

SAY TARIFF LAW WOULD PRODUCE HIGHER PRICES

People of United States Being Warned by Merchants to Buy Before Bill Comes Into Force on Account of Predicted Rise in Costs!

Washington, Sept. 6.—(Canadian Press)—Numerous United States merchants are already putting out advertising telling their customers they had better buy before the new tariff bill goes into effect; that the new tariff law will greatly increase prices and that the wise man and the wise woman will take time by the forelock and buy before the increase takes place.

Advertisements of this kind, as a matter of fact, are appearing in papers that circulate freely in Washington. At least one Washington tailor has been putting out advertising in the local newspapers in which he tells graphically of the prospective rise in the prices of woollens and hence of clothing due to the new tariff.

Whatever view one takes as to the merits of the new tariff measure, it is plain that the airing of such views to the public on a wide scale is not calculated to make the action on the bill when it becomes law more favorable to it. Republican leaders do not conceal their dislike of such predictions. They fear that such forecasts will have serious political results for them in November, even though the bill has not yet gone into operation.

Republican members of the House who have lately been in their districts, by reason of the House recess of a month, bring back many reports to the effect the tariff bill has few friends among the voters. Many of the rank and file of the

Republicans are viewing the bill with apprehension and look for it to increase the cost of living. Although no such forceful fight was made on the pending bill in Congress as was made on the Payne-Aldrich bill in 1909—a bill which helped to wreck the Republican party, lose it the House in 1910 and split it—reports indicate there is less support for the present bill on the part of the public than there was for the Payne-Aldrich bill. In other words, the enactment of the McCumber-Fordney bill may be followed by a political upheaval as great as the 1909 upheaval.

May Hold Up Bill

The question whether the Republican leaders will let the tariff bill go into effect before the November elections continues to be widely discussed. Opinion among Republicans in Congress is divided on whether it is politically safe to let it go into effect before the elections are becoming increasingly active. Furthermore, the bill is in conference, with more than 2,400 amendments to be considered and the friends of delay can easily set up schemes for holding the bill up and delaying it if they set out to do so. In the past few days, they have shown strong symptoms of being bent on bringing an early agreement and barring passage of tariff revision until the election has been held in November.

Embarrass President

Flexible or elastic features of the tariff measure, which was recently passed by the senate and will now be considered in conference committee of the two houses, promise to cause much trouble and embarrassment to the president. In spite of the fact that the president has recommended them, they seem certain to make the White House for months to come a sort of tariff storm center.

Under the flexible provisions, the president can raise or lower rates to the extent of fifty per cent, or less in order to make the rates keep pace with difference in cost of production here and abroad. The president will also have the power to recommend the tariff commission, although it is obvious that it will be quite within the power of the president to have investigations initiated and all together to exercise a vast influence on what is done.

As calculated here, the result of this will be that manufacturers in this country and others who think they do not have enough protection will flock to see the president and ask for relief; importers and others who think rates are excessive will seek to get him to act. And it is not unlikely that if the cost of living increases as many believe it will under the proposed new law, organizations of consumers and others speaking for the public will make pilgrimages to the White House, also asking for relief in the form of reduced rates.

The president, in other words, will thus be placed between two fires—one from those demanding higher rates and the other from those demanding lower rates. It will be impossible for the chief executive to satisfy everybody in making use of the flexible or elastic tariff provisions.

OREGON FORESTS TO BE OPENED TO LUMBERMEN

Perpetual Lumbering Claims Ready to be Turned Over for Use of People of U. S. Under Federal Regulations.

Washington, Sept. 6.—According to an announcement just made by the Department of Agriculture, a vast timber area in eastern Oregon is to be opened for permanent development. The announcement, which is of interest to lumber and timber men in Canada as well as the United States, says the "largest compact body of yellow-pine timber owned by the government is to be opened for sale and development."

The department says that this is in line with the federal policy of putting the forests of our country to their highest use, instead of locking up valuable timber resources so that they are of no benefit to the American people. This new timber region is on the watershed of the Silvies River in the Malheur National Forest of eastern Oregon. It covers an area of 550,000 acres and contains nearly seven billion feet of mature sawtimber.

Government foresters have worked out a plan of management for this stand of timber that provides a continuous perpetual supply of raw material for a lumber manufacturing industry to be located in the vicinity of Burns, Ore., and capable of using from fifty to sixty million feet of logs annually.

The first sale to be made in this region will be that of the Bear Valley unit, which is estimated to contain 800 million feet of sawtimber. This timber is being offered for development under Forest Service regulations that will insure continuous production for all time. Another announcement of the department, relating to the same timber region, says a perpetual logging chance is to be offered to lumbermen. The announcement states that a logging chance on which fifty to sixty million board feet of timber can be cut annually for all time is the unparalleled offer to American lumbermen by the Forest Service, Department of Agriculture. This means that the industry established to utilize this timber will never have to be moved, and that it will always be assured of an ample supply of raw material.

The first block of this timber to be placed on the market is located on the Bear Valley watershed of the Silvies River, Malheur National Forest, near Burns, Ore. The stand is estimated to contain 800 million feet of western yellow pine, Douglas fir, and lodgepole pine, which will be opened for logging development under government regulations.

Tributary to the Bear Valley area are virgin forests containing six billion feet of merchantable timber which will be available for future cutting. These timber units contain the finest and most extensive forests of yellow pine owned by the government. They will be developed, federal experts say, that under the plan of management proposed the forests will produce an inexhaustible supply of timber.

LEAVES GROCERY TO BECOME THIEF

Unsuspicious in Business, a New York Man Starts New Career—Police Call Halt.

John Haymasi of West Ninety-ninth street, New York, went into the grocery business in Harlem several months ago, but could not make it pay, so he shut up shop. He found himself with a grudge against other grocers in the borough who secured to prosper, so he turned robber, to prey on them. He was caught on Saturday after his third robbery, in which he shot a grocer in the hand, then fled without booty. He was as inept a criminal as he was a grocer; for he used his own automobile, without changing the license number.

His latest victim was Albert Holts of 2743 Eighth avenue. Haymasi went into Holts's shop on Wednesday afternoon and ordered Holts to throw up his hands. Holts reached for a lard scoop, and Haymasi thought he was diving for a gun. Haymasi fired, the bullet lodged in the door just as the robber was jumping into his automobile. Holts got the number, then telephoned the police. He was taken to Harlem Hospital.

Detectives found Haymasi in his home and after a hard fight lodged him in a cell for robbery and assault. Then he told his hard luck story. His automobile was found in a garage, a pistol under a seat cushion. Believing that Haymasi answered the description of one of two robbers they had been looking for in other recent hold-ups, the detectives summoned the victims to the station house and Haymasi was identified by Robert Smith of 1,662 Boston Road, the Bronx, as one of the men who robbed him of \$100 in his grocery store on August 6.

Mrs. Louise Zillinsky, who keeps a grocery at 1,497 Lexington avenue, identified Haymasi as one of the two men who robbed her of a small amount of money in her apartment at 168 East Ninety-sixth street an August 7.

INVESTIGATION OF SHOOTING IN CAMP OF JACK CLIFFORD

Plattsburgh, N. Y., Sept. 5.—An investigation of a shooting on Thursday night of A. M. Johnson, husband of Peggy Marsh, actress and professional dancer, at the camp of Jack Clifford on Shateaugay Lake, has been begun by the state police under the direction of District Attorney Harold A. Jerry of Clinton county. At the time of the shooting it was announced at the hospital here that Johnson had accidentally shot himself while putting away a revolver that had been used in target practice. Statements already have been obtained from Mrs. Johnson and her wounded husband, and state troopers made inquiries for further details in connection with the case at Mr. Clifford's camp. District Attorney Jerry also revealed that he expects to question other guests

NEW YORK POLICE CAT JUMPS INTO STATION AND DIES

Jerry O'Connell, doorman at the East Fifty-fifth street police station, New York, sat in the squad room the other night reading a newspaper. Unseen by the desk lieutenant or any of the policemen, Jerry, the station cat, so called because he was rescued from the streets by O'Connell a year and a half ago, hopped into the room and jumped into the chair next to the one in which O'Connell was sitting without attracting his attention.

Some time passed and O'Connell, laying down his newspaper, saw Jerry and patted his head. There was no response and O'Connell, thinking the cat asleep, poked a playful finger into his ribs. The cat remained motionless. O'Connell investigated and found that Jerry was dead.

Some boys who had been playing in front of the station house said that Jerry had been run over by an automobile as he was crossing the street. The boys said the cat picked himself up after the car had passed and crawled into the station house. Not thinking the cat badly hurt, the boys made no mention of the accident until questioned. O'Connell was certain that Jerry

SURVIVES ELECTRIC SHOCK.

Workman Takes New York Central Current, But is Only Burned.

New York, Sept. 6.—Although he had gripped with both hands a highly charged electric wire which conveys power to the New York Central train, George B. Wagner, 28, of 7 Saco street, Rochester, Mass., was said to be in no danger of death in Lincoln Hospital.

Just how Wagner escaped death is a mystery. While working in the Port Morris power station of the New York Central, the Bronx, one of his hands slipped from the defective wire which he was repairing to the highly charged line. Witnesses said that he was thrown to the ground and that his other gripped the same line, both elbows touching the cement flooring. The power was instantly shut off and he was pulled away from the wire. Dr. Seigel of Lincoln Hospital found it necessary to treat Wagner only for second degree burns of the hands and chest.

The driver of a small car, which was coming in the Marsh Road last night, reports an attempted case of car ramming which he experienced. He says that he was coming in with his lamps dimmed as the night was not dark, when another car from town with lamps glaring, came towards him. There was a flash signal from the big car and then the glare was turned on again and it was steered diagonally towards the smaller one. It was only by extremely careful maneuvering that an accident was averted.

Taste the New Treat in Wheat EATMOR—the golden wheat bread that makes the homiest spread—completes the chain of individual flavors from Robinson's Kitchens. A lighter balance of milk, sugar and shortening than Butter-NUT, EATMOR was baked for folks who relish above all the full flavor of the wheat. And a more delicate whiff of wheat was never brought to a brown by master chef. Months of arranging and rearranging of recipes now have their reward in a loaf of rare fineness in texture, in creaminess of color, crowned by buttery brown crust. You've been waiting for EATMOR and you're bound to want more. From Robinson's Kitchen

who were at the Clifford camp at the time of the shooting. NEGROES HUNT GOLD AND GHOST

Woman Starts a Treasure Search by Telling of Vision of Roadhouse Keeper's Hoard.

New York, Sept. 6.—If the police reserves of the Atlantic avenue station, Brooklyn, had not arrived a little after midnight in front of 1,297 Atlantic avenue, a search by a crowd of 500 awestricken negro men and women for a pot of gold and the ghost of Diederick Hencke, who conducted a roadhouse at that address more than thirty years ago, might have continued all night.

Recently Mrs. Alice Allen, a negro, who lives at Broadway and Varet streets, Brooklyn, says the ghost of Hencke appeared to her and told her that he had buried a pot of gold, worth about \$2,000, in his building. He promised to meet Mrs. Allen at the corner of Atlantic and Troy avenues and lead her to the hidden wealth.

Mrs. Allen showed up, but the ghost didn't. Unable to keep her secret, Mrs. Allen imparted it to friends in the neighborhood. The news quickly spread

### GHOST OF MOY HALL IS DUE TO APPEAR

Scheduled to Walk When the King Visits Highland Mansion.

London, Aug. 14.—(By Mail)—Will the famous ghost of Moy Hall "walk" according to tradition when the king and queen visit this historic Highland mansion? According to tradition the "apparition" of "Bonnie Prince Charlie" haunts the room in which this unfortunate young Pretender slept the night before Culloden's fatal field in 1746, when "Butcher" Cumberland shattered the hopes of the house of Stewart forever.

Queen Victoria was minutely read in all matters of Scottish supernatural lore, and would never stay at Moy Hall on the ground that it would be "unlucky." It was said that on the night Prince Charles was at the mansion he was visited by a wraith who warned him that the coming battle would be fatal to his hopes. It is certain that he entered upon the struggle like a man already persuaded of disaster. King Edward once promised to pay a visit to this ancestral home of The Mackintosh, but at the last moment had to return to London owing to a cabinet crisis.

Therefore this will be the first occasion that one of the "usurers" (as the Jacobites still refer to the House of Windsor) has stayed at Moy since the

### ACCUSE JERSEY POLICE OF BRUTAL DRY RAID

Forced Way Into Women's Rooms and Insulted Them, Resort Residents Charge.

New York, Sept. 6.—The conduct of eighteen of the New Jersey State Police who participated with Federal prohibition agents in liquor raids on hotels and other places in Lake Hopatcong, N. J., Tuesday night, was such that indignation threatened yesterday to be complained to Governor Edwards.

At the Great Cove Hotel at Nolan's Point, the police are alleged to have gone to the room of a waiter and his wife and demanded that they show their marriage certificate. It is also charged that they went to the room of two girls, one of whom was praying, and insisted that they open the door. The police searched the belongings of the girls for whiskey.

It is charged that at the Espanon Hotel, Nolan's Point, the police went to the room of a mother and her three children, awakened her and charged there was a man in the room. She was compelled to open her door.

Rented cottages, it is charged, also were visited and searched. It is charged by the complainants that the state police drank the beer and whiskey they seized.

### WORLD'S SUGAR OUTPUT DROPS

Yield for 1923 Estimated at 17,000,000 Tons Against 17,400,000 in 1922.

Washington, Sept. 6.—Sugar production for the year 1923 will be nearly 600,000 tons less than for 1922, it is estimated by the Commerce Department in a survey of the world situation.  
World production for 1923 was put at 17,000,000 tons, compared with 17,400,000 tons in 1922, when the consumption was estimated at 18,800,000 tons and the carry-over into 1923 was put at 830,000 tons, compared with the carry-over of 1,700,000 tons from 1921 into 1922.  
The abnormal surplus of Cuban sugar existing last January, the department declared, has apparently been absorbed, and in addition the normal amount of the new Cuban crop has been taken. Revised estimates of world production for 1922, the department added, are 1,600,000 tons over the earlier estimates, owing largely to the unexpected size of the Cuban crop.

"This year's consumption," the department stated, "also has exceeded all predictions, both in the United States and in Europe, and even with the revised crop figures for 1921-1922 the carry-over for 1922 will be not far from normal. The gradual rise in price and prices of Cuban raws to the present point, almost double the low figure of 175 cents at the end of 1921, has no doubt been due to replenishing of invisible supplies and increased consumption, and in particular to European demand."  
The rapid distribution of the Cuban surplus since the beginning of the year, it was declared, was shown by the export figures for the first seven months of 1922, when Cuba exported 4,000,000 tons, compared with 1,500,000 tons for the same months of 1921, while during the same period the United States exported 755,000 tons of refined sugar, against 250,000 tons during the corresponding months of 1921.  
Cuban sugar production for 1923 was estimated by the department as 3,600,000 tons, compared with 4,000,000 tons in 1922, and the output of the United States was estimated as 881,000 tons of beet sugar in 1923, against 911,000 in 1922, and 208,000 tons of Louisiana cane, against 290,000 tons in 1922.

### BOY SHOT WITH GUN FOUND IN BABY CART

Lad of 7 Victim of Accident When Companion Shows Weapon Hidden by Gunmen.

New York, Sept. 6.—Accidentally shot with a revolver hidden by the police to have been thrown into a baby carriage by gunmen endeavoring to avoid suspicion, Martin Toomey, 7, of 129 Perry street, was taken to Vincent's Hospital with a bullet wound in his right breast. His condition is serious.  
The boy, with Frank Tahara, 12, and John Hyland, 10, was standing beside the baby carriage in which was John Hyland's 9-month-old sister. The party carriage had been taken below the front stairs a few minutes before the shooting, and Johnny had been asked by his mother to take the baby for an airing. The other two boys accompanied him.  
As the trio reached the sidewalk Johnny put his hand in the baby carriage to strengthen the covers and found a loaded revolver. He was about to show it to the other boys when it was accidentally discharged. The Toomey boy fell to the pavement with a cry.  
Detective Ryan of the Charles street station, who made an investigation, said the revolver evidently had been thrown into the baby carriage by some

### Play piano in 8 lessons

A Master Discovery  
Already taught to 50,000 Students in Australia and New Zealand  
At least 100,000 from 10 to 70, with out previous musical training, are playing the piano in a few weeks. Prof. William's Piano Method is a new and simple system of teaching piano playing. Students are successful graduates of our method. The only course of its kind in the world. You need music from the first lesson and play a Waltz in the First Lesson. No unnecessary theoretical exercises. No boring staccato, scale, or diatonic exercises. Only 8 Simple Easy Lessons.  
**ENDORSED BY NOTED MUSICIANS**  
Including Gustav Hauptmann, Associate, Royal Academy, London, Dame Alice's Conservatory, and Director of J. C. Williamson's Fifteen Theatres; William's Piano Method is the internationally famous Charles L. Taylor's Piano Method. It is NOT a number, chord or "play-by-ear" system. It is a complete and scientific method of teaching piano playing. It is the only method that teaches you to play from the first lesson. No unnecessary theoretical exercises. No boring staccato, scale, or diatonic exercises. Only 8 Simple Easy Lessons.  
**FREE SAMPLE LESSON and Booklet**  
will be sent to Canadians who apply with name, address, age, and state. If you are not a Canadian, send \$1.00 for the book. NAT. CONSERVATORY OF NUWAY MUSIC Studio, Shreve Bldg., San Francisco California, U.S.A.

### \$500 REWARD

A Reward of \$500 will be paid by the GOVERNMENT OF THE PROVINCE OF NEW BRUNSWICK to the Person or Persons Furnishing information that will lead to the arrest and conviction of the murderer of FREDERICK H. TRIFTS in the City of St. John on July 6, 1922. L.F.

### FUNERAL SERVICE DIRECTORS MEET

The New Brunswick Funeral Directors Association met yesterday in the Seaman's Institute with the president, F. J. Fitzpatrick, in the chair. At the afternoon session Dr. G. G. Melvin, chief medical officer, of Fredericton, spoke on the new regulations, telling how they would be enforced and explaining their full meaning, and the meeting named N. Lewis Brennan as the representative of the Funeral Services Association on the board of examiners. Those who arrived for the afternoon session included former mayor F. W. Wallace and W. H. Wallace, of Sussex, and O. E. Tuttle, of Moncton. F. W. Wallace was a charter member of the association and editor of the official journal, "The Canadian Funeral Director." At the morning session he had been named as honorary president and when informed of the fact was visibly affected. He thanked the meeting for the honor and eulogized the president, P. J.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 6, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE CURRENT IS THERE—AND AT COST.

Representatives of the New Brunswick Power Company have been trying to secure control of the Musquash current on the one hand and attempting on the other to create the impression that the current is not there.

The crucial time is indeed around the sixteen year mark. Perhaps if there was not in youth of that age an infatuated fear of the consequences of crime, the number falling under the eye of the law would be more appalling.

The weather is kindly to the exhibition. There should be a great attendance today. The way to encourage those who are giving their time to the big fair is to visit it several times.

An official estimate of more than 900,000 bushels of grain in the western prairie this year is the news from Ottawa. That's cheery.

SASKATCHEWAN HAS COAL DEPOSITS

Fuel Shortage Not Considered in Serious Light in View of Recent Find in Prince Albert District.

(Special to the Times.) Ottawa, Sept. 6.—Thomas M. Molloy, commissioner of labor and industries for Saskatchewan, says that a solution of the western fuel problem appears to have been found with the discovery of considerable coal deposits north of Prince Albert.

The power is there. The current is available at the city line at cost. The government's guarantee provides for a maximum charge of 12. It cannot be more than that; it may be much less, for any saving in production will be passed on to the consumers.

DRURY IDEAS ARE OPPOSED BY FARMERS' ORGAN

St. John today bids hearty welcome to the delegates to the Maritime Board of Trade meeting. They are prominent business men of the three sea provinces and members of parliament met to discuss questions of vital interest to all.

ONE DEATH AND FIVE INJURIES IN WESTERN STORM

Moose Jaw, Sask., Sept. 6.—One death and five persons slightly injured appears to be the toll of the storm which swept through the Moose Jaw district Monday afternoon.

SAYS PUBLIC NEED HAVE NO FEARS REGARDING CAPACITY AT MUSQUASH

Chief Engineer Gives Effective Answer to Those Who Are Trying to Create Doubt as to Power That Can be Furnished—A Message That Should be Read by All.

C. O. Foss, Chief Engineer of the New Brunswick Electric Power Commission, yesterday gave out the following statement:

"To the public: There is some discussion in the public press and on the public platform, and much more on the street corners and in the homes, as to whether it will be possible to generate the amount of power at Musquash which is claimed, viz., 21,000,000 kilowatt hours per year, and it is in the hope that I may be able to remove the doubt from the minds of honest doubters that I am asking you to publish the following statement:

"A water power is as easy to measure and compute as any other tangible object. It is made up of two easily determined elements, first the amount of water that can be controlled, and second, the distance through which it can be caused to fall.

"The quantity of water which is delivered by a stream can only be determined by careful measurement repeated over and over at all stages of the stream till an accurate flow curve has been established, after which daily readings of a gauge fixed in the stream at the place where the measurements have been made will give correctly the amount of water delivered by the stream in any given period of time.

"Having these records for several years in seasons both wet and dry, and having fixed on an amount to be regulated, something less than the annual average run off in the driest year, of which there is record, then if the storage can be made equal to the requirement of supplying this amount of water in the driest year the problem is solved.

"To apply these requirements to Musquash we have assumed that we can regulate a flow of 180 cubic feet per second on each branch. Last year (1921), the rainfall from May to October, inclusive, was the least since records were kept in this city, a period of sixty-one years, and yet we found that with all the reasonably available storage provided we could meet the requirements to provide the amount of water named above, sufficient to generate twenty-one million kilowatt hours per year, which is the basis on which the plant has been designed and built.

"As last year was the first to run so low for so long in sixty-one years, it may be sixty years before it occurs again, and it is almost certain to be at least five to ten years.

"Meantime we shall have, when the dams are completed at seven mile lake, a matter of two months or less, three billion cubic feet of stored water, more than enough to take care of the present requirements of St. John and Moncton even if next year should be as dry as last.

"This amount of storage would, in ordinary years, take care of the requirement for the full load the plant is designed to carry. In addition we shall build a small dam on each branch every year for the next three years till we have sufficient storage to meet the requirement of the full load in a year like last.

"It is possible that twenty-five per cent to thirty-three per cent of this stored water will not be used for years to come, but it is the cheapest and most efficient standby or auxiliary we can provide.

"In closing, I beg to reassure the people who are interested that they need have no fears that Musquash will not supply the amount of power calculated, viz., 21,000,000 kilowatt hours.

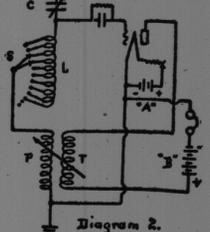

C. O. FOSS, Chief Engineer.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

Lesson No. 96. REGENERATIVE CIRCUITS FOR LONG AND SHORT WAVE RECEPTION

Regeneration in receiving circuits employing the vacuum tube is accomplished by "feeding back" to the grid circuit, a portion of the oscillating energy of the plate circuit. Two simple forms of "feed back" circuits commonly used to produce regeneration are the "tuned plate" circuit and the circuit employing the so-called "tickler coil."

In diagram 1 is shown an example of a "feed back" circuit using the "tickler coil." When the incoming wave is impressed upon this circuit the current in the plate circuit has both audio-frequency and radio-frequency pulsations. The radio-frequency component of the plate current flows through the tickler coil (T) and causes a voltage of radio-frequency to be induced in the secondary coil (S) to which the "tickler coil" is coupled. This induced voltage increases the oscillation in the grid circuit and produces a reinforced oscillation which is in turn amplified by the tube and results in a further increase of radio-frequency current through the "tickler coil" and increased strength of oscillation in the grid circuit. The resultant signal made audible in the receiving telephone, as a result of the cumulative effect of this regeneration, is increased to a strength much greater than would have been the case if the regenerative feature had not been employed.

Regeneration by means of the "tuned plate" circuit may be accomplished by substituting in place of the "tickler coil" in Diagram 1 a variometer which has an adjustable inductance and need not be placed in inductive relation to the secondary coil (S). In this case the capacity between the grid and plate is utilized for coupling purposes. A regenerative circuit containing a variometer with grid and plate variometers is a very efficient and popular circuit for short wave reception such as the 360 meter wave length of the present day broadcast.

A receiving circuit adapted to the reception of wave lengths up to 8,000 meters is shown in Diagram 2. This circuit is essentially a uni-coil receiver and consists of a tapped cylindrical coil (L) connected in series with a spherical fixed coil (P). A "tickler coil" (T) also spherical in shape is arranged so as to be rotated inside coil (P). By this means the coupling between the "tickler coil" and the fixed coil (P) may be varied to a very fine degree. The switch (S) has two contact arms, one of which regulates the number of turns in circuit of the coil (L) and the other performs the function of short-circuiting the next adjoining group of turns which effectively eliminates the losses due to end turns by cutting out the remaining unused turns of the coil.

Another feature of this receiving set is the use of the "balanced condenser" (C) in which both the fixed and movable plates are divided so that half are on either side of the shaft. When the condenser is mounted on a panel, this arrangement of plates is so balanced that the condenser will remain in the setting to which it has been adjusted. By means of the switch (S) the number of turns in circuit and consequently the inductance of the coil (L) may be varied and the circuit adjusted to long wave lengths, while the "tickler coil" has a continuously variable coupling through its rotative position with respect to coil (P).

(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.) Edward Belier, a resident of Darling's Island, in the Kennebecasis, killed himself by a shot through the mouth on Monday morning. He had been complaining of frequent pains in the head and it is believed that he was mentally unbalanced at the time of his death. His mother is the only relative surviving.

THE HUNTING SEASON

Let us furnish you with a trusty rifle and a supply of good ammunition. We carry the leading makes of Guns and Rifles on the market and your favorite arm is here; also the right ammunition.

DIES FROM BLOW IN FRIENDLY SCUFFLE

Brooklyn Photographer Has Skull Fractured When Fell by Companion, Who is Held.

New York, Sept. 6.—Jerome Kane, 26 years old, of 5184 East Fourteenth street, Brooklyn, was killed when he was struck in a playful struggle by his friend, Edward Lambert, 27, on the Fifty-ninth street platform of the B. R. T. subway station in Brooklyn.

Kane, who is a photographer, with Lambert, a pressman of The New York Evening Journal, and half a dozen friends had spent the evening at Conroy Island. Kane accompanied his friends on their way home and got off the train with them at the Fifty-ninth street station.

Lambert was held on a charge of homicide. Questioning of members of the party by detectives of the Fourth Avenue station indicated that the blow had been struck in fun.

Mrs. John Dalsell. Mrs. John Dalsell, of Castalia, Grand Manan, died on Sunday afternoon.

Mrs. Katherine O'Leary. The death of Mrs. Katherine O'Leary, aged eighty-one, occurred on Friday morning at the home of her son, George O'Leary, Richibucto.

Mrs. Emily Cosman. Mrs. Emily Cosman, aged ninety-two, widow of William Cosman, formerly well known in St. John, died in Vancouver on August 27.

W. C. T. U. Resumes Sessions. The W. C. T. U. resumed its weekly sessions yesterday and Mrs. Hope Thompson, the president, was in the chair.

FALL MILLINERY OPENING Mrs. M. A. Quinlan announces an autumn showing of imported hats, selected from the formal openings of the most noted designers.

Victorian Order of Nurses

A slight lessening of the demands for nursing service which had been very heavy during the early part of the summer was reported at the meeting of the board of directors of the Victorian Order of Nurses held yesterday afternoon

in the Carleton street home with Hon. J. G. Forbes, the president, in the chair.

The well baby clinics reports showed that a valuable work was being done in child welfare measures at the clinics.

The statistical report presented by Miss D. Coates, the superintendent of the V. O. N., gave the following figures: Total of visits, 1394; nursing visits, 712;

child welfare visits, 622; clinics held, eighteen; babies in attendance, 261; number of babies examined, 190. The number of children receiving milk provided through the fund established by the local council of women was reported to be dropping gradually. There were sixty babies at the present time receiving this free supply of milk.

## Propose Alterations At Public Hospital

Commissioners at Meeting Yesterday Decided to Ask for Special Meeting of Municipal Council to Consider Estimates for Conversion of Basement to Out-Patient Department — Student Technician Appointed.

The hospital commissioners at their meeting yesterday afternoon decided to ask for a special meeting of the municipal council at an early date to consider estimates for the alteration of the hospital basement to form an out-patient department. The new out-patient department is urgently needed. Other matters considered at the meeting included the authorization of the construction of a new retaining wall on the north side of the epidemic hospital and the appointment of a student technician for the X ray department. Regulations regarding the admission of patients are to be taken up with the hospital medical and surgical staff following recommendations submitted by the staff. In connection with the construction of the proposed retaining wall, attention was drawn to the fact that the receipts in several departments have been larger than had been anticipated and that in consequence improvements could be made without special grants.

M. E. Agar presided, and other commissioners present were Mrs. J. V. McLellan, J. King Kelley, Dr. J. G. R. Crawford and W. E. Emerson, and H. H. Gale, superintendent.

The superintendent's report contained the following information: Patients remaining at the end of the previous month, 111; admitted in August, 85; discharged, 182, including 18 died; operations in the surgical outdoor, 96; operations in the operating room, 92; patients remaining in hospital, 114. The business had been heavier than usual for the time of year, more particularly as annual vacations had been arranged. Good progress was being made with the retaining wall on the north side of the grounds and the eastern side as well as with the epidemic hospital road, and progress was being made in the remodeling of the epidemic hospital. The sum of \$5,000 had been placed as additional insurance for the epidemic hospital, bringing the total to \$12,000.

**The Retaining Wall**  
Mr. Gale in his report recommended that a retaining wall should be built on the north side of the grounds on the epidemic hospital and the space between filled in and sodded. He read a letter from G. G. Murdoch, who said a concrete retaining wall was needed and that about 225 cubic yards of concrete

would be required. Mrs. J. V. McLellan said Commissioner Thornton was of the opinion that the wall should be built. The chairman was appointed a committee with power to add and given power to act in regard to the construction of the wall.

The financial statement showed receipts as follows: Paid patients, \$35,925.28; X ray department, \$948.50; provincial treasurer, \$3,800; city chamberlain, \$7,960.62; seamen, \$912; total, \$48,646.42. Expenditures totalled \$11,238.54 and balance in the bank \$8,456.52.

The report of the medical staff recommended a change in the system of admitting patients. For emergency cases the doctors asked that the interns should draw the attention of the first member of the visiting staff to the case before admitting it. As it was believed this was always done, the superintendent was asked to confer with the staff in regard to the matter.

For X ray of patients the staff recommended the visiting surgeon or physician sign all applications for X ray. This matter was also taken up with the staff. The staff had appointed Doctors McLaren, Kelly and Curran a committee to decide what splints were required and prepare a list. The staff reported medical services had been very heavy and the number of typhoid cases was particularly high.

The report closed with the recommendation that an hour in the morning be named when all patients, not emergency cases, should be admitted. This matter also was to be discussed with the staff.

**The Dietician Report**  
The dietician reported 21,669 meals served and the cost per meal was shown to be appreciably less than at the similar period last year.

**Matron's Report**  
The matron's report told of cleaning done in the hospital, 153 pieces of linen added to the stock and referred to trouble with the elevator in the nurses' home. The elevator had stopped between floors when a nurse was coming down.

As the elevator had been out of order several times it was decided to ask F. Neil Brodie to report on the matter. The linen supervisor reported twelve new unaccount for at the isolation hospital. This report was referred to Mrs. McLellan to scrutinize.

### MAY VISIT CANADA SOON

The photograph shows the Duke of York on his polo pony. He will be head of the international air congress which is to be held in London next June, and may visit Canada soon.

The social service report was presented. Some surprise was expressed at the fact that Miss Belle Howe had gone on a three weeks' vacation in view of the fact that she was first appointed in May. The opinion was expressed that employees should not have a vacation until they had served for one year. Mr. Gale said the approval of Hon. Dr. W. F. Roberts and the Women's Hospital Aid had been secured before Miss Howe went on her vacation for one year.

Miss Howe's report showed visits made thirty-one; inquiries into tonsil and adenoid cases nineteen; the number of cases able to pay six; the number of cases reported to the Women's Hospital Aid for assistance three.

The committee on the outdoor department expansion had met and a report of the meeting was given. A special meeting of the municipal council had been thought advisable to consider the recommendations of the committee. On Mr. Emerson's motion a requisition was to be sent calling for a special meeting of the municipal council as much of the work of opening the out patient department in the basement would have to be done before the frost set in and the out-patient was urgently needed.

Mr. Kelley reported that Miss Ethel Thompson had been appointed as student technician in the X-ray department at a salary of \$40 a month.

**The Ambulance Linen**  
Commissioner Thornton wrote concerning the arrangement by which the ambulance linen was to be washed in the hospital laundry, thanking the commissioners for courtesy.

The sub-district board of health wrote that the rate of charges for patients in the isolation hospital were \$135 for board and payment for cleaning and disinfection.

Dr. Roberts sent word that he reported progress on securing information on anaesthetizing apparatus.

A new syllabus for the training school had been prepared and published. Mr. Kelley suggested a special meeting should be called next Monday night to look into the matter of the training school. Insurance matters were discussed. J. S. Gibbon wrote regarding the probable coal shortage. The results of coal tests made at the power house were given. The matter of coal supply was referred to the coal committee. The matter of the retaining of the gardener was referred to Mrs. McLellan with power to act.

The meeting was adjourned to sit in committee and deal with the report of the superintendent of nurses.

### THE RECTOR OF ST. MARY'S HAS RESIGNED CHARGE

The congregation of St. Mary's church received a surprise on Sunday when Rev. R. Taylor McKim, their rector, read his resignation. He has been in charge of St. Mary's for the last seven years, it being his first pastorate, and is greatly beloved by the members of his congregation. Three months is required to elapse before the resignation takes effect. It will be dealt with at the next sitting of the vestry. It is understood that strong efforts will be made to induce Mr. McKim to reconsider his decision. Mr. McKim has not made any public announcement concerning his future plans. He has always been very active in work in connection with public institutions and missions, and it is rumored, contemplates devoting his efforts to that phase of the church's work.

The Wentworth street work was practically completed yesterday afternoon by the water and sewerage departments and work on the other streets is progressing favorably. Good progress is being made at the Newman Brook sewer job.

"That is the true cocoa color."

It's Baker's Cocoa

THE problem in making cocoa is to preserve the natural flavor, aroma and color of good cocoa beans; to eliminate the excess of fat, so that the cocoa may be easily digested by the most delicate stomach, yet not to take out too much and materially impair its nutritive quality.

By the exercise of great care in the selection and blending of beans, and by the employment of the most highly developed machinery and processes of manufacture we believe that we have solved this problem and produced a

### Council Is to Consider Hydro Contract Tomorrow

F. P. Vaughan Expected to Explain Various Technical Terms of Document — Mayor McLellan Raps Board of Trade Official Regarding Belated Invitation to Luncheon — Protest Against Coal Dumping in Harbor — Other Business.

The common council will hold a round table conference on Thursday morning to discuss the terms of the contract submitted to the city by the New Brunswick Electric Power Commission relative to the Musquash current and at this conference it is proposed to have F. P. Vaughan electrical expert, explain to the members the various technical terms of the document. This was the decision reached at yesterday's weekly session, with the mayor presiding and all the commissioners present.

Charles H. Gibbon, of the J. S. Gibbon & Co. Ltd., coal and wood merchants, appeared in person before the council and formally protested against the agreement between the harbor department and the Maritime Nall Co. Ltd., in regard to dumping of coal outside the McLeod wharf warehouse from the steamer River Taff, now berthed there. Commissioner Bullock explained that the coal was being dumped there on the mud as it was impossible for the Maritime Nall Company to obtain enough vehicles to fill all their orders. He declared he would grant Mr. Gibbon the same privilege on the same terms if he so desired.

Mayor McLellan delivered a statement in regard to the invitation from the local board of trade to be present at the dinner in the Union Club tomorrow night in honor of the visiting delegates to the maritime board of trade annual convention. He said he would not attend.

Other matters before the council were contained in advice from Commissioner Frink in regard to new work by the New Brunswick Power Company; authority for Commissioner Frink to pool his estimates; decision to notify Mrs. C. Wright and Wellington King that the city was not liable for accidents which they had written about to the council. Committee Report.

The adoption of the report of the committee of the whole, concerning expunging of certain sections of the minutes having reference to the appointment and establishing of a civic hydro commission; recommendation to meet the power commission and also to engage the services of F. P. Vaughan as first item of business.

Mayor McLellan, reporting as commissioner of finance and public affairs,

recommended that Arnold A. Wilson be appointed constable; that the agreement between the minister of labor and the city concerning the unemployment bureau be signed. These carried, as did recommendation for payment of the following departmental accounts for last month: Treasury, \$319.80; public safety, \$1,692.66; public works, \$4,787.16; water and sewerage, \$6,465.75; harbor, \$3,555.61.

An application from Thomas W. Trott for appointment as a constable was referred to the mayor with power to act.

Dr. W. B. Wallace, solicitor for the estate of the late Louis Green, wrote requesting a reduction of the assessment on the estate. He will be granted a hearing along with other appeals.

Mayor and Board of Trade.

The mayor then announced he had something to say in regard to an invitation which he had received from the local board of trade to be present at the luncheon tomorrow night in honor of the visiting delegates. He said: "Other invitations for this affair were issued a week ago to those persons whom they presumed would be present. This one only comes because surprise was expressed to those in charge that the mayor had received no invitation. I will send no regrets for my not going only through the newspapers," declared his worship. He went on: "It will not accept their invitation when others were issued a week previous. I will show them they can put nothing over me. I do not propose to accept an invitation from the board of trade that has been shamed out of them. I know a few things but I know a little more than those in charge of the board of trade. City hall—not McLellan—has been ignored and I do not propose to let them get away with it. I will take this means to apologize to the delegates for my absence and seeming discourtesy," added the mayor.

Accident Complaints.

Commissioner Frink submitted his report on the two accident communications from Mrs. C. Wright and Wellington King referred to him. His resolution, based on the city solicitor's report on the matter, that the city was not liable in either case, was adopted. The persons concerned will be notified of this action.

Commissioner Frink requested authority to pool his estimates and this was granted. He explained that his credit balance showed only \$36,800 on hand last month, which is \$2,000 less than he had last year this time. Expenses were mounting and retrenchment was necessary.

Speaking on this matter, Commissioner Frink asked if anything more had been heard from the provincial government.

**Corns Go**

Just say **Blue-jay** to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it!) and in extra thin plasters. The action is the same.

### BODDY, NEGRO COP FIGHTER, DIED IN SING SING CHAIR

Went to Death in Same Stolid Mood in Which He Lived Last Days — Read Novel All Day.

Ossining, N. Y., Sept. 5.—Luther Boddy, negro "cop fighter," ex-convict, and bad man, who murdered two detectives in Harlem on January 5 last, was put to death in the electric chair in the same stolid mood in which he lived his last days.

As Boddy was led from his cell in the death house, he called "Goodbye, boys," to the others awaiting the same fate. He walked briskly and unassisted into the execution chamber, keeping a smile on his lips. As he was being strapped into the chair, he said "Good-bye, Doc," to Dr. Amos O. Squire, the prison physician. It was 11:02 when he entered the execution room and 11:07 when he was pronounced dead.

Boddy spent most of the day reading Robert W. Chamber novel, chatted with the Rev. Dr. Anthony N. Peterson, Protestant chaplain of the prison, and went unmoved through a last visit from his widowed mother, Mrs. Ella Boddy of Montclair, N. J. He ate with relish two ample meals of his own choosing, and, shortly before the door into the execution chamber swung open for him, he described himself as "feeling all right."

Another murderer, Herbert W. Smith, was put to death here tonight. Smith killed Postmaster Lewis Johnson of Nineveh Junction, two years ago, snatching a shotgun from Johnson and cutting several hands after he had been captured in a hold-up, he managed to pull the trigger. When these two paid the extreme penalty, the number of executions at Sing Sing reached 200 since the chair first was put into use on July 7, 1891.

Boddy's crime was one of the most daring that was committed while the New York city crime wave was at its height. Detective Sergeants Francis J. M. Buckley and Wm. A. Miller, who had been sent by Boddy for some time in connection with the shooting of Joseph Rhodes, a negro patrolman, who had been injured, learned that Boddy was going to call at a school in Harlem on the night of January 5 to discuss with a probation officer the parole for his wife, Annie Brown, who was about to be released from Auburn prison. The detectives picked up Boddy at the school and started for the West 188th street station, intending to question him.

When they got within 200 feet of the station house, Boddy, who had been searched by the detectives and apparently was unarmed, flashed a pistol which he had kept hidden in his sleeve, tied to a string so that it would slide down under his armpit when he raised his hand to be searched. He fired at his captors at close range. One of them died as he was being carried into a hospital. The other died in a hospital a few hours after the shooting.

Hunted by 40,000.

The instant the two detectives dropped and he was free, Boddy fled, losing himself in some negro warren in Harlem. Thereafter there ensued a hunt for him in which 40,000 policemen, sheriffs, county detectives and others in the metropolitan district were on the alert.

Boddy was finally captured by a negro magistrate in a boarding house in Philadelphia.

The only excuse Boddy ever gave for his double killing was that he thought the detectives, who, he said, had abused him before, were taking him to the station house to beat him. He was indicted, tried and convicted all within twenty-five days of the date of his crime. He granted the verdict. He was only twenty-three years old, but had a long criminal record.

MacGOWAN & CO., 57 Prince Edward St. MANCHESTER, ROBERTSON & ALLISON

Mr. Gibbon's Protest.

At this juncture, C. H. Gibbon entered the council room and the mayor asked him if he had anything to bring before the council.

Mr. Gibbon asked if there was any special privilege granted by the city to use the city wharves as a coal dump. He explained that the Maritime Nall Co., Ltd., were unloading a steamer at the McLeod wharf in this fashion.

"That's a matter for the harbor department," said the mayor.

Commissioner Bullock explained, saying that he had left the details with the harbor master. The situation was that the Maritime people had agreed to pay the city a certain rate for this privilege. "The coal is not being dumped on McLeod Wharf. It is being taken through the warehouse and dumped on the ground outside the warehouse where it is doing no harm whatever," he declared. It was practically waste land that was being put to a good use and if Mr. Gibbon wanted the same privilege he could obtain it on the same terms.

Mr. Gibbon said that it usually had been the custom to cart the coal away immediately it had been taken from the steamer. If this privilege could be obtained, he would like to secure it.

"You are making a protest, Mr. Gibbon?" asked the mayor.

"Yes, I am," declared Mr. Gibbon. "It will be looked into," asserted the mayor.

Tenders Opened.

Tenders for piping for new sewerage construction on the west side were opened. They referred to 24 inch, 18 inch and 12 inch pipe. Commissioner Wigmore will bring in a report on this at the next meeting.

### DIES AS RESULT OF MOTOR CAR CRASH

Moncton, Sept. 5.—Oliver Girouard, who was injured several weeks ago when his wagon was struck by an automobile, died at the Moncton hospital last night.

Have you seen the new **1923 McLaughlin-Buick?**

Berlin, which advised of mounting prices for German toys.

Christmas prices cannot be forecast, the report declared, but an increase of 100 per cent. in the price of German toys to take effect in the fall has been decided upon, with further increases expected.

Militarism, the report added, has disappeared from the German toy industry and the army corps of lead soldiers formerly turned out by the Nuremberg factories have been superseded by tribes of American Indians.

**BORN AS HOSPITAL BURNS.**

Two Babies Arrive While Quebec Maternity Building is in Flames.

Quebec, Sept. 6.—Two children were born to patients of Lamerisiercote Maternity Hospital during the progress of a fire, in which the interior of the building was destroyed and the inmates had to be hurriedly removed.

One of the children opened its eyes and ears upon a strange world of flame, smoke and shouting confusion while the mother was being carried to a place of safety. The second was born a short time after the mother had been taken

from the burning building to a nearby shelter.

Ten Good Shepherd nuns and fifty patients were in the flaming structure, and all were removed without injury. The cause of the fire was not determined.

**MAINE OPERATIVES DEMAND ADVANCE**

Requests Presented to Cotton Mill Managers of Lewiston, Auburn and Lisbon Falls.

Lewiston, Me., Sept. 5.—The textile workers union has requested the management of the Avon, Androscoggin, Barker, Continental and Hill Cotton Mills, of Lewiston, Barker Mills, of Auburn and Farwell of Lisbon Falls to re-

store the wage scale which was in effect on February 11, 1922. The wage scale requested is that in effect in Massachusetts mill centres at the present time, the striking operatives there having carried their point. There are about 7,000 operatives in this district and about 20,000 in Maine, all of whom would be affected by a change in wages.

**HORSE'S KICK FATAL TO DORCHESTER MAN**

Moncton, Sept. 5.—Sanford Smith, of Upper Dorchester, who was kicked in the stomach by a horse on his farm last Thursday evening, died in the Moncton hospital last night. He was fifty-eight years of age and is survived by his wife and a son.

**NOT THIS MAN.**  
George Latham of Prospect Point is not the man of that name who appeared in the police court yesterday morning in connection with some trouble at the exhibition grounds.

**A CHALLENGE.**  
The North End All Stars wish to challenge the Nationals to a game of baseball on the North End Improvement League diamond on Friday evening. Please answer through The Times.

**BURIED TODAY.**  
The funeral of Philip N. Bannister was held this afternoon with service at his late residence, 122 Britain street, and also at St. James' church. Rev. H. A. Cody and Rev. R. T. McKim conducted service. Interment was in Fernhill.

**NORTH END FIRE.**  
A call from Box 127 a little before twelve o'clock today brought the North End firemen to J. T. Knight's house, 215 Douglas avenue, where the shingles around the eaves had taken fire. The blaze was extinguished with the chemical in a few minutes.

**REFERRED TO CHIEF.**  
Magistrate Ritchie said this morning that he had received a letter from a taxpayer complaining of conditions in his neighborhood. His Honor said he could do nothing in the matter, and that the writer should confer with the chief of police, who would assist him in every possible way.

**DIED IN CALIFORNIA.**  
The death of Mrs. J. W. Stewart, formerly Miss Martha McDiarmid of this city, occurred on August 28 at her home in Paso Robles, Calif., following a long illness. Besides her husband she leaves one son, Edgar Stewart of Paso Robles; one daughter, Mrs. A. L. Brown of Paso Robles, and one sister, Mrs. Andrew Mc-Nichol, 282 King street east. Mrs. McNichol was with her sister when she died.

**PAID THE TAXES.**  
The sale of two properties on account of non-payment of taxes, which had been scheduled for Saturday, did not take place. The city chamberlain announced that solicitors for the owners of these properties paid all claims against them before the hour arranged for the sale.

**BAD SPOT IN ROAD.**  
A St. John man who travels a good deal by automobile draws attention to the dip at Ketepec which he says is again in bad condition and dangerous if one is not on the watchout for it. A few loads of gravel, he says, would remedy the trouble.

**BASEBALL THIS EVENING.**  
A fast game of ball is expected this evening at 6:45 o'clock, when the Telegraph and Times team will meet the East St. John Rovers in their last evening game. The batteries will be: For the Rovers, Carpenter and Penny, and for the newbies, Johnston or Green, and Gosnell. Arrangements have also been made for the Telegraph-Times aggregation to play the fast Hampton team at Hampton on Saturday afternoon and evening.

**ENGLISH-KELLY.**  
A pretty wedding took place in Holy Trinity church this morning at 6:30 o'clock when Very Rev. J. J. Walsh, V.G., united in marriage with nuptial mass Miss Helen, daughter of Mr. and Mrs. John E. Kelly, Somerset street, and John English. The bride looked charming in a gown of pearl gray tulle with silver lace and carried a bouquet of white and pink roses. She was attended by her sister, Miss Gertrude Kelly, who wore peach colored tulle with tulle hat and carried a bouquet of pink roses. The groom was supported by Lawrence Oran. After the ceremony the bride party repaired to the home of the bride's parents where a dainty wedding breakfast was served to relatives and friends of the bride and groom. Later Mr. and Mrs. English left on a honeymoon trip to Boston and New York. The bride's traveling suit was of navy blue. Among the valuable gifts received was a chest of silver from the Dominion Express Company, with whom the groom is employed. On their return Mr. and Mrs. English will reside at 307 Rockland road.

REAL ESTATE NEWS

Ida E. Wheaton and husband to Thomas Clifford and others, property in Greenwich.

POLICE COURT

Two men charged with drunkenness this morning were fined \$208 each.

William Williamson was sentenced to six months in jail this morning without the option of a fine. The charge was one of wandering about George street and failing to give a satisfactory account of himself.

John Norgate was charged with wandering about the streets at 3:20 this morning and not giving a satisfactory account of himself. He said he belonged to Toronto and was looking for a job. He was remanded pending inquiries.

No Judgment Yet.

Montreal, Sept. 6—Judgment in the case of D. C. MacArrow, general manager of the defunct Merchants' Bank, will be deferred tomorrow by Chief Justice Decarie.

SOME CHANGES AS SCHOOLS RESUME

**New Lorne Building in Use for First Time**

Miss Alice Dale and Miss Harriet E. Smith Appointed Principals—North End Manual Training—New Grade 9 at the High School.

There are quite a few changes in the teaching staff of the various city schools this year. Among the list announced this morning by Dr. H. S. Bridges, superintendent of schools, perhaps the most important was the staff for the new Lorne school, in which scholars gathered for the first time this morning, and the appointment of Miss Harriet E. Smith as the principal of the Albert school, West St. John. Another interesting announcement was the establishment of a manual training department in the Lorne school, which will accommodate pupils of the various north end schools. The list announced by Dr. Bridges follows:

In Albert school, West St. John, a new Grade 5 has been opened in the basement this year, owing to the crowding. Miss Grace Baird, assistant in Albert school last year, has taken charge of the new room. Miss Marian D. Owen has taken Miss Baird's position on the reserve staff. Miss Harriet E. Smith, acting principal during the illness of W. L. McDiarmid, and since his death, has been appointed permanent principal.

In St. Patrick's, West St. John, Miss Mary E. Kane, reserve teacher at St. Malachi's for some time, has been appointed to take the place of Miss Smith. There were no changes in LaTour school.

At Alexandra school, Miss Alma Slocum has been appointed as reserve teacher, and takes the place of Miss Emma Clowen, transferred to King George school to take the place made vacant by the resignation of Miss Hannah.

Miss Enslah Neal has been appointed to King George to take the place of Miss Vera Webb, former teacher of Grade 6, resigned. Miss Una Wilson is appointed reserve teacher.

The staff of the new Lorne school has been organized as follows: Miss Alice Dale, formerly principal of Newman street, takes the principalship, with Grades 5 and 6. Miss Jean Scott has been transferred from Alexandra to Lorne to take the other Grade 6. Grades 4 and 5, Miss McKim and Miss Hill, who had schools in the assembly hall at Alexandra, have been transferred. Miss Hill will assume charge of Grade 5, and Miss McKim grade 4. The other teachers are Miss Pauline Livingstone, Grade 3; Miss Perry, Grade 2, and Miss Martin, Grade 1. Miss Audrey Mullin has been appointed reserve teacher.

A manual training room for the north end pupils is to be opened in Lorne school in the course of eight or ten days. Miss Jennie E. A. Ward will take charge of this department. The manual training pupils in Grades 7 and 8 of Alexandra, Dufferin, King George and St. Peter's boys' school will take their work here.

In Dufferin school, Miss Gertrude Peterson, former reserve teacher, takes the position occupied by Miss Corbett, absent on leave through illness. The Grade 3 position of Miss Grace Young, resigned, is filled by the appointment of Miss Eleanor McLean. Miss Idera H. Jones has been appointed reserve teacher.

In St. Peter's girls' school, Sister Barbara has been transferred from St. Joseph's to take the place of Sister Ethelrida, who is ill. There are no changes in St. Peter's boys' school.

In Winter street school Miss Rea C. Munro takes charge of Grade 5, made vacant by the resignation of Miss Zeldia Hart through illness.

Two changes have been made at St. Malachi's. Miss Gertrude McGuire has been appointed by the board to Grade 6, in place of Miss Zenia Beardsley, resigned. Miss Jean Lawlor has been appointed to take the place of Miss Mary Kane on the reserve staff, the latter having been transferred to St. Patrick's. There are no changes in the staffs at Aberdeen, Centennial and St. Thomas' schools.

In Victoria school, the resignation of Miss MacAfee in Grade 6 has been filled by the appointment of Miss Mary G. Harrison. Miss Robertson's position in Grade 9 has been filled by the appointment of Miss Marjorie Manning. At present Miss Greta Clayton takes the position of reserve teacher, owing to the promotion of Miss Harrison to Grade 6. There are no changes at King Edward school.

There were several resignations in the High school staff, namely those of Miss Annette Parks, Miss Marguerite Adams and Gordon Willett. Miss Parks' position in Grade 10 has been taken by Miss Ira Thorne. Miss Olivia Maxwell, formerly a teacher on the city staff, has taken the position in charge of Grade 9 boys' school, vacated by Miss Adams. Miss Salome Townsend, formerly principal of the Gagetown grammar school, has been appointed to Grade 9. Randolph H. Bennett, formerly a U. N. B. student and principal of Andover grammar school, goes to the position in Grade 9 made vacant by the resignation of Mr. Willett. The board also found it necessary to open a new boys' department in Grade 9. Fred A. Patterson, who last year was principal of the Campbellton school, takes charge of this grade. Another change mould necessary by the increasing number of manual training pupils was the appointment of another teacher in this work. William McLean has been appointed to this position. Mr. McLean is a graduate in arts from Acadia University, and has a great deal of experience in manual training.

TRAFFIC CASES.

Harry Champelover was charged this morning with exceeding the speed limit in Douglas avenue and with driving on the wrong side of the street. Policeman McBrien testified. A fine of \$10 was struck.

Earl Seales was fined a like amount for speeding in the avenue. J. L. Holmes was fined \$10 for speeding in Douglas avenue on report of Policeman McBrien.

John A. Kennedy won out on a like report. The car reported was Number 2-998, and he said it was not his car.

J. L. Steeves was reported by Policeman Quinn as speeding in Prince Edward street and with rounding the corner into Union without sounding his horn. He pleaded not guilty. The case was set over until tomorrow morning.

Autumn Opening and Fashion Show Tuesday, Wednesday, Thursday September 5, 6, 7

The formal opening of our Grey Model Shop will be held three days this week at which time a fashion show will be a special feature.

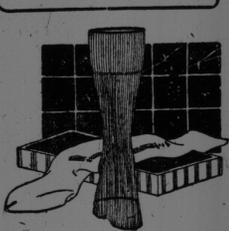

The opening of this floor will mark a new era in the history of this store as we have doubled our efforts in these lines and will carry a much larger stock than hitherto.

During the fashion show an orchestra will be in attendance and live models will display the very newest in this season's

You'll see here the new fall fashions for men, women and children.

OAK HALL - SOVIL BROS., LTD. KING ST.

Very Special Prices on High Class Bedroom Suites

We have just seized an opportunity, which was accorded very few other dealers, of securing a number of high-class bedroom suites in real mahogany and walnut at prices very little higher than is regularly paid for those made in inferior woods. The reduction was made on account of these patterns being discontinued by the makers, who are bringing out an entirely new line, and we will consequently be unable to repeat orders for any of them. We are therefore, offering substantial reductions to those wishing to furnish a complete room, and invite all intending purchasers to call and see them at once.

Our immense stock is always at your disposal for information or price comparison.

**A. Ernest Everett**

UNION CHIEFS ARE FOR PEACE

Lewis Ready to Back Decision Against All Opposition
Insurgent Coal Leaders Not Expected to Nullify Agreement for Return to Anthracite Mines—A Call for Conservation of Coal Supply.

(Canadian Press) Wilkes-Barre, Pa., Sept. 6—Delegates representing the Pennsylvania anthracite coal miners gathered here today to decide whether the peace pact agreed upon by operators and miners leaders at Philadelphia last Saturday would be ratified.

Union chiefs, including John L. Lewis, international president of the U. M. W., were present when the convention was called to order. They were prepared, Mr. Lewis announced, to back against all opposition their decision in accepting, with other officials, the compromise agreement preferred by Senators Pepper and Reed of Pennsylvania at the instigation of President Harding.

The insurgent leaders here today indicated that they would fight the peace pact to the last ditch, but other officials declared the majority was sufficient to send the miners back to the plants in short time.

Washington, Sept. 6—The government was concentrating its attention today on the problem of coal distribution, particularly in the light of the virtual settlement of the anthracite tie up.

St. Paul, Minn., Sept. 6—Governors of the northwestern states were asked yesterday to issue proclamations calling upon citizens to conserve coal on a war time basis, in resolutions adopted by the Northwest Coal Committee in session here.

ARRESTED HERE, REMANDED IN COURT AT MONCTON. Moncton, N. B., Sept. 6—R. R. Moore appeared in the police court here this morning and was charged with receiving \$141 from the Havelock Mineral Springs under false pretences. He was remanded until Friday morning.

P. E. L. Tobacco Man Dead. Charlottetown, P. E. I., Sept. 6—T. B. Riley, aged 77, tobacco manufacturer of Charlottetown, died here yesterday.

CLAYTON CO. Undertaker, Embalmer. Phone M. 718 81 Princess Street

Notices of Births, Marriages and Deaths, 50 cents.

WEEK AND FAMILY. PEATMAN—In loving memory of Captain H. M. Peatman, who departed this life, Sept. 6, 1920. Gone, but not forgotten.

**SHOULD APPLY FOR  
LATE WAR MEDALS**

Approximately One-Half of British War Medals and Victory Medals Distributed to Date to Soldiers and Next of Kin.

Ottawa, Sept. 4.—Of the authorized issue of 450,000 British war medals 210,385 have been distributed to date by the honors and awards department of the militia here, and of the authorized issue of 350,000 Victory medals 200,801 have thus far been distributed, according to Capt. A. C. Chadwick in a recent statement on the progress of his work and in reply to the complaint that thousands of veterans had not yet received their war honors.

British war medals are issued to all those who went overseas on duty prior to Nov. 11, 1918, and the Victory medals are given to all those who served on the establishment of an authorized unit in the theatre of war.

There could only be two reasons for failure of veterans to get their medals. The first is lack of supply of these medals from Great Britain where they are being produced and sent to Canada in shipments of 30,000. There has not yet been any scarcity of medals with which to supply the demand from soldiers or next of kin.

The other reason is failure of the veterans or next of kin to supply the department with their latest addresses.

Postcards are being sent out to soldiers or to their next of kin at the rate of 1,600 a day. Of these a small percentage come back through failure of the interested parties to supply their new addresses.

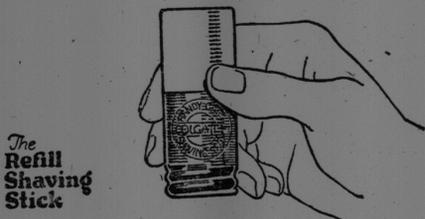

In June the percentage of returns of cards uncolled for was a little higher than is usual. In that month 3,735 cards were sent out; 2,182 came back with the desired information, and 1,226 were returned undelivered.

**CHILDREN FLEE BULLETS.**

Several Policemen Struggle With Man Who Says He Shot "For Fun."

New York, Sept. 5.—A group of children were playing on the sidewalk at Brook avenue and 158th street, t' Bronx, when a man came toward them with a pistol in his hand. Some of the children ran into neighboring buildings as the man pointed the pistol over the heads of their companions and fired three shots.

Lieutenant Lake, who was in the Morrisania Station, a short distance away, heard the shots, and with a dozen police-

**PROSPECTS BRIGHT FOR NEXT WINTER**

Premier King Pleads for Confidence in Own Resources at Unemployment Conference.

Ottawa, Sept. 5.—Canada's labor horizon for the coming winter is brighter than it has been for three or four years. There will be little unemployment unless something unforeseen occurs. Also, those who will need public assistance to tide themselves over the cold months need look for no doles. Some form of productive work will be provided and not at trades union wages.

These facts and this policy came to light at the first sitting this afternoon in the Liberal committee room of the parliament buildings of the conference on unemployment between representatives of the federal and the provincial governments.

There was a full attendance of those invited and a hearty welcome was extended to them by the prime minister, who in a short address outlined the attitude taken by the present dominion government toward unemployment and other problems.

Hon. James Murdock was chosen chairman of the conference.

Optimistic reports were given by Joseph Ainey for Quebec and by Hon. C. W. Robinson for New Brunswick. "I can share the optimism of the other provinces," said Premier Murray of Nova Scotia. Crops were never better and the various industries were showing signs of marked improvement. "As to mining we have cut out apree and I think the immediate prospects are encouraging indeed." He was opposed to doles.

The questions facing the conference were of paramount importance, Rt. Hon. Mr. King declared. The war had left several problems and unemployment was one of these. The federal government felt that only by co-operation could the problems of the day be met and therefore could public confidence be held. Mr. King announced that it was felt that a conference in its early stages should be limited to the representatives of the federal and provincial governments.

There was no desire to rule out the municipalities but only the direct representatives of governments could speak for these governments. Several representatives of municipalities and other organizations were present when Mr. King made his statement. The views of these bodies and such as labor would undoubtedly be placed before the conference before its close.

The tendency toward centralization in federal and provincial questions was dealt with by Mr. King. One of the purposes of this gathering should be to define what were federal and what provincial matters affecting unemployment. An instance of the centralization during the war was found in the Canada Wheat Board where the federal government during the war had taken power to control wheat marketing. Last year it had been found there was no power to renew such control under federal power alone. The government had also in the past taken steps to meet unemployment crises which were not actually federal matters.

Pleas for Self-Reliance. The premier advised the delegates to keep in mind the increase in the national debt during the war. This had increased more than the provincial debts because the federal government had shouldered some burdens which were more properly matters for the provinces. Some of these burdens were continuing and they were a serious matter for the government to face.

The prime minister also dealt with the two methods of progress in individual or collective efforts. Progress through self-reliance was better than through depending on central government or other action. During the war the public mind had come to accept many things as part of the duty of the federal government which had previously not been thought such. Canada must get back to a basis of self-reliance on the part of both individuals, municipalities and provincial governments if she was to progress as she should.

Mr. King referred to the fuel problem and to the popular idea that this was an emergency which should be met by the federal government. However, the government felt that if it went into the purchasing and marketing of coal the public would sit back and expect the government to accept full responsibility. While there were undoubtedly responsibilities which the provinces and municipalities as well as individuals must shoulder for the good of the entire country, government assistance should be only the last inevitable step when self-help had proven a failure.

Below, at right, three views of Elgin Presentation Watch with "Mecca" face, \$225. The Presentation Series embodies the new Elgin's C. H. H. movement, 12-size bridge model, extremely thin.

All watches of this new series have the Invar-Steel Balance, which minimizes temperature variation and makes for remarkably accurate timekeeping.

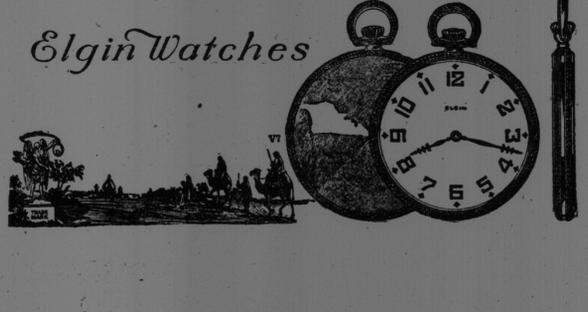

Each Presentation Watch is an individual creation. Case in a pleasing variety of exclusive designs, in White, Green and Yellow Gold—\$225 to \$300. The Elgin Presentation Series is considered the last word in the C. H. H. line as applied to modern business and social requirements.

**TO MOHAMMED**, life was a waiting game. Time lifted him from poverty to power. Like Caesar, he sensed Time's value to the full, but for the Roman's whirlwind dispatch he substituted the patience of the Orient. "Now!" was Caesar's watchword. "Wait!" was Mohammed's.

An Arab rival ridiculed Mohammed's prophecy of the end of Persian domination. "Master," cried Abu, the Prophet's zealous bodyguard, spurring hotly through the gates of Mecca, "I have wagered him ten camels that it will come true within three years!"

"Increase the wager," came the Prophet's crafty whisper, "but lengthen the Time!" Abu promptly trebled the Time and staked one hundred camels—and won!

The flight of thirteen centuries—which has increased Mohammed's following to three hundred million souls—has brought to the world a steadily deepening sense of the Value of Time, and of the responsibility which rests on those matchless guardians of the priceless minutes of our day—

BOY KILLS HIS FATHER. Ohio Lad Says He Shot to Save His Mother's Life.

Stuebenville, Ohio, Sept. 5.—Herbert Woodward, a seventeen-year-old farmer boy, was brought to the county jail here charged with killing his father, Clarence Woodward, at their home near here. He expressed sorrow over his act, but said he had to kill his father to save his mother's life.

The father, Herbert said, had been acting queerly and threatened to kill the mother. In anticipation of such an attempt the son obtained a revolver and shot his father twice, when he found him choking his wife. Woodward is thought to have been mentally unbalanced.

ON FLIGHT FROM UNITED STATES TO RIO JANEIRO. Calhoun, Cuba, Sept. 6.—The airplane Sempalo Correl II arrived here from Key West yesterday. Short of gasoline, Lieut. Walter Hinton, pilot of the plane, which is endeavoring to fly from the U. S. to Rio Janeiro, was forced to land here. He had intended to come down in Nuevitas Bay, 150 miles to the east.

AN ATTEMPT TO BLOCK CORK HARBOR

The "Gorilla" one of the Coast Line ships sunk by the Irish rebels in an attempt to block Cork harbor. The obstacle did not prevent the occupation of Cork by the Nationalist (Free State) forces.

Calhoun, Cuba, Sept. 6.—The airplane Sempalo Correl II arrived here from Key West yesterday. Short of gasoline, Lieut. Walter Hinton, pilot of the plane, which is endeavoring to fly from the U. S. to Rio Janeiro, was forced to land here. He had intended to come down in Nuevitas Bay, 150 miles to the east.

NEWFOUNDLAND SPORTS DAY

St. John's, Nfld., Sept. 6.—Two hundred and sixteen entries have been registered for the various sporting events which will be held in connection with the National Sports Day here today.

HONEYMOON PAIR HURT ANSWERING FIRE CALL

Freeport, L. I., Sept. 3.—Frank Coron, Jr., of Wantagh, L. I., with his bride, Vera, arrived home from his honeymoon and was welcomed ten minutes later by a fire call. Being a volunteer fireman, and custodian of the Wantagh hose cart, which is kept in his back yard, Coron responded promptly.

He hitched his automobile to the hose cart, which is a trailer, and started for the fire, which was in a barn in North Bellmore. His wife took her place in the seat beside him, and his brother William hung on the side of the automobile.

In Wantagh avenue the automobiles collided with another which was parked for repairs in front of a garage. William Coron was thrown to the ground. His ankle was broken and his back sprained. His brother received minor bruises and his wife a slight shaking up. The fire was put out by a stable-boy.

C. N. R. EARNINGS SHOW A DECREASE

SUCIDE AFTER REPRIMAND

Gt. Rebuked by Mother, Leaps Four Stories to Sidewalk.

New York, Sept. 6.—After being reprimanded by her mother for going out so much in the evenings, Estelle Corrigan, seventeen, jumped from a fourth-story window of her home at 200 West Sixtieth street, striking on the sidewalk. She was taken to Roosevelt Hospital with a fractured skull and internal injuries and died two hours later.

TORONTO HAD IT 93 ABOVE ON TUESDAY

Toronto, Sept. 6.—Ontario sweltered yesterday in a heat wave which ranged in temperature between 80 and 93, Toronto recording the maximum. London was nearly as hot as here, with a temperature of 92 while Parry Sound, in the north recorded a maximum of 82 and Kingston 78.

STICK IN WHEEL KILLS HIM

Revolving, It Pierces Heart of Lumber Mill Workman.

New York, Sept. 6.—Arthur T. Reno, forty-eight years old, of 774 East 169th street, The Bronx, was killed almost instantly at Mount Vernon, when a stick he was handling got caught in a flywheel and as it described a circle struck him in the left breast, piercing his heart. Reno, who was married, had been employed for eighteen years in the Wilson & Adams Co. lumber mills. He was using the stick to adjust a pulley attached to a flywheel in the mill when the stick slipped and lodged in the flywheel, which was revolving at a rapid rate.

ARCH ENLISTS AGAIN

Man Who Fired First American Shell in the War Rejoins the Army.

Indianapolis, Sept. 6.—Sergeant Alex. A. Arch, of South Bend, Ind., who sent the first American shell on its way in the World War, is ready for another "stitch." The sergeant, who has been taking a look at the "outside" since the recent expiration of his enlistment, has seen enough and he expects to return to his buddies in the Sixth Field Artillery at Camp Dix, N. J., Sergeant Arch re-enlisted here.

Use the Want Ad. Way

PERSONAL
HEIRS WANTED—MISSING HEIRS are being sought throughout the world. Many people are today living in comparative poverty who are really rich but do not know it. You may be one of them. Send for the well known Index Book entitled "Missing Heirs and Next of Kin," containing carefully authenticated lists of missing heirs and unclaimed estates which have been advertised for, here and abroad. The Index to Missing Heirs we offer for sale contains thousands of names which have appeared in American, English, Scotch, Irish, Welsh, German, French, Belgian, Swedish, Indian, and other newspapers, inserted by lawyers, executors, administrators and courts. Also contains list of English and Irish Court of Chancery and unclaimed dividend list of Bank of England. Your name or your ancestor's may be in the list. Send one dollar (\$1.00) at once for book. We pay postage.—International Claim Agency, Dept. 404, Pittsburgh, Pa., U. S. A.

BUSINESS CHANCES
AMBITION WOMEN OWN YOUR OWN profitable business. We supply free shade card showing twenty shades English made four ply hand knitting wool. Take orders from friends and acquaintances. Repeat orders come quickly. Build profitable business, your profit seventy-five cents and \$1 per pound. Your earnings depend entirely on the number of calls you make. Don't delay, send for shade card and particulars to day. English Wool Company, P. O. Box 691, Montreal.

FINE WEATHER FOR BIG FAIR

Crowd Yesterday About 20,000—Judging Continues—Cases Treated at the Ambulance Booth.

Ideal September weather attracted another big crowd to the St. John exhibition yesterday. While the throng was not quite so large as that which attended on Labor Day it is estimated that at least 20,000 people passed through the gates during the day.

The judging of Ayrshires, shorthorns, sheep, swine and flowers was carried out and there was a killing and plucking demonstration staged in the poultry section. Several classes in the dog show were also judged.

The fireworks programme in front of the grand stand, weather permitting, was a success.

The fireworks last night were about the same as on Labor Day but the more suitable weather gave them much better effect.

The judging of Ayrshires, shorthorns, sheep, swine and flowers was carried out and there was a killing and plucking demonstration staged in the poultry section.

the head and intestines of the dead bird the any traces of disease could be detected. It would be to the advantage of the consumers, he said, if they would adopt this practice in this province.

GIRLS! LEMONS WHITEN SKIN AND BLEACH FRECKLES

Squeeze the Juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well and you have a quarter pint of harmless and delightful lemon bleach.

A GASOLINE RECORD.

12,229,975 Barrels Was the Output for May of This Year.

New York, Sept. 6.—The greatest production of gasoline in the history of the oil industry occurred in May of this year, according to data compiled by the American Petroleum Institute and submitted to the Senate Committee on Manufactures, which is investigating the industry.

Although the demand for gasoline varies more than 100 per cent. between seasons of maximum and minimum consumption, it is necessary for the oil refineries to operate on practically a uniform basis throughout the year.

SLAYER "FINDS" BODY AND GIVES WORD TO POLICE

Contractor Later Confesses to Shooting but Says He Did it in Self-Defence.

New York, Sept. 6.—After shooting a man through the head and killing him on a lonely road on Staten Island, Charles Maki, 32, a prosperous builder and contractor, went home to his family at 5 Purdy Place, New Drop and later telephoned the police that he had seen the body of a man at Purdy Place and Martin avenue, but did not say that the man had been shot.

Detective Sergeant George Detroit found the body of Yelms Raldio, a boss mason, of 121 West Wood avenue, Port Richmond, lying in some bushes just off the road. He had been shot through the right temple with a bullet from a .22 calibre revolver. His clothing and the ground around his body showed signs of a struggle.

When Maki telephoned to the police he gave his name and address, the police went to the house and found Maki alone, sitting at the table in his dining room. At first he denied knowing anything about the man in which Raldio had come to his death, but his clothing was torn, matted and dirty, giving evidence of a struggle, and he finally confessed that he did the shooting. He gave up a .22 calibre revolver he still had in his pocket.

Insisting that he had shot in self-defence, Maki told the following story: He and Raldio were both married, with children. For some reason, which he did not make quite clear to the police, there had been a smouldering feud of long standing between the two families. This came to a head two months ago when Vincent Carmino's house at 9 Purdy Place burned down. Carmino is Maki's brother-in-law. Maki had accused Raldio of setting fire to the house, and the latter had resented the charge.

According to Maki, he received many reports that Raldio had bought a revolver and was threatening to kill him. He said that on Saturday afternoon he had learned that Raldio was looking for him and had told everybody he met that he was going to shoot Maki.

Mr. and Mrs. Maki entertained some friends at a party on Saturday night.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain Mulsified cocoon oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Stirrup put two or three teaspoonsful of Mulsified in a cup or glass with a little warm water, then moisten your hair with water and rub it in. It will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoon oil shampoo at all drug stores. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure you get Mulsified. Beware of imitations. Look for the name Watkins on the package.

Maki took some of the unescorted women to their homes about midnight and was returning through Purdy Place, he said, when he met Raldio. According to Maki he and Raldio began quarreling about the fire and in a few minutes they were engaged in a fist fight. After fighting for some minutes, Maki said, his opponent forced him back step by step across the road until he got him to the uneven ground of the adjoining field.

In the field, according to Maki, he lost his footing, fell and Raldio threw himself on him. Raldio then seized him by the throat, Maki said, and began choking him so that Maki believed he was going to choke him to death. It was then, according to Maki, that he drew his revolver and shot his opponent in the head.

Maki said that he jumped up and ran away in the belief that Raldio had merely been wounded. He went home and waited, thinking that if Raldio did not have a revolver in his pocket, he would go home and get one, and then go to Maki's home to continue a fight. According to Maki he expected that he and Raldio would then fight a duel. After waiting until about 6 o'clock, Maki said, he went back to the scene of the quarrel, and found that Raldio was dead. Then, not knowing what to do, he notified the police that he had found a body.

Maki was arraigned before Magistrate

Best of all Fly Killers 10c per Packet at all Druggists, Grocers and General Stores

William Croak on the charge of murder in the first degree and was committed, without bail, to the Richmond County jail for a hearing.

ILL 4 YEARS, KILLS HERSELF

Girl Uses Policeman's Service Revolver in Brooklyn Home.

New York, Sept. 6.—Taking a service revolver from a bureau drawer in the room of Policeman William Herman, in whose home at 311 Eldert street, Brooklyn, she boarded, Bertha Froelich, twenty-four, a seamstress, shot and killed herself.

At the Herman home it was said the girl had been ill during the four years she had lived with them, that she had been in the hospital several times, and once in the Kings County observation ward.

BEEES CAUSE BROOKLYN SINGER TO DRIVE AUTO INTO TREE

Pittsfield, Mass., Sept. 6.—A swarm of bees so stung Dr. Alma Webster Powell, a singer of 915 President street, Brooklyn, while she was driving a touring car between Weststock Bridge and the State Line that she lost control of the auto-

THE WONDER SALVE (Registered)

"It's great stuff for piles. I had them, bleeding, itching and protruding. The second application stopped the bleeding, and I have had comfort ever since. No, I'm not cured, but it's my own fault. I have felt so good I neglect myself. You can refer anyone to me."—A well known citizen's unsolicited testimony.

She was not injured and the car was only slightly damaged. Mrs. Powell has a country place at Austerlitz, N. Y.

EXHIBITION WEEK SALE

Upright and Square Pianos, Piano Case and High Top Organs

FARMER'S WIFE REGAINS HEALTH

Gives Credit to Lydia E. Pinkham's Vegetable Compound

Fork River, Manitoba.—"I saw in the newspapers where Lydia E. Pinkham's Vegetable Compound was doing so much good to women, and as I needed something I began to take it. I used to be very sick but I am not now. I live on a farm in the home-

stead district and we have to do all our own work. I tell all the women I see what Lydia E. Pinkham's Vegetable Compound does for me. I think it saves me from going to a doctor and is the best medicine women can take."—Mrs. Wm. Couvras, Fork River, Manitoba.

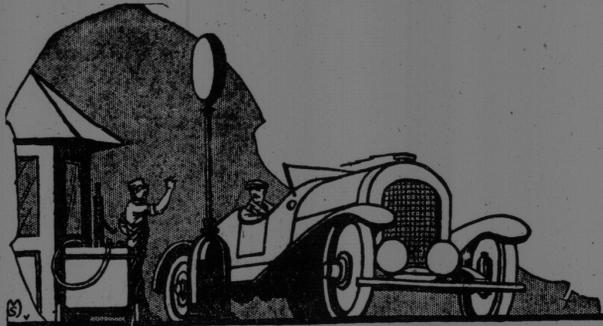

Lydia E. Pinkham's Vegetable Compound is a medicine for the ailments peculiar to women. It is prepared from medicinal plants, with care and accuracy. It can be taken by women of any age.

Women make a serious mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties. Such symptoms as pains and irregularities, all-gone feelings, backaches, headache, hot flashes, nervousness, with a general run-down condition, indicate some form of female trouble. The Vegetable Compound has brought relief to thousands of women suffering from such ailments. Let it help you.

**MOTHER AND SON HURT WHEN MOTOR CAR OVERTURNS**

(Special to The Telegraph.)  
Fredericton, Sept. 5.—W. Brock Allen, well-known C. N. R. conductor, and his mother, Mrs. Alonso Barker, are in the Victoria Hospital now and Mrs. Allen is suffering from a shaking up received when Mr. Allen's automobile overturned in the Woodstock road here tonight, while traveling, it is understood, quite fast. Mr. Allen had operated the machine for the first time today, it is said. The hospital late tonight reports that the extent of Mr. Allen's injuries will not be determined until tomorrow, although it is known that he received several broken ribs. The automobile was brought back here tonight.

**Welcome to the Exhibition**

We wish to do all in our power to make this a record year in every way. When at the Exhibition call at our booths and see our cars. You will be assured of courteous treatment and of our best attention, whether you buy or not. If in need of Accessories or Tires, we will be very glad to be of service to you.

**KING ALBERT'S TREE DIES, BUT FOCH'S IS THRIVING**  
Harrisburg, Pa., Sept. 6.—The larch tree planted by the King of the Belgians at the time of his visit to Harrisburg in 1920 and the companion tree planted in honor of Queen Elizabeth in front of the state capital have died because the ground was too rich. The trees were planted in the midst of flower beds where the soil has been fertilized for more than a century for gardening purposes. The Foch tree planted by the French marshal is thriving.

**ENCOURAGEMENT OF LOCAL MERCHANTS FOR EXHIBITORS**

Special Cups in Various Live Stock and Poultry Classes to be Awarded—Donated by Local Firms For New Brunswick Products—The Donors.

Of special interest in connection with the live stock awards at the St. John Exhibition will be the presentation this afternoon of cups, donated by several of the business firms and individuals in the city for the best animals in their respective classes, the majority of them being offered for specimens bred in New Brunswick.

The president, E. J. Terry, has offered a cup for the pure bred sweepstakes in the horse classes, this being for the best in the show. The manager, H. A. Porter, has donated a trophy which will be awarded in the sheep sweepstakes. A special prize in the dairy herd sweepstakes has been given by the Brayley Drug Co., while G. D. Ellis has offered one in the novice class, poultry exhibit.

Among the cups to be presented this afternoon are the following: For hackney, T. McAvity & Sons, Ltd.; Clydes, Canadian Bank of Commerce; Percherons, Northrup & Co.; shorthorns, Vassie & Co., Ltd.; dual purpose shorthorns, T. H. Estabrooks & Co.; Ayrshires, Provincial Bank of Canada; Jerseys, H. G. Weeks; pigs, Chester whites, Oak Hall; pigs, Yorkshires, Macaulay Bros. & Co., Ltd.; sheep, Shropshires, J. H. Stevenson, manager, Bank of Nova Scotia; sheep, chevrolts, M. R. A., Ltd.

Later in the week, after the other classes have been judged the following special cups for New Brunswick bred entries will be forwarded under similar conditions:

Horses, commercial class, H. Horton & Sons; Guernseys, James Robertson Co., Ltd.; Holsteins, Canadian Bank of Commerce; five cups for best in poultry breeds—for American breeds, A. R. Williams Machinery Co.; English breeds, W. H. Thorne & Co., Ltd.; Mediterranean breeds, G. C. P. McIntyre; Asiatic breeds, F. W. Daniel & Co., Ltd., and Mr. Ellis' cup for best novice in this class open to all entries. A cup donated by Hon. D. W. Mercer, New Brunswick minister of agriculture, for the best collection of field roots, etc., raised in the province, will also be presented later in the week.

**BETRAYS "BRAINS" OF GANG**  
Wife of Man Held in Philadelphia Gets Arrest of Another.

Philadelphia, Sept. 6.—The desire to aid her husband, Thomas Malone, under arrest for theft and conspiracy, impelled Mrs. Sarah Malone of Philadelphia to cause the arrest of William Booker of New York, who, she declares, is the "brains" of a coterie of high class crooks. Booker was locked up in City Hall charged with conspiracy, forgery and larceny.

The arrest of Booker is the third in connection with the theft of American Railway Express drafts from Ralph Middleton of Atlantic City. Malone, the first man arrested, is charged with the actual theft of the drafts and is held in \$2,000 bail.

Arthur Lawrence, an artist, was taken on the charge of altering the drafts and substituting the name of Malone for that of Middleton.

*A New Creation by Master Craftsmen*

NEW TOURING SEDAN, MASTER-SIX 23-41

Built primarily for de luxe touring, this newest of McLaughlin-Buick models offers a degree of comfort unsurpassed by the highest priced cars.

Its rugged, metal covered body by Fisher and the well-knit chassis with its new cantilever springs absorb and soften the jars and jolts of cross-country travel.

Conspicuous even among the fifteen new McLaughlin-Buick 1923 models the five passenger Master-Six Touring Sedan provides traditional McLaughlin excellence in a cross-country car of great distinction.
