FOUR MILLS ARE RUNNING

Outlook Is That This Year's Lumber Cut Will Be Hardly As Good As Last Year.

Although this year's lumber cut is hardly expected to average quite as high as that of last season, the winter, taken as a whole, has been regarded as a favorable one, by local operators, and despite the fact that the hauling has not been as good as might have been expected, it is generally believed that a goodly supply of logs will come down river to the St. John mills.

Four mills are in operation at present, viz: Chas. Miller's, Miller Bros. Pleasant Point mill, and John E. Moore & Co.; and the present supply of logs will probably be sufficient to keep the mills in operation.

The twenty-second annual meeting of the St. John River Log Driving Co. will be held at the Queen Hotel, Fredericton, on Wednesday next at 11 o'clock, when directors will be elected and other business transacted. John E. Moore, the president, and J. Fraser Gregory, the secretary of the company, will be present.

St. John lumber operators who were seen today, are practically unanimous in the belief that the quantity of logs to come from the booms this season will not quite equal that of last year, which figured 120,000,000 cwt.

Nothing in the way of definite figures or even a rough estimate could be obtained, nor is it likely that the exact amount of this year's cut will be known till after Wednesday's meeting.

While there has been plenty of snow in the lower country, the hauling has not been really good.

It is expected that rafting operations will begin about the middle of May or the first of June.

OFFERINGS WERE LARGE

Large Congregations and Generous Collections in Episcopal Churches Yesterday.

Easter was marked by hearty services in all the Episcopal churches, yesterday with special music and sermons appropriate to the occasion. In some cases, notably at St. Luke's church, the offering was of a special nature. There were large congregations, and the number of communicants present was above the average. The list of communicants attending the sacrament at yesterday's services and the amount of church offerings is as follows:

Table with 2 columns: Church Name and Amount. Includes Trinity church, St. John's church, St. Paul's church, etc.

NEWS FROM FREDERICTON

FREDERICTON, N. B., April 1 (Special)—The young bachelors of the city are to give a ball at Queen Hotel this evening. The chaperons will be Mesdames A. Westmore, O. H. Sharp, and A. T. Murray.

David Wood of Rustigorish leaves this afternoon for the headwaters of the St. Francis River with a crew of men to make ready for stream driving. They are in the employ of Randolph & Baker.

Albry Gross and James Sleeves of Rustigorish went to St. John this morning after the two tramps arrested at Fairville recently by Detective Killen on a charge of stealing a horse from Eldon Phillips.

A heavy snowstorm set in here at ten o'clock this morning and continued until noon. There seems to be good prospects of Alex. Durbar & Sons, shingle machine manufacturers, of Woodstock, removing their plant to this city. A proposal to amalgamate the business with that of McFarlane, Thompson & Anderson of this city is now being considered by the directors of the latter concern, and is looked upon with favor. It is proposed to increase the capital stock to half a million, and engage in the manufacture of cars, shingle machines, mill machinery, etc.

Should the merger be carried out the city council will be asked to grant a free site for the enlarged concern, together with free water and exemption from taxation.

TALK HAS DIED OUT

Usual pre-election apathy has fallen over the city.

The usual pre-election apathy appears to have fallen over the city. There is some talk today of calling a public meeting to stir up the citizens, and perhaps to nominate candidates, and such a meeting may be held the latter part of the week.

A few days ago there was talk of all sorts of combinations, and it was said that there would be no difficulty in getting a number of candidates to offer.

As nomination day is only a week distant, it will be necessary for some action to be taken this week if the present board is to be opposed.

Dr. A. W. MacRae was waited upon by a delegation Saturday, asking him to run for mayor. The ex-alderman declined to accept the nomination.

SAYS HE MUST SUE TORONTO, April 1 (Special)—The Globe in an editorial today says that Hon. H. R. Emmerson must make an answer to the charges against him and must sue for libel the papers publishing defamatory articles.

The Times has received the first number of The Western Citizen, "an independent journal devoted to social and political problems of western Canada." It is a small semi-monthly of eight pages of solid reading matter dealing with the subjects indicated in a thoughtful and very interesting way. The Western Citizen is published in Okotoks, Alberta, and the proprietor and editor is O. B. Stockford, formerly of St. John.

The case against Thomas Watters for selling liquor for other than medicinal purposes on Saturday night last will be heard in police court Wednesday next.

NEWS OF THE WORLD AS TOLD IN SHORT METRE

BOSTON, April 1—Three women who ate canned salmon for their breakfast in Waltham yesterday were made violently ill from ptomaine poisoning, two of them being assisted from Trinity church in this city where they were attending the morning service. It is expected that all will recover. The victims were Mrs. J. P. Graves, Mrs. Ada Fuller, the aunt of Mrs. Graves, and Miss Bertha Graves, a sister of Mr. Graves. Mrs. Fuller and Miss Graves were sent to the city hospital from Trinity church and upon reaching home Mr. Graves who had accompanied them found that his wife was also suffering from the poison.

An electric light wire on which Eugene Mazzoni was at work at Burlington, Vt., Saturday, came in contact with a live wire, and a current of 2,400 volts passed through Mazzoni's body, killing him almost instantly.

A series of brutal murders was perpetrated at Alexandropol, Russian Armenia, yesterday, by a man named Karapetyantz, who lately had been without employment and was refused further help in the home of a married sister, Karapetyantz, with a stiletto, wounded his sister and her husband, mortally wounding a nephew and niece, killed a neighbor who answered their cry for help, and mortally wounded the wife and mother of this neighbor. He then committed suicide.

Jim Williams, a negro, charged with committing criminal assault on Lillie Mizner, white, near Colbert, I. T., Saturday afternoon, was lynched at Durant, I. T., last night by a mob of a thousand people. Williams was hanged to an oak tree, and his body riddled with bullets.

VOLIVA WILL RUN THE WHOLE SHOW HIMSELF CHICAGO, April 1—William Glenn Voliva issued an ultimatum to Zion yesterday. Unless the people submit to him on May 1, he will take radical action himself, he said.

Voliva denounced everyone who has opposed him. He took as the occasion for his ultimatum the anniversary of his ejection of John Alexander Bowie from the church, having expelled the late leader one year ago yesterday.

"I say to you, officers and people, that one month more I will give you," he said, "on May 1, if you do not make a radical

FELL DOWN STAIRS WITH LIGHTED LAMP

Mrs. Burnett, an Aged Resident of St. David's, Ontario, Probably Fatally Burned.

NIAGARA FALLS, Ont., April 1 (Special)—Mrs. Burnett, of St. David's, was probably fatally burned at her home there by falling down stairs with a lighted kerosene lamp in her hand. Her clothing was soaked with oil and took fire. She ran out doors to a small creek into which she plunged to extinguish the flames. By this time her clothing was almost entirely burned off, and when she was taken from the icy water she was in a very serious condition. Mrs. Burnett is of advanced age, and slight hips are entertained for her recovery.

POLICE COURT In the police court today John Beck, arrested for using abusive language to Mrs. Dincock on Union street, was fined \$5. Dincock was fined \$8 for drunkenness. Maud Lester was also fined \$8 or two months in jail for being drunk. Henry Hibbert was arrested on a warrant sworn out by his wife, who charged him with assault. The case was heard today. Mrs. Hibbert, who has an impediment in her speech, said that her husband had frequently assaulted her and on Friday last he threw a door knob at her which injured her shoulder. Hibbert admitted the offence. He had been married ten years and had 4 children. He also had a stoppage in his speech.

Mrs. Hibbert's adopted father stated that he had to keep the house and that the prisoner was a vicious man, who showed that falling by resisting the police. It was finally agreed on the suggestion of the prisoner that he be permitted to go and that he would live alone and give one-half of his wages towards the support of wife and children for seven years. With that understanding he was given his liberty.

A very interesting service—"The Easter Glory"—was rendered in Zion church on Sunday evening, and was much appreciated by an unusually large audience. Miss Mabel Turner, daughter of J. Allan Turner, of this city, and who is now pursuing a musical course at Mount Allison, assisted in the delivery of her address on church the solo "Come unto Him," by Handel.

There is a slight rise in the river at Indian town today.

THE GOOD GOOS AND HO BOS. Times New Reporter: Sir—I have been asked several times if I was one of the Good Goos. Will you please tell me what a Good Goose is? I am uncertain whether the question is intended to be complimentary or the reverse.

TAXPAYER. In reply to this correspondent the Times new reporter hastens to express the pleasure he enjoys in being able to answer the question. The Good Goos are the Good Government Association. This is a body of earnest citizens who desire a better civic administration, and hasten to secure it by holding sweet converse to gether while the other fellows get their own candidates into the city council. The more Good Goos there are in a town, the easier it is for the Ho Bos to get into the council. An attempt was once made in an American city to get

THE TIMES NEW REPORTER

HIRAM'S MISTAKE. Mr. Hiram Hornbeam made a little mistake the other day. Having heard of the adventures of the Ludlow at Navy Island, he went down to the water front and saw what he thought was the Ludlow hauled and fast again. Telling about it afterward he said:—

"I watched her for full ten minutes all at once she stuck her tail in the air and brought up a lot of mud. 'She's digging herself out ain't she?' says I to a fellow on the wharf. 'No,' says he, 'you darn fool—that's the drudge.' By Heav! I thought all the time it was the Ludlow."

No, dear reader, we are not to have another winter. The little snowstorm of today is the weather man's first of April frolic.

MR. BINKS'S JOKE. It is remarked by Mr. Peter Binks that this is an appropriate date to express to the city council. When the Times new reporter asked Mr. Binks what he meant by this remark, that gentleman pointed to the calendar and gave vent to something very like a chuckle of amusement. The council meets this afternoon.

THAW DEFENCE CONFIDENT THAT LUNACY COMMISSION WILL DECIDE HE IS SANE

Prisoner's Lawyers Will Rest Their Case Before Commission.

Will Call No Alienists, As They Believe That Thaw's Own Showing Furnishes Abundant Evidence of His Sanity—Case May Resume Wednesday.

NEW YORK, April 1—An important development in the court proceedings against Harry Thaw is the announcement today by counsel for the prisoner that Thaw rests, so far as further testimony by their side is concerned before the lunacy commission. The defence believes this will help to bring this particular hearing to a close by Tuesday night, so that the trial, delayed for more than a week by the movement to determine Thaw's sanity at the present time, can be immediately resumed. The defence assumes, of course, that the commission will find that Thaw is sane. In fact they are supremely confident of such an outcome, basing their opinion on the splendid showing Thaw is said to have made when questioned by the commission. District Attorney Jerome does not share the opinion of the defence that the commission will conclude its hearing on Tuesday. He said the defence was assuming too much and expressed the belief that several days would elapse before the commission reported. Mr. Jerome believes that the commission will hear his alienists, and he hopes, besides, that the testimony of Dr. Allan McLane Hamilton will be admitted. There is no doubt that the hearing will be prolonged if the State's alienists are allowed to testify as fully as Mr. Jerome wishes them to do, but the defence lawyers believe that they will only be permitted to tell what they think of Thaw's present condition, and facts of the distant past, on which most of their conclusions are based, will be eliminated. Daniel O'Reilly, who since the commission was appointed, has taken an active part in the defence, with Clifford Hartridge, made the announcement that Thaw will stand on his testimony before the commission, and that counsel will call no witnesses. He said: "The defence will offer no more witnesses. We will not call any alienists, although we know Mr. Jerome has the promise of the commission to hear what his experts have to say on the verities of Thaw, on the evidence as adduced at the trial, and on the observations they have made during the trial." Mr. O'Reilly expressed the opinion that Dr. Hamilton would not be allowed to testify and he added that he hoped the whole matter would be ended this day night, "I do not see why it should not be," he concluded. There will be a brief session of Justice Fitzgerald's court today, and the jury will again be dismissed, probably until Wednesday, to await the report of the lunacy commission.

FOR SUNDAY VIOLATION CARPENTERS QUIT WORK

Hatty, Lahood & Hatty, Charged With Selling Goods on the Sabbath Day.

Hatty, Lahood and Hatty, the Assyrian dry goods dealers on Elm street were charged today in the police court by Officer Ward with selling dry goods Sunday, the 24th. inst. about 7.30 o'clock. Thomas Hatty represented the firm and pleaded not guilty. The complainant said that he was passing by the store on Sunday week and noticing the door ajar and a light burning inside he looked in and saw Thomas Hatty passing goods over the counter to a woman. Finally the lady went to go out and was confronted by the policeman. Seeing who it was she retraced her steps. The policeman went away and when he returned at 8 o'clock the light was out. Hatty said that his store was on the ground floor and when he visited his store he discovered that water was pouring from the street and changing his dry goods to wet goods. He called for help and Mrs. Joseph Thomas and Annie Thomas, two Assyrian women came to the rescue. The defendant then started to gather up the goods to give to the women to take upstairs when the policeman saw them. He denied selling dry goods. The case was adjourned until 2 o'clock tomorrow afternoon when Annie Thomas will be present. Officer Ward will also have witnesses present to show that Hatty, Lahood and Hatty kept open on Sunday. Noah Lahood said that they also kept groceries.

JUDGE FORBES DEALS WITH CHURCH UNION

Interesting Address Before the Evangelical Alliance.

The Evangelical Alliance met this morning in St. Andrew's church, Rev. A. B. Coloe presiding. The first business of the day was the reading of the resolutions referred to. His Honor Judge Forbes was then called by the chairman to deliver his address on church union. The speaker stated that much for the welfare of the country had been accomplished by the British Bible Society. The need of such an organization had been long felt. The spirit of unionism had awakened in the churches during the past century. The first was that of the Presbyterian church which took place in 1888. All the churches have had divisions; the Methodists, Baptists and Presbyterians have all discovered the good of unionism. There are many denominations of Presbyterians. Some don't believe in the singleness of home, others have different

SOMETHING SHOULD BE DONE ABOUT DREDGING

So Far the Promises of Early Harbor Work Are Unfulfilled.

The dredging commenced for the new berth and had been assured that everything possible would be done. He had pointed out that St. John's position was such that a dredge could be sent here during the winter months, as the harbor was always open, instead of having the machines lying idle in some ice bound harbor for the winter.

It was suggested that two or three dredges could be put to work here in the winter and released for other work in the summer months. It was, however, shown that there was sufficient work here to keep one or two mud-diggers busy for some time to come. The mayor said he had wired Hon. Mr. Emmerson and had also written to him urging that a dredge be sent here and a start be made at once, but as yet he has received no reply. He said he recognized the need of something being done at once and had impressed that fact on Hon. Mr. Emmerson. He did not see what more could be done.

April Dividend Disbursements

Record breaking dividend disbursements for April will be made this year by all classes of corporations, industrial, financial and street railroads. The grand total will be in excess of \$80,000,000. In April a year ago it was \$66,400,000. Street railroads lead off with \$33,488,999, against \$29,177,920 for April last year.

SWEPT AWAY BY LAND SLIDE

Caving Bank of Earth on Canadian Northern Road Carries Away a Freight Train. TORONTO, March 30 (Special).—A bad landslide occurred on the Canadian Northern Railway at Barnsley yesterday. A bank slid down just as a freight train was passing. The train and tracks were carried away by the force of the earth's avalanche. No serious damage was done and nobody was injured, but it took several hours to get the track in shape again.

April Fool---or A Good One on Mike

NEVER BUT ONCE

"Speaking of April fool," said the man with a look of permanent sorrow on his face, "I paid some little attention to it when I was a boy, but only once after arriving at the age of manhood. I was about 25 and in the dry goods business and hustling for all I was worth. When April fool came along I felt liddy for some reason. In an old wall in the store I had a counterfeit \$30 bill, given me by the sheriff as a souvenir. I got it out, enclosed it in an envelope and dropped it on the street. Pinned to it was a bit of paper bearing the words 'April Fool!'"

Financial and Commercial CONDITIONS IN WALL ST.

By J. S. Bache & Co. NEW YORK, March 30.—There seems to be concert of action affecting security and commodity markets throughout the world during the past fortnight. London and Berlin have acted in sympathy with the stock market convulsions on our exchanges, which have set all speculative America by the ears. Although we now call it the "Mystery Panic of 1907," close observers of events are carefully scrutinizing the horizon for evidences of business reaction. Announcements have been made semi-officially of a decided retrenchment in expenditures of many great railroad systems. The Erie management has taken decided action in that direction, while the Union Pacific and many other trunk lines have made announcements of proposed cessation of extensions and improvements. The metal market has recorded some easing of the extraordinary demands which have been the feature of the recent commercial expansion of the last two years. The copper metal market, which has been held to the top level owing to the enormous consumption, recorded declines in London during the week. This fact brought about a decided slump in copper securities the world over, and was the instrument in forcing another decline in security prices this week, exceeding in many issues the low levels of the panic of March 1903. Reports from iron and steel trade do not show any diminution in shipments of crude and finished products owing to previous delays due to railroad freight congestion. At the same time, it is idle to deny that unless there is a resumption of railroad construction work during the next few months, the assumption of iron and steel will be affected and values must be influenced. Private reports reach us of retrenchment in commercial life with the acute stringency in money and the cutting down in credit, the cause. The railroad political situation, if we may so call it, is acute. Conferences between White House and railroad presidents continue with no announced results. In meantime state legislatures are taking matters into their own hands, and exercising their sovereign state rights in passing restrictive laws against the railroads within their boundaries. It is at all surprising that the average investor is so confused as to the outlook, and that 6 stocks are selling on a basis of from 7 to 7 per cent. Money will no doubt work easier after the April disbursements have been made, and barring any accidents we see no reason why prices should not naturally rally further during the coming fortnight.

COMMENT ON STOCK MARKET Pressure to Liquidate Bonds—Guessing Time in Wall St.—Better Feeling.

(N. Y. Journal of Commerce, Saturday.) The head of an influential Stock Exchange member was stopped as he was about to enter the market. He was asked for his opinion on the market. "I haven't time to talk just now," he replied, "but I'll take you to some one on my opinion as to what the market will do." He pointed to the old woman who sells say-ings as well as such as I do about whether we have touched bottom or not." Wall Street was yesterday as warm and as dull as on a typical midsummer day. Offices were deserted, save for a few employees and a struggling trader here and there. The market behaved better than was expected, but the turnover was so small during the early part of the day that the higher prices really meant very little. The inveterate bears explained the small advance by saying that the professional manipulators who are working for a rise, found it comparatively easy to mark up prices in the absence of half the members. It daily becomes more evident, however, that the bull side is becoming more popular, due mainly to the fact that securities are now working on a more active investment basis. One ugly feature is the pressure to liquidate bonds. Very few investors, however cautious, have the temptation to put their money into something that will yield more than the average gift-edged bond. Several of the best stocks today show a return of 6 to 7 per cent, or 11.2 to 12 per cent more than the bonds. Therefore, much of the investment buying of stocks during the last three weeks has been at the expense of the bond market. It is difficult to sell any stock except the most active bonds short-term notes have also been sold in order to make the purchase of dividend-paying stocks possible. It is not absolutely certain that all the big bond houses will be able to withstand this new depression yet, as they have borne up so heroically all through these many months, the hope is inspired that all will be able to pull through.

THE LYCEUM STOCK CO. The Lyceum Stock Company which is to commence a spring engagement at the Opera House on Monday, April 8th in an excellent one-act comedy, "The Lyceum Stock Company," is progressing in St. John, but the theatre-going public is exceedingly fastidious in their tastes and demand quality of the highest grade. The companies which have been accorded the most liberal patronage are those which have been deserving the selection of the Lyceum Stock Company. The plays offered must meet with public approval, and when these plays are selected, the Lyceum Stock Company should be able to secure a large and successful season. GOOD VAUDEVILLE BILL THIS WEEK Nobody, however listidious in taste or sensitive in nature, need hesitate to patronize the vaudeville bill of fare provided from week to week at the local variety theatre, for it is the established policy of the management to introduce only first class talent and to entirely eliminate any detail that could possibly offend. As a result the matinee attendance has grown to a remarkable extent and the theatre is quite "the thing" among ladies and children, while the only method of ensuring seats for the evening performance is to book ahead.

WHY THESE DELAYS?

"Unless a dredge working in co-operation with the Beaver was put to work within a month or six weeks it would be impossible to have the new (600 foot) berth available for next winter's business."

This statement, made by Ald. Baxter at the luncheon for the western members of parliament on the Empress of Britain on Saturday, should startle the business men of St. John into action.

On Feb. 29th, a St. John delegation was assured at Ottawa that the dredging referred to by Ald. Baxter would be completed in a week or two. A few days later Hon. Mr. Emmerson asked the board of trade to strengthen his hands by the adoption of certain resolutions, which was promptly done.

CHOOSE THE MEN

The citizens have one week in which to select candidates for the next city council. Upon the nature of their choice will depend the conduct of civic affairs for the next year. The responsibility is no light one since the rate of taxation has been rapidly increasing during the last few years, and the need of wise administration is apparent to every citizen.

It is generally felt here that the present slump in values, if continued for any length of time, cannot help weakening the hands of the federal government in the development of its further railroad plans, if it has any. Just what the president had in mind before the closing of congress when he was expected to make a public announcement of his further plans was known only in a general way.

The woman suffragists in England are determined to make the men sit up and think. Mrs. Cobden-Saunders hints that the ladies may do male attire. In an interview in London Miss Cristobal Pankhurst, one of the most active of the leaders of the movement, says recruits are being secured in the provinces in such numbers that the government will have to mobilize the army to deal with the women and find quarters for thousands of prisoners.

There remains to be subscribed the sum of \$240 to complete the fund for the Champlain monument. There should be little difficulty in securing this amount. The Times and Telegraph will gladly acknowledge subscriptions. The amount should be raised promptly so that the work of preparation may be carried on at once.

'I believe it was.' 'I was going down the street having nothing to do, when I meets up with Jimmy Covoy, who says I blacked his eye. We had a drink together. It was not an April Fool's drink, but the regular stuff. When we had downed it Jimmy began to laugh, and purty soon he says: 'Tommy come up to the house with me.' 'For why?' 'To see me April fool the baby. I'll show you a right crack your ribs with laughter.' 'I went up with him, your honor. He has a baby a year old. You have got to look into the eyes of the kid to know that he's as innocent as a bluebird sitting on the fence. The wife goes out and leaves Jimmy to mind the baby for a few minutes, and Jimmy sits the kid on the floor and touches its tongue to a lump of sugar and then places a lump of sugar in the baby's mouth and it begins to shed tears. Then he begins to holler. Then he drops over on his back and goes into some sort of fit, and Jimmy never lets up on his laughing.' 'And how about you?' was asked. 'I'm getting mad all the time. Your honor, it isn't fair play with the kid. It's handicapping him. It's working the

MR. BRYCE APPLAUDED

(New York Evening Post.) No part of Mr. Bryce's speech at the Pilgrim's dinner was in finer spirit than that in which he rose above all the notions of competition and jealousy in international friendship. There has been something petty and almost sordid in the eager speculation as to which foreign country could send the most acceptable ambassador here, and so show itself a kingly more our friend than any other. We even heard talk that Mr. Bryce was chosen from order to put Baron Sternburg's nose out of joint, or to take the pas from M. Jusserand. But none of these narrow and silly pretensions found any tolerance in the large discourse of the British ambassador. He professed hearty friendship for the United States and desired our good will; nor did he fail to show that the two peoples have a civilizing mission in common; but he refused to make even the semblance of a bid for an exclusive place in our affection. The better our relations with other countries, the better England would be pleased, and more hope she would have of strengthening her own bonds of amity with us. A truly humane and friendly spirit knows nothing of these limitations of kind feeling. It is as easy to have an entire cordiality with a dozen nations as with one. Of course, a country wants a Canadian Pacific railroad passenger train here late today. He was fifty-four years old, and is survived by three daughters.

THE WRECK OF JAMES HENRY

James Henry Worthington was in love. There was no doubt about his being in love, because he had lost his appetite and kicked around nights instead of going to sleep.

During the day he was also figuring on how far a salary of six weeks would go toward supporting a three-story house and its train servants and carriages. That is to say, how much he would have left over every week after the bills were all paid.

He believed that Lucille loved him. In fact, she had told him so, but had asked him not to spread the news around town for awhile yet. On this particular evening, as he walked toward her father's house, he determined that there should be an engagement. He might even have heard her father in his den. He might even coax her into naming the happy day.

He rang. He entered. He was soon in the presence of his beloved. There had been no great change in her in the last 24 hours. He had opened his mouth to say that he had been loving her for the last three months as woman was never loved before, when she stopped him with: "Wait a minute. I want to show you my new Easter hat."

James Henry Worthington was in love, year, when we're married. I shall have cost at least \$60 more!" A buzz—a gurgle—a face as pale as the dead. Then James took a skate. The front door banged—he rushed down the steps—his clattering feet were heard for a moment, and then silence. He would come no more—never to more.

ANDREW CARNEGIE AND PRESIDENT ROOSEVELT

Steel King Says That Roosevelt is a Good Friend to the Railways --- President is Becoming More Careful as to What He Says for Publication --- The Congressional Junket to Panama.

(From Our Regular Correspondent.)

WASHINGTON, D. C. March 28.—Andrew Carnegie was in Washington yesterday and lunched with the president. There is no man whom the president holds in higher esteem than the little multi-millionaire and philanthropist who, by the way, does not like to be called philanthropist or any of the hackneyed names applied to munificent givers. It will be remembered that during the presidential campaign Mr. Carnegie offered to endow the republican campaign committee with a million or more dollars if it should be needed. It is not recorded whether Mr. Carnegie accepted this addition to the campaign fund or not. When Mr. Carnegie was at the White House last winter he happened to arrive during a cabinet meeting. The president excused himself and saw Mr. Carnegie while the cabinet and nation waited. Mr. Carnegie and James G. Blaine were also friends. Mr. Roosevelt and Mr. Blaine were also not friends though during the life time of Mr. Blaine, Mr. Roosevelt was scarcely known. But there is evidently a very decided mutual admiration between the president and the Americanized Scotchman.

Quid Nunc see a close and important relation between Carnegie and the financial crisis and in some way credit him with being an emissary from the railroads or Wall Street to use his persuasive powers with the president. They might as appropriately credit him with being a nuncio from the Pope. Mr. Carnegie in leaving the White House said: "I absolutely endorse the attitude of the president toward the railroads. He is the best friend they have and they ought to realize it. The railroads had better stand with him as they now seem inclined to do. If they do not accept his moderate measures they may be confronted by a man in the White House who will approach the question from an entirely different standpoint. I regard the railroads as a whole as a conservative."

As indicative of the increasing sensitiveness of the president with respect to reports oral or written of what he says it is told that when he received a delegation of Illinois manufacturers who talked with him about railroad matters he especially requested that they make no attempt to repeat for publication his full view. This request was made after talking with them in his usual free, if not somewhat reckless, habit. The delegation assured him that they would not submit to inquisitorial questions before they gave it out. The president has so frequently permitted himself to say precisely what he means and feels, that he must now begin to be cautious.

An expert statistician of the Interstate Commerce Commission has just made public the result of some of his investigations with regard to the railroads. The report is likely to convince one of the proposition of a well known and reliable capitalist who proposed last year to take charge of the post office department, reduce letter postage to one cent, and make the government all the earnings above seven per cent, was proposing a good thing not only for himself but for the government as well. The statistician referred to has discovered that while the government pays the railroads \$31.75 for conveying mail matter from New York to Buffalo the express companies pay only \$12.50 between the two cities for the same weight, and the question arises, why should the government pay more than the express companies? He also estimates that a railway mail car costs \$6,000 and that the government pays an annual rental of \$5,147 for this car and that the roads subtract \$1,200 for maintenance and repairs, giving the road a net annual profit of \$4,147 on an investment of \$6,000. Congressman Taylor of the Appropriations Committee has found that there are postal cars that have been running for twenty-five years and have earned \$106,175 each, though he states that fifteen years is the average life of a car. Even this would make their net earning a little more than \$70,000 each. Such astounding figures as these afford an explanation of our large postal deficit annually and serve to show that were the railroads rates just or reasonable, even without any other economy the postal service might render the government an annual surplus. From the list of inventors the Patent Office affords the postal service a large profit while the government

SUDDEN DEATH OF DR. SHEFFIELD

Well Known Physician Succumbed to Heart Trouble on Saturday Night.

Dr. Mason A. Sheffield died suddenly in his home, 116 Princess street, about 6.30 Saturday night of heart trouble. He had been out visiting a patient and reached home about 6 o'clock. At that time he complained to his wife of a pain in his chest and remarked to his niece, Miss Ross, of Halifax, who was in the house that he had been walking too fast and was very warm. The table in the dining room was set for tea, but the doctor said he did not feel like partaking of any and he walked out into the kitchen where he was warming his feet when Mrs. Sheffield, following him, suggested he should go upstairs to bed. He consented to do this and walked upstairs unaided. Then he lay down directing Mrs. Sheffield if he grew any worse send for Dr. Inches. The two ladies went down stairs for a few minutes and when they returned they were shocked to find the doctor dead. Dr. Inches and Dr. T. D. Walker were hurriedly sent for, but could do nothing. Dr. Inches said it was a case of heart failure which had a bad fall from the effects of which he never fully recovered. He was sitting the storm window into the eaves on the second story of his house and fell with one of the eaves on top of him. He sustained some severe cuts about the head and bruises on his body besides which he was badly shaken up.

Dr. Sheffield was born in Cornwallis (N. S.) seventy years ago in March, 1837. He received his early education at the Wolfville Academy and began the study of medicine under the late Dr. James of Halifax. From Halifax he went to Bellevue Hospital, New York, where he obtained his medical degree, afterwards completing his hospital work in New York and Washington (D. C.). After the American war he began private practice in Bellevue (N. S.), where he resided for five years and where he married his first wife, who was Miss Beckwith, of Cornwallis. In 1872 he came to this city where he successfully pursued the practice of his profession. Until the time of the great fire here he was a member of the St. John's Hospital, and he was noted as a brilliant student and painstaking worker. After a short connection with the press in this city the postmaster sent to Edinburgh to study for the medical profession. While in that city he contracted rapid consumption and in 1881 his father brought him home to Cornwallis in hopes of effecting a cure by the open air treatment. It was too late, however, and he died there the same year. The shock almost unmanned Dr. Sheffield and he in part gave up large practice. Three years later Mrs. Sheffield died. In 1890 the doctor married Mrs. G. M. Clark, of Halifax, who survives him.

Of late years Dr. Sheffield had again begun to take interest in his profession and he had just finished visiting his patients Saturday when he died. Dr. Sheffield was held in the greatest respect by that large portion of the public with whom he came in contact as well as by all his brother practitioners. He has two daughters—Mrs. Job Sears, of Dorchester (Mass.), and Mrs. Park, wife of Sergeant Major Parks, England; and one son, W. J. Agate, of Digby.

Ezekiel Nason Ezekiel Nason, of Fredericton Junction, died very suddenly of heart failure Saturday morning while shopping wood about a mile and a half from his home. Mr. Nason leaves a wife and six small children.

Charles W. McAnn Moncton, N. B., March 31-L. W. McAnn received a telegram this morning conveying the sad intelligence of the death of his brother, Charles W. McAnn, mayor of Moncton, N. B., which occurred Saturday evening.

Visiting Parliamentarians Say They Are Much Impressed With the Necessity for Enlarged Facilities Here---Ald. Baxter Says \$150,000 is Needed for Immediate Work.

The visiting senators and members of parliament from the west left for Halifax Saturday evening. In the afternoon, following the luncheon, a number of speeches were made and a clamor at Bay Shore was enjoyed. The luncheon on the steamer was very enjoyable, and an adjournment being made to the smoking room, a number of interesting speeches were made. Ald. Baxter in the course of a brief speech said he felt as far as the question of the needs of the port was concerned that the visitors had seen and could not judge for themselves and that in consequence the representation of St. John in the dominion parliament would be much larger and more effective than ever before in the city's history. He would not touch the larger question as that might tend to put out of sight the pressing and immediate needs of the port, the most important of which was the necessity of dredging the site for the 600 feet berth.

He referred to the meeting in the board of trade rooms at which Hon. Mr. Emmerson was present and at which the policy to be pursued here was outlined and the purchase of a second dredge by the government was spoken of. He asked the visitors to strengthen the hands of the city on their return to Ottawa by impressing on Hon. Mr. Fielding the necessity of public works, the need of immediate action. Unless a dredge working in co-operation with the Beaver was put into operation in the fall would it be impossible to have the new berth available for next winter's business. Starting work in the fall would be of no real advantage as the construction could not then be completed. Outside the purchase of a dredge he thought an expenditure of \$150,000 would cover their immediate requirements. Later on attention should be directed to deepening the channel between Sand Point and the new wharves.

Senator Wilson, of Portage La Prairie, replied for the senate. He was greatly impressed, he said, with all that had been said. The city had a case which he felt assured was safe in the hands of Mr. Emmerson. There could be no question as to the importance of improving the facilities at St. John and this must necessarily be appreciated at Ottawa in view of the undertaking to build the G. T. P. The mayor then called on T. A. Burrows, M. P. of Dauphin (Man.), to reply for the house of commons.

Mr. Burrows said it was the first time he had visited the port on the Atlantic and he was much surprised at his own lack of knowledge of the requirements of the country as regards its harbors. The Northwest had grown more during the last five years than in the preceding 20 and even now the trade was only commencing to flow. They were on the eve of development which, after they had made St. John all they expected to make it, could not confine the output to one port. With the east the question at the present time was one of development. With the west it was a matter of capital and population. They had both now and if they went forward, at the present rate it would not be long before the eastern outlets would prove insufficient for the traffic.

On motion of Alderman Rowan, a vote of thanks was tendered to the C. P. R. for the hospitality shown, and Capt. Walsh and Capt. Murray made fitting replies. Capt. Walsh commended the engagement of an English harbor expert in an advisory capacity. After making a tour of the steamer the visitors were the guests of Warden John Long at a clamor at Bay Shore.

PARLIAMENT OF MAN

To the approaching second Peace Conference at The Hague every nation in the world has been invited to send a representative, and with a very few unimportant exceptions all will send delegates. Mr. T. Stead describes this assembly as the first Parliament of Man ever held on this planet. The whole human race will be officially represented at the conference. When the last gathering was held Japan and China cut a small figure; this time they will represent Asia in real earnest. Central and South America will be fully represented.

Since the last conference, but has cost Great Britain £200,000,000, and Russia and Japan \$200,000,000. In the last seven years the nations have been impressed with the intolerable amount of war to neutral. The world is too crowded, its business too important to be interrupted by two belligerent nations. The neutral nations suffer too much and they must impose restrictions. The proposal is, and Mr. Stead believes it will be adopted, perhaps this year, but certainly ere long, that no two nations shall be free to fight until each has renounced its arms in each naming another power, and those two powers to confer within thirty days, during which period the belligerents shall cease communication and indulge in no act of hostility. The idea is not arbitration that will be binding; it is merely to be a supplementary negotiation conducted by cool heads. Unquestionably this method if adopted, would have averted almost any war of modern times. Forty nations will be represented at the conference, and a strong consideration is this, that hereafter the war-maker will find against him the public opinion of the world. (Exchange.)

JAMES BRYCE WAS GUEST OF PREMIER

Ottawa, March 31.—Hon. James Bryce attended St. Andrew's church this forenoon and had luncheon with Sir Wilfrid Laurier. On Saturday afternoon he visited the new archives building in company with Lord Grey. Judge Halliday, the senior judge of the county, has been promoted to be senior judge of the county and E. P. Chamberlain, K. C., has been appointed junior judge of the county. These appointments were made at the Saturday meeting of the cabinet. Hon. W. Balfour and L. L. Hays, of Burlington, Vermont, are here and will visit on Sir Wilfrid Laurier tomorrow to ask him to attend the celebration, which is now being arranged for by the state of the three hundredth anniversary of the discovery of Lake Champlain.

Have You Got It?

THE LOOSE L-A-F SYSTEM

General storekeepers and dry goods merchants cannot afford to ignore the value of a simple and efficient book-keeping system. No business man should attempt to run his business without what has come to be known as the loose leaf or continuous ledger system. This system into his business should be introduced.

It will be the cheapest investment ever made when you buy a book-keeping system. It will save you money by keeping you up to date on your business. It will save you time by doing away with the old-fashioned ledger system. It will save you space by being compact and portable. It will save you trouble by being simple and easy to use. It will save you worry by being reliable and accurate. It will save you money by being durable and long-lasting. It will save you time by being quick and efficient. Mixed Hockey, With Men and Women Players, Gains in Public Favor.

Few games have made so much progress of recent years as hockey and the twin game "shinty," which is played mostly in Scotland, but is known to the youth of America as "shinny." Hockey, as an expert has said, has served a very hard novice, battling for years in the teeth of opposition and prejudice. It has gained immensely in popularity from the fact that girls play it. The enthusiasm which hockey can create was shown recently at Ottawa, Canada, where two thousand spectators stayed all night in the waiting line, with the thermometer at zero, and ultimately fought among themselves and with the police for a chance to buy tickets.

ROLLER SKATING Races Saturday Night.

The usual large crowd was present at the Queen's Rollway on Saturday evening and witnessed two good races. Ham and Campbell were to have skated the second of their series of one mile races, but Campbell failed to appear, so a half mile boys' race was substituted and proved quite interesting. Gleason won, Piers second; time, 2:15. Hunter and Piers skated a half mile and it was very close for five laps, when Piers lost his stride and before he could recover Hunter had gained thirty yards and won the race; time, 1:53.14.

CHECKERS

If there is any game that seems to be long to the rural American, that game is checkers. There is hardly a man who is country-born and bred to whom the word does not call up a picture. It is a rainy day or sudden shower in playing-time. Father and hired man, both a shirt-sleeves, are sitting on upturned

BASE BALL NEWS OF THE DIAMOND.

BOSTON, March 30.—The first baseball game of the season in this vicinity was played today at Paddock Island between Bowdoin College and Port Andrews, and making nervous races with white "china" shirt buttons. The "boys" who are bending over the board are grinning but silent. Presently father will make a sudden, quick move, and then lean back and say, "There! See what ye make o' that!" and then the "boys" will yell.

THE RING AMATEUR CHAMPIONSHIPS.

NEW YORK, Mar. 30.—The National A. U. championships were concluded tonight. The matches were witnessed by a tremendous crowd and some extremely good work was done. Summary of events: Bantam weight, 105 pounds—Robert Curry, National, A. C., lost to George Taylor, National Turn Verein.

BRONCHITIS CAN BE CURED

Dr. Wood's Norway Pine Syrup Will Do It. Bronchitis is generally the result of a cold caused by inhaled weather or exposure to wet, and is a very dangerous inflammatory affection of the bronchial tubes. The symptoms are tightness across the chest, sharp pains and difficulty in breathing, and a secretion of thick phlegm, at first white, but later of a greenish or yellow color.

STEAMER SUNK, CREW RESCUED

Sealing Steamer Greenland Went Down—Crew Left Her in Time. St. John's Nfld., March 30.—The sealing steamer Greenland, which became disabled on the sealing grounds early this week, has sunk. All the members of her crew were rescued by the steamers Newfoundland and Erik.

THE WORST SCIATICA PAINS Cured by "Nerviline"

Slight attacks are severe enough—but a bad one is torture that the human body can't stand. Rub Nerviline along the Sciatica nerve. What a glow it gives, what comfort it brings. Every twinge and ache disappears under the penetrating, pain-subduing power of Nerviline. Cure is absolutely certain because Nerviline searches through the tissues and finally applies its soothing properties in the sciatic nerve itself—in this way the source of the pain is reached and cured. About five times stronger than ordinary liniments, nothing equals a 25c. bottle of Nerviline for destroying aches and pains. Try it yourself.

Price of Copper Reduced

One influence in the break in Amalgam, Copper and other metal stocks on the market this week was a sharp fall in the price of copper metal of 5-10 cents a pound, following a sensational decline of 24 1/2c. per ton at London. This is the first setback that has taken place in the advance that has attracted so much attention in the past year.

WEDDINGS LICOMBE-FAWCETT.

SACKVILLE, March 28.—The marriage of Miss Antoinette Almira Fawcett and Rev. Wm. Bray Licombe, was solemnized at 2:30 this morning at the residence of the bride's parents, Mr. and Mrs. W. W. Fawcett, Upper Sackville. Rev. Wm. Dawson tied the nuptial knot, assisted by Rev. C. W. Hamilton, cousin of the bride. The parlors were tastefully decorated for the event, with potted plants and Easter lilies. The bride was given in marriage by her father. She was becomingly gowned in a travelling suit of blue chiffon broadcloth, and was unattended. Mrs. Geo. J. True-man, sister of the bride, played the wedding march. A dainty lunch was served, after which the happy couple left on the noon train for their future home in Thomastown, Ont.

MONTREAL HAS A SENSATION

Archbishop Bruchesi Puts the Theatre Nouveautes Under the Ban. Montreal, March 31.—A sensation was caused in Montreal today when it became known that in all the French Catholic churches an official mandate had been read from Archbishop Bruchesi formally interdicting the Theatre Nouveautes to all Catholics. The edict was not read in the English speaking Catholic churches.

THE FOLLY OF THE SOCIALISTS

The One-sided Catechism They Teach in Sunday Schools in London. LONDON, March 30.—The recent municipal campaign has brought into the foreground many interesting conditions here, but none more characteristic than the Sunday schools being widely conducted in the metropolis by the socialists. There are 16 of these, some held in public schools and others in halls, churches and workmen's clubs. The individual teacher, courses of lessons have been drawn up, and deal with many social questions, as trades unionism, the laborer's compensation—this being in rhymed form for recitation—and hospitals. The first principles are laid down in a lesson, of which the following is part: Who creates all wealth?—The worker. Who creates all poverty?—The Socialist. Who is responsible for millionaires?—The Socialist.

LETTERS TO THE EDITOR

THE DOYLE TRAGEDY

St. John, N. B., March 30. To the Editor of The Times: Sir:—In your issue of March 30, "Readers" asks for information regarding the so-called Doyle Tragedy in St. John.

that they came from one of the near United States but I forget which one. The month was October—about the middle of October I think—and the year was 1872.

An inquiry relative to the Doyle tragedy was made of Clarence Ward, mayor's clerk who remembered the affair very well. He said his wife, who was a young lady, telephoned the Times that this murder occurred at Dr. Preston's corner (Germain and Queen). The man's name was Doyle and he boarded at the old International Hotel (Pike's) corner of Prince William and Queen streets. The site of the tragedy was burned over during the fire of 1877.

ST. JOHN. St. John, March 30. Editor Times: Sir:—In tonight's Times there is a request for the correct date of a very odd occurrence which took place in St. John.

THIS EVENING

The Every Day Club meets as usual. Active members meet at 7:30. Uncle John Sprucey at the Opera House.

LATE LOCALS

The W. C. T. U. will meet tomorrow afternoon at 2:30 o'clock in their rooms, Germain street.

As a result of the failure of the street department to open the gutters promptly, the sidewalks in many places are covered with filth.

The ferry did an enormous business yesterday. Many hundreds of cottagers and their families took advantage of the pleasant weather to visit Sand Point.

Word has been received here from Capt. J. H. Pratt, that his wife is still in the Baptist hospital at Roxbury, Mass., and is not expected to recover.

Magistrate Grosse arrived from Russia, Sunday, with a number of prisoners made arrangements for the taking of the prisoners in the horse stealing case to his court.

The case against the young man charged with stealing cheese from the C. P. R. St. John west, was resumed in the police court this morning.

James Giffland, terminal agent of the C. P. R. west St. John, said that he saw the man on Thursday morning last and the prisoner told him that he did not have him arrested for stealing the cheese he would pay for it out of his salary and it would be a warning to him.

After address of counsel Mr. Taylor asked that if his honor found the prisoner guilty that he would not deal with the prisoner leniently as it was an important thing to keep employees from stealing.

"ARTHUR" KYTE GOING WEST R. A. Kyte of the C. P. R. telegraph staff, who is about to leave for Calgary, was pleasantly surprised on Saturday evening when the operators assembled in their office and presented him with a handsome dress case.

While in St. John, Mr. Kyte has been on the Associated Press wire, and has always been a general favorite.

FUNERALS

The funeral of George Watters was held this afternoon at 2 o'clock from his late residence, Westfield, Rev. Mr. Bellie officiating. Interment was made in the Westfield burial ground.

The funeral of Dr. S. B. B. will be held tomorrow afternoon at 2:30 o'clock, with service at Queen Square Methodist church.

OBITUARY

Mrs. John Ferguson The death occurred at Lorneville today of Laura May Ferguson, wife of John Ferguson. She was twenty-nine years of age.

PROBATE COURT

Accounts were passed this morning in the Foxwell estate. W. B. Wallace, executor.

WEDDED AT HIGH NOON

St. Bernard's R. C. Church, Moncton, Scene of Fashionable Wedding Today.

INFANT'S NARROW ESCAPE

IN LAST EVENING'S FIRE About 8:30 o'clock last night fire broke out in the house at the corner of St. Paul and Winter streets and was extinguished within half an hour.

Mr. and Mrs. McSweeney leave on the C. P. E. this afternoon on an extended wedding trip to Boston, New York, Washington and as far south as Florida, to be absent a month.

The groom is one of Moncton's best known young business men.

On their return they will take up their residence in Mrs. Elliott's house on Botsford street.

Mr. Emery's furniture is damaged to the extent of \$300 and about the same amount would cover the damage done to the building, which is owned by Mrs. Kane. The latter has \$1,000 insurance with the Royal.

TURNUED BACK AT THE LINE

The Eastport correspondent of the Bangor Commercial of March 30 says:—Three young men, Edward Fraser, Eddie Longworth and Frederick Murray, who came from St. John on the steamer Calvin Austin last Wednesday, were deported by the immigration inspectors on Saturday.

The young men concealed themselves on the steamer as she was leaving St. John for Eastport and as soon as they were detected they were placed under arrest by Captain Pike, who turned them over to the immigration inspectors when the Austin returned here.

The boys were taken to the police station where they were allowed the freedom of the guard room during their stay in the city. They were bright looking fellows, apparently not over 20 years of age, and they were somewhat disappointed at not being permitted to remain in this country.

Miss Tillie Foley left for Moncton this morning, after spending the Easter vacation with her mother Mrs. T. B. Foley, Queen street.
