GLOBE PRINT, TORONTO, ONT

THE VICTORIA COMPOUND SYRUP OF

HYPOPHOSPHITES

Is the most important Agent known to Medical Science, from its power to relieve every 1 vm of Nervous Disease. Its anodyne effect is remarkable—tending to produce the most refreshing and renovating aleep. It should be used promptly in every case of loss of Mervous Force from whatever cause, as the Easiest, Most Direct, and Most Appropriate Remedy. The effect upon the cough and expectoration is often very rapid, causing their disappearance or alteriation sometimes in a few days; but in regard to those symptoms there is a considerable difference in the effects, depending upon the extent and gravity of the lesions, and the stage of the disease. The night sweats, however copious they may have been, almostalways disappear at the end of a week or ten daysexcept in cases of persistent diarrhoes, near the close of the disease, when they remain obstitute; the pains over the check, which many patients feel so scattley, either cease, or very considerably diminish within a few days; the patient feel so actuely, either cease, or very considerably diminish within a few days; the patients feel so actuely, either cease, or very considerably diminish within a few days; the patients feel so actuely, either cease, or very considerably diminish within a few days; the patients feel so actuely, either cease, or very considerably diminish within a few days; the patients feel so actuely, either cease, or very considerably diminish within a few days; the attempt of the day, and sometimes even from the first, a decided increase of strength; the urinary sediments diminish and disappear; and there is a renewed feeling of vigour, cheerfulness and comfort. The effect, in all determinate cases, is to cause a modification and gradual disappearance of all the general symptoms that characterise the disease, except those which pertain to the local lesions; and even these yield, though more slowly, when they have not proceeded beyond a certain pathological condition.

The Hypophesphites the saximusting and insecasing the maxovox marner to its max

The Purity of the Hypophosphites absolutely essential.

THE PURITY OF THE HYPOPHOSPHIRES ADSOLUTELY ESSENTIAL.

THE ARSOLUTE CHEMICAL PURITY Of the HYPOPHOSPHIRES IS THE FIRST CONDITION OF THEIR CURATIVE ACTION; when impure, they create a feeling of uneasiness and constriction in the epigastrium, which rever occurs, in any instance, with circulally fure salve. The manufacture of the Hypophosphires requires great delicacy of manipulation, and a large experience, which few chemists possess. We therefore caution our Fatients and the Public against instance of the Vioronia Preparation of Hypophosphires, which are spurious and worthless, and often Positivetry INJUNIONS, containing as they do ingredients inserted for creating a tales and immediate appetite, to the ultimate injury of the patient. The Victoria Syruff of the original discoverer, and is certified the containing of the Original discoverer, and is certified to be assessed by the having been analyzed at the Laboratory of the Toronto University, by Professor Creft, one of the highest authorities in Canada. The genuine has the Queen's Head encrewed on the wrapper, and can be obtained from almost any Druggist. Ask for the Victoria instruments.

HAGYARD'S

BOYAL YELLOW OIL.

The composition and manufacture of HAG-YARD'S ROYAL YELLOW OIL is the result of a series of years' study and application by a practical and theoretical chemist. Mr. F. C. Hagyard devoted his time and indefatigable energies to it for more than ten years, ase finally established a branch of the business, not only extensive, but useful to the world. We are frequently told by druggists and mer-chants, and gentlemen of discriminating obser-vation and disinterested in the success of the Oil, that Hagyard's

ROYAL

Yellow Oil was the only Patent Medicine they believed which would live through and triumph over all opposition. The reason is plain. It has merit beyond that of all others in its way, and as it becomes more widely known, it is appreciated by adiscerning public.

Every scientific medical man knows that the combined influence of several ingredients, in certain fixed proportions, subtract an effect that cannot be attained by the separate or in different combination of the compound; the chemical affinities which are brought to co-operate in the union of the various ingredients constituting the Liniment, render it an article of universal potency in its application to the multifarious forms of discussed action, and the fact that the Royal

YELLOW

Oil has obtained for itself a curative celebrity beyond that of all other Liniments, is attribu-table measurably to the combined influence of chemical force which exists in its formation. What is said of Hagyard's Royal Yellow

By the public and persons disinterested, fully proves that no Liniment ever prepared has so high a reputation wherever it has been used, for the cure of

Rheumatism, Sprains, Burns, Scalds, Bruises, Corns, Itch, Lame Back, Rheumatism in the Chest,

And can be taken internally in many cases, such as

KIDNEY COMPLAINTS, SORE THROAT. CROUP, ETC.

For dressing and healing all kinds of

Cuts and Wounds, Pains or Weakness In the Breast, Side, Back or Limbs, Corns, Bunions, Rheumatism, &c.

FOR TOOPH-ACHE OR NEURALGIA

Where the face is swollen—by applying it to the goo it will draw out the pain, and make a concer-

THE EGYPTIAN SALVE

Is put up in rolls, and requires to be spread on cloth or thin leather, by holding it to a lamp or fire, which has the advantage of always keeping it fresh. It is put up in large rolls, and sold at the very small price of 122 cents. It is within the reach of all, and no family should be without it. The genuing has on the wrapper E. L. SOULE & CO., Brougham.

RHEUMATISM

Has been very effectually cured by freely applying the Egyptian Salve, wrapping the limbs or parts effected in plasters of it. If the limbs or joints are swollen, it causes the swelling to disappear, and allays the pain, and at once gives the greatest each, and at many cases efficie great cures.

BETTER THAN GOLD.

HAGYARD'S PECTORAL BALSAM

FOR THE SPEEDY AND PERMANENT CURE OF

Coughs, Colds, & all Diseases of the THROAT & LUNGS.

ITS COMPOSITION:

It is formed from the best known and most reliable BALSAMS, GUMS AND VEGETABLE TONICS in chemical union with the extract of Wild Cherry Bark and Liquorics, in their fresh and unadultersted forms, and is the most pleasant and effective combination that can be secured, with a view to permanent relief or cure.

ITS MEDICAL PROPERTIES.

Its chief medicinal properties are HEALING, SOOTHING, STIMULATING, TONIC AND EX-PECTORANT. The Liquorice soothesland removes all irritation and inflammation, cleansing and healing the mucous surfaces of the throat and air passages leading to the lungs; and Wild Cherry Bark has a superior Tonic power, and is among the most valuable medicines in use.

From its very nature it becomes almost a specific in all diseases affecting the mucous surfaces, such as we find in the Stomach, Bowels and Digestive System; in the Lungs and Respiratory System, and in the Uterine and Urinary Systems. Hence from acting on the mucous surfaces of the entire Respiratory System, its wonderful curative efficacy is seen in curing

Hoarseness, Coughs, Colds, Quinsy Influenza, Whooping Cough, Catarrh, Asthma,
Acute and Chronic Bronchitis, Acute and Chronic Pleurisy, Spitting of Blood,
Wasting of Flesh, and all Diseases of the Lungs.

All the above Complaints and many complicated cases of inflammation of the mucous surfaces are the neglect of a slight cold, which might easily have been averted by the timely use of the Pectoral Balsam. Sometimes there is a chilliness or creeping sensation prevailing the whole system, or there may be a violent headache, accompanied with constitution of the Bowels, and in other cases, pains and schee or a tightness across the chest. When any of those symptoms are present, there is something radically wrong and which requires prompt attention, otherwise the blood will take up the poisous matter that the mucous surfaces are charged with and the whole system becomes iteranged. Then local fever commences. The checks are flushed, the air passages from the throat to the tung's become coated with a thick glue substance, making it difficult to breathe, which if not removed, will in a very short space of time produce Uricers or Chronic Complaints difficult to cure, such as Asthma, Bronchtits Censumption, and other diseases of the throat and lungs; the strength fails, cold sweats, sleep disturbed, dry hard cough, the flesh wastes, and general debility sets in. Hagyard's Fectoral Balsam, when used according to directions, will cure or relieve any of the above complaints unless Consumption in the third stage. One 25a, bottle has cured hoarseness of three or four weeks standing. One or two bottles has cured of coughs. One or two doses often relieves sore throat. One bottle has cured Bronchtits. A few doses will relieve Croup or Asthma. There is no case of Threat or Lung Disease that the Balsam will not relieve and do all we claim for it. Its healing, soothing and Balsamle properties are such that they act directly on the diseased parts. Thousands of bottles have been sold annually, and tis highly spoken of the other than the content of the coughs.

A cure will be greatly assisted by applying Hagyard's Fallow Oil freely over the Throat and Lungs, or when there is a Constipation of the Bowels, Dissiness of the Head, Debility, Depression of the Spirits, Prostration, Chilliness, and a feeling of soreness all over the body, the patient should take one or two does of Hagyard's Pills, or some other good opening medicine, which will in ninety-nine cases out of every hundred hasten a cure.

AT THE OLD AND RELIABLE HOUSE,

THE GOLDEN LION.

Toronto and London.

15 BEECH ST', TORONTO, March 14th, 1878.

This is to certify that my son, aged 9 years, met with a serious accident by having one of his feet run over by a Grand Trunk express train, and it was supposed amputation would have to be performed. We had two doctors attending him for formed. We had two doctors attending him for some days, without any perceptible improvement. I was then induced to try Hagyard's Yellow Oil, which reduced the pain after a few applications. To my surprise we could discover a decided improvement from the first few applications. As soon as we saw this improvement we discontinued the doctor's prescriptions, and the lacerated foot continued to mend, until, I am free to say, my boy was well in as many weeks as we expected it would take months, not taking into consideration the amount of pain he was relieved from. He is now as well as could be expected, after having his heel and ankle so badly crushed, and is free from stiffness of the joint, which the doctors said could scarcely be avoided.

JOHN SPINKS. For sale by all dealers.

QUICK AND SURE RELIEF

FOR SUDDEN ATTACES OF

ASTHMA & CROUP

BY TAKING

Hagyard's Yellow Oil

Internally in Sugar, Molasses or Milk, and applying it freely to the Throat and Chest. It never fails to arrest even the very worst symptoms, often cutting short the disease in a very few minutes of time; removing obstructions as if by magic; reestablishing free respiration; and giving the patient a new lease of life.

Chest and Lung Diseases.

Of all diseases to which frail humanity is liable, there are none more generally neglected in their commencement, or more fatal in their termination, than those arising from defective or suppressed perspiration, whether we regard them in the trivial light of a slight Cold, or whether we view then in the terrific form of Pulmonary Consumption—the latter, alia? but too frequently the sequel of the former. At the very first symptoms of a Cold, Hagyard's Pectoral Balsam should be administered. For sale by all dealers.

Messrs. Milburn, Bentley & Prarson.

TROWBRIDGE, March 2nd, 1878.

OEFTLEREN, —About the first of November last I contracted a very heavy cold, which settled on my lungs, and through it I was so hoster for about two months that I could hardly speak. I used a number of different dollar bottles without any good effect. One day reading your almanac, I noticed that Hagyard's Pectoral Balsam was recommended. I residved to try it, and after using three 25 cent bottles was entirely well.

Yours truly,

CHAS, COSENS, P.M.

A country paper speaks of a man who died "with-out the aid of a physician." Such instances of death are very rare.

A Frenchman, intending to compliment a young lady by calling her a gentle lamb, said, "She is one mutton as is small."

One pound of corn is equal as food to about \$\frac{3}{2}\$ pounds of potatoes, or \$\frac{3}{2}\$ pounds of cabbage, or to \$1\frac{1}{2}\$ pounds of white turnips.

Why is a baby like a sheaf of wheat?—Because it is first cradled, then thrashed, and finally be-comes the flower of the family.

"Benjamin!" shouted Mrs. Toodies to her husband, who was going out of the gate, "bring me up five cents worth of smuff when you come." Smuff! Mrs. Toodies, muff! he ejaculated, as he paused with his hand on the latch. "Ro, no, Mrs. Toodies, the times are too hard to admit of such extravagance; you must tickle your ness

GREATEST CURE IN THE WORLD.

GIVE IT ONE TRIAL

This Oil is the only sure remedy for the cure of

Rheumatism, Neuralgia, Lumbago, Spinal and Bronchial Complaints, Deafness, Head-Ache, Ear-Ache, Cramps, Sprains, Bruises, Galls, Stiff Joints, Swelled Hands, Sore Nipples, Stiff Neck, Chilblains, Tetter, Frost Bites, Chapped Hands, Cuts, Wounds, Sore Throat, Stings of Insects, Shortness of Breath,

OR ANY DISEASES THAT ARE PAINFUL OR SORE.

It is the only article ever brought before the public that will do its work perfectly, and has been used by thousands and pronounced to be the best remody for relieving pain ever discovered.

THE CHEAPEST MEDICINE EVER MADE.

EXTERNALLY USED

It stops the pain and blistering of a burn so soon as applied. It stops the pain, limits the swelling, and removes the discoloration of bruless and black eyes by a few applications. It cures Chilblains, Frosted Hands or Feet, Bolls, Surface Wounds, Corns, Warts. A few applications are warranted to cure Inflamed Breasts, Excordated Nipples and Chaffed Skin. It also proves a sure cure in soreness of a part, or muscular pain, Stiff Joints, Contraction of the Muselss, Rheumatism, Neuragia, Outward Tumors, Swelled Neck, Enlarged Glands, Crick in the Back or other Spinal difficulties, such as Sprains. It is also very useful as an outward application after dislocation of Joints, or fracture of bones, or again, when there is tooth-ache or head-ache from nervous causes. It has succeeded in curing Rheumatism of eighteen years' duration, after other medical treatment failed. Stiff joints or limbs have, after years of pain and annoyance, regy used their normal condition by its use.

INTERNALLY USED

its efficacy is none the less wonderful. One or two doses cures Hoarseness and Sore Throat. The same holds true regarding Asthma and Croup, the first dose will relieve the sufferer. Bronchitis and Swelled Tonsils yield to its curative properties. Pains or Cramps in the Bowels or Stomach are relieved as if by magic by taking one-half teaspoonful of the oil and applying it externally to the parts affected. The same mode of using will remove Colle in a few minutes. Coughs, Colds and Kidney Complaints yield to its influence at one. Thousands of bottles used annually. No matter where the pain or soreness, or from what it arises, Hagyard's Yellow Oil is sure to do good in a short time.

IN THROAT OR LUNG DISEASES

It can be used either as external local application, inhaled as vapor, or taken as inward medicine.

Inhaled it pervades the entire lungs, and conveys its virtues to every portion thereof, and is a real life invigorator.

BUY IT AT ONCE. EVERY DRUGGIST KEEPS IT. PRICE 25c.

SYRUP OF

HYPOPHOSPHITES

EFFECTS OF THE TREATMENT.

- 1. Stimulates and increases the nervous energy to its maximum force.
- 2. Increases the quantity and improves the quality of the blood.
- Strengthens the nutritive functions, thus maintaining those three conditions of robust health at their highest degree of intensity, compatible with physical enjoyment.

PERSONS FOR WHOM ADAPTED.

Professional or Business Men, whose minds are actively occupied or concentrated on business during long hours, thus consuming brain force; or whose office confinement prevents a due amount of exercise or pure air.

Physicians, Students, Nurses, &c., who do not get the requisite amount of sleep or repression.

Clergymen, Lecturers, Teachers, and those whose mental application or mental worry is of a long continuous character, causing weakening of nerve force.

Artisans, Laborers, Mariners, &c., whose occupation or exposure has a depressing effect on the vital powers.

Persons affected with Grief, or of a Fretting Disposition.

Women during Pregnancy, and after Confinement.

Those Convalescent from Disease.

Children of Unhealthy Parents.

Fragile Children.

Children of very Rapid Growth.

In fact, all persons of sedentary habits, or those who, either from excessive labour of body or brain, are called upon for a greater expenditure of nervous or vital force than is or can be supplied through the normal channels of recuperation.

Activity of every kind, and depression of whatever nature or degree, are followed by an undue waste of the phosphorus of the system, as is proved by an increase in the excretions of the "phosphates." If this waste is not arrested by rest, nutrition, and a re-supply of the element, nervous debility and an impoverishment of the blood are inevitable consequences, and both are marked characteristics of pulmonary disease.

SEXUAL EXCESSES are a most powerful cause of Consumption.

DEFECTIVE NUTRITION is an active cause of Nervous Debility and wasting of fiesh, from the lessened power of the assimilative processes. Nervous Debility is an invariable produce to Lung Diseases. Every organic disorder has as its point of departure a disturbance of the nutritive function.

HEREDITARY PREDISPOSITION forms no barrier to the action of the Hypophosphites

How much better it is, then, to prevent the development of Consumption by simply taking care to keep the system supplied with a due amount of the Oxydizable Phosphorus than combat the disease efter it has manifest ed itself by unmistakable physical signs. In this way alone we shall be able, by destroying the morbid condition from which it originates, to abolish the greatest evil that afflicts humanity.

The effect in all determinate cases is to cause a modification and gradual disappearance of all the general symptoms that characterize the disease, except those which pertain to local lesions; and even these yield, though more slowly, when they have not proceeded beyond a certain pathological condition.

Price 1.00 per Bottle.

BEGINS ON TUESDAY. APRIL, 30 days.

HACYARDS PECTORAL BALSAM

Has no equal for the permanent cure of

Coughs, Colds, Sore Throat, Asthma. Croup, Whooping Cough, Bronchitis, and all Lung Diseases.

Every bottle guaranteed to give satisfaction.

Dr. A. E. Fife's Vegetable Worm Lozenges.

This Preparation should be used in preference to all others, since they are PURELY VEGETABLE—so mild in their action that THE MOST DELICATE CHILD MAY TAKE THEM WITH BENEFIT. The unexampled success that has attended the use of three Lozenges in every case where the patient is really affected with WORMS, renders them worthy the attention of all. The inventor made it a point to ascertain the result of their use in such cases as came under his observation, and has invariably found that THEY PRODUCE THE MOST SALUTARY EFFECT. Certificates might be produced from persons using them, if necessary; but we believe that since they are prepared after the most approved plan of compounding medicines, and are so highly esteemed by the prefession, no intelligent person will fail to try them where any symptoms of worms appear. ALL WE DESIRE ATBIAL, feeling confident that, once used, their superiority will be at once acknowledged. Much sickness, undoubtedly, with children, attributed to other causes, is occasioned by Worms PARENTS, GUARDIANS AND OTHERS having the care of children, cannot attend too closely to symptoms, as neglect often causes prolonged sickness. Some of the symptoms are General Languer, Peevishness, Irregular Appetite, Sallow Complexion, Pale about the Eyea and Mouth, Itching of the Nose, Foul Breath, Gnawing pains at the Stomach, Crying out in Sleep, Sudden Starting, Grinding the Teeth, &c., &c.

SPRING OPENING

Imported direct from England, France, Germany, Switzerland, &c., takes place this month.

DRESS MATERIALS, In Lustres, Alpacas, DeBege, Estemaine Cloth, Black Silks, Colored Silks, Steel Striped Silks.

HOUSEHOLD GOODS. Sheetings, Towellings, Table Linen, Lace Curtains, Carpets of every kind, Oil. cloths, Linoleum Floor Cloth,

&c., &c. MANTLES & MILLINERY. All bought for the READY MONEY AT the Manufacturers.

R. WALKER & SONS.

33 to 37 King Street, Toronto. Branch-Dundas Street, London.

Where may everlasting spring be found? In an india-rubber factory.

The man who "couldn't stand it any longer," has taken a seat, and now feels quite comfortable.

The lays of the nightingale may be very delightful to a well-fed man, but the "lays" of a hen are liked better by a hungry man. Why is a man who spoils his children like another who builds eastles in the sir? Because he indulges in fancy (infancy) too much.

The politest of all darkies lives near Toronto.
When he meets a gestleman of his own color by
moonlight he says: "Mr. Sam, do you know any
place in de neighborhood whar a gentleman might
borrow a chicken?"

Plant creeping vines about your doors and win-dows, for they will arrest and take into their growth many invisible enemies which feed plant life and destroy animal life, but do not so trail them as to exclude from your spartments the glorious and "to-giving sunlight,"

These Dyes will produce the following colors when used separate, and when blended together will produce twenty five different colors, and as many as twenty different shades of each color on silk, wool or cotton. The process is the cleanest and quickest known.

silk, wool or cotton. The process is the cleaness and quickest known.

LIST OF COLORS.

Navy Blue, Brown, Dark Green, Drab, Violet, Magenta, Canary, Bismarck, Yellow, Maroon, Orange, Salmon, Orimson, Light Blue, Scarlet, Light Green, Pink, Purple, Black.

The process being so clean and simple, there spears in reason why ever, lady should not be her own dyer. By beginning her experiments on a ribbon, feather, or a piece of cloth in a small earthest crock or basin of boiling water, and proceeding afterwards to larger articles of dress, yarn, or materials for rag carpets, mata, etc. This would be worth trying for motives of seconomy, and much real beindt and saussement would result from the experiment, and those wishing to test what we say or having sundry articles they wish to dye, will find such directions with each package that there cannot be any trouble or difficulty in getting the shade of solor required. Will also place in the hands of solor required. Will also place in the hands of each of our agents a show card with all the colors on it, so you can select the one you require. The quantity that each package will dye is from two to five pounds of silk, woollen or cotton; woollen goods unite with aimest all coloring matter with groat facility; silk in the next degree, cotton less easily than silk, and linen with even more difficulty in the colors of the color and the sample facts that every person should know, as as to assist them to thoroughly understand how to dye. The chief skill of the professional dyer consists in his ability to combine the simple colors so as to proluce any shade he wishes. Any person with a very little practice can, by the use of these dyes, attain that skill, and can produce equally as good shades of color as a practical dyer. The strength, brightness and durability of the color has provided and the expedition with which the desired shade is acquired. Their implicity makes them acceptable in every household.

Nora—Mrs. Freeman's New Domestio Dyes are put up in boff or yellow envelope

Y, 31 days.

BEGINS ON THURSDAY.

Mr. Gingle goes a-fishing.

Our food furnishes material for the growth and nourishment of the body by absorption and assimilation. Thousands of people have a poor appetite and a delicate digestive system, and food becomes almost repulsive to them. When in this state, nothing will so soon improve the appetite, restore vitality to the blood, and strength and energy to the entire system, as Victoria Compound Syrup of Hypophosphites.

AGED persons are sometimes troubled with derangements of the kidneys and urinary organs, and will be glad to learn that Victoria Buchu and Uva Ursi is prepared with the especial purpose of meeting these troubles and making life happy to the aged. Those who have used it speak highly of it, and it is highly recommended with confidence for both the young and the old, as well as the middle-aged. For sale by all dealers.

DR. ABERNETHY'S

ROYAL WORM KILLER.

Dr. Abernethy, notwithstanding his abrupt and eccentric manners, was considered one of the most skilful physicians that ever adorned the noble profession of medicine. His experience, derived from the most extensive practices in London, England, together with his very superior natural talents, place him at the head of the faculty. It has always been difficult to form a combination with which to expel worms from the human system, irrespective of the kind. Abernethy overcame this difficulty when he discovered the formula from which the VERMITCHE CANDY is prepared. Whether worms exist or not, the Candy will at all times be found beneficial when a purgative medicine is required. Other candies contain no purgative, and therefore require the administration of Caster Oil, Senna, or other disagreeable cathartics, which most children dislike. DR. ABERNETHYS WORK KILLER obviates this difficulty, as it contains the necessary purgative within itself. When taken according to directions, which accompany each box, the Royal Work Killer of Vermidden Candy is certain to expel worms where they axist, when all other remedies have failed.

HAGYARD'S

For Horses, Cattle, Sheep, Pigs, &c.

As a Blood Purifier they have no equal.

They regulate and keep the stomach in a healthy condition. They act on the diseases of the

URINARY ORGANS.

DIGESTIVE PUNCTIONS. RESPIRATORY ORGANS, AIR PASSAGES. BROKEN WIND.

HEAVES.

And almost every disease horses are liable to. If used in the Fall and Spring would prevent a great deal of sickness, and improve the stock. First-class breeders throughout Ontario recommend them.

HAGYARD'S CONDITION POWDERS will be found a perfect Tonic and restorer after attacks of any scute disease, such as Influenza, Inflammation of the Lungs, Distemper, &c., as they purify the blood and sineus fluids, causing health to return. Every person owning stock of Horses, Cattle, Sheep, Pigs, &c., should always, use this Medicine. It is always beneficial; and so harmless that it can be given at any season of the year with impunity. Price 25c. per package, or five for \$1.

Othere Window Barras.—Last autumn while visiting in the north part of the State my father saw a man brushing his faded window blinds over with boiled linesed oil, instead of painting them; and, thinking it a capital idea, came home and tried the experiment on his own, as the oil was all expected for them, and he had expected to have to paint them before winter; but, although badly faded, the application of one coast of oil breught them back nearly to their original brightness and glossiness. Judging from the appearance of ours, I should think if one oiled their blinds over u bot sunny weather once every year or two segianting of course before the color is rubbed off) hey would be kept looking bright a great many years without painting, and this would make a great saving, as green paint is rather expensive and has colitile of in it that it soon evaporates and idease nothing but the color, which of course wears off unless—core oil is added,—N. E. Farmer.

ar: T

VICTORIA

CONDITION POWDERS TOOTH ACHE CHARM

Will Stop Pain Instantly.

And will be found a Sovereign Remedy for toothache arising from decayed and hollow teeth-

There are three kinds of teeth, known as molares, bicuspids and cuspids with their fangs or roots. These three sorts of teeth which we may call grinders, tearers and cutters, represent three classe of teeth among the lower animals; that man has them all, we may take as an evidence that he is intended to be an omnivorous feeder.

tended to be an omnivorous feeder.

Toorn-Aculta.—For this distressing and very common malady almost every one has a sure cure, the peculiarity of which is that it does little or nothing to mitigate the anguish of the sufferer to whom it is recommended, which anguish is commonly caused by the exposure of the interior pulp, containing the nerve and blood vessels, to external influences, by decay of the outer portion of the tooth. An aching tooth may oftentimes be stopped and remain serviceable for years by the fullicious use of the VICTORIA TOOTH ACHE CHARM. Where the tooth is no far gone as to be very troublesome. the VOLUMIA TOUTH ACRE CHARM. Where the tooth is so far gone as to be very troublesome, it is best to have it out. When such is not con-venient, we can recommend the Charm as the next best cure. Should there be no available hollow, put it as close as possible to the seat of pain-Full directions on each bottle.

VICTORIA

CORN AND WART KILLER.

HAS NO EQUAL

The word "corn" is derived from the Latin word cornu, meaning a horn. There are but few persons who have not suffered more or less from the troublesome excrescences, which arise from a thickened state of the outer or scarf skin, caused generally by the pressure or friction of tight or ill-fitting shoes. The sensible, that is, the true skin, feeling the pressure, endeavors to protect itself by throwing up a sort of defence which assumes a conical form, having the point within pressing upon the tender skin, and often causing intolerable pain, and a ometimes inflammation to such an extent as to form an absess at the point. In the tecatment of corns, the first object should be to remove as much as possible the exciting causes; comfortable, well fatting boots or shoes should be substituted for those of an opposite character, and the corn, after the feet have been soaked in warm water to soften it, should be pared carefully away, particular care being taken not to wound the more sensitivart, then apply a small quantity of the Victoria Constant water water to the substitute of bread or the substitute of the control of the substitute of the control of the substitute of the victorial control of the control o feeling the pressure, endeavors to protect itself by

Caldwell's

Is a sure cure for Dyspepsia and Liver Complaints, and their effects, such as

Heavy Pains in the Stomach, Costiveness, Heart Burn, Indigestion, Water Brash, or Sour Stomach, Disagreeable Taste in the Mouth; it Regulates the Appetite, Relieves Palpitation of the Heart.

It strengthens and invigorates the Digestive organs; a single dose relieves occasional excesses investing or drinking. It is the best medicine for children traubled with Sour Stemach, and indispensible to such as are feeble and delicate, causing them to grow healthy and strong. These requiring a medicine for any of the above discusses, or delicate children, will find Dr. Caldwell's Dyspepsia Remedy invaluable. One hottle has cured Dyspepsia of over Five years standing. One dose, will cure a SOUR STOMACH and EXCESS IN EATING OR BRINKING. Half a Rottle will SWEETEN THE BREATH. It is a positive cure for INDIGESTION and every form of DYSPEPSIA. From ONE to THIREE Bottles will cure the worst case. Only 26 or 0 drops for a dose. No change or restriction of dist necessary.

Greatest Combination

KNOWN.

YELLOW OIL

Removes Pain, as if by Magic!

USED INTERNALLY & EXTERNALLY.

This article is so valued by thousands of families that they would not be without it for money, yet it is one of the Cheapest Medicines ever offered to the public. It diffes from most medicines in that, while curative internally, it surpasses all other articles as a local outward application, while the rapidity of cure is almost marvellous. While the product is almost marvellous. In other words, it acts with the utmost rapidity. Scientific persons are aware that the combination of certain ingredients in a fixed relative proportion will produce a compound of greater efficacy than any or all of the ingredients not so combined, and further possesses new qualities and properties not in any other way obtained. The secret of the curative and anody aperpoperties of the Yellow Oil lies on the combination of its ingredients, which is different from anything before compounded. Its astonishing result is not limited to a few aliments, but has a wider range of application than any other medicine effored to the public.

No danger from exposure to cold when using, but will cure Frost Bites in twenty-four hours. No house should be without a bottle of Hagyard's Yellow Oil in case of accident. There is no preparation offered to suffering humanity that has made so many permanent cures or relieved so much pain and misery. It is called by seme the Good Samaritan, by others the Cure-all, and by the afflicted an Angel of Mercy. The party buying has no risk to run, as we guarantee every bottle to give satisfaction or refund the money.

Equally Good for Man and Beast.

What is seciety, after all, but a mixture of mister-ies and miss-eries?

WHEN a man's liver gets hopelessly out of order, be must expect to become a die-er.

"How singular!" exclaimed a young school girl, when she first beheld a cucumber. "I always thought they grew in slices."

THE idea of teaching every girl to thump a piane and every boy to be a book-keeper, will make potatoes \$4 per bushel in twenty years.

WHAT is the difference between the Prince of Wales and a jet of water!—One is heir to the throne; the other is thrown to the air.

It is proposed in India to change the marriageservice so that it will read, "Who dare take this woman!" And the bridgroom shall answer, "I

SMALL boy (entering shop)—"I want a pennyworth o canary seed." Shop-keeper (who knows the boy)—" is it for your mother ?" Small boy (contemptuously)—" No; it is for the bird."

The rural districts are literally alive with tramps, and poultry do not enjoy their usual facilities for growing old. A plous farmer says be does not see why Providence didn't teach chickens to roost under the barn.

Dr. Fowler's

EXTRACT OF

WILD STRAWBERRY.

This is a pleasant, certain, safe and effective remedy for Diarrhosa, Dysentery, Canadian Cholera, Cholera Morbus, Cholera Infantum, or Summer Complaints, Sour Stomach, Griping Pains, &c.

The successful use of this Valuable Preparation has demonstrated beyond a doubt its great curative properties and superiority as a remedy for the abovenamed complaints. It is not surpassed by any other Preparation. All who use it speak of it is the highest terms.

USE HACYARD'S

YELLOW OIL

For the following internal and external complaints:—Internally for Kidney Diseases, Sore Throat, Cramp in the Stomech, &c.; externally for Sprains, Bruises, Galls, Rheumatism, Neuralgia Pain in the Sides, Back or Head, Frost Bites, Burns-Scalds, Chilbiains, Sore Throat, Rheumatism in the Chest, Stiff Joints, etc., etc.

THE YELLOW OIL.

Since first introduced, has been a valuable friend to many persons suffering from the above diseases, and it will be found equally as valuable for Horses and Cattle as it is for the Human Family,

PLANT WASH.—For fruit trees or large plants, boil one tablespoonful of borax in one pini of water, and while warm, paint the stems of fruit trees or plants. This will destroy the green fungi, and prevent insect life from forming in the back; it will also make the trees healtly.

The fresh air of a summer's surrise and the "delightful" breeze of an autumn sunset are always loaded with poisons, in proportion to the flatness of the atmosphere, and the warmth of the weather;—the antidote. Do not be exposed to dither on an empty stemach or when tired.

"WHY is this called Jacob's ladder?" asked a charming woman as he and she were going up the steepest portion of the Hount Washington railway. "Because," he replied, with a look that emphasized his words, "there are angels ascending and descending occasionally." He aqueezed her hand.

No MAN seems to have more time on his hands than the one who is saked to step in and send up the doctor on his way down town, except it be the man who is asked to step into the drug store on his way home, and get a bottle of Hagyard's Yellow Oil. For burns, bruises and wounds of every description there is no better liniment than Yellow Oil.

Mr. Gingle takes a bath and thinks fishing not so pleasant as represented.

TORONTO, July 19th, 1878 Messrs. Milburn, Bentley & Pearson:

Gentlemen,—Some twelve years ago I knocked off the cap of my knee, and since that time have often suffered with a swelling that time have often suffered with a swelling in the knee joint, caused from twisting the leg. I have used all kinds of liniments, as well as medical attendance; but on the last two occasions have used Hagyards Yellow Oil. The result from this has been marvellous; instead of laying up for a week or ten days, as usual, all the swelling has disappeared in three days. I can most heartily recommend the Yellow Oil. Make what use you like of this, and state it comes unasked for.

> Yours truly, FRED. HILLS, Agent for Halladay's Wind Mills.

ANTHELMINTIC WORM POWDERS.

CERTAIN DEATH AND DESTRUCTION TO WORMS.

THE MOTHERS FAVORITE REMEDY.

A NEAT, PLEASANT AND RELIABLE MEDICINE.

REASONS FOR THE GREAT POPULARITY OF THESE POWDERS.

- 1. They are pleasant to take, and recommended by Medical men.
- 2. They produce no injurious effects on children.

noi

De de de

- 3. They are adapted to the delicate, as well as the robust.
- 4. They destroy the worms, and are also tonics to the bowels.
- 5. They contain purgative ingredients, and consequently children are not required to take nauseating doses of castor-oil, or other medicine after their use.
- 6. The worms are often so effectually destroyed that their decomposition is complete before they are evacuated from the bowels.

HOW THE PRESENCE OF WORMS MAY BE KNOWN.

The symptoms necessarily vary with the kind of worms and their location, but the following in whole or in part are always present. Itching at the nose; pale lips; at times nauses, or gnawing pain in the stomach and bowels; bad breath; occasional cough; grinding of the teeth, or meaning when asleep; sudden starting from sleep as if frightened; one or both cheeks very red at times; sometimes ravenous desire for food, at others loss of appetite; headache; languor; listless or irritable in temper; bloated stomach or abdomen; irregular or rapid pulse; body feverish; sometimes fainting, convulsive fits, or epilepsy; paleness or wasting of flesh may occur even though the appetite is good.

PRUDENT MOTHERS

Observing the worm symptoms resort at once to these powders and thus prevent the serious impairment of their children's health.

As Irish waiter, speaking of a lady's black eyes, said: "They are in mourning for the murders they have committed."

As editor offers a reward of five dollars for the heat treatise on "How to make out-door life attractive to the mosquito."

A POLICEMAN arrested a man who tried to explain that he was only "weary." The policeman explained that there was arrest for the "weary."

Gold Hill, Nev., has a woman who plays on the plane with her toes and fingers simultaneously. It must double her up worse than green apples, and perhaps it does her auditors.

A Bosnon paper says: "A butterfly was caugh at the South End yesterday." It may be sade enough to eatch a butterfly at the south end, but when you ge to grab a wasp, you want to catch it the north eastfully end, shifting westerly toward the heart.

"Ymn," he said dreamily, "we are all striving for a subjective goal. Unconsciously, it may be, but still we strive. We lean over the verge of the infinite, longing to grasp its mysteries, and lost in the profundity of its immensity." "Yes," she replied, thoughtfully; "but, John, would you mind me putting a brown patch on those old pants of yours?"

SOMMOUT wrote to the editor of a village pape to ask how he "would break He or." The editor replied as follows.—" If only one or, a good way would be to heist him by means of a jong shadn as tached to his tall, to the top of a pole forty feet from the ground, then hote tain by a rope fleat to his horns to another pole. Then descend on his back a five-ton piledriver, and if that won't break him is him start a country newspaper and trust people for subscriptions. One of the two ways will do it, ourse." EIGHTH MONTH.

AUGUST, 31 days.

ITS EFFECTS ARE MARVELLOUS! IT ACTS LIKE A CHARM!

A few doses have often cured when all other tried remedies have failed. It is the Chrarest Remedy in Existence. Worth Ten Times its Cost. One bottle date in the often cured several cases. It is recommended by Physicians and has rou louise and all who use it. It is Pleasant, Rapid, Reliable and Effectual. Strongly of the interest of the cured several cases.

SOOTHING SYRUP SUPERSEDED.

ONE BOTTLE OF

OR, FOWLER'S EXTRACT OF WILD STRAWBERRY

Is worth ten bottles of Soothing Syrup, in assisting Children through the period of Teething. A few drops given according to directions will stop Diarrhea, Cholera Morbus, Summer Complaints, and fluxes of every variety will yield to its wonderful curative properties without any injury to the system. Thousands of Infants dis annually from the above complaints, who could be saved by the timely use of this standard Medicine.

EVERY MOTHER, NURSE, AND GUARDIAN

Should keep it. Every house should have it. Ask your Druggist for it, and take no other. Buy a bottle at once, so as to be always ready in sudden cases of emergency, Do not wait a single day. There is absolutely no risk to run. Our experience is such as to convince us that it will cure as certain as the hoe will kill weeds on a hot summer day. Why hesitate? Buy it now !

Dr. Fowler's Extract of Wild Strawberry is prepared with great care from the native Wild Strawberry plants. They are carefully picked by hand, as the following extract from the Uxbridge Journal, of September 7th, 1876, testifies:

WILD STRAWBERRY LEAVES.—"About half a ton of this product was shipped from our station yesterday to Messrs. Milburn, Bentley & Pearson, of Toronto. The increasing popularity and immense sales of their famous Extract of Wild Strawberry requires annually, several tons of the leaves; and as they have to be carefully picked by hand, the young people in the vicinity of Chalk Lake have had a busy time for some days past. They are finding considerable difficulty this year in obtaining the quantity required, as the bush fires have swept over a large portion of the grounds where the usual supply has been gathered."

To make Pro-mo Lesonane.—Take a barrel, fill it with water, put in two pounds of sugar, add one lemon, and refill with water as often as the barrel is empty.

HASTARD'S PROTORAL BALSAM.—This elegant pro-paration, for colds, coughs, hoarseness, and all throat and lung diseases, is recommended highly by all who have used it.

We gase upon a rainbow path That seems to reach the sun, And girded in our youthful strength, We start upon the run,

But soon get tired, weary, down-hearted, and lie down to die. Cowardly act. Never despair. If your system is rus down, your nerves unstrung, and your blood impure, use Viotoria Hyrophosphirus, a medicine of wonderful curative efficacy, a fine nervous tonic and blood agent. Price ii per bottle.

"Cuffee, what do you tink de mose useful ob de planets, de sun or de moon?" "Well, Sambo, tink de moon over take the fust rank in dat ritckler." "Why you tink so, Duffee?" "Well, I tell you; knee alse thinse by night when we want tell you; knee alse thinse by day when we don't."

When you feel as if the vital powers were giving way, strength gone, spirits, depressed, memory falling, appetite loss, exhaustion stealing over every sense and paralysing every energy, then is the time to resort to that powerful ally of nature. Victoria Hypophosphites, the great brain, blood and nerve loos. The properties it embodies soom work a complete renovation in the debilitated system and clouded mind.

WILL POSITIVELY CURB

COLIC. CRAMP IN THE STOMACH or BOWELS. DYSENTERY AND DIARRHŒA

And all such diseases as children are subject to while teething. Mrs. Freeman save no child should be raised without a bottle of the syrup. If the shild is fretful it will quiet it, and produce a natural sleep, and will give it ease from any pain it may be suffering from. For colic or cramp in the stomach or bowels, one dose will give instant relief.

She has never known it to fail.

HASTARD'S YELLOW OIL combines in such an eminent degree all the healing, curative and extracting qualities known to medical science, that it is truly a family medicine that example the disponent with. When applied to any swelling, sore, burn, chilblain, frosted part, skin eruption, etc., its effects are magical. It is highly esteemed wherever known, and its enormous sale samually, is the best certificate of its merits.

is the best certificate of its merits.

Works And Devilla.—Old Winston was a negro preacher in Virginia, and his ideas of theology and human nature were often very original. A gentleman thus accosted the old man one Similay:

"Winston, I undurstand you believe every woman has seven devils. How can you prove it."

"Well, sh, did you never read in de Bible how seven debbles were cast out'er Mary Magalin?

"Oh, yes! I Porrad that."

"Did you abber hear of 'em bein' cast out of any odder woman, ash?"

"No, I Never did."

"Well, den, all de odders got 'em yet."

Carefully prepared statistics show that there are over 600,000 druntards in the United States, and that 70,000 die annually who go to the grave of a druntard. Every year 100,000 men and women are sent to prison under the influence of intextication, while 300 murders and 400 suicides occur from the same cause. Two hundred thousand orphana are annually thrown upon the charity of the world by this curse of intemperance. Nine-tenths of the crime, and not less than seven-eighths of the psuperism, is the immediate result of whiskey, and that at a cost to the Government—besides individual want—of not less than \$80,000,000 every year.

Young Tip is afraid to fire.

THE telephone is becoming quite popular in all parts where it has been introduced. Hagyard's Yellow Oil is also becoming very popular as a remedy for wounds, bruises, sprains, burns, &c. Horse owners are using it extensively for ouring galls, spavins, ringoil bene, scratches, sprains, windgall, etc. It is the most effective remedy known.

The independent, unselfish physicians of Canada are now prescribing Victoria Hypophosphites for general debility. Thousands have been changed by its use from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

It strikes the pampered eye of a luxurious Eastern Christian with awe to see a Far Western minister plant a pair of brass knuckles between the pages of a prayer-book to keep it open.

HAGYARD'S PECTORAL

12

3

Cures the worst cause of coughs, colds, influenza, and all diseases of the Tungs, throat said chest. The most obstinate cause yield to Hagyard's Pectoral Balama; and whenever there is contiveness or constipation of the bowels, use Hagyard's Sugar Coated. Fills.—In the treatment of these affections, purpatives are required in the very commentument, of the attack, and will frequently of elect a cure without any other remedy. The cure will be hastened by freely using the Pectoral Balama. Sold everywhere. Twenty-five cents per bottle.

M,

"EMINENTLY THE LADIES' PAVORITE."

For Beautifying the Complexion and for removing Tan, Sunburn, Freckles, Pimples. &c., also for Chapped Hands, Chilblains, Frost Bites and

Sore Lips.

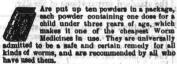

This is the Original and only Genuine CARBO-LATED GLYCERINE JELLY manufactured, and as CARBOLIC ACID possesses HIGH CURATIVE QUALI-TIES, it is consequently far superior to any other preparation of Glycerine in the market.

Its healing and soothing properties make it a favorite for the toilet stand, removing sunburn, tan and freckles in a short time; it also heals sore lips, chapped hands, and all roughness of the skin.

Ask your merchant or Druggist for it, and take no other. Price 25 cents.

FREEMAN'S

WORM POWDERS

"Don't you think, husband, that you are apt to believe everything you hear?" "No, madam; not when you talk."

If you want to teach a dog arithmetic, tie up one of his paws, and he will put down three and carry one every time.

"Jones, if burgiars should get into your house, white would you do?". "I'd do whatever they required of nie. I we never had my swn may in that house yet, and the toe late to begin now—yes, alsa: too late!"

I clasped her tiny hand in mine; I clasped her beauteous form; I vowed to shield her from the wind, and from the world's cole storm. She set her beauteous eyes on me; the tears did wildly flow; and with her little lips she said, "Confound you, let me go?"

A darkey who was stooping to wash his hands in creek didn't notice the peculiar actions of a goat ast behind him. So when he acrambled out of the sater, and was asked how it happened, he as-wared, "I dunno 'sactly. But 'peared as at de heave blades histed and frowed use."

A LETTER FROM WHITBY.

WHITBY, Feb. 25, 1878.

Messrs. Milburn, Bentley & Pearson:
GENTLEMEN, - With me your Victoria Hypophesphites has worked wonders. For the last twelve years I have had frequent and severe attacks of asthma. During the time I have been afflicted I have tried all the remedies recommended by skilful physicians, besides a great many patent medicines, hoping to find relief; but all proved failures. Last November, at the urgent request of a friend, I was induced to try your preparation of Hypophosphites. I was then in a very low state of health, and several times I thought I would not be able to perform my duties until the end of the year. To my surprise and delight, at the end of a week my general health was greatly improved, and up to the present time I have not had a severe attack. I have only used one bottle, but do not intend to be without it. I wish you to feel at liberty without it. I was you to see as allow, to use this testimonial in any way subservient to your interests in the cause of humanity. It ours such cite at fucunde—safely, quickly and pleasantly.

Yours, with great respect.

J. C. SMTH.

School Teacher.

Mr. Smith is one of the best known and most successful teachers in the county of Ontario, and it is with pleasure we give his testimony in favor of Victoria Hypophosphites to the suffering public. It is for sale by all dealers at \$1 per bottle.

At this season of the year, Hagyard's Cattle Spice should be fed to all kinds of farm stock. Each package contains about 50 feeds. Price 25 cents.

A Christmas dinner interrupted; the dog arrives on the scene.

Hagyard's Pectoral Balsam is composed of the most healing balsams and gums. The balsams which enter into its composition were used by the natives when America was first discovered, and are combined with other vegetable tonics, so blended together that it is a specific for all affections of the throat and lungs. Thousands of bottles are used annually, and it is considered one of the standard preparations of the day.

Siputum, an ancient city that was buried by an earthquake, has been unearthed by an Italian discoverer. A French discoverer, the eminent Dr. Rubini, did more for mankind when he compounded the great remedy for diseases of the kidneys, etc.,—VICTORIA BUCHU AND UVA URSI. For diseases peculiar to females it is unsurpassed. For sale by all dealers. \$1.00 per bottle.

Dr. Wilson's Magnetic Ointment,

FOR THE CURB OF Weak, Sore and Inflamed Eyes, Scrofula, Fever Sores, Salt Rheum, Piles, Broken Breasts, Sore Nipples, Cuts, Bruises, Burns, Scalds, and all Cutaneous Diseases,

IT IS USED EXTENSIVELY FOR

CROUP, SHORTNESS OF BREATH, SORE THROAT, HOARSENESS, &C.

'S MASSERIC ONTMENT is composed of valuable Gums, Resins and Extracts, all having a special reference to their virtues and peculiar powers in Subduing Pain on. It stands pre-eminently at the head of all the Ontments, as it never drives the effect of the internal organs. Its properties, when applied, go directly to the init as it passes into the circulation, it separates all the poisonous and corrupt structs them through the perspiring vessels to the surface, and in that way test the disease from the system. In curing SCROFULOUS SORES thas no perfectly eradicated this horrible yet common disease after every other remedy in vain. It is simply saked that the afflicted will try one bottle, which will do se it than volumes written in its favor.

HAGYARD'S

ROYAL

FAMILY MEDICINE FOR

Internal and External Use.

Incredible as it may appear that one compound should be adapted to the treatment of such a variety of diseases, it is nevertheless true that it has proved of incalculable benefit in affording prompt relief in thousands of cases of painful and distressing attacks of

Diarrhosa, Asiatic Cholera, Cramps, Bruises, Colic. Scalds. Sore Throat. Head-ache, Sunstroke, Rheumatism. &c.

Its grand mission is to Subdue Pain, and bring glad tidings of great joy to the suffering.

No medictae has ever gained such rapid popularity with so little effort to introduce it to the public; its great virtues never having been heraided to the world in flaming hand-bills and all the appliances of the advertising art—on the contrary, it has silently worked its way into the confidence of the public through its own intrinsic merits, passing from neighbor to neighbor and neighborhood to neighborhood, till it has won for itself a reputation unsurpassed in the annals of medicine as a Quick Curing Remedy, particularly adapted for use in sudden emergencies, of cramps, colic, chills, &c., from sudden change or exposure, also for the many painful ills which flesh is heir to.

Dyspersia.—A simple and effectual remedy for dyspersia is to abstain from drinking immediately before and during meals, and for an hour afterbefore and during meals, and for an hour after-ward, also avoiding the use of milk in tea or coffee.

RENEMBER, to make soup or broth, put the meat and vegetables in cold teater; but if the meat is to be eaten, then the water must be boiling before the meat is put into the water. Same with fish and fowls.

CHUTTER soldiers are patient fellows. They do not talk of mutiny until their pay is five years if arrears. Many people are quite as patient, and let some complaint perhaps get five years the start of them. For Bright's disease, disbottes, and all affections of the kidneys, Victoria Buchu and Uva Urai, is the best weapon to fight with, and if timely used to will prevent these diseases.

RECEIPTS FOR DYFING.

General Instructions.

General Instructions.

It is absolutely necessary that every article to be dyed, as well as every utensil to be used in dyeing, should be perfectly clean.

Every article to be dyed should be thoroughly secured in soap and well rinsed out. In order to secure uniformity in colour, and to avoid spets on wood, yarn or fabrics, it is desirable that every article should be dipped in warm water, just before putting into the dye bath.

In all cases sorr warms should be used, and in quantity sufficient to ever the articles completely. As soon as an article is dyed, it should be aired a little, then well rinsed out, and afterwards hung up to dry, but not wrung out.

In putting dresses and shawls out to dry that have been dyed, they should be hung up by the edge, so as to dry evenly.

To Dye Black.

On wool, silk or cotton. For every lb. of cloth or yari, it will require one on of the extract of logwood and half an on of blue vitriol. Prepare an iron kettle with a sufficient quantity of soft water to prevent the cloth or yarn from being crowded, he had been the yarn or cloth, and when thoroughly wet take it out and let it drain; then and the blue vitriol, and when dissolved and the water carefully skimmed, put in the material to be coloured, and let it remain half an hour at a scalding heat, airing it occasionally, then take it out and rines it in soft water; empty the vitriol water into another vessel, and dissolve the attract of logwood in a sufficient quantity-of water brought to accading heat and skimmed; put in the cloth, keeping the dye at the same temperature, and let, it remain half an hour, airing it frequently; then take it out and drain it, and add the tremain fifteen minutes, airing it as helore; cleanse it in soft water and let it drain and dry.

Bright Pink.

Bright Pink

Two oss. of cochineal, a os: cream of tartar; steep the cochineal in warm water, sufficient to cover the cloth for two hours, or until the strength is entirely extracted, and, add the gream of tartar; then wet the cloth in clean water, wring it out and put it in the dye; bring it to a scaldling heat; let it remain a few moments and it will be finished. This will colour 3 lbs. If a light colour is wanted, tise less cochineal, if a darker, more; the shade depends upon the quantity of the cochineal used.

Scarlet.-No. 2.

Take soft water sufficient to cover the cloth or yarn you wish to colour, bring it to a boiling heat in a copper kettle, then add it ozs. cream of tartar for every pound of cloth; now boil a minute or two, and then add 2 cas. of powdered ise, and 3 cs. of madder compound must be previously mixed in an earthen bowl), boil five minutes; now wet the yarn in warm water and wring it, and put it in the dye; then boil the whole nearly an hour, take the cloth or yarn out, and rinse it in clean cold water.

Scarlet.-(Very Superior.)

One and a half ounce of cochinest, I are aream of tartar, and it or, sol. of tin; powder the cochines and rub it through a bag into blood-warm water sum cleant to over the yarn; when it is a little warm put in the cream of tartar and simmer, then add the solution of tin. Your yarn must be west with clear water; steep in the dye until the yarn, is properly dyed. Dye your yarn before you wash is. This we colour one pound.

HAGYARD'S

PECTORAL

Has no equal for the permanent cure of

Coughs, Colds, Sore Throat, Asthma, Croup, Whooping Cough, Bronchitis, and all Lung

Diseases.

Every bottle guaranteed to give satisfaction. MILBURN, BENTLEY & PEARSON,

Proprietors, Toronto

Country Correspondence. Morningdale, Feb. 28, 1878.

MESSES. MILBURN, BENTLEY & PRARSON,

GENTLEMEN,—I take pleasure in stating that I have found Hagyard's Pain Remedy to be all you recommend it, and find that it never fails in toothache, or cramps and pains of any kind, and consider at the very best article of the kind in the market. Yours truly,

JOHN NICKLIM.

"Insture," says a modern philosopher, "are like connected money. We cannot hinder their being affered; but we are not compelled to take them."

In private watch your thoughts. In the family watch your temper. In company watch your tongue.

"What would you be, dearest, if I should press the stamp of love on those sealing-wax lips?" "I," replied the fairy-like creature, "should be stationery."

You lend an umbrella, Put your name to a bill, One won't be returned, and

The other one will.

No man is born wise; but wisdom and virtue regulre a tutor; though we can easily learn to be a virtuous without a master.

Coverousness, like a candle ill made, smethers the splendor of a happy fortune in its own grease.

A WITNESS on the stand, in reply to a question as to what the character of Mr.——was for truth and veracity, said: "Well, I should say that he handles truth very carelessly."

RECEIPTS FOR DYEING.

Willied Award (Continued from page 29.) slody self and mad Madder Red.-No. 1.

Madder Red.—No. 1.

Take 1 Ib. madder for every 2 lbs. of yarn or cloth; soak the madder in a brase or copper kettle one night in warm water, enough to cover the yarn you wish to colour; hext morning put in 2 csa madder compound for every 1 lb. of madder you have so goaked, then wet your yarn or clothein clean water you the kettle on the fire, and bring it slowly to a scaling heat, which will take about half as hour if a light red is wanted, and longer if a dark one, the colour depending upon the time it remains in the dye. When the colour is made, rings the delth immediately in cold water, and 5 will then be finished.

Wine Colour.

1 lb. of wool—redwood, § lb.; madder compound,
1 oz. Soak the powdered wool in warm water all
night, mix the madder compound with about half
pint of water [in g glass] and add it to the rest rines
the wool in warm water and put in the dy, boil
about half an hour, take out the wool and rinse in
cald water. celd water.

Pale Pink.

1 lb. wool or cloth, \$\frac{1}{2}\$ lb. good red wood, and \$\frac{1}{2}\$ lb. of alum. Soak the wood all night in warm water, add the alum, and boil the clothes with these ingredients for about an hour; take it out and rinse it in water. A cheaper yet handsome pink may be obtained by substituting nickwood for madder, in the receipt for madder red.

For each lb. of wool or cloth, fustle, 1 lb.; alum, 1 lb.; put all in an earthen vessel and pour on sufficient hot water to cover the wool, and keep it warm all night; give it half an hour's boil in a brass kettle, and then rinse in cold water. A much deeper and richer yellow may be made by using turmeric powder instead of fustic, and proceeding in the same manner.

Green.

For each ib, of goods, justic 1 lb., with alums \$\frac{1}{2}\$ cas; steep, but do not boil until the strength is out, and soak the goods therein until a good yellow is obtained; then remove the chips, and add extract of indigo or chemic, one tablespoonful at a time until the colour suits.

Blue.

For 2 ibs. goods, alum 5 om; cream of tartar, 3 ozs.; boil the goods in this for one hour; then throw the goods into warm water, which has more or less of the extract of indigo in it, according to the depth of colour desired, and boil again until it suits, adding more of the blue if needed. It is quiek

For each ib. of wool, alum \(\frac{1}{2} \) its cream of tartar, 2 ozs.; boil for half an hour; soak for one night in sufficient warm water to cover the wool. Red powder, \(\frac{1}{2} \) ib.; fustic, \(\frac{1}{2} \) ib.; and logwood, 2 ozs.; then take the wood out of the alum water and boil with the wool for half an hour. If a dark brown is wanted, add about a tablespoonful of copperas.

Orange.

For 5 lbs. of goods, muriate of tin 6 tablespoonsful; argol, 4 oza; boil and dip one hour; then add to the dye, fustic 24 lbs.; boil ten minutes and dip half an hour, and add again to the dye madder one teacupful; dip again half an hour.

N.B.—Cochineal in place of madder makes a much brighter colour, which should be added in small quantities until pleased. About 2 ozs.

Purple

For 5 lbs. of goods, cream of tartar 4 ozs.; cochineal well pulverised, 2 ozs.; muriate of tin, 3 teacup. Boil the cream of tartar, alum and tin 15 minutes, and then put in 5the cochineal and boil five minutes; dip the goods two hours; then make a new dys with alum, 4 ozs.; Brazil wood, 6 ozs.; logwood, 14 ozs.; muriate of tin, one teacup, with a little chemic; work again until pleased.

Cudbear.

One ounce of sudbear will colour I lb, of goods. Make a strong seap suds sufficient to cover the goods; stir in the cudbear; dip the yarn in soda water, put it into the dye, set it over the fire, and keep it hot; stir it well; when coloured derk enough to suit, wring it, rimes in deak water and dry. This colour should never be dried in the sun or permitted to freeze, as either will cause it to fade.

OR. BOYER'S GALVANIC FLUID

TE COMPOSED OF

IODINE AND AMMONIA,

COMBINED WITH ESSENTIAL OILS,

PRODUCING

ELECTRICITY,

And is one of the most powerful External Remedies in the world for the cure of Rheumatism, Lumbago, Neuralgia, Bruises, Sprains, Swellings, Frost Bites, Chilblains, Stiff Joints, Chapped Hands, Head Ache, and Pain in the Back, Shoulder, Breast, Side, and there is not a Sprain, Bruise or Pain it will not relieve or cure.

FOR EXTERNAL USE ONLY!

THE ELECTRIC OR GALVANIO FLUID

Is one of the most powerful elements in nature. ELECTRICITY, one of its principal ingredients, is so omnipotent an agent that it will not only decompose water. neutralize the acids and alkalies, change venous blood into arterial, and polarize and dissolve metals; but such are its wonderful powers of penetration that it will enter the system and quiet every pain, when guided by the hand of science and experience. Although the ancients discovered the existence of Electricity, it appears that they were not sufficiently acquainted with its nature to enable them to apply it to any useful purpose. It was left for FRANKLIN to capture it, Morse to harness it, and BOYER to bottle it. Dr. Boyer, by long and patient perseverance, succeeded by the combination of essential oils to accomplish this end. DR. BOYER'S GALVANIO PLUID acts with lightning rapidity in curing Rheumatism, Lame Back, Pain in the Side. Shoulder or Head; a few applications have a magical effect. Sore Throat, Frost Bites, Sprains, Bruises, Swellings, &c., have been cured by a single application. There are thousands cured annually. Many of the most learned and experienced physicians admit DR. BOYER'S GALVANIC FLUID has no equal for the relief of pains and aches.

HAGYARD'S

A COMPOUND SYRUP OF

Wild Cherry and Balsam of Tolu.

FOR THE GURB OF ALL

Throat. **Bronchial**

Or Pectoral Diseases.

The PECTORAL BALSAM is one of the most prompt, safe and invaluable of all remedies ever recommended for the above diseases, and all who use it attest its genuineness. It gives almost immediate relief in all cases of Coughs, Colds. Hoarseness, Whooping Colds, Hoarseness, Whooping Cough, Croup, or Hives, Influenza, &c., &c.

Bronchitis and Asthma are cured by it, and numbers in the first stages of Consumption have been restored to perfect health; it is, in fact, a re-liable antidote for all diseases of the Throat or Chest

Persons troubled with a persistent Cough will experience immediate relief by using the PECTORAL BALSAM, and by taking a dose, as directed, the last thing at night, may be sure of unbroken sleep and refreshing rest.

Children take the BALSAM readily. as it is so palatable; and as no time should be lost, especially in cases of Croup, or Whooping Cough, a bottle of it should be always kept on hand.

get the real article. It is sold by all dealers everywhere.
