CANADIAN WESTERN AND COLUMBIA RIVER
Proposed Scheme Carried After Heated Discussion by Large Majority.
LONDON, Oct. 26.—The proposed scheme for an arrangement between the Canadian Western and the Columbia River Lumber Company, which after a heated discussion was put to poll, carried by an overwhelming majority. Under the new scheme debenture holders of the latter company receive £50 of five per cent. first mortgage debenture stock of the Canadian Western Co. for every £100 of their present holdings, to be repaid by £50 five per cent. cumulative debenture stock, £25 in ordinary shares of the Canadian Western Co., the payment in cash in December of the half interest due on Dec. 1, and the deferred interest warrant carrying 5 per cent. for the other half of the interest.
FOR STENOGRAPHERS ONLY.
The Canadian Western, said that the immediate prospects of the concern depended on the length of the war. Should, however, the war be prolonged, Canadian farmers should receive high returns for their future crops and this should react on business conditions.

RYERSON SCHOOL WILL BE LARGEST IN CITY
Eighteen Room Addition is Planned and Contracts Will Be Let Next Month.
Two thousand pupils and staff teachers will be provided for at Ryerson Public School on the completion of the new addition. The contracts will be amended at the first meeting next month of the property committee. The addition will make Ryerson the largest public school in the city. The nine-room addition will make a 33-room school. The new wing will have a frontage on Grange avenue.
When the board of education established a department of buildings 25 years ago Ryerson had 13 rooms. The growth of population has necessitated two additions, one of 5 and another of 6 rooms. The addition to be started this winter will contain 9 commodious rooms. It is to be erected as rapidly as possible for use next September. It will cost \$60,000.

WIFE AND FOUR CHILDREN MISSING—HUSBAND ANXIOUS.
Montreal Polack is Looking For His Family of Five.
A Polack named Williams is anxiously looking for news concerning the whereabouts of his wife, Margaret Williams, who left Montreal on either Oct. 12 or 13, in company with another man it is thought. She has four girls with her, whose ages run from 7 months to 12 years. He has not heard of her since she left Montreal. Williams is carrying with him a small box containing eight teeth his wife knocked from his mouth with a rolling pin. He has asked the morality department in Toronto to assist him in getting back his better half.
REMITTANCE TOO SMALL.
A soldier's wife whose little 2-year-old baby clung to her skirts, was discharged yesterday when she appeared in the women's court, charged with keeping a disorderly house. She declared that she had received only \$2.25 per week from the patriotic fund. The man, in the case, W. Kennedy, was sent to jail for four months. The woman's husband is with the Canadian expeditionary force.

SIXTEEN THOUSAND INFANTRY WILL GO
Second Contingent Will Also Be Enlarged by Infantry and Cavalry.
TRAINING TO BE THOROUGH
Men Will Be Better Drilled Than First Expeditionary Force.
By a Staff Reporter.
OTTAWA, Oct. 26.—By the middle of this week it is expected that the 16,000 infantry called for from the various divisional areas will be recruited and assembled at the different local mobilization centres all across the Dominion. Centres will be much better trained than the first contingent, for they will have more time before sailing than the first force had. Besides being well trained in infantry drill the men will get rifle practice in galleries that will be provided, and even outside at the ranges in places like Toronto and Victoria where the weather is not unduly cold. There will also be thorough training in the use of the bayonet.
There will be no difficulty about equipping the next contingent, and the time of its departure, supposed to be in December, will probably depend only upon the time when the first contingent leaves Salisbury Plains for the front. As the Canadian troops just arrived in England are likely to be given a thorough training before crossing the channel the second contingent is not likely to reach Salisbury Plains till near the end of December. The time spent here, however, after recruiting will be used to the very best advantage, and the force will also have the benefit of a longer and more intimate association of the officers with their men than was possible with the first contingent.
May Mobilize City Corps.
In addition to the 50,000 men who will be kept in training in Canada for service in Europe from now till the end of the war, and the 10,000 men on guard duty and home defence, there is a possibility of the militia regiments in the cities being mobilized. This has not been decided on as yet, however.
Major-General Sam Hughes is expected back from England in about a fortnight. The only thing that would stop him would be the prospect of the Canadian troops leaving for the front at an early date, in which case he would doubtless accompany them, but that is not considered probable.

SIXTY-SIXTH ANNUAL REPORT OF THE Consumers' Gas Company of Toronto

In presenting to the Stockholders the Sixty-sixth Annual Report of the Company, with the accompanying financial statements, it affords the Directors pleasure to be able to exhibit increases in the consumption of Gas, in the number of consumers, in gross revenue and net earnings. That these results have been realized notwithstanding the keen competition which has been met with, is very gratifying to the Directors, as it will be to the Shareholders.

During the year 6,918 new Services have been installed, and more than 46 Miles of Street Mains have been laid; this being the largest mileage of Mains laid by the Company in any year in its history. A considerable proportion of these pipes are of 24 in. and 36 in. sizes, required as additional trunk lines. When it is borne in mind that the quantity of Gas put out during the past year is nearly double the quantity sold six years ago, the necessity for this large increase in the Company's system of trunk mains will be apparent.

Further considerable increases have been made in the assessed value of the Company's property for Municipal Taxation, which necessarily increases the cost of our production.

A Special Meeting of the Shareholders was held on March 3rd, 1914, for the purpose of passing certain By-laws, and in accordance with these By-laws application was made for Supplementary Letters Patent, which were granted on August 28th, 1914, enlarging and extending the powers of the Company.

Your Directors sold by public tender on December 15th, 1913, Three Thousand One Hundred and Forty (3,140) Shares of the Company's Capital Stock, having a par value of One Hundred and Fifty-seven Thousand Dollars (\$157,000.00), and the premium realized amounted to Ninety-seven Thousand Two Hundred and Sixty-two Dollars and Fifty Cents (\$97,262.50).

In view of the unfavorable financial conditions prevailing during the later months of the year just closed, your Directors have not considered it desirable to make any further issue of Capital Stock, but made arrangements with the Company's bankers for the provision, on reasonable terms, of such funds as were required by the Company.

The following statement for the past, as compared with the preceding year, shows:—

Table comparing Meters and Gas Sales for 1913 and 1914. Meters: 1913 99,648, 1914 91,284. Gas Sales: 1913 \$2,453,417.64, 1914 \$2,284,308.21.

All of which is respectfully submitted. A. W. AUSTIN, President.

A Woman's Way

Who says a woman's part is only "watch and wait"?

True, a woman cannot shoulder a rifle and go to the front, but there is a way in which she can help and which is just as important. That way is in supporting the prosperity of Canada.

Women do the buying. A million of them in Canada are buying, every day, most of the necessities and luxuries for eight million people, expending and influencing the expenditure of perhaps a billion dollars every year.

At present much of that expenditure goes for imported products.

Suppose it were all switched to Canadian-made goods. Think how many Canadian workmen would be kept busy supplying this enormous demand! Think what it would mean to Canadian industries! Think what an era of prosperity it would create!

This is a woman's way to help. To create prosperity for Canada, to lay forever the spectre of unemployment, to create resources to carry on the war.

It's very easy too, just

C. P. R. NOTES NOW AT PREMIUM IN BRITAIN

Vanished Prospect of Early Redemption Cause of Advance.

Canadian Associated Press Cable. LONDON, Oct. 26.—Despite several decreases in the Canadian Pacific returns, it is confidently asserted here, however, that no railway is in a stronger position to withstand such heavy misfortunes. That is why the rise in the Canadian Pacific 6 per cent notes continues despite big traffic decreases. Before the war the notes were quoted about par. Today they have risen to 104-7-8. The reason for this remarkable rise is that the notes are redeemable at par on or before March, 1924.

Before the war there was a strong probability of some of them being deemed before 1924, but that probability has now much diminished, so that the chance of loss to holders who buy at a premium is small. In any case they must be redeemed within a few years, so that the holder has the assurance that they are not likely to fall much, if at all, below par.

The Toronto World

FOUNDED 1870. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited...

TUESDAY MORNING, OCTOBER 27

Opening Up West Toronto With the threat of the Suburban Railway Company, in view of an appeal to the privy council against the decision under which the company is required to build the Annette street line according to its agreement, Toronto has no option but to carry out the policy which will best serve the interests of the west end citizens...

Hard to Understand The Toronto Globe protests that it never said: Why give workmen higher wages? They will have it all spent by the end of the month, and be no better off anyhow.

The World is chided for misquoting the Globe in that particular regard, and we hasten to say that we certainly had no desire or intention to misquote. Neither do we think that anyone reading the article could have supposed that we were charging the Globe with having made the query objected to.

The Globe, the other day, cynically dismissed the whole question of direct or primary nominations with the remark that "the system that will make men vote wisely has not been devised." Commenting upon this, we said that every reform ever suggested could be countered with a similar argument, and we went on to instance several "bromides" of the kind not infrequently heard.

Swapping Constitutions? Curiously, while we have been adopting the system of checks and balances in our federal government, so that the upper chamber freely vetoes measures proposed by the government of the day and passed by the house of commons, the people of the United States have been endeavoring to adopt something like the British or parliamentary system.

Not permanently at any rate. The people of this country will insist upon having responsible government and

there are reasons why the parliamentary system cannot be efficiently and permanently maintained at Washington. For one thing, the president is often a dark horse candidate, almost unknown to the country at the time of his election and far from being the leading man of his party. And, again, it might happen that congress is controlled by the political party opposed to the president. But the greatest obstacle in the past to representative and responsible government in the United States has been the ability of the senate to utterly ignore the house of representatives, fresh from the people and with a clear mandate for certain legislation. Thus the Democrats carried nearly every congressional election for twenty years, commencing in 1874, without being able to get on the statute books the laws they were pledged to pass.

To some extent the system has been bettered in the United States by the constitutional amendment requiring United States senators to be elected by a popular vote, instead of by state legislatures. But so long as there are two co-ordinate branches of the national legislature there are apt to be deadlocks, with the defeated political party able to prevent their victorious opponents from crystallizing the popular mandate into legislation.

The two chamber system is open to many objections and has required surgical treatment in Britain, where the unrepresentative chamber has been curbed but not abolished. In Canada, we have had many remedies proposed, most of them, however, only dealing with the present temporary situation. So long, however, as the senate is free from any responsibility to the people and with power to veto bills passed by the popular chamber, it will remain a menace, not only to this or that government from time to time, but to all popular or parliamentary government in the Dominion. The Toronto Star proposes to abolish the senate altogether and The World has more than once declared that it should not be kept in existence if it is to remain irresponsible. Bringing it into political sympathy with the present government will solve the temporary situation, but the permanent menace to responsible government remains in the constitution. Much more than party politics is involved; it is a national question that should be considered by all good citizens from a national standpoint.

Patriotism and Treachery That Germany for many years had been assiduously preparing the way for European dominance is now too evident to admit of question. During the long period when the present Kaiser and his chancellors and counsellors were posing as sincere upholders of world peace they were, all the time, using that mask to cover their insidious designs on the freedom and independence of the neighboring states they sought to lull into apathy and indifference. It is an old saying every thing is fair in love and war, but the Germans have extended the maxim to cover every variety of deception and treachery practised upon honorable nations that believed international obligations to be as binding as those of man and man.

In order to fight crime it has been found necessary to use methods that are abhorrent to the normal mind. Nevertheless, these methods have been tolerated because they were useful and often necessary in order to defeat attacks on life and property. But the profession of the spy has never been held in honor by the peoples who play the game, even when they have been protected by it. The world has recognized a hero in the man who, without disguise, has risked his life in perilous enterprises, whether to gain information or to guard against surprise. It has never regarded, and will never regard, the ostensible friend and secret spy, however great the personal risk he takes, as of heroic mold.

No nation has ever employed and developed the spy system on so extensive a scale as Germany appears to have done. No section of society in countries towards which the German Government professed sincere friendship is now seen to have been free from its activity. Its ramifications were endless and its energies employed with a cynical indifference to those virtues and qualities that have ever been held in high regard even in the dark ages. No normal man but regards with natural antipathy practices which involve the betrayal of trust or the misuse of friendship. Yet that is what German spies have been engaged in doing. Posing as good citizens, sometimes elected to responsible offices, they have reappeared in this war as army officers employing their knowledge to injure the very communities they deceived. Perhaps they deem themselves patriots, but that is a sorry patriotism which reveals itself in treachery.

A MELANCHOLY SPECTACLE

A NEWSPAPER ENEMY TO BE BARRED OUT

It is publicly reported in America that The Literary Digest of New York, a weekly newspaper that professes to impartially present news and views like Public Opinion of London, has accepted service in the German cause. How much truth there is in this, we cannot say at this moment; but we can say that this professed impartial authority is deliberately and maliciously devoted to advocacy of the German Empire's cause and to apology for Germany's acts in the war; and to giving Great Britain and her allies the worst of it.

No such paper should be allowed to come into Canada in time of war, nor should the publication firm that runs it find a market for any of its output in Canada. And we mean Funk & Wagnalls of New York and London, who have taken hundreds of thousands of dollars out of Canada and even larger sums out of England for their books and papers; and who own The Literary Digest; and England has a good case against them going to London. We have no issue with any American paper or firm that fairly and openly comes out against the British cause; but we draw the line at a paper and firm that professes to be impartial and then secretly enlists in the cause of one side and deliberately misrepresents the other. That comes near to treason—it is at least treason to fair play and to those whose money is taken under false colors.

The government at Ottawa will only be doing its duty if it puts up the bars to this firm and its papers. The free Lutherans of America had also better find out how their traditions have been betrayed by the commercial successors of the Lutheran preacher who founded the house. The Lutherans of the United States do not, we think, uphold a war directed by autocratic militarism. The German Government knows the value of influencing public opinion and the part played by clipping bureaus and journals that mold the people's minds, and it went after, and evidently got, The Literary Digest at an early stage of the war. The Kaiser's government also knows that when the day for intervention comes it in any policy he takes up by the view of his own people. The Literary Digest has built up a reputation for fairness under its late owners and was therefore an extremely valuable force to win over to the advocacy of militaristic aggression. But it has been found out here and the Americans will soon find it out. They will not stand for double-dealing work on the part of a professed neutral.

WILL THIS GERMAN PREDICTION COME TRUE? "The old lamp-lighter is back at work once more." —Kladderatsch (Berlin). Take a look at this cartoon reproduced by The Literary Digest of last week, and its comments and quotations (page 776) on "The Boer Disaffection," the avowed object of both being to get the American reader to believe that the cartoon of Kladderatsch is a true size-up of the relation between the mother country and the dominions.

He stated also that Russia for some time had been buying large numbers of rifles, field artillery and siege guns from Japan.

WINTER CLOTHING FOR THE FLEET.

The following letter from Lady Jellicoe appeared in The London Times on Monday, October 13: To the Editor of The Times: Sir: There is a very prevalent idea about that the navy have enough winter comforts. I beg to state such is not the case. Only yesterday my husband wrote: "Altho the admiralty are providing extra warm things for the fleet, it won't be nearly enough, and every helmet, glove, or stocking that you can get will be most welcome." Sir John also wrote what the men badly want are sea boots and oilskins. I suggest that all comforts, such as mufflers, jerseys, gloves, etc., be sent to the Navy League, 47 Grosvenor square, or to the needlework committee of the Primrose League, 64 Victoria street, S.W., who will gladly forward them immediately to his majesty's ships as they come in, and I will gladly receive subscriptions at 29 Sussex square, W., to buy the much-needed sea boots and oilskins and forward them immediately to the fleet.

(Signed) Gwendoline Jellicoe, 29 Sussex square, Hyde Park, W., Oct. 10.

A SERIES OF MARVELOUS ILLUSTRATIONS THAT ACCOMPANY LARNED'S GREAT HISTORY OF THE WORLD

The illustrations that accompany Larned's History of the World present probably the feature that will quickest attract the attention and hold it. As wonderful and praiseworthy as the work is from a literary standpoint, it is not less worthy of commendation from an artistic point of view. Not one of the illustrations has been selected merely as an interesting or attractive picture. Each of the more than 150 has been chosen to illustrate the text, to make it more emphatic, and to make the narrative more clear and realistic. The portraits are authentic; the battle scenes and world famous events are reproduced from the greatest art galleries of the world. Some of the originals were sold at more than 100 times their value. They will bear the test of the most critical examination of art connoisseurs. This is one of the features that puts Larned's history far above any similar work ever offered. Our readers are fortunate in being able to own these five great volumes almost as a gift. Read the coupon offer elsewhere in this paper, and see the book on view at The World office, 40 Richmond street west, Toronto, and 15 Main street east, Hamilton.

NO SHORTAGE OF DYES WITH SEA ROUTE OPEN

Supply Can Be Secured From Switzerland, Tho in Comparative Small Quantities. Enquiry seems to have settled the doubt as to the possibility of a shortage of aniline dyes as a result of the closure of British markets to German productions, the Basle markets of Switzerland being able to meet the demand. Fear of famine of this article caused no small discussion in some of the newspapers of the United States and Canada. At present there is no shortage, and as long as the sea routes are kept open between Europe and Canada, a continuous supply, the not as great as heretofore, will be received, sufficient to supply a considerable portion of the consumers. In this country the chief consumers of the product are the manufacturers of cotton and woollen fabrics, the tinneries and the laboratories in a lesser degree.

RUGBY SITUATION SIZED UP.

ARGOS' CHANCES LOOK VERY GOOD

Three Remaining Games Should All Be Wins — Rugby Gossip.

Toronto looks to have a fair chance to lead the expected when they downed Montreal on Saturday, and have really only one more hard game to play. The scullers meet Ottawa at Rosedale on Saturday, and should win with something to spare, while a week later they go to the capital for the return game. This looks like two wins and then they meet Montreal at Rosedale to wind up the season. On their present form Argos should finish without another loss, the Montreal game being the only hard one. Now, let us look to Hamilton. The Jungles have a hard nut to crack right off the reel. The well-conditioned Montreal outfit are their first opponents, and the Tigers will have to put their foot forward to win at home. Even conceding this one to the Jungle Terrors, they will hardly win in Montreal on the following Saturday. Tigers will surely beat Ottawa in Hamilton on Nov. 14. Taking it all in all, Argonauts' chances look much the best.

Varsity must win in Kingston on Saturday and then down McGill at the stadium on Nov. 7 to tie up the Intercollegiate Union. Queens report many injuries from Saturday's hard game with McGill, and Varsity will be two-in-one favorites on Saturday. U. of T. should win. Can Varsity turn the trick on McGill? Close followers of the students will be so, and claim that the blue and white squad are a much improved team over their opening fixture, and that they will surprise Sham's outfit on Nov. 7. Let us hope so.

Hamilton Rowing Club have yet to lose a game in the Senior O.V. series. T. R. and A. A. must beat Ottawa twice and down the strong Hamilton team in Hamilton to tie it up. It is a big task, but the Toronto team are confident.

Argonauts surely have the best chance of the Queen City teams.

Capital Intermediate of the Boys' Union defeated Kew Beach on Saturday by a score of 17 to 6. Don, Arthur, Mee, and Laurie were the stars of the triumph on Saturday. Jackey Forbes was not in as good condition as expected as the result of last Saturday's game against Beaches, but he will be in to practice this week, and is expected to be in good condition for next Saturday's game.

WHEN ARGOS DOWNED MONTREAL

Glad Murphy away for an end run that gained 30 yards in the last quarter at Montreal on Saturday.

Mullock Cup Games Cut to Single Series

The authorities and Rugby men at Varsity have compromised over the Mullock games. Some of the former wanted them eliminated altogether. Managers of teams met yesterday, when it was decided that the schedule would be cut to a single series, and affairs wound up as early as Nov. 5. Lectures have also been cut to close at 4 p.m., in order to give the student body opportunity to drill. Even the senior and intermediate Rugby teams, who will complete their schedule, will take in the work and drill every Monday afternoon in the stadium prior to practice. Yesterday afternoon the men had their first taste of militarism, and about thirty assistants, clad in Rugby gear, were put thru their paces by Sgt. Williams. The Mullock Cup series schedule is to be played as follows: Winners of Trinity-Wycliffe game, to be played today, meet Senior Meds Nov. 2, Victoria v. Junior Meds, Oct. 30, on Victoria grounds. The final will be held at the stadium on Nov. 5.

Hon. Coach Joe Wright of the Argonaut Rowing Club has been decorated with a commemorative medal by King Gustave V. of Sweden.

RUGBY GOSSIP

Capital Junior City team defeated N. Toronto by the score of 45 to 1 on Saturday afternoon. Monk Elliott and Chick Ward were the stars for Capitals, with Elliott's eighty-yard run and Ward's sensational line-punching. The quarter for North Toronto played an extra good game.

Jack Spalding and Dickson have signed up on the wing for the S.A.C. Rugby team.

McMaster defaulted to Varsity II at the Varsity Stadium today in intercollegiate Rugby, intermediate series.

The Don Rowing Club broke their jinx by beating Balmly Beach by a score of 7 to 2. The game was lightning fast, both teams being completely exhausted at the finish. The stars for the winners were: G. Chartars, shooting; Norman, running; Gould and O'Rourke, tackling; Toj, headwork; and Baker, line punching.

A Kingston despatch says: Some of Queen's senior Rugby players are pretty well used up as a result of the game with McGill Saturday. MacQuay, the quarter-back, is suffering with bad knees; MacDonnell's shoulder is causing him trouble; Gilmore's injured his elbow. Box, the outside wing, who was hurt in the game, was able to be out Monday. His nose was injured by a heavy tackle, but he will be able to be in the game against Varsity on Saturday.

A dispute over the schedule for Saturday is the rock upon which harmony has split in the Ontario Football Union. St. Patricks and T.R. & A.A. were originally slated to play in Ottawa on that date, but the list was revised, and the order reversed, the Saints being ordered to go to Toronto. As there is no attraction at the capital next Saturday, and Ottawa Argonauts at Rosedale in the Inter-provincial, they requested the union to have T.R. & A.A. go there. A conference took place at 11 a.m. Saturday night, and the Toronto team declined St. Patricks state that they will not go to Toronto, and that they will withdraw from the union rather than do so. The Ottawa Club has appealed to the Ontario Union executive, and expect a favorable reply. Next Saturday is the only open date they can get at Lansdowne Park until Nov. 21, when winter conditions will likely prevail hereabouts.

THAT BOWLING RECORD.

Sporting Editor World: I noticed in Friday's World a writeup about the Brunswick's making a city record and breaking the Athenaeum previous record for three games, which total was 908 pins, by two pins. If the records are rolled up it will be found that the Royal Bowling Club on April 14, 1910, rolled 2080; G. Bick, 604; T. Logan, 701; J. Booth, 675; total, 2080. Also it was stated that the high single was 1104, the highest ever rolled in Toronto. The Riverdale rolled 1162 March 24, 1910. Scores: J. Logan, 255; J. Murray, 245; G. Bick, 244; T. Logan, 180; J. Booth, 283; total, 1162. These games were all rolled in the City League. Old Riverdale.
