## THE LATE MRS. JOSEPH HASTINGS

At the residence of her son, John Hastings, Windsor, there passed away on Tuesday, Nov 22nd, a former resident of Brooke Township in the person of Mary Newell, relict of the late Joseph Hastings, in her 80th year.  
She had been enjoying excellent health up to about two weeks before she passed peacefully away.  
The remains were brought from Windsor on the 12.44 train, Thursday. The funeral was from the G. T. R. station to St. James' Church, of which church the deceased was a member, where the service was conducted by the rector, Rev. S. P. Irwin. She was laid to rest in the family plot in St. James' cemetery.  
Two daughters and three sons survive, namely: Mrs. Holleran, Sarnia; Mrs. Lowry, Aylmer; Thomas, Ennisville; Isaac, Watford, and John of Windsor, predeceased her about two years ago.  
The pallbearers were: Isaac Foster, Thomas Foster, Isaac Kadey, Arthur Newell, Sam McLellan and Dan Kelly.

## BASKETBALL

On Monday a team of ex-students of Strathroy Collegiate journeyed to Watford where they engaged the local High School boys in a friendly game of basketball in the Armory. To further add interest to the evening, the High School girls staged a game with graduates from their own school.  
The boys' game was fast and exciting. Score at first half was 11-10 in favor of Watford. In the second half the visitors' superior combination and experience told, and they emerged the victors by the total of 27-19.  
The second game was the more amusing of the two. Although handicapped by lack of practice, the graduates applied themselves with such vigor that, in the early stages of the game the High School girls were kept hustling to retain the lead. At the end of the first half the students led by 13-9 but in the latter stages of the game they forged ahead winning by 22-12.  
A good crowd attended and expressed themselves well satisfied with the games.

#### NOTE AND COMMENT

"Six Hens for Sale. Some laying \$2.00 each."—Advert in the Westchester Express.

The wages of Telephone employees in Canada amount to over sixteen million dollars a year.

The 5-cent loaf is coming back all over the United States, according to the Department of Labor, due to the tumble in wheat.

The Bothwell Times observes that since women were granted the right to vote there is a mark of activity on the line fence, and meals are chiefly bean soup, hash and cold tea.

There were 890 printing and publishing concerns in Canada in 1920 employing 8,505 wage earners whose wage mount up to \$6,587,627.00. The value of the products of these offices is \$20,325,123.00.

One of the reasons for the big spread between the price paid to the farmer for his cattle and the cost of meat to the consumer is the insistent demand of the latter for hind-quarter cuts, when equally nourishing roasts and steaks from the forequarter can be had for half price or less.

A Turkish newspaper speaking of the Young Turk party, says: "Those scoundrels to whom we trusted our destiny are leading us into the bottomless pit." And an American exchange adds: "A good many people in Europe and America are hoping that they will reach their destination."

Admiral Earl Beatty scored his first Canadian triumph when he took the capital by storm Saturday morning. In sharp winter weather and driving snow, thousands of people jammed the Central station and the streets leading to the City Hall to catch a glimpse of the famous sea fighter and to cheer.

Admiral Lord Beatty, the hero of Jutland, received a grand oration at Toronto on Monday. He breakfasted at Government House with Lord and Lady Byng and Lieutenant-Governor Cockshutt and was officially received at the City Hall by Mayor Church. A great crowd wildly applauded and cheered as he drove through the streets.

The "little red school house" of our father's time does not now contain the same kind of teacher that it did in days of yore. What was good enough possibly for us is not good enough for our children. They must live under conditions constantly becoming more complex. Then give the country child a better chance.—Banker-Farmer.

Detroit is to have trackless trolley cars, the proposition having been approved at the recent city election. They will be operated by a municipal traction company, also approved by the voters. With approximately 1,300,000 persons living in Detroit, Highland Park and Hamtramck, two towns entirely surrounded by the big city, the Detroit officials of the new traction company hope to honeycomb the streets of the city with the trackless cars and give people the most complete traction service of any city in the country.

Vancouver Province.—The British Government was the first of the sea powers to begin the program of naval disarmament before the Washington Conference, and is the first to suspend construction pending the Washington decision. Work on the four British cruisers which were intended to be the strongest and most effective ever built was stopped this week. The Admiralty does not propose to pay for work that is to be scrapped before it is completed. Thus Britain seems to be taking the limitation proposition more seriously than its authors. For it is stated that work is still proceeding in the United States on ships that are marked for the scrap heap.

#### HALL'S CATARRH MEDICINE

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

Cancer sufferers will soon be able to receive radium treatment in London, a bequest of \$10,000 having just been received by St. Joseph's hospital there from a lady patient in the institution whose death occurred recently. Dr. Alexander Moir, who has been taking a special course in the application of radium, will be in charge of the new department, which opens December 1st.

Seven officers and 35 privates, the last of the four and a half million men constituting the British expeditionary force, have embarked at Calais for England, after an absence of seven years. No official ceremony attended the departure. The French Government had suggested a send-off celebration, but the British War-Office decided otherwise. Private farewells on the quay, however, were extremely cordial.

There will be 2,000 miles of organized aerial highways in Australia shortly. The Australian Federal Government has just accepted tenders for aerial mail services from Adelaide to Sydney and from Sydney to Brisbane. Handyside monoplanes of 360 horsepower will be used. The Government is also inviting tenders for a similar service for Central Queensland. An aerial service has already been inaugurated along a considerable portion of the West Australian coast.

John Eadie, bachelor, aged 80, applied for a license to marry Mrs. Alice Temple, aged 65, a widow of Toronto. Mr. Eadie is a sheep rancher in rural Ontario. Forty years ago he came out from Scotland and has been living alone since then. He told the license issuer that he thought it time he married and settled down. He said he had not felt so well since prohibition came in, as he had been used to a wee drop as a constitutional. He looks about 65 and expects to live to be over a hundred years old.

St. John Globe.—An argument in favor of a gasoline tax is that it places the tax burden upon the vehicles which use the roads the most. An objection is that it taxes owners of trucks and delivery cars in the larger centres which are not driven outside the city limits and therefore are not using the Provincial or county roads. The fact that, with two or three exceptions, the States of the American Union impose a tax of this nature is the proof that it is regarded as a fair charge and a good revenue-producer.

This week a friend interceded with a business man in town for a job for a man who had a wife and four children, and whom, he said, was out of a job. Mr. Business man, who always likes to get back to "first principles" investigated the case, and found that a short time before the man had had steady work at 65 cents per hour, but his pay had been reduced to 55 cents and he at once quit the job. Any man with a wife and four children, who with winter coming on, will quit a 55c per hour job, does not care much for his family.—Kingsville Reporter.

Timothy Hay, in the Wingham Advance, discusses politics thusly:—"There was some talk among the shakers as to which party had the masht to do wid givin the vote to the wimmin. If you ask me, I'm about it he wud say it is no credit to anny av the parties. Thur are sivin votes in our house and only tree that I can be sure av for Jarge. I hev me bye that was in France an the hoired man awl safe, but my girrl is kapin company wid a U. F. O. lad so she can't be depinded on; a ship av a school teacher who boards here says she is going to vote Grit, while the missus tinks she will shtay at home an git the dinner, an not vote at all at all. Then, thur is my sister, Miss Hay, who says she can't vote intelligently til she hev seen the min, but she hears that Jarge shud come and see her some day, fer if he des, I am sure he can git her. 'Tis a quare wuruld whin a man can't rule his own house."

# Canada for the Canadians

## What Is To Be Canada's Destiny?

Shall it be that through the destruction of the Tariff as proposed by both Crerar and King, the development of Canada is to come under the domination of the United States, to be followed by gradual financial domination and as a consequence, political domination?

—OR—

Is Canada's destiny to be that of a great free nation within the British Empire group of Nations, developing her boundless resources of mine, river, water power, forest, and cultivating her millions upon millions of acres of arable land? Is her development to surpass that of any other nation?

Shall her manufacturing industries develop her minerals and raw materials into implements and goods for the benefit and comfort of her people and for foreign trade?

Shall she become a self-contained nation within the Empire, her great railways interchanging, the products of factory and farm among her own people, and her ships sailing every sea?

Shall she maintain her integrity within the Empire and protect her farms and factories against unfair competition from foreign countries?

### IF THIS IS TO BE CANADA'S DESTINY THEN CANADA NEEDS MEIGHEN.

On December 6th, Canada should once again protect her farms, her factories and her workmen against the unsound theory of Free Trade, and should hold fast to her reasonable Protective Tariff, her national entity and her British connection.

On December 6th Canada should declare with no uncertain voice that she will not tolerate the false trade theories of visionaries and group leaders which tend toward her economic destruction, toward the separation of her people and the weakening of the ties that bind Canada to the British Empire.

On December 6th Canada should demonstrate unmistakably to the outside world her fixed determination to keep Canada for the Canadians.

On December 6th Canada's destiny is at stake.

## ABLE TO DO HER WORK

After Long Suffering Mrs. Peasey Restored to Health by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains, so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them as you please."—Mrs. J. F. PEASEY, 387 King St., Toronto, Ontario.

If you are one of these women do not suffer for four or five years as Mrs. Peasey did, but profit by her experience and be restored to health.

## SOME VOTING HINTS

A few days ago I talked with a young woman who had acted as clerk in a polling booth in the 1919 election. She said that when the votes were counted and checked over by the returning officer and herself, out of about 200 ballots 12 had to be thrown out as being incorrectly marked. Here are the things that caused these ballots to be discarded:

- (1) The voter wrote her name on the ballot.
- (2) The voter wrote the name of the candidate she wished to vote for.
- (3) The X was marked somewhere else than in the space provided for it.

Possibly not all the spoiled ballots were those of women voters, though, as being new at the game, it is probable that most of them were. The right thing to do is the simplest thing one could do, namely to mark an X in the space provided for that purpose opposite the name of the candidate you wish to vote for.

That is ALL.  
If you mark anything whatever on the ballot more than that X beside the name of the candidate, the ballot is spoiled.  
It is to be hoped that every woman voter will use her vote. Go to the polling booth on election day, even if you failed for any reason whatever to get your name on the list of voters. In a memorandum compiled by Alexander Smith, Barrister-at-Law, Ottawa, issued August 1, 1921, this statement is made relative to such cases: "If the Registrar leaves the names of persons off his lists they may vote on election day upon taking the necessary oaths (need not kiss the Book) and another voter whose name is on a list and who is resident in the division taking oath of verification, thus vouching for the applicant." (This applies only to rural voters, that is in rural polling divisions and in towns and villages of 2,500 population or less).—Diana, in Farmers' Sun.

## DOWLING-WEED

A pretty wedding was solemnized on Saturday, Nov. 19th, at the home of Mr. and Mrs. Morley Zavitz, Brooke Township, when their sister, Miss Frances Ann Dowling, was united in marriage to Mr. Claude William Weed, son of Mr. and Mrs. W. J. Weed, also of Brooke. Rev. J. Pollock, of Alvinston Baptist church officiated.

At twelve o'clock, the bride entered the parlor with her brother-in-law Mr. Morley Zavitz, to the strains of Lohengrin's Bridal Chorus, played by the groom's sister, Miss Eva Weed.

The ceremony was performed under an arch of evergreens entwined with tiny pink and white chrysanthemums. The bride looked lovely in her travelling suit of navy broadcloth, with gage hat and veil to match, and carried an arm bouquet of white carnations and ferns. She was assisted by Miss May Pepper of Paris, who

wore a pretty frock of brown satin and georgette and brown tatter's plush hat and carried pink carnations and ferns. Mr. Robert Dowling was best man. After the ceremony a dainty wedding dinner was served, about twenty-five guests being present. Amid showers of confetti and good wishes, Mr. and Mrs. Weed left for a short honeymoon to points east. On their return they will reside in Brooke Township.

The worms that infest children from their birth are of two kinds, those that find lodgement in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system, serve to repair the damage they have done.

Mr. Alf. McChesney, who underwent an operation in London some time ago, and who is recovering at his home here, had a pleasant surprise last Saturday, when his neighbors turned in and gave a day's plowing. Over 16 acres being plowed in one day.

A former resident of this locality, Niel Thorpe, died at Highland Park, Mich., on Saturday, Nov. 19th, at the home of his daughter, Mrs. Thos. P. Woods. He was in his 77th year. He was a native of Canada and was well known in the Counties of Lambton and Middlesex. He moved to Michigan in 1897, settling on a farm northeast of Brown City, living there until the death of his wife some ten years ago. He leaves to mourn his loss six children as fol-

lows: Mrs. Thos. P. Wood and Mrs. H. C. Stinson of Highland Park, Mich., Mrs. Lou. Cameron and Mrs. T. Thompson of Port Huron; Mrs. John L. Stinson of Maple Valley, and Millard Thorpe of Pontiac, Mich. Funeral services were held at the house on Sunday afternoon. On Monday the remains were taken to Arkona, Ont., and laid beside those of his wife and two of his children who died in infancy.

R. M. Pierson, of Burgoyne, has received word that he has been awarded the prize offered by the department of agriculture for the best acre of potatoes in the Junior Farmers' Association, the prize being a free course in the O. A. C., Guelph.

### A GREAT QUESTION

"Shall women be admitted to the ministry?" is a question which is just now agitating the Methodist people of Canada. The quarterly boards have been giving it attention, and in the course of a week or so they are expected to give their decision on the point. As on every question of importance that of a woman clergy no doubt has both its supporters and its opponents, while there may be some also, who care little what the decision may be. While we have not heard or read the arguments pro and con, it is not difficult to do a little guessing, and what we say is probably as applicable to other church bodies as it is to the Methodists. Supporters will naturally point to the active part taken by women in church affairs and ask, Why draw the line at the pulpit? Many church congregations of all denominations are there where the bulk of the work is done by the women members, but for whose activities it might be difficult to keep congregations together. Surely, it might be argued, women who have done so much good in other branches of church work should not be debarred from this particular one. Then there is the further argument that too few young men aspire to the ministry, and that if this is permitted to continue, before many years pass there will be empty pulpits in the land. Opponents of such an innovation will advance the old argument against woman pastors that they urged against women voters, namely, that the "women don't want it." The coming election will show whether or not this argument as originally used is a real one. There will no doubt be also the claim that it is unscriptural for women to preach, and some antis may even go so far as to quote Paul's injunction to the Corinthians to "let your women keep silence in the churches, for it is not permitted them to speak, but they are commanded to be under obedience, as also saith the law. And if they will learn anything let them ask their husbands at home, for it is a shame for women to speak in the church." There have been in modern times women preachers who have done immense good, and it may be that were the sex given opportunity to take the divinity course they would give as good an account of themselves as have the men. Another possible argument is that a woman can't make a good preacher and pastor and be an efficient wife and mother. This may be a genuine argument, for there is a limit to woman's as well as to man's capacity, and many a preacher of today will tell you that if he had to look after the children as well as preach and perform pastoral duties, either the preaching and pastoral work or the family would suffer from neglect. It may be—we have heard to the contrary—that the proposed women ministry would be bound to celibacy; if that is the case then one of the strongest arguments of the antis is at once disposed of. It is not at all likely that lack of vocal or rhetorical gifts is advanced as an argument against the admission of women to the pulpit, seeing that so many married men are convinced quite to the contrary. There are husbands who will tell you that when they have considered it the part of discretion to go upstairs with their shoes in their hands instead of on their feet that they have encountered women who as extempore speakers have men beaten to the late Roosevelt's frazzle, which, by the way, might be taken as an argument by "pros" who object to the use of notes or manuscript in the pulpits. However, we feel confident the question will be properly decided by the people immediately concerned.—The London Echo.

### Children Cry FOR FLETCHER'S CASTORIA

#### THE TREES OF OUR PLANTING

We saw an old man the other day planting trees and the thing looked both significant and interesting. If his enterprise proves successful, it will be long after he has quit this mortal life that it will reach its fruition and men will rejoice in the glorious beauty and shade and fruitfulness which he has helped to create; and that thought ought to help to inspire him to do his deed with care and thoroughness. In the long after years men will thank him for what he has done. Is not all of life something like the planting of a tree? If we live it well, there will be many who come after us who will have reason to rejoice in the abiding beauty which we have helped to create. Sometimes life seems so fleeting and transitory that we wonder if it leaves anything behind it which abides, but is not all that is beautiful in our modern society and civilization the result of the fine, good living of individual men and women who have gone before? They planted their tree and it grew into beauty and fruitfulness, and today we are able to rejoice because they lived and loved and labored so well.—Guardian.

## THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

### "FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the Gastric Juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal. "FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or Dyspepsia and enable you to enjoy every meal. Try it.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

### RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot Afford to Neglect It

Crofton, B. C.—"I was troubled for years with inflammatory rheumatism and rheumatic fever. I tried several cures for rheumatism, but did not receive any benefit from any of them. I had been in the hospital for months, being unable to walk. A friend advised me to try Dr. Pierce's Anuric Tablets. After taking the first bottle I began to improve, and after taking six bottles I had no more rheumatism. I think Dr. Pierce's Anuric is the most wonderful medicine that any one can take for rheumatism. I have recommended these tablets to several of my friends and they, too, have all been benefited by them."—Melville Collinson.

People are realizing that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs any one would do well to get Dr. Pierce's Anuric Tablets which are to be had nowadays at almost any drug store or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package and write for free, confidential medical advice.

### THE LATE WM. VANCE OF THAMESVILLE

Reeve John Vance of Thamesville on Monday received a telegram from Vancouver telling of the death of his eldest brother, Mr. William Vance in the western city. Death was due to heart trouble, from which deceased had suffered for some time. The late Mr. Vance, who was 67 years of age, was born in Durham county, in the Lindsay district, and at the age of 1 1/2 years came to Bosanquet township in Lambton with his parents, and in 1872 moved to Camden township, where he resided until 16 years ago, when he left these parts for the west, settling in Alberta. He gave up farming in Alberta last year and went to British Columbia, locating in Vancouver, where he resided at the time of his death. His wife predeceased him some seventeen years ago, one son, William, of Vancouver, surviving. The death of Mr. Vance is the fourth in the Vance family within the past 18 months, his mother and two brothers, James and Robert, having passed away during that time. Deceased leaves three brothers and two sisters to mourn his loss viz.: John and Taylor of Thamesville; Johnston of Inwood; Mrs. Daniel Buchanan of Zone township, and Mrs. Henry Hare of Forest. The remains will be brought east for burial, but as yet the funeral arrangements have not been completed.

### A NEW CHEESE ORIGINATED AT THE CENTRAL EXPERIMENTAL FARM, OTTAWA

A new, medium high flavour cheese has been originated by the Animal Husbandry Division of the Dominion Experimental Farms System. It is called "Meilleur Cheese," or "Le fromage Meilleur," and is being manufactured at the Central Experimental Farm, Ottawa. The process of manufacture is, briefly, as follows—

The milk is heated to a temperature of 90 degrees F. when it is rennetted and cut. The curds are then cooked at a temperature of 115 degrees F., and afterwards moulded and pressed, in one and three pound sizes, ready for the curing room. The process of curing is one of the most important features in the successful manufacture of this high class product.

This new cheese possesses a very pleasing and delicate flavour with no objectionable odor, and has been pronounced a very superior product by the numerous experts and connoisseurs by whom it has been tried. It is a distinct and valuable acquisition to the cheese industry and the present indications are that it will meet with a very popular demand.

### DECEMBER 1921

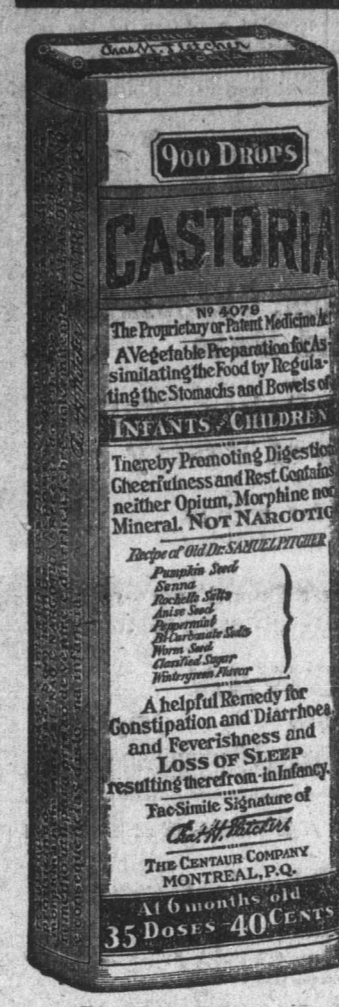

Hail old December take your staff  
Your steps are shortened about half,  
Your weary limbs have done their share

And frost, and snow, are in the air,  
And yet this month we can't despise  
The other months have left us wise  
What we've compressed, December's gales  
Will rig our craft, and fill our sails.  
The other months we've been to school  
The cranium is nearly full,  
And supplemented we have here  
The sweetest season of the year.  
Friends near and far, from other zones  
Come to enrich, our happy homes,  
Before we know what we're about  
Our heart, and purse strings, open out.

In other months we sulk a bit  
And now and then a stingy fit.  
But old December keeps us young  
It swells our heart, and tames our tongue,  
If we could listen as we should  
December tells us to be good.  
The year is dying, and we sigh,  
Let every evil with it die,  
Our foibles, follies, which we know  
Be buried in December's snow,  
And every grudge, and bitter breath  
With malice, hatred, choke to death,  
Then old December's hoary hairs,  
Will make us fit to say our prayers.  
—W. E. LAWS.
