SIXTEEN PAGES—ONE CENT

Resistance To New Bulgarian Government Is Stronger

RAILROAD CUT AT SEVERAL POINTS AND SITUATION SERIOUS

Cabinet Orders Mobilization of Reserves and Young Classes—Revolts of Peasants in Some Quarters—New Government Ready to Carry Out Versailles Treaty and Opposed to War.

(Canadian Press Cable.)
Belgrade, June 12.—King Alexander is interrupting his visit to Roumania... The Agrarians are organizing in the north, notably at Plevna and Vratsa. The railroad has been cut at several points and the situation considered serious here, as the Jugo-Slav Cabinet is determined that the treaty of Neuilly must be strictly observed.

YANKS THREATENED BY THE ATHLETES

Only Four Games Separate Them for the League Leadership

(By Canadian Press.)
New York, June 12.—A cold chill is running up and down the spines of followers of the New York Yankees. The Yanks returned home in glory less than two weeks ago with a record of 17 games won and 8 lost on the road.

N. Y. Team Loses 7 of Last 10 Games—Huggins Signs Three College Men—Cubs on Winning Streak—Yesterday's Games.

(By Canadian Press.)
New York, June 12.—A cold chill is running up and down the spines of followers of the New York Yankees. The Yanks returned home in glory less than two weeks ago with a record of 17 games won and 8 lost on the road.

ATTEMPTED STRIKE IN THE ASBESTOS FIELDS FAILED

FEAR FOR SAFETY OF SIR H. SAMUELS

(By McDougall & Cowan's Private Wire.)
Montreal, June 12.—A despatch from Sherbrooke says that an attempt to precipitate a general strike in the asbestos fields has failed, and a principle of interest to the camp is now being fought.

A STATE FUNERAL FOR PIERRE LOTI

Paris, June 12.—Pierre Loti, famous French novelist, who died at Hendaye, on Sunday, will be given a state funeral at the expense of the Government, which will be represented at the ceremony by Leon Berard, Minister of Public Instruction.

REBEL FOR THREE YEARS; CAPTURED

Mexico City, June 12.—General Carlos Green, former governor of the state of Tabasco, and for three years an active rebel, surrendered yesterday at Villa Hermosa to the chief of military operations in Tabasco. A war department announcement says that the rebel has now been completely pacified.

GIRL'S GOOD WORK SAVES NEW JERSEY VILLAGE FROM DESTRUCTION

(By Canadian Press.)
Atlantic City, N. J., June 12.—Miss Julia Cramer, in charge of a lookout station near Batsto, N. J., probably saved that village from destruction yesterday by a forest fire that swept thirty square miles of valuable timber land.

ONE OF THOSE SLOW MOTION PICTURES!

Germany still refuses to make any definite statement on the amount of reparation she will pay.—From the Los Angeles Times.

No Mounted Police For Duty In the N. B. Fire Districts

6 NEW BRANCHES IN THE PROVINCE

(Special to The Times.)
Fredericton, N. B., June 12.—Col. T. G. Loggie, Deputy Minister of Lands and Mines has received information through the Minister of Lands and Mines, Hon. C. W. Robinson, that the Federal authorities have replied to the effect that a detail of Royal Canadian Mounted Police cannot be sent to New Brunswick for duty in the fire districts, as the crops in all now on duty from which no men can be taken.

Blaze at Kedgewick Said to be of Incendiary Origin—Redbank Fire Spreads to Woods—Cinders Fall in Plaster Rock.

(Special to The Times.)
Fredericton, N. B., June 12.—Col. T. G. Loggie, Deputy Minister of Lands and Mines has received information through the Minister of Lands and Mines, Hon. C. W. Robinson, that the Federal authorities have replied to the effect that a detail of Royal Canadian Mounted Police cannot be sent to New Brunswick for duty in the fire districts, as the crops in all now on duty from which no men can be taken.

ESORT OF BRITISH HIGH COMMISSIONER TO PALESTINE AMBUSHED—TWO KILLED.

(Canadian Press Cable.)
London, June 12.—A despatch to the Times from Jerusalem says ten British commandos, returning after having escorted the High Commissioner, Sir Herbert Samuel, to the northernmost Jewish colony, Metuliah, were ambushed by brigands. Two of the commandos were killed, two wounded and one was captured.

IMPORTANCE OF THE TELEPHONE

Hamilton, Ont., June 12.—Speaking convention here, Premier Armstrong of Nova Scotia said he regarded the linking up of all sections of the Dominion by telephone routes as a feature of vast importance. In his opinion nothing would more effectively control the Dominion than a fifteen-acre territory. This fire had broken out at Curtis Settlement, near Newmarket, which had been controlled by a fifteen-acre territory. This fire had broken out at Curtis Settlement, near Newmarket, which had been controlled by a fifteen-acre territory.

Huge Airplanes Used in the Belief of MacMillan on the Eve of New Expedition Far North.

(Canadian Press Cable.)
Taochwang, June 12.—Eight captives, the last of the foreigners kidnapped by the Shanghai-Peking express near Suchow, May 6, and held at the Paotun Mountain headquarters of the outlaws since that time, were released today.

Wife of Star St. Louis Second Baseman Charges General Indignities Inflicted—Separated Nearly Six Months.

St. Louis, June 12.—Mrs. Sarah E. Hornsby, wife of Rogers Hornsby, second baseman for the St. Louis Nationals, yesterday filed suit for divorce charging general indignities. The ball player entered a general denial of the charges.

Edmonton Police Are Exonerated

Edmonton, June 12.—Judgment handed down by Justice Walsh to the City Council last night in connection with the police investigation finished last week completely vindicated the city police of all the charges laid against them by the organized miners as a result of a strike disturbance at the Penn Mine on the afternoon of January 4 last.

Cleared of Charges Laid Against Them by Miners as Result of Strike Disturbances.

Edmonton, June 12.—Judgment handed down by Justice Walsh to the City Council last night in connection with the police investigation finished last week completely vindicated the city police of all the charges laid against them by the organized miners as a result of a strike disturbance at the Penn Mine on the afternoon of January 4 last.

P. E. I. ELECTIONS.

Charlottetown, P. E. I., June 12.—Prince Edward Island provincial elections will be held July 26th according to an announcement made last night after a meeting of the Government.

Completion of Church Union Will Take Several Years But Some Effect Almost at Once

PASSING OF MANY CHURCHES NOT EXPECTED TO RESULT

Decision of Presbyterians Followed Long and Determined Struggle—Some Congregations Will Not go Into Union and Are Expected to Retain the Name "Presbyterians."

(By Canadian Press.)
Toronto, June 12.—The action of the General Assembly of the Presbyterian Church in Canada, which yesterday voted 426 to 129 in favor of church union, will unite the Methodist, Presbyterian and Congregational churches into the United Church of Canada after twenty years of negotiation on the matter. Numerically the Methodist and Presbyterian denominations are two of the three strongest Protestant churches of the Dominion, the other being the Anglican or Episcopal church.

SWITZERLAND TO MAKE NO REPLY

(Canadian Press Cable.)
Berne, June 12.—The Swiss Government made public a note from Soviet Russia, dated June 8, charging Switzerland with "moral complicity" in the recent assassination at Lausanne of the Soviet envoy Vorovsky. Publication of the note was sanctioned, according to the Swiss Government, in order to inform the citizens of Switzerland and the people of the world of the Russian attitude, but any reply, it holds, would be incompatible with Swiss dignity.

JUMPS TO DEATH FROM STEAMER

(By Canadian Press.)
New York, June 12.—Herbert Taylor, head of the fashionable millinery and dress establishment of Louise and Company, leaped to death from the S. S. Adriatic off Nantuxet Island Saturday night, the White Star Line announced today.

Premier Returns to the Capital

(Special to The Times.)
Fredericton, June 12.—Hon. H. J. Veniot, Premier of New Brunswick and Minister of Public Works, arrived here last night and is now devoting himself to departmental business preparatory to the meeting of the Government on Wednesday. This morning he awarded the contract for the new steel superstructure which is to replace that of the Medunkeag bridge at Woodstock, which was carried out by the flood early last month. The Dominion Bridge Company of Montreal is awarded the contract at a price in the vicinity of \$28,000. Work will start at once.

JUNE BRIDES

McKee-Boyer.
In St. James' church this evening at 6.45 o'clock Miss Ethel Beatrice Boyce, daughter of the late Connolly and Emma Boyce, will become the bride of C. Allan McKee, son of Mr. and Mrs. Charles McKee of Rothsay. The ceremony will be performed by Rev. H. A. Cady, in the presence of friends and relatives. The bride, who will be given away by her brother-in-law, H. E. Collins, will wear a suit of navy blue tulle with large gray hat, gray shoes and stockings and gray squirrel scarf, the gift of her groom. She will carry a large bouquet of Opheelia roses. The bridesmaids, Frances Murray will act as bridesmaid, while William Collins and Leonard Maxwell will be the ushers. The wedding march will be rendered by the church organist, and the full St. James' choir will be in attendance. The church has been prettily decorated with cut flowers, lilacs and apple blossoms. During the ceremony H. E. Collins will give away the bride. Following the wedding ceremony, Mr. and Mrs. McKee will leave for Boston, where they will spend their honeymoon. On their return they will reside at 150 1/2 Lennox street. The bride has been a member of the office staff of Baird & Peters, from which firm she received a set of carved ivory, silverware, etc., a chest of silver, the groom, who is employed with W. F. Hatheway & Co., was kindly remembered with the gift of a chest of silver, silverware, etc., and a mahogany chair from the office staff. Other gifts included checks from the groom's father and bride's brother, as well as cut glass, silverware, etc. The gifts to the ushers were gold pencils, and to the witnesses gold pencils and fountain pens.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, JUNE 12, 1923

Will Jessica Wed Her Schoolboy Earl? Not In N. Y., She Won't

JESSICA BROWN AND THE YOUNG EARL OF NORTH-ESK, HER FIANCEE.

New York, June 11—Has the blithe young Earl of Northesk given up his membership in the Coldstream Guards and come all the way to America for naught?
Reports of a temperamental tiff indulged in by the 21-year-old Earl and the slightly older Miss Jessica Brown, formerly of the Ziegfeld Follies, following their trip to the municipal building here last Tuesday in search of a marriage license.
City Clerk Cruise refused it because Miss Brown's divorce from her first husband, granted in Chicago, was secured by public notice of suit, and no papers were served on the defendant.
In New York State, when the last place of residence has been New York and the divorce is secured in this manner, the courts regard it as collusion,

lose most of their content of vitamin C. Therefore the feeding of infants exclusively on pasteurized milk, or of young child on pasteurized milk and cooked foods almost exclusively is fraught with danger. In that year when a city's milk supply was first pasteurized, there was a notable increase in the number of cases of scurvy, and that higher rate has continued. In other words, a baby which is fed pasteurized milk alone is in danger of developing scurvy. But these same studies on diet showed an easy way to protect infants against this health hazard, while continuing to pasteurize the milk, and protecting thereby the adult population through the reduction of epidemics. The simple expedient of giving a baby daily a few teaspoonfuls of fresh orange juice will afford it absolute protection from scurvy. In other words, by adding fresh orange juice to the diet we put back into it the one property which has been lost by heating the milk. This is so simple and so satisfactory a means of making complete the infant's diet, that there is no longer any room for objecting to pasteurized milk.

Prevents Scurvy.
Pasteurization of milk must be carried out in just the right manner, and the milk must be properly handled, otherwise it is without value and may be even dangerous to health. Pasteurization does not kill the bacteria in milk, but it does kill certain kinds. The kinds which are killed are those which cause the souring of milk and those which produce the diseases already mentioned.

Normal raw milk sours quickly, because it contains a great many acid-forming bacteria. All of these are not killed in pasteurization. The acid-forming organisms are killed and no acid develops, these bacteria, which produce unwholesome changes in the milk, of a type called putrefaction, have an excellent opportunity to flower-out in great numbers. These bacteria are certain to make pasteurized milk unwholesome unless it is delivered in a fresh and well-kept condition, and it kept cold until used.

Experience shows that one cannot depend on farmers to produce their milk under clean conditions unless some pressure is put upon them to be careful. Nor can one rely upon the distributors of milk to handle their product in a satisfactory manner unless they are under some supervision from authorities. It is of great importance that our most valuable protective food shall be produced under sanitary conditions, from healthy cows, and cooled immediately to the lowest temperature available on the farm. It should be transported to the city as quickly as possible, keeping it cold while pasteurized promptly, cooled, bottled in clean bottles and delivered at the earliest moment that is satisfactory for both distributor and consumer.

Cleanliness Important.
Great emphasis is placed on the importance of cleanliness of vessels and effective and prompt refrigeration. The preservative action of cold is very great. Stale pasteurized milk may be unsatisfactory to the taste of the consumer, but even when taste will not detect unwholesomeness, milk may be unfit for consumption because, owing to improper methods of handling, it has developed a profuse growth of putrefying bacteria.

It is a matter well worth the efforts of all public-spirited persons to see that they have a good milk supply, not only for their own homes but for the community. Insist upon pasteurization and an efficient system of farm inspection. There should be supervision of the pasteurization plants, constant testing of market milk for its bacterial content and for its content in those kinds of bacteria which are liable to be harmful. This is the function of the city and state health departments. Learn what is being done with the milk in your city, and give your support to the health officials who are trying to protect you and your children from the dangers of a bad milk supply. This is necessary because it is an easy thing for the farmer and for the city deliverer to employ careless methods. Care and cleanliness cost a little effort and a little extra money, but both are good investments from the standpoint of health.

By all means use pasteurized milk, unless you have plenty of money and can afford to buy certified milk. The latter is raw milk which has been produced under nearly ideal conditions of cleanliness, from healthy cows, by healthy workmen, and with great attention paid to cooling and promptness of delivery, but it is now too expensive to appeal to the majority of consumers.

Little feet give hardest wear
RUNNING, jumping, climbing, romping, climbing need tough, wear-resisting Fleet Foot shoes for summer.
Tender, growing feet need the light, flexible, easy-fitting foot comfort of Fleet Foot.

THE QUEEN SMILES AND THEY ALL SMILE
A pleasing snapshot of the Queen taken at the Queen Mary's Home for Children, at Aldershot. The child held by the nurse was very shy and hid her head when spoken to by her Majesty.

ness cost a little effort and a little extra money, but both are good investments from the standpoint of health. In Oklahoma City, an ordinance recently passed put the charge for a city license at 50 cents and is expected to yield \$18,000 to the city.
Tax legislation in Kentucky, passed in 1922, which became effective this year, is expected to net \$800,000 to the state.
In Ohio 87 bills directly affecting automobile owners were introduced in the Legislature, but the only one that was passed increased the tax on trucks.
Only one state showed a decrease. This was in Minnesota, where the method of taxing was changed. It was estimated that while the average car tax for last year was \$17, the average for this year will be \$16.44. However, the Legislature passed a bill to submit a constitutional amendment to the voters at the next regular election authorizing the Legislature to fix a tax on gasoline.
In both Michigan and Iowa a tax of 2 cents a gallon on gasoline was passed by the Legislature, but was vetoed by the Governors.
In Iowa a law was passed placing motor bus and truck transportation lines under the supervision of the state railroad commission, while a ton-mile tax was imposed on these lines to draw from them a contribution to the state highway maintenance fund. A law was also passed requiring that automobile registration fees be based upon current list prices.

AUTOISTS HAVE MILLIONS ADDED TO THEIR TAXES
In Central States \$10,500,000 Will be Exactod from the Owners of Autos—Other Measures are Passed.
New York, June 12.—Millions of dollars will be forthcoming from the pockets of motorists in a number of Middle Western states during the coming year as the result of laws passed by legislature of the winter and spring, report The Associated Press from Chicago.
Texas appears to have passed the most radical increase. It is estimated that \$10,000,000 additional will come from the pockets of motorists and wholesalers of gasoline. Two taxing measures dealing with automobiles were passed in Texas. One places a 1 cent tax on each gallon of gasoline sold by wholesale dealers, while the other revises the present system of motor license fees and increases them approximately 100 per cent. It is estimated that the gasoline tax will net the state \$2,500,000 and the license fee increase will bring \$8,000,000.
Indiana now has a law imposing a tax of 2 cents a gallon on gasoline estimated to yield \$3,000,000 yearly. This will be devoted to good road purposes. In addition the Legislators passed a law effective next January 1, increasing the license tax on automobiles.
In Oklahoma a tax of 1 cent a gal-

THE RELATION OF BRAINS TO FOOD.
A great artist, when asked what he mixed his colors with, replied "Brains." Brains mix as well with foods, yet they are entirely unemployed in the feeding problems of civilized races. If we used brains in this connection, we would know that refining out of our most important foodstuffs, the grains, the alkali upon which the blood depends to keep it non-acid, must have serious consequences to the race. Uncivilized races have no cancer, goitre, tuberculosis, heart, kidney, liver or other disease of civilized races, until they adopt civilization's foods. Having lived upon alkaline whole grains, milk, nuts, beans, eggs, vegetables, fruits, when they take to white flour, refined cereals, white sugar, etc., all acid-formers, they become as subject to diseases as civilized races are. Knowing this, if we mixed brains with our food habits, we would reduce to a minimum the use of acid white flour, refined cereals, sweets, meats, etc., and live more largely upon alkaline whole grains, milk, nuts, greens, fruits, etc. Denmark did so during the war and reduced the death rate thirty-four per cent. in one year. So might we.
Roman Meal is the only alkaline cereal, alkaline enough to correct the acids of flour, other cereals, meats and sweets. Even hot Roman Meal porridge or baked products alkalize or "cool" the blood, but icy-cold BROSE-O, CHOCOLO-O, JELL-E are hot-day delights, prepared in ten minutes and served with milk, cream, whipped cream, honey, preserved or fresh fruits. At grocers.

CIVIL CONFLICT IN CHINA CAUSES RAILWAY GASH CUT
Peking, May 9.—(By Associated Press, by Mail)—China has her civil war to thank for a net decrease of \$881,446 (Chinese currency) in operating revenue from her Government railways during the year ended in November, 1922.

When Milk Is Pasteurized
It Safeguards Us Against Many Diseases—but Insist that It Is Delivered Fresh and Well Cooled

(By Dr. E. V. McCollum and Nina Simmonds, School of Hygiene and Public Health, Johns Hopkins University, in July McCall's.)

Every homemaker is familiar with the word "pasteurized" on the milk bottles which are delivered daily at her door. At least this is the case if she lives in a city which is thoroughly progressive.

But how many persons know what the word means?
It was Louis Pasteur, a French bacteriologist who discovered that the germs causing certain diseases such as typhoid fever, scarlet fever, tuberculosis, and epidemic sore throat, are killed by being heated to 145 degrees Fahrenheit for thirty minutes. Since health officials had traced epidemics of all these diseases, except tuberculosis, around milk routes where investigation showed that someone who was ill with the disease handled and contaminated the milk, it became known that these diseases, including tuberculosis, could be transmitted through infected milk. Tuberculosis does not occur in epidemic form, for its progress is slow and often unnoticed for a long time.

Health officials at once began to insist that city milk supplies should be given the treatment recommended by Pasteur. The results were so remarkable that now bacteriologists and physicians have entire confidence in the protection to health afforded by pasteurizing milk.

Recently many persons have asked: How about the destruction of the vitamins in milk during pasteurization? They have heard that some, at least, of the vitamins are destroyed by heating. It is better to run the risk of having typhoid fever, and be certain that our milk contains vitamins in abundance, or the reverse? Fortunately we are able to make a definite answer to these questions.

Only one of the four known vitamins which are essential in the human diet, the vitamin C, is destroyed or partly destroyed by heating. At the time pasteurization of milk was first recommended, and indeed until a few years ago, this vitamin was not known to exist. What was the result during all the years since about 1885 when the practice of pasteurization of city milk supplies was constantly growing?

Pasteurization of milk did do away with epidemics of milk-borne diseases. But during the last five years researches on nutrition have brought to light the fact that foods, when heated,

STRONG FILMPLAY
NOW AT IMPERIAL

Marie Prevost Delighted the Spectators in "The Beautiful and Damned," Featured With Humor, Tense Drama and Strong Situations.

Marie Prevost's latest picture, "The Beautiful and Damned," played before delighted audiences yesterday at the Imperial Theatre, and will be repeated this afternoon and tonight.

As Gloria Gilbert, the flapper who gags herself into the hearts of a dozen men, Miss Prevost is excellent. The former bathing beauty's delicious sense of humor is in evidence throughout the situations of this rollicking picture of glided youth, riches and ruin.

All who came in expectation of something out-of-the-way were not disappointed, for this is a screen adaptation of F. Scott Fitzgerald's best seller of the same name which intrigued thousands of readers, and which, as a picture, is crammed with humor, tense drama, and strong situations—a sparkling fast-moving story that has lost not one whit of its brilliance in the screen version.

As Anthony Patch, the boy husband, Kenneth Harlan was admirable in the lead opposite Marie Prevost. Take a handful of fascinating flappers, a crochety aged millionaire, bent on reforming the world, a young weak-willed but lovable spendthrift, a musical comedy soubrette, a successful film magnate—mix well with the best that New York can offer in caricatures, jazz music and pillandering and you have the ingredients that go to make "The Beautiful and Damned" both a surprising and entertaining picture that you will have to go far to beat.

Briefly, the story deals with Gloria Gilbert, the loveliest flapper in New York—a 1922 model. Men woo her and fall; at last she surrenders to young Anthony Patch, whose mission in life seems to be to wait until his wealthy philanthropic father dies and leaves him his millions.

Perhaps as interesting as the feature itself is the Keith house in a corner of the Grand National and Hendicap Steeplechase in England, replete with the wildest thrills as the scores of blooded racers jump the barriers, fall in the ditches, throw their riders in confusion and cause general havoc.

TO SPEAK IN ANDOVER.
The provincial secretary of the Red Cross Society, Miss Ethel H. Jan, left this morning for Andover, where she will give an address this evening at a meeting arranged by the Andover Red Cross Society. Miss Jarvis will speak of the work of the society in the province and will show a fine series of slides. The series of slides has been augmented and brought up to date since Miss Jarvis gave the address last. The new slides include pictures of the present which were produced in several centres in the province and also includes a map of the province showing in how many centres the society has maintained a public health nurse. Andover has a flourishing Red Cross Society of which Miss Janet Currie is the president and Mrs. A. H. Baird the secretary.

C. W. L. CONVENTION.
The annual convention of the National organization of the Catholic Women's League will open in Halifax, on Thursday of this week and will continue in session until next Tuesday. The convention will be attended by many of the leading women of the dominion and it is expected that all parts of Canada will be represented. Among those from St. John who will be present are Mrs. John E. Owens, who is national vice-president; Miss M. H. McCloskey, diocesan delegate; Miss K. Kane, delegate from St. John subdivision, and Mrs. John G. Burke, delegate from St. John (North) subdivision. Many of the St. John members expect to attend the sessions.

CARROLL PLAYERS' FAREWELL SHOW

"The Brat," a Delightful Comedy, with Miss Foster at Her Best, at the Opera House—Actors Say "Good bye."

It was a happy thought that suggested "The Brat" to F. James Carroll as the vehicle with which his players would close a successful season here and those who saw the performance last night in the Opera House of this delightful comedy by Maude Fulton came away pleased, satisfied and thoroughly delighted though extremely regretful that this company of talented players is about to say farewell—for the present, at least. However, they have announced their intention of returning in the fall and they will doubtless be able to leave with the assurance of a hearty welcome on their return.

"The Brat" is the type of play in which every member of the cast shows up to the best possible advantage. It is comedy but not farce, there being a liberal under-current of drama and pathos, sufficient for the weaving of a well defined fabric of story and heart interest. The lines are bright and catchy, the situations delightful and—all in all—there is a satisfying something which elevates it above the level of a special food or cracker.

Miss Lillian Foster in the title role was at her best. This dainty little lady has shown her adaptability to almost any type of leading character, but it is safe to say that in no performance has she given such a delightful and original character as she did in "The Brat." As a child of the street, dropped suddenly into the lap of luxury, she kept her audience in roars of laughter with her brilliant and original characterization. The quaint philosophy, the bubbling-over of the spirit of youth, and withal the true essence of human feeling and emotion which featured her part, she developed to the utmost and it was almost with regret that the audience saw the curtain descend on the last act.

Opposite her was Leslie Adams as MacMillan Forrester, an author who temporarily adopted "the brat" as an inspiration for one of his characters and relinquished interest in her when his book was finished. His was an exacting role but he presented it well.

To Bob Lynn, as Steve, the young man who carried the power that acts directly on the blood. As everyone knows, yeast has proved itself to be of untold value in strengthening the life-building process. But something was needed to build up thin, pale, weak blood and thus make yeast positive and to establish far reaching effects in the work of physical reconstruction of the vital functions of the body.

Scientists now agree that brewer's yeast is the richest source of vitamins known. So, thousands of pale, sick and underweight people are gaining health and strength through Ironized Yeast, which is a combination of iron and other valuable tonic ingredients with yeast imported from Bass' Ale Brewery, England, and especially concentrated under the process recommended by Dr. A. Seidel, of the Hygienic Laboratory of the U. S. Public Health Service.

Get Ironized Yeast from your drug-gist today. It is convenient and pleasant to take, being in handy tablet form. The ten day treatment costs but a few cents and gives you a most satisfactory result or your money will be cheerfully refunded.

TITLES OF NOBILITY AROUSE WRATH OF CANADIAN FARMER
Moose Jaw, Sask., June 8.—(By Associated Press by mail)—Charged with making a scurrilous speech at a meeting of grain growers last January, Fred McIntyre, a farmer, was fined \$100 by the School district, south of Caron, Sask., recently was committed for trial here. He was released on bail.

McIntyre is alleged to have made the scurrilous remarks during a discussion on titles, and is charged with having said: "I count myself as good a man as King George. I would not be scared to challenge him to a foot race, to wrestle or to fight, although he is fed up in a box stall on choice food. If I had my way, I would take a club and stand at the border and knock the brains out of everyone that came into the country with a title. I would make no mistake about it, as I know where to hit them."

Lowly Carp Is Idol Of Japanese Boys On Fish Fete Day

Being Only Species of Finny Tribe Able to Breathe Swift Streams of Islands, It is an Emblem of Strength.

London, May 16.—(By mail)—The boys of Japan have just celebrated the Feast of Flying Fish, or, to give it its Nippon name, Tango No Sekta, writes F. C. L. in The London Daily Express.

Thousands of brightly colored fish, made of paper or cotton, fly from a multitude of poles and gayly whisk their tails in the breeze.

The number of fish on one pole usually indicates the number of males in the family, and it is the custom to present a fish to the head of the family to which a male child has been born since the last festival.

The emblem of the fish is taken from the carp, which is the only fish capable of swimming against the swift-flowing mountain streams of Japan, and, therefore, symbolical of great strength and a lesson to the growing boys that they are expected to make headway against the greatest difficulties of life without one sign of fear.

A Japanese Boy Day, as the feast is known to the white races, is set aside to the honor of the first born of the families, and it is united "birthday" to all Japanese boys.

The feast is informal. The boys of one family will visit those of another and together they will fight exciting battles, armed with the long shobo leaves, or, in towns, modernized with the contact with white faces, they will play baseball or cricket.

A special food is served. One of these is the Kashwa mocha—rice cake wrapped in oak leaves, the sign is the Chinnaki, which is made of red rice and beans wrapped in lily leaves.

mit keeping pace with the exchange; at the transfer point he can sell "short" if necessary, or buy at a liberal margin, without the necessity of awaiting his train's arrival down town.

The first of these new establishments to put in an appearance is at the metropolitan sub-district of Schoenberg, where trains from the fashionable West end meet those from the traders' residential district in southwest Berlin. The authorities have granted an exchange dealer a 10-year lease on a part of the station. The basic annual rent will be 750,000 marks (about \$20 when the contract was made), changeable in accordance with changes in the buying power of the mark.

ADVENTURERS REACH SOUTH SEAS
Pago Pago, American Samoa, May 10.—(By The Associated Press by mail)—The American barkentine Narwhal, manned by a company of "gentleman adventurers" seeking stirring life and motion picture films in the South Seas, recently arrived at Apia, British Samoa. The party will proceed to New Caledonia, the Ellice Islands, the New Hebrides, the Solomon Islands, New Guinea and Guam.

The Evening Times and Star

ST. JOHN, N. B., JUNE 12, 1923.

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

HALIFAX AND THE C. N. R.

Traffic Vice President Dalrymple of the C. N. R. visited Halifax as well as St. John. As a result we read these head-lines in the Halifax Chronicle: "Differential Rate To Be Removed," "Cattle To Be Shipped Through This Port," "Elevator Recommended and Big Increase in Business Predicted."

The Chronicle further announces that a better passenger service is to be provided between Halifax and Sydney. We are especially interested in the reference to cattle shipments, Mr. Dalrymple, according to the Chronicle, said Halifax had been recommended as "the port" of cattle shipment, and it would be necessary to provide special facilities for cattle in transit; and before leaving Montreal he had arranged for conferences between officials and live-stock people on this question.

Does this mean that in this question only one C. N. R. port for winter shipment of cattle, and that the perfectly obvious tidal advantages of St. John are to be entirely overlooked? The citizens of St. John have no desire to belittle the advantages of Halifax as a port, but they will regard it as an extraordinary proceeding if the advantages of this terminus as a cattle shipping port are entirely overlooked and all the cattle taken over the longer rail haul to Halifax. Have there been, or are there to be any conferences between C. N. R. officials and live-stock men relative to St. John? We may, however, in all brevity congratulate the C. N. R. on its brighter outlook as a national port, and express the hope that the C. N. R. will give a fuller recognition to the claims of both the great national ports in the Maritime Provinces.

A careful reading of what is reported concerning Mr. Dalrymple's utterances in St. John does not reveal such definiteness of promise concerning our various needs as is reported in the Halifax Chronicle. He urges upon this city the importance of the operation. It is not that the thing we have been urging upon the C. N. R. for a long time? Mr. Dalrymple has undoubtedly made a favorable impression, however, and his suggestion that when it is believed matters are not running smoothly we should at once take the matter up with the railway authorities is a hint the Board of Trade and City Council should not be slow to accept. Politely and reasonably, but with insistent firmness, our case must be so kept before those authorities that it can never be overlooked. There is right now, for example, the question of C. N. R. cattle shipments from Maritime ports. Not long ago the Halifax Chronicle agreed that for heavy traffic St. John had the advantage over Halifax. It should at least be on equal terms.

lessness. In some cases the burning of slash by farmers resulted in a terrible spread of the flames. In some the careless match was responsible. Sparks from locomotives may have started some. The very destructive fire at Redbank is said to have been started in some way in a house, and spread to the woods, with the result that forty-three buildings were destroyed and many families left homeless. From other parts of the province comes news of houses burned in the path of the devouring flames. It becomes increasingly clear that far greater precautions against fire must be taken in the latter part of May and in June. The provincial and municipal authorities should co-operate and have a greatly increased staff of forest rangers and rangers in the settlements. What would the expense signify when compared with the loss sustained in any year through fires that could be prevented? The present year has already witnessed very heavy fire loss, not only in the woods but in settled districts. The lesson is so plain that it is not easy to understand why there should be so much carelessness. Apparently from today's reports, much more damage will result from fires now raging. Because there is so much woodland in New Brunswick too many people disregard its value, and foolishly assume that the destruction of a portion of it means nothing. The campaign of prevention and education must be enlarged and made continuous.

Halifax Chronicle: "The facts regarding the Hebrides movement to Canada are that it was organized by Father Andrew Macdonell, and that both parties, numbering about 400, were brought to Canada through the efforts of Father Macdonell and Father Donald MacIntyre, a native of Ulster who is settled in Alberta. The arrangements were made by these gentlemen, who were eager to give their kinsmen the better opportunities which a new life in Canada afforded them. So, as a matter of fact, Nova Scotia had no chance of getting any of the newcomers from the Hebrides, at this time, even if she had the land and the opportunities which they sought to offer. The arrangements for their location in Ontario and Alberta were made before they left their island homes, by the two clergymen who originated and organized the movement."

SIR WILLIAM MEREDITH

Chancellor of the University of Toronto, who presided over convocation on Friday, June 8, when 1,145 students received their degrees. This is a new record.

Lighting the Film Stars. Whoever it "features" and whatever the plot, a cinema film is a failure unless it is photographically good. Each of the 16 views which are projected on the screen in one second—there to merge into an apparently continuous moving picture—is the result of an "instantaneous" exposure in the camera. The actors must be illuminated brilliantly by light of suitable photographic quality and, though daylight is sometimes sufficient, no cinema studio is complete without artificial illuminants. An excellent idea of the requirements to be met is provided by a new British projector which is virtually a high-power search-light made portable and adjustable in every respect. An electric arc is mounted inside a casing, which can be swivelled or tilted at any angle. The lamp can be raised or lowered on its tripod, or fixed to the platform of a ladder or tower. Either concentrated or diffused light can be provided at a moment's notice, and the volume and intensity of light are under instantaneous control. Automatic gear keeps the lamp itself burning steadily under all conditions.

According to some authorities the surface of the human-body is about 16 square feet.

WE'RE HERE, KID, WE'RE HERE.

(Exchange). Solomon was wealthy—very—What a pace he led! Ladies helped him to make merry. So I've oft heard said; Solomon dropped pretty feath, Good things rolled his way; With his shekels he could buy Anything that pleased his eye; Wise he was—and gay; Problems such as bother me, Never brought him dread, But for many seasons he, Has been very dead.

Cesar must have found things thrilling If the dope is right; When he sawed his killing Rome howled, day and night; Warrior, statesman, ruler, priest, What he liked he took; If he fought or got his Men, the greatest and the least, Quailed before his look; Cesar, as the world well knows, Was no crawling worm; But he's long been dust with those Who put out his light.

Byron picked out sudden glory; While his years were few Fame fell on him, if the story 'T that we get is true; Women sprang round his feet, To possess a little, sweet Lock of his dark hair; Byron had a lively time, Ravished by all men; But it's long since any rhyme Dribbled from his pen. Byron, Cesar, Solomon, Each partook of going-on; That were full of thrills, but I've Got in on that bunch; I'm not Being petted a whole lot, But I'm still alive. P. B. M.

IN LIGHTER VEIN.

A Case of Jealousy. "So Jobson's pretty stenographer has left him. What was the trouble?" "She caught him kissing his wife."

No Kick to It. "Would-be Contributor—But perhaps you could use my article if I bolted it down."

Observe the Feet Feature. Ohio papers—On Saturday evening the community will have a backward social at the schoolhouse. Everybody who comes is supposed to have something indicating backward dress, act or in some way. The small charge for supper will be based on the size of the feet. All come and have a good time.

Boying Sore to Follow. "Now, dear, said Beattie's mother, 'I am going out to do some window shopping. I want to study the styles in dresses.'"

Again the Infant Terrible. The young minister was a frequent visitor, and he seemed to be sweet on the eldest daughter, Grace. One day when he was a guest at dinner the little girl of the family began to chatter at the table when her mother said: "Hush, Amy, Mr. Pinkie is going to ask Grace."

Watch Out. Be sure your aim in life is high. And of a goodly pitch; But, looking upward, see that you Don't fall into a ditch.

RADIO GUEST

Practical Pointers Concerning Wireless in All Its Branches.

Quality Brings Results. In buying sockets, rheostats, grid condensers and telephones by the best that can be afforded if the best possible results are looked for.

Cause of "Squealing." Most of the squealing heard in the set is due to over-regeneration. If a tube is oscillating, it is impossible to get intelligible signals over radiophone.

Concerning the "B" Battery. A "B" battery to be efficient should be tapped. If an operator is using a potentiometer to regulate the current, a switch should be connected in series with it, and should be opened when the set is not in use.

Be Right With Fire Insurance. After a radio set is installed it is best to call or write the insurance company which holds the fire insurance policy on the house, and tell them about the equipment. They will arrange for an inspection by the board, the usual fee for which is \$1.

Proper Placement of Wires. Because every wire carrying an electric current has a magnetic field, all wires in the receiving circuit should be short and turns made at right angles. If two wires are run near to each other, they will absorb current, but if placed at right angles they oppose each other and there is no transfer of energy from one to the other.

BROOKINGS TO BE CREDITED WITH NEW HURDLES RECORD.

Chicago, June 12—Charles Brookings of Iowa, who has twice broken the world's record for the 220-yard low hurdles this spring, is not yet credited officially with either record, and it is probable that only the slower of the two performances will be accepted.

The faster time was in a dual meet with Northwestern at Iowa City, May 12, 28 seconds flat. The Iowa officials did not put in a claim for a record on this event because Brookings appeared to beat the gun a trifle and had a wind at his back.

The slower time, 28.15 seconds, was made at Ann Arbor June 2, at the Big Ten conference meet, while all conditions, so far as are now known, were acceptable for recording new records.

Among the timers and officials at the meet were thirty-five Amateur Athletic Union officials.

At a meeting last evening of the St. John Mill Dealers' Association with J. N. Riley in the chair, it was announced that more than 8,000 signatures had been obtained to the petition to make optional the use of pasteurized milk.

By Saturday it is expected to have 10,000 names.

GREAT PROGRESS MADE BY Y.W.C.A. IN MONCTON.

(Moncton Transcript). Citizens of Moncton are again to be asked to show their appreciation of the Y. W. C. A. by contributing to the organization in 1923, the Association has paid \$10,000.00 on the building and over \$3,000.00 on furnishings and equipment. In addition to this the Travelers' Aid worker has been maintained at the station at an expense to the Association of over \$2,000.00. Other activities of the Association have been gymnasium classes, and a series of classes in dressmaking at the home, which proved very interesting and profitable to a large number of young ladies taking advantage of them.

The organization is now in need of \$3,000.00 to meet its demands in connection with the mortgage on the property; and as this is a matter in which every citizen of Moncton has a personal interest, and the first and last effort ever made in the city for girls alone, it is hoped that the women devoting their energies to this work will receive encouragement and support.

The revenue from the home has been sufficient to take care of the operating expenses, but the encumbrance on the property must be reduced from time to time. This property belongs to the citizens of Moncton and has a very warm place in the hearts of all men. It is a situation eminently suited to the work of Travelers' Aid which is daily growing in importance throughout Canada and the U. S.

A very pleasing observance took place in the Y. W. C. A. on Friday evening, on the occasion of Miss Collier, housekeeper, leaving for her home on P. E. I., after rendering much valued service for a period of over two years to the Y. W. C. A. Miss Sherron, housekeeper, took the place of all the Y. girls, also of the staff of which regard a slight expression was made in the gift of a diamond ring set on by.

PRAYERS AND AIRPLANES.

(New York Tribune). There is a touch of old-fashioned piety in the proclamation of the Governor of South Carolina calling for a day of prayer and deliberation for the boll weevil. In former generations such appeals for Divine aid were not uncommon, but nowadays they are less frequent, due either to decreasing faith or to increasing reliance on the efficacy of human device.

Men may, however, retain a full measure of reverent faith while at the same time they enter into a larger appreciation of the value of the natural means placed at their disposal. Deeds of prayer and deliberation with hydrocyanic gas or with calcium arsenate sprayed from airplanes would, in the highest and truest sense, be as much an act of God as would the smiting of them by an angel after the manner of the host of Sennacherib, and if there be efficacy in prayer we may assume that to pray while the confessions of despair, and does not mean abandonment of the efforts which the state and national governments are making to rid the cotton states of a certain pest. It is known that chemical agents are destructive of the weevil and that airplanes are used to spray the cotton states of a certain pest. It is known that chemical agents are destructive of the weevil and that airplanes are used to spray the cotton states of a certain pest.

Prayers and airplanes will not interfere with each other. There was no lack of either piety or practicality in the historic injunction, "Trust in God and keep your powder dry."

A NEW WIRE WELDER.

Electric and other welding is being developed in Great Britain for an endless variety of purposes, and in many cases it is necessary to devise special machines to carry out the work. For example, in making joints of wires such as are used for electric cables, the plant embodies quite a number of original features. Many attempts to solve the practical problem were made before a British firm specializing in this type of work succeeded in reaching a satisfactory solution. The usual procedure for joining wires of brass, or iron wires is by welding or brazing. The ends of the wires have to be trimmed, fixed in contact with each other, and the excess of metal filed away. This operation, although frequently carried out with great rapidity by skilled workmen, takes at least a minute or two; but when an electric welding machine is used an unskilled hand—even a boy or girl—can do the job perfectly in a few seconds. All that the operator has to do is to fix the wires in clamps and move a handle; the rest of the action is automatic, the current being switched on, the switch should be connected in series with it, and should be opened when the set is not in use.

No PLACE LIKE HOME. (La Patrie). "The Minister of Colonization knows of forty French-Canadian families who, after arriving in a city in the New England States, could find neither work nor lodgings. In three other cities—Burlington, Burlington, and Biddeford—a friend informed Mr. Perrault that he counted one hundred and seven French-Canadian families who ardently wished to return to the Province of Quebec. And how many do return home poorer than when they left? We have seen this case so often during the past thirty years that it is inconceivable that our fellow citizens still allow themselves to be seduced by the prospect of prosperity that appears on the other side of the international boundary line, a prosperity which is invariably followed by a larger and more stagnation. Our fellow citizens will perhaps realize that, in the end, work in the factories of the United States does not enrich one more than work in the factories of Canadian cities, and that it offers very much less security than agricultural work, even when this has to be done on new land that, first of all, must be cleared."

AN INVITATION TO NEW BRUNSWICK.

(Boston Transcript). Officials and other citizens of New Brunswick are visiting Boston for the purpose of extending to New England an invitation to include the province in their vacation wanderings. It is an invitation which doubtless will be accepted by many whose homes are on this side of the International border. Neither State nor national lines mark the limits of regions peculiarly adapted to promote health and pleasure in the vacation season. The shores of New Brunswick, with their fine harbors, the rivers and lakes of the province famous for the fishing they afford as well as for scenic charm, the great woods where game is abundant, are included within the boundaries of the playground which has its springs in New England and extends across the Maritime Provinces. It is appropriate that this fact should be brought to the attention of the people in such a manner as that adopted by the visitors from New Brunswick who are now in Boston.

But the visit has, in one sense, a larger significance. It speaks that a friendly spirit which should exist between the peoples of neighbor States and Provinces. Both Premier and James Jackson, who extended the greetings of the Commonwealth to the visitors, made reference to that fact at the meeting held last night. The New Brunswick folk have a natural and proper desire to make better known the attractions of the region in which they live, and to induce them to visit, therefore, they have come here on a business errand, but it is business among friends, and business of a character that strengthens understanding and fraternity.

Development of tourist travel to New Brunswick is of value to the people of the province, and it is through this medium that much of the tide of travel must flow. And as effort to develop the summer business of one New England State and the other, so will the endeavor to increase summer business in the Provinces be of benefit to the States. It is a case of developing a whole which is in reality a single region justly famed for its climate, its rugged and many-harbored coasts, placid lakes, towering mountains and flat-spreading forests.

AMERICAN CAPITAL IN CANADA.

(Ottawa Journal). The New York Times of the 6th instant discusses in a very frank way the attitude in American investments in Canada, particularly during recent years. It had been pointed out by the Research Department of the Bankers' Trust Company of New York City that up to 1914 something more than \$3,500,000,000 of foreign capital had been invested in the Dominion, of which a natural result had furnished considerably more than two-thirds. Since the armistice, however, a significant change had occurred. American investments are now estimated at \$2,500,000,000, a half of which has gone into Government and municipal bonds. The remainder has represented business undertakings of a wide variety. Commenting on this changed situation, the Times says:—

"Many American branch factories have been opened in Canada. They can sell in the Canadian market while escaping the Canadian tariff, and at the same time they enjoy the preferential treatment given to Canadian goods by many of the countries within the British Empire. Several Canadian industries are directly controlled by capital coming from the United States. Among these may be mentioned motor car manufacture, electrical apparatus, paint and varnish, brass and copper and so on. There has been a large investment of American money in the Canadian pulp and paper industry, and American capitalists are now embarking on the large-scale development of Canada's water power."

It is unfortunate that there should have been brought into this matter the suspicion that British interests have been jealous of the part our neighbors are taking in Canadian development. That regard the Times is able to refer to a statement made recently to the Canadian Chamber of Commerce in London, to the effect that "if American capital continues its present rate of flow into Canada, it will before long control seventy-five per cent of the Dominion. With this form of financial conquest, it is feared that they will go forward and displace the American 'lion of Canada.' Both assumptions are groundless. It will be a long time, even at the present rate of progress, before seventy-five per cent of United States resources and industries of Canada pass under American control, and as for the American dream, it cannot and will not take place, especially from the influence of American money."

The Montreal Gazette, apropos of the discussion before the Canadian Chamber of Commerce in London, observes that if British interests do not like the flow of capital into this country from the United States they have the remedy in their own hands. That view of the matter is both apt and true. Canada does not care to enhance the money comes, and she certainly has no disposition to discriminate in favor of the world States. At the same time, she remains sincerely justified in placing obstacles in the way of American enterprise while British capitalists remain anything but friendly to her cause. The Gazette points out that of \$85,000,000 borrowed by governments and municipalities since 1st January 1914, \$26,000,000 was received from the United States. This occurred while the door was open in both directions.

While Canada should not perhaps do anything directly to encourage this new-born rivalry between the United States and Great Britain, it is difficult to see what she has to lose because of it. She needs enormous sums of money for the development of her inchoate resources, and if the wide-awakeness and shrewdness of American interests should beget a like activity among the capitalists of Great Britain her advancement should proceed all the more rapidly. As the New York Times fittingly puts it, what has happened since the war seems to show that our American friends "have larger available funds or a keener eye for the profitable use of their money." That's it. They recognize more clearly our splendid potentialities.

At a meeting of the W. M. S. of Centenary church yesterday afternoon with Mrs. F. F. Sanford in the chair, letters from the missionaries were read telling of the great need for the supplies this year and of the sincere gratitude with which gifts were received. Various reports were submitted telling of progress. All the branch officers were re-elected with the exception of superintendent of stewardship, Mrs. F. Dingee of Moncton replacing Mrs. H. A. Goodwin.

THE ORIGINAL PIPELESS FURNACE—CASING PATENT

Poppies and Glaciers

Blossoms make a carpet before the Chateau Lake Louise. 2. Of incomparable splendour.

A BOLD and haunting bloom is the red poppy of the garden. Its cousin of the uplands, the Iceland poppy, is more graceful, more shy, and infinitely more alluring. Iceland poppies bloom in profusion throughout the Canadian Pacific Rockies. Before the Chateau Lake Louise the pale yellow blossoms make a veritable carpet, and serve as a perfect foreground for the noblest scene this Continent can afford.

The lake is apple-green in the sunlight, shading to bottle-green in the shadow of the heights to right and left which are clothed with spruce to the summit two thousand feet above the water's edge. Directly in front, at the other end of the Lake rises the sparkling white of the Victoria Glacier. It is five miles distant and seems less than a mile. They say that the edge of the glacier which appears about the height of a man is not less than 500 feet thick. The sky is intensely blue and the few flecks of white cloud swimming there emphasize the color. In the middle of the poppy-garden is a globe-mirror which gives diminished reflections of the landscape. There are tourists who climb to the Lakes in the Clouds and are rewarded to the full, but many are content to look, and look, and look from the Chateau garden, feeding their souls upon Lake Louise and its incomparable splendour.

Within, the long dining room of the Chateau is a sight one remembers. It is a hall of metropolitan elegance such as would do credit to any New York Hotel. On every table above the glittering silver and immaculate napery there is a bouquet of Iceland poppies, which, while harmonizing perfectly with the mural decorations, give the only hint that the room is nearly 6,000 feet above sea-level, and within speaking distance of the Great White Silence on Mount Lefroy. The room is crowded with a lively company—some hundreds of ardent tourists. The music of piano, 'cello and violin is of magical quality and the service is such as one might expect at the Cecil or the Ritz-Carlton.

Out of doors is a paradise of glory. The moon gleams on massy glacier and peak, frosts with silver the multitudinous spruces and makes a shining path across the lake. The globe of quicksilver in the garden gleams like a star.

The air is sharp. August at this altitude is like October in Eastern Canada and one does not remain long night-walking, despite the joy and the thrill of it. Indoors in the spacious drawing rooms and lounging rooms the logs are ablaze in the big fireplaces and the chairs are wide and deep. Here one rests until the music ends, the white ashes are on the dying coals and the tall clock chimes eleven. "And so to bed."

falls charmed the visitors while they saw in Courtenay Bay an era of progress for the City. The ruined court house came under the visitors' notice. They acclaimed it one of the finest examples of classic architecture they had seen on this continent. They asserted that the court house is perfect in its design and proportions. SUNDAY SCHOOL ATTENDANCE 8,000 MORE DURING YEAR

Encouraging Report Presented to Presbyterian General Assembly

Denomination Now Has 4,000 Schools with 350,000 Members - Importance of Three Fundamental Agencies of Instruction Stressed - \$127,000 Contributed.

(By Canadian Press.)

Port Arthur, June 12.—That Presbyterians still believe in education, and Christian education, is evidenced by the report of its Board of Sabbath Schools and Young Peoples Societies, presented at the General Assembly through its secretaries Rev. J. C. Robertson and Rev. C. A. Myers and under the chairmanship of Rev. R. B. Cochran.

A denomination that has for its constituency 4,000 Sabbath schools with over 350,000 teachers, officers and pupils is warranted in stressing its importance and glorying in this field of service among the plastic youth. This total shows an increase of nearly 9,000 in the year. The old-fashioned Sabbath school, has, too, been replaced by one that the pioneers would hardly recognize. New days mean new methods, such as graded schools and lessons, a programme of week-day religious education, and the use of Canadian Standard Efficiency Training for older boys, and the Canadian Girls in Training for older girls.

Think of 38,422 little tots on the cradle roll; of 6,796 enrolled in the home department; of 7,974 scholars who joined the church—all these figures are most suggestive. The organized

Keep Baby Cool and Comfortable

The Original Baby Talcum. The friend of millions of babies for three generations.

Class, with nearly 6,000 members of teen age and adults, is a modern feature of Sabbath school work that is deservedly popular. Equally so is the report of 1,867 taking teacher training and half of that number taking teacher training awards. The additional facts that over a thousand schools are giving definite missionary instruction, affords further evidence of the adoption of up-to-date methods, in keeping with modern pedagogical standards. An equal number of schools report instruction in temperance and good citizenship, says the report. This big Sabbath school army contributed \$127,000 to the church budget, and \$18,888 to the rally day fund.

Then there are the young people, 97,286 being enrolled in 4,177 organizations.

Three Main Agencies. The report emphasizes the three main agencies for the giving of Christian education, as the home, the church and the school. The first is regarded as the fundamental importance in the ideal teaching of religion. The best of teachers cannot take the place of parents as parental influence surpasses all other influences in character-building on a religious basis. Thus parents' and teachers' meetings are a definite need in this regard, and as a result, the report continues, there is at present a deeper and more general interest in home religion than in previous years.

The church is still and increasingly recognized as the responsible agency for providing leadership in teaching religion, say the report, and encouraging progress is reported through the various agencies adopted in training classes, schools and camps and the mid-week programme already referred to.

The report finally recommends that united effort be made by the responsible leaders in each congregation with a view to helping every home undertake definite work in home religion; that special thought be given to securing the attendance and meeting the needs of all our boys and girls and young peoples at the regular church and Sunday school services; and that the programmes and manuals prepared by the board be recommended for use in these departments; and that school boards and teachers of our public schools be encouraged to take full advantage of the provisions of the school law in their respective provinces in regard to religious exercises and instruction in the public schools.

Pythian Sisters Elect Officers

Mrs. Ethel Brown was elected Most Excellent Chief of Moulton Temple, Pythian Sisters at the annual meeting of the Temple which took place last night in the Pythian Castle in Union street with the retiring, M. E. C. Miss E. Hammond, presiding. The meeting was well attended. Apart from the election of officers the chief business consisted of making arrangements for the official visit of the Grand Chief, Mrs. Jennie Sutherland of St. Stephen. The Grand Chief will pay her official visit on Friday. The election of officers resulted as follows: M. E. C., Mrs. Ethel Brown; past chief, Miss E. Hammond; senior, Mrs. Gertrude Cosman; junior, Mrs. Mildred Porter; manager, Mrs. Ruth Westrup; protector, Mrs. Florence Black; guard, Mrs. Anderson; mistress of finance, Miss May Dinsmore; mistress of records and correspondence, Mrs. Florence Thomas; pianist, Mrs. McGowan; assistant pianist, Mrs. Eva Codner; degree staff captain, Miss Lillian Codner; press representative, Miss Ollie Golding.

His many St. John friends will learn with regret that Hon. Senator W. H. Thorne is a patient in the Montreal General Hospital. They will join in wishing for his speedy recovery.

SCHOLARS HELP EDUCATION PLAN

More Than 10,000 Schools and Other Institutions in U. S. Receive a Big Assortment of Films.

New York, June 12.—Motion pictures, with the scenarios written by some of the most learned scholars of this age, are now carrying lessons in history, nature, health, sanitation, geography and citizenship to thousands of school children, says an Associated Press dispatch from Chicago. The subjects are written, directed and filmed by the Society for Visual Education, and distributed to more than 10,000 schools and other institutions in the United States.

The society, founded and tutored by some one of the most prominent educators and scientists in the country, today has an assortment of films that run into the hundreds, each devoted to a special fundamental school subject.

"We have been immeasurably successful in the ideal which prompted our organization, that our plans have proved worthy and sound," said Professor F. R. Moulton of the University of Chicago, secretary of the society and widely known scientist and inventor. "We believe the most hopeful remedy for existing conditions was in the wide extension of visual education. Psychologists have told us that eighty-five per cent. of our thinking is in terms of visual image. The experience of every one of us confirms the statement. Of all the various means of visual education, motion pictures are proving of the most import, and until but recently, the least used. They are the most important because life is dynamic and in motion—a static world is dead.

The film work of the Junior and American Red Cross has been entrusted to us, and the International Health organizations, witnessing the results of their work, are calling upon us to film subjects for them. State departments of education, welfare organizations, civic and commercial associations, are co-operating. The former in a number of states are buying the films outright for state distribution, while others serve as tributors for films obtained from the society.

"Visual education has not trespassed upon the commercial movie, nor will it. Our work does not seek to amuse but to translate into realities what often are only words. Neither do we pose to displace textbook methods, but to supplement them. Our subjects are filmed for universal instruction, and machines so built that any part of the picture can be still and a teacher dwell for any length of time on a salient feature. The camera having the advantage of position, it permits the pupil to observe from every angle."

The reels dealing with the study of nature are in the greatest demand, according to Professor Moulton. All of the subjects are written and systematically as books are treated. Professor Moulton explained, and such a very effective for keeping the hands soft and smooth. For red, rough or sore hands: On retiring bathe in hot water and Cuticura Soap, dry, and rub in Cuticura Ointment.

Miss Anna Gough, fourteen-year-old daughter of Rev. and Mrs. J. B. Gough, of Hillsboro, formerly of Silver Falls, led the graduating class at the Hillsboro High School this year and will be valedictorian at the closing.

His many St. John friends will learn with regret that Hon. Senator W. H. Thorne is a patient in the Montreal General Hospital. They will join in wishing for his speedy recovery.

Keep Your Hands Soft and White With Cuticura

The daily use of the Soap, with occasional touches of the Ointment, is very effective for keeping the hands soft and smooth. For red, rough or sore hands: On retiring bathe in hot water and Cuticura Soap, dry, and rub in Cuticura Ointment.

See 25c. Ointment 25c. and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Messrs. Laidlaw, 344 St. Paul St., St. Montreal.

GOOD SHOW AT QUEEN SQUARE

Jimmie Evans' Revue opened their fourth week last night to a capacity house, and this company deserves the big patronage that they are receiving. They offer for the first three days of this week something entirely different—a short sketch entitled "The Cricketer and the Lawyer," and following the sketch the regular Revue, which is the best bill the company has so far offered.

Jimmie Evans and Sam Lewis were as funny as ever in their different skits, and were given able assistance by Miss Kitty Fraser, Bart Ryan, Florence Pippin and Danny Cavanaugh.

The Civic Power Commission reaffirmed yesterday its decision to stand back of the Commission's engineers regarding the purchase of meters for the civic distribution system from one company. The matter came up again at a short meeting of the Commission yesterday when a communication from the Common Council was read asking that the order be divided between Canadian General Electric Co., Ltd. and the Packard Electric Co., Ltd.

It was the general feeling that one standard meter should be purchased and a resolution notifying the Common Council to this effect was adopted unanimously.

A recommendation that fifty lighting arrester and 100 more poles be purchased for a total cost of \$1,787.50 was adopted.

A communication from Waterbury regarding the purchase of the ornamental pole in front of the King street store was referred to the engineers. The company expressed its willingness to turn the pole over to the Commission when required.

It is hoped that a well baby clinic will be opened in the north end of the city by July 1. At the meeting of the board of directors of the Victorian Order of nurses held in the Health Centre last night the matter of the new clinic was under discussion and the prospects seemed good for the opening early next month.

Mrs. George E. Smith presided in the absence of Hon. J. G. Forbes and the meeting was largely attended. The report of Miss D. Cotes as superintendent showed that the eight nurses on the staff had made 888 bedside visits and a total of 1,179 visits. There had been fourteen clinics held and 172 babies had been in attendance. The clinics were held at West St. John, where Dr. C. Co-meneau was now the examining doctor, at the Health Centre and in East St. John.

RECENT DEATHS Chester Townsend. The death of Chester Townsend, a former resident of Fairville at Welchpool, Campbellton, on Sunday morning at the age of 93 years, marks the passing of the oldest Free Mason in the world. He was a member of the order for 73 years. He leaves three daughters and four sons. Sumner Townsend of Fairville is a nephew and Mrs. Walter Cougle is a niece.

An English car with a speed of fifty-two miles an hour and weighing but 800 pounds, has just been put on the market.

10,000 FEET ABOVE SEA.

But Even This Does Not Break the Record.

Mt. Ranier, Washington, now boasts the highest dwelling in the United States. The structure, a novel stone house, erected by the United States government to provide shelter for mountaineers overtaken by storms, is on the south side of Mt. Ranier, ten thousand feet above sea level. It is on a sand and pumice stone ridge at the base of Gibraltar Rock, a landmark of the section. Built of massive stones gathered on the site, the shelter resembles in architectural design the square Indian dwellings of the Southwest. It houses twenty-five persons, is equipped with steel bunk beds with mattresses and springs, stretchers, emergency food rations, stoves and fuel oil and first aid kits. It cost \$2,600 to build.

SUNSHINE MACARONI is an Economical Food

Owing to the amount of nourishment which it contains "Sunshine" Macaroni is one of the cheapest foods you can buy. It has this advantage over other foods that it is entirely free from waste matter.

Ask your grocer for "Sunshine" Macaroni. A delicious and wholesome food, it can be cooked in numerous attractive and appetizing ways.

The Wisest Doctor

Can't Explain Why Most People So Carelessly Neglect Their Eyes. What Eye Specialists Have to Say About This.

at that time. Replying to Mr. Day he said separate hours of recess could not be arranged as there were mixed classes. He said the High School grounds were not suitable for the recreation of young women. Elsewhere he believed gymnasium periods indoors were the best.

The chairman promised the delegation that the request would be considered. He thought Mr. Green's suggestion was feasible.

When the girls withdrew a committee consisting of Mrs. Taylor and Mr. Green was appointed to report on this matter. The girls had been told no action could be taken until the beginning of the next school year.

Mr. Myles spoke of the suggestion that the High School closing exercises should be held in the Imperial. He had found the pupils about evenly divided in desiring the change and in wishing to remain in the High School but the parents were unanimous in wishing to have the exercises in the Imperial.

Applications for positions on the teaching staff were received from E. W. Douglas, St. John; J. A. Edmonds, Fairville; Raymond M. Short, Central Greenwich; Miss Doris L. Urquhart, Fredericton; Miss Dorothy Robinson, St. John; Miss E. Puddington, Kingston; D. R. Bishop, Centreville; Miss Lillian Raymond, Truro; Miss Frances Taylor, Fredericton; Miss Edith B. Hart, St. John; and Miss Margaret Main of Amherst.

There is no need for anyone to endure the agonies of a badly functioning system. Dreo, the natural herb remedy, goes right to the root of all stomach troubles, such as indigestion, flatulence, gas, headache, dizziness, and all other ailments of the stomach and bowels.

wick to extend instruction to children between the ages of four and six years. The Municipal I.O.D.E. was asking the St. John Board to put that legislation into effect and take over the five Free Kindergartens in the city. She said the Free Kindergartens were first established nineteen years ago, were doing valuable and necessary work and could not depend on charity. It cost exactly \$2 a month for each child.

The insurance on the present property was paid up to 1926. The 1926 grant of \$1500 to the Kindergarten Association was intact. The equipment could be taken over complete and for the current year the Board need not be under no expense.

Mrs. White explained that the teachers were high school graduates and had received their training in kindergarten work. She told of the benefits of kindergartens for the backward children, for the children whose circumstances were less favorable than for foreign children. She stressed the fact that the kindergartens formed the need of every child and for the children they were essential. She spoke also of the effect which the kindergartens had in the personal cleanliness of the children, and in their general maintenance and in the habit of providing free lunches for those attending kindergartens. She hoped the Board would see its way clear to taking over the kindergartens as the I.O.D.E. believed this would be in the best interests of all.

Judge McKeown promised consideration of the matter and said a committee would be appointed to confer with the members of the delegation.

Applications for positions on the teaching staff were received from E. W. Douglas, St. John; J. A. Edmonds, Fairville; Raymond M. Short, Central Greenwich; Miss Doris L. Urquhart, Fredericton; Miss Dorothy Robinson, St. John; Miss E. Puddington, Kingston; D. R. Bishop, Centreville; Miss Lillian Raymond, Truro; Miss Frances Taylor, Fredericton; Miss Edith B. Hart, St. John; and Miss Margaret Main of Amherst.

Get two ounces of peroxide Powder from your druggist, rub this with a hot wet cloth briskly over the blackheads. Blackheads go quickly by this simple method which just dissolves them.

Vice-President Dalrymple Said St. John is on the List of Stations Urgently Required.

J. E. Dalrymple, vice-president of the C. N. R. and in charge of traffic, told the council of the Board of Trade at a luncheon in the Union Club yesterday at noon that St. John's name was on a list of stations urgently required at points touched by the line. He said that the present station here is no credit to St. John or the C. N. R. but he assured his hearers that it would not be long before the situation here respecting the Canadian National would be well in hand.

Mr. A. H. Lee, Bensenville, Ont., writes—"I am delighted to let you know that I have to say regarding your good Mother's Heart and Nerve Pills did me.

Genuine HAIR NET
The Net of the Life-Like Lustre

Throughout the Evening
Keep that vision alive!

The most charming coiffures are not always easily attained! Careful study and much care are often necessary to get just the right effect for your particular type of beauty. Yet, to be distinctive, you must find the coiffure which best becomes you.

When You Find It— Keep It!

Once you discover this most charming of hairdressers—once your mirror pronounces it perfect—then the problem is—how to keep it looking just as you want it to appear, in spite of the coiffure-hazards which your plans involve!

The answer is quite simple and can be had by every woman! Select a Gainsborough Single Strand Hair Net in the style and color which suits you best. Adjust it carefully before leaving your dressing table, molding your coiffure within its strong, friendly meshes. Then forget about your hair—with perfect assurance that the vision you see in your dressing table mirror will live and be admired!

Endorsed by Style-Leaders Everywhere

Women who are particular in dress, careful in buying—and quick to recognize exceptional value, use and endorse Gainsborough's Hair Nets. Due to their natural life-like lustre—a distinctive Gainsborough quality—they blend perfectly with your own hair!

How to Choose the Proper Kind of Hair Net

The discriminating woman knows that different coiffures require different kinds of hair nets—just as she knows that different occasions (with their respective coiffure styles) require different coiffure styles.

For afternoon and evening dress—choose the strong Gainsborough Single Strand Hair Net, with its cap or loops, because it is so comfortable.

Gainsborough Hair Nets and all other WECO products are on sale at the stores where you would expect to find the best. If your dealer hasn't them yet, ask him to order some today.

LOCAL NEWS

ENGAGEMENT ANNOUNCED. Mr. and Mrs. N. W. Perley, of Chatham, announce the engagement of their daughter, Mary Katherine Florence, to Alexander Barr Lumsden, of this city, the wedding to take place on June 27th.

BRIDE-TO-BE HONORED. About twenty-five friends of Miss Gladys Wilcox gathered at the home of Mrs. C. M. Belyea, City Line, last evening and tendered her a novelty shower. Many and useful gifts were received and a very pleasant evening was spent. Refreshments were served at the close.

NO LICENSE, FINED. Provincial Constable Robert Crawford rounded up a motorist for driving a car without a license number plate in Rothesay avenue last Sunday. He was brought before Magistrate A. H. Alvingham and fined \$15 this morning.

FOR TEACHERS' LICENSE. It is expected that 475 students will write the examinations for teachers' licenses at Fredericton, St. John and Chatham this week. There will be 430 in Fredericton, thirty in St. John and thirteen in Chatham. This is a twenty-five per cent increase over last year.

BY-LAW CASE. Fred Martinoff was charged in the police court this morning for keeping his pool room in Mill street open for business after hours. Evidence showed that a game of pool was in progress in Martinoff's at 1:06 o'clock last Sunday morning. He was told he was liable to a fine of \$20.

A SHOWER. The friends of Miss Louise Blacklock very pleasantly surprised her last evening at her home, 86 Middle street, West St. John, when they presented her with gifts in honor of her approaching marriage. The evening was very agreeably spent and refreshments served.

FINISHES NURSING COURSE. Miss Georgia Moxon, daughter of George A. Moxon of Ottawa, and a sister of Mrs. G. W. Stegmann of this city, recently graduated from the St. John Public Hospital, having completed her three years' course. During her stay in this city Miss Moxon has made many friends, who will extend congratulations on her graduation.

PRE-NUPTIAL EVENT. Miss Hazel Thompson was tendered a linen shower last evening at her home, 54 Moore street, by a number of friends. During the evening music and games were enjoyed and refreshments served. The programme was arranged by Miss Annie Daley.

HAD NICE TIME. Nineteen members and five guests were pleasantly entertained last evening at the home of Mrs. Hughes, 270 Brittain street. Five games of what were played, the winners being Mr. and Mrs. White, contestants awarded to Mrs. Reed and Mr. Wrench. During the interval the hostess served dainty refreshments. A most pleasant evening was enjoyed by all.

TWO BROTHERS HERE. Word has been received by relatives here of the death, yesterday in Boston, Mass., after a lingering illness, of Miss Susan Calhoun, daughter of the late Isaac and Ruth Calhoun, of Hopewell, Albert county. She was survived by two sisters, Mrs. David Corey, of Annapolis, and Mrs. Evander Cole, of Annapolis, with whom she made her home. She leaves three brothers, Roy, Warren, Calhoun, of Connecticut, and Isiah and George M. Calhoun, both of this city.

St. John Students Receive Degrees

Holmes Gold Medal For Highest Aggregate Won by Antigonish Student at McGill.

A. L. Wilkie, B. A., of Antigonish, N. S., won the Holmes gold medal for the highest aggregate in all subjects of the medical curriculum at McGill University at the annual convocation for the conferring of degrees held yesterday. D. S. MacIntosh, B. A., of West River, N. S., won the first prize for the highest standing in the fifth year subjects. Degrees of M. D., C. M., conferred on local students included: I. M. Anglin, A. S. Chesley, O. B. Evans, H. I. Logan, G. F. Skinner, H. G. Smith, all of St. John.

Lord Aylmer Dead

Was Inspector General of Canadian Forces - Participated in Fenian Raid.

(By Canadian Press.) Nelson, B. C., June 12.—Major Gen. Lord Aylmer, former inspector general of the Canadian Forces, died last night at his home at Queens Bay, Kootenay Lake, in his 82nd year. He will be buried in Nelson.

Lord Aylmer served on the staff of the Canadian forces for thirty-five years, retiring in 1907 with his present rank. Previously he served as lieutenant in the 7th Royal Fusiliers, participating in the Fenian raid from 1868 to 1870. He was honorary colonel of the 11th Hussars, Richmond, Que., where he was born on March 28, 1842. Lord Aylmer was in command of the Canadian contingent which went overseas in 1897 to represent the Dominion at Queen Victoria's diamond jubilee celebration. Lord Aylmer succeeded to his title on the death of his father in 1901, being eighth heir of the Aylmer peerage created in Ireland in 1718. He was educated at Montreal High School, McGill University and Dublin University. In 1875 he married Amy Gertrude Young, three sons and two daughters were born of the marriage.

BRITISH DEBT SINKING FUND £40,000,000 FOR THIS YEAR. (By Canadian Press.)—The House of Commons in debating the budget yesterday afternoon passed resolutions sanctioning the debt sinking fund amounting to £40,000,000 for the present year, £45,000,000 next year and thereafter £50,000,000 annually.

Big New Hotel For St. John Now Assured

MODERN EIGHT-STORY STRUCTURE TO BE ERECTED ON PRESENT SITE OF DUFFERIN

Will Extend From Imperial Theatre to and Including Trinity Rectory Lot—Two Hundred Rooms with Baths—Will be Named the "Admiral Beatty"—Start Expected by End of Month.

That St. John is to have a large new modern hotel, situated at the corner of King Square and Charlotte street, and operated and managed by the United Hotels of America, was the assurance given out this morning by the firm of Thomas Armstrong & Bell, Ltd.

The scheme to interest the United Hotels of America to erect a building in this city was launched by the Commercial Club about two years ago, but their efforts proved unavailing. While the scheme was dropped temporarily it was again taken up by Mr. Thomas about a year ago and since that time he has spared neither time or effort in an endeavor to bring it to a successful culmination.

The fruits of his efforts are now apparent and by the end of this month the desired site will be taken over and final arrangements made for the erection of a structure, which will be second to none east of Montreal. The "Admiral Beatty."

The new hotel will be known as "Admiral Beatty," the consent of King Square side and to Trinity Church rectory inclusive, on Charlotte street, a distance of 160 feet on both sides. The properties at present on this site will, it is expected, be taken over by the end of this month. Eight Stories High.

The hotel will be eight stories of a reinforced concrete fireproof construction, stone faced for three stories and straw colored brick face for the remaining five stories. There will be approximately 200 rooms, all with bath or bath connections. On the ground floor there will be ten stores. The main entrance will be on King Square with another entrance on Charlotte street. On the main floor of the hotel will be situated the dining room, lounge room, offices, etc., on the mezzanine floor, on the third story, will be the ball room or banquet hall, private dining rooms, mezzanine gallery, etc., and on the remaining floors the rooms.

The firm of Currie & McDonald of Montreal are the architects. They designed the Mount Royal in Montreal, the Chateau Laurier in Ottawa, in addition to many other leading hotels in Canada.

Other U. H. A. Hotels. The following is a list of hotels operated by the United Hotels of America: "The Portage," in Akron, "The Ten Eyck" in Albany, "The Lawrence" in Erie, "The Durant" in Flint, "The Penn-Haven" in Harrisburg, "The Royal Treat" in Newark, "The Hotel Rochester" in Rochester, "The Seneca" in Rochester, "The Onondaga" in Syracuse, "The Olympic" in Seattle, "The Stacy" in Trenton, "The Hotel Utica" in Utica, "The Bancroft" in Worcester, "The King Edward" in Toronto, "The Mount Royal" in Montreal, "The Royal Comptone" in Hamilton, "The Clifton" in Niagara Falls, "The Prince Edward" in Windsor, "The Roosevelt" in New York, and the "Alexander Hamilton" in Paterson. The last two mentioned are still in the course of construction.

ST. JOHN GIRL WINS PRIZE AT EDGEHILL

Doris Brennan Highest in English Literature—Francis Frith Gets Pianoforte Certificate.

(By Canadian Press.) Windsor, N. S., June 12.—Prize winners at Edgemoor School for Girls, announced at the closing exercises yesterday, included the following: Senior Violin, Mrs. Bryden's Prize, won by Marie Barker, Amherst. English Literature Prize, C. E. W. Dodwell, Halifax, won by Doris E. R. Brennan, St. John.

Elocution, Prize by Miss Leslie, Marie Barker, Amherst. Music certificates for examination of Royal Academy and Royal College of Music, London, England; Elementary Division, pianoforte, Francis Frith, St. John.

Contract For New N. B. Agricultural School Granted

(By Canadian Press.) Fredericton, June 12.—The contract for the construction of the new Provincial Agricultural School building at the experimental station has been awarded to the E. P. Powers Construction Co., at a price in the vicinity of \$28,000, their tender being the lowest. The contract calls for completion in September. It is expected to be opened for the first short course during the fall months.

The building is to be a two-storey concrete block structure, 80x50 feet. Class rooms, including special facilities for the teaching of domestic science and an assembly hall, are arranged for.

During the months of June, July, August and September our stores close at 1 p. m. on Saturday. Open Friday until 10 p. m.

THE MUNICIPAL OPERAS PAYING IN ST. LOUIS

Productions are Offered Under the Blue Skies and in Open Air.

St. Louis, Mo., June 12.—St. Louis has paid \$80,000 into the box office of Municipal Opera, in advance sales on seats for the 10-week season, which is now under way in Forest Park.

This year instead of opera six nights a week the Municipal Opera will give seven performances weekly on America's biggest permanent outdoor stage.

The St. Louis opera is unique in America. There is no other such municipally controlled, civily sponsored summer entertainment. It presents a cast of principals gathered from the best in America including Frank Moulan, principal comedian; W. J. McCarthy, second comedian; Blanche Duffield, Helen Morril and Dorothy Maynard, prima donnas; Craig Campbell, tenor; Flavia Arcaro, contralto; Detmar Popper, bass; Thomas H. Conkey, baritone, and Roland Woodruff, juvenile.

With these there is a chorus of 99 St. Louis boys and girls, intensely trained in the Municipal Opera Free-Church School, and all of them candidates for the six \$500 scholarships to be awarded at the end of the season.

For the last three years Municipal opera has made a profit. But profits are forbidden under the charter of the Municipal Theatre Association, which sponsors the productions.

LABORITE M. P. CRITICIZES LADY ASTOR IN-HOUSE Temperament and Manners Displease Him—She Says More Women Needed in the Commons.

(Canadian Press Cable) London, June 12.—Lady Astor, speaking last evening at a reception in honor of three women members of the House of Commons, paid tribute to the new M. P., Mrs. Hilton Phillips, adding: "If she does not know much she need not be afraid, for she will find that some of her fellow M. P.'s know less."

LABORITE M. P. CRITICIZES LADY ASTOR IN-HOUSE (Continued) Her opinion is not endorsed by many members as her stand on the prohibition question is unpopular with the public. During a discussion on the beer duties in the house last night, Lady Astor aroused the anger of a Laborite, Arthur Hayday, who suggested that "if she would cultivate her temperament and her manners she would do better."

FIVE OF FAMILY POISON VICTIMS Two Hamilton Children are in Serious Condition—Candy or Spaghetti Responsible.

(By Canadian Press) Hamilton, Ont., June 12.—Victims of poisoning, five children of Mr. and Mrs. Pettie, were rushed to the hospital last night. The three older members are not in a serious condition but Dr. E. Bradshaw who was called, stated that the two younger children were seriously ill.

ENGAGEMENT. Mr. and Mrs. H. Smith wish to announce the engagement of their daughter, Lillian Ruth, to Maurice Samuel Withrow of Chipman, N. B., the wedding to take place in the near future.

DUTCH FARMERS AT QUEBEC

The first party of Dutch farmers for Canada arrived in Quebec on May 27 on the Cunard liner Atlantic.

soon to be taken over by the city of Halifax. There are tremendous opportunities for the people of Massachusetts to become better acquainted with their New Brunswick neighbors. Mr. Jackson believes, and he expressed the hope that an increase in commercial relations will result through the coming of Premier Veniot, as well as a continuation of the cordial relationship which the elements of personal contact can bring about as can nothing else.

It was said that the unfortunate man was on his way across the street just as two cars met. He was watching the nearer one, going towards Reed's Point, and apparently crossed ahead of it without observing that another was travelling up from the point.

Police Officer Laird was taken to the scene of the accident on the ambulance and made a preliminary report on a post graduate course in public health nursing at McGill University.

PERSONALS Mrs. P. McCullough, Exmouth street, returned home today from Montreal. She was accompanied by her daughter, Miss Gertrude, who recently completed a post graduate course in public health nursing at McGill University.

PROPERTY DAMAGE Destruction at Kinghurst Believed to be by Auto—Several Cases Recently. Considerable damage was done to the fence in front of the old Troop property at Kinghurst late on Saturday night or early on Sunday morning.

NEW YORK FIRM PREDICTS A DULL LUMBER SEASON A dull season in the lumber business was predicted in a letter written today by J. T. Knight & Co., local lumber shippers, from Simpson, Clapp & Co., a prominent New York firm.

WOMEN'S INSTITUTE ANNUAL MEETING (Special to Times) Fredericton, N. B., June 12.—The provincial command held here this afternoon in annual session. Some thirty are in attendance. Major H. Priestman, of McAdam is president and G. E. Logan, secretary.

DISPOSING OF THE L. R. STEEL ASSETS Property in Toronto, Vancouver and St. Catharines Sold—Retail Stores Said to be Paying.

(By Canadian Press) Toronto, June 12.—Some progress has been made in the sale of the L. R. Steel assets in Canada. G. T. Clark, receiver and trustee, has disposed of three parcels of real estate, consisting of a warehouse in Toronto, and store premises at St. Catharines and Vancouver for about \$300,000.

COMPENSATION CASE The case of the Workmen's Compensation Board and the Bathurst Lumber Co., Ltd., is before the Supreme Court, appeal division in Fredericton today.

RECEIVED FROM THE GOVERNMENT OF MASSACHUSETTS Hon. Mr. Veniot Stresses Importance of Friendly Relations Between Maritime Provinces and New England States.

ACCEPTS INVITATION OF PREMIER VENIOT AT BOSTON GATHERING Two flag-waving interchanges hanging from the balcony in Ford Hall last evening drew the attention of Peter J. Veniot, Premier of the Province of New Brunswick, as he participated in the mass meeting held under the auspices of the Canadian Club of Boston and the Intercolonial Club in conjunction with the New Brunswick Tourist Association. They were the Stars and Stripes and the Union Jack.

MASSACHUSETTS GOVERNOR COMING HERE ENDING JULY

Completion of Church Union Will Take Years

(Continued from page 1) fact, many individual unions of churches in scattered districts have already been effected. It is not expected that many churches in the cities will pass out as the result of organic union of the three denominations.

However, in the church organization, it was less easy. A compromise was reached which perpetuates the names held dear by each denomination and yet produces uniformity. The name for example of the Presbytery, will be retained as indicating the group of churches in one locality, while the larger organization, more or less province wide, will retain the name of Conference, as now used by the Methodists.

Placing of Ministers. The greatest difference was in regard to the placing of ministers. In the Presbyterian and Congregational churches, the call system is in vogue, whereas in the Methodist church the pastoral committee fixes the pastoring in the union and they may change every four years.

Opponents Plans. A number of congregations of the Presbyterian Church will not go into the new union. Opponents of the fusion made this clear in a statement handed out last night. Accordingly provision for any congregation to vote itself out of the new union is provided for. There will also be an understanding in regard to the property holdings. It is expected that these congregations will retain the name "Presbyterians."

A New Church. Montreal, June 12.—The Gazette reports that the Presbyterian church in Canada will not disappear. Certainly some congregations will disappear, but the new union church is provided for. There will also be an understanding in regard to the property holdings. It is expected that these congregations will retain the name "Presbyterians."

The schooner Edna May sailed from Apple River on Wednesday for Lynn, Mass., with spruce lumber. The schooner Cella May sailed from Parrsboro on June 5 for Montreal to load lumber for Parrsboro. The schooner Esther Adelaide sailed from Hillsboro on Sunday for New Haven with plaster. The schooner Margaretta sailed from Carr's Brook on Sunday for Salem, Mass., with a cargo of spruce lumber.

Pasteurization Methods Are Absolved by Experts

Long Conference of Board of Health This Morning—A. L. Stern States Position and is Thanked by Minister of Health.

The Sub-district Board of Health sat from 11 o'clock this forenoon until nearly two o'clock this afternoon hearing the reports of Dr. H. A. Harding, of Detroit, and Dr. R. Reginald M. MacLean of Montreal on the pasteurized milk situation in this city. There were present Chairman John Kelly, City Road, and every member of the Board of Health, Dr. W. F. Roberts; Dr. William Warwick, sub-district health officer; Mrs. R. J. Hooper, George Blake, Dr. E. J. Johnson, Inspector in Charge; Dr. E. Stanley Bridges, W. H. Goding and A. L. Stern.

The net result of the conference was the report of the experts that they discovered nothing wrong with the process of pasteurization at the Purity plant, City Road, that every wooden standardized method was being employed there to assure the sweetness and purity of the pasteurized product, but on the other hand acidity tests applied to raw milk being delivered by dealers from 16.8 to 18.7 during a range of days when milk showing an acidity value of 20 was allowed to be unfit for good food purposes. Dr. MacLean who applied the acidity tests, reported that each succeeding day of his investigation—up until this morning—found less acid in the milk with the result that sour milk complaints have dwindled almost to vanishing point.

Dr. Harding was inclined to believe that the recent difficulty over pasteurized milk was more in the nature of a "tempest in a teapot than real trouble. He outlined the history of pasteurization of public milk and showed how generally this method of health protection was being employed in all modern cities. The idea was now over ten years old. Windsor, Ont., was one of the latest cities to adopt it, and although Montreal has not pasteurized milk as a steady diet up to the present, enactments are now drawn up to make it compulsory at an early date.

Dr. Harding said that really constituted a "milk safety, richness, sweetness and cleanliness. Three of these qualities would place milk in the impure class—it was necessary to have all three. Three of the tests can be detected by the ordinary observer, but the fourth, that of safety, is a scientific matter. Pasteurization is very simple.

In answer to a member of the board, Dr. Harding said the Purity plant, City Road, could not be affected as to the health of its product by the nature of its location. Milk was handled in an immediate manner from dealers' containers to the machinery and thence to the bottles. The pasteurized milk, Dr. Harding made a very thorough explanation, showing how the cream line on a bottle of milk can be practically eliminated by pasteurization. A half dozen bottles of pint and quart measure were selected from a nearby grocery and shown a cream depth on the average of four and a half inches from the top of the bottle.

Dr. Harding gave the Purity plant a high recommendation for the efficiency of its experts in receiving and testing the incoming milk and the superintendent of pasteurization. All technical recording devices showed that the milk was doing its work well. Mayor Fisher asked about the food values of pasteurized milk for infants and Dr. Harding explained that pasteurized milk was not seriously deficient on all the food essentials required for child feeding.

Hon. Dr. Roberts said that the Government had no apology to make for the pasteurized milk policy but it would certainly go the limit to find out if any real difficulty was interfering with the process. Dr. MacLean confined himself largely to the data of his tests, for sour milk. After telling that the acidity tests showing was about the limits for pasteurization purposes he had found out of a large number of tests milk to be carrying percentages ranging very close to maximum. However, up to this morning's report the count had been gradually reduced. He gave credit for these tests to the Purity plant and to the observation and was carefully checked by the standard inferior casters having to do with business matters, in which he opposed the raising of milk prices, his plant has been the centre of attack in this pasteurized milk movement. He asked that the health authorities give forth some word that will lift the stigma from his plant. Dr. Roberts, with the concur-

rence of the board commended Mr. Stern for his open dealing, for his assistance to government inspectors and for his bearing the expense of the recent investigation which had apparently absolved him from all blame for any sour milk that may have been on the market, at least during the period the investigation had been going on.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

Notable Soloists With Paulist Choir How The Choristers Delighted Broadway Last Christmas Season.

The soloists with the Paulist Choristers are in themselves a notable attraction. They include Frederick Newport, a concert artist of international repute; Overton Moyle, English basso profundo, Masters Jackle Huber and Brendon O'Callaghan, sopranos and the Pollis baritone, Uvarivich. During this present Canadian tour Mr. Moyle's numbers have been notably well received and the Choir as a whole a source of delight. Apropos of these remarks an excerpt from the New York Telegraph of last December gives an interesting sidelight upon the capabilities of the Paulist Choristers.

Fine music was heard at B. F. Kelly's Palace Theatre yesterday from 12 to 1 p.m. This is one of Mr. Albee's many ideas to assist in broadcasting the spirit of Christmas to theatre-goers, occasional or just people who happen to be near Broadway and Forty-seventh Street at the time. The concert is given by Father Finn's Paulist Choristers.

The choristers opened Wednesday's concert with "Emilie Spiritum." Jack Huber, a boy soloist, charmed the listeners with his singing of "Stille Nacht."

"Good King Wenceslaus," a rollicking number, preceded another effective solo, "I Saw Three Ships Come Sailing In," sung by Brendan O'Callaghan.

"Oh, Little Town of Bethlehem," was appropriately in the list as were the Russian "Carol of the Cherubs," "Tell Him a Welcome," "O, Holy Night," "Angels We Have Heard on High," and "Nasareth."

This organization has been heralded as remarkable for excellence in individual vocal quality and smoothness in ensemble. Students of music, to whom melody is a science as well as an artistic treat, asserted after yesterday's concert that its reputation was warranted.

The sale at the Imperial box office is still going on for the Friday night concert. Lower floor all \$1.50; two front rows balcony \$1.00; balcony, 75c and 50c. Matinee (unreserved) 50c, 75c, \$1.00.

REAL ESTATE NEWS

Recent property transfers have been recorded as follows—St. John County. F. M. Cochran to Katherine D. Ruby and others, property in Hillsboro, City of St. John, J. J. White, property in Orange street. Elizabeth Forrester and husband to Jennie E. Chelley, property in Simonds. D. Johnston to F. G. McLeod, property in Simonds. J. H. Magee and others to W. J. Wood, property in Fairmount. J. H. McRobbie to Union Bank of Canada, property in Queen Square. Ellen O'Regan to Nellie O'Regan. Ellen O'Regan to R. C. Snodgrass, property in Lancaster. THREE U. S. GOLF EXPERTS OUT OF THE RUNNING

Troy, June 12.—Gene Sarason, Jim Barnes and Charles Hoffman, U. S. professional golfers, failed to qualify for the British open championship in the five days qualification play which ended today. Walter Hagen, U. S. player, who holds the British open at present just managed to squeeze in. Geo. Duncan and Geo. Aubach qualified.

Notices of Births, Marriages and Deaths, 50 cents

BIRTHS WALKER—On June 12, 1923, to Mr. and Mrs. George Walker, 313 Prince street, a baby girl.

DEATHS BABINEAU—In this city, on June 11, 1923, Hattie, aged five years and nine months, daughter of Walter and Mary Babineau. Burial on Wednesday afternoon from her parents' residence, 19 Merritt St. MATTHEW—Entered into rest at the residence of her son, Dr. W. D. Matthew, Hastings-on-Hudson, N. Y., on Sunday, June 3, Kate M., widow of the late Dr. George F. Matthew. Notice of funeral later.

IN MEMORIAM MURRAY—In sad and loving memory of Catherine Murray, died June 12, 1921. Anniversary high mass of requiem at St. John the Baptist Church, Broad street. The day brings back memories. MATH.

Classics Found In List of Books Read By Sailors

Greeks and Russian Grammars, Latin Dictionary and Koran Also Found Among Poets' Volumes.

London, May 20.—By Mail.—What is it that sailors read in their hours of freedom at sea?

Many of them have nothing to read, or they cannot get what they want, but, through the agency of the British and Foreign Sailors' Society, many ships are now supplied with a small library.

"Eighty years ago, when the society was young," said an official of the society to "The Westminster Gazette," "many of the books in a sailor's library would have been of a religious nature, but now its interests in reading are more diverse."

Herbert E. Barker, secretary, referred to the case of a man whom the society had come across who carried about with him an unusual collection of classics.

"One of our officials was so struck by the books this man—An A. B.—had with him that he made a list of the volumes." They were:

- Greek grammar. Russian grammar. Latin dictionary. English dictionary. Masterpieces of Rimbault. Milton. Chaucer. "Ingoldsby Legends." Marcus Aurelius. Arnold's "Scholar and Rustic." Nichol's "Seamanship." "The Book of the Sextant." "The Betrothed" (Scott). "Love Me Little, Love Me Long" (Keats). The Koran.

"Close to the main buildings of the society in Commercial Road East—known by seamen as the Sailor's Palace—is the library, where books sent to the society are packed into small cabinets for distribution to ships.

The society has some 600 of these cabinets, which are transferred from ship to ship as the books are read. Each cabinet contains thirty books, one of each is the Bible, and an endeavor is made to cover a wide scope of interest. In one cabinet selected at random there were editions of modern writers, represented by O. Henry, A. F. W. Mason, Sir Gilbert Parker, Cutler Hyne, etc. a volume of Scott, Thackeray, and Bronte, "Blackwick Papers," Shakespeare, Tennyson, Emerson, and several books of travel.

"There is no doubt the books are well read," remarked H. T. Gear, the librarian, "as the normal life of the books is about three voyages; but of course, it must be remembered that the volumes are mostly second-hand."

That the loan of books is appreciated is amply proved by the fact that many crews send donations to the society and numerous letters of thanks are sent to the librarian.

Ottawa, June 10.—An earnest attempt at cattle-carrying by the Canadian Government Merchant Marine will be made this summer.

Preserve all the lusciousness of these fresh fruits for Winter jam and jelly. CERTO is the Key to Perfect jams and jellies.

CERTO (Surejell)

Crushed Strawberry Jam For this jam it is necessary that each berry be broken up. Therefore, crush about 3 quarts ripe berries in separate portions, so that each berry is crushed.

with them. The difference between the two ships' crews was remarkable.

The society appearing for more books in order that it may supply the big demand on its library.

"We do not only want novels and books of travel," said Mr. Barker, "but books of reference, such as encyclopedias, or Whitaker's. These would be welcomed, as the men sometimes start an argument, as, for instance, when the Wars of the Roses started, or the date of Magna Charta, and they want perhaps to be able to settle a little bet on the matter."

ORAL SURGERY'S PROGRESS.

Results of Operations for Cleft Palate in Infancy Told by Dr. Brophy.

New York, June 12.—A message of hope and encouragement is brought to the mothers of this country by Dr. Truman W. Brophy of Chicago, who is at the Hotel Pennsylvania.

Dr. Brophy is one of the most eminent surgeons in the world and at present is president of the International Dental Federation.

He has long been interested in correcting the deformities of the mouths of children and declared that much progress has been made in this direction.

Fifty years ago, when a child was born with a cleft palate and a disfigured mouth, the shock to the mother was frightful, and as the child grew older it was subjected to all the humiliation of his unpleasant facial appearance," said Dr. Brophy.

"Only a person who was born with a deformity can realize how bitter the experience is. And the mother's heart was constantly torn. The father could get away from the situation, but the mother was always with her child and realized the difficulties under which it labored."

"Now all is changed. The earlier surgeons were in the habit of taking a plastic impression before they operated. Furthermore, the baby grew to be quite a child before the operation took place. Now the abnormality is corrected almost at once, before the tissues have become so ossified that they cannot be restored.

First, the bones and tissues that are present are drawn to a normal position. Then the plastic is taken, and the difficulty is so wonderfully repaired that one would hardly know that the child had ever suffered from a cleft palate. Even the shape of the nose is changed and perfected. What this perfection of method has meant to the mothers of the world no one knows, and the happiness that it has brought to the young men and women who might have grown up hideous and whose faces were restored to normal is quite beyond imagination.

"Over a year ago, there was established the American Association of Oral and Plastic Surgeons. We hope that great things will come out of this association of men who are working together along the same lines. Almost every member of the association is also a member of the American College of Surgeons. Some of the most noted surgeons made the mistake at the beginning of the war not seeking the assistance of a dentist when they had to restore the lower part of the face. They say the most famous plastic surgeon, Dr. Morrison of Paris, at first refused to co-operate with dentists in this work, but when the results of his early work began to show he found that, for the reason that he would not have artificial apparatus made, over which to work as plastic surgery, many of his patients were churlish.

"When dentists were called in, some very extraordinary things were done. They made a foundation. For instance, when the front of a man's jaw was shot away, an arrangement of wire was contrived and attached to the back teeth which remained, and over this the plastic surgery was done with fish taken from the chest or other parts of the body. The apparatus was kept in for something like eight months, and then when the fish had healed, and the bone had knit, the artificial shaping of the jaw was removed, and you would hardly know that it was not the man's original jaw."

TWO PREMIERS OF 'DOWN UNDER' PLEAD FOR EMPIRE UNITY

Sir George Fuller and Premier Lawson Hope Australians and Canadians Will Work Together to Promote Empire Interests.

Montreal, June 11.—Expressing the hope that the forthcoming economic conference in London this fall would give a leading place in its discussions to the unity of the Empire, which he characterized as the safety valve of the world, Sir George Fuller, K. C. M. G., Premier of the State of New South Wales, spoke on Saturday to the Montreal Board of Trade.

Accompanying him was Premier Lawson, of the State of Victoria, who recorded his great pride in blood brotherhood with the "old stock" in the United Kingdom and Canada.

Continuing his address, Sir George Fuller spoke with great enthusiasm on the services rendered by Australian and Canadian soldiers during the war and declared that the links then forged in mutual suffering and sacrifice for a common ideal must become much stronger than any mere ties of commerce and relationship.

The British Government, said Sir George, was seized with the great need for closer unity between the mother country and the component parts of the Empire. He hoped to take back with him to Australia a message of Canada's determination to take its part with the rest of the Empire in the world's work.

Mr. Lawson, following his colleague, confessed that his preconceived notions of the old country being old-fashioned and lacking in push and energy had been shattered by his observations in the United Kingdom. The British people at home were as resolute and forceful for advancement as in the past. In spite of all their fearful losses in the war and its disturbances to commerce, he found everywhere not a whimper. The people were working harder than ever to get back to normal. It was for Canadians and Australians, said Mr. Lawson, to work side by side to see that the glories of the common Empire are always upheld.

No Trouble to Keep Skin Free From Hairs

(The Modern Beauty.) There is no need for any woman to countenance superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them.

The paste is applied for 2 to 3 minutes, then rubbed off and the skin washed. This treatment will rid the skin of hair without leaving a blemish, but care should be taken to see that you get real delatone. Mix fresh as wanted.

Photographing the flashes of a lightning bug was recently accomplished by letting the bug crawl over a photographic plate.

The Jessie Chipman mission circle of the Bayland Methodist church met last night on the lawn of the parsonage in Paradise Row with a large attendance of members present.

The opening devotions were led by Miss Etta Bell and the president, Mrs. Fred Smiler was in the chair for the business session.

Miss Cairie McConnell, the delegate to the branch meeting gave a concise and comprehensive report which was very interesting and greatly enjoyed.

After the business session the members went indoors and in the parsonage they played games and had social enjoyment. Refreshments were served.

An apartment house project that will cost \$300,000, has been launched in Cleveland, Ohio.

GIRL KEPT HIS RING; HE WINS \$1,000 COST

Chicago, June 12.—Lee Stiles, who presented Miss Leona Voris, his former fiancée, with an engagement ring which he purchased from his prospective mother-in-law for \$1,000, was awarded \$1,000 by a jury in his suit against Miss Voris and her mother.

Miss Voris, he said, broke the engagement shortly after he gave her the ring and refused to return the ring or the money.

Miss Voris' attorneys made a motion for a new trial.

CRIMINALS NOVEL RETREAT.

Berlin, June 11.—"Wanted" by the police on a charge of murder, two Berlin brothers were discovered hidden in an enormous hollow pillar supporting a railway line.

Only a few yards from the entrance to one of the principal city stations, the pillar had served not merely as a hiding place, but as a comfortable dwelling for the two criminals. It was furnished with a carpet, a small table, and a spirit lamp. Not even illumination was lacking, the residents having "tapped" an electric cable just outside.

Apparently the missing men had been living in the pillar for several weeks.

Beauty Praises Winsome

Miss Priscilla Dean of Universal Pictures has found Winsome Toilet Soap so true to its name that she writes:

"I find 'Winsome' Toilet Soap excellent—Winsome in name and Winsome in deed. It is refreshing to use for Toilet and Bath after the day's work."

—Priscilla Dean

The secret of beauty may be found in the exclusive use of Winsome, a Toilet Soap of such exquisite purity and daintiness that it is the best skin cleanser you can safely use.

The Winsome Beauty Massage will clarify and beautify your complexion. Make a rich, pure Winsome lather with warm water and massage it well into every part of your face and neck—rinse well and dry. Powders and rouges, wind and sun cannot hurt your skin then—it will be clean and healthy, it will grow smooth, clear and beautiful.

Winsome is sold by all good drug and department stores

Shoe Sale—181 Charlotte St.
Footwear Slaughtered Without Reserve!
IT IS THE END!
\$4,298.74 of Men's and Boys' Footwear to be sold this week.
IT IS POSSIBLE—IT CAN BE DONE—IT MUST BE DONE
The entire Footwear Stock of the late WM. KEIN, 181 Charlotte St. must be sold this week.
READ PROGRAMME BELOW

For over thirty years the late Mr. Wm. Kein conducted his business in this store. Mr. Kein was known to the shoe salesmen in this Province from Ontario and Quebec, as a man who knew shoes. Nothing shoddy appealed to Mr. Kein. It must be good or he would not buy it. Those gentlemen who for years bought their footwear here know its outstanding merit. Mr. Kein handled men's boots and boys' boots. It is hoped that Mr. Kein's old customers may get their share of these values. Mr. Kein's high grade shoes at slaughter prices.

OUR TASK
To sell in 3 1-2 days 1,076 pairs of Men's and Boys' High Grade Footwear AT VERY LOW PRICES

OUR PROGRAMME
To sell to the buying public Wednesday, Thursday, Friday and Saturday of this week.

OUR TIME TABLE
WEDNESDAY, June 13—2-6; 7.30-10 p.m.
THURSDAY, June 14—10 a.m.—12.30, 2-6; 7.30-10 p.m.
FRIDAY, June 15—10 a.m.—12.30; 2-6; 7.30-10 p.m.
SATURDAY, June 16—10 a.m.—12.30; 2-6; 7.30-10 p.m.

On Monday, June 18, we will take stock and receive tenders for unsold stock, tools, leather, machines, fixtures and good will. Dealers please do not apply this week as this week is for the individual only.

Prices are going to create a sensation. Values are unsurpassed. These values are possible only when a business is being absolutely closed up and sold out.

Little Boys' Boots from \$1.50 up.
Men's Boots from \$2.75 up.
No goods can be exchanged. The closing out of this stock means \$\$\$\$ to you. How many? That depends on the amount you buy.

Store will be closed until Wednesday at 2 p.m.
WANTED—5 experienced shoe sales people for balance of the week. Apply Tuesday evening at 8 p.m.

Shoe Store of the Late Mr. KEIN.
181 CHARLOTTE ST.

Ambulance Waits For Planes to Fall At Big Aerodrome

Ominous Preparations to Safeguard Traffic Are Part of Details Making Croydon Best Terminal.
London, May 20.—(By Mail)—Croydon aerodrome is now the most complete and up-to-date of all the flying terminals, according to "The London Daily Express."
It is far better equipped for the comfort of passengers than many of the great railway stations. Certain details of the organization for the safeguarding of traffic are in some ways ominous.
The first airplane fire engine, recently installed, stands in a corner of the ground. It is a motor machine loaded with chemical extinguishers. It stands, always ready for action, next to a Red Cross motor-ambulance.
An airplane's arrival is signaled by the notes of a great electric horn in the control tower, and immediately

the drivers of the fire engine and the ambulance start up their engines and stand by ready to dash across the landing ground should the airplane crash.
Custom officials at Croydon assert that they can deal with outgoing and arriving passengers quicker than their brethren at the Channel ports. Even the pilots of the machines have to pass through the Customs rooms. The average time taken in examining a passenger is less than two minutes.
Porters with carts, await the landing of each machine, and while the passengers are alighting their luggage is passed out from the plane and hurried into the Customs room.
A hotel with restaurant tea rooms, and forty bedrooms is a feature of the aerodrome. Meals are served at all times of the day or night. The license of the hotel has this peculiarity, that only passengers, pilots and persons regularly employed at the aerodrome may be served with intoxicants. People who go to Croydon to meet friends flying to London find the aerodrome as dry as the United States.
Ralph True, a young man of nineteen years of age, while working on the C. P. R. near Woodstock yesterday died suddenly. Coroner A. R. Foster held an inquest at Woodstock last night. The young man leaves his mother, two sisters and four brothers.

BRITISH COMMONS UPHOLDS IMPERIAL PREFERENCES

London, June 12.—(Canadian Press)—The House of Commons yesterday debated the amendment to the budget moved by A. J. Bonwick, Liberal member for Chippingham, abolishing the Imperial preferences conferred in the 1919 budget and defeated it finally by a substantial majority.
The amendment provided the free traders and the Conservatives an opportunity to air their well known views on the subject. Mr. Bonwick said the preference was a farce because it meant taxing foodstuffs and the country could not tolerate that.
Excellent progress continues to be made on the civic distribution system and the ornamental street lighting system. Up to last night, 75 per cent. of the poles had been erected in Cranston avenue. Excavation work on post holes is proceeding in Rockland Road. It was reported yesterday that the three big transformers had been moved to the civic sub-stations and would be set in place this week.
For the year ended May, 1922, Japan exported goods to the amount of \$40,000,000 from Germany.

MAY MEAN CANADA WILL SOON APPOINT WASHINGTON ENVOY

Fact Canadians Are Conducting Own Negotiations With United States on Seized Alien Property is Seen as Forecasting Permanent Ambassador.
(By Canadian Press)
Washington, June 11.—The representatives of the Canadian Government who are here to take up with the Washington Government difficulties over property in the hands of both United States and Canadian custodians of alien property were cordially received today. Secretary of State Hughes entertained the visitors at luncheon and President Harding received them this afternoon. They paid their respects to Ambassador Geddes this forenoon.
In the party are Sir Lomer Gouby, Minister of Justice; Hon. A. B. Cuyler, Secretary of State; Hon. William Pugsley, Canadian representative before the Claims Commission; E. L. Newcombe, deputy Minister of Justice; Thomas M. Mahvey, Under-Secretary of State, and Major Ralph, Canadian custodian of alien property.
The mission of the Canadians, in view of the fact that they are seeking to adjust alien property difficulties by direct negotiations, is regarded in some quarters as an indication of Canada's purpose to conduct its own negotiating with the United States.
In political circles here it was commented on as possibly indicative that it will be only a question of a short time until Canada has a permanent representative here. There is a widespread belief in Washington that sending of such a representative is likely to follow the Imperial conference in London in October.

How about bran? Is it a food?

Bran is the outer coat of the wheat grain. It is not present in white flour, or even in whole wheat flour. It is woody fibre. It is found in celery, spinach, lettuce and other vegetables. It is not digestible, hence is not a food. It supplies the "roughage" that is needed to stimulate bowel movement and keep the intestinal canal clean and healthy. All the bran of the whole wheat is in **SHREDDED WHEAT**. You need a certain amount of bran in your food every day, but you don't need any more than you find in Shredded Wheat Biscuit. Two of these crisp, tasty, oven-baked whole wheat biscuits with milk make a complete, nourishing, satisfying meal, supplying all the nutriment you need and all the bran you need. It is ready-cooked, ready-to-eat.

Eat more whole wheat

A SERIOUS FIRE SWEEPS RED BANK

Forty-three Buildings Destroyed and Loss Placed at \$175,000.

Fanned by a high wind, a fire which broke out yesterday at Red Bank, Northumberland county, in the residence of Isaac Blackmore, a house; J. E. Blackmore, house and barn; H. Mullin, a house; William Blackmore, a house; John Wells, a house; Wallace Johnson, a house, two barns and a warehouse; Frank Johnson, a house; John Gillis, house and barn; Elmer Parks, two large barns; Mrs. J. Gillis, house and barn; William McKibbin, a barn; Archibald Ramsey, store, house and barn; Ritchie Lumber Company, three warehouses and a barn; James White, a house, barn, hotel and several young cattle. ONE KILLED, ONE BADLY HURT IN TORONTO CRASH

Toronto, June 12.—Leonard Curtis, aged 38, garage man of Richmond Hill, was instantly killed and his companion, G. Ramsay, also of Richmond Hill, probably fatally injured yesterday, when a sedan driven by Curtis swerved off the pavement south of Thornhill and skidded into a south-bound radial car.

AT ODDS WITH GOVERNMENT.

Sir J. A. Aikins, Lieutenant-Governor of Manitoba, who has submitted a brief to Premier John Bracken protesting against the fact that the request for his signature to an order-in-council after the orders have been executed, is a reflection upon the office. The crisis may result in an election. The order-in-council referred to is one concerning investments.

A horse attached to a C. N. R. Express company wagon became frightened in Charlotte street yesterday afternoon and ran away. The horse and wagon brought up against a garbage can at the corner of Union street where it was caught. Little damage resulted. Another horse attached to a milk wagon broke away from its driver in Peters street on Sunday and ran a block before it was stopped.

AMUNDSEN WILL BRAVE PERILS IN POLAR FLIGHT

Explorer Prepared to "Take Off" on Perilous Trip This Month
Bergen, Norway, May 15.—(By Associated Press, by Mail)—Ronald Amundsen, the famous Norwegian Arctic explorer, will attempt his hazardous air flight from Point Barrow, in Alaska to Spitzbergen at the end of June. Between these two points he will traverse what has hitherto been the Arctic's "blind region," a territory of which nothing whatever is known.

EVIDENCE IN THE RICHARD CROKER WILL HEARING

Dublin, June 12.—The cross examination of Richard Croker, Jr., in his suit contesting the will of his father concluded yesterday without any noteworthy effect on the case. The next witness was T. J. Fleming, well known Dublin racing man, a frequent visitor at Richard Croker's residence, and one of the witnesses of his last will. His evidence, he said, was given reluctantly. He testified that he was rarely able to see Mr. Croker alone after the latter's second marriage, as his wife was "always there."

WEEK-END GARDENS CALLED REAL BOON TO STOCKHOLM

Stockholm, May 19.—(By The Associated Press, by Mail)—The regular week-end exodus of 7,000 industrial workers armed with garden tools is one of the unique signs of spring now appearing in the Swedish capital. Every one of these amateur gardeners has his own "colony lot" in the large co-operative garden colonies situated in what appears to be country, though actually within the city limits. Here he grows his own flowers and vegetables, and finds a retreat from the factories and city streets.

UPRISING to the eastward is a mountain, round-topped; to its crags and angles woe to gentle curves. It is clothed with balsam, spruce and poplar, variegated in tones of green; the evergreens dark, prim triangles rising above the lighter field. Half way up the hill at the focus of the "composition" stands a happy party. It has snuffed this Autumn from afar, and already stands ready, harnessed in chain-mail of fine brass.

A Hell What Ain't

UPRISING to the eastward is a mountain, round-topped; to its crags and angles woe to gentle curves. It is clothed with balsam, spruce and poplar, variegated in tones of green; the evergreens dark, prim triangles rising above the lighter field. Half way up the hill at the focus of the "composition" stands a happy party. It has snuffed this Autumn from afar, and already stands ready, harnessed in chain-mail of fine brass. The foreground is a meadow with patches of goldenrod and yarrow, and the morning sun upon it. Not far away is a lake, and a river of Laurentian softness. There may be trout here, but whether or not, one could fish all day with comfort. Catching a fish is merely an incident of fishing, especially in so desirable an environment. Yet the name of the place—or switching-point—so many miles west of Sudbury, so many east from Chapleau is TOPHET!

Use the Want Ad. Way

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans Private Wire) New York, June 12.—Evans says—The market continues drifting and professional. Even in the rail dept the earnings are phenomenally good, but little outside interest develops.

Hutton & Co.—"We think the absorption of best stocks in the rail group has been thorough and that upward swing will continue."

VAGABOND YELLOW RIVER MUST RETURN TO COURSE

Peking, May 11.—(By The Associated Press by mail)—The Yellow River, China's most treacherous waterway, which caused incalculable damage when it broke its banks two years ago and made a new channel, is to be returned to its original course.

W. H. Malloy, executive secretary of the China International Finance Relief Commission, estimated the cost of coralling the Yellow River at \$1,600,000 Chinese currency, of which sum the finance commission of the government Relief Bureau has provided \$360,000.

TENDERS

Sealed tenders will be received by H. E. Wardrop Common Clerk, City Hall, marked "Tenders for Coal," until 10.30 a.m., daylight, of the eighteenth day of June last, for the supply of coal required by the Departments of the City.

Fire Department

160 tons broken Anthracite. 40 tons Nut. 100 tons Bituminous Run of Mine. Police Department 17 tons broken Anthracite Coal. 17 tons Nut.

City Hall

40 tons broken Anthracite. 5 tons Bituminous Screened. Market 12 tons Chestnut Anthracite. Water & Sewerage Department 80 tons Egr (American) Anthracite delivered at Lester St. Yard.

Rails, However, Remained Firm—A Dull Day on the Montreal Exchange.

New York, June 12.—(Wall street, opening).—Speculative uncertainty over the ultimate trend of business and securities prices was reflected in the narrow and irregular movement of prices at the opening of today's stock market.

Noon Report.

New York, June 12.—(Wall street, noon).—Railroad shares continued their rise to higher ground, but most of the industrials were heavy under the pressure of liquidation and short selling.

C.P.S.S. Empress of Canada.

RUNNING on schedule, the Canadian Pacific Steamship's liner "Empress of Canada," Captain A. J. Haffey, again demonstrated her right to the title of "Queen of the Pacific."

BANKER DIES AS HE READS ORDER FOR HIS ARREST

F. C. Arnold Topples Over in Newark Home With Embezzlement Warrant in Hand—Poison Phial Near.

New York, June 12.—Frederick C. Arnold, president and manager of the Beneficial Loan Society of Newark, fell dead in his home in that city while reading a warrant which had just been served on him calling for his arrest on a charge of embezzlement.

According to the police, the amount of money involved may be \$100,000. The sum mentioned in the specific charge on which the warrant was issued is \$5,000.

Juliano and Cullen went from cell to garret without finding their man in every way. The detective search when Juliano noticed a door opening from Arnold's bedroom which he had not seen on their first visit to the room.

The door leads to a bathroom. Juliano knocked on it and was answered by the voice of Arnold. The detective made his identity known and told Arnold to open the door.

Arnold promptly opened the door. He was pale, but apparently normal in every way.

"You have a warrant," he said; "let me see it."

Juliano extended the paper. Arnold took it, walked into the bedroom and sat down, scrutinizing the warrant. Suddenly he toppled and fell to the floor, the warrant still in his hand.

Cullen and the detective sprang to the prostrate man. He was unconscious and breathing his last. Before a physician arrived he was dead.

An empty bottle which had contained cyanide of potassium was found on the wash stand in the bathroom. An autopsy probably will be performed to determine the cause of death.

Mr. Arnold, the banker's wife, was shopping at the time of his death.

MORNING STOCK LETTER. (McDougall & Cowans Private Wire) New York, June 12.—The tremendous success of the Austrian loan and the announcement that the special court in St. Paul had approved the merger of Central and Southern Pacific are the principal items this morning.

Reports on Canada's Crops

At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

BANK OF MONTREAL. Total Assets in Excess of \$650,000,000.00.

"RUM-RUNNING" IN IRELAND

This is the simple method employed by some of the manufacturers of illicit Irish whiskey to distribute their products. It is made in the remotest mountain districts of Ireland and smuggled into the towns and villages. In this case it is an Irish girl who is hiding the jars in a load of peat.

THE NATION'S LOSS

John Bull (to Bonar Law): "The whole world is with you in your retirement."

BY STEAMSHIP AND RAIL. Sail to Europe on the NEW DORIC, Sister of the famous REGINA.

Holds Step-Mother For Beating Girl

Most Ferocious Case of Child Beating I Have Ever Heard," Magistrate Says.

New York, June 11.—"This is the most ferocious and flagrant case of child beating I have ever heard and if it was not for the fact that I need time to think it over I would sentence this woman to jail right now," said Magistrate Max S. Levine in Essex Market Court recently in pronouncing Mrs. Antonette Ollinger, 86 years old, of 208 Avenue B, guilty of disorderly conduct. The woman was accused of beating her step-daughter, Nellie Doveski, 15 years old, with a wire carpet beater. The girl and several witnesses told of other beatings given the girl. Mrs. Ollinger said the beatings were infrequent and that the one administered Wednesday was because Nellie had taken 80 cents belonging to her step-mother. Nellie emphatically denied this. The girl stood before the magistrate in a new calico dress which the teachers of Public School 61, East Twelfth street, had purchased for her because, it was said, she had no other clothes to wear to court. She said that from the time she was 2 years old the only "relative" she had known was a John Doveski, who had adopted her. Two years ago, Nellie said, her foster father married the Ollinger woman, but in a short time he went away, to Bridgeport, Conn., she thought. The woman since

Every Minute Counts in the fight against constipation!

Once let constipation get a grip on you, and your system is wide open to 80% of human ailments. Statistics show that to be the proportion of illness that has constipation for a starting point. Pills and cathartics are as dangerous to the system as constipation!

Your physician will recommend Kellogg's Bran, because it is nature's own relief from constipation. It is scientifically prepared to relieve suffering humanity from constipation and it will do what no other food can do! It will give every sufferer permanent relief if it is eaten regularly—at least two tablespoonfuls daily; as much with each meal in chronic cases!

Kellogg's Bran is wonderful in its natural, positive action. It sweeps and cleanses and purifies the bowel

tract; it scours out the dangerous toxic poisons; it puts you back on schedule time without irritation or discomfort!

Don't delay eating Kellogg's Bran each day in some form! Try it as a cereal sprinkled over your favorite hot or cold cereal or cook it with hot cereals. In the latter case, add two tablespoonfuls for each person and mix with the regular cereal and cook as usual.

Kellogg's Bran is simply delicious made into muffins, popovers, raisin bread, macaroons, pancakes, etc. Recipes are on every package! For health's sake get some Kellogg's Bran immediately. All grocers.

First-class hotels and clubs serve Kellogg's Bran in individual packages. Ask for it at your restaurant.

then has used her first husband's name. Since then, she said, her step-mother compelled her to wash clothes and heaped all the drudgery she could stand on her and fed her mostly on coffee and stale bread.

On Thursday the teachers of Public School 61 saw the scars from the beating with the carpet beater on the girl's face. Miss Davidson, the principal, made an examination and found black and blue spots and lacerations on the little girl's body and lower limbs. The teachers notified the Children's Society and Agent John J. Whalen obtained a warrant for Mrs. Ollinger. Magistrate Levine turned Nellie over

to the Children's Society and sent the woman to jail to await sentence on tomorrow.

P. B. Yates, general manager for the Civic Power Commission, arrived in the city yesterday morning and immediately resumed his duties here in connection with the hydro programme. Mr. Yates motored down this time from St. Catharines, being accompanied by Mrs. Yates. He came from St. Catharines, via Schenectady, Portland, Bangor and St. Stephen. He reports that the road between St. John and the border is in fairly good condition.

Sleep is more important than food

Scientists tell us that life can be sustained longer without food than without sleep—sleeplessness is starvation in the first degree. Yet many who insist on clean, wholesome, nourishing food think but little about the quality of sleep they get. They are willing to spend their nights on a spring and mattress carelessly selected and hastily bought.

But there is a way to be assured of better sleep and the joy of physical fitness that follows it—Use Simmons sleep equipment.

Simmons "Banner" Spring

Before you go to bed tonight, see what your spring and mattress are like. Carry the mental picture to your furniture dealer's and compare what you have with the buoyant and flexible comfort of the Simmons "Banner" Spring and the Ostermoor Mattress. Set your own value on the sleep, health and energy their luxury insures. You pay two cents a night for years of service. See the "Banner." Examine the whole line of Simmons springs. They are economical because they do not sag or break down, but keep their life and resiliency for many years. Priced, like Simmons quality beds and mattresses, to suit any family budget.

Look for the Simmons Label. Beware of imitations

"The Torch of Verified Circulation"

Lights up the way for the Advertiser

The Telegraph and The Evening Times, with a combined daily net paid circulation exceeding 30,000 copies, are the only A. B. C. (Audit Bureau of Circulation) papers in the province of New Brunswick. These newspapers alone give the advertiser a verified circulation whose extent is absolutely known and established beyond question.

Mr. Advertiser, do you realize what this means?

All of the principal Canadian dailies are members of the A. B. C. That is, they give their advertisers, present and prospective, circulation figures which are audited, certified and approved by an independent court whose standing is recognized in business circles throughout Canada and the United States.

Mr. Advertiser, Look at this!

The Following Canadian Newspapers are members of the A. B. C.:

- St. John—The Telegraph and The Evening Times (the only A. B. C. papers in New Brunswick).
- Halifax—The Chronicle and Echo, The Herald and Mail.
- Charlottetown—The Guardian.
- Quebec City—LeSoleil, L'Evenement.
- Montreal—The Gazette, The Star, The Herald, La Presse, La Patrie, Le Canada, Le Devoir, The Standard.
- Ottawa—The Citizen, The Journal, Le Droit.
- Toronto—The Globe, The Star, The Mail and Empire and Sunday World, The Telegram.
- London—The Advertiser, The Free Press.
- Brantford—The Expositor.

- Brockville—The Recorder and Times.
- Fort William—The Times-Journal.
- Hamilton—The Spectator.
- Kingston—The British Whig, The Standard.
- Windsor—The Border Cities' Star.
- Winnipeg—The Manitoba Free Press, The Tribune.
- Saskatoon—The Star, The Phoenix.
- Regina—The Leader, The Post
- Calgary—The Morning Albertan, The Herald.
- Edmonton—The Bulletin, The Journal.
- Vancouver—The Province, The Sun, The World.
- Victoria—The Colonist, The Times.

Mr. Advertiser, in that list you have the chief newspapers of Canada. They give you an independent audit of their circulation by a universally recognized authority.

"Net Paid" circulation does not mean old lists of doubtful value. "Net Paid" means that every subscriber included in the figures is either paid in advance or does not owe for more than six months. The Telegraph and Times, remember, have a combined "net paid" daily circulation of more than 30,000 copies.

Figuring by circulation The Telegraph and Times rates are the lowest in the Maritime Provinces.

By putting the same ad in both papers you cover the city of St. John and the province of New Brunswick as with a blanket, so far as prospective buyers of your goods are concerned, for these two papers reach to a really wonderful extent the people in this city and this province who are in a position to purchase the goods that local or national advertisers offer for sale, be these goods bonds or toothpicks, razors or mowing machines, diamonds or medicines, shoes or silks.

Think over the facts, Mr. Advertiser. Just ask yourself quietly and thoughtfully what that chain of leading Canadian newspapers means. Their verified circulation is their greatest advertising solicitor. Think about "the torch of verified circulation."
