AN EXCITING MAN HUNT

Maniac Running Wild in Field and Resisting Arrest.

Shot Policeman Green of London When He Tried to Arrest Him—Wound Is Serious, but Green May Recover—London Man of Bad Character Who Blames Cigars For His Lack of Mental Balance.

London, Nov. 7.—Between 3 and 4 o'clock yesterday afternoon a tea pedlar, while driving in London South, noticed a man running around a field with two revolvers, shooting at everything he could see. He phoned for the police and Policemen Green and Smith set out. Getting as near as possible to the field with the patrol wagon, they proceeded by foot and when near the man with the revolvers started to run southward.

When Green was about to grapple with him he turned pointblank and fired in Green's face, the bullet entering just below the left ear. Green fell and Smith approached to make the arrest, but the man fired at him, this time only scratching Smith's right arm. He then continued his retreat over the Grand Trunk tracks and down to the river edge, where he threw one of his guns, and was overtaken by Smith, who handcuffed him.

The prisoner is Thomas E. Flaxen of Brick street, London, a very rough character, about 22 years of age, with a prison record, only recently being up on a charge of drunkenness. At short intervals after being arrested he shouted and yelled and it is believed he is a maniac.

Although Green is very seriously injured it is not thought to be fatal, unless blood poisoning sets in. Flaxen, while mumbling to himself, claimed that cigars were the cause of all his troubles.

TABERINTO ON TRIAL.

One Witness Testifies That Bruno Had the Knife in His Hand.

Toronto, Nov. 7.—Yesterday Dominic Taberinto was placed on trial for his life on the charge of killing James Marlow in the Windsor barroom at Mimico on Sept. 22 last. Justice Clute is presiding. Mr. DuVernet, Crown Counsel; Mr. Robinette, counsel for the prisoner; and Michael Basso, court interpreter. Crown Attorney Drayton and County Constable Burns are assisting the Crown.

All the evidence for the prosecution is in. The witnesses corroborated one another to a great extent, in the important points. Mr. Robinette commenced the defence by calling some of the Crown witnesses, whose names were on the back of the indictment, but who had not been called for the Crown. One of them testified that Bruno who had a knife in his hand and not Taberinto. Prof. Ellis will be called to-day. The jury was locked up for the night at 5.30.

COLLAR SAVES TWO LIVES.

Keeps Man From Fatal Injury and Assailant From Hanging.

Berlin, Nov. 7.—What might have given Waterloo County another murder trial was narrowly averted by reason of the "stand-up-down" collar which the victim of a stabbing affray in Waterloo wore. But for this collar it is probable that his jugular vein would have been severed.

The wound was inflicted with a jack-knife, and Reinhardt, the assailant, is under arrest, charged with the deed.

The victim is John Kropf. Even as it is, his injury is a serious one. Baumann is in Berlin jail, having been remanded until Wednesday. There was a woman in the Baumann case who was employed as hostess at the Market Hotel, Waterloo.

BABY THROWN FROM A TRAIN.

Picked Up Dead in a Ditch Along the Railway Tracks.

Kingsmill, Nov. 7.—As F. Gable, section-man of the M. C. R., was walking down the track about one mile east of Kingsmill Station, he discovered the remains of a dead baby lying in a ditch by the side of the track.

It would appear this baby had been thrown from some express train during the night of Nov. 6.

Dr. Sinclair, coroner of Aylmer, was notified and decided that the baby was alive and in a healthy condition when thrown from the train.

The clothes consisted of a little undershirt and napkin, also a nightgown made of shaker flannel and a pair of black stockings.

Chef Smashes Windows.

Brookville, Nov. 7.—Because Alphonse Victor Marchese, who had resigned his position as chef at Brookville's leading hotel, the Strathcona, could not make a settlement with the proprietor in the matter of wages, he sought to get revenge by hurling stones through two of the large plate-glass windows. The police nabbed him shortly after the offence was committed, and the prisoner is now in jail on remand, charged with malicious injury to property.

Sentence Is Postponed.

Toronto, Nov. 7.—The Christian Scientists, who were found guilty of manslaughter at the spring Assizes in causing the death of Wallace Goodfellow, before Justice Clute, yesterday morning for sentence. The case will be argued before the Court of Appeal on Nov. 24. Sentence was deferred until Jan. 8, 1906.

No one ever reaches the top of the ladder unless he starts at the bottom of it.

HIS COMMISSION

Principal Plewes Receives Official Appointment—Kind Letter From Minister

Principal J. W. Plewes last evening received from the Provincial Secretary, Hon. J. W. Hanna, the Commission from the Lieutenant-Governor of Ontario appointing him a member of the Provincial Educational Council.

Accompanying the Commission was a kind personal letter from the Minister of Education, Hon. Dr. Fyfe, asking the Mayor City Principal to accept the responsible position.

SUNDAY PAPERS

St. Thomas P. M. Decides What May Stand as Precedent in Province

St. Thomas, Nov. 6.—W. H. Anderson, the new dealer, was fined this morning by Justice Magistrate Gies for violation of the Lord's Day Act in selling Detroit and Buffalo papers, on Sunday, October 22.

The penalty imposed was ten dollars and costs. His worship's judgment is a lengthy one. He laid it down that the term tradesman was used in the same sense to-day as it was when the act was passed in 1845; and that Mr. Anderson was engaged in the trading and sale of papers in his ordinary calling as newsdealer. He did not agree that an agent being a person within the classes enumerated in the Act may carry on business with impunity. Nor did he consider the defendant an agent for anybody in carrying on his business as newsdealer. He thought the printer and sold them on his own account for gain. Newspapers come under the head of goods and chattels, and that the newspapers were only bought to be read and afterwards thrown away did not dispense with their sale or ownership. The words of the Act were comprehensive enough to include newspaper. If not, then a man, he thought, might keep a store or shop open and sell books, magazines and newspapers on Sunday with impunity.

BAVARIAN WILL BE FLOATED.

Injuries Not Past Repair—Light Out Caused the Wreck.

Montreal, Nov. 7.—"We have every reason to believe that the Bavarian will be successfully floated," was the statement made by the Messrs. Allan yesterday after seeing a great part of Sunday on board the stranded liner.

"There is water in No. 5 hold in the ballast tanks, and in the engine-room compartment, but though the tide has risen and fallen five times since the disaster the other compartments are intact, and when a considerable portion of the cargo is taken out the undamaged portions will have ample buoyancy to float the entire hull."

"The damage in the engine-room is the most serious feature of the accident, as it will add to the difficulty of executing temporary repairs. The engines and boilers have been displaced, and the funnel casing slightly forced up, but there is no question of the ship's back being broken or the general damage being irreparable."

"Mr. Davis, who is at the scene with his wrecking plant and the S. S. Strathcona, is also sanguine of floating the big liner. Up to Nov. 10 the tide is a rising one, which is a materially favorable factor in the situation. The work of discharging the cargo is going steadily on, the butter and cheese coming out perfectly dry."

It appears that the disaster was primarily due to the light of the gas buoy, known as the St. Margaret's Tail buoy, being out, a fact of which neither pilot captain nor owners were aware.

Sydney, N.S., Nov. 7.—I.G.R. authorities here received word by wireless telegraph yesterday from the steamer Montreal, now at sea, that the vessel will arrive at North Sydney to-day to land 100 tons of passengers and cargo by rail to Quebec. The Montreal left Montreal for London and Havre Oct. 28. It is thought she has met with an accident, and is coming here to land her passengers.

TWO DIE FROM EXPOSURE.

Party of Four Were Dumped From Boat in Bay of Quinte.

Ameliasburg, Nov. 7.—A drowning accident occurred on the Bay of Quinte, off the Ameliasburg shore, at 9 o'clock Sunday night. Some parties were illegally fishing in the bay, and a party of four, consisting of Frank Orendonk, one of the councillors of the Township of Ameliasburg; Wm. Urquhart, and James and John Garbutt, went out in a skiff to warn the fishermen to leave. They had gone only a short distance when a squall swamped the boat. They shouted and soon received help from the land, and all reached shore. Doctors Elecker and Horan were summoned, but Orendonk and Urquhart failed to rally and died from exposure.

The Garbuts are in a bad condition, but their recovery is likely.

Our lives are very short at best. Why not try to do all the good we can during this lifetime, and not only get a good example to others, but leave the world better than we found it?

The fellow who is most popular with himself generally has the fewest friends.

WITTE ISSUES APPEAL

Duty of Every Faithful Subject to Aid in Pacifying Country.

Reforms Are Being Delayed by Disorders—Cause of Conflict Is Found in the Fact That Hostility Has Been Aroused Among the Different Classes of the Population—The Odessa Massacres.

St. Petersburg, Nov. 7.—The Official Messenger yesterday prints another strongly worded appeal for confidence. It bears Count Witte's remarks. "Although it is impossible in every case," the note says, "to diagnose the true cause of the conflicts, it is clear that the origin generally is the hostility aroused among the different classes of the population. Those who are dissatisfied with the manifesto provoke the indignation of those who require it with gratitude, leading to attacks and counter attacks, all of which could be avoided if the people only had confidence that the reforms set forth in the Imperial manifesto will be executed. Disorders only delay the reforms which are designed to give the people a representative assembly in which to settle their differences. The duty of every faithful subject of the Emperor is to aid in the pacification of the country."

The political situation is most complex. Whether the Government will be able to outlive the populace or not is problematic.

From Living Tomb. Many touching scenes were witnessed Sunday when the political prisoners were released under the amnesty decree. At the Schusselburg fortress, where the most dangerous political prisoners are kept in solitary confinement, a great concourse gathered, looking for loved ones who vanished years ago and whose whereabouts were unknown. But only four were released. Disappointed women waiting for sons, husbands or brothers, broke down and wept. A man named Fraienko and a comrade, who said they had spent over 20 years in prison, came out with long white beards. They knew practically nothing about what had occurred during their long imprisonment. Sazonoff, the murderer of Interior Minister Von Plehve; Peter Karpovich, the assassin of Minister of Public Instruction Bogolipoff; Gerolinski, the chief of the Terrorist conspiracy, and other Terrorists were not released.

Must Go Whole Way.

Prince Lvoff explained yesterday that the deputation of the Moscow Constitutional-Democratic group, of which he is a member, which called on Count Witte demanding the convocation of a constitutional convention, believed that such a course was the only solution of the present situation. He added:

"Count Witte asked for our support and told us that our views more nearly corresponded with his than any other group. But the support of no party can now stem the tide or affect the final development of the great national drama. Autocracy has abdicated in words, but cannot stop half way."

As it is in Finland. Stockholm, Nov. 7.—A telegram from Abo, capital of the Province of Abo-Bjornborg, Finland, says that Governor Borgstrom has joined the Constitutionalists, and that the garrison of 1,700 men, including 100 Cossacks, remains passive by his orders. The members of the Supreme Court have been compelled to resign. Abo, however, is perfectly quiet. The Emperor's Finnish manifesto was received with enthusiasm, processions marching, singing through the streets.

Warsaw Citizens Unfit. Warsaw, Nov. 7.—The Governor-General yesterday issued an order setting forth that as he has ascertained that the citizens of Warsaw are not fit to profit quietly by constitutional liberties, he henceforth prohibits processions and open-air meetings, and threatens to disperse crowds by force of arms.

The Odessa Massacres.

Odessa, Nov. 7.—The town was quiet yesterday. It is now estimated that the killed and wounded during the recent riots here number 6,000. The city hospital alone contains 2,000 wounded. Out of the 6,000 casualties, those who were killed or wounded aggregate, up to midday, 1,374, of which number 713 were taken to Jewish cemeteries and 661 to Christian cemeteries.

The Governor-General has requested the editors of the local newspapers to refrain from publishing accounts of the happenings of last week in order to avoid inflaming the public. The editors acceded.

Anti-Semitic disturbances are reported from all the outlying districts. The peasants are greatly excited, and are urged on by agitators from Odessa. Troops have been despatched to the disturbed districts.

It is claimed in some quarters here that estimates higher than 2,000 killed and 5,000 wounded are exaggerations.

Used Bayonets.

Tomsk, Siberia, Nov. 7.—The troops yesterday were forced to charge with bayonets against a mob which was pillaging Jewish houses. A number were killed and many were wounded. The city is half sacked.

Novogorodskoye, Russia, Nov. 7.—A bomb was thrown Sunday into the apartments of the commander of the fortress. The commander was killed, and his wife, their children and an orderly were wounded.

Finn Strike Declared Off. Helsinki, Nov. 7.—The manifesto has created a splendid impression, and the populace is cooling off. In spite of the opposition of the Socialists, the strike has been declared off.

Our affections are our life. We live by them; they supply our warmth.

LINE DITCH

Causes Animated Dispute and Intricate County Court Assault Case

Judgment was reserved for one week in the County Court case tried before Judge Houston yesterday, in which Chas. W. Haviland, of Chatham Township, took action against Robt. A. Steen for assault.

The evidence was very complex in character. It showed that Mr. Haviland had taken exception to the position of a ditch Steen was making upon his property, following which the alleged assault followed, Steen knocking or shoving his antagonist down several times and leaving some ugly scars. The testimony of Engineer McGeorge and neighboring witnesses went to show that Haviland was justified in the objections he made to the location of the ditch, although Barrister W. F. Smith, who appeared for Steen, put up a magnificent legal fight, disputing every inch of the prosecution's vigorous attack. The case was decidedly intricate owing to the necessity of determining the engineer's awards and profiles. O. L. Lewis conducted a strong case for Haviland.

A GOOD SHOW

The Stoddart Stock Company opened at the Grand last evening with "The Senator's Daughter."

There was a good house, nearly every seat being taken, and it is an assured fact that the company will receive excellent patronage in Chatham.

The play last night was a good one and all of the rolls were well taken. It was thoroughly appreciated, judging from the liberal and enthusiastic applause.

The specialties were new and bright and proved pleasing features of the production. The bill for to-night is Hall Caine's "Christian," which it promises to be one of their best performances.

Another Identification Gone Wrong.

Rochester, N. Y., Nov. 7.—Although the police were said to have identified a woman who was murdered at Hamilton, Ont., as Pansy Lovthian, a wealthy young woman of Denver, Col., Miss Lovthian is alive and well in this city, and tells the police she is unable to account for their mistake.

Prince Arthur's Mission.

London, Nov. 7.—The Foreign Office last evening formally announced that King Edward had selected Prince Arthur of Connaught to proceed to Japan and confer on the Japanese Emperor the Order of the Garter.

SPECIAL MATINEE

Children 5 Cents Adults 15 Cents

The Stoddart Stock Co., who are pleasing crowds at the Grand this week, and only charging 10, 20 and 30 cents admission, will give a special matinee to-morrow (Wednesday) afternoon at 4 o'clock. Children only 5 cents, adults 15 cents.

OUR MINISTERS—AND THEIR WORK.

An item in yesterday's issue of a local contemporary, which has devoted so liberal an allotment of its columns to a sensational featuring of the few facts and the many rumors in connection with the deplorable developments resulting from the recent raid on a Lacroix St. house, accuses Maple City ministers of "lacking courage" because they refused to be cajoled or dragged into satisfying morbid and unhealthy curiosity from our city pulpits.

The posters are to be congratulated on the stand they are all glad to have taken. It would have been unfortunate, indeed, if any one of them had allowed himself to have become the mouthpiece of the scandal-mongers, or been led to cater to the crowds with baits of disgusting sensationalism.

Too often, of late years, the tendency of the pulpit has been in this direction. Slumbering and inert preachers seize upon the flag end of some moral awakening and seek by questionable advertising methods and exaggerated eloquence to draw the crowds and cater to sentiments that are neither elevating nor inspiring. Morbid curiosity usually draws big congregations, and there is an alluring appearance of success about such methods that is apt to be a big temptation to the weaker and more susceptible of pulpit.

But it is the minister who, Sabbath by Sabbath, consecrates his efforts earnestly and conscientiously to the great work of preaching the gospel to every creature, who is fulfilling the exalted mission to which he has been dedicated, and best advances the cause of Him whom he serves.

A CREDIT TO CHATHAM.

The City of Chatham has reason to be proud of the manner in which it received and honored Ontario's esteemed Minister of Education, Hon. R. A. Pyne. That the Minister was delighted with his reception and pleased with what he saw he made no effort to conceal. Party feeling was lightly put to one side for the time being, and the citizens of the Maple City united in extending the most cordial of greetings to the distinguished visitor. And the Chatham people, without exception, are proud of their schools and educational institutions. We make bold to say, and think Hon. Dr. Pyne will agree, that no city in the Province can boast better equipped or better taught schools than the schools of Chatham, public and separate, and "The Pines" has a reputation wider than the Dominion. Zeal and energy, a determination to achieve success, is characteristic of trustees and teachers, and to this end they have the enthusiastic support of the ratepayers and citizens generally. That the latter are thoroughly alive to their duty is made manifest by the large number of medals and other awards offered annually as incentives to hard work on the part of the pupils. The same spirit pervades the city newspapers which constantly devote much space to the work of the schools.

The Central School Fair is always looked forward to with interest, and the propositions it assumed this year was a surprise not only to Hon. Dr. Pyne and the other visitors, but a credit to Mr. Plewes and his corps of assistants. What served to give additional elation to the success of the Fair, in addition to the presence of the Minister of Education, was the decided interest manifested in the awarding of the medals and prizes in The Planet Junior's essay competition, a worthy conception carried to a most successful and happy conclusion by the proprietor of The Planet and his staff.

Secure in the proud position its own schools occupy, Ridgetown is pleased at the high standing of the schools of the county capital—Ridgetown Dominion.

TURNERVILLE.

Mrs. Johnston and Miss Lilly Lane, of Chatham, were the guests of Mr. Samuel Shaw, on Thanksgiving Day. Quite a number from here attended Wabash church on Thanksgiving night to listen to the lecture on Palestine, delivered by Rev. Jas. Philip.

SWEDE-NORSE TREATY.

One of the Greatest Triumphs Yet Won For the Principle of International Arbitration.

The treaty of dissolution of the dual monarchy of Sweden and Norway, which has been ratified by the Swedish Parliament, is one of the greatest triumphs yet won for the principle of international arbitration. The disposition of the frontier fortifications was one of the most difficult questions with which the negotiators had to deal. It was finally agreed that Norway shall retain the old portions of the fortresses of Frederiksten, Gledeloe, and Overhjellet, while the modern additions to them shall be demolished. The Kongsvinger group of fortifications is to remain as at present, but is never to contain a garrison of more than 300 men, and there is to be a neutral zone fifteen kilometers wide. In case of disagreement regarding the meaning of these provisions, or of the provision that Swedish Laplanders may pasture reindeer in Norwegian territory, the proper interpretation is to be determined by arbitration chosen in accordance with The Hague convention.

The treaty also provides that in case of any other difference which does not affect the independence, integrity, or vital interests of either country, the matter shall be submitted to The Hague arbitration court. It goes still further and stipulates that when conflicting opinions are held as to whether vital interests are affected the matter shall be determined by the same body. This makes the arrangements for preserving peace between the two nations as complete as they can be under present conditions. It insures that they shall never come to blows unless The Hague court, after full hearing, shall formally declare that the subject of controversy is of vital concern to one or both, and the world has not yet reached the place where it expects, or asks, any nation to arbitrate matters of such moment. Every reader of history knows that comparatively few wars have been caused by differences affecting vital national interests, and it treats such as that between Sweden and Norway became common and were strictly observed which would be much less numerous in the future than they have been in the past.

A peaceful separation having been effected, interest will shift to the question as to the form of Government which shall be established in Norway. King Oscar opposes the selection of any member of the Swedish royal family as King, and it is reported that some of the great powers object to a Danish Prince being chosen. The matter is to be determined by a plebiscite, and it is possible that the people will favor a republic. Should a monarchy be established it will be a free and constitutional monarchy like that of England. Liberty-loving, and with a demonstrated capacity for self-government, the people of Norway will be their own rulers, under a king or a president.

THREE TRYING
TIMES IN
A WOMAN'S LIFE

There are three periods of a woman's life when she is in need of the heart strengthening, nerve toning, blood enriching action of

MILBURN'S HEART
AND NERVE PILLS

The first of these is when the young girl is entering the portals of womanhood. At this time she is very often pale, weak and nervous, and unless her health is built up and her system strengthened she may fall a prey to consumption or be a weak woman for life.

The second period is motherhood. The strain on the system is great and the exhausted nerve force and depleted blood require replenishing. Milburn's Heart and Nerve Pills supply the elements needed to do this.

The third period is "change of life" and this is the period when she is most liable to heart and nerve troubles.

A tremendous change is taking place in the system, and it is at this time many chronic diseases manifest themselves. Fortify the heart and nerve system by the use of Milburn's Heart and Nerve Pills and this side over this dangerous period. Mrs. James King, Cornwall, Ont., writes: "I have been troubled very much with heart trouble—the cause being to a great extent due to 'change of life.' I have been taking Milburn's Heart and Nerve Pills for some time, and mean to continue doing so, for I can truthfully say they are the best remedy I have ever used for building up the system. You are at liberty to use this statement for the benefit of other sufferers."

HOME DECORATION.

TREATMENT TO IMPROVE EFFECTS IN PROPORTION AND LIGHT.

Bright and Pleasing Bit of Amateur Work in a Physician's Reception Room—Rich, Colorful For Hall and Stair Landing.

The illustration is an object lesson in what may be done by artistic treatment to improve the effect of proportions in a high doorway and window. Breadth is given by the gracefully hung seine or fish net drapery, while the height of the doorway is apparently lowered by a shelf between the door-

posts and under the archway. On this shelf stand various pots and vases in subdued and refined colorings, brightened by touches of peacock blue, vermilion and mandarin yellow. A jeweled lamp hangs midway between the draperies. Beyond is seen the high window lowered in effect, as is also the doorway arch, by a transom of exquisite fretwork.

The walls are papered in a deep, full yellow, showing a flowing design in self shades of the same rich hue. The woodwork is dark, giving the effect of Flemish oak. This room of cold aspect has been flooded, as it were, with sunshine by the wall paper and the orange silk curtains at the window. The floor is of parquetry, warmly golden and highly polished. On it lies a Persian rug in deep dark blues with touches of old red and amber yellow. The general effect as one enters is charming and cheering, the potted plants and jardiniere holding an orange tree in bloom contributing their share to the general beauty of the room.

The Ladies' World, from which these suggestive sketches and explanatory text are reproduced, says that this is not the work of a professional decorator, but a scheme worked out, with knowledge of form, proportion and color, by the physician's sister, a woman of rare artistic endowments. To go into such a reception room is to make one really feel better, so marvelous is the effect of harmonious and suitable lines and colors.

An artistic method of treating a square hall with an alcove lighted by a leaded glass window is shown in the illustration. The walls are of a soft pompadour red, the woodwork finished in old ivory enamel.

A long rug in rich shades of indigo blue and olive, with touches of old red, is arranged to cover the landing and two steps and to lie on the floor at the foot, showing in fine contrast with the golden oak parquetry. The portieres are of amber colored Utrecht velvet.

The large rug shows a variety of sub-

dued colors on an old red ground. An embroidered frieze border in old ivory satin and gold thread embroidery enriches the portieres.

The lighting of this reception hall being somewhat cold, gay touches of color show in the heaped up cushions on the settle, and a brazen jardiniere holding a palm shows in fine form on its wrought iron pedestal or holder.

Water as a Beautifier.

About half an hour after a meal drink a glass of water, and from then until half an hour before the next meal take it frequently. The quantities must be decided by the individual, but the end must be to absorb three pints before bedtime, says a writer on water as a beautifier. Hot water, if taken a cupful on rising and another when going to bed, will help to reduce the weight of a stout person.

For the Floor.

BLENHEIM

Nov. 7.—By the change in the Pere Marquette time table on the Blenheim and Sarnia branch the mail arrives at Blenheim at 5 p. m. Every one can get their mail at 6 p. m., which is highly appreciated by all. Miss Ida Toth, of Chatham, spent Saturday and Sunday at Mr. J. S. Crookshanks.

Invitations have been issued for the marriage of Mr. Jos. O. Laird and Miss Elva McBroom, London, on Nov. 18th.

On Sunday morning the regular quarterly communion service was held in the Methodist church. In the evening the choir gave a song service. The following anthems were well rendered: I will give Thanks, Mozart's 12th Mass: I will lift up Mine Eyes, Clarke Whitefield; Thine O Lord is the Greatness, Kent; Let not your Heart be Troubled, Rees; The Lord is my Shepherd, McFarren; O Taste and See, Sir John Goss; What are These, Sir John Stainer.

Mrs. Garnet Thompson also sang a solo, which was much appreciated.

Mrs. R. Rumble, of Chatham, spent Sunday with her mother, Mrs. Campbell.

Guy Bros. minstrel show will be here on Saturday, Nov. 11th.

Chatham Police Hold Warrant for the Arrest of Young Englishman Captured in London

Bert Kelly, the young Englishman, who was arrested in London for stealing, is wanted by the Chatham police on a similar charge. Chief Holmes holds a warrant now for his arrest.

About two or three weeks ago Kelly stole an amount of money from a friend of his, named Jas. Bowers, who lives in this city. Bowers at once reported the matter to Chief Holmes and the warrant was issued for Kelly's arrest. The latter, however, had left town and neglected to leave any address.

Bowers followed him as far as Thamesville, and here all trace of him was lost.

Chief Holmes has notified the London authorities of Kelly's Chatham crime.

ANNIVERSARY

Special Services at St. Paul's Largely Attended—Good Tea Meeting Last Evening

The anniversary services of St. Paul's Church, Harwich, which closed yesterday, proved one of the most successful events ever held by this thriving church.

The services on Sunday were largely attended and the annual tea-meeting given last evening was a splendid affair. The energetic ladies of the church are indeed to be congratulated upon the success of their undertaking. These ladies are noted for their ability to please and entertain, and their efforts last evening surpassed anything yet attempted.

A splendid program was given, including among others, musical selections from Harry Flowers, of this city, and Clifford Langford, Kent Bridge, recitations by Harry McComb, of this city, and addresses by Rev. Dr. Jamieson, the former pastor of the church, Rev. Dr. Battisley, Fred. Stone, M. Houston and Neil Watson. J. W. Plowes, of this city, made a capital chairman, and contributed much towards the enjoyment of the evening.

The proceeds were large and entirely satisfactory.

GERBER—WILSON

A quiet but very pretty wedding was celebrated this morning at eight o'clock, when Miss Myrtle Wilson was united in marriage to Henry Gerber, of the firm of Taylor & McKay.

The service was held in St. Joseph's church, Father James officiating. Miss Wilson is the daughter of Robt. Wilson, carpenter, who lives on Forest street. A number of friends were present and many beautiful and costly gifts were received by the happy couple.

The newly married couple will reside on Raleigh street.

While some regiments of London Volunteers were engaged in a sham fight in the suburbs the other day a man on a coach passing along a neighboring road sounded "Cease firing!" on his bugle. The call was passed along the lines, and the battle was suspended till the joke was discovered.

One of the most important international treaties ever signed was that between twelve European countries for the doing away of the white slave traffic, the treaty going into effect July 18th. It is agreed that each country shall maintain a bureau for collection of information and to exchange information.

The Universal Fishery Journal of Germany calls attention to the fact that fish are great destroyers of many other insects. The various branches of the carp family are said to be the most active along these lines. The larva of the mosquito is one of the choicest morsels which fall to the fishy epicure.

Well Parried.

"What passed between yourself and the complainant?" inquired the magistrate in a county court. "I think, sir," replied the worthy Mr. O'Brien, "a half dozen bricks and a lump of paving stone."

"In Irish Life and Humor" William Harvey gives another anecdote of the Irishman's readiness in the court of law.

"Now, Pat," said a magistrate to an old offender, "what brought you here again?"

"Two policemen, sir," was the laconic reply.

"Drunk, I suppose?" queried the magistrate.

"Yes, sir," said Pat, "both av thim."

Keeping a Secret.

A few years ago the United States President decided to appoint Mr. Wynne, now Consul-General at London, to be first assistant postmaster-general.

"How will we keep this from the newspapers?" was asked by some of the President's advisers.

"I think that the best way would be to take the newspaper correspondents into our confidence," said the President.

This was done, and the secret was carefully guarded for a month, although known all that time by fifty or more Washington correspondents.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh? Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell

SHILOH

This remedy should be in every household.

COMMON ERRORS IN SPEECH.

Who does not make errors in everyday speech? As a matter of fact it is very unusual to find any person whose use of the English language is absolutely correct. The following are examples of some very frequent errors or faulty expressions often heard:

"Let you and I go"—should be "you and me."

"I am as good as her"—should be "as she."

"You are younger than me"—should be "than I."

"Come to dinner with John and I"—should be "John and me."

"Between you and I"—should be "you and me."

"Where are you going? Who? Me?"—should be "Who? I?"

"Who do you see?"—should be "whom."

"If I was her"—should be "If I were she."

"Was it him?"—should be "Was it he?"

"Who was it by?"—should be "whom."

These examples of "Faulty Diction" are so common that many people look upon the proper form as being the incorrect one, and those H. Russell, L. L. B., editor-in-chief of Webster's Imperial Dictionary, has done the public a great service in having written the new book, entitled "Errors in the Use of the English Language and How to Correct Them," which the publishers have, by printing it on thin Bible paper, succeeded in getting into what may be called Vest-Pocket size.

Illustrating the comprehensive treatment that has been given the subject by the author, there are 1,017 headings treated in the book, under some of which "plurals" for instance—over fifty errors that are not at all unusual are to be found illustrated and corrected.

It is rarely one's good fortune to be made possessed of so valuable a book, and especially one so compact and of so much general interest. It is handsomely bound in embossed Russia leather and will be sent postpaid on receipt of 50c. to any address by Geo. W. Ogilvie & Co., Publishers, 189 E. Randolph Street, Chicago, Ill.

They also publish the same book in cloth binding and will send a copy of it in that style on receipt of 25c.

CANADIAN EXCELLENCE IN PRINT.

How old-time customs still linger in the face of modern life is indicated in a symposium on "Quat Habits of Dress in Canada," in Canadian Good Housekeeping for November.

Another article of suggestive interest is "A Canadian Pure Milk Farm," describing an enterprise near Ottawa of which Earl Grey is a patron.

"His Clothes—As Seen by Her," is bright and to the point, and is also an article on Boy-training by Edwin Markham. There are a number of other articles and stories, and the regular departments, always invaluable to home-makers, are seasonably practical. The number is freely illustrated. Canadian Good Housekeeping justifying its claim as "The Useful Magazine."

There are many things which can be forgotten without much loss.

Christmas is Drawing Near

If there is someone to whom you wish to give something particularly fine and choice, our display of rich pieces of gem mounted rings, brooches, and pendants will surely supply just what is wanted.

The pleasure of owning a precious stone is scarcely greater than the pleasure of giving one; we have all kinds of gems and the price range is as wide as the variety of the stones and settings. Anyone who is looking for a practical and, at the same time, a beautiful gift, should look over our line of

Help for the Kidneys Through Gin Pills.

A GUARANTEED CURE.

Read this letter. Read it twice. You
have never heard such good news before.
—If your kidneys are sick. It tells how
to be free of pain—how to have all your
old-time health and vigor.
"I have been for years a sufferer with
pain in the back and across the kidneys.
There was scarcely a minute, day or
night, that I was free of pain, and when
I attempted to pass urine, the pain was
almost unbearable. A friend of mine in
Portage la Prairie, who was similarly af-
flicted, strongly advised me to try Gin
Pills, as they had cured him. I bought a
box of Gin Pills, and in less than a
week, to my great delight, found myself
without pain. I have had to go as often
as every 20 minutes to urinate and several
times during the night. Since taking
Gin Pills, I sleep through the entire
night and am no more than ordinarily
inconvenienced during the day. I can
earnestly recommend Gin Pills to anyone
suffering from pain in the back, kidneys
or bladder."

MR. G. O. COWLER, Portage la Prairie.
Your druggist has Gin Pills, or will get
them for you. 50c box—6 for \$2.50.

If you will send us your name and
address and tell us the paper in which
you have read this we will send you a trial box
of Gin Pills absolutely free. You will
get such relief that you will gladly con-
tinue the treatment until cured. Do it
to-day—now—and start to cure yourself.

TORONTO JUNCTION LIVE STOCK.

Monday was a comparatively quiet day
on the Union Stock Market, but following
after the heavy receipts of last week the
fact was not a noticeable one. Two causes
operated to render yesterday's trade a dif-
ficult one to handle. One of these was the
unusually wet weather and the other, and
chief one, the unbalanced nature of the stock
offered for sale. Altogether 40 cars were
on the market, consisting of 962 cattle, 12
calves and 3 horses.

Fair to medium butchers brought from
\$5.50 to \$7.75, but not many at the last
named price. Rough and inferior sold at
from \$2.75 to \$3.25 and butcher cows at
\$3.25 per cwt.
In feeders and stockers the run was a
light one and mostly of a further grade
other grades, not good enough for the de-
mand. A fair basis of value for this class
was set by the following: For choice
stockers, \$3.40 to \$3.75; common, \$2.40 to
\$3, and bulls, \$2.50 to \$2.75.
The market with an older system.
They have gas lamps there on the
principal streets and no one can com-
plain about darkness. Here we have
got a more up-to-date system with
gas lamps. How would it be to
go back to the old coal oil street
lamps?

And the big officer passed on his
way with a smile.

MONTREAL LIVE STOCK.

Montreal, Nov. 6.—(Special.)—Cables from
Liverpool and London came weak on Cana-
dian cattle and prices show a further
clime of 1/4c, with sales in the former mar-
ket at 8 1/2c to 9 1/2c and in the latter at 10c
to 11c. Local cattle sold at 8 1/2c to 9 1/2c,
and sheep were steady at 12c. This weak-
ness is due to heavy supplies of the market, coupled
with the liberal shipments from here. Pre-
vious prices were 12c to 13c for choice
cattle and exporters are losing barrels of
money. Shipments last week were 2229
cattle, 100 calves, 1000 sheep and 1000
pigs. The market for 2000 cattle and
200 calves, 4000 sheep. Owing to the un-
favorable weather and continued heavy
supplies of cattle an easy feeling prevails,
but prices show little change. The demand
was steady and a number of cars were
sold at 8 1/2c to 9 1/2c; fair, at 9 1/2c to
10c; common, at 10c to 11c; and inferior
at 11c to 12c. The market for 2000 cattle
was a common lot and sold at \$30 to \$40
each. Grass-fed calves sold at 2c to 3c
per lb. and 1000 sheep were sold at 12c
to 13c. Good lots of fat hogs sold at 6c
to 6 1/2c per lb.

ELECTRIC LIGHTS

Detective Archie Skirving of the
Buffalo Police has returned from
Buffalo, where he has been spending
a few days on business.
"Talk about street lighting," said
he to The Planet, "Buffalo is ahead
of Chatham with an older system.
They have gas lamps there on the
principal streets and no one can com-
plain about darkness. Here we have
got a more up-to-date system with
gas lamps. How would it be to
go back to the old coal oil street

SIR JAMES WATSON'S OPINION.

He says that the commonest of all
disorders, and one from which few
escape is Catarrh. Sir James firmly
believes in total treatment, which is
best supplied by "Catarrhoxone."
No case of Catarrh can exist where
"Catarrhoxone" is used; it is a mir-
aculous worker, relieves almost instan-
tly and cures after other remedies
fail. Other treatments can't reach
the diseased parts like Catarrhoxone
because it goes to the source of the
trouble along with the aid you
trouble. Catarrhoxone is free from
poison; it leaves no bad after-
effects, it is simply nature's own
cure. Accept no substitute for Ca-
tarrhoxone, which alone can cure Ca-
tarrh.

Dodd's Kidney Pills Cured Mrs. Kinsella

She Sends a Message of Hope to Other Suffering Women in Canada.

St. Malachie, Que., Nov. 6.—(Special.)—To those women who suffer in silence—and there are thousands in Canada—Mrs. James Kinsella, of this place, sends a message that tells of a cure as silent as their suffering. As the result of her own experience, Mrs. Kinsella says, "Take Dodd's Kidney Pills."

"When I sent for Dodd's Kidney Pills," Mrs. Kinsella says in relating that experience, "I had a pain in my right hip and in the small of the back. I was swollen all down the right side of the abdomen and had to pass water every fifteen minutes in a burning, itching sort of way. I could not sleep at nights and was obliged to sit in a chair for two summers."

After taking the first box of Dodd's Kidney Pills I felt much better so I got more. They have done me a world of good and I have never slept in a chair since."

"There can be no Female Weakness where there are sound Kidneys. Dodd's Kidney Pills make sound Kidneys."

The Dean's Account.
There are no difficulties of language to a man as successful as a certain Lord Mayor of London, of whom St. James' Budget tells.

The eminent Dean Pigou was once invited to conduct a service in French at the chapel of the Hospital for Euge-nists, South Hacking.

Previous to the day the dean wrote out in English a sermon on the "Revo-cation of the Edict of Nantes." Then with the aid of Mrs. Pigou, a sound French scholar, he translated the whole into French and preached on the day in that language.

Among the distinguished persons present was the Lord Mayor who has-tened to thank the dean at the close of service, adding:

"Though, sir, I do not know one word of French, I understood you perfectly."

WHEN YOU HAVE A BAD COLD

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will re-lieve the lungs and keep expectora-tion easy.

You want a remedy that will coun-teract any tendency toward pneu-monia.

You want a remedy that is pleas-ant and safe to take.

Chamberlain's Cough Remedy meets all of these requirements and for the speedy and permanent cure of bad colds stands without a peer. For sale by all druggists.

MRS. THEODOSIA BEACHAM.

A Woman Who Has Made a Fortune in Building Railroads.

Mrs. Theodosia Beacham, builder of railroads, fills a unique place in the field of woman's endeavor. She is said to be the only woman in America, perhaps in the world, who has engaged to a large extent in the construction of the great steel highways. She is in a class of one. She has made railroads, blasted rocks, dug up primeval forests, cut through the foothills, filled in the valleys and reared bridges in something like half a score of states. She has directed men and mules, and steam and dynamite have been forced to serve her ends. She has figured on contracts whose prices ran into hundreds of thousands of dollars. Her intellect and financial ability have been matched against some of the country's greatest railroad magnates, and she has not suffered by such encounters. She is a person of pluck and energy, of finance and diplomacy.

But Mrs. Beacham's life, strenuous though the latter half of it has been, has proved to her liking, and she has

MRS. THEODOSIA BEACHAM.

achieved some fame as well as fortune. She is probably the wealthiest woman in her native state of Michigan. And who shall say that her achievements do not merit some recognition by those who write names on the scroll of fame? Her accomplishments certainly compel notice from those who record the doings of world workers—the results attained by those who have blazed new ways and followed lines of endeavor heretofore unexplored by their sex.

Mrs. Beacham was born fifty-two years ago in Kalamazoo, Mich. Her maiden name was Reynolds. She married when twenty-two years old F. L. Beacham, who is yet living, but who has been an invalid for several years. She has two sons, Claude and Erwin, whose ages are respectively twenty-eight and twenty-five years. Mrs. Beacham has been taking railroad contracts for more than twenty years, and in that time she has won her great achievements have been wrought, having been spent in the southern states.

Though Mrs. Beacham declined to tell what her yearly earnings are, it was learned from other sources that she makes \$40,000 and upward annually.

Mrs. Beacham says her biggest contract was with the Tennessee railroad in 1900. She made about \$75,000 or \$80,000 on that, and it took nearly a year to do it—Washington Post.

The Hornet's Nest Woman.

She wonders why her court friends don't flock about her, court her and call her "dear."

It is because she never goes anywhere without a hornet's nest.

She has it with her and is always giving it little shakes. Everybody knows how a hornet's nest acts when some one shakes it.

She makes unkind remarks about every one and criticizes her best friends when their backs are turned.

She tells one friend all of the ill-natured things that another has said about her.

She calls attention to people's freckles and wrinkles.

She never forgets any disgrace in a family history.

If a woman's dress fits well she never mentions it, but she is always suggesting how the sleeves might be changed to make them in fashion.

She tells mothers the bad things that she hears about their sons and she tells wives the bad things she hears about their husbands.

She waves the hornet's nest above her head as if it were a flag of honor and wonders that the women run at the sight of it.

She puts on an innocent face and pretends that she believes that she is being honest, truthful, helpful.

She is, in fact, being hateful, spiteful and disagreeable.

We could get on very nicely without Miss Truthful and her nest of hornets.—Brooklyn Citizen.

Screen For Photos.

Some of the cleverest ways of disposing of fine photographs have been devised, for it's no longer the fashion to keep them hidden away in cabinets for the mere joy of possession. William Morris' theories are becoming more and more widespread, especially the one which demands a use for everything that is about.

Flemish finishes. At the top of each panel was mounted a fine photograph, all in warm brown tones that harmonized restfully with the wood.

The photographs were covered with glass, and around each ran a narrow moulding stained to match the wood exactly.

Those photographs were almost square, but the same idea could be carried out with the tall, narrow photographs, using more of them, of course, and with oval ones as well, and the gray tones can be used, with the wood of the screen stained that deep gray which is so old looking and artistic.

But all sorts of possibilities suggest themselves as you look at the screen—ideas of gray prints mounted in a swirl of photographic lines, the whole screen delicately touched with color, or of the back of the screen covered with pictures that have plenty of black in their makeup, set off with lines of gold.

To Wash a Counterpane.

Rub it well with soap and put it overnight in a tub of lukewarm water. The next morning wash it out of the water it was soaked in. Then wring out and wash in some clean soapuds, after which wash it through a second suds warmer than the first. Rinse it twice through plenty of cold water. The last rinse water should have a little blue in it. Wring the counterpane out, hang it in the sun to dry wrong side out. It must on no account be put away with the least dampness in it. Sometimes it takes three days to dry perfectly. In washing a counterpane never use soda.

Ironized Table Water.

There is no drug that has been so wrongly used and unjustly condemned as iron. It has been taken in huge doses and has then been rejected as causing headache or other trouble. The truth is that iron does most service as a tonic when the dose is very small and it is taken over an extended period. The following is an excellent way of making an ironized table water: Place a teaspoonful of dilute per-chloride of iron in an eight ounce bottle, fill up with water and shake. Add a teaspoonful of this to sufficient water to make one pint. This may be taken as freely as ordinary water.

To Apply Lotions.

One very good way to apply a lotion to the face, when time is not taken into account, is to pour as much as is needed into a saucer and use sterilized absorbent cotton or gauze, which can be purchased for a trifling sum of the chemist. Make some little balls or pads of the cotton and keep them in a clean, wide mouthed jar with a screw top and use as needed. Dip them into the lotion and gently wash it over the face, using fresh ones from time to time during the process.

Nursery Furniture.

Nursery furniture should be small, but it should be light in weight also. The little bent wood chairs are very good. They can be lifted and carried about by very small people, and they have no angles to bark shins on unless they are used carelessly. Do not overdo the nursery idea. Let the decorations stop with the walls. Children tire of Mother Goose rugs, furniture and china. Fresh white curtains that wash are better than picture muslin.

Washing Water.

Labor and soap may both be saved in the laundry by the use of soft water, and even the hardest of water may be easily softened without the addition of chemicals. Three or four days before it is to be used draw sufficient water for the washing and expose it in tubs, etc., to the action of the sun and air. The trouble is only that of a little fore-thought and is well repaid.

For the Kitchen Table.

The housekeeper who cannot have a zinc covered kitchen table will find several squares of hard wood an inch in thickness and about five inches square a great convenience for setting hot dishes on. The wood should be sandpapered and each block have a screw eye, with which it is hung under the ledge of the table.

Kitchen Utensils.

The American fashion of keeping pots and kettles and other kitchen utensils in a closet by themselves instead of hanging them on hooks about the kitchen is sensible. The European way of hanging the articles in broad light may add to the picturesque effect of the kitchen, but the utensils collect dust.

Mirrors.

If you are fond of home carpentering you can make all sorts of things at trifling expense. Mirrors, for instance, come much cheaper if the plate glass is purchased by the square foot and set into a framework fashioned by the home carpenter.

When papering a room remember the large patterns and dark colors will make it appear smaller, while a plain or striped paper, if a light hue, will give an impression of an increased size.

Soda. In a 2 per cent solution, is recommended by Professor Esmarch of Gottingen as the best means of disinfecting eating utensils.

Stop fusing. It will make you grow old and nervous, crochety and disagreeable.

The Ideal Woman.

I have watched the ideal woman in many places, at home and in society, with the result that I have come to the conclusion that she is the one of our sex whom men most persistently avoid. LIFETIME IN LIGHTHOUSE.

George Durnan Presented With the Imperial Service Medal For Long Faithful Service to Canada.

By command of His Majesty, King Edward VII. Mr. George Durnan, formerly lighthouse keeper on Gibraltar Point, on the Island shore, Toronto, has been presented with an Imperial service medal for long and faithful service to Canada. The presentation was made by His Honor the Lieutenant-Governor, in the drawing room at Government House, in the presence of Mr. Durnan's family and some friends. Mr. Durnan made a happy reply, in which he gave some reminiscences of the historic lighthouse.

To have lived a lifetime in a lighthouse is an experience that will impress the average man as being the climax of monotony. But Mr. Durnan, who himself held the position of light keeper for fifty-two years, following his father, who had it for twenty-two years, and who only a few months ago was placed on the Government pension list, is a striking example that such monotony does not prevent longevity. Mr. Durnan is hale and hearty at 79, and bids fair to live many a day yet. He is an uncle of Eddie Durnan, the Canadian sculler and is the father of thirteen children, eight of whom are living.

A Solitary Sandbar.

Mr. Durnan was five years old when his father, who had a few years previously come to this country from Ireland, was appointed keeper of the light and took up his residence on the Island. Mr. Durnan recalled the scene vividly. The Island was a solitary sandbar, with not another house upon it.

The first keeper of the present lighthouse on the Island was a man named John Miller, who remained in charge for many years, when he was murdered by soldiers to whom he had refused a supply of whiskey. Miller was on his way to inform the commanding officer of the unruly conduct of the soldiers when he was pounced upon and murdered by them. The position was afterwards given to an old soldier named Hallows, who with his wife occupied the old wooden cottage beside the lighthouse and trimmed lamps for seventeen years. There were a great many complaints, and eventually the Government made a change.

James Durnan, father of the recipient of the Imperial service medal, was then appointed to the position. In the fall of 1854 James Durnan removed to the city and sent in his resignation. His son, George, 26 years of age, succeeded him.

Mr. Durnan is a man of splendid physical frame. In addition to keeping the light he was an enthusiastic fisherman.

Saved Many Lives.

While he has not kept any records of wrecks that have occurred at various times in the late off the Island, he has assisted in saving many lives. He has deep religious convictions and is a member of the Methodist Church. The lighthouse on the Island is one of the oldest landmarks of Toronto. It was built on the present site in 1806, and all the stone for the structure was brought from Queenston Heights. The walls are six feet in thickness, and the height from the ground to the weather vane is eighty feet. When the light was established it was, like all other such beacons, a fixed light. As the city grew and the Island became populated it was found necessary to install a modern revolving beacon. Mr. Durnan remembers when there were several groves of good-sized pine trees on the Island.

The Imperial Service Order medal, which is to be worn on the left breast, is a badge, or medallion, of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For faithful service," both executed in dark blue enamel on a plaque of gold, surrounded by wreath of laurel surmounted by the Imperial Crown.

The Imperial Service Order was instituted by His Majesty King Edward VII. in June, 1902, as a decoration for members of the civil service of the Empire, to be conferred after long and meritorious service.

WIVES WARN BALFOUR

That Hungry Men Are Desperate and Blood May Flow.

Deputation of Women Wait on British Premier With a View to Aid to Unemployed—Police in London Are in Desperate Straits, and Mr. Crooks, M. P., Urges Them to Persevere Until All Had Work.

London, Nov. 7.—The desperate condition of the poor of London was brought to the notice of Premier Balfour yesterday by a remarkable deputation of the wives and other women relatives of the unemployed, who did not hesitate to tell the Premier that unless something is speedily done to lessen their sufferings there will be bloodshed.

"Don't forget that hungry men are desperate men," said one of the speakers. All had the same tale to tell of husbands out of work and starving wives and children.

Enormous crowds of women from all parts of London marched through the street, headed by a deputation, which Mr. Balfour received at the office of the local employment board. Only thirty of the women were admitted to the presence of Mr. Balfour. The Premier was very sympathetic. He acknowledged that the evil was very real, but he had little to suggest in the way of alleviation except an expression of hope that public charity would come to the aid of the unemployed. They had his genuine sympathy and he felt most acutely the magnitude of the evil from which they were suffering.

A mass meeting of the women was held at 3 o'clock in the afternoon to hear the report of the delegation. Mr. Crooks, M. P., and others, made speeches. Mr. Crooks said that Mr. Balfour's reply to the delegation was unworthy of the Premier of a great country. He added that they had started an agitation which would not cease until every man who wanted work was supplied with sufficient to support his wife and children.

The speaker urged his hearers to continue the agitation. He said that a revolution in England would not be behind the revolution in Russia in securing the demands of the people.

MORE EQUITABLE LOOSENESS.

Books Baffle Investigation Says Superintendent Hendricks in His Report.

Albany, N. Y., Nov. 7.—That the books of the Equitable Life Assurance Society, as they were kept under the Hyde-Alexander management, were such as to baffle the investigation of the inspectors, and that the real estate holdings of the society had been carried on the books at a valuation \$5,000,000 greater than it should have been were two of the sensational disclosures made by Superintendent Hendricks in a supplementary report on the condition of the society, which was made public yesterday after almost four months of probing into the affairs of the company.

In fact, it was asserted, the condition of the books and vouchers was such that at times it was necessary for the examiners of the department to go entirely outside the society to ascertain whether or not the books were correct. One important transaction, the so-called Turner loan, Superintendent Hendricks reports, was omitted entirely from the books of the society, though it carried with it a check for \$600,000 drawn by the society on the Mercantile Trust Co. on Feb. 4, 1904. In this instance it was necessary for the examiners to consult with the state superintendent of banks, and make an examination of the books of the Mercantile Trust Co.

Girl Attempts Suicide.

Campbellford, Nov. 7.—May Emma, 19 years old, attempted suicide yesterday by leaping into the Trent River. A number of young men crossing the bridge at the time saw the girl floundering in the water and rushed to her rescue. After much difficulty she was brought to shore in an exhausted condition. The cause of her rash act is attributed to her mother's efforts to force her into marriage with a man she dislikes. There is little doubt that the girl was in an almost insane condition when she made the attempt upon her life.

Newfoundland's Protest.

St. John's, Nfld., Nov. 7.—The Government of Newfoundland has forwarded to the British Cabinet a formal protest against American vessels hiring Newfoundlanders outside of the three-mile limit or in Canadian ports to assist in taking herring in Newfoundland waters on the ground that this is an evasion of the letter, and the spirit of the treaty of 1818, which concedes the inshore fishery privileges only to actual inhabitants of the United States. The British Government has transmitted the protest to Washington.

A Costly Leak.

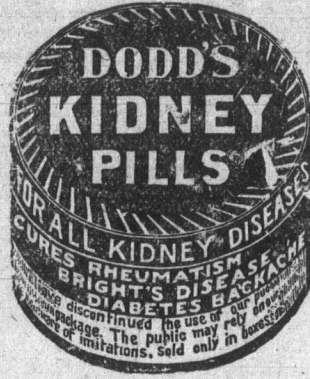

Peterboro, Nov. 7.—A rather dangerous leak has developed in the reach of Peterboro's hydraulic lift lock. There is a large hold in the west bank, through which the water runs and unless repaired the entire bank may be worn away. About \$6,000 has been spent in repairs during the past season, and it is said that \$20,000 will be required to permanently repair and place the embankments in proper condition.

Nearly Burned to Death.

Berlin, Nov. 7.—Nicholas Luesing, aged 65, used kerosene in lighting a fire in his coal stove, and as a result lies in a precarious state at the hospital. All his clothing was burned and there is no skin left on his legs. He would have been burned to death but for the timely arrival of neighbors in answer to his cries for help.

Will Ship Grain by Rail.

Fort William, Nov. 7.—As a result of the situation at the eastern terminals of the lake grain route, the C. P. R. has made arrangements for shipping a million and a half bushels of wheat all-rail before the close of navigation. This grain is being sent forward for exporters who are unable to fulfill their obligations in any other manner.

TRIPLE DROWNING.

Three Men Lose Their Lives in Eagle Lake by Canoe Upsetting.

Haliburton, Nov. 7.—While crossing the Eagle Lake, near Haliburton, on Wednesday last, three young men, Arthur Wensley, Thomas English and Class Amberg were drowned. The bodies of Wensley and English have been recovered.

Arthur Wensley was aged 26 years, single, and lived at Eagle Lake. Thos. English was aged 20 years, single, and also lived at Eagle Lake. Class Amberg was 23 years old, and lived at Bobcaygeon, where he leaves a widow and seven children. The men were going hunting and were upset out of a canoe.

CURES CATARRH, DEAFNESS

One Week's Use of Hyomei Did More Than Six Months' Treatment by Specialists.

In the treatment of deafness which is often a result of catarrh, Hyomei acts almost immediately upon the inflamed membrane and the hearing begins to return at once.

Miss Meeks, of Mattawan, N. Y., says: "Hyomei is truly wonderful. I have used it but a short time and see a great change in my condition. My hearing is improving rapidly and I had no idea I would improve so rapidly in so short a time. My breath which was very offensive to myself and others, has lost its bad odor entirely. I have spent a great deal of money with catarrh specialists, and can truly say that six months of their treatment is not equal to one month of Hyomei."

A complete outfit costs but \$1.00, and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei. It is a lifetime and there is enough Hyomei for several weeks' treatment. Additional bottles of Hyomei can be procured for 50 cents. Compare this small expense with the fees charged by specialists. If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

SIR GEORGE WILLIAMS DEAD.

Organizer and Founder of the Young Men's Christian Association.

London, Nov. 7.—Sir George Williams, president and founder of the Y.M.C.A. of the world, died yesterday at Torquay, in his 85th year. Sir George Williams, born in 1821, was educated at Glynne's School, Tiverton, Devonshire. He was a member of the firm of Hitchcock, Williams & Co., warehousemen. The Y.M.C.A. movement began in a remarkable way 61 years ago. George Williams and Edward Beaumont, both earning small

salaries, as clerks, were going over Blackfriars' bridge in London one night, on their way home from work, when they began a serious conversation.

"Teddy," asked Williams, "are you willing to make a sacrifice for your religion?"

Teddy replied in the affirmative, "If you lead I'll follow," he said simply. Williams' proposal was that they should get their fellow clerks together and set a society on foot so that they might help one another to lead better lives. Their projects were made known, and on June 6, 1844, the first Y.M.C.A. was organized by the 12 young clerks. Clerks in other shops heeded themselves, the movement prospered in England, and in seven years there were branches in Scotland, Ireland, Canada and the United States.

The Y.M.C.A. secured the attention of the Earl of Shaftesbury, who became its president, remaining at its head for 30 years.

The late Sir George Williams was only the other day described as one of the happiest men in England. He was knighted by Queen Victoria in 1894.

"Boys" Struck Election Day.

Montreal, Nov. 7.—There was a great deal of interesting testimony at yesterday's sitting of St. Anne's contestation.

Paul Murphy said the boys were on strike election day and he had received \$18 from one of Ald. Gallery's chairman to make them all right. He also said Gallery had given him \$3 to buy drinks, and after he had treated Gallery had given him \$15 for buying the liquor from a French saloon, saying he should have patronized an Irish saloon keeper.

The fact was established that Gallery's scrutineers were paid for their services on election day.

McCallum Well Received.

Sutton, Nov. 7.—It was a warm reception that Archie McCallum got at the opening meeting of his campaign against Mr. Aylesworth last night. The train was late, but the crowd was content to wait, and when at 9 o'clock the candidate entered the hall he was heartily applauded. Nor was the reception Mr. McCallum received a whit better than the impression he made on the audience. He expressed himself quietly and clearly, was attentively listened to throughout, and at the close was liberally applauded.

An Electric System.

Toronto, Nov. 7.—The meeting of the Torkington commission on Friday may be important in results, as regards the question of introducing electric power into the operation of that railroad. Cecil B. Smith, a member of the commission, and chief engineer of the railway, who has just returned from Europe, where he looked into the workings of the electric railroads there, is fully impressed with the practicability of the electric system.

Indictment For the Plumbers.

Toronto, Nov. 7.—The Attorney-General has enlarged the indictment against Richard Crasheley, dealer in tools of the Master Plumbers' and Steamfitters' Co-operative Association. The charge against them will be conspiracy, which arises out of the recent troubles amongst the plumbers. The case may come up in the Criminal Court to-day.

Protection Asked On Coal.

Ottawa, Nov. 7.—The Dominion Coal Company will apply to the tariff commission to protect the soft coal industry against British coal, which is brought out as ballast and entered at a very low duty rate under the preference. It wants a duty of 50 cents a ton of anthracite coal dust, which is now being imported duty free, specially for use in some of the large factories.

Barges Go Aground.

Sandusky, O., Nov. 7.—The tug Castle, coming into this port yesterday during a heavy gale, with the barges Melvina, Montpelier and Knapp in tow, went aground on the channel bank. The Montpelier and Knapp, both light, were blown far to the east and are hard aground with the water down three feet. The Melvina was held safely.

Farmer Hangs Himself.

Woodstock, Nov. 7.—John Lawrie, farmer, of Blenheim Township, one of the most prominent residents of this community, committed suicide by hanging himself Saturday night. Financial troubles are given as the cause. He was 50 years of age and leaves a widow and family.

Bill Raisers Sentenced.

Kingston, Nov. 7.—Famato Antoinette was sentenced to seven years in the penitentiary, and Giovanna Pestice to three years for raising two-dollar notes to pass and passing them.
