Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Seminary of Quebec
Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Séminaire de Québec
Bibliothèque

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

TOBOGGANING.

Until some one invents wings, you cannot better realize the delight of flying than by indulging in this splendid pastime. Montreal goes mad every winter about this sport, and the madness is contagious. Not only are the natural hills well patronized, but within the last two years artificial slides ; such as are used in Russia, have become popular ; so that those who live on a prairie can toboggan as well as those who live on a mountain. Of all our sports this is the one in which ladies and even people up in years can participate, and, under a good guide, with perfect safety. Our American cousins will find the club members only too anxious to give them many and pleasant opportunities to enjoy this exhilarating pastime. The fact of being a stranger come to see the Carnival will ensure every possible hospitality and kindness.

LACROSSE.

One of the characteristics of our best Canadian sports is that they are identified with the Indians. Lacrosse, the summer out-door "national game of Canada," as well as snow-shoeing and tobogganing, owe their origin to the Red-skin. There is no field sport whose history has been more thrilling, and whose popularity has been more wide-pread, than Lacrosse, the old "baggataway" of the Objiway. After seeing it played at the carnial we recommend our friends to read Parkman's "Conspiracy of Pontiac" to learn the part it was made to play in the past history of this continent. The peculiar features of the game are that any number can play it at once; every player has his "innings" at the same time: its wonderful variety and beauty fascinate the looker-on beyond comparison with any field sport in the world. The annual contests for the championship are the most exciting events of our summer season. It is usually played by twelve men on a side. Each side has a goal of two flags six feet apart, at about 150 yards distance, one from the other. The game is begun in the centre of the field, and the object of each side is to throw the ball into the goal of the opposing party. It is, without doubt, the most fascinating of all field sports.

SNOW-SHOEING.

Of all Canadian sports in winter this has been the longest enshrined in the affections of the people; and besides the Montreal club, which was the only one in existence for many years, we can count them by the hundred. "The snow-shoe is the only thing ever invented to facilitate walking over soft snow, and it is quite likely that, in spite of all the mechanical knowledge of this age, nothing better or simpler will ever be contrived." If, gentle stranger, you doubt the reality of the joy we Canadians feel when out on a tramp with the club, fail not to see the snow-shoe procession, the races, and the snow-shoe concert. Nature has given us a friend, dry snow—you long supposed to be a fiend; and the happiest hours of life with young Canada are those he spends in this glorious and healthy exercise. There is no reason why snow-shoeing should not become as popular a sport wherever the snow is dry.

ENGRAVED by JAMES L. WISEMAN,

162 ST. JAMES STREET, MONTREAL.

Ice Palace of Montreal Winter Carnival,

FEBRUARY, 1884.

The Palace consists of 10,000 blocks of ice, each 40 x 20 inches, and cost about \$3,200. It faces on Dorchester Street, and is 160 feet in height, by 64 feet in depth through the centre. The main tower of 76 feet in height, in three stages: first, 40 feet high; second, 16 feet high; third, 20 feet, each different in shape. The tower at the N.W. corner is 40 feet high, and those at the other corners 29 feet each.

The ice was supplied by J. QUINN. Mr. J. H. HUTCHISON was the Building Contractor, and Messrs. HUTCHISON & STEELE, 181 St. James Street, the Architects.

FRIDAY, FEBRUARY 8th.

Morning.—Hockey Tournament continued.

Curling Bonspeil continued.

Skating and Promenade Concert at Victoria Rink.

Afternoon.—Trotting Races continued.

Races and Games on the out-door Skating Rink.

Evening.—Grand Ball at the Windsor Hotel.

Skating competition, Ten Mile Race, Crystal Skating Rink.

Races and Games, Victoria Skating Rink.

Grand Opening and Illumination of the Grounds of the Park Toboggan Club, Mount Royal.

SATURDAY, FEBRUARY 9th.

Morning.—Termination of Hockey Tournament and Curling Bonspeil.

Afternoon.—Montreal Snow-Shoe Club's Annual Games on Lacrosse Grounds.

Meet of the Montreal Tandem Club on Dominion Square.

Evening.—Hockey Match, Victoria Rink.

Grand Pyrotechnic Display at Ice Palace.

Special Illumination of Toboggan Hills.

The Carnival is held under the auspices of a Committee of Citizens, the SPORTS being under the immediate direction of Committees from the various Athletic Clubs.

A detailed programme of each day's proceedings will be issued during Carnival week, and will include novel attractions which are now under consideration by the Executive Committee. Special Carnival excursion trains have been arranged for by the railways entering Montreal. Full particulars as to reduced fares, etc., may be obtained at railroad ticket offices in Canada and United States.

Extensive accommodation for strangers has been secured by Mr. W. R. **SALTER**, Chairman Lodging Committee, who may be addressed at 178 St. James street.

The Toboggan Hills of the Montreal, Tuque Bleu and Park Clubs will be at the disposal of visitors during Carnival week, and members of these clubs will welcome strangers to their grounds.

Special tickets for Carnival week, admitting holders to all the privileges of membership, will be issued by the Victoria Skating Club, whose rink is the largest and most commodious in America. Gentlemen, \$3.00; ladies \$2.00.

Visitors to the city bringing fancy dresses will be allowed to participate in the Grand Carnival to be held on Thursday, 7th.

His Excellency the Governor-General of Canada, Lord Lansdowne, Lady Lansdowne, and suite, will be the guests of the city during Carnival week.

JOSEPH HICKSON, Chairman.

R. D. MCGIBBON, Vice-Chairman.

GEO. ILES, Treasurer.

FOR DESCRIPTION, See next page.

SKATING.

When you have gazed upon the Ice Palace, whether reflecting the rays of the sun, moon or lesser constellations, or sparkling with the myriad scintillations which their great earthly rival, Electricity, can conjure from its glacial angles and prisms, in a wondrous play of colors, you may be even more electrified by a visit to the skater's kaleidoscope, the Victoria Rink, during a Fancy Dress Carnival.

The Arabian Nights are not a circumstance to our Canadian Nights on the ice. The rink becomes enchanted. What fairy land of fancy can surpass this *tout ensemble* of fact, with its beautiful blending of motley costumes and characters, living, moving, laughing pictures—a perfect melody of color, more like an Eastern fable than a foreigner's conception of a Canadian winter's night.

Of course the Skating Rink is more than a mere field of ice inclosed, where the poetry of motion is seen in perfection,—it has become a sociable club for both sexes, where they may meet and enjoy a chat, etc., as well as a skate; where the nerves and sinews of the robust lad and tender maiden are strengthened and developed, and their forms made pliant and graceful; a club, where all ages can meet in enjoyment and friendly rivalry, and the wearied toiler from the office, as well as the fretted housewife, can gather relaxation and obtain that greatest of all boons to mankind—a good digestion.

## CURLING.

Montreal's oldest curling club was 77 years old on the 22nd of January, and never, since its organization, have curlers been lacking to keep this fine Scotch game "a-boiling." In addition to its enjoyment out-doors, many clubs possess substantial rinks in-doors, which enable them to indulge in the game in every kind of weather. It is a matter of pride and satisfaction to Canadian curlers that of the clubs in existence in all parts of the globe, the Montreal ties with the Barrhead, Renfrewshire, Scotland, for second place.

Wherever Englishmen go, they instinctively look out for a good cricket crease, and, in the same way, the Scotchman picks out a good clean nook for curling. A good description of the game, as it strikes an uninitiated observer, is that given by the French *habitant* after witnessing it for the first time. Translated from the vernacular, his description was, that "he had seen a gang of Scotchmen throwing on the ice large iron balls, shaped like bombshells, after which they yelled *soup! soup!* laughing like fools," to which he added, "and I really think they were fools." In Canada the sons of Scotia have made curling one of the finest winter pastimes. In fact, long before any other winter sport had any sort of organization, Canada had her regular curling clubs; and every winter saw the enthusiastic players stealing away to their rinks.

"Out flee the lads, to draw, inwick and strike,  
"Frae plough, counter, desk, bar and pulpit."

*Please Read the following Letter:*

WADLEIGH'S HEAD GEAR PARLORS,  
476 Washington Street, Boston, Mass., Feb. 5th, 1883.

L. W. SCOTT, Esq.,

DEAR SIR,—Pardon me for taking this way of thanking you, as sometimes a few words encourage one when starting a new enterprise, as I judged this was.

While visiting your city during Carnival season, I had occasion to patronize a laundry, and on my way down town, I, by chance, dropped into your place. In a few days I received my parcel, and much to my surprise found the best laundried linen I ever saw. I had always thought we had good city, and even the Troy, laundries to boast of, but yours beats them all.

Montrealers certainly ought to feel proud of such an establishment, for of all things that a man pays out his money for with pleasure, it is when he gets a good, clean-washed and nicely-laundried linen.

Wishing you every success in your undertaking,

I remain, respectfully yours,

R. H. WADLEIGH.

VIEW OF MONTREAL FROM THE MOUNTAIN

The Singer Manufacturing Company's New Family Sewing Machines.

# Genuine SINGER SEWING MACHINES.

Every Real Singer has  
the Trade

Mark in arm and sides  
of Stand.

## SOME VERY HARD NUTS TO CRACK.

1.—Companies have sprung up in every part of the world for making an "Imitation Singer Machine." Why are not similar Companies formed for making Imitations of other Sewing Machines? The Public will draw its own inference. *Gold is continually counterfeited; brass and tin never.*

2.—The Genuine Singer has taken the **FIRST PRIZE OVER ALL Competitors more than TWO HUNDRED TIMES. Why?**

3.—After the Chicago Fire the Relief Committee undertook to furnish sewing machines to the needy women of that city. Applicants were permitted to choose from six different kinds of machines. 2,944 applicants were furnished with machines; 2,427 chose Genuine Singer machines, and 517 distributed their choice among the five other kinds of machines! These girls were to *earn their living* on these machines.

### Why did they take Genuine Singers?

4.—THE PEOPLE'S AWARD TO THE "SINGER." The People bought Genuine Singer Machines as follows:

|           |         |                          |
|-----------|---------|--------------------------|
| 1870..... | 127,833 | Genuine Singer Machines. |
| 1881..... | 567,381 | " " "                    |

Many of the Manufacturers of other Machines refuse to state their sales. **Why? 107,442** more Genuine Singers sold in 1880 than in any previous year. Three-quarters of all the Sewing Machines sold throughout the world in 1880 were "Genuine Singers."

**VICTORIA BRIDGE, MONTREAL.—THE LONGEST BRIDGE IN THE WORLD**  
The **VICTORIA BRIDGE** has been called the eighth wonder of the world. The bridge consists of 23 spans, 242 feet each, and one in the centre, 330 feet, with an abutment, 290 feet long, on each bank of the river. The piers which support the bridge are 33 feet by 16 at the top, and increase to 92 by 22½ at the foundation. The upper side of the piers are formed like a wedge to act as ice breakers. The actual cost was \$6,500,000 including a bonus of 300,000 given to Contractors for completing it one year in advance of time specified.

## THE ICE-BRIDGE RAILWAY.

---

When we were schoolboys, there was a story among us of a Sailor and an Eastern King. The former had been wrecked on a coast where they had perpetual summer; and, when brought before the hot-headed and sun-burned potentate, was giving an account of his travels. When the sailor began his yarns of snow-storms and icebergs His Majesty became incredulous, and his incredulity grew into royal wrath. At last, Jack gave a vivid description of how the rivers were frozen so thick that they bore the weight of great merchandise and multitudes. This seemed too much to bear, so poor Jack's head was cut off, to prevent his tongue taking any more liberties with Royalty.

How His Majesty would stand aghast in wonder, were he alive to-day, and should be transported from the Tropics to the broad St. Lawrence, and watch a locomotive and tender weighing over 50,000 lbs., with cars weighing 100 tons each, crossing the frozen St. Lawrence to Longueuil, opposite Montreal.

On the 30th of January, 1880, a light engine first crossed the ice at that point and returned in safety. The train consisted of two ordinary platform cars of about 80 tons, each carrying 250 guests, moving at the rate of about 10 miles an hour. No jolting was felt upon the iron rails laid upon wooden sleepers frozen into position.

## GLAD TO SEE YOU BACK AGAIN.

---

"Welcome Jonathan, we are extremely glad to have you at our Carnival. You are not afraid, apparently, to join in our athletic sports once again.

"That's right; we will soon make a healthy Canadian of you! Yes, and we are awfully pleased to see so many of your fair ladies with you, and hope that they will heartily enjoy themselves."

"Why, yes, ever since my last visit, and in spite of the recollection of bruises, I have longed to see one of your beautiful Canadian winters again; and, after several winters spent in the Tropics, I am perfectly converted to the value of a Canadian winter for health, as well as novel, exhilarating pleasure."

"Thank you, Jonathan, for speaking of our dear old Canada from an unprejudiced point of view. Remember that we have a great many additional attractions to offer you this Carnival, and we hope that you will carry away with you the brightest recollections of the MONTREAL CARNIVAL OF 1884.

"Good bye, old fellow, *au revoir*, until the Carnival of 1885, but not *adieu*."
