Getting Horses Into Shape For Spring Work

As the spring planting season is short, farm operations must be rushed. This entails long hours, and with modern machinery it also means heavy work for farm horses. Horses working in harrows, discs and manure spreaders are pulling heavy loads, and in many cases they are pulling them over broken ground. Because the work is hard and the hours long the horses must be in good physical condition. This is only possible when horses are fitted for spring work.

If they have been fed a liberal grain allowance they will be fat and soft, and should get regular exercise to harden their muscles. If they have been carried through the winter mainly on roughage, with very little grain, they should be given regular exercise and the grain ration should be increased to one pound per hundred pounds of live weight. Violent changes in either the diet of the habits of horses are injurious, and for this reason the farmer should begin getting his horses in shape a month, or preferably six weeks before heavy spring work begins, gradually increasing the grain and work so that the horse will be in shape to perform a heavy day's work when the rush season begins. The grain ration should be increased to at least one and a quarter pounds per hundred pounds live weight when the heavy spring planting commences. The hay fed before and during the busy season should be either high grade timothy or a mixture of bright

clean timothy and clover. The grain fed while the horse is being fitted may consist wholly of oats; or a mixture of three parts oats to one part of bran may be fed. Bran is too laxative for horses at heavy work, and no more than one part of bran to five or six parts of oats should be fed during the busy season, except on Saturday night when a bran mash is advisable.

Sometimes a horse does not seem to be digesting his food properly, in which case the teeth should be examined and any that are long and ragged floated smooth. Indeed it is a good practice to go over all the horse's teeth each spring before starting to prepare the animal for spring work.

By properly fitting his horse for spring work the farmer will avoid sore shoulders, his horse will finish the season in good condition and they will render much more efficient service than if they had begun the spring work without being properly fitted for it.

524 Cases Of Typhoid

Cochrane, Ont., April 3.—The number of cases of typhoid to-day was placed at 524, according to the statement issued by Mayor Russell. The number of new cases is now on the decline and the situation is under control.

THE DIFFERENCE

"He who works with his hands is a laborer, he who works with his hands and brains is an artisan, but he who works with his hand and brain and heart is an artist."

PREPARING FOR BASE BALL

Nelson is already getting lined up for baseball this season. An enthusiastic meeting was held last week when organization was completed, and the following officers appointed: President—W. H. McKie. Vice Pres.—James Geary. Sec'y Treas.—W. B. Coughlan. Business Mgr.—R. J. McCoombs. Field Mgr.—Frank Gorman.

It was decided to form a two-league league for practising purposes and the senior team will enter the Miramichi League, if one is formed this year. A committee was appointed to interview the business men for financial assistance. Some of the players are not available for this year, but there is plenty of young blood to make up for this loss and Nelson will be in a position to give a good account of itself this year.

TOWN ELECTION

One week from today the Town Elections for Mayor and Aldermen will be held. As yet, very little is being heard as to who is or who is not to be in the field. Nominations close on Friday, 13th inst, and it is likely that it will not be known who the aspirants are until 6 o'clock that evening. This has been the custom in the past and will likely be carried out again this year. The system is entirely wrong but so little interest is shown in town politics that a great many citizens hardly know when the election is to be held. However, it is to be hoped that men of acumen will offer, as many matters of importance to our town will necessarily require attention during the year.

OCEAN LIMITED FIREMAN KILLED

When the Ocean Limited from Montreal was approaching Newcastle station Sunday afternoon, John H. McLean, fireman, fell from the cab of the engine and was instantly killed. There was no eye-witness to the fatality, and just how it happened is not positively known, although the driver George Morrison is of the opinion that he was reaching for his lunch box and losing his balance pitched headfirst from the locomotive cab. Hearing what he thought a scream, Driver Morrison looked around and finding his fireman missing brought the train to a standstill. The missing fireman was found along the track a short distance back and when picked up was dead. His neck had been broken by the fall.

The train was travelling at a rate of between 25 and 30 miles an hour and it is presumed that the unfortunate man struck his head, in falling, against one of a string of cars that stood in siding parallel to the main line at the time.

After the remains were placed aboard the train Dr. F. J. Desmond was summoned, who decided that an inquest would be necessary. He gave permission for the removal of the body to Moncton and stated that he would make arrangements for holding an inquest at Moncton.

On arrival of the body in Moncton, the remains were taken to Tuttle Bros. Undertaking Parlors from where they were afterwards removed to the victim's home, 237 Weldon St. Corporal Dr. Forbes empanelled a jury and opened an inquest. The remains were viewed by the jury and adjournment was made until 10 o'clock Monday morning.

Fireman McLean was 28 years old, had been on the road about 8 years and was very popular. He was a son of John F. McLean of Moncton, and besides his parents he is survived by a widow and one sister. He was a member of the B. of L. F. and E. and also a prominent member of the Independent Order of Oddfellows. Deceased left Moncton on the Ocean Limited, Saturday and was completing his run when he met his death. The funeral will be held on Tuesday afternoon at 3 o'clock at his late residence, 237 Weldon St., Moncton, leaving the house at 3.30 o'clock for Elmwood Cemetery where interment will take place.

JURY DISAGREES IN GROSSMAN CASE

The Northumberland County Court adjourned Thursday until Tuesday the 24th inst.

In re the King vs. Alfred Grossman charged with receiving stolen goods the jury failed to agree. They stood seven to five for conviction and Grossman was allowed out on his own recognizance.

In the King vs. Stewart ex parte McIntosh and Wallace vs Wallace the only two civil cases heard, judgment was reserved.

In the former case A. A. Davidson K. C. appeared for the Crown and J. A. Creaghan for the appellant. In the latter case the council for the plaintiff were Murray and Murray while McDade and Barry appeared for the defendant.

There are several civil cases to be heard when the court resumes its sittings.

KINDLY REMIT YOUR SUBSCRIPTION TO THE ADVOCATE

COUNTY COURT

The April sitting of Northumberland County Court opened here Tuesday morning, Judge McLatchy presiding. The only criminal case on the docket was the King vs. Alfred Grossman, for receiving stolen goods known to be stolen, which was set over from the January session.

The following is the docket: Appeal—King vs. Stewart, ex parte McIntosh, appeal from conviction under Inland Revenue Act. In the civil docket is an aftermath of the famous Stewart murder case, in which Victoria Savoy (nee Lattippe), who was principal witness for the prosecution, is suing Millet S. Stewart, who was convicted of manslaughter, for wages alleged to be due. McDade & Barry for plaintiff; W. H. Davidson, defense.

Other cases are Edw. Wallace vs. John M. Wallace, an action for debt; Robert Buchanan vs. L. W. Buckley and Murdoch Wedden, for balance due for poles on the Newcastle-Bathurst transmission line;

Edward Hayes vs. D. P. Sullivan, alleged conversion of lumber.

James Stohart vs. James Russell, debt.

Stephen J. McCarthy vs. R. A. Layton, damages re sale of ties.

Robt. Taylor vs. Jas. Parks, damages from auto collision.

L. B. Amos vs. Alice McElwee, alleged balance due on house.

Nathan Cummings vs. John O'Brien, debt; Grebe Shoe Co. vs. the like; Designer Publishing Co. vs. the like.

Election Of Officers, C. W. L.

At the regular monthly meeting of Newcastle Sub-division of the C. W. L. of Canada the following officers were appointed for the ensuing year:—

President—Mrs. G. F. McWilliam. 1st Vice Pres.—Mrs. F. J. Desmond. 2nd Vice Pres.—Mrs. D. R. Brown. 3rd Vice Pres.—Mrs. J. D. Paulin. Secretary—Miss Bessie Creamer. Corresponding Sec'y—Miss Corinne Lawlor.

Treasurer—Miss Clare L. Lawlor. Heartly votes of thanks were tendered the retiring officers for the splendid work they accomplished during the nineteen months of the League's existence.

"The Bonded Woman" No Ordinary Picture

"The Bonded Woman," Betty Compson's latest Paramount picture, claims distinction by reason of the fact that it has two leading men. John Bowers and Richard Dix being the two contenders for the favor of the heroine.

In this adaptation by Albert Shelby Levin of John Fleming Wilson's story, "The Salving of John Somers," the interest of the spectator as well as his sympathy for both men is said to be maintained to the very end by the uncertainty as to which one Angela Gaskell will eventually marry. Much of the action takes place on the sea and there are two shipwreck scenes.

John Bowers, who plays the role of John Somers, played opposite Mary Miles Minter in "A Cumberland Romance" and has had important roles in such successes as "The Silent Call" and "The Sky Pilot." He recently finished the leading role of John Ridd in Maurice Tourneur's "Lorna Doone."

Richard Dix, who is seen as the other man, is appearing in his first

Every Member of the Family

has benefitted from Zam-Buk some time or another," writes Mrs. W. Campbell, of Bonny River Station, N.B. "My little daughter had watery eruptions on her face and arms which afterwards broke into nasty sores. We used everything we could think of and at last heard about Zam-Buk. This effected complete healing where ointments and all other homey remedies had completely failed."

Sometime or Another

"Since Zam-Buk removed the child's skin disease," continues Mrs. Campbell, "my brother-in-law has come to realize Zam-Buk's wonderful power. He has a hip trouble that periodically causes a gathering which breaks open. For healing this sore he finds Zam-Buk most effective."

"My husband (a railroad man), often needs Zam-Buk. Last summer his thumb was bad through getting it caught in the metal fastener of a box-car door. When the thumb and was almost severed Zam-Buk prevented complications and healed in a week. We would not be without Zam-Buk at any price, and every family should know of its value."

NEEDS Zam-Buk

Enamel-clad flues insure the life of the Kootenay

ONCE the flues of a steel range are attacked by rust, its days are numbered.

The Kootenay resists rust and corrosion at every vital point by being built of Armco Iron further protected at vital points by porcelain enamel. This exclusive McClary's feature prolongs the life of the Kootenay.

This protection makes the Kootenay a sensible investment for the housewife.

See it at the McClary's dealer's.

White Nickeled Oven Heats Quickly

Of white nickeled Armco Iron, the oven of the Kootenay is a joy to work with—heats quickly and evenly—easy to keep clean. Best of all it takes only a small fire to hold baking heat.

WOULD COME TO DOMINION

Many Willing to Leave Britain If They Are Guaranteed Employment

A Canadian merchant who has spent the past few months in England, Scotland and Ireland, arrived home last week on the steamship, Montcalm. The merchant said that the unemployment situation in England was at the present time most serious and that there was a great number of men out of work, especially in various districts in the coal fields of Durham.

In the cotton centre at Manchester and through the lace district, there is considerable distress, there not being a sufficient demand for the product, and especially in Nottingham, a place which depends on the lace industry, the situation is rather keen.

The great industry of knitting hosiery and gloves is in Leicester and surrounding towns and here there is apparently considerable employment and conditions look quite favorable.

In Belfast, Ireland, the linen trade is suffering and is not very buoyant. The merchant said that he found a great desire on the part of thousands to emigrate from the Home Land. Great Britain is greatly over-populated. A leading topic in England at the present time, is the effort of Lady Astor, who is trying to get a bill through, to prevent the sale of spirits to boys. He explained that the boys go to school until the age of fourteen and then when they must enter the higher grades it is so expensive that they cannot afford it and are obliged to stop. Thousands of these boys are unable to obtain employment and are roaming around without anything to do. This is why Lady Astor is trying to prevent them from being frequenters of public houses.

Speaking of the dole to the unemployed, the merchant said that the persons who had been in great dis-

CRIPPLED BY RHEUMATISM

Began to Improve After Taking "Fruit-a-lives"

The Medicine Made From Fruit

You can get rid of Rheumatism. You can be free of pain—of swollen hands and feet—of aching arms, legs and back.

"Fruit-a-lives" will drive the cause of Rheumatism out of the system and give you permanent relief.

"For over three years, I was confined to bed with Rheumatism. Finally I decided to try 'Fruit-a-lives'. Before using half a box, I noticed improvement. I continued taking 'Fruit-a-lives' improving all the time. I can now walk about two miles and do chores around the place."

ALEX. MUNRO, Lorns, Ont.
50c. a box, 6 for \$2.50, trial size 25c.
At dealers or from Fruit-a-lives Limited, Ottawa, Ont.

stress had been benefited. On the other hand the dole system had worked evil as there were undoubtedly men who were taking advantage of it and living from the amount they receive without looking for employment.

In closing his interview the merchant stated that undoubtedly the government could obtain an endless number of people to emigrate to Canada, if there was some financial assistance and a guarantee that there would be work for the men to do. Canada could obtain a very fine class of people from England, Scotland, Ireland and Wales, providing experienced farm laborers and mechanics could obtain an opportunity to cross the ocean.

COMPLIMENTARY DINNER TO PREMIER VENIOT

Hon. P. J. Veniot was tendered a complimentary banquet by Fredericton Council No. 1942, Knights of Columbus, at the Barker House, Wednesday night, in honor of his recent elevation to the premiership. Covers were laid for one hundred, Grand Knight Hugh O'Neill acting as toast master. An address was presented to Premier Veniot.

NO SERIOUS FOREST FIRES IN N. B. LAST YEAR

In the annual report of the Crown Land Department, submitted to the Legislature recently by Hon. C. W. Robinson, Minister of Lands and Mines, Mr. T.G. Loggie, Deputy Minister, refers to the fire problem in New Brunswick as follows:

"There were no serious forest fires during the past year owing to the generally wet season. At times during the summer season when the country was becoming dry the Province was favored with welcome showers and this together with a well directed fire fighting force enabled fires that might have been serious to be controlled and eventually put out. The Fire Law, as amended, was favorably regarded by the public and worked out to the satisfaction of the Department. The Law provides that where fires are burning on private lands there is no onus on the part of the Government to put these fires out. The responsibility of suppressing fires of this kind is now placed on the County Councilors who are authorized by the Act to call out the necessary force from time to time as may be required. There were very few complaints received that the new Act would be a hardship to the settler who had to turn out without pay but when it is taken into consideration, however, that the settler was fighting to save his own home and property there is very little argument left that he should be paid as well. The Act has been well received all over the Dominion and is supposed to be the most advanced fire law in the land. "The construction of more fire towers was carried on during the season of 1932 as recommended by the Advisory Board. All towers have telephone connections and cabins for watchman. These towers

are of incalculable value and my recommendation is that more of them be constructed until the whole province is covered. In my judgment money spent on towers and woods telephones is giving the best value of any form of expenditure of the kind in suppression of forest fires. By having these towers manned by experienced men during the dry season provided with binoculars and alidades as a means of determining the size and location of the fire, speedy communication can be had with this Department where fire fighting crews can be organized so that those crews can arrive at the scene of the conflagration a comparatively short time after the fire is spotted. There never was a time perhaps, in the life of our forests when greater danger existed than at present and when more was at stake in the preservation of the largest source of the provincial revenue

BRITISH FARM LABORERS' STRIKE

LONDON, April 4.—Stories about the farmers of Norfolk county arming themselves against the striking farm laborers are exaggerated, yet the strike is assuming an ugly aspect and certain districts are being intimidated against the importation of non-unionist labor. The strikers as a body discountenance violence.

What has really happened is that farmers' sons and farm pupils in isolated instances have been cudgelled by casual bands of strikers. In one instance a boy was dragged through a river.

The police force has not been augmented since the strike began and few arrests have been made. There is not much prospect of a settlement of the strike taking place.

One expert states that nothing will appease the laborers but increased wages, which, he says is a very natural attitude, considering the present low figure. The small farmers however are unable to pay increased wages, and even the larger farmers would find it a distant strain to do so. Expert attributes the unrest to the effect of foreign and colonial competition and says while this continues there seems to be no way in which the agricultural distress in the east section of England can be permanently remedied.

Farm laborers in Norfolk are receiving sixpence an hour for a fifty hour week. They went on strike when the farmers proposed to pay only 51-2 pence an hour for a 54 hour week. The farmers admitted that the pay was small but said they could not do any better under present conditions.

Rangers Value Cash Awards

The effect of offering cash prizes to the rangers of New Brunswick who kept their districts free from timber fires last year was to greatly reduce the provincial losses.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food is specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

6 CYLINDERS

Studebaker

The performance of the Studebaker Light-Six is smooth and instantly responsive to the touch of the throttle. Its powerful six-cylinder motor, with its overlapping power impulses, will pick up from a walking gait to top speed in a few seconds.

Vibration, so common to many cars, is practically eliminated in the Light-Six through machining the crankshaft and connecting rods on all surfaces. In no other car in Canada selling for less than \$3000, are these engine parts completely machined.

The Light-Six is a proven product of a 71-year-old concern. One hundred thousand Light-Six owners vouch for its dependability and complete satisfaction. Twenty-seven world-wide tests, in which an average of 26.9 miles to the gallon of gasoline was established, offer conclusive proof of its economy.

DON'T EXPERIMENT
 Ask the veterinarian of horses, harem and veterinarians all over Canada. They will tell you that any form of emulsion, whether from cod, herring, skate or shark, will immediately result in a cure. Get a bottle of your favorite. Ask also for a bottle of the first class emulsion of cod liver oil. It is the most useful body ever known for horses, or any animal.
KENDALL'S SPAVIN TREATMENT

Here and There

Canada's export trade grew \$174,000,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes management of the company's passenger business on both the Atlantic and Pacific oceans.

Fire insurance companies found 1922 the most disastrous year for more than 20. The ratio of losses to premiums was 62.64 per cent. British companies suffered most severely, their losses to premiums being 71.48 per cent, mainly due to the Northern Ontario fire.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Temiskaming and Abitibi. Gold was discovered in these two counties early in 1922, and a rush of prospectors began in March of that year. In October, 20 claims were staked, comprising 50,000 acres of land, and to date about 90,000 acres have been staked.

In the last fiscal year, Canada imported 1,363,000 pounds of butter from the United States, 297,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total exports of Canadian butter were 8,430,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will operate between Montreal, Toronto and Vancouver, commencing May 20th, has been cut down one hour. Considering the all steel equipment and luxurious appointments and its regular daily on time performance, this is the finest long distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. Low cost of construction and maintenance will enable the company to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call of the Orient, the Canadian Pacific Steamships Limited, by omitting Manila as a port of call between Shanghai and Hong Kong, will bring the latter port four days nearer to Canada, the United States and Europe. This makes possible a through service from London, England, via Canadian Pacific Atlantic Steamships to Quebec and rail to Vancouver and via Canadian Pacific Empresses to Hong Kong under 28 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,436,825 pieces of baggage as compared with 8,732,674 for the previous year. Of this amount 5,175,843 pieces were passengers' baggage which compared with 5,486,455 for the previous twelve months. 9,897 bicycles were handled, 19,336 dogs travelled as baggage and 23,953 baby carriages were moved. There was also a considerable increase in the movement of milk. In 1922, the Company moved 1,623,707 cans as against 1,614,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up over night" is that of Climax, the end of steel on the Conrail-Assiniboia branch of the Canadian Pacific Railway. All that there was on the quarter section on February 18th, the day when the site of the new town was finally settled, was a homesteader's shack and a small barn. When the steel was laid in Climax on March 15th there was a restaurant, one rooming house, over a score of dwellings, two blacksmith's shops, a drug store, gents' furnishing store, a big general store, pool room and barber shop. The new town is situated in four large flat warehouses in which nearly 100,000 bushels of grain were stored, and a butcher shop. The new town is situated in Lone Tree R.M. number 18, about 30 miles south of Shaunavon.

STRONGLY AGAINST CHURCH UNION

Montreal, April 4.—Rev. W. G. Brown, of Red Deer, Alta, addressing a meeting here last night on "Church Union and the West" denounced what he described as unjust, one sided and underhand unionist tactics. He claimed he had been refused the request to speak to three congregations in the vicinity of Montreal on the subject.

He attacked the views both of Dr. Pidgeon, of Toronto, and of the moderator, Rev. Dr. W. J. Clark and asked "who are these men and how have they come to this divine authority that justifies their going up and down the land telling what the West needs and must have."
 He concluded by declaring that "the West is not sold for union—don't imagine anything of the kind."

France And Germany

It is said that Germany is more inclined to negotiate directly with France and that Britain and some other nations are encouraging her to do so, but she insists that she must be given guarantees that the Ruhr Valley will eventually be evacuated when an agreement is reached. It is not anticipated that such negotiations will begin at an early date. Every move of the French indicates that they are expecting a lengthy occupation of the country.

A vigorous campaign to rid the Ruhr of German Nationalists, who have been strenuously opposing the French and Belgians since they marched into the valley January 11, has been started by the armies of occupation. The Nationalists are held responsible for the outbreaks of violence which have taken place lately against French and Belgian officers and soldiers.

Many leaders and members of the party have been arrested in Essen during the last few days, and are threatened with deportation.

On last Saturday a collision took place between German workmen and French soldiers at the Krupp works in Essen in connection with which nine Germans were killed and thirty-four wounded. Four of the directors have been arrested for inciting the trouble.

According to the French version of the affair, the lieutenant and soldiers went to the Krupp works for the purpose of requisitioning automobiles and were set upon by a mob variously estimated to number between 2,000 and 3,000, which was called together by the factory steno.

The mob showered stones upon the soldiers, the French say, while many of the workmen, armed with revolvers, fired shots. The soldiers returned the fire, shooting over the heads of the mob at first but, when the workmen refused to disperse, finally aiming to kill.

This unfortunate event will greatly intensify the friction between the people and the occupying army.

SNOW DISAPPEARING

During the few fine days which we have had recently the snow has been greatly reduced. So far very little water is noticeable and the snow is fast disappearing.

To Those Who Bake
 EXPERIENCE has taught good cooks that there is no flour quite as good as Beaver Flour.
BEAVER FLOUR
 is the ideal flour for all baking purposes. It is a blended flour, combining the richness and delicate qualities of the world-famous Ontario Winter Wheat with the strength and body of Western Hard Wheat.
 Beaver Flour imparts to bakings the qualities which make your bread, pies, cakes and pastries real food treats.

What every complexion needs

Once every day your skin should be gently but thoroughly cleansed of all accumulations of dirt, perspiration, cold cream, rouge and powder.
 Every tiny pore must be freed from clogging accumulations, so that the network of minute glands can do their necessary work. If you fail to cleanse the skin daily it will get sluggish and inactive, lifeless and sallow. Blackheads will develop, the filled up pores will enlarge into unattractive coarseness and dirt infections, irritation and pimples will result.
 For this cleansing you must use a mild soap. Palmolive is made from Palm and Olive oils. For thousands of years these rare oils have been used by famous beauties. They were highly prized by Cleopatra.
 Today these oils are blended to produce the most famous of all modern soaps—Palmolive. It produces a profuse creamy lather which is as smooth as a lotion. It penetrates every tiny pore and removes every trace of dirt, oil and cosmetics, leaving the skin wonderfully smooth, fresh and rosy.
 You can buy Palmolive Soap at all first-class dealers.

TUESDAY, APRIL 10TH 1923

MAY HAVE 2-CENT POSTAGE

There is a strong possibility that Hon. W. S. Fielding in his budget speech will announce a return to two cent postage. The two cent rate was put into effect by Hon. William Mulock in 1897, and remained in effect, with increased postal revenues, until the war, when it was increased to three cents for war purposes.

Under the administration of Hon. Charles Murphy, as postmaster-general, important economies were effected to such an extent that the postmaster general himself announced at the recent postal conference that a return to the two cent rate was in sight. The minister, however, intimated that it was for Mr. Fielding, as finance minister, to decide, inasmuch as the extra cent goes to the general consolidated revenue fund.

- 1-Cancellation of the Receipt Tax. 2-Cancellation of the Exise Tax on beverages and confectionery. 3-Change in stamp tax on cheques, documents, etc. This change would be maintaining the present 2c stamp on cheques up to \$100 and above that, 4c only instead of the present graded scale.

The government has secured a much greater revenue from the Sales Tax than it anticipated, which leaves it in a position to make some changes in those taxes that have proven more or less of an annoyance to business men.

Tobacco manufacturers are looking for a reduction in cigarette taxes. Present taxes are \$7.50 per thousand and a return to former levels of \$6.00 is expected.

Penitentiaries Improved In Recent Years

Grey walls which surround penitentiaries are not solely for the purpose of keeping inmates from escaping, but to keep persons, from interfering with prison welfare by smuggling revolvers, whiskey and other undesirable goods to prisoners.

General Hughes gave a very interesting address on the improvements which had been made in the penitentiary system and explained fully the procedure which is followed from the time a prisoner is admitted until he receives his discharge.

TREMENDOUS EXODUS FROM THE MARITIMES

The tremendous exodus of people from the Maritime Provinces, especially from Nova Scotia is fanning the spirit which seems to be general throughout the eastern part of Canada," said James H. Conlon, Secretary of the Canadian Fisheries Association, and editor of the Canadian Fisherman on his return to Montreal from a business trip through the Maritime Provinces.

Mr. Conlon who is an old time resident of the Maritime Provinces, said that during his recent trip he had found an increasing conviction that the Atlantic Provinces had not profited as they should since Confederation, while there was everywhere a constant agitation for relief from the general depression. During the past sixteen months, Mr. Conlon stated he had been informed that no fewer than 24,000 people had left the Halifax district which it was estimated by competent authorities that at least 40,000 people had migrated from Nova Scotia since the later day exodus had begun.

GOT SO WEAK SHE FELL IN TRACKS

Toronto Lady Says Stomach Trouble Caused Collapse—Gives Tanlac Full Credit For Recovery

"I Don't believe I'd be alive to-day to tell of my recovery if I hadn't taken the Tanlac treatment when I did. I feel so thankful that if I could I would go from house to house and tell everybody about this wonderful medicine." This is the grateful statement made the other day by Mrs. Josephine Brathwaite, 13 Bright St., Toronto, Ont.

"Seven years ago my health began to decline, and to think that if I'd only had Tanlac then what a world of suffering I would have missed. Broth and toast was about all I dared eat, gas and pains in my stomach after a meal nearly set me wild, and I would scream with agony. I grew thin as a rail and at times became so weak and dizzy I actually fell in my tracks.

"But since taking Tanlac I now enjoy splendid health. My appetite is wonderful, I haven't a sign of my old troubles, and have gained seventeen pounds. Tanlac has been an untold blessing to me, and I will always praise it."

Boy Scouts Increasing

During the last year the Boy Scout troops of the world increased their membership by some 78,000 Scouts and Canada alone contributed about 12,000 to this increase, said Sir Robert Baden Powell, chief Scout, after his arrival from England on the steamer Marloch. The Scout movement, he said, had now extended to practically every civilized country in the world and the total enrollment was in the vicinity of 800,000. About half this number was in the English speaking countries, the United States contributed in between 400,000 and 500,000 and the British Empire about 340,000. Canada's total membership Sir, Robert said, was about 48,000, which showed an increase of nearly 25 per cent within the last year.

Discoverer Of Insulin Officially Recognized

Official recognition of Dr. F.G. Banting as the discoverer of "insulin" the new treatment for diabetes was extended by the Academy of Medicine of Toronto. Resolutions were unanimously adopted through which the academy recorded its deep appreciation and acknowledgement of the discovery as a signal contribution to

2 IN 1 Shoe Polishes. Make it an every morning habit to shine with 2 IN 1 Shoe Polishes.

science and to humanity at large. The name of C.H. Best, who assisted Dr. Banting in his research work at the University of Toronto, was coupled in the resolutions with that of the discoverer.

Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Serious Revolt Breaks Out In South Russia

A serious peasant rebellion against the Soviet government has broken out in South Russia according to advices received by the Ukraine representatives. Regular pitched battles are proceeding between the peasants and Soviet forces in the region of Zhitomir and Rakitno. The Soviet leaders have spent urgent appeals for the despatch of infantry and artillery.

Croupy Cold Goes Overnight

Ontario Lady Says Vicks "Has No Equal" Every mother wants her children to be active and to grow strong through outdoor play. But frequent colds sap their vitality, cause loss of school standing, and keep youngsters puny and delicate. Mothers who use Vicks VapoRub for children's colds find that the kiddies can play outdoors and that their cold troubles can usually be checked overnight.

HONORING BAY DU VIN'S SOLDIER HEROES

A large congregation witnessed the unveiling of a memorial window placed in the chancel of the Church of St. John the Evangelist, Bay du Vin, on Sunday, March 25th, in memory of the three boys of the Congregation who gave their lives in the Great War. The inscription which runs across the base of the window is as follows:—To The Glory of God in memory of Hugh Williston, Oswald Smith, Duncan Williston, who made the supreme sacrifice in the Great War."

Pope Prays For The Russian Vicar-General

Rome, April 8—News of the execution by the Soviet authorities of Monsignor Hatzekavitch, it is learned, reached Pope Pius yesterday, and upon hearing the news the Pontiff knelt in prayer for the soul of the dead prelate.

The Pope was deeply grieved when informed that the sentence had been carried out especially as the effort made to save the Vicar-General had raised hopes that it might be possible to obtain a communication of sentence, as in the case of Archbishop Zepiak.

A Good Medicine For The Springtime

Do Not Use Harsh Purgatives, —A Tonic is All You Need

Not sick—but not feeling quite well. That is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in the spring is a tonic that will enrich the blood and build up the nerves. Dr. Williams' Pink Pills do this speedily and surely. Every dose of this medicine helps to enrich the blood which clears the skin, strengthens the appetite and makes tired, depressed men, women and children active and strong. Miss S. L. McEachron, Nairn, N. B., says: "I have been in the habit of taking Dr. Williams' Pink Pills in the spring and they keep me in the best of health. I think it is entirely due to the use of these pills that I always have such good health."

Canada Has Greatest Beef Cattle In World

"I do not think the people of the United States really understand what they are doing in barring your cattle entering the country as you have the greatest beef cattle in the world," was the statement made by Charles O. Robinson, of Chicago, one of the best known livestock commission men of that city, in the course of an address before the annual convention of the stock growers protective association of Western Canada.

TYPHOID AT MARYSVILLE

A case of typhoid is reported from Marysville. The patient arrived on Friday from Plaster Rock, Ill. The attending physician diagnosed the case as typhoid. The man had been in Plaster Rock for some time.

NOT IN THE HALLS OF PARLIAMENT

Real Makers of Canada Are in the Schools, says Pres. Elliot.

The real makers of Canada are in the schools of the country and not in the halls of Parliament, said J. G. Elliot, Kingston, retiring president of the Ontario Educational Association, at the second general session of its annual convention. It was in the schools, he said, that the training was provided which developed true citizenship. If true Canadian ideals were to be realized, then the schools must become the moulding place for alert, active and aggressive Canadians.

President Elliot claimed that the secondary school to-day should be modified to meet the needs for manual workers. Thirty-three to forty per cent of students to-day failed to complete the high school course, he said. He asserted that the schools should provide first full time classes for those not otherwise employed, and secondly, part time classes for those employed industrially.

Sir Robert Baden-Powell, appearing in Boy Scout uniform, told something of the growth of the scout movement. It had been rather a natural evolution than a development, he said, and to-day it had its place inside as well as outside of the school walls.

Lightning Sets The Forest Ablaze

Winnipeg, Man.—Interesting

observations regarding the starting of forest fires by lightning were made during the past season by a Manitoba fire ranger in the service of the Dominion Forestry Branch. In an aeroplane flight made during a thunderstorm, he reports, at the height of 2,000 feet he could watch the lightning leave the clouds and strike the earth, and soon afterwards see the smoke rising from the fire thus caused. During the one flight five fires were observed to start in this way.

EXECUTION OF VICAR GENERAL

MOSCOW, April 4.—Vicar General Butchkavitch was found guilty and executed as a violator of article 62 of the criminal code, which provides the death penalty or imprisonment for "participation" in any organization which is acting for the purpose of exciting the population to mass agitation non-payment of taxes, unfulfillment of its duties or by any other means clearly detrimental to the dictatorship of the working class and the proletarian revolution, although an armed rising or an armed invasion is not the chief aim of that organization.

Only two papers, the official Izvestia and Pravda, carried the the laconic announcement of the execution, that printed in the Pravda, reading:
"On March 31 was brought in to effect the death sentence on the the Priest, Butchkavitch, condemned in the case of the Catholic counter-revolutionists."
The paragraph in Izvestia reads "The sentence of the Supreme Court of the republic with regard to Butchkavitch, who was condemned to be shot, and whose reprieve, which had been requested was disregarded by the Central Executive Committee, has been carried out."

Northcliffe's Widow Marries Husband's Choice

London, April 4.—Lady Northcliffe, widow of Viscount Northcliffe, was married today to Sir Robert Arundell Hudson. The wedding took place at Marlbury, in Worcestershire.

Lord Northcliffe, the noted publisher, died on August 14, 1922. He left an estate shown when his will was probated on February 16, last, to be valued at £3,250,000, on which a duty of £1,300,000 was payable to the government.

Lord Northcliffe had made two wills, it developed under the first of which it was provided that should Lady Northcliffe re-marry, the greater part of her share in the estate would pass to other beneficiaries. A later will, placed no limitation upon her share, but it was the earlier will which finally was probated, the court ruling against the later document after announcing that an agreement had been reached which made for at Marlbury, in Worcestershire. Sir Robert Hudson is prominent

as a Liberal party leader and is actively interested in the conduct of various charitable and civic organizations, notably the British Red Cross Society, of whose joint finance commission he is chairman. It was rumored early this year that he and Lady Northcliffe were to marry, and that at that time it was recalled that after the publisher's death reports had it that one of his dying wishes was that should Lady Northcliffe determine to re-marry her choice should fall upon Sir Robert Hudson.

Expect Turkish Peace Settlement

The impression in Constantinople is that a peace settlement will be reached in view of Mustapha Kemal's coup in carrying a motion for new elections; it is expected that these elections will eliminate from the assembly the recalcitrant element and insure a majority for peace. It is understood that in accepting the invitation for another conference, the Turkish reply to the Allies makes the usual reservations on certain points.

Famed for Flavour!

Five Thousand
Men For Labrador
Gold Fields

Sydney is the logical jumping
off place for Labrador," H. C.
Bellew told the Rotary Club and
its guests at the Norfolk Hotel
Sydney when talking of the Lab-
rador gold discoveries and this
summer's "gold rush."
"My own business in Sydney
at the present time" Mr. Bellew
said a little later in his speech, "is
to arrange for transportation from
Sydney of the 5,000 men our com-
pany expects to send into the
gold field this summer and a hun-
dred thousand tons of freight that
we will have for shipment to Lab-
rador."

MORE BARNJUM
FORESTRY PRIZES
AWARDED

Prizes have been awarded in the
Barnjum \$2,000 prize contest for the
most convincing arguments in favor
of prohibiting the export of unmanu-
factured wood from Canada, as fol-
lows: First prize for the best essay
in English, \$500, went to J.R. Black,
33 Broadway Avenue, Ottawa. Sec-
ond prize, \$250 to Jas. R. Dickson,
of Dominion Forestry Branch, Ottawa
Third prize, \$150 to H.C. Scott, 5 Golf
Avenue, Pointe Claire, P.Q. Fourth
prize, \$100 to Fred Barnes, Belgo
Papes Company, Shawinigan Falls,
P.Q. For the best essay in French
\$500 went to Avilla Bedard, Quebec,
P.Q. Second prize \$250 to Albert
Trempe, Quebec. Third prize, \$150
to Eugene Rivard, Quebec. Fourth
prize \$100 to Henri, Roi, Belgo Paper
Company, Van Bruyssel, P.Q.
Mr. Barnjum states that the judg-
es had a most difficult task in
awarding these prizes owing to the
very high order of the papers sub-
mitted, and that everyone of the
contestants whether successful in win-
ning a prize or not can feel happy in
the knowledge that they have done
their country a great service in as-
sisting in the assembling of the great

WEAK, RUN DOWN
AND AILING

Lydia E. Pinkham's Vegetable Com-
pound Brought Relief When
Other Medicines Failed

Port Mann, B. C.—"I took Lydia E.
Pinkham's Vegetable Compound because
I was tired and run-
down. I had head-
aches and no appe-
tite and was troubled
for two years with
dyspepsia. I tried
many medicines, but
nothing did me any
real good. While I
was living in Wash-
ington I was recom-
mended by a stranger
to take Lydia E.
Pinkham's Vegeta-
ble Compound. I am stronger and feel
fine since then and am able to do my
housework. I am willing for you to
use this fact as a testimonial."—Mrs.
J. C. Gossens, Port Mann, B. C.

Fetch New Life and Strength
Keene, N. H.—"I was weak and run-
down and had headaches and all sorts of
troubles which women have. I found
great relief when taking Lydia E. Pink-
ham's Vegetable Compound and I also
used Lydia E. Pinkham's Sanative
Wash. I am able to do my work and feel
new life and strength from the Vegeta-
ble Compound. I am doing all I can to
advocate it."—Mrs. A. F. HAMMOND,
72 Carpenter Street, Keene, N.H.

Sick and ailing women everywhere
in the Dominion should try Lydia E.
Pinkham's Vegetable Compound.

mass of arguments in favor of pro-
hibiting the export of unmanufactured
wood that are contained in these
549 essays sent in from every Pro-
vince in the Dominion. They not
only contain page after page of un-
answerable arguments in favor of
an embargo but also picture the
story of forest devastation and fore-
st conditions in each district from
British Columbia to Cape Breton.

Outlook For
Lumber Trade

Canvassing the prospects for the
lumber business the Canada Lumber
man says:
"So far as the coming year is con-
cerned, manufacturers and whole-
salers believe that business for the
first six months at any rate will be
unusually good, but just what will
happen after that when the new cut
comes on the market, no one cares to
foretell. Everything points to the fact
that 1923 will, on the whole, be a bet-
ter period than 1922, providing no un-
foward event occurs to mar the in-
creasing demand for lumber, the
home building campaign, construc-
tional undertakings, the awakening
activity in industrial enterprises and
the numerous projects that are being
considered and discussed on all sides.
A Maritime correspondent of Can-
ada Lumbermen writes: "Business in
1923 will be good if the European
situation clears up. Stocks are only
about 50 per cent. of what they were
a year ago, and the past twelve
months was largely a clean-up period.
There are no large stocks in the
country, and the log cut is light. Nova
Scotia is bringing out only about
100,000,000 feet, and New Brunswick
about 400,000,000 feet. Business is
good in the United States and why
should not lumber bring a good
price?"

Enginemen On
Wrecked Maritime Had
Miraculous Escape

"Nothing less than miraculous,"
was the description given by a rail-
road man when talking on the es-
cape of Driver Ex-Ald. Geo. W. An-
derson and his fireman on the east-

ed into some loaded box cars on
the siding at Culligan's early Tues-
day morning. From further particu-
lars to hand it is supposed that the
brake beam equipment of a north-
bound extra had broken somewhere
near Belledune and had split the
switches at Ullitan and when com-
ing into Jacquet River had caused
part of the train to take the siding.
The freight crew had flagged the
Maritime at Jacquet River and after
getting the tracks clear the express
proceeded east but on reaching the
west switch at Culligan's ran into
the siding crashing into several load-
ed box cars with the result that the
tender of the engine was thrown on
top of the boiler. The impact natu-
rally derailed the engine as well as
the tender also the mail and express
cars, but it was most fortunate the
train was not travelling at much
more than 15 miles an hour at the
time otherwise the accident would
undoubtedly have been attended with
fatal results. As it was, however, the
damage to the equipment was con-
siderable and especially to the engine.

Canadian Wood
Helps Uncle Sam

Only fifteen per cent. of the timber
lands of Ontario and Quebec are
privately owned. The remainder
belongs to the provincial govern-
ments. The timber from private
lands can be shipped out of the coun-
try unmanufactured and amounts to
a million and a quarter cords of pulp-
wood annually, all of which goes to
support United States mills. It is
claimed that not two per cent. of the
farmers of Canada own any pulp-
wood or are interested financially in
sending it to Uncle Sam's industries.

One Timber Fire
For Each Industry

In Canada are located 5,000 wood
using industries and it is an old coin-
cidence that the forest fires average
one for each industry, or five thou-
sand a year.

PURITY FLOUR

USE IT IN ALL YOUR BAKING

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you
are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of
Aspirin," which contains directions and dose worked out by
physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-
aceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer
manufacture, to assist the public against imitations, the Tablets of Bayer Company
will be stamped with their general trade mark, the "Bayer Cross."

CANADIAN NATIONAL EXPRESS COMPANY

Your Paying Teller
—in every town!

SEND money quickly—and above all safely—by Cana-
dian National Express Money Orders. The rates are
as low as, and sometimes lower than by other methods.
A Money Order for \$5.00 costs only 3 cents—\$30.00 costs
10 cents, etc.

Currency or coins sent in a letter may be stolen, destroyed
by fire, or lost. If a Canadian National Express Company's
Money Order is lost, the amount is recoverable. Over
\$100,000,000 reached the right hands last year through the
medium of Money Orders.

These Money Orders are easy to purchase. No application
blank to fill out. On sale at all hours of the day and even-
ing at 3465 express offices—at thousands of sub-agencies in
cities and towns. Payable immediately on presentation,
practically any merchant or storekeeper will cash them or
accept them. Can be endorsed any number of times. Are
often used for paying home bills.

FOREIGN DRAFTS
The Company issues drafts in Foreign Money for any
amount at lowest current rates of exchange payable by lead-
ing Banks and Bankers throughout the Commercial World.

FOREIGN POSTAL REMITTANCES
Immigrants and others sending money abroad profit by using
Foreign Postal Remittances issued by the Canadian National
Express Company, payable through Foreign Post Offices.
The Company also transfers money by Cable or Telegraph.

TRAVELERS CHEQUES
Traveler's Cheques issued by Canadian National Express
Company are invaluable to tourists and commercial travel-
ers. When signed in the presence of the paying agent, no
further identification is necessary. They are accepted in
place of cash by hotels, merchants and storekeepers every-
where. If a cheque is lost the amount is recoverable.
