BUILD THE ROADS FIRST BEST POLICY IN NEW TOWNSHIPS THE OPEN TO SETTLERS

Only Such Territory That Will Support Its Own Population and Has Forty Per Cent. of Agricultural Land Should Be Opened Up, is Government Program.

PORT ARTHUR, July 6.—(Staff Correspondence).—The visit of the cabinet ministers may result in radical changes in methods of colonization. Hon. Frank Cochrane has some ideas on the subject which he enunciated at the public meeting on Thursday night. This is the proposal he submits:
Roads should be built before the settlers go in.
"Great trouble has been," said the minister, "that we have allowed people to squat where they like. I feel that a township that has not at least 40 per cent. of agricultural land should not be opened."
The minister did not elaborate the point. But he is on the right track. Heretofore settlers have worked their way into almost inaccessible regions, and their shack and gone on under the most heart-breaking conditions trying to live without communication with the big world outside. Many have failed, hawking up the land in disgust. Others have stayed because they could not move.

Who the newcomer should undertake so evident an impossible task has never been discovered, except that the desire to own land is strong in the west. These men know of the difficulties, but they have seen others succeed and reasons of wondrous development. Because they have been eager to seize the land in almost any region the government has made few restrictions. To allow a man to settle in a district which is not ready for him is to invite trouble, and the agents of the government should be as long as the present policy is pursued.
"Give us roads," is the cry of the new citizen that reaches down to Toronto. The reply comes back that the government is spending money building, but it is frankly admitted that most of the money is wasted. It is even hinted that, perhaps, in the past a few dollars may have been appropriated for graft. You could almost find a few people in the north country who have been the stealing of government money, or whether it was wasted on a careless system of road building, it is that there is an impossible thing to work back from the railway a few miles via the government program.

What the government of Ontario suggests thru the ministers is that only land that will support its own population be opened when a section is to be set apart when the government shall open it up by the construction of a road along the trunk road is sufficient to give the settler a means of transport and become responsible for the expenditure of public money, the government giving a fair proportion of the required funds. The solution of the road question is not hard nor is it far off. Eliminate the graft and the solution is here. Up this way the people have become accustomed to the fact that there is no pull under Cochrane, and they have confidence that this minister will see that the sturdy men who have undertaken the pioneer work of this vast province will have all that is coming to them.

The meeting was generous with applause, and if anyone expected the "kickers" to turn out he must be disappointed. Mr. Cochrane referred to the "secession" movement. He was sorry to hear the word used, but was not sorry to hear that the constitution they had a few kicks to take. He had come among them to be kicked, and had received only kindness that was overwhelming.
He said the constituency had received more money from the government in six years than had been desired from timber or minerals. The education department had doled the amount paid for the support of schools, and the minister told his auditors what the City of Port Arthur had extracted in the way of concessions. As to Dog Lake, however, the government had decided to build the dam, and to grant a right of way for a transmission line.

The Mining Laws.
Mr. Cochrane was not satisfied with the mining laws. The mines did not belong to the Conservative party, and he had tried to administer the law with a heavy hand.
Continued on Page 7.

FOUR THOUSAND AT WORK.
Construction of the G. T. P. is going on rapidly enough.
MONTREAL, July 7.—(Special).—Although a good deal has been heard about the slow progress being made on the Montreal contract of the Transcontinental Railway from Winnipeg to Lake Superior Junction, a distance of 275 miles, Hugh D. Lundsen, chief engineer, who is in the city to-day, says that the McArthur have 4000 men at work, and very fair progress is being made.
The chief engineer, who is going to New Brunswick in a few days with the commissioners, denies that any difficulties have been encountered that cannot be easily enough overcome.

STEAMER WRECKED.
MADRID, July 7.—A despatch, received here from Cuba, says the British steamer Denwood, from Genoa for Larnes, struck the rocks two miles from Cape Finistere and went to the bottom.
The crew were saved.

WHERE BRITISH CABLE BREAKS IS AHEAD IN ONLINE SCHOOLS AT FALLS

Physical Culture and Technical Training Attracted Inspector Hughes' Attention While Abroad.

INSPECTOR James L. Hughes is home again after two months spent in studying European methods of education at some of the great English and continental centres. He visited eleven English and thirty-eight continental schools, and addressed no less than thirty-nine gatherings at the various institutions. "The purpose of education," said Inspector Hughes, in discussing his trip, "is not to store minds with so much so-called knowledge, but rather to train our young people so as to evolve the best citizens and home-makers. This is the highest economy from an individual and a national standpoint. A general idea of education is good, as far as it goes, but there are departments which it does not touch, and these are of the highest importance."
"English educational methods have been marvellously improved within the last few years. Special attention is now paid to subjects such as physical culture and domestic and household science. The teaching of a practical character, most institutions, having one or two specialists in the study. Think of it. And here in Toronto, we are satisfied to have one or two specialists in physical culture. I admired the attention paid to physical culture. Swimming, for instance, was taught in most schools, and was provided with special baths. One small town visited had no less than fourteen of these aids to cleanliness, and physical culture and swimming competitions between the schools were regular features."
"As sports go, I admit that almost the maximum of attention is paid these in Canada, but the necessity is for regular instruction in a course of scientific and beneficial physical development at all our schools. The fact is, my whole idea is to make the individual character, if you will, rather than mere acquisition of knowledge the main object of study and centre of attention."
"I gave a great deal of attention to the study of the German, French and English, and American experts had also been investigating this system some time previous to my visit, and were so favorably impressed that they reported for its adoption in their respective countries. I think, however, the age of 14, having completed his high school course, must attend one of the many technical schools provided by the government nine hours each week, three afternoons being reserved by law for this purpose. During these hours and on until he reaches the age of 15 a boy is being trained for his life work at some trade. In reality, this compulsion enables him in the very best manner. This is what we want. It is what I shall advise the board of education to adopt."
Technical Training.
"Universities are provided for the professions; we should also have special institutions to train our workmen, and to improve the standards of tradesmen, and as a natural consequence result in the increased production of raw material. This is a common-sense result from both individual and national standpoints. Its results are seen in Germany, where workmen from all parts of the world, and are thus increasing the international importance of their own country. To show how important a place technical education holds in their school system I need not mention the fact that at Charlottenburg, near Berlin, they now have a school of this class which cost them \$6,000,000."
"Our national well-being demands our attention to this subject. If we spend \$200,000 on an institution, at which attendance is optional, and consider the results of it as quite satisfactory, how much better an investment would be a technical school, at which attendance is compulsory, and whose objects would be positively invaluable to the arts and crafts of our country? These institutions further give the practical knowledge to workmen, but they also teach the wherefore and thus give them a sound, scientific acquaintance with the materials they handle."
"How do the positions of teachers in England and in Canada compare, Mr. Hughes?"
"I noticed that on the whole lady teachers in England seem to get a much better show-up than in this country. As far as general ability and efficiency go, I think that, as a whole, our elementary teachers are by far the superiors of the English. Their second-class teachers, tho, show great culture and training."
Buildings and Frills.
"Our buildings," Oh, well, I think that they compare very favorably with those of the English buildings, tho, generally inferior in special, and I consider, commendable features. The assembly room for each department. Here physical exercises, singing, lectures, etc., take place before the various departments. Each is equipped with an assembly room for the English special attention to what some of our sarcastic critics would be pleased to call "frills." An ordinary school would contain one or two of these instruments, and singing exercises are a regular feature of the curriculum."
Summing up, Inspector Hughes said that he demands that all training should be mainly along utilitarian lines. Knowledge should make a boy better fitted for some particular sphere in life. Not merely cram him with promiscuous facts; should train him to become a good housekeeper, and so the nation would develop along stable lines and its future progress be placed on firm foundations.

NIAGARA FALLS, N.Y., July 7.—(Special).—By the parting of a cable operating the cars of the inclined railway in Prospect Park, five persons were sent on a terrific flight to the bottom of the river bank Saturday. With the exception of one, a baby, all received terrible injuries, and one died in the evening. He was Peter Inda of the tailoring firm of Inda & Puls, 127 Franklin-street, Buffalo, whose face was crushed beyond recognition, his skull crushed, his left shoulder dislocated, and his body badly bruised and lacerated.
The injured are: Veronica Olasziska, 112 Kosciuszko-street, Buffalo, lower jaw broken in two places, all teeth knocked out, scalp wound, body lacerated. May die.
E. A. Burks, chief accountant for the Louisville & Nashville and the Chesapeake & Ohio Railroad, with headquarters at Covington, Ky., face cut and bruised, body lacerated, left ankle sprained and left arm fractured.
Mrs. E. A. Burks, suffering from shock, face lacerated, left hand broken. The 6-year-old son of Mr. and Mrs. Burks, slight bruises about the body.
The accident happened just before the noon hour. Mr. and Mrs. Burks and their son were in the car ascending, while Peter Inda and the Olasziska family were in the car going down. The fact that the cable parted when the car ascending was about a third of the way up accounted for the fact that the Burkses escaped with less serious injuries than the two occupants of the descending car.
Oscar Barber, ticket agent at the foot of the inclined railway, saw the car coming, and gave the warning in sufficient time to enable those in the waiting-room to make good their escape.
When the cars, shooting down the rails like a streak of lightning, crashed thru the woodwork of the office and into the waiting-room, below the scene was one of the wildest confusion. The occupants were thrown in all directions.
Doctors were summoned, and in a very few minutes a dozen of them were there. After rendering first aid to the injured, the victims were placed aboard the steamer Maid of the Mist and taken to the Canadian side of the river, where ambulances were in waiting to convey them back to their homes. It was impossible to bring them up the inclined railway, the accident putting it out of commission.
Supt. Perry of the state reservation cannot account for the accident. It is the custom to cut the cables once each year. These cables are four inches in diameter and have always been cut and replaced perfectly safe for the biggest loads.
The office of the attorney-general of the state has made inquiry concerning the accident and Attorney T. F. C. Clary of this city has been deputed to represent the state office in handling the matter.

**SHIP IS WRECKED
SIX OF CREW PERISH**
Catastrophe Off Coast of B.C.—Mount Royal Carried By Strong Current Onto Rocks.

VICTORIA, B.C., July 7.—(Special).—The steamer Mount Royal operated by the Hudson Bay Company on the Skeena River, was totally wrecked on Saturday, while passing thru Kitselas Canyon, and six of the crew were drowned. The steamer left Hazelton on Friday morning for Essington, and entered the canyon yesterday afternoon.
She was rushing downstream with a full head of steam, which is necessary to give her steerage way, when she struck against a rock on Ringbolt Island.
The steamer struck the right bank of the river and remained fast for 5 minutes. Capt. Johnson, realizing the danger, ordered all of the passengers ashore, and all reached a place of safety.
The judgment of the captain was soon justified, for the current caught the vessel and swung her round until broadside to the main channel, and in less than 5 minutes she commenced to break up.
The captain remained on board, vainly endeavoring to save her, till the pilot-house broke away from the main deck and the captain was washed ashore on the island.
Members of the crew were not so fortunate, and Chief Engineer Madigan and Second Engineer Good were carried to the main channel, and in less than six other members of the crew were washed away and drowned.
Mrs. Johnson, wife of the captain, was the only lady on board, and with other passengers, reached shore in safety.
Madigan and Good were picked up by Indians who had been sent to the rescue by a telegraph operator. They remained in the vicinity for some time, but were unable to be rescued. Those lost are: W. L. Lemis, first officer; James O'Keefe, purser; Archie Willis, steward; Bert Frayne, fireman; J. M. Morishima, carpenter; Frank Amata, deckhand.
The canyon, where the wreck occurred, is dangerous, and on several occasions the trip has had to be abandoned. The Mount Royal was valued at \$200,000, and was insured in England. She was built in Victoria in 1902, and was the most powerful stern-wheeler ever constructed in this city. She was 130 feet long and 23 feet beam.
Capt. Johnson is considered to be one of the best river navigators on the Pacific coast. He has been in command of the Mount Royal since she was built, and knows the Skeena River better than any other mariner who has ever taken a vessel up the river.
Passengers and crew give the captain great credit for the manner in which he attempted to save the vessel.

DROWNING ON TEMAGAMI.
S. M. Chapman of Hamilton Victim of Canoe Accident.
A telegram received yesterday announced the drowning in the Temagami of S. M. Chapman of Hamilton, while on a canoe trip thru Temagami with a party of boys. They were overtaken by a terrific storm. The canoe was swamped, and Chapman was drowned. All the other boys reached shore without harm.
Looking for the bathroom during the night, Mrs. Margaret Peterson, aged 55, of 46 Parley-avenue, mistook the entrance to a stairway and fell to the bottom, sustaining a severe scalp wound and many bruises.
She was taken in the ambulance to St. Michael's Hospital.

MISS HODGSON RETAINS LEAD BY BIG MARGIN

DISTRICT NO. 1.

Standing of the first twenty-nine candidates in the City of Toronto.

Miss Mabel Hodgson, 123 Roncesvalles-avenue	571,041

Oronhyatekha's Son Found Dead in Bed

Dr. Acland Oronhyatekha Succumbed From Heart Failure at the Pines During Saturday Night—His Wife on the Ocean.

DESERONTO, July 7.—(Special).—This community was startled to-day when it was announced that Dr. Acland W. H. Oronhyatekha, only son of the late supreme chief of the I.O.F., had been found dead in bed at the family residence, the Pines.
Altho he had heart trouble for years, he is on the sea, and is expected to arrive in New York on Wednesday. Until then, no definite arrangements for the funeral will be made.
The deceased was 28 years of age, and was born in Frankford, Ont. He graduated in medicine from Trinity College, Toronto, 14 years ago. For many years he was connected with the I.O.F., and assisted in its organization in Australia.
Last fall he was chosen as head chief of the Indians on the Mohawk reserve. His Indian name, Deyoronhyathia, signified "Bright Sky." Dr. Oronhyatekha was popular in the reserve, and his death was received with great sorrow. There remains now of the Oronhyatekha family only Mrs. E. J. Johnson, sister of the deceased, and Miss Gertrude Oronhyatekha, an adopted daughter of the late supreme chief.
Dr. Acland Oronhyatekha was named after his father's old friend and teacher, Henry Acland of Oxford.
Your Wedding Flowers.

YOUTH TAKES GRAMPS DROWNS IN THE BAY

Wilfrid Pollard, Aged 20, Victim of Fatality at Foot of John-Street.

Seized with cramps while swimming in the bay at the foot of John-street yesterday morning, Wilfrid Pollard, an Englishman, aged 20, boarding on Wellington-street, was drowned. The body was recovered late in the afternoon. Leonard and Louis W. were the witnesses of the tragedy. Leonard was in the water and made every effort to rescue his companion. The boys were about 20 yards from shore.
Pollard was a son of James Pollard, King's Cross, Halifax, Yorkshire, who is reported very wealthy. He was employed as a machinist's helper at the Massey Harris works.
Coroner McKechnie will investigate.

STRONG NOTE TO SULTAN FOR MACLEAN'S RELEASE

British Minister to Morocco Takes a Hand in the Affair and May Complicate Matters.

HOW MAGISTRATE AND PASTORS CLASHED

Some Past History Which May or May Not Have Had Its Effects More Recently.

BRANTFORD, July 6.—(Special).—The law and the Gospel are not on terms of the strictest intimacy in Brantford at present, that is to say, such law as is represented by the police magistrate and such gospel as is proclaimed by Messrs. Thompson, Imrie, Caswell, et al. In fact, the relations are rather strained between these two great civilizing influences. The issue is the official life of Magistrate Wood-yatt, and they do say that Thomas Elliott, ex-mayor, and a prominent citizen generally, has been recommended by the local Conservative Association, and may be appointed any day by the government to succeed Mr. Wood-yatt. Mr. Wood-yatt was asked to resign while Hon. Mr. Fox was in England, and declined to commit official harikari. The most diverse views are given of this course of action, according to the political source of the opinion. The Conservatives remember that when Mr. Wood-yatt was appointed in January, 1890, he was the cleverest Liberal organizer in the district, and are quite sure the refusal to resign is according to the smartest rules of the game.

In the Beginning.
The situation is not of recent origin, and involves a pretty story. Rev. J. N. Shearer began it in October, 1898. The Lord's Day Alliance was interested in some Sunday prosecutions, and results had not been satisfactory to the alliance. A restaurant-keeper who sold ice-cream was not punished by the police magistrate, who dismissed the case, a similar one being under appeal in Toronto. No appeal was taken by the alliance, and no further charge was laid, altho the alleged offence was continued and still continues.
Mr. Shearer called round with Rev. Mr. Thompson at the magistrate's room, and said he wanted to see him about a violation of the act by a manufacturing firm. Wood-yatt got out his papers and asked for the complaint. The reverend gentleman did not wish to make one. They just came to discover his views. The magistrate said he only gave him a warning when the case came before him on the bench. They wanted to consult with him as other magistrates had done. If others violated the dignity of the court he saw no reason for following the precedent. If they did not have a complaint there was no need for any further conversation. They Got Busy.

Upon this with one consent all the parsons interested began to preach against the police magistrate as a very pertinent fellow. Rev. Mr. Shearer wrote to the papers. In his letter he sneered at the correct judicial attitude of the magistrate in refusing to confer with the prosecutors in a case he would have to try.
It is said that Mr. Wood-yatt was particularly incensed at the preaching when his little girl came home from church one day and said:
"Daddy, you are a bad man. The preacher says you are."

That preachers are inclined to prejudicial the Brantford police report for 1906 gives another example of it, when Rev. Charles Deacon charged that scores of men were drinking in the hotel bar-rooms during church hours. He was given an opportunity to substantiate the statement, but was unable to avail himself of it.
Magistrate Was Blunt.
Another incident that occurred was when Rev. Mr. Thompson called on the magistrate to advise him about an information he understood was being laid. He told the magistrate it Continued on Page 7.

Some News for You.
Getting next to a good thing is the first principle of business. Dineen's, in showing the relay of Dunlap straw hats, are doing something in Canada never done before. It is the same with everything else at Dineen's, thro up-to-dateness is the feature of the establishment. If you want a hat, Dineen's have the best anywhere, and in soft felts there is no firm in Canada that can compete with them. Corner Yonge and Temperance-streets.

regard only to the justice of any man's claims. In only one point was the law a finality, and that was in taking away from the minister the right to adjudicate disputes, giving parties an appeal from the recorder to the commissioner, and from the commissioner to the divisional court. This was a feature of the new law he was proud of, but there was room yet for much improvement and he intended to make it.

FATAL STREET CAR ACCIDENT

Coroner Orders Arrest of Conductor and Motorman.

SCHENECTADY, N.Y., July 7.—One boy was killed, another was fatally hurt, and two others seriously injured as the result of a street car accident this afternoon. The victims are all residents of Amsterdam, ranging from 12 to 15 years. They are members of a baseball team which played here this afternoon.

NATIONAL TRUST COMPANY, LIMITED Real Estate Department, 22 KING STREET EAST.

HAYWOOD AND MOYER TAKE STAND THIS WEEK LARGEST DAM IN WORLD FOR NEW YORK'S WATER

Examination of Accused Murderer Will Be Long—Defence Decides Not to Call Adams. Undertaking Will Cost About \$160,000,000—Reservoir to Hold 170 Billion Gallons.

BOISE, Idaho, July 7.—Counsel for the defence in the Haywood murder case held a long conference Saturday both at their downtown offices and in the cell of Haywood, Moyer and Pettibone at the county jail, and it was said afterward that it would be next Wednesday before Haywood would take the oath as witness in his own behalf.

The program as it now stands is to begin Monday morning by reading the depositions taken at San Francisco as to the explosion at the house of Fred Bradley. These depositions are to be supplemented later with the evidence of an expert in explosives. It is contended by the defence that if 10 pounds of dynamite had been exploded, as Orchard swears were contained in the bomb he used, it would have blown Bradley into pieces and destroyed the whole front of the building.

Additional testimony will be given to show that before he fled from Coeur d'Alene in 1899 Orchard attempted to sell his interest in the Hercules Mine. There will be a showing also as to the movements and actions of Jack Simpkins when he went to Denver in the fall of 1905 after having parted with Orchard at Caldwell. This will also conclude the case, except for the testimony of Haywood and Moyer. It is believed that Moyer's testimony can be reached by Tuesday afternoon.

Steve Adams will not be called by the defence. To him would open the way for the state to get his repudiated confession before the jury, and it is deemed the better strategy to avoid this.

The direct examination of Haywood, according to the statement of counsel Western, will be long. He will give a sketch of his life which will embrace all of its important events, including his connection with the Western Federation of Miners. It is said that opportunity will be given for the fullest and widest cross-examination that the prosecution may desire to make. Haywood himself will explain that the \$100 sent to Jack Simpkins nine days before the murder was a contribution to the remainder of a federation expense account which Simpkins left with Haywood in Spokane.

The presentation of the state's rebuttal will probably begin on Thursday next, and be carried over into the succeeding week.

CHEAP LAW IN U.S.

Former Judge Says Roosevelt's Attitude on Capital is Almost Fanatical

LONDON, July 7.—The Sunday Observer publishes an interview with Morgan J. O'Brien, former judge of the supreme court of the State of New York. In which President Roosevelt's attitude on capital is described as "almost fanatical." It has resulted, Mr. O'Brien says, in the stagnation of commercial enterprises in England and America. Mr. O'Brien attributed the former to an insincerity of law. The costs are too high in England and too low in America, he said.

Grocers Early Closing. OTTAWA, July 6.—In the police court this morning R. G. Code in charging H. W. Booth, for violation of the early closing Saturday night law, claimed that, as the first grocers' bylaw had been declared invalid in Toronto, the second civic bylaw regarding general early Saturday night closing did not include the grocers. Moreover the bylaw was worded in accordance with the statute.

The magistrate reserved his decision until Tuesday.

Jew-Baiter Assassinated.

YEKATERINBURG, Russia, July 6.—Captain Pushkin of the gendarmery was assassinated on the streets of this town today. He was unfortunately known as the organizer of the anti-Jewish attacks at Volodga in 1905, when many lives were lost.

Separated Thirty-Seven Years.

PORT HURON, Mich., July 7.—After being separated for 37 years, six brothers and two sisters are holding a reunion here. The happy affair is being held in the home of the Port Huron brother, Joseph Hayden. The names of the boys and girls in the order of their ages are: Woosley, St. Thomas; John, Benzonia; County; Joseph; City; William; Toronto; J. N. Boone; Samuel; Ubertin; O. Mrs. Jane Cox, Milwaukee, and Mrs. Mary Ellis of Oriska, N.D.

Drowned While Fishing.

KINGSTON, Ont., July 7.—Elmer Cairns, 9 years of age, fell thru the beams of an open pier on the Niagara Moors' elevator at the foot of Gore-street, while fishing last evening, and was drowned. The body was recovered by a diver before midnight.

New York Excursion.

July 18, Erie Railroad, good return-fifteen days, \$2.10 from Niagara Falls, Ont. Apply to ticket agents or H. E. Huntington, general agent, passenger department, 309 Main-street, Buffalo, N.Y.

Laborer Killed.

WINDSOR, July 7.—Michael Monaghan, aged 79, a laborer, was instantly killed by falling from a coal car at the D. U. R. power station this morning.

Emigration Conference.

VIENNA, July 7.—The Austro-Hungarian Colonization Society is planning to hold an international emigration conference here next fall.

THE WORLD'S HOME MAGAZINE FOR WOMEN Edited by Miss L. E. McCULLY.

WHAT TO WEAR

Bows of all sizes and shapes are at present the vogue for gowns, hats and shoes.

It is an art to know how to tie a bow correctly, and an art not to be despised. Clever women in Paris make fabulous incomes simply by their ability to tie an artistic and distinctive bow, and no great lady will consider her wardrobe complete without some really original, signed bows. Here are a few pointers about bows easily made at home:

A neat knot for your evening slippers is made from one yard of material—silk, satin or leather, 2-1/2 inches wide. Cut off two pieces 5-1/2 inches long, and two pieces 8 inches long. Fold all the pieces down the middle and sew across the ends, turn inside out and you have bows. Lay each 5-inch piece to a 5-1/2-inch piece and gather in the middle. Then pass a loop of the material loosely around each bow in the centre, and sew to the above. If the points refuse to lie flat enough, press with an iron.

Some handsome hats, which came from Stitt's, had the velvet ribbon laid in loops of graduated length, falling perfectly flat and smooth and set at the back of the hat so as to lie partly on the puff of hair beneath. The effect is absolutely the best that can be got with velvet ribbon, for the reason that it does not gather when in the lighter shades, however, a broad piece can be brought in a single perfectly simple lover's knot and still look its best.

If your lace gloves have gone out in the fingers, why not cut them off in the old-fashioned style, leaving a mit effect with a half thumb and no fingers? Finish with a little bit of point lace edging to match the glove. You can buy the edging in all styles. If you are wearing an evening dress, the effect would be very quaint and pretty, besides being decidedly cooler for summer.

While semi-fitted coats in pony length are really the vogue, empire coats for older ladies and reefer for very young ones are much worn. A contrasting shade, takes the place of last year's three-quarter length dust-coat. Many of the newest and prettiest coats are made with a silk vest, which sometimes comes only to the waist line. This style means that we are soon to have large and fancy buttons as a fashionable trimming. At present the buttons are mostly of the same material as the suit, and in numbers and sizes.

Hats seem to be almost all of medium size, with a wide range of shapes. We shall probably have no new developments in them till autumn.

Pin-striped voile is one of the most popular of this summer's materials. A beautiful chiffon is also seen. The colors were green and white. It would have made a singularly attractive evening gown, especially if touched off with a soft dark green to give it depth. A French woman would add a touch of flame-color to such a scheme.

The curious combination of grey and yellow in the setting of the most delicate shade of grey might be found in hair ornaments with a dull gold. The effect would be striking if it really arrived.

PERSONAL

Mr. Alfred Denison has left for the Maritime Provinces, and will be away for two months.

The second of the regular fortnightly dances of the Argonaut Rowing Club takes place to-night.

At the Arlington in Cobourg a ball was held on Thursday evening last. A few Toronto people were present, including Mrs. Haas, Mrs. Lee, Mrs. Beatty, Mrs. Herbert Watt, Miss Dryden, Mr. Fred Hammond and others.

The Laura Secord chapter of the Daughters of the Empire will hold a bazaar of useful and fancy articles on the Lakeshore Drive at The Briars, on July 11, from 4.30 to 8 (Lake Simcoe).

Mr. and Mrs. Langley of Toronto, and Miss W. A. Langley, are seen in the Elliott sloop for the summer at the Elliott House.

The first dance of the Island Aquatic Club was held on Friday night last. As usual, the floor was very crowded, especially during the first dances. The music was good and a pleasant evening experienced by all.

Separated Thirty-Seven Years. PORT HURON, Mich., July 7.—After being separated for 37 years, six brothers and two sisters are holding a reunion here. The happy affair is being held in the home of the Port Huron brother, Joseph Hayden. The names of the boys and girls in the order of their ages are: Woosley, St. Thomas; John, Benzonia; County; Joseph; City; William; Toronto; J. N. Boone; Samuel; Ubertin; O. Mrs. Jane Cox, Milwaukee, and Mrs. Mary Ellis of Oriska, N.D.

Drowned While Fishing. KINGSTON, Ont., July 7.—Elmer Cairns, 9 years of age, fell thru the beams of an open pier on the Niagara Moors' elevator at the foot of Gore-street, while fishing last evening, and was drowned. The body was recovered by a diver before midnight.

New York Excursion. July 18, Erie Railroad, good return-fifteen days, \$2.10 from Niagara Falls, Ont. Apply to ticket agents or H. E. Huntington, general agent, passenger department, 309 Main-street, Buffalo, N.Y.

Laborer Killed. WINDSOR, July 7.—Michael Monaghan, aged 79, a laborer, was instantly killed by falling from a coal car at the D. U. R. power station this morning.

Emigration Conference. VIENNA, July 7.—The Austro-Hungarian Colonization Society is planning to hold an international emigration conference here next fall.

The Promise

There's a somewhere, I know, in heaven or space. A little spot set apart; A somewhere that holds a tender face— A place for the restless heart.

There's a somewhere, I trust, with a cushion of dreams. Maybe, with the sleeping dead, A place where the wing of an angel gleams. Aslant on the weary head.

There's a somewhere, I dream, with a crystal wall. And a dew for the lips that crave; But who in this dreary old world can tell If it's here or beyond the grave?

Nothing New

"Proof is below," says The Youth's Companion, "that ladies criticized each other's clothes in the seventeenth century in the twentieth century—and in phonetic spelling. In 1686, May or June, Bridget Noel wrote her sister, Countess of Rutland, My lady Gansbourer meet us at Burley, but in such a dress as I never saw without disgust. Her 'jennan' material is a worst of its kind; it is purple, and a great deal of green, and a letel gould and great flour, there is some ped with the green and noe lining which lukes abomenable."

Corelli and the Suffragists

Marie Corelli, the impassioned authoress, has just completed a series of articles denouncing woman suffrage.

"Use your charm," says she among other things, "use your feminine influence. It is your best weapon, and men will succumb to it sooner than they will by a hysterical appeal for force. If you are wearing an evening dress, the effect would be very quaint and pretty, besides being decidedly cooler for summer."

While semi-fitted coats in pony length are really the vogue, empire coats for older ladies and reefer for very young ones are much worn. A contrasting shade, takes the place of last year's three-quarter length dust-coat. Many of the newest and prettiest coats are made with a silk vest, which sometimes comes only to the waist line. This style means that we are soon to have large and fancy buttons as a fashionable trimming. At present the buttons are mostly of the same material as the suit, and in numbers and sizes.

Two Women Athletes

Two striking instances of the fact that women are by no means necessarily inferior in athletics have occurred during the last week. Miss May Sutton, the famous tennis player, has clinched the championship in England, and is now indisputable champion of the world. She will probably meet the Canadian champion, Miss Summerhayes, next fall. More remarkable, however, is the instance of the girl jockey, Dorothy Tyler, who has recently won a race at Joplin, Missour, riding her own horse. She is only thirteen years of age, but loves sports of all kinds, and is a very fine rider. Her father, Dr. Tyler, does not oppose her taste, but rather seems to encourage it. He is himself a sportsman and lover of horses.

WM. KENNY RETIRES.

Steward of National Club for the Past Eighteen Years.

William Kenny, for the past eighteen years steward of the National Club, on account of ill-health, will resign his position on the first of next month.

His resignation is viewed with much regret, especially by the older members of the club, who know the work Mr. Kenny did during the club's dark days, ten or twelve years ago, and who concede that much of the club's present success is owing to his devotion to its interests.

At the Arlington in Cobourg a ball was held on Thursday evening last. A few Toronto people were present, including Mrs. Haas, Mrs. Lee, Mrs. Beatty, Mrs. Herbert Watt, Miss Dryden, Mr. Fred Hammond and others.

The Laura Secord chapter of the Daughters of the Empire will hold a bazaar of useful and fancy articles on the Lakeshore Drive at The Briars, on July 11, from 4.30 to 8 (Lake Simcoe).

Mr. and Mrs. Langley of Toronto, and Miss W. A. Langley, are seen in the Elliott sloop for the summer at the Elliott House.

The first dance of the Island Aquatic Club was held on Friday night last. As usual, the floor was very crowded, especially during the first dances. The music was good and a pleasant evening experienced by all.

Separated Thirty-Seven Years. PORT HURON, Mich., July 7.—After being separated for 37 years, six brothers and two sisters are holding a reunion here. The happy affair is being held in the home of the Port Huron brother, Joseph Hayden. The names of the boys and girls in the order of their ages are: Woosley, St. Thomas; John, Benzonia; County; Joseph; City; William; Toronto; J. N. Boone; Samuel; Ubertin; O. Mrs. Jane Cox, Milwaukee, and Mrs. Mary Ellis of Oriska, N.D.

Drowned While Fishing. KINGSTON, Ont., July 7.—Elmer Cairns, 9 years of age, fell thru the beams of an open pier on the Niagara Moors' elevator at the foot of Gore-street, while fishing last evening, and was drowned. The body was recovered by a diver before midnight.

Pattern Department

Send the above pattern to NAME ADDRESS (No. of Child's Age) (No. of Miss's Pattern)

Give the Conductor His Due.

Someone, name not given, sends us a little item re the article which appeared on Saturday last in this page, entitled "Woman and the Street Car Service." The item is as follows: "A \$5 bill was tendered last week by an old lady to Conductor 905 (King car) for his kindness. West Barn."

Not only is this true, but we know from personal experience that there is a conductor on the College-street line who never scowls at lady passengers because they are slow, and who knows all his regular passengers by name. We do not mean to hurt the feelings of such persons as these. We feel they are the salt of the earth, and hope they may ultimately be promoted. Certainly they are not so common that the company or the public can afford to lose their services.

NORTH PERTH CONSERVATIVES

Messrs. Maclean and Torrance Again Nominated.

MILVERTON, July 7.—At the North Perth Conservative convention, held here yesterday, Alex. MacLaren, M.P., was re-nominated for the federal house and James Torrance, M.L.A., secured nomination for the legislature, being opposed by H. B. Morphy, barrister, of Listowel.

The vote taken was three to one in favor of Mr. Torrance.

WILL WITHDRAW RESIGNATION.

MONTEPELLIER, France, July 7.—The municipal council of this city has decided to withdraw the vote to withdraw the resignations of the members handed in during the trouble arising from the protests of the wine growers of the south. This means the collapse of the agitation in this section.

Marcellin Albert, M. Ferroul, mayor of Narbonne, and other leaders of the expedition have sent a letter to the court demanding their release on bail.

EARTHQUAKE IN MAINE.

KITTERY, Maine, July 6.—A slight earthquake was experienced here today following several severe ones last week.

ACROSS CANADA IN 90 HOURS.

VANCOUVER, B. C., July 7.—The Trans-Canada Express of the C. P. R. arrived from the east Saturday morning on time, inaugurating the fast service from Montreal to Vancouver. The distance was made in 90 hours, the fastest of any trans-continental train in America.

DOUBLE CANALS IN MARS.

CAMBRIDGE, Mass., July 7.—The Harvard observatory officials have received a telegram from Prof. Percival Lowell, director of the Lowell observatory, at Flagstaff, Arizona, stating that the expedition sent by him to Mars had seen the double canal of Mars.

Toronto Oratorio Society.

Singers wishing to become members of the Toronto Oratorio Society may apply to the conductor, M. Sherlock, at his residence, 44 Huntley-street, any evening by appointment. Arrangements are being made for the season's work, which will include performances of Haydn's "Creation," and Alfred R. Gaul's historical work "Joan of Arc," a most interesting composition, and one that will be exceedingly popular. The chorus now numbers 267, and it is intended to increase this to 350 members.

MR. BLAKE'S RESPECTS TO "RATIONAL" SUNDAY

Churchman's Remarks at the Laying of Corner Stone of the New St. Anne's.

The ceremony of laying the cornerstone of the new St. Anne's church on Gladstone-avenue, near Dundas-street, was performed Saturday afternoon by Hon. S. H. Blake. The new edifice will be a handsome structure and will cost about \$42,000, without the land. Ford Howland is the architect. The seating capacity will be 1400.

The ceremony was attended by Hon. S. H. Blake, Rev. W. S. Cowper, a former rector of St. Anne's; Rev. Mr. Davidson, rector of St. George's Church, Guelph, and formerly a curate at St. Anne's; Rev. H. A. Macpherson of Chalmers' Presbyterian Church, and Rev. J. L. Mackintosh of Olivet Baptist Church.

It was intended to conduct the services outside, but the rain began to threaten shortly after five o'clock, and to speak, so the remainder of the addresses were delivered in the old church. Mr. Blake said he was glad to be present, because he also was a member of "the dear old Church of England."

"I rejoice," said he, "that you stand for the Lord's Day in its entirety. We hear people talk about keeping the Sabbath rationally, while in reality they are kicking the feet thru it, and are not keeping it at all. "Pay no heed to those who only understand carnal things, and yet who threaten shortly after five o'clock, and to speak, so the remainder of the addresses were delivered in the old church. Mr. Blake said he was glad to be present, because he also was a member of "the dear old Church of England."

"I rejoice," said he, "that you stand for the Lord's Day in its entirety. "Pay no heed to those who only understand carnal things, and yet who threaten shortly after five o'clock, and to speak, so the remainder of the addresses were delivered in the old church. Mr. Blake said he was glad to be present, because he also was a member of "the dear old Church of England."

VOID LEGACIES FOR MASSES

French Courts Decide Against Church in Several Instances.

PARIS, July 7.—A number of suits have been brought in France by the heirs of Catholics, to recover property bequeathed to the church for the specific purpose of saying masses for the repose of the souls of dead persons. The decisions of the court thus far have invariably been in favor of the claimants, on the ground that the law of separation renders the execution of the legacies impossible. The government is not opposing the suits.

AUTO RACE FORBIDDEN.

German Government Puts Ban on the Sport.

STUTTGART, July 6.—The international motor car contest arranged for to-day was forbidden officially. This is the first direct step of the government towards the entire suppression of automobile racing on public roads in Germany, and it follows the recent announcement to that effect made by the imperial ministry of the Interior.

QUEBEC'S SURPLUS.

Provincial Exchequer is Reported \$500,000 to the Good.

MONTEREAL, July 7.—(Special.)—A special from Quebec says: The fiscal year which closed June 30 last has been a most lucrative one for the Province of Quebec, and the treasurer is enabled to place to the credit of the province a surplus of \$500,000. The revenues from the different sources, but more especially from licenses, duties on successions, and taxes on commercial corporations, were in excess of preceding years.

FALLIERES' HOLIDAY.

PARIS, July 7.—President Fallieres has postponed his projected trip to Norway, Sweden and Denmark till 1908, due to the interior situation of the country. Instead of going abroad the president will make an extended tour of the disturbed regions in September.

Charged With Theft. Ellen Campbell, no home, was arrested Saturday night by P.C. Armstrong, charged with assaulting and robbing Mary Woodcock of \$5 in a lane off Adelaide-street. William Eagan was arrested by P.C. Allen at Queen and Yonge-streets, charged with theft of \$11.15 from his employer, William Mara.

Non-alcoholic Sarsaparilla

The Toronto World CHILDREN'S HUMANE LEAGUE

The results of the competition for the best letter entitled "Why We Should Love and Protect Our Birds" will be given out to-morrow.

For this week the subject is, "Canadian Squirrels in Park or Wood." Contributions are not to consist of more than two hundred words, and are to be written on one side of the paper and signed with name and address of the writer. A silver pin with the letters T. W. H. L. is the prize. The competition closes July 13. If you are not already a member, fill out the blank below and send it with your letter.

I wish to become a member of The Toronto World Humane League.

THE WEATHER

Meteorological Office, Toronto, July 7.—
The weather has prevailed to-day
through the greater portion of Can-
ada, but local showers have occurred in
Saskatchewan, Manitoba, New Ontario
and the Maritime Provinces. Maximum
temperatures exceeding 80 have been re-
corded in many parts of Ontario, but
elsewhere temperatures have been moder-
ate.

Probabilities.

Lower Lakes and Georgian Bay—
Moderate to fresh southwesterly and
westerly winds; fine and warm, but a
few local thunderstorms.

Ottawa and Upper St. Lawrence—Mod-
erate winds; fine and warm; a few local
thunderstorms.

Lake Superior—Variable winds; warm,
with some showers or drizzle.

westerly winds; fair, with about the same
amount of rain, and a few scattered show-
ers.

Lake Erie—Variable winds; warm,
with some showers or drizzle.

**CAR OFF TRACK
RUNS IN PARK**

Woman Passenger and Motorman
Hurt—Man Injured in Sec-
ond Accident.

Carelessness, it is said, on the part
of street railway employes caused two
accidents yesterday.

A southbound Broadway car trav-
elling at the rate of 15 miles an hour,
making the curve opposite Langley-
avenue, jumped the tracks, crashed
over the boulevard, and came to a
sudden stop in Riverside Park. One
passenger was injured, the others
were badly shaken up.

Motorman Thomas Crisp, who lost
control of the car after it left the
tracks, was slightly cut by flying
glass. Conductor Patrick Flynn es-
caped.

Mrs. Emily Armstrong of 53 Wol-
frey-avenue was thrown against the
seats, sustaining injuries to the head
and face, also a severe shock. She
was carried into the office of Dr. J.
A. Gallagher, who attended her un-
til the arrival of her husband. She
was taken home in a carriage. The
smashed up trolley was left in the
park.

An eastbound King-street trailer
became detached opposite Lee-avenue
yesterday afternoon. The conductor
on the trolley (No. 801) quickly gave
the motorman three whistles, which
was brought to a quick stop, with
the result that the trailer, coming
pretty fast, collided.

Robert Henderson of 10 St. David's-
place, had his head struck, sustain-
ing a nasty gash, which was dressed
by Dr. Clark of 282 St. Nicholas-
street. Three other passengers es-
caped injury.

**TRAIN RUNS INTO CATTLE
AND FIREMAN IS KILLED**

Bad Wreck on the C.N.R. Near
Rainy River—Engineer
Fatally Scalded.

FORT FRANCES, Ont., July 7.—(Spe-
cial)—Friday night No. 2 express, on
the C.N.R., was wrecked, six miles
from Rainy River. It ran into a herd
of cattle. The engine turned over and
was demolished. Fireman William
Vance was killed, and Engineer William
Hamilton so badly scalded he cannot
live. The baggage car left the track,
but the passengers in it were unin-
jured. Passengers bound
east were delayed 12 hours.

NITRO-GLYCERINE EXPLODES

Small Building at Petrolia Blows Up
—Shatters Windows.

PETROLIA, July 7.—(Special)—
People who were enjoying a quiet
Sunday were considerably startled this
morning shortly after 3 o'clock when
a terrific explosion took place. The
whole town was shaken and many
windows were shattered.

The building at the Bradley Nitro-
glycerine Works had been completely
wrecked. The building is located
about a mile north of the town.
The manager stated that in the building
which was wrecked only a very small
quantity of the explosive could have
been present.

Within less than a hundred yards
of the building were two magazines,
each containing several hundred
quarts of nitro-glycerine.

How they escaped destruction is at
present unknown, but had the glycer-
ine exploded in their usual position
it would have been disastrous.

TABLET IS UNVEILED.

Brockville Regiment Attend Ceremony
at Niagara Falls.

NIAGARA FALLS, Ont., July 7.—The
visit of the 41st Regiment of Brock-
ville, in command of Lieut.-Col. Fisher,
was not only an outing, but one of his-
torical remembrance of the fallen heroes
of 1812. The regiment arrived here
Saturday morning. At 10 o'clock they
went to Brock's monument, where the
unveiling ceremonies of the bronze ta-
blet erected on the site of the old Re-
doubt battery took place.

The tablet was erected by Lady's
Lane Historical Society, and is the
work of Lieut.-Col. MacDonnell of Glenora,
Gen. Brock's gallant aide-de-camp. Mrs.
E. Cruikshank, wife of Lieut.-Col. and
Brigadier Cruikshank, drew the veil,
which exposed the following inscrip-
tion:

"Site of Redan Battery. Near this
spot Lieut.-Col. John MacDonnell, at-
torney-general of Upper Canada, was
mortally wounded Oct. 13, 1812. The
wife of Lieut.-Col. Fisher, com-
manding 41st Regiment, stepped
forward on behalf of Brock Chapel
of the Daughters of the Empire and
placed a wreath of Ivy and immortelles
upon it. The regimental band then
played the National Anthem and the
evening the visitors left for home.

A gas jet setting fire to curtains, did
\$100 damage at 210 Markham-street last
evening.

**STOLEN REGALIA
GONE FROM SAFE**

Valuable Jewels Stolen
at Dublin—Ceremony
of Investiture Will be
Postponed.

DUBLIN, Ireland, July 7.—A portion
of the state regalia, valued at \$250,000,
has been stolen from Dublin Castle.
The safe in which the regalia was kept
belongs to the school of diplomacy.
Those used in the ceremony of investiture
in the Order of St. Patrick, the
processional cross studded with dia-
monds, and the jeweled sword which
is borne in procession at the investiture
of the knights.

Lord Castletown, Knight of St. Pat-
rick, was to have been chief of the
state ceremony on the visit of King
Edward VII. It is officially
announced that the ceremony will be
postponed. Sensational developments
are expected.

**JAPAN HASN'T THE COIN
TO START WAR JUST NOW**

London and European Opinion on
the Present Differences Be-
tween U.S. and Japan.

LONDON, July 7.—The present ten-
sion between the United States and
Japan is exciting the keenest interest
among all the European diplomats.
None of them, however, believes that
it will reach the stage of warfare, be-
cause the heavy burden of debt Japan
has put in operation a law which com-
pels her to obtain indemnity from Russia
for her embarking on a similar costly
enterprise in the next decade. It is
criticizing to the idea that the
United States is acquiring the enmity
of Japan as one of her national assets
which may prove a handicap in the
event of trouble with any other power.
Great Britain finds herself in an em-
barrassing position also, because she
is obliged to stand between the
Japanese and her ally in the matter of anti-
Japanese laws. There has just been
put in operation a law which com-
pels the entry of Asiatics, which applies to the
Japanese and the Chinese, and which com-
pels them to submit to an examination
and registration with thumb prints,
like criminals, which is ex-
ecuted by the Chinese, and which com-
pels further legislation on the same
lines.

KILLED WHILE SLEEPING.

Boy While Walking in His Sleep
Falls Out of Window.

MONTREAL, July 7.—A peculiar ac-
cident, resulting in the death of Jo-
seph Robert, 15 years old, son of the
chief of police of Lachine, is reported
from Oka, near the city.

The boy was at school and was in
the habit of walking in his sleep, and
during the night, when in one of his
sleep-walking fits, he went to a win-
dow and jumped out, falling a dis-
tance of over 50 feet.

His dead body was not found until
the following day.

**ENGLISH ABSCONDER IS
ARRESTED AT QUEBEC**

Said to Have Gotten Away With
\$40,000, But Has Only \$100 When
Placed in Custody.

QUEBEC, July 7.—One of the pas-
sengers of the Empress of Ireland was
arrested on landing by Montreal pri-
vate detectives. Only \$100 was found
on him. He is said to have absconded
from a bank in England with about
\$40,000. It is not known where the
money has been placed. He has been
taken to Montreal, where he will be
held till further information is re-
ceived. It is supposed that several other
men were working in connection with
the prisoner and helped him to relieve
the bank of the large sum.

Bank Statement Comment.

NEW YORK, July 6.—The cash reserve
showing in the bank statement was from
\$20,000,000 to even \$22,000,000 away from
the preliminary estimates, the \$5,000,000
cash decrease comparing with an ex-
pected increase of \$5,000,000, to over \$7,000,000.
The loan item, at the same time, showed
a contraction of \$18,818,000, the resulting
scaling down of deposits helping to re-
sist the decline in surplus to \$17,827,000.
The loan showing, following a heavy con-
traction last week, makes it evident that
corporations depended on the money
market much less than usual to finance
the semi-annual disbursements, having
apparently accumulated cash for that
purpose, which was placed temporarily in
call loans and recalled for the purpose of
the payments.

WANT SUBSIDY WITHHELD.

Because Virginian Did Not Call at
North Sydney for Mails.

MONTREAL, July 7.—(Special)—
Alexander Johnston, M.P. for Cape Bre-
ton, who was in the city to-day, an-
nounced that he has asked the minister
of trade and commerce, Sir Richard
Cartwright, to withhold the payment of
the mail subsidy to H. & A. Alkan, be-
cause the Virginian, on her last trip
inwards, did not call at North Sydney
for the mails.

HON. MR. BECK HOME.

LONDON, July 7.—(Special)—Hon.
Adam Beck arrived home to-day from
London. The London Hunt Club, un-
der whose colors he won the hunt
class at the Olympia Horse Show, will
tender him a banquet.

If you had them made to order.

If you were having these cigarettes made up for your-
self alone, under your own supervision and according to
your own formula, they could not receive more faithful
attention in their process.

**LAURIER AT CONFERENCE
TO SUPPORT GOVERNMENT**

So Says Premier Bent of Victoria,
Who Seems to Have Fighting
Strain in Him.

MONTREAL, July 7.—(Special)—
Hon. Thomas Bent, prime minister of
the State of Victoria in the Austral-
ian commonwealth, who has just re-
turned from London, Eng., stated to-
day that it was quite evident that
Sir Wilfrid Laurier went over to the
imperial conference to support the
Campbell-Bannerman government.

The premier of Victoria evidently
belongs to the school of diplomacy.
He says exactly what he
means. He does not hide his hostility
to what he terms the encroach-
ments of the commonwealth.

The premier declares that Premier
Deakin of the commonwealth had
converted Lord Eglinton to the idea that
the federal state should take over the
railway system of the several states,
and he added, "I told them that the
Australian states were different from
the Canadian provinces, and possess-
ed sovereign rights that could not be
violated."

"In fact, I told the colonial secre-
tary that they would not touch a
piece of our railways as big as my
thumb."

**JAPS COME TO CANADA
IN VERY LARGE NUMBERS**

Nothing in Statutes Can Prevent
Them Coming—They Are Need-
ed on G.T.P. Construction.

OTTAWA, July 7.—(Special)—The
government is in a quandary regarding
the reported coming influx of Japanese
in large numbers to Canada. There is
nothing on the statute books to pre-
vent them coming, and it is highly pro-
bably that action will be taken im-
mediately to outlaw the steps taken by
the British Columbia authorities to
reduce Japanese immigration.

In the first place it is impossible to
avoid the terms of the British-Japan-
ese treaty, and in the second place
many of the Japs proceeding from
Honolulu are already United States
citizens.

Further, the Grand Trunk Pacific of-
ficials declare positively that once
they get Japanese laborers at once,
they will be unable to finish the rail-
way within 48 months of the contract.
They are contending with a great scar-
city of labor now, and they are pur-
posing to supply the deficiency with
Japs.

A curious fact is that the statistics
of the trade and commerce depart-
ment do not show any great immigration of
Japanese into Canada since the enter-
ing the country. This is exclusive
of Honolulu Japs, of whom there is
no record.

GIRLS FELL FROM CANOE.

Two Got Plugged in Bay, But Were
Hustled Out.

Heroic work on the part of Messrs. G.
Cheesworth and L. Mylne, boat house
officials, and A. Bullman of 24 East
Queen-street, at the foot of York-
street, prevented another drowning
fatality about 10 o'clock last night.

Bullman, with Ida Regan, 198 Brock-
avenue, and another girl, a guest of
the latter, were returning to the wharf,
when the canoe capsized, throwing
the girls into the bay. Messrs. G.
Cheesworth rushed to the rescue and
succeeded in getting one of the young
ladies out.

Miss Regan drifted out and Bull-
man had to dive for her. He suc-
ceeded in placing her on the canoe
and towing it to shore.

Dr. Smith was hastily summoned,
and under his care the girls were
brought around in a few minutes.

The girls were taken home by W.
Matthews & Co.'s private ambulance.

FEARING ARREST, SUICIDES.

Woman Could Not Meet Payments
and Agent Threatened Her.
