ONE KILLED, TWO BADLY HURT IN FREIGHT WRECK AT MAPLE STANDING TRAIN IS RAMMED

Brakeman Wilson Struck and Instantly Killed in Caboose—Engineer Harman of Thru Freight Injured in Leap and Fireman Hutchinson Injured Also—Fifteen Cars Derailed.

One man was instantly killed and two others seriously injured in a rear-end collision between a south-bound freight train and a standing way freight on the main line of the Grand Trunk Railway at Maple, Ont., Saturday night. An engine and fifteen cars were derailed and traffic had to be suspended. The accident is said to have been directly due to the failure of the way freight crew to protect their train.

Brakeman James Wilson of the way freight was killed while in the caboose. Engineer Harman of the thru freight sustained severe injuries when he jumped from the engine just before the engine struck the caboose. Fireman A. Hutchinson failed to jump in time and was very seriously injured, both his legs being broken and one of them had to be amputated.

G.T.R. Wreck at Maple

KILLED Brakeman J. Wilson, aged about 23, Allandale. INJURED. Fireman Arthur Hutchinson, aged about 25, Allandale, in Grace Hospital in serious condition. Engineer Harman, Allandale. Main line of Grand Trunk Railway at Maple Ont., about 20 miles from Toronto. Cause Way freight left unprotected on main line, and struck by another freight coming toward Toronto.

Engineer Harman and Fireman Hutchinson, came down the light grade at Maple, at a good rate of speed. Either there were no danger signals at all or else Engineer Harman failed to see them in time, and the engine was not more than fifty feet from the standing train when Engineer Harman thru in the emergency, pulled the whistle and pumped.

But the engine struck the van of the way freight with terrific force, killing Wilson who was inside. Fireman Hutchinson was thrown against the boiler in the engine and knocked unconscious. Medical aid was secured and the injured attended, the track was later cleared and the trains taken back to Allandale. Hutchinson was reached here at 2 o'clock yesterday morning, and was taken in the police ambulance to Grace Hospital. Dr. Gordon Rice decided to amputate his right leg in order to save his life.

Engineer Parker of the way freight, could not be located at a late hour last night. A thorough investigation will be made by railway officials today, and an inquest held at Maple on the body of Wilson.

Accused of kidnapping little Ivar Rubenstein, aged five years, from his home at 239 Simcoe street, on Wednesday, July 3, Joseph Neville, aged 26, was arrested on Saturday night by a constable after the little boy had recognized him when he passed by his home again. There is little doubt in the opinion of the police but that the man is insane and he will be held until the doctors decide he is to be kidnapped children. He took little Ivar to a barn and put the child to sleep there. The boy reached his home about 4 o'clock next morning. The Rubenstein boy told his parents that the stranger at first offered him candies to go, but when these failed to coax the boy, he threatened to shoot him. Terrified, the little fellow went with the man. They reached a barn a long distance off. The stranger took off his coat, put it over the child and the two fell asleep. When Ivar awoke the man had disappeared.

CYCLIST KILLED IN SIGHT OF THOUSANDS

Benjamin Wilson of Rochester Crashes Into Fence While Competing in Motorcycle Race at Exhibition Park and Meets Instant Death.

After daring death scores of times, Benjamin Wilson, age 32, a motorcyclist from Rochester and a former Toronto boy, was instantly killed when he lost control of his motorcycle and crashed into the fence at Exhibition Park Saturday afternoon. While his body was being carried away, the other contestants in the race threw wide their throats and with tense faces tore madly around the track. Morbid sightseers almost caused a riot in attempting to catch a glimpse of the latest victim of the speed craze. The races were held under the auspices of the Ontario Motorcycle Association, and a crowd of six thousand people attended. There were five entries from Rochester. Wilson was demonstrating the Jefferson machine.

Wilson was a skilled rider, it is stated. From the start of the race, he did not show conspicuously at each turn, being numbered amongst the tail enders, but nevertheless he was traveling at a great speed. While the majority of the other riders took the northwest turn with dexterity, Wilson shot dangerously near to the high board fence at the gate, several times. In fear of an accident, two doctors and members of the St. John Ambulance Corps stationed themselves at the white picket fence just past the gate.

Crashed Into Fence. The accident occurred at the seventh lap of the five mile race. Wilson, one of the last to come onto the stretch, tore down the track at 45 miles an hour. He hit the curve at a speed of 40 miles an hour. His machine bore straight into the fence. It swayed again and crashed into the fence, not more than 15 feet from where the doctors stood. The posts were broken off and 25 feet of fence torn away.

When the machine hit the fence, the rider shot into the air, turned a double somersault and landed on his head. The machine bounced into the air, somersaulted and struck Wilson as it fell. Death was instantaneous, the skull having been fractured in several places. The other riders continued the race, and at its conclusion the meet was called off.

An inquest was opened on Saturday night by Coroner Dr. Grigg. Will Self, E. K. Van Alstirk, Warrender L. Dolph and H. D. Ingles of Rochester, all riders, testified that a mechanical defect might occur in a machine at any time, and that none could be relied upon. The riders knew this and took chances. The jury brought in a verdict of accidental death, and from the evidence were of the opinion that a mechanical defect had occurred in the machine which caused Wilson to lose control of it.

Benjamin Wilson and another young man kept a shooting gallery on West Queen street, opposite Teraville, several years ago.

NEVILLE ACCUSED OF KIDNAPPING

Accused of kidnapping little Ivar Rubenstein, aged five years, from his home at 239 Simcoe street, on Wednesday, July 3, Joseph Neville, aged 26, was arrested on Saturday night by a constable after the little boy had recognized him when he passed by his home again. There is little doubt in the opinion of the police but that the man is insane and he will be held until the doctors decide he is to be kidnapped children. He took little Ivar to a barn and put the child to sleep there. The boy reached his home about 4 o'clock next morning. The Rubenstein boy told his parents that the stranger at first offered him candies to go, but when these failed to coax the boy, he threatened to shoot him. Terrified, the little fellow went with the man. They reached a barn a long distance off. The stranger took off his coat, put it over the child and the two fell asleep. When Ivar awoke the man had disappeared.

King's Prize Winner Honored

BISLEY CAMP, July 27.—(C. P.)—P. H. Hawkins of Toronto, King's Prize winner, says he found the wind very tricky, varying as much as ten degrees. Officers, members of the team and a few friends dined together Saturday night. Major Birdwhistle, in complimenting Hawkins, said the Dominion would feel entirely satisfied with the result of this year's Bisley visit.

WILSON DEMANDS PUNISHMENT OF MEXICANS

Most Drastic Representations of Present Regime Are Made to Huerta Government—Demand Arrest of Soldiers Who Shot Customs Officer.

WASHINGTON, July 27.—(Can. Press).—Strong representations, the most drastic in phraseology that have been made since the present American administration came into power, were made to the Huerta government in Mexico today.

The United States Government demanded not only the prompt arrest, court-martial and punishment of the Mexican federal soldiers who shot Charles B. Dixon, an American immigration official at Juarez, Mex., but the immediate release of Charles Bissell and Bernard McDonald, mining managers, imprisoned by federal soldiers at Chihuahua City, and said to be threatened with execution.

So serious were these incidents regarded in official circles that they overshadowed largely the theoretical consideration of policy which the visit of Ambassador Henry Lane Wilson had brought to a climax. The ambassador himself was so exercised over the developments in Mexico that he dictated two strong telegrams, one to the embassy at Mexico City and the other to the American consul at Juarez, and while Secretary Bryan slightly modified their tone, they were approved and promptly despatched.

Ambassador Wilson declined to discuss the affair, but he will probably explain his views on such happenings when he meets President Wilson tomorrow afternoon for a general discussion of conditions in Mexico.

President Studies Situation. The president had Ambassador Wilson's long report in hand today and studied it carefully. In the meantime, the ambassador would give no inkling of the recommendations he has in mind beyond the general statement that his plan would conserve the friendly relations between Mexico and the U. S. and protect likewise the interests of American citizens in the southern republic.

The demand that the soldiers at Juarez be court-martialed and that the guilty be punished is a much more pointed request that has hitherto been voiced by the American Government. Alton McDonald, who is Bissell's fellow prisoner at Santa Rosalia, is reported to be a British subject, the demands for protection covered both individuals and the American consul at Chihuahua was ordered to go to the extreme of precaution to prevent harm from befalling the two mining men.

Secretary Bryan was at the state department for a short time today conferring with subordinate officials in the Latin-American division. He stated later that the telegrams ordering an investigation constituted the only act that would be taken for the present, but that the American Government intended to pursue its enquiries vigorously.

Dixon Shot by Soldiers. Telegrams corroborating press accounts of the shooting at Juarez reached the state department today. There is little information about the state of McDonald and Bissell. It appears that they were en route to Parral in an automobile to bring out refugees when arrests at Santa Rosalia. The machine was confiscated and the two men taken to the city of Chihuahua, where news of their impending fate was carried to the border by Americans.

WEALTHY DODGER OF WOMEN SUED

Crack Tennis Player Declares She Was Deserted on Wedding Day by Millionaire Boston Lawyer.

SPECIAL TO THE TORONTO WORLD. BOSTON, Mass., July 27.—Alleging that she was deserted on her wedding day, Miss Mary L. Sullivan of Needham, a crack tennis player, has brought proceedings against her former fiancé, John B. Ross Lloyd, well-known Harvard athlete and Boston lawyer. The amount involved may be more than a million dollars. Miss Sullivan declares that on June 3 she was to have married Lloyd and went to considerable expense to procure the necessary outfit. On the morning of her wedding she received a letter which was a declaration from Lloyd that the wedding was "off." He forthwith, so Miss Sullivan says, left Massachusetts and she has been unable to locate him. She discovered that Lloyd some weeks before had made an assignment of his property and transferred his possessions to others. Believing that this was purposely done so that she could not profit by a suit Miss Sullivan has asked the courts to establish the amount of her damages against Lloyd, and has asked that the transfer of Lloyd's property be declared void.

Lloyd, who is a grandson of former Lieut.-Governor Bross of Illinois, has had a checkered career and has been in the limelight before. After a career in Stone School, Harvard, and at the Bussey Agricultural Institute, where he distinguished himself in athletics and especially as a member of various crews, Lloyd turned up in Chicago. He fell in love, it was reported, with a Buffalo girl, who was known as the "College Widow" among Harvard friends. However, the courts to establish the amount of her damages against Lloyd, and has asked that the transfer of Lloyd's property be declared void.

Lloyd, who is a grandson of former Lieut.-Governor Bross of Illinois, has had a checkered career and has been in the limelight before. After a career in Stone School, Harvard, and at the Bussey Agricultural Institute, where he distinguished himself in athletics and especially as a member of various crews, Lloyd turned up in Chicago. He fell in love, it was reported, with a Buffalo girl, who was known as the "College Widow" among Harvard friends. However, the courts to establish the amount of her damages against Lloyd, and has asked that the transfer of Lloyd's property be declared void.

Mechanical Defect. The other riders testified that a mechanical defect might occur in a machine at any time, and that none could be relied upon. The riders knew this and took chances. The jury brought in a verdict of accidental death, and from the evidence were of the opinion that a mechanical defect had occurred in the machine which caused Wilson to lose control of it.

Benjamin Wilson and another young man kept a shooting gallery on West Queen street, opposite Teraville, several years ago.

WOMAN DROWNED IN MIDDLE OF ST. LAWRENCE RIVER

Brakes on But Car Crashed Thru Gangway.

MONTREAL, July 27.—(Can. Press).—Two women were drowned in the St. Lawrence River, opposite Matoucheville, today, when an automobile in which they were sitting ran off the deck of the ferry steamer South and plunged into the river.

Mrs. Charles Morrison, 28 years of age, and Mrs. J. Cheyne, 26 years of age, both of Montreal, were the victims. Accompanied by their husbands, the women were on their way to Longueuil. The automobile, a seven-passenger car, was run on board the ferry steamer, the power cut off, brakes applied and skids placed in front and rear of the wheels. The men, including the chauffeur, got out of the automobile before the steamer left the dock, but the women remained aboard the car. About mid-river the machine suddenly started. Before anything could be done the car crashed thru the gangway and plunged into the river.

It all happened so quickly that no attempt was made to stop the machine as it rushed toward the side of the boat. The bodies are evidently pinned beneath the car, as they never appeared on the surface.

By no means does George Ham look like an ordinary prisoner, just freed. He wore a heavy tan on his face. He appeared quite healthy and in his own mind. (Continued on Page 3, Column 5.)

WILSON DEMANDS PUNISHMENT OF MEXICANS

Most Drastic Representations of Present Regime Are Made to Huerta Government—Demand Arrest of Soldiers Who Shot Customs Officer.

WASHINGTON, July 27.—(Can. Press).—Strong representations, the most drastic in phraseology that have been made since the present American administration came into power, were made to the Huerta government in Mexico today.

The United States Government demanded not only the prompt arrest, court-martial and punishment of the Mexican federal soldiers who shot Charles B. Dixon, an American immigration official at Juarez, Mex., but the immediate release of Charles Bissell and Bernard McDonald, mining managers, imprisoned by federal soldiers at Chihuahua City, and said to be threatened with execution.

So serious were these incidents regarded in official circles that they overshadowed largely the theoretical consideration of policy which the visit of Ambassador Henry Lane Wilson had brought to a climax. The ambassador himself was so exercised over the developments in Mexico that he dictated two strong telegrams, one to the embassy at Mexico City and the other to the American consul at Juarez, and while Secretary Bryan slightly modified their tone, they were approved and promptly despatched.

Ambassador Wilson declined to discuss the affair, but he will probably explain his views on such happenings when he meets President Wilson tomorrow afternoon for a general discussion of conditions in Mexico.

President Studies Situation. The president had Ambassador Wilson's long report in hand today and studied it carefully. In the meantime, the ambassador would give no inkling of the recommendations he has in mind beyond the general statement that his plan would conserve the friendly relations between Mexico and the U. S. and protect likewise the interests of American citizens in the southern republic.

The demand that the soldiers at Juarez be court-martialed and that the guilty be punished is a much more pointed request that has hitherto been voiced by the American Government. Alton McDonald, who is Bissell's fellow prisoner at Santa Rosalia, is reported to be a British subject, the demands for protection covered both individuals and the American consul at Chihuahua was ordered to go to the extreme of precaution to prevent harm from befalling the two mining men.

Secretary Bryan was at the state department for a short time today conferring with subordinate officials in the Latin-American division. He stated later that the telegrams ordering an investigation constituted the only act that would be taken for the present, but that the American Government intended to pursue its enquiries vigorously.

Dixon Shot by Soldiers. Telegrams corroborating press accounts of the shooting at Juarez reached the state department today. There is little information about the state of McDonald and Bissell. It appears that they were en route to Parral in an automobile to bring out refugees when arrests at Santa Rosalia. The machine was confiscated and the two men taken to the city of Chihuahua, where news of their impending fate was carried to the border by Americans.

Charles B. Dixon, immigration inspector, was shot, possibly fatally, Saturday afternoon by a squad of federal soldiers in the southern part of Juarez.

Dixon was arrested by the soldiers and later said he feared execution at their hands and tried to escape by running down an alley.

The federal authorities refused to allow the wounded American to be removed from the military hospital, where he was taken. Federal soldiers guarded the ward where Dixon lies, refusing admission to everyone except Dr. Tappan.

FALL FATAL TO JAMES MURRAY HORSEMAN OF NATIONAL FAME DEATH WAS QUITE UNEXPECTED

Should Buy Site in London for Government

LONDON, July 27.—(C.A. P.)—Earl Grey, who recently obtained a three years' option on an acre of ground on a 99 year building lease for the erection of new offices for the Dominion Government, says there is now danger of exception being taken to the site unless it is secured as freehold property. He communicated this to the high commissioner for Canada, who suggests that the site should be taken outright at the price quoted, \$85,000.

AWAITS CANADA'S DECISION WITH CONFIDENCE

England Is Sure That Naval Aid, No Matter What the Form, Will Be Given in Complete Loyalty, Says Lord Emmott, Leader of Parliamentary Visitors.

OTTAWA, July 27.—(Can. Press).—"We in the mother country await that decision with complete confidence in the patriotism of Canada's people, in their loyalty to the throne and empire, and in their firm determination to take a proper and adequate share in the burden we are called upon to bear."

Britain's feeling towards Canada as regards the naval question was thus expressed by Lord Emmott, under secretary of state for the colonies, and the leader of the British parliamentary party now in Canada, at the banquet given by the Dominion Government in the Chateau Laurier Saturday night.

Lord Emmott apparently gave the cue to the other speakers in his party in this leading thought in his address. The dinner was of an informal nature, and followed an afternoon of sightseeing. Both the prime minister and the leader of the opposition were unavoidably absent, and Hon. George H. Perley, in the absence of Mr. Borden, presided.

Mr. Borden Sends Regrets. The following message of regret was received from the premier: "I beg that you will convey to the members of the British parliamentary party, at the dinner, my deepest regret that I cannot be present to join in extending to them a warm Canadian welcome. I trust that their visit to the world-wide dominions of the empire may be not only enjoyable but interesting and instructive. It is of vital importance that the vision of statesmen, whether from the British

RAILWAY STRIKE WON'T BE CALLED

Eighty Thousand Workers in Eastern States Leave Differences to Arbitration—Managers Back Down.

NEW YORK, July 27.—(Can. Press).—The threat of strike of the 80,000 conductors and trainmen of forty-five eastern railroads for higher wages and improved working conditions will not be called. Articles of agreement to arbitrate under the Newlands Act the questions at issue were signed Saturday by the employees' representatives and the conference committee of railway managers.

The agreement was not reached until the managers had withdrawn the proposal that their own grievances against the men should be arbitrated. This claim, the managers announced today, they had relinquished to protect the public from a tie up which the employees intended to force if the railroads persisted in pressing their point.

ANGLER HOOKS MAN WHO IS DROWNING

Negro Made Expert Cast and Caught Him in Leg.

IMBEDDED IN HIS FLESH

New Orleans Fisherman Had Marvelous Escape From Death.

NEW ORLEANS, July 28.—William Klein, an upholsterer, of No. 1514 Euterpe street, an amateur angler, experienced a narrow escape from death just as he had finished preparations for a day's sport in fishing off the northern bridge over Lake Pontchartrain, about 500 feet from North Shore.

The presence of mind of John Landry, a negro, living at No. 110 North Liberty street, saved Mr. Klein from drowning. Landry cast a line and hooked Mr. Klein as the latter was sinking.

Mr. Klein, accompanied by his son, arrived at North Shore, and began walking the "long bridge." When about 500 feet from the shore, the crowd gathered on a small platform to permit an incoming local train to pass. Mr. Klein carried his fishing pole strapped across his shoulders. This was hit by the tender of the incoming train.

The upholsterer was thrown in the lake from the Marshall side of the bridge, landing in the water somewhat dazed. A swift tide running at the time carried Mr. Klein under the bridge and out into the lake.

Ropes were thrown to him, but he was helpless and was rapidly floating from the bridge. John Landry, the negro fisherman, threw his fishing line in the direction of Mr. Klein, fortunately striking him on the leg. The hook caught and the almost lifeless body was brought up and held at the surface.

Fastened a Rope.—Several men who witnessed the sensational rescue, climbed down posts and fastened a rope to the fisherman's body. He was held there until a small fishing craft was brought to Mr. Klein's side and later he was taken ashore.

It was not until some time after his son and several of the amateur fishermen worked on the prostrate form that the man revived.

Mr. Klein suffered pain as a result of the fish hook which caught in his leg when Landry threw the lucky line. The hook was deeply imbedded in the fleshy part of the leg and had to be cut out.

TORONTO REGION'S NATURAL HISTORY

Canadian Institute Publishes Book to Commemorate Visit of Geologists.

There is in the press at the present time a book entitled "The Natural History of the Toronto Region," which is to be published on Aug. 1.

The Canadian Institute in this remarkable publication has produced a work such as has never before been written of any city in America. In it is comprised the history, archaeology, climatology and natural history of Toronto and its vicinity for a radius of about 50 miles.

All the articles have been contributed by members of the institute, specialists in the subjects treated of. These comprise a specification of the flora and fauna of the Toronto region, with details, not alone as to species, but also of the places where they may be found. Interesting illustrations and important, up-to-date maps, detached and beautifully executed, accompany this book.

The aim of the institute has been to ensure that all the information contained in the work should be authentic, accurate, and up to date. This result the council of the institute feel they have attained.

Guide to Visitors.—The object of the publication of the book at this particular time is on the part of the Canadian Institute to contribute to the literature and to commemorate the first meeting of the International Geological Congress in Canada at Toronto, and to enable geologists in attendance at the congress to acquaint themselves with the natural phenomena of Toronto and its vicinity.

Which that purpose is served, the book will always fill a permanent and important place in the scientific literature of Ontario. The book is coming from the press of William Briggs.

NEW C. P. R. LINE.—KINGSTON, July 27.—(Special.)—Announcement was made today by a man closely in touch with railway affairs, that inside of one year or so the main line of the Canadian Pacific Railway would run thru Kingston.

He stated that it is the intention of the company to construct a new line from Kingston to Shannonville, there meeting a new line the company has constructed from Glentworth to Shannonville, thus making thru connection from Toronto to Montreal.

Prof. Mulveney.—WORMS! Yes, That's It! Worms is 'ie Trouble--

Many Suffer From Them and Do Not Know It

Many go to an early grave on account of them and they have been pronounced to have had brain fever or some other complaint.

OFFICERS NOT TO QUIT THE SERVICE

Official Denial Is Given Rumor of Contemplated Resignations in Toronto.

The World has received the following letter from Lt.-Col. H. M. Elliot, Editor World: With reference to the statement contained in The Toronto World, dated July 16, 1913, as follows: "Toronto's thin red line, represented by the Royal Canadian Dragoons and Royal Canadian Regiment of Infantry at Stanley Barracks, may be still further attenuated as a result of the sweeping indictment of a certain class of permanent officers, made by Col. Sam Hughes at the Halifax banquet."

It was stated last night that many of the regular officers contemplated resigning their commissions as a protest against the remarks of the minister of militia, and that their example would be followed all over the country.

Gen. Lessard has made full enquiries among the officers of the Royal Canadian Dragoons and the No. 2 Infantry Station, R.C.R., and desires me to say that your statement is entirely incorrect and without foundation. Be that as it may, therefore, to have the statement corrected in the next issue of your paper and oblige.

H. M. Elliot, Lt.-Col., A. G., 2nd Division.

J. OBED SMITH IS COMING TO CANADA

Chief Emigration Officer Will Address Several Canadian Clubs.

J. Obad Smith, the chief officer of the Canadian Government emigration service in Europe, sailed on Saturday per Royal Edward, for a short business trip to Canada, accompanied as far as Windsor by Mrs. Smith. Mr. Smith has been asked to address several Canadian Clubs on the question of emigration, which is now being understood by Canadians as the best business bringer the Dominion has.

Pointers for Civic Holiday Travel.

In view of the heavy rush of travel over Canadian Northern lines which invariably accompanies Toronto Civic Holiday, a few pointers will no doubt be welcomed by those who are planning to leave the city on that day.

Single fares for the round trip (minimum 25c) will be in force Aug. 2, 3 and 4, with Aug. 5 as the return limit from Toronto to all points in Canada via Canadian Northern lines east of Port Arthur.

BLOOR VIADUCT IS URGENTLY NEEDED

Rapid Development of Northeastern Section Is Teaching Lesson.

The July Bulletin of the Toronto Civic Guild says: "In view of the many articles which have appeared in The Bulletin advocating an equitable distribution of the park areas of the city, it is extremely interesting to learn that statisticians have found that the death rate of the larger cities of the continent is in direct proportion to the area of breathing spaces."

Dr. Alphonse Bertillon has stated that six per cent. of the Paris householders live in an atmosphere dangerous to health, and more than 1,000,000 inhabitants lack fresh air and light. In consequence of these statements an insistent demand is being made in Paris for a greater number of open spaces.

It is pointed out that lack of air and light is practically a synonym for tuberculosis. The death rate from this disease is almost in proportion of the open space to inhabited space. It is shown that Berlin has about twice as much "breathing space" as Paris, and London three times, while the proportion of deaths from consumption is 4.5 per 1000 in Paris, 2.2 in Berlin, and 1.5 in London.

OPEN SPACES MEAN SAVING OF LIVES

HUNDRED THOUSAND FOR "OLD QUEBEC HIGH"

Old Boys' Association Launch Campaign to Raise Endowment Fund.

Old boys of the Quebec high school, an institution famed thruout Canada as one of the foremost educational centres of this country, have launched a campaign to raise an endowment fund on behalf of their alma mater. The amount aimed at is at least \$100,000, and the fund will be applied towards increasing the teachers' salaries, the establishment of both school and university scholarships, and towards keeping the old pupils in touch with their former classmates and the school. The methods of raising the fund will be by subscription—life or annual—and by donations.

Crushed Between Cars. WOODSTOCK, Ont., July 25.—Arthur Legge of St. Thomas, brakeman on the C. P. R. way freight, was injured here this morning when two cars fouled and crushed him between them. No bones were broken, but he was badly crushed about the hips and internal injuries are feared. He was placed on the train for St. Thomas and a doctor accompanied him.

Half a Town Burned. BROCK, Sask., July 26.—Fire which broke out in a barn here spread rapidly and more than half of the town was wiped out. Two men are missing and are supposed to have perished. A special train carrying the Kindersley fire brigade and fully 900 people from the surrounding country were in town when the fire broke out.

MISS HASWELL IN AN UNUSUAL ROLE

Will Be "Glad" in Delightful Little Play of Optimism This Week.

Miss Haswell's selection this week, as has been announced, is indeed a happy one. Those who saw Miss Eleanor Robson and Miss Gertrude El-... (The Dawn of a Tomorrow) is exactly what its title indicates. It is a sincere, laughable, interesting, gripping play which holds its hold out for every ill...

Tiny Town: Model Municipality

Mr. Beaumont Smith, the director and organizer of "Tiny Town," has arrived in town. His remarkable community of miniature men and women, averaging only 42 inches high, will arrive this week. In an interview, Mr. Beaumont Smith said: "The town has now lasted two years, and all that time has been spent in Australia and South Africa..."

WOMEN'S SECTION

Daily Fashion Talks BY MAY MANTON

A HANDSOME GOWN OF CHARMEUSE CREPE

The gown that is made in semi-princesse style, closed at the front, is one of the most useful possible. It can be worn upon the street and within doors with equal propriety. It is ideal for the bridge luncheon, it makes a good costume for the afternoon visit and it is altogether satisfactory. The trimming portion on the blouse and the panel on the skirt afford opportunity for the use of fancy material and the little separate chemise can be made just as illustrated or without the collar. If liked, the sleeves can be made shorter...

Poppies.

How are your poppies? Look at them well and take notice whether they are in the best possible place that you could choose for them in your garden. Or can you find a better spot for next year? Unfortunately the lower leaves of these pretty grey foliaged plants are apt to become spotted and turn yellow, long before their blooming season is over. They are a prey to a destroying blight that very soon ridges the leaves from the stem. A simple medicated spray, either of whole-oil, soap lye or even the fine spray of clear water from the hose should be used constantly and early. Too much heat will turn the leaves a dirty yellowish brown. Too much shade and dampness will soon bring along a mouldy fungus, utterly destroying. And yet some people have the most perfect poppy collections that nothing seems to injure.

Vaudeville at Shea's Today

Today's matinee will usher in the regular vaudeville season at Shea's Theatre. Headed by the big vaudeville bill is Madame Benson and Company, assisted by the well-known dramatic star, Charles Dodsworth. In "The Woman Who Knew," the best of all dramatic offerings for this season, the special attractions on this week's bill are Angelo F. Pacifico, the great Italian piano virtuoso, and Europe's sensational acrobats, the Duo. Other feature acts to be seen are Claude Golden, Kramer and Morton, Toubert and Arnot Bros., Paul, Loro and Egan, and the Kineto-graph.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Marketing Series—No. 5 "No ocean yesterday, lady; no ocean, so no grape fruit today." A swarthy son of Italy was gesticulating with hand and shoulders in an endeavor to explain why he did not have the fruit Edith wanted.

Edith and her husband had accompanied Mr. and Mrs. Hart to the Saturday night market. It was a novel expedition to the young married folks, who watched the Harts with full attention and bought where Mrs. Hart directed. "I don't buy grape fruit in market very often," remarked Mrs. Hart. "They are too heavy and take up so much room in the basket. 'What have you on your list?' she continued. 'Eggs, fruit, meat for Sunday dinner and Monday night, and fresh vegetables,' answered Edith. 'Get some fruit that is in season,' advised Mrs. Hart. 'Here are raspberries that look fresh, and the man is measuring them up instead of having them in string little baskets.' 'Now for the meat stands,' said Mr. Hart, picking up his basket and leading the little procession into the market house. 'Go to the pork stand first, Tom,' called Mrs. Hart. 'Do you use pork in hot weather?' asked Edith. 'I use bacon; I broil it in the hot oven on a rack, then it is crisp, but not rich. Tonight I shall buy sliced liver and have fried it with bacon for Sunday breakfast, with hot buttered toast,' she answered. 'You get some, too, Edith,' directed Ned. 'There's nothing I like better.' 'You want something that will do two meals, I do not think anything is better than fowl, unless it is beef roast,' remarked Mrs. Hart as the meat man sliced the bacon. 'I know,' she continued mischievously, 'you must be tired of made-over beef dishes.' She was thinking of the three big porterhouse steaks Edith had purchased on her last trip to market, and how she had helped her to plan to use them in different ways. 'Never mind, Edith,' said Ned, coming to the rescue, 'that steak en casserole, with vegetables, was fine and I'll stand for it again.' 'Nonsense,' laughed Edith, 'I know a joke even when I'm ill. Now I am going to buy a nice fat hen and see if I can cook it.' 'This will get our chickens when we get the eggs; they are always nice there, and I want you to get acquainted with the dealer,' said Mrs. Hart. This completed their marketing and on the ride home Ned and Edith compared market prices with store prices, as quoted in the evening paper. 'Chicken 22 cents,' read Ned. 'We paid 18 cents,' said Edith. 'Eggs 35 cents,' he continued. 'These cost 31 cents—a saving of four cents there and sixteen cents on the fowl. That is twenty cents on two articles alone and pays our car fare.' 'I thought it was fun,' said Ned, 'to walk around and pick just what you want.' 'It is fun with you alone,' smiled Edith, 'but it is not fun to go alone and carry a heavy basket, so I am not promising to go every market day.'

Some gardeners claim that these plants are so uncertain, the season so short and the trouble required to bring them to even a small degree of perfection, so great, that other plants give so much more satisfaction, they are preferable to the poppies. But notwithstanding all the grumbling, there is something so utterly and indescribably lovely and ethereal about the silky short-lived tissue-like blossoms, the rosette-shaped of the leaves, surely nothing can compare to them. Then the seed-pods are truly decorative in themselves.

BRITISH AND FOREIGN MAILS. British and foreign mails (via England) will be closed at the general postoffice during the early part of August as follows: Friday, August 1, 6 p.m.; Monday, August 4, 6 p.m.; Wednesday, August 6, 6 p.m.; Friday, August 8, 6 p.m.

7781 Fancy Blouse, 34 to 42 bust. 7780 Four-Piece Draped Skirt, 22 to 30 waisted. of the skirt at the lower edge is 1 1/2 yards when the plaits are laid. The May Manton pattern of the blouse 7781 is cut in sizes from 34 to 42 inches bust measure; of the skirt 7780 from 22 to 30 inches waist measure. They will be mailed to any address by the Fashion Department of this paper, on receipt of 15 cents for each.

Name..... Size..... Address..... Six days should be allowed for the delivery of the patterns.

CHARMING MUSKOKA. The Muskoka Lakes, of which Lakes Muskoka, Rosseau and Joseph are the principal among, some 800 in this district, are secluded in some of the most beautiful scenery that can be imagined, 112 miles north of Toronto on the line of the Grand Trunk Railway. They are in the midst of the "Highlands of Ontario," and have become famous throughout the North American continent for the diverse attractions which they hold forth to the tourist, pleasure-seeker, sportsman and those in search of health. The curative odor of the balsam and pine and the preponderance of water area to land surface, together with the high altitude 7000 feet, above the sea) render hay fever impossible and perfect immunity from this annoying ailment is secured. The way to go is via Grand Trunk Railway, the line that made Muskoka famous. Train leaving Toronto 2:30 a.m. daily carries Pullman sleeping cars (open 10:30 p.m.) and coaches, making direct connection for Muskoka Lakes resorts, except Sunday, carries parlor-library-buffet car, parlor-library-cafe car and coaches, making direct connection at Muskoka Wharf for points on Muskoka Lakes. Tourist tickets at reduced rates, good to return until Nov. 30, are on sale to Muskoka resorts and week-end tickets at single fare, plus ten cents for round trip, good for any Saturday or Sunday and valid to return Monday following date of issue, are also on sale to a great many Muskoka resorts. Call at city ticket office, northwest corner King and Yonge streets (phone Main 4209) for copy "Muskoka Lakes" folder, tickets and full particulars.

THE TRIPLE TIE BY A. H. C. MITCHELL

(Continued From Saturday.) "Don't worry about that, sweetheart; come with me and he'll be along the edge of the brook until they came to the telephone in its box fastened to the tree. "Always Gordon!" "You are a regular Aladdin with his wonderful lamp, Gordon," said Mildred, slipping her arm thru his. "I am just dying to see all that lies beyond those two great granite pillars." "And I'm just crazy to have you see it all, sweetheart, for it's all yours now, and I hope you'll like it. I have lots to show you and lots to tell you. But I did want to tell you something else first." "What did she say?" demanded Gordon of the boy when he appeared. "She said she'd go to the bank and get the money she sent 'em." "What did you tell her?" "Ah, done to! her Mr. Bud sent 'em." "Has, yes; and then what did she say?" "She says it's name Steve, and 'Ah to call you Mr. Bud no mo, an' dat Ah to call you Mr. Gordon, understand that?' "Now bring me new car, and be quick about it." "Yessuh, Mr. Gordon, an' she say—"

ains no longer seemed to suit. At last he picked up a newspaper and the force of long habit turned to the baseball news. "Look, old Red Sox," he said aloud. "Wallowing around in the second division. But they're not out of the race by any means. They threw the paper down and walked aimlessly around the room with his hands in his pockets. "Gordon, old boy, you're talking foolish," he continued. "You've got enough on your hands to keep you busy for awhile. But the trouble of it is you can't be with her all the time and the hours you can't be with her will drive you crazy. The Red Sox can go to blazes, can Gordon? You bet your life they can." "Could Hardly Sleep. His thoughts flitted from baseball to something nearer his heart. He could hardly sleep that night of happiness. Gordon despatched his breakfast in frantic haste next morning, after which he supervised the gathering of the most gorgeous collection of roses ever seen in the State of Georgia. He despatched the flowers to Mildred's home, and then patiently awaited the colored boy's return. "What did she say?" demanded Gordon of the boy when he appeared. "She done ask you sent 'em." "What did you tell her?" "Ah, done to! her Mr. Bud sent 'em." "Has, yes; and then what did she say?" "She says it's name Steve, and 'Ah to call you Mr. Bud no mo, an' dat Ah to call you Mr. Gordon, understand that?' "Now bring me new car, and be quick about it." "Yessuh, Mr. Gordon, an' she say—"

CHAPTER XXXII. The telephone line from Pew Creek to Atlanta earned more money in tolls that night than it had earned in the previous six months. Mildred called up and talked with her mother for more than half an hour. This is the way she began: "Quick, mother, won't you please come up to the mountains right away—!?" "No indeed; I'm feeling simply great; but you're a lot of things, Gordon. Oh, no; not over the telephone, an' of course not, mother dear. An' perfectly happy and contented up here, except that you are not with me and the way I feel tonight I never want to go back to Atlanta again. But you must come up right away." "And so on and so on. But not once in their long talk did Mildred mention Gordon Kelly's name to her mother. She wanted to hold her supreme secret all to herself, at least until her mother arrived. Nor did she tell of the trouble she had with Forrest Cain, deeming that matter to be better not spread on a public telephone wire. In the end Mrs. Deery pronounced, "This is burden some days, as she, too, needed rest after her labors in the household of Cain's sister. "Gordon Kelly called up Judge Barbee as soon as he reached home. He could not get him at his office, but reached him at his home. This is what he said: "Hello, Judge Barbee. This is Gordon Kelly. I have a most important commission for you. Tomorrow morning, as soon as you go downtown, wish you would buy for me the finest diamond ring there is in Atlanta. Yes, Judge, you have guessed it, and Judge, I can't tell you that until I have the young lady's permission. But if you think hard you can come pretty near naming her. I will write to you as soon as I have the proper consent to do so. Please don't say a word about it to anyone else to the best jeweler. Of course you will not get the largest stone by any means, but want the best stone there is in Atlanta. You know, it doesn't make a particle of difference as to the cost. Send it by express addressed to Stephen Jackson and be sure not to use my name in any way. Thank you for your good wishes and thank you for your trouble in the matter.—No, I can't say when I will be in Atlanta. It is all up to Her Highness. She is the commander-in-chief now, you know. Thank you a thousand times. Good-bye. Gordon had a mighty hard time trying to amuse himself until bedtime. He tried everything on the calendar, but the things that gave him pleasure in the solitary years he had spent in the moun-

AWAITS CANADA'S DECISION CONFIDENTLY

Continued From Page 1.

Islands or elsewhere within the empire should be completely and exclusively fixed upon problems of purely domestic concern that the wider outlook escapes them.

Hon. C. J. Doherty, Minister of Justice, and Hon. Sydney Fisher, ex-minister of agriculture, joined in the toast welcoming the guests.

Hoped to See Parliament. Lord Emmott, who was the first to respond to the toast, expressed the gratitude of the British party for the welcome they had already received.

During a period when the Canadian parliament was in session, a parliament which had lately given such evidence of its close attention to duty.

"The fact of this tour is likely to be of great value to the empire," continued Lord Emmott "without any desire to magnify the individual importance of its members, it constituted a precedent. Never before had such a delegation from the imperial parliament visited the dominions.

As illustrating the interest which the visit was awakening, Lord Emmott stated that when in mid-Atlantic, the party had received a wire from the King wishing them bon voyage, and stating he would follow their activities with great interest.

The Duke of Connaught had also sent his wishes.

The speaker had always considered the best analogy for the British Empire was that of a family, and it was in this spirit that the speaker had come.

He pursued the analogy, comparing the status of its various components with that of the sons who grew up, after having been educated, trained, and cared for, acquired the idea of self-dependence, finally reached man's estate, married, migrated and started homes of their own.

Canada An Object Lesson. "We parents do not attempt to continue the state of tutelage too long lest friction arises which might conduce to separation; nor on the other hand do they let them go too soon before they are able to take care of themselves," said the speaker.

Canada had served as an object lesson to the mother country which had applied it to her other growing colonies.

A most profoundly minded man might well dream dreams of the future of the British Empire, continued Lord Emmott.

There was never a time when the great mass of people in the British Empire was so devoted to union, or more whole-heartedly loyal than today.

For contrary to the pessimists' autonomy had not led to separation. Twenty years ago there had been too much interference from Downing street. This was not so now, said there was still a tendency to forget that the connection was one of human interest.

Referring to the naval question, Lord Emmott said: "I was much astonished to see in a Montreal paper yesterday a statement to the effect that I intended to discuss the naval question in my speech this evening."

"I have been asked to consider two gentlemen of the press, who asked me if I would express my views to them, was this: That the part Canada should take in naval defence was a question for Canada to settle for herself, and that any unsolicited advice, given by one self-governing portion of the Empire to another, was likely to cause friction and to defeat its own ends.

Let This Country Decide. "If I read the situation aright, Canada has decided to help, but Canada has not yet decided in what form that help is to be given. Canada will decide this in her own good time. We in the mother country await that decision with complete confidence in the patriotism of her people, in their loyalty to the throne, our Empire, and in their determination to take a proper and adequate share in the burden we are all called upon to bear."

In conclusion, Lord Emmott referred to the question of employment. "The myth that there are crowds of unemployed at home," he said, "never before has unemployment been so low. The question of immigration, however, is becoming a sore topic with you, is becoming a sore topic with you, is becoming a sore topic with you."

The party left for Toronto tonight.

HEQ HOWARD'S EXTRA QUALITY OLD RYE WHISKY

THE WEATHER

OBSERVATORY, TORONTO, July 27.—Pressure is high along the Atlantic Coast and over the lakes and the Northwest States, while a shallow low area is passing across the great lakes.

Thunderstorms are occurring tonight in Ontario, but otherwise the weather has been fine and warm from the lake region to the maritime provinces.

Minimum and maximum temperatures: Victoria, 54-79; Vancouver, 54-74; Kamloops, 42-60; Calgary, 42-53; Edmonton, 42-76; Battleford, 46-76; Moose Jaw, 56-75; Regina, 36-73; Winnipeg, 48-72; Port Arthur, 49-73; Toronto, 58-86; Kingston, 60-80; Ottawa, 54-84; Montreal, 56-84; Quebec, 58-76; Halifax, 54-84.

Lower Lakes and Georgian Bay—Fresh southwesterly to northwesterly winds; a few light thunderstorms, but mostly fair and warm; a little cooler at night.

Ottawa Valley and Upper St. Lawrence—A few light thunderstorms, but mostly fair and warm.

Lower St. Lawrence—Moderate to fresh southwesterly to westerly winds; mostly fair and warm.

Superior and Maritime—Moderate to southwesterly winds; generally fair and warm.

Superior—Moderate to fresh westerly to northwesterly winds; fine and moderately warm.

Manitoba—Fine and warmer.

Saskatchewan—Generally fine and very warm.

Alberta—Mostly fair and warm.

FALL FATAL TO JAMES MURRAY

Continued From Page 1.

Lord Lansdale and Alfred Vandervell down to the groome in the ring. He produced more finished performers in high jumping horses or hunters or saddle horses than any other trainer; he made high jumping in horses an art and discovered and made The Wasp, Confidence, Skyscraper and Ironsides, four of the greatest in their line that ever went into a ring.

He was making them all the time. And he discovered and made Jack Hamilton, the most finished rider that ever sat on a high jumper or hunter.

Made Toronto Famous. He had a Scotch accent, he carried the name of Toronto all over the States, to England and to the continent. People came here from all over to see his horses.

Some of the greatest harness horses that ever stepped inside a ring were trained by Mr. Murray. Besides the Wasp, which was described as the "greatest harness living" South Africa and Blucher were two wonderful winners. In the heavy harness single class South Africa won a \$500 championship at Kansas City a few years ago and \$1000 at Louisville, Ky., competing with a mare called Show Girl.

South Africa was afterwards sold to Dr. E. J. Windz of Scranton, Pa., who was a champion at Louisville, Ky., competing with a mare called Show Girl.

Another wonderful horse which was brought to the highest by Mr. Murray was Blucher. In the single harness class it once amazed Madison Square Garden with its beauty and carried away firsts three times. This horse was afterwards owned by Thomas W. Lawson of Boston, Mass.

Among the many noted horses that James Murray had famous as the thoroughbred mare Stayaway, that was one of the features at the New York Hippodrome.

This mare was bred at the Brookdale Farm, Barrie, and was owned by the late Johnny Dymont, but she was so unmanageable that it was difficult to keep her on the race track.

However, in the hands of Murray, she became a champion lightweight hunter, and established the world's record for long distance jumping.

Mr. Murray was survived by his wife and two daughters.

The time when the funeral will take place has not been arranged, but he will be buried at the family plot in Mount Pleasant Cemetery.

DEATHS BROWN—At her late residence, Weston Road, Mount Dennis, on Saturday, July 26, 1913, Evelyn Brown, aged 48 years.

Funeral on Monday at 3.30 p.m. to Anglican Church, Mount Dennis, thence to Prospect Cemetery.

BOOMER—On Sunday, July 27, 1913, at his parents' residence, 115 Russhoime road, Toronto, Ralph, Newell, beloved son of George and Edith M. Boomer, aged 3 years.

Funeral private from above address on Tuesday at 2 p.m. Interment in Mount Pleasant Cemetery.

Woman Found Dead on Chicago Lake Shore Victim Was Shot Over the Right Eye and Dragged From Alley to the Beach.

CHICAGO, July 26.—The police were confronted with another murder mystery in the finding late last night of the body of a woman partly immersed in the shallow water along the lake shore in Rogers Park.

She had not been dead longer than three hours, an undertaker asserted. A bullet hole over the right eye and two abrasions of the scalp are proof of the woman's violent death. The body was found in the shallow water along the lake shore in Rogers Park.

Four hundred women made the best of the opportunity to go bathing in their own section. They gathered around contentedly with a bunch of youngsters for a while. When they began to gaze over the rail at the crowd of men bathing leisurely.

One of four young women suddenly waved her hand. "O-O-O-O," she shrieked, and a young man waved back at her.

"See, there's Fred," she called to her sister bathers. There was a chorus of calls to Fred. Fred started toward them, then, as he saw the sign: "For women and children only," he was stumped, evidently, but the young woman made for the shore, where Life Saver McGuire was standing.

"We can go over to where he is, cant we," she asked, pointing to Fred. "Sure," grinned McGuire, "but he can't come over here." The girl joyously joined her party and they ducked under the rope to the men's side. That started the rush. The crowd within the women's section became small, then smaller, and finally it was left to a few fond mammals and their paddling youngsters.

Polo Toronto 5 Buffalo 3-3-4

TORONTO PONIES WIN AT BUFFALO

Hunt Club Polo Team Made a Brilliant Rally.

IN THE SECOND HALF C. Bleistein Is the Mainstay of Buffalo Attack and Defence.

BUFFALO, July 27.—The polo team of the Buffalo Country Club was defeated yesterday afternoon by the Toronto Hunt Club team in a match that furnished many thrills for the large gallery that gathered for the afternoon's sport. The Canadian quartet made a brilliant rally in the second half when the local team was leading by two goals and pulled out the victory, the final score reading: Toronto 5, Buffalo 3-3-4.

Chandler Bleistein was the mainstay of the Buffalo offense and defence. He was all over the field, and his slashing attack played havoc with the Toronto defence during the first half of the contest. After half time the Canadian players maintained a fast pace, and with their scoring machine in working order quickly took the hoofs of the ponies, the time prevented further scoring on the part of the Country Club players.

The score follows: Toronto—2 C. Bleistein, 2 A. Allan, 2 C. Coleman, 2 A. Beardmore, 2 C. R. Sidway, 2 M. J. Bickford, 2 Back R. H. Sidway, 2 Back R. Marshall.

DUFF AND MURRAY THE BEST AMATEURS

While Baribeau Wins the Pro. Card at Motorcycle Meet.

EXHIBITION GROUNDS, July 26.—Long after the first event was called, the crowd continued to line into the big stand at the Ontario Motorcycle championships, under C.M.A. sanction, held this afternoon. With the track in excellent shape, and a good guard of veterans, the meet was a decided success. Joe Baribeau and Ernie McIntosh were the main attractions, while the amateur races were won by Duff and Murray.

First event, Ontario, three mile, novice: 1, G. Heady, Indian; 2, H. Armstrong, Indian; 3, G. Bowden, Indian. Time 4:14-4-6.

Second event, three mile, professional: 1, Joe Baribeau, Indian; 2, H. McIntosh, Indian; 3, Van Almkirk, Jefferson. Time 3:47-3-5.

The riders were even in a rolling start at the tape, but McIntosh was quickly set the pace. He did not hold the lead long, however, as Joe Baribeau passed him with a rush on the second lap.

Third event, ten mile, Ontario championship: 1, O. Murray, Indian; 2, B. Scott, Indian; 3, G. Heady, Indian. Time 18:13-2-4.

Murray from Hamilton made them all sit up in this race, and although he was closely followed by Bobby Scott, managed to hold the lead to the finish. Fourth event—Ten mile Ontario professional championship, single cylinder: 1, Van Almkirk, Jefferson; 2, H. McIntosh, Indian; 3, Van Almkirk, Jefferson. Time 12:36-4-5.

Van Almkirk of Rochester led the bunch in the early part of the race, but Joe Baribeau soon settled down and took the lead.

Fifth event—Three mile amateur, single cylinder: 1, Alex. Duff (Indian); 2, O. Murray (Indian); 3, B. Scott (Indian). Time 4:02-1-5.

Alex. Duff made a decided change in this race and won easily without opposition. Murray of Hamilton and Bobby Scott fought it out for second.

IRISH-CANADIANS SHOW UP IN DIANS

Tecumsehs Played Off Their Feet in First Quarter—Attendance Large.

MONTREAL, July 27.—Drawing into a long lead in the early stages, the Irish-Canadians made a show of the Tecumsehs in the Big Four match at Mascotte Park Saturday, beating them by a score of 16 to 5, while one of the five goals was a gift. The Irishmen never left any doubt as to the result of the match after they had piled up a lead of five goals in the opening session, and increased it as they went along. Only in the third period did the Indians show a flash of their former form and outscored their opponents, who had apparently let up in their attack. The visitors were played off their feet in the first two quarters, but came back in the third, making a determined effort to overtake the long lead against them. The task was a hopeless one, and, although they scored four goals in the Irishmen's single count, it made little difference.

The match was one of the best performances shown in the D.L.A. this season, being almost entirely free from roughness. Only three penalties were handed out, and they were in the last quarter. The Irish-Canadian player retailed, which brought a ruling from the referee, which brought a ruling from the referee, which brought a ruling from the referee.

Attendance was one of the largest to witness a lacrosse game in Montreal in the past two seasons. Line-up: Tecumsehs—Kinsman, Yeaman, Gray, McKenzie, B. Green, Rowntree, Pelker, G. Smith, Querre, J. Green, McCam, Carmichael.

Irish-Canadians—Brennan, Neville, Cameron, Baker, Aspell, White, Munday, Kane, F. Scott, H. Scott, Roberts, McIntosh, G. Smith, Querre, J. Green, McCam, Carmichael.

Changes: First quarter—None. Second quarter—Whitehead replaced Smith, Scott replaced D. Cameron, George replaced Fred Scott, Scott replaced George. Third quarter—Collins replaced Fisher, G. Smith replaced Rowntree, Cummings replaced F. Scott, Rowntree replaced F. Scott, Cummings replaced George, G. Smith replaced Collins.

CORNWALL LACROSSE LEAGUE. CORNWALL, July 27.—In the Cornwall Manufacturers' Lacrosse League on Saturday afternoon, a large crowd witnessed the three contests. The stormont Mill team had little trouble in disposing of the McGill team, the final score being 10 to 3. The team from Redstead Company then took the field and defeated the McGill team, the final score being 10 to 3.

HESPELER WINS LAST. HESPELER, July 26.—The Junior O. A. L. A. game played at Hesperler this afternoon was won by a score of 11 to 2 in favor of Hesperler. This being the last game of the season, there was an exceptionally large crowd in attendance. The line-up was: Hesperler (2)—Goal, Johnson; point, Holmuth; cover, Kindle; first defence, Pochter; second defence, Skilton; half, Harty; first home, A. Bird; inside, Ed. Hawking; outside, E. Bird.

WESTON LACROSSE NOTES. At Brampton on Saturday the Excelsiors put it all over the Young Toronto in a Senior O.A.L.A. fixture by the score of 11 to 3. The Becheaters were minus two of their regulars, Bert Brown and Frank Doyle.

At Brantford on Saturday the Excelsiors put it all over the Young Toronto in a Senior O.A.L.A. fixture by the score of 11 to 3. The Becheaters were minus two of their regulars, Bert Brown and Frank Doyle.

BLUE SHIRTS BEAT FRENCHMEN AGAIN

Fiasco Game at the Beach in Which All the Rules of the League Were Broken.

To what extent R. J. Fleming has knocked the lacrosse game on its knees to know, but he got some idea as to the far-reaching effect it will have on Saturday. When his blue shirts lined up against the Nationals, there were only about 700 people on hand to see the game. From the blue shirts' point of view, possibly they pulled out all right, but several little incidents occurred, which all tended to make the game a fiasco.

At one time the fans had to sit for 20 minutes and patiently wait until Mr. Cattaritch was restored to good enough humor to allow his team to finish the game. With the game supposedly clear, the referee, incidentally, in the Toronto magazine, it came as a shock to the spectators to see some minor fist fights, etc. If the things which occurred in the same old way, it looks as if the end of the game was in sight.

At one time it looked as if the Frenchmen were going to show the blue shirts a few things, as they were leading at half-time. Second heat—1, Harris; 2, Kennedy; 3, Bradley. Time 2:42-5-5. Third heat—1, C. Gross; 2, H. Cole; 3, B. Harty. Time 2:27-5-5. Final—1, F. Gross; 2, C. Cole; 3, Bradley. Time 2:36-4-5.

WIMBLEDON, July 26.—As the result of today's victory by Maurice E. McLaughlin of San Francisco and Harold Hackett of New York over H. Roper Barrett and C. C. Parkes, respectively, the United States team leads by the possession of the Davis Cup tennis trophy, and requires only one more victory in the two remaining singles matches to win the cup.

McLaughlin Faces Dixon, While Williams Tackles Parke. McLaughlin and Williams, the American players, were scheduled to play their respective matches on Saturday afternoon.

TORONTO BOWLING CLUB. Pending the installing of their new plant, the Toronto Bowling Club is now playing in the Kew Beach Bowling Club alleys, West Queen street, where members can indulge in their favorite games and with the same attention as formerly.

STEFANSSON'S PARTY OFF IN HIGH SPIRITS. Weather Is Fine—Changing Boats on Alaskan Coast. TELLER, Por. Clarence, Alaska, July 27.—(Can. Press.)—Vikings' Stefansson, commander of the Canadian Arctic exploring expedition, has arrived here from Nome on the steamer Corwin, accompanied by his wife, Corgraper Murray, topographer Wilkins and "Scotty" Allen, the team expert, who brought with them a large number of the fifty dogs purchased by him at Nome. The dogs were loaded on the wharf at Teller. Stefansson visited the club at Teller and was highly pleased with the weather and the expedition sets out with everyone in high spirits.

HELD ANNUAL PICNIC. About 350 employees of the James Robertson Company, corner St. Lawrence and Spadina avenue, attended their annual picnic Saturday at Montebello Park, St. Catharines. Games and athletic events of all kinds were on, and everybody testified to having a good time. The feature of the day was a baseball match between the members of the brass shop and the shipping room which was won by the latter by the score of eight to four.

Soccer, Cricket, Lacrosse, Etc.

Two Records Were Broken Saturday

Saturday night at the Beach the combined athletic meet of runners and bicycle racers was a huge success, and the crowd and the results more than satisfied the promoters. All the leading local speed artists were on hand, and two new Canadian records were hung up by the runners. Jack Tait made a new record for the 1/4 mile race, when he finished second from scratch in 7.10. The second heat was 3.50, and the difference in time gives some idea how fast the runner was traveling. Tressler also smashed his old mark for the 600-yard bicycle race, when he finished second from scratch in 1:24-5-5. His other mark was 1:20-5-5, which is T. E. Burke of Boston is credited with having done 1:13-5-5. Both of these boys are among the best in the world, and would give any of the American grand races, Wilson and Brady, the unlimited pursuit race, caught Anderson and Brown in 5/8 mile. The results: First heat—1, Harris; 2, Kennedy; 3, Bradley. Time 2:42-5-5.

Second heat—1, Harris; 2, Kennedy; 3, Bradley. Time 2:42-5-5. Third heat—1, C. Gross; 2, H. Cole; 3, B. Harty. Time 2:27-5-5. Final—1, F. Gross; 2, C. Cole; 3, Bradley. Time 2:36-4-5.

SUNDERLAND LOSES GRIP ON LEADERS. Sunderland lost another match on Saturday in the race for the senior division honors of the T. and D. when they drew with Don Valley by the score of 1 to 1. As all the other leading clubs won their games, the Red and White have another point to make up. In Section A, Devonians and Sunderland continued to put their names in the win column, and the fight grows tighter and harder every day for the two clubs.

SMITH WINS PEASE CUP. The Balmy Beach Boating Club held their annual Pease Cup regatta on Saturday afternoon, with the following results: 15-foot dinghy race: 1, Frank Howard (T.C.C.); 2, J. Alexander (R.C.Y.C.); 3, J. Alexander (R.C.Y.C.).

COBURG IN FIRST PLACE. COBURG, July 26.—In a Lake Shore League game played here today, Cobourg scored Bowmanville by the following score: Bowmanville 0, Cobourg 6-0-0-0-0-5.

DR. SOPER DR. WHITE. In the Specialties of Men: Piles, Varicocele, Rheumatism, Gleet, Gonorrhoea, Syphilis, Loss of Vitality, Catarrh, Stricture, Dropsy, Diabetes, Epilepsy, Kidney Affections, and Blood, Nerve and Biliary Diseases, Call for our new book, "The Treatment of Diseases in a Questionable Manner," which is a valuable work, published by Dr. Soper & White, 23 Toronto St., Toronto, Ont., July and August, Consultation free.

ARG OARSMEN HOLD MIDSUMMER RACES

Every Event Keenly Contested—Veterans' Race Provided Amusement.

The midsummer regatta of the Argonaut Rowing Club was held Saturday afternoon in front of the clubhouse, and the scene attracted more than usual interest because of the nearness of the Canadian Henley since Dominion Day nothing definite has been secured as to the condition of the regatta, but the races naturally brought out a number of dark horses. The veterans' race was also full of interest, and the heroes of other days strove mightily for the honors. Honorary Coach Joe Wright made his first official appearance after his return from England, and he seemed to take a special interest in the form of the new men. The results: First heat—1, Morson; 2, Boyce. Time 6:07.

Second heat—1, Morson; 2, Boyce. Time 6:07. Third heat—1, Morson; 2, Boyce. Time 6:07. Fourth heat—1, Morson; 2, Boyce. Time 6:07.

HOWARD, BLACKLEY, DION WIN ALEXANDRA RACES. Howard, Blackley, and Dion won the Alexandra races on Saturday afternoon, over their course on the bay. Some great sailing took place, the water being smooth, with a good wind, making the time very fast.

WESTERN GOLF CHAMPION. CHICAGO, July 26.—Warren K. Wood of Homewood is the new western golf champion. He defeated 4 and 3, E. P. of the Western Golf Association, in the final match played over the links of the Homewood Country Club today.

RAINE BEST PADDLER AT KEW BEACH REGATTA. A large crowd turned out to view the Beach Athletic Club's regatta, held on the Kew Beach course Saturday afternoon. The lake was like a mill pond and the slight east wind hardly ruffled the water.

EXCELSIORS ARE WINNERS. Both single and twin cylinders, and they won four firsts, four seconds and three thirds at races July 19th, and the POPE TWIN 7 H. P. ridden by a novice rider, won the amateur twin race and made fastest time at the meet.

BLACKFORD WON HAMILTON STAKE

Watkins' Gelding Ran One of His Good Races—Leochares Beat the Sprinters.

The second meeting of the year under the auspices of the Hamilton Jockey Club, which opened Saturday afternoon, promises to be even better than the first, which was regarded as the best in the history of racing in Hamilton.

Everything in connection with Saturday's racing was of a superior character. An enormous attendance, a track at its best, and perfect weather for the sport, all of which, combined with the fact that over five hundred thoroughbreds are quartered here, make the racing at the present meeting, which will continue during this week, will be first-class in every particular.

BELMONT RESULTS

BELMONT PARK, July 26.—The races here today resulted as follows:—FIRST RACE—Three-year-olds and up, \$500 added, mile and 1/4 furlongs.

THE WORLD FORM CHART

Table with columns: Horse, Wt. St. 1/4, 1/2, 3/4, Str. Fin. Jockeys. Includes entries like Black Toney, Emerald Gem, Hodge, Centauri, Purpurnel, Willie Waddell.

Black Toney, off forwardly, trailed off the pace until straightened out in home stretch; easily disposed of opposition last furlong, and was going away at end.

THIRD RACE—July Steeplechase, about two miles, purse \$800, for four-year-olds and upwards.

Leochares, six furlongs, purse \$600, for 3-year-olds and up, selling.

FIFTH RACE—Prince Edward Selling Stakes, 1 1/4 miles, purse \$1500, for three-year-olds and up.

SIXTH RACE—1 1/4 miles on the turf, purse \$600, for 3-year-olds and up, selling.

SEVENTH RACE—1 1/4 miles on the turf, purse \$600, for 3-year-olds and up, selling.

SEVERAL SURPRISES IN BOSTON TOURNAMENT.

J. Queen Wins Queen City Quoting Handicap

The World's Selections BY CENTAUR.

HAMILTON. FIRST RACE—Nancy Orms, Cesar Michael, Red Star.

BELMONT PARK. FIRST RACE—Canaan, Ivabel, Ella Bryson.

Today's Entries

HAMILTON, July 26.—Entries for Monday:—FIRST RACE—Purse \$600, maiden two-year-olds, five furlongs.

SECOND RACE—Purse \$600, three-year-olds and up, selling, 1 1/4 miles.

THIRD RACE—Purse \$500, three-year-olds and up, selling, 5/8 furlongs.

FOURTH RACE—Sandringham Plate, purse \$700, three-year-olds and up, 1 1/4 miles.

FIFTH RACE—Purse \$600, two-year-olds, selling, six furlongs.

SIXTH RACE—Purse \$700, Kenilworth Handicap, three-year-olds and up, six furlongs.

SEVENTH RACE—Purse \$500, three-year-olds and up, Canadian-foaled, one mile on the turf.

APPRENTICE ALLOWANCE CLAIMED.

Ray Collins Hero Of Red Sox Victory

BOSTON, July 26.—Besides holding Chicago to five scattered hits today, Ray Collins brought a 4-to-1 victory to Boston by smothering a three-base hit with the bases filled.

Table with columns: Name, R, H, O, A, E. Lists player statistics for Boston and Chicago.

Providence Grays Clean Up at Buffalo

BUFFALO, July 26.—Pip's three-base swipe over Jackson's head after three had doubted in the thirteenth innings of the second game between the Grays and the Grays taking the first game, 5 to 3.

Table with columns: Name, R, H, O, A, E. Lists player statistics for Buffalo and Providence.

Washington Wins First Double-Header

WASHINGTON, July 26.—Before one of the largest crowds of the season, Washington won its first double-header of the year today by defeating St. Louis, 6 to 3 and 6 to 0.

Table with columns: Name, R, H, O, A, E. Lists player statistics for Washington and St. Louis.

ROYALS WIN OUT IN NINTH INNINGS

Batsman Hit and Three Singles Beats Baltimore Birds.

NEWARK INDIANS FORCE LEAFS TO SWALLOW BITTER DOUBLE DOSE

International League Leaders Traveling at the Speed Limit Found No Obstacle in Toronto's Paper Defence—How the Runs Were Scored—Final Game Today.

Well, the severe chastisement that it was proposed to inflict on the Newark Indians on Saturday afternoon did not come off, at least so you would notice. In fact, the Leafs gave little indication that they were harboring any such intention. Probably the event has been postponed indefinitely. True, they have today made it more than ever, for a small measure into effect, and no doubt they still must feel it is coming to Newark.

Cottrell Holds Royals to Three Scattered Hits

MONTREAL, July 26.—Baltimore whitewashed the Royals today and made it two straight, without much apparent effort. Cottrell pitched a mastery game and held the locals to three scattered hits.

Table with columns: Name, R, H, O, A, E. Lists player statistics for Montreal and Baltimore.

Petes by Large Margin Win Last From Berlin

PETERBORO, July 26.—By a reversal of form today the Petes took the last of the series with Berlin by 10 to 1. Bramble was hit hard after the third.

Table with columns: Name, R, H, O, A, E. Lists player statistics for Peterboro and Berlin.

Tigers Beat Athletics And Beat Athletics

PHILADELPHIA, July 26.—Vunched hits in two innings gave Detroit a victory over Philadelphia today, 6 to 2.

CAUSING ALL TO GINGER UP

Outlook Has Cleared to a Large Extent as Bank Reserves Are Being Steadily Built Up—Reappearance of Foreign Buying Is Regarded as Most Hopeful Indication.

(Specially written by S. S. Fontaine for The New York World and The Toronto World.)

NEW YORK, July 27.—While our own public does not seem to have regained its courage as yet, the market change for the better in general conditions in this country has not escaped the astute investors of Europe, whose heavy absorption of our securities has been an impressive feature of the last fortnight. Indeed, the buying first began about middle of June, when the New York market was at the lowest level of the depression and when Wall street was in a condition bordering upon despair. These European buyers were quick to recognize the opportunities afforded by a market that showed absolute resistance to bad news of every character and to every form of speculative pressure, convinced that liquidation had completely run its course, and that the adverse factors remaining in the situation had been thoroughly disallowed. Holland, which has always displayed a predilection for American railroad and industrial issues, became a cautious but steady buyer of the investment as well as the speculative securities. Before our own speculators had discovered the wisdom of this buying Amsterdam had taken about 50,000 shares of United States Steel common and bought back a large amount of the same. Prices of a large amount of Chicago, Rock Island and Pacific bonds, Rock Island common and preferred, and the American Canal stocks, which it had sold on the high levels of last year, its lead has been followed during the last few days by substantial purchases of United Pacific, St. Paul, Amalgamated Copper, United States Steel and the other active issues for London accounts. Indeed, Lombard Street is credited with having bought about 100,000 shares on balance within this period. This buying has naturally stimulated activity in the trading element in Wall street, and is bound sooner or later, to promote confidence among our investors who have failed to be impressed by the many evidences that the tide in the financial situation has turned from the ebb to the flood.

Uncertain Factors.

Those who hesitate to assume any important commitments either in commercial undertakings or in the investment markets, their chief cause for caution in the somewhat uncertain outlook for the money market during the fall season; the political perplexities with which the powers have been confronted in the latest phases of the Balkan situation; the extremely delicate state of our relations with Mexico; the controversy between the railroads and the treatment of the general business in the new tariff; the uncertainty as to the character of the new currency bill, and, finally, but by no means the least important, the outcome of the season's harvests. The money situation is fortunately clearing to such an extent that it can scarcely be classed among the elements of uncertainty which will give pause to him who is willing to assume the ordinary hazards of commercial or financial operations. The reaction in business that seems to have about run its course, has released a substantial amount of money to the banks, and the repayment of loans serves as a progressive step at such a time that there is every reasonable ground for the expectation that by the end of August they will be able to meet the strain of the crop moving season without any inconvenience whatever. In the meantime the European financial situation is showing slow but marked improvement, evidence of which is afforded by the ability of our bankers to discount their bills in the foreign money market with increasing facility. During the last ten days sterling loans to the amount of about \$8,000,000 have been placed. This is a straw that shows that the tide is bearing around to a favorable quarter.

The Balkan War.

The clash among the Balkan allies, while it possesses some political possibilities of an extreme character, has, nevertheless, some rather reassuring features, viewed from the standpoint of international finance. The rise of a genuine military alliance in southwestern Europe within the balance of power held by the Slavonic race, was naturally regarded with alarm by Germany and Austria, and in a large measure, it is true, has led to little concern by France, despite her Russian allegiance, for the Slavs and Latins have little in common either in racial characteristics or traditions. The collapse of the concert among these states has proved how little homogeneity they possess, and how baseless may be the fears that would ever be able to form an alliance sufficiently cohesive to become a permanent menace to the peace of Europe. If any serious complications develop from the reoccupation by Turkey of Adrianople and the advance of her armies into Balkan territory, they will be wholly in the hands of Germany and the temporizing policies of the European chancelleries. The crisis demands strenuous action as well as complete good faith upon the part of the triple alliance and the triple entente. International bankers believe that the most feasible solution of the problem would be a mandate from the concert of Europe to Russia and Austria to expel the Turks from the territory which they have reoccupied, and to force the belligerent allies to accept the most peace without delay. If something of this kind is accomplished, there will be a rapid return of money from its hiding places in every country in Europe, and an early relaxation of the strains under which all of the world's money markets have remained since the Balkan war began to cast its shadow over the eastern horizon.

Confidence in Wilson.

The banking houses in New York that have impugned Wilson's policy in Mexico, while admitting that the situation in the monetary market presents many difficulties and will require the most cautious handling, express the utmost confidence in President Wilson's ability to cope with the situation. His policy of mediation just as strongly as they approve the suggestion of intervention, the disastrous consequences of which they fully understand, they do not believe that there is the slightest danger of any pressure from Europe, and point to the inconsistency of any such policy in view of the failure of the powers thus far to enforce order among their own recalcitrant wards in the Balkans. As a matter of fact, Wall street is beginning to reluctantly concede that the people of this country are extremely fortunate at this time in

having a strong hand to direct its foreign as well as its domestic politics, and no small part of the confidence which has appeared in the financial district during the last month is due to the realization that the national administration is proceeding towards an amicable and effective solution of all the important problems which its predecessors lacked the courage or the determination to essay. Wall street has been greatly impressed with the attitude which the administration is displaying for the preservation of business confidence and the extreme conservatism of all official utterances from the White House, and is beginning to realize that the policy inaugurated by the speeches of the president-elect prior to his inauguration, and the general attitude of the administration, are in fact, a misreading of the man and his purposes. The ability and courage displayed by the secretary of the treasury have also made a striking impression upon the leading financiers of this country, as well as Europe, and if these men continue to lack confidence in the administration, it is not in the wisdom of some of the other members of the president's official family, they are displaying abundant reliance upon the ability of the chief magistrate to restrain their activities within harmless limits.

The progress now being made with the tariff bill in the senate encourages the hope among business men that some measure may become a law by the middle of August. This speedy passage may have an opportunity to begin the adjustment of business to the new schedule, and there is growing evidence that the bill will be passed with the least delay. The question of transcending the tariff is now in the hands of the president, and it is earnestly to be hoped that he will immediately address himself to the consideration of whatever measure may be imposed by whatever strain raising system. The reasonable objections of the bankers to the tariff bill, the proposed measure will doubtless be met with a considerate spirit, and should be marked by a willingness to surround the obligations of the government with every safeguard. The bill should contain no provision that will in any degree impair the market value of the outstanding 2 per cent, the terms of redemption of which are so liberally liberal to prevent the possibility of loss to the national banks or any impairment of our national credit. The loss would fall upon every banking community in the country, and not upon those who have been so long and so justly, as some of the radicals in congress have stated with an evidence of indifference, upon the nerves of the lovers of fair play. As a matter of fact, the Wall street bankers hold a comparatively small part of the issue, and the depreciation in the market price of the bonds has been almost entirely due to the urgent offerings of interior institutions.

The Season's Harvests.

The determining factor in the business situation during the coming fall and winter will, of course, be the extent of the season's crops, which are now in the making. This is the most critical period of the agricultural season, and upon the results of the harvest will depend the final outcome of the year. It is too early, therefore, to make any definite prediction, except as to the yield of winter wheat, which seems to have reached record-breaking proportions. Even the promised harvest of a total crop that will be above the average, notwithstanding the severe drought, which has afflicted the North and South Dakota. The fields in Kansas, Oklahoma and portions of Nebraska have been severely parched by the lack of dry weather, which has finally been relieved by the rains of the week, and there is every reason to believe that the damage done may be repaired. Despite these losses, there are reasonable grounds for hoping that the total yield will be between 2,800,000,000 and 3,000,000,000 bushels. The outlook for cotton is highly favorable, and experts predict a crop that will be one of the largest in the history of the industry. Based on present prospects, the assumption that the total value of the country's farm products will exceed \$9,000,000,000, seems reasonable. It is just the prediction that should give every reason to believe that the coming fall and winter will witness a brisk reaction in business, and that the market will be foreshadowed by a substantial appreciation in the market value of securities. The rise of a genuine military alliance in southwestern Europe within the balance of power held by the Slavonic race, was naturally regarded with alarm by Germany and Austria, and in a large measure, it is true, has led to little concern by France, despite her Russian allegiance, for the Slavs and Latins have little in common either in racial characteristics or traditions. The collapse of the concert among these states has proved how little homogeneity they possess, and how baseless may be the fears that would ever be able to form an alliance sufficiently cohesive to become a permanent menace to the peace of Europe. If any serious complications develop from the reoccupation by Turkey of Adrianople and the advance of her armies into Balkan territory, they will be wholly in the hands of Germany and the temporizing policies of the European chancelleries. The crisis demands strenuous action as well as complete good faith upon the part of the triple alliance and the triple entente. International bankers believe that the most feasible solution of the problem would be a mandate from the concert of Europe to Russia and Austria to expel the Turks from the territory which they have reoccupied, and to force the belligerent allies to accept the most peace without delay. If something of this kind is accomplished, there will be a rapid return of money from its hiding places in every country in Europe, and an early relaxation of the strains under which all of the world's money markets have remained since the Balkan war began to cast its shadow over the eastern horizon.

CABBAGETOWN BOYS ENJOY AN OUTING

Reminiscences Flowed Freely on Saturday When Oakville Was Visited.

The Park School Old Boys, or "Boys of Cabbagetown," as they prefer to style themselves, were the guests of James Ryrie at Oakville on Saturday. R. J. Fleming, who was master of the occasion, saw that the members, numbering more than one hundred, reached their destination in comfortable trains. They were taken in autos and hauled to Mr. Ryrie's residence. Sailing and bowling on the green were popular pastimes, but the greatest of all was the exchange of reminiscences of the days when the Don was a famous swimming place. It was an admirable rule on Saturday that the designation "mister" was never on any assignment to be used, and everyone was to be known by his first name. Among the Cabbagetown coterie were C. N. Fleming, James Ryrie, deputy Mayor Oliver, William Harper, ex-captain of the "Boys" (George Howland), secretary, ex-Ad. Davies and District Chief Smith George Anderson, who was in the city for the occasion, and came all the way from Kentucky after an absence of forty years. Incidentally, it was his eighth birthday celebration, and the old-time principal was also present. The Cabbagetown boys were given a special place at Mr. Fleming's table, and on arrival at the Union Station for ex-Mayor Oliver, ex-Principal Anderson, President Noble and Secretary Howard.

DOWNWARD TREND IN N. Y. MARKET

Midsummer Characteristics Prevail—Operations Exclusively Professional.

UNDERTONE IRREGULAR

Hill Group Stocks Respond to Favorable Reports From Western Fields.

NEW YORK, July 26.—Trading in stocks during today's brief market session was in most essentials characteristic of the mid-summer season. The undertone was irregular, and at first mainly downward, and the only striking exception being the Hill group, these stocks responding to the favorable crop advice from the northern Lehigh Valley and one or more minor railroads and specialties also contributed slightly to the constructive side, while Canadian Pacific, L. & N. and "So" were weakest of the standard railway shares. In the special group American Express, five points and another new low record to its recent severe decline. Operations were altogether professional and of very narrow proportions. General news was without very direct bearing upon market conditions, except for the heaviness of the London market, which was declared, and fears of another outpouring of the securities. The outstanding feature of the London market was a decline of practically a point in National Railways of Mexico in trade, chiefly at Washington, and again dealt with proposed congressional investigation of the company's operations. The New York Central's refunding project and a general bias in the interstate commerce commission in freight rate advances affecting various sections of the country. Mercantile agencies reported "conservative optimism" in trade, chiefly at certain agricultural centres, where trade has been benefited by recent rains. The general bond market was quiet and steady.

WEEK'S RECORD IN TORONTO MARKET

BRAZILIAN WENT LOWER IN LONDON

On account of the rather abrupt decline in Brazilians on Friday, Toronto brokers found more than usual interest in the action of the London stock exchange on Saturday. Early cables showed the latter center of the market in the English market, and it was seen that a further set-back had occurred, there were some dealings carried on for local account, both in Montreal and London markets. The final price in London was 85 1/2 to 86, equivalent to 83 1/2 to 84 in Toronto, a loss of about half a point from the previous close here.

MONTREAL COMPLAINS OF MONEY SITUATION

That is Only Detrimental Feature in General Business in Eastern Canada.

Montreal reports to Bradstreet's say that tight money in the money market is a feature in the general business situation, and it is by nature only a temporary affair, business is in a confidence in the future, and are fairly satisfied with what has been accomplished. Just the same, however, the tight money is a detriment to the local market, and is some risk and no great advantage in buying freely ahead.

PAYS DIRECTORS WELL FOR SERVICES

Canard Steamship Co. Has Expensive Habit, But It's a Good One.

NEW YORK, July 25.—Last year the directors fees of the Canard Steamship company were \$25,000. Compared with the \$20 fees per meeting which American directors are in the habit of receiving, the amount seems large, but it would be better to increase the emolument of American directors and at the same time expect more of them in the way of services to the corporation. The Canard line is efficiently managed and the directors, receiving fees worth while, are able to devote more time to its affairs than the average American director gives his corporation. The fact that many that by increasing director's fees, the resulting increased efficiency of management would more than repay the American corporations.

NO PESSIMISTS NOW ON PACIFIC SLOPE

Vancouver reports to Bradstreet's say that business conditions are good in the section of the Dominion as in the west do the people feel more confident in the future of their country. All about are making provision for the growing building trade on a huge scale of the province. Mining, fishing and lumbering operations are getting all branches of trade a busy season.

COBALT SHIPMENTS

COBALT, July 26.—There were but six shippers last week, but as several loaded their cars with cobalt, the latter center of the market in the English market, and it was seen that a further set-back had occurred, there were some dealings carried on for local account, both in Montreal and London markets. The final price in London was 85 1/2 to 86, equivalent to 83 1/2 to 84 in Toronto, a loss of about half a point from the previous close here.

CHEESE BOARDS

BELLEVEILLE, July 26.—At the cheese board today, 1145 white and 27 colored board refused, 1145 sold at 13-16; balance, 800 at 13-14.

... securities and emphasis on a conservative policy on the part of the government is already strong-ly indicated. At present only careful money policy is being followed. A bill to produce money which will be of the rank and file of the people.

GRAIN QUOTATIONS GENERALLY HIGHER

Buying Lifts Prices—Wheat Advance Helped by Black Rust Reports.

CHICAGO, July 26.—Buying that started with one of the largest houses in the trade lifted wheat today after a show of weakness at the outset. Black rust reports from Minnesota tended to aid the bulls. The market closed steady at a net advance of 3/4c. Corn finished with a gain of 1/4c to 1/2c, oats up 1/4c to 1/2c, and provisions ranging from 2 1/2c off to an upturn of 1 1/2c.

Bearishness in wheat early resulted from weak cables and from reassuring domestic advices concerning the crop for the spring crop. Purchasing, however, soon became general, helped by statements that every bushel of wheat will be bought in any quarter of the country finds ready sale for eastern shipment at about 1/2c over September options. Export sales at St. Louis and New York counted also against the bears. Black rust talk seemed to make no impression in the wheat pit until the last hour. The fact that Minneapolis quoted also against the bears. Black rust talk seemed to make no impression in the wheat pit until the last hour. The fact that Minneapolis quoted also against the bears.

Receipts of farm produce were 200 bushels of grain, 12 loads of hay, 30 loads of mixed produce in the north market building, and a fairly large delivery of butter, eggs and poultry on the basket market. Oats—Two hundred bushels sold at 40c. Hay—Fifteen loads sold at \$17 to \$18 for old and \$12 to \$13 for new, per ton. Potatoes—No. 2, 90c to \$1.00, selling at \$1.80 per barrel for choice American No. 1, Canadian No. 2, 90c to \$1.00 per bushel, or 40c to 45c per basket. Butter—Prices ranged from 25c to 30c per lb., the bulk selling at 27c to 28c per lb.

ST. LAWRENCE MARKET.

Receipts of farm produce were 200 bushels of grain, 12 loads of hay, 30 loads of mixed produce in the north market building, and a fairly large delivery of butter, eggs and poultry on the basket market.

Oats—Two hundred bushels sold at 40c. Hay—Fifteen loads sold at \$17 to \$18 for old and \$12 to \$13 for new, per ton. Potatoes—No. 2, 90c to \$1.00, selling at \$1.80 per barrel for choice American No. 1, Canadian No. 2, 90c to \$1.00 per bushel, or 40c to 45c per basket. Butter—Prices ranged from 25c to 30c per lb., the bulk selling at 27c to 28c per lb.

FAVORABLE REPORT ON CAN. G. AND S.

Manager Beidler Says They Should Be Sacking High-Grade Soon.

Manager E. W. Beidler, in charge of the Canadian Gold and Silver property, formerly known as the Alexandra, advises the company of developments as follows: "It was our intention to commence sinking on the vein on the 300-foot level, but the face of the drift looks better, showing somewhat higher in the vein than it has yet shown, so we will take out another round ahead before sinking."

"Two rounds have been taken out of the raise on the 200-foot level. The top of the raise shows a multitude of calcite stringers. By the end of this week, the same will be done on the 100-foot level. The diamond drill hole at this point.

"The west drift on the 200-foot level shows a very strong vein, good width and fine looking calcite. This vein should make over very soon. Penn-Canadian and Bailey are both sacking high grade every day, and we should be doing the same after commencing the winze on the 300-foot level."

"Last week two prospectors told me that they had found free gold on our claim, west of the railroad track, at Sesekinika Lake. Montreal parties have just purchased some claims near the property, and it is their intention to start work right away."

"The properties being developed in Teek Township, near Kirkland Lake, are showing up the most spectacular ore that I have ever seen, showing free gold, native silver and tellurides. The greatest depth so far obtained on any of these veins is 200 feet, the values being maintained to this depth. Teek Township corners on Malsonville Township, in which our seven gold claims are located."

LONDON MARKET IN WAITING MOOD

Traders Hold Off Pending Developments—Americans Quiet and Featureless.

LONDON, July 26.—Money was in moderate demand and discount rates were fairly firm today. Trading was quiet on the stock exchange as operators are awaiting more favorable news from the near east. The approaching settlement also checked transactions. Home Ralls were steady, despite poor taking; rubber and oil shares were dull, Kaffirs hard-ly active. The better labor outlook and Mexican Ralls closed strong. American securities were quiet and featureless. Prices opened about unchanged, and later moved irregularly. The closing was steady, with values from 1-2 above to 1-4 below yesterday's New York closing.

WINNIPEG GRAIN MARKET

WINNIPEG, July 26.—The wheat market opened weaker on lower Liverpool cables but strengthened in sympathy with corn later. The close was about level with the opening. Cash demand was fair and offerings light. Oats were stronger owing to improved demand for export, while flax was weaker. Cash oats closed unchanged to 1/4c higher. Wheat July 26, 1913, as follows: Cash wheat—No. 1 northern, 85 1/2c; No. 2 do, 84 1/2c; No. 3 do, 83 1/2c; No. 4 do, 82 1/2c; No. 5 do, 81 1/2c; No. 6 do, 80 1/2c; No. 7 do, 79 1/2c; No. 8 do, 78 1/2c; No. 9 do, 77 1/2c; No. 10 do, 76 1/2c; No. 11 do, 75 1/2c; No. 12 do, 74 1/2c; No. 13 do, 73 1/2c; No. 14 do, 72 1/2c; No. 15 do, 71 1/2c; No. 16 do, 70 1/2c; No. 17 do, 69 1/2c; No. 18 do, 68 1/2c; No. 19 do, 67 1/2c; No. 20 do, 66 1/2c; No. 21 do, 65 1/2c; No. 22 do, 64 1/2c; No. 23 do, 63 1/2c; No. 24 do, 62 1/2c; No. 25 do, 61 1/2c; No. 26 do, 60 1/2c; No. 27 do, 59 1/2c; No. 28 do, 58 1/2c; No. 29 do, 57 1/2c; No. 30 do, 56 1/2c; No. 31 do, 55 1/2c; No. 32 do, 54 1/2c; No. 33 do, 53 1/2c; No. 34 do, 52 1/2c; No. 35 do, 51 1/2c; No. 36 do, 50 1/2c; No. 37 do, 49 1/2c; No. 38 do, 48 1/2c; No. 39 do, 47 1/2c; No. 40 do, 46 1/2c; No. 41 do, 45 1/2c; No. 42 do, 44 1/2c; No. 43 do, 43 1/2c; No. 44 do, 42 1/2c; No. 45 do, 41 1/2c; No. 46 do, 40 1/2c; No. 47 do, 39 1/2c; No. 48 do, 38 1/2c; No. 49 do, 37 1/2c; No. 50 do, 36 1/2c; No. 51 do, 35 1/2c; No. 52 do, 34 1/2c; No. 53 do, 33 1/2c; No. 54 do, 32 1/2c; No. 55 do, 31 1/2c; No. 56 do, 30 1/2c; No. 57 do, 29 1/2c; No. 58 do, 28 1/2c; No. 59 do, 27 1/2c; No. 60 do, 26 1/2c; No. 61 do, 25 1/2c; No. 62 do, 24 1/2c; No. 63 do, 23 1/2c; No. 64 do, 22 1/2c; No. 65 do, 21 1/2c; No. 66 do, 20 1/2c; No. 67 do, 19 1/2c; No. 68 do, 18 1/2c; No. 69 do, 17 1/2c; No. 70 do, 16 1/2c; No. 71 do, 15 1/2c; No. 72 do, 14 1/2c; No. 73 do, 13 1/2c; No. 74 do, 12 1/2c; No. 75 do, 11 1/2c; No. 76 do, 10 1/2c; No. 77 do, 9 1/2c; No. 78 do, 8 1/2c; No. 79 do, 7 1/2c; No. 80 do, 6 1/2c; No. 81 do, 5 1/2c; No. 82 do, 4 1/2c; No. 83 do, 3 1/2c; No. 84 do, 2 1/2c; No. 85 do, 1 1/2c; No. 86 do, 1/2c; No. 87 do, 1/4c; No. 88 do, 1/8c; No. 89 do, 1/16c; No. 90 do, 1/32c; No. 91 do, 1/64c; No. 92 do, 1/128c; No. 93 do, 1/256c; No. 94 do, 1/512c; No. 95 do, 1/1024c; No. 96 do, 1/2048c; No. 97 do, 1/4096c; No. 98 do, 1/8192c; No. 99 do, 1/16384c; No. 100 do, 1/32768c.
