DEATH IN MAD RACE OF ARTOS

Bad Smashes In Speed Tests At Brighton

CARS THROUGH FENCES

Anderson Breaks Through and Turns Turtle, His Mechanic Being Killed—Strang Has Wonderful Escape a Little Later—Lively Clip Kept Up

Brighton Beach Race Track, May 14.—One man killed and another painfully maimed and three more badly bruised was the hospital record for the first day of the twenty-four hour race at the Brighton Beach Motor-drome track last night and today. At the end of the tenth hour the Fiat car led with 497 miles and the Buick was only a mile behind.

The cars, with the Buick pair in the lead ran without a serious mishap until after midnight and as the track was in an excellent condition, there seemed ground for hope that the race would be devoid of accident. Eighteen minutes after midnight the Fiat car, driven by the mechanic, Anderson, tore through a fence on the turn of the home stretch and turned turtle. Anderson missed the wreck, but his mechanic was so badly mangled that he died in a hospital at the emergency hospital at Conroy Island from concussion of the brain and a fracture of the skull.

At 2 o'clock this morning the Buick car, No. 2, driven by George Dewitt, crashed through the inner fence on the turn into the back stretch. The driver escaped unhurt, but the mechanic, Jack Towers, sustained a fracture of a leg and internal injuries, but will probably recover. About three hours later the other Buick car, No. 1, driven by Louis Strang, crashed through the fence on the home stretch and he made a good showing. In speeding around the turn into the home stretch Strang had a miraculous escape as he tore through the fence and came out through the other at the barrier without a scratch.

The score for the ten hour was: 7 a. m. Fiat 497; Buick, 496; Simplex, 492; Stearns, No. 1, 476; Buick, No. 1, 433; Croxon-Keston, 431; Stearns, No. 2, 425; Marion, 425; Salton, 377; Cole, 383; Buick, No. 2, 365; Hunt, 326.

At the end of the twelfth hour the Simplex was leading with 589 miles, five miles ahead of the Fiat, in second place, the Fiat being three 1/2 miles in front of the Buick, third in the race. The Stearns No. 1 was fourth at 579 miles.

The score was twenty-six miles behind the Buick's record of last year. At 9:30 the Cole car ran through the fence on the home stretch into the home stretch. Win, Ed- dcott, the driver sustained a severe injury to his leg and shoulder. The physicians said that Edcott will not be able to continue in the race.

(Continued on page 3, first column.)

CAMERON TALKS OF BECOMING A PROFESSIONAL

Said in Moncton Yesterday That He Might Leave Amateur Ranks After Ontario Visit

Moncton, May 14.—(Special)—Cameron will soon enter the professional ranks. While here yesterday Cameron said he is going to Ontario after his race in St. John and may turn professional if anything good offers. His friends are urging him to go out for the money now while he has speed and endurance.

Cameron's recent victories lead his friends to have high hopes of him if he should compete with the world's best professionals. They urge that in a few years his racing will be over and he better get all the money he can out of it now.

WELCOME RAIN IN THE WEST

Crops in Southern Alberta Saved From Dry Spell—Rev. D. Crouter, Clergyman and Ex M. P. is Dead—Christian Science Case

Lethbridge, Alta., May 14.—(Special)—Rain has been general over southern Alberta and all the wheat crop is saved from the dry spell, as more rains are sure to come this being the rainy season for the district. The ground is now wet below the roots of the grain, though less than an inch has fallen. Some grain not well put in may not come through, and will have to be replanted with the late oats. There is not much of this, however, for while all crops need rain, very little was suffering badly. Good rains are reported in all sections for twenty miles around Lethbridge.

Coburg, Ont., May 14.—(Special)—Rev. Darius Crouter, one of the best known men of Northumberland county is dead in Campbellford, of the age of eighty-four. In his eighties he represented East Northumberland in the Dominion parliament, as a Liberal standard bearer. He was for some years in the active work of the Methodist church.

Niagara Falls, Ont., May 14.—While Henry Gannon, aged twenty, J. P. Cannon, customs officer, and employed at the Ontario Pipe and Power Company's Plant, was adjusting a cable on a derrick yesterday, the moving arm of the derrick came in contact with a live wire. The current knocked Cannon off the derrick twenty feet and he was picked up dead. It is thought his heart was weak.

Peterboro, Ontario, May 14.—At the coroner's inquest into the death of the injured man, the Christian Scientist, Dr. Greig testified that the child suffered from slight pneumonia and abscess behind the ear, but with medical aid would probably have recovered. Bailey and his wife said that they had called on a doctor, but he refused treatment. On the last day of the child's illness Todd, a Christian Scientist, "healed" the child by sending for a doctor, but while Bailey was out getting further advice from his friends the child died. Todd, it is said, will be examined at an adjourned session on May 19.

Toronto, May 14.—(Special)—John Ross Robertson, proprietor of the Toronto Telegram has offered to the public library his collection of 20,000 prints and engravings dealing with the history of Canada from 1783 to the present. Many of them are rare and some without duplicates. The offer has been accepted.

Girls are sold in Chinatown, New York for \$10

Startling Discoveries Made in Raids in Which Sixteen Year Old White Girl Was Rescued

New York, May 14.—Girls are sold into slavery in Chinatown for \$10 and for even smaller sums. Sleuths, working on trails opened up by the discovery of a woman, the alleged white wife of Hin Hon, a weaver of old Chinese for abducting Marcelle Feuvre, a sixteen year old girl from Easton, Pa) believe that the white slave trade is carried on in the Chinese quarter on a wholesale plan. The arrest of the "Gypsy Queen" after the arrest of the Le woman, the police say that they found in her rooms the names of many young girls who have been brought and sold. In some instances, the police say, the book shows that girls were sold for \$10.

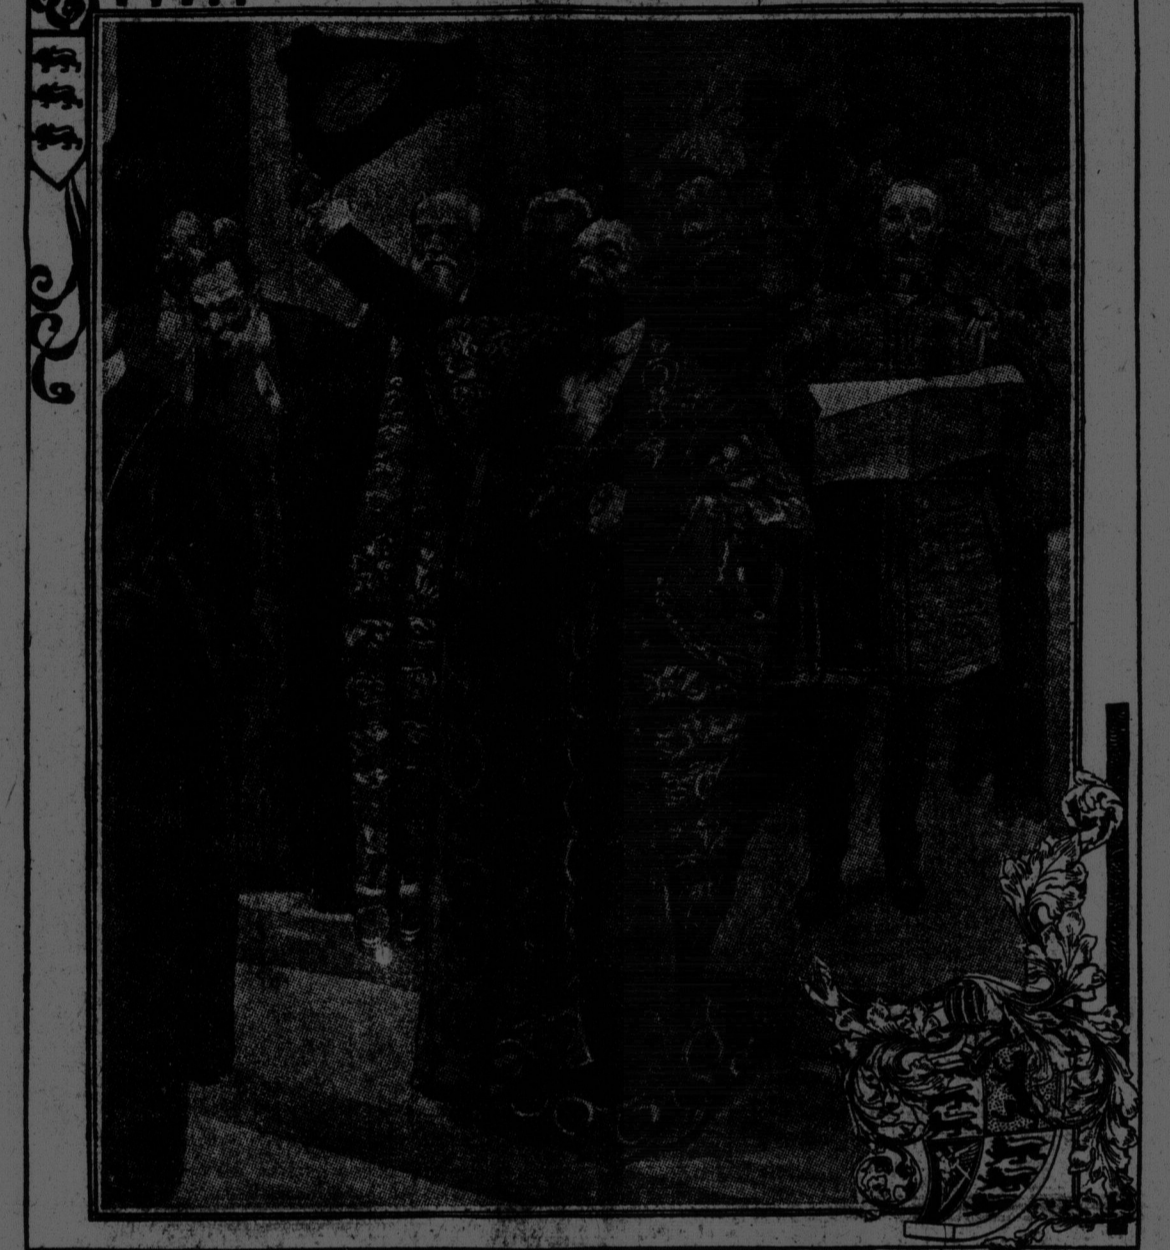

Some habitues of Chinatown have been arrested in what is described by Assistant District Attorney Frank Moss as a new white slave plot. In one of the houses visited Marcelle Feuvre, was seized and sent to the House of Detention. The arrests as Mr. Moss said, foiled a plot to sell the girl into a life of shame in Chinatown, after she had been lured there from her home for that purpose. Two white women and their Chinese husbands are the prisoners.

Building work

Tenders closed last night for the work of remodeling and enlarging the main Victoria street Baptist church and the contract will be given out next week. The plans include the raising of the tower and building of a new tower on the west side, putting in a new front and enlarging the church and putting in a gallery.

The plans were prepared by Architect H. H. Mott. Mr. Mott has also prepared plans and tenders have been called for the enlarging of the Catholic school in Fairville. These plans include a new story and other work. Plans for the enlarging of the Baptist church at Newcastle and plans for the building of a large house for R. B. Hanson of Fredericton.

THIRTY-TWO COUNTRIES TO BE REPRESENTED AT THE FUNERAL OF KING EDWARD

THE LORD MAYOR, CHEERING FOR THE KING AFTER THE READING OF THE PROCLAMATION OF MOURNING IN LONDON.

person the parliament of the commonwealth, and thus awaited another strand among those crimson threads of kinship which unite the peoples of Britain and the dominions overseas. The wreath from British Columbia will be composed of magnolia, lilies and orchids. A number of tickets for seats to view the funeral procession have been sold to applicants from Toronto and Montreal. It is announced that Lord Strathcona will represent Canada with the ministers. In a drizzling rain early today mounted attendants left St. John's Wood barracks to traverse the route to be taken by the procession on Tuesday from Buckingham Palace to Westminster Hall. A small cortege numbering sixteen with eight horses, led by Colonel Barrington for the gun limber upon which was placed the canopy coffin. Now that the Duke of Connaught has taken the last look at the features of his royal brother, the body of the king was moved today from the room in which His Majesty's chapel, Windsor, there will be considerable resentment. Already the Canadian Associated Press has heard some expressions by representatives of overseas dominions. Today's loss from Denmark had 870 hales of bacon. The market is quiet but quotations are unaltered. Canadian hales are from 15 to 15 1/2 cents a pound. Sydney, Aust., May 14.—The sculling handicap, over a 2 1/2 mile course, was won today by Masterson, who had 66 seconds start. Arnot, who started from scratch, was fourth.

ST. STEPHEN BANK MEETING ON MONDAY

The annual meeting of the St. Stephen Bank will be held on Monday when a statement of the year's business will be presented, and a board of directors elected. It is not likely that the shareholders will be given much information as to where the money went, as it would prejudice the bank's chance of collecting the funds.

The statement will be similar to that usually issued by a bank at its annual meeting. As there are not many shareholders qualified to hold office as directors it is probable that some at least of the present board will be asked to remain.

NORTH END EARLY CLOSING AGREEMENT IS SIGNED

The members of the North End Clerks' Association who were appointed a committee to work in the matter, completed their task this morning, and as a result of their endeavors, it is announced that every store in the northern section of the city will be closed after 8 p. m. on Monday next. The early closing will continue on every evening until October 1, except Saturdays, eve of holidays, and during exhibition week. The merchants feel that they have the courtesy of the buyers in their efforts to shorten the hours of labor.

The following agreement is self-explanatory:—We, the undersigned merchants, do hereby agree to close our doors at 8 p. m. on every day until October 1, beginning Monday, May 16, excepting Saturdays, evenings before holidays and during exhibition week. The signatories are: W. A. Wetmore, S. W. McLachlan, W. H. Turner, J. V. Russell, W. A. Steiner & Co., Waterbury & Rising, Beatty & Johnson, M. T. Colahan, F. S. Thomas, P. J. Street, C. F. Brown, P. Grauman, C. McCannell, A. M. Rowan, W. Bailey, C. J. Eagles, G. Grev, Mrs. A. Patterson, F. J. Cook, A. Morgan & Co., Harry Cochran, W. Pauls, S. Robins, R. Carter, M. J. Harrison, S. Jacobson, W. Seale, W. P. Harrington, F. A. Young and R. J. Adams & Co.

ST. GEORGE MAN KILLED ON SCHOONER AT CALAIS

Calais, Me., May 14.—(Special)—Seymour Thierland, aged thirty-five, a native of St. George, N. B., was instantly killed in the hold of the schooner William B. Herick, now discharging coal at Washington county railway dock.

A full load in hoisting was accidentally pushed off the staging while the gang was being shifted and a heavy block struck Thierland on the head. He leaves his wife and three young children.

ST. GEORGE MAN KILLED ON SCHOONER AT CALAIS

Calais, Me., May 14.—(Special)—Alvin Mann, George Morris and Archibald Frackear were each fined \$50 and costs for violation of the Scott Act, first offence, this morning; four cases of second offences will be tried on Wednesday.

DRIFTING DORY TELLS FATE OF FISHERMEN

Schooner Picks Up Boat in Which P. E. I. Men Were Lost—Fifty Farmers Arrive From Old Land

Charlottetown, P. E. I., May 14.—(Special)—The fate of the three fishermen, Campbell, Strachan and Holland, who were driven out to sea in a gasoline dory a month ago is now probably decided. Captain Butler of the schooner Burleigh picked up a gasoline dory full of water off Cape North.

The arrival of fifty English settlers here last night to buy farms marks an epoch in the island's agricultural history, this being the first immigration of any size since the pioneers came a century and a half ago.

A number of young men easily secured employment with farmers, the others will get some experience of island agricultural conditions before buying property. A reception was given them in the legislative chamber today where they were addressed by Governor McKinnon and others. Immigration Agent Winfield, who brought them here will return to Scotland for more.

ELEVEN TO ONE FOR ACQUITTAL OF DR. HYDE

Kansas City, Mo., May 14.—An early verdict was expected in the Hyde murder trial when the jury resumed its deliberations today. When the jury retired to its hotel last night at 10:35 o'clock after taking half a dozen ballots, one report had it that the vote was eleven to one for acquittal. The lone juror said, however, according to this report, that if an adjournment until this morning was made, he would weigh the evidence carefully and report early today as to changing his vote.

The first ballot, it is said, stood 9 to 3 for acquittal. On the second ballot another juror voted for acquittal and several more votes were taken with the same result. Then came the last ballot leaving but one man voting against the physician.

Just before leaving for San Francisco, Sam Berger, in discussing the referee question, intimated that the situation seemed so tangled that an eastern man would probably have to be selected.

MORE LIQUOR FINES ARE STRUCK IN CHATHAM

Chatham, N. B., May 14.—(Special)—Alvin Mann, George Morris and Archibald Frackear were each fined \$50 and costs for violation of the Scott Act, first offence, this morning; four cases of second offences will be tried on Wednesday.

THE WEATHER

Wind south-west, line; fair; Sunday, few scattered showers, mostly fair.

MANY WOMEN TO GET THE VOTE NOW

SIR EDWARD MORRIS IS TAKEN ILL

Newfoundland Premier in London—Hon. Mr. Marcell Shows Need of Immigration Regulations—Arnst Beaten in Handicap Sculling Match

Times' Special Cable. London, May 14.—Sir Edward Morris, premier of Newfoundland, was taken ill yesterday. He is reported better today. Hon. Charles Marcell, interviewed regarding the regulation requiring immigrants to possess \$25 before entering Canada, said it would prevent an influx of undesirable class. Any man worth having could command \$25. Canada had to be more careful now in consequence of the great invasion of immigrants.

London, May 13.—Sir Robert Perks, speaking at Tooting Wesleyan hall referring to his visit to Canada, said he could not help noting that Methodism there was holding its own. He found the old pioneering method of the Methodist fathers practically abandoned in the Methodist churches.

The king's death has prevented a full success of Canada's new bond issue of \$20,000,000. The list closed at the Bank of Montreal today and the Canadian Associated Press understands that public subscriptions amounted to about 25 per cent, but as the whole loan was underwritten, Hon. Mr. Finlay may congratulate himself on securing for Canada the full amount of the loan, and on favorable terms.

It is stated representatives of the dominions will not participate in the king's funeral procession, but will probably attend the official memorial service held in Westminster, simultaneously with that in St. George's Chapel.

Canada's wreath will be shaped like a maple leaf. The outside will be composed of maple leaves, Canada's wreath in hand variations will be the words "Canada Mourning". The wreath was designed by W. A. Griffiths, secretary to Lord Strathcona. The maple leaves on the wreath were sent him by Canadian ladies.

If, as announced in London newspapers the colonial representatives will not take part in the funeral procession or be present in St. George's chapel, Windsor, there will be considerable resentment. Already the Canadian Associated Press has heard some expressions by representatives of overseas dominions.

Today's loss from Denmark had 870 hales of bacon. The market is quiet but quotations are unaltered. Canadian hales are from 15 to 15 1/2 cents a pound.

Sydney, Aust., May 14.—The sculling handicap, over a 2 1/2 mile course, was won today by Masterson, who had 66 seconds start. Arnot, who started from scratch, was fourth.

The following agreement is self-explanatory:—We, the undersigned merchants,

Norway Legislation Will Greatly Extend Franchise

Half a Million

Controlling Legislative Body Has Adopted Laws of Interest in This Time of Agitation For Woman Suffrage—Enlargement of Privileges Enjoyed Since 1907

Christiania, May 14.—By a great majority the Odelting has voted to grant universal municipal suffrage to women over twenty-five years of age. The new legislation will become effective at the next elections and will increase the present woman electors from 270,000 to half a million.

The Odelting is the controlling legislative body of Norway. The general assembly, the Storting, is elected by popular vote and upon convening annually divides itself into houses, the Lagting and the Odelting. The former is composed of one-fourth of the total members of the Storting, and the other of the remaining three-fourths. The revision of the government belongs exclusively to the Odelting, in which house all new legislation must be first considered.

Except in matters in which it has exclusive authority the laws adopted by the Odelting pass to the Lagting to be accepted or rejected. If the two houses do not agree they hold a common sitting and the final decision is given by a majority of two-thirds of the joint body.

The royal vote will be exercised twice, but if the same bill passes three Storting sessions by separate elections it becomes a law.

Since 1907 women have been allowed to vote under the same conditions as men, only when they, or the husband when the couple have the property in common, have had an income of 400 kroner in the equity districts.

CHINA TAKES STEP AHEAD, ABOLISHES SYSTEM OF SLAVERY

Sale of Human Beings Prohibited But There Are Some Exceptions—Means Ultimate Freedom for Millions

Washington, May 14.—The Chinese government by imperial rescript has abolished slavery throughout the empire and has prohibited hereafter the purchase and sale of human beings under any pretext. The reform, however, is not altogether complete as by the rescript certain forms of slavery will still be tolerated.

In a report made to the state department it is stated that the retainers of Manchurian princes are not emancipated, but it is forbidden to call them slaves. They have long enjoyed educational and other privileges, although still bound to their hereditary masters. The household slaves of the Manchus are also refused emancipation but their status under the law is improved. They are to be regarded as hired servants, but their services are due for an unlimited term of years, so that they are in reality perpetual slaves.

Under this rescript the immemorial practice of selling children in China in times of famine is abolished, although they may be bound for a specified term, but never beyond the age of twenty-five years. Con- cubinage is still to be permitted, but there is to be no bargain and sale. Such concubines are to be married with proper legal formalities and they will enjoy the protection of the law, but in reality they will be no better than perpetual slaves to the principal wife.

The rescript is said to be a compromise measure, but it will eventually give freedom to millions of human beings and is declared to mark a distinct advance in civilization.

ST. GEORGE MAN KILLED ON SCHOONER AT CALAIS

Calais, Me., May 14.—(Special)—Seymour Thierland, aged thirty-five, a native of St. George, N. B., was instantly killed in the hold of the schooner William B. Herick, now discharging coal at Washington county railway dock.

A full load in hoisting was accidentally pushed off the staging while the gang was being shifted and a heavy block struck Thierland on the head. He leaves his wife and three young children.

"Davis' Perfection," 10c Cigar

"There Ain't Goin' To Be No Core"

This unique blend of Havana flavor with the delicate mildness of other tropical tobaccos, is so good that you want to smoke almost every bit of it.

"Davis' Perfection" has the inimitable flavor usually found only in the pure Havana but you can smoke it all day without turning a hair.

It has the mildness, without the customary insipidity. It shows the progress made since the time of Poymanian.

Be sure to keep the box of "Davis' Perfection" in a locked drawer. The whole office will be smoking them.

When Buying Silver Remember that the best silver plate to be had is "1847 ROBERTS' PATENT". It is made of the purest silver and is guaranteed to last for ever.

SENDING PICTURES BY WIRE

London Inventor in New York With Apparatus to Give Test—Claims An Exact Reproduction Can Be Made Over the Wires.

New York, May 13.—T. Thorne Baker, a technical expert and inventor, of London, is here with a new contrivance by which photographs are sent by wire, a demonstration of which is to be given on Saturday before a group of scientific men.

For more than eight years inventors have been trying to perfect such a machine. Mr. Baker has worked out a method, based early upon the invention of others, for sending an exact reproduction of a photograph.

The machine resembles in its chief aspects, the photograph, with its cylinder adjustment. There are two principal parts for sending and receiving, exactly alike as to appearance. The process by which the photographs are sent closely follows the idea of the transmission of telegrams.

A print is made from the negative in the usual way. The shades of the photograph are taken and this is printed upon a film of highly sensitized iron foil. His address, which should be sure to be crossed, as in the case with ordinary wire half-tones.

Upon the receiving machine there is a similar stylus, poised above a cylinder upon which is wrapped a sheet of paper which records the lines upon the film. In turn the current waves thus produced are sent over wires to the receiving machine.

RECEIVING. Upon the receiving machine there is a similar stylus, poised above a cylinder upon which is wrapped a sheet of paper which records the lines upon the film. In turn the current waves thus produced are sent over wires to the receiving machine.

"SALADA" is the same wherever or whenever you buy it—always of unvarying good quality.

Its native purity and garden freshness is perfectly preserved in sealed "SALADA" Packets.

HARVARD PROFESSOR SAYS THIS IS YEAR 1913

According to Professor David Lyon, curator of the Semitic Museum at Harvard University, it is now the year 1913, and to write it 1910 is to assert a historical inaccuracy. Researches, he declared, have definitely established this.

Professor Lyon declares King Herod died in 750 A. U. C., instead of in 753, according to prevalent belief, and in accepting the latter date as the beginning of the Christian era historians have erred. As Christ is known to have been born a year before Herod's death, he was born in 749.

"From recent researches," said the professor, "we have positive proof that Herod's son, Archelus, was deposed in 750 of the era A. U. C. The records show that he ruled nine years, so that he must have succeeded the throne in 759. Herod's other son, Antipater, was deposed in 762 and comes have been found which show that Antipater ruled for forty-two years. He also must have succeeded his throne 759 years after the building of Rome.

"We know that Herod at his death, divided his kingdom between his two sons. Ancient historians placed Herod's death at 753, and this date has been accepted as the beginning of the Christian era, but is now proven that the event occurred three years previously."

His Honor Judge Landry, of Dorchester, held court in the supreme court chambers yesterday afternoon, from 4 to 5. In accordance with the provisions of the new judicature act, Judge Landry will hold court in the chambers here each Friday afternoon.

THE MOST WONDERFUL SOUND-REPRODUCING INSTRUMENT OF THE CABINET TYPE, COMBINING THE HIGHEST RESULTS OF MUSICAL GENIUS WITH A MASTERPIECE OF CABINET WORK—The Amberola

The Amberola is beautifully simple in outline, exquisitely designed and comes in either mahogany or oak, to harmonize with surroundings in any home. It has drawers in the lower part for holding 100 records.

Edison Standard and Amberol Records. This is the Amberola's biggest advantage over all other instruments of the cabinet type—because Amberol Records play longer than any other Records made, rendering the best of all kinds of music as if meant to be played, without hurrying or stopping.

BOND SINKING FUND
Under the mortgage a sum of money must be paid to the trustee each year to be used to retire the bonds at 110 and interest, this fund sufficient to retire the present issue of bonds before maturity.

CHILDREN AND THE AUTO; A WARNING
To the Editor of the Times:—
Sir—Would you grant me a few lines in your valued paper to call the attention of the parents of the children who play in the streets, especially those about Marsh St., Brussels street and Elm street, to these boys and girls take a special delight in seeing how close they can stand to a moving automobile, not realizing the speed of the machine; also in running at full tilt from the sidewalks to the middle of the road to throw their hats under the wheels.

DEATH IN MAD RACE OF AUTOS
(Continued from page 1.)
At the end of the eighteenth hour the Raimier surrendered third place to the No. 1 Stearns. The score of the leaders at that time was: Stearns, 649; Fiat, 641; Stearns No. 1, 629; Raimier, 619; former record, 604 miles.

Will Interest Chatham
(Special to The Montreal Star.)
Alisa Criss, Ont., May 14—The hotelkeepers have closed their houses owing to the going into force of isolation, the temperance supporters of this place will purchase and conduct a temperance hotel.

INDIANS DON WAR PAINT; A MASSACRE IS FEARED

Tues., New Mexico, May 14—Ranchmen spent a sleepless night keeping vigil against a possible organized raid by Pueblo Indians from the reservation north of here, but at daylight no word of any further movement had reached this town. Following the raid of yesterday, the day before, in which the rancher L. S. Myers was attacked, buildings burned and fences destroyed and it is reported the female members of the family attacked, all armed and gathered in groups for better protection.

AUTO HITS BOY 'CYCLIST; HE ESCAPES WELL

Richmond Cunningham Thrown Into the Air and Lands in Lap of Motor Car Driver
A number of people on their way to work this morning about 8:15 o'clock, held their breath while passing the corner of King and Prince William streets, for they expected to see young Richmond Cunningham, either killed or severely injured, when he was struck and thrown into the air by an automobile driven by Frederick Rosen. When it was seen that young Cunningham had escaped practically unscathed, a sigh of relief went up from the crowd.

The promoters of the fight are viewing with much interest the news that the fight is being shifted to Nevada.

PROVINCIAL HOLIDAY MAY 20; THE PROCLAMATION BY AUTHORITY.

By His Honor Lennal John Tweedie, Esq., LL.D., Lieutenant-Governor of the Province of New Brunswick.
PROCLAMATION.
Whereas, the obsequies of His Late Majesty, King Edward the Seventh, the most important development seems to be from Washington this morning, to the effect that harmony is in the air, and that the railroad bill may be amended by the latest action on the long and vexatious matter. It will be well to watch this phase.

SOME UNIQUE THINGS AT THE EXHIBITION

In connection with the Dominion Exhibition this fall there will be many unique exhibits. For instance the Franco-American Rubber Co. will have a man twenty feet tall, composed of rubber, who will smoke cigars and do other things. Word has been received from the owners of the Violino-Virtuoso, one of the most marvelous inventions of the age, stating that the contrivance would be shown here. This is a mechanical apparatus that plays the violin with all the science and color of the most expert violinist. H. H. Schaefer of this city, who has heard the machine, says it is a truly wonderful invention.

BOY ACCIDENTALLY KILLS LITTLE SISTER

Chicago, May 14—Raymond Hayes, 14 years old, shot and killed his invalid sister Helen, nine years old, while entertaining her with an exhibition of Indian fighting. The lad had drawn pictures of Indians on the wall just over an exit view, and then, with a revolver he aimed at one of the pictures, just as he did, the girl started to rise. The revolver exploded, and the girl fell back.

ADAM TAIT, SHEDDICH RESIDENT, DIED TODAY

Sheddie, N. B., May 14—(Special)—The death of Adam Tait of this place occurred this morning at the residence of his son here. Mr. Tait was one of the oldest residents of the parish, being at the time of his death in his 81st year. The greater part of his life was spent in Sheddie. He was for a long time one of the best known and most prominent citizens of Sheddie, where he carried on a mercantile business for many years. He was an active and prominent member of the Methodist church, and a liberal contributor to the schemes and work of the church, in which he was much interested. He leaves one son, C. H. Tait, and one daughter, Mrs. C. H. Tait, both of whom are in the city.

PERSONALS

Rev. Charles Collins, of St. Rose's Church, Fairville, returned on the Boston train at noon.
A. V. Branscombe, was a passenger to the city on today's Boston train.
Rev. W. W. Brewer, of Marvaville, came in on the Montreal train today.
Rev. J. C. Brown, of St. John, returned this morning from Antigonish (N. S.), where he attended the month's mind of the late Rev. J. C. Brown, K. C. and T. C. Allan, K. C. of Fredericton, returned from Windsor (N. S.) yesterday. They each received the degree of D. C. L. from King's College, on Thursday.
Mayor G. H. McCrear, of St. George, is registered at the Dufferin.

FISH AND GAME SHOW AT THE FAIR HERE

Local Government to Erect Log Cabin—Apiary With Bees At Work Will Also Be a Feature
Another exceptionally fine feature is assured for the Dominion Exhibition. The local government is to erect a pretentious structure within the main building in which the fish and game, both dead and alive, of the province will be exhibited. Manager God has received an official communication from Hon. W. C. Grimmer, surveyor-general, in which the plans of the government are outlined. The plan as at present schemed out is as follows: To be erected on the main building is a log cabin, which will be decorated inside and out with hunting trophies, such as moose heads, caribou heads, and other trophies. This counterpart of a guide's hut will serve as a reception parlor for visitors.

THIRTY-TWO COUNTRIES TO BE REPRESENTED AT THE FUNERAL OF KING EDWARD

(Continued from page 1.)
Royal ladies in carriages. The body will be carried to the residence of the Earl of Lorne and House of Commons, while the choir of Westminster Abbey and the Chapel Royal, and other bands of music, and the stream guards will take part in the musical programme.
Papers abroad say that last year King Edward gave his consent to the preparation of an historical work dealing with his own personality and the period covered by his lifetime, the editor being Sir Richard Housley, who has written the history of the House of Victoria and who has been for thirty-six years a librarian at Windsor Castle.
The title of the King's lamented death work, which was entitled "King Edward VII. His Life and Times," was almost completed.
London, May 14—The Duke and Duchess of Cornwall arrived in London after their African trip, and were met by the king and queen, and driven to Buckingham Palace. The coffin of King Edward was opened temporarily to allow his brother a last view. Only members of the royal household, the intimate friends of the late sovereign, and the diplomatic corps will be allowed to view the body while lying in state.
London, Ont., May 14—School Inspector Edwards has proposed that, instead of merely closing the public schools on May 20, the day of the funeral of King Edward VII, memorial services be held in each of the churches nearest the schools, conducted by the clergymen. He thinks this would be better than the simply leaving on the minds of the children the idea that the death of the king had brought them a holiday.

CIRQUE MAN AN EASTERN PRINCE; DIES ALONE IN HOTEL

Chicago, May 14—There is mystery in the death of C. S. Rae, a reputed East Indian prince of wealth, who has been found unconscious in his room in Elgin Hotel. He died two hours after being found. Whether the man died a natural death, committed suicide or was slain is a question which has not yet been solved.
Rae who had been in this country only since March, was the animal manager of a "society circus" which has been playing in small towns in Indiana, Wisconsin and Illinois.
Papers found among Rae's effects, showed he had paid all the bills of the company, including the salaries of the circus men, and that he had sailed from Yokohama for San Francisco on the steamer Mongolia on September 8th, 1908. He had a fine education and presence; it was said that romance attached him to the circus.

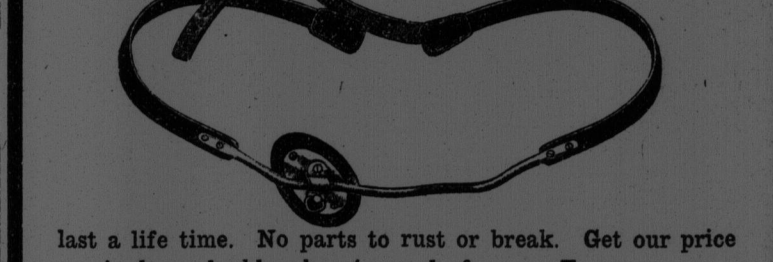

DUNDONALD AN AIDE-DE-CAMP TO ROOSEVELT

London, May 14—When Col Roosevelt arrives here on Monday morning he will be accorded the honors due to the American ambassador to the funeral of King Edward VII.
King George today designated two aides de camp to attend him during his stay in England. These are Lord Dundonald, formerly commander of the Canadian militia, and Commander Charles K. F. Cunningham-Grimes. The aides de camp will accompany Mr. Roosevelt at Queenborough and meet him to London.

FUNERALS

The funeral of Miss Mary A. Mitchell was held from her late home this morning at 8:15 to the cathedral, where the requiem high mass was sung by Rev. M. O'Brien, Interment was in the new Catholic cemetery.
The funeral of Joseph Scott, was held from his late home, Milford, this afternoon at 8:15. Service was conducted by Rev. Geo. A. Ross and interment was in Cedar Hill cemetery.
The body of the baby found on Strait shore was taken to Chamberlain's undertaking rooms this afternoon. It is a male child. It was wrapped in a piece of sack cloth. Formerly it had been in the hands of a nurse, but it was found to be a thorough inquiry.

#### WHY NOT KING EDWARD PARK?

The suggestion made by a clergyman to this paper yesterday that St. John's memorial to King Edward should take the form of a children's playground is one that ought to be hailed with enthusiasm. Why not a King Edward Park at the entrance to Rockwood Park, on the fourteen acres purchased by Mr. Joseph Allison and presented to the Horticultural Association some years ago for playground purposes? It is an ideal place, can be made perfectly level, and lies under the shelter of the hills and protected from the winds. A great pavilion could be erected there, with shower baths provided with water from Lily Lake. Provision could be made for all kinds of sports. The objection that it is some distance from the centre of the city would apply to any playground, but as the city grows and extends its borders that objection will not apply. It would be possible now by civic grant and public subscription to raise ample funds to convert this place into one of the finest playgrounds in Canada, open to all the people. Springfield, Mass., has a great park and playgrounds some distance out of the city, and reached by the street cars. Here are found tennis courts, base ball grounds, picnic groves, a zoological collection, jolly walks and drives, free to every citizen. A fine playground at the entrance to the drive-way would be a most desirable supplement to Rockwood Park, and would be a boon to thousands of children throughout the summer season. It would be a fitting memorial to the late king, and could be entered through a King Edward arch of substantial and artistic construction.

#### HON. MR. FOSTER

When asked by a representative of the Times-Star, yesterday, whether he regarded Mr. Borden as the right man in the right place as leader of the Conservative party, Hon. George E. Foster did not display a marked degree of enthusiasm. The party had chosen Mr. Borden, he observed, and he guessed they would keep him. It may be that Mr. Foster remembered the attacks upon himself by members of the party, and the absence of his leader. It was even reported in the press that Mr. Borden commiserated to the ex-Prime Minister the desire of the party that he (Mr. Foster) should face himself, or at least cease to take a leading part in the debates of the house; and Mr. Foster's admission, in reply to an Ottawa paper's enquiry, that "dirty work" is not known to have had reference to any of his Liberal opponents. Then there is the French Conservative journal L'Evénement, which this week referred to "such men as Mr. Foster" and the injury they had done to the party. In view of all this, Mr. Foster's lack of enthusiasm may be explained, as well as his sarcastic comment on Mr. Monk's assertion that all Quebec was with him on the naval question. "He ought to know," said Mr. Foster, and said no more on that point.

The sun shines warm in the green valley of the lovely Kennebec river. Mr. Foster's cottage and garden are on the river's bank. Flowers will bloom in the garden, the birds sing in the trees, and the silvery waters ripple and murmur in the breeze. The tired politician, weary in body and in mind, will dig in his garden, lie in his hammock, read the Times-Star, and perhaps sometimes tempt the Kings county highway under the guardianship of his friend Mr. George R. Jones, M. P., who is said to have a carriage built on plans and specifications drawn to meet the conditions imposed by the Hazen Highway Act. Political friends and foes alike will wish that neither the flies of opposition nor the rancor of professed friends will disturb the peace of his sylvan retreat, and that the autumn may find him with vigor restored.

#### TEMPERANCE REFORM

The Ottawa Free Press, commenting on the fact that more than 200 liquor licenses were cancelled in Ontario on May 1st, makes this striking comparison: "In 1875 there were 6183 tavern and shop licenses, for a population of 1,250,000. Today there are fewer than 2,000 licenses for a population of 2,250,000. There has been an average reduction of 120 licenses per year for 35 years."

#### FORGIVENESS

My heart was heavy, for its trust had  
Abused, its kindness answered with  
And wrong;  
So, turning gloomily from my fellowmen,  
One summer Sabbath day I strolled  
Among  
The green mounds of the village burial-  
place;  
Where, pondering how all human love  
And hate  
Find one sad level; and how, soon or  
late,  
Wronged and wrongdoer, each with meek-  
ened face,  
And cold hands folded over a still heart,  
Past the green threshold of our common  
grave;  
Wither all footsteps tread, whence none  
depart,  
Aveled for myself, and pitying my race,  
Our common sorrow, like a mighty  
wave,  
Swept all pride away, and trembling  
forgot!  
—John Greenleaf Whittier.

#### AMULETS A SONG

Out of the dark, your eyes  
Beckoning far and fair,  
Under whose laughter gleams  
"T estimate the total expenditure of  
the United Kingdom on alcoholic liquors  
during 1909 at £15,162,485, as compared  
with £16,000,482 in 1908. There has  
therefore been a decrease in expenditure  
of £837,997. On spirits the decrease  
was £4,800,000, with a decrease in con-  
sumption of 7,022,775 gallons. On beer the  
decrease was £1,186,900 with a decrease in  
consumption of 645,306 barrels. On wines,  
on the other hand, there has been an in-  
crease of £20,000, with an increase in con-  
sumption of 103,744 gallons. If there had  
been no increase in prices the reduction  
on the total expenditure would have been  
£1,147,997."

The London Times regards these figures  
as "very remarkable and very significant,"  
and adds that a decline in the consumption  
of liquors have been marked features  
of statistics for several years past.

In Toronto the question of the proper  
treatment of the drunkard is now receiv-  
ing attention, and a special civic com-  
mittee will recommend to the council "the  
appointment of a deputation to wait upon  
the provincial government and ask for  
such legislation and such co-operation as  
will secure the establishment, maintenance  
and operation of a hospital for inebriates,  
and the commitment thereof of habitual  
drunkards."

"Commenting on this proposal, Controller  
Spence, a leader in temperance work in  
Ontario, said:—  
"During the criminal year ending in  
1909, there were 2,308 commitments to  
Toronto jail for the offence of drunken-  
ness. The city paid for doing more harm  
than good to a lot of women and men  
who overcrowded the jail, numbering, as  
they did, nearly half of the prisoners sent  
to that institution. The treatment of these  
members of the community, who either  
willfully or weakly do wrong, ought to be  
such as to have a reformatory effect upon  
the wrong-doers, and to protect society  
against the wrong-doing. We have been  
spending money on a system that neither  
benefits the offender nor helps to lessen  
the danger and nuisance of the offence."

What Controller Spence says of Toron-  
to is equally true of St. John and other  
Canadian cities. Society, which takes re-  
venue from the traffic, should care for the  
victims. Mr. Spence recommends that  
chronic inebriates be confined in a reformatory  
erected for that purpose, in order  
that they might be given an opportunity  
to acquire sufficient self-command to break  
away from the habit; and he suggests  
that the necessary expenditure could be  
met by using a certain proportion of the  
revenue from liquor licenses and from  
fines for infractions of the liquor law.

This is the kind of weather that makes  
the angler rear in imagination the noise  
of the spear just above the pool.

If compulsory education would call for  
a new school building in Moncton, the  
fact is the best evidence that compulsory  
education is the crying need of Moncton.

When the present minister of public  
works is criticised in St. John it is only  
necessary to invite a comparison of present  
conditions at the winter port with those  
existing when the Conservatives were  
in power. The man who does things  
is the man for the people.

If the Canadian Pacific Railway should  
secure control of the Bay route to Halifax  
and exploit the tourist and other ad-  
vantages of the region, with great hotels  
at St. John and elsewhere, the local bene-  
fit would be enormous. Halifax very  
naturally has never been partial to a  
bay service that would increase the busi-  
ness of St. John in its territory, and the  
owners of the Dominion Atlantic Railway  
were concerned only with Nova Scotia in-  
terests. But if the C. P. R. controlled the  
situation Halifax as well as St. John  
would benefit, and a new spirit of enter-  
prise would be developed all along the  
line.

A visitor from a Maine town that is a  
centre of the lime-burning industry is im-  
pressed by the great natural resources of  
the region about St. John. He is espe-  
cially interested in the immense deposits  
of limestone of the finest quality,  
and the ease with which wood  
can be secured for the kilns. Before  
the tariff shut out New Brunswick lime  
this city had a great trade with the  
United States, and the business was very  
profitable. The limestone was quarried  
and burned, the wood cut, the barrels  
made and the product shipped in vessels  
owned here. Local labor got all the bene-  
fit of the industry. Under a treaty that  
would permit the free entry of lime to  
that market the business would again  
flourish and give employment to a great  
number of men. But the Maine visitor  
also sees large opportunities for the cement  
industry, and this also may be an im-  
portant development of the distant future.

To get up a good appetite for lunch,  
I know that I could lose her if she did  
not have a cent."  
—Bard of Benzie.

### XXX Balata Belting.

THIS IS A GENUINE BALATA BELTING and equal in every respect to any Belting of this class at present manufactured.

It is suitable for every variety of work and particularly for small-pulley and high speed conditions of modern machinery.

Thousands of users attest to its economy and efficiency and assert that for modern belt transmission it eclipses any belt they have used.

Try it yourself. It will do all that is claimed for it—and more.

Also Do All Kinds of Clock and Jewelry Repairing.

**A. & J. HAY, JEWELERS 76 King St.**

### HOUSEHOLD HINTS

When washing fine china or cut glass, a heavy Turkish towel on the bottom of the dishpan will often keep the dishes from chipping.

To keep the floor very white, scrub it with a mixture of three parts sand and one part of partly slacked lime. This will remove all grease spots as well as destroy all insect life.

Sifted coal ashes, wheat flour and sand mixed with water make an excellent mortar for patching holes where the plaster is broken. It becomes as hard as stone and can be put on by hand with very little trouble.

To prevent antique brass from tarnishing, first polish with a good paste and then apply a solution of a quarter of an ounce of shellac to a quarter of a pint of methylated spirit. Before doing this heat the brass if possible, and again after, painting over with the varnish.

When heating flatirons it is a good plan to lift and wipe them after being on the stove a few seconds, as the moisture caused by the first heating causes them to become rusty if they are left until they are thoroughly heated. This will also save the labor of cleaning when ironing.

Place all cakes to cool on a wire sieve and never put them away in tins until thoroughly cooled.

When frying the stove is often splashed over with grease. To prevent this sprinkle a little salt in the frying pan before putting in the fat.

### ST. JOHN-DIGBY

Leaves St. John at 8:00 a. m. Wednesday for Eastport, Lobe, Portland and Boston, and Saturday at 7:00 p. m. for Boston direct.

Returning leaves Union Wharf, Boston, Mondays at 9:00 a. m. and Portland at 5:00 p. m. for Lobe, Eastport, and St. John, and Fridays at 8:00 a. m. for St. John via Eastport, omitting Portland.

**THE LATEST**

Customer—Have you some short cake?  
Water—We have, and each piece contains six gerons untrilled berries. Six—  
Customer—My man, you were not always a waiter.  
Water—No, sir; I used to be a press agent for a circus.

A hawk can fly 150 miles per hour and a rook can cover a distance of 60 miles in the same length of time.

Mr. Bink (in an museum)—I don't know you were such an admirer of curies, Mrs. Blunderb.—Mrs. Blunderb.—Oh, yes, indeed; I just delight in iniquities.

**The Evening Chit-Chat**  
By RUTH CAMERON

In a magazine criticism of the work of Clyde Fitch, the great American dramatist who died recently, there was one simple little sentence that somehow struck me as marvelously pregnant and suggestive.

"This was it—  
"Clyde Fitch was one of those myriad unhappy men of genius who deserved better of themselves than they got."  
Instead of "the myriad unhappy men of genius," I think the critic might have said, "the myriad unhappy men and women everywhere."  
If you were to die tomorrow, would your biographer have the right to say of you "he deserved more of himself than he got?"  
Let's that a rather good question to stop, in the unthinking, get-things-done-at-any-cost, routine rush of your daily life, to put to yourself?

I have a friend who writes Sunday specials for a big sensational newspaper. I met him the other day. He told me about his work, "if an making more money than almost any of the men who graduated in my class," he said proudly.

He is a man of great talent if not genius. His college professor and all who knew his mind prophesied a great literary future for him.

And now he is happy because he is making more money than almost any of the men who graduated in his class.

I expected it for himself.

And now he is happy because he is making more money than almost any of the men who graduated in his class.

I wonder if there don't come moments to him when he realizes in a sudden flash of truth that he deserves better of himself than he is getting.

In Piner's latest play, "Mid-Channel," the heroine says to her lover, "Our marriage was doomed long before we reached Mid-Channel," from the very beginning.

From the moment we agreed that we'd never be hampered in our career with any "brats of children." If there had been "brats of children" at home it would have made a different woman of me, Theo, such a different woman—and a different man of you.

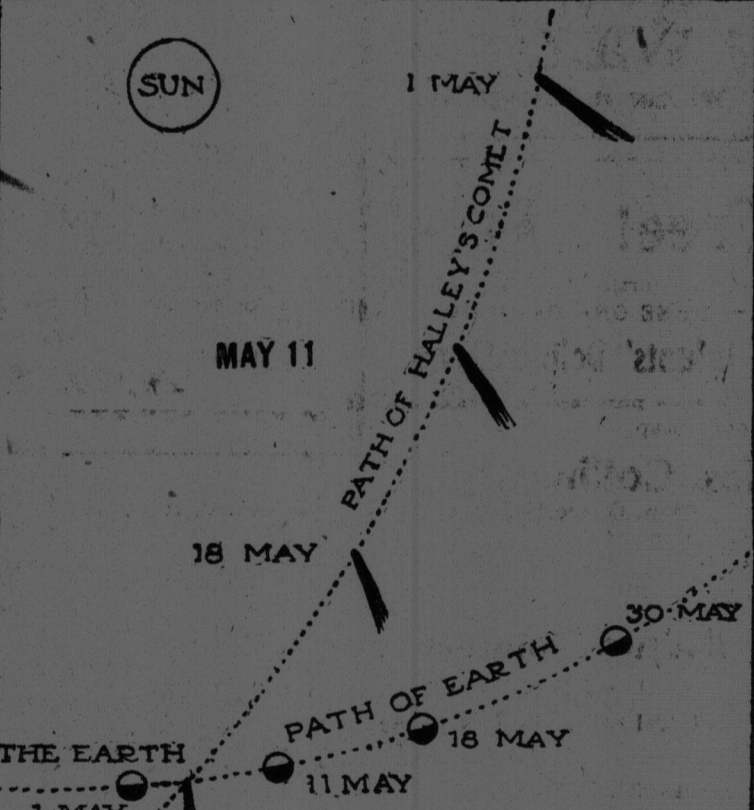

"But, no; everything in the earlier years of our marriage was sacrificed to coming money . . . and then when we had commenced to draw apart from each other. O yes, we were happy in those blinding days—greedily, feverishly happy, but we didn't look at the time when we should need another interest to bind us together."

Up on the hill just beyond our house live a man and woman of whom Piner might have written those words, they are such a perfect description of them.

I wonder if sometimes that man and woman see the man across the street leading his three kiddies out for a Sunday morning walk, or the lady across the street outlining the youngest of the three kiddies, who is a marvelous composite of pinks and golds and chubbiness and dimples—I wonder if on such occasions that man and that woman don't realize that they deserve something better of themselves than they have gotten.

The man of brains and energy who mulls along all his life in a position where brains and energy avail nothing, simply because he hasn't the courage and grit to demand better things of life at the pistol point of risk, the girl who marries the man she does not love simply because she is afraid she will be an old maid, the woman of brains and ability who lets her marriage be a mere compromise of all self-culture, of all intellectual interests and of all attempts to do something for those in the world less fortunate than she—surely all those people must have some moments when they know they are of those who "deserve better of themselves than they get."

**HOW THE EARTH WILL PASS THROUGH TAIL OF COMET**

The path of the comet is shown descending from the top of the diagram and crossing the orbit of the earth, which moves from the left across the bottom of the diagram. The positions on May 18, when the comet will be in a straight line between the earth and sun, therefore invisible to us, but sweeping the earth with the end of its tail.

A slight haziness next Monday, Tuesday and Wednesday an slight illumination of the sky next Wednesday evening are the only indications of the passing of the earth through the tail of Halley's comet in which the general public will share, according to the belief of Prof. Robert W. Wilson, of Harvard. These are not great disturbances of telephone and telegraph service, but this is only a possibility and, even should it occur, it will be so slight that only the expert operator will notice it.

The expected illumination should come after the comet itself has passed the earth. At present the tail, which has come within the rays of the sun is invisible and will remain so until the head of the comet has passed. This tail, made up of particles so small that 25,000 are needed to fill an inch of space, is really a sweep of dust, electrically charged.

While no great disturbances are looked for, wireless telegraph operators have begun a diligent search for unusual variations in the workings of the delicate apparatus in their charge and for the next two weeks, especially from Monday to Friday of next week, each will keep particularly close watch in the hope that he will be the lucky one to detect some phenomenon which will add to scientific knowledge of the comet, its composition and influences.

**Weather Experts Skeptical**

Not much is looked for from the weather bureau, least of all by Forecaster J. W. Smith, who says that the weather of the past few weeks has been no more uncertain than may naturally be looked for in May and that no indication has been given so far that any meteorological disturbances will attend the passing of the comet. Whether next week will bring fair or foul weather will be determined by the usual causes, he declares.

Much that is peculiar has been noticed in the appearance of the sun for the past few days, and the great red ball, which sank behind the horizon last evening would once be regarded as a portent of evil. The scientific watchers say that the comet is in no way responsible.

**Dr. Cassell's Pilement**

Dr. Cassell's Pilement is a powerful and reliable remedy for piles, hemorrhoids, and other ailments of the rectum. It is made of natural ingredients and is guaranteed to give relief.

**The Gillette slips through a heavy beard as though it were cream on a baby's face.**

The twentieth century has brought forth no greater contribution to the comfort and satisfaction of mankind than the GILLETTE Safety Razor.

You now see the clean-shaven "Gillette" face everywhere among the men who are doing things. It is only within the last year or two, however, that the sanitary and healthful features of the "GILLETTE" have been publicly recognized.

"London Lancet," the foremost medical authority in the world, says:

"Clean shaven persons enjoy an immunity from common colds, or are less frequently attacked, than those who cultivate a mustache. The mustache affords a nursery for organisms, whereas the daily shave acts as a regular antiseptic."

The GILLETTE SAFETY RAZOR is antiseptically clean. Each blade comes to you sealed in its own individual wrapper. It can never be other than antiseptically clean because your face is the only surface it touches—and there is no stopping.

Guard your health by using the "GILLETTE".

Standard sets, \$4. Pocket Editions, \$2 to \$3. Dealers everywhere handle the "GILLETTE". You will know Gillette dealers by the Gillette signs.

GILLETTE SAFETY RAZOR CO. OF CANADA LIMITED  
Office and Factory, 61 St. Alexander Street, MONTREAL.

**NEW GOVERNOR FOR P. E. ISLAND**

Hon. Benjamin Rogers Most Prominently Mentioned Successor to Hon. Mr. McKinnon

It is expected that a new lieutenant-governor of Prince Edward Island will be appointed at an early date. The terms of the present incumbent, Hon. D. A. McKinnon, expired last autumn, but was extended for some months.

The man most prominently mentioned on the island as his successor is Hon. Benjamin Rogers of Alberton. He was born in Bedouin in 1837, and is a son of the late Joseph Rogers. In 1858 he removed to Alberton, where he began a general mercantile business, which he has since carried on extensively in conjunction with farming. He has been for forty years in political life and a supporter of the Liberal party. He ran his first election in 1883, and his next in 1872. He was elected in November, 1878, to the legislative council for the first council district in the province, comprising fifteen townships in Prince county. He sat in the council till 1886, and was for three years its president.

In 1882, on the amalgamation of the council with the assembly, he was elected a member of the legislative assembly. He cannot subscribe to anything with so discouraged a note as the following from Miss L. M. Stearns, president of the Wisconsin Library Association:

"Life in the flat building and new ideas on intellectual attainments are destroying the home and the old-fashioned mother. She will defy fat, intellect, and the destructive progress of human invention. The old-fashioned bookish case has been withdrawn from general circulation, the old-fashioned shortcake is almost unknown, and the old-fashioned loaf has fallen on discouraging days, but the old-fashioned mother is a triumph which can be guaranteed as permanent."

She may not spend much time at the home these days; she may not work the old-fashioned churn; she may not be reinforcing Willie's trousers with an eye to durability or warning them with an eye to the incalculable of virtue; she may have been rid of the hardships of the wood stove; she may not be leaving father's stockings; she may even be going to Thesus concerts; she may be concerned with the pasteurization of milk and the making of playgrounds; she may be interested in the theatre, in votes for women in the Administration, railroad bill, in bridge whist, in what T. R. will say next, or in what G. B. Shaw will write next—all this she may do or may not do, but we have no fear of losing the old-fashioned mother.

**HE HELPED ELIZA IN HER DASH FOR LIBERTY**

Richmond, Ind., May 14—The reverend John Wright Johnson, aged 91, a resident of Fountain City, who is fatally ill, was a great anti-slave worker and assisted Eliza Harris, made famous by Harriet Beecher Stowe in "Uncle Tom's Cabin," to escape Fountain City was on the route of the old "Underground railroad," and Eliza Harris was helped by Johnson, who later arranged the circumstances to Harriet Beecher Stowe while she was there on a visit and they were thus incorporated in the famous novel. Mrs. Johnson, aged 86, is also in a critical condition, and it is not believed that either can long survive.

**IDAHO FARMER SOLVES PROBLEM**

Talking Parrots As Policemen to Drive Off Hawks and Mountain Rats

Spokane, Wash., May 14—John Speedy Smith, a poultry farmer on Placer creek in the heart of the Coeur d'Alene mining district in northern Idaho, has stationed several talking parrots as policemen on his ranch to drive off hawks and mountain rats, and raids on his pens are now things of the past. The parrots take kindly to the work and by their screeching they have forced the birds of prey and rodents to give the ranch a wide berth.

The rats were the worst pests and their raids killing the pullets and hens by biting their throats and their hearts. Since placing the parrots in the chicken yards and pens, not a hawk or a rat has been seen and Smith believes he has solved a problem that has given poultry farmers in the mountain districts much concern during the last five years. Farmers in other parts of the district say they will try the plan.

**It's Easy to Stop Pain**

DR. MILES' Pain Pills

"I use Dr. Miles' Anti-Pain Pills for Neuralgia, LaGrippe, and all pains I don't want to be without them, for I can get relief in ten minutes, everything I use them for."

MRS. J. W. MILLER, 120 W. 6th St., Davenport, Ia.

All Pain

"In my family Dr. Miles' Anti-Pain Pills are used for headache, colic and other pains, and always give relief at once."

THOS. R. FOWLER, R. D. No. 3, Dunn, N. C.

Price 25c at your druggist. Should supply you, if he does not, send for it to the nearest wholesale druggist, DR. MILES MEDICAL CO., Toronto.

**REXTON NOTES**

Rexton, May 13—An interesting event took place at the home of Mr. and Mrs. Abel Easter at Bass River, on Tuesday afternoon, when their granddaughter, Miss Marie Wynn, was married to John Dickinson of the late "Abram and Mrs. Dickinson of the town. The bride was accompanied in white and was attended by the groom's sister Miss Alice Dickinson, while Henry Stuart supported the groom. The wedding was quiet on account of the family being in mourning and only a few intimate friends were present at the ceremony. After luncheon was partaken of, a number of friends and a tin and china shower was presented.

M. P. Hogan, of Charlottetown, (P. E. I.) was here this week in the interests of his business. He has ordered the sale of his schooner the Sweet Marie which is a wreck on Kouchibouguac Beach. The sale will take place in front of the court house, Richibouctou, on Saturday, at 2 p. m.

Robert H. Appleton, of Hamilton was damaged by fire yesterday. The chemical engine did good work and the loss will be small.

**KEEP THE BALANCE UP**

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness, or debility. The system needs a tonic, craves it, and should not be denied it; and the best tonic is what we have and know best—Dr. Cassell's Pilement. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

**TUESDAY'S BIG RACE**

The price of admission to the racing contest between Cameron, Sterling, Colby and Hosman, in the Victoria Race Tuesday evening, has been placed at 25 cents, and 100 cents for reserved seats. As interest in the event is keen it is expected that a very large number will be present.

WAYSIDE WISDOM. Have you ever noticed how other people waste time? A woman generally gains her point, unless it is the point of a joke. To want little is always to have plenty. There are some people to whom it is not courteous to be polite. Some men look ahead much better than they go about. We can't all be intellectual circus.

### HELP WANTED—FEMALE

WANTED—A reliable young woman to assist with the work in Woman's Exchange, 47 Germain street.

WANTED—Girl for general housework, elderly person preferred. Apply, 188 Brussels street, 1395-1

HOW WOMEN AND GIRLS EARN MONEY

Thousands are Deserting the Old Occupations of Dressmaking, Stenography and Housework for New Professions - St. John Times-Star-Free Coupon for Mrs. Knowles' Book "Lessons by Mail-Beauty Culture."

Abby Beatrice Knowles, the woman who has been instrumental in establishing thousands of women and girls in the profession of Beauty Culture throughout the United States, Canada and Great Britain, has recently arranged for the free distribution of literature, designed especially for women and girls who would take up Beauty Culture as a profession.

Included with the free literature which is now being sent to all applicants is a beautifully illustrated book, containing nearly one hundred lifelike illustrations and photographic reproductions showing the wonderful opportunities for the beautician, the Hair Dresser and the Masseuse; it describes a wonderfully simple and practical way to learn to become an expert in the various branches of Beauty Culture and shows how a Beauty Parlor can be started at home at very little expense, or how a visiting practice (calling at the homes of select patrons) can be conducted.

During a recent tour of the United States and Canada she interviewed many women and girls who held positions as clerks, stenographers, dressmakers and domestic servants, as well as many unemployed and the intelligent, ambitious desire for advancement shown by the women clearly proved their fitness for the new, dignified and profitable profession.

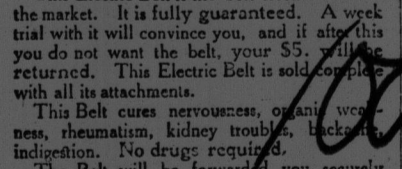

Arrangements have been made to send the literature and book to all women and girls readers of the Times-Star and Mrs. Knowles requests that the fathers, mothers and brothers of young ladies assist in drawing attention to this announcement.

Only 20,000 copies of the book have been printed. Those who wish a copy should cut out the coupon below at once and mail it to: Abby Beatrice Knowles, 2238 Eighth Avenue, New York. Be sure to write your name and address plainly and enclose it with the coupon.

FREE COUPON For Mrs. Knowles' Book "LESSONS BY MAIL-BEAUTY CULTURE" This Coupon is good for free literature and one copy of Mrs. Knowles' Book if mailed at once to the address given above.

St. John Times-Star Coupon No. 41-A

OTTAWA ATHLETE IS HOME AFTER NINE YEARS IN AFRICA

(Ottawa Citizen.) Wilbur R. Parr, better known as "Bill" Parr, for many years famous in Ottawa athletics, has returned to the city after nine years in South Africa and many a hearty handshake and welcome home is being received. If any man can learn to drive a car, it is he.

"When I first went to South Africa I was timber foreman for railway construction. I worked at that for years. Then railway construction stopped and I went to Kimberley and worked in the diamond mines. I was underground time-keeper. They talk about stealing diamonds and all that. I had a good chance down in the mine to look for diamonds because I could walk about in all the two years I was there I never found but one diamond. They showed up the blue earth that is almost as hard as rock. It contains the diamonds, but you cannot see them. It is spread over great drying floors for a year or two and then run through the machines with rollers which hold the diamonds and let the rest go. This is a new process and earth that had been thrown away years ago by the miners thinking all the diamonds were out of it is being remilled and large values taken.

"There is a certificate for gold mining. No one can be a gold miner and set off blasts out in South Africa without having such a certificate." One exhibited certificate, he continued, "Each miner had a number of natives who worked the drills and we took out the rock by contract. It is easy work for the miner when the 'boys' have been trained in it. We blast there with gelatin, an explosive much stronger than dynamite."

"South Africa has a lovely climate. I never was a day sick. Things are booming at the mines, but it is no place for people to go with the hope of getting into the office. All the offices are filled up. There are very few positions open for clerical work of any kind.

"In nearly every town there are Canadians. It is used to be interesting when a bunch of ex-Canadians or ex-Americans and ex-British soldiers would get talking. Often I have talked with Boers who were in the same engagements as I was only on the other side. I worked with one and we were great friends. We also played baseball and lacrosse, the latter being made up of Canadians and Americans."

Mr. Parr thinks that the confederation of South Africa will be a great thing for the country, chiefly in building railroads. The roads are all government owned and there is great inconvenience between the roads of the various sections. With the one central government, building the roads would be much better.

There is very little bitterness between the two races now existing only among extremists and Boers who live in isolated places. Harry Sproule, who went to South Africa, has married a Dutch girl. Her father is a big land owner in Transvaal and he is settled comfortably on a big farm of several thousand acres.

ONTARIO'S PROBLEMS

(Toronto World.) Again the World wishes to present another phase of the decline of Ontario as a farming province. Down in the eastern section of Ontario, in the counties of Glengarry and Prescott, the English-speaking settlers are gradually disappearing, either going to the west or the United States and French-Canadian settlers are coming in from the province of Quebec to take their places. The young men are few, and the young women, only to old people remain, some of them working the farm, and hardly keeping a single cow. Why have these people left Glengarry, who are they leaving Prescott, and why are they leaving adjacent counties, and why are the people of Quebec taking their places? But the fact is that these counties are not going ahead as they ought to do, and new conditions are arising. If this is true of Glengarry and Prescott, it will be true of the adjacent counties, and gradually there will be a change in the whole of the eastern Ontario. Perhaps the matter is worth investigating. Glengarry was once the greatest breeding ground of men and women in Ontario, and sent its men as contractors all over the American continent. But the breeding ground is now rapidly coming to an end and the Highland Scotch, as far as Glengarry being their ancient home, will be only a story. The ancient race is dying out. There are other counties in Ontario the same way.

The Canadian Conservation Commission, headed by Clifford Sifton, has evidently started in to do some substantial work in this direction. It has taken up, among other things, the hygienic conditions of the Canadian people and has appointed Dr. Hodgkins to make a study of tuberculosis. Tuberculosis prevails all over Ontario. Tuberculosis in the country places, and the World believes that it is largely due to the lack of sanitary houses, lack of drainage and the lack of good roads, which prevents people at the time they need medical aid and other assistance from obtaining it. What knocks out an ordinary man or woman is failure to get the right kind of treatment or the right kind of medicine or other material at the needed time. Once a person has a failure of this kind they soon have another; they neglect their teeth; they neglect their stomachs; they take the quick medicine which can always be bought at the country store; and they get it into their heads that some kind of fate or dispensation of God has ordained things as they find them and they make no effort to pull themselves out of the hole. These are unpleasant things to say, but they are facts and can be illustrated in every portion of this province. And, again we say, it is largely due to a lack of organized appreciation of what the activities of the country are, and how they must be overcome by co-operation of the individual or the government or both.

SEE PROSPECT OF A BIG SALMON PACK

Spokane, Wash., May 12.—Ten thousand men with \$4,500,000 worth of equipment are working at various points along the Columbia, Willamette and Clackamas rivers in Washington and Oregon, where the salmon pack is being opened. It is up to Amherst to initiate St. John rather than Halifax. We should endeavor to cultivate a public spirit, to maintain faith in our town and to do our best to boom and boost its interests.

CARE FOR CHILDREN'S TEETH

The Forsyth Dental Infirmary has been incorporated by the state of Massachusetts and will be thrown open to the public use in Boston. The institution was provided for by the will of the late Thomas A. Forsyth, who left \$2,000,000 for the purpose. It will consist of a thoroughly equipped dental hospital on Hemingway street, in the backbay district of Boston, where free treatment will be given to any child under 16 years of age. The purpose of the institution is to give free care of the teeth to every child in the city who cannot otherwise get this attention.

MARKET CHANGE MEANS LOSS OF \$500,000,000

From the extreme high of the Wall street market since the October panic of 1907, to the low of May 3, this year, has occurred a swing representing a loss of \$512,044,939 in market value of thirty active railroad, industrial and mining stocks. At the high in 1903 the market value of these stocks was more than \$4,500,000,000; at May prices it has shrunk to \$3,987,955,061, a loss of about 11 1/2 per cent. Of these, fifteen railroads, with actual stock value of \$3,238,801,000 in 1909 suffered a loss of \$228,450,000; nine industrial, declined from \$627,000,000 to \$573,168,000 or \$53,832,000; and six mining stocks fell from \$636,445,000 to less than \$333,000,000, a loss of about \$303,000,000.

ABOUT PEANUTS

Even if it were not for the circus America would eat more peanuts than any other country. The demand for nuts has never been fully supplied. During the years 1907 and 1908 Japan exported 17,000,000 pounds of peanuts and the greater portion of them came to the United States. Many localities in the southern part of the United States are devoted almost exclusively to the raising of peanuts and yet the demand is much above the supply.

Hood's Sarsaparilla

Is the most effective medicine for the complete purification of the blood and the complete renovation of the whole system. Make it the spring. Get it today. Sold by all druggists everywhere. See Doses 11.

A GOOD EXAMPLE

Amherst Views of St. John's Boom Spirit and Some Comparisons

(Amherst News.) St. John had a regular house cleaning day last week. Merchants and others gave the service of their teams free of charge to city and a number of men voluntarily volunteered to aid the city men in making St. John a clean city. A public spirit of this kind cannot be too highly commended.

The winter port is setting an example to other cities and towns in the Maritime Provinces. They may have their political scintillations and fights in the streets, but "St. John first, last and always" is the motto of the citizens as a whole. While the town council would like to see the chief end of man is to wear tennis pants or sport a golf bag with numerous clubs. It is up to Amherst to imitate St. John rather than Halifax. We should endeavor to cultivate a public spirit, to maintain faith in our town and to do our best to boom and boost its interests.

We have a lot of dirty yards that need a thorough cleaning. We have a lot of old rollers called moment and imagine that the chief end of man is to wear tennis pants or sport a golf bag with numerous clubs. It is up to Amherst to imitate St. John rather than Halifax. We should endeavor to cultivate a public spirit, to maintain faith in our town and to do our best to boom and boost its interests.

USE OF PARCHED CORN

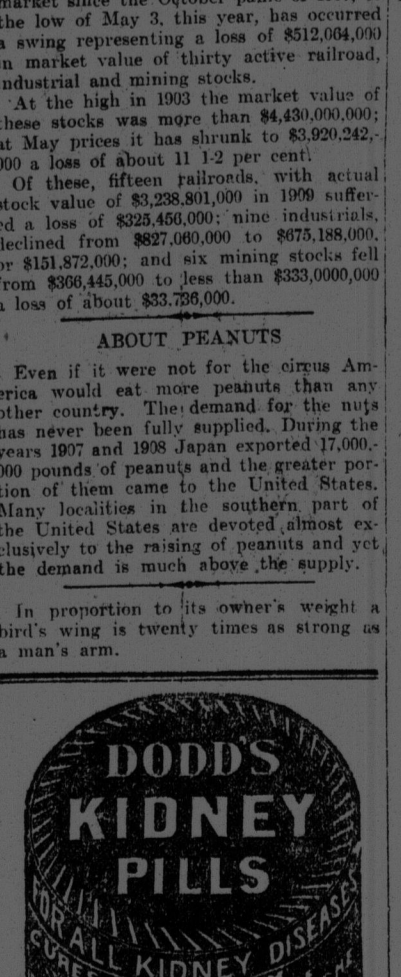

Probably the most primitive methods of food preparation is the parching of grain. When America was discovered the Indians were found living largely upon wild rice, which they kept by parching and which, prepared in this way, could be kept indefinitely. The grain is sterilized in parching.

THE JAMAICA FIREFLY

The Jamaica firefly, a species of insect over an inch in length, emits a very brilliant light, which comes from the sides of the head and beneath the thorax. The light is a fluctuating one and not the steady glow of the glow worm. A very remarkable fact is that this fluctuating or pulsating light may continue after the death of the insect. If it is supposed that the light of the living insect is due to oxygen supplied under its control to the luminous matter, a conclusion may be reached to the effect that after death the oxygen of the air might obtain access to it and produce a like effect. It is difficult, however, to account for the pulsations in the light of the dead firefly.

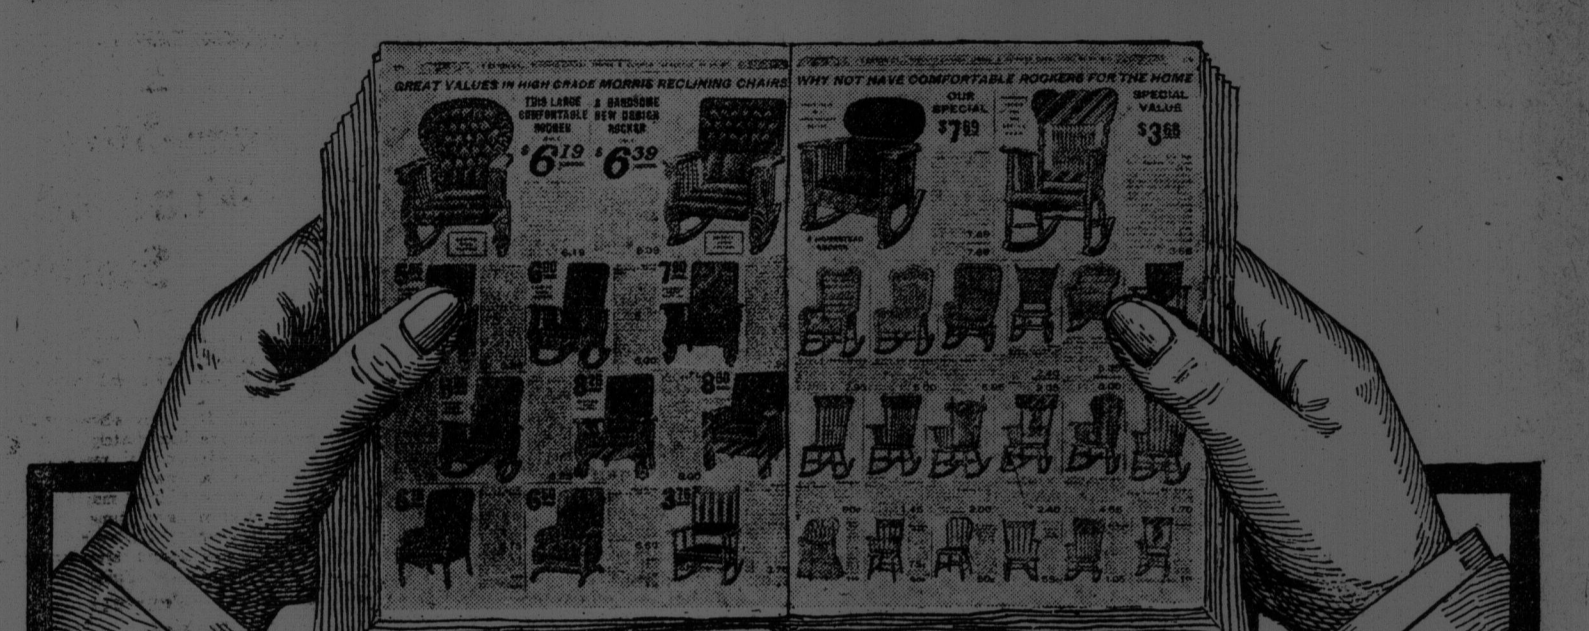

MEN AT THE HEAD OF AFFAIRS IN THE BRITISH PARLIAMENT

Leaders of the government in Parliament when King Edward died

From left to right, three statesmen, who R. McKenna, of the admiralty; Mr. S. Chamberlain, of the exchequer; H. Asquith, prime minister; A. Balfour, secretary for Ireland; Winston Churchill, home secretary; and Mr. Haldane, secretary for war; Sir E. Grey, secretary for foreign affairs, and John Burns, of the local government board.

USE OF PARCHED CORN

Probably the most primitive methods of food preparation is the parching of grain. When America was discovered the Indians were found living largely upon wild rice, which they kept by parching and which, prepared in this way, could be kept indefinitely. The grain is sterilized in parching.

THE JAMAICA FIREFLY

The Jamaica firefly, a species of insect over an inch in length, emits a very brilliant light, which comes from the sides of the head and beneath the thorax. The light is a fluctuating one and not the steady glow of the glow worm. A very remarkable fact is that this fluctuating or pulsating light may continue after the death of the insect. If it is supposed that the light of the living insect is due to oxygen supplied under its control to the luminous matter, a conclusion may be reached to the effect that after death the oxygen of the air might obtain access to it and produce a like effect. It is difficult, however, to account for the pulsations in the light of the dead firefly.

MEN AT THE HEAD OF AFFAIRS IN THE BRITISH PARLIAMENT

Leaders of the government in Parliament when King Edward died

From left to right, three statesmen, who R. McKenna, of the admiralty; Mr. S. Chamberlain, of the exchequer; H. Asquith, prime minister; A. Balfour, secretary for Ireland; Winston Churchill, home secretary; and Mr. Haldane, secretary for war; Sir E. Grey, secretary for foreign affairs, and John Burns, of the local government board.

Father Morrissey's "No. 10"

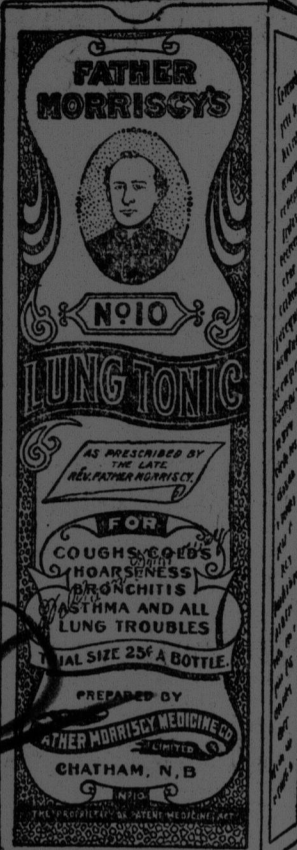

(Lung Tonic) is made of Balsams, Roots and Herbs, and is absolutely free from Opium, Morphine or any similar dangerous drug.

"No. 10" quickly relieves and permanently cures Coughs, Colds, Bronchitis and other troubles of throat and lungs, including even mild cases of Consumption.

Moreover it strengthens the lungs and the whole system against further colds.

THE MAN IN THE PULPIT

BY THE REV. C. W. SQUIRES.

Mr. Squires is a man in the prime of life; of spare figure; with pale, thoughtful face, and wearing a mustache. He dresses clerically, his voice is not powerful, but can be well heard. His manner in the opening service is subdued. As he begins his sermon, too, he speaks quietly, and the unaccustomed hearer feels that there is an absence of that fire usually associated with the Methodist ministry. But as the preacher proceeds with his discourse, he grows more animated, he turns upon the people an earnest face, and his hands in their vigorous movements, help to enforce the uttered thought. His preaching is of a philosophical cast, and is more topical than expository. He takes his text as embodying certain principles, and these principles he states in the form of propositions, which he unfolds and applies in an interesting fashion. Through the sermon there are numerous references to historical personages and events. There are also indications that the preacher has a wide acquaintance with literature. This imparts brightness to his discourse, and the style has a fault, it is that of diffusiveness. It is like a widely spreading stream, rather than a deep, direct current. The expression of the thought is not closely connected, yet there is thought—good thought, and Mr. Squires leaves before him a well-defined end, which he eventually reaches. We do not, for a moment, suggest that there is any lack of preparation; for there are certain signs that the sermon has been carefully prepared. The matter is solid; the teaching is strong, though it seems to us that the ethical is more in evidence than the evangelical. But the ethics are those of Christianity, with all that they involve of self-renunciation, and it seems that the true finding of life is being sought for by every soul. Mr. Squires sets before his people a noble standard of conduct, both for private and public life. He believes that righteousness is at once the glory of an individual and the salvation of a nation. He applies his subject, with admirable earnestness, to the practical needs of his hearers, and his evident aim is their uplifting to a higher plane of life and labor. Happy the community and country where such lessons are laid to heart, an exemplified in the character of the people!

TOMORROW'S SUNDAY SCHOOL LESSON; INFORMAL TALK BY EVANGELIST KNIGHT

The following is the summary of the lesson of Evangelist Knight's informal talk on the Sunday school lesson for tomorrow. Mr. Knight has been filling the vacant pastorate of St. Luke's Presbyterian church, Bathurst, for the past six months, and is an evangelist of much power.

Growing Hatred to Jesus. Matt. 12:22-32, 38, 42. The lesson on Matthew presents it as like a series of moving pictures from real life. First we see certain individuals who had faith enough to believe that one who had gone all to the devil could be saved, for they brought unto Him one possessed and blind and dumb, and He healed him, inasmuch as the blind both spoke and saw. He was some mother's boy who was down and out—could not see his lost condition—could not see for the life of sin with some people could see in religion to make them happy—blind to the imperishable realities of the super-natural realm—the realm of the Spirit of life in Christ—while chasing the perishable shadows of the world—blind as far as prayer or speaking a word for Jesus Christ was concerned—till he was brought in the arms of love and faith and laid at the feet of Jesus.

What Happened Then? The devil that griped him met more than his match, and once more the arm of the Infinite was laid bare in the crowning work of redemption—the saving of a soul from sin.

The scene changes. The sinner saved by grace is surrounded by a curious throng. "Is that you? I could hardly believe my eyes." "Why, man, what has come over you? You are not the same fellow you used to be." It was a sudden and genuine conversion to God—no question about it. He knew and he knew and they knew it, and they knew that no earthly power could have done it, and asked—Is not this the Son of David? Nothing brings such credit to the Master as the saving of a soul. The scene changes.

"But when the Pharisees heard it they said, This fellow doth not cast out devils but by Beelzebub, the prince of devils. The higher critics of the year 33 A. D. could not deny that the work had been done, that it was supernatural. But they longed to see a class corporation. They would not believe that the Son of David had done it. He is not a graduate of our school of thought. Our reputation with the people which support us in power and fill our purses, is at stake; and it is extremely irritating to hear on all sides, 'Is not this the Son of David?' As the people's estimation of Him increases our must decrease. One course is open to us. The tongue is sharper than any two-edged sword. Let us kill Him in the estimation of the people. How? Kill Him. Smirch His Character. People are always ready to believe the worst without taking the trouble to investigate charges. 'This fellow,' whose name we shall not condescend to take upon our lips, has formed a family compact with Beelzebub. This is our position, let us stick to it."

Again the scene changes. One stands forth—One fairer than the sons of men. One before whose majesty the devils tremble and cringe—dissemble—what does He say? "Every kingdom divided against itself is brought to desolation—if Satan cast out Satan he is divided against himself. How shall his kingdom stand? How can one enter into a strong man's house and spoil his goods except he first bind the strong man?" It was as though He said, "that poor fellow belonged to the devil—he was his slave—but his old master will have to bind Me before he can make me his slave again. He that is not with Me is against Me, and he that gathereth not with Me scattereth. I have gathered against him the bosom of speech and sight of Myself. He who is not with Me in this work of gathering in the lost is against Me." "Who is in the Beelzebub compact?" "Which concern are you working for?" "Are you gathering with Me or are you doing the devil's work of scattering?" "You critics come dangerously near to the unpardonable sin, for your criticism puts you out of touch with Me, and prevents the possibility of your ever being brought in, for if you persistently deny Me and oppose this work of saving lost souls, you are working for the devil."

For the Bride. The June bride is no longer clinging to the long-established traditions of her grandmother. Nowadays women who congregate formal weddings are throwing traditions to the wind and are planning their trousseaus with two important factors in mind—the becomingness of a style to the wearer and the note of individuality that is distinctive. The style of wedding rings depends much on the individual preference of the bride, as the ring is usually made to order. A very narrow, thick band is preferred by the wide ones used some years ago. They are easier to wear and in much better form. Most brides carry their favorite flower, either white roses or a combination of lilacs-of-the-valley and orchids, either made into a shower or an arm bouquet; some still select the old-fashioned affair built up around a stick and surrounded with a full of lace paper. Game cocks and ducks sometimes take to catching mice, which they devour.

If Your Shoes Could Choose. Packard's Shoe Dressings. 40 kinds—25¢ for all leathers. The name "Packard's Shoe Dressing" guarantees a dressing that is made right—from A 1 materials—a dressing that will bring out the best that is in a shoe, both in looks and wear.

For Your Shoes' Sake, Use Packard's Dressings. At All Dealers. L. B. PACKARD & Co., Limited, MONTREAL.

The Ingredients Used In NA-DRU-CO

Medicinal and Toilet Preparations are of the same high quality as those your druggist uses in filling your physician's prescriptions. The National Drug and Chemical Company supplies the greater part of the drugs dispensed by the physicians and druggists of Canada, and it is probable that the ingredients used by your own druggist in his prescription work came from our warehouses.

We Can Afford to use only the very best materials because, buying in immense quantities for our wholesale trade, we get the best crude drugs at rock bottom prices. In our chemical laboratories these raw materials are refined and prepared by expert chemists and subjected to rigid tests both for strength and purity before being used in NA-DRU-CO preparations.

NA-DRU-CO God Liver Oil Compound, for instance, is made from the best of materials, by our expert chemists, and is consequently the most perfect tonic. NA-DRU-CO Nervosine is another striking example of the results our skilled chemists can get from good ingredients.

A Few NA-DRU-CO Favorites:

- Toilet: God Liver Oil Compound, Talcum Powder, Tooth Paste Cream, With Hazel Cream. For Children: Baby's Tablets, Sugar of Milk, Dyspepsia & Indigestion, Dyspepsia Tablets. Catarrh and Salve, Catarrh Ointment, Stomach Medicine Ointment, Stomach Tablets, Stomach Tablets. Tonic: God Liver Oil Compound, Tonic, Nervosine, God Liver Oil Emulsion (is used).

National Drug and Chemical Company of Canada, Limited. Wholesale Branches at: Halifax, St. John, Montreal, Ottawa, Kingston, Toronto, London, Hamilton, Winnipeg, Regina, Calgary, Nelson, Vancouver, Victoria.

No Heat Except Where Needed

Dishes hot—food well cooked—kitchen cool. No underdone food—no overheated kitchen in summer. Everything hot when wanted. Heat under perfect control and concentrated. The blue flame is all heat—no smoke—no dirt. These are some of the advantages in using the

New Perfection Oil Cook-stove

It has a Cabinet Top with shelf for keeping plates and food hot. Drop shelves for the coffee pot or saucers, and nicked towel racks. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. CAUTIONARY NOTE: Be sure you get this stove—see that the name-plate reads "NEW PERFECTION." Every dealer everywhere, if not at once, write for Descriptive Circular to the nearest agency of the

The Imperial Oil Company, Limited.

For anything you use paint for, or varnish, indoors or out, M L Floorglaze is more lasting, more durable, easier to apply and more sure to satisfy. Surpasses as a floor finish, and is just as excellent for a hundred other uses around your home. Dries overnight, glass hard. Keeps its luster, too. Costs little—a gallon costs 50¢ square feet. Comes in tins of handy size—17 pretty shades in solid enamel; 7 hardwood colors in Enamel and M L Transparent for natural finish. Made: all your woodwork, furniture, vehicles. Look new again with M L Floorglaze. Write us for FREE book you ought to have, and nearest Floorglaze dealer's name. Imperial Varnish & Color Co., Ltd., Toronto.

Recommended and For Sale by W. H. THORNE & CO., LTD., and A. M. ROWAN

POLO SHOE POLISH

OLD Shoe Polish shines quicker—keeps its deep, black gloss longer—can be revived more easily—comes in a bigger box than any shoe polish—its tint being in greater bulk, keeps its oily freshness longer—is a genuine leather food right to the bottom of each box. Rubbers never affect a Polo shine. Polo Tan Polish both cleans and polishes. Grocers and shoe men sell Polo. Ladies like it. "Good for Leather—Stands the Weather"

SALMON ASH COAL. Railroads, factories and individuals who are using this new coal mined in the only deep mines in New Brunswick, pronounce it to be The Best for Steam Purposes—The Best for Household Use The Best for Open Fires—The Best for the Money and free from slack and dirt. Prompt deliveries from coal sheds Duffell Wharf, Charlotte Street. Phone 1172 Main. Sold in any quantity from peck to carload. CANADIAN COAL CORPORATION, P. O. Box 13.

COWAN'S PERFECTION COCOA (MAPLE LEAF LABEL) Give The Children

It is an absolutely pure Cocoa of the finest quality. It is nourishing and healthful for young and old. Mothers know the economy of Cowan's Cocoa. It goes so much further than any other.

THE COWAN CO. LIMITED, TORONTO.

Advertisement for Gendron baby carriage, featuring an illustration of the carriage and text describing its features and availability.

EVERYTHING GOES TO THE BABY'S MOUTH. Sometimes on a particularly adventurous voyage far under the table they will capture a bug or a fly. Then their feast is indeed exultant. The universe, thinks a baby, is something to be bitten off and swallowed. His five picture he will chew it. If a time pleases he will gnaw the piano leg. He would munch the moon if he could reach it. So it is that straw, pins, strings, and needles find their way so specially to the cherub's mouth. This is all very delightful. But parents will do well to observe these two precautions: Don't as a rule, let the baby try to swallow anything bigger than his larynx and never let him try to swallow a screw. If you wish to be scrupulously careful, see that the floor is clean before you let him set sail across its mysteries.—Atlanta Journal.

For Tender Feet. Bath feet in warm water to which a little ammonia has been added. After drying, the feet should be dusted over with borax. Rub water in the feet.

MILLIONS IN CASH, THOUSANDS OF ACRES FOR THE PLAYGROUNDS OF CHICAGO

(Chicago Record-Herald.) Chicago has within its city limits nearly 4,000 acres—3,874, to be exact—of open air and green turf; 4,000 acres of just plain, dedicated to the Chicago young man and his father and mother.

Chicago has three public bodies including in their membership experts who are devoting their lives to the task of making the 4,000 acres a good place to play in.

For the land alone, purchased, most of it, long ago, when land was cheap, Chicago has spent between \$10,000,000 and \$15,000,000. Millions more have been used in making it attractive.

Chicago has more playground than any other American city, New York and Philadelphia excepted.

And within the last few years improvements made by honest and enthusiastic administrations have given Chicago the most elaborately equipped park system on the American continent.

The story of the parks is a refreshing one, and one, which, that the average Chicagoan knows very little about.

It is a curious thing that the people know so little about the parks, said one of the park officials the other day as he looked out a window.

That park official had a right to be proud. He is playing an important part in the movement that is tackling the "city problem" pretty well down toward its source and working toward a solution of some of its most baffling angles.

Through his subordinates and the system he has built up he is taking the city boy and the girl and giving them a chance to play outdoors—paddle in real water and loaf under real trees.

They are no fenced-in gardens for the aristocrats, these domains of the lordly park superintendents. They are the national estates of the people, inherited in equal shares by the children of the city.

Chicago has within its city limits nearly 4,000 acres—3,874, to be exact—of open air and green turf; 4,000 acres of just plain, dedicated to the Chicago young man and his father and mother.

Reduce The Cost of Living LET us look into this problem of high cost of living. Let us see if we can whittle it down a bit and extract some of its fangs.

It is a fact that the best bread made from Ogilvie's ROYAL HOUSEHOLD FLOUR is richer in real food value than anything you may eat.

bulletin. From a food point of view—bread is the most important in our whole bill of fare. Test after test by various Governments has proved that first class bread is in itself almost a complete food and provides most nourishment to the body.

**WEAK AND SICKLY MEN**

Can Become Strong and Healthy

**THIS IS HOW THEY FEEL**

The men who had given up hope, who thought there was no cure for them, until they came upon Dr. McLaughlin's Electric Belt. Now they are full of life and overflowing with joyous spirits. Pains are gone, weakness has gone, and full vigor is in every action.

Do you want to feel like that? Then wear the grand, life-saving appliance for two months, at night. It will change every nerve with electric life, and you will feel rejuvenated and invigorated. It puts steam into your run-down body, drives away pain and restores youth.

What's the use of dragging your eyes like a wooden person? Feel like a person of spirit. Away with the pains and aches; off with this wretched feeling as if you were eighty years old and had one foot in the grave. Come and let me put life into your nerves; let me give you a new supply of youthful energy. Let me enable you to feel like throwing your chest out and your head up, saying to yourself: "I am STRONG AND HEALTHY!" Let me get you back to the fountain of youthful fire, vim and courage. I can do it so that the members of your family wonder that you ever felt so slow and lumpy as you do now. Get away from home and did not return until all right. It is better and stronger than has been for thirty years. It is a permanent cure. My head don't bother me; nerves are strong; I am a better all over. You can use my name to certify that my Belt is all you claim for it.

**SPORT NEWS OF A DAY; HOME AND ABROAD**

**The Recent Races in Nova Scotia and the Matter of Time—Ring, Turf, Athletic and Baseball News**

The time 54.13 in the ten-mile race at Amherst between Cameron and Corkery was questioned by a St. John man in this paper and the reply was that the track had been measured by a reputable engineer, and as the timers were competent men there was no error.

The time in the five mile event of Monday evening was given at 23.50 and Amherst dispatches state that the track was sixty feet over the distance and Cameron is given credit for a Canadian record, this time being 13 of a second better than the time made by George Adams, the Canadian holder.

If the Amherst timers will figure it up they will find that according to their own figures the first mile was run in 4.57, the second in 2.54, the third in 2.51, the fourth in 2.46 and the fifth and last mile in 4.31. It is therefore doubtful that Cameron could go out fresh and run a single mile that fast in a hard five mile event on an indoor track. There is no intention to take away any of the credit from Cameron, for there can be no doubt but that he is one of the best in Canada and everybody in the maritime provinces is proud of him, but it is suggested that when an event of this importance is being held it would be well to exercise the utmost care.

Tom O'Rourke, the manager of James J. Corkery, the Toronto runner, who has returned back to Toronto, thinks well of Cameron and says:

"Cameron is a great boy. His success has set the people crazy down there, and they can't get over him like the whole of Canada did over Tom Longboat, when the Indian was at his best. The Amherst lad has wonderful speed, and no matter how fast he is called upon to run, always appears to have something in reserve.

"If the Amherst timers will figure it up they will find that according to their own figures the first mile was run in 4.57, the second in 2.54, the third in 2.51, the fourth in 2.46 and the fifth and last mile in 4.31. It is therefore doubtful that Cameron could go out fresh and run a single mile that fast in a hard five mile event on an indoor track. There is no intention to take away any of the credit from Cameron, for there can be no doubt but that he is one of the best in Canada and everybody in the maritime provinces is proud of him, but it is suggested that when an event of this importance is being held it would be well to exercise the utmost care.

**MORNING LOCALS**

The St. John Boatmen's Association has decided that after June 1, they will charge for bottles as well as for beer, charging two cents for glass bottles and five for stone. They have found this necessary, they say, to protect themselves.

On the farm of Mr. Bowes, Golden Grove, this week two horses and three cows were poisoned. One horse, valued at \$200 belonged to a carpenter named Campbell. The poisoning is thought to have been done by a farm hand who had grudge against the owner.

In the school room of Fairville Methodist church last night, the members of the Epworth League, debated woman suffrage. Wm. Fox and Miss G. Farver argued for the affirmative, and The Snyman and Miss Belle Miller for the negative. The latter won, S. A. Warrell presided.

Early yesterday morning in Leamington, Ont., Mr. and Mrs. Floyd Dresser were found dead in their house. Both had been shot, and the husband had gripped in his hand a heavy cavalry revolver. It is supposed that Dresser shot his wife, then himself. The crying of their baby aroused the neighbors.

**THE FOOT.**

To those who enjoy a good hearty laugh at real legitimate comedy the performance of "The Foot" at the Opera House on May 16 and 17 will especially appeal. Comedy alone is not a feature of this production for an intensely dramatic plot runs through it, involving an unusual interest in the mind of the audience. Not until the final curtain can the interest waver and those who witness the performance are sure to leave the theatre only with the conviction of an evening well spent.

The present tone of the company is continuing the success of the piece at the time of its London and New York productions. "The Foot" can well be called one of the prominent plays of modern times. Secure seats in advance at Opera House.

**BASEBALL**

The Inter-Society league will open the season on Monday evening with a game between the St. Peter's league champions and St. Joseph's. Callaghan of last year's green and white is with St. Joseph's.

The club of St. Peter's and those of Charles Evans Cincinnati without a capable substitute infielder, and Griffith is burning the wires.

Pfeifer Denton Young of Cleveland did three home runs in a game, April 22, 43 and 20 years younger than that.

Fank Smith, of the White Sox, pitched 25 innings last season, which was sixty more innings than any other American league pitcher.

**THE G.P.R. AND THE D.A.R.**

A dispatch with reference to the purchase of the D. A. R. by the C. P. R. reports the following possible changes. The steamer Prince Arthur and Prince George to the Pacific coast; the fitting of a large steamer for carrying loaded cars of freight, on the St. John-Digby route; increasing the Boston-Digby service during the summer to a daily instead of a semi-weekly service; reducing the Yarmouth-Boston service, if continued, to twice a week throughout the year; the erection of a summer hotel at Digby; increased wharf facilities at Digby; building of a round house and turn table; rapid freight and passenger service into Boston via Digby and St. John.

**Combination Engine**

Use this motor in your boat during the summer, and in the winter use it for sawing wood or any other work you may have to do.

As this engine is equipped with a governor it works equally as well whether used in a boat or for stationary work.

Call and see this engine or write for catalogue and prices

**Ask For Duty on Raw Wool**

Ottawa, May 14.—Reports of the National Transcontinental Railway commission show that active construction work is going on along the line of the railway from Montreal to the west of Lake Superior. Work has now been started on the only gap in the line hitherto unbridged. It is expected that the road will be ready for the wheat season of 1912.

An effort is being made to induce the government to impose a duty on raw wool. Today Finance Minister Fielding and Hon. Mr. Patterson were waited upon by a delegation of sheep raisers and wool manufacturers who urged that a duty of five cents a pound be put on raw wool, which is now free, and that a corresponding increase be made in the duties on manufactures of wool, which are now protected to the extent of thirty per cent. The sheep men were represented by Col. McCrea, of Guelph and Mr. Smith, M. P., and the woolen manufacturers by Mr. Thorburn, M. P., Mr. Caldwell, ex-M. P., and J. P. Murray, of the Manufacturers' Association. The usual promise of consideration was given.

Mr. McIntosh returned yesterday after a trip through the province in search of graves of the brown tail moth. He said last night that New Brunswick so far was entirely free from this pest.

LOCAL NEWS

Register Jones reports eight marriages during the present week, also twenty-three births, eighteen boys and five girls.

Norwegian steamer Fram has left Chatham, N. B., for Portland, Me., with the first cargo of pulpwood for the season.

Up to date, this month has been rather a heavy one in police circles, but today for a change there was a clean sheet, the first time since April 19.

A Guy Pierce, son of Rev. Thomas Pierce, of East Florenceville, has been appointed manager of the Florenceville and Hartland exchange of the N. B. Telephone Co.

Rev. H. D. Marr will speak at the Every Day Club tomorrow evening at 8:30 o'clock. The credits will play, and there is always hearty singing of a few familiar hymns.

The married and single men of the Y. M. C. of St. Joseph were to be congratulated for their skill last night in a bowling match on the St. Peter's Y. M. A. alleys, but some of the players did not present themselves, and the game was postponed until next Wednesday evening.

Pilot Joseph Stone has gone to Philadelphia to bring the steamship Manchester Port here to load desks for Manchester. The Manchester Port is in command of Captain Stott and she registers 2002 tons net. She will be due here on Monday evening.

A man who arrived in the city on the Boston train at noon from Port Clyde, (Me.), says that the schooner Annie A. Boag was lost at sea in that vicinity and was later floated as badly damaged. He says that the vessel's bottom is completely gone. It is not known as yet what disposition will be made of her.

The following took the oath of allegiance to His Majesty King George in the county court chambers this morning: Dr. W. B. Wallace, K. C., Robert O. Stockton, W. Watson Allen, Fred R. Taylor, J. Edgar Florence, McClary and Norman P. McLean. Judge Forbes administered the oaths.

A Toronto paper says—"H. J. P. Good, of Toronto, at present managing the St. John, N. B. exhibition, has almost persuaded the council of that city to change a by-law so as to permit the erection of projecting signs. These signs have been strictly forbidden in St. John for at least forty years.

BISHOP RICHARDSON WRITES OF HIS WORK IN OLD COUNTRY

In a recent letter to Archbishop Raymond, Bishop Richardson writes that since his arrival in England his time has been fully occupied in spiritual matters. He has addressed or is to address meetings in London, Liverpool, Manchester, Oxford, Leeds, Sutton Coldfield, Wigan, Chester and other places.

The bishop hopes to be successful in obtaining the right kind of men to fill the vacant parishes in his diocese, but writes that the appeal for men for the Canadian northwest is so strong that his task is a very difficult one. He hopes to be able to sail on his return early in June.

MR. SHAND'S TREES; A VERY MOVING TALE

Doubtless many people have admired the two big green bay trees which for the past two weeks have graced the entry to the Royal Bank, and thereby hangs a tale. Previous to the removal of the trees, the Royal Bank was adorned by the sidewalk in front of Shand's flower store, but in the early hours of Monday, May 2, they were moved to the bank building, just below, where they seemed to be particularly in keeping with that handsome edifice.

AUCTIONS AT CORNER

At Chubb's corner today Auctioneer Lantieri sold a lot of land in the Parish of St. Martin, owned by Alexander W. Fowles, to H. H. Brittain for \$150 over the mortgage held by the Colonial Investments Co. of Toronto.

ST. JOHN SHOULD BE GREAT CITY

Maine Lime Burner Here Buying Big Lot of Kin Wood—Sees Reasons for Healthy Growth of St. John

"With all your natural resources, your mountains of limestone and lumber industries and every facility for carrying on trade do not see why St. John should not be a great city," remarked C. A. Creighton, a prominent lime burner of Thomaston, (Me.) who is in the city to arrange for the shipment of a large supply of kiln wood from this port to his kilns in Thomaston.

Asked if he thought there was any likelihood of a change in the tariff that would permit lime burners to ship their product to the United States, he replied, "Not until we have a Democratic president."

One of the difficulties in late years has been lack of vessels to carry the wood and it is possible that Mr. Creighton will have to send his own schooners here to load.

Mr. Moore took Mr. Moody and myself around in his automobile. I had not been here before for twenty-five years, my last visit being made as a boy on a schooner, so I noticed a very great change in the city."

DUMP FURNISHES AN ARGUMENT FOR THE INCINERATOR

Victoria Street Has a Visit from Board of Health Inspector—The Views of Secretary Burns

Regarding complaints made at the board of health office concerning the condition of the dump in Victoria street, F. M. Burns, the secretary, says that in his opinion an incinerator is badly needed by the board to do away with the dumping of material dangerous to the health of a community in places in a residential district.

An inspector of the board has visited the dump in question and has found that, while it is a public dump, its location is bad, as school children are continually playing about it and it is surrounded by houses. In spite of the fact that the lot of ground is used as a dump, it is known under the high-sounding name of "Victoria" square.

SCHOOL LADS WITH SUPPLY OF CARTRIDGES

Winter Street Principal Makes Collection of Dangerous Playthings and Probably Prevents Accident

A dozen of the pupils of Winter street school chose cartridges as play things one day this week and that they did not explode and fatally injure some of them is no fault of their own, as no effort was spared to "fire" them. It is due to Principal Nelson of the school that nothing serious happened, as, learning of the matter, he went among the boys during school hours and took about ten or twelve cartridges from them, ranging in size from a .22 to a .38 calibre.

OBJECTIONS TO LIQUOR LICENSE

Very vigorous opposition is being made to the granting of a liquor license for the premises at 230 Union street. The reasons given are that there are two saloons in the block now; that it is largely a residential block; that the saloon would decrease the value of other property; that several tenants have notified property owners that they will move out if the saloon is opened there; that one of these property owners is a blind woman whose rights should be protected; that the great number of girls employed in the White Star factory would have to go in and out directly past the window of the saloon and encounter the loiterers on the sidewalk; and that the building has been declared by a civic committee to be dangerous in case of fire. A largely signed petition will be presented to the license commissioners.

It is thought that the record for early growing along the St. John river was broken this week, when a box of delicious strawberries, cultivated by Alfred Vanwart, of Wickham, were brought down river, consigned to P. New & Son, in downtown. Mr. Vanwart makes a practice of early cultivation, and has been very successful. In other years it was considerably later in the season when cultivated native grown strawberries arrived at downtown.

STORES OPEN TILL 11 O'CLOCK. ST. JOHN, May 14, 1910.

Suits In Which You'll Look and Feel and Really BE Well Dressed

There have been such great improvements in ready-tailored garments for men within the past year, that one who has not looked through our stock of Suits this Spring has no idea of the splendid garments he can get here ready to put on. No Dirt Getting Under Your Cabinet Glenwood Stove If You Are Using a...

With your stove sitting on the closed base, the same as our Cabinet Glenwood, there is no dirt getting under it. The Cabinet is built like the upright piano, to save room, and looks well. Its large roomy surface being jet black and glossy along with the steel hot closet with its nickel bands makes our Cabinet handsome in appearance.

We make all our stoves in St. John. No better Ranges made in Canada, and right at your own door by McLean, Holt & Co. PHONE 1645 155 UNION STREET

BEST VALUES IN Underwear AT OAK HALL

Thousands of people depend entirely upon this store for their underwear. They come here season after season not only because they know the best values are here, but the greatest assortment as well. Nothing is of greater importance in preparing for Summer than the right underwear. So we have gathered together all the good things we could find—dependable perfect-fitting garments. Complete lines in cotton, cotton-and-wool mixed in a variety of percentages, all-wool, silk and wool, all-silk and linen.

To Look Your Best Wear the Right Derby

No matter what the phrenologist may say about your bumps, an Oak Hall Derby will put the crowning stamp of character on your appearance. It has character hidden away in the felt and dye-work where you can't see it now perhaps. But wait, wear one and the intrinsically fine character of the felt, the color and the shaping will prove itself in the end even more than at the beginning.

Derbys, \$2.00 to \$4.00 Soft Fels, 50c. to \$4.00 KING STREET COR. GERMAIN GREATER OAK HALL SCOVIL BROS. LIMITED, St. John, N. B.

Here is An Electric Cleaner You Should Own

Nearly every housekeeper realizes the advantage of a light, easy to move about Vacuum Cleaner. This is The "Eveready." It is a practical contrivance with nothing to get out of order and which never needs to be oiled. It will produce a greater effective vacuum at the nozzle than any household machine made.

Run by a powerful little motor, and may be operated at a cost of less than two cents per hour on any electric light socket. Price Complete With All Tools, \$100.00

Bargains in Parlor Furniture
