In the long white rights of winter.

In my dreams, it scares my soul;

My s'ut eyes see the snow-white pines,
And I hear the w.l.es' keen he wl;
And never, asleep or waking.

Seem I to be free aright
From the famished glaum of those eyeballs

That I saw in the far-off night.

The snow, through the day, had fallen, and had frozen where it fell;
Twas biting col that winter,
That all remember well;
But my sleigh and horses were stabled,
And I in the inpract wears. And I in the inn sat warm. Biding my time to journey on At the ceasing of the storm.

It ceased as came the evening;
As I looked across the snow,
I shivered to think of the keen miles
My horse and I must go.
That my horse and I must travel
Fast through the wanion light,
Of the forest ways I must traverse
On through the darksome night.

We were off: through the cold white stillnes.
Rang the b lls of my speeding sleigh;
'Twas the only sound, I mind well,
That cheered the silent day;
And the glooming way was lorely,
White snow and thok gray sky,
Till at last through the lone pine forest
Speeded my steed and I. The boughs creaked with their snow weigh

As we sped on and on:
Speed on! dear home we're nearing!
Our journey soon is done:
But, hark! through the bells' keen jangle,
What is that sound of fear?
That distant sound that, freesing
My hear', I seem to hear.

Well might my sacred horse shiver!
How he shuddered! I mind it well;
God have mercy en horse and driver at That speed from that nearing yel!
How I groated to God for succor

EVENTS IN BOSTON.

Boston, Feb. 6.

A novel and very ingenious application of mechanism for utilizing the pressure of the street water mains to drive wate. to the top of any building at the shortest possible notice, has been invented by Mr. S. R. Russell, of this city, and appears calculated to work a radical change in the present system of checking incipient conflagrations, especially in hotels and tall business blocks. By Mr. Russell's machine the water from the street main may in an instant be applied to set in operation in the basement a turbine wheel which in turn works a rotary pump of sufficient power to send a strong stream to any desired height. The water thus raised it taken from the street water pipe into which also flows that which has worked into the sewer. THE SPINAL MENINGITIS. This disease which was so prevalent

among horses about a year ago, has been prevailing to some extent in several of our large stables lately, although, so far it has not been attended with any of the alarming symptoms shown in the malady upon its former visit. The stables of the Highland Horse Railway have had quite a number of cases, but all are improving, and there is only one horse so ill as to have to be supported in slings. Some of these which have been in a bad condition are now at work, although their appearance indicates unfitness for the heavy labors incident to the hard travelling. In the stable of the Broadway Railroad et South Boston, there are many cases, some of them quite severe, there being more than a dozen cases which have to be supported by slings. The weakness in the hind quarters is such

that they have no control over their hind legs, and offer no resistance to being swung around at will by any person. If the sling breaks or is not soon enough applied, the animal sits upon its haunches like a dog. with its fore legs stretched out in the effort to rise. BOLD ATTEMPT TO ESCAPE FROM PRISON. There was a bold but unsuccessful at tempt made by a life prisoner to escape from the State Prison yesterday forenoon.

It seems that a number of convicts were engaged in removing the rubbish from the shoe shop of Mr. Ira Blanchard in the prison yard. There was a large wooden box in the room which the prisoners were filling with pieces of leather. This box had been fitted by the convicts with a slide on the inside, making a sort of double box Miss Wilson, a very talented young Eng large enough to admit the body of a man. managed to secrete himself in this interior and the convicts proceeded Oliver Doud Byron is playing "Across to fill the box with the rubbish, the Continent" at the Globe.
