PTE. HAWKINS IS AT QUEBEC

And He Received a Great Reception From All Ranks of the Militia.

QUEBEC, Aug. 14.—Private W. Hawkins of the 48th Highlanders, Canada's fourth and Toronto's second winner of the King's Prize as Best Rifleman in the world, was in the British Empire, when he arrived here this morning on the Atlantic liner, Tunisian, on which he had returned from England, was given the first taste of the series of congratulatory demonstrations which have been prepared by his fellow marksmen and militia men in Quebec, Montreal and Toronto, to mark his return to his native land after his triumph over the shots of the British Isles and the overseas dominions.

The local demonstration, which, owing to the champion's brief stay here, was of a purely informal character, was none the less enthusiastic and was participated in by a group of marksmen and militia men which was thoroughly representative of their bodies in the ancient capital.

Heading the delegation which waited on Private Hawkins to tender him this, the first oral welcome in Canada, was Colonel Landry, the officer commanding the fifth division. He was supported by the following officers:

Col. Watson, officer commanding the Eighth regiment; Major Robertson, staff officer, Fifth regiment; Major Swift, Eighth regiment; Major Hill, inspector of cadets; Capt. Hay, Eighth regiment; Lieut. Slater, secretary Eighth regiment rifle.

Hard Luck Local Autoists Break Machines When They Hit Big Rut.

During the last few days the axles of four automobiles belonging to local men have been broken. One is stated as a direct result of the had condition of a portion of the Hamilton Road in Brantford Township, and it is stated the motorists are to take action against the Township.

Three of the four axles have been broken at the Wilson Arch, recently built at the Township. On either side of the arch, it is stated, there is a rut fully two feet deep and it is these ruts which have broken the car axles. It is stated the approach to the arch has never been put in proper shape.

WOMAN INSPECTS CITY'S STREETS

Mrs. Edith W. Pierce of Philadelphia Begins Work With Assistance of Members of 65 Associations

PHILADELPHIA, Aug. 14.—Mrs. Edith W. Pierce, the first woman street inspector to be appointed in Philadelphia, has entered upon her duties. The position pays \$1,200 a year. Mrs. Pierce for a number of years was secretary of the Home and School League. Part of her address was ruled out as "inappropriate," but she was permitted to say:

"These women, many well educated and carefully raised, who commit crimes worthy of savages and divorce all the laws, human and divine, are victims of an epidemic of mental disorder."

Demonstrated. Shakespeare was asked whether Hamlet was sane. "He never thought there was a fortune in chicken raising," he responded.

Hamilton's Oldest Residents the Guests at Unique Garden Party

Only Those Who Have Been Living in the City Half a Century or More Are Invited.

HAMILTON, Aug. 14.—The "Old Folk" garden party was held this afternoon at the residence of Stanley Mills, where there was an interesting program. Among the prominent figures were Adam Brown, honorary president of centennial committee.

There were about 450 present, and they were all people who had resided in Hamilton for 50 years or more. The affair was a great success in every way, and the old people acted like a lot of school children let loose.

Mrs. Kelly, who has lived in Hamilton for 93 years was awarded the medal for the oldest Hamiltonian on the grounds; her sister, Mrs. Daniel McKerrill had resided here 60 years. Mrs. Kelly planted a tree on the grounds.

Militia Ordered Out For Vancouver Strike Riots

Many Fatalities Reported—Strikers Are Armed and Do Not Hesitate to Use Revolvers—Situation Serious.

VANCOUVER, B.C., Aug. 14.—Six strikebreakers have been killed at the Extension mines and a large number of provincial police constables seriously injured in the report brought to this city last night by officers who were dispatched to the scene of the rioting in the coal areas on Vancouver Island.

Another report is to the effect that one man was killed and five wounded.

The strikers made an attack on the mines and the latter retaliated. All strikers are fully armed and did not hesitate to use their weapons. Four hundred men took part in the rioting at Extension in the afternoon, led by a prominent union man on horse back.

An ambulance corps have been wired for and has started for the scene. Twenty provincial police arrived last night, having been unable to land in the face of the mob assembled at the strike. Argument was used with the strikers to allow the officers to land but this proved unavailing and the police were herded back to the boat.

Constable Harry Taylor who was in charge of the Vancouver police force which landed earlier in the day was attacked on the wharf by a crowd of strikers. On threatening to use his revolver he was rushed, knocked down and badly beaten and kicked. His face was almost unrecognizable and handcuffs were taken from him. Other officers bear marks of maltreatment by the crowd. It was feared that an attack would shortly be made on the Herald newspaper office.

Speaking to a press representative as he was about to board a steamer for Victoria shortly before midnight, Attorney-General Bowser said there has been no meeting of the executive council and that the militia had not been called out to quell the strike riots on Vancouver Island. There would be a meeting of the council to-day, he stated, and definite steps would probably be taken then.

Militia Ordered Out.
VANCOUVER, B.C., Aug. 14.—After a night of rioting in the provincial districts of Nanaimo North and Nanaimo South, on the east shore of Vancouver Island, 300 militia were ordered by Attorney-General Bowser from Victoria to take strategic positions in the coal fields to-day.

All night rumors and messages poured into Victoria of violence dynamiting at Ladysmith, fifty miles north of Victoria, where the mayor called for militia early in the night, it was reported that the track near Wellington had been torn up and that the homes of non-union miners at Extension, a village of 4,000 persons had been burned. The Nanaimo herald, a morning newspaper, has suspended publication and destruction of its plant has been threatened.

One Killed.
VANCOUVER, B.C., Aug. 14.—A message to the provincial police from Nanaimo says one man was killed and three were injured yesterday in a riot at the Extension mine when strikebreakers were driven into the woods by a mob of strikers and sympathizers.

Italian Population Has Many Illiterates

[Canadian Press Despatch]
ROME, Aug. 14.—The results of the census made in Italy in 1911 have just been published by the Government. Here are some of the data:

Total population	34,671,377
Males	17,021,790
Females	17,649,587
Unmarried men	10,722,883
Married men	6,917,301
Married women	6,461,555
Widowers	650,250
Widows	1,500,929

The increase in total population since the last decennial census is about 1,750,000.

Illiterates constitute 38 per cent. of the total population. The region that gives the smallest percentage of illiteracy is Piedmont with 11 per cent., while the maximum is reached by Calabria with 70 per cent.

DR. N. HARDY'S VIEW OF THE SUFFRAGETTES

LONDON, Aug. 14.—The mental condition of Suffragettes was the subject of a paper by the famous surgeon, Nelson Hardy, before the Medical Congress yesterday. Part of his address was ruled out as "inappropriate," but he was permitted to say:

"These women, many well educated and carefully raised, who commit crimes worthy of savages and divorce all the laws, human and divine, are victims of an epidemic of mental disorder."

Demonstrated. Shakespeare was asked whether Hamlet was sane. "He never thought there was a fortune in chicken raising," he responded.

LONDONDERRY RIOTS RESUMED NEXT NIGHT

Second Policeman and a County Inspector Among the Injured.

[Canadian Press Despatch]
LONDONDERRY, Ireland, Aug. 14.—The rioting between the Orangemen and Nationalists which began here Tuesday night was resumed last night. In the fighting another policeman was shot and slightly wounded and a county inspector injured.

Cincinnati Lozes Taxt.
CINCINNATI, Aug. 14.—That Cincinnati has lost former President William H. Taft as its most prominent citizen was made known yesterday through the report of a collector of taxes for the ward in which Mr. Taft formerly resided. The assessor reported that he had never received a report from Mr. Taft as to his taxation. The board of review, the official taxing body, took the matter up with Mr. Taft at his summer home at Point-a-Pic, Canada, and Mr. Taft replied that he is now a citizen of New Haven, Conn., where he has already paid his taxes.

MORAL REFORMERS BITTERLY SCORED

Coroner Pickering Makes a Remarkable Statement to Jury at Inquest.

[Canadian Press Despatch]
PORT DOVER, Aug. 14.—A dispute involving five cents, between a pinicker and a gatekeeper at Orchard Beach here yesterday morning, caused a congestion of traffic which smashed a bridge, threw three score people a depth of 15 feet and caused injuries to a score of people. It is nothing short of marvellous that there is not a heavy death list to report.

The catastrophe occurred just after the arrival of an excursion train from the villages of Cortland, Nixon and Delhi, and while the visitors were on their way to the park, where the picnic of several Sunday schools was to be held. The 50 foot bridge had been crossed by only a very few when beneath the weight of the scores following it swayed and broke in the middle, throwing the people on it into a struggling heap in the centre.

Children Escape.
The proportion of children among those who were carried down in the crash was large, but scarcely one of the younger ones received any harm. Two or three babies escaped without a scratch. News of the accident spread quickly, and physicians were hurriedly summoned. A little boy carried the news to the office of Dr. J. F. Jolly, who with his daughter, Miss Maud Jolly, were soon on the scene and doing all that could be done for the injured. Dr. E. H. Hicks and Dr. H. A. Cook arrived shortly after, and were kept busy for hours in the work of attending to broken limbs. Miss Rutherford, a trained nurse, who is holidaying here, rendered valuable assistance to the physicians.

Scored Moral Reformers.
The coroner strongly criticized the downtown rooms and flats, and the habit of joy riding. He said that he spoke to him as he had found it from his experience of practicing medicine in Toronto for over 35 years. He scored the methods used by moral reformers and declared that instead of uplifting the morals of the city they were instead being dragged deeper into the mire.

"The conditions," concluded the coroner, "are the result of police action through the interference of the so-called moral reformers. I would that these so-called moral reformers would consult with members of the medical profession, the authorities of large hospitals and the police authorities, for the information of which they are so sadly deficient. Should they then change their tactics and use half the energy they are now using in the right direction they would do unbounded good for humanity at large, and in saving girls from ruin. They will not do this out that they can never undo the moral degeneracy of which they have so unwittingly been the cause. These remarks I know will fall unpleasantly upon some ears, and I have no apologies to offer."

Baby Was Murdered.
After hearing the evidence the jury returned a verdict that the baby had been foully murdered by some person or persons unknown.

The evidence showed that the body was found floating on the lake, near Sannyside, on the morning of August 3. It was seen by W. A. Watts and J. C. Cunningham, of No. 2 Marshall St., who were walking along the beach. They notified the remains to the morgue, and the time what was believed to be a pillow case was also seen floating near the body. The two men pointed this out to the policeman but he totally disregarded it.

"I asked the policeman," said Watts, "if the pillow case was evidence, but he paid no attention to me and threw it to one side."

Policeman Blamed.
"In my opinion it was a bad neglect of duty," said the foreman of the jury, "and the officer threw away any chance of securing a clue to the identity of the child. The pillow case laundry mark and in that manner the parents could have been traced."

The evidence of Dr. Crowe, who performed the autopsy, showed that the infant came to death by suffocation and neglect. The condition of the lungs showed that the baby had been born alive and had breathed, and the condition of the face indicated that she was suffocated by being held against a pillow or cushion.

At the time of the inquest the infant had received no nourishment after birth, and that from the first had been neglected.

SELF-CONFESSED WIFE SLAYER

Must Go to Italy to Face His Trial In Jail Already Three Years.

[Canadian Press Despatch]
NEW YORK, Aug. 14.—The case of Porion Yorlank, self-confessed slayer of his wife was removed to-day from the jurisdiction of the United States when he was given over to the warden of the jail at Jersey City to two Italian policemen in accordance with extradition papers. He was reported to be in high spirits in prospect of a sea voyage after three years confinement and confident that at the hands of the Italian authorities he would receive an acquittal.

Before being removed to the steamship R. D'Italia, which sails to-day for Italy he shook hands with the jail officials and his fellow prisoners and he was also visited by his father, Judge Paul Charlton, who with his wife, who is the prisoner's stepmother, will go to Italy to be present at the trial.

Charlton was a young bank clerk and was on his honeymoon with Mrs. Neville H. Castle, daughter of Henry H. Scott, a San Francisco merchant when the tragedy occurred at Lake Como, Italy, near which the couple had been living in a villa. Mrs. Castle's body was found June 10, 1910, in a trunk at the bottom of the lake. Charlton was traced to America, where he confessed to murdering his wife for the past three years, but on July 8 last, he lost his last appeal against the United States Supreme Court held that he must be given up to Italian jurisdiction.

FROM DISTILLERY TO BAPTIST PULPIT

Brother of Clay Grubb Renounces Business of Whisky Making.

RALEIGH, N. C., Aug. 14.—Adam Grubb, brother of Clay Grubb, the rich distiller killed by his wife Saturday near Churchill, has turned preacher. Adam Grubb was associated with his brother in the manufacture of whiskey, but two weeks ago he joined the church and forsook his business.

He will farm on his large acreage and preach for Baptists on Sundays. His brother's troubles caused him to take this step, he says.

Mrs. Sulzer Ill.
ALBANY, Aug. 14.—Mrs. Sulzer's illness is so serious as to be regarded as almost critical, according to an announcement made yesterday by Chester C. Platt, Governor Sulzer's secretary. Two additional specialists on nerve diseases were summoned from New York by telegraph this morning to attend her.

Use of the Mails of Canada Denied to Lottery Concerns

[Canadian Press Despatch]
OTTAWA, Aug. 14.—A number of new regulations have just been promulgated by the Post-office Department. To begin with it is vigorously suppressing lotteries and prohibiting their use of the mails. Money orders payable to them, also, are not to be issued. Instructions have been issued to postal clerks to forward to the Dead Letter Office all matter originating in such sources. The concerns condemned are the Great Hamburg Lottery; Great Danish Colonial Lottery; Great Danish International Lottery; Great Hamburg Money Lottery; Credit Universal; Royal Hungarian and Royal Danish Lottery.

Circulars regarding the fortune-telling business and racing sweepstakes circulars are also ordered to be treated as unmailable, and are placed in the same class as illegal lottery literature.

Other new regulations prohibit the circulation in the mails save to the trade only of samples of patent or proprietary medicines; products from the mail; new hides; belts; or any articles with a noxious odor and prescribe that inflammable or explosive articles when discovered shall be packed and sent to a post-office inspector, if possible.

The prohibition of Christmas or charity stamps to be affixed on the address side of letters has been made into a regulation. Such stamps may be affixed to the back of the envelope.

Pt. Dover Crash Caused By Row Over a Nickle

People Gathered While Gatekeeper Argued, and the Strain on Bridge Proved Too Heavy—Many Injured.

MONTREAL HAS GRAFT CHARGES

Houses of Questionable Reputation Are Paying Toll to the Police.

[Canadian Press Despatch]
MONTREAL, Aug. 14.—There was much excitement at police headquarters to-day owing to the reported disclosure of a system of alleged graft in connection with houses of ill-fame in Montreal.

Twelve affidavits connecting twelve members of the police force have already been made out, accusing those mentioned of levying toll of disordered houses in return for police protection.

The men are also charged with making a regular practice of going into houses of ill-fame and ordering free drinks.

Three detectives in the city bureau are said to be among those mentioned in the affidavits. In addition to these, several minor police officials are mentioned, but none of the inspectors or higher officials are connected with the charges.

Detectives of the city bureau are the ones who have made out affidavits which are already placed in the hands of city hall officials and which it is claimed will lead to an investigation that will cast Judge Cannon's royal commission inquiry into civic graft held recently into the shade.

James Morgan, the vice-president of the Citizens' Association refused to make any statement when interviewed to-day.

"I do not want to say anything now," said Mr. Morgan. "And I am sorry that this thing has been prematurely announced. This investigation has been going on for some time now."

Chief-Campeau stated that the charges were not at all beyond his credit.

"Of course such things are credible," he said, "and we cannot guard entirely against them."

"There are some 800 men on the force, and it is not at all improbable that among them there are some dishonest persons. For my own part, I would have the thing cleared up as soon as possible if the sooner it is cleared up the better for all of us concerned."

The investigation is being carried out, it is stated, at the request of a committee of public spirited citizens of which James Morgan is the chairman.

One of these gentlemen said this morning that the investigation had been proceeding for quite a long time and a great deal of money had been spent on it. The detective agency was given carte blanche in the matter and investigations have been very thorough.

Diaz is Sailing.
VANCOUVER, B. C., Aug. 14.—Gen. Diaz and his party, completed arrangements with the Canadian Pacific Railway and left on the Imperial Limited last night in the private car Glossop. They will stay three days in the mountains and will reach Quebec in time to embark on the Empress of Ireland. Their car will be switched off at Montreal Junction and will go right on to Quebec.

REMINISCENCES OF BRANTFORD

Commencing on Saturday Next, and continuing thereafter each Saturday until completion of the series, there will appear in this paper reminiscences of over thirty years of active journalistic work in this city, with the incidental personages and more important happenings of that period.

ALBANY, N. Y., Aug. 14.—Two claimants to the office of governor of New York sat in the capitol to-day, each asserting his rights to the office and attempting to conduct the state's affairs from his own chambers.

William Sulzer, impeached governor, sat in the executive chamber on the second floor of the building. He is going to sit there every day according to friends, disregarding the impeachment proceedings which he regards as unconstitutional.

Martin H. Glynn, lieutenant-governor laid claim to the acting governorship on the ground that Sulzer ceased to be governor when the senate received the articles of impeachment from the assembly.

The army of state employees is demoralized. Department heads are at a loss to know whose instructions to follow and a general situation of confusion and disorder seems imminent.

Mrs. Sulzer, star witness of the impeached governor is so seriously ill of a nervous disorder that two additional specialists have been summoned by wire to attend her. Governor Sulzer asserted emphatically that he would not permit her to take her stand at his trial for impeachment, which probably will start September 2. He is willing to have her face the ordeal of telling how she invested certain campaign contributions sent him last fall in stocks.

The article of impeachment claimant and summons were served on Governor Sulzer immediately after his arrival at the capitol this morning by Patrick B. McCabe, clerk of the senate.

A formal demand for the surrender of the executive chambers expected to be made on behalf of Governor Glynn was anticipated by Governor Sulzer. At the advice of his counsel, Mr. Sulzer has prepared a letter declining to surrender the offices and outlining the reasons for his refusal.

Auto Fell Fifty Feet

Philadelphia Party in England Have Bad Accident.

LINTON, Devonshire, Eng., Aug. 14.—Mrs. Margaret Eaton, of Philadelphia, lies seriously injured to-day in the hospital here as the result of the automobile accident yesterday in which William T. Anderson, Mr. Anderson and Miss Annie Eaton, all of Philadelphia, were painfully if not badly hurt. The party were the guests of Mr. Elliott of Linton, while descending a hill in a motor car, the wheels skidded and the machine dashed through a wall. The car fell fifty feet into a valley below, throwing the occupants out in its descent. Their fall was broken by trees and shrubs, or the accident would have probably been fatal.

EDUCATION

The teacher who really serves his pupils is, we are coming generally to admit, not the man who fills their minds, but the man who opens them.

The above extract puts the entire need in the most succinct form it would be possible to postulate.

We Canadians are very prone to boast about our educational system, when as a matter of fact we do not possess one in the best sense.

As frequently pointed out in these columns, the endeavor is to teach far too many subjects. The outcome is, far too frequently, a smattering of a variety of things, and very little real or basic knowledge with regard to either one of them.

The net result is that instead of broadened minds, there is congestion, and the boys and girls when they emerge from the student period have clogged instead of expanded intellects.

It is safe to affirm that the present curriculum could be chopped in two, and then some, to a great all-round advantage.

SHOP AT HOME

An amusing incident came this week to the attention of this paper.

One of Brantford's fair sex who seems to think, in the purchasing line, that all good things come from Toronto, went to the Queen City to purchase an article as a surprise for "hubbie's" birthday.

It arrived in due course, and on top of the original cost she had to pay express charges. Then, a couple of days later, while walking down Colborne street, she saw identically the same thing in a store window for two dollars less than she had paid in Toronto—plus, as before related, express charges, and plus her railway ticket.

And this brings to mind another incident of some years ago. In connection with one of the local tailoring establishments of that period there was a cutter who excelled in that art, but some local men (as others do now) did not think that any suit could be properly "tooled" except in the Queen City.

The trade, however, knew what the man could do, and he finally became head cutter for a leading establishment in Toronto, and the very individuals who ignored his services here were only too glad to get them there at greatly enhanced figures.

He is now recognized as one of the leading cutters in New York, and is in receipt of a very large salary.

The fact of the matter is that far too many Brantfordites shop outside of this city, and the total each year amounts to many thousands of dollars.

This should not be. No one would be foolish enough to claim that people cannot buy where they like, but as far as possible they should patronize the home stores.

Brantford merchants are as up-to-date as those to be found anywhere, and they can sell more cheaply than men in like trade in large cities, because of smaller rents and less cost in other directions.

Now, you purchasers of outside goods, just think the matter over and see how much of the money you send away might just as well, and often more profitably, be spent here.

Courier advertisements tell you the rest.

ONE GRIT PAPER REBUKES ANOTHER.

The following is from the Ottawa Free Press (Liberal):—

The purchase by the Canadian Militia Department of 150 acres of vacant land thirteen miles from the Montreal post office at \$1,200 an acre horrifies a Montreal Liberal contemporary.

Unless something further can be proven to show that there was crookedness in the deal, the Free Press is unable to join in the horror.

Montreal is a city four times as big as Ottawa. It is already one of the most important seaports on this continent and is forging ahead by leaps and bounds.

It is the financial and industrial centre of the Dominion. For farm lands six or seven miles from the Ottawa Post Office \$500 an acre has been paid and the price is still going up, while when cut into subdivisions, similar lands at similar distances have sold for three and four times that figure per acre.

One small advertisement inserted in the newspapers now by Col. Sam Hughes offering the 150 acres at Dorval at \$1,200 an acre would, we imagine, result in something like a scramble for the property.

It looks as if the staff of the Montreal Witness-Telegram had just awakened to the fact that in the last few years there has been

a real estate boom in Montreal and other Canadian cities. The Free Press has no love for the present Dominion government, and so long as it is subjected to some influences now in control, we are quite prepared to believe that it is doing a whole lot of things inimical to the best interests of the people of Canada.

Whatever may be decided upon later, the actual decision of the Canadian Senate means, at any rate, a heavy moral and material loss for the defence of the Empire, for Mr. Borden's promises had been foolishly enough counted on.

The above extract puts the entire need in the most succinct form it would be possible to postulate.

What the Other Fellow Thinks.

Society Items From the Atchison Globe: There is some complaint because Jos McGe wears no shirt while working on his lawn.

Quite Right Toronto Star: Lots of people criticize Uncle Sam for not interfering in Mexico. Who would be among the first to blame him if he did?

Fashion Hint From the Houston Post: Our inclination is to make no further alterations to the funny kind of clothes that women wear, but we feel it necessary to observe that the present modes are not adapted to the kitchen, nursery or the polls.

A Difference Ottawa Journal: Being at the head of the league, the Ottawa ball team is about the greatest aggregation of players on earth. And a few short weeks ago they were about due to be dropped over the fence around the Old Men's Home.

The Limit Stratford Herald: The Liberal organ in Moose Jaw, said to be owned by Premier Scott, adopted the smallest kind of political tactics recently, which have reached like a boomerang. To get a thrust at the Borden Government the Times said that the city was bankrupt and the country generally going to the bows.

How to Circumvent the Senate Montreal Herald (Liberal): In the event of the struggle with the senate being renewed, it seems as if Mr. Borden's government might be justified under the circumstances in using every possible means to destroy the obstruction and to exercise the powers that would incontestably belong to them if the Canadian senate were not a partisan instrument of the late government.

PT. DOVER CRASH CAUSED BY ROW OVER A NICKLE

(Continued from Page 1) Shock has added to the injuries of many of the women and in some cases, notably that of Mrs. Boughter, the doctors say it is impossible to estimate how severe the results will be.

A Wooden Structure. The structure, whose sudden breakdown caused the accident, is a wooden one of small timbers, said to have been erected in 1902. For years it has been in a rotten condition and talk of condemning it has been in the air for a long time.

At the Side-Show. "Mamma, is that lady the snake charmer? Why, she's as homely as a mud fence!"

Still Occupied. "Can I send you any literature?" asked the solicitous Congressman. "Not for a while," answered the Hawptoad. "A Congressman sent me a patent office report in 1890; I ain't finished reading it yet."

Compensation. It is fierce in the summer. "Record it was here to stay." But we'll bear it and be thankful if the crime wave keeps away.

There is much feeling in the town among those who have been made aware of the unsafe condition of the bridge. Expressions of indignation are heard on every side that such a death trap should have been permitted.

Councillor William Ewing recalls that he recently in going over the bridge poked his umbrella through a rotten plank as it had been papered. At that time he and other members of the Town Council board considered the advisability of compelling Mr. James Buck, who constructed the bridge to his park with the consent of the Council, to make satisfactory repairs to the structure.

Nothing, however was done.

To The Editor

Does Law Limit Speed? To the Editor of the Courier: Dear Sir—I write to ask if the law puts any limit on the speed at which automobiles are to travel on the public road? The people on the Hamilton road are finding fault with the rate of speed at which the cars are driven.

I am sure the people on the Paris road have cause to speak out. We can understand why a business man or a doctor should some times drive fast; but in this case the fast drivers have no business only to display their pride and vanity. It has come to pass now that a horse and rig apparently have no business on the road. They have to take the ditch for safety. We await your answer, and if the law takes any notice of furious driving, then we will put an officer on guard in plain clothes to watch the movements of such people.

RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-lives" Cured Him

MCMILLAN'S CORNER, ONT., SHIP, 30th, 1910. "Your remedy, 'Fruit-a-lives' is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Sciatic or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-lives' and they cured me.

Since then, I take 'Fruit-a-lives' occasionally and keep free of pain. I am satisfied 'Fruit-a-lives' cured me of Rheumatism, and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it!" JOHN B. McDONALD.

The police court met at the

The case against Russell Wine-
garden for attempting rape upon a
young girl at Burford came up to-
day. W. A. Hollinrake appeared for
the defendant. The charge stand-
ing and Winegarden wished to be tried
by jury.
Alton Hirst, aged 7, who resides
on Rose Avenue, was assaulted last
Saturday by a man who took him
into a newly built house on Port St
and choked him, marking up his
neck very badly. Wm. Kelly who
works at Adams Wagon Works was
charged with the offense and plead-
ed not guilty. Kelly was out on a
big celebration last Saturday spend-
ing from eleven o'clock in the morn-
ing until closing time in five bar
rooms except for an hour when he
took one of his companions who was
overloaded to his home. In the
meantime Kelly claims he lost track
of his wheel, which wheel was found
at the spot where young Hirst was
assaulted. At half past twelve the
case was adjourned until next Tues-
day in order to obtain more evi-
dence.
The charge against Mellin and Lin-
ovich for selling short weight bread
was also adjourned.

Driven To It.
"Wombat, I'd like to ask you a
question, if you won't get offended."
"Fire away."
"Why do you spend so much of
your time hanging around a court
room?"
"It's the only public place where
you can get away from ragtime or-
chestras and cabaret features."

The Difference.
Matrimonial Agent—"What kind of

restaurants every day."
Matrimonial agent—"You don't

A Patrician.

ceiving the nomination?"
"They told her, if elected she would
become a member of the Common
Council, and you know how particu-

**Burford Road is
New Project**

There is a rumor current that
a project is under consideration
for the building of an electric
line from Brantford to Burford.
The village has quite a big and
growing population, and there
are many residences and pros-
perous farms on the line of
route. Such a road is almost
sure to come sooner or later, and
those who at present have the
idea under consideration think
that the project may be success-
fully launched.

Local News

Mass Card Omitted.
In the report of the mass cards re-
ceived at the funeral of the late Rod-
erick McKinnon the card received
from Mr. and Mrs. William Gillen,
Echo Place, was omitted.

Clothing Needed.
Although many citizens are very
kindly sending in donations to the
Brant Sanitarium, wearing apparel is
most needed, such as men's dressing
gowns, ladies' kimonos, bedroom slip-
pers, night robes and underclothes.

Crushed by Car.
A Hamilton Note says: Albert
Henderson, Belmont Hotel, Brant-
ford, had his leg badly crushed last
evening. He was struck by a Brant-
ford and Hamilton car at the corner
of John and Main Streets. He was
taken to the City Hospital.

Scouts in Hamilton.
The Headquarters Patrol Boy
Scouts, left this morning to take part
in the Scout Rally in Hamilton this
afternoon in connection with the
Centennial week celebration. Scout
Commissioner MacFarlane is in
charge.

Permits Issued.
The following building permits
were issued at the city engineer's
office to-day: Walter Cox, 143 Oc-
ford St., new frame verandah; Henry
Bourne, Brunswick St., frame and
stucco cottage; Walter Bragg, Park
Ave., deck verandah, \$40.

A Good Investment.
The Salls-Flott circus, which is
coming here soon, will probably show
on the farm of Mr. Moses Reeder in
the Holsedale. Mr. Reeder's farm is
rapidly coming into fame and fortune.
In fact, no other farm in the county
has raised such crops as has Mr.
Reeder's this year. Two circuses and
an aeroplane is going some. The
return on the profits is said to make
the farm a good investment.

About Lost Eye Glasses.
A few days ago Mrs. J. Houlding,
Tutela Heights, found a pair of gold-
rimmed eye glasses, with gold chain
attached, and she promptly advertised
the find in the Courier, the lost and
found medium. Of course, the loser
watched the Courier columns, and was
pleased to see the lost specs were
found by an honest person. Mr. C. D.
Smith, 255 Darling street, the loser,
received the glasses yesterday.

Invitation Extended.
The Victoria Yacht Club, Hamil-
ton, extends an invitation to Brant-
ford swimmers to compete in the 400
yard swim for the championship of
Hamilton Bay, to be held Saturday
afternoon, Aug. 23, at the V. Y. C.
Water Carnival. All kinds of swim-
ming contests will be held. All are
open to Canadian amateurs. No fee
is charged. All information may be
had from Jas. A. Coil, V. Y. C., Hamil-
ton.

Football Note.
The following will line up for the
S.O.E. v. Y.M.C.A. at Tutela on
Saturday: Goal Otter; back, W. Mit-
chell (capt.), and Westlake; half
backs, F. Westcott, E. Clark and
Mathias; forwards, W. Budd H. Smith,
W. Smith, J. Smith and A. Johnson;
reserves J. Keightley, H. Sleeth and
D. O'Dowd. The kick off will be at 6 p.m.
sharp and all players are requested
to be on hand at 5.30 p.m. Dressing
rooms are in King Edward school.
This will be the game of the season
and should not be missed.

Mayor Was a Speaker.
Yesterday Mayor Hartman attend-
ed the luncheon at Hamilton given by
the Centennial Week Committee. The
luncheon was attended by mayors
from the municipalities, presidents of
Boards of Trade, controllers and oth-
ers prominent in the affairs of near-
by municipalities. There were only
two speakers, the Mayor of the Tele-
phone City and the president of the
St. Catharines Board of Trade. The
mayor took in all that was to be seen
including the ball game. He reports
having had a splendid time.

Property Transfers.
Port Dover Maple Leaf Building
lots continue to sell like hot cakes.
Five continue to go to parties who
mean business and will build on them
either this or the coming season.
Among the latest we have the pleas-
ure of reporting is the sale of the
seven lots on the lake shore owned
by Mr. Gillespie of Hamilton, to Mr.
C. W. Wallace of Brantford, who
has a cottage on Brant Hill. Mr.
Wallace has already disposed of three
of these to the following gentlemen,
who will erect comfortable and com-
modious summer homes for them-
selves this coming season, namely
Messrs. T. D. Duncombe, Waterford,
Fred Chalcraft and Leslie Silver-
thorne of Brantford.

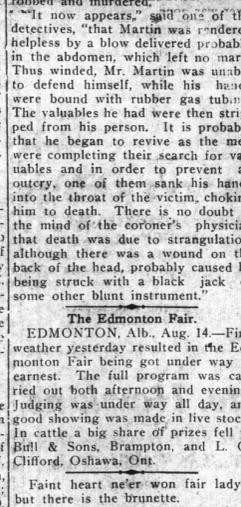

**MURDER WAS
DELIBERATE ONE**

**Toronto Milliner's Death Was
Planned Several Months
Ago.**

[Canadian Press Special]
NEW YORK, Aug. 14.—Detectives
investigating the murder of Wil-
liam Grieve Martin, the Toronto mil-
linery dealer, whose body was found
in a furnished room Tuesday night,
were working on the theory to-day
that the murder was planned last
month. It is the belief of the police
that Martin, when in this city in July
told an acquaintance of his intention
to return on Monday last to purchase
flat stock and that the murderers
hired the room in question and lured
the victim there to rob him. The
police of five boroughs are trying to
find "Mr. and Mrs. Johnson," who
rented the room shortly before the
murder was committed. No trace of
them had been found to-day.
Deputy Police Commissioner
Dougherty, who yesterday took
personal charge of the murder inves-
tigation, worked without intermission
until an early hour this morning.
The detectives to-day admitted that
a photograph found yesterday in the
room in which Martin was murdered,
was worthless as a clue. On the
photo was found the number plate of
an automobile, the figures of which
were decipherable. In the car were
a man and woman. According to
Jones, proprietor of the furnished
room house, the couple resembled
"Mr. and Mrs. Johnson." The police
learned however, that the automobile
in which the couple sat when photo-
graphed, could be connected in no
way with the crime.
The police are of the opinion that
the Johnson woman was not in the
room when the murder was commit-
ted and that Martin met his death at
the hands of two men. The detectives
admit they are working along
lines which they believe will lead to
the men who were in the room. Who
these men were supposed to have
been, they decline to say. They ad-
mitted, however, that efforts are be-
ing made not only in Manhattan, but
in the other suburbs to locate "John-
son and his brother-in-law."
Shreds gathered yesterday by the
investigators caused them to arrive
at the conclusion that the murder of
Martin had been planned by master
minds. It was admitted that so
expertly had the murder been carried
out that practically no clue of a tangi-
ble nature was left behind.
It was now the opinion of detectives
that drugs were not used to ren-
der Martin helpless before he was
robbed and murdered.
"It now appears," said one of the
detectives, "that Martin was rendered
helpless by a blow delivered probably
in the abdomen, which left no mark.
Thus wounded, Mr. Martin was unable
to defend himself, while his hands
were bound with rubber gas tubing.
The tables had been turned so
rapidly from his person. It is probable
that he began to revive as the men
were completing their search for val-
uables and in order to prevent an
outcry, one of them sank his hands
into the throat of the victim, choking
him to death. There is no doubt in
the minds of the coroner's physician
that death was due to strangulation,
although there was a wound on the
back of the head, probably caused by
being struck with a black jack or
some other blunt instrument."

When Car of Gasoline at
Sarnia Got on Fire.**

[Canadian Press Despatch]
SARNIA, Ont., Aug. 14.—Shunted
out of the Imperial Oil Company's
yards a few seconds before it burst
into flames, a box car loaded with 20
barrels of gasoline, some 40 barrels of
kerosene, and nearly every other in-
flammable manufactured from petro-
leum, lit the sky for miles around with
the glare of the conflagration. Had
the car been in the yards another five
minutes the entire refinery might have
gone up in flames. The firemen fought
the burning car from twelve last night
till four this morning before the flames
were extinguished. In the yards of
the Pere Marquette railroad ties were
burned by the oil, which ran along the
tracks, and a switchman's shanty went
up in smoke. It is a mystery why the
gasoline did not explode. If it had the
consequences would have been ter-
rible.

Since her commitment to jail from
the police court on a charge of set-
ting fire to the barns and outbuild-
ings of Jeremiah Flood, the farmer at

worked, Annie Curtis has been ex-
amined by two physicians and pro-
nounced insane. She is now being
held awaiting an order from the At-
torney-General for her removal to

A Long Trip.
REGINA, Sask., Aug. 14.—Donald
A. Goehle of Montreal arrived yester-
day in a motor car, having travelled
the entire distance from the Atlantic
coast by road. He came via Chicago
and Winnipeg and will leave here in a
day or two for Vancouver.

**Wanted Some
Distinction**

License Inspector Eacrett during
his term of office has had many
strange requests but he received one
this week which beats them all. A
well known local man who was suffer-
ing from the effects of "the morning
after the night before," approached
Mr. Eacrett in all seriousness and
asked if he could be placed on the bil-
led list for hard stuff only, whereby
he could retain his personal liberty to
imbibe a little beer if occasion arose.
The inspector thoroughly versed as he
is in the Hanna law was obliged to
answer that the water wagon was the
water wagon as far as the billed list
was concerned and there could be no
distinction. With this the applicant
renegged.

Loves His Horses
YONKERS, N. Y., Aug. 14.—
James Farley, formerly widely known
as a strikebreaker and horseman,
who was brought her last week
hopelessly ill with tuberculosis, so
that he might see some of his old
horses compete in the racing meet
at the Empire track, was taken to
Munroe in an automobile last night
to see more races there. His remo-
val was against the advice of physi-
cians, who said it would surely hasten
his death, but Farley replied:
"If I am going to die, I'd rather be
with my dear old horses than any-
where else." At Munroe Farley will
witness the races as he did here,
stretched on a cot beside the rail.

They Are Prominent (?)

SARNIA, Ont., Aug. 14.—The four
men who robbed and ransacked the
home of Mrs. George, at the Sarnia
Indian reservation, two days ago, are
known to be prominent residents of
Port Huron, so well known that every
precaution is being made to keep their
names from the public. The men,
through their attorney in Port Huron,
will make a settlement with Mrs.
George for the damage done. The four
Port Huronites were under the influ-
ence of liquor at the time and ran in
at the reservation in their gasoline
launch.

LUMBER KING OF NEW BRUNSWICK

Alex. Gibson, Age 94 Years, Passed Away Today.

FREDERICTON, N. B., Aug. 14.—Alex. Gibson, New Brunswick lumber king, died here this morning, aged 94 years.

Starting as a poor boy, Mr. Gibson rose to be at time of his death worth a million dollars. For forty years he cut and manufactured an average of thirty million feet of lumber a year, mostly for English and European markets. He also built and incorporated the Gibson cotton mills and in all gave employment to many hundreds of hands.

Mr. Gibson was also interested in the railway development of the province.

Pte. Hawkins Gives an Interesting Hero Talk at Quebec This Morning.

QUEBEC, Aug. 14.—"Anybody to read the English papers would think that I was a machine," said Private Hawkins in the course of conversation on his victory and the way it had been received by the Canadian Press in Great Britain.

"I did appear to be cool just before my first shot, but that was because chewing gum gave me something to do while waiting for my turn to fire," he continued.

"It sort of took my mind off the importance of that shot. As to my smoking a pipe with apparent coolness after winning, I can tell you that I was not quite sure what I was doing. When the bull was registered and the people began to shout I forgot everything and I suppose did the first thing that was most natural to me. That was to stick my pipe in my mouth. I will confess to having a lot of things after I had won, all more or less wild and whirling, but I do remember saying to myself: 'Gee, but won't my wife be tickled about this. Then, like a flash I knew my victory would be a good thing for oratory though I rather ruefully conjectured that if they gave me a reception there when I got home Kit would put me on the bun for shooting.'"

Nine Men Killed.

CLIFTON, Ariz., Aug. 14.—Nine men were killed and one probably fatally injured last night when a cable pin snapped at the Coronado mine, and two ore cars, carrying 12 tons of ore and 13 miners, dashed down a 38-degree grade for a distance of 3300 feet.

Miss Edith Browning who has been the guests of Mr. and Mrs. Herbert Yates at Poin Aux Barges for the past six or seven weeks, returned home last evening, spending a few days with Sarnia relatives en route.

Amongst the Brantfordites registering this week at Hamilton are Mr. R. H. Hope, Mr. and Mrs. E. P. Gibbs, Mr. and Mrs. W. Gibbs, E. D. Dean and Mrs. Dean and Mr. W. T. Tisdale—most of them the guests of friends at that point.

Assessment Notes.

The city assessors have completed their field work for the summer and are now sending out notices, in some cases, however, it has been impossible to secure the addresses of owners of lots, also of some married ladies who own property. In order to accommodate those who must get their notices the offices will be kept open to-night and to-morrow.

Want Walk on the Outside.

Walter E. Holmes and twelve other property owners on Lyons avenue have petitioned the city to have the sidewalk along to be laid on the west side of Lyons avenue, northwest from Lawrence street, placed outside the boulevard. It is necessary that two-thirds of the property owners sign a petition of this nature. There are 31 owners on the avenue, and, as stated, only 12 have signed.

Will Come Before Council.

City Clerk Leonard has written the city, giving a copy of the resolution passed by the Board of Health at a meeting held July 31, recommending that Dr. A. B. Cutcliffe be appointed veterinary inspector for the balance of the year, 1913, for the purpose of inspecting dairies, creameries, dairy farms, cheese factories and slaughter houses as outlined in a section of the Public Health Act. The board further suggests that a permanent official be appointed for the year. The matter will come before the City Council at its next meeting.

Recommended Sewer.

The Board of Health have recommended that sanitary sewers be laid on the following streets: Edward St. from Gordon to Huron St., Emily St. from Welby to Brighton Place, Gordon Street from Emily to Edward St., McLane avenue from Terrace Hill to Dundas street; Nelson street from Rawdon street to Stanley street; Oak St., from Brant to Winnett, Burford St., from Oxford to city limits; Alonzo from Bedford to St. Paul's avenue; Brant St., from Grant to Burford St.

Carpenters' Statement.

The carpenters at work on the new theatre on Dalhousie street wished to make an explanation this morning. They did not refuse to continue work, but state that Superintendent Crane advised the men not to continue on Tuesday until they secured their pay for last week. They secured it Tuesday afternoon after they had walked out. They reported for work as usual on Wednesday morning, but they were told that work was closed down. The men did not strike but acted on the advice of the superintendent, and in good part, according to their statement to-day.

Big Day in Hamilton.

HAMILTON, Ont., Aug. 14.—Today is military day in the Hamilton Centennial celebration and the streets are thronged with people. Thousands gathered this morning to witness the military parade, which started at 11 o'clock and marched to the Jockey Club grounds, where manoeuvres and games took place. This is Hamilton's Civic Holiday and all the stores and factories are closed. To-night a military tattoo will be held at the Cricket grounds and a large crowd is expected.

Canadian League To-day.

At Hamilton, morning game: Guelph 4-6, Hamilton 0-1. 01001301-6 9 1 Chaput and Nadeau; Doherty and Fisher. Umpires—Flynn and Halligan.

Truth is what man knows; what a woman believes.

City News Items

Mourn the Loss. Mr. and Mrs. Alfred May, 2 Blossie Street, mourn the loss of their infant daughter, Lillian, who died last evening. The funeral will take place to-morrow to Mt. Hope cemetery.

Two Meetings. This afternoon at 4 o'clock the Railway committee of the City Council will meet in the Mayor's office and this evening at 7 o'clock the Board of Works will meet in the Mayor's office.

Plenty of Water. The work of extending the collecting galleries at the waterworks is progressing favorably and the commissioners are pleased with the amount of water which they are striking.

Large Shipments. Three large shipments of the 20 inch reinforced steel main have arrived and are being laid on the ground now. The main will run from the waterworks through the centre of the city to Murray St. and from the waterworks as far as Dundas St., Terrace Hill.

Asked for Particulars. A fire insurance year book is being compiled by Stone & Co., Toronto. Among the sections the firm are giving particulars of towns of importance in the Dominion as will be of interest and value to fire insurance officials. The firm wrote the city clerk for particulars of Brantford, and the request has been complied with.

Top Torn From Auto. On Tuesday Mr. M. B. O'Loughlin, contractor, of this city, while driving his automobile on a new street directly east and north of the Rawdon street subway, had the top of the machine damaged by an overhanging branch tearing it off. Mr. H. S. Hewitt, his solicitor, has written notifying the city that Mr. O'Loughlin proposes to hold the city liable.

Pilgrims at Croagh Patrick. Fully 15,000 visitors took part in the pilgrimage on Sunday to Croagh Patrick, the holy mountain, on which Patrick prayed and fasted for forty days and forty nights fifteen hundred years ago. Over twenty special and ordinary trains brought visitors on Saturday and Sunday morning, which was begun in the fifth century in honour of St. Patrick, and revived ten years ago by the most Rev. Dr. Healy, with the cordial cooperation of the priests of the extensive Archdiocese of Tuam. Many Masses were celebrated on the Holy Mount, the heights of which were scaled by devout visitors.

Making Butter at Eighty. At Boyle Petty Sessions, Mr. S. R. Hamilton was fined for selling farmers' butter which analysis showed contained 24.8 per cent of water, 16 per cent, being the minimum allowed. Mr. Hamilton's defense was that the butter, he had been sold, was made by an old woman aged eighty years, who could not squeeze the water properly out of it. Mr. Griffith, R. M. There is no doubt farmers are not up to date in regard to making butter.

Youthful Soldiers as Deserters. Mr. O. W. Whelan, J. P., has remanded to Mullingar Petty Sessions Andrew Thompson, aged seventeen, and Wm. McCabe, nineteen, privates in the Highland Light Infantry, charged with burglariously entering the pawn office of Michael H. Foy, in that town, and stealing clothes and boots, value about £3. Joseph McEvoy, manager of the pawn office deposed to finding on the premises two discarded military uniforms. Sergeant Clancy, who arrested the accused said they admitted stealing the clothes, but no money. McCabe saying that he wanted to desert.

Boyne Tragedy. A very sad drowning tragedy occurred at Drogheda, two children of Mr. Saville, gas manager, losing their lives in the Boyne. The children Doris and Hilda, aged seven and five years, in charge of an aunt, were playing, when their doll's perambulator fell into the water. They followed it, and were at once in difficulties. Their aunt, plunged in to save them, and became at once in need of help herself. A young man who heard their cries rushed to their rescue, and got all three to land, but the children were dead. Their aunt, who lies in a precarious condition, will, it is expected, recover from her dreadful experience.

Polite Note to Be Modest

(Canadian Press Dispatch) NEW BRITAIN, Conn., Aug. 14.—Several hundred young women, stenographers and clerks, employed by a large manufacturing concern here, are receiving polite notes in their pay envelopes this week warning them that the slit skirt, the hobble and diaphanous skirts are not to be tolerated. Each girl is asked to appear for work in business-like and modest clothes.

British News

Woman Found in a Well. A verdict of "Found Drowned" was returned at an inquest held at Scarva on the body of Lizzie Cousins, aged fifty-five, who resided with her brother, Thomas H. Cousins, and whose dead body was found in a well in a field adjoining the house. Deceased's brother said that she had not been troubled with nervousness. There was no disagreement between them. She had no occasion to go to the well, and he was afraid she had thrown herself in.

Farm Outrage. The police at Killigh, King's County, are engaged investigating an extraordinary outrage. Two horses and a valuable mare, the property of Miss Louis Corcoran, were found on her farm badly mutilated, one of the animals, a pony, being in a dying condition. Miss Corcoran, who is a large landowner in the locality is very popular, and no reason can be assigned for the heastardly outrage. A rick of straw, belonging to Miss Corcoran, who was absent from home, was found burned.

An Experiment To Determine the Effect of Mind Over Matter

By GEORGE C. WADSWORTH

Two young physicians, both sufficiently well off in worldly goods to follow their profession in the department of original research, were sitting in the laboratory of one of them discussing the power of mind over matter.

"Until we hit upon some method," said Dr. Harth, "by which we may call in the aid of the imagination to effect cures we shall be constantly losing a powerful adjunct."

"I think this matter," replied the other, "is overrated. When the tissues of an organ are once broken down they cannot be restored by the imagination."

"Your statement sounds correct and doubtless is so in a majority of cases, but I deny that it is so in every case. A man under a severe strain—over-work or trouble—becomes ill, and one of his organs in consequence becomes diseased. The strain is removed and followed by extremely pleasant and healthful surroundings. Not only is the disease arrested, but whatever tissues have been destroyed are rebuilt."

"There was a knock on the door, and Dr. Harth answered the summons. He found there a comely girl about twenty years of age.

"Is this the institute where new knee joints are put in?" she asked. The doctor looked into the girl's eyes and saw evidences of a disordered brain. "No," he replied, "but it is a private workshop of the same kind. Do you wish a new knee joint put in?"

"No, but I would like a new brain, and I hope that you will give me at the same time a disposition to bear with persons who annoy me."

"Come in here." He took her to a room where he kept his scientific books, fairly well furnished, and with a skull on the table.

"Telephone for some one at an insane asylum," said Strecker, "to come and take her in."

"On the contrary, I have a mind to try an experiment. What do you say to pretending to give her a new brain with a view to discovering what effect we can produce?"

offer. The doctor watched her carefully and told her that he must bring her general health up to a certain point where she would be able to stand the operation. He gave her no drugs, but insisted that she should take the air every day in walks or drives, at which time she was attended by some one of the family with which she was domiciled. As to the drives, the doctor usually took her out in his auto after his day's work was done. In this way everything was done to divert her mind from what she had suffered and fix it upon pleasant subjects.

The young scientist hoped that a pretended operation would not be necessary, but though her bodily health was good her brain remained unbalanced. So he determined to try the effect of his "dose of imagination," as he called it. Being averse to keeping his patient's mind on the subject of undergoing so serious a process, he said nothing about it until one morning, having driven her and his mother to his laboratory, he made a startling announcement. He told her that he had brought her there for the purpose of giving her a new brain.

"One of our experimental stands had been cleared for an operating table, and Dr. Strecker posed for an assistant. Both put on the aprons used in surgical operations, but that the preparations should not keep her in a lost no time in placing the patient on the table and giving her an anesthetic. All that was needed was to render her unconscious for a few minutes, during which a bowl was brought out with a calf's liver in it, which looked enough like a human brain to deceive one just recovering from the effects of regaining, and when the patient had regained her consciousness she was placed a stand beside her so that she could not fall to see it. Mrs. Harth raised her and held her in her arms, while the doctors stood by congratulating each other on the success of the operation for the patient's benefit.

"Do you feel different from what you did?" asked Dr. Harth. "I don't know that I do."

"Well, you won't," pursued the doctor, taking a back track. The brain has nothing to do with the feelings; that is the province of the nerves. It's your disposition that is changed. I can see it in the expression of your face."

"How do I look?" "Lovely." The patient blushed. Here Dr. Strecker, who had noticed that his colleague and the patient were mutually attracted, told the latter that she had been given a new heart as well as brain. Not that the former organ had been replaced as well as the latter. He meant it in a sentimental sense. Harth frowned, for any one not incurably insane could have seen through his remark.

The operation having been finished, the patient was taken home, and Dr. Strecker was invited to go with the party and partake of luncheon. All congratulated the girl on having been made over from a very faulty person to one of an amiable disposition, and all told her that she showed the change perceptibly. She naturally shared in these rejoicings at her supposed recovery, and in truth the melancholy look she had so long worn was lifted.

For some time the experiment, as well as his mother and sisters, who had no confidence in a cure being effected by the pretended operation, devoted himself to the patient, surrounding her with everything calculated to banish melancholy. She was never left by herself and was not permitted to brood. The moment she showed signs of relapsing into an abnormal mental state something lively was started to drive it away. And the efforts seemed to be rewarded, for as time passed she showed signs of marked improvement.

Meanwhile Dr. Harth had called on her father, had told him of her appearance at his laboratory and of his experimental attempt to restore her to health. She had left her home without the knowledge of any one in it, and Harth's news of her was the first her father received. He gladly assented to the doctor's keeping her under his care and offered to bear all expenses, though on this point the doctor declared that the girl was loaned to him for purposes of original research and he should be the payer.

One morning Miss Hathaway woke up to find herself conscious of new conditions. She did not know how she came to be where she was, but remembered what had taken place since she had been there. She remembered being had her brain replaced by a new one and was a good deal confused on that matter, not quite understanding what it meant, for now that she was in her right mind she realized the absurdity of such a process. One thing of which she was thoroughly conscious—Dr. Strecker was right in saying that she had been given a new heart, or rather, she had given the old one to Dr. Harth.

There was great rejoicing when the discovery was made that Miss Hathaway had recovered her mental balance. Her family were at once notified, and Harth made haste to the laboratory, where he found Strecker, to whom he told the good news, adding, "I regard the success of my experiment the greatest demonstration of mind over matter that has ever been made."

"Nonsense," replied his colleague; "it is a demonstration of the power of kindness to do away with the effects of a barbarous treatment. And above all it is a demonstration of the fact that we bachelor doctors are very much exposed to the shafts of Cupid."

You Owe it to Yourself to Investigate the National Vacuum Sweeper

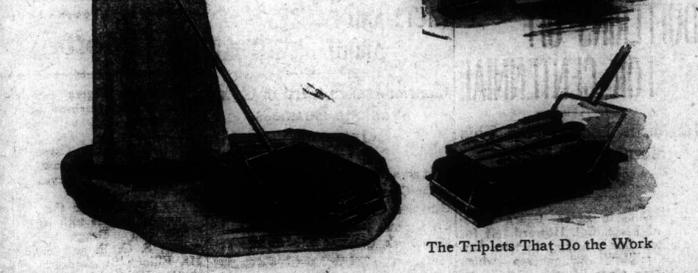

"IT MAKES CHILD'S PLAY OF HOUSEWORK" The Housekeeper's Aide-de-Camp

In the line of Vacuum Process Sweepers for carpets and rugs, it has remained for the Daily Courier to introduce a machine that, for ease of operation, efficiency, durability, and low price asked, easily surpasses any other device of the kind that is on the market.

This practical and always ready for service little machine runs exactly the same as does a carpet sweeper, but it cleans by air, and according to the correct principle of the vacuum process. It is sold direct to consumers at the cost of production in connection with a twelve months' subscription to the Brantford Daily Courier, and is guaranteed to do all that is claimed for it by the manufacturer.

The Trade Reports are always pleased to publish honorable mentions of truly worthy inventions, devices or products of any kind, and this without solicitation from the manufacturers, as by following such a policy we have made the Courier a valuable medium of reliable information to its readers.

Buyers and consumers in all lines find our reports a material aid to them when they are in the market for this or that article or product, and we have taken a pardonable pride in saying in this connection that we have yet to hear of any person or persons who have been deceived or misled by any endorsement or recommendation published in these columns. In the present instance the National Vacuum Co. can assure anyone that wishes to get a machine as above referred to, and one that can be depended upon absolutely—a perfect aide-de-camp to the housekeeper.

The Triplets That Do the Work

The construction of this machine is the very best that skilled hands and perfect machinery can produce. It has three bellows, that form a continuous suction as the wheels roll over the carpet. The bellows are made of three-ply German linen, with heavy rubber insert, which makes it absolutely air-tight and almost indestructible. It is the same material that is used in the very best organs, and will last in ordinary use for twenty years. The valves are protected by solid leather discs that rest smoothly and flatly on the openings, and will not curve or turn up at the edges. The single spring that holds them in position is responsible for this. Each machine is thoroughly inspected before it leaves the factory, and should at any time you find one imperfect in construction, you are at liberty to exchange it for one that is perfect. We, the manufacturers, can state for this cleaner that it is the very best that money and skill can produce, and will do the work of those high-priced electric machines. The bellows have an air displacement of 69 cubic inches with each revolution, 24,800 cubic inches per minute, giving a strong, continuous torque like a six-cylinder automobile. It is just as easily operated as the ordinary carpet sweeper, and in many cases will do the work of both the carpet sweeper and the vacuum cleaner. This machine has a retail value of \$13.50, and you can consider yourself fortunate to get it on the terms we are offering. This machine is the acknowledged monarch of all hand-power machines.

No vacuum sweeper made to-day has a greater reputation for superiority and durability than The National. Its wonderful distribution is not surpassed by any other vacuum sweeper. It is well and favorably known from ocean to ocean, and from the great lakes to the far recesses of the north, and in this immense field you find thousands and thousands to-day in use by the best families, giving complete satisfaction and affording splendid service.

The construction of the National Vacuum Sweeper is without a fault. It is built on the correct principle—built for hard service—built to clean carpets and rugs better than any other that is meant to clean.

DUFFERINS OFF FOR CENTENNIAL

Regiment Looked Fine This Morning as it Swung Into Line.

The Dufferin Rifles under command of Lieut. Col. Howard left for Hamilton this morning to take part in the military manoeuvres which are taking place in the Ambitious city to-day.

The men looked fine and smart and can be relied upon to give a very creditable account of themselves in Hamilton. The brass and bugle bands were out in full force, and played well. The parade state number was 300.

The regiment paraded at the armories and left in at 8.30, and at 8.45 swung out for the Grand Trunk station, where they boarded a special for Hamilton. The soldier boys were all in good spirits and were looking forward to a jolly outing.

Col. Howard and the officers were all pleased with the turn-out of members of the regiment.

The following troops will participate in the parade and review: Queen's Own Rifles, Seventh Fusiliers, Tenth Royal Grenadiers, Thirtieth Royal Regiment, Nineteenth Regiment, Thirty-eighth Dufferin Rifles, Forty-eighth Highlanders, Ninety-first Highlanders, Fourth Field Battery, Twelfth and Nineteenth medical corps.

Army service corps, Canadian engineers, C. Squadron Second Dragoons. There will be over 3,000 troops in line, and autos or carriages entering the grounds must go behind the large stand.

At the Gem Theatre. Judging from the increased patronage at the house, the patrons evidently approve of the new policy of changing the pictures Mondays, Wednesdays and Fridays of each week. Strong feature films are the rule, and to-day will be shown a beautiful story from the vitagraph studio, Campbell and Parker, a superior singing comedy act are well worth while, "Quo Vadis," the greatest of all spectacular films will be shown first three days of next week.

Under a competitive system it is difficult to win unless the other fellow loses.
