Canada Gets Into Battle With New York Interests Over St. Lawrence Plan

Aided By Western States,
Canadians Put Up
Argument for Deepening
River Route; They
Think Will Win Out

SUFFALO, March 3.—Canada and the Western States linked forces yesterday in vigorous advocacy of navigation and power projects involved in the Great Lakes-to-the-sea enterprise, under consideration by the International Waterways Commission. Their representatives are distinctly optimistic tonight. They have met the Gotham Goliath of opposition on its own ground, and they believe they have bested him. The hostility of New York State, with its barge canal system, its Atlantic seaboard and its corporate interests, was centralized in this Buffalo sitting. The heavy artillery of those forces has been in action, and the men from Canada and the Middle West are confident that they have held the line.

There is cause for certain of this confidence. The allies presented a common case. They more than held their own—and the Commission goes north and west. During the past three months it plans an extensive itinerary. It goes westward as far as Denver, and then to Toronto, Montreal, Winnipeg, and, on the embattled demand of the Canadian Grain Growers of the West, on into Saskatchewan and Alberta.

Over this entire route, with the possible exception of Montreal, Boards of Trade, Chambers of Commerce, Grain Growers' Associations and other bodies will endeavor to prove the absolute necessity of the canal and St. Lawrence project.

New Commission Invites Dominion

Canada's Representatives May Tour
Central Europe With L. of N.
Organization.

OTTAWA, Ont., March 3.—The organization of a commission backed by the League of Nations, and upon which Canada may have representation, for the purpose of visiting Austria, Poland, Southern Russia, etc., to find out exactly the conditions in Central Europe, is to be called in a cable received by the Minister of Labor from Deputy Minister Acland, who is at present in London. It is suggested that Canada should have a representative immediately.

In reply to a cable from Senator Robertson, asking if Mr. Acland or Mr. Tom Moore, president of the Trade and Labor Congress, now waiting in London for the next meeting of the governing body of the International Labor Conference, could go, Mr. Acland says that it would be almost impossible for them to make arrangements. Conditions of travel, etc., are extremely difficult, and difficulties of language would make it comparatively useless to travel in the various countries without an interpreter. It would, however, be possible to obtain the latter.

The Deputy Minister, however, goes on to say that Director Albert Thomas, of the governing body of the International Labor Conference, has informed him of the suggested commission, which may consist of ten members. Canada, it is stated, should submit the names of their representatives without delay, so that if the commission is established at the time of the March meeting and Canada is accorded a place upon it, there will be no time lost in getting to work. This commission would probably be representative of a large number of countries and would have excellent facilities for investigating conditions in Central Europe.

Mr. Acland states that one of the

Yellow Labor Being Suggested For Railroad Work in the West

SASKATOON, March 3.—While in Saskatoon, President Beatty of the C.P.R., said that it depended almost entirely on the labor market as to whether his company would do much construction work this year, and no doubt, that will be the chief obstacle. For the past few years the class of labor formerly employed in railway construction has actually left the country for Europe to a greater extent than it has ever come from there. There are rumors that an effort may be made to bring Chinese coolies from the Orient to Canada for this work, to be sent back after the present conditions change, on the same basis that they were sent to the Western front in France during the war. This would help to solve the problem, but nothing definite has been heard regarding it so far.

SIR ROBERT MAY RESUME HIS TASK

Catler and Reid, Back From New
York; Say He is Much
Improved.

OTTAWA, March 3.—Hon. J. A. Calder and Hon. Dr. J. A. Reid returned to Ottawa yesterday from New York, where they met Sir Robert Borden on his return from England. They state that Sir Robert is much improved in health and will return to Ottawa before the end of this session of Parliament to resume the leadership of the Government.

LAWYERS APPEAR FOR THE LEADERS

The Tactics Are Changed When the
Crown Closes Case at
Winnipeg.

WINNIPEG, Man., March 3.—Shortly before the Crown closed the case yesterday in the trial of the seven strike leaders, it became apparent that the three of the four accused who have been conducting their own defense throughout the hearing have changed their minds about making personal addresses to the jury. W. H. Trueman, K.C., appeared in court and announced he had been retained as counsel by Aldermen John Queen and A. A. Heape, and a report was current that E. J. Davis, Vancouver, barrister, was on the way to make his appearance for W. A. Pritchard.

UNION GOV'T. SEEMS UNITED

No Signs of Internal Combustion—
Mr. Crerar Waits.

OTTAWA, March 3.—The first few days of the sessions have gone to show that the Government has nothing to fear from internal combustion. The cross benches are poorly tenanted, and for the greater part the various elements of the Government following appear to have flocked back together under the Cabinet wing just as chickens do at the approach of a hawk. Association together in the Chamber, the caucus room and the reading and lounging rooms during these past sessions, has gone far to dissipate differences of opinion.

At the present time the attitude of Hon. T. A. Crerar appears to be "wait and see."

PRIESTS MAY STRIKE

MADRID, March 3.—It is reported that if the Government does not meet the demands of the clergy for higher stipends, the parish priests will go out on strike.

Items on the agenda for the meeting on March 22, is the question of establishing an international commission on emigration. He expressed the view that it is desirable for Canada to have representation on the Commission if possible.

NO PROSPECT FOR A DROP IN PRICES

Demand for Builders' Supplies Very
Much Exceeds the Supply—A
Building Boom?

That there were no indications of lower prices for hardware supplies and building materials in the near future was the unanimous declaration of the speakers at the recent convention of the Ontario Retail Hardware Association at Hamilton. They pointed out that building operations which had been held up during the period of the war would be resumed on an extensive scale this year. In fact, building had practically become a necessity in Canada as people must have homes, business buildings and public improvements. This means an enormous demand for builders' supplies of all kinds, and with manufacturers far behind in their orders for delivery high prices will likely be maintained.

EMBARGO SHOULD HELP THE PRICES

General Opinion Seems to be That
It May be Warranted if it
Brings Benefits.

The outstanding feature of the investment situation last week was the announcement of an embargo on securities coming into Canada from other countries. This drastic action was taken at the request of the Minister of Finance, who suggests that it is to the interests of the country as a whole that a check should be placed upon the flow of securities held abroad which have continued to flood the Canadian markets since the foreign and sterling exchange rates appreciably declined. With a premium on Canadian funds foreign holders of Canadian securities found it profitable to dispose of their holdings in the local markets. This general liquidation, which has been continued for weeks, has kept the markets in a disturbed and depressed state. With offerings coming in as freely as ever, the fear was expressed in some quarters the Canadian finances would not be sufficient to cover the offerings and yet meet the demand for local purposes. The cessation of foreign offerings will, it is argued, have a tendency to improve Canada's economic and financial position.

HEAVIEST BOY IS DEAD

Lenny Mason Weighed 420 Pounds—
Uncle Lives in Stratford.

STRATFORD, March 3.—Lenny Mason, the world's heaviest boy, is dead, according to word received by his uncle, L. C. Teather, here. Lenny Mason, the 16 year old British lad, who weighed 420 pounds, died suddenly from heart failure while touring England. Recently his picture appeared in many Canadian papers. He planned to come to Canada this summer.

ONTARIO TO RAISE TAXATION LIMITS?

Impossible for Municipalities to Pro-
ceed with Improvements Under
Present Law, is Claim.

It is understood that as a result of the prevailing high costs a number of municipal councils are finding it difficult to establish a tax rate within the limits allowed by law and yet make adequate provision for local improvements in the drive of the estimates. In fact, the report comes from Brantford that public works, such as the construction of pavements, etc., would have to be suspended this year in order to permit of the rate being within the legal limit. The Government does not at present allow the rate to exceed two and one-half per cent. of the assessed value of the property, exclusive of all special taxes. With wages for school teachers and all municipal employees ever soaring, and the costs of material becoming an increasing burden, a situation has been created which renders greater scope for taxation desirable. Government action, it is understood, is being contemplated in raising the limit beyond which taxation must not go. The question that is presenting difficulty is the point at which this limit can be fixed and yet provide for all municipal requirements, the costs and activities varying in different localities. It is quite probable that this matter will be settled at the next session of the Legislature in order to allow municipal councils to proceed with the contemplated works.

Discussing the situation, J. A. Ellis, director of the Municipal Affairs in the Ontario Government, states that Government control of the municipality's power of taxation tended to prevent the issue of an undue amount of debentures, thereby creating an extravagant credit from borrowing debts for which they could make no adequate provision for payment. The investor in municipal securities was not only protected as a result, but the individual citizen of the locality as well.

In reference to raising the assessment of property to an amount sufficient to cover the needs of the moment, it is pointed out that there were difficulties in this connection which rendered such action undesirable. All property is supposed to be assessed to its full value and to increase the assessment would be to admit that the property had been valued too low. As a result there would probably develop an inflated valuation which would not be for the benefit of the community.

CONSCIENCE STIRS AFTER 20 YEARS

Leads Niagara Falls Citizen to Pay
Duty on Article Snuggled
Then.

NIAGARA FALLS, Ont., March 3.—Because he had smuggled something over one of the bridges about twenty years ago, one good citizen of Niagara Falls paid a visit to the Customs offices yesterday and handed over an amount equal to the duty on the smuggled article. Pricking consciences seemed to be in vogue during February, or perhaps it was a special sacrifice for Lent. At any rate, \$100 conscience money was brought into the customs.

THE WEATHER

TORONTO, March 3.—Pressure is high over the northern and Eastern portions of the continent and the weather is fair and cold in nearly all parts of the Dominion. A disturbance now centred over the southwest states is likely to move towards the Great Lakes.

FORECASTS—Easterly winds, fair and moderately cold today. Thursday—Strong east and south east winds with snow or rain.

A movement has been started to establish a Fire College for the Dominion at Ottawa.

CENTRAL TESTING BUREAUS NEEDED

To Test Building Materials for the
Various Municipalities is Con-
sidered Matter of Economy

The need for one or more central provincial testing bureau for building materials, where the different municipalities might apply for information regarding the quality of material before undertaking any large construction work or drafting a building bylaw, was emphasized by W. W. Pearce, business administrator of the Toronto Board of Education and formerly Toronto city architect, in a recent address on "The Modern Building Bylaw," delivered before the members of the Provincial Builders' Exchange. At the present time, Mr. Pearce pointed out, it was difficult to get first-hand information on Canadian building products and it was often necessary to go to Washington or other American cities for information on our own materials. As a result the bylaws founded with such information as their basis were often biased owing to the fact that the American when in doubt gave the Canadian the worst of the deal.

WILL TAKE YEAR TO FINISH THE PARLIAMENT BUILDINGS

Opening Sees 175 Men Laid Off But
500 Still at Work.

OTTAWA, Ont., March 3.—With the opening of Parliament in its new home on Parliament Hill about 175 employees of the P. Lyall and Sons Construction Co. have been laid off, their work being completed. Nearly 500 men are yet at work, and it will likely be a year before the new buildings will be entirely out of the hands of the construction company.

The semi final dates for the North-ern League senior and junior hockey finals are announced.

HAVE VERY VAGUE ANSWER TO PUT OFF THE EVIL DAY OF CHOOSING NEW LEADER

WHERE CAN THE WESTERN
FARMER SPEND HIS
WINTERS?

CALGARY, March 3.—The high rate of exchange between Canada and the United States is causing a large number of the Canadians who have gone to the Southern States for the winter season to return much sooner than they had planned. This is also added to by the exorbitant charges for about everything that entered into living, while there, rents as well as foods. It will have a very great effect on the future of the Canadians going to California, at least those who do not feel that they have been treated fairly. In the end it will work out to a loss to the South, for up to this year there has been a very great number who planned to spend the winter in the South each year who will look very carefully into the matter before they will go again.

EXHIBIT IN THE PUBLIC LIBRARY

At Regular Meeting of Board Last
Night Notice Was Read that
Painter-Etchers Would
Display Pictures.

A regular meeting of the Public Library Board was held last night with the following members present: Chairman Erskine, C. A. Hesson, A. M. Watts, E. C. Nicholson and W. J. Robertson. The minutes of the last meeting were read and approved.

A resolution was passed increasing the salary of the caretaker from \$50 to \$55 per month.

The report of the Finance Committee was read by Mr. Watts recommending payment of salaries and accounts to the sum of \$424.01 and was adopted.

The report of the Librarian for February was read showing a circulation of 5731, the highest February circulation yet recorded, the receipts from cards and fines \$30.03.

The Secretary informed the Board that he had received word from Mr. F. Haines, Secretary of the Society of Canadian Painter-Etchers, that a new exhibit of the work of the Society was on its way to St. Catharines for display in the Library. A good deal of interest was manifested last year in the exhibit in the Library and an entirely new lot of works of high artistic merit will be placed on view this week or next for the pleasure of all interested in such. A fuller announcement regarding the exhibit will be made after its arrival.

Veterans and Police Clash Near Commons

Discharged Soldiers Were on March
to Downing Street to
Lodge a Protest.

LONDON, March 3.—Police and Government authorities yesterday said they did not attach great importance to rioting which occurred yesterday near the House of Commons, in which fifty men, including police, were injured slightly.

Fighting occurred when police attempted to stop a procession of demobilized soldiers and workers who were parading toward Downing street in a protest demonstration against being thrown out of their war jobs. The men dispersed when they were informed discharges would be suspended until March 13.—More than 5,000 men took part in the demonstration, it was estimated. Several were clubbed by police. Twenty were taken to hospitals.

Ottawa Doesn't Know De- finitely, Even Yet, if Premier Borden is Going to Get Into Political Life Again—Re- turn of Two Ministers.

OTTAWA, March 3.—Hon. J. A. Calder and Hon. J. D. Reid returned yesterday afternoon from their conference in New York with Sir Robert Borden with the authority to say that the Premier is in better health, and will return to Ottawa after a time to resume his duties. Contrary to what was reported in this statement was made by Dr. Reid as to whether or not the Premier ever will be able to resume active leadership.

Had to Have Answer.

Opinion inclined to the idea that the Premier authorized this statement mainly on account of the earnest representations of his colleagues that it was necessary to answer demands in caucus for reliable information as to his health and for a settlement of the question of Leadership. The great difficulty of uniting on a Leader, or even of selecting one by a majority vote without the Union going to smash, prompted this course. In this dilemma the statement that Sir Robert expects to be well enough to resume the Premiership in a few months will do almost as well as though Sir Robert really intends to remain permanent Leader, if only such a statement can be made strong enough to create belief.

Merely Honorary Leader

There is nothing to prevent Sir Robert Borden coming to Ottawa again with the advent of mild weather, but among many in close touch with the situation, there is a deep scepticism concerning his willingness to be anything but a nominal or honorary leader. It is pointed out that only loyalty to the Union he created could lead him to endanger the reputation gained through being a war time Premier, by trying to carry on in the face of an electorate exasperated as much by what his Government has done as by what it has not.

Put Off Evil Day.

It was stated by the two Ministers that he would prefer to come to Ottawa now, but that his health is not yet sufficiently restored to permit it. On that slim foundation, and on the pious hope that he will be in a condition later to resume his duties, or at least to live in Ottawa while others relieve him of the hard work, the Cabinet hopes to shelve to an indefinite future the dreaded question of deciding on a Leader and of braving the political break up that decision might entail. This device may tide over a crisis, but it provides evidence that, despite the bringing in of a Franchise Act, no election is intended this year if it can be avoided.

Of course, if Sir Robert really did wish to see all that it was intended to include in the Franchise Act, as intimated, he might show a more rugged state of health and a reviving desire to lead the Unionists in an election.

CLAMOR FOR FREE BOOKS

The Applications From Farmers Are
Swamping Ottawa.

OTTAWA, Ont., March 3.—A veritable flood of applications for farm literature is reported from the offices of the Commission of Conservation. Recently the department printed a third edition of 15,000 account books given free to farmers, and before the issue was off the press every copy had been applied for. An issue published in French was similarly taken up. Department officials declare it to be a sudden wave of recognition on the part of farmers that business on scientific principles is essential to the success of modern farm life.

LOGICAL OF COURSE.

A despatch from Toronto appearing in our contemporary yesterday said that the deputation from this city which waited on Premier Drury to ask that the Municipal Act be amended to permit of increased taxation for St. Catharines consisted of Mayor Loveless, ex-Mayor Burgoyne, Acting Solicitor Cummings and City Treasurer Witt.

Quite naturally this statement of fact has treated comment in the city for the appearance of an ex-Mayor to request increased taxation for a municipality, unless he is named by the Council as a member of the deputation is most unusual.

Citizens are suggesting that it is a most consistent thing for Mr. W. B. Burgoyne to go along where there is a proposal to add taxes on to the public and that he should be a member of the deputation creates no surprise but it does cause comment. It would look as though the Council of this year has added an eleventh member. Why an ex-Mayor should be a part of such body of municipal representatives when not named by the Council is interesting to speculate upon.

NOT NECESSARY.

The effort which is being made by the City Council, with the assistance of one of the chief advocates of high taxation, ex-Mayor Burgoyne, to get the Provincial Government to allow amendments to the Municipal Act may be successful but it is not necessary and if the opposition is raised to the application its chances of success may not be bright.

So far as The Journal is concerned it does not oppose progress nor the expenditure of money on needed civic improvements, at times and under conditions that are reasonable and that will not impose too heavy a burden on the tax payers, but with the assessment of the city what it is today, with a high rate and a heavy debt, it does take the position that heavier taxation is not wise.

Furthermore, it ventures the opinion that if the Legislature were to sanction an increase in the tax rate it would not be three years before the limit of the extension would be reached and the municipality would find itself in the same position as it is today. There are always arguments and excuses for spending large sums of money and for heaping more taxes on the ratepayers. There are always public improvements that are regarded as urgent but there comes a time now and then when a little economy and caution are also wise. This time has come for St. Catharines.

The new Collegiate can be financed within two or three years without increasing the rate of increasing the borrowing power of the corporation. The most that should be done would be for a request to be made to the Legislature to allow the application of debentures for say \$300,000 to be postponed till 1926 when the civic debt drops from what it is today by one and a third millions of dollars.

"St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

A Forceful Man.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Ever in view of this, there are now only forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth.

In all the various departments the same rate of growth has been recorded. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the position which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

FEW PROFITEER CONVICTIONS

The British system of having anti-profiteering tribunals throughout the country to apply drastic treatment to chargers of exorbitant profits has failed of its main object. In the first six months of the operation of the act, 100 committees were appointed. The number of cases heard has been 1,935, the number of convictions obtained 24, and the cost has been \$125,000. The results might seem very disappointing, considering the thoroughness with which some of the committees combed over the list of dealers for culprits, and the supporters of the anti profiteering act evidently thought so, when the question of an extension was up in the commons. But the effectiveness of a campaign, especially of this kind, cannot be judged alone by the number of convictions. For one dealer who is fined, a dozen may decide to keep inside the law after an example of prosecution.—Toronto Mail and Empire.

Quality Service and Low Prices

Women's, Misses' and Children's Apparel

35-37 Falls Street, Near Cataract Theatre

Announce the Establishment By This Firm of Canadian Connections in Canadian Investments

In Order That

CANADIAN MONEY MAY BE TAKEN AT PAR VALUE

Our February Clearance Sales Of Women's, Misses', Juniors and Children's Apparel offer most extraordinary values—values that are not duplicated elsewhere.

WE ARE Ford Dealers in this district and have formed an estimate of the number of cars we will require to meet the needs of this territory. We cannot get enough cars to fill that estimate because there are not enough cars being made to fill all dealers' estimates throughout Canada.

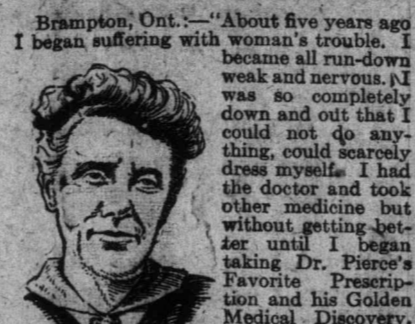

The number of cars we can get depends upon the number of orders we send in and the early date at which we send them in, as the Ford Shipping Department follows the principle, "First Come, First Served."

Cars ordered now will not be delivered until March, and deliveries will be uncertain throughout the year. If you do not want to wait for summer or autumn delivery, come in and reserve your car by signing an order today.

SHE WAS WEAK AND NERVOUS

Brampton, Ont.—"About five years ago I began suffering with woman's trouble. I became all run-down, weak and nervous. I was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength and I have been in better health than I ever was before. I have had no use for medicine since, but should I need it I would take these same remedies, knowing them to be 'excellent.'—MRS. HARRY KNIGHT, Jessie St.

OWES HER LIFE

Ft. Saskatchewan, Alta.—"It is with great pleasure that I write the following and I hope it will help the many sufferers who do not know the good Dr. Pierce's medicines would do them if they would try them. "In regard to my condition, I will say that I suffered from childhood from a very weak back; I had the misfortune of having spinal meningitis when I was one year old and until I was 13 I did not see a well day, but a very kind lady told my mother about Dr. Pierce's Favorite Prescription and she got a bottle to try it. It did me so much good that mother got me 6 bottles. Recently I happened with a car accident and hurt my back badly. My doctor gave me up and said I would not live, but I still stuck to Dr. Pierce's Favorite Prescription and to my surprise in three weeks I was out of bed and better. I owe my life to it and nothing else, and shall never be without it. "If any sufferer wishes to write I will answer with pleasure."—MRS. NOEL BARTELOMEW.

COMMISSIONER HIGGINS

HERE TO CONFER ON SALVATION ARMY MATTERS. Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McMillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with

the Canadian officials. He was for having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada. ADVERTISE IN THE JOURNAL

DESTITUTION IN EUROPE TERRIBLE

Long Processions of Starving, Ill-Clad Children Seen Daily on the Streets.

Long processions of little Jewish children in Eastern Europe, bearing their tin cups in their hands, daily walk from their villages to the nearest town in which there is a Jewish relief station, according to relief workers in these stricken lands, sometimes journeying five or six miles in order to get the cup of soup with a piece of hardtack, or the mug of milk which is often their sole food of the day.

Those tin-cup processions emphasize, as nothing else could do, the relief workers say, the terrible destitution of the Jews in Eastern Europe at present. The children in them are barefoot, almost without exception. Reports received by the Canadian Jewish War Relief Committee say that both boys and girls are wrapped in burlap, or dressed in clothing made from the sacks in which the relief supplies have come, or in the rags which they have worn during the five years of the war, their gaunt little bodies showing through the tatters. They do not walk as children usually do, without effort or restraint, but drag themselves along wearily, and hopelessly, like tired little ghosts condemned to move in hungry processions throughout eternity. Arrived at the relief station, the children are so tired and so weak that they sit down upon the pavements to await their turn in line. Upon the faces of every one of them there is an expression of unchildlike anxiety. It has to do with the only really vital question of the world to them—whether or not the soup or milk will hold out, until their turn comes. Every day some of them have to be turned away without food, since their numbers are so great that the funds at present on hand are not always sufficient to care for them all.

MILLION CHILDREN ARE CLAD IN RAGS

Their Wasted Bodies Show Thru Tatters, Result of Starvation and Misery.

The art of making two covers bloom where only one bloomed before isn't half so hard as that of making two garments exist where only one existed before; yet even this can be accomplished, according to reports recently received by the Canadian Jewish War Relief Committee from relief workers abroad.

Each pair of pajamas made at least two Russian blouse suits for little boys it was reported. The larger pieces left over in the cutting were used for the cloths that the children of Eastern Europe bind around their feet in lieu of shoes.

MILLION PAIRS OF SHOES ARE NEEDED

Destitute Jewish Children of Eastern Europe Use Rags to Protect Feet From the Cold.

A million pairs of shoes are needed by the destitute Jewish children of Eastern Europe to-day, according to reports received by the Canadian Jewish War Relief Committee from relief workers abroad. At least that many of the helpless and hungry Jewish youngsters of Eastern Europe are absolutely without footwear of any kind, their relief agents say. Thousands of others have rags sewn around their feet in lieu of shoes. Several carloads of shoes that formerly belonged to Allied soldiers in France were purchased there by the Joint Distribution Committee of the War, for the Jewish women of Eastern Europe. But it was impossible to buy the shoes in sizes that could be worn by the children, and all others sold in Europe are at a prohibitive price. So a million youngsters are barefoot during the hard winter of Eastern Europe.

There is a great lack of every conceivable kind of clothing, and of all shoes. In Serbia, a common child's costume just now consists of two sacks, with holes cut through for the head and feet. In Poland, four sacks and sugar sacks sent with supplies to the destitute Jews by Jewish relief agencies are all being made over into clothing, and even small salt sacks are pieced together, and used for this purpose.

The Toronto Presbytery nominated Rev. Dr. J. Ballantyne for the chair of the General Assembly.

SIX MILLION JEWS ARE FACING DEATH

Starvation and Disease Cause Indescribable Suffering in Eastern Europe.

The hardships of this winter will mean death to thousands of Jews in Poland, unless outside aid intervenes at once according to Lieutenant Shelton Wright of the American Red Cross Commission to Poland, recently returned to the United States after months of relief work in eastern Europe.

He painted a vivid picture of this half-starved people, clad in rags, who are now creeping back toward their devastated homes after months of refugee wandering, and dying of starvation and typhus along the roads, as they go. "Outside starvation, numerous diseases, attributed to malnutrition and typhus have killed men and women and children like flies," he said. "I remember a family trying to live under an over-turned wagon by the roadside. The mother was dead under a tree a few yards away—she had been dead for days. The father was stretched upon the ground dying of typhus. He died that day. Under the wagon were two little children, both under five, sick with typhus. An older child sat stupidly beside them—a girl driven out of her mind."

Many of the people are driven to making "bread" out of leaves and bark, and "soup" out of grass and water, Lieutenant Wright reported. There was unspeakable joy among them when the American ships, loaded with relief supplies purchased with the funds raised by the American Jewish War Relief Committee and other American Jewish agencies, and American and Canadian Red Cross supplies were unloaded at Danzig and other ports. In spite of the fact that the American Jewish Relief agencies are spending almost \$2,000,000 a month now on their relief work in Poland, and that the Red Cross is doing the work on so vast a scale, hundreds of thousands of Jews and Poles will die during the winter unless more aid comes.

"Every box-car full of refugees returning to their homes has in it those who die along the way, and those who have contracted typhus," Lieutenant Wright said. "The people try to avoid disease by keeping clean, but it is impossible to do so, under existing conditions. Even our nurses and doctors fall ill of typhus, a disease caused by filth and lice."

The Red Cross and the American Jewish Relief agencies are doing their utmost to keep both the Jews and the Gentiles in these stricken lands alive. Six million Jews in eastern Europe are in immediate danger of death from lack of food, clothing, and bedding from Canada and the United States reach them before the cold weather sets in.

An appeal for funds is to be made in Ontario and a generous response from this district is confidently expected.

MOBS OF CHILDREN CRAVING FOR BREAD

Gaze Into Bakeshop Windows for Hours at a Time, Hoping for Something to Eat.

"The saddest thing in all Eastern Europe at the present moment—worse than all the other instances of starvation and even of death and disease on every hand—are the child-mobs one sees outside of the few bakeries that are able to keep going in Warsaw," Sholom Asch, the famous Yiddish playwright and poet reported to the American Jewish Relief Committee upon his return from Eastern Europe, where he went as a commissioner of the Joint Distribution Committee of American Funds for Jewish Sufferers from the War.

"In the bakery windows are a few loaves of bread, and sometimes cakes, that are sold at a simply prohibitive price," he explained, "and even if these were as cheap as in Canada and the United States, their taste would still be unknown to the hungry Jewish children, who live on the cup of soup a day they get from American Jewish relief agencies. But the youngsters tantalize themselves with the sight of food, when they cannot get the taste of it."

"They press up to the window, and at first merely stare respectfully at the bread, an uncanny little crew of small folks with old faces and suffering unchildish eyes. Perhaps it is raining, or the wind is blowing coldly through the tatters that they wear, that little barefoot army, but they huddle together for warmth, and do not stir. The sight of the bread has fascinated them, it is so rarely seen."

"A customer comes out, leaving the door ajar for a moment, and the warm fragrance of the bake-shop drifts out to the little ragamuffins, maddening them. They press closer to the window, their little faces against the glass. Those in front put out their tongues and lick the glass, as if, by so doing, they could taste the bread behind it. No poet could ever write into words the wishfulness of their faces as they do it."

"One of the men from the bakery comes out and drives them away every few minutes, else they would break the glass. They are afraid of him, and for a few minutes they stand at a distance, their eyes still upon the bread. Then hunger overcomes their fear, and they press up to the bakery window again. Soon they are eagerly licking the glass once more. And this goes on all day every day in front of the bakery window."

More money is needed to help feed those children, and an appeal soon is to be made in Canada for that purpose.

The New York market was professional in character. Trading was dull and prices tended easy.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for woman's ailments I ever saw."

Mrs. SARA SEAW, R. No. 1, Portsmouth, Ohio. Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did. "Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service."

A SCENE FROM THE "OLD HOMESTEAD" AT THE GRAND OPERA HOUSE TONIGHT ONLY

MRS. WESLEY NELSON HAS PASSED AWAY

There passed away on Tuesday morning at the family residence, 67 Queenston street, Martha Alice, beloved wife of Wesley Nelson, at the age of 61 years. Deceased had been in poor health for a considerable time, having never survived the death of her two sons, Charles and Stanley Nelson, who were both killed in active service during the great war. A short time ago a stroke of paralysis developed and although every kindness was shown and the best medical care in attendance, she passed away. She was born in Gainsboro Township and came to this city about eighteen

years ago, where since her arrival she has made many warm friends. In religion she was a Methodist. Beside her sorrowing husband she is survived by three daughters and three sons, Mrs. William Patterson, St. John's, Ontario; Mrs. Andrew Hill, Grimsby; Mrs. Raymond Varcoe, St. Catharines; Palmer Nelson, Beauvilliers, Ontario; and Harry Nelson, St. Catharines. On sister, Mrs. Hary Harmen of St. Johns and one brother, Palmer Mingle, of St. Catharines, also survive. The funeral will be held on Thursday afternoon to Victoria Lawn Cemetery. There was more strength and activity on the Standard Mining Exchange than for some days.

FUNERAL YESTERDAY

The funeral of the late William Robert Brix took place on Tuesday afternoon from the family residence 1 Leeper street, and was quite largely attended. Rev. A. H. Priest of St. Thomas Church was the officiating clergyman and conducted the service at both house and graveside. Those who acted as bearers and conveyed the casket which was draped in the Union Jack were four comrades: Ptes E. Jeffrey, K. McDonald, W. J. Young and S. Shaw. Bugler Stanley Smith was present and sounded the last post at the graveside. C. Everett, his wife and twelve-year old son, all ill in bed, crawled out into snow when house caught fire.

ASSIZE CASES

In the Assizes before Mr. Justice Orde Mrs. Ada Hutton of Port Dalhousie was sentenced to two years less one day in the Mercer Reformatory on the charge of forgery, defamatory libel and of demanding property under false pretences. Her Counsel, Mr. Terence McCarron pleaded physical debility. The suit of Dr. Kister for \$5,000 damages against the N. S. and T. for injuries sustained in an accident at the Falls was given to the jury at noon. A verdict will be rendered this afternoon it is expected. Sterling opened in New York at \$3.45 1-2, but in later trading receded to \$3.43 1-8.

Clogged Nostrils Open Breathing Made Easy, Catarrh Cured!

NEW METHOD VERY SUCCESSFUL

It is a new method of treatment, that of medicated air and cannot fail to be beneficial. It goes wherever air can go, thus reaching all the affected parts. It purifies as by fire, simply burning up the disease germs. Catarrh is a non-poisonous and healing agent; it therefore acts upon the mucous tissues of the throat, nasal passages, and bronchial tubes, destroying all microbe life, and at the same time heals up all the inflamed parts. As a cure for Catarrh, Bronchitis, Asthma, La Grippe, as a strengthener for the throat, Catarrh is not to be equalled. It is a guaranteed cure, and is highly endorsed by prominent physicians who use Catarrh in their practice.

ICE JAM IN NIAGARA
STEADILY INCREASING
NIAGARA FALLS, Ont., March 3.—A spectacular ice jam is forming

between Lake Ontario and the Lewiston bridge. It has been forming since Sunday, when the north wind forced the ice back into the river onto the sand bar. The ice jam is steadily increasing, and may become as big as it did eleven years ago, when it reached a height of 50 feet, and endangered the hotel. The ice when forced back goes under the other, raising it even higher.

The Right Time to Invest is Now. The Right Place to Invest Your Money is in Great State Petroleum Co., Of Texas, Incorporated

Copy of the Statutory Prospectus

NOW PAYING 2% DIVIDEND MONTHLY

Of Great State Petroleum Company of Texas (Inc.) filed with the Provincial Secretary of Ontario, Canada, and dated 30th September, 1919.

The Company is incorporated under the laws of the State of Delaware, with an authorized capital of \$15,000,000, the par value of shares being \$10.00, all common stock. Its head office is at Room 205, 320 Fifth Avenue, New York City.

The original incorporators, each of whom subscribed for five shares for the purpose of incorporation, are: Isadore M. Katz, attorney, and Richard L. Cunningham, stenographer, both of No. 32 Liberty street; Walter E. Marshall, clerk, 111 Broadway; Martin A. Purnell, salesman, 43 W. 33rd street, all of New York City; Percival K. Frowert, President of Percival K. Frowert Company, Inc., New York City; Albert C. Rick, oil operator, Dallas, Texas; Martin A. Purnell, salesman, 43 W. 33rd street New York City. Further directors up to fifteen, the number fixed in the by-laws are to be appointed.

By contract dated Sept. 26, 1919, between them and the Company, Albert E. Shahan and Harry A. Hart, dealers in oil properties, Dallas, Texas, acting for themselves, and Albert C. Rick and W. F. Sims, oil land dealer, Hillsboro, Texas, sold to the Company ten groups of oil and gas leases in Texas, consisting of 11,277.33 acres, for \$643,300.00 par value of stock (64,333 shares); by another contract dated September 26, 1919, between the same parties and the Company, they have sold to it twenty four other oil and gas leases, covering in all 69,880 acres, all in Texas, except 200 acres in Oklahoma, and a 3-18ths interest in the production of other producing oil wells, at prices fixed for each property and totalling \$3,806,362.00. This property is to be paid for by the Company in stock of the Company at par value, the Company having the right to investigate titles and to refuse to complete purchase of any property, the price of which is not approved by appraisers, one of which is to be selected by the Company and one by the vendors, and they to select a third in the event of disagreement, and the Company having the right to take any one of the individual properties at the stipulated price in shares of the Company at par. The vendors agreeing to furnish an abstract of title to the respective pieces of property within ample time for the Company to have same examined in order that the Company may proceed with the appraisement heretofore referred to, all appraisements made are to be made to the Company in writing, without unnecessary delay.

Another contract dated September 26, 1919, has been made between the same parties, giving Hurt and Shahan an option on all of the stock of the company, except 300,000 shares, which is reserved by the company for the purpose of acquiring more oil leases or personal property, and except 64,333 shares and 380,333 shares above referred to, which has been set aside for exchange for properties on the terms therein set out, a copy of which is filed with this prospectus and which may be inspected at the office of the Provincial Secretary of Ontario, where also the other contracts may be inspected. Copies of all of the above contracts may also be inspected during any business day at the office of the Company. The law of Delaware, not calling for any minimum allotment, the contracts are now binding. Shares are not sold subject to call, but fully paid and non-assessable, and certificates will only be issued upon payment being made in full, but there is power to sell on 30 per cent. being paid in cash and the balance in thirty, sixty and ninety days, with interest at 6 per cent. per annum from date of contract, and subject to forfeiture for failure to pay any balance.

The by-laws provide that any shareholder is qualified to be a Director, and do not allow Directors to receive salary for being Directors, but the officials, President, Vice President, General Manager, Secretary and Treasurer, will be entitled to salaries as such.

The preliminary expenses are estimated at under \$5,000.00, the expenses of procuring the properties being borne by the vendors, and the Company paying no part of any expense of Hurt and Shahan in selling the stock optioned to them.

Dated 30th September, 1919.

ALBERT C. RICK,
PERCIVAL K. FROWERT,
MARTIN A. PURNELL,
WALTER H. MARSHALL,

Being all of the Directors of Great State Petroleum Company of Texas (Inc.)

This young Company is a consolidation of the independent oil companies of Texas and Oklahoma. The people affected by this consolidation have all received shares at par in payment of their holdings, and therefore only receive returns as dividends are paid.

We believe that investments in the THE GREAT STATE PETROLEUM COMPANY OF TEXAS, Inc., will be a source of pleasure to the investors, for the reason that the Company is to-day beyond a mere speculation, as it is a decided success. The shares of all well managed oil companies are considered the most profitable class of investment in the world to-day. Successful oil companies require three things, viz: Capable and successful business men to manage and direct its affairs. Experienced and successful oil men to manage and develop its properties. Properties in Proven Oil District. The Company already has the first three, and we are rapidly adding a fourth requirement, which is very essential to successful oil companies, and this is further capital.

The property owned by this Company is so advantageously located that it is our opinion that the Company will result into one of the leading oil companies of to-day. Considering the fact that the management is unexcelled, we know of no reason why the Company's success should not be extraordinarily rapid. The Company earns at the rate of \$800,000.00 per month, or a total of more than 50 per cent. on the entire capitalization, of which less than one-third is outstanding.

Around April of this year stock of this Company will be selling on the New York market for a great deal above par and we would not be surprised if it were selling for at least \$50.00 per share, as the dividends and earnings the company has and will have by then will justify such a value.

Since issuing the prospectus, the Company has increased the production from its oil lands to 10,000 barrels per day, and an added acreage which now makes the entire acreage leased or controlled by this company 95,000 acres. Additional assets added consist of a 5,000 barrel refinery, 200 tank cars and a 45 mile pipe line running from the Burk Burnett Field in Wichita County, Texas, to the refinery at Lawton, Okla., together with all pumping stations, loading racks, switching tracks, etc. The line alone is earning the Company \$2,500.00 per day.

Dividends at the rate of 2 per cent. monthly have been declared and paid. Next dividend March 1st.

We would suggest that you make the fullest investigation of this Company and the Board of Directors, and it will be our pleasure to give you any further particulars you may desire. We confidently assure you from the success that has attended this Company in the past, purchasers of this stock, in my opinion, will receive very large returns within the next twelve months.

SOILS AND COMPOSTS

Best Suited for Pot Plants, Hot
Beds, Seed Sowing, Etc.

Well-rotted, Tough, Fibrous Sod the
best Basis—How to Prepare It—
Substitute Potting Soil — Bone
Meal a Valuable Fertilizer.

(Contributed by Ontario Department of
Agriculture, Toronto.)

SECURING suitable soil or com-
post for all features of hor-
ticulture or horticulture is a
very important matter if the
best results are to be obtained.
The best basis for all ordinary pot-
ting soils is well-rotted, tough, fibrous
sod, taken from loamy or light
clay loam soils. Sod from an old
pasture field, or from the roadside,
from where the grass has been kept
fed or cut down constantly, will give
the closest growing sod, with lots of
fibrous roots attached. These fibrous
roots are one of the very necessary
essentials in potting soils to keep
the soil open and friable. The sod
should not be cut from heavy clay
soils, or where noxious weeds, espe-
cially "cock" or "witch"
grass, are growing. The sod should
not be cut from near pine or cedar
trees as the turpentine in the leaves
or pinnae of these trees is very de-
trimental to plant life. It is also
best to select the sod from a very
swamp soil. Well-rotted barnyard
manure such as from an old hot bed,
or cow manure, are both good ferti-
lizers to use for a soil compost. Horse
manure alone is not a good fertilizer
for a compost. About one-third horse
manure and the balance cow manure
will be suitable. Late in autumn or
early spring is the best time to pre-
pare the soil compost, autumn pre-
ferred.

How to Prepare.—The sod should
be cut about four inches thick, and
about eight to ten inches square. It
should be cut out of doors in the
out-of-the-way part of the garden or
grounds. A space six or eight feet
long by five or six feet wide would
be a good supply for a small green-
house, or for a few hot beds for a
year or two. Start by placing one
layer of sod packed close together
with the grass side downward over
the spot selected. Then add a sec-
ond and third layer on top of the
first layer. About four or five inches
in depth of either of the fertilizers
mentioned should now be spread
evenly over the sod. Another three
layers of sod should then be placed
on top of the fertilizer as before, and
so on until the pile is about four feet
high. About two inches in depth of
soil should be placed on top of the
pile to finish off with. Place some
wire netting or brushwood (not pine
or cedar) over the top of the pile to
keep out chickens or animals. Keep
the pile quite level while building,
and draw it in slightly narrower to-
ward the top. It should be flat on
the top when finished. It may be
necessary to give the pile one or two
good soakings with water after it is
finished, or during dry weather in
summer, to hasten decomposition. In
about eight months it should be ready
for use and will keep in good condi-
tion for about two years.

Preparing for Use.—When ready
for use, turn the pile down, with the
sharp top, the quantity required from
top to bottom of the pile so as
to secure the proper proportions of
soil and fertilizer. For potting pur-
poses this should be done through a
coarse sieve having a 3/4-inch mesh.
All the decayed fibrous part and the
fertilizer should be worked through
the sieve. The partly decayed fibrous
part that has not passed through the
sieve readily should be chopped or
pulled finely to pieces and put
into the soil, if at all decom-
posed.

Tempering or Mixing Soils.—If the
soil is of a heavy clay loamy nature
about one part sand should be mixed
at the time of using, with eight or
nine parts of the soil compost for re-
potting purposes, for plants such as
geraniums, roses, chrysanthemums
and similar plants. If the soil the
sod is taken from is of a light
loamy nature, very little sand, if
any, will be required.
For Begonias, Coleus, Callas
(Arum Lilies), Gloxinia, Salvia,
Ferns and similar plants one part
of leaf soil (rotted leaves) or black soil
from the bush (decayed leaves), may
be added to the compost and sand
before mentioned. Black leaf soil
from the bush alone does not make
a good potting soil for most very
plants, it should be mixed with other
soil as stated.

Substitute Potting Soil.—A good
substitute potting soil or compost may
be made by mixing about seven or
eight parts of good, light, loamy gar-
den soil, or loamy sub-soil taken
from underneath soil, with one part
sand and one part leaf soil as before
mentioned, mixed well together. One
part of dry cow manure, which can
be secured from the fields where
cows have pastured, or one part of
pulverized sheep manure should be
added as a fertilizer for this substi-
tute potting soil. The pulverized
prepared sheep manure can be pur-
chased at almost all large seed stores
at the rate of about \$2 per 100
pounds. Or about one pound of fine
bone meal or bone flour to each
bushel of soil may be used as a sub-
stitute fertilizer to those named.
Sheep and cow manure are two of the
best fertilizers to use in connection
with all horticultural work, whether
incorporated in potting composts as
stated, or used out of doors as liquid
fertilizer for flower borders or the
vegetable garden during summer, if
the ground is not rich enough in fer-
tilizers. Seepage from a barnyard
diluted one-half with water makes a
good liquid fertilizer for outdoor use
where the soil is poor.—Wm. Hunt,
O. A. College, Guelph.

A New Blood-Food Has Been Discovered That Works Wonders

For years doctors have been search-
ing for a combination that would
enable them to inject into thin blood
the elements it lacked. This can
now be done, and any weak-blooded
person can quickly be made stronger
and well.

Already a small army of ailing
people have proved the merit of tak-
ing after each meal with a sip or
two of water two chocolate-coated
Ferrozone tablets. This is easily
done, and even one week's use of
this wonderful blood-food will prove
how nourishing and strengthening
and flesh building the treatment is.

Just think of it—Ferrozone up-
lifts the entire nervous system, re-
moves the blood, makes it rich and
red—gives the sort of aid that's
needed in throwing off weakness and
languor.

Tens of thousands enjoy the ad-
vantages of renewed health through
Ferrozone; if you'll only use it, you
will surely grow strong, too; its ben-
eficial action is noticed even in a
week. You see it goes right to
work, removes the causes of the
trouble and then quickly makes a
cure.

For those who sleep poorly and
have nervous apprehensions, Ferro-
zone cases.

Where there is paucity, poor ap-
petite and languor, Ferrozone makes
the patient feel like new in a few
days.

In tired, nervous exhaustion,
spring fever and debility, the power
of Ferrozone is known from coast
to coast and universally used with
great results.

Let Ferrozone build you up, let it
win you back to robust health—it
will do so quickly if you give it the
chance. Sold by all dealers. 50 cents
per box or six boxes for \$2.50. Re-
member the name Ferrozone.

It was unofficially announced on
Saturday that the Newcastle United
soccer team will accept the invitation
of the D.F.A. to tour Canada this
coming summer.

EMPLOYMENT SERVICE OF CANADA

EMPLOYERS
THE
EMPLOYMENT SERVICE
OF CANADA

The PROFESSIONAL and BUSINESS SECTION
has been established to assist professional, business and
technical men and women.

Many officers, soldiers, sailors and war workers, who
sacrificed their positions during the war, now desire to
secure employment in the occupations for which they have
been specially trained.

Employers should not wait until increasing business
forces them to employ anybody they can obtain, but should
look ahead and avail themselves of this unusual opportunity
to enlist the services of highly trained workers, ordinarily
secured only with difficulty. On application there can be
referred to you, for example—

ENGINEERS **LAW CLERKS**
ARCHITECTS **COMMERCIAL ARTISTS**
BUSINESS EXECUTIVES **SALES MANAGERS**
ACCOUNTANTS **TRAVELLING SALESMEN**
SECRETARIES **CHEMISTS**
TEACHERS **YOUNG COLLEGE GRADUATES**

These workers are returning to civil occupations with
increased initiative, a broader view of life, and a greater
capacity for work.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating disease is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well,
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders, I give every pat-
ient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AM-
ERICAN DISEASE—IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY—AMERI-
CANS EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.
There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
tire so easily and why they are irritable, nervous, despondent,
weak, pale and lack ambition. These conditions require the ex-
pert knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time so
that the patient can be dismissed at the earliest possible time. Man
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.

RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBA-
GO, PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY
OTHER SYMPTOMS.
Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold agonies
thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing
any relief, and they are now going through life thinking they
are martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suffer-
ers of rheumatism would be strong and healthy if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a condi-
tion he feels that a heavy burden has been lifted from his life, and
he starts right out to make up for lost time both in money and
pleasure. When a man comes to my office suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD—YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any
"building process" of the body and mind, of the muscle and tissue formations, of any of the various vital
organs, can be accomplished only by working direct through the blood stream.

Two-Party Line Telephone Service

NECESSARY curtailment of new construction during the war, followed by the unprecedented development since the armistice, have resulted in a universal shortage of telephone material.

In order to utilize our supply of equipment to the best advantage, to reduce delay in installations to a minimum and to avoid refusing service to anyone, we ask those intending to order telephones to consider the advantages of Two-Party Line Service

With the central energy system in use here the operator can ring either of the telephones on a two-party line without disturbing the other. The cost to the user is substantially lower than for individual line service.

The rate for two-party line service is, for Business telephones \$30.80 and for Residence, \$22.00 per annum.

We will be glad to furnish full information to anyone interested.

WESTERNERS LEAVE TO PREPARE REPLY

BUFFALO, March 3.—Western delegations favoring the project of a ship canal through the St. Lawrence route to the ocean, returned home yesterday to prepare answers to arguments advanced by eastern interests which claim that the route would be of doubtful value for shipping, and costly far beyond any return that it would bring to Canada, or the United States. Neither grain nor iron ore which form the bulk of Great Lakes tonnage, could be carried profitably to tidewater. Opposition speakers declared. It was also maintained that the millions of dollars required for the new waterway would be only the initial outlay. Shallow harbors and levee channels would offer the next expensive problem, it was claimed.

CONFERENCE ADJOURNED

Sittings Will Be Held in Toronto and Other Cities.

BUFFALO, N.Y., March 3.—After a round table conference of delegates and commissioners, the International Joint Commission adjourned yesterday afternoon. No further meetings will be held till after the regular meeting of the commission at Washington on April 5th. Both the American and Canadian delegates have fixed a list of cities for sittings with the commission which will decide Canadian cities fixed by Major A. C. Lewis are: Montreal, Kingston, Toronto, Hamilton, London, Brantford, Windsor, North Bay, Sault Ste Marie, Port Arthur, Winnipeg and Calgary. "It is very likely that the meetings will alternate back and forward across the border," said Major Lewis. "The chances are that they will be in the West and proceed east. The whole sentiment of the congress set in heavily yesterday against Buffalo and New York State in favor of the great ship canal and a sea route from the Great Lakes.

LINER LOSES SIX OF CREW

Coasting Steamer Reaches Halifax With Survivors.

HALIFAX, March 3.—Six men, all natives of Liverpool, England, were lost when the Leyland liner Bohemian was abandoned off Halifax early yesterday morning. This was definitely established when the coasting steamer Scotsburn arrived at three o'clock yesterday afternoon with the remainder of the rescued crew.

MAKE PROTEST TO OTTAWA

Toronto Delegation Objects to Military Hospital on College Site.

OTTAWA, March 3.—A delegation from Toronto waited on Sir George Foster and members of the Government yesterday to protest against the proposed military barracks on the site of St. Andrew's College. The delegation represented residents in the neighborhood of the college. Consideration was promised by the Government.

LIFT OFF CORNS!

Doesn't hurt a bit! Sore corns lift right off with fingers.

Magic!

Costs few cents! Drop a little Freezone on that touchy corn, instantly that corn stops hurting, then you lift it right off with the fingers.

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness or irritation. Freezone is the much talked of discovery of the Cincinnati genius.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. The boxes of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotaldehyde Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Increases Your Weight, Restores Lost Strength And Prevents Illness

Every day come new converts to that great army of men and women who rejoice in new found health that came to them through the use of that wonderful blood renewing preparation called "FERROZONE." Very simple how it acts. All you have to do is take two small chocolate coated tablets with a sip of water at the close of each meal.

Ferrozone is a marvel. It contains just what thin blood lacks—lots of iron, but mark you, the kind of iron your blood is able to absorb. Ferrozone puts life and vim into the blood. Makes it rich, red and nourishing. Naturally the body is better fed and grows stronger day by day.

Of course digestion must be improved, and probably the stomach will require aid as well. Ferrozone serves the purpose admirably. Those who use it, enjoy appetite and digestive powers far beyond the ordinary.

That tired feeling is replaced by the buoyant, joyous sensation of health and vigor. Day by day as your strength increases, you feel new energy surging through your veins, and know that a great tonic of great merit is at work.

No remedy more nourishing or uplifting, no treatment so sure to bring lasting health, good spirits and contentment. Ferrozone contains just what trun down folks need; it cures because it supplies more nutriment than you can get in any other way. 50c per box or six for \$2.50 at all dealers, or by mail from The Catharzone Co., Kingston, Ont.

Allies Oppose French Toward

Director of Martin Points Out and America—Scores Stance of Keeping Status

PARIS, March 4.—Stephane Lauzanne, Editor of The Matin, in a despatch from London, warns France of the unfavorable results in America as well as in other friendly countries, of French insistence upon maintaining the Turkish Government, in Constantinople. He writes: "Slowly but surely the cloud grows over America. All despatches, official and private, received today from the United States are unanimous. American public opinion is indignant at the solution of Constantinople's problem. The American public cannot understand this tenacious affection of Europe, and above all, of France, for the rotten regime called the Turkish Government. American public opinion without party distinction demands that the Bosphorus be freed of the hand of puppets and slaves which up to the present, has dragged over the Turkish people.

To Reckon With America.
"However, President Wilson, who each day recovers his health, also covers his political dexterity, which as his principal, if not his only virtue. He knows that the Treaty of Versailles is unpopular and that the Senate will not ratify it. He seeks an occasion to put it back in his pocket. He tried to find this pretext the other day in the Adriatic affair, but what a windfall for him if the Allies give him a good motive, both
