**THE HOUSE OF ASSEMBLY**  
OF  
**PRINCE EDWARD ISLAND.**

.....  
**Fourth Session of the Fifteenth General Assembly.**  
.....

**TUESDAY, January 26, 1841.**

**T**HE House having, by several Proclamations, been prorogued until this day, then to meet for the dispatch of business :

And being met—

A Message from His Excellency the Lieutenant Governor, by John Cambridge Wright, Esquire, Usher of the Black Rod :

Mr. Speaker,

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly, Mr. Speaker and the House went up to attend His Excellency in the Council Chamber—and being returned,

Mr. Speaker reported, that when the House did attend His Excellency this day in the Council Chamber, His Excellency was pleased to make a Speech to both Houses of the Legislature, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which was read by the Clerk, and is as follows :

*Mr. President, and Honorable Gentlemen of the Legislative Council ;*

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

In meeting you, assembled in your Legislative capacity, I have the highest satisfaction in being enabled to congratulate you, and Her Majesty's loyal subjects in this Island, on the Birth of an Heiress Presumptive to the Throne. This auspicious event, both in its immediate and prospective advantages, is so fraught with importance to the best and dearest interests of every British subject, that I am convinced

it will call forth your warmest sentiments of devotion and loyalty towards our most gracious Sovereign, and of attachment towards Her Majesty's Royal Consort.

I avail myself of this opportunity, to remind you that the School Act will expire with the present Session. The advantages of a good education must be obvious to every reflecting mind; for it is a well established fact, that wherever the means of education are most widely diffused, and made accessible to all classes, the community is invariably found to be the most industrious, thriving, orderly and obedient to the laws. The provision hitherto made by the Legislature of this Island has been so liberal and praiseworthy, that I cannot entertain a doubt that you will see the propriety of still encouraging this great object, by the renewal of the present Act, or, if practicable, by some more efficient measure.

The interests of Agriculture are so intimately and inseparably connected with the future destinies of this Colony, and the welfare of the great majority of its inhabitants, whose labours Divine Providence has again been pleased to bless with a most abundant harvest, that I deem it my duty to point out the great benefit which may be derived from aiding the development of the resources of the soil by such Legislative assistance as it may be in your power to afford.

I am gratified in being enabled to inform you, that notwithstanding the unprecedented increase of the Revenue which I had the pleasure of announcing to you at the commencement of last Session—an increase of nearly one-half upon the receipts of any former year—the Revenue for the past year exhibits an almost equally flattering prospect.

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

I shall direct the Public Accounts, together with the Estimates for the current year, to be laid before you, in the confidence that you will vote such supplies as will enable me to carry on the Government.

*Mr. President, and Honorable Gentlemen of the Legislative Council ;*

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

I regret that the Bill for erecting a Lunatic Asylum has

not received the Royal Assent. This Bill has been suspended until certain alterations are made in it, as specified in a Despatch from Her Majesty's Secretary of State for the Colonies, which I shall take an early opportunity of submitting to you. The necessity of establishing a place of public refuge for those of our fellow creatures to whom, in his inscrutable wisdom, the Almighty, by depriving them of reason, has given peculiar claims to our care, is so apparent, that I feel satisfied you will cheerfully accede to the alterations proposed, and that I shall thus be enabled to carry into effect the liberal and benevolent intentions of Her Majesty's Government, by entering at once into contracts for the erection of the requisite buildings.

There are other subjects and Despatches which I shall bring under your consideration, by Message, in the usual manner; and I rely upon your framing such measures during the present Session as will be conducive to the general prosperity of the Island.

*Resolved*, That a Committee of five Members be appointed, to prepare and report, with all convenient speed, the draught of an Address in answer to the Speech of His Excellency the Lieutenant Governor, delivered this day to both Houses of the Legislature.

*Ordered*, That Mr. Rae, Mr. D. Macdonald, Mr. Fraser, Mr. Le Lacheur and Mr. Longworth do compose the said Committee.

Alexander Maclean, Esquire, elected a Member for the Third Electoral District of Queen's County, in the place of the Honorable Charles Young, removed to the Legislative Council, appeared at the bar, and having been led into the body of the House, and introduced to the Speaker by John W. Le Lacheur and John Macintosh, Esquires, took the Oaths prescribed by Law, and his seat.

*Resolved*, That a Committee be appointed, to examine Bills to be engrossed, or that have been engrossed.

*Ordered*, That Mr. D. Macdonald, Mr. Gorman and Mr. Maclean do compose the said Committee.

*Resolved*, That a Committee of seven Members be appointed, to examine and report on the Public Accounts—with power to send for persons, papers and records.

*Ordered*, That Mr. Longworth, Mr. Thom-

son, Mr. Palmer, Hon. J. S. Macdonald, Mr. Clark, Mr. Gorman and Mr. Macintosh do compose the said Committee.

*Resolved*, That a Committee be appointed, to revise the Journal of each day, after the adjournment.

*Ordered*, That Mr. Palmer, Mr. Thomson and Mr. Montgomery do compose the said Committee.

*Resolved*, That a Committee be appointed, to examine what Laws have lately expired, or are near expiring, and to report thereon to the House.

*Resolved*, That a Committee of five Members be appointed, to keep up a good correspondence between the two Houses of the Legislature, and to report their proceedings from time to time—with power to send for persons, papers and records.

*Ordered*, That the Hon. J. S. Macdonald, Mr. Palmer, Mr. D. Macdonald, Mr. Clark and Mr. Yeo do compose the said Committee.

*Ordered*, That the said Resolution be communicated, by Message, to the Legislative Council.

*Ordered*, That the Hon. J. S. Macdonald do carry the said Message to the Council.

*Resolved*, That a Committee of five Members, of whom three shall be a Quorum, be appointed, to whom shall be referred every Private Bill, to report thereon.

*Ordered*, That Mr. Rae, Mr. Fraser, Mr. Macintosh, Mr. Clark and Mr. Thomson do compose the said Committee.

*Ordered*, That a copy of the Journal of this House be sent to His Excellency the Lieutenant Governor, each day, as soon as may be after the adjournment.

Then the House adjourned until to-morrow, at Ten o'clock.

*Ordered*, That the above Report be now referred to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Le Lacheur took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Le Lacheur reported, that the Committee had come to two Resolutions, which they had directed him to report to the House; and he read the same in his place, and delivered them in at the Clerk's Table.

Mr. Le Lacheur also acquainted the House, that he was directed by the Committee to move for leave to sit again, which the House agreed to.

The several Resolutions reported from the Committee were then read by the Clerk, and are as follow:—

So it was carried in the affirmative.

The main motion, as amended, was then put and carried.

*Ordered*, That the above Resolution be inserted twice in each of the Newspapers published in Charlottetown.

Mr. Rae, from the Special Committee appointed to prepare and report the draught of an Address in answer to the Speech of His Excellency the Lieutenant Governor, to both Houses, at the opening of the present Session,

*To His Excellency Sir C. A. FITZ ROY, K. H., Lieutenant Governor and Commander in Chief, in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral and Ordinary of the same, &c. &c. &c.*

MAY IT PLEASE YOUR EXCELLENCY ;

WE the Representatives of the people of Prince Edward Island, in General Assembly convened, respectfully offer your Excellency our thanks for the expressions of good will towards our constituents, and zeal for their welfare, contained in your Excellency's speech; and we beg leave to assure your Excellency, that in no portion of the British Empire is the heartfelt satisfaction at the highly auspicious event of the Birth of an Heiress Presumptive to the Throne, greater or more generally felt than in this Colony, where the warmest sentiments of devotion and loyalty are entertained towards our most gracious Sovereign, and attachment to her Royal consort.

To ensure the advantages of a good Education—on which is based the happiness, industry and peace of a country—shall have that most serious attention which the importance of its merits imperatively demands.

Fully aware that the interests of Agriculture are intimately and inseparably connected with the future destinies of the Colony, and thankful that Divine Providence has blessed the labours of the Husbandman, we shall most cheerfully devote our attention to such objects as may increase and develop the resources of the soil.

In common with your Excellency, we share the satisfaction at the present prosperous state of the public Revenue, as affording us the means of diminishing taxation, and furthering the improvement of the country by public works.

We shall enter on the investigation of the Public Accounts for the past year so soon as your Excellency shall be pleased to lay them before us; and in proceeding on the Estimates for the current year, we shall make such provision for the exigent

cies of the Government as, is warranted by the present resources of the Colony.

We regret that the Bill for erecting a Lunatic Asylum has not received the Royal Assent. When we receive the Despatch notifying its suspension, we will give this very important matter our best consideration.

These, and whatever other matters may be laid before us by your Excellency, shall receive the most careful investigation; and we trust that the Colony will derive some benefit from this Legislative Session.

*Ordered*, That the said Address be engrossed.

*Resolved*, That the said Address be presented to His Excellency the Lieutenant Governor by the whole House.

*Ordered*, That the same Committee who prepared the Address be a Committee to wait on His Excellency, to know his pleasure when he will be attended by the House with the Address.

Then the House adjourned until to-morrow, at Ten o'clock.

**O**N motion of Mr. *Le Lacheur*, *Ordered*, That the entries in the Journal of the 16th and 18th April, 1840, relative to certain words spoken by *Edward Palmer*, Esquire, be now read;

And the same being read—

It was thereupon moved by Mr. *Clark*, That this House do, on Wednesday next, resolve itself into a Committee of Privileges, to take the subject-matter of the said entries into consideration.

Mr. *Rae* moved, in amendment, That after the word "That," all be expunged; and the following substituted—"as the Honorable Members have denied the accusation, this House believes that the Honorable Member who made the accusation has been misled by erroneous evidence—and therefore that this House does not consider it necessary to enter further on the matter."

Mr. *Rae* moved for leave to withdraw the said amendment.

The House divided on the question:

YEAS, 7.

NAYS, 11.

to which His Excellency was pleased to make the following reply :

Two Messages from His Excellency the Lieutenant Governor.

Mr. Secretary Haviland, by His Excellency's command, delivered the following Messages:

### First Message:

C. A. FITZ ROY, Lieut. Governor.

The Lieutenant Governor lays before the House of Assembly, Copy of a Despatch from the Right Honorable Lord John Russell, Her Majesty's Principal Secretary of State for the Colonies, in reply to the Address of the House of Assembly to the Queen, with reference to the Bill to authorize the Crown to purchase the Lands, and to regulate the Settlement of the Inhabitants of this Island, and to repeal certain Sections of an Act intituled *An Act for levying an Assessment on all Lands in this Island*—rejected by the Legislative Council in the last Session of the Assembly; and further praying for a reconstruction of the Council.

Government House, February 1, 1841.

[ For the Document referred to in the said Message, see Appendix (B.) ]

**Second Message :**

C. A. FITZ ROY, Lieut. Governor.

The Lieutenant Governor transmits to the House of Assembly the Copy of a Despatch from the Right Honorable Lord John Russell, Her Majesty's Principal Secretary of State for the Colonies, accompanied by copies of the Correspondence which has taken place between the Colonial Department and the Treasury, with reference to the Address of the House of Assembly, praying that the Steam Vessels employed in conveying the Mails between Pictou and Quebec might be allowed to touch at Charlottetown.

The Lieutenant Governor takes the same opportunity of acquainting the House of Assembly, that, agreeably to a Resolution entered upon their Journals in the last Session, he caused Advertisements to be published, calling for Tenders for a Steam-boat, of not less than Eighty Horses' Power, to convey the Mails twice a week between Charlottetown and Pictou, and once a week between those places and Miramichi, touching at Bedeque; but he regrets to observe, that no such Tender has been received.

The Lieutenant Governor submits to the House an offer which has recently been made by the Owners of the Steam-boat *Pocahontas*, to run that Boat twice or three times a week between Charlottetown and Pictou; and as it is of great importance to secure a frequent communication with Pictou, during the Season in which the English Mails are conveyed by that route, the Lieutenant Governor trusts that the House of Assembly will give this offer their early and favourable consideration.

Government House, February 1, 1841.

[For the Documents referred to in the Second Message, see Appendix (C.)]

*Ordered*, That the foregoing Messages, with the papers accompanying the same, do lie on the Table.

2. And the First of the said Resolutions being again read ;

Mr. *Thomson* moved, in amendment thereto, that after the word "That," all be struck out, and the following substituted, "inasmuch as, owing to the amendment of the Statute Labour Act not being printed, nor in the hands of the Commissioners before the time by Law named for appointing Overseers, its operation was, in some measure, rendered nugatory ; but as in every case where the Act appears to have been fairly acted upon, much additional improvement has been the result ; the House, therefore, considers it inexpedient to make any further amendment to the Statute Labour Act during the present Session."

## SATURDAY, February 6, 1841.

**A** MOTION being made, that the Report of the Committee of the whole House, to inquire into and take into consideration the State of the Colony, be, according to order, now received, the following Resolutions were accordingly reported:—

1. WHEREAS this House, in its last Session, passed a Bill to enable the Crown to purchase the Township Lands of this Island, and settle the Inhabitants: and whereas the Legislative Council have declared its opinion of the said Bill as follows:—“That it is the opinion of this Committee, that any equitable arrangement, by voluntary sale on the part of the Proprietors, by which the Crown can be reinvested with the said Lands, so as to enable the Crown to sell the same at a reasonable rate to actual occupiers, would tend greatly to increase the settlement of this Colony, and advance its prosperity, and would be considered as a boon calling for the utmost extent of gratitude from its inhabitants: That although this Committee thus far recognize the principle of the Bill, they cannot concur in its details; and, in fact, they deem any enactment on the subject not only premature, but inexpedient and unnecessary, until the consent of the Crown and Proprietors to the measure contemplated by the said Bill shall be first obtained.” And whereas the Right Honorable Lord John Russell, Her Majesty’s Principal Secretary of State for the Colonies, by a Despatch bearing date the 22d September, 1840, has declared, that “Although this question originates in motives of private interest, shared equally by Landlords and Tenants, it assumes, in effect, the character of a public question, and as such must be treated. It is Her Majesty’s earnest desire, to remove every just cause of complaint in all parts of her dominions, and Her Majesty has been accordingly pleased to desire me to enter into communication with the resident Proprietors in this country, with a view to learn whether, by any further proposition on their part, means may be found to determine a question which has, for so long a period, agitated the Colony.” And whereas the former offers of these Proprietary claimants to the Tenantry were most unreasonable; and as the whole conduct of the Association of these Claimants, styling themselves the Proprietary Association, has been most decidedly hostile to the interests of the Colony: therefore this Committee has no expectation that any proposition which said Association may make, in consequence of the communication to be held by the Secretary of State for the Colonies and said Association, will be such as the country could accept; but that such negotiation, on their part, will be industriously prolonged, with a view, by delay, to break the opposition to their tyrannical proceedings: THEREFORE RESOLVED, That it is the opinion of this Committee, that it

is expedient to pass a Bill of the same tenor as that passed last year by this House for the Settlement of the Colony, in the hope that the Imperial Government will either accede to that, or by some other reasonable measure, decide satisfactorily this question.

2. RESOLVED, That with a view to prevent the evils which may result from misrepresentation, and to establish, by further evidence, the statements contained in the Addresses and Petitions forwarded by this House, a Committee be appointed, to take such evidence, with power to send for persons, papers and records.

And the said Resolutions being again read throughout, were, on the question being separately put thereon, agreed to by the House.

*Ordered*, That Mr. *D. Macdonald*, Mr. *Montgomery*, Mr. *Rae*, Mr. *Clark*, Mr. *Le Lacheur*, Mr. *Fraser* and Mr. *Gorman* be a Committee to prepare and bring in a Bill in conformity with the first of the above reported Resolutions.

*Ordered*, That His Excellency’s Message of the 3d instant, transmitting copy of a Despatch from the Secretary of State, accompanied by a copy of a Description of this Island, drawn up by Mr. *Holland*, in October, 1765, be referred to the Committee of the whole House, appointed to inquire into and take into consideration the State of the Colony.

The Bill for ascertaining the population of the Island, and for obtaining other statistical information, was, according to order, read a second time.

A motion being made, that the said Bill be now committed to a Committee of the whole House;

Mr. *Rae* moved, in amendment, that the word “now” be left out, and at the end of the question, the following words added, “this day three months.”

By Mr. Macneill.—A Petition of divers Inhabitants of New London and its vicinity, praying a grant, in aid of individual subscription, towards the reconstruction of the Bridge over Hope River, at the Narrows.

By Mr. Forbes—A Petition of divers Inhabitants of Townships Thirty-five and Thirty-

six; setting forth—that their road communication would be much improved were a new road made of the length of twenty chains, on the South boundary line of the farms of Norman and John Macintyre; and praying an aid of Twenty-five pounds to indemnify the said Norman and John Macintyre for said road.

By Mr. Fraser—A Petition of divers Inhabitants of Lots Fifteen, Sixteen, and Seventeen; setting forth—that a part of the Main Western Road yet remains unimproved, viz. from the Cross Roads, near Saint Eleanor's Court House, in a direct course to Mascouche Chapel, although the same was opened when the Western Road was first explored and surveyed; that in consequence of said piece of road having been neglected, travellers are under the necessity of taking a circuitous route of six miles, whereas the direct course does not exceed two miles; and praying an aid to make the said road.

A Petition of divers Inhabitants of Lot Sixteen, praying an aid to improve the road between Lyle's and Fraser's, on that Township.

By Mr. Le Lacheur—A Petition of divers Inhabitants of Lots 49 and 50, and vicinity, praying an aid towards the construction of a Wharf at China Point.

By Mr. Thomson—A Petition of divers Inhabitants of Georgetown, and its vicinity, praying the House to grant a sum sufficient

By Mr. *Maclean*—A Petition of divers Inhabitants of Pinette and the adjacent Settlements, praying for a grant of Sixty Pounds, in aid of individual subscription, towards building a Wharf or Slip at Campbell's Point, on the South side of Pinette River.

A Petition of divers Inhabitants of Lot Fifty, and adjacent Settlements, praying an aid to improve the road from the China Point Road to Seal River.

By Mr. *D. Macdonald*—A Petition of divers Inhabitants of Townships Forty-six and Forty-seven, setting forth—that the sum formerly granted to enable them to open a road from the main road to the entrance of West River Harbour, being inadequate to purchase the right of way, as well as to open the road, remains unexpended; and praying for an additional grant in aid of that object.

By Mr. *W. Dingwell*—A Petition of divers Inhabitants of Townships Forty-three, Fifty-five and Fifty-six, praying for a grant, in aid of individual subscription, to enable them to build a Hard or Slip at Grand River Ferry.

A Petition of divers Inhabitants of Little River and Little Pond; setting forth—that they are much in want of a public road from the line of road passing Lawless's forge to Little River Harbour, and thence on the line between Alexander Macdonald and Angus Macdonald's, to Little Pond; and praying a grant for the purpose of making the said road.

*Ordered*, That the Fifteen preceding Petitions do lie on the Table.

Mr. *Fraser* reported from the Committee appointed last Session to inquire into the expediency and practicability of erecting a new Bridge over Ellis River; and he read the Report in his place, and delivered it in at the Clerk's Table, where it was again read, and is as followeth:—

That a majority of the said Committee examined the site contemplated for the said Bridge, and found that the breadth of the river, from one shore across to the other, at high water mark, is 528 feet, and about one fifth less at low water mark; the channel is about thirty feet broad, interspersed with Oyster beds, and varying from fourteen to sixteen feet in depth at high water mark, and from six to eight feet in depth at low water mark. The river, in that particular part, is quite smooth, and the current slow; and, owing to the number of Oyster beds, the water seldom freezes, and when it does, the ice is so very weak that, in the opinion of your Committee, it could not possibly injure any structure that might come in contact with it. On the South side, the road that leads to the contemplated Bridge is passable, with the

exception of about three quarters of a mile, which three quarters have to pass through a swamp. On the North side, there is about one mile of road required to be made, from the river to the present highway—about 400 feet on said road will have to pass in a direct line through a marsh. Your Committee have to remark, that a Bridge on the said site would be of the greatest advantage to the North West portion of the inhabitants of Prince County, as in the present instance, owing to the lay of the country, persons travelling to the Eastward have to cross a Ferry at least one mile in breadth. Your Committee cannot, for certainty, estimate the exact amount it would take to build a substantial Bridge on the said site, but, from the facility of getting materials, they believe it would not exceed Three hundred Pounds.

*Ordered*, That the said Report be referred to a Committee of the whole House on Wednesday next.

A Petition of divers Inhabitants of Lots Twelve, Thirteen, Fourteen, Sixteen and Seventeen, was (with the consent of His Excellency the Lieutenant Governor, that the House may proceed thereon as they shall think fit,) presented to the House by Mr. *Fraser*, and the same was received and read, praying a grant, in aid of individual subscription, towards erecting a Bridge over Ellis River, between Maclean's and Macdonald's Shore.

*Ordered*, That the said Petition be referred to the above named Committee.

A Petition of divers Inhabitants of Lots One, Five, Six, Fifteen, Sixteen and Seventeen, was (with the consent of His Excellency the Lieutenant Governor, that the House may proceed thereon as they shall think fit,) also presented to the House by Mr. *Fraser*, and the same was received and read; praying an aid to make half a mile of road through the farm of James Ramsay, on Lot Seventeen, from the East end of Mascouche Road to the shore.

A motion being made, that the said Petition do lie on the Table;

Mr. *Clark* moved, in amendment, that the prayer of the said Petition be rejected, the remedy being elsewhere; which being seconded and put, passed in the negative.

The question being then put on the main motion, it was carried in the affirmative.

Then the House adjourned for one hour.

And being met—

*Resolved*, That a Committee be appointed to search the Journals of the Legislative Coun-

cil, to ascertain what proceedings have been had on the Bill intituled *An Act to regulate the letting of the Stalls in the Market House in Charlottetown, and for other purposes.*

*Ordered,* That the said Petition be referred to the Committee to whom was referred the Petition of divers Inhabitants of Charlottetown, on the same subject, presented to this House on the 20th instant, and that they do examine also and report on this Petition.

*Resolved,* That the said Petition be referred to a Committee of five Members, to examine the same and report thereon, by Bill or otherwise—with power to send for persons, papers and records.

*Ordered,* That Mr. *Le Lacheur*, Mr. *Clark*, Mr. *Thomson*, Mr. *Rae* and Mr. *Longworth* do compose the said Committee.

A Petition of divers Inhabitants of Georgetown and its vicinity, was presented to the House by Mr. *Thomson*, and the same was received and read, praying the House to accept of the tender or proposition of the owners of the Steamboat Pocahontas, wherein they agree, for a specified sum, to run her twice a week between Pictou and Charlottetown, and once a week between Pictou and Georgetown, while the navigation is open—in order that Georgetown may benefit from the advantages to be derived by a direct intercourse by means of a steam vessel with Pictou.

*Ordered*, That the said Petition be referred to the Committee of the whole House, on the consideration of the Lieutenant Governor's Message of the 1st inst. with the enclosures, relative to the employment of a Steamboat for the conveyance of the Mails.

*Resolved*, That the two last preceding Petitions be referred to a Committee of five Members, to examine the same and report thereon—with power to send for persons, papers and records.

Mr. *Gorman*, from the Committee of the whole House on the State of the Colony, reported, according to order, the Resolution of the said Committee; which Resolution was again read at the Clerk's Table, and is as followeth:—

Whereas there does not appear to be any answer from the Imperial Government to the Bill and Address passed last Session, in reference to the Fishery Reserves: *Resolved*, therefore, That with the view of bringing that important subject to an amicable termination, which is so essential to the benefit of Fishermen in this Island, that a Committee be appointed to prepare and bring in a Bill of the same tenor as that passed by this House last Session.

And the said Resolution being again read, Mr. *Palmer* moved, in amendment thereto, that after the word "Whereas" all be struck out, and the following substituted :

"It continues a subject of much regret to many of the inhabitants of this Colony, that no Legislative provision has yet been made to regulate the uses of the Fishery Reserve Lands therein, and to secure to the several parties interested in the said Lands their respective rights and claims, according as each may justly appear entitled to the same, and the public exigencies of the Colony may seem to require; and also, that the failure of the Bills heretofore at different times agreed to by this House, for the accomplishment of the aforesaid purposes, has been, in consequence of the Legislative Council adhering to enactments originating therein, materially different in their principles from those agreed to by this House, and in which this House still sees no prospect of concurring—*Therefore*, *Resolved*, That a Committee be appointed, to draw up the grounds of the objections entertained by this House to the said enactments of the Legislative Council, and the reasons which weigh with this House for adhering to the principles of the said Bills, as formerly framed by this House; and that an humble Address be prepared and forwarded to Her Majesty, submitting therewith the Report of the said Committee; and that a copy of the said Report be furnished to the Legislative Council, with a request to join this House in the aforesaid Address to Her Majesty, and to forward therewith such objections as the

Legislative Council may entertain to the enactments agreed to by this House, if the Legislative Council shall so see fit, in order that the opinion of Her Majesty's Government may be ascertained, and that the Legislature of this Colony may obtain the benefit of any enactment that Her Majesty may be pleased to recommend to the Legislature of this Colony as just and reasonable on the subject."

On considering the circumstances of the case, the House of Assembly beg leave respectfully to represent to your Excellency, that they think it equitable that the said John Macgregor, on his finding security to relieve the Treasury in the event of such Warrant being presented for payment, and forthwith paying the expense of the bond to that effect, and of any advertisements that may be considered necessary, should receive a Warrant to the amount of £12, to bear interest from the same date as the lost Warrant ; and they respectfully request that your Excellency will be pleased to give the necessary directions to that effect.

The Second of the said Resolutions being again read;

"That as in the present circumstances of this Colony, it is inexpedient to apply a sum exceeding Three hundred pounds, currency, to provide for conveying the mails by steam; and as any steam-vessel which shall run merely hence to Pictou, will not probably tend to the further benefit of increasing the exports from this Island, as there is in that quarter no demand for such produce—therefore, the sum to be granted for conveying the mails, by a steam vessel, between this Island and Pictou, be limited to Three hundred pounds, currency."

Two Messages from His Excellency, the Lieutenant Governor.

Mr. Secretary Haviland, by command of His Excellency, delivered the following Messages:—

**First Message:**

C. A. FITZ ROY, Lieut. Governor.

The Lieutenant Governor lays before the House of Assembly the Estimates for the services of the current year.

The Lieutenant Governor, at the same time, transmits a Memorial of the Committee of Management of the Central Agricultural Society, praying for a grant of money in aid of the funds of that institution. As the objects for which this grant is asked are for the general benefit of the Colony, the

Lieutenant Governor cannot doubt that the Memorial will receive the favourable consideration of the House.

The Lieutenant Governor also transmits a Petition of the Magistrates, Merchants, and other inhabitants of Georgetown and vicinity, representing the inadequacy of the salary of the Sub-Collector of Customs for the Port of Three Rivers, and praying that such an addition be made to his salary as the heavy and responsible duties of his office entitle him to receive; and the Lieutenant Governor recommends the same to the favourable consideration of the House.

The Lieutenant Governor further transmits a Petition from William and Andrew Miller, contractors for building the Bridge over South River at Murray Harbour, praying for additional remuneration, in consequence of the width of the river exceeding the plan and specification of the Bridge by 48 feet, and for other extra work performed by them in connection therewith. As the petitioners appear to have a strong claim upon the liberality of the government, the Lieutenant Governor has every confidence that justice will be done them by the House.

Government House, 6th March, 1841.

### Second Message :

C. A. FITZ ROY, Lieut. Governor.

The Lieutenant Governor lays before the House of Assembly the Returns of the Commissioners of Statute Labour for the past year, together with their Reports of the state of the Roads and Bridges within their several districts: Also, an account of the Road Correspondent, shewing the manner in which the moneys received by him for this service have been applied. And the Lieutenant Governor leaves it to the House of Assembly to vote such sum for the service of Roads and Bridges for the current year as they may deem necessary for that purpose.

The Lieutenant Governor also transmits plans and estimates of the expense of a Wharf, and of a Hard or Slip at the Ferry Point opposite Charlottetown, as requested by the House of Assembly in the last Session.

The Lieutenant Governor further brings under the consideration of the House of Assembly, a Plan, together with the Deputy Surveyor General's Report, of a line of Road from Dingwell's Mills to Cardigan River Bridge.

A Petition for a centre Road from the head of Hillsborough River to East Point.

A Petition of the Inhabitants of Crapaud and Sable, for a right of way to a place of shipment in Crapaud Harbour, with the Commissioner's Report thereon.

A Petition of the Inhabitants of Barbara Weed and Northern Section of Lot Nineteen, for aid in building a Bridge across the Creek at Angus Macintyre's, and to open a line of road from thence to meet the line of road running through the New Village to Lot 17.

A Petition of the Inhabitants of New London, Cavendish, and other Settlements, praying for aid in erecting a Bridge over the Mill River, at Fyffe's Ferry, New London.

Also, a Petition of the Inhabitants of Mascouche, Lots Nos. 15 and 17, and Tignish, praying that a Road may be opened

through the farm in the occupation of James Ramsay, Lot 17, to communicate with Richmond Bay.

The Lieutenant Governor submits the foregoing Petitions to the House of Assembly, in order that they may vote the sums necessary to enable the Executive Government to carry these objects into effect, as far as the local information possessed by the House may deem such measures advisable.

The Lieutenant Governor recommends the House to appropriate a sum of money to open the road from the Court House at Saint Eleonor's to Mascouche, being a continuation of the line of the Western Road as originally laid off.

The Lieutenant Governor also lays before the House a Report on the present condition of Poplar Island Bridge, and recommends the House to vote such sum as will be necessary to put it in a proper state of repair.

Government House, 6th March, 1841.

Simon Mackinnon, Newtown ;  
James Macleod, Wood Island Road ;  
Charles Russell, Teacher ;  
George Hayden, Vernon River ;

Dominic Gallant, Egmont Bay.

Your Committee have also to state, that they have had before them Petitions from several aged and infirm persons, praying aid, whose children, or other near relatives, ought to support them ; and they are of opinion, that, to countenance such applications, would tend to dissolve the ties of natural affection, and to invalidate the claims which the aged and infirm have to be supported by their children and relatives.

Your Committee also deem it their duty to state to the House, that they have had before them various Petitions from disabled and blind persons, who have recently immigrated, in that state, to this Island ; and as such cases cannot prove otherwise than a grievous burthen upon the community, your Committee would therefore recommend the House to adopt such measures as would best conduce to remove so great an evil, by preventing the landing of such persons, unless provided with means for their support, independent of the public funds.

*Ordered,* That the said Report do lie on the Table.

*Resolved,* That this House do now resolve itself into a Committee of the whole House, on the further consideration of the Bill to extend the jurisdiction of Justices of the Peace and Commissioners in matters of Small Debt.

*In the Schedule—in the Column—After the words " whose passage was paid by Proprietors," insert " and date of their arrival in this Colony, and age of such person on his arrival."*

On motion, the said amendment was read a second time.

*Ordered*, That the said amendment be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. D. Macdonald took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. D. Macdonald reported, that the Committee had made an amendment to the said amendment, which amendment was again read at the Clerk's Table, and is as followeth:—

*In the Schedule*—insert “ Number of persons who repaid their passage money to the Proprietors or their Agents.”

And the said amendment was read a second time, and ordered to be read a third time on Tuesday next.

The Amendments made by the Legislative Council to the Bill intituled *An Act to prohibit the interment of human bodies within the limits of the Town of Georgetown, and to establish burial grounds in the Common thereof*, were read the first time, and are as follow:—

*Folio 7, line 8*—Strike out from the word “ adjoining” to the word “ as,” in the tenth line of the same folio, and insert “ to a tract of land now occupied by them.”

*Folio 8, line 7*—After the word “ Presbyterians,” strike out the words “ and the members of the Church of England and Ireland.”

Mr. Thomson moved, that the said amendments be disagreed to.

Mr. Clark moved, as an amendment, that the said amendments be read a second time to-morrow—which being seconded and put, was carried in the affirmative.

*Ordered*, That Mr. Palmer have leave to introduce a Bill for the establishment of Criminal Sessions in Queen's County.

He accordingly presented the said Bill to the House, and the same was read the first time, and ordered to be read a second time on Tuesday next.

LEGISLATIVE COUNCIL CHAMBER,

Saturday, 20th March, 1841.

Present:

The Hon. Mr. *Attorney General*, President;

The Hon. Mr. Brecken,	The Hon. Mr. Livell,
Mr. Goodman,	Mr. Dalrymple,
Mr. Worrell,	Mr. Solicitor General,
Mr. Macdonald,	Mr. Holl,
Mr. Macintosh,	Mr. Young.

The Order of the Day, for the second reading of the Bill intituled “ An Act to authorize the Crown to purchase the Lands, and to regulate the settlement of the Inhabitants of this Island, and to repeal certain

sections of an Act passed in the Seventh year of the Reign of His late Majesty, intituled 'An Act for levying an Assessment on all Lands in this Island,' being read ;

The said Bill was accordingly read a second time.

On motion, the House was adjourned during pleasure, and put into a Committee on the said Bill. After some time, the House was resumed, and Mr. Goodman reported, that the Committee had gone through the Bill, and that they had come to the following Resolution, which they recommend to the adoption of the House, viz :

Whereas a Bill, similar in its title and enactments to the Bill now before this House, intituled "An Act to authorize the Crown to purchase the Lands, and to regulate the settlement of the Inhabitants of this Island, and to repeal certain sections of an Act passed in the Seventh year of the Reign of His late Majesty, intituled "An Act for levying an Assessment on all Lands in this Island," was sent up from the House of Assembly to this House, during the last Session of the General Assembly, which was rejected by this House, for the reasons stated in the several Resolutions adopted thereon by this House, and which are as follow, viz :

"Resolved, That it is the opinion of this Committee, that the documents sent up from the House of Assembly, in accordance with the Message from the Council, desiring to be furnished with copies of the evidence or documents on which the Bill to authorize the Crown to purchase the Lands, and to regulate the settlement of the Inhabitants of this Island, and to repeal certain sections of an Act, intituled "An Act for levying an Assessment on all Lands in this Island," and which documents, with the said Bill, have been referred for the consideration of this Committee, are wholly irrelevant to the subject matter of the said Bill, the object of which appears to this Committee to be, the reinvestment in the Crown, by voluntary sale, of the Lands in this Colony.

"Resolved, that it is the opinion of this Committee, that any equitable arrangement, by voluntary sale, on the part of the Proprietors, by which the Crown can be reinvested with the said Lands, so as to enable the Crown to sell the same at a reasonable rate, to actual occupiers, would tend greatly to increase the settlement of this Colony, and advance its prosperity, and would be considered as a boon, calling for the utmost extent of gratitude from its inhabitants.

"Resolved, That although this Committee thus far recognize the principle of the Bill, they cannot concur in its details; and, in fact, they deem any enactment on the subject, not only premature, but inexpedient and unnecessary, until the consent of the Crown and the Proprietors to the measure contemplated by the said Bill shall be first obtained.

"Resolved, That although this Committee cannot recommend the House to pass the said Bill, they would, however, suggest to the House, the propriety of joining the House of Assembly in an Address to the Throne—

should that House deem such a course of proceeding advisable—praying Her Majesty to take the measure contemplated by the said Bill into her favourable consideration, and to grant the means for effecting the purchase of the said Lands, provided the proprietors shall be found willing to dispose of the same."

And whereas this House, by the third of the said Resolutions, declared that any enactment on the subject matter of the said Bill was not only premature, but inexpedient and unnecessary, until the consent of the Crown and the Proprietors to the measure contemplated by the said Bill should be first obtained; at the same time, this House, in and by the last of the said Resolutions, expressed a readiness to join the House of Assembly in an Address to the Throne, to pray Her Majesty to take the measure into her favourable consideration, and to grant the means from the Imperial Revenue necessary to effectuate the object of the said Bill, which suggestion was not concurred in by the House of Assembly—on the contrary, that House, as appears from their Journals, addressed Her Majesty, complaining of the rejection of the said Bill by this House, and transmitted therewith a copy of the said Bill, and praying that Her Majesty would be graciously pleased to recommend the adoption of such a principle, or of a similar measure as that contained in the said Bill.

And whereas no recommendation for the adoption of such a principle, or of a similar measure as that contained in the said Bill, has been signified by Her Majesty, either to the Lieutenant Governor, the House of Assembly, or this House, in compliance with the prayer of the said Address of the House of Assembly—and although this Committee regrets, that in replying to the said Address, Her Majesty's Principal Secretary of State for the Colonies should have abstained from expressing, officially, any opinion on the said Bill, it is, nevertheless, to be inferred, that it is not the intention of Her Majesty's Government to advance the sum necessary to effect the object contemplated by the said Bill: And whereas it appears to this Committee, that the reasons assigned for the rejection of a similar Bill, in the last Session, apply with equal, if not greater effect, for adopting a similar course with regard to the Bill now before this Committee:

Therefore, Resolved, That the further consideration of the Bill be postponed until this day three months.

On motion, that the Report of the Committee be agreed to,

It was moved, as an amendment, that the House do come to the following Resolution:

Whereas, during the last Session of this House, it was unanimously Resolved, that any equitable arrangement, by voluntary sale, on the part of the Proprietors of lands in this Colony, by which the Crown could be re-invested with the said lands, so as to enable the Crown to sell the same at a reasonable rate to actual occupiers, would tend greatly to increase the settlement of this Colony,

and advance its prosperity, and would be considered as a boon, calling for the utmost extent of gratitude from its inhabitants: And whereas this House did thus far recognise the principle of the Bill intituled "An Act to authorize the Crown to purchase the Lands and to regulate the settlement of the inhabitants of this Island, and to repeal certain sections of an Act intituled 'An Act for levying an Assessment on all Lands in this Island'"—yet it stated that it could not concur in its details: And whereas, in and by the Despatch of Lord John Russell, Her Majesty's Secretary of State for the Colonies, bearing date the Twenty-second day of September last, His Lordship states—that Her Majesty learns with regret, that the question of the lands in this Island continues to disturb the peace of the Colony, and states that it now assumes the character of a public question, and as such must be treated—that it is Her Majesty's desire to remove every just cause of complaint, in all parts of her dominions, and trusts that means may be found to determine a question which has, for so long a period, agitated the Colony: And whereas such Despatch implies that Her Majesty is desirous that such measures should be adopted as would create peace and prosperity among the people of this Colony: And whereas the passing of the said Bill, so intituled as afore-said, with such necessary amendments as may be agreed on by this House, would satisfy the people of this Colony, and the purchasing of the Lands by the Crown would suppress that agitation which, it is to be lamented, prevails therein, and would relieve the Tenantry of this Island from those burdens of which they complain: And whereas it would be most advisable that such a happy result could be effected—*Resolved, therefore*, That this House do not agree to the Report of the Committee."

The House divided on the motion of amendment:

Mr. Worrell,	Mr. Solicitor General,
Mr. Macdonald,	Mr. Holl.

NON-CONTENTS:

Mr. Goodman,	Mr. Young.
Mr. Macintosh,	

And it passed in the affirmative.

On motion, the following Resolution was unanimously agreed to:—

"*Resolved*, That a Committee be appointed, to prepare an Address to Her Majesty, praying that Her Majesty would be pleased to order a negotiation to be entered into with the Proprietors of Lands in this Colony, with the view of obtaining from them, by voluntary sale, their right in such lands; the same to be reinvested in the Crown, and to be disposed of in small tracts to actual occupants—and in the event of the proprietors agreeing to make such sale, also praying that Her Majesty would be pleased to order the necessary funds for that purpose to be advanced from the Imperial Revenue, until the Imperial Government can be reimbursed from the sale of such lands."

Ordered, That Mr. Macdonald, Mr. Solicitor General and Mr. Young be a Committee to prepare an Address to Her Majesty in conformity to the foregoing Resolution.

Then the House adjourned for one hour.

And being met—

*Resolved*, That this House do now resolve itself into a Committee of the whole House, on the further consideration of the Bill to further amend the Road Compensation Act.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Beck took the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Order of the Day, for the House in Committee on the State of the Colony, to take into consideration the Despatch from the Right Honourable Lord John Russell, dated 27th November, 1840, and referred to this Committee, recommending that an addition be made to the Salary of His Excellency the Lieutenant Governor, being read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Gorman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Gorman reported, that the Committee had come to a Resolution, which Resolution was again read at the Clerk's Table, and is as followeth:—

Whereas the Right Honorable Lord John Russell, Her Majesty's Principal Secretary of State for the Colonies, in his Despatch, bearing date the 16th November, 1840, in reference to the present amount of Salary of £1000, per year, payable to the Lieutenant Governor of this Colony out of its Civil List, as voted by the Imperial Parliament, is of opinion that the additional sum of £1000, sterling, per year, ought to be added to such salary, and that such additional sum should be paid out of the Public Funds of this Colony, considering,

among other reasons therein expressed by his Lordship, that the Revenue and Commerce of this Island had greatly increased, and that its funds were capable of bearing this charge: And whereas Lord Goderich, when acting as Principal Secretary of State for the Colonies, in a Despatch, bearing date the 25th November, 1832, in answer to an Address of the House of Assembly, praying an order for the repeal of the Permanent Revenue Acts of this Island, although his Lordship was of opinion that the permanent and necessary expenses of the Colonies, for their civil Government, ought not to be defrayed from the Revenues of the Mother Country, and further, trusted, that at an early period the improved state of this Island, both in population and resources, would enable its Legislature to take upon itself the charge of its Civil List; and stated that whenever the financial condition of the Colony might be such as to enable them to make a moderate but permanent provision for the necessary expenses of the Government, thereby relieving the mother country from the charge incurred for these objects, he should not hesitate to advise His Majesty to give his assent to any Act placing the whole Revenue within this Island at the disposal of the Legislature; yet his Lordship did not then advise his said Majesty to grant the prayer of the House of Assembly, by ordering a repeal of the said Revenue Acts, being sensible that the finances of the Colony were, as his Lordship was pleased to express, then "inadequate to defray the expenses of its Civil Establishment." And whereas the House of Assembly, in its Session of 1835, passed a Resolution, wherein was adopted, as the opinion of the House, "that if the desired settlement of the Lands meet the favorable consideration of his (then) Majesty's Government, and the entire resources of the Colony become placed at the disposal of the Colonial Legislature, it would effectually enable this Colony to make a permanent provision for the Colonial Civil List and the general improvement of the Island:" Resolved, therefore, That it is a subject of the utmost regret, that the resources of this Colony have not yet so far improved in their state as to enable it, in keeping pace with its exigencies, to take upon itself the burden of any part of its Civil List, and that it is inexpedient that any sum should be added to a charge which, while at its present amount and under different circumstances this Colony might at an early day be prepared to provide for, and that while the resources of the Colony continue so inadequate to meet such a demand upon its funds as that proposed by the Right Honorable the Secretary of State for the Colonies, and that until the whole of its territorial and casual Revenues are placed at the disposal of the local Legislature, this Committee deem it inexpedient that any additional burden should be levied on the inhabitants of the Colony, by adding to the amount of the present Salary of its Lieutenant Governor.

Mr. Gorman also acquainted the House, that he was directed by the Committee to move for leave to sit again—which the House agreed to.

The Hon. J. S. Macdonald moved that the said Resolution be re-committed, for further consideration.

The House divided on the question:

YEAS:

Hon. J. S. Macdonald, Mr. Thomson.  
Mr. Yeo,

NAYS:

Mr. Hudson, Mr. D. Macdonald,  
Mr. Le Lacheur, Mr. Montgomery,  
Mr. Beck, Mr. Palmer,  
Mr. Dalziel, Mr. Longworth,

Mr. Fraser, Mr. Macneill,  
Mr. Rae, Mr. W. Dingwell,  
Mr. Clark, Mr. J. Dingwell,  
Mr. Macintosh, Mr. Maclean,  
Mr. Gorman,

So it passed in the negative.

The question of concurrence being then put on the said Resolution, it was agreed to by the House.

Mr. Rae reported from the Committee appointed to report on the expenditure on Buoys and Beacons at the different Ports in this Island; and the Report was again read at the Clerk's Table.

Mr. Longworth reported from the Committee appointed to report on the best site for a Light House for Charlottetown Harbour, and the said Report was again read at the Clerk's Table.

Mr. Palmer reported from the Committee to whom was referred the several Petitions praying for an aid towards the construction of a Wharf or Hard opposite Charlottetown, and to repair the Ferry-house, together with the several estimates and plans relating thereto; and the Report was again read at the Clerk's Table.

Ordered, That the Three last mentioned Reports be referred to a Committee of the whole House to-morrow.

Then the House adjourned until to-morrow, at Eleven o'clock.

FRIDAY, March 26, 1841.

MR. FORBES, in his place, offered to the House a Petition of divers Inhabitants of Rustico, and its vicinity.

Ordered, That under the special circumstances of the case, the said Petition be received and read;

And then the said Petition was received and read, complaining of the very inefficient manner in which the Bridge lately erected over Tanner's Creek had been constructed; that the materials were, in general, unsound and rotten, and the workmanship defective; and that the Bridge is lower by two feet six inches than the height mentioned in the specification which was exhibited at the sale, and praying the aid of the House.

*Resolved*, That the said Petition be referred to a Committee of five members, to examine the same and report thereon to the House at its next Session.

*Ordered*, That Mr. Forbes, Mr. Rae, Mr. Clark, Mr. Macfarlane and Mr. Montgomery do compose the said Committee.

The Amendments made by the Legislative Council to the Bill intituled *An Act to prohibit the internment of human bodies within the limits of the Town of Georgetown, and to establish burial grounds in the Common thereof*, were, according to order, read a second time.

*Ordered*, That the said amendments be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Fraser took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Fraser reported, that the Committee had come to a Resolution; which Resolution was again read at the Clerk's Table, and is as followeth:

**RESOLVED**, That it is the opinion of this Committee, that the House do concur in the said amendments.

And the said Resolution being again read, and the question put thereon,

The House divided:

**YEAS:**

Mr. D. Macdonald,	Mr. Beck,
Mr. Le Lacheur,	Mr. Hudson.
Mr. Clark,	Hon. J. S. Macdonald,

Mr. Forbes,	Mr. Gorman,
Mr. J. Dingwell,	Mr. Macintosh.

**NAYS:**

Mr. Thomson,	Mr. Fraser.
--------------	-------------

So it was carried in the affirmative—and the said amendments were ordered for the third reading on Tuesday next.

Mr. Clark reported, from the Committee to whom was referred the several petitions presented to the House for the promotion of Temperance; and he read the Report in his place, and delivered it in at the Clerk's Table, where it was again read, and is as followeth:

Your Committee to whom was referred the Petition of the Office-bearers of the "Charlottetown Temperance Society," and the Petition of the "Prince Edward Island Auxiliary Temperance Society," with other Petitions from the friends of Temperance in the Colony, praying the interference of the Legislature for the suppression of intemperance throughout this Island, are fully alive to the many evils ensuing from the prevalence of intemperance in every community wheresoever it may exist; and while they acknowledge the justness of the representations of the Petitioners with regard to the pernicious influence of this evil on the general prosperity of this Island and the morals of its inhabitants, your Committee consider that when, unfortunately, in a young Colony, as in this, it has happened that such a large proportion of its Revenue has, for so many years, been raised from duties on imported liquors, they cannot safely recommend the adoption of any enactment which would cause a sudden diminution in the revenue of the Colony, by a total abolition of the importation of Spirituous Liquors, although they entertain the hope that, by a gradual approach to such a desirable measure, the Legislature may, at no very distant period, succeed in accomplishing it, without any serious effect on the Revenue of the Colony.

Your Committee therefore respectfully recommend the expediency of your Honourable House taking into its serious consideration, at its next Session, the propriety of imposing an additional duty on all Spirituous Liquors imported thereafter into this Colony, and also on all Stills in operation in the Colony: and in the mean time your Committee respectfully recommend your Honourable House to appropriate a small sum of money, to be expended in the publication of such approved works on Temperance as may be recommended by the Office-bearers of the "Prince Edward Island Auxiliary Temperance Society."

A motion being made, that the said Report be referred to the Committee of Supply.

The Hon. J. S. Macdonald moved, in amendment, that after the word "Report," all be struck out, and the following substituted—"do lie on the Table."

The House divided on the motion of amendment:

**YEAS:**

Hon. J. S. Macdonald,	Mr. Macfarlane,
Mr. Longworth,	Mr. Fraser,
Mr. J. Dingwell,	Mr. Gorman,
Mr. Le Lacheur,	Mr. Macintosh.

**NAYS:**

Mr. Clark,	Mr. Beck,
Mr. D. Macdonald,	Mr. Rae,
Mr. Hudson,	Mr. Macneill,
Mr. Thomson,	Mr. W. Dingwell.
Mr. Yeo,	

The numbers being equal, Mr. Speaker gave his casting vote in the negative.

The question being then put on the main motion,

It was resolved in the affirmative.

The Hon. *J. S. Macdonald* laid before the House the several Custom House Returns, received in compliance with the Message to His Excellency the Lieutenant Governor, of the 22d instant.

[ See Appendix (M.) ]

A Message from the Legislative Council, by Mr. Desbrisay :

Mr. Speaker,

The Legislative Council have passed the Bill intituled *An Act for the appointment of Fish Inspectors, and to continue and extend the provisions of the Act now in force, regulating the size and quality of Fish Barrels and Tierces, and the weight of Fish made up therein*, with several amendments, to which they desire the concurrence of the House of Assembly.

And also—

The Legislative Council desire a Conference with the House of Assembly, on the general State of the Colony; and have appointed the Honorables Mr. Brecken, Mr. Macintosh and Mr. Young a Committee to manage the said Conference—to meet in the Committee Room instant.

And then he withdrew.

*Resolved*, That this House do agree to a Conference, as is desired by the Legislative Council, on the general State of the Colony.

*Ordered*, That Mr. *Rae*, Mr. *Macintosh*, Mr. *Palmer*, Mr. *Clark*, Mr. *Le Lacheur* and Mr. *Longworth* be a Committee to manage the said Conference.

So the Managers went to the Conference.

And being returned—

Mr. *Rae* reported, that the Managers had been at the Conference, and had met the Committee of the Council, who acquainted them that the Legislative Council had passed an Address to Her Majesty on the Land Settlement question, to which they desire the concurrence of the House of Assembly, and which Address is as followeth :

23

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

Most Gracious Sovereign ;

We your Majesty's dutiful and loyal subjects, the Legislative Council of Prince Edward Island, in Colonial Parliament assembled, beg leave to approach your Majesty's Throne and person, and most humbly to represent—

That the Lands of this Colony were originally granted in large tracts, of twenty thousand acres each, to private individuals, the greater part of which still remains in the hands of the descendants or Assignees of such Grantees, the majority of the actual settlers on such lands holding as tenants, and not in fee simple.

That if by the purchase of these lands from the proprietors, they were again revested in the Crown, for the purpose of being regranted in small tracts to the tenantry and settlers thereon, it would be hailed by the inhabitants of this Island as the greatest boon which your Majesty could bestow upon them, and would, as your Petitioners conceive, be productive of great and permanent benefits to the Colony—  
are at the same time aware, that this most desirable object cannot be attained without the advance, in the first instance, of a much larger sum of money than the Legislature of this Colony can command, nor without the free and voluntary consent of the several Proprietors to dispose of their Lands, being first obtained.

therefore most humbly pray, that your Majesty will be graciously pleased to take the premises into your favourable consideration, and cause a negotiation to be entered into with the several Proprietors of land in this Island, to ascertain the prices at which they would respectively agree to dispose of the whole of their lands in this Island, together with the arrears of rent now due thereon, with a view to their being reinvested in the Crown, for the purpose aforesaid; and in the event of such proprietors being willing to accept a reasonable price for the same, then that your Majesty will be graciously pleased to order that the funds necessary for making such purchase be, in the first instance, advanced from the Imperial Revenue, until such advance can be reimbursed to it by the sale of such lands.

at the same time pledge themselves (in the event of such purchase being made), to make such legislative enactments as will tend most speedily to effect a sale of the lands, and thereby reimburse the advances which the Imperial Government may have to make in purchasing the same.

And, as in duty bound, will ever pray for your Majesty's sacred person.

R. HODGSON, President.

Your Committee to whom was referred the Petition of divers Inhabitants of the North and South sides of the Hillsborough, praying for a grant of money to build a Scow fit for the conveyance of cattle across the river at Macconnell's Ferry, and an annual allowance to the Ferryman; also for the establishment of a Post Office at or near Fort Augustus, are of opinion, that the accomplishment of the objects prayed for would be of essential benefit to the Petitioners, but regret they cannot recommend the establishment of a Post Office at present, as the carrying of a Mail thither would be attended with considerable expense and inconvenience, from the circumstance of there not being a regular established Ferry at Macconnell's. In regard to the building of a Scow, and an annual allowance to the Ferryman, your Committee recommend to the House to grant and place at the disposal of His Excellency the Lieut. Governor the sum of £18, to be paid to such person or persons as shall provide a Scow fit for the conveyance of cattle over the said Ferry; also one flat-bottomed boat for the conveyance of passengers; and who shall enter into a contract to keep the said Ferry for any term not less than three years; and that an address be presented to His Excellency, respectfully requesting that he will be pleased to cause the said Ferry to be advertised, calling for tenders for the conveyance of passengers, their luggage and cattle, over the said Ferry, and offering the aforesaid bounty to such person or persons as shall undertake the Ferry at the lowest rates of Ferriage, subject to the approval of His Excellency in Council.

The House of Assembly having ascertained that the road on the bank of the Montague River, from the main road, at the corner of Mr. George Aitken's Farm, leading to Saint Andrew's Point, has, by the washing away of the bank, become so narrow as to render it dangerous to travellers, and in a great degree useless in its present state; and that some of the occupiers of the farms in the rear of said road have refused to remove their fences, unless compensation be given them, as prayed for in a petition presented to this House, and referred to a Committee, who have reported that it was inexpedient to grant such compensation; the House of Assembly, therefore, fully relying on your Excellency's desire to promote the general convenience and advantage of the inhabitants, respectfully request, that your Excellency in Council will be pleased to adopt the necessary proceedings for causing said Road to be so opened and altered as to render it available for the use of the public.

Hon. J. S. Macdonald took the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Hon. J. S. Macdonald reported, that the Committee had come to two Resolutions; which Resolutions were again read at the Clerk's Table, and are as follow:

1. **RESOLVED**, That it is the opinion of this Committee, that it is expedient that the Act, 4 Will. 4, cap. 15, for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and the several Acts in amendment thereof, be suspended for one year.

2. **RESOLVED**, That it be recommended to the House, that the Report of the Special Committee be printed as an Appendix to the Journals.

The First of the said Resolutions being again read;

Mr. Clark moved, in amendment thereto, that the words "suspended for one year," be left out, and the word "repealed" substituted.

The House divided on the motion of amendment:

## YEAS :

Mr. Clark, Mr. J. Dingwell,  
Mr. W. Dingwell, Mr. Beck.

## NAYS :

Mr. Rae, Mr. Macfarlane,  
Mr. Macintosh, Mr. Palmer,  
Mr. Maclean, Mr. Hudson,  
Mr. D. Macdonald, Mr. Le Lacheur,  
Mr. Gorman, Mr. Montgomery,  
Mr. Thomson, Mr. Forbes,  
Mr. Longworth, Mr. Fraser.  
Mr. Macneill,

So it passed in the negative.

Mr. Palmer moved, by way of amendment to the said Resolution, that the whole be struck out, and the following substituted :

"Whereas, during the last Session of this House, a Committee was appointed to report on the operation of the Act of the 4th Will. 4, cap. 15, for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and to regulate the duty of Surveyors; and it was resolved that certain discrepancies appeared to exist in the various Boundary Lines of Counties and Townships within this Island, which were not remedied by the provisions of the said Act; which said Resolution was passed at a period too late in the Session to enable the Legislature to make such provisions as might be devised to remedy the losses and inconveniences arising from such discrepancies; and therefore the Act of the 3d Vict., A. D. 1840, was passed, to suspend the operation of the aforesaid Boundary Act for one year, that thereby any time might be afforded to make such provision during another Session as would remedy such defects: And whereas the suspension of the said Boundary Act, although only relating to Prince County, is productive of loss and inconvenience to the public, and it is highly expedient that it should be amended, the Legislature being pledged to do so in passing the said Act of last Session; and it is inexpedient to wholly repeal the said Boundary Act, as no efficient remedy could thereby be had for the proper ascertaining and settling Boundary Lines, many of which remain at this day uncertain:

"Resolved, therefore, that a Committee be appointed to prepare and bring in a Bill to amend the said Boundary Act."

Mr. Thomson moved, as an amendment to the said amendment, that after the word "Whereas," in the first line, all be struck out, and the following substituted:

"The House of Assembly stood pledged to take up the question of the Boundary Act early this Session; and whereas, in accordance with this pledge, the House did, in February last, appoint a Committee to take into consideration the proceedings of the Commissioners under the Boundary Act as regards Lot Three, which Committee have been unable to report until this late period of the present Session; and whereas the House cannot think of passing so important a matter without mature consideration:

"Resolved, therefore, That the consideration of any enactment as to Boundaries be deferred for another year; and in the mean time, that the Act for partially suspending its operation be continued by a short enactment for another year."

The House divided on the last motion of amendment:

## YEAS :

Mr. Thomson, Mr. J. Dingwell,  
Mr. W. Dingwell, Mr. Macintosh,  
Mr. D. Macdonald, Mr. Beck,  
Mr. Le Lacheur, Mr. Macfarlane,  
Mr. Macneill, Mr. Forbes,  
Mr. Montgomery, Mr. Clark,  
Mr. Gorman, Mr. Rae.  
Mr. Fraser,

## NAYS :

Mr. Palmer, Mr. Longworth,  
Mr. Hudson, Mr. Maclean.

So it was carried in the affirmative.

The question being then put on the first motion of amendment, as amended;

It passed in the negative.

The question being then put on the Resolution reported from the Committee;

The House again divided:

## YEAS :

Mr. Montgomery, Mr. Beck,  
Mr. Thomson, Mr. Macneill,  
Mr. Hudson, Mr. Macfarlane,

Mr. Macintosh, Mr. Rae,  
Mr. D. Macdonald, Mr. Fraser,  
Mr. Le Lacheur, Mr. Gorman.

## NAYS :

Mr. Longworth, Mr. Palmer.  
Mr. Maclean,

So it was carried in the affirmative.

The Second of the said Resolutions being again read;

Mr. Palmer moved, in amendment thereto, that after the word "That," all be struck out,

and the following substituted—"it is inexpedient to print the Report of the Special Committee on the subject of the Boundary Act, inasmuch as the same does not contain any information or matter whereon an enactment can be framed; nor any positive conclusion as to what remedy can be adopted to meet the defects complained of:"—which being seconded and put, passed in the negative.

The question being then put on the said Resolution, it was agreed to by the House.

[ See Appendix (Q.) ]

Mr. Rae moved, that the House do come to a Resolution as followeth:

*Resolved*, That last year it was considered necessary to suspend the Boundary Act in regard to Prince County; and from evidence before the House as to the description of Townships, and the plans thereof, and from the gross inaccuracies in the Tabular descriptions, both in the office of the Surveyor General and as transmitted from the Home Government, and from the very unfair practices of some Surveyors in former times in setting the boundaries of Townships, and from the absence, in many instances, of enduring natural land marks, and from many Townships being uninhabited, no distinct remembrance being handed down as to the Boundaries of said uninhabited Townships—therefore, the Commissioners appointed under said Boundary Act have not sufficient data to enable them to ascertain such Boundaries, and that the only remedy which appears applicable to these inaccuracies, is the survey of the whole Island; but that in the present circumstances of the Colony, and at this late period of the Session, the House of Assembly can see no mode of acting so justifiable and so safe as to suspend the operation of the Boundary Act.

Mr. Palmer moved, in amendment to the said proposed Resolution, that the words "suspend the operation of," in the last line, be struck out, and the word "amend" substituted—which being seconded and put, passed in the negative.

The question being then put on the said Resolution;

The House divided:

Mr. Montgomery moved, that the said Bill be now read a second time.

Mr. Rae moved, in amendment, to strike out the word "now," and at the end of the question, to add the words "this day three months."

The House divided on the motion of amendment:

2. RESOLVED, as the opinion of this Committee, that as the House has already taken such procedure in regard to the American Loyalists, as circumstances seemed to require, and as nothing in the Despatch referred to this Committee bears upon such procedure, it is therefore unnecessary to enter on said Despatch.

### Message:

C. A. FITZ ROY, Lieutenant Governor.

The Lieutenant Governor lays before the House of Assembly the copy of a Despatch from the Right Honorable Lord Sydenham, Governor General of these Provinces, in reply to an Address and Resolution of the House of Assembly, praying the Lieutenant Governor to enter into communication with the Governor General, to ascertain how far the United States Government may be willing to contribute a portion of the funds necessary to defray the cost and maintenance of Light Houses on the coast of this Island.

Government House, 5th April, 1841.

GOVERNMENT HOUSE, MONTREAL,  
17th March, 1841.

SIR;

I have the honor to acknowledge the receipt of your Excellency's Despatch of the 27th ultimo, covering copies of an Address and Resolution from the House of Assembly of Prince Edward Island, having in view an application, through me, to the United States' Government, for assistance towards the construction of certain Light Houses on the coast of that Island.

In reply, I beg to acquaint your Excellency, that it appears to me inexpedient to make a communication of this nature to the Government of the United States; and I must there-

fore express my regret, that I cannot meet the wishes of the House of Assembly of Prince Edward Island in this matter.

I have, &c.

(Signed)

STDENHAM.

His Excellency Sir C. A. Fitz Roy, K. H.  
Prince Edward Island.

*Resolved*, That this House do now resolve itself into a Committee of the whole House, to inquire into and take into consideration the State of the Colony, with various other references to the said Committee.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Gorman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Gorman reported, that the Committee had come to three Resolutions, which he was directed to report to the House.

Mr. Gorman also acquainted the House, that he was directed by the Committee to move for leave to sit again—which the House agreed to.

The Resolutions reported from the Committee were again read at the Clerk's Table, and are as follow :

1. Whereas the Legislative Council have, by conference, submitted to this House, for its adoption, the draft of a Petition to Her Majesty, setting forth—"That if by the purchase of these lands from the Proprietors, they were again re-invested in the Crown, for the purpose of being again regranted in small tracts to the tenantry and settlers thereon, it would be hailed by the inhabitants of this Island as the greatest boon which your Majesty could bestow upon them, and would, as your Petitioners conceive, be productive of great and permanent benefits to the Colony. The Council are, at the same time, aware, that this most desirable object cannot be attained without the advance in the first instance of a much larger sum of money than the Legislature of this Colony can command, nor without the free and voluntary consent of the several Proprietors to dispose of their lands, being first obtained."

*Resolved*, That were the tenants and occupants of land settled thereon, so as to secure to them and their descendants the improvements made upon the land at their cost and labour, it would be the greatest benefit which Her Majesty could bestow upon this Colony; but this Committee cannot, directly or indirectly, acknowledge, that the original Grantees, their heirs and assigns, have a good or valid title to the lands of this Island, when the conditions contained in their grants are not performed, or that the proprietors of such grants should take an undue advantage of any indulgence from the Crown (which indulgence is not founded on law or equity) to impose a high rent upon their fellow subjects for such lands, accompanied with conditions, evidently with a view to resume the land, together with the tenants' improvements, when it is cleared and brought into cultivation. That this Committee entertain a high opinion of the wisdom and justice of Her Majesty's Government, and that Her Majesty on being informed that the Proprie-

tors are unreasonable in their demands, will not continue indulgences to enable them to oppress the greater portion of Her subjects, who have cleared the land and improved this Colony. And as the Legislative Council has not shewn that the Proprietors have any other claim to the lands but through the special favour and indulgence of Her Majesty's Predecessors, by withholding the appointment of a Court of Escheat—nor the reason why such favour and indulgence should be charged upon the inhabitants of this Colony—therefore, this Committee cannot recommend to the House to petition Her Majesty to negotiate for the purchase of such claims with proprietors who are not disposed to submit to an equitable arrangement, as provided for in a Bill passed by the House of Assembly in its last and present Sessions, intituled "An Act to authorize the Crown to purchase the Lands, and to regulate the settlement of the inhabitants," &c.

2. Whereas this Committee are led to believe that many of the tenantry, illiterate persons, have been constrained, through fear of distraint and ruinous law proceedings, to give Bonds or other obligations, the nature of which they did not understand, to the Proprietors and their Agents, for arrears of rent, which they are unable to pay, and that were Her Majesty graciously pleased to grant any sum of money to purchase the lands from the Proprietors, as prayed for in the Petition of the Legislative Council, such purchase by the Crown would not secure a settlement to such Tenants, as the Proprietors or their Agents holding such bonds or obligations would in all probability, and might at any time recover the Lands again for the consideration stipulated in said bonds or obligations: *Resolved, therefore*, that there can be no hope of a settlement for tenants and occupants of land, but by an Act of the Colonial Legislature, or of the Imperial Parliament, similar in its provisions to the Bill passed by this House in its last and present Sessions, and rejected by the Legislative Council.

3. *Resolved*, That it be recommended to the House to appoint a Committee to prepare and draw up amendments to be offered to the Petition sent down by the Legislative Council, for the adoption of the House of Assembly.

And the First of the said Resolutions being again read, and the question of concurrence put thereon,

The House divided :

YEAS :

Mr. Clark,	Mr. Rae,
Mr. Maclean,	Mr. J. Dingwell,
Mr. Macfarlane,	Mr. Macneill,
Mr. Forbes,	Mr. Fraser,
Mr. Montgomery,	Mr. Thomson,
Mr. Gorman,	Mr. Macintosh,
Mr. Le Lacheur,	Mr. D. Macdonald.

Mr. Hudson,	

So it was carried in the affirmative.

The residue of the said Resolutions being again severally read, and the question put thereon,

Your Committee appointed to report on the best site of a Light House for the Harbour of Charlottetown, the least expensive mode for its construction, and the manner in which it shall be maintained, have, after obtaining every information on the subject, come to the opinion, that the Western Point of Governor's Island is the best site for its erection; and your Committee herewith respectfully submit a plan of a cheap description of Light House, with an estimate of its probable expense, which they recommend for the adoption of the House; and also, that the House do provide for the amount required for its erection out of the moneys collected under the operation of the Light Duty Acts.

A motion being made that the Report be agreed to,

The House divided:

YEAS:

Mr. Longworth,	Mr. Le Lacheur,

NAYS:

Mr. Macintosh,	Mr. Rae.
Mr. Fraser,	

So it was carried in the affirmative.

The Report as to the expediency of building a Wharf at the Ferry Point opposite Charlottetown, was again read, and is as followeth:

Your Committee to whom was referred the several Petitions praying the House of Assembly to grant a sum of money to erect a Wharf or Hard at Minchin's Point, near the Ferry House, opposite Charlottetown, and to repair the said Ferry House, together with the several Estimates of the cost of the same, having had the said Petitions and Estimates under consideration, your Committee resolved to make a personal inspection of the site of the proposed Wharf or Hard, and of the Ferry House, which having done, and having maturely considered the subject matter of the said Petitions, your Committee beg leave to report, that the present Hard is situate in a Cove, and the outer end of it within the range of two points:—that any Wharf erected in that situation must not only be extended but kept up in future for the whole length within the points; but besides that, the Channel of the Harbour, or such depth of water as will be required to suit the public accommodation, is at a much greater distance from the end of the present Hard

than the necessary depth of water is from the proposed site at Minchin's Point so called, showing that a Wharf or Hard at the latter place will be of most superior convenience to the public, and ultimately a great saving to the Colony. That from the inspection personally made by many members of this Committee, it appears, that the proposed Wharf at Minchin's Point, will require to be extended some length beyond the distance of 360 feet, as estimated by Mr. Theophilus Chappell, in order to reach a sufficient depth of water for public accommodation; and from the soundings lately made under the inspection of the Sub-Committee, it appears that 567 feet in extent will be required for such Wharf.

Your Committee therefore recommend that no further money should be expended on the present Slip, and that a sufficient sum be appropriated by the House for the erection of the said Wharf, to the extent of 567 feet, which your Committee consider can be accomplished for the sum of Seven hundred Pounds, one half of which only would be necessary to be granted this Session; and that the House do pledge itself to grant the residue thereof at its next Session; and that in the mean time His Excellency the Lieutenant Governor be humbly requested to cause tenders to be obtained and a Contract to be entered into for the erection of the said Wharf, as early as the above terms will admit of.

A motion being made, that the Report of the Committee be agreed to,

The House divided on the question :

YEAS :

Mr. Palmer,	Mr. Maclean,
Hon. J. S. Macdonald,	Mr. Beck,
Mr. Longworth,	Mr. Hudson,
Mr. Forbes,	Mr. Le Lacheur,
Mr. Macfarlane,	Mr. Thomson.

NAYS :

Mr. Montgomery,	Mr. Gorman,
Mr. Fraser,	Mr. D. Macdonald,
Mr. J. Dingwell,	Mr. Rae,
Mr. Macneill,	Mr. Macintosh.

So it was carried in the affirmative.

Ordered, That Mr. Thomson, Mr. Longworth, Mr. Palmer, Mr. Le Lacheur and Mr. J. Dingwell, be a Committee to examine and report on the Report relative to Buoys and Beacons.

*TO THE QUEEN'S MOST EXCELLENT MAJESTY.*

Most Gracious Sovereign;

We your Majesty's faithful Commons, the House of Assembly of Prince Edward Island, humbly beg leave to renew the expression of those sentiments of attachment and loyalty which they have ever evinced towards your Majesty's person and Government, and most humbly to represent,

That in the year 1831, your Royal Predecessor was pleased to order the small portion of Crown Lands left ungranted in this Colony to be disposed of at Public Sale, to the highest bidder: That by means of such Sales, persons in the Royalty of Princetown, whose misfortunes, years ago, had compelled them to clear the forest for a subsistence, were, by the Order of 1831, obliged to purchase Lots which they had thus cleared, or compete, at Public Auction, for the very land which their labour had made much more valuable, thus compelling such persons to pay additional sums for their own labour and the improvement of the Colony: That the Crown Lands in the Towns and Royalties (now that the greater number of the best lots are sold), are set up at high prices, which, however willing the Government of the Colony are to abate, yet it does not appear that they are empowered either to grant any portion of land improved by the Colonists prior to the aforesaid order of 1831, at a fixed rate, as they shall judge proper, or to enforce conditions of improvement on parties purchasing at the Government sales, which would work advantageously for the Colony.

That an extraordinary high price is set on the portions of Crown Lands in the several Townships of this Colony, without any just cause, as must be evident from the fact, that Crown Lands, of equal fertility, and in the vicinity of better markets for the sale of agricultural produce in the adjacent Counties of Pictou, Colchester and Cumberland, in Nova Scotia, are sold at from Two to Three Shillings per acre, whilst Twenty Shillings per acre is demanded for Crown Lands in this Island.

May it therefore please your Majesty to take these subjects into your gracious consideration, and to order His Excellency the Lieutenant Governor to use his discretion, as to the price and disposal of the Crown Lands of this Colony to actual settlers.

A motion being made, that the Report of the Committee be agreed to,

The House divided on the question:

To His Excellency Sir *C. A. FITZ ROY, K. H., Lieutenant Governor and Commander in Chief in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral and Ordinary of the same, &c. &c. &c.*

May it please your Excellency;

Mr. Gorman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Gorman reported, that the Committee had gone through the report of the Special Committee, had amended and then adopted the same; and the said Report being read at the Clerk's Table, was agreed to by the House, and is as followeth:

*TO THE QUEEN'S MOST EXCELLENT MAJESTY.*

Most Gracious Sovereign;

We your Majesty's dutiful and loyal subjects, the and House of Assembly of Prince Edward Island, in Colonial Parliament assembled, beg leave to approach your Majesty's throne and person, and most humbly to represent—

That the Lands of this Colony were originally granted in large tracts of Twenty thousand Acres each to private individuals, the greater part of which is still claimed by the descendants or assignees of such Grantees, the majority of the inhabitants on such lands holding as tenants or occupants, and not in fee simple.

That if, by the purchase of these lands from the proprietary claimants, they were again reinvested in the Crown, for the purpose of being sold out in small tracts to the tenantry and occupiers thereof, it would be hailed by the inhabitants of this Island as the greatest boon which your Majesty could bestow upon them, and would, as your Petitioners conceive, be productive of great and permanent benefit to the Colony.

Your Petitioners are, at the same time, aware, that if the Imperial Government shall determine that the compensation for such claims must be paid immediately, and not by instalments, then this most desirable settlement cannot be attained without the advance, in the first instance, of a much larger sum of money than the Legislature of this Colony can at present command.

That as, during the last eight years, repented applications for a Court of Escheat have been rejected by the Colonial Minister, your Petitioners humbly submit, that the mode above referred to—namely, of paying compensation for such claims—is the only other one which to them appears practicable for removing this ground of long-continued dissatisfaction and misery; and whether your Majesty shall determine that the advances necessary for such arrangement shall be made forthwith by the Imperial Government, or that the claimants shall wait such certain limited time as may appear necessary to enable the Colony itself, by instalments, to pay off such claims—whichever of these modes your Majesty may be graciously pleased to determine, your Petitioners will willingly abide by your decision; and, though the Legislative Council do not admit that these claims are disputable, and the House of Assembly assert that these claims are all forfeited—yet, to do away with the evils arising from this dispute, both bodies, united as your Petitioners, pledge themselves to pass such Legislative enactments as will raise for the discharge of such claims to the land of this Colony, and all arrears of rent and obligations for the same, a price which is as high as the cultivators of said land can make good, and higher than the average price of land in the neighbouring Colonies, and nearly double the price of that paid by any of

the British American Land Companies, and higher than the average price of such lands in this Island, when valued by Juries, or when exposed to public sale for non-payment of taxes, as appears from the Report by the Earl of Durham.

May it therefore please your Majesty, taking the premises into consideration, to give such a decision as will free the tenants and occupiers of the lands from the harassed condition in which the majority of them at present are, and the Colony from the embarrassment consequent thereon; and will enable the Colony, by industry and persevering economy, in the course of years, to arrive at the same condition as the neighbouring Provinces.

And as in duty bound the and House of Assembly will ever pray for your Majesty's Royal person.

*Resolved*, That a further Conference be desired with the Legislative Council, on the general State of the Colony, and that at the said Conference the Committee of this House be instructed to communicate, that the House of Assembly suggest that the above Address be presented to Her Majesty, as the Joint Address of both Houses.

*Ordered*, That Mr. D. Macdonald do go to the Council, and desire the said Conference.

*Ordered*, That the same Committee who managed the former Conference be a Committee to manage this further Conference.

The Bill to further continue and to amend the Act for the increase of the Revenue, was, according to order, read a second time.

*Ordered*, That the said Bill be now committed to a Committee of the whole House.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had made some progress, and had directed him to move for leave to sit again.

*Ordered*, That the said Committee have leave to sit again on Monday next.

Then the House adjourned for one hour.

And being met—

Mr. Longworth reported, from the Committee to whom was referred the Petition of divers Inhabitants of Lots Forty-eight and Forty-nine, relative to procuring the right of way for a Road from the Back Settlement of Lot Forty-eight to the shore at Pownal Bay; and the Report was again read at the Clerk's Table, and is as followeth:—

Your Committee to whom was referred the Petition of divers Inhabitants of Lots 48 and 49, setting forth the difficulties they labour under for the want of a Road leading from the Back Settlement, in the rear of Lot 48, to the shore at Pownal Bay, are of opinion, that the proposed Road, as described in the said Petition, would be of very great benefit and advantage to the Inhabitants of that Settlement, as it appears, on inquiry, that the persons residing in said Settlement cannot reach any place for the shipment of their agricultural produce without travelling a distance of, at least, six miles, whereas by the proposed line of road the distance is less than one mile and three quarters; and as the petitioners offer to open and complete the said road at their own expense, provided the right of way is procured for them, your Committee respectfully recommend to the House to vote such sum of money as may be deemed adequate for the purchase of the said right of way.

*Ordered*, That the said Report do lie on the Table.

*Resolved*, That this House do now resolve itself into a Committee of the whole House,

to inquire into and take into consideration the State of the Colony.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Gorman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Gorman* reported, that the Committee had come to a Resolution; which he was directed to submit to the House, whenever it shall be pleased to receive the same.

*Ordered*, That the Report of the Committee be received on Monday next.

Mr. *Gorman* also acquainted the House, that he was directed by the Committee to move for leave to sit again—which the House agreed to.

Then the House adjourned until Monday next, at Ten o'clock.

## MONDAY, April 12, 1841.

**M**R. *CLARK* reported, from the Committee to whom was referred the Petition of James Howlett, of Bay Fortune; and the Report was again read at the Clerk's Table.

*Ordered*, That the said Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. D. Macdonald took the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had made some progress, and had directed him to move for leave to sit again—which the House agreed to.

The Order of the Day, for the House in Committee on the further consideration of the Bill to continue and amend the Act for the increase of the Revenue, being read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Thomson took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Thomson* reported, that the Committee had gone through the Bill, and made several amendments thereto; which amendments were again read at the Clerk's Table, and agreed to by the House.

*Ordered*, That the said Bill, as amended, be engrossed, and that the Title be *An Act further to continue for one year and further to amend an Act passed in the Seventh year of His late Majesty's Reign, for raising a Revenue in this Island.*

Then the House adjourned for one hour.

And being met—

Mr. *Rae* reported, from the Committee appointed to inquire into the expediency of printing the copy of the old Royal Instructions, and accompanying documents, belonging to this House; and the Report was again read at the Clerk's Table, and is as followeth:

The Committee to whom was referred the consideration of the propriety of printing certain documents in the possession of the House, and which appeared, through age, likely soon to fall to pieces, having considered the subject, recommend the printing of the four pages containing the Tabular Descriptions, the same being, in the opinion of your Committee, less incorrect than that copy transmitted by the Imperial Government in 1839.

And the said Report being again read;

Mr. *Palmer* moved, that the House do come to the following Resolution thereupon:

“Resolved, That it is inexpedient to print the Document laid before this House, purporting to be a copy of certain Royal Instructions forwarded to former Lieutenant Governors of this Colony, inasmuch as the same does not appear to be in any manner authenticated, and is said to have been the private property of a gentleman formerly a Member of this House; and such Document being in its present state greatly mutilated, and the description of the boundaries and quality of Township Lands therein being given in very general terms—not from actual survey or exploration in the interior, and as far back as the year 1769—the said description also being already printed in the Journals of this House of the year 1840, as forwarded by the Home Government, at the request of this House.”

Mr. *Le Lacheur* moved, in amendment to the said proposed Resolution, that the words “the private property of a gentleman formerly a member of this House,” be struck out, and the following substituted “the property of a gentleman who had the document for his guidance when acting as Lieutenant Governor.”

The House divided on the motion of amendment:

Mr. *Thomson* then moved, in amendment to the said Report, that after the words “fall to pieces,” all be struck out, and the following substituted—“your Committee recommend, that the said Documents be printed as an Appendix to the Journals of this House, as the same appear to be the most ancient and correct copies in the Colony.”

The residue of the said Resolutions being again severally read, were, upon the question being separately put thereon, agreed to by the House.

Mr. Gorman, from the Committee of the whole House on the State of the Colony, reported, according to order, the Resolution of the said Committee; which Resolution was again read at the Clerk's Table, and is as followeth :

Whereas David Stewart, Esquire, alleges that one of the chief reasons which moved him to purchase Lennox Island, was, to prevent the Indians from being molested thereon by the whites; and as it appears that the Indians had, previous to his purchase, driven off another individual who had purchased from the Montgomeries on the same title as Mr. Stewart has purchased; and as the Indians have resided there since the British came to the Colony, and have thereon their Chapel and Burial Ground, and have no settled occupation of any other part of the territory of this Colony; and as, from the great proportion of the soil thereof being unsusceptible of cultivation, it seems not worth more than £200 currency, even if free from incumbrance: *Resolved, therefore,* that it is the opinion of this Committee, that it is inexpedient to appropriate any money for the purchase of said Island on behalf of said Indians.

And the said Resolution being again read ;

Mr. Palmer moved, in amendment thereto, that after the word "whereas," all be struck out, and the following substituted :

— by the survey and exploration of Lennox Island and Report, as obtained and laid before the House of Assembly, it appears that although the whole quantity of

land contained therein appears to be 1389 acres, yet the greatest part thereof appears to be of a barren and unproductive soil, and that certain of the Micmac Indian Tribe already occupy other parts thereof, and claim title thereto, by virtue of many years' exclusive possession of the same; and that the full value thereof does not appear to this Committee to be beyond £300 currency: *Resolved, therefore*, that it is the opinion of this Committee, that it is inexpedient to appropriate any money to the purchase of said Island on behalf of the said Indians.

Mr. Longworth moved, in amendment to the said proposed amendment, that the words "and that the full value thereof does not appear to this Committee to be beyond £300 Currency," be left out.

The House divided on the motion of amendment:

Yeas, 5.

Nays, 15.

So it passed in the negative.

Mr. D. Macdonald then moved, in amendment to the said proposed amendment, to strike out "£300," and insert "£200," instead thereof.

The House divided on the motion of amendment:

Yeas, 15.

Nays, 5.

So it was carried in the affirmative.

The question being then put on the motion of amendment, as amended,

The House divided:

Yeas, 5.

Nays, 15.

So it passed in the negative.

A motion being then made, that the Report of the Special Committee be adopted, it was agreed to by the House.

Mr. Thomson reported from the Committee appointed to report upon the subject of Buoy and Beacons; and the Report was again read at the Clerk's Table.

*Ordered*, That the said Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Thomson took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Thomson reported, that the Committee had gone through the report of the Special Committee, paragraph by paragraph,

had amended, and then adopted the same; and he read the Report in his place, and delivered it in at the Clerk's Table, where it was again read, and is as followeth:

Your Committee find that the Buoy used in Charlottetown harbour (although made similar to those used in Great Britain), from an improper method adopted to render them water-tight, as well as from a disproportion in the materials of which they are made, are rendered inferior in utility to the common Spar Buoy, while also the latter is much less expensive in its construction and moorings. That the construction of the three Buoy for the Harbour of Charlottetown, together with the expense of mooring and taking them up for two years, cost One hundred and seventy Pounds.

That the expense of the construction and maintenance of two Spar Buoys, at Grand River, King's County, placed in situations equally exposed as the aforesaid Buoys, have cost only Seven pounds twelve shillings.

Your Committee therefore recommend, for the future, the use of the Spar Buoy in all places excepting that of the one buoy at present used within the harbour of Charlottetown, and that His Excellency the Lieutenant Governor be humbly requested to authorize the Commissioners of Highways, in their respective Districts, or such other persons residing at or adjacent to the different harbours, as His Excellency may deem most proper, to advertize and let at auction, to the lowest bidder, on good and sufficient security being given for the construction of Buoys, and of mooring and preserving them, for any term not less than three nor more than four years—the construction of which Buoys your Committee would further recommend as follows, viz: a straight Spar, of cedar, spruce, or pine wood, securely moored short by a chain to a sufficient weight of metal or stone, the spar to be of sufficient length to shew a portion of at least seven feet over water, in a perpendicular position, at high water—such portion to be reduced in size, squared at the top end, of sufficient strength only to support four semicircular thin boards, nailed to the faces of the spar at the top, shewing, at a distance, the appearance of a globe or ball.

A motion being made, that the Report of the Committee be agreed to,

The House divided:

YEAS:

Mr. Thomson,	Mr. Palmer,
Mr. Clark,	Mr. Le Lacheur,
Mr. Macintosh,	Mr. Longworth,
Mr. D. Macdonald,	Mr. Maclean,
Mr. Fraser,	Mr. Dalziel,
Mr. J. Dingwell,	Mr. Gorman,
Mr. Forbes,	Mr. Beck,
Mr. Macfarlane,	Mr. Montgomery,
Mr. Macneill,	

NAY:

Mr. Rae.

Then the House adjourned until to-morrow, at Ten o'clock.

TUESDAY, April 13, 1841.

**R**ESOLVED, That this House do now resolve itself into a Committee of the whole House, on the further consideration of the Report of the Special Committee to whom was referred the Petition of James Howlett, of Bay Fortune.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. D. Macdonald took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. D. Macdonald reported, that the Committee had gone through the Report of the Special Committee, paragraph by paragraph, had amended, and then adopted the same; and the Report, as amended, was again read at the Clerk's Table, and is as followeth:—

Your Committee, to whom was referred the Petition of James Howlett, of Bay Fortune, complaining of the conduct of Peter Maccallum, Esq., Sheriff of King's County, beg leave to report, that they have had before them the said James Howlett, and several others, from whose testimony they are convinced that the conduct of the said Peter Maccallum, Esq., at the sale of the property of James Douglass, in January, 1840, was, under all circumstances, overbearing, and also, that his conduct, in other instances, is well known to have been unwarranted and highly censurable. Such conduct, in such an officer, makes him ill calculated to perform the onerous and responsible duties of the office of Sheriff, which duties should be performed with calm firmness, free from irritable excitement. Your Committee, therefore, humbly recommend the House to address His Excellency the Lieutenant Governor, praying him not to re-appoint the said Peter Maccallum, Esq. to the office of Sheriff.

A motion being made, that the Report of the Committee be agreed to;

Mr. Fraser moved, in amendment, that the words "agreed to," be struck out, and the following inserted—"disagreed to; and that the following be substituted as the Report of the Committee:—

"The Committee to whom was referred the Petition of Mr. James Howlett, of Bay Fortune, submit, that as to the allegations contained in said Petition, they have examined the said James Howlett, and other witnesses; and, in addition thereto, have referred to the examination of last year, and other documents; and find that Peter Maccallum, Esq. acted in

a very arbitrary manner, and with the evident intention of irritating the people so as to provoke them to commit a Riot, at the Sale of Mr. James Douglas's Property, at Bay Fortune; and that if a riot had taken place, he would have been the main cause; and they have to report, that the said Peter Maccallum, Esq., on examination before a Special Committee of this House, admitted that he struck an individual with the butt-end of his whip, at the said sale, without being sure of having received any provocation from that individual. They have further to report, that the said Peter Maccallum, Esq. indicted several individuals, who were present at the said sale, for riot and assault on himself, and by his selecting a Jury in his own case, and also one particular evidence, the said individuals were brought in guilty, and suffered the punishment of the Law; while, from the evidences that have been adduced before your Committee, it would appear that there was no evidence sufficient to warrant such conviction.

"Your Committee have further to state, that the said Peter Maccallum, Esq. made an affidavit that an individual named T. H. Wallis was guilty of an assault on him, the said Peter Maccallum, Esq., and consequently, the said T. H. Wallis was apprehended and incarcerated in Georgetown Jail, until the Term of the Supreme Court held there last March; and while the said T. H. Wallis was anxious to stand a trial, the Court thought proper to release him from further confinement without trial, whereby the country in that case was put to a great expense in subpoenaing witnesses without any cause whatever.

"Your Committee beg to remark, that it would take up more time than can well be spared, to recapitulate, in detail, the malicious and arbitrary conduct of the said Peter Maccallum, Esq., while acting as High Sheriff of King's County—they therefore forbear making any further comments.

"But as your Committee are fully of opinion, that it would tend greatly to the peace of that County, that the said Peter Maccallum, Esq. should not be re-appointed High Sheriff, they would therefore recommend that an Address be presented to His Excellency the Lieutenant Governor, praying that he would be pleased

to dispense with the services of the said Peter Maccallum, Esq. as High Sheriff for King's County, for the time to come."

The House divided on the motion of amendment:

YEAS:

Mr. Fraser,	Mr. Macneill,
Mr. Rac,	Mr. J. Dingwell,
Mr. D. Macdonald,	Mr. Forbes,
Mr. Le Lacheur,	Mr. Macintosh.

NAYS:

Mr. Thomson,	Hon. J. S. Macdonald,
Mr. Gorman,	Mr. Clark,
Mr. Montgomery,	Mr. Dalziel,
Mr. Palmer,	Mr. Beck.
Mr. Longworth,	

So it passed in the negative.

Mr. Palmer then moved, in amendment to the main motion, that the words "agreed to" be struck out, and the following inserted, "disagreed to; and that the following be substituted in lieu thereof:—

"Whereas the grievances represented to the House of Assembly by the Petitioner, James Howlett, have been already investigated, when he was tried in the Supreme Court of Judicature, and found guilty by a Jury of his County of a riot and assault on Peter Maccallum, Esq. High Sheriff of King's County, in the execution of his office; and the imprisonment of which he complains is by virtue of the sentence of the law, duly passed for such offence, and whereas it would be highly unconstitutional in principle for the House of Assembly to inquire into, with a view of disputing or disturbing the Judgment of a Court of law, judicially given by the constituted authorities: and whereas there is no charge preferred in this House against the said Peter Maccallum Esq., other than what is contained in the Petition of the said James Howlett, supported by his own *ex-parte* statements before a committee of this House, and having relation only to the aforesaid matters already tried and determined: and whereas the said Peter Maccallum hath not been called upon to answer to the said complaint, nor to produce any evidence on his behalf therein; nor hath the House of Assembly ever acquainted the said Peter Maccallum that such complaint was even preferred against him: and whereas there has never been, at any session or time, any charge against the said Peter Maccallum, in relation to his Shrievalty or otherwise, preferred to the House of

Assembly by any person whatever; nor has his conduct been complained of in any proceeding taken before or by the order of the said House, wherein the said Peter Maccallum has been called upon to answer to the same, and permitted to adduce evidence on his behalf.

"Resolved, therefore, That it is expedient for the House of Assembly to proceed any further upon the allegations contained in the Petition of the said James Howlett."

The House divided on the motion of amendment:

YEAS:

Mr. Palmer,	Mr. Longworth,
Hon. J. S. Macdonald,	Mr. Hudson,
Mr. Montgomery,	Mr. Maclean.

NAYS:

Mr. Dalziel,	Mr. Rac,
Mr. Le Lacheur,	Mr. Macintosh,
Mr. Fraser,	Mr. Macfarlane,
Mr. Macneill,	Mr. Beck,
Mr. Forbes,	Mr. Clark,
Mr. Thomson,	Mr. D. Macdonald.
Mr. J. Dingwell,	

So it passed in the negative.

Mr. Palmer then moved, as an amendment to the said Report, that after the words "address His Excellency the Lieutenant Governor," all be struck out, and the following substituted—"to cause a constitutional investigation to be made into the conduct of the said Peter Maccallum, Esq."

The House divided on the motion of amendment:

Yeas, 6.

Nays, 13.

And the names being called for, they were taken down, as in the last preceding division. So it passed in the negative.

The question being then put on the main motion, "that the Report of the Committee be agreed to,"

To His Excellency Sir C. A. FITZ ROY, K. H., Lieutenant Governor and Commander-in-Chief in and over Her Majesty's Island Prince Edward, and its Dependencies, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

The House of Assembly most respectfully beg your Excellency not to reappoint Peter Maccallum, Esq. to the office of Sheriff, as, from his overbearing conduct, and still more, from sundry illegal acts done by him in that capacity, manifestly proved before this House, the reappointing the said Peter Maccallum would, in their opinion, not only be inexpedient but dangerous to the

peace of the Colony. In offering this suggestion to your Excellency, the House have not the slightest intention to interfere with your Excellency's power as to the appointment of Public officers—they are solely actuated by a desire to conciliate all classes of Her Majesty's subjects in this Island to the proper administration of justice under your Excellency's authority.

The House of Assembly would further, with all deference, beg to state, that the continuing the same individuals in the office of High Sheriff for more than one year at a time, has not been the practice of this Colony; and though resorted to for the last year, seems neither in unison with the custom of this Colony since it received a constitution, nor with the law and practice of England, and is in direct contradiction to the evident meaning of a Statute of this Island, (26 Geo. III. Cap. 15;) and therefore the House of Assembly would, with all deference, submit to your Excellency, as their opinion, that it would be conducive to the impartial administration of justice, that the same individual should not be continued in the Office of High Sheriff for more than one year at one time.

The Hon. *J. S. Macdonald* moved to amend the said Report, by leaving out the words, "and is in direct contradiction to the evident meaning of a Statute of this Island (26th Geo. 3, cap. 15)."

A Message from His Excellency the Lieutenant Governor.

Mr. Secretary Haviland, by command of His Excellency, delivered the following

#### MESSAGE:

C. A. FITZ ROY, Lieut. Governor.

In answer to the Address of the House of Assembly, praying that Peter Maccallum, Esq. may not be "re-appointed to the office of Sheriff"—and that "the same individuals may not be continued in the office of High Sheriff for more than one year, at one time,"—

The Lieut. Governor regrets that the House of Assembly should have thought it necessary to remonstrate against the reappointment of Mr. Maccallum, upon so vague and indefinite an accusation as that of "overbearing conduct."

With regard to the continuance in office of the High Sheriffs from year to year—while the Lieutenant Governor cannot concur with the House of Assembly in their construction of the Statue of the 26th Geo. 3, cap. 15—he deems it inexpedient to explain to the House of Assembly his reasons for adopting the course pursued in the neighbouring Colonies of Nova Scotia and New Brunswick, in the appointment of Sheriffs; and he must continue to exercise his own discretion in a matter which concerns the Prerogative of the Crown, and for which he alone is responsible.

Government House, 16th April, 1841.

Mr. *Fraser*, from the Committee of the whole House, on the consideration of a Supply, reported, according to order, Twenty-three Resolutions of the said Committee; which Resolutions were again read at the Clerk's Table, and are as follow:—

10. **RESOLVED**, That it is the opinion of this Committee, that the sum of Ten Pounds be granted, and paid to the Office-bearers of the Charlottetown Mechanics' Institute, to be expended in the printing and publishing such works or original matter as they may deem conducive to the advancement of science and useful knowledge.

**M**R. RAE moved, that the House do come to a Resolution, as followeth:

*RESOLVED*, That as there never has been any complaint to shew that such practices as Forestalling and Re-grating were followed in this Colony, and as the Bill sent down from the Council would have manifestly operated to impose many unnecessary and prejudicial restraints on country people, in disposing of such provisions as they had to sell, therefore, that the House in Committee on said Bill rose without reporting.

Whereas the House of Assembly passed a Bill of the same import as the Bill sent down by the Legislative Council, intituled "An Act for the regulation of Juries, and further decla-

ring the qualifications of Jurors," the enactments of which Bill, so passed by this House, were adapted to meet the state of the Colony, and to be a protection to the public against any undue selection of Jurors, which principal objection to the present Jury system on the part of the House, the Bill sent down from the Legislative Council does not provide for: and whereas no provision is made in the Bill sent down to this House to prevent an undue and unfair selection of Jurors, and its enactments may be rendered nugatory, the House therefore deemed it inexpedient to pass any Bill, unless a sufficient safeguard against undue influence in the selection of Jurors was contained in its enactments.

Mr. Montgomery,	Mr. Thomson.
Mr. Macneill,	

So it passed in the negative.

The question being then put on the main motion, it was agreed to by the House.

The Resolutions reported from the Committee were then read at the Clerk's Table, and are as follow :

1. **RESOLVED**, That the people of this Colony are highly dissatisfied with the measures pursued towards them by the claimants of townships. That as the conduct of these claimants and their Agents has been in almost every instance oppressive, and in many instances both oppressive and fraudulent, there is no prospect of the dissatisfaction being done away with, by refusing, year after year, the popular requests for redress.

2. **RESOLVED**, That the House may be dissolved, the representative part of the constitution suspended or abrogated, but these measures will bring neither prosperity, nor even peace; because it is not a desire for an extension of political power which mainly agitates the people, but a desire for even-handed justice, and for land on such terms as that by a union of labour, hardihood and economy, they may live upon it, and leave their dear bought property to their children; and until this be conceded, every branch of industry must languish, and every impartial man, conessing that the people are deeply wronged, will look for the bitter fruits which spring from oppression long persisted in.

3. **RESOLVED**, That this House has derived considerable satisfaction from the Despatch of the Colonial Minister, stating that henceforth the land question "must be considered a public question, and treated accordingly."

4. **RESOLVED**, That this House have no expectation that the correspondence which in said Despatch the Colonial Secretary purposes to open with the Proprietary claimants, will result in any equitable offers being made by said Proprietary claimants.

5. **RESOLVED**, That this House maintain that the rights of the Crown authorise the escheat of the Townships of this Island, and that the real interests of the inhabitants would thereby have been greatly promoted, and that the sales of the land would have cleared off part of the arrears of the Civil List due by those Proprietary claimants to the British Government, amounting to upwards of £120,000, and would, at all events, have made ample provision for said Civil List for many years to come.

6. **RESOLVED**, That though the Colonial Minister, in 1802, ordered said Escheat to be carried into effect, yet, as the Bill prepared in conformity with his instructions, and passed through the Legislature of this Colony, was believed to have been concealed or abstracted after the Crown had assented thereto; and as the influence of the Proprietary claimants prevailed so far as to throw obstacles in the way of any similar enactment; and as, from the year 1830 to 1839, the Colonial Ministers uniformly refused to sanction Escheat, the present House in its Second Session passed a Bill for purchasing such alleged claims, as is explained in the third paragraph of their Petition to the House of Commons, forwarded in 1840.

7. **RESOLVED**, That considering said Bill, and the opinion expressed by the Legislative Council of the same, in their Resolution of 23th April, 1840, (folios 89 and 90 of Legislative Council Journals) and that there was no chance of these Proprietary claimants making any offer which would come near to what the Colony could pay, the House felt themselves called on to pass said Bill a second time.

8. **RESOLVED**, That as the question is to be henceforth a public question, it is expedient to give publicity to all the leading important facts of the case, and that therefore a Committee be forthwith named, to make a list of such Despatches received from Ministers, and of such answers thereto by Governors, and of such reports and examinations made by the House of Assembly, and of such petitions and addresses by the House of Assembly, the Legislative Council, or the people of the Colony, as may seem necessary. That the same shall be printed, and Five hundred copies thereof forwarded, under the direction of said Committee, to Joseph Hume, Esq., as Agent for the House of Assembly, and that said Committee be directed to request Mr. Hume to cause same to be distributed to such Members of the Imperial Parliament, and other influential individuals, as he may think most likely to advocate the cause of the oppressed cultivators of this Island.

9. Whereas the Legislative Council did, on the 23th April, 1840, pass Five Resolutions, the third of which distinctly charges the majority of the House of Assembly with deluding the people whom they represent, and is in all its bearings highly insulting, (see folio 90, of Journal of Legislative Council)—

**RESOLVED**, That the present House of Assembly, in the various procedures wherein they have had to communicate with the Legislative Council, have shewn no disrespect to that body, nor will any part of *their* Resolutions bear any interpretation of reflection on the moral character of any individual of that body. The original and unwise granting the soil of the Colony to a few, and providing that these should have a seat in the Legislature, has set those in opposition to the mass of the people on that most important subject, of the price of rent to be paid for the wilderness—and at the same time has given these few the power of exercising a similar influence in all the departments of public business; and therefore, though the Members of the House of Assembly, as individuals, entertained no ill will to the Members of the Council, yet, as a public body, the House of Assembly was bound to represent the injuries occasioned by this unfortunate constitution. That under the circumstances of the Colony, the House of Assembly could do no less than state the peculiar interests existent in the Legislative Council. How far such statement was consistent with the fact, will appear from sundry of these present Resolutions; and they represented this conduct, not as a system propagated by those at present in the Coun-

cil, but as a necessary consequence of said constitutional defect, particularly alluding thereto in the Resolutions and Addresses of the Sessions of 1839, and fully describing the same in the Sixth Resolution of 1840, (folio 146, of Journals of House of Assembly.) But the Legislative Council, in their reply thereto, refer to alleged "*notoriety*," represent the majority of the House of Assembly as turbulent demagogues, who had devised a plan for plundering the rich, and who, as the Legislative Council had resisted this, were anxious to divert the popular odium, incident on the failure of such scheme, from themselves to the Council. How far this is consistent with fact, will appear from the subsequent part of this Resolution, and from others of these present Resolutions. But in the meantime it may be remarked, that the making the *present House* the originators of the alleged invasion of the rights of property, is in strange contradiction with the Report of the Earl of Durham, particularly that part where he states, that "in every other Colony there has been such a degree of *laches* on the part of the Government, as in equity to preclude it from any enforcement of the conditions upon which the original grants were made; but in Prince Edward Island, scarcely at any time have five years been suffered to elapse without some appeal to the Colonial Ministers, praying that the Crown would resume the grants it had made, as a measure not merely justifiable, but as the only measure that could free the Province from the evils these excessive grants had inflicted." How far it is fact that the delusion of the leaders of the present majority of the House of Assembly "has been the cause of the tenantry allowing their rents to fall into arrear," may be in part illustrated by an Address to the King, wherein it is stated that *this unfortunate disposition of the lands* has produced great evil, and that "the greater number of our settlers are leaseholders, under the large proprietors, and are at this day sinking under the pressure of accumulated rents, which they are unable to pay"—and this is of date April, 1829, when not one of the present Members of the House of Assembly had a seat in that body; and when two, now members of the Legislative Council, were members of the House of Assembly, viz: the Honorable the Attorney General and the Honorable George Dalrymple, who also were both members of the Joint Committee of the Council and House of Assembly, appointed to prepare such Address.

10. **RESOLVED**, further, in regard to said Resolution, that it is unfounded, because that the question was agitated before many of the Members of this Assembly were born, before others had left Britain, before any one of their whole body had the most distant idea of obtaining a seat therein. Further, that it was advocated by the Honorable George Dalrymple, now a Member of the Legislative Council, then a Member of the House of Assembly, from 1830 to 1835; and the measure of escheat, which goes farther than the Bill rejected by the Legislative Council, was acknowledged by the Honorable the

Surveyor General, and the then Solicitor General (Lawson), "to be a lawful measure, and one likely to result in great benefits to the country," and by the Honorable the Attorney General, Robert Hodgson, that "it is competent for the Representative of His Majesty in this Colony to appoint a Commissioner or Commissioners of Escheats therein." (See the examination of these gentlemen, March, 1832, folios 81 and 82, of Journals of House of Assembly.) Lastly, that in 1832, 1833, 1834, and 1835, the majority of the House of Assembly supported Escheat as justifiable, and also as necessary for the welfare of the country, and in that matter shewed no determination to reserve ought for the holders of these forfeited claims to Townships; whereas the present House, in its first measure, proposed a reservation, and in its second measure offered a price to said claimants.

11. **RESOLVED**, That unless the House of Assembly would believe, that self interest, relationship, intimate connection, tenure of lucrative office, (which, according to all former precedent, would have been taken from the holders, if they turned against the proprietary claims,) would have no influence on the minds of men, they could not exclude the conviction that a majority, both in the Legislative and Executive Councils, would be, and had been operated on by these various feelings and motives to resist the demands of the Agriculturists.

12. **RESOLVED**, That the present House of Assembly, in their Resolutions as to the construction of the Legislative and Executive Councils, independent of their own experience, were borne out by the Resolutions of former Houses, and in particular by the Resolutions of the House of Assembly of 1834, (see Journals of that year, pages 87 and 88); and that the Honorable George Dalrymple, now of the Legislative Council, and the Honorable Joseph Pope, now of the Executive Council, moved for the Legislative Council being elective.

13. **RESOLVED**, That the conduct of the Executive Council on sundry occasions is depicted in the Address of the House of Assembly of 1831, at which time only two individuals of the present House (neither of them voting with the present calumniated majority,) were Members of that House; in which Address it is stated, that a large proportion of the Revenue being under the controul of the Governor and Executive Council, has enabled them in some instances to administer the Government without the intervention of the House of Assembly, and in direct opposition to the real interests of the Colony. (Journals of 1831, folio 71.)

14. **RESOLVED**, That the Legislative Council, (vaunting its superior "vested interest,") might possibly be supposed more worthy of credence than the House of Assembly, and that therefore the House of Assembly might have felt a doubt how far truth should prevail over prejudice; but that they have the good fortune of possessing the testimony of one in whom the Imperial Government reposed the highest confidence, and who, though dead,

yet speaketh;—to the Report of the Earl of Durham they refer, and when he describes those claims which the Legislative Council call the sacred rights of property, the Committee feel confident that the representations of the House of Assembly will gain credence.

15. **RESOLVED**, That as appears from sundry advertisements in London Newspapers, a number of these Proprietary claimants have formed themselves into a Society, styling themselves “The Proprietors of Prince Edward Island.” That many of their resolutions and representations thus published appear deceptive, but the Committee not having present access to such papers, can refer specifically to such representations only on one subject, viz: On the “commutation of Quit Rents,” and that in the correspondence thereon their Agent states to the Colonial Minister, that “at the suggestion of Sir John Harvey, and the present Lieutenant Governor, they have yielded to every reasonable demand made upon them in behalf of their tenantry; they have removed every ground of, or pretence for, complaint, and have actually, and of their own accord, offered to sell their lands upon more liberal terms than if they remained under the controul of the government.” (See letter from G. R. Young to Lord Glenelg, 4th April, 1838.)

Whereas at that time the faithful Representatives of the people were under arrest, and the people were suffering without abatement all the evils of which they had so long complained; and their acceptance of the deceptive offer made would in no wise have relieved them. That in said correspondence the said society express their unwillingness to “take a position hostile to the officers of the local Government,” at the danger of their being forced into a controversy with the “local authorities on the Island”—and therefore, **Resolved**, That said Society, styling themselves the Proprietary Association, have been guilty of gross misrepresentation, and of evidently trying to mislead and perplex the Colonial Minister in regard to the concerns of this Colony, and of attempting to controul and even to supersede the Colonial Legislature; and that a few interested individuals resident at a distance from the Island, but within reach of Downing Street, should be allowed to continue to put forth such falsehoods, and frame such intrigues, has been highly injurious to the prosperity of the Colony, and may be destructive of its peace.

16. Whereas, in numerous instances in this Colony, individuals have been located on Leaseholds in the wilderness, and that such Leaseholds are short of the number of acres stipulated; but that such individuals have never been able by proceedings at law to obtain that deduction from their rent corresponding to such deficiency, nor any deduction; and that from the case of James Douglas and Dingwell, detailed in Appendix to Journals of 1840, and from the examination of their Counsel, Messrs. Binns and Young, there seems no prospect of their attaining it, and as the same appears from the case of Lunn to be the decision of the Court as to land with-

in the Fishery Reserves, therefore it is important to exhibit to the Imperial Government such hardships, and with this view, **Resolved**, that the Queries put by the Special Committee of the House of Assembly in 1839, to the Honorable the Attorney and Solicitor General, be printed, and form part of the Appendix to the Journals of this year, and of the documents to be printed for the Imperial Parliament.

17. **RESOLVED**, That many individuals who have leased or bought land from the claimants of Townships have in process of time been deprived of access to any public road, by the said Proprietary claimants leasing or selling the land around such farms, without any reservation of, or allowance for, roads, and in consequence of such procedure, many individuals suffer the most serious inconvenience. That petitions for relief of those labouring under such inconveniency being laid before the Assembly, and the personal knowledge of many members establishing such complaints as well founded, and there appearing to be no remedy at law, as here understood, the House of Assembly passed last Session, and this Session, a Bill for the relief of such inconvenience, which was rejected by the Legislative Council on both occasions.

18. **RESOLVED**, That as the Proprietary claimants have failed in many other instances to reserve roads, or rights for roads, or to deduct, on that account, the least portion of rent or price of the actual quality of wilderness land thus rented or sold, and the different districts requiring roads of access to the harbours and other places where produce is shipped, the House of Assembly have been under the necessity of appropriating money raised, in a great measure, for those holding under lease, to purchase for them and the rest of the public rights of way over portions of land, for every foot of which the holders have to pay rent to the Proprietary claimants, or have already paid the full price.

' of a public question, and as such must be

Mr. Speaker ;

The Legislative Council have passed the Bill intituled *An Act further to continue for one year and further to amend an Act passed in the Seventh year of His late Majesty's Reign, for raising a Revenue in this Island.*

And also,

The Legislative Council do agree to a further Conference, as is desired by the House of Assembly, on the subject matter of the last Conference ; and have appointed the same Committee who managed the last Conference, a Committee to manage this further Conference—to meet in the Committee Room instanter.

And then he withdrew.

And the names of the Managers being called over, they went to the Conference.

And being returned—

Mr. *D. Macdonald* reported, that the Managers had been at the Conference, and he stated the substance thereof to the House.

Then the House adjourned for one hour.

And being met—

Mr. *Rae*, from the Committee appointed to report on the state of the Supreme Court, and other matters connected therewith, reported

the evidence by them taken, in addition to that formerly reported.

Ordered, That the said Evidence, together with the former Report, be referred to the Committee of the whole House on the State of the Colony.

Mr. *Gorman* also acquainted the House, that he was directed by the Committee to move for leave to sit again—which the House agreed to.

The Resolutions reported from the Committee were again read at the Clerk's Table, and are as follow :

1. RESOLVED, That from the Report of the Special Committee, and Evidence reported by the same, it appears, that there are in a year, on an average of the last three years, only fifty-three days on which the Chief Justice is occupied on the Bench, taking into account all the Terms of the Supreme Court in the whole Colony, and only an average of four days occupied by him in hearing Counsel at Chambers, and only, in the whole of these three years, one hundred and fifteen decisions on Record causes, and ninety-two in other causes—say, on Summary causes and Appeals : The natural conclusion appears to be, that the amount of time occupied and business transacted ought not to be considered as excessive for one individual of competent legal acquirements, and in the ordinary state of health.

2. RESOLVED, That taking the facts referred to in the former Resolution into account, it is inexpedient, at present, to make any provision for a salary for an Assistant Judge.

3. RESOLVED, That in case, on the evidence taken before the Committee, and on the letter of the Chief Justice, the Imperial Government should, on his withdrawal, appoint another Chief Justice, it would be for the benefit of the Colony that said appointment should be conferred on some individual not a native of or long resident in this Colony, and still less one connected with the claimants of the Townships therein.

And the First of the said Resolutions being again read ;

Mr. *Palmer* moved, in amendment thereto, that after the word 'Resolved,' all be struck out, and the following substituted—'that it is expedient that provision be made for a professional Assistant Judge at the earliest period which the finances of the country will admit of.'

Mr. *Gorman* also acquainted the House, that he was directed by the Committee to move for leave to sit again, which the House agreed to.

The Resolution reported from the Committee was again read at the Clerk's Table, and is as followeth :

**RESOLVED**, That it be recommended to the House, that the following Petition to the Right Honorable and Honorable the Knights, Burgesses and Citizens of the Parliament of the United Kingdom be adopted as the Petition of the House :

*To the Right Honorable and Honorable the Knights, Citizens and Burgesses of Great Britain and Ireland, in Parliament assembled.*

The Petition of the House of Assembly of Prince Edward Island most respectfully sheweth—

THAT last year a Petition from the House of Assembly was presented to your honorable body, and it was understood, from the reports of the proceedings in Parliament, that the Colonial Minister had expressed himself determined, in one way or other, to redress the grievances complained of.

That the Lieutenant Governor of this Colony has laid before your Petitioners a Despatch, received from the Colonial Minister, stating, that 'Although this question ori-

ginates in motives of private interest, shared equally by landlords and tenants, it assumes, in effect, the character of a public question, and as such must be treated. It is Her Majesty's earnest desire to remove every just cause of complaint, in all parts of her dominions; Her Majesty has been, accordingly, pleased to desire me to enter into communication with the resident proprietors in this country, with a view to learn whether, by any further proposition on their part, means may be found to determine a question which has, for so long a period, agitated the Colony.'

Your Petitioners crave leave to state, that from the oppressive policy long practised by those who style themselves proprietors, (but who are, in reality, only the holders of claims to the Townships of this Island, which claims were long since liable to forfeiture,) your Petitioners have no reason to expect that those individuals will voluntarily accept such amount of compensation for these claims as would be in proportion to the value of the land, or in the power of the Colony to make good.

The House of Assembly beg to state, that the history of the management pursued, in regard to these claims, is to be found at length in the Journals of the House of Assembly for 1833, 1834 and 1835, as well as in the Resolutions of the present House, and is concisely stated in the Report of the late Earl of Durham, and in the evidence thereunto appended—particularly the letter of His Excellency the present Lieutenant Governor of this Colony.

And as the measures proposed by this House, for the settlement of the Colony, have been rejected by the Legislative Council, and as, from the Resolutions passed this session by the House of Assembly, as well as in the sessions of 1839 and 1840, it will appear that there is no prospect of their agreeing; and from the whole facts of the case it is evident that the proprietary constitution of the Colony, like that of Carolina, Pennsylvania, Maryland, and all other proprietary Colonies, cannot either operate beneficially, or amend any of the evils resulting from such constitution—and much less, the principal evil, which is, the thralldom of the cultivators—and therefore we most humbly crave your honourable body to amend that principal evil, the source of so many others.

Your Petitioners beg again this time to state, that if the population of this Island be put, in respect of the tenure of land, on an equal footing with the other Colonies, or on any footing so that they may live free from perpetual harassment, they believe the country will, for the sake of such boon, effectually secured, at present forego any of the well-founded complaints against the undue influence which the Legislative Council exercises, in regard to all other matters within the Colony—though, while such are alleged to be grievous in so many other Colonies, they are more especially galling and insulting in this.

Your Petitioners, with the view of putting your honourable body in possession of the matter, have caused to be printed certain documents, shewing the principal facts of the case; but if any part which to those in this Island may seem fully proved, shall to your honourable body appear doubtful, we pray that you will not, on account of such defect, reject our Petition, but will give opportunity to supply what may be judged wanting.

And as the Representatives of the people of Prince Edward Island, we do most respectfully, and yet with all earnestness, beseech and implore the Honorable the House of Commons so to order the matters submitted, that the people may cultivate the wilderness with a fair prospect of retaining it—that the soil of this Island—situated under the same rigorous climate as that of Nova Scotia and New Brunswick, and which during more than five months in the year is covered with snow, and during that same period is, by an icy barrier around the shores, precluded from any possibility of tillage or of export or import—may no longer be so managed as that those who bring into cultivation the wilderness shall be under perpetual bondage to those who use a territory (unadvisedly granted to them, under conditions which they have never fulfilled, and all liable to forfeiture,) solely for their own pecuniary and political aggrandizement.

And, as in duty bound, your Petitioners shall ever pray.

Mr. Speaker having put the question,

“Is it the pleasure of the House, that the Report of the Committee be agreed to?”

The House divided :

YEAS :

Mr. Rae,	Mr. Gorman,
Mr. Clark,	Mr. Fraser,
Mr. Macneill,	Mr. D. Macdonald,
Mr. Montgomery,	Mr. Macintosh,
Mr. Beck,	Mr. Forbes,
Mr. Thomson,	Mr. Macfarlane,
Mr. Dalziel,	Mr. Le Lacheur.

NAYS :

Mr. Palmer,	Mr. Yeo.
Mr. Hudson,	

So it was carried in the affirmative.

Ordered, That the said Petition be engrossed.

Ordered, That the Committee appointed to superintend the printing of certain Documents extracted from the Journals, touching the Land Settlement question, be a Committee to correspond with Joseph Hume, Esq. and to transmit to him the foregoing Petition, for the purpose of being presented to the Imperial Parliament.

Ordered, That the Committee appointed to superintend the printing of certain documents relating to the Land Settlement question, be a Committee to correspond with Joseph Hume, Esq., M. P., and to transmit to him the foregoing Petition, for presentation to the Imperial Parliament.

The Honorable George Wright, Surveyor General, summoned to appear at the Bar, to give evidence touching the operation of the

Boundary Act, as to certain Townships in Prince County, appeared at the Bar accordingly, and having been examined on the subject matter upon which he was summoned, was dismissed from further attendance.

Ordered, That the order of yesterday, for engrossing the Bill intituled *An Act to suspend for a limited period, in regard to certain Townships, certain parts of an Act passed in the Fourth year of His late Majesty's Reign, for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for other purposes therein mentioned*, be now discharged.

Ordered, That the said Bill be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Rae took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Rae reported, that the Committee had gone into the further consideration of the Bill, and had made an amendment thereto; which amendment, being again read at the Clerk's Table, was agreed to by the House.

Ordered, That the said Bill, as amended, be engrossed.

Then the House adjourned for one hour.

And being met—

Read a third time, as engrossed, the Bill intituled *An Act to suspend for a limited period, in regard to certain Townships, certain parts of an Act passed in the Fourth year of His late Majesty's Reign, for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for other purposes therein mentioned*.

Mr. Macintosh,	Mr. Montgomery,
Mr. Dalziel,	Mr. D. Macdonald,
Mr. Beck,	Mr. Fraser,
Mr. Hudson,	Mr. Gorman,
Mr. Macneill,	Mr. Macfarlane.
Mr. Yeo,	

NAY :

Mr. Palmer.

So it was carried in the affirmative.

*Ordered*, That Mr. *Rae* do carry the said Bill to the Council, and desire their concurrence.

*Resolved*, That this House do now resolve itself into a Committee of the whole House, to inquire into and take into consideration the State of the Colony.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. *Gorman* took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Gorman* reported, that the Committee had come to a Resolution, which he was directed to report to the House.

Mr. *Gorman* also acquainted the House, that he was directed by the Committee to move for leave to sit again—which the House agreed to.

The Resolution reported from the Committee was again read at the Clerk's Table, and is as followeth:

*Resolved*, That it is the opinion of this Committee, that it has been the fashion of interested individuals, of late, to represent the soil of the Island as much more valuable than the cultivated portions of the neighbouring Colonies; but that this is contrary to fact, and that its capabilities for agriculture were faithfully represented in the Resolution of this House, of the 24th April, 1839 (folio 78, of its Journals), and are confirmed by the examinations of Messrs. Bell and Miller, of Township Number Thirty-five, and Messrs. Arthur

and Johnston, of Township Number Twenty-three, taken before the Committee of Evidence this Session; and still more indubitably by the Report of the late Captain Holland, who, as Surveyor General of British North America, examined and reported on this Island in 1765.

The question of concurrence being put on the said Resolution,

The House divided:

YEAS:

Mr. <i>Gorman</i> ,	Mr. <i>Maclean</i> ,
Mr. <i>Clark</i> ,	Mr. <i>Beck</i> ,
Mr. <i>Montgomery</i> ,	Mr. <i>Dalziel</i> ,
Mr. <i>Fraser</i> ,	Mr. <i>Rae</i> ,
Mr. <i>D. Macdonald</i> ,	Mr. <i>Macfarlane</i> ,
Mr. <i>Macneill</i> ,	Mr. <i>Macintosh</i> .
Mr. <i>Le Lacheur</i> ,	

NAYS:

---------------------	------------------

So it was carried in the affirmative.

A motion being made, that there be a Call of the House on Monday next;

Lieut. Governor

Sir C. A. Fitz Roy, &c. &c. &c.

*Ordered*, That the said Message and Despatch do lie on the Table.

A Message from the Legislative Council, by Mr. Desbrisay :

Mr. Speaker :

The Legislative Council have passed the Bill intituled *An Act for the regulation of the Fishery Reserves in this Island*, with several amendments, to which they desire the concurrence of the House of Assembly.

And then he withdrew.

And the Amendments to the said Bill were read the first time, and are as follow :—

*Folio 8, line 2*—Strike out from the word “pursuance,” to the word “Fishery,” in folio 32, line 5, both inclusive, and insert—

“And be it further enacted, That in all cases where any person or persons, who at the time of the passing of this Act shall be in the *bona fide* possession or occupation of any of the said Fishery Reserves, either by virtue of any Deed, Grant, Lease, or Agreement for Lease, or other Conveyance, from any original Grantee, his Heirs or Assigns, every such person or persons, their Heirs, Executors, Administrators or Assigns, shall be, and they are hereby confirmed in their several possessions and occupations as aforesaid—subject nevertheless to the right reserved for a free Fishery for all her Majesty's subjects, as hereinafter provided, under the following limitation and restriction (that is to say)—that no portion of the said Reserve which shall be occupied by any Building of any description, Farm-yard, Garden, Orchard, Mill-dam or Ship-yard, or on the front side, or end nearest the coast of any Building, Farm-yard, Garden, Orchard, Mill-dam or Ship-yard, or within the space of Sixty feet of any other side or end of any Building, Farm-yard, Garden, Orchard, Mill-dam or Ship-yard, as aforesaid, shall be liable to be occupied for the purpose of carrying on the said Fishery during the continuance of the term for which such person or persons shall be in such *bona fide* possession or occupation, as aforesaid.

“And whereas great mischief and inconvenience may result from permitting persons wrongfully in possession of parts of the said Reserves, to hold the same against the Proprietor, Lessor or Owner of the Lands adjacent to and in the rear thereof, notwithstanding such persons may be liable to be ejected or amoved from

such Lands in rear thereof:—For the preventing of which, be it therefore enacted, That whenever any Proprietor, Lessor or Owner of Lands immediately in rear and adjacent to the said Fishery Reserves, shall, would or may be able to maintain an action against the Tenant or Tenants, Occupier or Occupiers of such Lands, for recovering the possession thereof, such Proprietor, Lessor or Owner shall also have a right to enter into or maintain an action against such or any Tenant or Tenants, Occupier or Occupiers, having or being in possession of any part or parts of the said Reserves, adjacent to and in front of such Lands, unless such Tenant or Tenants, Occupier or Occupiers, shall shew a good and legal right and title thereto, or to the possession thereof:—And in like manner, be it further enacted, That whenever any Rent shall be due and in arrear, for and in respect of any Lands adjacent to and in the rear of the said Reserves, and the Lessor or Landlord thereof shall be entitled to distrain therefor on such Lands, it shall and may be lawful for such Lessor or Landlord to enter upon any part or parts of the said Reserve, and distrain thereon, for the purpose of satisfying such arrears of Rent, although, by virtue of this Act, such may be only due and in arrear in respect of or chargeable on the Land adjacent to, and in rear of the part of the said Reserves upon which such entry may be so made, or distress taken: Provided, that the person or persons in possession of the part of the said Reserves, into which such Lessor or Landlord shall go, enter or distrain, be Tenant or Tenants, Occupier or Occupiers, of the Land adjacent to and in rear thereof, and in respect of which such Rent shall have accrued due: And further provided always, that nothing in this clause contained shall extend, or be construed to extend, to give any right of action or suit against or in any way to enable or empower any Proprietor, Lessor or Owner, to disturb, injure or molest any person or persons in the possession of, or occupying any part of, the said Reserves, for fishing purposes, according to and under the provisions of this Act, or to extend, or be construed to extend, to affect, change, alter, take away, or in anywise interfere with the right of Her Majesty, Her Heirs and Successors, to the whole, or any part, of the said Reserves; but that as between Her Majesty, her Heirs, Successors, and such Proprietors, Lessors or Owners, the right to the said Reserves shall stand and be in the same plight and condition as if this clause had not been enacted.

“And be it further enacted, That where any land that may be bounded by the sea coast of this Island has been granted or sold by the Crown, or on behalf of the Crown, or by the authority of the Act of the General Assembly intituled “An Act to authorize the sale of Lands in this Island reserved as sites for Churches, and for Glebe and School Lands,” in pieces or parcels not exceeding Three hundred acres in one piece or parcel, without any allowance or deduction having been made for the said

Reservation in the said Grants or Deeds, then, and in such case, such Grantee or Feoffee shall not be liable or subject to the said Reservation, but shall retain the same, and keep possession thereof, peaceably and quietly, the same as if this Act had not been made.

“ And whereas it is not reasonable or just that the Freholders and Tenantry of this Island should be harassed with frequent and expensive litigation, if it can be prevented; but it is nevertheless probable, that in consequence of the numerous disputes and controversies likely to occur, as to the extent of the said Fishery Reserves, they will be exposed to the same, unless the extent of the said Reserves be in some way defined and ascertained—For remedying of which, and for the preventing of harassing and ruinous litigation, be it therefore further enacted, That as soon as conveniently may be, after the passing of this Act, it shall and may be lawful for the Lieutenant Governor, or Commander in Chief, by and with the advice of Her Majesty’s Executive Council, to appoint three fit and proper persons (of whom the Surveyor General of this Island for the time being shall be one), to be Commissioners for ascertaining and settling the extent of the said Fishery Reserves, in the manner hereinafter directed; which said Commissioners (being first duly sworn, before some Judge of the Supreme Court of this Island, well and faithfully to discharge the duties of their office, according to the best of their skill and judgment) shall, within Twelve Months after their appointment, examine the Headlands or Entrances of the several harbours or inlets on the coasts of this Island, and define and settle the same, by declaring what respective headlands or points shall be considered and held to form the mouth or entrance of such harbours or inlets respectively: and the said Commissioners shall thereupon make a Report and Plan of their proceedings, under their hands, clearly pointing out and specifying the respective headlands or points so defined and settled by them as aforesaid, and shall file the same in the office of the Surveyor General of this Island—which Plan or Report, so filed as aforesaid, shall be received and taken as conclusive evidence of the proceedings of said Commissioners in all the Courts of this Island; and that none of the said Fishery Reserves shall be held or construed to extend or come within the Mouth or Entrance of any harbour or inlet on the coast of this Island, beyond such respective headlands or points so defined and settled as aforesaid: and in case of the death, absence or removal of any of the said Commissioners, before the whole duty of their office shall have been completed, it shall and may be lawful for the Lieutenant Governor, by and with the advice of Her Majesty’s Executive Council, to appoint another or others in the place of such Commissioner or Commissioners so dying or being absent, or removing: Provided always, that the power of the said Commissioners shall not extend to declare any of the Marshes or Sandhills, or any part thereof, on the coasts

of this Island, to be within the said Fishery Reserves; but the same are hereby declared not to extend to the said Marshes or Sandhills, or any part thereof—anything in the Reservations contained in the said Grants from the Crown of the respective Townships or Islands belonging thereto, to the contrary thereof, in any wise notwithstanding.

“ And be it further enacted, That as soon as may be, after the said Commissioners shall have made a Report and Plan of their proceedings as aforesaid, it shall and may be lawful for the Lieutenant Governor, by and with the advice of Her Majesty’s Executive Council, to appoint two or more persons, as Conservators of Fishery Reserves, in each of the Counties of this Island, who shall have full power and authority to enter into, examine, lay off and admeasure any parts of the said Reserves, in their respective Counties, in such form and manner as are hereinafter directed by this Act.

“ And be it further enacted, That when and as often as any person or persons shall be desirous of obtaining any part or parts of any of the said Fishery Reserves, for the purpose of carrying on a free Fishery, he shall apply to one or more of the Conservators appointed for the County in which such Reserve is situated (which application shall be made in writing, on or before the First day of April, in each and every year), and shall also make and subscribe the affidavit to this Act annexed, marked (A.), before the said Conservator, who is hereby empowered and required to administer the Oath and attest the same; whereupon the said Conservator is authorized and directed to proceed, without unnecessary delay, to examine the particular part of the said Fishery Reserve which the said applicant is desirous of obtaining; and if the said Conservator shall be of opinion that the said situation, so applied for, be eligible for the purpose for which it is required, he shall thereupon lay off a proportion of the said Fishery Reserve, to the extent to which the said applicant may be entitled, as is hereinafter provided, and shall grant a certificate, under his hand, stating the name of the person, if any, in the possession thereof, and describing the Boundaries, and the area thereof, and whether the same is in a cultivated or wilderness state—which Certificate shall be furnished to the person or persons applying for the said Fishery Reserve, who is thereupon required to serve a copy of the same at the Dwelling House of the person in possession of the same, if any; and within ten days next after such service, it shall and may be lawful for the said person or persons to whom the said Certificate of the said Conservator is granted, to enter into possession, and occupy the said Fishery Reserve described in the said Certificate, so long as it shall be required for the *bona fide* purpose of carrying on a free Fishery as aforesaid; and if in such case the said Fishery Reserve shall be in a wilderness and unoccupied state, then it shall and may be lawful for the person or persons to whom the same has been allotted by the said Conservator, to

enter into, take possession of, and occupy the same, immediately upon the Certificate from the said Conservator being granted: Provided always, that if within four months next after granting such Certificate, no possession or occupation shall have taken place by such person or persons obtaining the same, then the said Certificate shall be void, and of no effect: Provided also, that in all cases where any person or persons shall consider himself or themselves aggrieved, by reason of any station being selected and certified by any such Conservator, and which he or they shall consider ineligible or too extensive for the purposes required, then, and in such case, every such person shall have the right to appeal to the Supreme Court of Judicature, at any time within ten days after service of such Certificate, by giving to the said party applicant notice, in writing, of such his or their intention—which notice shall be in the form of the Schedule to this Act annexed, marked (B); and upon hearing evidence thereupon, the said Court is hereby authorized and empowered, in a summary way, either to confirm the said Certificate, or vary or lessen the same, as to the said Court shall appear most conducive to the ends of justice, and, in its discretion, to give to either party such costs as the Court may award.

“ And be it enacted, That no person or persons shall be deemed to be carrying on a Fishery, under the meaning of this Act, unless such person or persons shall keep at least one good and sufficient Boat, of not less than fourteen feet keel, properly equipped, and manned with at least three able-bodied men, and shall keep the same exclusively employed, for and during the space of Ninety days, between the First day of *May* and the First day of *October*, in carrying on the Fishery; and that no person or persons shall occupy more than twenty feet of the front of the said reserved Lands for every male person.

“ Provided also, and be it further enacted, That nothing in this Act contained shall extend, or be construed to extend, to prevent any of her Majesty's subjects, engaged in fishing Mackerel, Herrings or Alewives, from drying his or their Nets, or from curing the fish so taken, on any part of the said reserved land, not being previously occupied for the purpose of carrying on the Fishery.

“ And be it further enacted, That nothing in this Act contained shall be construed to prohibit or prevent any person or persons, who shall carry on a Fishery under the provisions of this Act, and who shall erect any Building or Buildings for that purpose on the said Reserves, from removing such Building or Buildings, or from disposing, by himself or themselves, or his or their Heirs, Executors, Administrators or Assigns, of the said Building or Buildings, to any other person or persons who may continue to carry on said Fishery, as contemplated by this Act: Provided always, that if any such

person or persons shall cease to carry on such a Fishery, between the First day of *May* and the First day of *November*, in any year, or shall neglect to dispose of or remove such Building or Buildings, during the period aforesaid, then he or they shall forfeit the title of possession to such premises, and the Buildings erected thereon; and the same may be occupied by any other person or persons, who shall, in the manner hereinbefore directed, have obtained the same for the purposes of the Fishery.

“ And be it further enacted, That if any person or persons shall knowingly or wilfully make a false affidavit or oath, in any case wherein affidavits or oaths are required to be made or taken, under and by virtue of this Act, such person or persons, on due conviction thereof, shall be subject to the pains and penalties imposed by law upon persons guilty of wilful and corrupt perjury.

Dated this day of 184 .  
To Mr. *C. D.*”

A motion being made, that the said Amendments be read a second time to-morrow;

Mr. *Rae* moved, by way of amendment, that the House do come to a Resolution as followeth:—

“ Whereas the amendments proposed by the Legislative Council to the Bill for regulating the Fishery Reserves are substantially

the same as those proposed last year by the said Body, and would defeat in a great measure the intention of these Reserves, by interposing so many difficulties, forms, delays and expenses in the way of the fishermen, as would prevent them from availing themselves of the privilege—and in particular as it is notorious to all well conversant with the Island, that a great proportion of the fish used in the Island is caught by fishermen using Flats and Canoes, which by these amendments is excluded, and that fishing is carried on in many places of the coast, which would, by said amendments, be excluded from said Reserves—Therefore, and for the reasons set forth in the Resolutions and Addresses of the House of Assembly, in 1839 and 1840—Resolved, that the amendments of the Legislative Council to said Bill be read a second time this day three months.”

Mr. Rae, from the Committee appointed to search the Journals of the Legislative Council, as to the proceedings had on the proposed Joint Address to Her Majesty, on the subject of the Land Settlement question, reported, that they had found the following entry :—

## LEGISLATIVE COUNCIL CHAMBER,

Tuesday, 13th April, 1841.

## Present:

The Hon. Mr. Brecken,	The Hon. Mr. Livett,
Mr. Worrell,	Mr. Dalrymple,
Mr. Macdonald,	Mr. Solicitor General,
Mr. Macintosh,	Mr. Young.

The time appointed for holding the further Conference with the House of Assembly, on the general State of the Colony, having arrived, the names of the Managers being called over, they went to the Conference, and being returned, they reported, that they had attended at the said Conference, with the Committee of the House of Assembly, and that that Committee had informed them that the House of Assembly had not exactly agreed to the Address, as sent down to them by this House, on the subject of the proposed purchase of the lands of this Colony, and had handed to them a written paper, as their reasons on the subject; which paper, being again read by the Clerk,

Resolved, That the same does not contain any reasons whatever, for assenting to, or dissenting from the said Address, as sent down by this House to the House of Assembly, but, on the contrary, appears to be another Address to Her Majesty, differing very materially from that agreed to by this House, and so sent down to the House of Assembly, for their concurrence.

Resolved, That by the course adopted by the House of Assembly in this matter, this House is precluded from taking into consideration the said paper handed in by their Committee, to the Committee of this House, the same having been handed in as containing reasons of the House of Assembly for not "exactly agreeing" to the Address proposed by this House, whereas the same appears to be another Address to Her Majesty, differing materially from the one sent down to the House of Assembly for their concurrence, and, which, to enable

this House to consider in a proper and parliamentary mode, should have been delivered in at the said Conference as amendments proposed by the House of Assembly, to the Address sent down to them by this House, for their concurrence.

On motion, *Ordered*, that a free Conference be desired with the House of Assembly, on the general state of the Colony.

*Ordered*, That the same Committee who managed the last Conference thereon, be a Committee to manage this free Conference, to meet in the Committee Room instanter.

*Ordered*, That the Committee on the part of this House, be instructed to state to the Committee of the House of Assembly, that the Council desire to know, whether the House of Assembly have agreed to join in the Address to Her Majesty, sent down by the Council, on the subject of the purchase of the Lands of this Island, by the Imperial Government.

A Message from the House of Assembly, by Mr. Rae.  
Mr. President;

The House of Assembly do agree to a free Conference, as is desired by the Legislative Council, on the subject matter of the last Conference, and have appointed the same Committee who managed the last Conference, a Committee to manage this free Conference.

And the names of the Managers being called over, they went to the Conference—and being returned, they reported, that they had complied with the instructions given them by this House.

A Message from the House of Assembly, by Mr. Rae.  
Mr. President;

The House of Assembly desire a further free Conference with the Legislative Council, on the subject matter of the last Conference, and have appointed the same Committee who managed the last Conference, a Committee to manage this further free Conference.

On motion, *Ordered*, that a further free Conference be agreed to, as is desired by the House of Assembly.

*Ordered*, That the same Committee who managed the last Conference be a Committee to manage this further free Conference.

- *Ordered*, That a Message be sent down to the House of Assembly, acquainting them therewith.

And the names of the Managers being called over, they went to the Conference—and being returned, reported, that they had met the Committee of the House of Assembly, who handed to them a certain paper, writing, which was read.

Resolved, That no amendments to the Address sent down by this House to the House of Assembly for their concurrence, have been conveyed to this House in Conference, as mentioned in the foregoing statement, handed to the Committee of this House, by the Commit-

tee of the House of Assembly; on the contrary, what is called by the House of Assembly amendments to the said Address, is a new and distinct Address, and in many respects entirely different from the Address sent down to them by this House; and that it is, and always hath been, the usual parliamentary course of proceeding in this Colony, founded on the practice of the Imperial Parliament, where amendments are made by either House to any measure sent to them by the other House for their concurrence, to treat the same by stating them to be amendments proposed to the measure, whatever the same may be, and by desiring to strike out certain lines or words, and to insert other words instead thereof, or otherwise, as the case may seem to require, and to desire the concurrence of the other House to such proposed amendments.

*Resolved*, That this House do now resolve itself into a Committee of the whole House, to inquire into and take into consideration the State of the Colony.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Gorman took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Gorman reported, that the Committee had come to Five Resolutions; which Resolutions being again read at the Clerk's Table, were agreed to by the House, and are as follow:

1. *RESOLVED*, That if the Legislative Council, in their representations of the Members composing the majority of the present House of Assembly, had stated that many of said majority were cultivators, under lease, of land which they had cleared from the wilderness—that only six or eight of them lived on freehold farms—that many of them were not possessed of more than a very moderate amount of property—that none of them were ashamed to labour to raise the bread they ate—that many of them were pledged by the country to pursue that line which they have followed—that the urgent entreaties of their neighbours prevailed on some to accept an office honorable to them, but exposing them, if they voted according to their conscience and pledge, to the bad offices of men in power—the House of Assembly must have confessed that all these were facts.

2. *RESOLVED*, That as the Legislative Council have repeatedly rejected the Bill for the settlement of the Inhabitants—the Bill for opening Roads—the Bill for relieving Tenants from bearing the entire burden of the Land Assessment—the Bill for the relief of the Loyalists and Disbanded Soldiers—and have, by their amendments to the Fishery Reserve Bill, for this and the two previous Sessions, gone contrary to the evident meaning of Lord Glenelg's Despatches—therefore, in regard to a joint Address to the Throne, the House of Assembly are obliged to conclude, that there is

great doubt whether said Council will agree to any Address making any close approach to a real redress of grievances; and as the Imperial Government seem to think that every Colony exaggerates its own grievances, the Address thus frittered down by the Council, and modified in meaning by the Home Government, would end in something akin to nothing: *Therefore, Resolved*, That the House of Assembly must leave to the Council to state its own views to the Imperial Government, with this understanding, that if, any time before the close of the Session, the Legislative Council shall agree to the amended Address transmitted to them by the House of Assembly, the House of Assembly, laying aside a separate procedure, will heartily concur with the Legislative Council in said Address.

3. *RESOLVED*, That the Legislative Council having requested a Free Conference with the House of Assembly, and the House having agreed to the same, the managers of said Conference, on the part of this House, on their return, handed in, as the subject of said Conference, an Address to the Crown, drawn by the Legislative Council, with blanks left at the proper places, to be filled in with the words "House of Assembly," in case the House should agree to said Address—that the House could not agree thereto, for the reasons stated in the Resolutions which they entered into thereon, but sent up such an Address as they could concur with, through the medium of the same Committee who managed the former Conference; who handed the said original Address, and the amended Address, to the managers on the part of the Council—that said amended Address was drawn up in regular form, headed "To the Queen's Most Excellent Majesty," and was evidently an Address, and not reasons for not concurring, and was not stated to be reasons for not concurring—that it would seem strange how the Legislative Council could ever have mistaken an Address to be concurred in, for reasons for not concurring—that thereafter, when such astonishing misapprehension was removed, the Legislative Council, through the same medium of Conference, endeavoured to impress on the House, that, in amending an Address, sent down as this had been, the House of Assembly had violated all rule and precedent, and was bound to accept or reject the document as sent down; and that when, by undeniable precedent, the House of Assembly proved their own procedure to be correct, the Legislative Council appear to have made some objections to form (which objections, however, the House of Assembly do not think well founded), and having desired no further Conference on the said subject: *Therefore, Resolved*, That the House of Assembly have, in the whole procedure, shewn every readiness to concur with the Legislative Council in any Address which would be so worded as not to sacrifice the rights of the Crown and the country, by acknowledging the claimants of Townships to have unchallengeable titles to the said Townships, in defiance of the most unquestionable evidence of the same being liable to forfeiture.

4. *RESOLVED*, That comparing the advertisement, of which the subjoined is a copy, with the reiterated refusals of the measure of Escheat to this Colony, the conclusion must be, that there is in this Island, or in Great Britain, or in both, an influence which prevents this Colony from being allowed the same beneficial laws as the neighbouring Colonies.

## A PROCLAMATION.

By His Excellency the Right Honorable Lucius Bentinck, Viscount Falkland, Knight Grand Cross of the Guelphic Order, and Member of Her Majesty's Most Honorable Falkland. Privy Council, Lieutenant Governor and Commander in Chief in and over Her Majesty's Province of Nova Scotia, and its Dependencies, &c. &c. &c.

Whereas the Proprietors of extensive tracts of valuable land in various parts of the Province have neglected to fulfil the conditions attached to the Grants thereof, and the settlement of the country having been, by such neglect, greatly retarded, the House of Assembly have requested that measures may be adopted "to re-invest the Crown with all Wilderness Lands owned by absentees who have not complied with the terms of the Letters Patent, under which the said Lands are held."

I do, therefore, by and with the advice of Her Majesty's Executive Council, issue this my Proclamation, for the purpose of making it publicly known, that I have directed the Commissioners of Crown Lands to furnish me with a report of all tracts of land heretofore granted and now liable to forfeiture, whether belonging to residents or absentees, and that I shall cause the necessary legal proceedings to be instituted, at the expiration of eighteen months from the date hereof, for escheating all such tracts of land as shall not be, at that period, improved to the extent required by the terms on which the Crown parted with its right thereto, in order that the same may be regranted to persons who will become *bona fide* settlers.

Given under my Hand and Seal at Arms, at Halifax, this 15th day of April, in the year of our Lord One thousand eight hundred and forty-one, and in the Fourth year of Her Majesty's Reign.

By His Excellency's Command,  
RUPERT D. GEORGE.

*God save the Queen.*

Council and Assembly, on the subject of the purchase of the Lands by the Imperial Government, as amended by this House, with an humble Address, requesting that he would be pleased to forward the same to Her Majesty's Government.

*Resolved*, That the following Address to His Excellency the Lieutenant Governor do now pass.

*Ordered*, That the said Address be engrossed.

*Ordered*, That Mr. D. Macdonald, Mr. Fraser, Mr. Macfarlane, Mr. Le Lacheur and Mr. Beck be a Committee to wait upon His Excellency with the said Address.

And then he withdrew.

Mr. Rae moved, that the House do come to a Resolution, as followeth:—

Whereas no part of the Act, 4th Wm. 4th, cap. 15, nor of the amendments thereto, will bear out the Commissioners for settling Boundaries in giving to four out of five Townships (all contiguous), the full quantity of land, at the expense of one of these five, which would thereby be cut down to nearly one half the quantity named in the Grant thereof—the more especially when those five Townships are not only contiguous but parallel, and when the full boundaries of all are found on the North East shore; and when on the South West shore there appears a want of natural landmarks, and when the Surveyor General, as one of the Commissioners, has, on examination before the House, declared that they have no data for ascertaining these lines on the South West shore, unless by an extensive shore survey—*Therefore, Resolved*, that by no reason in equity, nor by any fair interpretation of the intent of the Act above referred to, nor of the powers it gives, can such lines be determined without a shore survey, and still less can the whole of a deficiency of land be made to fall on Lot Three, when such deficiency rests on mere hypothesis, and when a

Surveyor in constant practice in that part of the Island, declares that he does not believe there is any deficiency of land.

And the motion being seconded, and the question put thereon, it was carried in the affirmative.

Mr. Rae moved, that the House do come to the following Resolution:—

*Resolved*, That considering the state of the Records in the office of the Surveyor General, the errors in the Tabular References, the absence of enduring natural landmarks, the changes on many places of the coast, and various other circumstances, the House of Assembly considered that great injustice had been done, and would be done, in many parts of the Island, through carrying the Boundary Act into operation, and therefore passed a Bill this Session for continuing the suspending Clause passed last year, but which was rejected by the Legislative Council.

The House divided on the question :

YEAS :

Mr. Rae,	Mr. <i>rk</i> ,
Mr. Forbes,	Mr. Macdonald,
Mr. Macfarlane,	Mr. Le Lacheur,
Mr. Dalziel,	Mr. Beck,
Mr. Montgomery,	Mr. Gorman,
Mr. Fraser,	Mr. W. Dingwell.
Mr. Macneill,	

NAYS :

Mr. Palmer,	Mr. Hudson.
-------------	-------------

So it was carried in the affirmative.

Mr. Rae moved, that the House do come to a Resolution, as followeth:—

*Resolved*, That taking such rejection into consideration, and being anxious to prevent, if possible, the most glaring injustice likely to be effected through the operation of said Boundary Act on Lot Three, the House of Assembly passed a second Bill, suspending the operation of said Boundary Act in regard to Townships 2, 3, 4, 5 and 6; and would appropriate what might be requisite for a shore Survey, were they satisfied that an Act taxing the five last Townships referred to, would be passed by the Legislative Council, and sanctioned by the Privy Council.

Mr. *Hudson* moved, by way of amendment, that after the word "Resolved," all be struck out, and the following substituted:—"That His Excellency be requested to suspend for the present year the operation of the Act for establishing and regulating the Boundary Lines of Counties and Townships."

And the question being put on the motion of amendment, it passed in the negative.

Mr. *Clark* moved, by way of amendment, that after the word "Survey," all be struck out.

The House divided on the question :

YEAS :

Mr. <i>Le Lacheur</i> ,	Mr. <i>Dalziel</i> ,
Mr. <i>W. Dingwell</i> ,	Mr. <i>Palmer</i> ,
Mr. <i>Forbes</i> ,	Hon. <i>J. S. Macdonald</i> ,
Mr. <i>Beck</i> ,	Mr. <i>Maclean</i> ,
Mr. <i>Macneill</i> ,	Mr. <i>Macfarlane</i> ,
Mr. <i>Clark</i> ,	Mr. <i>Hudson</i> .

NAYS :

Mr. <i>Fraser</i> ,	Mr. <i>Macintosh</i> ,
Mr. <i>Rae</i> ,	Mr. <i>Gorman</i> .
Mr. <i>D. Macdonald</i> ,	

So it was carried in the affirmative.

Mr. *Rae* moved, in further amendment to the said Resolution, to strike out the word "might," and insert "on a Bill being passed next Session for taxing the Townships above referred to, might be necessary for defraying the expense of such Survey;" which, being seconded and put, was carried in the affirmative.

The question being then put on the said Resolution, as amended ;

The House divided :

YEAS :

Mr. <i>Rae</i> ,	Mr. <i>Macintosh</i> ,
Mr. <i>Macfarlane</i> ,	Mr. <i>Dalziel</i> ,
Mr. <i>Fraser</i> ,	Mr. <i>Hudson</i> ,
Mr. <i>Macneil</i> ,	Mr. <i>Clark</i> ,
Mr. <i>Forbes</i> ,	Mr. <i>Le Lacheur</i> ,
Mr. <i>D. Macdonald</i> ,	Mr. <i>Gorman</i> .
Mr. <i>Beck</i> ,	

NAYS :

Mr. <i>Palmer</i> ,	Mr. <i>Maclean</i> .
Hon. <i>J. S. Macdonald</i> ,	

So it was carried in the affirmative.

Mr. *Palmer*, from the Committee appointed to prepare an Address to His Excellency the Lieutenant Governor, praying that he will be pleased to accept of the services of any Steam-

boat of sufficient power to run between this Island and Pictou for the present year, under certain conditions, presented to the House the draught of an Address, as prepared by the Committee; and the said draught Address was again read at the Clerk's Table, and is as followeth :

To His Excellency Sir C. A. FITZ ROY, K. H., Lieutenant Governor and Commander-in-Chief in and over Her Majesty's Island Prince Edward, and its Dependencies, Chancellor, Vice Admiral and Ordinary of the same, &c. &c. &c.

May it please your Excellency ;

The House of Assembly having had under consideration your Excellency's Message of the 27th inst., with the accompanying communication made to your Excellency by the owners of the Steamboat Pocahontas ; and perceiving no prospects whatever of any other Boat being offered to the Colony for the conveyance of the Mails, have adopted the alternative of placing at your Excellency's disposal the very high sum which the owners of that Boat demand from this Colony alone for her services. The House of Assembly therefore humbly request that your Excellency will be pleased to accept the services of the said Boat for the present year, and to cause a Contract to be entered into with her owners, in conformity with the Resolution of the House of Assembly of yesterday's date, a copy of which is herewith submitted to your Excellency.

And a motion being made, that the Report of the Committee be agreed to ;

Mr. *Fraser* moved, in amendment, that at the end of the sentence the words "this day three months," be added ; which being seconded and put, passed in the negative.

The question being then put on the main motion, it was carried in the affirmative.

*Ordered*, That the said Address be engrossed.

*Ordered*, That the Committee who prepared the Address, be a Committee to wait upon His Excellency with the same ; who, returning, reported to the House that their Address had been presented to His Excellency, and that he was pleased to say he would comply with the desire of the House.

Then the House adjourned for one hour.

And being met—

Mr. *Rae* moved, that the House do come to a Resolution, as followeth :—

*Resolved*, That Twenty copies of the Journals of this House, for the Sessions of 1834, 1835, 1836, 1837, 1838, 1839 and 1840, be sent to the Right Honorable the Speaker of

the House of Commons; and that the Clerk be directed to cause the same to be transmitted, and to pay the freight thereof, with a letter, acknowledging the attention of the Imperial Government, in transmitting to this Legislature copies of their valuable Records; and stating, that as a respectful acknowledgment of such attention, and as the affairs of the Island were to be brought before the House of Commons, the documents above enumerated were transmitted by order of this House.

And the motion being seconded, and the question put thereon,

The House divided:

YEAS:

Mr. <i>W. Dingwell,</i>	Mr. <i>Gorman,</i>
Mr. <i>Fraser,</i>	Mr. <i>Forbes,</i>
Mr. <i>Macintosh,</i>	Mr. <i>Macfarlane,</i>
Mr. <i>Rae,</i>	Mr. <i>Le Lacheur,</i>
Mr. <i>D. Macdonald,</i>	Mr. <i>Beck,</i>
Mr. <i>Clark,</i>	Mr. <i>Dalziel.</i>
Mr. <i>Macneill,</i>	

NAYS:

Hon. <i>J. S. Macdonald,</i>	Mr. <i>Palmer.</i>
Mr. <i>Longworth,</i>	

So it was carried in the affirmative.

Mr. *Clark* reported, from the Committee appointed to examine and report on the Officers' and other Contingent Accounts, for the present Session, and he read the Report in his place, and delivered it in at the Clerk's Table, where it was again read.

*Ordered,* That the said Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. *Hudson* took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Hudson* reported, that the Committee had gone into the consideration of the Report of the Special Committee referred to them, had amended and then adopted the same—and the Report, as amended, was again read at the Clerk's Table, and is as followeth:—

The Special Committee appointed to examine and report on the Officers' Accounts and contingent expenses of the present Session, report, that they have examined the same, and recommend that they be allowed as follows:

WILLIAM CULLEN, for his services as Clerk of the House, including the indexing of the Journals for this Session, &c.	£180	0	0
SOLOMON DESBRISAY, Sergeant at Arms, his Disbursements Bill,	144	4	6½
Do. his own Bill as Sergeant,	36	9	0
W. H. LOBBAN, Messenger,	31	17	6
WILLIAM BIRCH, Doorkeeper,	29	14	8

J. B. COOPER & Co. for printing for the House of Assembly, subject to any deduction or addition which may be made by the two Members of Assembly who shall examine the same, and shall certify that the amount so warranted is in conformity with the Contract made by said Printers,

254 3 7

N. B.—Of this, £40 is an estimate for Pamphlets, the exact charge for which cannot at present be ascertained, but which are not to exceed the rate at which the Journals are charged.

As to the above amount, your Committee recommend, that one half of the above £254 should be immediately advanced to the Printers—the remainder on the Certificate of any two Members of this House that the whole Journals, &c. are completed.

£676 8 9½

*Ordered,* That the Report be agreed to.

Mr. *D. Macdonald* moved, that the House do come to a Resolution, as followeth:—

*Resolved,* That the offer of Mr. Cunard, to furnish a Steamboat for the conveyance of the Mails between Pictou and Charlottetown, to ply twice a month while the navigation remains open, for the sum of £1800 Sterling, as communicated by Message from the Lieutenant Governor to this House, on the 1st February last, is a most unreasonable and extravagant demand; being more than six times the amount usually paid by this Government for such services, and which precludes this House from accepting said proposal.

And the motion being seconded, and the question put thereon, it was agreed to by the House.

A Message from His Excellency the Lieutenant Governor, by George Wright, Esq. Usher of the Black Rod.

Mr. Speaker;

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly, Mr. Speaker, with the House, went up to attend His Excellency, when His Excellency was pleased, in Her Majesty's name, to assent to the several Bills following, viz :

*An Act to amend an Act of the Seventh year of the Reign of His late Majesty King William the Fourth, intituled An Act to repeal certain parts of an Act intituled An Act for the limitation of Actions, and for avoiding Law Suits, so far as the same relate to actions concerning Real Estate, and to make other provisions in lieu thereof.*

*An Act to authorize the appointment of Coroners in Prince and King's Counties.*

*An Act to further continue and to amend the Act for regulating the measurement of Ton Timber, Boards, and all other kinds of Lumber, and also declaring what shall be deemed Merchantable, and for appointing Officers to survey the same.*

*An Act to prohibit the interment of Human Bodies within the limits of the Town of Georgetown, and to establish Burial Grounds in the Common thereof.*

*An Act for the appointment of Fish Inspectors, and to continue and extend the provisions of the Act now in force, regulating the size of Fish Barrels and Tierces, and the weight of Fish made up therein.*

*An Act to amend the Act relating to Weights and Measures.*

*An Act to continue an Act for the more effectual punishment of Offenders, by enabling the Supreme Court to add hard labour to the sentence of imprisonment.*

*An Act to enable the Government to ascertain the Population of this Colony, and to obtain other statistical information therein mentioned.*

*An Act to continue for a limited period an Act passed in the Seventh year of the Reign of His late Majesty King William the Fourth, intituled An Act for more effectually preventing the spreading of Infectious Distempers within this Island.*

After which, Mr. Speaker spake as follows :

May it please your Excellency ;

I have to present, on behalf of Her Majesty's faithful Commons, the several Bills of aid granted this Session to Her Majesty, and to request your Excellency's assent to the same. The Bill for the Encouragement of Education will bring Education within the reach of all classes of Her Majesty's subjects in this Island. The Revenue Bill, we trust, will meet the expenditure ; and the Bill of Appropriation has been framed with the greatest care, to meet the exigencies of the Colony ; and provision is also made for paupers and insane persons.

*An Act relating to Schools, and for the encouragement of Education.*

*An Act further to continue for one year the Act for granting a Bounty on Vessels engaged in the Fisheries of this Island.*

*An Act further to continue for One Year, and further amend an Act passed in the Seventh Year of His late Majesty's Reign, for raising a Revenue in this Island.*

*An Act for appropriating certain Moneys therein mentioned, for the service of the Year of our Lord One thousand eight hundred and forty-one.*

To each of which His Excellency was pleased, in the Queen's name, to signify his assent.

And then His Excellency was pleased to make the following Speech to both Houses :

*Mr. President, and Honorable Gentlemen of the Legislative Council ;*

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

I am at length enabled to release you from your Legislative duties, after this unusually long and protracted Session. I trust that the few measures which have been matured may prove advantageous to the interests of the Island.

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

I thank you for the Supplies granted to Her Majesty, which shall be strictly applied to the various services for which they have been voted ; at the same time, I must express my deep regret, that the benevolent intentions of our Most Gracious Sovereign, in offering such liberal means for erecting "an Asylum for insane persons, and other objects of charity," have been frustrated by your refusal to comply with the terms of the Despatch from Her Majesty's Secretary of State for the Colonies on that subject.

*Mr. President, and Honorable Gentlemen of the Legislative Council ;*

*Mr. Speaker, and Gentlemen of the House of Assembly ;*

Upon your return to your several Districts, I trust that you will impress upon the minds of those with whom you may have influence, that obedience to the laws, and the preservation of the public peace and good order, are the first duties which every loyal subject owes to the Crown, and to the community in which he lives.

After which, the Honorable the President of the Legislative Council said—

Gentlemen,

It is the will and pleasure of His Excellency the Lieutenant Governor, that this General Assembly be prorogued until Wednesday the Seventh day of July ; and this General Assembly is accordingly prorogued until Wednesday the Seventh day of July next.

Sir;

I HAVE received your Despatch, No. 10, of the 5th ultimo, transmitting an Address to the Queen from the Council and Assembly of Prince Edward Island, in congratulation of Her Majesty’s Marriage with his Royal Highness Prince Albert, of Saxe Cobourg and Gotha.

I have to inform you, that I have duly laid that Address at the foot of the Throne.

Her Majesty commanded me, on that occasion, to instruct you to convey to the Legislative Council and Assembly of Prince Edward Island, the expression of her warm acknowledgments for an Address conveying

in such dutiful and affectionate terms the interest felt by the inhabitants of the Colony in her union in Marriage with Prince Albert of Saxe Cobourg and Gotha. Her Majesty views with satisfaction the gratification derived by the inhabitants of Prince Edward Island from this union, and it will always be a source of unfeigned happiness to her to promote, by all the means in her power, the welfare of that Colony.

Her Majesty has noticed with great satisfaction the sentiments exhibited by the Legislative Council and Assembly in their Address to yourself.

I have the honor to be, Sir,

your most obedient humble servant,

(Signed) J. RUSSELL.

Sir Charles Fitz Roy, &c. &c. &c.

(Copy.—No. 23.)

Downing Street, 16th June, 1840.

Sir ;

I have the honour to acknowledge the receipt of your Despatch, No. 8, of the 6th of April last, transmitting copy of an Address presented to you by the Legislative Council of Prince Edward Island, accompanied by a Report of the Committee of that House, respecting the Acts, No. 495, and 517, for regulating the Jails of the Island ; and praying that these Acts may receive the confirmation of Her Majesty in Council.

I have carefully examined these documents, and am willing to defer to the opinion of the local Legislature on this subject, and not to insist on the amendments proposed by the Inspector of Prisons, as communicated in my Despatch of the 25th November last. I would, however, recommend to the attention of the Council the propriety of confining all Female prisoners in Charlottetown Prison, where there is a Matron ; and further, that some provision should be made for regular religious instruction to all the prisoners.

I enclose an Order passed by Her Majesty in Council on the 15th instant, leaving the two Acts in question to their operation.

I have the honor to be, Sir,  
your most obedient servant,

### No. 6.

(Copy.—No. 33.)

DOWNING STREET,  
13th October, 1840.

Sir;

Your Despatch of the 10th June last, No. 20, with the series of Acts passed by the Legislature of Prince Edward Island, have been received at this Department, and have engaged the attention of Her Majesty's Government. I proceed to convey to you the result of their deliberations on this subject.

The Act numbered in the records of this office 530, intituled "An Act to amend the Act now in force regulating Apprentices," although obviously designed to remedy a real grievance, might, I fear, in its present state, give occasion to abuses still more serious. It is very fit that the children of destitute paupers should be taught some business by which they can become useful members of society; and with this view it is fit that such children should be placed out as Apprentices, with persons who are at once willing to undertake and proper to receive the charge of them. But in a country where there is a scanty population, and a great demand for manual labour, such apprenticeship, especially in the case of children who have passed the age of puberty, will often be regarded by the master as a valuable interest, and great care should be taken to prevent their being contracted without the consent either of the parent or of the child, except on an evident and well established necessity. Now, in this Act I find no such precaution; on the contrary, a youth of fourteen might be apprenticed till the age of twenty-one, by any two Justices, on proof by a single witness, or by the Certificate of eight house-holders, that the parents of the proposed apprentice have been in the habit of soliciting alms, or of receiving alms or allowances from any charitable association, and that they had not other means for their necessary and permanent support. This is in effect to declare, that every person who has been in the habit of receiving alms must submit to the penalty of having their children apprenticed till the age of twenty-one, because it may be generally affirmed of all such

persons that they have no means of permanent support.

Independently of the individual distress which the strict execution of such a Law might occasion, it might also tend to increase the amount of pauperism. A young man from his sixteenth. to his twenty-first year would usually contribute largely to the support of his parents, if permitted to labour on his own account.

Without his aid they might be compelled, however reluctantly, to prolong their demands on the funds of the charitable. Further, although the living on alms systematically may, in the case of able-bodied people, be generally regarded as conclusive indication of dislike to labour and of bad character; yet, even in the case of the able-bodied, such assistance may sometimes be indispensable, and in other cases it does not raise even the presumption of misconduct.

The habitual receipt of alms is not the proper criterion of culpable pauperism, nor is it desirable that the Law should impede the judicious exercise of alms-giving, whether public or private.

The receipt of alms in order to escape from the duty of honest industry is the practice against which such laws should be directed; and even when such abuse arises, the object of the law should be to stimulate the activity of the pauper and his family—a result which the proposed apprenticeships would rather discourage and prevent. This Act will therefore require the revision of the Legislature, and in the mean time Her Majesty's decision on it will be suspended.

The Act numbered in the records of this Office 540, intituled "An Act to authorize the appointment of Coroners in King's and Prince Counties," is suspended for the signification of Her Majesty's pleasure.

It appears objectionable on two grounds—first, because it deprives the existing Coroner of part of the lawful emoluments of his office, without any compensation; and, secondly, because the appointment of the new Coroner is given, not to the Queen, nor even to the Lieutenant Governor, but to that officer, with the advice and consent of the Executive Council.

Slight as may be the importance of these objections in the particular case, the precedents established by these enactments, and the principles involved in them, are of general application. This law must also therefore be remitted to the Legislature, for amendment.

The Act, No. 542, in the Records of this Office, and intituled: "An Act to authorize the erection of a Building near Charlottetown as an Asylum for insane Persons, and other objects of Charity, and to provide for the future maintenance of the same," places the Lunatic Asylum under the care of ten Trustees, all of whom, with the exception of the Chief Justice, must be Members of the Legislature; and six of whom must be Members of the House of Assembly, selected by that body. To these Trustees are committed various administrative powers. Her Majesty's Government cannot be parties to encroachments of this kind on the rules which should separate from each other the functions of the Executive Government, and those of the Legislative bodies. Society at large is without any real and effective security for the right discharge of administrative duties, especially when connected with a pecuniary trust, when such duties and trusts are assumed by the Members of the popular branch of the Legislature.

The Royal Assent will therefore not be given to this Act, unless the management of this Asylum be transferred by a supplementary Act from the Legislative bodies to the Executive Government of the Island.

I subjoin a list of the numbers and titles of the various other Acts transmitted with your Despatch of the 10th June, which have been left to their operation, by the accompanying Order of Her Majesty in Council.

Such of the Acts of the last Session as are neither noticed in the preceding remarks, nor comprised in the subjoined list, are under the consideration of other Departments of Her Majesty's Government; and until these reports shall have been made, Her Majesty's decision on them must be postponed.

I have the honor to be, Sir,

Your obedient humble servant,

C. A. FITZ ROY, Lieutenant Governor.

The Lieutenant Governor lays before the House of Assembly copy of a Despatch from the Right Honorable Lord John Russell, Her Majesty's Principal Secretary of State for the Colonies, in reply to the Address of the House of Assembly to the Queen, with reference to the Bill to authorize the Crown to purchase the Lands, and to regulate the settlement of the Inhabitants of this Island, and to repeal certain Sections of an Act intituled "An Act for levying an Assessment on an Lands in this Island"—rejected by the Legislative Council in the last Session of the Assembly; and further praying for a reconstruction of the Council.

Government House, February 1, 1841.

(No. 30.)

Downing Street, 22d Sept. 1840.

Sir;

I HAVE to acknowledge the receipt of your Despatch, No. 13, of the 5th of May, in which you transmit an Address of the House of Assembly of Prince Edward Island, to the Queen, praying Her Majesty to recommend the adoption by the Colonial Legislature of a Bill for the disposal of the Lands, similar in principle to that which was rejected last Session by the Legislative Council. I have also received the Resolutions of the Assembly, complaining of the construction of the Legislative and Executive Councils, together with the counter Resolutions of the Legislative Council to that complaint.

Having laid before the Queen the Address of the House of Assembly, Her Majesty has commanded me to instruct you to acquaint the House, that she learns with regret that the question of the Lands in Prince Edward Island continues to disturb the peace of the Colony. Although this question originates in motives of private interest, shared equally by Landlords and Tenants, it assumes, in effect, the character of a public question, and as such must be treated. It is Her Majesty's earnest desire to remove every just cause of complaint in all parts of her Dominions. Her Majesty has been accordingly pleased to desire me to enter into communication with the resident Proprietors in this country, with a view to learn whether, by any further

proposition on their part, means may be found to determine a question which has for so long a period agitated the Colony.

After a careful examination of the several Resolutions which accompanied your Despatch, it is my duty to declare that I do not see that adequate reasons exist for the immediate reconstruction of the Councils. The material charge against these bodies is, that they have an interest inimical to the general interests of the inhabitants, in consequence of their alleged connection with the Proprietors of the Lands. It is stated, in answer to that charge, that of the ten persons composing the Legislative Council, two only are proprietors, whilst a third is agent for a proprietor, the remainder being wholly unconnected with the proprietors. In the Executive Council, you inform me that there is no proprietor at all in the Board, and only three Agents of proprietors, holding less than three Townships. The allegation of undue weight in the Council, in favour of the landed proprietors, thus appears to me not to be sustained. On that ground, therefore, I would not desire that any alteration should be made in either of the Councils.

I have, &c.

J. RUSSELL.

Downing Street, 13th September, 1840.

Sir;

I HAVE received your Despatch, No. 16, of the 5th of May, forwarding an Address of the House of Assembly of Prince Edward Island, praying that the steam vessels employed in carrying the Mails between Pictou and Quebec, might be allowed to touch at Charlottetown.

I referred your Despatch for the consideration of the Lords Commissioners of the Treasury, who informed me that the Contractor for this service declined acceding to this proposal, but would be willing to provide a separate steamer for a moderate sum. Conceiving that the Assembly would be disposed to defray the expense out of the local revenue, I requested their Lordships to ascertain from Mr. Cunard the probable cost of that Vessel, and he has stated his readiness to provide one at the rate of £1800 per annum.

I enclose, herewith, copies of the correspondence which has passed between the Treasury and my depart-

ment on the subject, in order that you may be enabled to bring the question under the consideration of the Legislature at its next meeting.

Sir;

In reply to your Letter of the 4th June last, enclosing a Despatch from the Lieutenant Governor of Prince Edward Island, recommending that the Mail Steamer between Pictou and Quebec may call at Charlottetown, in that Island, I have it in command from the Lords Commissioners of Her Majesty's Treasury to transmit, for the information of Lord John Russell, copy of a Report from the Postmaster General, and copy of its

My Lords;

I have the honor to return the Despatch from the Lieutenant Governor of Prince Edward Island, to the Colonial Office, with copy of an Address from the House of Assembly, praying that the Mail Steamers may call at Charlottetown, in that Island, which was transmitted for my opinion, in Mr. Gordon's letter of the 11th of June last; and I beg to enclose copy of a report furnished by the Deputy Postmaster General of Canada, who was called upon for any observations he might have to make with respect to this application.

In this letter your Lordship will perceive there exists very strong objections to granting the boon which is desired, inasmuch as the proposed deviation from the proper course between Pictou and Quebec would cause, under any circumstances, a delay from 12 to 24 hours to the Canadian Mails; and, owing to there being no lights upon the coast, in the event of the packet's arriving after sun set, a still longer detention would take place, as it would not be practicable to enter the harbour until daylight the next morning.

Under these circumstances, I cannot recommend your Lordships to comply with the request contained in this despatch.

I have, &c.

The Lords of the Treasury.

General Post Office,  
Quebec, 24th July, 1840.

Sir;

I have the honor to acknowledge your letter of the 24th June, transmitting copy of a letter from the Under Secretary of State for the Colonies to the Secretary of the Treasury, enclosing a Despatch from the Lieutenant Governor of P. E. Island, recommending that the Mail Steamers between Pictou and Quebec may call at Charlottetown, in that Island, in their voyages to and from Quebec, and desiring my report thereon, as soon as possible.

Immediately on the receipt of your letter I had a conversation on the subject to which it relates with Captain Douglas, who commands the Steam Packet *Unicorn*, now plying between Quebec and Nova Scotia, and who is perfectly acquainted with the navigation of the Gulph of St. Lawrence. Captain Douglas informs me that

the House of Assembly of P. E. Island labour under an error in supposing (as stated in their Address to the Lieutenant Governor) that the port of Charlottetown lies not more than from 15 to 20 miles off the direct route between Pictou and Quebec, but alleges that the actual deviation from the course up he should pursue, round the East end of P. E. Island, would lengthen his voyage considerably. Apart, however, from the reason just assigned, Capt. Douglas says, that a more formidable obstacle to visiting Charlottetown exists in the fact of there being no lights on the coast, and the consequent impossibility of his entering the harbour should he arrive at the Island after daylight. I cannot abstain from adding, that Capt. Douglas's arguments, more especially the last, appear to me to be very strong and convincing; considerable time, probably, on an average, from 12 to 18, or even 24 hours, would be consumed by him in visiting Charlottetown; and I really think, besides, that as Pictou is but about 60 miles from that place, the Island can very well avail itself of the post advantages connected with the Atlantic Steamers, by means of the ordinary Mail Boat which plies between Charlottetown and Pictou.

The Lieutenant Governor of P. E. Island, in his letter, states, that his Island is the only Government omitted in the provision made by Her Majesty's Government, of inter-steam-communication. His Excellency appears to be under the impression that the Province of New Brunswick is to be visited by the Packets; but this, so far as I am informed, is not the fact. Pictou is in Nova Scotia, and New Brunswick has no advantage in the new arrangement beyond P. E. Island. Newfoundland is another Government in British North America not visited by the Steam Packets.

Sir;

I have the honor to acknowledge the receipt of your letter of the 15th instant, with the documents that accompanied it. I should be most anxious to comply with the wishes of His Excellency the Lieutenant Governor of Prince Edward Island, and regret that it is not in my power, in this instance, to do so. The Steamship between Pictou and Quebec will have ample occupation in conveying the Mails twice a month between these places.

It is true that Prince Edward Island is the only Government left out in the recent arrangements—Newfoundland being now provided for. But if a Steamboat were established, to run twice a week between Pictou and Charlottetown, to convey the English and Provincial Mails, it would suit the Post Office and serve the interest of the Island much better than having the Quebec Steamboat to call at Charlottetown; the Island Mail for Quebec could always be put on board at Pictou.

I could furnish a suitable Steamboat for this purpose for a small sum.

I have laid before Lord John Russell your letter of the 24th instant, stating the objections to allowing the Steamboat which is to convey the Mails between Pictou and Quebec to touch at Prince Edward Island, and communicating the offer of Mr. Cunard to provide another Steamer at a small cost for the conveyance of the Mails to and from that Island. His Lordship directs me to request that you will move the Lords Commissioners of the Treasury to obtain from Mr. Cunard an estimate of the sum for which he would undertake this service, in order that a proposition may be made to the Legislature of the Island to appropriate a portion of the local revenue to this object.

No. 36.

Downing Street,  
18th November, 1840.

Sir;

CAREFUL search having been made for the ancient Map of Prince Edward Island, and for the Map or Plan of Georgetown, which you were desirous of obtaining for the information of the House of Assembly, I regret to state, that no trace can be found of those documents.

I enclose, however, a copy of a description of the Island, drawn up by Mr. Holland, in October, 1765, which I hope will prove useful to the Assembly.

Lieut. Governor

Sir Charles A. Fitz Roy,

&c. &c. &c.

St. JOHN'S is divided into three Counties—King's County, on the East part, has four Parishes, viz: St. George's, St. Andrew's, St. Patrick's, and the East Parish; and sub-divided into twenty Townships, containing in all 406,000 acres. Queen's County, near the middle of the Island, has five Parishes, viz:—Charlotte, Hillsborough, Grenville, Bedford, and Saint John's, and is sub-divided into twenty Townships, and contains in all 458,420 acres. Prince County, in the North West part, is divided into five Parishes, viz:—St. David's, Richmond, Halifax, Egmont, and the North Parish, and sub-divided into twenty-three Townships, containing in all 467,000 acres.

### SOIL AND PRODUCE.

The soil in general on the South, and South East side of the Island, a reddish clay, though in many places it is sandy, particularly upon the North coast; from the East Point to St. Peter's, is a greyish sand. The woods upon this coast, from the East Point as far Southward as Hillsborough River, and to Bedford Bay on the West, was entirely destroyed by fire, about twenty-six years since—it was so extremely violent, that all the fishing

vessels at St. Peter's and Morel, upon St. Peter's Bay and Morel, were burned. In many parts round the Island, is rough steep coast, from forty to sixty feet high—in some places a hundred—composed of stratas of a soft red stone, which, when exposed to the air for some time, becomes harder, and is not unfit for building. Wherever this sort of coast is, it diminishes considerably every year upon the breaking up of the frost, which moulders away a great part of it. It may probably be owing to this cause that the Sea betwixt the Island and the Continent is frequently of a red hue, and for that reason by many people called the Red Sea; on the North and South East side, it has received some addition by the banks of sand which the Sea has thrown up.

There are no high hills in this part of the Island, but merely a small ascent inland. The Rivers are properly Sea Creeks, the tides flowing up to the heads, where generally streams of fresh water empty themselves. In most parts of the Island the sarsaparella root is in great abundance, and very good. The mountain-shrub and maiden-hair are also pretty common, of whose leaves and berries the Acadians and Soldiers frequently make a kind of tea. The ground is in general covered with strawberries in their different seasons, which are very good; with proper care, it produces most kinds of grain, wheat, barley, oats, peas, beans, &c.; also, cabbage, cauliflowers and potatoes, very good, in great abundance; carrots, turnips, &c. In those places which have been settled, and are still tolerably cleared, is very good grass; but a great part of the lands formerly cleared are so much overgrown with brush and small wood, that it will be extremely difficult to form a true estimate of the cleared lands, or to make it fit for the plough again. It may be proper to observe here, that very few houses mentioned in the explanation of the Townships are good for any thing, and by no means tenantable, except one or two at St. Peter's, kept in repair by the officers, and one built by me at Observation Cove.

### TIMBER.

Red and white oak, neither of which are in plenty or of large growth; beech and maple very good; black and

white birch, the former of which is a useful and handsome wood. The pine is extremely large and fine. In some places is found the curled maple, which takes an excellent polish. Spruce of many kinds is the universal produce of the whole Island; from one species of which is got the Balsam of Canada, which the Canadians hold in great repute. From the maple also, at the proper time of the year, is extracted a liquor which they boil into a sort of sugar, pretty good and medicinal.

WHAT PARTS OF THE ISLAND ARE BEST SITUATED FOR TRADE AND FISHERY, WITH THE REASONS.

Port Joy, Cardigan, and Richmond Bay, are without dispute the only places where ships of burthen can safely enter, and consequently most proper to erect the principal Towns and Settlements upon. In point of fishing, Richmond Bay has much the advantage of situation; the fish being in great plenty most part of the year, and close to the harbour. Ships outward bound from any of the above ports have their choice of two passages out of the Gulph of St. Lawrence, viz: the Gut of Canso, or round the North Cape of the Isle of Cape Breton, either of which they prefer, as the weather, season of the year, or port bound to, may make it most advisable. Such parts of the Island on the South West coast, or the places inland, not conveniently situated for fishing, may and undoubtedly will turn to a general good account, if proper encouragement be given to settlers, whose business is the cultivation of lands only—and upon the settling of the Island, I would humbly recommend that this particular branch of people should receive the utmost encouragement; the great length and severity of the winters making it extremely expensive and difficult to provide sustenance for their stock, as that season is of very little use to them; besides the very short time they have for ploughing, sowing, reaping, and making of hay, will take up their attention so closely while the good weather continues, that it must of course make the great point of clearing of the Island go on but slow.

REASONS FOR FIXING THE THREE PRINCIPAL TOWNS (AS PROPOSED), ON WHAT FOUNDED.

The capital, called Charlottetown, is proposed to be built upon a point of the harbour, betwixt York and Hillsborough Rivers, as being one of the best, and nearly a central part of the Island; has the advantage of an immediate and easy communication with the interior parts of the Island, by means of the three fine Rivers of Hillsborough, York, and Elliot. The ground designed for the Town and Fortifications is well situated upon a regular ascent from the water side; a fine rivulet will run through the Town; a Battery or two, some distance advanced, will entirely command the harbour; an enemy attempting to attack the Town cannot do it without great difficulties, viz: having passed the batteries at the entrance of the harbour, they must attempt a passage up Hillsborough or York Rivers, the channels of both of which are intricate, and the entrance of the respective channels will be so near the Town that it must also

be attended with the greatest hazard. Should they land any troops on either side of the Bay of Hillsborough, they must still have the river of the same name on the East, or Elliot and York Rivers on the West, to pass, before they could effect any thing of consequence. As this side of the Island cannot have any fishery, it may probably be thought expedient to indulge it with some particular privileges; and as all judicial and civil, as well as good part of the commercial business will be transacted here, it will make it at least equally flourishing with the County Towns.

GEORGETOWN.

Recommended to be built upon that point of land called Cardigan Point, there being a good harbour for ships of any burthen on each side of Cardigan River, on the North, or Montague River upon the South side; but the latter, though a much narrower channel upon coming in, is preferable, as the Bay for anchoring will be close by the Town. Immediately upon entering the river, and going round the Goose Neck, a long point of dry sand running half over the river, and forming one side of Albion Bay, the place for anchorage, upon the Goose Neck, may be erected a Pier with great ease, and at a small expense, where goods could be shipped and unshipped with great facility and convenience.

The place proposed for the town is so situated as to require very little difficulty in making it secure, as well as at the entrance into the two respective harbours. It ought not to be omitted mentioning the advantage it has of a communication inland by means of Cardigan, Brudenell and Montague Rivers, from the top of which last to the source of Orwell River is not quite ten miles; and Orwell River emptying itself into the great Bay of Hillsborough, makes a safe and short communication betwixt two of the County Towns, both winter and summer.

PRINCETOWN.

Besides the advantages mentioned of Richmond Bay, it is proposed to be built on a most convenient spot of ground, as well for its fisheries as fortifications, being situated on a peninsula, having Darnley Bay on the North East, which is a convenient harbour for small vessels, and where they may be laid up to winter; lying at the entrance to Richmond Bay, with all the convenient grounds for curing and drying of fish about it, and ships of burthen can anchor near in the Bay. For its fortifications, the neck of land can be strengthened with little expense, and some batteries and small works erected along the shore will entirely secure it.

BIRDS, BEASTS, AND FISHES.

Here are Bears, Otters, Martins, Foxes, red, black, and grey, Lynxes or Wild Cats, Minxes, Musk Rats, and some, though very few Carribou, a kind of a Deer. Hares extremely good, but in the winter are white. Of birds, may be accounted the Eagles of their several species, though not very common; Hawks, Partridges; a kind of a Thrush, called Robins, in great abundance,

who sing very agreeably; of birds of passage there are a great variety, as Doves, which come in July and August, Corbejaux, a kind of a Woodcock, which fly together in large flocks; Plover, Snipes, Curlews, Ountards, a large and fine sort of Wild Goose; the Brant Goose, a smaller sort, but of excellent flavour; Ducks of many kinds, Teel, Moyaques, Cacois, Marchaux, Cacoas, Carmes de Roche, Goelans, Esterlets, Margotts, Godes, Sea Pigeons, Perrigains, &c., many of which are peculiar to this climate; but in the winter there is scarce a bird to be seen except Partridges, and some few straggling wild fowl, who either wait to breed, or are else crippled, and are disabled from accompanying the rest upon their return. Fish—both Sea and River fish there is great abundance, and extremely good, viz: Cod, Turbot, Hollybut, Thombock, Sturgeon, Place, Flounders, Mackerel, and Gasperau, a kind of a Mackerel, but smaller, and often used as bait for Codfish. In the rivers and lakes, are also very fine Trout and Eels, Smelts; also, in Morel River are some Salmon; along the coast and in the rivers are Lobsters, Oysters and Muscles, extremely good and in great plenty, besides a shell fish they call Clams, and another named Razor Fish—in short, for beasts, birds, and fish, no place can wish to be more plentifully stored, though the chase of them is attended with difficulty and trouble, and requires much patience.

#### NATURE AND EFFECTS OF THE CLIMATE.

The time of setting in of the frosts in winter and their breaking up in the spring is very uncertain, sometimes being a difference of three or four weeks. In general it is observed, that about October there usually begins to be frosts morning and evening, which gradually increase in severity till about the middle of December, when it becomes extremely sharp; at this time a North-west wind, with small sleet, seldom fails. In a little time the rivers on the Island are frozen up, and even some distance from land, upon the Sea coast, the ice soon becomes safe to travel upon, and is at least from 22 or 24 to 30 inches thick. The snow upon the ground and in the woods is often a surprising depth, and no possibility of passing except upon snow shoes. The Acadians now have recourse to little cabins or huts in the woods, where they are screened from the violence of the weather, and at the same time have the convenience of wood for fuel so near them. Here they live upon the fish they have cured in the summer, and other game

which they frequently kill, as Hares, Partridges, Lynxes or Wild Cats, Otters, Martins, or Musk Rats, none of which they refuse to eat, as their necessities press them. In the spring the rivers seldom break up till April, and the snow is not entirely off the ground till the middle of May. It ought to be observed here, that as St. John's is fortunately not troubled with fogs as the neighbouring Islands of Cape Breton and Newfoundland, neither is it so settled and constant a climate as Canada; here is quick and frequent change of weather, as rain, snow, hail and hard frosts, which sometimes succeed each other in a very small space of time.

The respective divisions of the Island are as near as possible, agreeably to my instructions; the divisions of the Counties, Parishes, and Townships bounded by the Magnetic North and South, or East and West lines, being the most easy way of running the lines for the Surveyors that will be employed on this service, the natural situation of the Island having favoured this method. It is not possible to divide the Counties or Parishes into more equal parts, as the lines otherwise would have been too much confounded and confused; it has also been observed in dividing the Townships to give them a share of what natural advantages the Island afforded. The two inland lots that could not be brought to any Township are left undetermined. There are 520 acres preserved for the first Lot, having 1000 yards to the North, South and West from the centre of Fort Amherst, and to the East as far as the water side; but it must also be remarked that the first Lot takes up almost all the cleared lands of Port Joy.

There may be some small brooks in the centre of the Island not expressed in the plan.

The scale proposed to work with, I was obliged to alter to that of 4000 feet to a yard, as we found that sufficiently large and expressive; but should any part be required to be of a still larger scale, it shall be done whenever ordered. The project for laying out the County Towns will be sent by the first opportunity from Louisbourg.

Throughout the whole survey has been observed the greatest exactness; and all Rivers and Creeks are surveyed as far as a boat or canoe would go, or the chainmen penetrate, but sometimes we were obliged to stop, by inaccessible woods and swamps.

## Message:

C. A. FITZ ROY, Lieutenant Governor.

The Lieutenant Governor lays before the House of Assembly the copy of a Despatch from the Right Honorable Lord John Russell, Her Majesty's Principal Secretary of State for the Colonial Department, with reference to the Salary received by him as Her Majesty's Representative in this Colony.

The question which forms the subject of this Despatch is so peculiarly of a personal nature, that the Lieutenant Governor abstains from offering any observation, in submitting it to the consideration of the House.

Government House, February 8, 1841.

(No. 35.)

Downing Street, 16th November, 1840.

Sir;

**M**Y attention has lately been called by the Governor General of British North America to the amount of the Salary which you receive as Lieutenant Governor of Prince Edward Island, and to the necessity of augmenting it, to enable you to defray the unavoidable expenses which your official station entails upon you.

On referring to the Records of this Department, I find that the salary of the Lieutenant Governor was, in the year 1825, raised from £800 to £1000 sterling per annum. At this amount it has remained to the present time—while the great increase which has since taken place in the population of the Island must have subjected the head of the local society to a scale of expenditure far exceeding his official income, and which is likely to be still further enhanced, by the facilities afforded by steam navigation to persons desirous of settling in the Colony, or passing to other parts of North America. Under these circumstances I agree with Lord Sydenham, that an addition ought to be made to your salary; and I think that a net income of £2000 sterling, without any fees or travelling allowance, would not be more than is required to maintain the dignity of your office as Representative of the Sovereign.

As the Imperial Parliament would not consent to bear any additional expense, on account of Prince

Edward Island, the necessary funds for this purpose can only be obtained from the Colonial Legislature. Considering that the revenue and commerce of the Island have greatly increased, and that it is now the only Colony in North America, with the exception of Bermuda, which does not pay for the expenses of its civil government—although Her Majesty's Government, so far back as 1825, considered that the funds of the Colony were capable of bearing those charges—I am of opinion that the Legislature may be fairly called on to contribute such a sum as, in addition to the parliamentary grant, may enable the Lieutenant Governor to maintain the dignity of his office, without trenching on his private resources.

I have accordingly to convey to you Her Majesty's gracious permission to propose to the Colonial Legislature, at its next meeting, that the sum of £1000 Sterling, per annum, should in future be paid from the funds of the Island, towards the support of the Lieutenant Governor.

You are at liberty to communicate a copy of this Despatch to the Council and Assembly.

I have the honor to be, Sir,

Your most obedient humble Servant,

(Signed) J. RUSSELL.

Lieutenant Governor,

*Report of the Visiter of the District Schools, for the year ending January 28th, 1841.*

*To the Members of the Board of Education.*

GENTLEMEN;

**T**HE importance of Education to Society, and its influence upon the destinies of man, are so well established and so universally admitted by persons of every station, party, and persuasion, while so much has been said and written upon the subject by men distinguished alike for genius, acquirements, and enthusiastic devotion to the cause, that it will be considered superfluous in me to occupy any portion of the limited space assigned me, in attempting to elucidate a subject already rendered sufficiently clear, or to discuss a question which no one controverts.

But Education being a matter universally admitted and received, as undoubted and uncontrovertable, is often, for that very reason, never examined, and consequently never understood, either as regards its necessity and importance, the mode and the means of acquiring it, and the necessary provision for its diffusion and support.

In further considering this subject, I shall dwell but briefly upon the first point, viz. its importance and necessity, and confine my observations principally (as lying more immediately within my province) to the consideration of the mode, the means of acquiring Education, and the necessary provision for its diffusion and support, as applicable to the exigencies of the Island.

Before proceeding, however, I would merely remark, that if education be of necessity and importance to the individual, what must it be to the community of which he is a member? for all experience has shewn, how great an enemy ignorance is to morality, and that education is the best guarantee for the loyalty, order and submission of a people to the Laws. It is sufficient only to contrast those countries of the old world in which education has been most cultivated, with the condition of those where the instruction of the mass of the people has been neglected, or to compare the Northern States of America with the Southern, or as still more striking, with the Southern Republics; and prejudiced

indeed must he be, or mentally blind, upon whose conviction the necessity of popular education to the welfare of every community is not indelibly impressed.

In directing your attention to the state of education in the Colony, the principal considerations and inquiries which present themselves, are—first, to what extent the provision for its diffusion and support has been proportionate to the wants of the population; and, secondly, how far the system and practice thereof have been hitherto rendered efficient.

That the supply has not been commensurate with the requirements of the country is evident, when we contrast the number of children receiving the elements of Education on the Island, with the number of those within the educational age, who do not attend any school. According to the accompanying return, the number of our public Common Schools at this moment receiving Legislative aid is in all eighty-one, teaching three thousand and sixty children. Add to this the Central Academy, St. Andrew's College, and the National School, numbering together 65 pupils more; and the number of public and private schools together, not taking the benefit of the Act, will be found, so far as I can ascertain, not to exceed 21; giving about 450 more, and making, altogether, an aggregate of 3575 of the youth of both sexes at this moment receiving the benefit of Education on the Island.

The number of children who do not attend any school may be easily ascertained, by looking at the population returns of the youth within the educational age. The juvenile educational age is from six to fourteen; so that every child between six and fourteen ought to be at school, to ensure universal juvenile education. The entire population of the Island at the last census taken in 1833, was found to be 32,298; of which 16,207 were under 16 years of age. Assuming the proportion between these last, and those within the educational age at about one-half, or eight thousand, and without taking into account the increase of population since 1833, we arrive at the conclusion that there are no fewer than 4425 children wholly neglected in their education; proving from

data which I think will be found correct, that we are not even a half educated people.

In every scheme for the encouragement of Education, two objects should be kept steadily in view; first, the improvement of the system and practice of instruction; secondly, the establishment of schools where they are wanted. But *whence* the requisite funds are to proceed for a scheme commensurate with the wants of the respective classes of the population, thinly scattered over an extent of country, and *how* they are to be applied, so as to satisfy the opinions and demands of all parties, are questions which involve many difficulties.

From the educational destitution shewn above, from the increasing wants of the population, and the inadequacy of the present system to meet those wants, I am persuaded (and I do not stand alone in holding this opinion) that urgent necessity exists for a more certain and permanent mode of supporting common schools; and unless the Legislature lend its aid to so important a measure, I see no sure prospect of instruction for the poor and new settlements; nor of any adequate remuneration for that laborious but ill requited class of persons who are devoting their time and abilities to the improvement of the rising generation.

The principal defects of the present school system, which the duties of my office have afforded me opportunities of closely observing, and the difficulties and embarrassments with which our schools are encompassed, I shall endeavour briefly to point out, and moreover hazard an opinion as to the amendments requisite to render the system more beneficial and efficient, in the humble hope, that the following suggestions may prove in some degree serviceable to your Board, in devising and recommending a measure for the improvement and extension of Education on the Island—an object which your connexion with and oversight of the Education of the country, and your consequent intimate acquaintance with its state, so eminently qualify you to accomplish.

The existing School Law is founded upon the principle of voluntary subscription, aided by Legislative grants; but every day's experience proves how feeble and limited this scheme is in its influence and effects; and I may be indulged with a short specification of the principal defects of the system, in order to test the suitability of the remedy I would propose. The principal defects inherent in the voluntary system are, that, notwithstanding the liberal increase of bounty, which under each new Act is granted from the public chest, so far from extending the blessings of Education to the poor and thinly settled districts of the Island, it has not even been adequate to the continuous support of schools in settlements comparatively densely peopled and wealthy; and as a necessary consequence, men of talent and respectability have no inducement to devote themselves to the instruction of youth as a permanent profession, when the system offers neither adequate pecuniary remuneration nor permanency of employment. Joined to this, it

possesses no power to stimulate the ignorant or careless to procure the blessings of education for their children, while it fails in affording any advantage to the poor man, however anxious, his means being often inadequate to pay for instruction, and his independence of spirit forbidding him to accept it as charity. As a consequence of this system, too, teachers, even in large and thriving settlements, are obliged to move about from house to house for board and accommodation, and being ever from home, and strangers, are too often driven to seek a temporary home in the haunts of dissipation and intemperance.

These are some of the principal defects of the voluntary system; and after bestowing serious attention upon the question, the conviction forces itself upon me, that the best remedy, the most efficient, simple and uniform mode of supporting common elementary schools, is by legal, general and equitable assessment. And I am moreover persuaded that the majority of persons who have seriously considered the matter have arrived at the same conclusion.

I would consider it unwarrantably presumptuous in me to propose a scheme of innovation upon an old and long established system, involving interests of such paramount importance to society, had I not had sufficient experience of its inefficacy, and my conviction of the necessity of a reform, strengthened by the opinion of enlightened friends, as well as by the practice in other countries with the progress of whose society we have kept pace in other respects.

I have no doubt of my views being opposed in different quarters—there are many among our population who, in spite of its defects, cling to the old system still, from nothing more than an indefinable terror of taxation.

I shall now consider a few of the more obvious advantages of the assessment scheme. The principle of assessment would make the burden fall equally upon all, by obliging every one to contribute towards the support of Education, while under the present system there are many who give nothing, and more who do not give as much as they ought; this mode would provide funds for adequately remunerating duly qualified teachers, and for providing necessary books, as well as for the erection of school-houses, where requisite, under such restrictions as would prevent them multiplying to an unnecessary degree. The careless and the indifferer, too, who neither send so many of their children to school as they ought, and are careless about the regular attendance of those they do send, would be found among the most solicitous to have the worth of their money, when they should find that whether they availed themselves of the opportunity of educating their children or not, they would have to pay as if they did.

This mode would also enable the poor man to send all his children to school, and he would acquire an equal right to all the advantages which the school could hold

out, by paying as well as his richer neighbour according to his ability. Finally, the paying of the teacher in produce, and the boarding from house to house, would be entirely abolished.

A general rate for the Island, or a rate for each County, thrown into a common fund, would, in my opinion, be the most equitable mode of provision and appropriation; this would provide the means of education for poor equally with rich settlements; this would equalize the burden and lighten the pressure where it could most easily be borne. The rate could be collected by a proper officer, whose duty it would be to pay their salaries at stated periods to the teachers.

But it is unnecessary for me to enter further into the details of this proposed scheme, which could be easily adjusted were the principle once adopted; nor to enumerate the various other minor defects which are engrafted on the present system—these have been already adverted to, from time to time, in my former Reports. But I cannot conclude these remarks, without expressing my hope that the friends of education, who may approve of my views on this all important subject—and I am convinced there are many such—will enlist their talents and their influence in the cause, and arouse and urge public attention to the obvious advantages of a system upon which I have left much unsaid, and which only my limited space precludes me from further considering, as well as some of the most plausible or cogent objections which might be offered to its introduction.

In conclusion, I trust that it will be admitted that this scheme—the advantages of which I have thus briefly and feebly pointed out—if adopted and carried out, will give a stability and permanency to our educational institutions, unattainable by the present system. By increasing the emolument and promoting the comfort and respectability of teachers, it will, of necessity, raise the standard and *status* of the teaching profession; it will introduce a body of well educated and reasonable and reasoning men, both from native and foreign sources, who would have far higher claims on the community than many of the present class, some of whom are unfit for their duties, and all of them inadequately rewarded for performing them. Indeed, the wonder is, that we have so many teachers of ability and respectability amongst us; for it is scarcely to be expected, and were it not for the overwhelmingly paramount interests concerned, I would say scarcely to be desired, that men of education and talent and refinement should devote their lives to a profession so poorly rewarded.

And here I cannot forbear drawing the attention of your Board to another consideration, which I trust will have its due weight with those whom no other argument will sway. Since commencing to pen these remarks, I find (and the coincidence is gratifying to me) that the Lieutenant Governor of Nova Scotia, in his speech at the opening of the Legislature of that Province, has recommended the amendment of their Educational

System, and expresses his “belief that any Legislative Act in reference to it, to be satisfactory in its operation, must be based on the principle of general assessment.” There is every probability of such an Act being passed, and the consequence will then be, unless we improve our system, to drain off our best teachers to the sister Province, where they will find a more eligible opening for their talents. It is to be trusted then, that these and other considerations will have their due influence with those whose province it is to ameliorate our institutions; for I hope I have rendered it sufficiently clear that the assessment scheme is the only one which will realize at once the two leading objects proposed above, which all emendators of education should keep in view, viz: the improvement of the system and practice of teaching, and the planting of schools wherever they are wanted. And should we effect all this, to us would then belong the distinguished honor of being the first among these Provinces to carry out that great first principle of political morality established and acted upon by several of the European continental States, “that every Government is bound to take care that the whole body of the people shall be educated.”

But in the event of the further continuance of the present imperfect and inadequate mode of voluntary contribution, I would beg to suggest one or two amendments, which would aid, in my opinion, in rendering it more ample and beneficial. Many flourishing districts in the Island, able to maintain a respectable school, may be found, whose inhabitants from various causes, are so much disunited as to be unable to agree in making choice of a teacher in whom they may all confide. This want of co-operation is frequently the cause of their having no school, or a very inferior one; and it frequently happens that the most flourishing school is suddenly broken up by the withdrawal of one or more of the subscribers, from unreasonable prejudice, or mere caprice; and this state must continue to produce its baneful and injurious effects, until a majority of the supporters of a school shall be legally empowered to assess, in just proportions, every family within the sphere of such school, that unwarrantably withholds its support.

There are also several small and isolated settlements, and some of them long settled too, the inhabitants of which cannot meet the requirements of the Act, as respects the requisite number of scholars, and some of them as regards the necessary provision; these places, from their peculiar geographical position, combined with other causes, have no immediate prospect of any accession to their population, and are at such a distance from other districts, as to preclude the possibility of participating in the benefits of their schools; I would suggest the propriety of making an exception in such cases, by allowing these settlements to draw a share of the bounty, provided they should satisfy a duly qualified teacher in respect to salary, and provide a public school-house, and raise a definite number of scholars (say 12 to 15)

to prevent one mere family obtaining any part of the public money for the support of a private tutor. But should it be deemed inexpedient to make an exception in the case which I have adduced, it would prove of no small benefit to conterminous districts, poor and thinly settled, and unable each to support a teacher, to allow them to avail themselves alternately of the services of the same schoolmaster, as has sometimes been found necessary even in older countries.

I would also propose for your consideration the expediency of licensing an intermediate class of teachers, who, in addition to the qualifications requisite in teachers of the present lower class, should be found competent to teach Geography as well as Mensuration, Land Surveying and Navigation, branches of practical Mathematics which are so beneficial to the inhabitants of a commercial and agricultural community; and of course to raise the legislative allowance for such class, proportionably; this would be in fact restoring the second class of the late Act, which the present law has amalgamated with the first or lower class; this would be but an act of justice to many among our most efficient schoolmasters, who are now placed on a level with the fag-end of the profession; and it would raise their emoluments and *status*, and act as a stimulus to others, by holding out prospects of preferment which seldom fail in having a favourable influence upon the energies of teachers.

There are other points connected with the disabilities of teachers, particularly the disadvantages under which they labor, and the loss many of them incur, in consequence of the mode in which they are required to draw their legislative grant; as well as the increasing degree of inconvenience to which the Secretary of your Board is put, in his solicitude to prevent much trouble and expense to teachers, by forwarding their papers and certificates through the necessary stages. But having in a recent examination, before a Committee of the House of Assembly, expressed my opinion on this head, as to the necessary amendments, as well as to the changes necessary for the more complete organization of your Board, it will not be requisite to urge them in this place.

I should not consider my duty sufficiently discharged were I to forbear urging upon the attention of your Board, in the strongest manner, a matter of momentous interest to the community at large. No greater obstacle to the advancement of education exists, than the deficiency of suitable school books; not only the deficiency, but the heterogeneous mixture of books in schools, with the almost total want of apparatus, as models, maps, &c. are circumstances which set all classification at defiance, and present a serious obstacle to the successful introduction of any improved mode of education. Books, not only of inferior character, but books also containing gross error, in matters of fact, and not unfrequently pernicious opinions on the subjects of morality and religion, are found in the hands of chil-

dren, and fix such impressions on their tender and susceptible minds, as may never afterwards be entirely eradicated. How urgent then is the necessity that District Schools be bound by law to the use of such Books as are or may be adopted and recommended by your Board, and to such only. The benefit would be further enhanced, were the Government, in the first instance, to advance the books to the teachers or trustees, to be repaid within a limited reasonable time.

It will now be expected by your Board that I should be enabled to communicate to what extent a uniform system of instruction has obtained in our schools, the accomplishment of which desideratum I considered to be implied in the duties of the office of Visiter. The necessity of establishing some uniform mode of imparting instruction, will, I think, be hardly contested, when it is seen how frequently children, changing their residence or teacher, are retarded in their progress; having often to unlearn with a new teacher what it has cost time, trouble and expense to learn, and are again set to acquire; what a subsequent instructor may condemn as of no value. In turning to the most expedient means of accomplishing this end, I did not judge it necessary to adopt any particular system, far less did I attempt to originate a new one; but I concluded that general system to be the best, which is best suited to the age, the capacity, and the disposition of the pupil, which is most calculated for exciting and sustaining the attention, and for the gradual, yet speedy, development of the mental faculties and moral feelings of the children.

There can be no doubt that this intellectual culture must have been an object, either more or less, with intelligent teachers at all times, as far as their several abilities and opportunities enabled them; but it is equally certain that it was a principle, until of late years, not generally acted upon. The development of the mental powers was left to time, or accident, and the *rote* system only carried on, which was fitted to exercise the *memory* only, and not the *judgment*. Within the last half century, however, education has partaken of the onward march of improvement, and different systems have arisen, in most of which mental culture occupies a more or less prominent place.

The incorporation of what is most valuable in each of these would naturally result in the formation of such a one as I have endeavoured to define, and appeared to me to be what is intended in that which is called the training system. But finding that I was not sufficiently acquainted with its theoretical details, and still less with the practical ones, to be qualified to determine how far the attempt to establish that system had been successful, I proceeded to Halifax, N. S., in the summer of 1839, for the purpose of observing the nature and operation, and enquiring into the results of the training system carried on in the Acadian School of that town. This Institution has been turned into a Normal Seminary, for the education of children, as well as the training of

teachers, under the superintendance of a gentleman lately from Britain. I was politely admitted to view this Seminary, and allowed every facility during my limited stay for observing the mode adopted both in communicating and receiving instruction. The exhibition of this system (the details of which would be unsuitable here) more than realized the original ideas I had partly formed as to the best mode of Education; and proved the Normal system to be a successful attempt at a simple, uniform and judicious incorporation of the chief excellencies of each system of instruction, whether native or foreign; and I have further to record my settled conviction, that any educational scheme, to be fully efficacious and successful in its operation and results, must make provision for affording a professional education to Schoolmasters. It would be only necessary, simply to open a Normal Class for the purpose, in one of our best Seminaries, where intending teachers would be speedily initiated in the theory and practice of their profession.

This previous training will at once insure the establishment of a general uniform mode of instruction; for experience has convinced me how faint, if not altogether hopeless, is the expectation of fully attaining that desirable end as at present circumstanced, when we consider, along with other disadvantages, the defective education of many of our teachers, and their diversity in point of attainments, habits and prejudices.

But in attempting to modify difficulties which could not be wholly overcome or removed, and to fix and carry out as far as practicable, this uniformity of mode on the principles above laid down, I consider it necessary to give an outline of the course I judged proper to pursue. I encouraged the teacher not to depend so much on any novelty or peculiarity of external arrangement, as upon his own endeavours to keep steadily in view those simple and obvious principles which nature herself must have dictated to every teacher previous to more artificial contrivances. I was careful not to trammel him by too minute a system of martinet regulations. Beyond general instructions I left a good deal to his own taste, judgment and discretion. This plan I found to work well, as it leaves a good teacher freedom and scope for accommodating himself to circumstances, and bringing into full play his own particular excellencies. Where a radical defect exists in the teacher's own education—where a right spirit and good sense are wanting, I found that no formal enactments, however precise, will render his school efficient.

When the teacher is, again, a man of energy and uprightness, he will carry on his work more heartily and successfully, if beyond the mere communication to him of your ends and principles, you leave him, as to the details of means and methods, pretty much at liberty.

I may no doubt differ in opinion with some enlightened friends of education as to the soundness of these views, and the fitness of these rules; but I can only adduce my own experience as well as the concurring

testimony of many teachers, in proof of their efficacy to establish and sustain in wholesome operation (all obstacles being removed) a general uniform system of sound elementary instruction.

It remains now only to submit to your Board, a detailed view of the state of each particular District School, and the extent of improvement manifested throughout the preceding year. In describing these Schools in their several degrees of merit, I have endeavoured, with the freedom and impartiality which should belong to my office, to point out both their excellencies and defects. There are some of them capable of affording the very best description of elementary education; and I must acknowledge myself indebted to several of their teachers for many valuable hints. I must also observe, that I have generally remarked that the Schools in which the branches were most numerous were those in which all the branches were most effectually taught; which must happen from the circumstance that those who can teach best, naturally have the strongest promptings to teach all they know; and they know more than others, because they have a stronger sense of the requirements of their vocation.

#### QUEEN'S COUNTY.

Charlottetown, WALTER PHELAN, Teacher. This is entitled to the name of the District School of Charlottetown, in consequence of its being the oldest established common School under the Act. It numbers 43 scholars on the Roll, 33 of whom appeared at the examination. These all learn the inferior branches. Several excelled particularly in spelling; none are much advanced in arithmetic or writing, although the improvement on the whole is as much as could be expected for the time.

Cape Bear, Lot 64, JOHN STEWART, Teacher. This School, numbering 31 scholars, has been recently opened in this place. This is quite a juvenile School, a large proportion of the children commenced learning the Alphabet with the present Teacher, and within Six months could read the Scriptures with much facility. The judicious method followed by the teacher, and his attention to his charge, are apparent in the progress the scholars have in most cases made within so short a period, notwithstanding that the attendance on the School has here, as in too many instances in other settlements, been irregular. The School house is new, and with some additions would be sufficient.

Belle Creek, Lot 62, WILLIAM LAMONT, Teacher. This School was opened in the month of July last, under the present teacher, and numbers 44 scholars. Although I found none here much advanced, the progress made from time to time appeared satisfactory. The greater number read the New Testament and Spelling Book. There are a few writers who have yet made little proficiency, and only two in the primary rules of Arithmetic. The school house is of too small dimensions for the number of children usually attending.

The District School of Pinette, under the tuition of the Rev. JOHN M'LENNAN, numbers 30 scholars, average attendance. The course of instruction in this School embraces the ordinary and most useful branches of a general English Education, in addition to the Latin language. The successful results of Mr. M'Lennan's laborious avocation are evinced in the proficiency attained by those children whose attendance has been in any way regular; the pupils in the higher Latin class translate with facility the classics of that language, and display an accurate and extensive knowledge of the construction thereof. The beneficial effects of the judicious method followed out here of thoroughly grounding the learners in the rudiments of the respective branches is also deserving of notice. Without this no real proficiency can be attained, and although in the first instance apparently retarding, seldom fails in rendering the subsequent progress of the scholar easy. The reading department particularly, has that primary importance assigned it in this School of which it is deserving, and great pains are taken to make the children acquire a correct pronunciation, tone, and accurate knowledge of orthography, in opposition to the practice of too many instructors of youth, who overlook these details as of minor consideration. The Rev. gentleman has now upwards of two years, at considerable sacrifice, devoted his time and attention almost gratuitously to the intellectual and moral improvement of the youth of this district of his Parish.

The Flat River District School is taught this year by THOMAS MUNRO. Was examined in November last, only two days after being opened, and but few of the children having assembled, no report could yet be consequently made of the state of the School, or of the efficiency or method of the teacher. The school had been vacant for about half a year prior to the present teacher's succeeding to the charge. Under the last from forty to fifty scholars usually attended. And it must be observed that the house is too small to accommodate with ease or convenience that number.

Belfast, JOHN M'SWEEN, Teacher. This School opened in March last, under this teacher, and numbering 40 scholars, all of whom were present at the first examination, is conducted with much ability. The method and diligence of the teacher are entitled to much praise. The course of instruction embraces reading, writing, and arithmetic.

Point Prim, DONALD MURCHISON, Teacher. This School numbers 47 scholars, all of whom were present when examined, on one occasion. This school is on the increase in number, and the improvement of the children continues to be satisfactory on the whole. It must be remarked that many defects were apparent in the reading of the scholars; it must be regretted that they are not more generally proficient in this branch, more especially as their attainments in English Grammar, Book-keeping and Arithmetic, entitle many of them to un-

qualified praise. Several of the more advanced in these branches can bear comparison with the pupils of any School in the Colony. The Schoolhouse here also is much out of repair.

Orwell Cove, DONALD GRAHAM, Teacher. On the teacher's list are 26 scholars—not more than 20 attended at any examination. When this School was opened, little more than a year ago, the greater number commenced in the Alphabet, and now read with facility the Introduction to the English Reader; a class of seven have acquired a considerable knowledge of English Grammar, and several are also well advanced in Arithmetic and writing. The attention of the scholars is much directed to the meaning of what they read.

Murray Harbour Road, MURDOCH M'KENZIE, Teacher. This is a large School, numbering 60 scholars—average attendance 45. With the exception of a few writing, and in the primary rules of arithmetic, the greater part are engaged in learning to read, and have made fair improvement, considering the irregular attendance. One only had made any progress in English Grammar and Arithmetic.

Nine Mile Creek, Lot 65, DONALD M'LEON, Teacher. This School has been opened about a year, under the present teacher, and is in a very flourishing condition—the attendance is 40. A class of 9 have acquired a very correct knowledge of English Grammar, and a large proportion are advanced to the English Reader, in which they read with much fluency. In arithmetic and writing, the improvement has been equally satisfactory. The large and commodious Schoolhouse raised in this district reflects much credit on the inhabitants of the settlement.

The Lot 30 (South Shore) School, is still taught by EWEN LAMONT.—On the list 43 scholars, upwards of 30 were present at the different examinations, and showed very satisfactory improvement during the last year; several are learning with rapidity the elements of Grammar. In writing and arithmetic the improvement has been as great as could be expected; a class of 12 are learning to read the Gaelic language; by which I found their progress in English, and their knowledge of that language, to be much facilitated, by comparing and translating, they are enabled to comprehend many words and phrases in English, when explained in Gaelic, (which is the vernacular of all these children), and are thus enabled to make rapid progress in the acquisition of both languages. It were to be wished that Gaelic teachers, in Scottish settlements, would more generally follow such an example, when it has been demonstrated how powerful an auxiliary a knowledge of the Gaelic language is to the study of the English. The Schoolhouse here is one of the largest and most commodious on the Island.

Lot 65, Long Creek, DONALD SHAW, Teacher. This School was opened in July last, and numbers 38 on the list, of which 30 is the average attendance. This num-

ber was present at the late examination, and were found to be very inadequately supplied with Books; notwithstanding this, and with the disadvantage of irregular attendance, the state of the School exceeded my expectations, and gave evidence of the faithfulness as well as of the efficiency of the teacher in his charge; in addition to several who write, a few are learning the primary rules of arithmetic.

At the head of Elliot River, Lot 65, a School was opened in October last; DONALD LIVINGSTON, Teacher,—number attending, 23 scholars. With a few exceptions, these scholars may be said to have commenced in the first stage with this teacher; a class learning the Alphabet in October, can now read the Scriptures with considerable fluency; two or three are making satisfactory progress in English Grammar; none are yet advanced in arithmetic or writing.

The Dog River District School is still taught by MALCOLM DARRACH—average daily attendance, 40. Although several of the most advanced have been removed during the past year, the state of the School is notwithstanding gratifying; the rapid progress made in reading, particularly, is equalled by few scholars on the Island; along with the acquisition of the mere mechanical art of reading, the attention is directed to the meaning of what is read. The proficiency this year in Grammar and Arithmetic has been satisfactory—in writing alone the improvement has not been equal.

Sable District School; ARCHIBALD M'KINNON, Teacher. The number attending this School is 52. A second School having been lately opened in the vicinity, several scholars have been withdrawn, which accounts for the decrease in number. The branches taught are English Grammar, Book-keeping, and Arithmetic, in all of which there appeared a steady improvement during last year. Some fair specimens of writing were also exhibited; and what is deserving of remark, is the fluency and correctness with which some children of a very tender age read, and their accurate and extensive knowledge of the nature and meaning of what they read, comprising some of the most difficult lessons in the higher English Class Books.

New London Point, Lot 21, District School; JOHN ARBUCKLE, Teacher. This School numbers 25 scholars on the list; 20 were present at the two different examinations, in the months of August and December last, held in the presence of several of the School-Trustees and Parents of the children. That Mr. Arbuckle sustained the high reputation which he has always borne as a successful teacher, is a commendation which falls short of the many proofs of his unconquerable perseverance, assiduity and skill in his present School. His is not merely the praise of art, and insinuation and general success in imparting instruction, but the enthusiasm of a man determined to make scholars, by arousing the sluggishness of the dull, by rendering knowledge attractive to the indifferent, and by urging on the rapidi-

ty of the apt. Of those present, five were reading the English Reader, seven the Introduction, the remaining eight the Scriptures and Spelling-book. The display of minute and thorough acquaintance with the substance of their daily lessons made by almost all the scholars was in the highest degree gratifying; their facility in reading and accuracy in spelling exceeded expectation, considering the shortness of the time since the opening of the School. And although it was expected that some of the classes at English Grammar would have exhibited a more extensive acquaintance with its elements, and have manifested greater readiness in some instances in correcting the errors of Syntax, and applying the rules, than they did,—whatever disappointment might have been felt on this head, was more than amply compensated by the uncommon and extensive acquaintance with the meaning and derivation of words shewn by some of the pupils. This part of the examination clearly demonstrated the superior advantage of tracing the English language to its source by a study of the prefixes, roots, and affixes, over the common method of burdening the memory with the mere Dictionary definition of words; several of the neighbouring Schoolmasters attended the last examination, and expressed their sense of the pleasure they experienced, as well as the instruction they derived, from the insight obtained into the prominent and beneficial system of tuition carried out in this School. The new Schoolhouse erected in this district is comfortable and sufficient.

At New London Capes, Park Corner, a School has been opened last summer, taught by JOHN M'LAUCHLAN. Although this teacher is yet but a novice in the profession, his diligence and close attention to his duties thus far appear to be surpassed by few. The School numbers 30. The result of two different examinations proved that rapid progress was made by the children who commenced in their first stage, especially, with the present teacher. A class of scholars (some not above eight years of age) who did not know the Alphabet in June last, can now read the Introduction to the English Reader with facility. With what efficiency the higher branches are likely to be taught at this School, time can alone determine. The School-house here is also of sufficient dimensions.

At New London Ponds, a School was opened in November last; WILLIAM ARBUCKLE, Teacher. On the list are 20 scholars, 14 of whom were present when examined, about a month subsequent to the opening of the School. The method and zeal of the teacher thus far, appear likely soon to place his School in favourable comparison with some of those of his more experienced and elder neighbours. This School-house is neat and comfortable.

Cavendish, DONALD LIVINGSTON, Teacher. This school numbers 30 scholars, many of whom are well advanced in the higher parts of English Grammar and Arithmetic; very satisfactory progress has been made

during the past year by many in reading and writing, affording proof of the zeal and labour of the teacher. An excellent and commodious School-house has been lately erected here.

St. Peter's Road, Lot 34, ROBERT ROBERTSON, Teacher. About 36 scholars attended generally during the different examinations of this school in the past year, although 45 are entered on the teacher's roll. The course of instruction pursued comprises reading, writing, English grammar, arithmetic, book-keeping and mathematics. The class at grammar parsed the lessons correctly, besides manifesting very considerable readiness in correcting the errors of syntax, and applying the rules. In the arithmetical department an equally creditable appearance was made; it was not merely a quickness in obtaining the answers, which has been often evinced in other schools, accompanied with little or no acquaintance with the *rational* of the question, but a facility for explaining and assigning reason for every part of a given process. Several specimens of correct and good writing were shown. The school altogether in its arrangements reflects high credit on Mr. Robertson, who sustains the reputation of being one of the most successful teachers in the colony. The School-house is too small to accommodate without inconvenience, the scholars, when there happens to be anything like a full attendance.

Covehead School, F. J. MACCORMACK, Teacher. An increase has taken place during the last year in the number attending this school; 41 are on the teacher's list. The greater proportion of these children commenced in their first stage with Mr. M'Cormack, and have already attained a very respectable proficiency in the most useful elementary branches of education, notwithstanding the want of books which prevails in the school, and acts as a continual drawback upon the efficiency of the teacher. Another disadvantage to both master and scholars, is the bad repair in which the School-house is kept. The inattention of the settlers not only here but in too many districts to this essential matter cannot be too much reprehended.

Little York School, ALLAN STEWART, Teacher, numbers 27 scholars. Notwithstanding the irregular attendance apparent throughout the year, and which causes the improvement to be consequently limited, when compared with other schools, the general state of the school and the approved method of the teacher bore testimony to his diligence while in attendance. It appeared by the books that four were considerably advanced in arithmetic, although none happened to be present at any examination. Some fair specimens of writing were shewn, and those in the higher class read and spelled with much correctness. A class had made some progress in English Grammar.

York River, Bee-hive School, CHARLES MACDONNELL, teacher. The number of scholars attending this school,

according to the teacher's roll, is 31, 28 of whom were present on the last occasion of being examined. This may be considered as almost an infant school, the scholars whose attainments had been greatest having withdrawn; those left are, with few exceptions, in the first stages of instruction, although in the different branches taught the improvement was as great as could have been expected. It is to be regretted that several families in the vicinity, at variance with the teacher, should be deprived of the advantage arising from the school altogether; so far as his character and conduct are free from reproach, all that can reasonably be expected in his case is, that he should be diligent and faithful in teaching such branches as lie within the sphere of his own attainments. The order and discipline which appeared to reign in this school, are highly commendable, the different classes ordering their movements with military precision.

Lot 33, Lytchett Mills, ALEXANDER MACCABE, Teacher. The average attendance on this school is 25. A considerable degree of improvement was visible in the state of this school over the preceding year, among the junior scholars particularly. The elder ones, in several cases, did not show the same good proficiency; the broken attendance on the school has, no doubt, caused this backwardness.

Charlottetown Royalty, ARCHIBALD MACKENZIE, Teacher. This school numbers 40 scholars; during the two years that the school has been in operation in this district, opportunities have been afforded at the different examinations of observing the beneficial effects of Mr. Mackenzie's method of teaching, in exciting and sustaining the attention, and developing the mental faculties of the children committed to his charge. In the various departments of reading, writing and arithmetic and English grammar the scholars displayed much skill and proficiency, and particularly in writing; the specimens shewn by some of the pupils would challenge competition with those of any seminary in this Island.

Fullarton's Marsh, Lot 48, P. B. DOYLE, Teacher. 26 scholars attended the different examinations of this school; the teacher's list numbers 40. This district having been without a school for some years, a large proportion of the children were consequently backward in their education; an improvement is now gradually taking place in the general state of the school. A class of 13 are advanced to the English Reader, and although all did not read with correctness, a spirit of emulation appeared in general, which in time must produce its good effects; several have made very creditable improvement in writing in a short period; and Mr. Doyle has proved himself to be a successful teacher of arithmetic.

In this District, towards Johnston's River, is a school taught by DONALD LAMONT; on the list 35, 27 of whom attended the last examination. This can scarcely claim any other name than an infant school, a few only being

in the first stages of writing and arithmetic; with the exception of three, all read either the Scriptures or the Spelling book. In this Settlement, as in the last named, the School-house is not of sufficient dimensions.

Lot 48, Cross Roads, JOHN BUTLER, Teacher. From the large number attending this school, (50) from the broken attendance, and from the fact of several having been withdrawn since last year, the improvement this year did not appear as great as was remarked at former periods. The method followed by the teacher is, nevertheless, highly commendable. Some of the more advanced scholars have attained a remarkable proficiency in arithmetic; some of the branches in mathematics and book-keeping are also taught with success, as well as English grammar.

Lot 49, Back Settlement. A School has been recently opened here, taught by JAMES M'KENNA, numbering about 30 scholars, whose progress throughout the year has been upon the whole highly satisfactory, although none are yet much advanced. A new and commodious School-house has lately been erected.

Fort Augustus. The School at this place has been taught for the last half year by MICHAEL BYRNE. The improvement shewn is yet but very slight; indeed it would be surprising were it otherwise, as the School-house is insufficient, and, in the winter season, very uncomfortable, and the children, moreover, very inadequately supplied with proper books.

Crapaud, GEORGE BYRON, Teacher. The improvement in the state of this school, which numbers 48, has been highly satisfactory this year; by a clear and comprehensive list which the teacher furnishes at each examination, the true state of the school is seen at a glance, the days each scholar has been present, as well as absent, throughout the year; this enables all to know whether the progress has been commensurate with the attendance. The teacher is entitled to praise, for the interest he evinces in the moral as well as the intellectual improvement of his pupils. *This school makes the Bible the foundation of its utility.* The teacher has not given in to the morbid sensibility which fears profane familiarity as the result to the youthful mind, of daily contact with the sacred volume. The display of minute and thorough acquaintance with the substance of the portions of Scripture daily read, made by many of the scholars, was highly gratifying. An increase has taken place in the classes learning grammar and the higher rules of arithmetic.

The School on the South Shore, Lot 65, taught by ARCHIBALD MACNEILL, is vacant. The teacher is now stationed at Vernon River.

The School at Brackley Point Road Settlement is taught by DONALD LAMONT, formerly of Elliot River, who has only a few days succeeded the teacher of the last year.

#### PRINCE COUNTY.

Princetown Royalty, Central School, is at present taught by JOHN SINCLAIR, who has lately succeeded to the charge. This teacher has not been stationed here sufficiently long to have produced any sensible alteration or improvement in the state of the school, which was examined in December last, in the presence of the Trustees. To form an opinion from the exhibition then made, it appeared to be a prominent part of the system to urge the pupils onward without any irksome drudgery or painful restraint; to a school such a course must be so obviously beneficial as to preclude the necessity of any comment, so long as the method is not subversive of public order and discipline; but I must say that it requires no little vigilance and activity in a teacher to prevent its running into extremes, and to enable him to maintain that subordination so essentially necessary in every seminary, and without which the best method in other respects must prove unavailing. 23 were in attendance at the examination.

The Royalty Lower School continues to be taught by ALEXANDER RAE. 35 scholars is the average number attending. An examination took place in August last, in presence of the Trustees, when the children in general acquitted themselves with much credit in reading, arithmetic, grammar and geography, which comprises the course of instruction in this school. Several fair specimens of writing were also shewn. Although none can be said to have attained any great proficiency in these branches, yet all seemed to possess an accurate knowledge so far as they had advanced, as was evinced by their tenacity of memory on several points, notwithstanding the long annual vacations peculiar to this school, as well as the irregular attendance of the scholars, in common with most others. In short, the state of the school proved the excellence of Mr. Rae's method, and his rare skill and ability in applying it for the instruction of his pupils.

Darnley, JOHN LE PAGE, Teacher. This school numbers 37, and has been taught by the present teacher about a year. At the last examination, which took place in December, in presence of the trustees and parents, it was evident that a considerable degree of improvement had taken place in most of the branches taught throughout the year; particularly a class at grammar manifested very considerable readiness in correcting the errors of syntax. In the arithmetical department, a creditable appearance was also made; the only falling off in the general proficiency was the reading—the low tone of voice in which several of the higher classes read caused somewhat of disappointment, and was calculated to make an unfavorable impression upon those who might not think of making some allowance for the timidity of children often at an exhibition of this kind. In every other point connected with their reading—in spelling—definition of words—and in minute acquaint-

ance with the substance of their lessons, the scholars gave proofs of their own diligence and industry, and of the attention of the teacher. There are several correct writers among the elder scholars only.

Lot 13, Oyster Cove, EDWARD T. BLANCHARD, Teacher. The average daily attendance on this School is 28, out of 44 upon the teacher's roll; the general improvement appears but slight this year; the attendance by the teacher's Journal seems to have been extremely irregular; this no doubt accounts for the backwardness of so many of the scholars—several having been absent half the year. Although this is a School of the higher class under the Act, none of the pupils have yet availed themselves of the advantages it holds out by the study of Latin or even English Grammar; in one instance only Geometry is taught. The School-house is one of the best in this County.

Lot 16, JOHN M'KINNON, Teacher. This School has been established several years under the present teacher, and is attended by 30 scholars. In this School the system is followed, which cannot be too highly appreciated, of blending to a certain extent a Scriptural education with the usual course of secular instruction. The Bible is made a regular and daily School book, and the Catechism a regular and daily exercise—Mr. M'Kinnon differing from the mistaken views of those who hold that the duty of a teacher is circumscribed by a mere scholarship of letters; as if any scheme for the improvement of character and the cultivation of the mind were complete, which would embrace a mere education of letters without an education of principle also.

At Lot 19, New Annan Mills, a School was established last year; GEORGE H. KNILANDS, Teacher. On the roll are 50 scholars. With a large average daily attendance, and a scanty supply of books, the improvement that has taken place in the general state of the School since its commencement, reflects credit upon the industry of the teacher, when it is taken into account that the children of many families attend in rotation, and sometimes several attend together at one and the same time, to make up the lost time of one; although in many places, from the condition of the settlers, this practice cannot be avoided, nothing tends more to retard the School, and is a continual drawback upon the efficiency of the teacher. The greater proportion of the children have entered as beginners. The more primary and elementary books of reading are used; no progress worthy of notice has yet been made in arithmetic or writing.

Ellis River, JOHN RONAYNE, Teacher. I could not ascertain that any sensible improvement had taken place in the condition of this School during the past year; this appeared to be owing to several causes. A number of the elder children of the former year had been withdrawn, and their room supplied by others; this, joined to the broken attendance and scarcity of books, may account in a great measure for the comparative

non-improvement of the School. The attendance appears to be an average of 30 daily.

Lot 13, Port Hill, THOMAS KEY, Teacher. This School, after a vacancy of some duration, was re-opened in April last; there has been yet no time to be productive of much improvement; the only part deserving notice was a class of 8 children, from 5 to 6 years old, who commenced the Alphabet in April, and were reading the New Testament in December. In addition to the 32 who attended in the day, a night-School, numbering 25, has been opened, which promises to prove of much utility and benefit to the youth of the district, in imparting instruction in the higher and most useful branches of an English education.

New Bideford. This School, after some vacancy, is now taught by A. C. BECKFORD; having been but a few months in operation, time must determine to what degree of merit it shall be entitled. When visited in December, 21 attended, which is about the average number.

Cascumpec, JAMES GILLENDER, Teacher. At the last examination of this School, there were 25 present—the greatest number attending is 38; with the exception of one in English Grammar, and a few in Arithmetic and the English Reader, the great proportion are not advanced beyond the primary elementary books. The judicious method of instruction, and the discipline enforced in this School, entitle the teacher to the highest praise.

Bedeque, J. B. NEWCOMB, Teacher. The School of this district had been little more than three months opened, when examined in December. That being the first examination, no accurate opinion could with certainty be formed of the state of improvement to which the School was likely to arrive under the present teacher. It must however be remarked, that few of our common Schools present the same advantages to an enterprising and zealous teacher for facilitating the improvement of his pupils. Along with the limited number of 23 scholars, who from their near vicinity to the School, and other considerations, may be presumed to attend regularly, the greater part of them appear to be adequately supplied with books and other necessaries; these opportunities, joined with the aptness and quickness of apprehension displayed heretofore under other teachers by the children of this district in general, are sufficient to justify a confident expectation of seeing a creditable progress made at the year's end, when the length of time too, that many of the children have passed at School before, is taken into account.

Upper Bedeque, ROBERT SMALL, Teacher.—This School has shewn a very creditable improvement since last year, and Mr. Small's attention is highly exemplary. The number attending is twenty-four, of whom one has made considerable progress in Trigonometry and Navigation, and two in English Grammar; a few excel in Arithmetic; one boy in particular, by the rapidity and accuracy of his calculations, gave a pleasing evidence of his

own talent, as well as of the method of the teacher. A very neat and comfortable School-house has been erected, which reflects credit on the settlement.

Lower Bedeque, **ALLAN M'PIEE**, Teacher.—A new School has been recently established in this Settlement, and had been in operation but a few weeks under the present teacher, prior to being visited in the month of December. The improvement of the school, and the result of the teacher's method and labours, must therefore form the subject of a future report. I found thirty scholars in attendance, in a commodious and well finished School-house.

Bedeque Road, Lot 27, **CHARLES R. STUART**, Teacher. Although this school numbers 31 scholars on the list, from the few that were present at the two different examinations held since last year, the general state of the school could not with any degree of correctness be ascertained; this is the more to be regretted, as the school has been in operation some length of time, and some improvement of consequence ought now to be looked for. At a late subsequent visit, the school was found closed, but it was only temporary, the teacher having since, as I am informed, resumed his vocation; a neat and sufficient School-house has been newly erected.

Cape Traverse, **DONALD MACKINNON**, Teacher. At the several examinations of this School throughout the year, the average attendance was found to be about twenty; the attendance has been in many instances irregular, and has very much retarded the progress of the pupils this year. In addition to the ordinary elementary branches, a class of five learn English grammar, but have not yet attained a correct or extensive knowledge thereof. The greatest degree of improvement was seen in the junior reading classes.

Tryon, **JAMES BULLPITT**, Teacher. This School has been several years taught by this teacher, and the result is, that the pupils, although not far advanced in the higher branches, are yet, so far as could be gathered from two examinations, well grounded in their respective parts. In reading, the fluency, correctness of pronunciation, and attention to punctuation, which was displayed by several, and some too of a tender age, was peculiarly gratifying, while the acquaintance shewn by them with the substance of their lessons, proved the advantage of the explanatory method in giving exercise to the faculties, and in exciting the attention of the pupils. Writing is successfully taught, and in a few instances arithmetic. The School-house is very inadequate in dimensions—the number on the roll is fifty-eight.

#### KING'S COUNTY.

Savage Harbour, **DANIEL SCOTT**, Teacher. The number attending on this School is 35; thirty were present at the different examinations. This Settlement has had the advantage of the present teacher several years, and

many of the children are consequently well advanced. A new and comfortable School-house has been erected.

The St. Peter's School is still taught by **PHILIP BAMBRICK**, and shews a list of 36 scholars, 34 of whom attended the last examination; a few are advanced as far as English grammar and geography, and although the improvement was not so satisfactory in reading, which is no doubt from the want of adequate books, several displayed an extensive acquaintance with the common rules of arithmetic; none have made much progress in writing yet.

Georgetown Road, Lot 66, **EDWARD SHEA**, Teacher. This School was opened last summer; when visited in June last, 27 scholars were in attendance, but, with few exceptions, were all in the first stages of their learning. A neat School-house has been erected at this station.

Murray Harbour, **JOHN M'NEILL**, Teacher. This School numbers 36 scholars. The progress upon the whole appeared at the last examination to have been as great as could have been looked for, considering the time taught; and I look with confidence to considerable proficiency before long, as the teacher's attention appears exemplary. A new School-house was erected at this station last summer.

In Georgetown, a School of the higher class has been lately established, but was not opened when visiting that quarter last. A spacious, neat and well finished school-house has been erected, in size and finish equal to any in the Island.

Lot 51, Georgetown Road, **NATHANIEL MACLAREN**, Teacher. I found the state of this school upon the whole to be deserving of an equally favourable report with that made last year. Few children in the country of the same age show such a proficiency as these in general in the correctness of their reading, their knowledge of grammar, and their readiness and accuracy of calculation in the higher rules of arithmetic. The average attendance is 30.

Brudenell River, **JOHN M'NEILL**, Teacher. The attendance on this school averages from 30 to 40 scholars, who have made respectable progress this year. The zeal which they display in acquiring instruction, in which their parents participate, and eagerly afford them every advantage within their means, and withal their general punctuality in attendance, are entitled to much commendation. The course of instruction, in addition to the primary branches, embraces English grammar, geography and mathematics. At the last examination it was remarked, that in the writing department alone the improvement was unequal, and not so satisfactory as in the other branches.

The foregoing presents a list of Fifty-eight Schools, examined by me at various times during the preceding year, shewing an increase of eight over the last year. There are several stations where schools were in operation last year, which are vacant at present, but more

have been established and put in operation during the preceding twelve months than in any former period of the same extent. A few other schools under the Act are not mentioned above: two or three in consequence of the teachers having changed their stations in the interval of my visits, without having notified me of the fact; and more whose teachers have been licensed since concluding my last visit. I must take this opportunity of requesting all teachers who change and re-open in other districts, to notify me without delay of such removal. In conclusion, I am happy to add, that I found no schools so much neglected this year, or otherwise not entitled to the benefit of the Act, as to call for the inter-

ference of your Board, or render it necessary for me to recommend the legislative allowance being withheld. In two instances, at Lots 7 and 14, were complaints preferred against the teachers; but on holding meetings of the trustees and subscribers, and investigating the charges, they could not be substantiated to such a degree as to authorize me to report the cases to your Board.

I have the honor to be,  
Gentlemen,  
your obedient servant,

JOHN McNEILL.

Viscount Palmerston,*

**W**HEREAS the Governor of Her Majesty's Island of Prince Edward, with the Council and Assembly of the said Island, did in the month of April, 1840, pass five Acts, which have been transmitted, entitled as follows, viz:

No. 529.—An Act for appropriating certain moneys therein mentioned, for the service of the year of Our Lord One thousand eight hundred and forty.

No. 532.—An Act to continue for one year the Act intituled "An Act for granting a Bounty on Vessels engaged in the Fisheries of this Island."

**T**HE Committee appointed by the House of Assembly to report if any and what further measures should be taken this Session for obtaining redress for the Loyalists and Disbanded Soldiers, respectfully submit, that they have referred to the Bill passed in 1839, for the relief of the Loyalists, &c.; to the reasons assigned by the Colonial Minister for disallowing said Bill; to the report of the Committee to whom his Despatch was referred; to the Bill brought in by said Committee, and passed in 1840 through this House; to the reasons assigned by the Legislative Council for rejecting said Bill; to the Address to the Imperial Government in 1840; to the Address presented by the said Loyalists to the Governor General in 1840; to the Bill passed this Session through this House; and to the rejection of said Bill by the Legislative Council; and after consideration thereof, they have to submit—

That in regard to the objections of the Colonial Minister (see Despatch, 31st October, 1839), they see no reason to dissent from the opinion on and complete refutation of, part thereof, contained in the Report of 1840; and that the only part of his objections not refuted in said report was nullified by leaving out, in the Bill of 1840, those parts of the Bill of 1839 to which the objections of the Colonial Minister were really applicable. The Bill of 1840 did not in the least interfere with any of the supposed rights of Proprietary Claimants, and kept equally clear of infringing on the rights of the Crown. The first section of said Bill of 1840, provides that such Loyalists and Disbanded Soldiers as should establish their claims to be so regarded, and who had not got land on account of such claims, should be "entitled to a free grant or deed out of any wilderness land which now or hereafter may be vested in Her Majesty, and shall by the direction of the Crown be appropriated for that purpose; as also, out of any Lands which, being vested in the Legislature of this Island, shall by Act of said Legislature be appropriated for that purpose."

Your Committee submit, that the above clause does not in the least trench on the rights of the Crown, nor on the powers of the Legislature; and on examination it

will appear, that, except the two last clauses, which are to prevent any interference with the Land Bill, and to suspend the operation of the Bill till the Royal Assent should be given, all the remaining clauses of the Bill were devoted to making provisions for investigating the claims of every individual, submitting such investigation to the Legislature for revision, and then putting the revised investigation on record, in order that well founded claims should not perish; and that repeatedly delaying justice should leave to these injured men and their heirs as their single possession, the only reward of their loyalty, the sole fulfilment of promises made by great men, and guaranteed by the Representative of Royalty, remediless wrong.

The reasons given by the Legislative Council (Journal of that body, 1840, folio 31,) for rejecting the Bill of 1840, are—

1st. That the said Bill was "similar in its provisions to that of 1839," which, so far, as above explained, appears to your Committee to be an erroneous assumption.

2d. That it had been framed without regard to one of the most material objections of Her Majesty's Government, namely, "that the Legislature had assumed a right to dispose of the waste lands of the Crown;" and the Legislative Council go on to say, "which right is yet assumed in the Bill now before this House."

Your Committee submit, that they are utterly at a loss to divine how the clause herein before quoted assumes any such right.

Your Committee regret that the Colonial Minister was not aware that, besides several Acts previously transmitted, there was, in 1809, under the consideration of the then Colonial Minister, a Bill for the relief of these Loyalists, as appears by the annexed extract of a letter from the late Lord Liverpool, dated 22d December, 1809—and they regret, still more, that the "anxious desire" professed by the Legislative Council for affording relief to the Loyalists, did not enable them to understand what to your Committee would appear to be the evident intention and meaning of the Bill of 1840, and that after a lapse of twelve months, the same misunderstanding of

a very plain clause, and of the general tenor of the Bill of 1840, should continue.

One deduction which appears necessarily to follow from the decision given by the Legislative Council and the Colonial Minister, is, that any measure which is to be of any benefit to the Loyalists, and which requires the assent of Legislative Councils, Governors, and the Crown, will be rendered nugatory, because, by one or other of these objecting to some of the clauses of the Bill, or being unable to see the existence of any wrong requiring such Bill, or by mere delay, all such Bills have for the last forty years been nullified.

Your Committee however submit, that if other public bodies cannot recognize these claims, it is incumbent on the House of Assembly not to relinquish a cause which, after mature examination, they declared well founded; and in this view your Committee respectfully submit, that the list of claims for the Loyalists and Disbanded Soldiers, herewith produced, should be printed as an appendix to the Journals, along with extracts of letters from the late Lord Liverpool and Mr. William Faulkner; and that next Session a Committee should be appointed, to investigate how many of these claimants were put in possession of, and allowed to retain, their land, and to report accordingly, to the end that when the matter shall be reviewed in its true light, the unsatisfied claimants may receive that satisfaction to which they are so justly entitled.

All which is respectfully submitted to the House, by their Committee.

ALEXANDER RAE,

Chairman.

March 11th, 1841.

Extract of a Letter from the Earl of Liverpool, to His Excellency Lieutenant Governor Des Barres, dated Downing Street, 22d December, 1809.

The Act intituled "An Act to confirm the Titles and quiet the possessions and locations in this Colony, of the American Loyal Emigrants and Disbanded Troops," which contains a suspending clause, still remains under the consideration of the Lords of the Committee of Privy Council; their Lordships being of opinion, as you will perceive by the enclosed extract of a letter from Mr. Faulkner, dated 15th November last, that some information should be obtained from you thereon, as to the nature and defects which it is proposed by this law to dispense with; and I request you will furnish me with such information accordingly, that I may communicate same to their Lordships.

### LENNOX ISLAND.

**A** REPORT of Survey, &c. of Lennox Island, situated in Prince County, Prince Edward Island, and containing, by estimation, Thirteen hundred and eighty-nine Acres of Land, or thereabouts, is as follows:

The Land in general, where dry, is of a light sandy soil, of an inferior quality.

The point on which the Chapel is erected is dry land, containing, by estimation, One hundred and fifty Acres. North East of the Chapel is a large Barren; a little further North, is another large Barren. Between those Barrens and Mossy Point, is principally Swamp, with other small Barrens.

Mossy Point is also a Barren. The South end of the Island is principally Swamp and Barrens, with the exception of the Chapel Point, and a narrow strip of dry land, between the Barrens and the shore, varying in width from five to twelve chains, and extending from

the Chapel Point in an Eastwardly direction, along the shore and marsh, to the Northern extremity of Mossy Point.

The area of Swamp and Barrens on the Island is, as near as I can ascertain, from Five to Six hundred Acres. The Marsh, from the information I have received, will cut from Twenty-five to Thirty Tons of Hay, annually. The growth of Wood on the Island is principally Fir and Spruce, with some mixture of Birch and Poplar. The quantity of land cleared by the Indians on the Island, is about Twenty-five Acres; and from the best information I can obtain, the Indians have occupied the Island for the last thirty years and upwards.

JAMES CLARK,  
Land Surveyor.

## GOVERNMENT,

To JOHN THOMSON,

For three Buoys at Three Rivers.

						Dr.
						£ s. d.

	Paid Allan Macdonald, per Bill,	-	-	-	-	1 2 6
	William Mackay & Co. do.	-	-	-	-	0 15 6
	Patrick Kelly, do.	-	-	-	-	0 15 0

	Thomas Reynolds, painting, paint, &c., at 4s. each,	-	-	-	-	0 12 0

	Schooner Rambler, placing the Buoys, extra hands and boat,	-	-	-	-	2 0 0
						<u>£14 19 3½</u>

In consequence of my doubt as to the proper size of the chain, spar and stone, the spar and scantling in Messrs. Mackay & Co's. Bill were not used. The scantling, or an equal quantity of wood, will be required to give buoyancy to the Buoys as they absorb the water. There is enough of chain left for one Buoy, which may supply any derangement, or be used for one of the additional Buoys required.

JOHN THOMSON.

(Copy.)      Charlottetown, Prince Edward Island,  
19th March, 1841.

Sir;

I DEEM it my duty to bring to your Excellency's notice, now that the Legislature is in Session, the state of the Supreme Court in this Island, in regard to the daily increasing necessity which in my opinion exists for the services of a professional Assistant Judge of that Court.

Your Excellency is aware that there are no inferior Courts in the Island, with the exception of a Magistrate's civil jurisdiction to the extent of five pounds, and in very minor criminal cases, and in trifling assaults and batteries; from all which an appeal generally lies, and is frequently carried up to the Supreme Court. The two Assistant Judges not being gentlemen of the legal profession, the whole administration of justice in the Island (with the above very limited exception) devolves upon myself individually and exclusively. Those two gentlemen do indeed, at all times when called upon, evince the utmost readiness to lend their aid; and Mr. Justice Haviland, who has held that office prior to and during the whole of my residence in the Island, renders very valuable assistance; but that gentleman's office of Colonial Secretary, and his other official avocations requiring so much of his time and attention, and no salary being provided, I have abstained from ever requiring his services, except upon some slight occasions; and during two Terms, in one of which, from my extreme illness, he presided in the Court, and in the other, whilst I was still an invalid, he regularly attended, (I have no doubt much to his inconvenience), and assisted me with much ability. The Members of the Bar also shew an unwillingness to try their causes before Judges whose attention has not been particularly directed to legal studies. In this manner I have for upwards of twelve years conducted the business of the Supreme Court. The frequent and almost absurd appeals from my own decisions to myself, sitting alone, is a matter of consideration rather for those who choose to subject themselves to such an anomaly, than an objection on my part. But it is the increasing duties

of the Supreme Court that induces the urgent necessity for further judicial assistance. During the time of my presiding upon the Bench in this Island, its population has nearly, if not quite, doubled in numbers. For a great part of that time there were but three Terms of the Supreme Court in the year; they have gradually increased to four Terms in the year at Charlottetown, besides four additional Circuit Courts in the two Counties, and the business of the Courts has naturally increased nearly fourfold, yet the judiciary remains in the same state as at the first civil establishment in the Island, if we except a somewhat increased jurisdiction in the Magistrates. In all the neighbouring Provinces there have been in each (from the first), and long before they numbered a population equal to that of this Island, a Chief Justice and three efficient Puisne Judges, besides inferior Courts of Judicature; this Island is the solitary exception to that system.

I beg not to be understood by your Excellency as on the present occasion complaining of the undue burthen from time to time thus imposed upon myself, although I feel my constitution is beginning to sink under the weight. I have ever scrupulously abstained from such complaints, endeavouring always to go through my labours to the best of my strength and ability. My only object at present is, that the administration of justice in this Island may be made more efficient than it can possibly be under the existing system. I am still unwilling, for the reasons before stated, to call upon the Assistant Judges to take their tour of duty, as is done in all other Colonies, but I fear that either this measure or an increasing deficiency in the administration of justice must be the alternative; and, more particularly, as I understand the Legislature have it now in contemplation to increase the duration of the present terms, thus imposing a yet additional duty, the whole amount of which no one individual could, by any possibility, satisfactorily and efficiently discharge.

I have thus brought to your Excellency's notice some of the reasons why, in my opinion, the time has arrived when the state of the Colony renders absolutely necessary the appointment of at least one Assistant

Judge of the Supreme Court being a gentleman of the legal profession. I have shewn your Excellency that, with a trifling exception, the whole administration of justice in the Island devolves upon the Chief Justice alone—that I have presided in the Supreme Court upwards of twelve years, during which time the population has nearly doubled, bringing with it a vast increase of legal business—that the Terms of the Supreme Court, from three in number, have increased to eight in the year, and are, some of them, about to be lengthened in duration—that the system in this Island, as compared with that in all the other Colonies, falls far short of the means of obtaining a full and complete administration of justice. I might go on and shew to your Excellency that for want of inferior jurisdiction so much of the time of the Supreme Court is necessarily devoted to trifling matters as to render it impossible to complete all the business in progress; that many law points of great moment and of the greatest intricacy are brought and argued before the Supreme Court, in the investigation and decision upon which much time would be saved and business would in general be greatly expedited, if

there were another legal mind with whom the Chief Justice could consult; for want of which I have found it necessary, on several occasions, under great disadvantage, to consult with the Chief Justice of a neighbouring Province—and many other cogent reasons might be offered, which are obvious to those versed in legal pursuits. But I trust I have stated sufficient to convince your Excellency that an urgent necessity exists, and will continue daily more and more to increase, for the services of an Assistant Judge of the Supreme Court, bred to the study of the law, and to which I cannot for a moment think the Legislature, having the good of the country at heart, would hesitate to give a due and ready attention.

I have the honor to be,  
 your Excellency's most obedient  
 humble servant,  
 (Signed) E. J. JARVIS.

To His Excellency  
 Sir Charles A. Fitz Roy,  
 Lieutenant Governor, &c. &c. &c.

Downing Street, February 12th, 1841.

(No. 42.)

Sir;

I HAVE had under my consideration your Despatch, No. 11, of the 5th May last, enclosing, with other documents, an Address to the Queen from the House of Assembly of Prince Edward Island, recommending, for Her Majesty's favourable consideration, the claims to Land of the American Refugees, the disbanded Provincial Troops, and their descendants, who have settled in the Island.

I have had the honour to lay that Address before the Queen, and Her Majesty has been pleased to command

me to instruct you to acquaint the House of Assembly, that although she deeply regrets the distress with which a class of Her Majesty's faithful subjects in Prince Edward Island appears to have been visited, it is not in her power, especially at so great a distance of time, to compel the Proprietors of Land in Prince Edward Island to fulfil the promises which they are said to have left unfulfilled, and that the agitation of such questions can only lead to confusion and conflict of interests.

I have, &c.

Pictou, 23d March, 1841.

Sir ;

I AM just favoured with your letter of the 8th inst., together with a copy of two Resolutions of the House of Assembly, on the subject of employing a Steam-boat.

The owners of the *Pocahontas* believe her to be quite capable of performing all the trips required by the Resolutions, but she is not of sufficient capacity to afford room for comfortable berths during the night, for such a number of passengers as might be expected on the Miramichi route; nor is she adapted for carrying freight. They would, therefore, be altogether disinclined to engage her in a service where they have strong doubts of her giving satisfaction.

No expense has been spared to make her a very eligible passage boat, for short voyages, and the proprietors will, if approved of, accept the sum offered by your Legislature for the season, to carry the Mails, three trips a week, between Pictou and Charlottetown or George-

town, subject to the direction of your Government—their making due allowance for occasional disappointments, which may be experienced through inability to perform any particular trip on account of tempestuous weather.

The owners tender the Boat for this route, possessing a full belief that on it she will give satisfaction; and they further offer, without additional compensation, to make two or three trips to Miramichi during the season, with such accommodations as she has, should His Excellency deem it necessary to require such service.

We look with anxiety for an early reply, as the shortest notice will leave but little time to prepare for a commencement on the opening of the navigation.

I have the honor to be, &c. &c. &c.

for the Proprietors of the *Pocahontas*,

JAMES PRIMROSE, Agent.

To the Hon. T. H. Haviland,

Colonial Secretary,

Charlottetown, P. E. Island.

# APPENDIX

(SEE PAGE 100.)

**T**HE Committee appointed by the House of Assembly to report on the operation of the Bill for laying off the Boundaries of Townships, have to submit, that the Report drawn up by the Committee of last Session, not being to be found, has occasioned additional trouble to your Committee, and prevents them from making this Report bear reference to the other.

Your Committee submit, that from papers referred to in the missing Report it would appear that certain discrepancies existed betwixt the copy of the Tabular Description and References in the office of the Surveyor General, and the copy last year received from the Imperial Government; but your Committee submit, that these are very trivial, compared with the numerous and important discrepancies which exist betwixt both these Tabular Descriptions and the Plan of the Island as made out by Mr. Ball, for the use of the Legislature, whereof a list is herewith produced, so far as your Committee have been able to examine.

Your Committee further submit, that they have examined Mr. James Stewart, Land Surveyor, who had been examined last Session; and Mr. Alexander Anderson, another Land Surveyor, both which examinations, along with that of Mr. Stewart, in 1840, are herewith submitted to the House.

In regard to the evidence of Mr. James Stewart, this year, it would appear that he had, under the direction of the Commissioners, run one of the lines of Township Ten—that is, the line dividing said Township from Townships Eleven and Twelve.

In regard to that of Mr. Anderson, it would appear, that under the direction of the Commissioners, he had commenced at the point where Mr. Stewart left off, and had run the North and South Line, dividing Townships Nine and Ten from Township Six; and that having directed Mr. Anderson to transmit the measurement from that point where the line run by him under the Commissioners struck the rear line of Townships Seven

and Eight, along said rear line, northward to the sea, they have received said return, whence it would appear that said line admeasures eight miles sixty nine chains, and that the point where the line of Township Six, as run by Mr. Anderson, touches said rear line, is two miles and twelve chains to the southward of the line dividing Townships Seven and Eight, whereas on the plan these lines equally coincide; that is to say, the line dividing Townships Seven and Eight is, on the plan referred to, a mere prolongation of the line dividing Townships Nine and Ten from Township Six.

Your Committee have also to remark, that many years since Mr. Anderson had surveyed Township Seven, that by the Tabular Description the rear line of said Township running North and South is six miles and 2400 feet, and by his measurement six miles and 57 chains.

They have further to remark, that as Townships Nine and Ten, when run out, appear to fall short of touching Township Six, your Committee deem it highly probable that said Township Six has, in all surveys posterior to the original survey, been laid out too far to the Northward; and if so, that a similar error has prevailed in respect to Townships Five, and Four; and they cannot help remarking, that the parallel Townships Two, Three, Four and Five all at one time belonged to John Hill, who, about 20 or 25 years since, made over said Lot to his creditors in Newfoundland, and thereafter, when he returned to this Island, offered on lease Land on the Southern coast of the Island, which, by certain natural marks, would appear to be on Township Three; and though by the description Townships Two and Three are nearly of the same width—Lot Three being 100 feet wider—yet, even on the plan made for this House by Mr. Joseph Ball, Township Three appears narrower than either Township Two or Township Four.

Your Committee further submit, that whatever instructions may occasionally have been given to Surveyors on their admission, as to furnishing copies of surveys to the

office, or even supposing that these orders had been invariably given, still it appears that this has very seldom been done.

Amidst so much inaccuracy and uncertainty, it appears evident to your Committee that in many instances Surveyors must have acted without such precise information and data as were necessary to make a survey that should be capable of being maintained; and the general state of the Records, the discrepancies between the Tabular Description and the Plan made for the use of the Legislature, the circumstance that the original plan of the Island in the Surveyor General's Office has apparently fallen in pieces or been worn to pieces, and

some of these parts lost, and no copy thereof having been previously made, all tend to the conclusion that it would be necessary, for correctly ascertaining the lines of Townships, that some additions should be made to the provisions of the Act for ascertaining the Boundaries of Townships. But in the mean time the Committee cannot see the propriety of incurring any further expense with the surveys of Townships, until it shall be determined whether or not the Imperial Government are to settle the people of the Colony, by giving them such a tenure of land as will really enable them to enjoy the fruits of their labour.

APPENDIX (R.)

*Explanation referring to the County Town Lots.*

Town Lots.	Number of Acres.	BOUNDARIES AND EXTENT.				REMARKS.
		Bounded on the North.	Bounded on the South.	Bounded on the East.	Bounded on the West.	
CHARLOTTETOWN.	7,300	By Nos. 32 and 33, East, and 4 miles 2350 feet.	By Hillsborough River.	By No. 31, North and South, 2 miles 600 feet.	On the West, by York River.	It is the most advantageously situated of any place on this side the Island, having immediate communication with the Harbour of Port Joy, and the three rivers of Hillsborough, York, and Elliot; the grounds are so well commanded, and the Creek on the South side of the Township is capable of being made a secure place for small Vessels—and to this, there is a very proper depth of water for shipping to ride near the Town, in good ground.
GEORGETOWN.	4000	On the North, by Cardigan River.	On the South, by Bruttenell and Montague Rivers.	By Cardigan River.	By the division line of No. 53, North and South, 1 mile 4000 feet.	This County Town Lot has a great advantage from its situation, as having the inland communication by Montague, Cardigan, and Bruttenell Rivers, and is surrounded by water. It is set by the Division Line of No. 53. In respect to trade and shipping, no place can be more convenient. The entrance into the Rivers, with the help of two or three Boats being fixed, will be safe and open, with water for the largest Ships to enter and ride with great safety in Albion Bay, Montague River, and in the Bay formed by Sandy Hook, in Cardigan River. The entrance into the Rivers may be effectually secured by good Batteries on each side of the Town.
PRINCETOWN.	4000	By Richmond Bay and Darnley Basin.	By March Water and No. 18, East and West, 2 miles.	On the East, by No. 18, length, which sub-division line is 1 mile 4400 feet.	On the West, by March Water and Richmond Bay.	This County Town Lot, for a Fish Trade, is superior to any other place upon the Island, being near the entrance of Richmond Bay, makes it peculiarly convenient for fishing vessels, as they need very little time in going to the fishing ground. There is also water enough for large ships, and great part of the Township being included within a Peninsula, may be securely fortified at a small expense. There is a very convenient harbour for small vessels in Darnley Basin.

(SEE PAGE 150.)

**Q**UERIES put by a Committee of the House of Assembly, in the Session of 1839, to the Attorney General of Prince Edward Island.

**Q.** Considering the reservation of 500 feet for a free Fishery, made in the Order of Council of 1767, could any individual holding a Township by a Grant (wherein said Reservation is inserted), give a valid Deed of land, the whole of which was included within said Reservation?

**A.** I am of opinion, that under the words of Reservation, contained in the Order in Council of 1767, and expressed in several of the Grants of Townships in this Island as follows, viz: "Saving and reserving a free liberty to all His Majesty's subjects of carrying on a free Fishery or Fisheries on any part or parts of the coasts of said Townships, and of erecting Stages and other necessary Buildings for the said Fishery or Fisheries, within the distance of 500 feet from high water mark," the legal Estate to the whole land mentioned in the Grants passed to the Grantees, subject to the right of the public to erect Stages, &c., for the purposes contemplated in the Grants, within the 500 feet on the coast of the said Townships, and that the Grantees could make a valid Deed of such Reservation, subject, however, to such right of the public; and the purchaser would, of course, be liable to interruption to the extent of the right reserved by the Crown.

**Q.** Referring to the previous question, if Deeds have been given including portions of said Reserves, in the parcels of land sold, and if such Deeds do not contain any clause expressly declaring that the purchaser shall be liable to the loss of such portion of said land as may be within the limits of such Reserve, can the person giving such Deed recover from such purchaser the stipulated price, without deduction for the land included within such Reserves?

**A.** It is impossible to say how far a purchaser would be entitled to compensation from the vendor of such land, as so much depends upon the covenants contained in the deed; and deeds vary so much, that no general rule that I know of could be applied. The principle of law, "Caveat Emptor," renders it imperative on a purchaser to look to his title before he takes his conveyance. I am of opinion that the purchaser could be compelled to

pay the consideration money expressed in his Deed, and unless it contained Covenants extensive enough to enable him to recover against the Vendor, he would be without a remedy.

**Q.** Supposing a Lease for 999 years, executed on the same terms as the Deed mentioned in the preceding question (No. 2), and that the same specifies the quantity leased to be 100 Acres (one hundred acres), a little more or less, at a certain rent per acre, can the holder of such lease deduct from his rent such sum as is equivalent to the number of acres (of the land so leased) within the limits of such Fishery Reserve?

**A.** Until the tenant is evicted, the proprietor is entitled to recover the full amount of the rent reserved in the Lease. If an eviction takes place, it appears to me the tenant would be entitled to a deduction of his rent, according to the quantity of land from which he was so evicted; but this eviction must be a continued eviction, and not a partial one—that is to say, if, under the reserved right of the public, expressed in the answer to the first query, a fisherman enters into possession of part of the land, and afterwards abandons it, and the tenant, before the rent becomes due, enters again into the possession, I am of opinion he would be liable to the full rent.

**Q.** If the Tenant can prove that said deduction is inadequate to the damage he will sustain, can he recover from the lessor the amount of such damage?

**A.** It is impossible to answer this query in a sense applicable to all Leases, so much depends on the manner in which the covenants are expressed in the Lease itself. If a particular Lease, or form of Lease, had been handed to me with this query, I might then have been enabled to give a definitive reply to it. As the best answer, I will now quote from works which are considered of authority, the construction given to Leases varying in form, and containing different Covenants:—

"Thus, when one makes a Lease for years, by the words 'demise and grant,' without any express covenant for quiet enjoyment—in this case, the law intends and makes such a covenant on the part of the Lessor, which is, that the Lessee shall quietly hold and enjoy the thing demised, against all persons at least having title under

the Lessor, and at least during the Lessor's life, and, as some think (1 Inst. 334), during the whole term."—*Woodfall's Law of Landlord & Tenant: Title, Covenant.*

"An express Covenant, usual on the part of the Lessor, is for quiet enjoyment of the premises demised, or to save harmless the Lessee from all persons claiming title. A Covenant for quiet enjoyment implies, of course, that the Lease shall be a good and valid demise, as a bad Lease would be a breach of such covenant. Where there is a covenant for quiet enjoyment, this shall not extend to a tortious ejection, or eviction by a stranger, because that for this wrong the Lessee may have his remedy by action against the stranger himself; but if the lessee be ejected by the lessor himself, then the lessee may have covenant. But if the stranger claims by *elder title* than the lessor, the lessee may have covenant against the lessor, for he then can have no redress against the stranger, whose title is good in law."—*Es-pinasse Nisi Prius: Title, Covenant.*

"If one make a Lease of land to another, and covenant that he shall quietly enjoy it, without the let or molestation of any person whatsoever, or without the let of any person whatsoever claiming by or under the lessor—in both these cases, the covenant, it is said, shall be taken to extend to such persons as have title, or claim some estate under the lessor; for if, in the first, the lessee shall be disturbed by any claim, entry, or otherwise, by any person that hath no title, or in the second case by any person who shall claim under another, and hath title; or that shall claim under the lessor, this is held to be no breach of the covenant, *sed quare*, as to the first case, for herein some conceive a difference between a covenant in deed and a covenant in law; and howsoever the latter is extended only to evictions by title, yet that the covenant by deed shall be extended further—therefore, if A make a lease to B, and covenant that B shall quietly enjoy it during the term, without the interruption of any person or persons—in such case, if a stranger, having no right, interrupt B, he may have an action of covenant, as, when such promise is by word, an action on the case will lie.....A covenant that the lessee shall quietly enjoy against all claiming, or pretending to claim, a right in the premises, was held to extend to all interruptions, be the claim legal or not, provided it appear that the disturber do not claim under the lessee himself.—*Woodfall's Law of Landlord and Tenant—Title, Express Covenant.*

Q. What is the utmost number of acres which you consider may lawfully be comprehended in the law phrase "a little more or less?"

A. The words "little more or less" are inserted in Conveyances, as a protection to the Grantor. No certain rule is laid down on this point, as far as my observation goes. Much depends upon the facts of each individual case. In one instance, "a case is said to have been decided, where a man conveyed his land by the

quantity of 100 acres, were it more or less, and it was not above 60 acres—the purchaser had no relief, because it was his own laches."—*Sugden on Vendors.*

These words, however, apply to cases of miscalculation only, and afford no protection to a grantor, where a tenant or purchaser has been evicted from ever so small a quantity of land by a title paramount to the one he claims under.

Q. Considering the Order of Council of 1767, before referred to, if any Grant made in pursuance thereof contains neither the said Reservation, nor any clause stating that such Reservation is in reference to such Grant dispensed with, is the right of the Crown to insist on such Reserve done away with by such non-insertion?

A. Where lands have passed by Grants from the Crown, in which the reservation alluded to in this query has not been inserted, I am of opinion that the Crown is for ever barred from insisting on such Reservation.

Q. In reference to the Grants containing a clause of Reservation, will the two different modes in which said clause is worded [see Despatches on this subject] make any difference in the rights of the fisherman to occupy said Reserves?

A. Where the right reserved is to all His Majesty's subjects, &c., I am inclined to think that a British subject is entitled to the exercise of the right, for the purposes intended; but where the right is reserved "for the disposal of His Majesty, his heirs and successors," &c., I think a license from the Crown is necessary to enable a subject to claim the use of it. In the first case, according to my view of the matter, the legal estate is in the grantee, subject to the exercise of the public right—in the latter case, the legal estate never passed from the Crown.

Q. Is it your opinion that the Proprietors were bound to pay Quit Rents for the whole 29,000 Acres, supposing that said Reservation forms part of the said 29,000 acres?

A. Where the Reservation is to the Crown, I am of opinion that the proprietors are not bound to pay Quit Rents for such Reservations; but where the Reservation is "of a free liberty to all His Majesty's subjects," &c., I am of opinion that the proprietor may be compelled to pay Quit Rent for such Reservations.

Q. Referring to the Act of 1783, as to Loyalists, do you consider that the Crown was thereby bound to reduce the Quit Rents, as therein mentioned, unless the whole 200,000 acres therein mentioned as surrendered by the proprietors to the Crown, were, by said Act of 1783, really vested in the Crown?

A. I cannot see how, by the Act of 1783, referred to, the Crown was bound to reduce the Quit Rents to any proprietor or proprietors. The only way in which Quit Rent is mentioned in that Act, is by an expression of confidence on the part of certain persons, subscribers

to a document embodied in it, that my Lord North "would obtain for them such an abatement of Quit Rents as would place them on an equality with the neighbouring Colonies, and by that means remove a cause which might prevent many faithful subjects from emigrating to this Island from the American States, and which had obstructed the settlement and prosperity of this Colony." On what conditions the Quit Rents in this Colony were reduced, must be sought for in the Instrument or Proclamation (if any there be) declaring such reduction.

Queries put by a Committee of the House of Assembly, in the Session of 1839, to the Solicitor General of Prince Edward Island, with the answers thereto.

Q. Considering the reservation of 500 feet for a free Fishery, made in the Order of Council of 1767, could any individual holding a Township by a Grant (wherein said Reservation is inserted), give a valid Deed of land, the whole of which was included within said Reservation?

A. The Order in Council of 1767, to which I am referred, appears (by the Despatches laid before the House by His Excellency Sir Charles Augustus Fitz Roy,) to have been inserted in the Grants, in the following words—"saving and reserving a free liberty to all His Majesty's subjects of carrying on a free fishery or fisheries "on any part or parts of the coast of said Township; "and of erecting stages and other necessary buildings "for the said fishery or fisheries, within the distance of "500 feet from highwater mark." To answer the question submitted, it is necessary to consider the effect of a grant: what is the effect of an *absolute* grant of any specific tract of land? It passes the whole legal estate of the grantor therein to the grantee. It is, however, in the grantor's power to reserve for himself a part of his interest out of the general effect of the grant; and he may exercise this power so as to except a particular piece of the land granted; or allowing the whole land to pass, reserve a particular right or privilege over the whole, or some particular part of it. In a grant containing the words above recited, it is clear that the legal estate in all the land therein described would pass, and that the privilege therein mentioned of erecting stages, &c. for the purpose of a fishery, or any part within 500 feet from highwater mark, would alone be reserved. I am therefore of opinion, that an individual holding a Township by such a grant could make a valid deed of a piece of land, the whole of which was included in such reservation—the purchaser, however, would take it subject to partial interruption by the exercise of the right reserved.

Q. Referring to the previous question, if Deeds have been given including portions of said Reserves, in the parcels of land sold, and if such Deeds do not contain any clause expressly declaring that the purchaser shall be liable to the loss of such portion of said land as may

be within the limits of such Reserve, can the person giving such Deed recover from such purchaser the stipulated price, without deduction for the land included within such Reserves?

A. The answer above given to the first query seems to render any to the second unnecessary; but as my opinion on each may be desired, and as, notwithstanding the validity of the deed, partial interruption of the purchaser's enjoyment might take place, I will answer it also; and for that purpose I will presume (as is done in the case stated,) that no valid deed could be made.—It is a principle of law, that a purchaser, before accepting a conveyance, must see that the title is good, otherwise he will lose his money; and it is well established by a large class of cases, that in an action for purchase money by a vendor against a purchaser who has accepted a deed, a defect in the title is no defence. My opinion, therefore, is, that the supposed vendor in the second query would recover from the supposed purchaser the stipulated price, without deducting for the land included within the reserves; he might indeed have a remedy by action of covenant, if his deed contained covenants extensive enough for that purpose; but, as different deeds contain covenants differing materially in the protection which they afford, I would but mislead were I (without a very general perusal of the Island deeds) to offer any opinion on this point. I may, however, add, that supposing the covenants to be such as are usually inserted in England in like cases, the purchaser would be remediless.

Q. Supposing a Lease for 999 years, executed on the same terms as the Deed mentioned in the preceding question (No. 2), and that the same specifies the quantity leased to be 100 Acres (one hundred acres), a little more or less, at a certain rent per acre, can the holder of such lease deduct from his rent such sum as is equivalent to the number of acres (of the land so leased) within the limits of such Fishery Reserve?

A. In the case supposed in this query, the Proprietor would be entitled to recover rent for the whole hundred acres, until the tenant had been actually evicted from some part of it, and then, in an action for the rent the tenant might plead the eviction, and the rent would be apportioned; that is, the rent for the number of acres out of which he was evicted would be deducted, but no more; for instance, suppose ten of the 100 acres to be on the fishery reserve, and the tenant evicted out of two acres, the rent of the two only would be deducted. I have used the word "evicted," but as it is a technical word, its legal meaning may not be fully understood. I will explain it: it means an expulsion of the lessee out of all or some part of the premises, and a keeping out *till after the rent becomes due*; therefore, in case a tenant was evicted by a fisherman for a few months, and after that, and before the rent became due, re-entered, he would not be entitled to an apportionment.

Q. If the Tenant can prove that said deduction is inadequate to the damage he will sustain, can he recover from the lessor the amount of such damage ?

A. The answer to this query depends so entirely on the covenants contained in the leases, that I can do no more than merely state the general law on the subject, and the Committee will be better able than I to judge of the effect which its application to the majority of leases will produce. If land be leased for a term of years by the usual word "*demise*" or "*grant*," and the lease contain no express covenants at all, yet the lessee, if ousted, may maintain an action against the lessor, and recover the damage he has sustained, on the *implied* covenant which the *law* raises out of the words "*demise*" or "*grant*." If there be a covenant for quiet enjoyment against *all persons lawfully claiming*, he will have the like remedy against the lessor and his heirs. But if the covenant be for quiet enjoyment against the acts of the lessor, *and those claiming under him*, then in the case put the tenant would have no remedy, as the title by which he was evicted would be paramount, or of older date than his lease; and against such it would not protect him. Covenants may also be restricted in a variety of other ways; the effect of which depending on particular words, I can convey no idea of. In some of the leases which have come under my observation the covenants are general, and the tenant could recover any damages he had sustained; in others, they are restricted, and he could not.

Q. What is the utmost number of acres which you consider may lawfully be comprehended in the law phrase "*a little more or less*?"

A. To content myself with answering this question as it is put, would, I fear, afford very little information to those who put it; as the words "*a little more or less*" have been held to contain from one-fourth of an acre to fifty acres. In one case, which is reported, a man professed to convey 100 acres; there were really but 60; and the purchaser had no relief. The question, I apprehend, has been induced from an erroneous idea of the object and meaning of these words; they are meant to protect the grantor against unintentional miscalculations of quantity; and cannot be used as a shield, to protect him against the consequences of selling a piece (however small) to which he had no title. If a proprietor were sued for eviction from one, or the fourth part of an acre of the reserves, he must revert to some better plea, as the words referred to would afford him no defence.

Q. Considering the Order of Council of 1767, before referred to, if any Grant made in pursuance thereof contains neither the said Reservation, nor any clause stating that such Reservation is in reference to such Grant dispensed with, is the right of the Crown to insist on such Reserve done away with by such non-insertion?

A. In grants which contain no reservation, I am of opinion that the mere non-insertion has barred the right of the Crown to insist on the reservation.

Q. In reference to the Grants containing a clause of Reservation, will the two different modes in which said clause is worded [see Despatches on this subject] make any difference in the rights of the fishermen to occupy said Reserves?

A. In those grants where the words of the reservation are "*saving and reserving, for His Majesty's disposal, &c.*," I conceive that the legal estate in the 500 feet thereby reserved never passed out of the Crown, and consequently that no person can enter upon or use it, without a license from the Crown for that purpose. In those grants which reserve the right to the public, if the legal effect of the reservation be, to vest a right in the public, as indicated by the Despatch of my Lord Glenelg, of the 10th of May, 1838, then, on a Township held under such a grant, the right to the enjoyment of the privilege is unfettered, and any British subject may exercise it. I however entertain considerable doubt as to the *legal effect* of this last mentioned reservation; and I would not wish to be understood as giving any opinion upon it, except on the hypothesis that the right is by the grant well vested in the public; in which case, I conceive it might be exercised as above stated. If my opinion as to the legal effect of the reservation be desired, I must be allowed more time to consider.

Q. Is it your opinion that the Proprietors were bound to pay Quit Rent for the whole 20,000 acres, supposing that said Reservation forms part of the said 20,000 acres?

A. In those cases where (as already observed) the *legal estate* in the reserve passed to the proprietor, my opinion is, that he was bound to pay Quit Rent for the whole. In those cases where it did not, I think he was not liable for it, in respect of the land contained within the reserve.

Q. Referring to the Act of 1783, as to Loyalists, do you consider that the Crown was thereby bound to reduce the Quit Rents, as therein mentioned, unless the whole 200,000 acres therein mentioned as surrendered by the proprietors to the Crown, were, by said Act of 1783, really vested in the Crown?

A. The question here submitted is, whether the granting of the lands to Loyalists was a condition precedent to the reduction of the Quit Rents, and whether, if that condition has not been fulfilled, the Crown may not still demand the higher rent. The proposal (or after it was accepted, I may call it a contract) of the proprietors, vested in the preamble of the act of 1793, was an offer to grant to a certain class of persons certain portions of land, of which offer, when any of the class designated chose to avail themselves, they would have a right to claim the performance; the consideration for

the compact would be the inconvenience suffered by the loyalists in coming to the Island, and the benefit to the proprietor, in having a part of the wilderness lands settled, and the value of what remained thereby enhanced. From any thing contained in the Act referred to, I cannot see what the Quit Rents have to do with the grant or surrender of the lands by the proprietors; or rather what effect the granting or not granting, surrendering or not surrendering the lands, could have upon the Quit Rent—since, as I read it, the reduction of Quit Rents was not the consideration for the proposal or contract of the proprietors; for, by referring to it, it will be seen that (setting out the reasons which induced them to do so,) they make an unqualified offer of so much land, and so far not a word is said about Quit Rents; yet that offer might be clogged by a condition

afterwards inserted; but that which follows is no condition, but a mere recommendation, or expression of their opinion to the Minister, of the expediency or policy of a particular measure, viz: the reduction of the Quit Rents. Whether that recommendation were followed or not, would (as it appears to me) make no difference to the loyalist; he would still be equally entitled to claim the performance of the proposal or contract in his favor. If they have been reduced (which I presume they have), the right to raise them to the original rate must depend on the Royal Proclamation or Instructions which reduced them, (which are not before me,) and on which I can therefore pass no opinion. All that I can say is, that neither the Act referred to, nor the proposal of the proprietors, will (in my opinion) affect the question.

**T**HE Special Committee appointed by the House of Assembly to take sundry evidences in regard to the letter of the Chief Justice, transmitted to the House by His Excellency the Lieutenant Governor, submit—

That in the three years, ending Michaelmas, 1840, there have, in all the Terms of the Supreme Court, been, both of record and summary causes, entered on the roll for Queen's County, only, Record, 112

Summary and appeals, - - 181

Total, 293

Of which there have been decided, 112; and as the roll or docket of Hilary, 1838, shews only 89 causes, and the roll or docket of Trinity, 1840, shews only 131, there appears only an increase of 42 causes. And again, looking to record causes, an increase only of three.

In regard to decisions, that there have been only 112 decisions, of which a great proportion were decisions of summary causes by default, and of appeals. And again, looking to King's and Prince Counties, the total number of decisions for these three years is only 92, of which the greater part were on summary actions, by default, and on appeals—perhaps about one fifth on verdicts.

A considerable amount of routine business has also been gone through, comprehending motions, insolvent cases, limits, bails, and such like.

And besides this, all the Crown prosecutions have to be taken into account—the number of which your Committee have not herein above inserted, as they are found in the public accounts, annexed to the Journals of the House.

The new cases in Hilary, 1838, for Queen's County, are not included in the above, the Prothonotary not having with him, on his examination, the roll of Michaelmas, 1837, to enable him to distinguish the same.

Looking again at the time occupied in judicial duties, it appears that in every year there are four terms held in Queen's County, which are held for the full term prescribed by law, amounting per year to 42 days—in three years to 126.

And that for the same period of three years there have been kept in the two other Counties, for the whole three years, 33 days—making together an average per year of 53 days on which the Chief Justice presides in Court; and during the last three years, of hearing Counsel 12 days at Chambers, *so far as your Committee could ascertain*, besides three days before Puisne Judges.

It appears, moreover, that the Chief Justice has been afflicted with a complaint of the eyes, occasioning indistinct vision, and that in consequence thereof he has visited the neighbouring Provinces with the view of consulting experienced oculists.

It also appears that, occasionally, through the absence of what is termed a corresponding legal mind in this Colony, he has found himself under the necessity of applying to some of the Judges of the neighbouring Colonies.

It appears also that on one occasion no term was held at Georgetown; and on requiring the Prothonotary to state the reason thereof, naming the term for Georgetown, July, 1839, that gentleman answered "that the Chief Justice was not there to open the Court."

(SEE PAGE 165.)

*Evidence given by the Hon. George Wright, Surveyor General, at the Bar of the House of Assembly, touching the operation of the Boundary Acts, as far as relates to certain Townships in Prince County.*

**T**HE Honourable G. WRIGHT, Surveyor General, called to the bar, and examined.

*By Mr. Rae.*—Q. Are you one of the Commissioners for fixing the Boundary Lines betwixt Townships?

A. I am.

Q. Have you been called on to determine the line dividing Townships 3 and 4?

A. There was a requisition made to the Commissioners by one of the Proprietors of Township 4.

Q. Did the Commissioners determine the line?

A. They did not.

Q. When was the requisition made?

A. In the winter of 1839.

Q. What did the Commissioners do?

A. The Commissioners directed a Survey to be made of the coast on each side of that part of the line we were called on to fix, which survey was continued to the northward, as far as Lot One, when it appeared that there were nearly three miles of sea coast introduced on the original plan which was not in existence, and which deficiency fell upon Lots 2 and 3—principally upon the latter. The Commissioners, in consequence, did not feel justified in fixing the line between Lots 3 and 4, until they had searched the Surveyor General's office, for further records, which might enable them to proceed in that service—shortly after which, the operation of the Act, for Prince County, was suspended.

Q. Whom did they direct to make the survey above referred to.

A. Alexander Anderson, who executed the survey under the immediate inspection of the Commissioners.

Q. Was that in 1839?

A. I think it was in 1839.

Q. Have the Commissioners, since then, got any information which will enable them correctly to ascertain the lines betwixt Lots 2, 3, and 4?

A. They have not: I consider it impossible to fix these lines satisfactorily, without a re-survey of that part of the Island.

Q. Do you mean a re-survey according to the provisions of the present Boundary Act?

A. The Act contains no such provision.

*By Mr. Palmer.*—Q. Do you mean a re-survey, to be taken in like manner as surveys are now taken under the several Boundary Acts?

A. A different mode would be necessary, to form a correct plan by which irregularities might be obviated.

*By Mr. Rae.*—Q. Do you consider, in regard to Lots 2, 3, 4, 5 and 6, that there is any clear and satisfactory evidence by which the Boundaries of any of these Townships, where bordering on the Straits of Northumberland, can be correctly ascertained?

A. Only three of these Lots bound on that shore—2, 3, 4 and part of 5. The Commissioners did fix the Boundary between Lots 5 and 7, and found no difficulty. As regards 2, 3 and 4, with the exception of the line between 1 and 2, said lines cannot, with present documents, be satisfactorily established.

Q. Does the Witness know, or has he reason to think, that any of the Townships, 1, 2, 3, 4, 5, 6 and 9, contain more than the quantity of land stated in the Grants?

A. I cannot say whether they do or not.

Q. Or any of the Townships bordering on these?

A. Not having an actual survey of any of the Townships bordering on these, I cannot say.

Q. Does the witness believe that there is not a sufficient quantity of land to give every one of these Townships its stated quantity—that is, that the said part of the Island, to the North of Townships 10, 11 and 12, does not contain an area equal to the sum of the acres stated in the respective grants of the Townships to the North of these three?

A. Very possibly there might, but I cannot speak with certainty.

*By Mr. Thomson.*—Have the Commissioners made the search you alluded to in the Surveyor General's Office?

A. They did.

*By Mr. Rae.*—Were such shore survey as you alluded to to be made, at what points, in your opinion, ought it to be commenced and terminated?

A. A survey might be commenced at Egmont Bay, and carried through the Island to Cascumpec Bay, and Foxley River, and continued on the N. E. shore, as far as Lot 1—on the other side of the Island from Egmont Bay to Lot 1—on the N. W. side of the Island, it might be likewise necessary to include Lots 11 and 12 in the survey.

Q. Then have you clearly ascertained the lines dividing Lots 1 and 2; or are you certain that there is no doubt of the points where the line separating these two Townships touch the sea shore of the Island?

A. The natural marks on the N. W. are very distinct. As an actual survey of that Township has recently been made, it would save the necessity of another survey of it.

Q. Have you, as one of the Commissioners, found material difficulty in clearly ascertaining the old Boundary Lines of Townships, in any other part of the Island?

A. We generally found the old Boundaries to correspond with those established nearly forty years ago.

Q. Have not great changes taken place in the appearance of Capes, Headlands, and the mouths of small Rivers or Brooks on the sea shore, in several parts of the Island?

A. On the sea coast there is a material difference.

Q. Does Lot One contain more or less than the quantity mentioned in the Grant, or in the Tabular description?

A. The survey recently made has not yet been returned to my office, therefore I cannot tell.

Q. Do the side lines of Lots Five and Six, as run partly from one shore and partly from another, exactly coincide, or is there a corner formed at their junction?

A. I am not aware that the lines have been run, but I have reason to believe they will not join.
