Canadian Press Despatch. Hamilton, June 23.—In response to the plea of the Toronto strikers, the Hamilton postal employees have called a meeting for 7:30 this evening to discuss the request of the Toronto strikers that they go out on strike again. Fred Warburton, president of the letter carriers here, denied that a hundred local men had voted for a walkout yesterday. "There was no vote taken last night," he said, "and there was none taken this morning. The situation remains unchanged. The men are all

These are all signed pictures from one of the largest art schools in Holland.

Registration Scheme Forecasts Heavy Fall Enrollment at High Schools.

MEETING TODAY

The burning question in secondary school circles in London is the matter of accommodation for 1924-25 classes. The June registration scheme, operation of which has just been completed, is reported to have been highly satisfactory. Rough estimates from this census indicate that there will be more students in every secondary school district of the city in September.

With principals working on the completion of examinations just now, no definite figures on the registration campaign are available. However, Principal Miller states that with 830 students as the maximum capacity for the present term, some 850 students are already registered to enter classes in September. At the same time it is not believed that the registration scheme was 100 per cent efficient, and other pupils may yet want to enter the school.

Principal H. B. Beal of the Technical High School states that the registration there has been good and there is certain to be a neavy enrollment when the for term opens, The South and East London Collegiates are reported to have a heavy enrollment in view.

However, not a great deal in the way of plans can be completed until results of Grade 8 examinations are definitely known

The collegiate committee of the board of education is meeting this afternoon, and it is expected that possible action in collegiate accommodation will be discussed. The platoon system is mooted in some ircles, though no definite move to naugurate the scheme has been

LIBERALS RETURN

Canadian Press Despatch.
Victoria, B.C., June 22 — According to a report in government circles and among close friends of Hon. John Oliver, the premier intends to retire from politics following his defeat in Victoria on Friday.

Canadian Press Despatch. Vancouver, June 22 .- By an apparently decisive popular vote, electors of British Columbia have registered their disapproval of the proposal for the sale of beer by the glass under government control. The plebiscite returns while not complete show that the proposal was rejected in all of the larger centres, including Van-couver, Victoria, New Westminster couver, Victoria, New Westminster and Kamloops. While the plebiscite was taken with

the understanding that the principle of local option should apply, the government reserved the right to use its own discretion should it appear that there was a popular feeling against it. Under the circumstances it is regarded as extremely doubtful if the sale of beer by the glass will be granted in such scattered communities as registered a favorable vote vesterday.

Returns from the rural constit-encies were far from complete at late hour this morning, and it is that he hour times morning, and it is doubtful if definite results will be known before Monday.

when he steps out among the fair sex.

Naturally, son, the first thing that a woman notices about a man is his appearance, and she is attracted or repulsed by that.

This does not mean that to attract the man must be a Greek god, for vomen do not put the idiotic value on physical beauty that men do. It is to the everlasting credit of women that while men fall for the baby-doll type women, women scorn her twin brother, the store-dummy sort of man.

Therefore, it doesn't matter whether a man has large, soulful eyes, a classic profile and a ready-made clothes advertisement figure or whether he has carroty hair and a face that is just an assemblage of features. But he must be "nice looking." That means. primarily, clean. Tubbed. Scrubbed. Shaven and shorn, Well pressed. No woman ever fell in love at sight with a slovenly, slop py, slouchy man with a three-days' growth of beard on his face and who needed a hair cut.

"Costly thy raiment as thy purse can buy," son, when you go a-court ing. Funny that men, who know how much stress women put upon clothes, never seem to think that they notice the way men dress. But they do.

Many a man loses out with a girl because he wears baggy trousers and coats that are too short in the sleeves, and the wrong sort of shirts and collars and ties. When a woman appears in pubwith a man she likes him to be so stunning looking that he makes the other girls rubber.

Clothes make the man to a big extent with women, so as a first aid charm seek the expert services of a tailor and a haberdasher.

The next thing that women notice about a man is his manners. Not without reason are the villains of melodrama and the movies always represented as polished men of the world. Women are fascinated by the man who is master of every situation; who has tact and suavity: who always says the right thing and does the right thing; who knows how to order a dinner and find a taxi; who can take care of them in a crowd; who doesn't step on their feet when he dances, and who neither bullies servants nor cringes be

TERRIERS WALLOP

Young Daugherty Started For Galt, Kress Going To Rescue.

Special to The Advertiser. Guelph, June 22. - Ineffective the part of the Leafs, gave the Galt Terriers their third victory of the season over the local senior nine Saturday afternoon by 13 to 3 score. The game, which was witnessed by a crowd of 2,000, was a very weird affair, and dragged along for two hours and a half. Bud Ryan, who started on the mound for the Leafs, only lasted part of one inning when he was relieved by Lefty Goyer with the bases loaded and three runs across for Galt. Two more tallies were notched in the initial frame before the side was retired, while the visitors added another run in the second, two in the sixth, and finally forced Goyer to give up the task in the eighth, when he weakened and allowed three hits in succession for two runs. Murphy, who replaced Goyer, was also touched freely, and five tallies in all were registered by the visitors before the damper was put on their final rally.

Doherty, the former Woodstock hurler started in the box for Gait, too bad but when he passed nine batsmen and hit another allowing the Leafs to count three runs in all, he was derricked in the fourth in favor of Kress, who failed to allow a hit for the balance of the game. The Leafs and C. N. R. are the only entrants for this district on the Ontario Cup, so that unless there are other entries they will play off in the near future.

We hear that C. F. A. are having a hard time since breaking away from the O. F. A., and it will be no surprise to hear of their finish.

The Toronto Scottish have only Geordic Campbell left now of their team that won Dominion honors.

He was hit badly, including two three-baggers in the first two innings, Sarnia landing three home as a result. The visitors promised to make things interesting in the fourth and fifth when the bases were filled, but could only get two men over, while Sirnia added two in each inning. Therefore the Lucan was blanked by Allen, whose curves always had the visiting swatters in trouble. Allen allowed but six hits.

Dr. McIntosh's team and a team captained by Mrs. McIntosh resulted in a score of 6 to 3 in favor of Dr. McIntosh's team

of Dr. McIntosh's team.

During the afternoon, Dr. McIntosh who is leaving next week for a trip to England and on the continent, was presented with a handsome travelling case, the gift of the young people of the church. The presentation was made by Miss Kathleen England, the vice-president, in the absence of the president, Jack Hambly, who is in Toronto taking a summer course. In the evening the party adjourned to the Lakeside pavilion where music, games and sing-songs formed an attractive program. The success of the picnic was largely due to the energetic work of the following con-veners: Earl McKellar and Mrs. Claude Wright of the transportation; Miss Elsie Moote of the refreshments;

Former Broker Gains Further Delay of Possible Death Sentence.

Associated Press Despatch. Chicago, June 22.-Russell T. Scott, former Toronto and London promoter, who turned robber, and pleaded guilty to the murder of Joseph Maur-er, a drug clerk, during the hold-up of a drug store, today received an-other respite from a possible hanging

Superior Court Judge Lindsay in timated several days ago that Scott must hang, but on plea of his at-torney today that another attorney had been retained, and that he believed he could show the court good cause why the death sentence should not be pronounced, the court agreed to another continuance.

Forty Boys and Girls Receive Recognition of Work During Year.

First Methodist church was lavishly decorated with flowers yesterday for the annual flower Sunday and children's day services. Symbol and Reality.

Institution, a device which calls people together to enable them to realize the presence of God. The home,

too, has not always been such a wonderful and beautiful place as it is today; it, too, s quqite modern. In Abraham's home there were two wives and two sets of children with resultant jealousy. In the Greek home, idealized as it has been, the children were taken away from their parents at an early age and trained by and at the expense of the state The church and the home are both but the symbol of the reality of the love and fatherhood of God and the home He is preparing for everyone of us," concluded Mr. Hunter.

MAITLAND STREET BAPTIST.

Last night at Maitland Street Baptist Church the pastor, Rev. Dr. A. T. have to be overcome before Sowerby, concluded a series of thirteen sermons on "The Events of the God."

"In this series," began Dr. Sowerby by way of summing up the previous sermons, "we have studied Him and all that had to do with the event of His death on the Cross. We have seen a mother's love tested to the extreme; we have witnessed the true Christian fidelity of Mary Magdalene and John, the Beloved; we have seen Christ love a penitent criminal; seen men in sin gambling and blespheming at the foot of the cross; seen bitter jealousy sneer at its victim and leer jealousy sneer at its victim and leer at His pain; seen weeping women, standing in the coarse crowd and intense darkness come over the land at noon day; we have witnessed nature shudder because of the arch crime which was committed; we have heard Him pray for His murderers and cry out to heaven when He felt the curse of sin; we have looked upon His drawn features when the darkness fied, noted His parched lips, and heard Him cry out, 'It is finished' as His soul slipped out into eternity."

Two noted scholars came and took away the body and buried it in a garden tomb "wherein was never man laid." God made man and put him in a garden where there was everything to cheer him. Into that garden came Satan and wrecked man's hopes, whereupon he was expelled by an offended deity. Man lost everything in the garden and it out to heaven when He felt the curse

peried by an offerded deity. Man lost everything in the garden and it was there—that—death received its power. In that self-same garden, however, through Christ's resurrection, was the power of death overthrown .

FIRST PRESBYTERIAN.

At the outset of his address on "The General Assembly" at First ing. Rev. (Col.) Wm. Beattie. D.D. damily left about 2:30 in the afternoon for a visit to Aylmer. William McNiece, a brother, who lives just a few rods away, was around the place about 6:30 and everything was normal at that time. The first he knew of the fire was when he was awakened by a resident of Byron who had seen the fire and driven a mile to give the alarm.

One outstanding feature was the large lay vote in favor of union. The most outstanding point though was not the growing spirit in favor of union, but the fine spirit shown in the debate.
