three weeks, eight to settle the question most satisfactorily as to the usefulness and efficiency of women in this sphere of labor.

the direction of the imperial muni-tions board and with the co-operation of the manufacturers and the product is an object lesson that speaks volumes for the adaptability of women to this new sphere of work and of the en-thusiasm with which they have en-tered upon it.

Shell making is shown in the many phases of its development and for the most part the women are the workers. They are shown at the various sections, seated in rows or standing at the machines, stamping the base or other part with the precision which would seem to demand long practice. Others are stripping the felt for washers" and the process of turning these out is continued until the fir-ished ring is held up to the view. Women are seen inspecting the various parts, examining for flaws, unpacking the parts, and in short, turning out the completed shell, the only thing demanding the labor of men being the shipping. Even in the film, the slender flexible fingers of some of the women seem to be especially adapted for the manipulation of the moie delicate mechanism of parts of the shell. None who are interested in the patriotic work of the moment should fall to see the film.

Another feature at the Strand is sweet Mary Miles Minter in the evolution of the pretty photo play "Faith." The fourth episode of the "Scarlet Runner," is also shown,

There is perhaps no more dramatic than the common than the common table to musical passage in existence than the climax of the torture scene in the pal-ace, when Tosca sings "Vissi d'arte e Theda Bars in "UNDER TWO FLAGS." d'amor." Her struggle with Scarpia follows. Giovanni Tenatello astonishes and delighted the audience with his

rendering of the tenor role. His voice is rich and fine, and powerful apparently without limit-a memorable voice in every way. In the very first scenes he received most enthusiastic applause for his singing of the painter's rhapsody. Another exquisite passage was the opening of the third act, when the string accompaniment, especially the 'cellos, was a delight to hear. This dawn music is marvelously effective and exhibits gifts of orchestration which give Puccini his rank in opera. George Baklanoff, who took the baritone part of Scarpia, has a mellow but powerful voice, and acted thruout with great dramatic ability. Sallustic Cival, the bass, was an admirable Angelotti, and Paolo Ananian took the part of the Sacristan with a humor which matched the humor of Puccini's scoring. Romeo Boscacci, Meria Winletskaja and Giorgio Pulitt field the minor parts in equally captration which give Puccini his rank in

Applause.

Jack Conway, who holds the reputation of being the cleverest Irish comedian that comes annually to the Gayety Theatre, is in Toronto all this week with the "Liberty Girls." Cenway is supported by a select company and starring with him is the fair prima donna. Etta Joerns. With his comedy of the land of the shamrock, Conway takes the audience far beyond the usual stock offered by the impersonators of the worn out character, and it proved a great treat for last night's audience to welcome him beck.

thinks how well he has acted his part.

Scarpia had deceived them, however, and Mario is really dead as she presently discovers. The police agent returns with the news of Scarpia's death, seeking Tosca. She leaps from the castie wall, however, as dawn breaks over St. Peter's. The dramatic quality of this story is used by Puccini in a way that sets the opera among the great works of our time.

Chatham, Nov. 27.—Concluding seven years of faithful service as pastor of the St. Andrew's Presbyterian Church, the Rev. J. R. VanWyck, who leaves at an early date to take charge of the First Presbyterian Church, Bay City, preached his farcwell sermon last night. As a token of respect, Mr. and Mrs. VanWyck were the recipients of a handsome cash donation from the members of the congregation.

Hon. president, Frank J. Walsh; president, Rev. Bro. Silvan; secretary, Claude LeMoine; hon. coach, Ed. Powers; representative to the O.H.A. annual meeting, Frank J. Walsh.

The proposed amendment as to the elimination of body-checking was discussed at some length and the matter was left in the hands of their representative to use his own judgment. A large number of the players were present and from appearances it looks as if De La Salle will have a fine aggregation to select from, a number of last year's players being still cligible, together with a large number of others who are at present attending the school.

## Remarkable Extra

New York. Nov. 27.—There is a certain feeling of satisfaction in witnessing a baseball game that goes beyond the limit of nine innirgs, probably because the spectator is sensible of setting his money's worth. This feeling is justified, as both teams after they have gone the legal limit, are still on even terms, just as they were at the start of the contest. At any moment one or the other is sure to settle the strife by putting aman across the plate with the winning run. The uncertainty as to when this will occur gets on the nerves and adds to the sensation.

Compared with the number of games played during a season, there are few that go over nine innings. But there have been such almost from the very birth of the pastime. The first extra inning game there is any account of was played in 1851, sixty-five years ago. The old Knickerbockers, in 1846 played the first recorded match, and were so badly beaten (23 to 1) in four innings by the plebeian New York teem that for the next five years they did not engage in another match with an outside team. Then they condescended to arrange a series with the Washington Club of New York, best two out of three games.

In those days, it will be remembered, the team scoring 21 aces (runs) in even innings was declared the winner. The first game, on June 8, 1851, the Knickerbockers won, 21 to 11, in eight innings. The second was played on June 17, and it also was won by the Knickerbockers, the score being 21 to 20. However, the old boys had to travel ten innings ani engage in the longest game played up to that date.

Adopt Name of Gothams.

A year later, the Washingtons, having

old boys had to travel ton innings and engage in the longest game played up to that date.

Adopt Name of Gothams.

A year later, the Washingtons, having changed their name to the Gothams, probably because of the defeats suffered and also to emphasize the legend of the "Three Wise Men," another "match" was arranged between them. It took place on June 24, 1882, and went the unprecedented length of sixteen innings, the Gothams winning by a score of 21 to 16. The grand old Knicks died game and never lest their prestige. They went out of existence only after they had seen and helped the game placed on so sound a footing that the foundations are as solid as a rock to this day.

Before the National League was organized, in 1876, little attention was paid. So far as records went, to extra inning games. The first long game in the National League was played early in season of 1876. On April 29 the Hartfords defeated the Bostons at Boston, 3 to 2, in ten innings, but before the season closed the record was hoisted to sixteen innings. On May 2 the Mutuals beat the Athletics at Brooklyn, 3 to 2, in twelve innings, and on June 21 Louisville and Hartford played thirteen innings to a tie, each scoring five rurs.

Now one of the most sensational incidents in baseball occurred. The Mutuals visited Louisville for the first time that year. On their home grounds they had beaten the Louisvilles two out of three games, but the first and second games at Louisville (July 4 and 6) they lost, putting the Colonels ahead in the series, three games to two. The Mutuels were desperato when the third game began and played all they knew how. Thoy put "Bobby" Matthews in the box, and the Colonels had "Jim" Devlin to oppose him. The battle was fiere and in field and League record for consecutive in field.

### LAUDS INFLUENCE **OF HORSE SHOWS**

Chairman Maclay Declares Exhibits Are Best Medium to Improve Breeds.

New York, Nov. 27.—One of the most enthusiastic horsemen around Madison Square Garden during the show was Alenthusiastic horsemen around Madison Square Garden during the show was Alfred B. Maclay, chairman of the executive committee of the National Horse Show Association. He is a member of the famous Millbrook Hunt, one of the organizers of Squadron A, and a Spanish war veteran, and is also fond of the standard-bred horse, the noted roadster, Auditor B., winning championships for him in the days when the trotter was one of the big attractions at the Garden.

The fact that Mr. Maclay has served as a judge of himters, saddle and light harness horses at nearly every show of prominence in the east, and that he has visited and made observations on horse-breeding in practically every country in Continental Europe should render him specially competent to pass on horse conditions in the United States. Upon being asked what, medium he considered the most important for the distribution of knowledge pertaining to the horse, Mr. Maclay said recently:

"The horse show is unquestionably the greatest of all educators, for it is there that type is Illustrated in living form. Those who are intelligent and progressive have an opportunity to see what others are producing, and they can learn to avoid not only their own errors, but those of their fellows as well. The horse show, which is now a feature of social life everywhere in the United States and Canada, has done more to develop certain types of horses than any other influence that can be named. This is particularly true of the saddle horse, hunter and harness

A fair review of the play of the Yale-Harvard game follows:

Why Yale Won.

For Yale, the first feature was the wonderful work of Ty Gates, the Yale tackle, and the brilliant showing of Moseley and Comerford, her two ends. In addition to these three, the brilliant rushing of Le Gore, the steady plunging of Neville and the good work of Captain Black freatured. But, for that matter Yale with only one change in her original lineup, finds it hard to pick out any one or two above the crowd.

The Riverdale Lawn Bowling Club held heir annual prize and ladies' night on up, finds it hard to pick the any street of the process of the crowd.

Harvard's leading feature was the good trushing of Casey, the fine punting of the process of the process of the process of the playing of the playing of Piper Cromarty. The an even fight.

The end play stands out as one of the most distinct features of the game, for it held consistency mixed with brilliancy held consistency mixed with brilliancy Jas. Scuse, violin player, and Miss Daw Jas. Scuse, violin player, and Miss Daw Jas. Scuse, violin player, and Miss Daw Jas. other artists were Miss Gracie Burnill, that has seldom been equalled in any one game.

The game started at two o'clock in cobl, sunshiny weather, with a gale blowing east across the field. By 4.50 it was all over.

One evidence of the fine physical condition and indomitable fighting courage of the Yale eleven may be had from the fact that just one substitution was made thruout. Church replaced Moseley, Harvard substituted desperately in the closing period, their total reaching an even dozen.

The Yale authorities had added nearly 12,000 seats to the regular seating capacity, and 12,000 extra were refused tickets.

One evidence of the fine physical condition and indomitable fighting courage of the Yale eleven may be had from the fact that just one substitution was made thruout. Church replaced Moseley. Harvard substituted desperately in the closing period, their total reaching an even dozen.

The first few minutes saw a kicking duel. Favored by the wind, Horween had the better of Le Gore.

The first break came when LeGore soloff is noor shot and Harvard took the ball on Yale's 37-yard line. The Crimson appeared to be on its way to score with a net of seven yards in two tries, but Horween took a high leap over the line on the second play and Harvard was taxed 15 yards, presumably for hundling. The big extra assignment was too much for the Crimson, and Horween punted. Laroche was over-anxious and allowed the ball to slip thru his arms. A mad scramble ensued, but when the referee sifted to the bottom of the mass he found a Crimson athlete draped about the ball. It was Harvard's ball on Yale's 27-yard line. Two plays drove five yards, and Robinson dropped back and drew first blood for Harvard with a well-directed drop kick.

Soon after Casey, taking the ball, swung out around Yale's left end, whirled to the side lines, cut quickly in, and then, fighting off four Yale tacklers who seemed to have him surrounded, ran seventy-five yards aeross the field and over Yale's line. But Harvard was here penalized for holding. In place of seventy-five yards and a touchdown, the Crimson lost fifteen yards, and Horween had to punt from his own ten-yard line.

It was just before the close of the second period that Yale won the game. Le Gore failed to budge in his attack, and Neville was spilled for a slight loss on the second charge. Le Gore again tried and made a slight gain this time. New York, Nov. 27.—With the last horse selling for \$125, the Old Glory sale, which had been under way in Madison Square Garden thruout the week, came to a close on Saturday. The final day of the auction was devoted to the sale of small and odd lots.

H. S. Crossman, a prominent amateur driver and owner of many fast trotters, picked up a bargain when he obtained Vermont Bellini at \$200. This is a big, rangy gelding, with a speedway record of 1.03½. Last winter he was raced over the snow and ice at Saratoga, and wou many victories.

The majority of the other lots were old horses which their owners wanted to get rid of and were willing to take any price. Some of them went as cheaply as \$25. The sale was one of the largost in recent years, and it is the first time it has run a full week since 1910.

### REFUTES STATEMEN IN HEATED REPLY

G. G. S. Lindsey Declares Solicitor-General "Exponent of Falsehood."

ON NICKEL ARGUMENT

Submits Letter to Prove Attitude Toward Nickel Shipment.

G. G. S. Lindsey replies in the following manner to the speech of Hon. Arthur meignen in Toronto last Thursday:

The solicitor-general, in his efforts to explain away the fact that the best he and his government can do and have done to keep Canadian nickel from getting to Germany for the last two years is to have judicially pronounced Germans agents for the purpose, has been led into devious paths. He is, as regards the matter I shall refer to, as far away from the truth as he is from Siberia.

The Mail and Empire reports that he "insidentally exposed a remarkable attempt by a leading Canadian Liberial to get in between the Russian Government and its nickel supply, and to collect a commission as a reward." And it adds: lar. Meighen pointed out that G. G. S. Lindsey has attempted to show that the international Nickel Company was refusing nickel to Russia, an ally of Great Britain."

International Nickel Company was rerusing nickel to Russia; an ally of Great
Britain."

And again The Mail and Empire says:
"The International Nickel Company, it is
said, refused to make a shipment as scon
as they knew it was for Russian destination because of its German affiliations.
The reason it was not made was that
these men were attempting to get in by
one means and another, not proper means
ofther; they were attempting to extract
from the Government of Russia a toli
that was not their due."

Now this is all deliberate falsehood.
I never mentioned Russia to the nickel
company; my letter was as follows:

New York, March 15, 1915.

Sales Agent, International Nickel Co.,
43 Exchange Place, N.Y.:
I arrived today from Europe and
meant to call upon you before I left
for home tonight, but had not time. I
expect to open up a large and useful
trade in nickel with Europe, and I
would be glad if you would quote me
prices on nickel in thousand-ton and
hundred-ton lots, fo.b. New York and
Seattle or San Francisco. It will be
necessary for me to hear by Monday
in Toronto, as I leave that night for
China. Everty satisfaction will be
given as to destination of consignments. Yours truly,

G. G. S. Lindsey,

Canada Lafe Bullding, Toronto.

P.S.—Your price should include a
proper and usuel commission to me.
As a matter of fact, the letter was
dated March 18, not 15.

### Two Cases of Eczema And How They Were Cured

Further Proof That Dr. Chase's Ointment is a Positive Cure for Chronic Eczema.

If you read these letters you will find that Dr. Chase's Ointment is not to be classed among ordinary salves and ointments.

By actually ouring itching, stinging eczema in many thousands of cases it has stood the most severe test to which any ointment can be put.

Mr. J. Erice. Temperance road. Parry Sound. Ont., writes: "Just a line to praise Dr. Chase's Ointment for what it has done for my wife. She has been suffering with eczenal in her head for two years, and has spent no end of money with doctors and for ointments, which did her no good. She had about given up hope of ever being cured, when someone told her to try Dr. Chase's Ointment. By the use of this Ointment the trouble has left her entirely, so we have unbounded faith in it. I have told several people about the Ointment."

APPLYING SCHOOL LAW

H. Burnham, M.P., Writes Concerning Recent Privy Councll Judgment.

Canadian Associated Press Corres-

London, Nov. 27 .- J. H. Burnham, M. P., for West Peterboro, Ont., writing from Folkestone to The Times, says: Where two such eminent authorities as The Times and the Pope engage in settling the French-Canadian language question it would seem almost, if not quite, an impertinence for a humble member of the Canadian federal parliament like myself to take a hand. But your reference that "we would say to the Ontario Government that the legal decision which has vindicated their educational authority lays upon them the plain duty of deciding whether remembering all that has happened since 1918, they will continue to insist on exercising its regor to the full" implies that the Ontario Government and English-Canadians have been applying "the rigor of the law" to the full. Let me say that all that is sought the control of the situation. There is no thought of rigoisr. But where is the foundation for the idea of the French-Canadians for the idea of the French-Canadians that they (qua French-Canadians) have as much right (in this case more) as those who profess the English language to say how the teaching in our schools shall go? It is an attempt of a minority to "bull-doze" the majority and nothing else.

There was a heavy trade on a very active market, with exceptionally wide ranges. Winnipeg opened too strong and broke sharply on peace talk and heavy liquidation, which started with country orders and soon became general. Not until wheat had broken 9c from the morning did the situation change. Then short to vering caused the prices to recover 6c. General news was bearish, with an increased visible supply.

In the case market, the first three grades of wheat went thru on the option. Four, five and six were taken for eastern demand, but trade was generally

### CALL MONEY'S RISE APEX IN DEMAND STULTIFIES STOCKS

New York Market Closes Heavily After Early Period of Strength.

GAINS IN FORENOON

exchange on Central Powers Reaches Lowest Point Since War Begun.

New York, Nov. 27 .- Vague rumors of nest rate except once this year, con-uted to the heavy closing of today's ket after an early period of strength

Heavy all-round realizing occurred, the Toronto Stock Exchange yesterday and this was apparent even before the reaction on Wall Street started. The truth of the matter seems to be that buying power particularly in vari-ous specialties has become exhausted and those who are seized of this are getting out before the selling becomes general. General Electric was a surprising disappointment, the shares fall ing off 5 points from Friday's high. Weakness of this kind in an old and tried security does not leave much hope for Steel of Canada holders, when the frightened out in a general reaction will be quite acceptable. The Montreal pool struggled with Steamships again to other issues and that they offer unusual speculative prospects.

an adverse market. Except for the stocks mentioned the listed issues were dull and somewhat easier. Shares of the big pulp holding company were in plentiful supply and could be had without trouble at 13. The market as a whole closed soft and unless the pools continue to stimulate their specialties further sagging in the speculative stocks is inevitable.

#### PERE MARQUETTE IS TO BE REORGANIZED

Lansing, Mich., Nov. 27.—The plan to reorganize the Pere Marquette Rall-road, which has been bankrupt for several years, and operated by a receiver, was today submitted to the state railcommission for final action. It was announced that the plan has been approved by a majority of the credi-

The plan as submitted to the rail-road commission provides for the issu-ance of new securities amounting to more than \$99,000,000. These assets, with securities which the railroad is said to own, would make the capitalization of the new company \$105,000,

It is claimed that the road will have a cash balance of \$16,000,000. after the indebtedness, most of which has long been outstanding, has been paid

# AT HIGHER PRICES

Reopening of Property Attracted Buyers-Newray Up a

The mining stock market continued active yesternay at the Standard Stock Exchange and stocks generally had a firm tone. Newray and Schumacher made new high records, the former at 121 and the latter at 89 and Apex, which has not featured largely in the trading for a long time, came into prominence, advancing to 12 on heavy buying.

The activity in Apex stock was due to the fact that the property is about to be reopered. Sound financial basis has been given to the company by the reorganization and diamond drills will very shortly be at work proving up the company's ore bodies. Higher trices are being talked for the stock. Newray advanced a point above its trices are being talked for the stock. Newray advanced a point above its former high level of 120 made on Saturday and this tigure was bid on the close. This stock has a very large following and higher prices yet are liable to be seen. Inspiration was stronger again, going up to 31.

The McIntyre stocks continued the even tenor of their way undisturbed by the amalgamation talk. AlcIntyre held quietly around 175 to 176, McIntyre Extension sold at 50 to 50 1-2 and Jupiter at 28.

Schumacher, as has already been mentioned, went up further to 89, an advance of approximately 40 points for this movement. Altho the movement was due primarily to the making of a speciacular strike on the property, the upward move has been augmented by the covering of a large short interest.

delphia Co., Industrial Alcohol and other miscellaneous issues reflected the activities of pools or cliques, but yielded to moderate pressure.

Itails were in no sense a factor marketwise, the only noteworthy movement in that quarter beling the temporary strength of Raading and other coalers and the consistent heaviness of Canadian Pacific. Mexicans followed the upward rend of the first hour, but were among the first lose ground. Total sales agreeated 1.520,060 shares.

The most interesting development of the day in its broader implications was the destine of exchange on the central powers to the lowest rates quoted since the outbreak of the war. In point of fact, offerings of bills on Germany and Austria were barely nominal, so that today's depreciation was sentimental, mather than actual.

Gold imports on a large scale from England, by way of Canada, were required and further moderate exports of the metal to South America were made. Bonds were irregular, with Paris 6's at a new low quotation. Total sales, par value, \$5,340,000.

Vecuum Gas came into prominence, due chiefly to a strong enquiry from New York. The almost remarkable strength of Newray stock, which made another record yesterday at 121, was partly explained by the rumor that a syndicate of American capitalists had offered to purchase several thousand shares at the current market price. fered to purchase several thousand shares at the current market price. It is understood that this offer was and after a careful examination of the Newray property by an engineer of high standing. The members of the Standard Stock Exchange are going to Porcupine this week, and will make a special visit to the Newray mine, which has demonstrated such excellent deep ore values within the last few months.

### **BOTTOM FALLS OUT** OF WHEAT MARKET

Prices Decline Nearly Ten Points Before Reacting at Chicago.

**MEAR EMBARGO YET** 

Vervousness to Chicago Trade Comes From Pro-German Activities.

Chicago, Nov. 27 .- After a whirlwind selling that caused an extreme set-ck of 5%c a bushel in the wheat marback of 5%c a bushel in the wheat market today, prices made something of a rally owing to an unexpected decrease in the U. S. visible supply total. Possibilities of an armistice, of submarine hostilities near the U. S. and of an embargo on export shipment of foodstuffs were all factors in bringing about the smash in values. The close was weak, 34c to 44c net lower, with December at \$1.73% to \$1.73%, and May at \$1.80, to \$1.804. Corn finished 1%c to 24c down, oats off %c to 14c, and provisions varying from 52c decline to a rise of 30c.

down, oats off %c to 1%c, and provisions varying from 52c decline to a rise of 30c.

July delivery of wheat displayed relatively the greatest weakness as being more subject than nearer options to the chance that an armistice, if declared, would lead to peace. At first, tho, neither peace reports nor contingencies regarding threatened hindrances of shipments to Europe seemed to be taken seriously by the majority of traders. It was not until a few prominent houses began to sell with a free hand that a general stampede of holders took place. The recent vigorous moves for an embargo appeared to have left the market almost bare of orders to purchase, and in no shape to withstand the flood of stop loss unloading that sudderly swept the pit.

Attempts to rally the wheat market met with no lasting success until the final hour of the session. The U. S. visible supply total was then shown to have diminished 802,000 bushels in a week, whereas during the corresponding time last year the domestic store had gained 6,176,000 bushels. The contrast was too striking to escape widespread notice and was emphasized by signs that the break in prices today had been the occasion of a rehewal of export business, estimated later at 1,000,000 bushels. Even under such circumstances, however, the market was again on the downgrade in the final 15 minutes.

Hoof and mouth disease reported in Nebraska, Kansas and Missouri had a bearish effect on corn and so, too, did rains in Argentina. Most of the weakness in the corn market nevertheless was scribed to the fall of wheat values. Oats dropped with other cereals. Big stocks on hand counted also against the bulls.

Provisions for the most part went up-ward on the reported outbreak of the

Boston and New York Show Interest in Ontario Mines

H. H. Sutherland of F. C. Sutherland & Co., brokers, Toronto, has returned from a ten-day business trip to Boston and New York in connection with the firm's mining enterprises. He reports that business is very active in the financial districts of the big American citles, and that a widespread interest is developing in Canadian mining, particularly with reference to Cobalt and Porcupine.

Mr. Sutherland states that a great deal of American contral is going into the of American capital is going into the northern Ontario mining fields this year, and that the outlook is that the volume will increase rather than decrease as
