West Hard Hit By March Blizzard

One of the Worst Ever Experienced

Prairies Swept and Winnipeg Practically Isolated On Monday Night — Train Services Disrupted — Brandon Suffers and Regina Reports Tie-Up.

(Canadian Press) Winnipeg, March 16.—As the result of one of the worst March blizzards ever experienced in the west, railroad traffic and telegraph and telephone service here still badly crippled throughout the west. The storm, starting late Sunday night, swept across the prairie from Alberta, reaching Winnipeg at noon yesterday. Heavy wet snow, accompanied by high winds, carried away telegraph poles in several districts in Saskatchewan early Monday and gradually worked eastward until Monday night Winnipeg was practically isolated from all points west. All Canadian Press Limited wires were down, necessitating long distance reports from Vancouver as far east as Saskatoon and Regina. A million dollars reported services completely disrupted from the west this morning, but with clearing weather excesses today, many cases of snowdrifts are being improved. Several trains over the Canadian Government Railways were cancelled while others were running as usual as fifteen hours behind schedule. Canadian Pacific Railway services which being in many cases since behind running time, is being maintained. West of Winnipeg the storm seems to have hit Brandon hard, while Regina reports the worst tie-up in years. In Winnipeg the street railway service was being operated under difficulties.

GREAT SUMS IN INCOME TAX

Crush in New York on Last Day for Making Returns.

New York, March 16.—All day yesterday great lines of men and women from millions of laborers, fought for a chance to pay their income and excess profits taxes at the customs house. At midnight it was estimated that 400,000 returns had been made the final day. Unofficial returns placed the takings at \$25,000,000. Two hundred and fifty million to go into supply on the civil service estimate of \$257,000,000, was made the occasion of an important debate in the house of commons yesterday on the cost of living. Food Controller McCurdy opened the discussion with a speech intended to show that the present situation was unavoidable, and Mr. Asquith, a prominent part in the subsequent criticism of the government's financial and economic policy. The labor members protested particularly against the reduction in the bread subsidy to \$45,000,000 this year, but no action interfered with the government's vote to supply.

COST OF LIVING IS SUBJECT OF DEBATE IN BRITISH COMMONS.

London, March 16.—(Canadian Press) Motion to go into supply on the civil service estimate of \$257,000,000, was made the occasion of an important debate in the house of commons yesterday on the cost of living. Food Controller McCurdy opened the discussion with a speech intended to show that the present situation was unavoidable, and Mr. Asquith, a prominent part in the subsequent criticism of the government's financial and economic policy. The labor members protested particularly against the reduction in the bread subsidy to \$45,000,000 this year, but no action interfered with the government's vote to supply.

SUCCESS IN NEW YORK TO TRIUMPH ON STAGE

Paris, March 16.—American theatre audiences set the pace for the whole world, according to Andre Lecoq, writing in the theatrical daily Comedie. He declares that French actresses who return to Paris from America bring trunks full of newspapers praising them have a good chance to sign brilliant engagements even if the French public has not yet recognized them. "To earn considerable sums on the Paris stage you must first pass through New York," M. Lecoq says.

PREVENT SUFFERING OF FIUME CHILDREN.

Trieste, March 16.—General Cavallini, commander of Italian troops along the Fiume-Jugo-Slavia armistice line, has agreed to allow Italian troops to send children out of Fiume to Italian cities in small groups, beginning on Tuesday. The food situation is critical.

Ebert Holds To Rights; Civil War Now Threatens in Germany

Declares His Cabinet Will Rule, With Capital in Wurttemberg — Berlin in Throes of General Strike, With Revolutionary Death Sentence Over Heads of Leaders — Country Divided in Allegiance to Two Governments.

(By the Associated Press) Berlin is in the grip of a general strike, called by Socialists and Labor leaders as a counter stroke to the assumption of power by the government headed by Dr. Kapp, who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Unconditional surrender of the men directing the new government is demanded by President Ebert, who announces he will continue to direct the affairs of the troubled country from Wurttemberg. The German national assembly will meet in Stuttgart tomorrow afternoon at four o'clock.

FEISAL FIRST KING OF SYRIA

Independence Is Proclaimed, Palestine Part of Kingdom

Lebanon Adheres to Programme — Abdulla King of Iraq, Which Includes the Vilayet and City of Bagdad. Beirut, March 8, via Constantinople, March 15.—(By the Associated Press) The independence of Syria was proclaimed here today by the representatives of the Syrian people. Emir Feisal was proclaimed king, with Palestine part of the kingdom. The Syrian banner consists of a seven-pointed white star placed in the red field of the Hedjaz flag. Two similar stars placed in the same way will compose the pennant of Mesopotamia which is reported to have been declared its independence, with Emir Ahsan as king and Emir Zaid as regent. The new monarch will take the oath tomorrow at Feisal I. of Syria.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

NEW PROGRAMME AT OPERA HOUSE

All Vaudeville Numbers Have Been Highly Recommended—Have Many Features, Which Are Sure to Please.

From all indications the new programme in the Opera House tonight will be one of unusual interest. The five vaudeville acts are all reported to be exceptionally good and should prove pleasing to local patrons. The programme will be as follows: Three Pianos, Midgets, three diminutive comedians in a comedy variety offering with burlesque dancing, hand to hand balancing and a rattling good comedy boxing match; Kurt and Edith Kuchan in a refined musical skit in which violin selections, vocal solos and pantomimicallism will be featured; Florence Henry and Company, in an original one act play entitled, "The Real Remedy"; Baldwin and Shelton, in catchy songs, breezy chatter and pianology; Juliet Bush is a sensational aerial offering. In addition there will be another episode of "The Black Secret," featuring Pearl White in the leading role.

THE GREAT SALE CONTINUES

King Squares Sales Company Is Clearing Stock Completely.

"Everything must be sold; my prices are the lowest in the country, that this sale will be remembered by my customers for years." These words, coming from the manager of the King Square Sales Company, carry a certain significance, more noteworthy than advertising, because it was spoken to an acquaintance, but not a customer.

The big page of bargains that appeared in this paper last Friday was surely a catalogue of economy. At a glance, scores of big, whole-hearted bargains stand out; yet, in the manager's own words: "These are but a key, a suggestion of the hundreds of other offerings throughout the store."

Anyone interested in dry goods, men's, women's or children's clothing, hats, caps, footwear for all the family, umbrellas, jewelry, hosiery, traveling bags, leather goods, etc., should not miss this great sale.

Special staff of salespeople at your service; come early. Store opens at 8:30 a. m. and closes at 10:30 p. m. Everything must be sold.

WHY IS IT

That chronic skin diseases which have defied all other treatments yield to Zam-Buk?

It is because Zam-Buk is germicidal, and also has such power of penetration that it reaches disease in the underlying tissues and cures from the "root" up. That is the only way a permanent cure can be effected.

Mr. H. C. Buckley of 461 E. Broadway, Portland, Oregon, says: "For chronic skin diseases there is nothing like Zam-Buk. For fifteen years I had eczema, and I tried an endless number of so-called 'eczema cures,' but nothing was capable of curing me permanently until I used Zam-Buk. Ten months' use of Zam-Buk has effected a complete cure."

For ulcers, abscesses, boils, ringworm, blood-poisoning, piles, burns, scalds and cuts, Zam-Buk is equally good. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

TRURO DISCUSSES CHANCES OF BEING AVIATION CENTRE

Moncton and Amherst, Now the Other Towns Mentioned—Said \$25,000 Must Be Subscribed.

(Special to Times.)

Truro, N. S., March 15.—Truro's chance to become the headquarters of eastern Canada air lines and the centre of aviation in the maritime provinces was discussed at a meeting of the board of trade last night. The meeting was addressed by Colonel John Wise of Halifax, president of the P. E. Island Aerial Transport Co., Ltd., and Capt. L. E. D. Stevens, vice-president and managing director. It was said that the choice for headquarters lay among Moncton, Amherst and Truro and that the latter could get it by giving the company sufficient support. It is understood that Truro people would have to subscribe \$25,000. The board unanimously voted that the aerial concern be asked to submit a definite contract as to what they would do in Truro if \$25,000 stock were subscribed here. It is understood that Major Clayton Kennedy of the Aircraft Manufacturing Company, England, will be here on Thursday en route to Halifax to sell for England.

The board of trade last night passed resolutions against the proposed government and asking the provincial government to deny their acquiescence to Canada.

CANADA'S FIRE LOSS IS NOT DIMINISHING

Main Portion of Total is in Larger Losses of \$10,000 or Over—Carelessness and Neglect.

(John Dixon in Conversation.)

Fire losses in 1919—\$28,500,000. With the war over, with no munition plant fires, with industry under normal conditions, and with many interests advocating fire prevention, Canada, in 1919, reached the above enormous total of fire waste—a waste equal to \$2.90 per capita of her population.

Of the larger losses, there were 288 of \$10,000 and over. These larger losses are mostly of business properties or manufacturing plants. They make up the greater portion of the total loss, and the effect of this loss is widespread. With the destruction of the factory, employment is discontinued and the workman suffers; business is interfered with and the employer suffers. The keen competition of today, very often absorbs the market for a product before a business can be re-established, and the owners, realising this condition, decide not to rebuild.

Many of the smaller municipalities have as their chief support, one large industry. If fire should destroy this industry the community must almost cease to exist, or, alternatively, secure another, often by burdening itself to pay a bonus.

Employers and workmen are almost universally responsible for fires in factories. Through carelessness or negligence they allow conditions to exist which sooner or later create fire dangers. Through carelessness or negligence, largely, of home training. The greater number of our fires are in the homes, where little care is taken with matches, ashes, lighted cigarettes and cigars, etc. The careless man at home is careless at work, and this carelessness is the root of our fire loss problem.

To reduce our fire waste radical measures are necessary. Legislation or rules are of no avail unless enforced. Personal care and responsibility by both employer and employee are essential.

THE IMPORTANCE OF FREE SPEECH

(Canadian Finance.)

Speaking to the Montreal Canadian Club recently, Professor O. D. Slighton touched upon what he termed to be the extraordinary development of Prussianism in America which five years ago was not even a name. He said that in the past few years, newspapers have been suppressed, books forbidden to be sold, men expelled from the legislatures, simply because they were members of a particular political party. Most of this has happened in the United States, but Canada has also experienced the same conditions to a certain degree. Professor Skelton asserts, and many will agree with him, that these Prussian methods are doing more to develop unrest than ten thousand agitators would do in a thousand years.

LORD SHAUGHNESSY GIVES \$10,000 FOR LAVAL UNIVERSITY

Montreal, March 16.—The Montreal University committee, who started the last week of their campaign last night hoping to get not less than \$100,000, received their seventh day's haul of \$10,000 subscriptions yesterday from Lord Shaughnessy and St. Lawrence Sugar Refining Co., Ltd., respectively. Subscriptions of \$500 and \$100 from graduates of the university are pouring in.

A Contrast.

Vancouver Sun.—The contrast between the present talk of the Allies about getting Germany on her feet and the former wild, pre-election promises of indemnities to be collected is very striking. The fact is that Europe is in danger of punishing itself more than the Germans, however richly they may deserve punishment.

U. S. Supreme Court Withholds Decision on Matter of Prohibition Amendment.

Washington, March 16.—All phases of the prohibition question will be heard by the supreme court before handing down its decision upon the validity of the prohibition amendment and the Volstead enforcing act.

Having heard arguments in the Rhode Island, Kentucky and Massachusetts cases, the court today granted the state of New Jersey permission to institute original proceedings to test the amendment. It also fixed march 29 for hearing arguments in the New Jersey proceedings.

The two appeal cases apply principally to the validity of the prohibition amendment, in so far as it relates to the manufacturers of beer alleged to be non-indoxicating.

In view of the multiplicity of requests for hearings, the court postponed a two weeks' recess planned to begin on March 29.

DOUBLE SHOOTING IN MEDFORD, MASS.

Alonzo Miner Dead and Mrs. Mabel Gillis Has Five Bullets in Body.

Medford, Mass., March 16—Alonzo Miner, alleged to have shot Mrs. Mabel Gillis and himself while the two were walking through the streets yesterday, died last night. The woman is in a serious condition, with five bullets in her body.

Mrs. Gillis' mother informed the police that her daughter had quarrelled with her husband over a man who paid attention to her last summer at a resort. The mother did not know whether Miner was the man.

It is a great naval fortress of the first class and place of arms and it is also of considerable importance as a commercial centre. The commercial town has quite a modern aspect, the streets being generally wide, well paved and clean. There are eight government-

HEARTY ROTARY SONG WELCOME TO THE VISITORS

Dr. H. L. Spangler's Adaptation of "John Brown," One of the Features of Yesterday's Luncheon.

The following song with words by Dr. H. L. Spangler, and sung to the air of "John Brown's Body" was the Rotary Club's greeting to the western members of parliament yesterday. The last two verses were declaimed with fine effect by J. Royden Thomson and everybody joined in the chorus:

A ROTARY WELCOME.
The Rotary contingent welcome you to old St. John,
You must be tired of speeches so we'll sing a little song.
We're not so very musical nor much to look upon,
But we boost for our old town,
And we—
Glory, glory in expansion!
Glory, glory in expansion!
Glory, glory in expansion!
On Land and on the Sea.

What's good for you is good for us;
That's clear, and all can see;
What's good for us is good for you;
That's plain as A, B, C;
So help us with our Winter Ports; this outlet to the sea
And let us all agree.

To—
Glory, glory in expansion!
Glory, glory in expansion!
Glory, glory in expansion!
On Land and on the Sea.

Our harbor is the gateway to your homes, out in the West;
To keep the vessels moving we are sometimes sorely pressed;
Come now, let's pull together; let us do our very best
For this, Our Native Land.

And—
Glory, glory in expansion!
Glory, glory in expansion!
Glory, glory in expansion!
Of this, Our Native Land.

We've no ice in our harbor; it is open all year;
We've no reefs at its entrance,
Where the wrecks of ships are found.
We're asking this, our—our arguments are sound
And do it with a zest
For Home and Native Land.

And—
Glory, glory in expansion!
Glory, glory in expansion!
Glory, glory in expansion!
Of this, Our Native Land.

We need a spirit—National.
To get the other fellow's views
—Forget the East—the West,
Join hands and work for Canada
And do it with a zest
For Home and Native Land.

And—
Glory, glory in expansion!
Glory, glory in expansion!
Glory, glory in expansion!
For Home and Native Land.

RECENT DEATHS

The death of Mrs. J. W. Humphrey took place suddenly yesterday morning at her home in Moncton, at the age of forty-three years. She leaves her husband, three sons, two sisters and five brothers.

Mrs. Florence Milburn of Curryville died Friday night after a short illness.

The death of Emdon Ellis took place recently at his home in Bayview at the age of twenty-six years. He leaves his parents, one sister and three sisters, including Eva of this city.

Leo P. Billodou, formerly of Inglebright, Sask., died at the Lancaster Military Hospital yesterday after a brief illness from meningitis, at the age of twenty-six years. He has had considerable service in the Canadian Naval department during the war. After demobilization he was employed as salesman with the St. John Typewriter and Supply Co. He leaves his mother, one brother and two sisters, all in the west.

Mrs. Sarah Williams died at her home in Kioxford, Carleton county, March 16, at the age of eighty-eight years.

The death was announced in Montreal Saturday of Mrs. George Coster, wife of the late Dr. Coster, head of the St. John Grammar school for many years. In the early part of her life she went to Montreal from this city. She was eighty-nine years of age, and her death was due to an accident. She leaves two sons, including Charles J. of St. John.

B. B. Tait died at the Moncton city hospital yesterday morning, at the age of seventy-six years. He leaves three sons, two daughters and one brother.

ORIGINATOR OF 5 & 10 CENT STORE IS DEAD

Melrose, Mass., March 16—Joseph W. Fulton, pioneer in the five and ten-cent stores business, died at the home of his son, J. Arthur Fulton, treasurer of the Melrose Co-operative Bank, last week. Mr. Fulton was eighty years old, a native of Deerfield, N. H., and for some years conducted a general store in Methuen and Lawrence.

While in Lawrence Mr. Fulton started what is said to be the first five and ten-cent store in the country. The following year the Woodworth store came into existence and then others followed in the business. For thirteen years Mr. Fulton had been in charge of the plant of the Home Hardware Company at Surgeson, N. H. He retired from active business nine years ago.

He was also a veteran of the Civil War and was a member of Post 100 of Methuen. He also belonged to the Knights of Pythias and Royal Arcanum. He is survived by his wife, one son, a daughter, Charles J. Fulton, of Helena, Mont., and a sister, Mrs. Mary E. Rowell of Manchester, N. H.

Announcing Our Spring Opening and Promenade of Models

On Wednesday, March Seventeenth
Exhibiting Ultra Smart Apparel for Women, Misses and Children

Whether it is a Suit, Coat, Hat or any kind of frock—you will find it here fresh and lovely and in a host of original style innovations.

THE COATS FOR SPRING Have a Free Swing, an Out-door Breeziness, Yet a Well Defined Smartness.
They are well tailored and combine distinction and serviceability with a noteworthy moderation of price. Silvertone, Velours, Bolivias, Tweeds and other smart fabrics are used in their making. Loose, free hanging lines, narrow belts and shorter lengths are all new style features.

THESE SMART SUITS ARE Designed for Practical or Dressy Wear.
Developed in Serges, Tricotines, Tweeds and other very desirable materials. The Vested Suit is having a deserved popularity and handsome models richly embroidered in self color are also promised. The woman who prefers tailored lines can find a suit here to her liking too—and in a host of different styles.

NEW GOWNS FOR WOMEN Reflect the Spring in All Its Glory.
Afternoon styles are gay with touches of color and adornments of beads and embroidery. The Spanish lines are noticed in bolero effects and sashes. The English Eton is cleverly arranged and our own liking for straight lines is amply humored. Colors in these are exceedingly attractive.

BLOUSES ARE NEW AND DIFFERENT, Very Appealing in Line and Construction.
Groups of fine tucking, glimpses of colored embroidery, lovely beaded patterns, short sleeves and round or high necks makes an all inclusive collection. Combination blouses of Net and Georgette are new and very charming.

Spring Styles for the Kiddies

These must be seen to be appreciated. Enough to say that we will show Coats, Frocks and Hats for them as well as for their older sisters and mothers, and every model has a childish simplicity you'll approve.

Garments Will be Displayed on Living Models.

\$45,000,000 THEFTS FROM CARS SHOWN

Booby Double That in Any Pre-War Year.

Wholesale looting of merchandise in transit on the railroads of the United States caused a loss of approximately \$45,000,000 in 1919, according to United States railroad administration statistics made public recently.

This is estimated to be more than double the losses sustained in any pre-war year, but it is pointed out that the increased cost of the commodities stolen, roughly estimated to average 85 per cent, must be taken into consideration when comparing the losses in the days before with losses now. Nevertheless, there has been a steadily increasing number of packages stolen, and the organization combating the thieves have met an increasing ingenuity in diverting goods from their owners.

A technique of robbery has been developed so highly that the methods of "master thieves" are similar in the United States, England, France, Italy and Argentina, according to a recent report of the United States Chamber of Commerce in Argentina. Detectives, however, are inclined to discredit that organization's belief that a "widespread international organization" is at work stealing merchandise.

Substitution is the usual method used by the thieves. Sometimes boxes supposed to contain velvets are found at their destination to be filled with calico or other cheaper grades of cloth, but as a rule, waste paper is found. These are referred to as "concealed losses" by highway men, and are especially difficult to trace, as the shipment leaves and arrives apparently in good condition, and it is almost impossible to discover at what point the theft occurred.

The silk industry has been one of the most severely hit in the last year, and so great has the risk become that the railroad administration has been considering excluding raw silks from the privilege of freight transportation by rail.

PRENTICE BOYS' FAIR OPENED AUSPICIOUSLY

The Prentice Boys' Fair in West St. John was opened last night with a large crowd in attendance and all of the grand preparations were greatly to the liking of the patrons. The fair promises to be a very successful one. It is being held to raise funds for remodeling the hall. The committees in charge are as follows: General committee, A. L. Belyea, chairman; D. A. Duffy, vice-chairman; C. Price, treasurer; W. Donahue, secretary; Harry Sellen, Games, John Fillmore, E. C. Clark, Charles Campbell, Fred Campbell, wheel of fortune, E. A. Duffy, Charles Dykeman; ten pins, Frank Irwin; foosball, Fred Wilson; air-gun, Alfred Cameron; bagatelle, LeBaron Craft; devil among the tailors, Pierce Nichols; excelsior, Stuart Watters; bean bags, Archie Thomas.

The final door prize will be \$50 divided into three prizes, the first being \$20. The prize-winners last night were as follows: Door prize, double boiler, George Adams; bean bags, silver tray, J. Maxwell; foosball, electric lamp, W. Lamignon; nine pins, silver butter dish, F. Campbell; excelsior, flashlight, J. Maxwell; bagatelle, silver pickle dish, P. Ferguson; devil amongst the tailors, silver butter dish, S. Thompson; air-gun, electric heater, J. Connors.

VALUABLE LOT OF FURS TO BE SOLD BY AUCTION

Close on \$5,000,000 worth of choice raw and dressed furs are contained in the main warehouse of the Canadian Fur Auction Sales Company, Limited, Montreal, for the first public auction sale of furs in Canada, which will begin on Monday, March 22.

There are more than 800,000 muskrat skins, the value of which can be estimated when it is recalled that in New York a few weeks ago good skins brought \$4.00 apiece, and over 22,000 mink, more than 16,000 beaver, and more than 40,000 raccoon will be sold.

One of the features of the sale will be the magnificent collection of silver foxes from Prince Edward Island. Among these are many pelts quite the finest yet produced as to quality and size.

Unique items include thirty muskox skins and a collection of buffalo skins, the first to be offered for thirty years.

Harry P. Mosher and Miss Celia McDermott, both of St. John, were united in marriage at Amherst on March 10 by Rev. C. W. Rose.

Dr. and Mrs. Herbert Goodwin, of Baie Verte, who have been seriously ill with influenza are now improving. Mrs. Goodwin's sister, Mrs. Seymour Seaman of Moncton, in whom he will spend a week or ten days.

I. W. Burrell, who has been ill for some months past is unimproved.

GIRLS' BRANCH, ST. JAMES' W. A.

The annual meeting of the Girls' Branch of St. James' W. A. was held in the church rooms on Thursday evening, March 11. Reports of the officers were read. The treasurer reported having on hand a balance of more than \$100. In a very pleasing address the rector, Rev. H. A. Cady, presented to the retiring president, Miss Jennie Keo, and to the retiring Dorcas secretary, Mrs. Glen Sharpe, life membership badges and certificates. The election of officers for the ensuing year resulted as follows: Hon. president, Mrs. H. A. Cady; president, Miss Muriel Murray; 1st vice-president, Mrs. G. K. Holder; 2nd vice-president, Miss F. Allan; secretary, Miss F. G. Murray; treasurer, Miss Violet Gregory; Dorcas secretary, Mrs. A. Bentley; Extra Cent a Day treasurer, Miss Hazel Lewis; Letter Leaflet secretary, Miss A. Marvin; delegate to Annual, Mrs. A. Bentley; substitute to Annual, Miss V. Gregory; mission study leader, Mrs. G. K. Holder.

HONEYMOON ECONOMY

London, Eng., March 16—The real old-fashioned honeymoon—a four weeks' sojourn in some favored holiday spot—seems to be a thing of the past. War killed the custom. The high cost of traveling and inability to secure quarters has interfered with its re-establishment. A week-end at some resort is now enough for newlyweds.

**POKER HEARING
IN NEW YORK**

Statement of \$15,000 Won in Single Play

'Last Card Louis' Kronberg, a Manufacturer, Arrested After \$350,000 Stud Poker Series—Allegation of Marked Cards.

New York, March 15.—Louis Kronberg, president of the Bijou Waist Company, known to friends who played with him in a \$350,000 stud poker series as "Last Card Louis," was arrested last week on a warrant charging him with a violation of section 988 of the penal law, relating to cheating in a game of chance. He pleaded not guilty before Chief Justice Kernohan in special sessions and was released in \$1,000 bail.

The arrest of Kronberg, who lives at 728 West End avenue, followed a John Doe inquiry before Justice Kernohan by Assistant District Attorney McGrath on information that Kronberg had won hundreds of thousands of dollars by using marked cards in games played at his home; that of Joseph Schenck, moving picture producer, 270 Park avenue, at the McAlpin Hotel, and at Wave Crest Manor Hotel, Avenue.

Although the John Doe inquiry was secret, all material points in the testimony were made public after the arrest of Kronberg, who surrendered at the criminal courts building to Detective Daly, who had the warrant. Asked for a statement, Kronberg declined, and his attorney, Jerome K. Strauss of Max Steuer's office, said he would try his case in court only.

The testimony asserts Mr. Schenck made the first alleged expose after he had taken some of the decks of cards used to an expert, who pronounced them "readers" and explained how their faces

were revealed by shadings in a fleur de lis design on the backs of the cards.

Different Cards Found.
Walters and his boys at the McAlpin testified that though they had carried only one kind of cards to the rooms in which games were played, they found other cards in the rooms after the games. The McAlpin uses only a certain kind of cards, and the boys said the fleur de lis was shaded after the cards left the factory.

Dr. Leo Ehrlich, chiropodist at the McAlpin, testified that Kronberg left these cards in his shop twice.

This testimony was corroborated by Anna Fabre, nurse for Dr. Ehrlich. Nogai, Mr. Schenck's Japanese valet, testified that Kronberg always arrived before the other guests when a game was to be played, and on one occasion told him if he would serve him a drink he would help him arrange the cards and chips. When he brought them out Kronberg, according to the valet, remarked, "Never mind the chips; give me the cards."

The inquiry brought out that, among the players in the series, which ran through October, November and December, were, besides Mr. Schenck and

the turn of the last card, was called by the others "Last Card Louis." Mr. Silberfield testified that, as a "come-back," Kronberg always called the heaviest loser of the evening his "first violin" and the next heaviest loser his "second violin."

The testimony shows Kronberg lost a little money before the marked cards were said to have been used, but that after the latter part of July or the first of August he had been a consistent winner. During September the series was stopped, and its revival in October marked the real beginning of Kronberg's heavy winnings, witnesses said.

Mr. Silverman, in an affidavit, described the game on the night of Dec. 28 as particularly illustrative of the method of play of Kronberg in the face of what seemed overwhelming chances against him.

Won \$15,000 By One Play.
"In the course of that game," the affidavit of Mr. Silverman reads, "I remember a particular play in which Kronberg won \$15,000. After four cards had been dealt to each, all dropped out except Kronberg and Mr. Lewis. Mr. Lewis had in front of him an ace, jack and nine exposed, and one unexposed card. As it subsequently developed, Mr. Lewis unexposed card was an ace, and that of Kronberg was a three."

"Mr. Lewis checked the bet, meaning he passed it on to Kronberg to bet first. Kronberg bet \$1200. Mr. Lewis had \$5,700 in chips in front of him and bet it all, raising Kronberg's bet \$4500. Kronberg put in \$4500 more. Following the custom, Mr. Lewis proposed to divide the pot 75-25 before the last card was drawn. At this time Mr. Lewis had the higher hand, but Kronberg declined the proposition, whereupon Lewis told Kronberg he had him beaten and turned over the unexposed ace, saying the best Kronberg could have would be a pair of aces."

"Lewis then offered to let Kronberg withdraw \$3,200, but Kronberg declined all these propositions. The dealer was a man named Bartsch and Kronberg was entitled to the card on top of the deck, the back of which he could see. This card proved to be a four, thus giving Kronberg a pair of threes and a pair of fours, while the card dealt to Lewis did not improve his hand, and Kronberg won the pot, which was about \$15,000. All the cards used in this game were provided by Kronberg. I quit at this game \$7000 loser."

"At the conclusion of the game I took with me from Kronberg's home the last deck of cards used. I kept this deck in my safe until I produced it, pursuant to subpoena, to the district attorney. It has since been pointed out to me and I now know these cards are what are known as 'readers,' that there are certain marks thereon which indicate exactly what each card is to the person that knows the key."

Violation of Section 988 of the penal law is a misdemeanor punishable by six months to three years' imprisonment or a fine of \$1,000, or both.

Polarine
FRICTION REDUCING MOTOR OIL
Makes a good car better

Like the Keystone in the Arch

Correct lubrication is as important to your motor car as is the Keystone to the arch. Without correct lubrication your motor will not last or give you the full service built into it by the maker.

Imperial Polarine is the ideal winter lubricant for all motors. It lubricates freely, even at low temperatures—is fluid enough to flow between rubbing parts of the most delicate mechanism—preventing friction, minimizing wear and efficiently lubricating.

Correct lubrication by means of Imperial Polarine means a smooth running motor, instant acceleration and dependable power. By using Imperial Polarine you get more miles per gallon of gasoline, have fewer repair bills and use less oil. Every ounce gives full lubrication value.

**STUDEBAKER
Announcement
To The Canadian People**

THE existing prices of Studebaker Automobiles were determined, as they have always been, on the basis of exact equality of value between the American and Canadian dollar. Prices will not be increased to cover losses in exchange unless they become considerably more serious than they are at present, which we believe is unlikely. This corporation is a Canadian industry, employing Canadian labor, investing its surplus funds in Canadian Government securities depositing its working capital in Canadian banks, and paying large taxes to the Canadian Government. It respects and values the good-will and patronage of the Canadian people, and will not take advantage of a temporary emergency to increase the prices of its cars.

Danish majority has thus far been secured in any district. The German minorities are three or four to one.

HOW TO EARN FIFTY CENTS.

Chatham World: The Fredericton coachmen, evidently anticipating a considerable increase in the seasonal indemnity of the legislators, have jumped their fare from 25 to 50 cents. The new arrival, traveling light, has his choice between hiring himself at ten cents a minute to walk to the Queen or giving it to the coachman. Most of the arrivals would find it difficult to earn fifty cents so easily.

CANADIAN MADE SHOES

were made possible only by the pluck and perseverance of Canadian manufacturers who have built up an important and far-reaching industry, vital to the country's interests at this critical time in world finance, when the Canadian dollar is at a discount. Fortunately for the Maritime Provinces, these men of vision are not all in Ontario and Quebec. At St. Stephen, N. B., known as the home of great industries, invariably successful and nationally known, a thriving shoe manufacturing business was established seven years ago, and its high grade product is now favorably known to the trade from coast to coast. For the purpose of providing additional capital to take care of the rapidly growing business, and giving the investor the advantage of the good-will and reputation built up by the management through the seven years of successful operation, WE OFFER

\$100,000 CLARK BROS., LIMITED

Of St. Stephen, N. B.

8 p. c. Preferred Stock

Dividends payable quarterly, Feb., May, Aug. and Nov.
Price 100 and accrued dividend, yielding 8 p. c.

Clark Bros. manufacture high grade Mackay stitched ladies shoes of such well known brands as "Supreme Lady," "Winnie Walker," etc. Shoes are of a quality as good as can be made by that particular process and retailing at a price within the reach of 75 per cent. of the women of the country, a fact which at all times assures a wide and ready market.

Not only does the investor assist in the development of a Canadian industry, but he has the further assurance that the material used for these ladies' kid boots is produced in the British Empire, and is tanned and prepared in a Canadian factory which has sold its entire output to Clark Bros., Ltd., at a price which gives them a saving of 18 to 20 cents a foot over all competitors. As from three to four feet of leather enter into one pair of Ladies' shoes, the saving in cost at once becomes apparent. This firm is at present producing from 700 to 800 pairs a day and the increase in capital is designed to bring the plant up to full capacity of 2,000 pairs daily. Hydro-electric power at low cost is used in operation. The factory building, valued at \$18,000, is owned by the town of St. Stephen, and is rented on a seven per cent. basis.

Personality enters very largely into the success of a business of this kind, and Mr. John F. Clark, who continues as manager, has already demonstrated what grit and persistence will do. Associated with him are his brothers, James F. Clark, of Montreal, general salesman for the concern, and William E. Clark, also of St. Stephen, a practical shoe manufacturer. Insurance on the lives of these men for practically the amount of the entire issue, protects the preferred shareholders, the policies to be held by trust company.

For the benefit of prospective investors in St. John, a full line of the high class Ladies' shoes manufactured by this concern will be on display in the windows of Waterbury & Rising, Limited., on Monday, Tuesday and Wednesday of this week. See them and call on us or write for circular giving further particulars of issue.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, MARCH 16, 1920

Since I Discovered the Great Sweetener

THOUGH at the time it seemed nothing short of disaster, it really was a fortunate thing that I ran out of sugar—because it led to my great discovery. I used to think of Corn Syrup only as a spread for bread or griddle cakes. That I could ever use it for baking and cake-making never entered my head—until Mary came "over the New Year."

Mary is one of those resourceful women who are never flustered or taken unawares. When I broke the tragic news that I had barely enough sugar for the tea and coffee, and that the family would shortly be clamoring for their cake and the children rioting for their candy, and all the stores shut up and so on—Mary calmly led the way into the pantry. "Why what about my old friend CROWN BRAND?" pointing to the familiar blue and yellow tin on the shelf.

So began a new era in my baking experience. I will always be grateful to Mary for coming to the rescue. She proved the general utility of CROWN BRAND Corn Syrup in kitchen economy as "The Great Sweetener" in cake baking, in the making of hot breads, muffins, cookies, etc. She showed me how to prepare sauces that are mellow, smoother, more digestible, more appetizing. She explained the wonderful process of making CROWN BRAND Syrup from golden corn, how it was partially digested in the can, adding to its nutritional value enormously, and how its use as an ingredient enhances the value of all foods.

When I marvelled at her knowledge, she laughed and said: "What's a poor body to do without ingenuity in these days of the higher cost of everything? What a blessing it is that people of moderate means can obtain all kinds of appetizing desserts, the cost of which without 'The Great Sweetener' might be prohibitive, and then," she added insinuatingly, "it is so reasonably priced."

CO-OPERATION OF PRESBYTERIANS AND METHODISTS

(Continued from page 1) felt that the movement was of benefit to both Methodists and Presbyterians.

Dr. Steel was elected corresponding member of the presbytery at the close of his address.

Rev. Mr. Ross' report was then discussed. The first recommendation was that the Presbyterians supply at St. Martin's during the summer.

Rev. Mr. Dowling moved that action be deferred for the present.

The next recommendation was that the Presbyterians withdraw from Belle Isle and English Settlement and the Methodists from Norton.

It was moved that Rev. Mr. Malcolm and Rev. Mr. Gough be appointed a committee to confer with the Methodists of Charlotte county regarding co-operation.

Rev. S. R. Pringle's resignation was taken up. Mr. Pringle said that his resignation was provisional upon the union of St. Francis and Fort Kent.

The moderator read the resignation of Rev. Frank Baird from St. Paul's church, Woodstock, effective the last of June.

Mr. Baird said he had been there for nine years, and his associations there were very friendly.

Rev. Mr. Miller of Richmond was appointed moderator of the assembly of Woodstock.

David Lord of England Died on Voyage — Empress of France Met on Monday Off Cape Sable — Soldier Who Lost Both Legs.

The large C. P. O. S. liner Metagama arrived in port this morning after a ten days' voyage from Liverpool. The steamer had 567 cabin and 971 steerage passengers, in addition to general cargo and 800 bags of mail and 400 bags of parcel post.

During the voyage across the ocean the Metagama did not encounter any ice as she took the southern course.

Among the passengers were the following whose destinations were for points in the maritime provinces:

Mrs. C. Archdeacon, St. John; Mrs. L. M. Johnson, Tatamagouche, N. B.; Colonel F. and Mrs. Morrison, St. John; J. Puller, Moncton; F. Wainwright, Fredericton; Mrs. M. and Miss E. Wilson, Sydney, N. S.

Among the officers was Lieutenant H. Wainwright of Ottawa. The following soldiers arrived: Pte. T. P. Brock, Stratford, Ont.; Pte. W. E. Pettit, Toronto; Pte. R. M. Roach, Sydney, C. B.; E. F. Shadinger, Los Angeles, Cal.; J. P. Shearer, Toronto; E. Shepherd, France; Albert R. J. Siley, Radner, Pa.; George Sutton, Fredericton; P. A. Warden, West Toronto; F. J. Warden, Bay City, Mich.; H. P. Hollinshead, Assiniboia, Sask. Major St. George was in charge of the party.

Among the cabin passengers was Private Ernest Rowe of Winnipeg, who lost both legs during the war. He enlisted with the 44th Battalion in 1915 and after his arrival in England was transferred into the 5th Battalion.

The passengers left here this afternoon on special trains. The first got away at 2.15 with cabin passengers for Montreal and Toronto; the third was due to leave at 5 o'clock with members of steerage passengers for Montreal and Toronto; and the fourth was scheduled to leave at 6 o'clock for western Canada.

The Metagama is in command of Captain J. Turnbull and is a sister ship of the Melita, which is also in port.

ROTARY FUNCTION LIVELIEST OF ALL

Three Hours of Canadian Get-Together With the Visiting Members of Parliament.

On the editorial page of today's Times there is a very brief summary of the remarks of the visiting members of parliament at the Rotary Club luncheon yesterday, which was the liveliest function of the whole visit.

No other St. John man spoke except Rev. Canon Armstrong who in proposing the health of the guests, made an eloquent address, sparkling with humor and marked by a broad Canadian spirit.

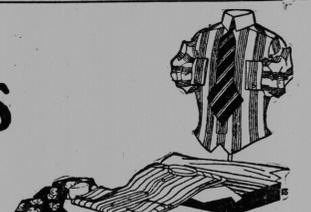

The visitors who spoke were heard with the keenest interest and heartily applauded. Bused by Dr. Spangler, was a feature of the three hours that passed rapidly, and at the close the whole party went with the visitors to their train.

Mr. Wignone very heartily expressed his thanks to his fellow members of the house for coming to St. John and to the citizens for entertaining them as royally.

THE WORK AND LOOK AT COURTENAY BAY

Officials Look for Breakwater Completion by September—Matter of Steel Shipbuilding.

A firm belief in the possibilities of development for harbor facilities, and its practicability as an outlet for the trade of Canadian National Railways, was expressed this morning by visiting officials of the St. John Drydock and Shipbuilding Co. Ltd. The work on the breakwater was spoken of in an interview with a Times reporter, and it was said that, with nothing unforeseen occurring, the job should be finished by late September. An announcement of special interest was to the effect that steel ships can and, undoubtedly, will be constructed at this port, and that the government aid is forthcoming in a sufficient amount to expedite construction by 1922, works at present planned for could be completed.

"What is the use of building a barn if you have no horse to put in it?" And what is the use of having a horse if you have no barn to put it in?" was a text used by one of the officials of the company today. The questions were followed up by this one: "What is the use of building a large fleet of government marine if there are no wharves, terminals or other facilities to receive them?"

The official said that when Lord Jellicoe was in St. John last week and in fact, that there were great chances for development at Courtenay Bay. He instanced the possibility of a large British warship needing repairs in Atlantic waters and said that, aside from American destroyers, there were none on this side which would be able to accommodate her, but docks large enough to take the largest ship afloat or contemplated could be built at Courtenay Bay.

The Breakwater. The company officials said, in speaking of the breakwater, that it had withstood the severe storms of this winter without the slightest damage. Reports of damage had reached Ottawa, and unknown to the company, government engineers had twice visited the works and found no fault, in fact it had been pronounced one of the best of such works in the world. It was pointed out that the cost of construction that the company had met, and the fact that the government had helped, the unfinished portion of the breakwater, pending the completion of the work was now six months ahead of the contract time.

It was said by the officials that the visit of the members of parliament to this port last week was very instructive of much good. They had been most favorably impressed. One of the biggest members of the party had said he had become convinced of the opportunities of St. John as a port for the benefit of the country as a whole and the argument was advanced to him that while it was desirable that Canadian trade, yet those ships would not gain that purpose if, because of facilities at Canadian ports, they had to berth in American waters.

The Courtenay Bay contract called for the construction of the huge dry dock, which has been previously referred to in this connection. It was pointed out that to secure as much work as possible, yet it was realized that there would not always be credit on the docks needing repairs. The idea was that steady work would be provided for the men engaged in the trade through the building of ships as well as the repair of them. The officials were confident that in a few years would see a remarkable development at Courtenay Bay.

Appointment of Turkish delegates to the peace conference was announced yesterday. Tewfik Pasha, former foreign minister, heads the delegation.

Stocks Sprightly At Wall Street Opening

Reported Collapse of German Revolution and Rapid Improvement in Exchange Have Influence.

New York, March 16.—Prompted largely by the reported collapse of the German revolution and the rapid improvement of foreign exchange, stocks rose vigorously at the lively opening of today's stock market. Gains of one to five points attended the initial trading in stocks, motors, equipments, copper, tobacco, and other commodities. A sharp reaction of two points in Texas Company was soon replaced with an actual gain of eight points. Leather, food, textile and chemical issues, as well as numerous miscellaneous shares, helped to swell the large volume of operations in the first half hour. Investment funds also displayed moderate improvement.

Noon Report. Substantial advances were made by Crucible Steel, General Motors and Texas Company, kindred shares also rising two to five points. Extensive trading was witnessed in the afternoon and much of this advantage was lost. Crucible falling back sharply. Reactions were partly offset, however, by free buying of the more staple issues, especially shopping, equipments, copper, tobacco, and oils of the Mexican group. Maintenance of the nine per cent rate for call money provoked further selling before noon.

Chicago, March 16.—Fresh strength which manifested itself in the corn market today was associated with reports that for the first time in several years the elevator companies, which have been carrying over a surplus of grain, are beginning to buy. Initial quotations, which ranged from 1-4 cent to 1-3-4 cent up, with May \$1.33 1-4 to \$1.33 1-2 and July \$1.22 to \$1.47, were followed by general upward movement, but then by a rise higher than before. Dates advanced with corn. After opening unchanged to 8-8 to 1-2 cent, including July at 77 to 1-4, the market was a little, and then resumed its advance.

Heavy Troop Reinforcements in Berlin—Chancellor's Chances for Stable Government Not Regarded as Much.

Berlin, March 16.—Heavy troop reinforcements were received yesterday by the new government in Berlin. The troops marched into Berlin from various nearby garrisons.

Chancellor Kapp, who was carried into office on the point of only 8,000 bayonets three days ago, has today for the first time produced only military backing for his government. The basis of his political authority and the source of the support other than military, which he claims, continue to be matters of profound mystery.

Notwithstanding this the new chancellor appears buoyant with optimism born of the conviction that the insurrection with organized German labor in a struggle for mastery. However, if the general strike which is already paralyzing the nation's vital industrial plants and which is expected swiftly spreading to the rest of the country, should be maintained for only three days, the view of many observers here is that it would be unreasonable to assume that he would establish his government firmly, despite his armed forces.

Strike Growths. London, March 16.—The strike against the coup d'etat in Germany has increased in dimensions and significance, says a despatch to the London Times from Berlin, dated Monday.

According to reports received here, the despatch adds, the German workers are using the old Prussian method, imprisoning the old democratic ministers and labor leaders and who are offering opposition to it.

Paris, March 16.—The Kapp government in Germany has declared a general strike on the railways, according to the Lokale Anzeiger of Berlin.

Berlin, March 16.—Workers at Kiel have suppressed an attempted military counter-revolution there, and the situation is well in hand, says a despatch to the Central Democrat from that city.

London, March 16.—M. Bruyere has been appointed by the French government as its unofficial representative at Stuttgart, the provincial seat of the Ebert government.

London, March 16.—The new government at Berlin held a cabinet meeting last night, attended by Gen. Ludendorff, according to a despatch to the Exchange Telegraph Company from the German capital by way of Amsterdam.

Berlin, March 16.—Fifteen persons are reported to have been killed and many wounded in fighting yesterday at Stenitz, in the southwest outskirts of Berlin. At Charlottenburg a westerner and a Berlin, four persons are said to have been killed and six wounded.

London, March 16.—The working classes are much excited against the Kapp administration, a consequence of the shooting of a young girl in the north Berlin railway station and the killing of four persons in the north Berlin industrial section by guards, according to a Berlin despatch to the Evening News.

London, March 16.—A new government was formed at Munich, Bavaria, yesterday, composed of Democrats and the Centre Party, according to a Copenhagen despatch to the Central News. It says the new government will meet today.

PREMIER IS TO SPEAK IN HOUSE THIS AFTERNOON

No Evening Session at Fredericton But a Government Caucus Will Be Held.

(Special to Times) Fredericton, N. B., March 16.—Premier Foster will be heard this afternoon when the legislature resumes. It is not expected that any other speakers will be heard this afternoon, and they will have no evening session. The government members will meet in caucus this evening.

With several of the railways blocked, the attendance of members is likely to be small. Among absentees are: Hon. Mr. Baxter and Mr. Tilley of St. John. There has been no notice of opposition caucus this evening, and until such a conference is held the attitude of the members on that side of the house in several matters will remain in doubt. Corridor comment on Friday indicated that the opposition leader had not taken the trouble to secure the approval of his colleagues before springing his announcement of policy with regard to the crown lands, and this added to the general uncertainty and uneasiness which has followed the farmers' convention in St. John last fall appears to be but another indication that the inner councils of the opposition party have been marked by harmony and brotherly love.

THE RATE OF STAMPAGE (Fredericton Mail)

A resolution calling for an increase in the rate of stampage by \$7 a thousand was submitted to the legislature yesterday. It was brought forward in the form of an amendment to the address by Leader Murray, and was seconded by B. Frank Smith. The record of the present opposition in connection with the management of the crown lands has not been forgotten by the people of the province. When in power they renewed the long term leases and collected a hoard of money from the lumbermen amounting to \$100,000. In return for this they were quite willing that the rate of stampage should be fixed for a period of ten years. The present administration can be counted on to deal with the stampage question in a business like way and in a manner that will be in the interests of all the people. The gallery will be open to the public and its followers is intended for the benefit of the organized farmers, but it will deceive nobody.

AN IMPORTANT ADDRESS. Frank H. Keefer, M. P., for Fort Arthur, under a grant of leave of absence for external affairs, addressed the Canadian Club at Bond's today. His subject was British trade and Canadian trade relations. Sir Douglas Hazen presided. Another guest was Mr. Wood of Halifax. Hon. Mr. Keefer is here in the interests of trade with Canada. Mr. Keefer's speech was intensely interesting and filled with valuable information. He made it clear that now is Canada's time to get trade with the southern colonies of Britain.

Montreal Market. Montreal, March 16.—Montreal stock market made a featureless start today. Brazilian reacted a point to 84 1/2, iron 12 to 70 and sugar 1/4 to 85. Detroit was firm at 107, with that price for more stock offered at 108. Smelters were steady at 29 and Ontario Steel products at 29.

AFTERNOON POLICE COURTS. Bernard McHugh, arrested by Inspector McAlain in the Union Station on charge of drinking in the lavatory, before the police court this afternoon, charged with having liquor in his possession other than his private dwelling. Two full bottles and one partly full were recovered. No disposal of the case was made at the time of going to press.

INCORPORATION OF HAMPTON. Bill for Water and Sewerage Purposes to Be Presented to Legislature.

Having gone into the matter thoroughly and investigated the possibilities of the incorporation of the village of Hampton for water and sewerage purposes, a committee appointed for this purpose made a report to the ratemakers last night at a meeting in the county court house. J. W. Smith was in the chair, and after some discussion the report of the committee was received and it was decided to draw up an act suitable to the conditions of the community and present it in Fredericton during the present session of the legislature. It is possible that the development in respect of water and sewerage will be commenced in the early spring, when the ground will be in a workable condition.

MR. ROWELL GIVES NOTICE IN HOUSE FOR PENSIONS COMMITTEE. Ottawa, March 16.—(Canadian Press) Hon. N. W. Rowell has given notice before the police court this afternoon, charged with having liquor in his possession other than his private dwelling. Two full bottles and one partly full were recovered. No disposal of the case was made at the time of going to press.

RENTING VACANT ROOMS IS A PUBLIC DUTY. Adequate shelter is one of the first necessities for man, woman, girl and boy.

Many well-to-do people are renting rooms to young men and women because they realize that by doing so they render an important service to the community.

Renting vacant rooms is highly profitable, but it is a duty as well.

IF RAILWAYS WERE ELECTRIFIED

Fuel Saving and Increased Track Capacity Two of the Results.

Fuel saving and increased track capacity would be two of the important results from the electrification of the railroads of the country, it is stated by the Nation at Bank of Commerce in New York in the March issue of its magazine, Commerce Monthly.

"It would not be without precedent," the magazine declares, "if the next decade witnessed England and the continent outstripping this country in the exploitation of another industry which, while possibly not conceived here, has certainly been more fully developed in America than elsewhere."

"It is again that we must take a long-sighted view of the future of our railroads," Commerce Monthly continues. "They must be given such freedom to develop and to improve their facilities that they will not be required to enlarge their facilities merely on the basis of the immediate pinch, but will be able to introduce improvements from the standpoint of return a decade or two decades hence."

"Traffic on our railroads normally doubles every twelve years. Practically all improvements have been postponed for a long period. When the process of rehabilitation begins, it will be well to consider devoting to electrification part of the tremendous sum which will have to be spent."

The magazine points out that it is estimated that two and a half billion dollars must be spent in the next three years to meet the accumulated and the current annual need for improvements. It then cites the fact that although in the United States electrically has been substituted for steam to a greater or less extent since 1895, plans for future electrification are more extensive abroad than at home.

PROHIBITION IN NEW ZEALAND

Signs in Recent Election De-feat Said to Be Encouraging - Few Votes Cast for State Control.

Wellport, New Zealand, March 12 - After a long and arduous struggle in trying to combat the liquor traffic, the prohibition party in New Zealand has again, when almost within sight of victory, to admit defeat.

Now that official results have come to hand, with a few returns still to come, but which cannot alter the main decision, the results are as follows: For continuance 239,816 For state purchase 31,621 For prohibition 899,048

These totals give a combined continuance-state purchase majority against prohibition of 2,289 votes, but the prohibition total is only 1,245 votes short of

the absolute majority required to carry an issue. There are still two returns to come from troops on the sea, but these cannot, to any extent, affect the main issue.

But to review the result, which is disappointing in that New Zealand has not attained her object, prohibition, and has to wait for another three years, things on the whole are encouraging, when one considers the vast strides toward prohibition made in some of the electorates, which formerly voted continuance, and which now, had local option been in force, would have been dry.

Position Improved. Owing to the unfortunate way, from the prohibition point of view (and, of course, at the instigation of the liquor trade), in which the issues were framed, the position is very much better than was anticipated six months ago.

When prohibitionists found that they could not win in April, and looked ahead to the next poll, at which they had to secure a majority over the two other issues, it seemed a sheer impossibility. And yet, what is the result? They came near carrying prohibition despite this great handicap.

One of the surprises of the election has been the small number of votes cast for state control, which gives the impression that on a straight, fought-out contest between dry and wet, dry would have been carried.

When the women of New Zealand got the franchise great results were expected from their votes on the liquor question, and it was anticipated that the women's vote would have tipped the scale for prohibition. That this has not been the case is disappointing, the results proving that many women must have cast their votes for continuance.

Women and Prohibition. Why women should vote against prohibition seems a source of wonder, for it is the women and children who are the greatest sufferers from the drink traffic.

Then, too, has come the soldier's vote, although here, again, there is great cause for rejoicing, for many soldiers, who at the April election voted continuance, must have cast their votes for prohibition in December. Some of the soldiers, when asked on their return why they voted for continuance in April, remarked that when in England the liquor trade had entertained them so royally, often providing motor cars and drays, and not only making all arrangements but paying all expenses, that, to use the soldier's own expression, it would have looked like "going back" on their friends to have voted otherwise.

Taking into consideration the amount of opposition that had to be met from the press, for almost all the most influential press organs were opposed to prohibition, and the extremely powerful and well-organized liquor propagandists,

THEFT OF \$50,000 DIAMOND NECKLACE

Mrs. Ladenburg's Property Recovered and New York Elevator Man Arrested.

New York, March 16 - S. Rothman, an elevator man, was arrested last night charged with stealing a \$50,000 diamond necklace from Mrs. Emily Ladenburg, widow of Adolph Ladenburg, and once reported engaged to Colonel John Jacob Astor. The jewels have been recovered. Mr. Ladenburg, who was a wealthy broker, disappeared in 1896 from a vessel bound from Nassau to New York, and the certainty of his death was never established. In 1908 Mrs. Ladenburg went to Germany to investigate a report that he was living in that country, but found no trace of him.

NEED EIGHT MILLIONS MORE TO SOLVE HOUSING PROBLEM

J. A. Ellis, Director of the Bureau of Municipal Affairs, Makes Report to Ontario Government on Housing Work During Last Year.

(Toronto Globe) Eight millions more will be needed if the requirements of Ontario municipalities are to be met in the matter of housing, says J. A. Ellis, director of the Bureau of Municipal Affairs, in his report to the government on housing for last year. The government has not yet announced its policy on the housing question. All the money from the dominion plus what the province provided has been appropriated to Ontario municipalities. No money is being promised just now to others.

Mr. Ellis' report gives in detail the work accomplished and shows that ninety-nine municipalities during the year passed by-law and proceeded with housing under the act. James Gowen, the chief architect, in his report speaks of the improved planning of the houses and makes several suggestions. He advocates letting men build their own homes as far as possible, stating that it increases their interest in the house and in the neighborhood.

High Cost of Production Mr. Ellis points out that since the act was passed the cost of construction has greatly increased and, taking an average for the province, is at least twenty-five per cent. greater than it was in March, 1919. This, he states, has added difficulty to obtaining the most desirable results.

Following are the number of houses built by municipalities and the loans secured: Acton, one, \$2,000; Barrow, two, \$5,000; Belleville, two, \$4,700; Brantford, one, \$8,000; Brantford township, twenty-four, \$62,707; Beaverton, two, \$5,000; Bellefleur, two, \$4,700; Brantford, one, \$8,000; Brantford township, thirty-four, \$116,000; Capreol, four, \$41,000; Chippewa, four, \$12,000; Guelph, twelve, \$86,000; Elmira, five, \$15,000; Englehart, three, \$8,500; Etobicoke, eight, \$24,000; Ferris, eight, \$24,000; Ford City, forty-one, \$19,000; Fort William, three, \$8,500; Galt, five, \$17,083; Goderich, two, \$3,000; Guelph, twenty-three, \$97,586; Guelph township, one, \$8,000; Hamilton, eighty-four, \$296,150; Hawkesbury, thirty-five, \$184,184; Humbertown, five, \$12,800; Ingersoll, seven, \$16,000; Ironquias Falls, fifty, \$150,000; Leamington, five, \$14,100; Littleton, nine, \$29,700; London, twenty-two, \$6,000; Merritt, three, \$1,500; Midland, twenty-one, \$59,048; Milton, two, \$5,000; Milverton, eight, \$28,800; Mississauga, two, \$8,000; New Toronto, forty-five, \$187,000; Niagara Falls, seventy-nine, \$215,161; Ottawa, fifty-six, \$225,500; Paris, nineteen, \$50,000; Perth, seven, \$16,700; Point Edward, four, \$12,000; Port Arthur, six, \$17,000; Port Colborne, twenty-six, \$71,694; Port Dalhousie, seven, \$19,500; Port Dalhousie, five, \$12,250; Port Maitland, three, \$5,000; Renfrew, two, \$6,000; Richmond Hill, one, \$2,800; Sandwich, eight, \$43,800; Sandwich East, three, \$8,500; Sarnia, eighteen, \$62,000; Sault Ste. Marie, fifty-seven, \$180,450; St. Catharines, forty-one, \$118,070; Smith Falls, one, \$4,000; Stamford township, four, \$18,000; Stratford, seven, \$18,400; Sturgeon Falls, three, \$8,500; Sudbury, thirty-two, \$84,000; Tarn, two, \$4,000; Thornhill, eleven, \$28,800; Timmins, eleven, \$48,000; Trenton, three, \$8,800; Walkerville, sixteen, \$50,000; Welland, sixteen, \$63,650; Whitby, three, \$1,400; Windsor, ninety-five, \$824,000; Woodbridge, three, \$9,000; Woodstock, seven, \$19,850; York township, \$125,044.

Notwithstanding the heavy discount in the pound sterling in this and in some other markets, the trade position of the United Kingdom has shown such consistent improvement during 1919 that, if American exports are to be maintained on a satisfactory level, Americans must be prepared to meet in friendly rivalry the vigorous British competition in every buying market of the world, is the conclusion drawn as the result of an analysis of the situation in the March issue of Commerce Monthly, published by the National Bank of Commerce in New York.

The evidence of this betterment of the British trade position, it is pointed out, is a drop of from £74,000,000 in 1918 to £69,000,000 in 1919 in Great Britain's adverse balance of trade. The great recuperative power shown is due to the fact that the war has not deprived the United Kingdom of her geographical advantage or of the accumulated knowledge and experience of centuries of international trade. Besides, board of trade estimates cited indicate that more than two-thirds of the so-called "invisible exports" was met in 1919 by "invisible exports."

Lower prices for commodities are probable as a result of contraction of domestic consumption and a decline in exports due to unfavorable European rates, it is declared by the National Bank of Commerce in New York in the March issue of its magazine, Commerce Monthly. The bank expresses the opinion, however, that price reductions will not bring on a radical price drop, but that there will be a gradual readjustment.

Even Advertising Stunts
Says H. T. White of the Pelletier Co. Co., Inc.:

"One. We ran a series of feature sales, the important feature being heavily advertised every day, the advertisements numbered, so that when a woman ordered the advertisement and number we would know it belonged to a series and be on the lookout for those to follow."

"Two. Another feature was to revive one of the quaint old fashions of the late 1870s, as exploited in Godey's 'Vogue' of that period. We made appropriate window displays, featuring the styles of 1870 in different ways in our advertising and other displays, drawing numerous eulogistic comments from our customers, particularly elderly ones."

"Three. To get in touch with suburban people, we ran a series of advertisements, running them on five consecutive Fridays, dedicating each advertisement to one particular suburb. We secured information concerning the growth and progress of this suburb from one prominent man in the community, which we included in an editorial in the investment, giving this man proper credit for the details supplied. Handbills were also distributed in these suburbs the days dedicated to them, and these contained business-building information concerning the suburb obtained from the number of commuters, and also drawing attention to our advertisements and ideas."

"Four. Another stunt was a month's drive for 5,000 new customers. The month was spent in putting on these drive-in days, they expanded all their energy and ammunition on the first day of each week, and then relaxed their efforts. The first week we put on a dollar sale, featuring dollar merchandise of all kinds. The next week we ran a ready-to-wear sale, still another week that appealed especially to the children and as a wind-up we ran a large thermometer at the centre of our advertisement showing our progress in dedicating attention to our customers are charge ones and as we opened up 2,500 new accounts, we have every reason to believe we secured the 5,000 new customers for which we signed."

"Five. Another idea we used to advantage was to offer \$5 for every parcel, usable idea sent in by our sales force for the betterment of our store. Excellent ideas soon started to come in. A happy day was suggested to us, we adopted during armistice week when we used hundreds of smiling faces in our advertisements to depict happiness, carrying out the idea in all our advertising and display features."

"Six. Another suggestion we adopted was designed to encourage the shopping of children for mothers too busy to come themselves. We had a card sent out to the mothers for use in sending their children and every care was used in attending to their requirements."

MERCHANT OUT WITH THE FACTS STOPPED HER HEADACHES

Feels it His Duty to Tell Others How Well Tanlac Has Made Him.

"I feel that I am only doing my duty when I recommend Tanlac for it is the direct cause of my being in better health today than I have been for years," said Elijah N. Thomas, Lower Sackville, Halifax, Nova Scotia, who is well known in that locality, having been in the general merchandise business for 18 years.

"For the past six years I have suffered from bad form of stomach trouble, and although I had tried many different treatments and medicines I never found anything to help me until I started taking Tanlac. My appetite was so poor that many times it would get up from the table without touching a bite and when I did eat a little something I would have a terrible distressing feeling in my stomach, gas would begin to form and press against my heart causing it to palpitate irregularly and I had great difficulty in breathing. I was constantly belching up sour undigested food, with heartburn nearly all the time, and there was always a bad taste in my mouth. Then, too, I would have terrible cramping pains which at times were so bad I could not straighten up when walking and would have to sit around all humped over. I got up almost every morning with a dull, heavy headache which would stay with me all day. I felt tired and worn out all the time and often was in such misery and felt so weak, I just had to leave the store and go home and lie down. I was losing weight all the time, gradually getting weaker, could get but little sleep, and when I started taking Tanlac was in such a miserable condition that it is impossible for me to describe it."

"I saw so many statements from persons who had been benefited by Tanlac I decided to try it. I will have to say, however, I was rather disappointed with the results of the first bottle, and was on the verge of giving it up, but Mrs. Thomas persuaded me to try another bottle, and she was right, for my case was of long standing, I am now certainly in good condition and I can do just anything I wish to do."

"I am never troubled with that distressing feeling, my sleep is now sound, my head is clear and I feel no more of that terrible cramping pain. I sleep fine, my appetite is good, and I feel no more of that terrible feeling. Yes, sir, I think Tanlac is a grand medicine and would advise any one who is afflicted with it."

Tanlac is sold in St. John by H. S. Drugg & Co., Ltd., the leading druggist in every town.

THE WINNIPEG TRIAL

\$14 A WEEK LIVING WAGE

11,000 Women Get Less - Ontario Government Being Asked to Adjust Conditions.

(Toronto Telegram.)

Fourteen dollars a week at a minimum wage for working women in Ontario! That amount is considered to be a conservative estimate by the industrial life committee of the Social Service Council of Ontario. To adjust conditions, which are considered appalling, the committee will wait on the Ontario government tomorrow noon, asking that a permanent commission be appointed with power to fix a minimum wage and to ascertain from time to time what it should be in accordance with the cost of living.

The committee reports that board and lodging today costs \$8 per week. Clothes, recreation, car fare, medical and dental expenses, and other incidental expenses aggregate \$6. Therefore, a woman earning \$14 a week has but a "hand to mouth" existence at best.

The committee canvassed 16,425 women and 17,024 men, industrial and office workers, throughout the province. Of this total 89.3 per cent of the women received \$10 or less per week, as did 8.8 per cent of the men.

Eleven thousand of the 16,000 women canvassed received \$12 or less per week, which is regarded by the committee as less than a minimum wage for a decent subsistence, while 12.5 per cent of the women received less than \$12 per week.

Some Get Under \$7.

The figures compiled show that 64.6 per cent of the women employed in the manufacture of biscuits and confectionery earn \$10 per week or less, as do 88 per cent of those engaged in the production of boots and shoes, 76.4 per cent of the women manufacturing paper boxes and bags, and 87.1 per cent of those employed on carpets.

Seventy-nine women canvassed employed in the manufacture of agricultural implements showed 7.6 per cent receiving \$10 per week or less. Another investigation showed 22.6 per cent of a certain class of women workers receiving \$7 per week or less, and another canvass showed 36.8 per cent of the women employed earning less than \$8 per week.

A deputation representing the Hon. Mr. Drury and asking that the government take up the question of defining the term "intoxicating" as applied to liquor. They urged that the present limit of two and a half per cent proof spirit be increased to two and a half per cent alcohol. It was contended that the present content does not make liquor intoxicating, but did enable the brewers to produce a more palatable beverage. The deputation also pointed to the question of what alcoholic content within bounds.

Colored Photos Show How Houses Look

If the women of a certain Kansas city "print" the furniture in their own homes, the handles print is largely to be blamed and the word does not carry any particular reference to camouflage, either, except as it might mean to camouflage a house that did not care to look as old as it really is.

Each year there are houses in that city getting to the point where they require a new coat of paint. And last year a number of these were spotted and photographed in their own homes. The finished prints were then turned over to a girl in the local studio who colored the slides. The store has on hand a loose-leaf scrap book furnished by the manufacturer to suggest color combinations for customers. The paint man refers to this book and picks out a combination that he thinks would do the house justice and instructs the colorist to color the print in that combination.

The next step is to call on the woman of the house with the colored print in the salesman's hands. He mentions that he happened to notice that her house was about ready for a painting and he thought he would offer a suggestion. He then springs the photograph. It has all the effect of the usual color scheme picture in it being her own house. She is brought to consider it and to get her imagination to work. Even if she does not accept the suggestion, she takes kindly to the call and is likely to let the store furnish the paint when she does get to the point where she wishes to paint—an arrival that is hastened by the salesman in his talk. The print gives him something with which to "come on the stage."

Once in a while, in the season, colored slides are turned out from these neglected houses to be noticed with our point is this attractive residence of Mrs. Henry Jones. Glad to furnish you free color photograph of your home."

THE TARIFF AND PRICES.

London Advertiser. The leader of the liberal party is reflecting the real sentiment of the country when he urges a measure of relief that will aid in reducing the cost of living. There are many factors entering into today's cost of subsistence, but one factor upon which all are agreed is that of the tariff. We are paying more to labor in dollars, but giving less in purchasing power. We are urging the farmers to produce more, and while we urge them to dig we raise the price on the spade. If the returns really went to the country it would be a different matter, but they do not go to the country. A tariff of 40 per cent keeps out foreign products, and the producer raises his price to the very point where the competition would enter. The foreign products being kept out there is no tariff revenue, but the price of the goods is raised to the 42 per cent that he is allowed in protection. It is the consumer who carries the price on the spade. If the returns really went to the country it would be a different matter, but they do not go to the country.

Teeth Are Ruined

By a Film—Millions of Them

All Statements Approved by High Dental Authorities.

Free A 10-Day Tube of Pepsodent, to show you how to end film. See below.

On Your Teeth Now

There is now on your teeth a slimy film. You can feel it with your tongue. It clings to teeth, gets between the teeth and stays.

The tooth brush alone doesn't end it. The ordinary tooth paste does not dissolve it. So month after month it stays there and may do a ceaseless damage.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Most tooth troubles are now traced directly to that film.

Dental scientists have for years sought a way to end film. They have known that brushing could not save teeth if it left that film upon them. Now that film combatant has been found. Convincing tests, under abeyant authorities, have proved it beyond question. The method is now embodied in a dentifrice called Pepsodent. And we supply it free for testing to anyone who asks.

The Way to End It

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has discovered a harmless activating method. Now activated pepsin can be applied, night and morning, to combat that film.

Leading dentists everywhere are now advising Pepsodent. Countless people have already adopted it. And trial tubes are offered everywhere to show others what it does.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.

Let your own mirror show you what Pepsodent means to your teeth. Then decide for yourself about it. Cut out the coupon now.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out—yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

SICK HEADACHES CONSTIPATION

If you have suffered from constipation for years, tried doctors and all the remedies you ever heard of read of, without getting relief, if you have been subject to all the miseries associated with constipation, such as sick and bilious headaches, biliousness, spots, floating before the eyes, water brash, heartburn, jaundice and the painful, troublesome, internal, bleeding or protruding piles, etc., wouldn't you consider it a blessing to be able to keep the bowels in a good healthy condition and prevent troubles getting a foothold on your system?

Milburn's Laxa-Liver Pills are regular use relieving the worst cases of constipation.

Mrs. Malgoin McDermid, Cranston Station, N. S., writes:—"I have been sick a number of years with sick headaches and constipation. I tried all kinds of doctor's medicine, but none did me any good. I tried Milburn's Laxa-Liver Pills, and after using four vials I am completely cured and would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct, on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

Young Men Don't Get Bald Cuticura Does Much To Prevent It

Dandruff, itching, scalp irritation, etc., point to an unhealthy condition of the scalp, which leads to thin, falling hair and premature baldness. Frequent shampooing with Cuticura Soap and hot water do much to prevent such a condition. Daily if needed by a gentle rubbing with Cuticura Ointment to keep scalp cool and itching. Cuticura Soap shampoos without soap.

VETERINARY DOCTOR

OPENS REPAIR SHOP.

"Treating the ills of horses was once a good and well-paid profession. Now I plan to treat the ills of tires."

Thus Dr. Fred Fritchard, veterinary surgeon of Tekonsha, Mich., explains why he is turning his horse hospital into a tire shop. He has just completed a course in a tire-repairing school.

"Since all my old patrons are now living motor cars, I have to retain their patronage by taking care of their 'tires,'" he said.

REPORTS ON EMPLOYMENT

(Employment Service of Canada, De-
partment of Labor, Ottawa.)
Reports from employers to the do-
minion headquarters of the employment
service of Canada, department of labor,
indicate that, disregarding loss of time
due to strikes, there was a slight de-
crease in the volume of employment as
compared with the preceding week. A
slight increase in the volume of em-
ployment has been anticipated for the
week of the 15th, which the returns show
was not realized. A further though
slight decline was anticipated for the
week of the 22nd, in comparison,
however, with the volume of employ-
ment afforded by these firms for the
base week (Jan. 17) a very substantial
increase was registered.

MUCH LAND FOR SOLDIER SETTLEMENT

Hudson's Bay Reserve and
Douchboure Reserve
Eighty-Five Thousand Acres,
Some Very Valuable—
Thirty Thousand More
Later—Report on Re-
Establishment.
(Canadian Press.)
Ottawa, March 16.—The soldier set-
tlement board announces that action is
being taken to dispose of 75,000 acres of
Hudson's Bay reserve lands which have
been cancelled by the crown, situated in
the provinces of Saskatchewan and Al-
berta, and 10,000 acres of Douchboure
reserve lands near Kamask, Sask.
The opening of a further area of 36,
000 acres now held within grazing lease-
will be arranged for so soon as their
release now being negotiated for, can be
secured.
Within the area being thrown open
there are quarter sections that are espe-
cially valuable, some ranging as high as
\$5,000 because of the quality of the soil
and their nearness to populated centers.
Re-establishment.
The report of the minister of soldier's
re-establishment was tabled in the house
yesterday afternoon by Colonel Hugh
Cleave of Bruce. It covered the period
from May 15, 1918, to Dec. 31, 1919. It
sets forth that Canada's record in voca-
tional training compares most favorably
with that of the United Kingdom.
Hospitals and sanitariums directly
operated by the department numbered
forty-six, and partially operated six. The
department had agreements for a cer-
tain number of beds in each of fifty-
four hospitals. The number of in-
patients treated was 6,220, outpatients
1,624. The number of men on the
strength of the department of voca-
tional training on Dec. 31 was 27,622;
men in curative workshops, 4,888; train-
ing in schools (inside and outside), 12,
221; training in the field, 11,225. Of
the students on strength at the end of
last year 20,107 were disabled men and
7,615 had enlisted under the age of
eighteen.
Since early in the year the informa-
tion and service branch had received
114,728 net applications. Men placed in
employment numbered 105,051, a net
percentage of 92.4. In the professional
and business section 3,483 applications
were received and 2,717 placements
made, net percentage of 77.8. In-
quiries dealt with numbered 762,822.
The assistant deputy minister, E. H.
Scannell, in his preface to the report,
says that a branch of the department's
factory is likely to be established in
London for the manufacture and supply
of artificial limbs and appliances to for-
mer Canadian soldiers who are located
in England. The deputy minister, F. G.
Robinson, is now in London dealing with
the reciprocal agreements which have
been made with the United States gov-
ernment in regard to training mem-
bers of the forces of either country
now domiciled in the other.
Ottawa, March 16.—The soldier set-
tlement board has been advised by its Lon-

house. The structure re-
quires only the interior re-
arranging or remodeling.
Best of all there is a mas-
sive concrete foundation
and good cellar with water
by force of gravity. The
building is practically new
and will be sold at a reason-
able price. It would do for
either an all year round or
summer home.
**BUILDING LOT
ON MAIN ROAD**
We also have to offer large
building lot on the Main
Road of a generous size—
one of the choicest situa-
tions in Hillandale. There
is also water privilege, giv-
ing the water by force of
gravity.
We also offer a building
lot on the second tier of lots,
of a generous size, in an
elevation giving a splendid
view of the main river. This
latter has not the water
privilege. Prices reasonable
in both cases.

'MALE AND FEMALE' ST. JOHN'S PROBLEMS IS A FILMED MASTERPIECE

Sir James Barrie's Admirable Crichton Under New Name in Wonderful Movies at the Imperial.

"Ah, how could you and I with Fate conspire To grasp this sorry scheme of things entire. Would not we shatter it to bits, and then Remould it nearer to our heart's desire?"

So Fate seized them—a snobbish family of British blue-bloods. Cast them on an island where the voice of the world was lost. Tumbled them, lord and out-let, lady and scullery maid, into a common mass of males and females. I angled at their former glories, their former handi-caps. Pointed to an outland jungle, ruled only by wild beasts, and said: "Now we shall see who rules."

Then the butler, because he was a man, became a king; and the great lady who once dined him, served, loved him—fought with a slave for his kiss! One day a ship! Rescue! Home! The old world and its old ways, its pride, its conventions, shallow distinctions, Did the true love, the true leadership, of the wilds hold then? The story tells you.

A romance that searches deep into human hearts. A picture, poignant, powerful, tremendous in its scope, superb in its artistry—such as "Male and Female," the superpicture at the Imperial yesterday, which opened for a four-days run and which crowded the big house both afternoon and evening.

"Male and Female" combines the luxuriousness and spectacular beauty of "The Woman God Forgot" with the dramatic strength of "The Whispering Chorus." The opening scenes, in the London home of Lady Mary, are the last word in luxury. Gloria Swanson has more wonderful gowns than ever, and the settings, down to the tiniest detail, are in keeping with the storied characters.

Then there is the Babylonian episode—short, but thrillingly beautiful. Here is the spectacular, if you like, combined with the exquisite. Thomas Meighan, who plays Crichton, is the king in this episode. Gloria Swanson, more beautiful than ever in the barbaric splendor of the Babylonian costumes, is the untamed slave. In the end she is thrown to the lions—and they're real lions, too.

As everyone knows, J. M. Barrie wrote the play, "The Admirable Crichton," from which "Male and Female" is adapted. Sir James is one of the last authors to allow his works to be filmed. The story has not been changed in the least. The cast headed by Thomas Meighan, who duplicates his excellent work in "The Miracle Man," and Gloria Swanson, is uniformly excellent. Theodore Roberts, Lila Lee, Raymond Hatton, Mayn Kelso, Robert Caine and Edward Burns are some of the big names in it. Jeanie Macpherson wrote the scenario.

In referring to "The Miracle Man" in the last paragraph. Let it be said "The Miracle Man" is the only picture in memory with which "Male and Female" can be compared. "Male and Female" is a grand production, one of the greatest pictures yet made, the crowning achievement of Mr. De Mille's career.

CAT DISCLOSES BOOZE

New York, March 16.—A revenue agent saw a big cat reeling and staggering down Forty-fifth street. He followed. The cat entered a saloon at Sixth avenue, rolled down the cellar and was immediately greeted by a dozen other hilarious felines. All were lapping up a dark brown fluid. The proprietor and bartender were arrested.

Real Estate Man's Article on Transportation to Outlying Parts—Street Railway Extension.

(Written by S. H. Taylor, for the Business Review and Maritime Retailer.) With conditions long since normal, that is to say, on a pre-war basis, the real estate situation in St. John gives promise of great things for 1920. To appreciate the full significance of this one must understand that values stood the test of war time in excess of all expectations. There were many, and we still have some with us, who talk much of fictitious values, or perhaps "inflated" would better express it, consequently St. John has had to contend, principally, with our own people. It argues well, however, that these "doubting Thomases" are few and far between and they are being convinced even against their will.

There are some obstacles, however, that must inevitably be cleared away in order to put us on the same footing with other large cities in Canada in the matter of development. The most outstanding, and apparently the most difficult to deal with, is transportation to the outlying parts. The street railway already insufficient in the city proper, must be extended to the outlying districts. To discuss this situation in the frankest possible manner is the one way to ameliorate it.

St. John is fast becoming congested and must, in fact, be reaching out to the splendid country about it. It is with difficulty that our own people are becoming separated from the idea of "central location." How often are we asked for this very thing. They are gradually, however, realizing that this city is growing by leaps and bounds and it is, therefore, becoming more and more difficult to live in close proximity to the office or place of employment. Surely the best way to obtain relief is, as previously stated, to spread out. But we return again to the getting out and, of course, back. To look about at the localities to be served by an up-to-date street railway is to understand the magnitude of the task. But argument it we must—not by the present Street Railway Company, then by the city taking over the same. The possibility for development, as told, is great, but with proper facilities, would be enormous.

During the discussion of the housing problem by the press and citizens generally we went to some little trouble to size up the situation—to study the ways and means of relief. We went so far as to inquire outside the city and sent representatives to St. John. Many choice districts were looked over and abandoned. The question asked in each case was, "How are you going to get it?" In other words, what is the use of talking of building houses when those occupying them have no means of getting back and forth? The surprising thing about it all was suggestions of this and that one of some place or site with apparently no consideration of this transportation problem. In leaving this subject might we respectfully recommend to those actively engaged in promoting many things for civic betterment that they tackle this, the biggest of all, at once. So many of the worthy objects in view could be the more readily obtained. Take two, for instance, an athletic field and a ball park.

Another drawback in the way of development is the small amount of building in progress or promised. This, though, will correct itself with the easing off of lumber cost and building materials in general, and with a readjustment of the industrial situation, a new impetus will be lent and a consequent general movement and increased activities. Many large public works here in connection with the port have necessarily been abandoned during the period of the war, but with a return to commercial pursuits it becomes essential to at once proceed with the same undertakings in order to equip this one of our great ports of Canada for the already increased trade of the country that must find an outlet here. Even now the winter port season this year has evidence that we are far from being prepared for the export business flowing this way.

We have constant inquiries from large business houses in Ontario and Quebec with a view to establishing themselves here—also from private individuals who desire to buy or build houses, all of which makes it evident that St. John is looked upon as not only a good place to live in, but also in which to do business.

It has been said that "A prophet has no glory," etc. This might be changed to read "A city has no glory among its own people." There are many big projects in view for St. John and oppor-

tunities for as many more. With this thought let us, in conclusion, urge our own big business men to show their faith by declining to let opportunities go to outside capital. There are dollars to be made in real estate right here.

Don't let the other fellow get the lion's share. Prof. J. H. Lindsay of Eastport, has been appointed director of music for the Halifax School for the Blind.

Belgium Discovers Good Runner.
New York, March 12.—According to news just received here, the Belgians are jubilant over the discovery of a new long-distance runner. He is A. Bertrand. In the Olympic cross-country run of the miles, recently held in Paris, from a string of 1285 starters, the Flemish man came home a winner. He left behind him the best men in Belgium and France.

Bertrand's time for the five miles was 28 minutes 45 seconds. This was made on a cold day, over wet, slushy ground. To dodge over 1,000 runners placed the performance on a par with the best on the record books. The course was studied with walls, thorn fences, and gutters with canals, dikes and ditches of a troublesome nature.

THE TURF.

The Short-ship Circuit.
Halifax Echo.—President S. D. Heckbert, of the Maritime and Caine Short-ship Circuit, said this week that a meeting of the executive had not been called as yet, but one would be held at Fredericton within a few days. Meanwhile, it is understood, he is waiting to learn whether St. John will hold an exhibition this fall, as that will affect the whole later section of the circuit. While March 10th was the date named by which requests for changes in dates had to be made, Mr. Heckbert has not received any such requests. He has, however, received notice of the resignation of F. S. Watson as the representative of the Fredericton Association on the executive of the circuit. Mr. Watson also disclaiming responsibility for the dates which he had claimed for Fredericton.

ATHLETIC.

Want \$200,000 for Team.
New York, March 14.—The first entry for the Olympic meet to be made by a United States athletic organization will be that of a hockey team, it was announced at a meeting of the American Olympic Committee Saturday. Reports were received from various athletic organizations which plan to send representatives to the big meet. It is estimated it will cost \$200,000 to transport and house the United States team.

WALLY SCHANG IS HOLDING OUT.

Star Red Sox Catcher Has Not as Yet Come to Terms With Management.

Boston, March 15.—It seems as if that breach between the Red Sox and Wally Schang has not been healed. Several weeks ago the owner of the Boston club, in this city, said that terms had practically been settled with the catcher and that he would be a hitting first baseman. In fact, the only reliable and high class backstop on the club's roster. Reports from Hot Springs, Ark., where Schang is now, indicate that he is still holding out. He is a good backstop, has an arm that is the equal of the best in the game, and as a hitter he stands at the top, swinging as he does from the right and left. Of course, it is understood that the salary question is the one that is keeping him away from the southern training camp, but should he and the Boston management fail to get together, Schang's presence will be sadly missed.

As yet present in 1918 world champions, sally lack a long-distance hitter. Babe Ruth is gone and before that, the hard-hitting Duffy Lewis was let out. It would appear as if the men who are good for covering great distance with their bats are not wanted on the Boston Club. And also, while Schang's hitting is a deadly and tremendous stretches, if not as long as Ruth, he is needed behind the bat.

As yet Oscar Vitt, the third baseman, has not indicated that he is pleased with the figures quoted in his contract, and apparently until there is something done he does not intend to report. That's the way things look from this neck of the woods, and especially as Manager Barrow has not received word, one way or the other, from him. With Foster able to play third base the situation as regards Vitt is not as tender as in the case of Schang. Foster can take care of the "hot corner," and for the present Mike McNally, a useful and very handy man around a club, can look after second base.

MONCTON ICE MEET.
Moncton is planning on a banner skating meet for Thursday evening. The Moncton Transcript asks all old-time skaters and new ones to lend their assistance. The article continues: "St. John is already interested and will forward five skaters, among these being Fred Logan, the veteran, who will give an exhibition mile race, while the Messrs. Garnett and Gorman of the Loyalist city, who tied at the St. John meet in the Victoria rink, will reside the same event for honors on 'neutral' ice. This event should be interesting and mentally interested and willing to participate in the ice change. Moncton will welcome all comers to the city. She will accord them a 'Moncton welcome,' but at the same time the Moncton aspirants on the race course will attempt to lower the strangers' penants."

ENJOY NEW BILL AT QUEEN SQUARE

The Marriage Question Played by Young-Adams Company to Delighted Audience.

In the Queen Square Theatre last evening the Young Adams Co. presented the three act comedy drama "The Marriage Question," a "play of spring-time and love eternal," by Ralph T. Kettering and Louis L. Brown. There was a very large audience and from the applause bestowed upon the performers they seemed to enjoy the production immensely. It was an old familiar story of the "poor but beautiful" maiden who marries a man for his money, causing matrimonial unhappiness and then when all seems lost the awakening of "love within her and the solution of the "Marriage Question."

Miss Marjorie Adams was "Billie," the girl heroine of the piece, poor, but respectable, who told James Cantwell Hudson, the wealthy and devoted husband within a few minutes after she had removed her veil and orange blossoms that she did not love him; in fact she "hated him." But the husband, who was cleverly portrayed by Wilmot Young-Adams, still worshipped and adored his butterfly bride and determined to make her love and care for him. Then came various entanglements in which a former sweetheart of the unhappy bride, who was portrayed by Percy Norman, played a foremost part. But her devoted husband trusted her implicitly. He would not hear a word against her until one morning in the wee small hours he found her on her return from a party with Langdon in his own home. Alas, his trust was broken. His idol was shattered. A scene of tragic and breathless interest followed and then the curtain rolled down not to rise again until a year had elapsed, by which time "Billie," the butterfly bride, had arrived at a happy solution of "The Marriage Question."

But even in the midst of tears there are smiles, and laughter was abundant throughout the piece which has its amusing parts. Vaudeville was furnished between acts, so that there were no tedious waits between curtains.

RED CROSS FIGHT TO SAVE CHILD

World Campaign Planned. Says Henry P. Davison—Tells of Work at Congress at Geneva.

Child life throughout the world will be profoundly affected by the work initiated at the congress of the League of Red Cross Societies held in Geneva, said Henry P. Davison, chairman of the board of governors of the league, in discussing the meeting with the American people.

In addition to the plans for fighting tuberculosis, malaria and other diseases which have been considered of many hands, he said.

"The programme of the Medical conference held at Cannes has become the common possession of the Red Cross Societies of some twenty-seven countries. The congress has agreed upon a campaign for child welfare which, in our judgment, will profoundly affect the health and care of mothers throughout the world. I assure this plan for child welfare will become immediately effective everywhere when once it begins to be applied.

"I feel the same confidence in the effect throughout many countries of the programme we have adopted against tuberculosis, malaria and other diseases. The League of Red Cross Societies will also bring into definite form and communicate to its organizations, which will bring them into effect, many plans for public welfare which will work of their own force. The impulse thus created will be felt in distant lands.

"One thing which has been grasped and which I am sure will have practical results, is public health nursing. In connection with industrial problems, social life, tuberculosis, maternity and social service.

"The great result of the League of Red Cross Societies will be that experience gained anywhere will be the common property of every society. The congress adopted a plan of organization of national societies under the chairmanship of Willoughby G. Walling, vice-chairman of the central committee of the American Red Cross. This plan, as developed by H. Frank Persons, director of organization of the league and formerly director of general civilian relief for the American Red Cross, provides for a broad, popular membership and the enrollment of the youth of every country under the banner of the Red Cross. The recommended financial policy is for each national society to endeavor to bear its administrative and permanent expenses from membership fees and other regularly assured income.

"Other recommendations cover the employment of properly qualified per-

sons to conduct health service programmes and the training of lay workers. The medical programme as prepared by Dr. Richard P. Strong, director-general of medical department of the league, and adopted by the congress, covers recommended practice with respect to treatment of tuberculosis and other infectious diseases, improvement of public sanitation and an earnest endeavor to educate the public along practical health lines.

"Delegates to the congress enthusiastically responded to the appeal of A. J. Balfour, president of the League of Nations, to call upon the people of the world, through their respective Red Cross societies, to supply doctors, nurses and other personnel, as well as foodstuffs and other materials, for the relief of suffering and destitute people throughout stricken areas, when assured that governments will provide elemental essentials. This call for voluntary service is of such magnitude that only the Red Cross societies of the world, coordinated through the league, could hope to respond to it in anything like an adequate degree."

SUGGESTION TO LABOR
To the Editor of The Times:—
Six—Our governments supply money and men to go to Europe on all sorts of commissions. Why should they not send a commission of labor leaders to investigate and report on trade unionism in England, where, as Ernest Hodder Williams, son of the founder of the Y. M. C. A., says:—"The U. S. and Canada are years behind us in all their relationships to trade unionism, and in both these countries they are watching the way in which capital and organized labor are working together in England—and in spite of much wild talk they are working together with wonder and admiration and envy."
Some money spent in this way would save much in the future, being a good investment to save from strikes and lock-outs.
Yours faithfully,
JOHN C. BERRIE

The response of the Press to the Murray "bludgeon" has been prompt and vigorous. From all quarters come expressions of resentment that any man with even elementary knowledge of the Canadian Press should have the hardihood to launch a project for the control of advertisers of the editorial policies of the journals in which their advertising is placed. It is a pleasure to be able to say that some of the most inspiring denunciations of the Murray plan have come from newspapers with a "sun-clear" reputation as supporters of the protective policy. The Hamilton Spectator, for example, says:

"Mr. Murray may think that he can make the tail wag the dog, but under any such scheme as he proposes there would soon be no dog at all. Business men know well enough that Press advertising is as essential for the welfare of their business as it is for that of the newspapers. Politics have nothing to do with it. The money of a free trader is as good as the money of a protectionist, the order from the Liberal as useful as that from the Conservative. The advertiser must appeal to all tastes if he wants to prosper; he cannot with safety restrict his patronage to any one class of people. Commercial as the influence of Mr. Murray's 'bureau' may

be, public morality demands that it be exposed and condemned in the most emphatic terms."

In sharp contrast to this plain and logical presentation of the case for advertising as a legitimate business, and not as a means of bribing the Press to take its opinions from the advertiser, is a circular letter issued by Mr. H. V. MacKinnon, Manager of the The Standard, St. John, New Brunswick. The Standard is

the chief organ of the Conservative party in that province. It informs those to whom its circulars are sent that during the past ten years it has spent more than \$150,000 in advocacy of a protective policy for Canada. It adds, with a degree of frankness which will scarcely make for its popularity in New Brunswick, that "this money has been furnished by farmers, merchants and professional men, for among three hundred

and twenty shareholders in The Standard, Limited, are included the names of only two or three manufacturers." It points out that most of its advertising revenue has come from local merchants and United States producers, as of the many hundreds of Canadian manufacturers not more than twenty-five or thirty are patrons of The Standard. Upon this presentation of the case it declares that the non-advertisers for whose benefit

The Standard's business has been conducted should extend to us a share of their co-operation IF THEY DESIRE TO RETAIN THE INFLUENCE WHICH THIS PAPER IS ABLE TO EXERT."

This crude demand that the beneficiaries of protection "come across" closes with the announcement that there is to be a reorganization of the company, and that the new concern is to have a stock capitalization of \$50,000 and a bond issue of \$50,000, "which we expect to place among manufacturers and others. . . . Along with those bonds we propose issuing to subscribers a proportion of the capital stock of the new company, and will agree that THE BONDHOLDERS SHALL DIRECT THE FISCAL POLICY OF THE PAPER."

In still another circular Mr. MacKinnon states that "to attain and hold that position in which it will be of greatest value to the Manufacturers of Canada," The Standard "must receive during the current year not less than \$80,000 additional advertising revenue from outside patrons."

Mr. Murray has manifestly succeeded in convincing this New Brunswick publisher that strong-arm methods of securing both capital and advertising are more likely to succeed than an argument based on the number and purchasing power and loyalty to their favorite paper of The Standard's readers. In face of its own statements how can The Standard hope to obtain and retain the loyalty of its readers? They must know by this time that The Standard is not published in their interest at all, but is a sort of journalistic dispensary established for the purpose of dosing them with the Reconstruction Labora-

A PITIFUL STORY.

(Chatham World.)
A young daughter of an Upper Blackville household returned the other day from a small mining village of Nova Scotia and slept that night with two members of the family. These two and three of the other members of the household were soon prostrated with disease, and one of them died. The neighbors were sufferers.

afraid to go to the house, the board of health representative in the parish was away, and it was two days before the corpse was taken away for burial. E. Ryan was the first to go to the relief of the diseased family, and he found a pitiful sight—one corpse, four sufferers from the worst type of diphtheria, and seven others huddled together in the very small cottage with no medicine and not much food. He telephoned for anti-toxine. Dr. Desmond soon afterward visited the pesthouse and treated them.
