CALGARY, TUESDAY, SEPTEMBER 17, 1912

ELEVENTH YEAR—No. 170

MARKETABLE GRAIN IS FAR IN EXCESS OF LAST YEAR

Large Volume of Money Will Pour Into Pockets of Western Canadian Farmers

Outlook for All Lines of Business Throughout Alberta Exceedingly Bright

Earlier Estimates on Yield Fully Sustained by General Crop Reports

ONE of the largest money crops of grain ever harvested in the Dominion of Canada will soon be garnered and safely housed, according to reports received from a number of grain growing centres.

Full statistics on the total local yield and the percentage of first grade grain have as yet not been compiled, but investigations conducted by those who will move the crop and market it, serve to show that the optimistic forecast of a few weeks ago has been realized.

Mr. E. M. Saunders, manager of the local branch of the Canadian Bank of Commerce, who keeps posted on crop conditions and can speak authoritatively, said yesterday that his estimates of a month ago had been realized and that the crop, from a monetary standpoint, would be one of the greatest ever harvested.

More Export Wheat. "This statement is based upon the fact that there is more export wheat this year than for a number of years," said Mr. Saunders. "While the total yield will not surpass that of last year, the export will be greater."

Other Good Reports. Mr. E. P. Strong, president of the Calgary Grain Exchange, returned yesterday from a trip to Medicine Hat, and has flattering reports on the crop in that vicinity. "Everything is ideal," said Mr. Strong, "and there will be more wheat marketed this year than there was last year, and the high grade of the crop brings it up to a splendid money crop. I have not received full statistics on the yield, but as near as I can estimate the total yield as given out at Ottawa as 206,029,300 bushels, fully 85,000,000 will come from Alberta, Saskatchewan and Manitoba, the Alberta crop being in excess of that of last year, in point of marketable grain."

Taking the grain crop as a basis financiers see the most prosperous year in a decade for the West, with an abundance of money coming in that will trickle through all channels of trade.

PROGRESSIVE LEAGUE TO MEET TONIGHT

President Tregillus of the Progressive League, desires it understood that the public meeting of the league will be held at 8:30 o'clock tonight, instead of 8 o'clock.

The announcement that the meeting will be held at 8 o'clock this afternoon is an error. The hour for assembling is deferred half an hour so that the meeting will not interfere with the dinner which is being tendered Mr. Vivian

A NEW COMMERCIAL ORGANIZATION TALKED OF

Financiers and Business Men May Incorporate and Maintain Exhibit

Data on Opportunities for Manufacturing Would be Gathered and Disseminated

Plans as Yet Embryonic, But Working to Something of Tangible Shape

That Calgary in the near future will have a new commercial organization, fully incorporated and having for its object the recruiting of additional capital for investment in the city and environs was the rumor that was floating along Eighth avenue yesterday. Just what form the organization will take on one could not say, but sufficient was learned to forecast that it called for something in the form of a commercial club which would employ experts to guide its destinies and take up the greater work necessary to secure large manufacturing and industries for the city.

While a number of financiers and business men have had the matter under consideration no one has any tangible plan in view. It is claimed that there will soon be a meeting of business men at which the foundation of the organization will be laid and also plans for inaugurating a campaign looking to the accomplishment of the purpose in view.

Among the material to be gathered and tabulated will be the opportunities for manufacturing concerns, showing the field from which they may draw business, cost of building, labor, taxes, and volume of business guaranteed under normal conditions.

ALLEGED DEAD MAN SOUGHT TO HAVE MRS. SNEAD ELOPE WITH HIM SECOND TIME

Amarrillo, Texas, Sept. 16.—John Beal Snead, who shot and killed a man on the street here Saturday, broke his silence late today in the Potter county jail. His statement was made just as the funeral of young Boyce was being held. Snead, between cigarettes calmly declared, "There is no use in discussing the shooting itself. The public knows all regarding that. When my trial for killing Boyce is held, I am positive that the acquittal of the jury and the public. It will win my sympathy. If I am who have suffered most. My act was justified."

SOME CHANGES MADE IN S. ALBERTA BANKS

Resignation of City Engineer Child Will Be Accepted to Go Into Effect

Vacancy Created by Resignation of Dr. A. S. Estey, Medical Health Officer, Begins One Month Hence; Assistant Sanitary Inspector J. J. Dunn is Elevated

Matter of Superintendent Iwerson's Goes Over Pending the Passage of Reorganization Bylaw for Parks Board; Time Also Asked in Which to Produce Evidence

RESIGNATION of City Engineer James T. Child referred back to city commissioners with instructions to fix the date of that official's retirement as January 1, next, and to advertise for a new engineer.

Resignation of Dr. A. S. Estey, medical health officer, accepted, to take effect a month from date, and commissioners instructed to advertise for new officer.

Resignation of Sanitary Inspector Fox accepted, to take effect immediately with month's salary in lieu of thirty days' notice. Assistant Inspector J. J. Dunn appointed to take Mr. Fox's place.

No Action on Iwerson. The foregoing epitomizes the action taken by the city council last night on the various resignations of city officials submitted to the aldermanic body. "No action was taken on the report of the parks board demanding that the council show cause why Parks Superintendent Iwerson should be dismissed. A new bylaw providing for the reorganization of the parks board probably will be introduced at the next meeting of the council. Inasmuch as members of the council opposed to Iwerson also have asked for time to produce the evidence against the superintendent, it was thought best to let the matter lie over until the reorganization bylaw comes up.

There was no discussion over any of the resignations except that of City Engineer Child. When the report of the city commissioners was received presenting the city engineer's resignation, but recommending that his services be retained, at least until the season's work was finished, Alderman Morfitt objected on the score that it was indefinite.

"I think the commissioners should fix some definite date for the release of Mr. Child," he said, "both in fairness to the city and the city engineer himself. Inasmuch as the resignation has been accepted, the commissioners should also take steps to advertise for a new engineer."

Alderman Morfitt then moved that the matter be referred back to the commissioners with instructions to fix the date of the engineer's retirement as January 1, next, and to advertise for a new engineer.

MUST WRAP BREAD, SAY ALDERMEN TO BAKERS

Alderman Hester's New Wrapping Bylaw Passes Council, Despite Objections

Decline to Accept Excuse That Delay Was Required to Install Machinery

Bridge Tenders Are Laid Over to Allow Commissioners to Sift-Mass of Figures

FOLLOWING a short debate, the city council last night passed Alderman Hester's new revised bread wrapping bylaw, prepared in accordance with recent decisions in the courts. Under the new bylaw, all bakers hereafter will be required to wrap their loaves separately.

Some objections were urged on the score that the bylaw should not be enacted until the bakers were given an opportunity to install bread wrapping machines. Alderman Hester pointed out that plenty of opportunity already had been accorded the bakers to secure such machines if they chose.

The legislative committee has letters from manufacturers showing that they were prepared to furnish these machines last April. Isn't that true, Mr. Brocklebank?" inquired Alderman Hester of Alderman Brocklebank, a member of the committee.

"That's true," responded Ald. Brocklebank.

Alderman Minchin objected on the score that the previous bylaw had been knocked out in the police court. He thought the city would be fonder to go beyond his powers.

City Has the Power. "The city is empowered by its charter," said Solicitor Moffatt, "to pass laws to preserve the health of the city and prevent the spread of contagious diseases. There is no question but what this law is planned to preserve the health of the city and to prevent the spread of contagious diseases. The only question in the mind of the judges would be whether or not the law is prepared, as reasonable."

VIVIAN BANQUET

The town planning commission will give a banquet this evening in honor of Henry Vivian, M. P.

T. R. MUST TELL ABOUT RELATIONS WITH BIG TRUSTS

Must Produce Correspondence Between Himself, Archbold and Perkins

Hearst Expected to Produce Certain Letters From Archbold

Washington, Sept. 16.—John D. Archbold, George W. Perkins and Col. Roosevelt are to be asked by the senate investigating committee to produce any correspondence showing that they were prepared to furnish these machines last April. Isn't that true, Mr. Brocklebank?" inquired Alderman Hester of Alderman Brocklebank, a member of the committee.

Investigation of this phase of the campaign contribution question was authorized by Senator Patterson's resolution just before congress adjourned. Chairman Clapp, of the investigation committee after a conference today with Senator Patterson of Ohio, stated that the committee would open this line of inquiry by asking for the production of letters when the names of witnesses named are on the stand.

William R. Hearst is expected by Chairman Clapp to produce copies of Archbold, George W. Perkins and Col. Roosevelt to members of congress by Mr. Archbold. The members of the house and senate who may be called upon to submit their private letters to the committee are: Hearst, who is named until after the investigation begins on September 30.

G. T. P. HAS NOT PURCHASED YUKON RAILWAY

Vancouver, B. C., Sept. 16.—W. B. Clegg, a Chicago banker today denied that the Grand Trunk Pacific railway had purchased the White Pass & Yukon railway of which he is a director. He said that next year the White Pass company would erect a chain of hotels along the Yukon river to Fairbank, the centre of the Alaskan mining region.

BOXING BYLAW GETS ITS DEATH BLOW FROM COUNCIL

By Vote of Seven to Four Substitute for the Anti-Boxing Measure is Turned Down

Rev. Sanford E. Marshall Characterizes Contests as "Commercialized Sport"

Alderman Minchin Defends His Course in Introducing Draft of Instruction

BY a vote of seven to four the city council last night killed the bylaw designed to permit boxing contests within the city limits.

"We have heard a good deal about clean boxing recently. Now gentlemen, speaking frankly, as we understand this recent contest held on the outskirts of our city, and a similar one at Bassano, we all know that it is simply prize fighting masquerading under the term of boxing."

In the foregoing words, Rev. Sanford E. Marshall scored what he termed "commercializing of sport" before the city council. The proposed boxing bylaw was before the alderman for consideration and they made short work of it when the vote was had. The vote was as follows:

For the boxing bylaw—Brocklebank, Minchin, Ramsay, Brown. Against the boxing bylaw—Whately, McDougall, Elvey, Morfitt, Samis, Caracallan, Hester.

Provided for Commission. The proposed boxing bylaw was originally offered by Alderman Minchin as a substitute for the anti-boxing bylaw, which absolutely prohibits any kind of boxing within the city limits. The proposed new bylaw would have put boxing under the regulation of a commission of three. It was evident last week that the boxing bylaw had no chance of enactment and it was intended not to bring the matter up at all.

ACT IS JUSTIFIABLE, SAYS SENATOR OF AL BOYCE

John Beal Snead Breaks Silence and Discusses Killing of Old Enemy

Alleged Dead Man Sought to Have Mrs. Snead Elope With Him Second Time

Amarrillo, Texas, Sept. 16.—John Beal Snead, who shot and killed a man on the street here Saturday, broke his silence late today in the Potter county jail. His statement was made just as the funeral of young Boyce was being held. Snead, between cigarettes calmly declared, "There is no use in discussing the shooting itself. The public knows all regarding that. When my trial for killing Boyce is held, I am positive that the acquittal of the jury and the public. It will win my sympathy. If I am who have suffered most. My act was justified."

Prominent Men From United States and Eastern Canada Arrive From North

Entertain at Luncheon by Mr. I. W. Kerr After Automobile Tour

Coming from Edmonton, where they are heavily interested both in real estate and commercial enterprises, a party of capitalists arrived in Calgary yesterday and were taken over the city by automobile and afterwards entertained at luncheon by Mr. I. K. Kerr.

Stopped Train to Take Photographs of the Great Divide

Glacier, B. C. Sept. 16.—The first stop made by the government general train after leaving Lagan this morning was at the Great Divide, where Princess Patricia took a photograph of the stream which divides itself and starts on its journey to two oceans.

WHAT THE GREAT WEST DID YESTERDAY

In Regina: Extensions to municipal street railway next year will cost over \$150,000. The paving program totals \$170,000. The contract has been let for an \$85,000 extension to the collegiate.

In Saskatoon: The western superintendent of the Bank of Montreal, after a tour of the prairie provinces, states the crop is in a safe condition, and the bank is ready to assist to finance the farmers.

In Brandon: Improvements on the fair grounds in preparation for the Dominion exhibition next summer include the purchase of 25 additional acres, a new race-track, new brick, steel and concrete grand stand, to seat five thousand, three new buildings, to cost \$150,000.

In Winnipeg: Manitoba will make a large display of vegetables at the Dry Farming Congress at Leaside next month. Tenders have been called for a bridge across the Red River.

The Canadian Pacific is building over the Kamistogua river, the largest Bascule type bridge ever constructed. A by-law has been passed for the extension of the electrical system to cost \$750,000.

Local capitalists organize a company to build a \$100,000 passenger brick train. The work has already commenced. fair-w. over.

Chief Cuddy is After the New-Works and Ne'er Do Wells of Calgary

THE CALGARY police have declared war on the out-of-work and the men in the city living without visible means of support. Several arrests were made yesterday of men living in this way.

Chief Cuddy has his men out with a net to arrest all persons who cannot account for the way they obtain their living. The pool-rooms are closely watched for men who play the cards.

SMALL BOY WAS KILLED

BRIDGEMAN, Alta. Sept. 16.—Eight-year-old Robert Venech was accidentally shot and killed by his elder brother George here on Saturday night while the latter was endeavoring to take the wagon away from him.

THE DAILY QUESTIONS FOR CONSTABLE TOTAL 4,000

Daily Catechism of Gate Tenders at C. P. R. Depot Offers Severe Test

Travelling Public Take Guardians of Walking Encyclopaedias of Information

Military Training Great Aid to Men Who Care for Steady Stream of Humanity

How would you like to stand in one spot eight solid hours and answer a total of 4,000 questions which bores your temper, unravels the tangled skein of misfortune of possibly 100 foreign-conquered travellers including a fair share of Chinamen?

That is what Provincial Constable W. Burdick did at the C.P.R. depot during one day of Stampede week, and P. C. James Morley was here, the late shift, better, both coming through it unscathed and unharmed in temper.

Multiple Duties. Not only must the constable be alert to maintaining order at the depot, but they are each and everyone of them a walking encyclopaedia of information.

When a motherly old lady, dragging a brood of youngsters behind her, starts through the gate, "Watch my madam!" calls the man in blue.

"Northbound." "Track No. 30 and so," says the guardian of safety.

"When does No. 1 depart?" he asks. "Fifteen minutes late," says the constable, "departing at 10 o'clock."

"What time is it?" persists the inquirer. "The average man would say, 'Take a look at the bulletin board and figure it out for yourself,' but the constable is patient and answers the question.

More trouble. Some trains are more than minutes late, and the depot is filled with travellers anxious to get on the move.

Sometimes an excited Chinaman rushes up to the gatetender, and with an assault upon the English language that should land him in the lunatic asylum, he asks the constable his trouble.

Fashionable Trimmings. The quick turnover of these goods keeps our stock always fresh and new, the values cause the quick turnover, galons, bandings, guimpes, garnitures, etc., for day or evening at prices to suit every customer.

Floral Trimming Chiffon Rosebud, in maize, pink, sky, mauve. Special price 75c.

Narrow gimp, in all the best colors, about 3-4 inches wide. Per yard 1.00

Fine quality Soutach Gimp, very bright, beautiful shades, about 1 1/2 inches wide. Yard 1.50

Pretty Novelty Trimming, Soutach, on set ground; in colors to blend with any fashionable dress fabric, 2 inches wide. Yard 25c

Charming Soutache Mixed Tinsel, very stylish shade, 2 7/8 inches wide. Yard 35c

Special value Silk Tassels, in every fashionable color. Yard 17 1/2c

Silk Frogs, in colors to match dress fabrics or furs. Each 35c

Fashionable Buttons of every description, novelty glass buttons for waists, glass buttons with gold rings in various sizes.

Large coat buttons, in patterns which have only recently been designed, crocheted buttons, velvet buttons, silk buttons, pearl buttons.

Label of Tongs. Or maybe it is an Italian, a Swede, German, Hungarian, or any one of a number of foreign tongues the constable has to deal with.

It is the feminine traveler that tests the patience of the constable. It is the natural incentive of the ladies to talk, and when there is a big line waiting constable standing there resplendent in brass buttons and dignified carriage, he is lucky if he can get one but a woman knows the hundreds of "little handicaps" that may be brought into the station.

Recently Constable Burdick was approached by a crowd of women who asked, "Over there in that mail box," said the constable, pointing. "Indeed, no," said she. "That is a fire alarm box, because it is painted red."

Sometimes some of the brood is lost, and the inquisitiveness leading them out of the depot. Although they are not branded, the constable can round up a bunch of strays anywhere along Ninth avenue and herd them again into the waiting room.

The number of questions range all the way from railway information to crop prognostications and possible political changes, but the man has not been found who has been able to rattle the quiet serenity of the six men who personally stand guard at the gates.

During Stampede week, Constables Burdick and Morley kept on questions asked during eight hours. Constable Burdick totaled 4,001 and Constable Morley 409.

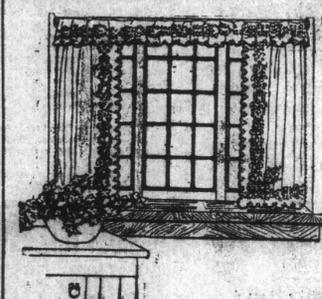

These questions embraced a range of subjects all the way from the site of the wheat crop to why Andrew Carnegie espoused the cause of prohibition and banished the "pale" from the vicinity of Sicbo castle.

"Pryjo" Electric Iron

Do your ironing with an electric iron, and do away with all drudgery and discomfort.

Can be used with any ordinary electric light socket, heats up in five minutes, and remains hot as long as you need it.

Pryjo irons guaranteed for two years, special \$4.50.

CURTAIN SCRIMS 30c and 35c Values 25c CURTAIN NETS 40c and 45c for 25c

One attraction fairly treads on the heels of another at this store, so fast do they follow. This time it's the season's best effects in Curtain Nets and Curtain Scrims, priced as you seldom see them priced, and providing a buying opportunity that no frugal housewife can afford to miss.

We had to buy a tremendous quantity to be able to sell at this low price, but we knew that we could distribute the goods quickly, especially now when people are making their homes cosy for the long winter.

Our Large Window Display will give you a better idea of the fine qualities, the beauties of colorings and designs, than any amount of printer's ink, so we hope you'll make a point of seeing them, and bear in mind that these beautiful fabrics, regularly priced at 30c, 35c, 40c and 45c yard will go on sale Tuesday at, yard 25c

Store Opens 8.45 a.m. Closes 6 p.m. Saturdays 9.30 p.m.

PRYCE JONES (CANADA) LIMITED

GROCERY PHONE 1492 PHONE EXCHANGE 1191 STORE CLOSURES EVERY WEDNESDAY AT 1 P.M.

Trusty Travelling Goods

The trusty trunks to travel are here, all sizes and for every purpose. Each has some special merit in the way of convenience, but all are built strongly, canvas covered, iron bound, hardwood slats, double bottom, brass locks.

Suit cases and bags in equally dependable qualities, and in great variety. Shop around and compare our goods and prices.

Brass Wares Half Price

To make the home surroundings attractive is the laudable aim of every housewife; and nothing is more conducive to a harmonious and restful effect than these decorative brass and copper wares—direct from the bazaars of Lahore and Thayermy they've come—and their artistic beauty of design is eloquent testimony to the marvelous skill of oriental craftsmen.

Jardiniere, Pedestals, Fern Pots, Umbrella Stands, Tea Kettles, &c., all on sale Tuesday at half ordinary prices.

September Sale China & Glassware Offer Stirring Economies

The magnitude of this great event is being fully appreciated by hundreds of women. The economies it presents are accepted with enthusiasm. If there is a possible criticism to be made of this great stock, it would come from the bewildered shopper who finds too great a variety here to be able to decide on which is most desirable among so much that is attractive.

Dinnerware, Toilet Sets, Tea Sets and thousands of odd pieces in China and Glassware all on sale at prices that represent much less than half and in many instances only a quarter of actual values. Special tables at 5c, 10c, 15c, 25c, 50c, 75c and \$1.00. Replenished daily.

"Pryjo" Ranges \$33.00

6 9-inch holes, heavy lined fire box, duplex grate, side feed, 2 draft regulators, 18-inch asbestos lined oven, 2 nickle plated tea pot stands, high warming closet, beautiful nickel plated finish, complete with either reservoir or water front, special \$33.00

25 per cent. off Shamrock Linens

Of all the linens for which the looms of Ireland are famous—John S. Brown's Shamrock brand are the most renowned, they're positively unequalled for beauty of design, fineness of texture, and hard wearing qualities, and it is every good housewife's pride or desire to have a goodly stock of them.

New Idea Patterns 10 Cents

Fancy Drapery Departments

Fashionable Trimmings. The quick turnover of these goods keeps our stock always fresh and new, the values cause the quick turnover, galons, bandings, guimpes, garnitures, etc., for day or evening at prices to suit every customer.

Ladies' Tan Russia Calf Boots, buttoned or blucher cut, the best values obtainable. "Pryjo" special . . . \$3.50 and \$4.00

WORKED THE GOLD BRICK SWINDLE

RAILWAYS ARE READY FOR THE FALL RUSH

Commission Reports 20,000 Additional Cars and 400 New Locomotives

Complaints of Need Were Well Founded; Equipment is Much Improved

Toronto, Sept. 15.—That the Canadian Manufacturers' Association and others were warranted in complaining of the congested "road" and less than carload traffic on the Canadian railways is the conclusion arrived at by the Dominion Railway Commission.

"The matter of providing increased facilities has been taken up by the board in such a way that the companies have been forced to take prompt action. The result is that the manufacturers of equipment, etc., have been flooded with orders, and the railways appear to be somewhat relieved.

"But the railway companies alone are responsible for the condition complained of, as they could and should have steadily increased their facilities to provide for increasing traffic.

"When the matter was taken up with the companies, they passed large appropriations for improvements and new equipment. Since then the companies have done all in their power to increase their facilities as rapidly as possible.

"This fall the companies will have 20,000 more cars than they had last year, and 400 more locomotives, with increased terminal facilities and new houses. Besides the heavy coat for new equipment, the railways will have spent at the close of the season, \$4,000,000 on terminal improvements and enlargements.

"In short, the railways have done much to remedy the situation of last winter and spring, but it has taken millions to do it.

WOULD CONVERT SWAMP LAND INTO FERTILE SOIL

Ontario Government Will Experiment on Asylum Farms at Orillia and Brockville

Guelph Prison Farm is to be Made Into a Great Dairying Centre

Toronto, Sept. 14.—Plans for the drainage systems that will convert the fertile soil upwards of one hundred acres of swamp land that has been punning to waste for generations have been prepared for the provincial asylum farms at Brockville, Orillia and Whitchy.

The installation of such great soil-improving systems marks another step in the ambitious plan of Hon. W. J. Evans in working out for the betterment of the province under the direction of Professor Todd, the provincial farm director, the creation of a great farm around each institution, worked by the inmates and producing, such along different lines, sufficient food products to make the institutions of the province self-supporting.

The most recent addition to the list of asylum farms is at Brockville. Three hundred acres lying to the north of the old property have been secured, and preliminary drainage work is now being carried on. A large part of the land added to the asylum is of a swampy character, and its use has been made of it. One section of fifty acres has been kept by the over-throwing of a winding creek every spring, and the farm director is proceeding with a plan to divert the creek through an old C. P. R. cut and bring the land under cultivation.

A number of Brockville inmates are now at work in the cut deepening it in places. At another point it has been found that cutting for twenty-five feet through a four-foot knoll will drain six or seven acres of swamp land that has never been cultivated.

Some of them are of soft, fleecy Scotch knit wool, with a nap as thick as a blanket; others are of the harder finished yarns, in various plain and fancy stitches—and though they are designed for such utilitarian service, there's a style and smartness about them that makes every woman covet one.

EUCHARISTIC CONGRESS MARRED BY DOWNPOUR OF RAIN

Vienna, Sept. 15.—The brilliancy of the great processions concluding the twenty-third Eucharistic congress today was greatly marred by a continuous downpour of rain and a chilly temperature. From seven o'clock in the morning until 1 o'clock in the afternoon, when the evener followed the papal legate, Cardinal Van Rossum with the host through the Burgos street, thousands of people were unable to attend the celebration of mass in the open air on the top of Burgos.

GOVERNMENT AND GRAND TRUNK NEGOTIATE

Ottawa, Sept. 15.—The negotiations between the government and the officials of the G. T. P. in regard to the government's proposal that the company should take over the Transcontinental Superior Junction section of the National Transcontinental Railway have been concluded for the time being and so far as can be learned matters remain as they are for the present.

It is understood, however, that satisfactory progress in the direction of an agreement was made and that it is likely to be concluded at a future date, in all probability before the heavy crop movement begins.

Hon. Frank Cochrane, minister of railways, is going out of town for a few days, and it is officially stated that nothing more will be done until he returns to the capital.

At another point it has been found that cutting for twenty-five feet through a four-foot knoll will drain six or seven acres of swamp land that has never been cultivated.

Some of them are of soft, fleecy Scotch knit wool, with a nap as thick as a blanket; others are of the harder finished yarns, in various plain and fancy stitches—and though they are designed for such utilitarian service, there's a style and smartness about them that makes every woman covet one.

THE NEXT STAMPEDE

Some person is evidently making an effort to alarm Calgary about the Stampede for 1913, predicting that unless some mysterious thing is not done or less criticism offered for some things that were done, the whole affair will pick itself up and go to Winnipeg or Edmonton and Calgary will be sorry ever after.

Of course Calgary has no patent or exclusive rights upon the Stampede. Winnipeg or Edmonton may have Stampedes next week if they desire and no person can say them nay. Doubtless they will have some success because it was a success in this city last week. However, the fact that these cities may follow in Calgary's wake will in no way interfere with some such entertainment here next year.

The spectacle of Winnipeg, situated as it is, with its traditions and opportunities for such an entertainment holding a wild west cowboy show would be interesting. It would be like holding a bucking contest in the New Jerusalem.

Cheyenne has been the home of some such entertainments for many years, despite the fact that Denver and other cities have attempted to steal it away.

Some person for some reason is attempting to alarm Calgary people and is going at it in a very crude way.

Calgary is the only place in Canada for any successful exhibition of this kind. There has been one Stampede, which despite many obstacles, was very successful. It will doubtless be a permanent institution and if properly managed should be a credit to the city and the West. It cannot be moved from Calgary because any certain person is peeved about something.

GIVE OFFICIALS A CHANCE
The Edmonton Capital finds that the Edmonton commission has been somewhat of a failure because the commissioners do not follow the advice of the superintendents of the different departments who are specialists.

Edmonton commissioners are not alone in their methods of ignoring the recommendations and reports of the different superintendents. The commissioners do not give that amount of consideration to the reports of the heads of departments that they should. In Calgary, the commissioners have not grown with the city.

When the three Calgary commissioners were first members of the city council Calgary had very superintendents and their duties were not onerous. It is not so many years since Calgary first had a city engineer or a regular health inspector devoting his entire attention to the work.

WHAT WILL SENATOR LOUGHEED DO?
The Toronto World is asking itself what action Hon. Robert Rogers will take when the Canadian

Pacific Railway insists upon an increase in capitalisation. In Alberta and Western Saskatchewan we are more interested in Senator Lougheed. For it must not be forgotten that Senator James Lougheed is a cabinet minister, a real member of the government, without portfolio now, but doubtless with portfolio some day.

It is possible that Senator Lougheed will fight the C. P. R. in its unfair demand. It is not impossible that he will range himself up with the people of the western plains, defy Sir Thomas Shaughnessy and all his people, wave the flag of righteousness to the breeze and declare that the melon must not be cut, at least just now.

It is possible that Senator Lougheed will take no such action. He is not very demonstrative. His ways are not very dramatic. Besides, during his long course of public life he has never seen fit to oppose the C. P. R. It is much more pleasant to sit by and help the corporation along. When he was directly connected with the C.P.R.—and his relations with that corporation are very close even now—he acted as an employee and proceeded to vote upon C. P. R. matters just the same. There is not much hope of any relief against corporations and trust domination from any energetic or independent action that Senator James Lougheed will take.

It is very unfortunate that in these western provinces the government has neither a minister nor a member in the house who is in a position to get in touch with the real people or separate himself from corporation influence. The government has no way of getting in touch with the ideas of the people except by consulting the employees, beneficiaries of close friends of the C.P.R.

CANADA'S BEST CONTRIBUTION

The cause of Imperialism gains much more by the addition of every 10,000 people to Canadian citizenship than it does by an additional Dreadnaught. It is of vastly more importance to Great Britain that Canada should become a well-settled, important commercial country than that Canada should make enormous direct contributions to the British navy.

Mr. Neilson, M. P. of the British House of Commons is right when he outlines as the ideal expansion of Canada from an imperialistic standpoint, the extension of railways, development of resources and the adoption of any policy that will make Canada populous and commercially more important. Britain is a great commercial nation which is more interested in trade than in war.

If Mr. Borden should continue the Laiterie naval policy, which provides for a naval force which eventually will be strong enough to defend our shores and accompanies it with a further increase in the preference on British goods, he will do a very great service for Imperialism. That is the real imperialism, apart from jingoism.

TOO MUCH SPEECH MAKING

A despatch from the East furnishes the information that probably the Canadian parliament will not be summoned until after Christmas, because the members never get through talking until after the holidays and do no business at all. This may be the real reason for the proposed delay and again it may not. It is certain, however, that the amount of speech making in the Dominion house of commons is out of all proportion to the amount of business done.

In the Imperial house of commons a minister seldom speaks for more than an hour and then in introducing very important legislation, and a private member begins to exhaust the patience of his hearers when he gets to the quarter of an hour. In the Dominion house of commons a private member seldom warns to his subject until he has wasted a whole hour and some men speak for hours and hours. A private member in the Alberta legislature punctured the atmosphere for seven hours in one single, long distance, marathon speech.

Parliament is no longer a mere debating school. It is supposed to be a congregation of the ablest business men of the country assembled to transact the business of a nation. In such a gathering long speeches, for the most part, retard instead of advance business. The country could eliminate three quarters of the speech making at Ottawa and be very much better because of the omission.

EDITORIAL NOTES

The manager of the C.N.R. announces the coming of the C.N.R. into Calgary in January with such confidence and cheerfulness as he partially announced the coming of the same road to the city in November 1910. A few months ago there was much enthusiasm about a campaign for industries and much was said and done, but as far as the public is aware the campaign, the bureau and all concerned have departed upon a long, slow slumber.

Some people are evidently endeavoring to Stampede some Calgary people about the Stampede in 1913. But the people of Calgary do not stampede at the rustling of any gentle zephyr.

LETTERS TO THE EDITOR

Larcenous Chauffeurs

Editor-Morning Albertan: Having noticed a short paragraph under the above heading in today's Albertan on behalf of my company I desire to point out to you that the by-law to which you have reference was asked for by this company several months ago, and a number of the clauses in same were put in as suggested by the calling of the police.

Your article gives the impression that the automobile liverymen of this city have been imposing on the public, whereas as a matter of fact it is entirely the other way, the public, or rather a certain section of them, having rendered the life of the liveryman a very thing but a happy one by beating him out of his account, and in fairness to those who by providing quick means of transportation have materially assisted in the building up of this city you should state that the by-law provides means for the enforcing of payment for services rendered by the calling of the police.

At the present time the rates in force in this city, merely by common agreement, and not under any by-law, are \$1.00 per hour lower than those in Winnipeg, and over \$1.00 per hour lower than in Vancouver and all other cities, and when you also take into consideration the number of trips that are taken for which payment is absolutely refused the driver is not that a few isolated overcharges have been made, but that there are cars for hire at any figure at all.

To emphasize the stand we have taken in this matter, I quote the following from a letter to his worship the mayor, dated 1st August, 1912, with reference to this same by-law.

"As regards a cab ordered and not used, would suggest that all words be struck out and the following substituted 'for the services actually rendered, plus the tariff charges for returning to garage.' We think it fair to the public that this should be changed, as a car is frequently ordered for a long trip, and then cancelled at the last minute, and it would be unreasonable to suppose that a man should pay a charge of say \$30 or \$40 when he does not use the car."

"That all chauffeurs be licensed by the city in addition to the province, and that no license be granted to chauffeurs who are known to the police to be undesirable from any cause whatever and that in case of say three increased rates of fares and license fees taken away, thus compelling the chauffeur to leave the city, or seek other employment, we strongly urge, in case of effect, as without it the police really have very little opportunity of riding the city of careless and irresponsible drivers."

I will not quote more of this letter which goes on to suggest pro rata charges for fractions of hours, etc., and for the provision of a stationer or attendant for each car, but it is getting the mileage paid for, as I think the foregoing paragraph should be stricken to rob the public, all we want is protection against being robbed by residents or strangers, which has frequently happened, as we are compelled to take a trip only to find after completing same that the man has no money or lives out of town, and that the city fathers, commissioners, and officials we have been treated fairly and they are not to be faulted, and I trust that you will show us that you also recognize that we are entitled to fair treatment, and we will publish this letter as evidence that you not only admit that there are two sides to this question, but that you are anxious to present both sides.

Thanking you sincerely,
Yours truly,
A. E. Warner,
Secretary The Motor Transportation Co., Ltd.

THE POET PHILOSOPHER

(By Walt Mason)

RESPONSIBILITY
Where'er a man's heartstrings quiver with grief or discontent, he blames it on his liver or on the government. He either buys a bottle of bitters dark and sour, or says that he should throttle the party that's in power. Into his inner chasm he pours of dope, and soft or hard he throws it, and heaves a brick at Fate. He never says: "The trouble that looms up at me is mine, and I should look to it myself. I have no sense. It's edging rebellion, effort that makes for the better. I'm loaded when others labor. I let my neighbor's bell tolling at his pump. Bad habits I contracted, my comrades all were about me, and I was a victim of fortune when I was born. The gods came down and looked on me, and nothing wrong with him. His principles and morals are always all correct; he's not indulged in quarrels, with all things circumspet. No critic can deliver a diatribe on this great, the government."

IDEAS OF A PLAIN MAN

(By Dr. Frank Crane)

CONFESSIONS UNTRUSTWORTHY
One of the most suspicious of human documents is the confession. A man's evidence for or against himself is not trustworthy, for the reason that self is the very person he knows least.

In the good old days old women confessed themselves to be witches, and gave detailed accounts of their bargains with the devil. Everybody believed them, they believed themselves, and we very well know there was not a word of truth in their testimony.

Now confessions are due to mental suggestion. When the young criminal owns up that his downfall was due to reading penny dreadfuls, he is simply repeating a theory he has heard. When the man says "All I am I owe to my mother," that is also a theory he has heard. How does he know to whom he owes what he is?

I am impressed by the trustfulness of Rousseau's "Confessions." He was obsessed by a man of his kind, the trouble he did not know how good he was.

SIDEWALK SKETCHES

(By Howard L. Raan)

WHY WHO'S WHO

We desire to congratulate Hon. Tyrus Cobb, also the Detroit base ball team, upon his recent narrow escape from fatal perforation. Those of our readers who prefer the pink sheet to the Home Dressmaking department will never be troubled in locating Tyrus. He will generally be found at the top of the batting averages or hugging the leaders without any shame whatever.

A few days ago Tyrus was set upon by three tall strangers and entirely surrounded. He had left his right flank exposed, while his left was drawn up in a threatening attitude nearby. But did Tyrus call for reinforcements? He did not. Throwing himself rapidly in the form of a hot-air balloon, he floated up and down with so much success that he utterly shattered the enemy's esprit de corps, and loosened several expensive teeth, which were injured in any vital spot except his feelings.

Tyrus is a member of an ancient and honorable order, and when he speaks the dead languages with great fluency, hurling long, obsolete words like a stone from a strange tongue. He has a mauve complexion and a fine, square plane physique, which he throws from base to base like a human humming bird.

Tyrus usually goes on the field surrounded by eight innocent bystanders with machine-turned legs, some of whom show almost no intelligence. This makes an effective combination, as they are not chilled upon the field, and they furnish an excellent scenery.

Tyrus is a hearty eater, and subsists upon Texas leaguers, line drives and shoe string catches. He also eats up wild pitches with the utmost avidity. Whenever Tyrus comes to bat with the bases full, the opposing pitcher shuts his eyes and tries to do a kind and merciful Providence.

Tyrus Cobb is a credit to the animal kingdom and the greatest little bitter in either hemisphere. Without him Detroit would have about as much chance as a one-armed man in a round dance.

Chronicles of the Khan

The Earl of Eranmore, that bull of high renown; Viscount Cotswold, that lion of the forest; and Baron Berkshire, the most aristocratic pig in this Dominion had got home from the great National Exhibition. Their friends who also farm made them welcome, for they all three returned with high honors.

"Did you see the Dook?" queried the little Earl of Eranmore. "Did you see the Princess?" asked the young lord. "I did," replied the Earl of Eranmore, with great dignity. "He asked to see my pedigree and I asked to see his. It seemed so to be put together on the spot, step and jump principle. If my pedigree was like that I wouldn't get into the Herd Book in a hundred years. After I looked it over, I was so full of it, I could tell what breed he was, but he is a fine gentleman just the same, and he fills the bill to the queen's taste."

"During my stay in Toronto," continued the Earl of Eranmore, "I held a meeting to discuss the Imperialist aspect of the empire. It was the consensus of opinion that the only way the Canadian Government could help the Motherland Government was to back her with unlimited quantities of beef, mutton and pork. The thought-out stationer became quite eloquent."

"The Dook of Sutherland and a whole lot more of the British nobility have taken up lands in this country," he exclaimed. "They are not the kind of aristocracy that I would care to be associated with. (Sensation)—The kind of nobility we want in this country is people like Baron Berkshire—('Hear, hear!')—Viscount Cotswold—('Right you are!')—and folk like my very distinguished friend, the Earl of Eranmore—('Loud cheers!')—One of them will contribute more in a minute to the greatness of this new land than a dozen dukes on two legs apiece."

"The best blood in Canada went to South Africa just once and there was a general mope about it. Ladies and gentlemen, at what time do you think we go to Liverpool on every boat that leaves Montreal, St. John, or Halifax—sacrifices on altar of empire—and we have done the empire quite as much service as the consignment of Canada's mutton and mutton that was sent out for the hungry Boers to eat up. South Africa was the graveyard of forty thousand horses, and our poor relations, the mules, I want no more of 'em. I want no more of the 'em or the mules in cavalry regiments or the mules in the field artillery. Electricity has done a great thing for us. It set the feet of the mules of the old horse-cars. How many proud and useful horses have died of broken heart in the street car barns or dropped dead of exhaustion on our streets alongside the devil-stamp? Electricity is going to save us from the bestfield and give us a chance to go up to the clay belt. There's where I'm going myself next spring—('Cheers!')—and I won't be quite happy away up in the golden north unless Baron Berkshire and his hardy sons are there—('Loud cheering!')—and Viscount Cotswold and his hardy sons are there—('Great cheering!')—and my old friend and neighbor the Earl of Eranmore and his hardy sons are there—('Loud and continued cheering!')"

THE KHAN, in Toronto Star.

CALGARY CADETS WILL GO TO GOLDEN, B. C.

Col. James Walker Arranges Trip for Four Boys to Aid in Organization

On Wednesday morning Col. James Walker is taking four of the Calgary cadets on a trip to Golden, B. C. to aid in the organization of the Golden school boys' organization.

Fall Clothes for Men

The Newest Fashions and Best Materials in a Wide Range of Choice

That the big Clothing Department will make a convincing demonstration of its place and precedence again this season is evident from the big showing of new fall suits and overcoats now crowding the fixtures. We never have gathered together at one time a wider or more complete stock as is now here for the inspection of Calgary's best dressers. Every new idea that will appeal to the particular class is reflected in the smart and up-to-the-minute styles here, but with each style is dignified. You'll find a certain coat here that will suit you from the ground up. Overcoats that will fit you better than most tailors could make them, yet at half the cost. You have a large variety of choice here and the satisfaction of knowing that it is a suit or overcoat of fashion, no matter whether it is the highest or the lowest priced garment in our standard collection.

The man who will be well dressed naturally will come here, for we enjoy the reputation of being Calgary's largest and best outfitter to mankind. Today we mention:

Overcoats—The new Raglan sleeve is the thing this year. Splendid quality materials, in browns, fawns, grays, green mixtures and diagonal stripe. Ask to see the long coats, "Speedway, Connaught, Marlboro, National, Arctic, Premier and Woodland, Swagger Coats with a whole lot of style; made in half belts, motor strap on sleeve and a good full skirt. Also made in the box back style. Another new wrinkle that you will like is the long shank pressed leather button. Materials of highest quality, in camel's hair effect and Scotch tweed mixtures, in browns, fawns, grays and heather mixtures. Prices all the way from \$15 to \$40

A choice of some 500 coats here.

French Panamas at \$1.00

Splendid Values
One-piece Dresses are strong in Fashion's favor this season, and as we know many women are going to have theirs made up after their own patterns we strongly recommend these new French Panamas. They are of soft, clinging quality, very smart and dressy in appearance. Colors, tan, brown, blue, purple and black; width 48 inches. Price, per yard..... \$1.00

French Repts and Fancy Amures

Here are two other materials that our London office advises are going to be extremely popular for fall. Women who take our advice will see the new arrivals now while choice is complete, for there's sure to be heavy selling before long. Qualities, of course, are most dependable; colors, fawn, brown, blue, navy, gray, etc.; width 46 inches. Price, per yard..... 75c

You'll Open Your Purse for These Ladies' Hand Bags

Regular \$1.75 to \$4.25, Tuesday..... 98c

Parisian Hair Ornaments

of Rare Beauty
We have just opened up a collection of the most beautiful French hair ornaments we have ever seen. Charming new creations of fascinating beauty that the most fashionably dressed women will wear this season. It is a display that any store might well be proud of. See it!

New Fall Hats for Men

Men of discriminating tastes who take pride in their personal appearance are invited to inspect the splendid assortment of New Fall Hat Styles which we have gathered here for their benefit. Selected from the foremost makers of two continents, they represent the best in style, quality, fit and service, yet are priced with characteristic Hudson's Bay moderation.

A feature of the styles for fall is the return to vogue of the velour hat, which is warm, rich in appearance, and smart in style. Creased or telescope styles. Price..... \$5.00

New felts with a brush finish are also a new feature of the soft hats and can be worn in creased or in telescope style. Brims dip nicely and colors are olive, maroon, steel, pearl, and grey mixtures. The prices are..... \$2.50 to \$4.00

HUDSON'S BAY COMPANY

High Protective Tariff Condemned by Marshall

Says It Gives Tariff Beneficiaries Monopoly on Products and Free Trade on Labor

Labor Cost of Weaving Yard of Cloth Five Cents, While Tariff is \$1.02

St. Joseph, Mo., Sept. 16.—High protective tariff was denounced by Governor Thomas R. Marshall, Democratic nominee for vice-president, in a speech here tonight. He declared the policy gave tariff beneficiaries a monopoly on products and free trade on labor.

"Impressed as I have always been from the moral and constitutional viewpoints of the injustice of the high protective tariff, I have not waited much time in studying its practical workings. Revelations, appearing in their character, force themselves upon us, however. These revelations furnish economic reasons in abundance for a change."

"Take the argument that the high protective tariff has been maintained for the benefit of the American working man. What do the facts disclose? They disclose that we have given the

tariff beneficiaries a monopoly on products and furnished them free trade in labor.

"Figures compiled by the United States immigration commission reveal that three-fifths of the workers in our protected industries have come to the United States from southern and eastern Europe since the reason was advanced that we must have a high protective tariff for the benefit of the American working man."

"Analysis of the figures reveals that the average wage per family has been sixty dollars per month, that only forty per cent. of the families are supported by the heads thereof, and that in the iron and steel industries one-tenth of the family earnings is made by the children, while one-fifth comes from boarders and lodgers. In seventeen thousand households examined there were two hundred and forty-six persons for each one hundred sleeping rooms. The housing conditions challenge adequate description."

"An investigation of the twin plant at Auburn, N. Y., of the International Harvester company, presided over by that disinterested patriot and philanthropist, George W. Perkins, revealed that women worked from ten to twelve hours each day, standing all the while in rooms most unsanitary, and earned a dollar a day. Overworked and underfed, they are supporting their lives and supporting the lives of posterity that the system may exist. If the farmers of this country are as patriotic and humane as I believe them to be, they will next year bind their harvests with rag ratters, unless these conditions change."

"A word will suffice for the revelation of the conditions at Lawrence, Mass., where wage-earners getting 17

RESTORING OF LOST ARTICLES

The losing or the finding of an article of value—jewelry, keepsakes, pocketbooks, keys, legal papers, memorandum books, etc.—demands instant action.

This necessity of meeting an emergency in the most efficient way at once suggests the Want Columns. The Wants provide the means of telling the most people in the least possible time and at minimum expense.

The Wants are wonderfully successful in restoring lost articles.

A Rare Bargain Children's Fall Coats at \$2.90 each

Regular \$4.00, \$4.50, \$5.00, \$5.50 to \$7.00

The children are now in need of warmer garments. We have a quantity of good warm, heavy fall coats that we intend clearing out at a great sacrifice, so you will be able to get the youngsters fall coats at a big saving. They come in green and navy blanket cloths, trimmed velvet collars and brass buttons. Bearcloth coats in black and navy, trimmed braid and brass buttons, heavy serge in scarlet and cream with fancy braid trimmings and brass buttons. Also knitted Woolen Coats with flannellette wings, trimmed braid and fancy buttons, in shades of scarlet, brown and navy.

They are all good, new, up-to-date garments, but we must have the room, hence these big reductions. Regular \$4.00 to \$7.00 each.

On Sale \$2.90 each

Mainly About Women

BY ELIZABETH BAILEY TELEPHONE 2890

Mr. Jan. Martin is an Edmonton visitor in our city.

W. C. Marshall, of Bassano, is a visitor in Calgary.

Mrs. D. B. Niblock will be a tea hostess this afternoon.

Mrs. Harold Riley left last week on an extended trip east.

J. E. Molloy, of Cochrane, is registered at the Alexandra Hotel.

Mrs. T. H. Riddell and son of Midnapore, were in the city yesterday.

Dr. and Mrs. Stewart MacKie are receiving congratulations on the birth of a son.

Mrs. J. D. MacMillan, Hatfield Court, has left on a two months' trip to Michigan.

Mrs. W. Hamilton, of Uxbridge, Ont., is visiting Mrs. A. L. Cameron, 202 Third avenue west.

Mrs. Deacon White and Mrs. Tom Sanders, of Edmonton, are guests at the Alexandra Hotel.

Mr. and Mrs. J. B. Estelman, who have been holidaying at the coast, have returned to the city.

Mrs. Dow, who has been visiting her daughter, Mrs. B. Davidson of Mount Royal, has gone home.

Mrs. Struthers, who has been the guest of Mr. and Mrs. W. Glen Wright, has returned to her home in Winnipeg.

Rev. C. B. Scott, of Toronto, who is at present on "a round-the-world mission tour," preached at Grace Presbyterian church last evening.

Mrs. Alex. Mun, who has been visiting in Calgary, Roseland, and other cities, has gone to Winnipeg. She was accompanied by her sister, Mrs. Jury.

Mrs. A. T. Linton will receive for the first time in her new home, "Balsconr," Mount Royal, on Friday afternoon, September 20, from four to six, and afterwards on the second Wednesday in each month.

The Women's Civic League Problem

Will the women of Calgary organize a Women's Civic League or a local Women's Council, which is a branch of the National Women's Council? This is the question before the committee which was appointed at the last women's meeting to enquire further into the matter.

Will a local council do the same work and adjust itself to the needs of our city the same as a civic league?

If an immediate civic problem comes up will a local council have authority to decide such a problem itself, or being affiliated with the National Council, will the matter be taken to headquarters? Will the local council have the particular needs of our particular city as its purpose rather than the general present day problems of woman?

If so, we want a local council or a civic league for they are the same.

The membership fees and the annual fees of the National club range from five dollars to a hundred dollars. Will the fees of the local council be the same? If so, are these fees too much for the average woman?

Again, when will the local council be organized? It all depends upon Mrs. Edwards of Macleod, who is coming "some time this fall." What time?

The committee decided to communicate with Mrs. Edwards at once.

There are a number of women laboring under a misapprehension that the Women's Civic League is to be some kind of an "American" club and the "local council" is a Canadian institution. Perhaps this was caused because of the notice in the paper of the American Women's club which requested all their members to attend. It was merely a step on the part of the American women to endorse and help in a movement which they thought would be beneficial to our city, and whether a local council or a civic league be formed, these women will work just as energetically and as faithfully for any organization that has the good of our city as its basis.

It was decided to write to Mr. W. H. Tregillus, president of the men's civic league, to find out when and where men are needed to help solve civic problems and if women would be allowed to attend a meeting of the men's civic league to see just what questions and problems they are solving.

Calgary has sixteen hundred women voters and at the meeting called last week there was only a very small per cent of women who had this right at present. It is an evidence of the interest the local women take in civic matters.

Are we too busy with our home life? But aren't the civic interests and the home interests kindred ones?

Waken up all you sixteen hundred indifferent voters!

E. B.

the fund for the Robertson college, and all ladies interested are cordially invited to attend.

Benevolent Society.
The Benevolent society will meet on Wednesday, September 18, at the home of Mrs. Cairns, Elbow Park.

Girls' Hospital Aid.
A meeting of the Girls' Hospital Aid society will be held on Wednesday afternoon at the home of Mrs. Phipps, 429 Royal avenue.

American Women's Club.
All those who wish to join the music department of the American Women's club will please meet at the home of Mrs. Anderson, 388 Nineteenth avenue west, today, at 3 p.m.

CUPID'S KNOTS
McEIN-SMITH

On Saturday afternoon, at the Presbyterian church, the marriage of Mr. McEain and Miss Smith was solemnized. The bride was escorted by Mr. P. A. Walker, officiated. The bride was from Murrayville, Scotland. Mr. and Mrs. McEain will reside in Calgary.

TAYLOR-RODEN.
A quiet wedding took place at the Central Methodist parsonage yesterday, when Sergeant W. H. ("DM") Taylor and Miss Olive Roden were married. Miss Roden has just arrived from Monmouthshire, England; while Mr. Taylor has been a member of the Royal North-West Mounted Police force for six years.

Mr. and Mrs. Taylor will reside in Hillhurst.

PINKHAM-KUTTER-GREGORY.
Miss Emily Widdowson, daughter of the late Robert Kutter, and Mr. Robert Reval, Russia, and Augustus M., eldest son of the late bishop of Calgary and Mrs. Pinkham, were united in matrimony at 2 o'clock yesterday afternoon in Christ Church cathedral by the Bishop of Calgary. The bride, who wore a beautiful gown of white satin trimmed with rich old lace with veil and orange blossoms, was given away by Mr. Boyle, of Calgary. The bride's bouquet was of white roses, orchids, and stephanotis. Mrs. Boyle wore a becoming gown of white muslin with pink accents, trimmed with pink, and a beaver hat lined with velvet and trimmed with white plumes. The bride was attended by the bridesmaid, Miss Pinkham, who wore a gown of white crepe trimmed with royal blue velvet, with which was worn a large black plumed hat. Mr. R. F. Taylor was groomsmen. Immediately after the service, which was choral, a reception was held at the home of the bridesmaid's sister, Mrs. T. F. H. Crowe, Verdun avenue, Mr. and Mrs. Pinkham leaving by the afternoon boat for Seattle and other places in the States. On the occasion of their honeymoon, Mr. and Mrs. Pinkham will make their home at Calgary, where the former is manager of the Dominion Trust company.

FACHE-SEARSON.
A pretty wedding was solemnized on Saturday when Evelyn Annie, third daughter of Frederick Searson, 229 Fifteenth avenue west, late of Irham, Lincolnshire, England, and John Henry Fache, only son of Mr. and Mrs. W. M. Fache of Exhill, England, were united in marriage. The bride, who was given away by her father, wore a becoming wedding gown of soft white satin with chiffon overdress and tulle veil with coronet of orange blossoms. Her bridesmaid was her sister, and Miss Helen and Miss Violet Hextall. They were pretty white lace frocks made over silk and large picture hats with pink veils. Horace Seymour supported the groom. Rev. Mr. James, rector of St. Stephen's, performed the ceremony. Edwin Hamblin, cousin of the bride, played the wedding march.

After the ceremony a reception was held at the home of Mr. and Mrs.

SUFFRAGETTES ISSUE CALL TO WESTERN WOMEN

British Women Now in B. C. Ask Them to Take Up Women's Battle

Vancouver, B. C., Sept. 16.—Mr. and Mrs. Pethick Lawrence, the English suffragettes who have lately been spending some time in Victoria, left today for New York, thence to London where they will renew their campaign.

Mrs. Lawrence who is an athletic looking woman of great strength is calling the women of Western Canada and especially of British Columbia to take up the suffragette fight. She declares that she and Mrs. Rankin were very near death's door before they were released from their term in prison. She is the widow of a man who was a member of the British Columbia parliament and believes that a victory in Canada for the women would be the one thing most helpful to the fight of militancy in England.

MME. LABADIE'S RECITAL LAST NIGHT MOST SUCCESSFUL

Clever Artist Greeted With Large Audience; Proceeds for Anti-Tubercular Society

A splendid audience greeted Mme. Labadie who read the play "Tomorrow" at Paget Hall last night, under the auspices of the Anti-Tubercular society. Mme. Labadie has devoted her life to the study of her art, and is a widely-known, clever interpreter. She was in Calgary two years ago, and delighted the audience with her interpretation of "The Doll's House."

"The play 'Tomorrow' is one that deals with a vital human problem of the day. It is the story of a woman who is a scientific plant-breeder in California, and has learned from her father of the possibility of bettering the human race through proper selection in marriage. Fortified by a real understanding of the problem, she is suddenly met by the necessity of answering a proposal. She is infatuated with her lover, but learns of a hereditary taint in his family. There ensues a tremendous dramatic conflict, in which her strong emotions are opposed by her reason and conscience—the theme of the "Tomorrow."

Everyone present last night was charmed with Mme. Labadie's recital, and she has many admirers in our city who will be glad to welcome her back any time.

CORNER STONE OF NEW KNOX CHURCH TO BE LAID SATURDAY

The corner stone of the new Knox Presbyterian church, corner of Sixth avenue and Fourth street W., will be laid with appropriate ceremonies next Saturday at 10 o'clock, by Rev. A. Clark, pastor of the church, will see the stone. At 430 the corner stone of the new Highland Presbyterian church will be laid by Mr. W. Ross.

THE HEART DEPARTMENT

MOONLIGHT RAMBLES
All the world loves a lover, and at no time of the year is man more willing to play this important part than on a still summer night when the heavens are all ablaze with twinkling lights and the moon floods the earth with her beautiful silvery light.

One's sweetest seems to look fairer than his own when he is in the moonlight. The clasp of her hand is more thrilling than before and her near presence is full of subtle magic.

Of all the delights known to a lover none are equal to a stroll with the girl he loves. They may not talk much—it does not seem to take words to convey how dear they are to each other. There is a glamour in the flower scented air which seems to inspire love in the heart and cause the words "I love you" to spring spontaneously on man's lips.

The same influence works havoc on women's hearts. The lover knows by his lassie's downcast eyes and the trembling of her hand that rests lightly on his arm that she will not have to plead in vain for her affection.

But right here let me say that the lover who is sincere will offer himself in marriage at the time he declares his love. If he evades asking her hand in matrimony she should realize that his love does not ring true. He is thinking only of the pleasures of the present and is not considering the future.

Every young girl, although they may realize this, are loath to press the subject to a better understanding after an evening of love. There have been girls who have married hastily after an urgent protestation of love from an admirer. "You mean you want to marry me?" and this article has not detracted from her modesty.

It is little short of crime to expect to win a young girl's confidence and love in return without the solemn pledging of their truth, then and there. Young girls often do love men of that type. Tell him that you are going on a visit and to avoid any unwelcome attentions from your friends you think he'd better give you an engagement ring before you go. Tell him just exactly what you told me in the

Charming Styles in Children's and Misses' Apparel

The departments that cater to the wants of the juveniles are now ready with splendid exhibits of the newest fall styles in dresses, coats and millinery. We are quite sure in saying that in no other store in Calgary can such large assortments and such smart styles be found, for this season's selections have increased far beyond those of former seasons. The modest prices, too, will prove surprising.

Juvenile Dresses

The designers of these smart garments certainly knew just what the girl of 1912 expects in a dress. All the new style touches that give distinction and refinement to the grown-up costumes are embodied in these dresses, yet they retain an unmistakable girlish appearance.

Here is one fit for a little princess, made of a dark green and black corded material with black braid and steel button trimmings, and finished with black satin girde. A pretty dress for a miss of 10 years. Priced at \$15

Another Dress is of rose colored panama, with hand embroidered design, in colors, piped with satin, in self shade; one of the features of this dress is the drop skirt, which will be found in a great many of our dresses this season. This garment also in shades of green and saxe blue. Priced at... \$10.50

Sailor Dresses—These popular dresses are daintier than ever this season. One of the features is a detachable linen collar which can be worn over the regular collar; button and braid trimmed styles, with regulation sailor tie... \$2.95 to \$7.50

Nothing Too Good For Baby
Our Infants' Department is in a room all by itself off the main floor. Everything in baby's wear is shown here at prices to suit every purse.

Coats of tweed in brownish blue, with imitation ermine on collar and cuffs, a really beautiful model. Priced at... \$30.00

Coat of chinchilla in deep blue, with imitation ermine on collar and cuffs, a really beautiful model. Priced at... \$30.00

Between these two prices we have innumerable effects in the season's newest materials and styles, all reasonably priced.

Coats for Misses and Juniors

The girl or young woman of 15 years or 18 or even 20, but who doesn't feel really grown up will be decidedly pleased with the coats we are showing this season. They are designed and manufactured by artists who are specializing in juniors' apparel. The style distinction that is a feature of our women's coats is to be found in these, but the cost is much less.

We mention two styles that will serve to show what an extensive range you may choose from.

Coat of tweed in brownish blue, with imitation ermine on collar and cuffs, a really beautiful model. Priced at... \$30.00

Coat of chinchilla in deep blue, with imitation ermine on collar and cuffs, a really beautiful model. Priced at... \$30.00

Between these two prices we have innumerable effects in the season's newest materials and styles, all reasonably priced.

Dressmaking

Our modiste who has been in New York for the past month gathering new ideas in fashionable toilette will return about the end of this week. This will be a splendid opportunity for her many patrons to interview Miss Tollhurst and acquire at first hand valuable style hints.

Orders placed now will receive earliest attention.

Special Sale of Under-skirts--Tuesday \$1.25

Clearance Sale of Women's Sample Shoes

COMMENCING today and continuing all week we are offering our entire stock of Women's and Girls' Sample Shoes at extraordinary savings.

Big shipments of new goods are expected to arrive at any moment and we need room.

This sale has that end in view and it will certainly accomplish its object if these savings count for anything.

Remember, these are smart, stylish shoes—the very kinds that are so fashionable for fall.

We bought them as samples and offered them in the regular way at low prices. Now, however, that we need room we are offering still greater values; in fact the kind that border on the sensational.

Better take advantage of this sale, as you may not have another such good opportunity.

Comprising women's house and street shoes; also girls' school shoes and in calf and kid leathers. Good assortment of styles; sizes 3 1/2 to 5 only. Regular \$2.00 to \$3.00 for... \$1.45

W. BUCKSHOT TO BE HOCKEY MOGUL

Theatrical Magnate Intends Providing Calgary With First Class Team

Team Will Be Purely Amateur Affair, But Will Have All-Star Lineup

Lloyd Turner is Manager; Bishops and McCarthy to be on the Team

WILLIAM BUCKSHOT SHERMAN, theatrical mogul, etc., of Calgary, Alberta, has a new hobby—hockey. He never does anything by halves, and so his hockey team this year is going to be some team. Nothing but the best talent available will be good enough for William B. He has that material all lined up now, ready and waiting for Jack Frost to make some ice in his seventh avenue refrigerator. It is going to be a damn pure amateur affair, according to Bill, but is going to be just a little better than anything which has ever been on skates in this province.

William B. has appointed Lloyd Turner as manager of the team for the season. Calgary sports have all kinds of faith in Lloyd Turner, and the mere mention of his name in connection with the team will assure the fans of a first-class brand of the competition game.

Lloyd is just a little careful about making any big noise right away, but this much is known—the three Bishops of last year's Bismarck Boosters, have already offered their names to contract, as well as Charlie McCarthy, the star goal tender of the Bismarck team.

George McNamara, of Sault Ste. Marie, will be the coach of the team. He is an old hockey player, and he is a brother of Harry McNamara, who went east with the Edmonton cup challengers.

Lloyd Turner, himself, has been some hockey player in his day, and his acquaintance is wide. That he will have a good team is an assured fact, and as he stated last night: "If any Calgary team goes after the Allan cup this year it is going to be Sherman's team."

TOMMY BURNS IS BARRED

LARRY PIPER THE REAL SPEED MARVEL

Won All the Sprinting Events at the Baseball Field Day

Amateur Player from the City League Won Fungo Hitting

Smick Meyers Won Both Left and Right Handed Long Heaves

Larry Piper proved himself the speed marvel of the Western Canada league by winning every event in the sprint and coming within a fraction of a second of the world's record at the field day held for the benefit of the Red Cross at the baseball field yesterday afternoon. Larry cleared the paths in four events, winning a total of about three-fifths of a second slower than the world's mark for this performance. There is no official record for this feat, but 13 2-3 seconds is the time accepted by the ball players as the world's record. Barney Barnstead was second in this event, with a mark of fifteen seconds.

In the hundred yard dash Larry did some more fast traveling. He did the century in 10 2-5 seconds, which, to say the least, is going some. Larry's other speed victory was in the sprint to first base. Larry covered the ground from home to first in 4 1-2 seconds. But it remained for a rank outsider, dark horse, so to speak, to win the fungo hitting. Big Bill Barnkamp was looked upon as sure winner of this event, but the best Bill could do was to get third place. Murphy of the city senior league, hit the ball the longest distance, the measurement being 120 yards. Meyers was second. Each contestant was only given one chance at the fungo hitting and there might have been a different result had more chances been given.

The big surprise of the day was Smick Meyers. Smick is some heaver, but he never expected that he could out-beat every one else on the club so much that they would all quit. But that is what he did yesterday. Smick heaved first. He stood in the left field, right at the foot of the hill. The ball never touched the ground till it hit the backstop back of the home plate. It was as if Smick and Smick was awarded the honors without a contest.

And then, to top things off, Smick entered into the left-handed throwing contest. It was a simple matter simply in a class by himself in the long distance heaving, and threw as far with his left hand as the others with their right, and when he threw with his right, he was alone in his class. The ball game was a side affair and was won by Smick Meyers' team over the city senior team by a score of 5 to 2.

The boys realized \$128.70 on the field day, which amount was turned over to Al Dean to help defray his hospital expenses.

HILLIES AND CALLIES TO MEET THURSDAY

Game Will Be Fought at a Finish; Kick Off at Five O'Clock

A lively meeting of the executive committee of the Calgary City League was held at the Y. M. C. A. last evening, and it was decided to play the Callies and Hillurats game on Thursday evening at 5 o'clock.

In the event of a draw extra time will be played, and should there be no difference in goals, a record of the corners will have been kept and they will decide. Surely this should see the thing decided.

The deciding game of the Intermediate league between Tynesiders and Y. M. C. A. will be played at 5 p.m. on Friday.

To prevent famine one Want Ad worth a million armors.

TORONTOS WILL NOT PLAY FOR MINTO CUP

Toronto, Sept. 16.—At a meeting of the Dominion Lacrosse Union, held here this afternoon, the Toronto lacrosse club was refused permission to play for the Minto cup, and all players under contract or on the team will be forbidden to play in matches with the coast teams.

The members of the union present adopted resolutions stating that they saw no reason for departing from the attitude adopted at the original organization meeting, when the club agreed not to play outside teams unless all the clubs gave their consent. The resolution affecting players was aimed especially at the proposed trip of an all star team to the coast this fall.

AMERICAN RUGBY IS BEING CHANGED

Football Rules of American Cousins Have Undergone Annual Renovation

Trying to Make U. S. College Game More Like Canadian Rugby

Touchdowns Count Six Points; End Zones Provided; Other Changes

(By Joe Price)

The American football rules are out. Maybe this does not mean anything to you, but if you ever lived on the football field and had anything to do with Rugby, it does. The Americans every year have the football rules through a thorough renovating process. Each year they aim to make the game a little more perfect and a little less brutal. American football players of five years ago might go back home now and have the fun of learning a new game. About the only change that has been made in the rules is that the ball has been used ever since the game was adopted. The game itself is fearfully and wonderfully changed.

To those who happened to have followed the game of the past few years, the following explanation of the changes this year will mean something. It has been the idea of the rules committee that you must make the game a better one for the spectators. It will become more like the Canadian game this year than ever before. The actual changes are:

A field of 100 yards instead of 110, back of each goal, were forward passes made from the line instead of the addition of a fourth down to gain ten yards.

The kick-off from the forty yard line.

On kickoffs, the opponents will line up on the twenty-five yard line of the twenty-five yard line.

Intermissions between first and second downs will be reduced to one minute.

Forward passes may be of any length, but must be made from five yards behind the line.

The onside kick will be discarded.

The rule away with the checker-board field, and it is again a gridiron.

Touchdown count six points.

Goals from touchdowns one point. Goal from field four points.

Safety by opposition two points.

Hurdling in the line is defined as pushing or man with both hands on either side where the ball is put in play.

Should a forward pass touch the ground in the end zone, it shall count as a touch-down.

The above are the principal changes this year. There are several other changes, but they are not so important as the ones mentioned above. The committee has drafted a new set of rules, which are being reviewed by the regular body. Instead of phrasing them as clear as a hypothetical question.

INTERCOLLEGIATE RUGBY BOYS MEET

College Gridiron Warriors to Again Have Strong League

The Calgary Intercollegiate Rugby league held its annual meeting at the Y. M. C. A. last night. Most Royal Victoria, Western Canada College, and the Collegiate Institute will comprise the league again. Another meeting will be held on Friday evening, when officers will be elected, a schedule adopted, and the revised constitution discussed. The junior series is a possibility this season.

EVEN IN N. Y. RED SOX ARE PICKED OVER GIANTS

Fans at Large Look Upon Jake Stahl's Bunch as Comers

NEW YORK, Sept. 16.—That the Boston Red Sox will win the world's series from the New York Giants is the opinion which seems to be growing steadily among the fans at large, as well as among the newspaper critics.

The belief may no means suggest any among American league adherents, but is entertained even more strongly in New York, apparently than in such cities as Cleveland and Detroit, which do not have National league clubs.

Joe Wood's recent victory over Boston in a prepared duel with Walter Johnson, the Washington speed marvel, and the consistent pace the Red Sox have maintained all season without one showing a sign of a slump, are the principal factors in the sudden but well defined pessimism regarding the Giants' chances in the big show.

Up to Wood's triumph the Giants were on the short end in the betting by about 10 to 9, with a little money in sight on either side. In the past few days, however, the odds have become more canny and the prevailing odds just now are 7 to 5.

That figure, however, is based on the fact that the Red Sox are in a better position than the Giants, and the major part of the betting probably will be at the more justifiable odds of 10 to 9, barring serious accidents to the stars of either team between now and the second week in October.

TIGERS HAD BEST PRACTICE OF THE SEASON

The Tigers held a practice last evening at Newark park, and it was the best attended one held this season. The crowd was estimated at 10,000, and from the way the boys got down to work it seemed as though it had been the best practice of the season. The boys were in the best of form, and the practice was a real success. The boys were in the best of form, and the practice was a real success.

MOOSE JAW HORSE MADE RECORD FOR CANADA

On Half Mile Track, Unassisted, Paced Mile in 2:05 1-4

MOOSE JAW, Sept. 15.—At the matinee races held here Saturday, Alcyras (2:03 1-4), owned by John E. Taylor of Moose Jaw and driven by Russ McGirr, also of this city, travelled the fastest unassisted mile ever paced by a pacing mare in Canada, over a half-mile track, her time being 2:05 1-4. The mare was started to beat the local track record held by Leland Onward, which was 2:10. Many were of the opinion that the mare's chances of success were very poor as the weather was miserable and a gale of wind was blowing at the time. However, Russ McGirr got her away nicely and she stepped the quarter in 31 seconds, a shade if in 1:02, the three-quarter mile in 1:54, and the mile in 2:05 1-4.

NO REFERES AGREED UPON FOR SATURDAY

Up to last night the management of the two local senior Rugby teams had not been able to agree upon officials for next Saturday's game. It is an agreement that has not been reached yet. The management of the two teams will have to exercise his authority to appoint the referees for the game. The game will be held on Saturday.

EASTERN SPORT GOSSIP

The British Columbia League will open its season about December 10th. Victoria, Vancouver and New Westminster will again comprise the league, with the latter team using the Vancouver ice until the completion of their own arena.

Quebec, the Stanley Cup holders, have already signed up the entire team, and will be ready for the ice any time. The salary list is fifty per cent higher than last year. Mike Quinn will again be manager.

"Neway" Lalonde will likely play on the Canadiens. George Kennedy says. He has it that Neway is through with Coast lacrosse, and will remain in the province. Lalonde will also line up with the Canadiens.

Athletes.
Bobby Kerr has been appointed secretary-treasurer of the Hamilton Amateur Athletic Association. He will assume his new duties as soon as he can sever his connection with the International Harvester Co.

Lacrosse.
The final standing of the eastern lacrosse leagues are:
D.L.A. Standing.
Toronto Won. Lost. For. Agst.
Montreal 14 14 112 85
Niagara 10 8 101 71
Quebec 9 8 77 69
Tremonts 5 13 77 120
N.L.L. Standing.
Cornwall Won. Lost. For. Agst.
Capital 10 7 64 63
Montreal 8 10 86 84
Shanrock 15 49 115

SPORTING - FACTS - AND - FANCIES

WITH the engagement of Frank Shaughnessy to coach the McGill university team in Montreal, the professional coach is introduced into Canadian Inter-Collegiate rugby circles for the first time.

CANADA'S FIRST PRO. RUGBY COACH
McGill's repeated failures, despite the amount of good material in the university have been attributed to lack of competent coaching. This year they hope to overcome by means of a pro. coach. The experiment will be watched with interest.

HAMILTON HOCKEY IN THE O.H.A. AND

WILL the Ontario Hockey association accept the application of the Hamilton Hockey club for membership? For many years the Eastern newspapers have held up the O.H.A. as a goddess of all that is good and practical in amateurism, and undoubtedly they have done splendid work in forwarding amateur hockey, but their attitude in this matter is being tested in the form of an application for membership of the Hamilton club.

A new arena has been erected in Hamilton and during the summer the Ambitious City club has been industriously gathering together a strong senior team. Some of the champion Kingston team have accepted positions in Hamilton and other stars of the amateur game have been approached to move their residence to the shelter of the mountain. None have been offered money but the circumstances prove conclusively that inducements have been held out to them to locate in Hamilton, that brand the team as semi-professional.

It is up to the O.H.A. to live up to its reputation for practical amateurism and throw cold water upon the Hamilton project when they apply for membership. Their attitude in this particular case will excite considerable interest.

GIRLS TOOK PART IN SPORTS ALONG WITH BOYS

Competed in Running Races, Broad and High Jumps at Toronto Children's Sports

Toronto, Sept. 15.—The Toronto Athletic public was treated to a novelty at the annual meet of the Toronto Children's Playground Association yesterday when over one hundred girls competed, along with the boys in the longest list of events.

The girls competed in the running races, broad and high jumps, and in a top-of-war. A novelty in the way of classifying boys' events was that of grouping them according to weight instead of age. Every boy was weighed before being provided with his number. The number of entries, 1,235, was also something of a record.

RECORDS FRACTURED AT CLEVELAND RACES

Record for Mile on Circular Track Cut Down Three Times

Cleveland, Ohio, Sept. 14.—Twice today at North Randall near here, was the automobile record for a mile on a circular dirt track broken. The old record holder, Barney Oldfield, himself smashed the mark first reducing it from 52.2 to 49.93 seconds.

Louis Diabrow did not suffer Oldfield's joy in his new laurels long, for soon after Oldfield's performance Diabrow set his car whirling around the course in 49.35 seconds.

In the same field, seeing the track in perfect condition and trusting in his 300 horsepower machine, went out to beat Diabrow's new mark, which he did by another wide margin, negotiating the distance in 47.91 seconds.

RECORD FOR CANADA

On Half Mile Track, Unassisted, Paced Mile in 2:05 1-4

MOOSE JAW, Sept. 15.—At the matinee races held here Saturday, Alcyras (2:03 1-4), owned by John E. Taylor of Moose Jaw and driven by Russ McGirr, also of this city, travelled the fastest unassisted mile ever paced by a pacing mare in Canada, over a half-mile track, her time being 2:05 1-4. The mare was started to beat the local track record held by Leland Onward, which was 2:10. Many were of the opinion that the mare's chances of success were very poor as the weather was miserable and a gale of wind was blowing at the time. However, Russ McGirr got her away nicely and she stepped the quarter in 31 seconds, a shade if in 1:02, the three-quarter mile in 1:54, and the mile in 2:05 1-4.

CHICAGO BEAT GIANTS IN SERIES IN 1912

New York Giants in the second game of their series, by a score of 4 to 2. The victory assures the Cubs of the victor's end of their year's series with the Giants. Mathewson was hit hard, though many hard drives went directly at the New York fielders. Archer's homer in the seventh resulted in Chicago's winning run. Laverne was knocked out of the box by New York pitcher, but the champions made only two hits off Rubeck.

Pirates Keep Up Winning Streak and Batter Brooklyn

New York, Sept. 16.—Chicago defeated New York Giants in the second game of their series, by a score of 4 to 2. The victory assures the Cubs of the victor's end of their year's series with the Giants. Mathewson was hit hard, though many hard drives went directly at the New York fielders. Archer's homer in the seventh resulted in Chicago's winning run. Laverne was knocked out of the box by New York pitcher, but the champions made only two hits off Rubeck.

DEFEATED CHAMPIONS AND WALLOPED MATTHEWSON WITH MIGHTY WALLOPS

Mathewson was hit hard, though many hard drives went directly at the New York fielders. Archer's homer in the seventh resulted in Chicago's winning run. Laverne was knocked out of the box by New York pitcher, but the champions made only two hits off Rubeck.

PIRATES KEEP UP WINNING STREAK AND BATTER BROOKLYN

New York, Sept. 16.—Robinson hit Brooklyn down with three hits today. Bagby was very effective, except in the second inning, when Wagner tripled and scored on Willard's homer over the right field fence. Smith batted for Ragon in the seventh, and singled. Ragon did not allow a hit in the last two innings.

Pumps Vim Into Worn-out Men

If you feel tired and stupid, with no energy to get out and bustle; if you have spells of despondency and a desire to give up the life, you need new energy. The Vim is the strong. Show me a failure and I'll show you a healthy man in courage, strength and ambition, three essentials to the make-up of a successful man. You can take a man like that and pump new energy into his body while he sleeps, and in a few weeks transform him into a giant in strength and energy. It is proven that energy and electricity are one and the same thing. If you lack this energy you can get it only by filling your nerves with electricity. Electro-Vigor does this. Year & we're you sleep. Feel the invigorating stream of electric life in your nerves, its vitalizing spark in your blood. You wake up in the morning full of new life, new energy and courage enough to tackle anything. Electro-Vigor is an electric body battery which sends a steady current of electricity into the nerves and vital, building up vitality and strength and removing the cause and disease. No man can exist in a body charged with electric life. You can have no rheumatism, no weakness, no inactive parts, for the life generated by this appliance gives health and strength to every organ. Electro-Vigor is not an electric belt. It never needs charging, for it makes its own power constantly. "Electro-Vigor Co." "Dear Sirs—After using one of your Electro-Vigors for a month I can honestly say it has proven itself worthy of all the merits claimed by its users. I began treatment for sexual weakness with your appliance and it has certainly

AUTOMOBILE SCHEDULE OF RATES CHANGED

Legislative Committee Alters Slightly the New Bylaw Covering Cab Service

Amendment Takes Cognizance of Necessity of Using Chauffeur for Each Car

Following arguments by representatives of the Motor Transportation company, the legislative committee of the city council again revised the proposed schedule of rates of the new so-called "cab" bylaw. The amended bylaw was passed by the council last night. As originally framed up by License Collector Manarey, the proposed bylaw provided that in case of automobiles for hire by the hour, the charge should be: One to three persons, \$3; four to five persons, \$4; and six or more persons, \$5. The objection to this was that it took no cognizance of the fact that it was necessary to furnish a chauffeur with each machine, which in the case of a party of five persons would make necessary the use of a seven passenger touring car. The committee revised the hourly rates to read: One to three persons, \$3; four persons, \$4; and five persons or over, \$5 per hour, divided into an hour, divided into fifteen, thirty and forty-five minutes on a proposed basis of the foregoing schedule was left intact except for an amendment permitting a minimum charge of \$1. The schedule of rates for service under an hour was figured out by City Solicitor Moffat as follows: For fifteen minutes or under—One to three persons, \$1; four to five persons, \$1.50; six or more persons, \$2.50. The committee also decided to leave unchanged the title of Building Inspector Sylvester to Superintendent of the Department of Building. The section for fifteen minutes and not exceeding thirty minutes—One to three persons, \$1.50; four to five persons, \$2; six or more persons, \$2.50. The section fixing the rates for not exceeding forty-five minutes—One to three persons, \$2.25; four to five persons, \$3; six or more persons, \$3.75. The section giving the superintendent power to alter provisions of the bylaw in individual cases where such alteration is not in conflict with the spirit of the bylaw, subject to approval of the commissioners, also was left in the new bylaw following a lengthy discussion.

HOW AVIATOR PAUL PECK WENT TO HIS DEATH

Attempted Corkscrew Glide at High Rate of Speed and Lost Control of His Biplane

Struck the Earth When He Was Travelling at the Rate of 100 Miles Per Hour

Was a Colonel On the Staff of Governor Glasscock of West Virginia

Chicago, Sept. 15.—Paul Peck, practicing in his Columbia Gyro at Cleveo tried for the international aviation meet that begins today, dove spirally into the ground to his death at twilight yesterday. From an altitude of 1,000 feet Peck entered the perimeter of a cork-screw glide that alarmed aviators below for its abruptness. Descending faster than 100 miles an hour he found his till so steep that he could not "come out of the spiral." Every spectator among the several hundred at the aerodrome was held motionless for a minute after the ripping cries of "hon" all according to the inner debris of man and machine. John Shaffer lifted Peck from the wreckage. Chauncey M. Vought, a young flyer of several weeks' experience dashed up with a racing automobile he had found in the paddock. Rush in Auto To Hospital. Shaffer, tall and strong, carried the dying flyer to his car, where he held the stranger's machine at a limit speed out of the field and down Forty-Eighth street to the hospital at West Nineteenth street and Marshall boulevard. On Marshall boulevard three motorcyclists attempted to pass the dying automobile. The aviators paid no heed to the shouts of the pursuing men. At the hospital the motorcycle squad arrived several minutes after Shaffer had carried Peck into the institution. The car had gone as fast as sixty miles an hour, according to the speedometers on the motorcycles. Peck, in the relentless spiral, was hurled to the ground at 5:45 o'clock. He died about twenty minutes later. His wounds consisted of a fractured skull, crushed arms and legs, and internal injuries. His glasses and goggles were scattered about the wreckage. Regarded As Expert Birdman. Peck was 22 years old and a native of Charlottesville, W. Va. He was regarded as one of the best aviators in America. In mentioning his death, his wife, who died in childbirth five months ago, he wore a band of crapes on his coat. The baby girl survives. Peck was colonel at the Clearing aerodrome from Cleveo, a moving spot was sighted flying apparently from the Cleveo field. "Here comes Peck!" "Look at him spiral!" shouted hundreds. When slightly north of the race track, he was spotted as a small aerodrome, she had suddenly tilted backward in such a manner that it was impossible to see that it was not Peck's monoplane or any machine in evolution. After a few jerky thrilling twists out of the cork-screw course, the bird disappeared from sight. By telephone from Cleveo it was learned that Peck had engine trouble and had not started. Beach Explains Death Fall. "It was identical to the experience that Peck had," said A. C. Beach, aeronautical engineer for the National Aeroplans company, a witness of the accident. "Peck came down fast in his small spiral. His machine was new to him. He was used to larger wings and had tilted so steeply that he was gripped in a side which his control could not pull him out of. There were two shivers. Then it was all over." When John Shaffer lifted the crumpled upper plane, the body of the aviator was still in the seat. Peck's hands tightly held the control wheel. His head was caught between the wheel and the upper plane, which fractured his skull. The heavy Gyro motor had crushed his limbs. The Columbia-Gyro machine in which he died was on its first practice test. It was shipped to Chicago for the international meet Sept. 15, which Peck expected to outfly all other biplanes. "She's just like a baby carriage," Peck had been the pleasant comment of Peck after two circuits of the field at 4 o'clock. He had descended because he had found an intake valve on one cylinder of the new motor sticking. "Easy Riding As Hobby Horse." "I never thought a control could be so sensitive," he said. "It is just as easy as riding a hobby horse. After this no more big wings for me. These now are twenty-five feet wide and of 208 square feet. Now I'm going to have one 100 feet square." Peck had flown after Glenn L. Martin, the California flyer, had captured about in the air for several minutes limbering up his flexible machine for the meet. Martin came down to report the wind was steady, and not dangerous.

Toronto Man Cured of Intolerable Itch

Sealers of Canada May Ignore Treaty

Men Charge the United States With Violating Pact

Vancouver, B.C., Sept. 15.—Following the failure of the Canadian government to compensate the sealing men of Victoria, who, after the sealing treaty between Great Britain, the United States, Russia and Japan went into effect, lost their main source of livelihood, the masters of the schooners now laid up will next year apply to the customs department for licenses to go on sealing cruises. Several sealing companies yesterday announced that they had decided to take away for useless compensation is forthcoming soon. A short time ago representatives of the four nations interested in the treaty conferred at Washington, when it was decided to compensate the Canadian sealers to the extent of \$200,000. The American government was to give this sum to the Canadian government, which in turn was to appoint a commission to allot the compensation money. So far the Americans have failed to live up to their end of the agreement and consequently the sealers feel that they are being unfairly treated. As a result of the adoption of the treaty, the sealing men were refused licenses to go sealing in the Pacific this year, and the schooners have been lying idle. Captains Feel Confident. Application will be made toward the end of the present year by the captains of the sealers for licenses, and they do not expect a refusal. Some of the vessels should get away for the California coast by the end of December, but the majority do not go until the beginning of March, as the Indian hunters will not leave the reservations prior to that time. The schooners that leave early take white hunters. If the sealing men are granted their licenses next year, the season should prove the most profitable that the owners have had for some time. Following a whole year without sealing, there should be many seals in the Pacific next season. It is not known just what schooners will go to sea, but the fleet probably will be small, smaller than that has ever left here, as some of the best sealers have been displaced by their owners during the last three months. August's Trade Disputes. Ottawa, Sept. 15.—The department of labor's record shows the influence of labor disputes upon industrial conditions during August to have not been so serious as during July, fewer disputes being recorded as in extension. An improvement, too, over July conditions is seen in the fact that for the 17 disputes which commenced during August a definite termination occurred in the case of 11. Transportation in different sections was considerably interfered with by strikes. These were, however, of short duration in most cases and conditions were generally normal towards the end of the month. About 5,500 employees were involved in the trade disputes during August. Magnets Remove Screw From Windpipe. Cincinnati, Sept. 15.—Sherlock Bobb, six years old, swallowed a screw one inch long, three years ago. It sidd down into his windpipe, and gradually worked down to a position where it was impossible to reach it, causing the youngster intense pain. The baffled family physician called in Dr. John Rankin, an eye specialist. He suggested the use of a magnet. This was agreed to, and in less than five minutes the screw was removed. The lad is recovering. Quebec Legislature Date. Quebec, Sept. 15.—The date of the opening of the Quebec legislature has now been definitely fixed for the fifth of November next.

PORT NELSON NOT FINALLY CHOSEN

Hon. Mr. Cochrane Says Both Proposed Terminals Have Claims and Also Defects

Ottawa, Sept. 15.—There is absolutely no foundation for the despatch sent out from here some days ago to the effect that Hon. Frank Cochrane had decided upon Port Nelson as the terminus of the Hudson Bay Railway. "You can say that neither Nelson nor Churchill has yet been decided upon," said the minister of railways and canals, this afternoon, when asked regarding the matter. "There are many important considerations to be taken into account before a decision is announced," he continued, "both ports have claims and both have defects. We have no lack of information in our possession as to the advantages, possibilities and drawbacks of each, as a future harbor, and in making a decision the government will be guided absolutely by what is considered to be in the best interests of the route, the people of the west and the country as a whole. "An early decision will be reached, but the question must be thoroughly gone into in cabinet council." Fire Chiefs Honor Brighthouse. Los Angeles, Cal., Sept. 15.—The twentieth annual meeting of the Pacific Coast Association of Fire Chiefs was closed today with the selection of Toronto as the next meeting place. Fire Marshal E. Brighthouse, Seattle, was elected secretary. Quebec Legislature Date. Quebec, Sept. 15.—The date of the opening of the Quebec legislature has now been definitely fixed for the fifth of November next.

SEALERS OF CANADA MAY IGNORE TREATY

Men Charge the United States With Violating Pact

Vancouver, B.C., Sept. 15.—Following the failure of the Canadian government to compensate the sealing men of Victoria, who, after the sealing treaty between Great Britain, the United States, Russia and Japan went into effect, lost their main source of livelihood, the masters of the schooners now laid up will next year apply to the customs department for licenses to go on sealing cruises. Several sealing companies yesterday announced that they had decided to take away for useless compensation is forthcoming soon. A short time ago representatives of the four nations interested in the treaty conferred at Washington, when it was decided to compensate the Canadian sealers to the extent of \$200,000. The American government was to give this sum to the Canadian government, which in turn was to appoint a commission to allot the compensation money. CLERGYMAN GETS INTO BARS AFTER CLOSING UP

Rev. S. L. Toll Creates Excitement in Windsor and License Inspector Will Act

Windsor, Sept. 15.—Rev. S. L. Toll, pastor of the London Street Methodist church, has caused some little excitement among local hotel keepers and others. On Saturday night last, with two of his church members, he visited a number of the local hotels. The trio say they succeeded in gaining admission in the bars of the first three hotels visited. "In one hotel we found fifteen men and a woman with a child in her arms," said Mr. Toll. "In another we found ten men in the bar, and at still another hotel, two. We later returned to the one we had first visited, and again found over thirty men in the bar. "My intention," said Mr. Toll, "was not to have hotel keepers fined, but to convince the authorities that the liquor law is not being enforced." License Inspector Focused today held complaints against the hotelmen implicated. Rev. S. L. Toll will stand back of his statement in court.

TO BUILD A SCHOOL HOUSE FOR THE CAR SHOPS

Building Committee Will Go Out to Ogdon This Morning and Select a Site

The building committee of the Calgary Public School Board will take a trip to Ogdon car shops this morning for the purpose of locating a cottage school in that district. There are over thirty families in the district, and the board considers it necessary that a school should be built there. The site will be about thirty children to be placed on the rolls when the school opens. The board are also considering the advisability of building in Astadore. This district during the past year has developed so rapidly that a school is absolutely necessary. With these schools and the necessity of building another at the Parkdale addition, coupled with the congested conditions at Riverdale, Crescent Heights, and Hillhurst, the school building committee is kept busy.

NEW ANESTHETIC WHICH IS VERY SUCCESSFUL

New York, Sept. 15.—A new anesthetic, with which the patient is lulled quietly to sleep by the odor of oranges instead of with the struggle that attends the use of ether, has been discovered. It has been used with five operations at Brooklyn naval hospital, and with such startling success that J. C. Bryner predicts its adoption for both navy and army. The new anesthetic is based on the odor of essence of oranges, which is ten times stronger than the odor of ether. The patient smells this vaporized essence, which is then gradually mixed with ether, the change from the one to the other being imperceptible. As demonstrated in five operations at the hospital and confirmed by upwards of 200 experiments performed by its discoverer, the new process has advantages of being much safer than the use of ether alone, taking only half the time to administer, being much less costly, doing away entirely with the patient's struggles, and is followed by quick recovery and no sense of nausea.

SLIGHT DECREASE IN COST OF LIVING IN CANADA

Ottawa, Sept. 15.—According to the record of industrial accidents maintained in the department of labor, that of the month of August showed that 88 workmen were killed and 305 injured as compared with 101 fatal and 472 non-fatal accidents during the month of July, or a decrease of 20 in the number of fatal and an increase of 35 non-fatal accidents as compared with the record of July. The largest number of fatalities occurred in the building trades and in the steam railway service, there being 11 workmen killed in the former and 35 in the latter. In the metal trades and steam railway services the largest number of non-fatal accidents occurred, the record being 65 in the case of the former and 83 in the latter.

PORT NELSON NOT FINALLY CHOSEN

Hon. Mr. Cochrane Says Both Proposed Terminals Have Claims and Also Defects

Ottawa, Sept. 15.—There is absolutely no foundation for the despatch sent out from here some days ago to the effect that Hon. Frank Cochrane had decided upon Port Nelson as the terminus of the Hudson Bay Railway. "You can say that neither Nelson nor Churchill has yet been decided upon," said the minister of railways and canals, this afternoon, when asked regarding the matter. "There are many important considerations to be taken into account before a decision is announced," he continued, "both ports have claims and both have defects. We have no lack of information in our possession as to the advantages, possibilities and drawbacks of each, as a future harbor, and in making a decision the government will be guided absolutely by what is considered to be in the best interests of the route, the people of the west and the country as a whole. "An early decision will be reached, but the question must be thoroughly gone into in cabinet council." Fire Chiefs Honor Brighthouse. Los Angeles, Cal., Sept. 15.—The twentieth annual meeting of the Pacific Coast Association of Fire Chiefs was closed today with the selection of Toronto as the next meeting place. Fire Marshal E. Brighthouse, Seattle, was elected secretary. Quebec Legislature Date. Quebec, Sept. 15.—The date of the opening of the Quebec legislature has now been definitely fixed for the fifth of November next.

SEALERS OF CANADA MAY IGNORE TREATY

Men Charge the United States With Violating Pact

Vancouver, B.C., Sept. 15.—Following the failure of the Canadian government to compensate the sealing men of Victoria, who, after the sealing treaty between Great Britain, the United States, Russia and Japan went into effect, lost their main source of livelihood, the masters of the schooners now laid up will next year apply to the customs department for licenses to go on sealing cruises. Several sealing companies yesterday announced that they had decided to take away for useless compensation is forthcoming soon. A short time ago representatives of the four nations interested in the treaty conferred at Washington, when it was decided to compensate the Canadian sealers to the extent of \$200,000. The American government was to give this sum to the Canadian government, which in turn was to appoint a commission to allot the compensation money. So far the Americans have failed to live up to their end of the agreement and consequently the sealers feel that they are being unfairly treated. As a result of the adoption of the treaty, the sealing men were refused licenses to go sealing in the Pacific this year, and the schooners have been lying idle. Captains Feel Confident. Application will be made toward the end of the present year by the captains of the sealers for licenses, and they do not expect a refusal. Some of the vessels should get away for the California coast by the end of December, but the majority do not go until the beginning of March, as the Indian hunters will not leave the reservations prior to that time. The schooners that leave early take white hunters. If the sealing men are granted their licenses next year, the season should prove the most profitable that the owners have had for some time. Following a whole year without sealing, there should be many seals in the Pacific next season. It is not known just what schooners will go to sea, but the fleet probably will be small, smaller than that has ever left here, as some of the best sealers have been displaced by their owners during the last three months. August's Trade Disputes. Ottawa, Sept. 15.—The department of labor's record shows the influence of labor disputes upon industrial conditions during August to have not been so serious as during July, fewer disputes being recorded as in extension. An improvement, too, over July conditions is seen in the fact that for the 17 disputes which commenced during August a definite termination occurred in the case of 11. Transportation in different sections was considerably interfered with by strikes. These were, however, of short duration in most cases and conditions were generally normal towards the end of the month. About 5,500 employees were involved in the trade disputes during August. Magnets Remove Screw From Windpipe. Cincinnati, Sept. 15.—Sherlock Bobb, six years old, swallowed a screw one inch long, three years ago. It sidd down into his windpipe, and gradually worked down to a position where it was impossible to reach it, causing the youngster intense pain. The baffled family physician called in Dr. John Rankin, an eye specialist. He suggested the use of a magnet. This was agreed to, and in less than five minutes the screw was removed. The lad is recovering. Quebec Legislature Date. Quebec, Sept. 15.—The date of the opening of the Quebec legislature has now been definitely fixed for the fifth of November next.

BRACKENBURY The biggest and best plug CANNING TOBACCO

City in Brief

Dr. Thomas H. Quirk, who with Mrs. Quirk, has been visiting in Calgary, returned to Calgary yesterday.

For keeping a disorderly house, Evelyn Wagner was fined \$100 and cost before Magistrate Sanders yesterday morning.

C. E. E. Usher, general passenger agent of the Canadian Pacific railway, is in the city registered at the Kings George.

On Sunday night another contingent of harvesters arrived in Calgary from the east. They were distributed in the southern districts.

Eleven building permits to the value of \$35,000 were issued yesterday by Building Inspector Sylvester. All of the permits were for residential dwellings.

Henry Vivian, M.P., who lectures to-night at the Central Methodist club rooms on "What Town Planning Will Do for Calgary," will arrive in the city at noon today.

Professor Eastman, who recently was added to the staff of the Calgary university, arrived in the city yesterday. A meeting of the faculty will be held this afternoon.

Dr. Scott, superintendent of the Calgary public schools, left on Sunday for Rochester, to accompany Mrs. Scott's mother, Mrs. Hosen, whom she visited during the present week under an operation.

Some of the Calgary gardens were slightly ripped with frost on Saturday and Sunday night. The damage was very slight, no reports have been received as to any damage being done to the crops.

Arthur Phillips will be brought before Magistrate Sanders this morning charged with pointing a gun at W. Green. The two had an altercation, which was, it is claimed, the cause of Phillips' action.

Charles Ledda, of Calgary, was arrested yesterday by Plain Clothesman Hale of the city police for dealing and trafficking in cocaine and other drugs. His case will come on Friday before Magistrate Sanders.

Joseph Anderson, of Camrose, is in the city. Mr. Anderson is one of the pioneer farmers of the Camrose district. He states that cutting his district commenced, last Thursday, and the crop promise to be the best for years.

The Calgary street railway made a clear profit of \$16,550 last month. The total revenue realized was \$67,831 and the operating expenses \$51,281. The total number of passengers carried were 1,145,327, and the profit was \$5,491 higher than for August 1911.

Before Justice Stuart this morning at the supreme court, four new barristers were sworn in. These were John Edward Brownie, B.A., James Craig, M.A., L.L.B., Frederick Stanley Albright, B.A., and Herbert Wilson, B.A.

John Crowe, of 308 11th Avenue, was knocked down by a train on Saturday night on 8th Avenue and 2nd Street East. He was badly shaken up, but not seriously hurt and was taken home in Graham & Buscombe's ambulance.

The Northern Electric company has obtained a permit for the building of a large six-story warehouse, to cost \$100,000, at the corner of Centre street and Eleventh avenue. The structure will be of steel and concrete, and will have a frontage of fifty feet on Eleventh avenue.

Thomas Miller was sent to the barracks for fifteen days for taking money out of Jimmy McDonald's pocket money. Magistrate Sanders yesterday. Miller admitted the money was his, but said he did not know what he was doing. This was not sufficient excuse and the accused was sent down.

Afternoon Healy called upon the city commissioners yesterday and asked for an explanation for the delay over the completion of the paving on Fourth street east. Commissioner Clarke explained that the work was being held up owing to the inability of the contractors to get sufficient crushed rock.

Jimmy Ingle, of Crescent Heights, was badly injured yesterday afternoon coming down the Riverside hill. His bicycle skidded and threw him. He lay unconscious for some time until a Bedington farmer, coming into the city, happened to see him. He was taken to a Riverside drug store and later removed to his home.

Loey Wom was arrested on Saturday night by Chief Cuddy on a charge of using opium. The police found him under the influence of the drug and also took from him a pipe and a quantity of opium. The police are trying to stamp out the practice and as a result, similar arrests are being made two or three times a week.

The application before Judge Simons yesterday morning on proceedings for the release of Baptiste Paul, a half-breed, charged with selling liquor in Indiana during the Stumpede, was dismissed. The judge upheld the decision of Superintendent Sweetapple and T. A. P. Frost, J.P., who sentenced Paul to three months imprisonment.

Provincial Organizer J. H. Mallett and C. E. Burrell, of the Canadian Order of Chosen Friends, will be present at a meeting of the local committee, No. 491, to be held in the Eagle Hall, First street west, this evening. Candidates will be initiated and an interesting meeting enjoyed by the members. The organizers expect to remain in Calgary for some weeks in order to boom the local branch of the order.

BICYCLES WILL BECOME FACTOR IN MILITIA

Ottawa, Sept. 16.—Col. The Hon. Sam Hughes, minister of militia, has introduced a unique feature in connection with Canadian militia war establishments.

For the purposes of inter-communication, the war equipment of a field artillery brigade will include bicycles, namely one with headquarters, one with each battery and one with the ammunition column. These bicycles will form part of the first line transport of the unit.

While this will be the first time this mode of transportation or communication has been introduced to the Canadian militia, bicycles have been used in the course of Great Britain and the United States and other countries.

If you are interested in suburban realty, either in buying or selling, the *Wheat* may be especially useful to you.

COL. WALKER MAKES PLEA FOR HOSPITAL

Seconded by Hon. W. H. Cushing and Mr. A. Allen, Asks for Civic Assistance

Committee Appointed to Negotiate Arrangements for Making It Municipal Institution

Colonel Walker, president of the Calgary General Hospital, Hon. W. H. Cushing and Mr. A. Allen, also members of the same board, made a strong plea last night before the city council for civic assistance for the hospital.

Following the address of the deputation, the council adopted a motion, offered by Alderman Sunnis and seconded by Alderman Caracallean, that a committee be appointed by the council to confer with a committee of the hospital board to negotiate arrangements to put the General Hospital on the basis of a municipal institution.

It is impossible to do any such thing," declared Hon. Mr. Cushing, briefly, after the action was taken.

Bylaw Was Impracticable. Colonel Walker, the first speaker, declared that even if the citizens had the loan of \$150,000 to the hospital for twenty years, secured by a first mortgage on the hospital property, it has been impracticable to adopt it.

The difference in the interest that the city would have had to pay on the deputation and that the hospital would have had to pay to the city for the loan would have been \$9,000 annually, while another \$4,000 a year would have had to go to the sinking fund, so that the hospital could really have borrowed money at a much less rate than another source.

The gist of Mr. Cushing's remarks was that up to 1907 the city had never contributed more than \$500 annually to the hospital. Since then the city contributions in cash had been \$41,912.50, excluding the years 1892 and 1894, of which no records could be found.

Help From Other Sources. As against this, the Women's Hospital Aid society and the Young Women's auxiliary have collected \$13,850.84 and \$2,500 in cash respectively, not to speak of other donations of linen, etc., while from other sources there had been donations amounting to \$26,723.25, and the government had given \$81,057.78. He dwelt on the great work done by the hospital, pointing out that \$4,000 worth of work was done last year alone for which no recompense was received.

Mr. Cushing emphasized upon the increased assets of the hospital under its present management, and challenged anyone to show a similar hospital anywhere that had achieved better results.

CARD OF THANKS. Mr. and Mrs. C. N. McClary of 1231 Fifteenth avenue west, desire to thank their friends for their many expressions of sympathy during the sickness and death of their little girl, Katie.

WARD.—Clarence Ward, age 34, died in this city on Sept. 16th. The remains were shipped from the funeral parlors of Harrison & Foster, 230 Twelfth avenue west, to his home at Maymont, Sask. for burial.

SAUNDERS.—William Shepard Saunders, beloved son of Mr. and Mrs. Murray S. Saunders, died yesterday at his home, 820 Second avenue, Sunnyside. The funeral will be held Wednesday afternoon at 2:30 o'clock from the family residence, where services will be conducted by Rev. Mr. Freeman, and the burial will take place in the family plot in the Union cemetery, under the direction of Undertakers Harrison & Foster.

McEELY.—Died in this city, James J. McEely. The funeral was held yesterday morning at 10 o'clock from the funeral parlors of Harrison & Foster, 230 Twelfth avenue west, to the Union cemetery, under the direction of Undertakers Harrison & Foster.

MINNEAPOLIS, Minn., Sept. 16.—Thirty-two business days in Minneapolis was the crop movement which shattered all records, after railroads had reported in 1,440 cars of grain to date. The estimated movement of a million bushels a day on the average since the figures started to come in, things ever totalled so soon after the beginning of the new crop year, which starts annually on September 1st.

MUST WRAP BREAD, SAY ALDERMEN TO BAKERS

"I had prepared a resolution," said Alderman Brockbank, "to present at this meeting that the council should not pass any more bylaws providing for disinfecting loaves until we had some assurance concerning the raising of money upon them. After consulting with a number of the city officials, however, we have decided that it would be best not to offer it in the case of these bylaws."

"However, there is no use going behind the back of the bakers and organizing the fact that the city is pretty hard up at the present time. I believe that the city commissioners should see that no more money is spent under these bylaws than is absolutely necessary."

The bylaws were passed. The numerous tenders received for the proposed reinforced concrete bridges over the Bow and Elbow rivers were laid over for another two weeks, with the commissioners in order to give them opportunity to offer something out of the mass of figures. The tenders range from \$40,000 to more than half a million for the various bridges and there is an amazing divergence between the two.

The council also adopted a recommendation of the commissioners that a committee of three be appointed to secure new samples of the various kinds of asphalt paving in the city and then have them sent away for tests. This action was taken in view of the charge set up by the Bitulite people that a mistake must have been made in the sending of samples to the New York expert who found that of three supposedly different kinds of paving laid in Calgary for years past, they were all "subsequently alike."

A representative of the Canadian Mineral Rubber company which took part in the tendering for the road to the Bitulite people for a lesser price, protested against the action, urging that it was ridiculous to suppose that a mistake could have been made in sending away the samples and insisting there was some ulterior motive behind the transaction. No head was taken of the protest, and Mr. Moffitt pointing out that the best way to settle the question was to have new samples taken and analyzed.

PROGRESSIVE CANDIDATE ON CAR STREETS

Who is Selected for the Bull Moose Candidate for the Governor of New York

Colonel Walker, president of the Calgary General Hospital, Hon. W. H. Cushing and Mr. A. Allen, also members of the same board, made a strong plea last night before the city council for civic assistance for the hospital.

Following the address of the deputation, the council adopted a motion, offered by Alderman Sunnis and seconded by Alderman Caracallean, that a committee be appointed by the council to confer with a committee of the hospital board to negotiate arrangements to put the General Hospital on the basis of a municipal institution.

It is impossible to do any such thing," declared Hon. Mr. Cushing, briefly, after the action was taken.

A TASTE OF HEALTH IS SWEET

of Health is Sweet Grape-Nuts

—a partially pre-digested food will make a change in one's feelings when it is used with a bit of cream.

For breakfast add one soft-boiled egg, a little fruit and a cup of Postum—then quit.

Out out the meat, bread, butter and potatoes.

In a few days Dame Nature will sing her song of Joy to you.

Do not? Have a try.

By the way, did you ever read that little book, "The Road to Wellville"? Miniature copy found in packages of Grape-Nuts.

Canadian Postum Cereal Co. Ltd. Windsor, Ont.

JUVENILE BOSTONIANS

Last night, for the first time since the opening of the Sherman Grand, the Lyric Theatre had a first-class attraction for its offering in the "Juvenile Bostonians," who have long been favorites with Calgary audiences, and they have not lost any of their luster in the city.

The "Bostonians" who have long been favorites with Calgary audiences, and they have not lost any of their luster in the city. The "Bostonians" who have long been favorites with Calgary audiences, and they have not lost any of their luster in the city.

Work on Pioneer Plant Resumed October First

Industrial Commissioner Miller is in receipt of a wire from E. M. Wheelock, president of the Pioneer Tractor Company, intimating that the company will, on October 1st, resume work upon the building of their large plant in the eastern portion of the city. The foundations for the buildings were laid this summer, but owing to the difficulty in getting a supply of brick and steel the work had to be discontinued for a while. The brick is now on the ground and the steel ordered and the brick construction of the walls of the buildings will be begun upon October 1st and the work continued until the plant is finished. It is expected the plant will be completed early this winter, and by February or March tractors will be turned out from it.

The largest of the buildings included in the plant is 800 feet in length. The plant when in operation will employ 300 men, all of whom will be skilled mechanics. Mr. Wheelock arrives in Calgary Monday to take charge of the building operations.

(CLIPPING FROM CALGARY PAPER, SEPT. 11)

A Portable House Plant Locates at Victoria Square

Announcement was made on Wednesday morning that one more important manufactory has been located at Victoria Square through the efforts of Lavender & Horner. The Western Construction Company, having an ample capital, has secured two blocks there. They will at once commence the erection of a large plant for the manufacture of portable houses. These houses are used for garages, camps and cottages, and numerous firms are engaged in their manufacture in the East. The machinery for the plant has been ordered, and it is expected it will be completed and in operation before winter. It will employ about 40 men at the start, and this number will be increased very shortly.
