

THE GARMENT MAKERS HETO LATEST TERMS

Refuse to Abide by Conditions Accepted by Their Leaders.

Plan to Send 57,000 Operatives Back to Work Frustrated by Indignant People — May Form New Union.

New York, Jan. 19.—There was no indication today of any change in front either on the part of the manufacturers or the strikers. The strikers are said to be just as insistent as ever that their union shall be recognized, while Eugene S. Benjamin, president of the New York Clothing Trades' Association, remains firm against such recognition. Both sides aver that they are well organized and financially strong enough to maintain their positions for some time to come. An announced settlement today of the strike in the dress and shirtwaist branch of the garment making industry promising to send 57,000 operatives back to work Monday, was followed almost at once by rebellion among employees affected, against the terms that the reader of the terms upon which the manufacturers, tonight doubt exists whether the dress and shirtwaist makers will accept the provisions named in the peace protocol. In the other trades the strike is still on, affecting more than 100,000 men and women. The settlement agreement was announced simultaneously at 37 mass meetings of workers. When the details were read showing that the maximum increase was only 10 per cent, the strikers at many of the meetings rushed angrily from the halls uttering protests that they would not abide by the agreement. At one meeting the reader of the terms was interrupted by the strikers who denounced the protocol as a "frame up" in favor of the manufacturers. Impatient strikers held an impromptu meeting late in the day and appointed leaders to organize a new union. The Industrial Workers of the World.

CLAIMS HE WAS NOT CORRECTLY REPORTED

Matthew Lodge Declares He Never Suggested that the I. C. R. Should Either be Sold or Leased.

Special to The Standard.
Moncton, Jan. 19.—Discussing the editorial in Saturday's Standard in criticism of his position regarding the Intercolonial Railway, Matthew Lodge, president of the Moncton board of trade informed your correspondent that it was based on an incorrect report of what he had stated at the recent meeting.

Mr. Lodge says the only reference he made to the sale or lease of the Intercolonial was a reference to what had been done some years ago when the Laurier government had actually prepared a lease of the road. He further said that the whole tenor of his speech was that the Grand Trunk Pacific should be extended to St. John and Halifax, and he also favored the extension of the C. P. R. or any other transcontinental road to the Atlantic seaboard. If this could be accomplished by double tracking the Intercolonial he said well and good, but if not he had never claimed to be in the confidence of the government, and it would be most improper for him to make any such statement. As to his opinion in regard to the Intercolonial's efficiency and value to the Maritime Provinces he had never discussed that matter except as an individual.

TURKS AND GREEKS IN SEA FIGHT

Rival Fleets in Hot Engagement in Aegean Sea.

Both Navies Sustained Heavy Losses But Battle Ended in a Draw — Sultan's Officers in Deadly Quarrel.

Constantinople, Jan. 19.—The Minister of the Interior has issued a report of an engagement between the Turkish and Greek fleets between the islands of Tenedos and Lemnos, lasting several hours. According to this official report there were heavy losses on both sides. Turkish ships returned safely to the Dardanelles and the wounded are being brought to Constantinople. It is not known here whether this report refers to the engagement on Saturday, or whether the engagement was renewed on Sunday. A serious quarrel occurred recently on the Turkish warships in the Dardanelles, between some of the officers who were anxious to fight the Greeks, and others, who considered that the Turkish fleet was no match for the Greek fleet. Blows were exchanged and before the quarrel was settled fifteen officers were wounded. The trouble arose through the circulation of a manifesto signed "The Women of Turkey," suggesting that the forts should sink the Turkish warships, whose poor equipped officers always fled at the approach of the Greek fleet. It was because of this slur that the Hamidieh made its adventurous cruise to Syria.

London, Jan. 20.—Although the report came from Constantinople that another engagement between the Greek and Turkish fleets had occurred, no confirmation of this has been received, and presumably the despatches refer to the engagement of Saturday. Some discrepancy is noticeable in the name of the vessel engaged, as another despatch announced arrival of the cruiser Hamidieh at 2 Saturday morning, and adds that after bombarding Syria she encountered two Greek cruisers off Port Said. A running fight ensued but the Hamidieh made good her escape with the loss of one anchor. The Hamidieh was previously reported as having been one of the Turkish fleet in the engagement off the Dardanelles.

Briand the Minister of Justice, on whom President Fallieres imposed the task of forming a cabinet, was busy throughout Sunday interviewing the political leader, he has not completed his arrangements tonight and cannot give a definite answer until tomorrow. However, his acceptance of the premiership is regarded as certain. TAFT OPPOSED TO FILIPINO LIBERTY

Bill for Independence of Philippines Would Produce Condition of Chaos if Made Law.

New York, Jan. 18.—President Taft in a speech at the Ohio dinner tonight came out strongly against the bill now pending in Congress providing for independence for the Philippines in eight years. "If I were a partisan, I shouldn't ask anything better than that the Democratic party should pass this bill and go out of the Philippines in eight years," he said. "The passage of this bill would make a mess and a sure that would return to plague the men responsible for it for twenty-five years."

TURKEY REFUSES TO SURRENDER ADRIANOPLE AND AEGEAN ISLES

Answer of Sublime Porte May Result in General European Conflict

ALLIES HOPE POWERS WILL FORCE CESSION

Balkan Nations will Give Turkey but Few Days to Reconsider Decision Before Renewing War — Resumption will Nullify Concessions to Austria.

Constantinople, Jan. 18.—The Turkish foreign minister, Noradunghian Effendi, tonight submitted to the council of ministers a draft of the reply to the note of the powers. It is understood that it insists upon the retention of Adrianople for the following reasons: First, because the Bulgarian inhabitants are in the minority in Adrianople, not only in comparison with the Moslems but as compared with other Christians. Second, because of the splendid defence of the garrison. Third, the loss of Adrianople, containing the temples of the Caliphs would ruin the prestige of Islam. Fourth, the loss of Adrianople, which is the gate of Constantinople, would endanger the existence of the empire.

Further Concessions Possible.
London, Jan. 19.—The Porte's decision to call a national assembly on Tuesday to take under advisement the Balkan situation, heralds further concessions on the part of Turkey, concessions which could not be yielded by the cabinet without risking its fall. The superior delegates in London do not believe the Porte's reply to be such a flat refusal as foreshadowed from Constantinople. Yesterday's despatches reported that the Turkish government had reached a decision not to cede Adrianople or the Aegean Islands, but was willing to enter into negotiations respecting those islands some distance removed from the Dardanelles. If Turkey's answer is unsatisfactory the allies in deference to Europe will ask the powers whether they have means to compel Turkey to comply with their wishes. The allies will carry out the plan already announced leading to the resumption of war. In such event the allies will regard it as their duty to consent to the sake of peace, either to Turkey or the powers as void, thus they will not recognize the undertaking consenting to an autonomous Albania, or the promise of Serbia and Montenegro to retire from the Adriatic. Questioned as to the possibility in the case of Austria employing force, the head of one of the delegations said today: "May be European War."

"We shall see whether the Triple Entente, and especially Russia, will permit such action on the part of Austria. If we are forced to fight another war, the cost of which is nearly \$1,000,000 daily, we will not abandon territory already occupied unless driven out by force. That would mean an European war. If Austria were permitted to march on Belgrade and to bombard our troops on the Adriatic, and we were crushed, we should prefer to become Austrian rather than to belong to the slav race when our mother Russia lacks the force or the will to protect us."

Vienna, Jan. 19.—A despatch from Constantinople says that at the council of ministers held Saturday, a majority opposed continuing the war. LONE BANDIT RIFLES MAIL CAR.
Anniston, Ala., Jan. 19.—A lone bandit rifled the mail car of the Southern Railway passenger train No. 12, near Riverdale, Ala., early today and escaped with what is said to be valuable registered packages. Only one mail clerk was in the car, E. L. Crasman, who was covered by the rebel with a revolver.

WOMEN TO BE ADMITTED TO CONFERENCE

Will Teach Soldier Boys to Spend Time Profitably.

Hon. Sam Hughes Answers all Objections to Their Presence in Satisfactory Manner — Liquor Question.

Ottawa, Jan. 19.—The proposal of the minister of militia to invite women to the militia conference here next month, has brought forth some letters of objection, especially from the liquor interests. Col. Hughes asserts that his purpose is not to have women pronounce upon the sale of liquor in the camps, as he settles that question himself but rather because of their interest in the young men and their helpful suggestions as to spending their earnings profitably in camps. It is in that capacity particularly that representatives of women's societies have been invited. Some of liquor men have raised the objection to the Women's Christian Union and other societies having anything to say or do with regard to the sessions of the coming military conference to be held here during the month of February. Some informal objections in the nature of letters have been received by the militia department since the announcement of the invitation was received. Questioned with regard to the matter, Hon. Col. Hughes stated that the different women's societies were invited to the conference not with regard to the sale of liquor in the camp. That question, he stated, he settled himself, but because he places high value on the assistance of the women of the country and their different organizations all over, when soldiers are in camp. They have hitherto taken a great part in furnishing musical evenings and concerts for the men and thus helping them to spend their evenings in a profitable manner. The suggestions of the women's organization with regard to these matters will be sought during the coming conference but matters affecting the policy of the department are settled always by the minister himself.

INTERESTING NARRATIVE OF A CONCESSION

How Big Soap Firm Obtained Rights in West Africa.

A Transaction Which Has a Shady Look in British Politics—Government Questioned on Indian Silver Deal.

Special Cable to The Standard, Registered in Accordance with The Copyright Act.
London, Jan. 19.—Questions are being raised on the government respecting the Indian silver affair, and very astonishing business methods are being unveiled. At its worst, the affair has a very dubious appearance; at its best, it is an extreme apt illustration of government methods as described in "Little Dorrit" or "how not to do it." Silver bought over the market price, also purchases postponed with the result that commissions were increased a sum from India at two and one-half per cent, while she was borrowing it at three and one-half, and over all, the extreme unwillingness of the government to give information until it was wrung from them—all these things are creating a painful impression. On top of this comes another matter which is exciting much unfavorable comment. This is a concession, made to Lever Bros., the famous soap firm, which is really a monopoly for the extraction of palm oil in West Africa. The story of the concession, which covers 311 square miles, is truly delightful. Lever wished some time ago to purchase a certain property in Sierra Leone, but the governor refused. They thereupon induced the colonial office to grant a concession for which they only pay five hundred dollars a year. A contract was made without previous publication or asking for other tenders, though the colonial secretary now says that it is a desirable course, and that it will be followed in the future. The affair becomes additionally interesting from the fact that the head of the Lever firm was the Liberal member for Cheshire, and is understood to have a firm and a generous supporter of the party. He has recently purchased Stafford house, the political residence of the Duke of Devonshire, and has offered a gift to the government. Strong protest against the concession and the methods by which it was given, has been made by other firms and the leading chambers of commerce, and public opinion on the subject is being freely expressed. No one blames the firm, nor is personal profit the main individual alleged, but the action of the government in this and other matters, is causing grave concern to those who desire to see the high standards of British public life maintained. The words "corruption" and "jobbery" formerly rare, are now heard with increasing frequency.

QUEER HAPPENINGS THROUGH FRIGHT AT FIRST NIGHT SHOWS

Famous Actors Tell How Nervousness Will Cause Foolish Blunders—One Man Was a Whole Speech Behind in Shakespearean Production.

The funny and unexpected things which happen on the stage, especially on first nights, and the nervousness which results in experienced actors and actresses making mistakes which appear in the clear light of almost moments afterwards, are made the subject of reminiscences by a writer in the Vancouver World.

"The funniest first night I ever had," contributed a young actress, was when I joined a melo drama company to fill the place of a sick woman. The piece I had not even seen, but I did know my own knowledge of the plot outside of my own connection with it, and no knowledge at all of the sequence of scenes. But I did know my entrance cues. I made sure of them, imagine my dismay when the man with whom I had most of my scenes had not appeared at the theatre when the orchestra was run in. The manager flew back and forth, sending messages to the orchestra to play a second overture and ordering the stage hands and actors about while he rewrote the piece so that the comedian, who knew the other part, could double it with his own.

"One player describes a scene between himself and another, when he skipped a whole page of his manuscript, and his partner went right on, quite unconscious of the fact that the speeches did not fit. Finally the prompter made himself heard and brought order out of the chaos.

"One player describes a scene between himself and another, when he skipped a whole page of his manuscript, and his partner went right on, quite unconscious of the fact that the speeches did not fit. Finally the prompter made himself heard and brought order out of the chaos.

"The explanation was that both were so nervous, that each, instead of listening and replying to the other, was thinking ahead to be sure of his own next speech. Another player told of a similar case, which occurred in an insufficiently rehearsed Shakespearean company. One member, being conscious of his own uncertainty in the lines, took the precaution to have his part on the stage with him. He was playing Bassanio and it was the casket scene he was most afraid of, so he laid the part open on the table where it would be hidden from sight of the audience by the caskets. Stopping, as though scrutinizing the latter, he would be able to read the lines. But a leaf of the part was turned too soon, and the young Bassanio began with a previous speech, which did not belong to that scene. The Portia was conscious of herself alone and roared off her lines with all the feeling and poetry she possessed. Bassanio followed, one speech behind, and so the scene continued to the end, when they caught up with each other. The speeches were given with full-mouthed vigorous enunciation, plentifully garnished with gestures. All they lacked was sense."

"When a Man Died." One famous actor said: "Perhaps the most disturbing effect I ever encountered came from the front of the house. This also had to happen on a first night, and made it almost the last. The play had not gripped the audience in the first act, and everybody was working with might and main to make use second act. Along about the middle of the act I felt we had them. Too nervous to see, I could feel the audience sitting forward in their seats, when all at once there was a terrific noise and

"Was Afraid COLD WOULD DEVELOP INTO Bronchitis." Bronchitis begins with a tightness across the chest, difficulty of breathing, and a wheezing sound comes from the lungs. There is also a raising of phlegm from the lungs, especially in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

"On the first sign of a cold or cough take Dr. Wood's Norway Pine Syrup and prevent it turning to bronchitis, for once bronchitis gets installed into the system it is only a short step to Consumption."

"Mrs. F. Saunders, Toronto, writes: 'It is with great success I have used Dr. Wood's Norway Pine Syrup. My little girl had an awful cold which seemed to go to her throat and chest, and while she was sleeping one could distinctly hear her wheezing. I was afraid it would develop into bronchitis, so I gave her a dose and in a few minutes she seemed to be better. We only used half a bottle. I will never be without it as I consider it invaluable.'

"Be sure you get 'Dr. Wood's' when you ask for it. The price is 25 and 50 cents per bottle. Put up in a yellow wrapper, and three pine trees the trade mark."

The same animal fell on Mill street a few days ago and Officer Kane instructed the owner to take it to the stable. Last evening Officer Gibbs, who was a teamster before joining the force, and who knows considerable about horses, said that the animal is unfit for use and told the owner that he should take it to the stable and not drive it. The officer intends reporting the matter and have the secretary of the Society for the Prevention of Cruelty to Animals look into the case.

TERIBLE EXPERIENCES OF FRENCH IN SAHARA DESERT

Soldiers in Their Search for Water Suffer Terrible Tortures—Death Often Comes When Relief is Near.

Gen. Laperriere gives some interesting experiences of the sufferings by thirst to the French troops in Africa are often exposed. Deaths from this cause are common, and it has been observed that the faces of the victims instead of bearing traces of the tortures felt in the first stages invariably wear an expression of calm as if asleep.

Generally they are under the shade of some tree, and it would seem as if the dead man, believing himself to be saved, had wished to rest a while before drinking, and had fallen into slumber never to wake.

One instance is given of a mearah or camel postman carrying letters to the station. The mearah died in 1898. He lost his way and perhaps his head and having pushed his beast too hard, the camel died and he had to continue on foot. Arriving at a sand dune not more than half a mile distant from Tafel, from which the station could be clearly seen, the man began firing his rifle as a call for help. There was unfortunately a violent wind blowing and nothing could be heard and the next day his body was found surrounded by 120 empty cartridges. Probably if he had used the strength and energy required to work his rifle in struggling on he would have reached safety.

"PICKED WRONG SPOT TO MAKE A 'GET AWAY'" Oesling, N. Y., Jan. 18.—During a thick fog today, William Jones serving a life term in Sing Sing prison for murder, climbed on a trestle that extended from inside the prison over the Hudson River and dropped into the water only to find that a guard has been stationed near the spot in anticipation of just such an attempt. When the guard opened fire with his rifle, Jones quickly swam back and surrendered himself.

"FREDERICTON" Special to The Standard. Fredericton, Jan. 19.—The opening game of the hockey season was to have been played last night by the Metryville and Fredericton teams but was postponed for a week on account of the mild weather.

"WILL BREAK AWAY FROM EASTERN RUGBY UNION." Regina, Sask., Jan. 19.—As a protest against the move of the eastern rugby authority the Western Canada Rugby Union at its second annual meeting held here on Saturday night decided to break away from the Canadian Rugby Union, formulate playing rules of its own and altogether ignore the self appointed eastern rugby authorities.

"FLOATED OFF REEF AFTER SEVERAL DAYS." Key West, Fla., Jan. 19.—After being ashore on a reef near Tortugas for several days, the Mallory Line steamer Colorado was floated last night and proceeded for Galveston. Wrecking tugs lightened part of the steamer's cargo and with assistance of the revenue cutter Miami freed her.

"LIVED 27 YEARS ON A DIET OF MOLASSES." Wakefield, Mass., Jan. 19.—William Boone Edred, who believed that by eating a gallon of molasses a week he had prolonged his life many years, died here today at the age of 87. He ate molasses on all his food. When 70 years old Edred began riding a bike for exercise and according to his own figures, rode 20,000 miles during the past 17 years. He was a descendant of Daniel Boone.

My Digestion Is Now Good. And I Feel Like a Young Man Since Using Dr. Chase's Kidney-Liver Pills.

Prof. A. T. Smith. What a horrible condition the digestive system gets into when the liver becomes sluggish and the bowels constipated. The poisonous waste matter is thrown back into the blood stream and finds its way into all parts of the body, causing pains and aches and feelings of fatigue and misery.

It is wonderful how quickly Dr. Chase's Kidney-Liver Pills sweep the poisons from the digestive system and enable the organs of digestion to resume their natural functions.

Prof. A. T. Smith, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes—"I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors without any result. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement and after the fourth box I was completely cured. My digestion is good. I never feel any pain in the back. My head is clear and feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines on earth."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co Limited, Toronto.

The Factory consists of a main factory building, two warehouses, dry-house, an engine house. The buildings are well arranged and equipped with suitable machinery in good running order. The property contains eighteen acres of land situated just opposite the I. C. R. Railway Station and near the public wharves of the town, with railway siding and public roads adjoining the property.

Railway, and that in the near future traffic between Prince Edward Island and the mainland will come by way of Sackville. Also that natural gas will be available for power purposes during the coming year. These features should make the property an especially desirable one.

"MY STOMACH IS FINE Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach," she writes, "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

ST. JOHN, N. B., MONDAY, JANUARY 20, 1913.

MR. PUGSLEY'S ATTACK ON MR. HAZEN.

In discussing the Naval question Mr. Pugsley has on more than one occasion attacked Mr. Hazen for returning the deposit of Cammel, Laird and Co., one of the tenderers for the construction of the Canadian navy. Mr. Pugsley is the authority for the statement that this firm were the lowest tenderers and that they proposed to establish their works at St. John. Because it was decided not to proceed with the construction of war vessels as proposed by Sir Wilfrid Laurier Mr. Hazen, as the responsible Minister, simply returned the deposit made by the tenderer. There was no other course open to him. But is Mr. Pugsley not making a mistake when he says that the Canadian navy was to be built at St. John? He is the only member of Sir Wilfrid's Cabinet who has made such a statement and in doing so he has directly contradicted his leader. Either Sir Wilfrid Laurier or Mr. Pugsley are practising grave deception, and there will be a strong presumption in the public mind that the offender is not Sir Wilfrid.

Mr. Pugsley is one of that class of politicians who thinks he can fool all the people all the time. Up to something over a year ago the honorable gentleman has been fairly successful. By adroitly changing from one foot to the other he had kept himself close to the treasury benches for a quarter of a century. In 1908 he got out of step and greatly to his surprise the Provincial Government, of which he had been Premier, went by the board and disclosures of a serious character followed, reflecting severely on the honesty of purpose of several members of the old Government—Mr. Pugsley among the number. He was then denounced at Ottawa as a member of the Laurier Government, but even there he was called upon to defend himself very often. Although Mr. Pugsley is frequently referred to as "Sweet William," there are reasons to believe that he has never approved of the course taken by Mr. Hazen in bringing about the Central Railway enquiry and the exposure of the very queer financial methods of Mr. Pugsley and his colleagues in that transaction. The narrow majority by which he succeeded in gaining his election after proclaiming all over Canada that he would have a majority of 1,000 had also a disturbing influence on him, but not more so than the result of the last general provincial election, when he placed in nomination in the city of St. John four candidates, three of whom lost their deposits, and the fourth had an extremely narrow escape from the same fate.

With these things as they are, with his influence seriously impaired, it is not to be wondered at that Mr. Pugsley grasps at every straw which he thinks will improve his chances in the next election. The statement he makes regarding Cammel, Laird and Co. he knows to have no foundation in fact. Beyond opening the tenders Mr. Pugsley himself admits that the old Government did not consider the question at all. Sir Wilfrid Laurier admits the same thing. In attempting to explain why five months were allowed to lapse after receiving the tenders without action being taken Mr. Pugsley stated that Sir Wilfrid Laurier was absent in London the greater part of the time and that the general elections were called on a few days after his return and that after the defeat of the Government it was decided to leave the matter in the hands of the new Government. Had Mr. Pugsley been as keen for the interests of St. John as he now professes to be he would have seen that the contract was let before Sir Wilfrid went to England.

Now as to the difference between Sir Wilfrid and Mr. Pugsley. In his speech in the House of Commons on December 15 Sir Wilfrid said:

"We asked for tenders, with the intention ultimately of having a double unit, one on the Pacific Ocean and one on the Atlantic Ocean. We asked for four cruisers and six destroyers which would have cost \$11,250,000. We did not choose to award the contract because of the impending change of Government. Yes, we thought the general elections were coming, that it would not be fair, in a matter of this kind which was at issue between the two parties, to award the contract, in case there might be, as there was, a change of Government. I say now that the Government in power would have been better advised if they had awarded the contracts, and, had they done so, would at the present time have under construction on the stocks in Montreal four cruisers and six destroyers."

How does Mr. Pugsley make his statement fit in with that of Sir Wilfrid Laurier the master of the Administration? The only man who can speak with authority is Sir Wilfrid, and he says that the vessels would be constructed in Montreal, not in St. John. Mr. Pugsley has no authority for the statement he has made—no ground for the attack on Mr. Hazen. Sir Wilfrid Laurier, his leader, has stated that the Canadian navy was to be built in Montreal and Mr. Pugsley's assertion that it was to be constructed in St. John counts for nothing. Mr. Pugsley can fool the people of St. John no longer. They have his political measure.

A CHANCE FOR MILLIONAIRES.

The New York Commercial makes a suggestion to the multi-millionaires of the United States that is worthy of more than passing attention. An important attack has been made by the United States Government on "White Slavery" by enforcing its power in inter-State relations. Many of the wretches who have gained a livelihood by condemning the victims to a fate worse than death have been punished by imprisonment, but there is practically no means at hand to care for the wretches left behind. The Commercial states that a movement has originated in Washington to take up the work where the Government is compelled to drop it. This proposes the establishment of a foundation endowment, amounting, if possible, to \$10,000,000, the income of which will be devoted to the creation and support of homes, retreats where the helpless victims of an atrocious business can be sheltered until some self-supporting sphere can be opened to them, and where all the influences of the environment will act in a fashion to redeem them from the horrors of shame and degradation. To punish the wickedness which in its procedure has violated a United States statute is one thing. It is of equal importance to save the victim as to punish the criminal. There are about one hundred of these refugees in the country now in existence, and it is said by such as have studied the question that at least 3,500 ought to be provided. Many States, once the example is set on a great scale, will be stimulated to act officially, perhaps, and private organizations in many cities will feel a similar electric current of sympathy, likely to result in efficacious and concerted work. What may be called the national movement in question will necessarily ramify,

in its influence. One person, it is alleged, has pledged \$1,000,000 as his individual contribution to the great salvation fund, the endowment of which has been chartered, and the full amount is in sight, though the enterprise has been on foot a short time. In extending the formation and operation of such societies as this is certainly a beautiful exercise of the highest Christian benevolence, and in the finest accord with the spirit of its Divine Archetype. In this kind of philanthropy such commanding figures in the world of finance as Rockefeller, Carnegie, Morgan and many another multi-millionaire can go far to justify their wealth in a way that the spectacular exhibition of gift-making to the public fails to exhibit. Such donations reach to the very deepest depths of social welfare and tend to uplift the moral being of the world far more than the conventional and well-trodden thoroughfares of beneficence.

THE LOCAL GOVERNMENT.

The appreciation expressed by the Globe of Saturday of the excellent service Hon. J. K. Fleming has rendered the Province as Premier is well deserved. No man has striven harder to do his duty as he sees it than Mr. Fleming, and there is a united feeling that he has succeeded well in giving the Province good and honest government. The rumor that Mr. Fleming is soon to retire from the Premiership, to which the Globe gives currency, has no foundation in fact. Mr. Fleming has not thought of retiring, although the large amount of extra work arising out of the construction of the Valley Railway, the Gibson-Minto Railway and other important matters have trenched largely on his time and, perhaps, to some extent interfered with his private interests more than he liked. There are other rumors regarding changes in the Provincial Government which the Globe did not mention, but like that in reference to the Premier they are without foundation. No changes are impending. At the last session of the Government important measures that deeply concern the future of the Province and which in all probability will form an important part in the legislative programme came up for consideration. The members of the Government are much more interested in these things than in the floating rumors. The House of Assembly is to be called together at the middle of next month and the work of preparation is quite sufficient to occupy all their time. The fact that there will be practically no opposition has not interfered with the Government getting ready much constructive legislation that will be highly beneficial to the Province.

Elbert Hubbard, the Roycroft man of East Aurora, New York, who was recently convicted of sending "obscene, lewd, lascivious, filthy and indecent matter," through the United States mails, is not meeting with much sympathy with his conferees of the press. The Hartford (Conn.) Times delivers this left-hander at him in passing along: "Among people with a reasonable regard for decency there will be general satisfaction, both with the conviction and fine of Elbert Hubbard and with the wisdom of the court which keeps suspended sentence on five counts hanging over him to insure his future good behavior. Mr. Hubbard's offence was the sending of immoral matter through the mails. The immoral matter appeared, of course, in Mr. Hubbard's somewhat remarkable magazine. Mr. Hubbard has literary ability of high type. He also possesses somewhat revolutionary ideas on many affairs which he frequently sets forth with brilliancy. His revolutionary notions were much more entertaining than dangerous, until he developed a most unfortunate relish for filth. His revolt against cleanliness has proved extremely annoying because he has spattered about his nastiness with such promiscuousness that an unreasonable amount of activity has been often demanded to avoid its 'smears.'"

The chances are that rough lumber, wood pulp and news print paper will be among the articles on the free list when the new tariff is brought down in the United States Congress sometime next March. A strong agitation among those who live in cities has been commenced to lower the schedule on food stuff. This is being resisted by Democratic farmers. A leading member of the Ways and Means Committee at Washington the other day stated the policy of the Democratic party was to lower the tariff on all the necessities of life leaving that on luxuries to stand as it is. In the meantime all interests which regard a lowering of the tariff on their particular lines as probable have put in an appearance at Washington to prevent this being done if possible. Tariff making on a large scale is difficult and slow work.

A disreputable pascal, whose name is Isadore Stein, better known as "Izzy the Painter," recently convicted of arson in New York, has been brought from Sing Sing, where he is serving a sentence of 24 years, to give testimony before the grand jury. Stein has confessed to setting no less than 50 fires in the last year, chiefly for the purpose of collecting the insurance. These fires were set by his own hands and it is believed that twice as many more were set by his confederates. Many of them were started in tenement houses in the most densely populated parts of the city and thousands of lives were endangered that Stein might enjoy an income of \$100 a week. Among his confederates were a number of insurance adjusters. Several new indictments have been found and others will follow.

For some years the Forestry Department of Massachusetts has been spending \$10,000 annually in reforestation. This year the chief forester is asking for \$50,000. The grant is used to acquire lands suitable only for tree planting and to meet the cost of putting in the trees. Nearly all the land so far has come to the state free of charge so that the whole grant has been practically spent in tree planting.

The Chief of Police of Berlin, Germany, has issued an edict that no child under 14 years of age shall attend a moving picture show. His objection is based on the ground that such shows are too exciting for those of tender years and are likely to have a bad influence.

Current Comment

A House Divided.

(Montreal Gazette.)
 Reports from Ottawa, from friendly as well as unfriendly sources, indicate that the Liberal party in Parliament is of two minds as to the course it should pursue on the naval aid issue. It is not hard to imagine the end of such a situation. A party divided against itself and which lets the country see that it is divided, cannot make headway.

Electric Railways.

(Hamilton Spectator.)
 Figures presented to Parliament indicate the wonderful increase in electric railway traffic in Canada. They show that 488,855,682 passengers were carried during last year, an increase of over 62,000,000. As was to be expected, a sad list of casualties is attached, 110 people being killed and 3,128 injured.

It's Coming.

(Presbyterianian.)
 We venture to predict that woman suffrage will in a few years be a live question in Canada. Those who fail to see this are too blind to discern the signs of the times.

Every municipality in the province has been requested to send delegates to the convention which is not confined to members of the different good roads associations but is open to all persons who are interested in the question.

Special rates have been secured over the C. P. R., and I. C. R., for delegates who wish to attend and it is anticipated that there will be a large attendance.

CANADA MAY SOLVE THE FOOD PROBLEM FOR GREAT BRITAIN

The following letter, which is self explanatory appears in the London Times of January 1st: To the Editor of the Times: Sir—The substantial question now confronting the Unionist Party is whether "food taxes" should be an issue at the next General Election, or whether the consideration of that question should be deferred until after the next election, when the United Kingdom and the overseas Dominions in conference might determine whether any scheme of mutual preference is practicable and in the interest of the peoples severally concerned, as well as of the Empire as a whole; any agreement arrived at to be submitted for approval or rejection to the electorates of each of the high contracting parties either at the next following General Election or by special Referendum.

The advantage of the latter plan is that the people of the Empire, as well as of the overseas Dominions, would be left free at the next election to pronounce upon the acts and omissions of the present Government, without the distraction of "food taxes" disturbing their judgments, and with the certainty that if the conference should result in any agreement it would be submitted for their full and separate consideration at the next following General Election, or by special Referendum. The rights of all the democracies would thus be preserved, and all suspicions of misuse of powers of negotiation dispelled.

The question is sufficiently important and paramount to warrant the most careful consideration, and time for reflection would be conducive of reaching a sound conclusion. Time may be the true solvent, as in the next five or six years, I am confident, it will be clearly demonstrated that the Dominion overseas can produce and export more wheat than is required to supply the whole United Kingdom. Its free entry here would kill and bury the "food-tax" bogey.

Much may be gained by waiting; nothing will be sacrificed. One thing at least may be said with certainty: the overseas Dominions (which now voluntarily grant highly beneficial trade preferences to the United Kingdom) will never ask for any preference that will in the slightest degree increase the burdens of the toilers of this country.

DONALD MACMASTER, Merlewood, Virginia Water, Dec. 30.

F. D. SWIM, M.P.P., HAS EXCITING ADVENTURE

(Newcastle Advocate.) F. D. Swim, M. P. P., narrowly escaped a serious accident a few days ago, while driving home. When crossing the railway track near Donkington station, the runner of the sleigh caught in the rails and upset, throwing Mr. Swim out with considerable force and landing him on his face amid a pile of lumber sleds standing close by, though he fortunately sustained no injury beyond a considerable shaking up. The horse started at home at a smart pace, taking the sleigh with it, and in the course of his mad career, it scaled a pile of lumber four feet high, and negotiated a wire fence. Ultimately it was caught and taken home and it is somewhat strange that neither the animal nor the sleigh was in any way damaged.

COUNCIL WILL HAVE ROUTINE BUSINESS

Fairly Lengthy Programme to Come Before Today's Meeting—Norton-Griffiths Proposition Tomorrow.

A good deal of routine business will come before the meeting of the common council today, in order to provide greater accommodation for schooners it is proposed to ask the government to dredge out Nelson and Wellington slips in Carleton. Com. Schofield has received several tenders to supply white oak to sheath the piling of the ferry slips. He called for tenders last year, but at the time there was no white oak available. The commissioners have not yet had time to take up the Norton Griffiths Company's proposition asking for support for the project of developing steel making and shipbuilding plants at Courtenay Bay. As the county is interested in the matter it is probable that the propositions will be laid before the quarterly meeting of the county council on Tuesday.

REV. DR. HEINE AT EVERY DAY CLUB

A very interesting address was delivered last night in the Every Day Club by Rev. Dr. Heine, agent of the Bible Society at Sand Point, and in the construction camps of the province. Dr. Heine told of his experiences in dealing with the non-English speaking immigrants as they arrive in St. John. He showed what a great work was being done in the Dominion in distributing the Scriptures. More than 30,000 testaments and parts were distributed at Sand Point alone. The speaker sang hymns in Russian, German and Italian. C. S. Humbert, the vice-president, who was in the chair, paid a tribute to the interest A. M. Beland had in the club. He also made a strong plea for help in the boys' work and educational classes.

You Beer Drinkers Don't Drink Beer from Light Glass Bottles Read the following opinion of a scientist, an authority who has experimented and therefore knows that "light starts decay even in pure beer." "We have tested beers repeatedly, placing the bottles in the direct sunlight, and testing the same after one, two, three and five minutes exposure, found that the beer with three and five minutes exposure became undrinkable on account of the peculiar odor developed. The detrimental effect of light upon beer can be successfully counteracted by the employment of brown or dark colored glass bottles, and such bottles are, therefore, recommendable." -Wahl-Henius Institute of Fermentology. JOHNSON SAW SPIRITS IN HIS CELL

Chicago, Jan. 18.—"Jack" Johnson, negro pugilist, limped into the office of Charles F. DeWoody of the Department of Justice this afternoon, much excited because he had been told that he occupied a death chamber in the county jail Tuesday night when he was brought back from Batt's Creek, Mich.

"The negro swore to the federal officials that he heard a number of raps on the wall and that he saw spirits in the room.

"I'm all bunged up," Johnson told Mr. DeWoody. "They put me in a death chamber at the jail the other night. I knew something was wrong. I couldn't sleep to save my life. Things were rapping around the walls and I woke up with a terrible pain in my back. Look here—" He displayed a large plaster on his back.

"That's the first time I ever wore one of those things in my life."

"I understand that it was a nice, large cell," said Mr. DeWoody.

"Oh, yes," replied Johnson. "It was a nice bit, comfortable room, all right, but just imagine yourself in a chamber where they sleep the night before they are ready to take them out and pull the string. That's terrible. I just know as sure as I'm living that there were spirits in that place. Gee, if I knewed that was the death cell—why, I wouldn't any more have slept in there than I would think of jumping of a 20-story building!"

"When I went back last night," added the fighter, "they showed me just how they take them out and lead them to the noose. They showed me how they grab 'em when they're shaking just before the time is set to take 'em away from this earth."

DOCTORS CONDEMN OILY LINIMENTS

Public Are Warned Against Strong-Smelling Oily Liniments Containing Harmful Acids and Ammonia

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not so.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormous percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, set up inflammation, and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that a thick liniment cannot penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, an important physician stated that he considered a strong, penetrating, pain-subduing liniment, such as "Nerviline," to be superior to any of the white ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica, and neuritis, and he had seen that "Nerviline" was superior to any of the white ammonia liniments. J. S. BACHE & CO. ON MARKET SITUATION

J. S. Bache & Co. in their weekly stock letter dealing with the market situation has the following:

Actual bodies, the very approach each other, become affected strangely and sometimes tumultuously. The business financial structure is approaching the political period of Democratic ascendancy. The disturbing influence of tariff and new policies is shown in the stock market and to a minor extent, because not so quickly sensitive, in the business world. The great Barocope (Steel and Iron) shows no heaviness. Steel makers are finding it impossible to catch up with orders and are booking new business actively. The copper condition is slowly righting itself. The foreign political situation has produced the present unsettled, and political uncertainties here have inclined consumers to wait for lower prices. This has produced stagnation in orders and prices for the metal have yielded accordingly. But no large amount of metal is being held in Fenway Park, this coming season, according to a statement made by Mayor Fitzgerald yesterday.

The stock market like the weather, began its spring decline in December, and this is still going on. Various bear considerations have aided in the movement and have been given more importance than they deserve, as is evident when prices are declining. There is little real liquidation and the selling is done mostly by large speculators. Whatever may be the immediate action of the market for lower prices, underlying conditions are as sound as ever.

BASEBALL SEATS FOR A QUARTER

Boston, Jan. 18.—"Baseball for a quarter," will be the order of things at the American league games to be held in Fenway Park this coming season, according to a statement made by Mayor Fitzgerald yesterday.

Not only will this be true, but the management of the Boston Americans has made arrangements to leave the grandstands erected for the world's series last fall standing in their present positions, and will charge only 50 cents for admission to these stands the Mayor said.

It was stated by the Mayor that some days ago, as the result of the trouble over seats during the world's series, he conferred with President McAteer and John I. Taylor of the Boston Americans and that these officials have since told him that they have made arrangements to reduce the cost of baseball in this city.

The Mayor, who expressed much gratification over the action of the officials of the Boston's champion team said that these officials stated to him that Fenway Park this year will contain more cheap seats than any other baseball park in the country.

WAS WEAK AND RUN DOWN. NOT ABLE TO DO HER WORK.

Many women get run down, and are unable to look after their household duties, owing to their nervous system becoming unstrung. Day in and day out they have to go through the same routine of work, sweeping, washing, cooking, etc. No wonder their work gets on the nerves and they become run down.

When a woman gets into this state there is only one thing for her to do, and that is to get something that will build up her system.

For this purpose there is not an equal to Milburn's Heart and Nerve Pills. Their restorative action is felt on every organ and tissue of the body, and in a short time the weakness will give place to strength and vitality, and make life worth living.

Mrs. Henry Melntosh, Oliver, N.S., writes—"I would recommend Milburn's Heart and Nerve Pills to anyone who is weak and run down. I was not able to do my work, nor rest at night for four years. After taking seven boxes, I am entirely cured, and can recommend them to anyone suffering from heart or nerve trouble."

Milburn's Heart and Nerve Pills are 50 cents per box; 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

DOCTORS CONDEMN OILY LINIMENTS

Public Are Warned Against Strong-Smelling Oily Liniments Containing Harmful Acids and Ammonia

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not so.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormous percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, set up inflammation, and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that a thick liniment cannot penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, an important physician stated that he considered a strong, penetrating, pain-subduing liniment, such as "Nerviline," to be superior to any of the white ammonia liniments. In his twenty-five years of practice he had witnessed cases of rheumatism, sciatica, and neuritis, and he had seen that "Nerviline" was superior to any of the white ammonia liniments.

SUMMER COTTAGES BOUGHT AT GRAND BAY; THIEF CAUGHT

Suspicious Character Captured Yesterday with Stolen Goods in His Possession -- Believed he has been Making Profitable Business of House Breaking.

The suburbanite residents at Grand Bay and vicinity who leave their houses securely locked up for the winter months, will do well to pay their premises a visit, for it is believed that a number of them have been broken into and a large number of articles stolen.

Yesterday afternoon Henry Hamm of Grand Bay, was successful in capturing a German who gives his name as Bruno Klingman, and the man, at the time he was captured, had just finished robbing the summer residence owned by Joseph Irvine, of The Standard.

When Mr. Hamm took charge of the German, he had just left Mr. Irvine's house, and was carrying a couple of bundles containing clothing and other articles which he had stolen from the house. Mr. Hamm made a prisoner of the house-breaker, and took him to the Grand Bay station, and telephoned to the city and informed Mr. Irvine of the break and capture. Mr. Irvine at once notified police headquarters, and yesterday Sergeant Harry Kilpatrick who is a provincial constable, was sent to Grand Bay to take charge of the prisoner, and Mr. Irvine accompanied him.

On arriving at Grand Bay, Mr. Irvine and the sergeant made an examination of the summer home, and found that the thief had broken open the outer door and then, by breaking the glass on the inside door, made an entrance in this manner. He had ransacked the house and had a large assortment of articles strewn about the floor. Picking out some of the best articles he tied them up and it was when he was leaving the premises that he was captured by Mr. Hamm, who took him in charge.

After the German was made secure

EXPERIENCE OF THE MAN

Harry Hopkins is Glad he Decided to Come to New Brunswick -- What he has done here.

In a pamphlet entitled "How to Obtain a Farm in New Brunswick," issued by the Farm Settlement Board, appears a letter from Harry Hopkins, an English immigrant who has made good here. He writes to the superintendent of immigration:

"Two years and a half ago in London I applied to the New South Wales office and Northern Australia office for their rates and conditions to new settlers. I also applied to the New Brunswick representative for his conditions and received much better treatment and satisfaction from him than from either of the others. I then came to New Brunswick, arriving here June, 1909, with \$5.00 in my pocket. I received the greatest consideration and attention from the Local Immigration Superintendent, at St. John, Mr. A. B. Wilmut, and my wife and I immediately went to work. I received \$10.00 per week and my wife \$15.00 per month, both board and lodging. After six months my wages were increased to \$15.00 per week, since which time I have had steady work at good wages and have saved up \$1,400, and we are now going home for a holiday to spend the winter, intending to return in the early spring. I would advise any Englishman thinking of leaving the old country to settle in New Brunswick."

Two Lots Purchased.

The Farm Settlement Board has purchased two lots of land at Pinnook Junction near Shediac.

How "Mag" Sullivan Enjoyed Herself During Sojourn in Central Station Saturday and Sunday.

Margaret Sullivan, who has a long record in police circles, and who is better known to the police officers as "Mag," was arrested on Saturday morning for being drunk. This interesting lady generally gives the officers quite an amount of trouble by resisting but on the last couple of occasions that she has been arrested she went along quietly. Being an old hand at the game, she was not taken to appear before the magistrate during Saturday and will not be taken to the court until this morning. She went to sleep in the cell and when the officer on guard at the station looked in during the afternoon he saw that she was still intoxicated.

In fact she appeared to the officer on night duty to be still under the influence of liquor Saturday night and it was a puzzle how she retained her jag after being behind the bars for such a length of time. It was not known until yesterday morning what the cause was. When all was still about the basement of the station where the cells are, and there were eleven prisoners confined there, one of the policemen while going the rounds noticed a light issuing from the Sullivan woman cell. On looking through the cell door he was amazed to see Mag sitting on the wooden bench with a colored candle burning at each side. The candles were such as are used on Christmas trees and when the officer asked Mag what she was doing, she replied that it was Christmas time, so she was burning the Christmas candles.

It was then that the officer discovered how she managed to remain under the influence of liquor all day and during the night. When she was arrested for drunkenness in the morning she was bundled into a cell without being searched and when left alone, and feeling thirsty, she took a bottle of whiskey which she had hidden in her stocking, and after quenching her thirst, replaced it in the hiding place. In this way she passed her solitary sojourn quite pleasantly.

BURGLARS AGAIN

RAID SUMMER CAMP

George Merrisey's Camp at Long Lake Broken into and Several Articles Stolen -- Lock Blown Away.

Another link in the chain of burglaries in the suburbs occurred recently when the summer camp at Long Lake, owned by George Merrisey, was broken into and articles valued at about five dollars removed. The crime which was only discovered when the owner and a friend visited the camp yesterday afternoon, was probably committed on New Year's day.

It appears to have been the work of men armed with shot guns and ball cartridges as several bullet holes were made in the woodwork. A heavy padlock, by means of which the door was secured, had also been shattered with a bullet. Among the articles stolen were some clothing and a number of tools, and the thieves had evidently made themselves at home as traces of a meal of which they had, apparently, partaken were left scattered about the camp.

There are several camps in the vicinity and all have been entered on several occasions. Last summer a number of boys who were responsible for some of the trouble were arrested and arraigned in the juvenile court. They were allowed to go with light sentences upon promise of future good conduct, and for a time the owners of camps enjoyed comparative immunity from this form of annoyance. The present case was reported to the police last evening and every effort is being made to apprehend the misdoers.

There is some talk of offering a reward for information leading to the apprehension of the men who are breaking into summer camps. Mr. Merrisey intimated that it was the intention of the owners of his camp to make some such offer.
