500 CASES LIQUOR SEIZED AT LORNEVILLE

CUSTOMS MEN MAKE RECORD HAUL IN SHED

Officers Had Been On Trail For Four Days

NO ARRESTS MADE

Tug Makes Two Efforts To Load Contraband But Storm Prevents

LOCAL customs officials descended on Lorneville last evening by motor boat and made the largest seizure of contraband liquor in the history of the local service. It was learned today that the goods consisted of about 500 cases of assorted brands of the best whiskeys and gins, and were stored in a large shed near the shore. The liquor is valued at more than \$15,000. A tug will bring it to this city for storage. No arrests were made.

At a small party held last night by four customs officers information regarding the locality of this large consignment of liquor, which had been landed from an inner runner off the coast, it was said, was secured and it was decided to start last evening for the scene.

SHED FOUND DESERTED

Three of the officers in a large motor boat left about 7 o'clock and reached Lorneville an hour later. The officers hurried ashore and found the shed deserted. On securing entry it was said that the first sight to greet them was a large pile of empty barrels which were piled in such a way as to conceal the cases of liquor. This shed is situated a short distance up from the Lorneville breakwater.

The customs officials are confident that the liquor was in these barrels, removed within the next two or three days by motor boat and brought to this city. Owing to the impassable condition of the roads it would be made in that direction, a local customs officer said today, although he felt reasonably certain that the liquor, motor boats and teams were often used in that vicinity to dispose of contraband shipments.

REPORT TO COLLECTOR

The information regarding the seizure was sent late last night to Collector C. B. Lockhart by telephone, and he ordered a tug of the Saint John Drydock and Shipbuilding Co. Ltd. to go down and bring up the large shipment. One of the tugs put out about midnight, but owing to the rough weather she was forced to return and went down again early this morning, but owing to the condition of the tide, which will only permit the vessel to go close to where the liquor was stored at high tide, the tug returned. She will make another trip this afternoon. The liquor will be stored here in Pool's warehouse.

HIGH CLASS LIQUOR

The liquor, it was reported, was still in the original cases and was of an exceptional high class. The majority of the seizure were the largest, several customs officials declared, that had ever been made here in contraband liquor. No trace of any guard was found in the vicinity. The authorities are working today, it was said, in an effort to secure information regarding the ownership of the liquor.

COMBINED LIQUOR PURCHASE UNLIKELY

B. C. Commissioner Says Different Conditions Exist in Various Provinces

VICTORIA, B. C., Feb. 19.—There is no possibility of British Columbia and the Prairie Provinces forming a co-operative organization for the purchase of liquor as rumored in Calgary recently during the conference there of western liquor commissioners, Hugh Davidson, British Columbia representative who returned this week, declared yesterday.

"It is absolutely impracticable in view of the utterly different conditions prevailing in the various provinces," he said. "We never seriously considered it, if it was mentioned at all, and certainly there never was any intention of attempting to put it into effect."

British Columbia is not affected by the problem of high freight rates on liquor now being considered by the liquor officials, Mr. Davidson pointed out. Liquor for this province is shipped by water at relatively low marine rates, he said.

Drouth Closes Big Mines; 7,000 Idle

SYDNEY, Australia, Feb. 19.—Owing the extreme water shortage the important Broken Hill silver and lead mines has been forced to close down and as a result about 7,000 men will be thrown out of work. The closing down comes at an important time because the mines are at the very zenith of their great prosperity due to high metal prices.

C.N.R. Counsel Denies Discrimination at Railway Commission Hearing

Oranges, Shipped Through This Port, Appear In Shops As Marmalade Week Later

SPECIAL TO THE TIMES-STAR. MONTREAL, Feb. 19.—What is thought to be a record in the transportation of oranges from the seaboard and the conversion of the fruit into marmalade at the factory was established in connection with the shipment of oranges moved from Saint John to Hamilton by the C. N. R. last week. The shipment, aggregating 10,000 cases, was placed on board a train of 56 refrigerator cars at Saint John last on February 4 and the train left early the following morning. It made good time to Hamilton where most of the fruit was unloaded and taken to the factories and manufactured into marmalade which appeared on the shelves of retail stores in Hamilton on February 11 or just one week after the oranges had come to Canada via the Buffalo gateway but this year the traffic was secured for a Canadian port. The satisfaction expressed by the shippers and manufacturers upon the service given indicates that this traffic has been secured permanently for the all Canadian route.

Engagement of Prince Henry Expected Soon

Canadian Press. LONDON, Feb. 19.—The engagement of Prince Henry, third son of King George, to Lady Mary Scott, daughter of the Duke of Buccleuch, it is understood, will be announced soon, after the period of court mourning for Dowager Queen Alexandra, which ends tomorrow. Prince Henry will be 26 on March 31. Lady Mary Scott, the fourth daughter of the Earl of Buccleuch, is 20. She is an especial favorite of Queen Mary, and is reported to be beautiful.

Expect Rockefeller Gift To Be Spurned

LONDON, Feb. 19.—A Cairo despatch to the Daily Mail asserts that official circles in Egypt "are inclined to believe" that the offer of John D. Rockefeller of \$10,000,000 to found a museum of antiquities and archaeological institute at Cairo, will be rejected. The reason stated is that the country is not so poor as to need such outside assistance.

Boston Police Take Prisoner In Sydney, N.S.

Canadian Press. BOSTON, Feb. 19.—A trip to Sydney, N. S., by Boston police officers resulted yesterday in the capture of clothing worth \$5,000 belonging to Greater Boston residents and the apprehension of two prisoners. John J. McCarthy was brought to this city from Sydney, charged with breaking, entering and larceny. The police said that their prisoner took them to a number of homes in Charlestown, Somerville and Medford, where alleged stolen goods in large quantities were recovered.

British Surgeon Protests Civilization of Non-Whites

LONDON, Feb. 19.—The work of Christian missionaries among non-white races has come under the lash of Sir Wm. A. Lane, famous surgeon. During the course of an address on eugenics last night, Sir William said the question whether civilization is a future always arises when one sees the disastrous effects that the association with the white race has upon communities which have lived happy and vigorous lives for centuries.

"Can anyone feel that we have conferred the slightest physical benefit to any race to which we first sent our missionaries?" the speaker asked. "The former have taught them to drink to excess and debilitated them with diseases, while the latter have altered their habits by teaching them a moral code which invariably results in their degeneration or degradation. Why do we insist on imposing upon other races leading happy lives our methods and ideas on the supposition that our habits and creeds are more suitable to them than theirs?"

FRASER SAYS PRESENT RATES ARE STATUTORY

Must Apply on Both Company Lines, He Declares

QUOTES 1925 ACT

Argues That Mileage Basis Not Possible With Crow Ruling in Effect

OTTAWA, Ont., Feb. 19.—The reply of the Canadian National Railways to the application of Saskatchewan and Alberta for an east-bound mileage rate on grain to Fort William was heard this morning before the Board of Railway Commissioners.

A. Fraser, National Railways counsel, argued that statutory rates applied to the system for the first time in 1925. This was done by the amendment to the Railway Act, instructing the board to revise rates except on grain and flour.

APPLIES TO BOTH

The original Canadian Pacific Railway tariffs of 1899, were governed by the Crow agreement, and these must now apply to the 77 points then on the Canadian Pacific Railway but now on the Canadian National. Under the statute, it was argued, these must apply over both companies' lines.

The act of 1925 set the Canadian National back to the Crow rates—the intermediate rate history meant nothing. The complaint made by the applicants was that the Canadian National was out of line in the matter of rates with the C. P. R. main line. Actually C. N. R. rates on branches had been built on C. N. R. main line basis.

MILEAGE BASIS IMPOSSIBLE

Speaking of the mileage basis applied for, Mr. Fraser said that in the face of the Crow's Nest statute, a mileage basis could not be applied. Various points on C. N. R. lines were compared to show that there was no mileage basis.

Answering a question asked by Commissioner Oliver, Mr. Fraser said it was his firm belief that established rates were outside the law by reason of the fact that they were lower than Crow rates. The 26 per cent. rate from Edmonton to Fort William was an example of this.

CITY LOSES IN APPEAL COURT

Judgment in License Case Against H. C. Page Is Sustained

Damages Against N. B. Power Commission Increased in Moncton Action

Special to The Times-Star. FREDERICTON, N. B., Feb. 19.—The Appeal Court this morning handed down judgments in a number of cases, Chief Justice Sir Douglas Hazen, Mr. Justice Grimmer and Chief Justice Barry of the Kings Bench Division, sat as the court.

In the King vs. McLatchey ex parte Stewart a motion to quash was refused. This was a civil action tried in Restigouche county.

JUDGMENT UPSET In Bartel vs. Belyea the decision rendered by Mr. Justice Crockett was upset and judgment was given in favor of the defendant. This action was ordered with costs of application.

In Hatfield vs. Canadian Pacific Railway the decision was reversed with costs as set aside. This action was for damages for two carloads of potatoes shipped from Carleton county to Detroit which deteriorated en route.

H. C. PAGE WINS In Page vs. City of Saint John the appeal was dismissed with costs. In this action H. C. Page brought an action into Saint John to conduct a sale and license fee was charged him by the city. Action for recovery of the money paid as fee was brought by Page and won. The city appealed the suit but has lost in the Supreme Court.

KINGS PROBABLY CASE In the estate of Sarah A. Henderson the judgment of the Probate Court is confirmed and the appeal dismissed. This case was from the Kings county Probate Court. The appellant, Elizabeth Henderson, made a claim on the estate as the heir of her husband, who had predeceased his sister, the late Sarah A. Henderson. The verdict and judgment are confirmed.

In N. B. Gas and Oil Fields, Ltd., Moncton, vs. N. B. Electric Power Commission, the appeal was allowed and the amount of award increased to \$1,862.42, with interest. This action was an appeal from an award for damages made by the Power Commission.

In Copp vs. Wood, Chief Justice Hazen and Mr. Justice White concurred in dismissing this appeal, Chief Justice Barry dissenting.

In City of Fredericton vs. Simmons the appeal was dismissed with costs. This appeal was from a decision of Chief Justice Barry in favor of the City of Fredericton in its action to possession of a property in University avenue erected by Mrs. C. J. B. Simmons under the Housing Act, default in the payment having been made. The defendant entered an appeal.

BARRISTER ADMITTED. J. J. F. Winslow, K. C., moved for the admission as a barrister of the court. Woodstock as a barrister of the court. The motion was granted and Mr. Winslow was admitted.

Mr. Winslow also moved for the readmission of R. T. D. Aitken of Newcastle as barrister. The motion was referred to the Barriers' Society for consideration.

The applicant for re-admission is a brother of Lord Beaverbrook who returned to Northumberland county after some years absence during which he practiced law in California, Calgary, Alta., and Montreal.

SUES TO BREAK WILL NEW YORK, Feb. 19.—Papers have been filed in the surrogate's court in Brooklyn, on behalf of Mrs. Kate Hart, of Brooklyn, 25-year-old widow, to break the will of the late James Hart, her husband, who was 64 years old when he died on Jan. 28. He left an estate estimated to be worth close to \$1,000,000, to daughters by a previous marriage. Mrs. Hart was not mentioned.

Second Purse Helps To Solve Problem

Police Constable Leard was handed a purse by a woman while he was on duty at Woolworth's store yesterday afternoon and just as he received it another woman claimed it was hers. He passed the case over to Sergeant Detective Power. A little later Police Sergeant Dykeman found a purse on the sidewalk in front of the same store. In answer to the question given by the second claimant to the purse which Police Constable Leard received, the lady who handed the officer the purse said at headquarters this morning that Sergeant Power said that the purses would be given to those claiming them as soon as the second lady identified the one found by Sgt. Dykeman.

RAIN STARTS SNOW FROM CITY STREETS

Reports Are That it is General Along Coast—City Conditions

Rain today, following sleet of the early forenoon, is reported quite general along the coast area. In this city it is having the effect of slumping the sidewalks and making them somewhat slippery. The accumulation of snow under the eaves of the buildings is somewhat of a nuisance as it is expected will be somewhat heavy when the rain ceases.

The Boston train and the Montreal were practically on time in arriving here at midday but the Maritime Express was delayed a half hour late. Automobile traffic was further hampered by the softened condition of the roads.

A situation has arisen because of the heavy snowfalls of late, causing considerable apprehension amongst property owners, the fire department and insurance circles. This is the result of the condition of backyards, alley ways and public buildings in connection with private residences.

In a few instances the risk of an accident in case of fire when solid drifts of snow would greatly hamper the work of the fire department. In such cases, the passageways have been shortened and other provisions made for such an emergency.

Some public buildings such as churches, theatres, post office, etc., have had exits on the rear entrances and other approaches cleared of snow by shovellers and teams. One theatre has already spent over \$100 in keeping its route way to the north end of the street clear of snow by the use of a motor truck.

The public schools were dismissed at 1 o'clock today. A wide pool of water accumulated in the road-way where the street railway tracks near the Falls bridges today for a time threatened the train service because of its depth. An effort was being made this afternoon to drain the water off.

CITY TAKES POINT TO SUPREME COURT

Appeals From Utilities Claim to Jurisdiction in Power Co. Application

Hearing of the application of the New Brunswick Power Company to the Board of Public Utilities for an order compelling the city of Saint John to give them a manufacturer's rate for the water they buy from the city and up at the February meeting of the Board of Public Utilities, Hon. J. B. Baxter, K.C., having appeared to the Supreme Court of New Brunswick from the decision of the board that they had jurisdiction in this matter.

An application for a writ of certiorari has been made by the city solicitor and until the court has decided the appeal the hearing will not be held.

Sends Report To Italy's Consul General

A full report of the arrest of the cook of the Italian steamship Perso by a liquor inspector is being forwarded to P. Margotti, the Italian Consul General at Montreal, by D. W. Ledingham, local consul agent. He said this morning the circumstances of the case, in his opinion, made such a report advisable.

Mr. Ledingham said it was very unfriendly treatment, in his opinion, of the subjects of a friendly foreign nation, and entirely outside the ethics of common courtesy to foreign vessels, to have a stranger on board and endeavor to get a foreigner, who was not even speak English and was not cognizant with the laws, to violate them and then have him arrested. He said this was not a good advertisement in view of the efforts Saint John was making to secure additional foreign tonnage to use this port. He expressed the hope that no further incidents of this kind would occur again.

GIVES ADDRESS ON BOYS' WORK

Lou Buckley, Y. M. C. A. Official, Talks to Y's Men

Points Out Dangers—Has Busy Time Here For His Work

Lou Buckley, national boys' work secretary for the Canadian Y. M. C. A., was the special speaker at the weekly luncheon of the Y's Men's Club yesterday afternoon in the hall of the Y. M. C. A. There was a large attendance of members and special guests. The meeting decided to get behind a campaign for funds for boys' work.

In a practical and forceful address, Mr. Buckley pointed out that three of the dangers in boys' work nowadays were doing too much for the boys, exciting them and developing egotism in them. He spoke of the excellent results attained in the "Find Yourself" campaign conducted in other Canadian centres. Boys were given charts to fill and with this as guide many boys had more interest in their life work. Respecting summer camps, Mr. Buckley said they were becoming popular. Good leadership, however, he added, in many cases was lacking at these camps. Mr. Buckley's address was followed with close interest by members present.

This evening Mr. Buckley will assist at the launching of the Y. M. C. A. "Find Yourself" campaign, which is an effort along the lines of vocational guidance for a group of older boys. The boys will fill in self-analysis blanks which will be given over by the Y. M. C. A. leaders headed by C. M. McCulloch, local boys' work secretary. On Feb. 23 the boys will meet again and each will have an interview with an adult. If the boy has shown some special bent his interview will be with an adult who is familiar with the requirements of that calling.

BUSY DAYS On Saturday, Mr. Buckley will be busy with detail work of the "Find Yourself" campaign. On Sunday he will be the speaker at the boys' service at the Y. M. C. A. at 9:45 a.m. and the evening sing song in the building after the church services. On Sunday afternoon he will be at the meeting of the Y. M. C. A. at 8 o'clock. Next week Mr. Buckley will attend the annual father and son banquet at the Y. M. C. A. on Tuesday. He will assist with the wind-up of the "Find Yourself" campaign. On Wednesday, Feb. 24, he will leave for Halifax.

REPORT OF SUMMER HOTEL HEARD AGAIN

Project For Boundary Near Vancorbo or McAdam Said to Be Decided on

The activity of some parties in real estate matters near the boundary waters of the Croix between Vancorbo and McAdam Junction is being brought to the attention of the public. It is stated that a summer hotel is being projected for the location. It is being brought to the attention of the public that the city today was to the effect that at a meeting in Montreal held last week the hotel proposition was practically decided upon, but there is no way of confirming this statement at present. It is said to be behind the boundary line and is in the hands of friends particularly of the New York, New Haven & Hartford Railway Corporation, who are interested in a scheme through representations of some railway officials who attended Guide Harry Allen's picnic convention of transportation men on the Spindle lakes last June.

CHIEF JUSTICE TO SWEAR IN MEMBERS

Premier, Home Today, From Fredericton, Speaks of Government Business

Preparations for the legislature opening on Thursday, March 11, were practically completed at the meetings of the provincial executive, which concluded last evening at Fredericton, Premier J. B. M. Baxter said this afternoon on his return from the capital.

Chief Justice Sir Douglas Hazen, the Premier said, would preside at the opening of the legislature on the morning of the opening day. The Premier announced that the appointment of J. A. Murray as special industrial and immigration agent for the province was formally approved by the Government.

PERSONALS

An improvement in the condition of Hon. J. G. Forbes was reported from his home this afternoon. G. Earle Logan left yesterday for New York. He expects to be away about a week. Friends will be sorry to learn that Rev. J. B. Ward, of Sussex, is ill. He is a patient in the Saint John Infirmary.

SCHOONER SHELLED BY REVENUE CUTTER

Captain Reports Seventy Rounds Fired at Vessel; No Casualties

LUNenburg, N. S., Feb. 18.—With her decks, spars and sides baring evidence of shell fire, the schooner Eastwood, Captain John Spindler, arrived here this morning reporting having undergone a bombardment off the Jersey coast a few days ago. According to the captain, a United States revenue cutter fired 70 rounds at the schooner, many of the shells taking effect. One shell passed through the after-cabin, where members of the crew were sitting, but there were no casualties. It was understood the attack occurred during thick weather. The schooner flew a British flag.

No Damage Is Done In California 'Quake' LOS ANGELES, Feb. 19.—The coast area of Southern California from Santa Barbara south to Los Angeles, was gently swayed at 10:18 a.m. yesterday by an earthquake of the rolling variety which apparently centred in the semi-circular valley, 12 miles inland from Ventura. The quake varied in intensity from a sharp tremble at Santa Barbara to a light roll at Los Angeles. No damage could be confirmed on re-checking last night.

WOULD LIKE CANADA. D. W. Ledingham, local Italian consul has received word from P. Margotti, Royal Italian Consul General at Montreal, announcing the annual trade fair to be held this year at Milan in Italy during April and suggesting that such an exhibition should appeal to Canadian manufacturers and merchants to increase trade between the two countries by exhibiting there. He said that there was already a large list of applications as the fair had the support of the Italian Government. He urged that any who wished to exhibit there should send their applications in at once.

AT COURTENAY BAY The dredge Leconfield is undergoing general overhauling at the drydock preparatory to resuming her dredging operations on March 1 after a lay off of several months. The dredge Toronto, now in operation day and night, will also continue the work. The hopper barge Piper will be placed on the marine railway tomorrow for repairs.

Children Must Be Given Italian Names

TRISTE, Feb. 19.—Children born in the territories ceded by Austria to Italy after the great war must be given Italian names, the court of appeals here has ruled. The court maintained that residents of the war-won territories should "at this historical moment, be proud of their Italian nationality" and declared that refusal to give an Italian name to a child an Italian name was an anti-national act.

Funerals

Mrs. G. M. Robinson. The funeral of Mrs. Gilbert M. Robinson took place this afternoon from her late residence at 85 Union street to the vault at Cedar Hill. The remains will later be taken to Joggins Mines, N. S., for interment.

Mrs. H. E. White. The funeral of Mrs. Harvey E. White took place this afternoon from her late residence at 124 Main street. Rev. H. A. Goodwin, assisted by Rev. R. Taylor McKim, conducted the service. There were very many beautiful floral tributes from friends and relatives. Interment was in Cedar Hill.

William H. Coates. The funeral of William H. Coates took place this morning to St. John Baptist church, where requiem high mass was celebrated by Rev. Arthur Kinella. The funeral was largely attended and there were numerous spiritual and floral offerings. Six members of the Typographical Union, who were acting as bearers, were acted as new Catholic cemetery.

**LEGISLATORS TALK OF CRISIS IN PARLEY**

Protest from U. M. W. on Besco's Move to End Check-off Received

HALIFAX, N. S., Feb. 18.—The wage negotiations between the British Empire Steel Corporation and the United Mine Workers of America, District 26, became a subject for debate in the Legislative Assembly this afternoon when Archibald Terris, Conservative, Cumberland, moved an adjournment of the house to discuss "a subject of the utmost public importance."

He had received a telegram, he said, from the miners of Springhill, protesting against the action of the corporation in holding out for abolition of the check-off system in the contract negotiated with the district executive last week and now being voted upon by the various locals. Mr. Terris said the situation was that the corporation had insisted on strict adherence previous to the report of the

recent royal commission which investigated the coal mining industry in Nova Scotia, in which it was recommended that the check-off of union dues be abolished. He understood that a copy of the telegram had been sent to members of the government and wished to know what was being done. He did not read the telegram.

**WHOLE SCHOOL ILL; ATE CASTOR BEANS**

Fort Fairfield Pupils Show Poisoning Symptoms

FORT FAIRFIELD, Me., Feb. 18.—Some castor beans, left in a car sent here empty to load potatoes, were picked up and taken home by a laborer. His children found them and took them to school and nearly every child in school ate them and was ill. Seven of them were sent to the hospital late this afternoon much nauseated with symptoms of poisoning. Last night the hospital physicians believe that none of the cases will result seriously.

not in possession of official information, but would send a competent representative to Springhill at once to make a report.

Hon. William Chisholm, leader of the Opposition, declared his unwillingness to irritate the situation by criticism, but thought the House should know the contents of the agreement and source of information that had precipitated the discussion.

Hon. Mr. Black, who represents Cumberland county, and John Doull, Pictou, expressed their sympathy with the miners. Mr. Black declared that no workers were more worthy of consideration than those of Springhill.

The Minister of Works and Mines said that T. J. Brown, Deputy Minister of Mines, was being sent to investigate, but added that Mr. Brown was not being sent to "smooth out the difficulties." The parties concerned will have to do that themselves, said Mr. Harrington.

Alex. O'Hanley, Conservative, Cape Breton East, called the action of the corporation in insisting that the abolition of the check-off be voted upon in conjunction with a wage and working contract, a "trick" upon the part of the corporation. He had understood that the miners were to be given a chance to vote on the continuance of the check-off apart from any other issue. He believed the miners should be protected in this respect. Mr. Terris withdrew his motion and the House adjourned.

SAINT JOHN, N. B., FEBRUARY 19, 1926.

GOING AFTER BUSINESS.

Vancouver is taking a leaf out of Montreal's book. The Montreal Board of Harbor Commissioners some time ago sent Mr. Michael Fennell, port manager, to Europe to explain the advantages of Montreal's port facilities in shipping and commercial circles in Britain and on the Continent.

The growth of Vancouver as a grain port is shown by the following statement by E. A. Ursell, statistician to the Board of Grain Commissioners, Fort William:

"Vancouver, with ample ocean tonnage available, is handling almost 40 per cent. of the total North American wheat exported at present, and is only second to the West Coast ports in shipping far more. Oriental purchases accounted for a large proportion of the Vancouver shipments until the last few weeks when shipments to Europe increased substantially. From present indications, the volume handled through Vancouver this season will exceed all previous records."

Mr. Ursell takes note of the fact that European countries are using up their own wheat surplus and also making larger use of rice, and therefore the demand for Canadian grain is dull. He says:

"Until conditions change, it is hardly to be expected that Canada's surplus can be disposed of very rapidly. In the meantime, by the end of January, upward of 36,000,000 bushels of wheat still remained in storage in Canada, and at Atlantic seaboard ports. Port William and Port Arthur elevators were full and superior port elevators rapidly filling."

How much of the balance of the Canadian crop moving eastward will be shipped through United States ports? Saint John and Halifax are especially interested in the answer to this question.

CIVIC TAXATION.

The Board of Trade, which is steadily expanding its activities and broadening the scope of its work in the public interest, has appointed a committee to study civic taxation, a difficult and complicated line of endeavor, but a highly necessary one.

Ever since the days of the famous Tax Reduction Association movement, which resulted in a small civic revolution, efforts have been made at intervals to keep down the rate, but without conspicuous success. At times the rate itself has remained practically the same for two or three years, but the assessment values have been steadily increased. The net result has been that real taxation has considerably more than doubled in twenty-five years. This has been the experience in most other Canadian cities, and we have to remember also that the scale of living has advanced very materially within that period, so that nearly all prices have increased heavily, and that the purchasing power of the dollar is now much less than it was in 1914.

The last changes in our taxation system, made as a result of a report by an investigating commission ten or twelve years ago, were in the main, but experience since then has brought to light some weaknesses which require amendment. The salaried classes—particularly in cases where their incomes are known—undoubtedly suffer in comparison with other taxpayers. It is maintained in some quarters that the taxes on real estate are too high, but, as for that, the same complaint is made regarding all taxation. Mere comparisons of the rates existing in different cities is useless because the systems differ both as to rate and assessment, yet, thanks to the Citizens' Research Institute and other investigating authorities, real comparisons are increasingly possible in these days.

The difficulties at City Hall are all the greater because the percentage of expenditure that is controllable is very small in proportion to the total levy. The public has demanded large outlays, notably in connection with education, and over this expenditure the Common Council has no control. Interest charges eat up another large slice of the city's income, and the amount remaining for the upkeep of the department services and for public improvements is by no means great. In fact, it is too small.

Undoubtedly favorable taxation conditions contribute in no small measure to civic growth and progress. It may well be that the time has come when our civic taxation plan requires considerable overhauling. The first essential is to discover sound lines of advance, and to that end a careful and penetrating exploration of the whole problem is clearly necessary. It is interesting to note that Mayor Mitchell, of Windsor, Ont., has announced that he may recommend to the Council the abolition of the municipal income tax. Windsor faces Detroit, and the Mayor has been receiving protests from many citizens who are threatening to move across the river, because over there there is only one income tax, the federal one, which has been greatly reduced, and which is very small in comparison with the Dominion income levy. Windsor is naturally anxious to keep its population, and the Mayor does not believe it can do so if it piles a municipal income tax on top of the federal one—as we do.

But Windsor, even if it abolishes the civic tax on income, cannot prevent the citizens, who are given such apparent relief, from paying indirectly, through their rents or otherwise, some share of the civic levy. The city has to get the money.

It may be said of Windsor that it is constantly and rapidly acquiring additions to its taxable property and to its population. That, unhappily, is not the case with Saint John at present, and that the fact that it is not the case necessarily reminds us that at the bottom of our taxation problem lies the need for business growth, for new enterprises and added population contributing to the civic treasury. In other words, while we need taxation revision, we greatly need more paying passengers. If we can lower taxation it will be easier to get them. If we get them, the solution of our taxation problem will be greatly simplified.

The Halifax Board of Works has decided to set the jail prisoners to work to clear away the snow which is blocking many of the streets. Years ago in Halifax, as in Saint John, it was the custom to employ jail labor, but the practice was abandoned in both cities owing to the pressure of public opinion. Apparently it is to be revived in Halifax as an emergency measure only. In Saint John the prisoners were engaged in breaking stone and in doing other work in connection with the public parks. While there was some objection to the proposal to have the prisoners tackle the snow blockade, the Halifax Board of Works decided in favor of the plan upon representations being made that conditions were dangerous and that if a serious fire occurred it would be so difficult to move apparatus that the consequences might be most disastrous.

Odds and Ends

Julian Grenfell (Maurice Baring) Because of you we will be glad and gay, Remembering you, we will be brave and strong; And hail the advent of each dangerous day; And meet the last adventure with a song. And, as you proudly gave your jewelled gift, We'll give our lesser offering with a smile; Nor falter in that path where, all too early, you led the way and leapt the golden stile. Whether new paths, new heights to climb you find, Or gallop through the unfooted snow, We know you know we shall not lag behind; Nor halt to waste a moment on a fear; And you will speed us onward with a cheer, And wave beyond the stars that all is well.

Another Wolf Story Exploded (Bystander in Toronto Globe). Another "e-e-r-r-b-b-e" wolf story of a fight between men and wild beasts in the North, goes by the board, and fades from the records as fiction that developed from the telling and retelling of certain commonplace incidents in connection with life in the mining country. A correspondent at Elk Lake writes The Bystander as follows: The sensational wolf story which is going around to the newspapers, dated from Elk Lake, concerning a terrible fight with wolves, in which dogs were eaten up, and all the other follies were attached to the yarn, started in a joke. The truth of the matter is that a prospector in Elk Lake did shoot a wolf, having happened to run across it when the wolf came close to him without seeing him, and with the wind in the right direction so that the wolf did not get scent of the man, so that the prospector was able to shoot it. There have never been many wolves in this section, and in fact the Indians say that for a great many years they have never seen any along the Montreal River in this neighborhood; but within the last few months there has been a small pack of perhaps four or five which has followed deer into this section, and probably found it a very easy place for wolves on account of the great number of rabbits which were to be seen during the last two or three years. The men at the construction camp on the new power line from Elk Lake to Gowganda say they heard two or three wolves running at night a few miles out on the Gowganda Road, and it was one of those that was shot by the prospector. Another one was followed by another prospector a few miles out from Elk Lake. This is the real story so far as this part of the district is concerned.

Timely Views On World Topics

By MARTIN L. DAVEY.

OUTSIDE of letter carriers and clerks at those directly concerned with the handling of the mails, the civilian employees of the government include the largest number of loafers, time killers and buckpassers I have ever seen brought together under one banner. I do not know how much each person's knowledge you may have concerning the work, or all the work, or working conditions of civilian employees of the federal government, but here are some facts: They report for duty at 9 in the morning and leave at 5 in the afternoon for lunch, although most of them take considerably more. This represents a maximum of seven hours per day. In addition to these short working hours, they have Saturday afternoons off during the summer, and all other times when there is an excuse to close the departments. They also have thirty days' vacation, thirty days' sick leave, not counting Sundays or holidays. So the average civilian employe puts in less than ten months per year. But this is not the worst. I will venture the assertion that more than half the civilian employes of the government, not counting letter carriers and clerks, are the most expert loafers and time-killers in America. Service—what irony there is in that word, applied to the business end of the United States government. Existing conditions are a tragic perversion of the spirit and purpose of government. We should get rid of 100,000 or more of the tax-eating drones, co-ordinate the various activities of the government, eliminate senseless publication of effort or alleged effort, and establish a reasonable basis of work and service. There are many who are efficient and meritorious and a great many who are really underpaid, but they are decidedly in the minority. This deserving minority is held down and injured by the vast army of useless and inefficient ones. Moreover, many who would otherwise be good and valuable government employes have become victims of a vicious system, the philosophy of which is to do as little as can be done and keep the job alive. The majority of good, competent workers who enter the employ of the government either get out of the service through disgust or else become discouraged and drift into this vicious system and are swallowed up by it. I know of nothing more hopeless than the situation of a willing worker in the employ of the United States government. He is held down by a horde of useless and inefficient employes, discouraged by the destructive philosophy of the government service, and is without hope of reward for meritorious work.

BEAUTY, BARBERING AND BY-LAWS. (Ottawa Citizen). A barber, according to a dictionary definition, is "one who shaves beards and dresses hair." City Solicitor Proctor has offered the learned opinion that one who does not shave beards but does dress hair is a barber "within the meaning of the act." Mr. Proctor's legal opinion is probably sound, but it is arrived at by a circuitous route which offers stumbling blocks to the layman. By no stretch of the imagination can a modern "beauty parlor" be called a barber shop. A barber shop

The Best of Advice

CURING THE SICK WITH A WHIP.

MAN in all his infinite wisdom improves slowly. Once he punished those he calls criminals by drawing and quartering them, or by merely tearing out their eyes. Now he burns them to death with electricity, or locks them up to contemplate their sins and devise more intricate ways of fooling the police when they get out. Some day he will realize that criminals are only sick men, needing to be treated as such; that caging them like wild animals can never cure their distorted and diseased minds. "The proper thing to do is to find out how much intelligence he has and give him the education he needs. You must remember that intelligence is not acquired—but inherited, whereas education is a polish. If a man has the fundamental base for this polish, it is the duty of society to see that he gets it. 'A prison should be a college where the misdirected material of a glorious manhood is salvaged, not a pesthouse swarming with other blind, groping humans.' 'The motive and incentive of humans, singly, nationally and universally, is selfishness, merging undeniably into pride, for no one does anything for which he expects to get nothing. 'The criminal does wrong for gain, and will do right if a true sense of values is substituted for his false ones, provided he may be taught that his gain (however measured) will be greater.' This does not put the case perfectly by any means, but who can say that this doomed man (now dead) did not put his finger upon the cause of the failure of our system of what we call justice, to end the deluge of crime?"

is an ancient institution. It has undergone transformations, but remains a place of historic interest. In the old days it was the meeting place of the town worthies, where political gossip and social intelligence were as important commodities as shaves and haircuts. As stated, it has been subject to changes, but still endures as a centre of community life, the domain of the male, and a repository of copies of Life for 1908. Beauty and barbering never went hand in hand before. But the new ruling links them in a legal bond by ordaining that beauty parlors come within the by-law governing barber shops. Up to now, beauty parlors have been to men realms of secret rites and exotic mysticism. They have been the haunts of modern ladies in search of the elusive grace and charm of the eternal Eve. But because that search has led to shingled hair, and hence hair dressing, the trained legal mind has succeeded in stripping it of its romance and its mystic air and pronouncing it a barber shop within the meaning of the law.

BENITO MUSSOLINI. HAS Benito Mussolini, former vagabond, dreams of becoming another Caesar, another Napoleon? Europe is afraid he has, and is watching with bated breath the situation he created when he issued an ultimatum to Germany regarding German activities in the South Tyrol.

BENITO MUSSOLINI

Yet Mussolini has been playing with matches around the European powder-house ever since he marched to Rome at the head of a Fascist army and took possession of the government. He was once forcibly ejected out of Italy as a vagabond. This was when he was 20 years of age. He went to Switzerland and entered the Lausanne university. His activities as a revolutionary socialist caused his banishment from Switzerland.

From Austria, too, where he went from Switzerland, his political beliefs called him. He finally returned to Italy and settling in Milan became the editor of a socialist paper. When the world war broke out he joined the army and fought at Monte Nero and Carso, being severely wounded. Later, with the swift action, terrific speed and irresistible force which mark all his undertakings, he crushed the Communists in Turin, the great manufacturing centre of Italy. They were planning to seize the industrial machinery and run it on Bolshevik lines. Mussolini swooped down on the town in an airplane, rallied the war veterans and other conservative elements, and ended the Bolshevik menace. It is said that there are 1,000,000 men ready to respond to Mussolini's call at any moment. Not only the army but the entire intellectual community of Italy looks to him for orders.

Versions of his early life are conflicting in many particulars, but it appears he comes from a middle class family. In school he was not a brilliant scholar. He is married and has several daughters actively interested in the Fascist movement. Originally a rebel against the Catholic church, he has lately receded in his opinions in this respect. Only last December he had a priest put the church's approval on his marriage, performed years before by a civil official.

Study the Girl's Taste; Don't Show Jealousy; Talk to Her About Herself; Don't See Her Too Often, and Above All, Choose a Romantic Setting in Which to Pop the Fatal Question.

A LOVELORN youth asks me to give him a few tips about how to win a maiden's heart. Of course, there are no hard and fast do-this-and-you-cannot-fail rules for capturing a young girl's fickle fancy, but here are a few suggestions that, faithfully followed, can be guaranteed to turn the trick nine times out of ten.

DOROTHY DIX.

First. Put pep into your wooing. Make it snappy. Go after a girl as if you meant to get her or die in the attempt.

THERE is something primitive in every woman that responds to the Cave-Man stuff, and there isn't a woman living who secretly doesn't yearn to be abducted and married against her protests.

Second. Be persistent. Don't get discouraged too easily. Never take "No" for a final answer until the girl is married to some other man.

As a general thing, the girl just wants to be persuaded and have somebody make up her mind for her. Success goes to the patient suitor, and the man who sits down on a maiden's doorstep and camps there almost invariably ends by getting her.

Third. Never let a woman make a convenience out of you.

DON'T be a substitute bean who will fetch and carry for her and take her to parties and fill in the dates that nobody else asks for. Humility in man is a virtue that cuts no ice with the feminine sex.

Fourth. If you are jealous, hide it in your own heart.

JEALOUSY is the hallmark of the inferiority complex. It shows that you are afraid of your rivals and that you do not consider yourself as attractive as they are, and girls are pretty sure to take a man at his own valuation.

Fifth. Never let a girl find out that you are afraid of her.

IF YOU do she will play with you as a cat does with a mouse. Besides, no woman wants a coward for a husband. She desires a husband of whom she stands in awe and of whom she is a little afraid herself.

Sixth. Dress as well as your means will permit and, above all, be immaculately clean and shaven and well pressed.

WOMEN are very sensitive to appearances, and not all of the virtues of the genius in the world will keep you from looking ridiculous to a girl if your trouser legs are too short and your coat sleeves too long and your hair hangs over the back of your collar.

Seventh. Show a girl that you know how to take care of yourself and of her.

DON'T force her to be the pacemaker when you go out together.

Eighth. Learn how to do things.

LEARN how to dance so that you won't walk all over her feet and bump into every other couple on a dancing floor. Learn how to play a decent game of cards, so that you won't trump your partner's ace or make leads that rouse murderous passions in the breasts of those who are playing with you. Learn how to order a little dinner, even if you have to substitute some headwaiter into showing you how to do it. Practice on your mother and your sister until you can help a woman put on her wrap without tearing it to pieces or musing her permanent wave.

Ninth. Study a girl's taste.

IT FLATTERS her to death to find out that you care enough for her to remember that she likes marshmallows instead of chocolates and prefers violets to roses.

Tenth. Be discreet in your gifts.

BLOW in your money on many little tokens of affection that will be like constant reminders of you rather than on one expensive article that will be put aside and forgotten. It is better to send one rose every morning for twelve days in succession than a dozen roses in a bunch.

Eleventh. Talk to a girl as if she were a creature of almost human intelligence.

THIS is the subtlest brand of flattery and goes to a woman's head like vintage champagne, because she is so unused to it and gets it so seldom.

Twelfth. Talk to a girl about herself. That is the subject in which she is most interested and of which she never tires.

IF SHE is a beauty, tell her what a wonderful mind she has. If she is homely, compliment her complexion. Develop a deep interest in her opinions. Ask her advice about your own affairs. This will make her concern herself about you and feel herself responsible for you, and before she knows it she will consider herself your side partner. Play this line up strong.

Thirteenth. Don't monologue about yourself too much.

AFTER a girl is engaged to you, or married to you, she may want to hear all about your childhood and youth and the state of the grocery trade and how many miles you made in your automobile, but she isn't craving to hear the story of your life at the beginning of your courtship. It takes love to sugarcoat the pill of egotism.

Fourteenth. Don't go too often to see a girl or stay too late when you do go.

MANY a man has killed a promising love affair by giving the girl an overdose of his society.

Fifteenth. Never argue with a girl before marriage. There is plenty of time for that afterward.

NEVER criticize a girl's faults. Let her cherish the illusion, for a short time, anyway, that you think her an angel. Never try to boss a girl, because the modern woman isn't looking for a master.

Sixteenth. Be bold, be bold, be not too bold in your wooing.

LET the girl see that you are not afraid to ask for what you want and that you realize that she will be doing a pretty good day's work when she gets you. But, on the other hand, don't act as if you were conferring a favor upon her by offering her a life job, without wages, as your wife.

Seventeenth. And lastly, use some discretion when you come to popping the question. Don't ask a girl for her heart and hand as if you were asking for a thirty days' option on a ton of pig iron. Don't propose across a restaurant table, with your mouth full of roast beef and potatoes. Don't propose when you are dodging automobiles on a crowded street. Don't propose to a woman when she has on a new hat and is feeling fit and fine, and as if she could buck the world on her own account.

MANY a woman says "No" when she would like to say "Yes" just because she is so exasperated with the man for not having the sense to wait for the time and the place, when the thing could be beautifully and romantically done in a way that it would be a comfort for her to remember the remainder of her life.

So bide your time and seize the psychological moment when nature has set the stage with a lover's moon or when you are safe away from the maddening crowd or when the girl is tired and feeling fatigued and bedraggled and that all she wants in the world is a nice masculine shoulder to cry on.

TRY it then, and it is a safe bet that the next day you will be pricing engagement rings. DOROTHY DIX.

Every time I open my mouth, queer words come rushing out that I don't want to say at all." And Nick was thinking the same thing to himself that Nancy was thinking to herself. A Thought

Pleasant words are as a honeycomb, sweet to the soul, and health to the bones.—Prov. 16:24. PRAISE begets emulation—a goodly seed to sow among youthful students.—Horace Mann. A barber in Wichita, Kas., has his shop in an auto and calls on his trade when needed. We'll never get the blue cherry and we'll never get anything else, if this keeps on. But Jule remarked, "Don't worry, my friends. I know what you are trying to say. You are surprised that we should find alligators when we are looking for cherries. But do not be surprised or alarmed at anything you see in this land. It is the queerest land in the world."

SEE-SAWING UP AND DOWN BROADWAY

SEE-SAWING up and down Manhattan Hill, I happened into Harlem and there saw Langdon Hughes, the young negro poet whose book, "The Weary Blues," has attracted much attention. And it set me to pondering on the democracy of romance, if of no thing else; and to thinking how in the great city all races, colors and creeds vanish before romance.

For it was not so long ago that Langdon Hughes was bus boy in a hotel. And to this hotel came Yachet's limousine post, from the Pacific slopes. Young Hughes wanted to talk with Lindsay about writing but dared not because of a house rule forbidding bus boys to talk to guests. But, while cleaning up the tables, Hughes found means of slipping a few verses at Lindsay's table and thus began the "discovery" of the young negro by the magazine.

Saw Blah Cheney, heir to the Cheney silk fortune, whose hobby it is to run a "jivey theatre." With the coming of summer Cheney and a company of actors set forth in flivvers. One of the cars is so equipped that it unfolds and becomes a stage. Other cars in the flivver caravans turn their lights upon the stage and productions are given wherever and whenever the caravan sees fit to stop after the fashion of the old medicine show and thus far it has proved most profitable.

Leonore Urtic, wearing a bouquet of Scotch heather brought to her from Scotland by Captain Rostron, of the Mauritanian. "For good luck," he said, though Miss Urtic needed no amulets after her first performance of "Lulu Belle." In English royal circles, I am told, the heather spray is used in courtship, the late Edward VII having adopted an old Scotch custom by sending white heather to the Princess Alexandra and when she had accepted it, pressing his suit.

Reports on Work of Children's Aid for Year Submitted

More Cared For Than in Previous Year—A. M. Belding Re-elected President

The annual meeting of the Children's Aid Society for the City and County of Saint John was held in the Children's Aid Home, 83 Garden street, last night. In the absence of the president, A. M. Belding, Sheriff A. A. Wilson occupied the chair.

The treasurer, K. A. Wilson, in presenting his annual report, spoke of the financial standing of the society as being the best since he assumed office. He also spoke appreciatively of the action of the Municipal Council with reference to the annual grant and the matter of the overdraft in the bank.

The report of the agent, Rev. George Scott, also showed that more children had been admitted during the year than in 1924.

A larger number of children had also been placed in foster homes.

OFFICERS ELECTED. The election of officers resulted as follows: President, A. M. Belding; Vice-presidents, Mrs. W. B. Tennant and Mrs. J. H. Duddy.

The report of Mr. Wilson, treasurer, showed total receipts of \$10,314.07. The overdraft for 1924, \$2,574.98, was taken care of. Total expenditures during 1925 were \$8,252.39, leaving an overdraft at the close of the year of \$573.30.

AGENT'S REPORT. In his annual report the agent said 41 children had been admitted to the home in 1925 as against 35 in 1924. The monthly average in 1925 was also higher than in the previous year.

The 41 children admitted last year were disposed of as follows: 23 taken out by relatives or friends, two were committed to the society, two were sent to reformatory institutions, eight were placed in other institutions and six were still in the home on Dec. 31, 1925.

Besides the two children noted above, as being committed to the society, three infants were surrendered by the parents signing surrender papers and two of them were immediately placed in good foster homes. Only one of these was in the home at the time of the surrender.

Magistrate Allingham committed one to a reformatory. Rev. W. M. Duke and J. LeFortis Thorne, justices of the peace, held two hearings when two children were committed, one to the society and the other to Silver Falls. Four children were placed in excellent foster homes during the year, just twice the number placed in 1924.

KEPT BUSY. During the 12 months the agent was brought into contact in his official capacity with 124 children belonging to 42 separate families. Most of the cases dealt with were of alleged cruelty but in the majority the evidence was not of a kind to warrant proceedings.

One case, however, reached the police court when K. A. Wilson appeared for the society. In this the father was charged with unlawfully beating his 11-year-old daughter. The neighbors testified they had heard the girl screaming and also the sound of blows. The father was found guilty and a fine was struck but allowed to stand. Evidence had been brought out, however, to the effect that the girl had been stealing money and on this ground she was committed on an indeterminate sentence to Truro.

MUCH ASSISTANCE GIVEN. The agent in concluding his report said the society was under a deep obligation to Dr. Peat, who, since his appointment as medical attendant, had been unremitting in his attentions. The same was true of the surgical staff of the General Public Hospital who had operated in the removal of adenoids and tonsils free of charge. He had also been obliged many times for advice and help to the police department as well as to Judge Henderson.

One death had occurred in the Children's Aid Home during the year from tumor of the brain. Outside of that, however, the health of the children had been excellent. There were three cases of chickenpox and two of whooping cough and five had their adenoids or tonsils removed at the General Public Hospital.

BROKE AN ANKLE. Last night at 11:10 o'clock, while walking on the corner of Sydney street and the South Side of King square, Mrs. Minnie Harding, of 154 DeWitt street, slipped on the ice and fractured an ankle. The ambulance was called and the unfortunate woman was conveyed to the General Public Hospital for treatment.

Social Notes of Interest

Mrs. Simon A. Jones gave a very enjoyable luncheon bridge at her residence on Tuesday afternoon in honor of Mrs. James Boucher, of London, Ontario. Spring flowers made an effective decoration in the drawing room and in the dining room. Luncheon was served at small tables and afterwards bridge was enjoyed.

Mr. and Mrs. Frederick C. Mortimer and Mr. and Mrs. H. W. Frink entertained jointly at dinner at the Admiral Beatty on Tuesday evening in honor of Mrs. James Boucher, who is visiting her sister, Mrs. Leonard Tilley, at Carleton House, who is visiting the society and the other to Silver Falls. Four children were placed in excellent foster homes during the year, just twice the number placed in 1924.

Mrs. Stanley Harrison, 71 Lancaster avenue, West Saint John, was the hostess at a very delightful small bridge party on Monday evening, in honor of her sister, Miss Helen M. Dale. Jonquils and tulips were effectively used in the decoration of the drawing room and dining room. The lucky prize was won by Mrs. C. E. Stackhouse. Those present were Mrs. Joseph Smith, and Miss Elizabeth Dodge. Those present were Mrs. J. B. Baxter, Mrs. H. Seely, Mrs. Bevic, Mrs. J. Smith, Mrs. J. G. Greer, Mrs. E. F. Trueman, Mrs. Belyea, Miss Elizabeth Dodge, Miss Florence Coster, Miss Ruth Coster, Miss Edith Trueman and Miss L. Beattie.

MRS. STOUGHT NEW PRESIDENT

Women's Hospital Aid Want Maternity Wing at G. P. H.

Mrs. Travers Made Honorary Life Member of Executive-Work Committee Reports

Mrs. J. J. Stought, who has been the efficient secretary of the Women's Hospital Aid for several years, was elected president at the annual meeting held yesterday afternoon in the Church of England Institute. She succeeds Mrs. J. Boyle Travers, who was appointed an honorary life member of the executive, in appreciation of her able leadership. Excellent reports of the year's work were received but it was pointed out that in the earlier years of its existence the aid was a more vigorous organization.

It was stated that the nurses' home of the General Public Hospital, which had been the first objective of the aid, was now fully occupied and as its future objective, the aid was urged to work for a maternity wing of the hospital.

Miss Belle Howe, who has been a splendid assistance in her three years at social service work, has tendered her resignation, which the incoming executive is to deal with. It was suggested that if the members were once called upon to attend to follow-up cases it might mean a greater stimulus to the work.

Scrutineers appointed were Mrs. J. Goldman, Mrs. G. McCluskey and Mrs. Hall. By acclamation, Mrs. E. Atherton Smith was re-elected honorary president.

OFFICERS CHOSEN. Officers elected, besides Mrs. Stought, were as follows: Vice-president at large, Mrs. T. H. Carter; denominational vice-presidents, Anglican, Mrs. Walter Watters, Mr. Gordon Watters and Mr. Ralph Watters.

Mrs. W. C. Crockett, Fredericton, was hostess at a most enjoyable bridge party on Tuesday evening when cards were played at three tables. Miss Helen Sterling won first prize and Mrs. W. W. Hubbard, the consolation prize.

At the New England Student Conference on "The Christian Way of Life," held last week at the Northfield Hotel, on the New Hampshire and Vermont border, one of the delegates was Miss Muriel Seely, of Saint John, New Brunswick. Miss Seely was one of the two representatives from the Newton Hospital Training School, the only hospital represented at the conference.

The Rev. Mr. Beckett, in company with Mr. and Mrs. Wesley McKay, of Beaver Harbor, spent a very enjoyable evening in the home of Mr. and Mrs. W. C. Schofield, Mr. and Mrs. H. P. Connors, of Black's Harbor, on Monday evening, Feb. 15. Mrs. Charles Woodland, Mrs. Henry W. Best and Mr. John McDowell, of Black's Harbor, were also present. Each went with the expectation of making the evening enjoyable as possible as it was Mrs. Connors' birthday. Mr. Beckett played a number of violin selections accompanied by Mrs. Best. He also sang a number of comical songs accompanied by Miss Annie Connors and Mrs. Wesley McKay. He also gave a reading. Dainty refreshments were served by Miss Annie and Miss Alma Connors, assisted by Miss Margaret Connors.

A large number of the people of Black's Harbor gathered in the new home of Mr. and Mrs. John McDowell on Saturday evening, Feb. 13, and spent a very enjoyable evening. Mr. and Mrs. McDowell were burned out on Jan. 31, while away to church, the fire being discovered immediately after midnight but too late to save the house or anything in it. On Saturday evening, their thirty-second anniversary, their many kind friends gathered in their home, presenting many beautiful gifts. The Rev. Mr. Beckett presented the gifts. He also had charge of the evening's program.

PATIENTS ENJOY GOOD PROGRAM

Those in County Hospital Entertained by Y's Men's Club

Junior Organization Hears National Boys' Work Secretary and Dr. Kirkland

The Y's Men's Club arranged an excellent concert for the pleasure of the patients of the Saint John County Hospital last evening. The program was varied and admirably rendered and thoroughly delighted the audience. Russell Holt, president of the club, made a brief introductory speech and the program was as follows: March, "Our Boys," the Y. M. C. A. orchestra; songs, "Hall Hall" and "Auld Lang Syne," by the Y's Songbirds; piano solo, "Wedding Day at Troldhaugen" (Grieg), by Y's Harry Dunlop; vocal solo, "Up From Somerset" (Saunders), Y's Leslie Bewick; orchestra selection, "Sunbams and Shadows"; songs, "Dear Old Daddy" and "There Are Smiles," by Y's Songbirds; vocal

and 22 follow-up cases cared for, \$59.56 being paid from the denominational fund. Methodist, Mrs. J. D. Williams, 211 members and three follow-up cases. Baptist, Mrs. N. C. Scott, about 210 members, \$94.50 paid in fees and nine follow-up cases cared for.

Miss Ella McGaffigan reported on the weekly visiting. She stated every bed in the nurses' home was occupied at the present time and pointed out that a maternity ward was much needed for the General Public Hospital.

Mrs. George Ewing reported on the visiting and gifts to the County Hospital. When monthly business was taken up, letters read included the thanks for the Aid's many kindnesses to the hospital and congratulations on its good work from Dr. H. A. Farris, superintendent of the County Hospital.

Mrs. T. Carleton Lee reported as convener for visiting the General Hospital and Mrs. Aitken was appointed convener for the ensuing month. Mrs. Margaret Corker reported on the visiting the County Hospital and Mrs. C. S. Christie was appointed for the ensuing month.

VOICES OF THANKS. A hearty vote of thanks was extended to Ven. Archdeacon A. H. Croft, president of the Church of England Institute, for the free use of the hospital and thanks were also extended to the Rev. Mr. Beckett for auditing the books. Other votes of thanks were passed also.

Sympathy in her recent bereavement was extended to Mrs. C. H. Belyea. There was some discussion with reference to a place of regular meetings since the Board of Trade is not available. This matter was referred to the incoming executive.

**Tableland Believed to Lie  
Above Alaska, Says  
Lieut. Wade**

NEW YORK, Feb. 18.—Belief in a Bolshevik menace looms as a reason for the North Polar flight to be headed this summer by Lieut. Leigh Wade, accompanied by Lieut. H. H. Ogden. He states that every member of the American Universities' expedition believes "the Bolsheviks plan to beat us in finding the continent we feel assured lies in the uncharted seas above Alaska."

The reason is clear enough, he declares, because "a military base could be established within a day's flying distance of the most important cities of the northern hemisphere."

He cited the closing of Wrangel Island, the Kamchatka Peninsula and Northeastern Siberia to foreigners as evidence that Soviet Russia was planning an expedition to head off discoveries and claims by other nations.

United States airmen know that Russia has as large an air force as the United States, and as much equipment, according to Lieut. Wade, and is now manufacturing its own planes.

**LOOKS FOR CONTINENT.**  
He expects that if an Arctic continent is found, it will prove to be a high, flat tableland, not unlike Greenland, offering excellent landing places. He expressed the belief that Russians fear the United States will claim Wrangel Island, off Point Barrow, Alaska, which would provide an intermediate flying base on a route to one further north.

Lieut. Wade expects to reconnoiter at Point Barrow next month and the expedition expects to sail from Seattle early in June.

**CONFERENCE HELD.**  
A pleasant round table talk of the managing committee and staff of the Seaman's Institute was held yesterday afternoon, at which several matters such as a house telephone system, a checking system for seamen's baggage and entertainments for seamen were taken up. Several new suggestions were made and will be acted upon.

**Tongue Was Coated

One day I saw where your **Milburn's LAXA-LIVER PILLS**

were advertised for just such a condition as mine, so I went at once and bought three vials of them, but after using one-and-a-half, all my troubles disappeared."

For 22 years Laxa-Liver Pills have been put up only by The T. Milburn Co., Limited, Toronto, Ont.

Thousands of people who are suffering from constipation, biliousness, indigestion, and other ailments, can get relief by using Laxa-Liver Pills.

Those bilious headaches can be prevented

"I know how agonizing they are. For years I was a chronic sufferer.

"And the headaches were not the worst part of it. The strong drugs I used to take to relieve the pain upset my stomach and slowly but surely undermined my general health.

"Finally I found out that my headaches were due to constipation. My doctor advised Nujol. After taking it regularly a few weeks the trouble disappeared.

"Since then I have never had another headache. There is no reason why I should, for the cause has been corrected."

**Nujol Corrects Constipation in Nature's Way**

Constipation is dangerous for anybody. Nujol is safe for everybody. Nujol simply softens the waste matter and thus permits regular and thorough elimination without overtaxing the intestinal muscles.

Medical authorities approve Nujol because it is gentle, safe and natural in its action.

You can take Nujol for any length of time without ill effects. To insure internal cleanliness, it should be taken regularly. Unlike laxatives, it does not form a habit and can be discontinued at any time.

Ask your druggist for Nujol today and begin to enjoy the perfect health that is possible only when elimination is normal and regular.

**DOUBLE WEDDING  
AT SALISBURY, N. B.**

**Two Daughters of Mr. and Mrs. Arthur W. Reeder Become Brides**

SALISBURY, Feb. 18.—Wednesday, Feb. 17, was the first fine day here for several weeks, and that Hymen, the god of marriage, laughs at snow drifts was clearly evinced when in the afternoon a pretty double wedding was solemnized at the home of Mr. and Mrs. Arthur W. Reeder, when two of their daughters became brides.

Rev. John B. Young, pastor of the Salisbury United Church of Canada, officiated.

Miss Stella Reeder was united in marriage to Mr. William Bishop, and Miss Marion Reeder became the bride of Mr. Gordon Henry.

Among the guests were relatives from Saint John, Moncton and Pettitodac.

The happy couples will reside at Scott Road where the grooms are engaged in farming, dairying, fox ranching, etc. That the popular young men of Scott Road, Salisbury, have sound judgment is proven by the fact that during the past few months no less than four have secured popular Salisbury Village young ladies as life partners. Rumor says there are other similar partnerships to be formed soon.

**HUNGARIAN COUNT  
BUYS LAND IN WEST**

WINNIPEG, Feb. 18.—Following the example of other titled personages, Count Bela Szapary, of Budapest, Hungary, has purchased a farm near Hazelridge, Man., where he proposes to make his home.

Count Szapary is a nephew of Count Laszlo Szapary, recently retired Hungarian minister at London. The farm adjoins that of Col. Julius de Plosek, late of the Hungarian Hussars, who last July purchased a section of land in the Hazelridge district.

come from an abundance of vital energy that is the rightful heritage of us all. If you are nervous and the least little thing makes you jump, if you have restless nights, if the sight of food sickens you, read the reasons for this and just how you can help restore your health.

Medical research has definitely proved that one of the causes of a run down condition of the body is a shortage of certain mineral elements, including iron, potassium, calcium, sodium and phosphorus, and until a sufficient supply of these minerals is restored to the body, good health is impossible.

Wincarnis contains every one of these elements in addition to other health giving ingredients, and in a form in which they are most rapidly absorbed into the blood and carried to every part of the body to be converted into vital force.

Wincarnis has been recommended by over ten thousand physicians in cases of nervousness, anemia, sleeplessness, and the general debility that accompanies a run down body. For fifty years this strength giving and nerve restorative has brought new life and happiness to weakened men and women.

Buy a bottle of Wincarnis today from your druggist. Try it and see the difference just a few days will bring.

**Delegates From Saint John Took Part in Moncton Meet**

MONCTON, Feb. 18.—The conference of the Presbyteries of the United Church of New Brunswick and Prince Edward Island which met here yesterday was entertained at supper after which there were more addresses and several committees were named.

The conference was entertained to supper in the church by the Ladies' Aid. Those present were Rev. R. G. Fulton and Rev. W. MacN. Matthews, of Saint John; Rev. Theodore Ross, Port Elgin; Rev. Dr. C. Munroe, Albert; Rev. Dr. Watson, Sackville; Rev. MacLean, Newcastle; Rev. A. D. Archibald, Bathurst; Rev. J. L. Lund, Saint Bras; Rev. J. A. Ramsay, Rev. Henry Irvine, Rev. G. W. F. Giendensing, Rev. W. J. Kirby, Moncton; Rev. W. W. MacNairn, Rev. Neil MacLaughlin and Rev. George M. Young, Miramichi; Rev. W. N. Byers and Rev. H. Stanley Young, Woodstock, and the following laymen: R. H. Bannon, James McKee, Dr. George J. Oulton, ex-Mayor J. Fred Edgett, R. N. Wyse and Alex. Donald, Moncton; Captain George H. Irving, Sunny Bras, and others.

**COMMITTEES NAMED.**  
Rev. George M. Young, of Miramichi Presbytery, T. H. Somerville, of Saint John, and W. T. Higgins, of Charlottetown, were appointed on the maintenance and extension fund committee for the coming year to work in

**Broke 2 Legs;  
Tree Lodged**

GRAND FALLS, Feb. 17.—On Monday afternoon Beecher Brown met with a serious accident while at work with his two brothers in the woods on their farm in Gaspere.

Mr. Brown had cut a tree which lodged in the deep snow and swung backward, striking him and breaking both legs; one a compound fracture of the ankle, the other break just below the knee. Drs. Puddington and Guy were summoned and set the broken bones, and he is progressing favorably.

**MAYOR BARS CHARLESTON**  
CONCORD, N. H., Feb. 18.—Mayor Fred N. Madden has issued an official proclamation barring the Charleston Concert band from the city building, which said that halls of the city are not strong enough to resist the strain set up by the Charleston when a large company is dancing.

A process has been developed for rubber-plating metallic articles in much the same way that metals are silver-plated.

A resolution was passed expressing appreciation of the splendid service being rendered to the United Church by Rev. Robert Laird, whose visit, it was believed, would effect a successful culmination of the funds objective.

**2 ANNIVERSARIES  
ARE CELEBRATED**

**St. Martins Couples Were Married 59 Years and 56 Years Ago**

ST. MARTINS, Feb. 18.—Captain Robert and Mrs. Carson recently celebrated the 59th anniversary of their wedding.

Captain W. H. Moran and wife commemorated the 56th anniversary of their marriage on Monday. Their daughters, Mrs. Charles Mett, of Saint

John, and Mrs. Frank Kierstead, of Hampton, were both present. Messages of congratulation were received from their son, Dr. Harry Moran, of California, and other relatives, who because of distance, could not be present. Immediate relatives of the couple were present at the anniversary dinner.

The longest high voltage system in the world, costing \$1,000,000,000 is being planned to carry hydro-electric power from the St. Lawrence river and the Adirondacks to New England, northern New Jersey and New York.

### CAHAN AND CANNON TILT; OBSTRUCTION CHARGED IN HOUSE

Speaker Calls Commons to Order Several Times Over Clashes

### GOVERNMENT CAN'T FUNCTION, IS CHARGE

Appeal to Passion is Term Applied to Speech of Solicitor-General

OTTAWA, Feb. 18—Today's session in the House of Commons was featured by several passages-at-arms in which C. H. Cahan, K. C. (Conservative, St. Lawrence-St. George) and Hon. Lucien Cannon, the solicitor-general, engaged. Mr. Cahan, who resumed the speech which was not concluded at adjournment yesterday, was frequently interrupted and at times there were interchanges revolving around charges by the solicitor-general that Mr. Cahan was "obstructing" the business of the house. On a number of occasions Mr. Speaker Lemieux had to call the house to order. Mr. Cahan declared that there was dissatisfaction all over the country and that the Government had demonstrated itself incapable of dealing with public questions. The Government was not functioning and could not function and the country's prosperity was in the balance while the Government retained power.

### CANNON SPEAKS

Hon. Mr. Cannon followed and remarked that Mr. Cahan, who had objected to being "gagged," had spoken five and a half hours. He wondered how long the member would have spoken had he not been "gagged." The question before the House was whether the majority should be obstructed by a mere minority. He asked if members thought the dignity of the House had been upheld by the previous speaker. He had held up business for nearly two sittings while he read articles that already had been read by readers of the Montreal Star.

### ATHOLSTAN MENTIONED

"If he wants to transfer the House into a clearing house for Lord Atholstan and his electoral debts, he can't do it," said Mr. Cannon. The House of Commons should let Lord Atholstan know that he might rule in the offices of the Montreal Star, but he could not in parliament. He asked Mr. Cahan to reconcile his statements of country-wide depression with the millions that had been spent on the Conservative campaign in Quebec. This money had come from the Atholstans and the McConnells, and "their selfish interests in Montreal."

The will of the people was that the government should go ahead, said the Solicitor-General. Mr. Meighen had got his answer in Bagot where he had made his longest speech. The Liberals had increased their majority by 200 while in Prince Albert, "in the most important leaf of eastern freight, and he might have added, the only leaf it will ever carry under the present government."

### DRAYTON REPLIES

Sir Henry Drayton (Conservative, West York) characterized the Solicitor-General's speech as an appeal to passion in which reason could find no place. With regard to the Prince Albert election Sir Henry said that the Prime Minister should have told the electors that the "Hudson's Bay Railway had delivered its greatest and most important leaf of eastern freight, and he might have added, the only leaf it will ever carry under the present government."

### ROUYN ROAD DENOUNCED

He turned his attention to the Rouyn Railway and denounced the project for having been formed as a "dummy company." The directors mentioned in the charter were employees of the Canadian National Railway—"stenographers in the office." This company had entered into a lease with the Canadian National for thirty years. The government was liable for every cent of the \$5,000,000 bonds. Sir Henry felt that the government's haste in getting the railway built was not unconnected in Quebec with the last election.

### ROBB DEFENDS PROJECT

Hon. J. A. Robb, Minister of Finance, replied to Sir Henry's charges and pointed to the development of the Rouyn district and after proper survey the road was built by capitalists. He gave the names of some of the directors: Robert Adair, Montreal, Chas. H. Hart, Harold Fowler and C. M. Miller. The last two were representatives of a New York bond company.

### BOURASSA OPPOSES GAG

Henri Bourassa (Independent, La-belle) announced that he intended to vote against Mr. Bird's (gag) motion. That motion did not lead anywhere, he said, for the same reason that he had voted against "vote catching motions" of the Opposition and for the same reason that he had voted for the government's motion for an adjournment, he would be ready and willing to vote for closure if the government would move it. A majority of the House had agreed to give the government an adjournment in which to re-arrange the cabinet and prepare a program of legislation. As he had proposed, the prolonged debate which had replaced the expected adjournment had turned the House into an "election committee" and it was useless to stay here. He wanted to see the government given an opportunity to prepare a reasonable program on which it could be fairly judged when the House re-assembled.

### REAL ISSUE AT STAKE

Whatever members on either side of the House might say, Mr. Bourassa believed that in the present debate it

### CANADIAN COMPANY TO END CAR SERVICE

Operating Losses Held as Reason For Suspension in Porto Rica City

SAN JUAN, Porto Rica, Feb. 18.—Carl C. Giles, president of the Porto Rica Railway, Light, Heat and Power Company, which is Canadian-owned, announced today that the trolley service in San Juan will be entirely suspended on Feb. 28, after twenty-seven years of continuous service. He gave operating losses as the reason.

### HINDENBERG BARS ANTI-DUELLING BILL

BERLIN, Feb. 19.—President Von Hindenburg is reported to have refused to sign the new bill which would prohibit duelling among army and navy officers. Hindenburg is said to have objected on the ground that the law was directed against a single class. A new law to prohibit duelling among all state officials will be passed in an effort to overcome the president's opposition.

### ABOUT 3,000 PICKED TO SAIL FOR CANADA

Thousands Preparing to Enter Country, Immigration Office Hears

OTTAWA, Feb. 18—Many Britons are preparing to trek to Canada this year.

Advices received by the Immigration department here indicate that the recent agreement has stimulated tremendously the interest in Canada. If the Dominion were willing to accept all comers, or even all able bodied persons irrespective of their knowledge of agriculture, unquestionably there would be a tremendous increase in immigration this year. As a matter of fact, immigrants if they are male must either be assured employment, or must be willing to go on the farm, in order to get by the government officials. If female, they must either be assured work or must be willing to be a domestic servant.

Up to Jan. 31, 659 families had been chosen to come out this year under the family scheme. This means an immigration movement of about 8,000 persons. Last year 800 families were brought out and all told the agreement provides for the movement of 8,000 families. Probably there will be further families added to the list and it is likely that 1926 will see nearly one half of the 3,000 brought out.

### SACKVILLE SEES AURORA

SACKVILLE, Feb. 18—Many citizens around town last night remarked upon the magnificent display of northern lights. At times the sky was illuminated with a bright red glow, producing a similar effect to the reflection of a big fire.

A machine has been invented in Germany that makes 6,000 copies an hour of typewritten or printed pages, pen and ink drawings or prints from cuts or engravings.

### Mr. Giles said his company wanted to double track its lines in order to give a better service, but the Public Service Commission would permit this only on conditions which would require an expenditure of \$2,000,000 and demanded the delivery of all property to the government at the end of the twenty-five years.

### San Juan will have the distinction of being the only city of its size in the new world without trolley services," Mr. Giles said.

### Guard your children from the dangers of winter weather. Check their first cough with Buckley's "Modified" Mixture. Pleasant to take and brings instant relief.

### Buckley's Mixture "Strong" or "Modified" acts like a flash on Croup and Whooping Cough or any affection of throat, chest and lungs. Keep a bottle handy. Wonderful at night. A dose stops coughing.

## KNOX CHOIR, USHERS ARE ENTERTAINED

Miss Grace Leavitt Tenders Banquet to Members—Presented Bouquet

Miss Grace Leavitt last night tendered a banquet to the members of the choir and the young men ushers of Knox church and the Ladies' Society of the church did the catering. A full course turkey dinner was served in the church rooms and about 35 sat down to the feast.

The banquet was one of the most enjoyable social gatherings held in the church rooms and was tendered by Miss Leavitt as a mark of appreciation of the choir members' splendid service.

After the good things had been done full justice, F. A. Corringham, on behalf of the choir and ushers, extended a hearty vote of thanks to Miss Leavitt and Miss Clyde McLellan, the presentation of an old-fashioned bouquet to the hostess. Miss Leavitt responded in a very neat speech.

Harry Dunn, on behalf of the choir and ushers, made the presentation of an old-fashioned nosegay to Miss K. Wilson, the organist, who replied in a pleasing manner.

Musical selections by different members of the party were followed by a hearty general singing.

Miss Leavitt expressed the hope that the banquet might be made an annual affair.

Congress Record Was Made in 1906-07 With 7,024 Bills and Resolutions

WASHINGTON, Feb. 18.—During the life of the U. S. Congress, beginning in 1789 and extending to the beginning of the present session, a total of 50,069 laws have been passed.

These laws fall into four groups—public acts, public resolutions, private acts and private resolutions. Almost three-fifths of the total—29,787 out of 50,069—represent private acts.

Taxation, tariff, freedom of slaves, appropriations for land and stream surveys, for education, national defense, and peace appropriations—the history of the nation is written in these laws.

Most of the acts, however, consist of pensions and claims. This number has been large from the beginning to the present.

The first Congress ran 210 days and enacted 119 laws. The 59th Congress—in 1906-07—holds the record of enacting the largest number of laws. This session ran 239 days and passed 724 bills and resolutions.

Since then the number has been decreasing. During the last session only 477 laws were enacted.

About one out of ten bills and resolutions introduced is passed. The percentage would not be so high were it not for pensions and claims. The percentage for public bills and resolutions is much lower.

Of the more than 50,000 laws passed, only 47 have been declared unconstitutional by the Supreme Court. Most of these have been in late years.

Crows have been known to fly to a height of 6,000 feet.

## SNOW MOTORS FAIL, EVERY SIOUX DOG IS USED IN GOLD RUSH

Youngster Refuses \$75 Pr. For Mongrels; Expects to Get \$200

WINNIPEG, Feb. 18.—Every dog has its day, it is said, and according to H. F. Holland, mining recorder for the Ontario Government, this is the day for all dogs in the Sioux Lookout district. Mr. Holland is on his way to the scene of the latest gold rush at Red Lake, Ont.

Failure of the snow motors which were to take prospectors and supplies north, has resulted in a complete dearth of all dogs which by any stretch of the imagination could be considered in the husky class. One youngster in the street, Mr. Holland relates, was offered \$75 for a pair of mongrel colts.

"Now," the youngster replied, "I'll get \$200 for them before long."

Mr. Holland, who is accompanied by F. A. McArthur, inspector of mining offices for Ontario, will establish an office at Red Lake. It has just come from Kenora, Ont., where 150 claims were staked last month. There have been 800 claims recorded since September, including those of four big mining companies.

The district believed to be gold-bearing is five miles by ten. It is the most important strike in Ontario in 20 years, according to Mr. Holland, who says the first 100 samples averaged \$8 to the ton. At present there are probably about 100 prospectors on the ground, but they are going and coming and a permanent rush will not begin until spring allows water traffic.

The snow motors from which so much was hoped proved useless in the slushy districts and had to be abandoned. Now dog teams are the only means of getting through. Extra teams can be covered by canoe or motor boat, when the ice has gone, while the remaining 50 miles has to be portaged.

## ACID STOMACH IS DANGEROUS

Sufferers From Indigestion or Stomach Trouble CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused first and foremost by chronic acid stomach," says a well known authority.

Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach aches. Don't dose an acid stomach with peppy or artificial stimulants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

Instead, neutralize or sweeten your stomach with a little hot water and Bismarck Magnesia and not only will the pain vanish but your meals will digest naturally. There is nothing better than Bismarck Magnesia to sweeten an acid stomach.

It soaks up the harmful excess acid in just a few minutes. Bismarck Magnesia can be obtained from any reliable druggist in either powder or tablet form. It is safe, reliable, easy and pleasant to take and is not at all expensive.

The rush is the result of a geological map made by Professor Bruce, of Queen's University. This map was made in 1924, but not made public until the spring of 1925. The prospectors started out last fall. Owing to the difficulty of getting in during the winter, the Government has extended to Sept. 1 the time for completing the necessary 30 days' work on claims staked in 1925. Mr. Holland expects to be at Red Lake until next fall. Mr. McArthur will return as soon as the office is established.

Annual Statement Gives Stock Boost On Montreal Market Today

PRICE MOVEMENTS IN WALL ST. CONFUSED

Buying Orders Predominate With Gains of Point or More Registered

Canadian Press  
MONTREAL, Feb. 19.—Due to the showing of the annual statement for 1925, Steel of Canada common jumped three and a quarter points to the new high of 100 1/4 at the opening of trading on the Montreal stock exchange this morning. Brazilian Traction and Consolidated Smelters were also strong. The former came out with an overnight gain of 1/4 at 96 3/4, and the latter firmed 1/2 at 230 1/2.

The newspaper group also came in for considerable attention during the first half hour. Brompton was up 1/4 at 56. Abitibi 87-8 was up 3-8. Spahn's River was steady at 108 and Laurentide registered an advance of 7-8 at 92 1/2.

NEW YORK, Feb. 19.—Confused price movement reflecting cross currents of speculation, characterized the opening of today's stock market. Buying orders appeared to predominate, initial gains of a point or more being recorded by American Smelting, Jordan Motor, Tobacco Products, Devoe and Reynolds and Texas Gulf Sulphur, the last named moving to a new record high level in response to the raising of the annual dividend. President Steel Car common dropped to points and American and Mack Trucks quickly yielded a point or so.

Blinding snow storm that was raging at the time is blamed for the wreck of 28 cars of a 90-car freight train, almost a mile long, on the Chicago, Milwaukee & St. Paul R. R. near Milwaukee. Other trains were held up some hours. Photo shows wrecking crews at work.

**SUMMONS ISSUED FOR FORD WITNESS**

He Fails to Appear at Probe in Customs; Letter is Undelivered

Canadian Press Despatch  
OTTAWA, Feb. 18.—Failure of C. Scherer, Ford, Ont., to attend at the customs probe resulted in an order being issued to the sheriff in that city to find Mr. Scherer and serve a summons upon him.

Mr. Scherer was subpoenaed at the beginning of the probe, but when his name was called yesterday he did not appear. A telegram from the postmaster at Ford City said that the registered letter containing the order was still in the post office and Mr. Scherer could not be found. Mr. Stevens said that Mr. Scherer might be in Fordville, or Sandwich, Ont. The clerk was instructed to issue a summons through the sheriff.

**ENJOYABLE CONCERT**

Interesting Program Carried Out Under Auspices of St. Philip's Band

Under the auspices of St. Philip's band a very fine concert was given in the church last night and was highly enjoyed by the large audience present. Vocal solos were given by Master William Carty, Mrs. M. Lucas, Miss A. Sandler and J. C. Sandler. Readings were contributed by P. N. Burkley, A. A. Richardson and Miss A. Thompson. Master William Carty gave a piano solo and there was a piano duet by the Misses Thomas and an euphonium solo by J. Sandler and a euphonium four gave very pleasing selections.

The band gave several excellent numbers with Handmaster George Stewart directing. The accompanists of the evening were Mrs. H. Forde, Mrs. C. M. Morgan and Master A. Carty. A short address was given by C. Hamilton. Mrs. V. N. Jordan had charge of the program.

**News Notes of Baptist Interest**

The following items are from the Maritime Baptist:  
Rev. J. W. Meisner, pastor of the Niagara church, has received a fine fur coat from the people whom he serves in his ministry.  
At the close of the sermon in the First Baptist church of Alberton, on Feb. 7, the 50th anniversary of the marriage of Mr. and Mrs. G. Botsford Smith was celebrated and they were honored with the presentation of a basket of 50 roses. Rev. Dr. Steele, who performed the marriage ceremony, was present, and a few fitting words in acknowledgment of the service rendered to the church and denomination by Mr. and Mrs. Smith expressed in the esteem of the congregation for the worthy couple.

Dr. W. L. Archibald attended a meeting of the New York Acadia Alumni Association held last week. President F. W. Patterson also attended the New York Alumni meeting and proceeded to California in the interests of Acadia University.

**Morning Stock Letter**

NEW YORK, Feb. 19.—Market still seems able to stand up under pressure. With a two day holiday over the weekend there may be some evening up of commitments and consequently more irregularity. However, we are still bullish on the stocks whose prices we have advised recently. As purchase we have gain in price of cars by GMC. In January for more drives at weak prices, what a tremendous business the company is doing. We believe this stock and the allied stocks can be bought on any weak spots. While Overland should be bought around present price, we expect this stock to continue to advance. While the coal trade news is not very optimistic, we think the stock is in position to do better. We look for higher prices in steel, Stone, HBI, and in addition we are bullish on PHM, I.R.C., So. Ry. & O. N. Y. C.

**Brokers Opinions**

NEW YORK, Feb. 19.—Block Maloney says that the market is in a "wait and see" position, but when these are eliminated we should see a substantial rally. For present use rallies for sales. It will be a "two-sided" market.  
Clark Childs—"It is likely that in the next fortnight a number of interesting facts will be brought out in the annual reports of oil concerns which should encourage better prices for some stocks."

**CANADA'S TRADE SEEN EXCEED \$2,000,000,000 MARK IN FISCAL YEAR**

Will Jump More Than \$300,000,000 Over Former Twelve-month, Ottawa Estimates, and Approach 1918 Figures

OTTAWA, Feb. 18.—Canada's trade is rapidly expanding. For the first time since 1920, Canada's trade is expected to exceed the \$2,000,000,000 mark for this fiscal year; for the first time since 1917 and 1918 has anything jumped by more than \$300,000,000 in a single year. Statistics issued this morning show that for the first 10 months of the fiscal year that ends March 31, 1926, that is until Jan. 31, Canada's total trade was \$1,870,976,689. The total trade for the full year preceding the fiscal year ended March 31, 1925, was \$1,855,999,880.

TEN MONTHS' RECORD.  
Canada has done more business in 10 months of this year than in the whole of the previous year. Prospects for this year are that the total trade will approximate \$2,250,000,000, or an advance over the previous year of nearly \$400,000,000. Not since 1917 and 1918 has anything approached this rapid expansion of markets been experienced in this country. The greatest trade ever done by Canada in a single year was in 1919 when her trade totalled \$2,440,022,370. The next highest year was 1921. These are fiscal years that end on March 31 so that 1921 would take in most of the calendar year 1920. In 1921 Canada's trade was \$2,450,487,001. In 1922 it was \$2,340,000,000, and in 1923, when Canada's trade was \$2,025,861,978 and \$2,301,186,832, respectively.

**GIVEN HARD TASK**

London Detective Finds Crime He's Working on is 100 Years Old

LONDON, Feb. 19.—Many persons are content to read the headlines in a newspaper, but the heading was missing from a clipping received at the London office of the National Society for the Prevention of Cruelty to Children, and thus an inspector was put on rather an odd scent.  
The clipping told how a boy of Hansey, named Richard Hilton, 11 years old, had spent his week's wages at a public house and that his inhuman father had turned him out of doors to die of exposure in an unfinished building. The jury's verdict was that death was due to the inhumanity of the father, the clipping said.

The inspector spent days searching the Potteries district looking for this inhuman parent. At last he went to the newspaper office and said there must be some mistake.  
The editor referred to his files and found the story as it appeared. It was captioned: "One Hundred Years Ago Today."

**But One Passenger Was Killed in 1925**

LONDON, Feb. 19.—The British railway world is chagrined because one passenger was killed during 1925, thus making it impossible to equal the records of 1901 and 1908, when two were killed.  
Railway officials point out, however, that the one man would probably have died from the injuries he received had he not had a weak heart.

**YOU POOR KID, WHY ARE YOU SO SKINNY**

Don't your Mother know that Cod Liver Extract will put pounds of good healthy flesh on your bones in just a few weeks?  
"Tell her every druggist has it in sugar-coated tablet form now so that in just a few weeks she can help you get back your appetite - make your body stronger - your feet nimble and your mind keener."  
"Tell her if they don't help greatly in 10 days she can get her money back."  
"Tell her that McCoys' Cod Liver Extract tablets are check-full of vitalizing vitamins and are the greatest flesh producers and health builders she can find."  
One sickly thin kid, age 9, gained 12 pounds in 7 months.  
She must ask Wassons two stores, Ross Drug Co., Wm. Hawker & Son, or any druggist for McCoys' Cod Liver Extract Tablets—60 tablets—60 cents as pleasant to take as candy.

**ARE NOT PLEASED**

Shipping Brokers and Others Express Dissatisfaction at Manner of Arrest

Shipping brokers, as well as some members of the Board of Trade, expressed dissatisfaction yesterday with the manner in which local prohibition officers conducted and were able to make out a case against the cook of the Italian steamer Jerso for selling liquor illegally.  
J. T. Knight, of J. T. Knight & Co., agents for the steamer, said that it is customary for men on Italian ships to be supplied with wine or brandy, and in this case the cook on board the ship did not carry the liquor on shore and, being ignorant of the law, was the victim of the prohibition officer, who boarded the ship, obtained a bottle and then passed the cook \$3. The captain of the ship was put to considerable trouble, he said, and there was some delay as well as the ship was loaded and almost ready to sail on Wednesday night, when the cook was placed under arrest.  
On learning the facts in the case Collector of Customs C. B. Lockhart cleared the ship yesterday morning.

**MOUNT A. BEATS U. N. B. BY 4 TO 3**

Hectic Hockey Game at Sackville Last Night Between Teams

SACKVILLE, Feb. 18.—Playing a brand of hockey seldom seen in local intercollegiate circles, Mount Allison stepped into the University of New Brunswick squad here tonight and trimmed last year's Maritime intercollegiate champions by four goals to three.  
Play was fast from the initial puck-off with U. N. B. having a territorial advantage in the first period. Sten took the first shot of the game but Jamieson saved. Rogers got in some good rushing, but Carlen was doing some good net minding. The U. N. B. forward line came through with some nice combination, but it was broken up by the Mount Allison defense. Jamieson was making some fine stops. Keanan was penalized for tripping. McLean and McLellan got in a nice combined rush but Carlen saved. Fraser replaced Doolittle toward the end of the period. The only score of the period came a scant five seconds before the bell when Keanan poked N. B. in the lead, for the only time during the game, with a hard shot from the wing.

**Thunberg Hoping To Revisit Canada**

NEW YORK, Feb. 18.—Clas Thunberg, Olympic speed skating champion, hopes to return for another tour of the rink in Canada and the United States, he declared today before sailing for his home in Finland.  
"I do not feel that I did myself justice, except in a few races at Detroit, Lake Placid and Saranac Lake," said Thunberg.  
"Conditions were strange to me and I was handicapped by racing under rules and on tracks altogether different from those in Europe. However, I do not regret this as I still hope to return some other season to meet your best skaters again."

**AMHERST WON**

AMHERST, Feb. 18.—Tonight Amherst captured one of its crucial games preceding the championship, by defeating Oxford 7 to 4. It was the roughest match staged this season in the central section and 10 penalties were assessed out by Referee Twaddell, for offences which ranged from tripping and slashing, to cross-checking and fighting. Fortunately the pugilistic efforts were not serious.

L. W. Simms Addresses Germain Street Association on Brush Industry

L. W. Simms addressed the Young Men's Association and young ladies' classes of Germain street Baptist church last evening. Mr. Simms explained the brush and broom industry and sketched the growth of the Simms firm from its inception up to the present. The address was illustrated by lantern slides. Mr. Simms said that the broom department of the business was rapidly becoming a thing of the past owing to the competition from mops and vacuum cleaners. He laid stress on the fact that in the United States factories for the most part manufactured one particular kind of broom only, while in Canada conditions were such that it was necessary to centralize production under the one roof.

## PRaises CITY AS SKATING CENTRE

James A. Taylor, Here Today, Talks of World Meet

Speaks of Willie Logan in U. S. and Refers Highly to Smythe of Moncton

James A. Taylor, of Montreal, for years a leader in Canadian amateur sporting affairs and president for a period of the Canadian Skating Association, passed through the city today en route to Halifax on business. He said he was present at the Detroit International Ice races a fortnight ago and was one of the timers.

PRaises SAINT JOHN.  
It was a matter of regret to this well-known skating enthusiast that he could not be present at the world's meet in Saint John. He feels that there is one place where they know how to do a genuinely satisfactory ice event it is in this city of champions. He was sorry the same could not be said of some of the American skating centres.

WILLIE LOGAN CASE.  
Speaking of the Detroit meet, Mr. Taylor said it would not be possible for him to give an opinion on the claim made by some that the world's meet was wrongly deprived of a place in one of the important events as he was holding a watch at the time, but Russell Wheeler, of Montreal, who was the lap judge, said that it was not a lie for first place Logan was surely second. The officials displaced him altogether. Willie entered no protest but simply dashed in afterwards and scooped the best prizes of the meet, the lap prizes.

ADMIRERS SMYTHE.  
Mr. Taylor is a stout upholder of Maritime Province claims in the field of skating. He says the U. S. or Upper Canadian can show nothing better than can be offered here and it down here was unmitigated. "I want you to watch that boy Smythe of Moncton," he says; "he's another Charlie Gorman—strong, stout-hearted, no end of speed and willing to fight for position and will not be elbowed out of position. Logan was surely second. The officials displaced him altogether. Willie entered no protest but simply dashed in afterwards and scooped the best prizes of the meet, the lap prizes."

St. David's Country Club

Members Program of Interest

St. David's Country Club provided an excellent program at an open night held last evening in the school room of the church, with Neil Smith, the president, in the chair. Vocal solos were given by A. Harris, David McCarty, Miss D. Neely, Mrs. R. Neill, Mrs. H. Flewelling, M. Beaman, Miss B. Smith, piano solos by Miss T. Mast, F. Parise and Miss T. Parise, violin solo by G. Ballantyne, mandolin solo by Percy Reid, and a reading by Bertha Smith. The accompaniment was given by Miss T. Parise, Mrs. N. Alcorn, Mrs. E. R. Ayre and M. Beaman. After the entertainment refreshments were served by an efficient committee under con-venership of Mrs. Lawton.

## SOME SIDEWALKS CLEAR ALL WINTER

Survey of Streets Reveals Divergence of Opinion on Citizenship Duty

A survey of the sidewalks of this city during the days of heavy snow revealed to the observer a wide divergence of the opinions of the duties of citizenship. One saw spots where the walks had a ridge in the centre like an old cow's back. Then there were spots where the ice had been partly dug out and in mid weather the snow accumulated water to such an extent that one wished for rubber boots.

There were, however, a few places in the city where the sidewalks had been kept absolutely free of ice or snow been done by frequent shovelling before the snow became packed down. It had been a real labor for those who managed to do this but it was work that was appreciated by those who had been slipping and stumbling over the rough walks in other places.

"If no retribution overtakes those who do not keep their sidewalks clean properly, it would be a citizen," appear as if some favorable recognition should be made of those who do."

## S. A. OFFICERS TO MISSION FIELDS

Capt. Walter Powell, One of Six, is to Leave For India

On Thursday Feb. 25, Major Burton is to conduct at the Salvation Army Citadel, Charlotte street, a farewell to six Salvation Army officers who are leaving for missionary work in foreign fields. They include Capt. Walter Powell, at present assisting at No. 1 Corps. Mr. Powell is going to India as a missionary.

A special farewell meeting for Captain Powell will also be held in the Citadel on Sunday, and will be conducted by Adjutant and Mrs. Chapman.

The special speaker last evening at "Camp Meetings under the Pines," being held at the Citadel in Charlotte street, was Secretary Sparks, whose address and Bible readings were appreciated. The special speaker tonight will be Commandant Urskale. The meetings will continue each night until Thursday, February 25, when the farewell meeting will be conducted at the close of the evening meetings light refreshments and candy are disposed of. These booths are in charge of the sisters of the corps, and the corps cadets. Mrs. Urskale will be in charge of the refreshments this evening.

## BACK TO CHILDHOOD

Central Baptist Church Willing Workers Enjoy Program as Little Ones

The Willing Workers of the Central Baptist church had an interesting entertainment last night when they assembled at the home of Mrs. R. R. Smith, Hazen street, to enjoy a "Children's Party." The members were dressed as children and the entertainment provided was such as would be suitable for children. Early in the evening supper and arrowroot biscuits were served, the announcement being made that it was not well to keep children waiting for food.

## Waterloo Street Church Program

"At a Valentine entertainment, under the auspices of the Waterloo Street Baptist Sunday School, a pleasing program was much enjoyed. The program closed with the singing of the National Anthem.

## IS 89 YEARS OLD

John A. Campbell, ex-M. L. A., of Kingsclear, N. B., was 89 years old yesterday. He was first elected to the legislature in 1899 as a supporter of the Government led by the late Hon. H. R. Emmons, and was re-elected in 1903. In 1906 he was not a candidate. As the oldest politician of the province he has but two rivals, the veteran Senator King, now the oldest member of the Red Chamber, who in his junior year was a few months, and James K. Pinder, ex-M. L. A., three years his junior.

## SAND POINT FIRE

An alarm of fire was rung in from Box 17 on Protection street about 8.45 this morning for a small blaze in a shack owned by G. S. Mays and occupied as a blacksmith's shop by the C. P. R. The apparatus was there very promptly, and little damage was done to the building. The fire started in the roof, where the chimney went through, and was easily extinguished.
