The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public  
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives  
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

In addition to the above about 35 Kelts (an unusual number) were caught during the first few days fishing,—most of which (and when circumstances permitted) were returned to the water. Also, about 250 Sea Trout were taken while fishing for Salmon, of an average weight of  $2\frac{3}{4}$  to 3 lbs.; and 7 Grilse.

In consequence of frequent and unusual heavy rain, the River, during the whole time, continued too high for good fishing, and in consequence a number of the best Pools were so flooded as to prevent the fish from lying therein, or at least taking the Fly as freely as in former seasons.

On arriving at the river it was found to be unusually low, and in consequence there was no fishing in the lower pools, which in ordinary seasons give the best sport at the beginning. During the whole time of fishing only a few light showers fell, so that the water continued to fall steadily, and by the middle of July it had become lower than ever before known to any of those now acquainted with the river. No Kilt were caught this season.

x Not fishing.

The water in the river was found very low on the arrival of the party, and remained so during all the time they were there, which was considered the reason why the salmon did not take as well as usual.

## THE RIVER GODBOUT.

*Contributed by one of its now oldest Salmon Fishers.*

Again on the Godbont's banks we've met  
With trusty rod in hand,  
And envy not the greatest Prince  
Who reigns o'er happiest land.

For here from the world's cares we're free  
Beneath a genial sky,  
While under the rippling waters bright  
The silvery salmon lie.

Ready to test the utmost skill  
Of the lover of angling art,  
And give to the startled nerves a thrill  
That pulses from the heart.

Then come with me to the "Upper Pool,"  
Well known on thy glorious stream,  
And prove for thyself, if doubter thou art,  
That its treasures are not a dream.

And take thy stand on the "Gravel Bank,"  
Where the water glides swiftly by,  
And over its surface lightly cast  
The tempting "Fairy Fly."

It touches the water,—a moment floats,—  
Then quickly disappears;  
With a magic tug! and the line runs out!  
Now Piscator comes thy fears!

Still hope prevails o'er every fear  
That the victory will be thine,  
Should no mishap occur in the fight  
To break thy fragile line.

But a ready hand and watchful eye  
Alone will success command,  
And bring the gallant, tho' conquer'd fish,  
At last to the Gaffman's hand.

Oh! when "Salmo Salax" has seized the lure,  
Quickly down in the water he goes;  
But soon discovering the mistake he's made,  
He tugs and shakes his nose.

But all in vain—so he angry gets  
 And perhaps, as a fish may—swears  
 But be that as it may, he soon dashes off,  
 And away through the water tears.

The line now runs out with lightning speed,—  
 The reel gives its music sweet ;  
 But dependence on these alone won't do,  
 So be ready with nimble feet.

For down the stream he may take a rush,  
 In his madness to break away ;  
 When thou must be ready to follow him up,  
 Or assuredly lose the day.

Again, in his rage, to clear the hook,  
 With a spring he will dart in the air ;  
 And his frantic bounds again repeat,  
 Which will claim thy anxious care.

Then thou must be ready with courtier's ease  
 His vaulting feats to greet,—  
 Quickly lower your rod and make your bow,  
 Or misfortune you'll surely meet.

Your line will be snapped like a spider's web,  
 When off goes the hoped-for prize ;  
 But then too late, you may stamp and rave  
 Who such acts polite despise.

At last the dubious fight is o'er,—  
 The battle's been fought and won ;  
 And the coveted prize lies safe ashore,  
 A beauty!—a twenty-pounder good!  
 Hurra! a prettier Salmon sure  
 Was ne'er seen beneath the sun!
