

EARLY MORNING  
BLAZE AT SUSSEX

Sussex, N. B., Oct. 26.—(Special)—The Sussex fire department was called out at 2 o'clock this morning to a fire in the home of Dr. Ellison, who resides over the drug store of G. M. Fairweather. The fire was quickly on the scene and found plenty of smoke but it took some time to locate the fire, which was smoldering between the floors. Finally the fire was extinguished with little damage. The subject's corpse took care of the contents of the home and removed it in safety to the street.

ISSUED WARRANT  
FOR REIL'S ARREST

Winnipeg, Oct. 26.—Hon. John Harrison O'Donnell, Dean of the Winnipeg medical profession, former speaker of the legislative assembly, and one of the best known old timers in the west, today, at his residence, 119 Marlard street, aged sixty-eight. He came to Winnipeg in 1899 and in the following year, after the formation of the province he was called to the legislative council or senate, and later when that body was abolished, served as speaker of the assembly. Dr. O'Donnell was held by the rebel, Reil, in close confinement, and later turned the tables on him when, as magistrate, he issued the warrants for the arrest of Reil and his followers.

A delicious salad is made with celery and tomatoes. Slice four tomatoes and cut in small pieces. Mix with an equal amount of cut celery, arrange on lettuce and cover with mayonnaise dressing.

Peppers can be kept firm and mild in the following way: Put them in a stone crock, then heat enough vinegar to entirely cover them. In this way they will keep all winter.

## TURKISH ARMY OF 250,000 IN FULL RETREAT

### TO ASK LEGISLATURE FOR PROTECTION ACT

#### Need of Prison Farm, Care of Feeble Minded, and Welfare of Neglected Children Discussed at Annual Meeting of Associated Charities—Trained Health Officers Needed.

The need of a prison farm, the protection of children and the care of the feeble minded were the themes of the speakers at the thirteenth annual meeting of the Associated Charities of St. John last evening in the rooms of the board of trade. These subjects were treated in a very thorough manner, and it was decided to ask legislation in this direction.

The meeting was perhaps the most successful in the history of the association and the attendance was certainly a great encouragement to those who have been interested in the great work of charity. The meeting was a very representative one and Hon. John E. Wilson, M. P., E. P. Zilly, M. P., P. P. local representatives in the provincial house, were among those present. Many of the speakers made reference to the large number of pauper children in the city, and the need of a prison farm and the great good that could be accomplished by the establishment of a prison farm and the great good that could be accomplished by the establishment of a prison farm.

The speaker who addressed the children's protection act and introduced a motion to the effect that the association urge on the local legislature the need of a child protection act. Miles E. Agar, city commissioner of public works, told of the needs of a prison farm and the great good that could be accomplished by the establishment of a prison farm.

Dr. Thomas Walker spoke on the need of proper training for feeble minded children. In this connection he first referred to the social service in connection with some of the hospitals in the United States, where a society was formed to look after the families of men, who were ill. This society also visited the sick man and when he was able to leave the hospital and perhaps still too weak to work, it provided for his spending some time in the country until he was able to work.

Dr. Walker also said that the board of health should appoint public officers only those men who are properly qualified for the work. The secretary of the Provincial Board of Health, he thought, should be a man properly trained in social work and having a certificate from a recognized university. He thought that legislation for the treatment of the feeble minded was long overdue.

Mr. Armstrong spoke of a case in an alley off Brussels street where a woman with six children was living but she would not go to the almshouse and the children were not getting a proper chance. He read several sections from the bill recently submitted to members of the local legislature. This bill was along the same lines as the Ontario law and was presented to local members at the last meeting of the house but for some reason it was not passed. In concluding his address, Mr. Armstrong moved that the members of the Associated Charities urge on the members of the local legislature that they take the child protection act under consideration and pass it.

The Work in Ottawa. A. M. Belding, in seconding the motion, referred to the work of the society in Ottawa. It was established nineteen years ago and has placed 300 wards in homes outside the city, where a provincial government inspector visits them once a year. It is expected that a special officer will be appointed to make more frequent visits. Last year 234 children were before the juvenile court. There are two lady probation officers and another will be appointed to look after older boys. The president, W. L. Scott, strongly recommended that the criminal code be so changed that men who deserted their wives could be followed anywhere and brought to justice. He advocated that they be brought to court and ordered to pay so much per week towards the support of their families and failing that to be sent to jail. This system was worked well in Washington. The motion was carried.

It was decided to appoint a committee to take this matter up and bring it before the proper people. Mr. Agar's Address. Miles E. Agar said that he was glad that a new spirit was showing itself in the people and although they might not be our brother's keeper we were striving to be our brother's helper. He was very much in favor of the establishment of a prison farm and thought it should be maintained by the province. Intemperance, Mr. Agar pointed out, was a great cause and every one should do his best to help those suffering from its evils. Mr. Agar gave some interesting figures from the report of the prison farm at Bridgewater (Mass.), which showed that farms of this kind were a success. He pointed out the need of having the whole city kept clean. One street may have the dwellings of the rich and be clean but next it may be a gutter street with poor families. If the dirt is allowed

### BULGARIAN CARRY LIKELY TO END THE WAR

#### Sultan's Advisers Now Said to Be Considering the Question of Suing for Peace—Ottoman Commander Reported Shot or Captured—Constantinople Now Believed to Be at the Mercy of the Victorious Allies—Four Days' Battle Marked by Terrific Fighting and Heavy Losses.

A noticeable feature of the war is the Bulgarian forces between Lule Burgaz and Viana. Our army corps, concentrated Lule Burgaz and to the north are offering vigorous resistance to the enemy advancing in this direction.

The capture of the other Balkan states continues with the success which throughout has attended them. Soutari has not yet been captured, but Ipek has fallen to the Montenegrins. The Servians have taken Pristava and Greece is occupying islands in the Aegean, in addition to various towns in Macedonia.

The power, feeling disorder and massacres in Turkey, are hurrying warships to the various ports of that country to protect the foreign residents. The insignificant parts played by the Turkish and Greek fleets.

News of the capture of Nazim Pasha's headquarters at Tchoria is eagerly awaited. Little has been heard from the Bulgarians since they were driven from the territory of the Montenegrins. The Bulgarians are now looking forward to the capture of the Turkish army, which is now in the hands of the Montenegrins.

It is believed that the total Turkish forces numbered 250,000 as compared with 150,000 Bulgarians, the latter being obliged to retreat in the week on Vias and Midia. It is believed that the Bulgarians are now looking forward to the capture of the Turkish army, which is now in the hands of the Montenegrins.

Probably the decisive movement of the Bulgarian right was one through Airobol, fifteen miles to the south of Eka Baba, which turned to the Turkish flank. The Turkish reserves west of Yoniklin, nine divisions strong, were pushed forward towards the centre of the Turkish line to check the Bulgarian advance, but it is believed that these reserves are also in retreat.

Constantinople, Nov. 1.—(I. a. m.)—Serious news has been received from the front. The council of ministers is still sitting at the Porte. It is believed that the ministers are discussing the question of concluding peace with the Balkan states.

The exact nature of the latest advance from the front in Thrace has not been made known, but last evening the government received the following report from Nazim Pasha, the war minister and commander of the Turkish forces: "Our eastern army has been engaged for the last four days in serious fighting with

### BEEF TRUST MAGNATES INDICTED IN BOSTON

#### Federal Grand Jury Finds They Have Entered Into a Conspiracy to Fix Prices Through Deal With "Independents," Swifts of Chicago Among the Defendants.

Boston, Oct. 31.—The Consolidated Rendering Company of Boston, and four of its officers were indicted by the United States grand jury today on a charge of conducting an unlawful monopoly in the beef rendering business in the New England states.

The officers indicted are Edward F. Swift, of Chicago, president; Edward A. Tilden, Chicago, vice-president; Horatio W. Heath, Boston, general manager, and George H. Swift, Boston, director.

The indictment sets forth that the Consolidated Rendering Company operated through its subsidiaries and charges that competition was eliminated by a secret arrangement made by the Consolidated Rendering Company's officials with independent concern.

### BORDEN AND COLLEAGUES TO HELP CODERRE

#### Billed to Speak at Several Meetings for New Cabinet Minister—Bourassa May Oppose Him.

Montreal, Oct. 31.—Political developments today comprised the announcement that Hon. Louis Coderre would have his organization completed and ready tomorrow for a vigorous campaign in all parts of the province, that several ministerial meetings would be called in an early date, in Westmount, St. Henri and Point St. Charles, to be addressed by Mr. Coderre, the new secretary of state, and other ministers; that Mayor Rutherford, of Westmount, had absolutely declined to enter the fight as a candidate, and that Henri Bourassa had declared to a friend that if no other candidate could be found he would enter the contest himself and on no committee, but the committee on the government's naval policy.

The Bourassa boom developed strength during the day, and there were many who expressed interest in the question of a Nationalist candidature, for it would be spectacular if nothing else. It is understood that Mr. Bourassa decides to enter the fight he will open no committee rooms, making it an oratorical campaign only, and leave the issue to the electors to decide.

The premier and two of his colleagues in the cabinet will address public meetings in the city and in Westmount on Wednesday next, nomination day for the Hochberg division.

Premier Borden will speak in the town hall of St. Henry and the Hon. Charles Doherty, minister of justice, will speak in the Engineers hall, Point St. Charles. On the same evening the Hon. W. B. White, minister of finance, will address a meeting to be held in Victoria Hall, Westmount.

The gentlemen in Wall street don't bet \$5 to 1 on their own destruction, and they don't go to their business smiling and complacent when they expect a deluge next week," was his way of putting it.

### STRONG EVIDENCE AGAINST LAWRENCE LABOR LEADERS

#### Bullet That Killed Girl of Foreign Make—Inflammatory Literature of I. W. W. Read in Court.

Salem, Mass., Oct. 31.—That the bullet which ended the life of Anna Lopozio during the Lawrence textile strike riot was of foreign make and could not have been fired from a revolver of American manufacture; that Joseph Caruso confessed to a detective, whom he thought a friend, that he snatched a policeman during the same riot; and that officials of the Industrial Workers of the World "advised violence and disregard of law" in industrial disputes, were featured in the closing testimony offered by the commonwealth today in the trial of Etor, Giovanniatti and Caruso for the Lopozio murder.

Though the commonwealth did not rest its case, District-Attorney Atwill declared that he had no more witnesses and court adjourned for the day, while the prosecutor was reading to the jury a pamphlet alleged to have been written by Vincent St. John of Chicago, general secretary of the Industrial Workers of the World.

This pamphlet, found at the Lawrence strike headquarters, was admitted in evidence by Judge Quinn, despite objection by the defense. It outlined the history of the Industrial Workers of the World, its aims and methods. Its presentation to the jury will be completed tomorrow when the commonwealth will close.

In the pamphlet, the commonwealth maintains its advice to workers to disregard the law. In the preamble to the constitution of the organization read to the jury it was set forth that "the basic principle makes the Industrial Workers of the World a fighting organization."

It was also declared that the only bargain the organization would make with the "employers class," was "complete surrender of the organized industry to the work-

### BUFFALO HOTELS CRIPPLED BY STRIKE OF 1,000 EMPLOYEES

Buffalo, N. Y., Oct. 31.—One thousand members of the International Hotel Workers Union, including waiters, cooks, omnibus drivers and chambermaids, struck here tonight. They demand a slight increase in wages, the abolition of long shorter hours, better food and more sanitary conditions at their tables and in sleeping apartments. Five of the leading hotels are affected by the strike.

What damage the Bellona has sustained, if any, has not been ascertained here. She is an iron vessel of 1,200 tons register, and is owned by the Thomson Company, of Dundee, Scotland. Robert Reform Company, Limited, are the agents of the line in Canada.

When asked to plead to the charge in the district court at Ellsworth the boy said: "I suppose I am guilty. I did not calculate to kill him."

Captain Young, who kept a store in the village, was killed while on his way home Tuesday night. When the boy was found, his money was missing. Witnesses at the inquest testified that Goodwin was in the store a few minutes before Young closed up Tuesday night and saw the proprietor counting up his receipts.

### TURKISH COMMANDER SHOT OR CAPTURED

London, Nov. 1.—Nazim Pasha, the Turkish minister of war and commander-in-chief in Thrace, has been either shot or taken prisoner, according to a despatch from Sofia to the Post.

London, Oct. 31.—A four-days battle in Thrace has ended in the triumph of the Bulgarian commander-in-chief, General Savoff, whose skillful strategy has probably brought to a close one of the shortest and most remarkable wars on record.

A great Turkish army, estimated at over 200,000 men, has been defeated, and is in retreat. Constantinople is believed to be at the mercy of the victorious Bulgarians, and a council, sitting at the Porte, is discussing the advisability of suing for peace.

Such is the news which comes from the front of the great battle here yet been received. The Turkish army, today that army is defeated, routed within fifty miles of Constantinople. It is only a fortnight since Turkey declared war. The first week of the campaign closed with the dramatic fall of Eka Baba, fully revealing for the first time the true organization, had morale and inefficient commissariats of the Turkish army. Today that army is defeated, routed within fifty miles of Constantinople, and possibly its retreat with in the capital's line of defense is out-off.

### 5,000 C. P. R. MEN THREATEN TO STRIKE MONDAY

Ottawa, Oct. 31.—Unless their demands are met or a board of conciliation is appointed in the meantime, the 5,000 members of the Canadian Brotherhood of Railway Employees of the Canadian Pacific will go on strike Monday next. This announcement has been made by President Mosher, of the brotherhood. A deputation of members of the Ottawa Board of Trade went on the 30th to Ottawa this morning with an urgent request that some steps be taken by his department to bring the parties together in view of the serious results which would ensue on a strike of the brotherhood throughout the dominion.

The minister had already declined the request of the railway employees for a board of conciliation. Other boards of trade will be asked to use their influence to prevent a walkout.

### MAINE BOY ADMITS THOMPSON LIVER ASHORE ON THE ST. LAWRENCE

Waylaid, Killed and Robbed a Surry Storekeeper on His Way Home.

Surry, Maine, Oct. 21.—Edwin Goodwin, a seventeen-year-old boy, admitted today that he was responsible for the death of Captain Harry O. Young, whose body was found at the edge of a small stream here yesterday. Goodwin was arrested charged with murder after the coroner's jury decided that Captain Young's death was due to a blow on the head.

When asked to plead to the charge in the district court at Ellsworth the boy said: "I suppose I am guilty. I did not calculate to kill him."

Captain Young, who kept a store in the village, was killed while on his way home Tuesday night. When the boy was found, his money was missing. ### TURKISH COMMANDER SHOT OR CAPTURED

London, Nov. 1.—Nazim Pasha, the Turkish minister of war and commander-in-chief in Thrace, has been either shot or taken prisoner, according to a despatch from Sofia to the Post.

London, Oct. 31.—A four-days battle in Thrace has ended in the triumph of the Bulgarian commander-in-chief, General Savoff, whose skillful strategy has probably brought to a close one of the shortest and most remarkable wars on record.

GOVERNMENT HAS GREAT PLANS FOR HALIFAX HARBOR

Minister of Railways, at Luncheon There, Announces the Building of Six Piers to Accommodate 30 Steamers.

Halifax, Oct. 30.—Hon. Frank Cochrane, minister of railways, was given a luncheon by the citizens of Halifax at the Hotel this afternoon, at which he made a statement of the importance of the harbor.

A new union passenger station will be built on the site of the old station, which will be of ample size and suitable architecture. These terminals will be approached by a double-tracked railway, which will branch off the main line at the Three Mile House and extend southerly through the low divide between Bedford Basin and the head of the North West Arm.

AGRICULTURE

The Packing of Fruit and Vegetables—In the West it has Been Reduced to a Science With Winning Results—Attractiveness Counts for Much.

A good deal has been said and written concerning the great difference between the farmer's selling price and the price paid by the consumer. The difference is great—too great—so that the middleman must accept a share of responsibility for such condition existing; but the farmer materially aids that which so routinely condemns by careless picking, packing and marketing of the produce.

Strength of package should receive first consideration, and should be evident to everyone, yet broken packages, covers of broken boxes and fruit and vegetables deposited on the floors of warehouses or rolling around on the decks of steamers are scenes too often met with.

Attractiveness counts for much. The consumer never stops to inquire about the produce found in a dirty weather-beaten crate, or the price of material in a bargain covered with a shabby paper.

Turning stems down on the top layer of a box of strawberries takes but an instant, but it is a cent in the price.

Cleanliness is receiving more and more attention and rightly. We are learning slowly that fruit exposed in front of the store on the way to market is not for food.

The standard package agreed on by the fruit men or vegetable grower's association should be readily adopted by the growers. The fact being that boxes of a half dozen shapes and sizes are in common use.

Becker was brought into court a little half-past ten. He walked slowly to the bar and, catching the eye of an acquaintance among the newspaper men, nodded with a faint smile.

It was said tonight in the office of the district attorney, that under section 636 of the code of criminal procedure at least six months will elapse before the appeal by Becker's counsel will be heard by the court of appeal.

BECKER GIVEN MASQUE ALAR

SWIFT JUSTICE IS ACCURATE

Sentenced to Die in the Week Beginning Dec. 9

BETRAYS NO EMOTION

Condemned Man Immediately Rushed to Sing Sing—Wife Accompanied Him—Appeal Likely to Stave Off Sentence for Years—Will Not Change His Lawyers.

New York, Oct. 30.—Charles Becker, former police lieutenant, convicted of procuring the murder of Herman Rosenthal, was today sentenced to die in the electric chair at Sing Sing during the week beginning December 9.

The execution will be stayed, however, by a notice of appeal from the verdict of the jury, soon to be filed by his counsel. This may take a year to determine.

Becker opened his mouth as if to speak but before he could reply John W. Hart, his attorney of record, rose to make the usual motions to set aside the verdict and to arrest judgment.

Mrs. Becker was not in the court room proper, but was waiting in the ante room to accompany him to Ossining, where she purposes to take up her residence during his confinement.

It was said tonight in the office of the district attorney, that under section 636 of the code of criminal procedure at least six months will elapse before the appeal by Becker's counsel will be heard by the court of appeal.

MR. COSSAR VERY OPTIMISTIC ABOUT NEW BRUNSWICK

Many Farmers, He Has Found, Are Not Using Up-to-date Methods—Possibilities Here Are Great.

Thursday, Oct. 31. G. W. Cossar, of the Cossar Farm, Gagetown, is in the city, at the Royal. A Telegraph reporter, yesterday Mr. Cossar said that he had had a most successful summer, both in regard to the work that was being done in training the boys and in the exhibition.

Mr. Cossar in response to a query as to the possibilities in New Brunswick for old country farmers and the question of their experience as applied to conditions prevailing here, said that the conditions in New Brunswick were very favorable to old country farmers.

The material at the gardeners hand is of great variety. It suits every condition, every climate, every season, every purpose. The selection of those to suit any one set of conditions, so as to give continuous bloom; variety of color, consistent with harmony; beauty, variety, dignity, grace, requires study and constant care; yet it is not too difficult for any man who truly loves the work.

Best for Shade—Holly-leaved Berberry, Red Dogwood, Hydrangea, Bush Honey suckle, Buckthorn, Highbush Cranberry, Waxwing Tree, Snowberry.

Best for Poor Ground—Common Barberry, Staghorn Sumach, Common Elder, Wild Rose, False Indigo, Coral Berry.

Best Summer Flowering—False Indigo, Sweet Pepper, Hydrangea, Billard's Spirea, Spirea, Anthelmy W. Elder, Spirea Douglas, Ash-leaved Spirea.

POULTRY FLOCK GOOD THING FOR IDLE BOY

Keeps His Mind Occupied With Many Interesting Phases of Business

CAN EARN POCKET MONEY

One Youth Gleans a Profit of \$72 from Eggs Laid by Only Fifteen Hens.

(Prof. F. H. Stoneburn, in New York)

We have laid out a plan, which offers the advantages to be derived from a small flock of poultry maintained on the limited space afforded by the average back yard.

The general appearance of the rooms in the rear of the house, which are used as a hen house, is now one of the finest for this purpose in Canada.

From floor to ceiling the entire room has been gone over and the expenditure of money has been such that the result is a handsome and comfortable hen house.

The lighting system has been changed and the illumination is now done by tungsten lights artistically arranged. A new feature in the lighting system is what is termed the "reveling light," controlled by a switch by which the lights can be made any strength required by the exigencies of the work.

The poultry house is one of the standard makes, costing originally \$30. It is well built and thoroughly painted. With reasonable care it should last for twenty years at least.

Don't throw clothespins on the ground when taking down the clothes. Either have a laundry apron with a pocket into which they can be put, or have a bag, or have a bag open on one side, the opening having a wire run through the hem, suspended from a heavy piece of wire curved like the letter S.

dary of the lot. There are large apple trees on either side which shade it thoroughly during the summer months.

There is no run in conjunction with the hens, the birds being kept indoors at all times. This is the "no yard" plan, which is becoming quite popular.

Well known commercial mixtures of both dry mash and scratch feed are used. The former consists of ground grain with a liberal proportion of animal food, and the latter contains a variety of whole and cracked grains.

The birds are managed in the simplest manner. Once each week the house receives a partial cleaning, especially beneath the roosts.

The flock consists of fifteen Lophura pullets of ordinary grade. They were purchased last October at market poultry prices.
