DISTRICT AND GENERAL

Belle Isle Park, Detroit, is to have street cars.

The attendance at Toronto exhibition this year totalled 1,372,500. Only one person was arrested for being intoxicated.

At Kingsville it is proposed to give auto-speeders a week at breaking stone. That will be better than breaking the speed limit.

All but about one per cent. of Canada's 1922 loan has been converted into the new loan. There will be practically no cash payment.

The death occurred in Mount Brydges Saturday morning of John William Bole, aged 72 years, one of the oldest and best known residents of that locality.

James E. Keenleyside, license inspector, for London and Middlesex, died at his home in London early Friday morning, after a short illness, aged 67 years.

Miss Effie McCallum, of Alvinston, has been engaged to teach the school in S. S. No. 15, Brooke, to fill the vacancy caused by the resignation of Charles Routley.

Forty-seven known dead, eight million dollars of property lost, \$50 homes destroyed and over 8,000 rendered homeless are the latest appalling figures of the great disaster in Northern Ontario.

John Mitchell, of the 4th concession of Zone, was severely injured when a team he was driving ran away. Mr. Mitchell was thrown under the heavy wagon, which passed over his head and chest.

Owners of a threshing machine outfit at Talbotville have been summoned on a charge of driving their traction engine over the provincial highway. An act recently passed prohibits driving over certain roads by vehicles with flanges, clamps or ribs attached to the wheels.

When provincial officers dropped in at the home of James Cahill, a farmer living in Sandwich West township, they found nearly a thousand bottles of whiskey stored in an ice house. Account books in the house showed that daily entries were made, indicating a lively trade in liquor.

South Essex farmers, particularly those with small land holdings, are hard hit this year by the low prices prevailing for their fruit and onion crops. Fruits, such as apples and peaches, are a drug on the market. Onions are selling for \$1.15 a bag. A year ago they brought \$3.50.

Fire, believed to have been caused by spontaneous combustion, completely destroyed the barn on the farm of Thomas Johnson, concession 6, Aldborough. A quantity of hay, beans and oats, together with several young pigs, were also burned. The loss is a heavy one as the barn had only a small insurance, with no insurance on the contents.

The frame residence of Godfrey Montgomery, near the Dunwich-Aldborough townline, was destroyed by fire one morning recently. The fire is supposed to have caught from the kitchen stove while the members of the family were at the barn. Only a small portion of the contents was saved. There was an insurance of \$1,550 in the Dunwich Mutual.

Various towns and villages throughout the province are arranging to hold their municipal elections on the first Monday in December, and thus avoid the holiday rush. The by-law necessary to change the dates must be passed before November 1st. The new arrangement will enable business men and others interested to give more time to municipal matters.

The Alvinston Free Press says:—Abner Shortt is away to the West again after two more cars of cattle. This will be his last trip out this year. The last four cars which he brought down were sold by him as soon as they reached the local depot. He states that cattle are very cheap out there, but the freight rates boost the price, \$300 being required to bring a car here.

Miss Sexsmith, public school teacher, brought action in the division court at Tamworth against the school trustees for an unpaid balance of her salary, claiming that she had been wrongfully dismissed before her time was up. The judge found that although the dismissal of the teacher was made on insufficient ground the plaintiff could not recover as her contract was not made in writing.

HIGH SCHOOL FIELD DAY

The annual field day exercises of the Glencoe high school, announced for Wednesday of this week, have been postponed on account of unfavorable weather until today (Thursday) when they will be held on the fair grounds, commencing at 1:30 o'clock.

WELCOME THEIR NEW RECTOR

London, Oct. 11.—Warm enthusiasm was exhibited by both rector and people at the reception held Monday night in the schoolroom by members of St. Matthew's church, London, in honor of their newly-appointed rector, Rev. T. J. Charlton, who came from Glencoe to succeed Rev. H. B. Ashby. Flowers and flags decorating the schoolroom helped to make an effective background for the ceremony, and a pretty touch was lent by the presentation to Mrs. Charlton of a bouquet of pink roses as a tribute from the ladies of the congregation.

Briefly, but with genuine feeling, Mr. Charlton expressed his appreciation of the cordial welcome tendered him. There was a splendid program.

AID FOR FIRE SUFFERERS

Donations for the relief of the sufferers from fire in Northern Ontario are being received at The Transcript office and forwarded to headquarters. Subscriptions will be acknowledged in these columns as soon as received.

FOUND DEAD IN BED

The death occurred at his home in Wardsville, on Sunday, October 8, of Francis Waterworth, in his 65th year.

Mr. Waterworth had been in ill health for two or three years past, but his condition at no time gave cause for immediate alarm. His wife left for Detroit on Saturday morning, intending to spend the week-end there with friends, but was called back on Sunday by telegram, Mr. Waterworth being found dead in his bed, having passed away during the night.

Mr. Waterworth was a son of the late Joseph Waterworth and leaves besides his wife, a daughter of Jacob Wilson, of Wardsville, three brothers and three sisters, as follows:—James C. of Glencoe; William, of Wardsville; Joseph, of Euphemia; Mrs. Gage, in the Canadian West; Mrs. Hiram Lumley, of Glencoe, and Miss Margaret Waterworth, now a patient in Victoria Hospital, London.

The funeral took place yesterday afternoon to Oakland cemetery, service being held at his late residence.

Death of Mrs. John P. Mitchell

One of the pioneers of this district passed away on Monday, Oct. 2, in the person of Betsey McCallum, relict of the late John P. Mitchell.

Deceased was the daughter of the late Edward and Nancy McCallum and was born in Euphemia township on January 2, 1838. At the age of 22 she was married to John P. Mitchell, of Metcalfe township, in which place they resided for a period of some twenty years, later moving to Moss. For a number of years Mrs. Mitchell was a resident of Chicago, coming back to Glencoe about ten years ago to keep house for her son Dan.

Mrs. Mitchell was possessed of a rugged constitution and until a few years ago was able to go about among her friends, doing the little acts of kindness in which she delighted. About four years ago she fell down stairs, receiving an injury to her knees from which she never recovered. The intense suffering resulting from this and from the loss of her sight she bore with true Christian patience. In sickness as in health she was an example of what was good and true.

Of a family of twelve she leaves to mourn the loss of a loving mother four daughters and two sons: Mrs. Nell Leitch, of Moss; Mrs. George McKenzie, of Imperial, Sask.; Mrs. Thos. Jones, of Port Burwell; Mrs. Will McMahon, of Chicago; Peter, of Chicago, and Dan, of Glencoe, and one adopted son, Duncan, of Blind River, Ont.

Her husband predeceased her fourteen years. Two sons, Edward and Archie, and two daughters, Isabel and Sarah, passed away after reaching mature years.

The funeral was held on Wednesday, Oct. 4, from the residence of her daughter, Mrs. Leitch, lot 11, con. 6, Moss. Interment was made in Kilmartin cemetery. Six neighbors acted as pallbearers: Gilman Goldrick, William Hillman, Neil McLarty, Neil Mitchell, Mac. Livingstone and Hugh McLarty.

PRIZE WINNERS AT THE MELBOURNE FAIR

At the Melbourne Fair the principal prize-winners were:

Ladies' Work
Mrs. McCutcheon, Glencoe; Mrs. Taylor, Mount Brydges; Mrs. D. Campbell, Ekfrid; Mrs. W. Switzer, Ekfrid; Mrs. L. Brennan, Mount Brydges; Mrs. Darling, Clandeboye; Miss Patten, Dutton; Miss Fisher, Mount Brydges; G. A. Taylor, E. Hardy, A. P. McDougall.

Grain
D. Hardy, D. L. McLean, Geo. Adams, G. Hyndman, T. Carruthers, Dan Johnston, Geo. Fisher, Ed. Andrews, T. Walker, L. Coates, E. Darling, C. Mullens, Wm. Gould, J. Saxton, A. Linden, W. Thomas.

Poultry
F. and J. Diamond, W. Hallstone, L. Walker.

Cattle
U. McTaggart, W. McTaggart, J. Scott, A. McDougald, Geo. Phillips, G. Hyndman, A. E. Perry, J. B. Corneille, T. Hardy, E. McGugan, A. McDougald, Geo. Adams.

Horses
Draught span—G. Duncanson, B. Thompson.

Brood mare—T. Hardy C. McTaggart, C. McCallum.
Foal, 1922—Brodie Bros., C. McTaggart, T. Hardy.
Gelding or filly, 1 year—Neil McLean.
Gelding or filly, 2 years—Neil McLean.
Gelding or filly, 3 years—D. Black, D. McLean.

Gelding or filly, 4 years—C. McTaggart, J. Scott.
Agricultural span—T. Kerr, B. C. Hoover, R. McDonald.

Brood mare—D. Black, R. Alexander, J. Lotan.

Foal, 1922—R. Alexander, A. Johnston, J. Lotan.

Gelding or filly, 1 year—R. Alexander, A. Stevenson.
Gelding or filly, 2 years—Brodie Bros.

Gelding or filly, 3 years—Neil McLean, D. Johnston, A. Johnston.
Gelding or filly, 4 years—D. A. McNeil, R. Alexander, A. Stevenson.
Oak Hall special—B. C. Hoover.
Best grey Percheron—D. A. McNeil.

General purpose span—Geo. Marshall, D. McNeil, W. McLean.
Brood mare—W. Graham, D. Hardy.

Gelding or filly, 1 year—W. Graham, B. C. Hoover, S. Carruthers.
Gelding or filly, 2 years—A. Campbell, W. Graham, R. Alexander.
Gelding or filly, 3 years—D. Hardy, T. Hardy, W. Graham.

Gelding or filly, 4 years—A. Hagerty, B. C. Hoover.
Best halter-broken foal, 1922—W. Graham.

J. D. Carruthers' special—R. Alexander, J. D. Carruthers' special—W. Graham, D. Hardy, N. McLean.

Light Horses
Carriage span—Ed. Andrews.
Brood mare—D. McIntyre, W. Wadsforth.

Foal, 1922—D. McIntyre, W. Wadsforth.
Gelding or filly, 2 years—T. Ramey.
Single carriage—O. Quick, A. Wadsforth.

Roadster span—D. Munroe, Harry Munce.
Brood mare—T. Green, T. Ramey, D. McMillan.

Gelding or mare, 1 year—D. McMillan.
Gelding or mare, 2 years—C. Mullins, D. Miller, P. Campbell.

Single roadster—J. F. Robson, J. Coveney.
Lady driver—Geo. Craven, S. Needham.
H. J. Jamieson special—S. Needham and J. Coveney.

Map of Middlesex—J. B. Corneille, Etouille-Williamson, D. Campbell.
Penmanship—D. Campbell, J. B. Corneille, E. Williamson.
Weeds—D. Johnston.
Drawing of school—D. Johnston, E. McGugan, F. Hansford.
Poem—A. Mullins, A. Stevenson, H. Campbell.
Butter—W. Near, H. Mullins, D. Campbell, W. Switzer, Ken. McLean, D. A. Campbell, D. Johnston.
Result of field crop of agricultural society: First seven winners of standing field crop of potatoes—Dougald Campbell, D. A. McNeil, Geo. W. Brown, J. T. Walker, J. T. Crawford, H. Wells, A. Lamont.
Free-for all race—Hyslop, London; Currie, Strathroy; Denning, Strathroy; Patterson, Bothwell.
Green race—McDonald, Christina; Campbell, Lawrence; Bateman, Christina; Galbraith, Appin.

GLENCOE FAIR PRIZE WINNERS
Grain and Seeds
Bushel fall wheat, white—W. A. McCutcheon, Hugh McCallum, Edgar Munson.
Bushel fall wheat, red—Nevin McVicar, Mrs. W. R. Quick.
Bushel rye—Frank Copeland.
Bushel barley, bearded—W. A. McCutcheon, J. H. Trestrain, Thomas Walker.
Bushel O. A. C. oats—A. B. McDonald, W. A. McCutcheon, Joseph Tait.
Bushel black oats—W. A. McCutcheon.

Bushel Banner oats—Thos. Walker, Edgar Munson, Frank Copeland.
Bushel oats, any other kind—Job Oster, Frank Copeland.
Bushel peas—W. A. McCutcheon, Thos. Walker.
Half bushel beans—W. A. McCutcheon.

Half bushel flax—W. A. McCutcheon.
Half bushel corn, yellow, in ear—Joseph Tait, W. A. McCutcheon, John Oster.
Half bushel corn, White Flint, in ear—Wm. Gould, Thos. Mawhinney.
Half bushel corn, Golden Dent, in ear—Frank Siddall, Bryden Glasgow.
Half bushel corn, Yellow Dent, in ear—Wm. Gould, Jacob Antlers, W. A. McCutcheon.

Half bushel corn, Strawberry Dent, in ear—Jacob Antlers.
Half bushel corn, White Cap Dent, in ear—J. H. Trestrain, Wm. Gould, Hugh McCutcheon.
Half bushel corn, Wisconsin No. 7, in ear—Wm. Gould, Peter Loosemore, Chas. Gould.

Half bushel corn, any other kind, in ear—W. A. McCutcheon, Walter Hallstone.
Peck pop corn—W. E. Bingham, Walter Hallstone, W. A. McCutcheon.
Best 12 stalks corn for husking—Bryden Glasgow, J. H. Trestrain, Wm. Gould.

Half bushel clover seed, red—Nevin McVicar, W. A. McCutcheon.
Half bushel clover seed, alsike—W. A. McCutcheon.
Half bushel timothy seed—D. J. Campbell.
Half bushel alfalfa seed—W. A. McCutcheon.

Special for white oats—Thos. Walker.
Special for best sheaf of oats from binder—Chas. Gould, A. B. McDonald, Wm. Gould.
Special for best sheaf of wheat from binder—Edgar Munson, Wm. Gould, W. A. McCutcheon.
Special for sugar beets—Job Oster.
Special for best bushel 1922 wheat—W. A. McCutcheon, Nevin McVicar, Mrs. W. R. Quick.

Roots and Vegetables
Variety of potatoes—W. A. McCutcheon.
Mangel, long red—Edway Hurdle, W. A. McCutcheon.
Mangel, Yellow Globe—W. A. McCutcheon.
Mangels, any other kind—J. H. Trestrain, Jacob Antlers.
Swede turnips—Walter Hallstone, W. E. Bingham.

White carrots, long—Edway Hurdle.
White carrots, short—W. A. McCutcheon.
Blood beets, long—Joseph Tait, John Oster.
Turnip beets—Frank Siddall, Wm. Gould.

Table carrots, long—W. A. McCutcheon, Edway Hurdle.
Table carrots, short—Wm. Gould, J. H. Trestrain.
Parasnis—W. A. McCutcheon, Thos. Mawhinney.

Onions from seed, yellow—W. A. McCutcheon, W. E. Bingham.
Onions from seed, red—W. A. McCutcheon, Nevin McVicar.
Onions, Prize Taker—W. A. McCutcheon, Wm. Gould.
Onions, English Multipliers—W. A. McCutcheon, Thos. Mawhinney.
Onions, Silver Skin, for pickling—W. A. McCutcheon.
White cabbage—W. A. McCutcheon, T. C. Reycraft.
Red cabbage—Hugh McCutcheon, W. A. McCutcheon.
Cauliflower—W. A. McCutcheon.
Red peppers—W. A. McCutcheon, Thos. Mawhinney.

(Continued on page 5)

PARTIAL LIST OF DEAD IN NORTHERN ONTARIO; SIX TOWNS BURNED

Property Valued at \$4,000,000 is Reported Destroyed and it is Feared the Death Toll May Reach Sixty—Present Disaster is Regarded as Greater than the Calamities of 1911 and of 1916.

At Haileybury.
Mrs. T. A. Cobbold, wife of the Divisional Court Clerk.
Mrs. Doon.
Felix Des Jardines.
F. Rochon.
Unidentified child.
Albrecht, a boy.
Three months' old baby, unidentified.
Two bodies so badly burned that sex cannot be determined.
H. Elphick, aged 45, single, brother-in-law of the late Col. Hay, president of the McIntyre Mine.
Four unidentified men.
Mrs. G. St. George, reported dead by husband Samuel Boone.
Mrs. Samuel Boone.
Missing at Haileybury.
A Seguin.
Jas. Authier.

At Heaslip.
Robert Bond, his wife, their eight children; his wife's brother, John Marshall.
Amos Heaslip, his wife, and their two sons, and James Fleming and his son.

A despatch from Cobalt says:—Rain, which began to fall about six o'clock Thursday evening, has definitely checked the spread of the forest fires in the district, and with the danger of further loss of life at an end, organized efforts are being directed toward recovering the bodies of victims and providing relief for the living. It is estimated that the property loss will be at least four million dollars.

While it will be days before anything like an accurate estimate of the death toll can be arrived at, the consensus of opinion in the town is that at least 35 bodies have been recovered in the neighborhood of Haileybury, Heaslip, about 28 miles farther north on the Timiskaming and Northern Ontario line, and at Charlton, some twelve miles beyond Heaslip. A number of the bodies are so terribly burned that identification is impossible.

Now that a clearer idea of the extent of the fire can be gained it is learned that several small centres which were earlier reported to have been burned were not in the path of the flames. Notable among these are Earleton, Elk Lake and Gowganda. On the other hand, the village of North Timiskaming, not previously mentioned as having suffered, is now known to have been burned out, and also several smaller settlements north and west of the town. North Timiskaming is on the boundary between Ontario and Quebec at the head of Lake Timiskaming. Whether there was loss of life there is not established at the present time.

It is estimated that about 1,000 refugees have left here for North Bay in two special T. and N.O. trains. People here estimate the property losses at \$4,000,000, which is divided, Haileybury \$2,000,000; North Cobalt \$500,000; and other points \$1,500,000. The number homeless is estimated at 5,000, of whom 2,500 lived in Haileybury, and the other half elsewhere. The areas burned over extends from Mileage 104, near here, to near Englehart, a distance of 38 miles.

Two of the heroines of the fire at Haileybury were telephone operators, Miss Marjorie McGee and Miss Addie. They remained at their posts until the back stairs of the building were on fire. The last message they got out was one to North Bay asking that a relief train be sent as soon as possible. The two girls put out on Lake Timiskaming in a small boat and landed on a small island where they spent the night. They arrived here suffering considerably from exposure.

Doubt is expressed whether Haileybury will be rebuilt, and it is said by prominent residents that the town will be unable to redeem its \$250,000 outstanding bonds and that it is the duty of the Drury Government to stand behind these bonds with its guarantee. On every side the opinion is expressed that the disaster is worse than the calamities of 1911 and of 1916.

Tragic Incidents.
A most tragic incident occurred at Heaslip. Here Robert Bond, his wife, their eight children, and Bond's wife's brother, John Marshall, had taken refuge in a root house as the flames approached. Searchers to-day found all eleven suffocated. Other residents of Heaslip or vicinity who perished were Amos Heaslip, his wife and two sons, and two other men, a father and son, named Fleming. The Heaslip family had also taken refuge in a root house on the farm adjoining that of the Bonds and were stifled by the dense smoke.

At Haileybury Mrs. T. A. Cobbold, wife of the Divisional Court Clerk, met her death while trying to rescue her ninety-year-old uncle who lived with them. The uncle was taken to safety by rescuers, but Mrs. Cobbold could not be reached and perished in the ruins of the home. Cobbold was himself severely burned. Other victims in the town were: Mrs. Doon, an elderly man named Felix Des Jardines, a

At Charlton.
Mrs. O'Hara.
James Ryan and son.
Lyman McConnell.
Three unidentified men and unidentified baby.
Norman Clarke.
Kathleen Nelson.
Mrs. Watts.
Jimmy Ryan, a boy.
Hillier Township.
Walter Stevenson, wife and son.
Three unidentified bodies.
Casey and Berthour Townships.
Four known dead, no names.

Towns and Villages Burned.
Haileybury; North Cobalt, Heaslip, Charlton, North Timiskaming, Thornloe.
Also several settlements along the White River. New Liskeard and Englehart partly burned.
Towns and villages which escaped: Cobalt, Latchford, Earleton, Elk Lake, Gowganda.
The fire zone does not extend north of Englehart.

paralytic, a patient in the hospital who could not be carried to safety; a young man named Rochon; a child not identified, a lad named Allokkan, son of the late Jack Allokkan; a three months' old baby, whose body was found in Lake Timiskaming, the parents being unknown; four unidentified men; two unidentified women; and two persons whose bodies were so badly burned that it was not possible to determine the sex.

GOVERNMENT AID FOR THE FIRE SUFFERERS

Loans to be Extended and Help in Establishing Insurance Claims.
A despatch from Toronto says:—Practical aid towards re-establishment is now actively augmenting the works of compassionate relief amongst the Northern fire sufferers. A representative from the Provincial Agricultural Development Board is now in the devastated area endeavoring to work out a scheme for Government loans to the dispossessed farmers who may wish to start anew, and two representatives of the Provincial Insurance Department left in order to open an office in the centre of the burned district and to afford free assistance to the victims of the disaster in the adjustment of their claims.

The Ontario Government, it was pointed out, at the Agricultural department at the Parliament Buildings, was financially interested in the burned regions to the extent of \$80,000, which represents the total of loans made to the settlers for the purchase of land, the erection of buildings, and the removal of encumbrances. The conditions of these loans, the department stated, had been indeed fortunate for the settlers concerned, inasmuch as the Government had required that all farms upon which advances were made should be fully insured.

Mr. A. G. Farrow, Chairman of the Agricultural Development Board, is the Department's representative in the North. He will assist the settlers in the adjustment of their insurance policies, endeavor to aid them in starting their rebuilding operations, and will report back to the Department upon the extent to which he believes financial co-operation by the Government will be feasible to re-establish those farmers who may have lost their all and who may be left without insurance.

Premier Drury is still in the North and has now penetrated beyond the reach of communication by wire or telephone. It was reported to his office at the Parliament Buildings Friday that the train service throughout the devastated country has been restored and that the Premier had left Cobalt to go further North. The wire communication, however, was said to have been repaired only from North Bay to Englehart.

Hon. J. A. Stewart Passes Away at Montreal
Montreal, Oct. 8.—Hon. James Alexander Stewart, K.C., of Perth, Ontario, Minister of Canals and Railways in the reconstructed Meighen administration of 1921, died in the Ross Memorial Pavilion of the Royal Victoria Hospital here Saturday afternoon after a lingering illness. He was taken ill on June 16 and on July 19 came to Montreal. Death was due to anaemia. He was 55 years of age.

The late Mr. Stewart was a native of Perth, Ontario, and was educated there and at Ottawa College and Osgoode Hall, where he took his L.L.B. degree. He was a King's Counsel and head of the legal firm of Stewart, Hope and O'Donnell, Perth.

Some people can get more music out of a tin horn than others can out of gold-plated instruments.

AIRMEN LEAVING FOR THE EAST
Members of the British air forces leaving for service in the Near East. They were originally destined for Mesopotamia, but rush orders deflected them to the new scene of activity.

GOVERNMENT HAS ORDERED INVESTIGATION INTO CAUSE OF CONFLAGRATION

Relief Trains Carry Supplies to Sufferers—Weather Conditions Improve—Homeless Families Eagerly Awaiting Arrival of Timber for Building Shacks.

Cobalt, Ont., Oct. 8.—The Ontario Government to-day ordered an investigation into the cause of the fire which swept the Northern Ontario territory between Cobalt and Danes, on both sides of the T. and N.O. Ry. The inquiry is prompted largely by charges levelled against the fire-rangering branch of the Lands and Forests Department because of the withdrawal of 800 fire rangers on Sept. 15. Officials of the Department claim that these fire-rangers were not located in the areas laid waste by the fire.

Members of the Provincial Police reported to-day that they had handled 48 bodies, and that practically all had been identified. The relief train is being carried by A. J. Young, of North Bay, arrived here Saturday afternoon, carrying 2,500 loaves of bread, hundreds of cooking stoves, mattresses, blankets, rubber sheets, clothing, etc. for distribution among the refugees. The train went along the line to-day handing out stoves, tents, mattresses, blankets. There was a big trainload, but not enough to supply all the needs, although it greatly relieved the situation.

The train went up to Englehart, and returning to Earleton Junction, started out on the Elk Lake line. They proceeded to Kenabek, where a large trestle had been burned out. This will mean that the final fourteen miles of the Elk Lake district will be cut off for ten days yet until a new trestle can be constructed. Seven more carloads of supplies reached here from Toronto this morning and will be held until the Commission returns from the north. These cars will be taken over the devastated area to-morrow.

The officials of the Red Cross here wired to Toronto for four more nurses to assist in distributing the supplies and give aid to persons suffering from injuries and exposure. Radio-telephony was used by an aeroplane to direct artillery fire for the first time in Canada at Camp Sarcee, Alta. An aeroplane from the High River Government air station co-operated with the Royal Canadian Horse Artillery, and assisted the firing by means of radio-telephony. Officers of the artillery state that the directions of the pilot in the air were heard distinctly on the ground and enabled them to direct the firing of the battery with great accuracy.

A total of 18,250 pupils attended elementary and secondary schools, exclusive of Indian schools, which were not under the control of the Department of Education in the different provinces of the Dominion in 1921, according to a report of the Bureau of Statistics. Of this number 335 pupils were in Prince Edward Island, 1,635 in Nova Scotia, 645 in New Brunswick, 7,530 in Ontario, 1,148 in Manitoba, 3,386 in Saskatchewan, 2,274 in Alberta, and 1,291 in British Columbia.

The progress of rural hydro electric systems in Ontario under the 50 per cent. bonus legislation is shown in the fact that the government has sanctioned 508 miles of construction and that approximately one-half of this work is completed. At present the rural hydro-lines are serving a total of 8,000 customers in 70 townships. The government's share of the capital cost has already reached a total of \$300,000.

IF WINTER COMES!
A Good Friend Passes
Rev. Byron H. Stauffer, journalist, preacher, lecturer and all-round friend of humanity, who died suddenly in Toronto. He was widely known throughout Canada.

GREEKS MUST EVACUATE THRACE BEFORE ALLIES SURRENDER IT TO TURKS

Great Britain and France Send Joint Note to Kemalists—Allies Will Occupy Thrace for Period of 60 Days—Demand That Neutral Zones be Respected.

London, Oct. 8.—Mudania again became the chief scene of action in the Near Eastern crisis when to-day, on instructions from their respective Governments, the Allied generals resumed negotiations with the Turks. As a result of the Lord Curzon-Poincaré agreement reached at Paris yesterday, the Greek troops evacuate Eastern Thrace immediately if the Allies guarantee protection to Christian minorities for thirty days after the evacuation of the Greeks, the Allies are now in a position to advance a counter-proposal to Turkish demands to occupy Thrace at once, while it is hopefully believed here that the Turks will agree.

It was pointed out in official quarters here to-night that the Allied offer to the Turks for the Greek evacuation of Eastern Thrace is contingent upon the Turks agreeing to respect the integrity of neutral zones. It is also understood that General Sir Charles Harrington has power to make an agreement with the Turks in respect to their positions in the Chank area, which will not force them to evacuate entirely that zone if in his judgement the Turkish forces occupy positions which do not jeopardize the British positions there.

Armistice Negotiations Again at Standstill.
Constantinople, Oct. 8.—Again there has been a halt in the armistice negotiations at Mudania. Two of the three members of each of the Allied

delegations returned to Constantinople this evening. General Harrington, Colonel Vitelli and Colonel Chatelet remained at Mudania. An explanation of their return, one of the delegates informed the Associated Press. "We have returned to consult with the High Commissioners because the final Paris instructions have not yet reached Mudania. We shall return to Mudania to-night."

At to-day's conference the Turks refused to specify the number of gendarmes they desired to send to Thrace. The British delegation had instructions to insist on limitation of the number permitted. In the course of the afternoon session, General Harrington demanded of Ismet Pasha that the Turks withdraw their forces from the neutral zone near Ismid. Unless this was done, he declared, he might be obliged to make a demonstration on both flanks of the Turkish forces.

Immediate suspension of the ferry boats on the Bosphorus and the Sea of Marmora has been ordered by the British. With reference to the non-arrival of instructions, it was stated that the British had received all their instructions from London, but the French and Italians were awaiting completion of certain necessary despatches from their Governments. The principal reason for to-night's conference with the High Commissioners was, it is believed, Ismet's refusal to limit the gendarmes.

NOTED WORK OF SIR HENRY THORNTON
New Head of Canadian National Railways Achieved Success in England.

A despatch from London says:—The appointment of Sir Henry Thornton as chief of the Canadian National Railways has created a big sensation in railroad circles here, where Thornton has occupied a foremost position, especially since the war, when he rendered services that won high recognition not only from the British but also the Allied Governments.

Sir Henry's original appointment as general manager of the Great Eastern railway in 1912 was a big surprise to the railroad world. President Lord Claud Hamilton's justification of it at the time was on the ground that it was impossible to find a British railroad man to fill the position excited keen hostile comment.

Sir Henry made good, however, and came to be recognized as one of the commanding personalities in the British railroad world. He completely revolutionized the Great Eastern system of management and control, making it a model line in many important respects. The rate of assessment for haul insurance for Alberta for 1922, was fixed at five per cent. by members of the Hail Insurance Board. This is a reduction of 100 per cent. from the 1921 assessment.

Weekly Market Report

Toronto.
Manitoba wheat—No. 1 Northern, \$1.08.
Manitoba oats—Nominal.
Manitoba barley—Nominal.
All the above track, Bay ports.
American corn—No. 2 yellow, 86c; No. 3 yellow, 84c, all rail.
Barley—No. 3 extra, test 47 lbs. or better, 55 to 58c, according to freights outside.
Luckywheat—Nominal.
Rye—No. 2, 62 to 67c.
Milfeed—Del., Montreal freight, bags included: Bran, per ton, \$21; shorts, per ton, \$23; good feed flour, \$1.70.
Ontario wheat—No. 2 white, 88 to 93c, according to freights outside; No. 3, 85 to 90c.
Ontario No. 2 white oats—35 to 37c.
Ontario corn—Nominal.
Ontario flour—Ninety per cent. pat., in life bags, Montreal, prompt shipment, \$4.50 to \$4.60; Toronto basis, \$4.45 to \$4.50; bulk seaboard, \$4.30 to \$4.35.
Manitoba flour—1st pat., in cotton sacks, \$6.80 per 100 lbs.; 2nd pat., 50c; Hay—Extra No. 1, per ton, track, Toronto, \$16; mixed, \$13.50 to \$14; clover, \$13.50 to \$14; straw, \$9, car lots.
Cheese—New, large, 20 to 20½c; twins, 21 to 21½c; triples, 21½ to 22c; Stiltons, 21c. Old, large, 23 to 24c; twins, 24 to 24½c; Stiltons, 25c.
Butter—Finest creamery prints, 39 to 40c; ordinary creamery prints, 35 to 37c. Dairy, 29 to 31c. Cooking, 21c.
Dressed poultry—Spring chickens, 30 to 35c; roosters, 23c; fowl, 24 to 27c; ducklings, 22 to 26c; turkeys, 30 to 35c.
Live poultry—Spring chickens, 25c; roosters, 17 to 20c; fowl, 20 to 25c; ducklings, 22 to 26c; turkeys, 30 to 35c.
Margarine—20 to 22c.
Eggs—No. 1 candled, 35 to 36c; Eggs—No. 1 uncandled, 35 to 37c; selects, 33 to 41c; cants, 48 to 50c; \$4.25; prints, \$3.75 to \$3.90.
Maple products—Syrup, per imp. gal., \$2.20; per 5 imp. gals., \$2.10; maple sugar, lb., 20c.

Honey—60-lb. tins, 13c per lb.; 5-2½-lb. tins, 14 to 15c per lb.; Ontario comb honey, per doz. \$3.75 to \$4.50.
Potatoes—New Ontario, 80 to 90c.
Smoked meats—Hams, med. 25 to 26c; cooked ham, 42 to 45c; smoked ribs, 25 to 28c; cottages, 20 to 25c; breakfast bacon, 32 to 35c; special brand breakfast bacon, 38 to 40c; backs, boneless, 39 to 43c.
Cured meats—Long clear bacon, \$17; lightweight rolls, in barrels, \$48; heavyweight rolls, \$40.
Lard—Pure, 15½c; tubs, 16c; pails, 16¼c; prints, 18c. Shortening, tierces, 13 to 13½c; tubs, 13¼ to 13½c; pails 14 to 14½c; prints, 16½ to 17c.
Choice heavy steers, \$7 to \$7.50; do, good, \$5.50 to \$6; do, med., \$4.50 to \$5.50; do, com., \$3.50 to \$4; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.50; do, com., \$4 to \$4.25; butcher cows choice, \$4 to \$5; do, med., \$3 to \$3.50; canners and cutters, \$1 to \$2; butcher bulls, good, \$3.50 to \$4.75; do, com., \$2.50 to \$3.50; feeders, good, \$5 to \$5.75; do, fair, \$4.25 to \$4.75; stockers, good, \$4.25 to \$5; do, fair, \$3 to \$4.50; milkers, \$70 to \$90; springers, \$80 to \$100; calves, choice, \$10 to \$12; do, med., \$8 to \$10; do, com., \$4 to \$7; spring lambs, \$10.50 to \$11; sheep, choice, \$5 to \$6; do, good, \$3.50 to \$4.50; do, com., \$1 to \$3; yearlings, choice, \$7 to \$8; do, com., \$4 to \$5; fed and watered, \$11.50 to \$12; do, f.o.b., \$10.75 to \$11.25; do, country points, \$10.50 to \$11.
Montreal.
Oats—No. 2 CW 60c; No. 3 CW, 52c. Flour, Man. spring wheat pat., firsts, \$6.90. Rolled oats, 90-lb. bags, \$2.90 to \$3. Bran, \$20. Shorts, \$22. Hay, No. 2, per ton, car lots, \$17 to \$18.
Cheese, finest easterns, 17c. Butter, choicest creamery, 34c. Eggs, selected, 40c.
Good cows, \$4; do, med., \$3.40; good quality cutters, \$2.25; com. light bulls, \$2 to \$2.25; calves, suckers, \$9 to \$8.75; grass calves, \$3 to \$3.50; lambs, good lots, \$10 to \$10.50; med. lambs, \$8 up; sheep, \$2.50 to \$4; do, high grade, \$3.50; hogs, selects, \$12 to \$12.25; sows, choice, \$9.50 to \$10.50.

Canada From Coast to Coast.

Summerside, P.E.I.—Machinery has been ordered for a modern cold storage plant to serve this town as well as the surrounding country. The numerous fox ranches in this locality who are very large users of meat and abattoir by-products will now be able to purchase the meat in large quantities at a time and place in cold storage for use in the warm weather.

Sydney, N.S.—The largest cargo of steel products ever shipped to the Antipodes cleared from here on Sept. 20 for Australia and New Zealand, with 2,200 tons of the output of the Dominion Steel plant on board.

St. John, N.B.—Final approval has been given by the International Board of Health for the grant of \$27,000 per year for two years from the Rockefeller Foundation for the promotion of a health program in New Brunswick. The money will be devoted to extending the system of medical inspection and clinical work throughout the entire school system of the province, and was available when the schools re-opened.

Montreal, Que.—Flour shipments from the port of Montreal to Europe are considerably heavier than last season and give indications at present of keeping up to the new level. Up to the end of last month and including Sept. 2, the total shipments of Canadian flour reached 1,732,948 bags, as compared with 1,582,038 bags for the same period last year. Not a liner has left this port without carrying a consignment of flour.

Toronto, Ont.—Ontario is to have a great poultry community, similar to that at Petaluma, California. The City of Petaluma, with a population of over 6,000 people, was organized and built entirely on the product of the White Leghorn. There are more than 6,000,000 hens in the district, and annually over 400 cars of eggs are shipped therefrom. The Ontario community will be started on a tract of 500 acres north of Toronto, which is to be subdivided into approximately 75 poultry plants, each owned independently, but working on a semi-cooperative basis. Upward of 100,000 layers will be accommodated and it is estimated that 100 cases or more of eggs a day will be produced when the community is fully developed. This product will be graded in accordance with the government standard, and sold under the community trade mark direct to the consumers.

Arborg, Man.—The first annual sheep fair and fat lamb sale held here, combining the interests of sheep breeders, livestock exchanges and agricultural colleges, was a great success. More than 700 animals were shown and sixty prizes donated bringing money to over 300 head. At the conclusion of the sale, 689 of the animals shown were purchased by outside parties. An important feature of the sale was the distribution of a carload of purebred rams of special quality, to encourage breeding in the district.

Edmonton, Alta.—Coal production in the Drumheller fields has mounted to 6,825 tons daily and will shortly be increased to between 8,000 and 9,000 tons. All the coal camps in Alberta and Eastern British Columbia are now working, and much of the product is being shipped to Saskatchewan and Manitoba. It is expected ample coal will be mined to meet all the requirements of Western Canada.

Vancouver, B.C.—Refrigerator space for carrying approximately 600,000 boxes of apples from British Columbia orchards to Great Britain and Europe will be provided this season by steamers sailing from this port. Last year the services carried nearly 500,000 boxes of apples to the other side of the Atlantic, via the Panama Canal.

Perhaps His Teeth Hurt.

Many of us remember the story of the boy who would not eat his crusts. Possibly as a punishment he was changed into the bird in this anecdote, which I had long printed. A Philadelphia lad keeps a pan of fresh clean water in her garden for the birds. One day one of her visitors happened to be a fine, slick blackbird. He moved about, occasionally perching himself on the edge of the pan and dipping his bill into the water. Suddenly he cocked his head on one side and then flew a few feet away, where a crust of bread was lying. Peeking away for a moment, he saw with the crust to the edge of the pan and dropped it into the water. With he had stood guard for a short while he quickly took up the softened crust and, swallowing it, flitted away. From a hard dry crust he had made a palatable morsel.

The Young in Heart.

The little girl was crossing the ocean with her mother. One day she had been playing merrily at shuffleboard with a middle-aged gentleman who had made her acquaintance, and who took a great deal of pleasure in teaching her the game. Her mother, coming in search of her, found her just as she had stopped playing. "What have you been doing, my dear?" asked the mother. "I've been playing with that young man over there," the little girl replied. The mother looked across at the middle-aged gentleman, and smiled. "How do you know when people are young?" she asked. "Oh," replied the little girl confidently, "young people see those that have a good time!"

ORIGIN OF NOTE-WORTHY INVENTIONS

WELSH MECHANIC USED GAS FOR LIGHTING.

Bessemer, of Steel-Making Fame—Automatic Lock Developed from a Dream.

In these days it is hard for us to realize the sensation made by the discovery of the usefulness of gas as an illuminant. That takes us back a long way, nearly to the beginning of the last century, but it serves to illustrate the incredulity with which people generally are disposed to view any departure that is wholly novel.

The originator of this idea, William Murdoch, was a poor mechanic. When, in 1796, he lighted his little home at Redruth, in Wales, with coal gas, his neighbors thought he was in league with the devil. Later on, he managed to get capital interested, and the matter came up for consideration in Parliament.

One honorable member of a parliamentary committee said to Murdoch, "Do you tell me that it will actually be possible to have a light without a wick?" And, when the inventor made an affirmative reply, he shook his head, saying, "Ah, my friend, you are trying to prove too much!"

No end of fun was made of the idea. People imagined that the gas went through the pipes on fire, and foresaw awful results. In 1809 Lady Louis Moynaux, in a letter to a friend, wrote: "They have tried a dangerous experiment in the House of Commons, which was lighted so brilliantly that one could read the smallest print with ease. A dazzling glare came from thousands of apertures in gas-pipes. Fire engines were in attendance, and hose was laid along every pipe. But they will not venture to try it again."

Achievement of Berliner.
Speaking of talking machines, the disc phonograph—known commercially as the gramophone—was the invention of a man who, employed in early life as a clerk, paid a mechanic fifty cents a night to teach him something about electricity. The teacher was very ignorant, and that was one reason why the pupil, Emile Berliner, was led off the beaten track. He began to make discoveries for himself, and finally evolved ideas which rendered the long distance telephone practicable. The Bell Company's monopoly is now held under the Berliner patents.

The disc phonograph came much later, and it was the privilege of the writer to prepare the first article about it that ever was printed. He took it to Mr. Berliner in the manuscript for correction, and the inventor, delighted to find that it contained not a single error, gave him his indorsement for publication. Mr. Berliner is still living in Washington, and has recently been interested in the development of a "helicopter" flying machine.

Most curious in its origin was the invention of a young engineer named Springer. He got his idea from a dream. For some time he had been trying to devise an automatic lock to brake wagons going down hill, so that the driver would not have to get out. He dreamed that he was driving down a steep hill, and had just such a lock on his wagon. He noticed exactly how it was constructed. On waking, he got up, sketched on a piece of paper the details of the mechanism, and went back to bed. Three days later he applied for a patent, which brought him \$25,000 in the first year.

The "poop inventor" is a term proverbial. Nevertheless, many poor men have become rich through their inventions.

Invented Time Clock.
Sir Henry Bessemer, who invented the steel-making process, was a poor boy who came to London from country town to seek his fortune. Cyrus McCormick, who created the reaper and self-binding harvester, died worth \$20,000,000. W. L. Buldy was a watchmaker. He invented the time clock which keeps tab on employees in factories and places of business, and it made him rich.

Charles M. Hall was a student at Oberlin College when he discovered a means whereby aluminum could be cheaply separated from its ores. The method was simple enough, but it brought him wealth and made the white metal available for the housewife's pots and pans. Mergenthaler was an expert mechanic. His mechanical typesetter netted him millions. W. W. Jenne and C. L. Sholes, who did most to develop the typewriter (though their names are known to few), were both enriched thereby. The same is true of Charles J. Van Depoele who invented the under-running trolley which drives street cars in our cities. He was a cabinet-maker in Detroit, and took up the study of electricity for evening amusement.

L. C. Crowell, inventor of the newspaper folder, was a mechanic. His idea was well worth the fortune it gained for him. Lack of a folding device had set a limit on the output of the press. But the folder takes newspaper sheets as they receive the impressions folds them, packs them in neat shape, and stacks them all ready for distribution.

Twice as much power is required to stop a train as to start it.

A MOTHER'S DUTY TO HER DAUGHTER

Health Must be Guarded as She Comes to Womanhood.

Every mother who calls to mind her own girlhood knows how urgently her daughter is likely to need health and strength during the years between early school days and womanhood. It is then that growing girls droop and become bloodless and nervous. Nature is calling for more nourishment than the blood can supply, and signs of distress are plainly evident in dull eyes, pallid cheeks, weak and aching backs and a dislike for proper food. These signs mean that the blood is weak and watery. The watchful mother takes prompt steps to give the new, rich blood her system calls for by giving her Dr. Williams' Pink Pills.

No other medicine has ever succeeded like them and thousands of mothers have proved their worth. Mrs. W. H. McIntyre, Gananogue, Ont., tells what these pills have done for both herself and her daughter. She says:—"I have used Dr. Williams' Pink Pills for many years, especially in times of weakness and general debility, and have found them a most satisfactory medicine. After a severe attack of influenza I found myself in a nervous condition and resorted to my old tonic—Pink Pills—and they did not fail me. I also gave them to my eldest daughter, who was in a serious condition due to ailments of her age. She complained of headaches and backaches, and would often grow hysterical. She began taking the pills and was soon on the road to health again. She never complains now of headaches or backaches, and I give the credit to Dr. Williams' Pink Pills. Whenever I see any of my children ailing or in need of a blood tonic, I give them these pills and always with the best results."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta is now the seventh province of the Dominion that has committed itself to a policy of governmental regulation of wages for women. In British Columbia, Saskatchewan, Manitoba, and Ontario government regulation is well under way; in Alberta, Quebec and Nova Scotia the requisite legislation has been enacted, but the acts are not yet in force. Alberta has not yet had time to take action; but Nova Scotia and Quebec have had the legislation on their statute books for three years. Action will probably be all the more effective for the delay, for these two provinces will soon have a wealth of experience in other parts of the Dominion to guide them, when they do begin to enforce their Minimum Wage Acts.

There is a general conviction throughout Canada that some governmental action should be taken to protect workingwomen from each other and from exploitation by cheap employers. That is to say, there is a large percentage of our workingwomen who are entirely dependent upon their own earnings, and it is felt that the right of these women to a living wage should be upheld in the face of the fact that many semi-dependent women are naturally willing to work for less than a living wage. Minimum wage laws in Canada, then, have been passed largely with the aim in view of making it illegal for an employer to pay or a female worker to accept less than a certain rate of wages, deemed

by the Wages Board to approximate to a fair standard of living. In Great Britain minimum wage legislation applies to men as well as women, but in Canada, whether wisely or not, little has been said about protecting that fluctuating, vague and inarticulate body of men workers which is fortunately smaller here than in many other countries. In all countries where minimum wage legislation has been enacted, the ultimate aim of the legislators is to create decent standards of living where they do not exist, and thus give to all classes of workers a sense of self-respect which will in time engender enough independence of spirit to enable them to look after themselves. That self-respect is conspicuously lacking among those workers whose standards are still of the lowest order. It is found that many such workers do not appear to care whether their wages are raised or not. Their indifference is born of physical under-nourishment, and applies to almost all phases of their existence. It is to the advantage of the workers, of the province, and of individual employers as well, that apathy of this kind be done away with.

British Columbia has had the longest experience of any Canadian province in the field of minimum wage legislation. Industries have been dealt with one by one, until wages have been regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

The Bold Heart.

This time I did not win,
And shall I then
Go with bowed head
And never try again?

No, rather let me strive
The harder still
Until I bend my fortune
To my will.

Let me not break nor bend
But let me be
Stronger than any fate
That comes to me.

Let me be bold of heart
And learn to read
In every failure
How I may succeed.

—Abigail Cresson.

His Lucid Moment.
A doctor had been called to see a man who was very ill. He examined him and said to the nurse: "You must watch the case very closely through the night, and tell me all the symptoms when I come back in the morning."

The man became worse during the night and talked a lot of nonsense in his fever.
When the doctor returned in the morning, he said to the nurse: "Tell me exactly what happened after I left."
"You were hardly out of the room," she began, "when he said: 'When did that old fool say he was coming back? Those were the last sensible words he spoke.'"

Muhrah!
Young Alderman—"Just imagine, those rascally street railway people had the nerve to offer me a hundred thousand to vote for their measure."
His wife—"Oh, Henry! I always knew you'd make good."

You get cheerfulness out of life in proportion as you put cheerfulness in. You cannot invest counterfeit coin and expect dividends in real money.

Minimum Wage Legislation
By Elizabeth P. MacCallum, M.A., Social Service Council of Canada

Alberta is now the seventh province of the Dominion that has committed itself to a policy of governmental regulation of wages for women. In British Columbia, Saskatchewan, Manitoba, and Ontario government regulation is well under way; in Alberta, Quebec and Nova Scotia the requisite legislation has been enacted, but the acts are not yet in force. Alberta has not yet had time to take action; but Nova Scotia and Quebec have had the legislation on their statute books for three years. Action will probably be all the more effective for the delay, for these two provinces will soon have a wealth of experience in other parts of the Dominion to guide them, when they do begin to enforce their Minimum Wage Acts.

There is a general conviction throughout Canada that some governmental action should be taken to protect workingwomen from each other and from exploitation by cheap employers. That is to say, there is a large percentage of our workingwomen who are entirely dependent upon their own earnings, and it is felt that the right of these women to a living wage should be upheld in the face of the fact that many semi-dependent women are naturally willing to work for less than a living wage. Minimum wage laws in Canada, then, have been passed largely with the aim in view of making it illegal for an employer to pay or a female worker to accept less than a certain rate of wages, deemed

by the Wages Board to approximate to a fair standard of living. In Great Britain minimum wage legislation applies to men as well as women, but in Canada, whether wisely or not, little has been said about protecting that fluctuating, vague and inarticulate body of men workers which is fortunately smaller here than in many other countries. In all countries where minimum wage legislation has been enacted, the ultimate aim of the legislators is to create decent standards of living where they do not exist, and thus give to all classes of workers a sense of self-respect which will in time engender enough independence of spirit to enable them to look after themselves. That self-respect is conspicuously lacking among those workers whose standards are still of the lowest order. It is found that many such workers do not appear to care whether their wages are raised or not. Their indifference is born of physical under-nourishment, and applies to almost all phases of their existence. It is to the advantage of the workers, of the province, and of individual employers as well, that apathy of this kind be done away with.

British Columbia has had the longest experience of any Canadian province in the field of minimum wage legislation. Industries have been dealt with one by one, until wages have been regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

are regulated. In almost every industry in which women are largely employed. Wages for adult workers

Geography in Names.

Many things we use every day are named after the towns from which they originally came.

For instance, probably you have a pair of worsted socks, which were once made at Worcester, but which nowadays come principally from Huddersfield; or a Panama hat, which comes from Ecuador instead of the place from which it took its name. Cambrie handkerchiefs are so-called from the town of Cambrai, in France.

"Tweed suits, Inverness capes, and Leghorn hats" are examples of the same thing. The connection between damsons and Damascus is not so obvious, but damson is really only a contraction for "Damascene plum." Cur-rants get their name from the fact that originally they were made from small grapes, which still grow near Corinth, in Greece; they were formerly called Corinthians.

Cherries came from the city of Cerasus, which once stood in Asia Minor, while chestnuts preserve the name of Castana, another city of the past, whence the trees first came to Europe.

The names of two cheeses, Cheddar and Stilton, come from two villages, one in Somerset and the other in Huntingdonshire. Worcester, Dresden, and Severs have all given names to different kinds of china, and Delft, a small Dutch town, is remembered by Delft pottery.

A GOOD MEDICINE FOR THE BABY
Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Saluste Pelletier, St. Damas des Aulaines, Que., writes:—"I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Awaiting Her Tricks.
Bobby—"Are you the trained nurse mamma said was coming?"
The Nurse—"Yes, dear, I'm the trained nurse."
Bobby—"Let's see some of your tricks."

"No one is living aright unless he so lives that whoever meets him goes away more confident and joyous for the contact."
The Wage Boards of Manitoba and Ontario have made a large number of awards, and are experimenting in differential wages for various localities according to size. Their awards are not generally as high as those in Saskatchewan and British Columbia, but by the use of the informal conference with employers and employees, they are making a valuable addition to the world's experience in minimum wage regulation.

A Vision of the Era of Love.
Julia Ward Howe, who devoted her life to the service of humanity had a wonderful vision before she passed to the beyond. The story of it is here given in her own words.
"One night recently I experienced a sudden awakening. I had a vision of a new era which is to dawn for mankind and in which men and women are battling equally, unitedly, for the uplifting and emancipation of the race from evil.
"I saw men and women of every clime working like bees to unwrap the evils of society and to discover the whole web of vice and misery, and to apply the remedies and also to find the influences that should best counteract evil and its attendant suffering.
"There seemed to be a new, a wondrous, ever-permeating light, the glory of which I cannot attempt to put in human words—the light of new-born hope and sympathy blazing. The source of this light was human endeavor—immortal purpose of countless thousands of men and women, who were equally doing their part in the world.
"I saw the men and the women, standing side by side, shoulder to shoulder, in a common and indomitable purpose lighting every face with a glory not of this earth. All were advancing with one end in view, one foe to trample, one everlasting good to gain.
"And then I saw the victory. All of evil was gone from the earth. Misery was blotted out. Mankind was emancipated and ready to march forward in a new era of human understanding, all-encompassing sympathy and ever-present help. The era of perfect love of peace passing all understanding."

Has Never Felt Better in All Her Life
Thousands of frail, nervous, peopled and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength, and working efficiency. It seems to quickly invigorate the constitution and is a powerful foe of weakness. Mrs. Emma Miles, 125 Tecumseh Ave., London, Ont., says:—"I suffered terribly from stomach trouble, headaches and dizzy attacks, and was so weak, nervous and run down it was all I could do to get about. Since I've taken Tanlac, my stomach is in splendid order, the headaches and other troubles have left me and I'm simply feeling fine."
There is not a single portion of the body that is not benefited by the helpful action of Tanlac. It enables the stomach to turn the food into healthy blood, bone and muscle, purifies the system and builds you back to normal weight. Get a bottle to-day at any good druggist.

Our Work is Born With Us.
"No man is born into this world," says Lowell, "whose work is not born with him." Look out for your boy and girl. Their work is indicated in their blood, in the very make-up of their constitution. Teach them this from the start. Impress upon their young minds the fact that their tendencies, their aptitudes, are indications of the thing that they are especially fitted to do; that they were sent here on some definite mission by the Creator of the universe, and that they will never be really happy or successful until they are doing that for which God planned them.
Round pegs in square holes are never contented, never happy, never satisfied. A large percentage of our criminal class comes from these discontented, misplaced human beings. There is no greater service parents can do their children, or teachers their pupils than help them find their work—their true place in life. There is no more pitiable person in the world than the misfit, the one who has not found his work.—O. S. Marden.

"Cascarets" 10c
For Sluggish Liver or Constipated Bowels
Clean your bowels! Feel fine! When you feel sick, dizzy, upset, when your head is dull or aching, or your stomach is sour or gassy, just take one or two Cascarets to relieve constipation. No gripping—nicest laxative-cathartic on earth for grow-ups and children. 10c a box. Taste like candy.
Her Specialty.
"Malachi," asked Mr. Casey, "can your wife cook as well as your mother did?"
"She cannot," replied Malachi, "but me friend, I niver minton it, for she can throw considerably better."

Has Never Felt Better in All Her Life

PUT STOMACH IN ORDER AT ONCE

"Pape's Diapepsin" for Gas, Indigestion or Sour Stomach
Instantly! Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heart-burn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for few cents.

When Moonlight Falls.
When moonlight falls on the water,
It is like fingers touching the chords of a harp
On a misty day.
When moonlight strikes the water
I cannot get it into my poem—
I only hear the water's fingers and the moon's rays
Intertwined.
I think of all the words I love to hear
And try to find words white enough
For such shining.
—Hilda Conkling.

MOTHER!
Your Child's Bowels Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful to-day may prevent a sick child to-morrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottles. Mother! You must say "California" or you may get an imitation fig syrup.

FOLLOWED MOTHER'S ADVICE
Took Lydia E. Pinkham's Vegetable Compound—Now Enjoys Good Health

Kessock, Saskatchewan—"My mother has taken Lydia E. Pinkham's Vegetable Compound and upon learning of my troubles advised me to try it, as I seemed all run down after the flu, and had some troubles such as women are apt to have. I have taken Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine and used the Sanative Wash. Also Dr. Brown's Capsules and Prescription and am so much better in every way. I am willing for you to use my letter as a testimonial as I recommend your medicines."—Mrs. IRENE NELSON, Kessock, Saskatchewan.
When backaches and headaches drive out all ambition, when that bearing-down sensation attacks you, when you are nervous and blue, the one great help for such ailments is Lydia E. Pinkham's Vegetable Compound.

Studebaker

SPECIAL-SIX SEDAN

\$2950

Judge Its Quality—Then Price

There's something alluring about the Studebaker Special-Six Sedan. You notice it when you pass one on the street. It grows on you as you examine the car's details. It becomes even more pronounced when you take the wheel and drive it.

No wonder the Special-Six Sedan carries such an appeal! Its beauty of line, finish and appointments fascinates you. The delightful harmony of color in the upholstery, the completeness of the appointments and the soft carpeting afford real elegance—and at a new low price.

The body is a striking example of the handicraft of Studebaker artisans. Built in Studebaker plants where the coachmaker's art has been handed down from father to son for more than two generations.

It is mounted on the same dependable Special-Six chassis that has added new fame to the name Studebaker wherever cars are known.

Compare its appearance, its endurance records, its comfort, its equipment and its recognized reliability with any car within hundreds of dollars of its price. Judge it on quality first—then price—because price alone is no indication of its intrinsic value.

You can have confidence in the quality of Studebaker cars—in the 70 years of business success and manufacturing integrity back of them—and in the sterling dollar-for-dollar value built into them. The name Studebaker on your car insures satisfaction!

Nearly all children are subject to worms and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Fruit & Produce Sales are increased

by Long Distance

Quotations from recent reports:

"Of 48 cars of fruit for immediate sale, two-thirds were sold by Long Distance."

"% of our calls are from customers 'Collect,' our Company paying the charges."

"We use Long Distance frequently at night by arrangement with correspondents."

"Sold most of our canning pack by Long Distance."

"Whenever I have a surplus of produce I use your classified directory to get in touch by Long Distance with new customers."

We can tell you how to apply Long Distance to almost any business

Died

GLASGOW.—In Glencoe, on Monday, October 9, James Glasgow, in his 61st year.

Card of Thanks

Mr. and Mrs. Neil L. Leitch wish to extend thanks to their friends and neighbors for assistance and sympathy shown them in their recent bereavement.

TOWN AND VICINITY

The high school board is advertising for an additional teacher.

Ground was broken on Monday for the Carnegie library at Glencoe.

Wardsville schools had their annual field day exercises announced for yesterday.

Where the hitching post once stood in front of the country grocery there is now a gasoline filling station.

New telephone directories have been distributed. The total number of telephones catalogued at Glencoe is now 334.

Harley Luckham, ledger keeper, has been transferred from the Royal Bank, Embro, to the branch of that bank at Florence.

PERSONAL AND SOCIAL

John Fletcher, who for 39 years has been connected with the Fletcher Manufacturing Company, died at his home in Toronto on Tuesday.

A Cowal correspondent writes:—Duncan Stuart, of Glencoe, has finished building the Campbell bridge, and everyone pronounces it a first-class job.

Rev. D. G. Paton will conduct anniversary services at Komoka next Sunday, and Rev. C. G. Graham, of Mount Brydges, will supply the pulpit here.

The revolver is of no use whatever except as a handy tool in the committing of murder. Its manufacture, except as a war weapon, should be prohibited.

The marriage took place at the manse, Napier, recently of Hector McLean, of Brooke township, and Miss Lulu McLean, daughter of Wm. McLean, of Metcalfe.

A few days ago while hauling gravel Simpson Goff was thrown off a load through the horses taking fright. Mr. Goff had three ribs broken and received minor injuries.

Do you ever have trouble with your canned fruit or vegetables spoiling? Try this: When you put them away wrap them in dark blue paper and put them in a dark place.

A jolly time was spent on Friday evening when Leslie Reeves entertained about twenty-five young people at his home. Music and games featured the evening, after which refreshments were served.

The following additional donations have been received by the I. O. O. F. for their memorial hall:—Jas. Poole, \$15; Mrs. McCutcheon, \$1; a friend, \$2; Wm. Kerr, \$1; Alex. McNeill, \$5; Frank Hayter, \$1.

James B. Bowes, of Chatsworth, a weather prophet, whose predictions for this year have so far been fairly well met, says the coming December will be the warmest on record and the winter to follow will be the mildest possible.

Thomas Albert Faulds, well-known insurance man of London, died at his residence in that city on Sunday, following an extended illness. Deceased was in his 61st year and is survived by his widow, Harriet Faulds. He formerly lived at Wardsville.

While Cliff Davis, of Wardsville, was returning from London one night recently in a dense fog, his car ran into an embankment near Strathburn where a culvert was being constructed. The car was badly damaged, but the occupants escaped unhurt.

While John B. Heary was assisting the Eckardt Concert Company to place their baggage in the opera house on Thursday afternoon, he got the little finger of his right hand caught between a rope and pulley, which severed it at the second joint.

By a Dominion law which went into effect on April 1st, regulating the handling of baled hay, each bale of hay must now bear a tag stating the weight of the bale, in addition to the name and address of the baler, penalty being provided to the extent of \$5 for each bale not labelled.

The death occurred at his home in Bothwell on Friday of Solomon Haggit, in his 35th year. He leaves a wife and three children. Russell and Thos. Haggit and Mrs. Russell Newport, of Glencoe, are brothers and sister. The funeral took place from the family residence to Oakland cemetery on Saturday afternoon.

At the regular meeting of the Presbyterian Guild held on Monday evening, Miss Jessie McAlpine, convenor of the devotional committee, occupied the chair. Alex. McAlpine gave an inspiring address on "Prayer," and Miss Mayme Grant rendered a pleasing solo. The next meeting will be in charge of the literary committee.

In the horse racing at Wallace town fair, J. Henderson, Glencoe, took first in the 2.25 class; Morse, of Bayham, second; Kearns, of Wardsville, third; Miller, of Dutton, fourth, and Smith, of Glencoe, fifth. In the 2.40 class McDonald, of Christens, took first; Campbell, of Lawrence, second; Lucas, of Middlemiss, third. In the

PERSONAL AND SOCIAL

—Miss Betty Grant spent the week-end in London.

—Geo. Freeman, of Pontiac, Mich., spent a few days at Mrs. James Walker's.

—Mr. and Mrs. Alfred Squire spent a few days last week in Rodney and Blenheim.

—Mr. and Mrs. Chas. Giles left on Sunday to visit friends at Blind River, New Ontario.

—Morley Squire, with the Hobbs Manufacturing Co., London, spent the week-end with relatives in Glencoe and vicinity.

—Mrs. E. Kaufman, of Brantford, visited her daughter, Mrs. Richard Singleton, last week. Little Francis Singleton accompanied her home.

—Mr. and Mrs. F. Leonard, of Flint, and Mr. and Mrs. G. Streeter and Mrs. H. Streeter, of Port Huron, visited at Mrs. Jas. Walker's last week.

—Thomas McDonald, of Caradoc, announces the engagement of his daughter, Frances Verna, to Carman R. Squire, of South Ekfrid, the marriage to take place this month.

—Miss Mary Hurley visited at the home of her sister, Mrs. D. G. McPherson, Rodney, last week. The many friends of Mr. McPherson, who has been quite ill, will be glad to learn that he is able to be around again.

Wait for the display of Dorothy Dare line of ladies' fall and winter coats, wraps, suits and dresses at Bayne's store, Newbury, Friday, Oct. 20. A lavish variety of new models. Every worth-while idea is included at this showing.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

GOOD MANAGERS

London Advertiser: Strange that people never think of that cracked grate in the furnace until the day they want to light the fire. Queer, too, that they should never have noticed the hole in the stovepipe big enough to throw a cat through until it was time to operate the heating plant. It's not time to put on the storm windows and doors yet, so don't worry about them. You know there are two or three panes of glass that will have to be replaced, but never mind, there's apt to be a few days or so of warm weather, and there will be plenty of time to fix the broken windows when you decide to put them on. You haven't much coal but you have not ordered any wood yet to help you out. The weather has been favorable, and so we just let the thing slide. And you remember that overcoat last winter. You were going to wear it a little longer, but it must go to the tailor shop to be lined and fixed up a bit. Well, wait until the first cold day and then rush down when every person else is urging the tailor to save a life by having the winter coat in shape. Meantime the old garden hose cracks and warps as it hangs on the branch of the apple tree in the backyard, and the lawn mower is just where you left it ten days ago. The rake, the spade and the hoe are—well, we don't know, but we won't need them until the spring, so why worry about them now?

APPIN

Meeting at Mrs. J. B. Fletcher's home on Thursday afternoon, the members of the Appin Women's Institute undertook sewing for the mothers and children in the fire-stricken area of Norburn Ontario. Mrs. Jas. Allan presided in the absence of the president, Mrs. J. W. Macfie, and the business included a gratifying report of the school fair, showing a good balance for next year. Suggestions regarding next year's prize list were received in answer to the roll call. Mrs. J. W. Macfie and Mrs. Peter McArthur were named delegates to the annual convention to be held in London in November. "Our duty to the school and the teacher" was made the subject of a pleasing address by Mrs. Lotjan, and the meeting concluded with afternoon tea served by Mrs. Fletcher and her assisting hostesses. The next meeting will be held at the home of Mrs. Chas. Macfie on Nov. 3.

CAIRO

Mrs. Mary Annett and daughter Leapha and James Coleman and wife were Chatham visitors on Saturday.

Mr. and Mrs. John A. Armstrong, accompanied by Mr. and Mrs. D. L. McGugan, attended the funeral of Mrs. Betsy Mitchell at Kilmartin.

Miss Mona McKeown is spending a couple of weeks in Sarnia the guest of her uncle, J. R. McKeown.

Mrs. Annie Smith, of Detroit, is visiting her niece, Mrs. Alex. Munroe.

John A. Armstrong is remodeling his shop and garage.

A number from here attended the anniversary services at Armstrong church on Sunday.

WOODGREEN

Mr. and Mrs. George Harvey attended the funeral of her grandmother, Mrs. Mitchell, on Wednesday last.

Several bees have been held at the Simpson cemetery to level it off. Mr. Giles has also started to dig it over.

Sorry to report Joe Winger on the sick-list.

Mr. and Mrs. Fred Scoyne, of Blenheim, spent Sunday at D. Perrin's.

The vegetable and fruit shelter for the Wharnciffe Road Shelter was held on Saturday. Although it was a disagreeable day a large amount was contributed.

Mr. and Mrs. T. Simpson and Florence spent a few days at Ridgeway this week.

Say it in The Transcript.

SO EASY TO BE WELLANDSTRONG

Take "Fruit-a-lives" The Wonderful Fruit Medicine

805 CARTER ST., MONTREAL

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headaches and was unable to sleep at night. I was getting so thin that I was frightened.

At last, a friend advised me to take "Fruit-a-lives" and in a short time the Constipation was banished, I felt no more pain, headaches or dyspepsia, and now I am vigorous, strong and well."

Madam ARTHUR BEAUCHER.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Choice winter apples for sale by the bushel. Apply to Thos. A. Brown, R. R. 3, Glencoe.

House on Victoria street to rent; also good, comfortable, small dwelling for sale. Apply to D. Trestant.

Bargains in new fall shoes at Mayhew's.

For sale—some second-hand bugles, some new ones, 2 second-hand lumber wagon—Wm. Allan, wagon maker, Glencoe.

The prizes for the Glencoe fair will not be paid this Saturday but will be paid on the following Saturday.—R. W. McKellar, secretary.

We have our fall showing of millinery ready for early buyers. A complete range of sport and dress hats.—The Keith Cash Store.

Try Humphries for cooked ham, 55c lb.; also corned beef, sausage and bologna. Order your thrashing roast here and get the best.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

For sale—1 baseburner stove, with oven; 1 chiffonier; 1 sideboard; 1 sectional bookcase; 1 bedroom, commode and bedroom chair; tables and chairs.—Mrs. Atkinson, Victoria St.

Wait for the display of Dorothy Dare line of ladies' fall and winter coats, wraps, suits and dresses at Bayne's store, Newbury, Friday, Oct. 20. A lavish variety of new models. Every worth-while idea is included at this showing.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

APPIN

Meeting at Mrs. J. B. Fletcher's home on Thursday afternoon, the members of the Appin Women's Institute undertook sewing for the mothers and children in the fire-stricken area of Norburn Ontario. Mrs. Jas. Allan presided in the absence of the president, Mrs. J. W. Macfie, and the business included a gratifying report of the school fair, showing a good balance for next year. Suggestions regarding next year's prize list were received in answer to the roll call. Mrs. J. W. Macfie and Mrs. Peter McArthur were named delegates to the annual convention to be held in London in November. "Our duty to the school and the teacher" was made the subject of a pleasing address by Mrs. Lotjan, and the meeting concluded with afternoon tea served by Mrs. Fletcher and her assisting hostesses. The next meeting will be held at the home of Mrs. Chas. Macfie on Nov. 3.

CAIRO

Mrs. Mary Annett and daughter Leapha and James Coleman and wife were Chatham visitors on Saturday.

Mr. and Mrs. John A. Armstrong, accompanied by Mr. and Mrs. D. L. McGugan, attended the funeral of Mrs. Betsy Mitchell at Kilmartin.

Miss Mona McKeown is spending a couple of weeks in Sarnia the guest of her uncle, J. R. McKeown.

Mrs. Annie Smith, of Detroit, is visiting her niece, Mrs. Alex. Munroe.

John A. Armstrong is remodeling his shop and garage.

A number from here attended the anniversary services at Armstrong church on Sunday.

WOODGREEN

Mr. and Mrs. George Harvey attended the funeral of her grandmother, Mrs. Mitchell, on Wednesday last.

Several bees have been held at the Simpson cemetery to level it off. Mr. Giles has also started to dig it over.

Sorry to report Joe Winger on the sick-list.

Mr. and Mrs. Fred Scoyne, of Blenheim, spent Sunday at D. Perrin's.

The vegetable and fruit shelter for the Wharnciffe Road Shelter was held on Saturday. Although it was a disagreeable day a large amount was contributed.

Mr. and Mrs. T. Simpson and Florence spent a few days at Ridgeway this week.

Say it in The Transcript.

The Cow Puncher

BY ROBERT J. C. STEAD.

(Copyright The Luson Book Co.)

Synopsis of Preceding Chapters.
Dr. Hardy, famous specialist, and his daughter Irene, meet with an accident while on a morning trip in the foothills of Alberta and find a refuge in the cabin of the Elden ranch where dwell David and his dissolute father. The girl and boy promise to meet again in the future. After his father's drunken death David goes to seek his fortune in town and loses all his money at a pool table. He spends an evening with Conward, his poolroom acquaintance, and two actresses and takes liquor for the first time. Next morning he awakes from a drunken sleep resolved to amend. He is attracted by the singing of a choir girl in a church; then he attended a Socialist meeting. When delivering coal at the home of Mr. Duncan he is offered evening tuition in return for occasional services as a coachman. The first evening he discovers the choir girl in Edith Duncan. Under his tutor's careful direction Dave's education thrives apace. He becomes a reporter on The Call. One Sunday he told Edith the story of his life and his compact with Irene. Conward drops in with talk about "industrial development" and fires David's imagination. They form a real estate partnership. A boom follows, making David a millionaire, but he vaguely distrusts his partner. Roberta Morrison, compiler of the woman's page of The Call, comes to his office one evening and Dave orders dinner.

CHAPTER XII.—(Cont'd.)
"This is all nonsense," said the doctor, impatiently. "There is nothing to it, anyway. The girl had to have some company. What if they did ride together? What—"
"They rode together? Alone?"
"They had their horses along," said the doctor, whose impatience had made way for sarcasm.
"Through the forest, I suppose," said Mrs. Hardy, with an air of one whose humiliation is complete.
"Oh, yes, through the forests, across the foothills, up the canyons, hours of it days of it weeks of it—"
"Stop! You are mocking me. In this hour of shame you are making jests. Call Irene."
The girl was summoned. Her fine face had lost some of its brownness, and the eyes seemed deeper and slower, but she was still a vision of grace and beauty as she stood, in response to their call, framed in the curtains of an archway. Her quick sense caught the tense atmosphere, and she came forward with parted lips and extended fingers. There was the glint of light on her white teeth. "Yes?" she said. "What is wrong? Can I help?"
"Your father has confessed," said Mrs. Hardy, trying hard to speak with judicial calm. "Now tell us about your relations with this young Elden, this cow puncher. Let us know the worst."
Irene's startled eyes flew from her mother to her father's face. And there they caught something that restored their calm.

It wears longer

and the mother had grown to hope that the old attachment had died down and would presently be quite forgotten in a new and becoming passion. The fact is that Irene at that time would have been quite incapable of stating her relation toward Elden and its influence upon her attitude to life. She was by no means sure that she loved that sunburned boy of romantic memory; she was by no means sure that she should ever marry him, let his development in life be what it would. But she felt that her heart was locked, at least for the present, to all other suitors. She had given her promise, and that settled the matter. True, he had not come to claim fulfillment of that promise—and at times she scolded him soundly in the secrecy of her own mind for his negligence through all these years—but she was young, with no desire for a decisive step, and while she chafed under his apparent neglect she felt a sort of tingling dread of the day when he should neglect her no longer. One thing she knew—he had implanted in her soul a firm contempt for men of the set which Carlton typified. They would have thought Dave ignorant; but she knew that if Dave and Carlton were thrown into the wilderness on their own resources, Dave would thrive and Carlton would starve.

Perhaps Dave's education, although not recognized by any university save that of the university of hard knocks, was the more real and valuable of the two. Notwithstanding her contempt for him, the girl found herself encouraging Carlton's advances, or at least not meeting them with the rebuffs which had been her habit toward all other suitors, and Mrs. Hardy's hopes grew as the attachment apparently developed. But they were soon to be shattered. Irene had gone with Carlton to the theatre; afterwards to supper. It was long past midnight when she reached home; she knocked at her mother's door and immediately entered. She was splendidly gowned, but her hair was dishevelled and her cheeks were flushed, and she walked unsteadily across the room.

"What's the matter, Irene? What's the matter, child? Do you see?" cried her mother, springing from her bed. "Oh, dear me, and the doctor is out!"
"No, I'm not sick," said the girl, brutally. "I'm drunk!"
"Oh, don't say that," said her mother, soothingly. "Proper people do not become drunk. You may have had too much champagne, and tomorrow you will have a headache."
"Mother! I have had too much champagne, but not as much as that precious Carlton of yours had planned for. I just wanted to see how despicable he was, and I floated downstream with him as far as I dared. But just as the current got too swift for me, I struck the strain of priding for them in that fashion and at the same time accumulating a reserve for such an eventuality as had occurred and a matter which his wife could scarcely overlook."
About this time it came to the notice of Mrs. Hardy that when the late Mr. Deware had departed this life Mrs. Deware, with her two daughters, had gone on a trip to England to dull the poignancy of their bereavement. The Dewares moved in the best circles. Mr. Deware having amassed a considerable fortune in the brewing business. It was obvious that whatever Mrs. Deware might do under such circumstances would be correct. Upon arrival in this conclusion Mrs. Hardy took no time in buying two tickets for London.

(To be continued.)

Woman's Interests

Tested Recipes.

Grape Conserve—Half peck grapes, two oranges (juice), two lemons, one cup chopped nut meats, sugar equal quantities as you have mixture. Wash fruit, remove grapes from stems. Remove skins from pulp. Cook pulp until soft. Strain to remove seeds. Place the strained pulp and skins in the preserving kettle. Add orange and lemon juice.

Mixed Pickle—Two cups of string beans, two cups of wax beans, one quart cucumbers, one quart onions, one tablespoon stick cinnamon, one tablespoon whole cloves, half tablespoon of allspice, half tablespoon mace, half teaspoon celery seed, one and one-half quarts vinegar, two cups of sugar, one tablespoon mustard seed. Cook the vinegar with the spices and the sugar, then remove the spices. Cook vegetables in vinegar three minutes. Pack in sterilized jars and seal.

Pickled Plums—For sweet pickled plums wipe five pounds of plums with a damp cloth and prick each with a needle five times. Put two and a half pounds of sugar into a saucepan, pour over one quart of mild vinegar and add a spice bag containing one ounce each of whole cloves, allspice and mace and two ounces of broken stick cinnamon. Cook the spiced vinegar for seven minutes; after it begins to boil pour over the plums and let stand overnight. In the morning drain, cook the syrup for another ten minutes and again pour over the plums. Let stand for ten hours, reheat fruit and syrup to the boiling point, and after removing the spice bag store as for canned fruit.

Plum Batter Pudding—Make a batter from two lightly beaten eggs, ten tablespoons of flour, sifted twice, a pinch of salt, half a teaspoonful of baking powder and a pint of milk. Beat with an egg beater until full of bubbles. Remove the stems from a quart of ripe plums, cut in quarters, sprinkle well with sugar (about half a cup), place in a buttered baking dish and pour the batter over them.

AFTER EVERY MEAL

WRIGLEY'S NIPS

This new candy-coated gum delights young and old.

It "melts in your mouth" and the gum in the center remains to aid digestion, brighten teeth and soothe mouth and throat.

There are the other WRIGLEY friends to choose from, too:

"After Every Meal"

fire under it. Into the water empty the contents of two cans of good lye, one-quarter pound of borax and two pounds of rosin. The rosin may be left out, but the soap will not harden so quickly. Let this mixture get hot and then add nine pounds of fat, rinds and cracklings, and cook until like molasses, stirring constantly. The lye will eat the fat, rinds and all. Try some of the mixture in a saucer. If, when cool, there is no lye in the bottom, it is done. It can be left in the kettle and set out in chunks when cool enough, which will be about one hour, if the weather is cold, or it may be poured into pans to cool.

This soap is ready to use in about a week. It is a light yellow or tan color. If made in cold weather, it should be put where it will not freeze, or it will not harden fast.

Suprised.
An Englishman, who knew no language but his own, had lost his way in Rome. In his perplexity it occurred to write the name of his hotel in large letters on his card, and hand it to the first benign-looking individual he met.

The Italian thus accosted turned, and with the charming manner of his race, accompanied the perturbed Englishman for about twenty minutes in solemn silence, until they reached the hotel designated.

In a transport of joy at finding himself once more on known ground the tourist poured out voluble thanks in the only language at his command.

At this the Italian looked at him in amazement, and remarked in perfect English:

"I thought you were deaf and dumb!"

Dye Old Curtains, Sweater or Skirt in Diamond Dyes

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments, or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Not Native.
Phelps: "That is a sunset my daughter painted. She studied painting abroad, you know."
Noble: "Ah! that explains it! I never saw a sunset like that in this country."
Half the cynicism in the world comes from failure sneering at success.

QUEBEC'S SCHEME OF COLONIZATION

IMPROVES LAND, SELLS AT LOW PRICES.

Erects Buildings in Canton of Langis for Use of Carefully Selected Colonists.

In 1920 the government of the province of Quebec set aside the sum of five million dollars for the purpose of colonization and it is already setting about the expenditure of this money and making a serious bid for settlers on its rich unproductive tracts. Believing from its past experience that in the work of colonizing new lands there must be a certain amount of preparatory work so that the settler avoids the rigors and hardships of pioneering and is in a position to become productive and of greater value to the province in a much shorter time, the provincial government is blazing the way for the settlers who will occupy the lands in the spring of 1923.

This preparatory work surpasses the already generous arrangements of the government in its encouragement of agriculture in the province. Some millions of acres of farm lands have been set aside for the use of farming settlers which the government will sell to such a minimum price of from 20c. to 60c. per acre. A few very easy conditions are imposed upon the purchaser in order to assure cultivation of the land. It is not sufficient to merely work the land; it must be cultivated according to the most approved methods. To ensure this the government has established schools of agriculture, co-operative societies, experimental stations, demonstration fields and farmers' clubs, and has expended nearly a billion dollars in agricultural subsidies. Not only does the provincial government sell its land at very low prices, but it does everything possible to improve it, providing for the construction of roads, bridges and other public works.

The Beautiful Matapedia Valley.

The new colonization project, however, goes further than this. It has regard to the Canton of Langis, in the Matapedia Valley in the Gaspé peninsula, just north of the territory of New Brunswick. The valley of the Matapedia, a river which flows from a lake of the same name near the St. Lawrence, into the Baie des Chaleurs, is one of surpassing beauty and fertility, which has already become famous among fishermen of the Eastern United States, who come there each year and have established clubs there. Now an attempt is to be made to develop it agriculturally. The Matapedia may be classed as one of the greatest valleys, according to authorities, a region of smiling meadows and high mountains, past which the river winds its way.

Here, in the Canton of Langis, a certain number of colonization lots have been surveyed and mapped out. Men are at work clearing ten acres on each lot, and erecting on each potential farm a house costing about \$600 and a barn, at a somewhat lower figure. As it is not intended to place any settlers on these lands until the spring of 1923, and the work is merely in process, it has not been determined what the exact cost to the settler will be, but on the authority of the provincial Minister of Colonization the settler will receive a farm at actual cost and the payments expected of him will be extended over thirty years. The province will safeguard itself against possible loss, and achieve the greatest amount of benefit for the province, by carefully selecting its colonists, and placing them on the land with the best possible assurance of success.

A Steady Stream of Colonists.

Quebec is receiving a steady little stream of new colonists in spite of the rush to newer opened areas, and she is making a bid for more in an endeavor to bring under cultivation the millions of fertile acres which she still possesses in a virgin state. The agricultural production of the province in 1921 accounted for a value of \$1,288,813,000, and included practically every farm crop imaginable, horses and cattle, sheep, swine, poultry, bees, field crops, potatoes and root crops, orchard and small fruits, dairy products, wool, eggs, tobacco and maple sugar and syrup. An endeavor is being made to lure back to the old home the French-Canadian population which was drawn away in less prosperous times, whilst at the same time attract the British and United States immigrant. Quebec's agricultural value has been proved by many years of farming which stand to assure the future of its new colonization trusts.

Can't Mix Up Babies Now.

It used to be the fashion in story plots to get the new born babies mixed up. Usually the heir to the dukedom landed in the servants' quarters and the servant baby grew up to be the heir to the dukedom—and the villain in the future, however, it's going to be less romantic—but more practical. They are beginning to make fingerprints of five-day-old babies in order to prevent mistakes in hospitals and institutions and the system will also serve as a means of identifying lost or stolen children.

Child was the first South American state to construct railways.

Cleaning

THE postman or express man will bring Parker service right to your home.

Whatever you send—whether it be suits, coats, dresses, lace curtains, tapestry draperies, etc., etc.—will be beautifully cleaned by the Parker process, and speedily returned.

We pay carriage one way on all orders.

Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a make-shift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of the which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore cannot chafe or pinch. Soft as velvet—easy to apply— inexpensive. To be used whilst you work and whilst you sleep. No strapping, no bites or springs attached.

Learn how to close the hernia opening as nature intended so the rupture CAN'T come down. Send your name and ten cents, coin or stamps, today, to PLAPAO CO., 785 Stuart Bldg., St. Louis, Mo. for trial Plapao and the information necessary.

Minard's Liniment For Colds, Etc.

Soils and Woods

Address communications to Agronomist, 73 Adelaide St. West, Toronto

Dairying By Guess and By Gosh.

As the dairy herd comes fresh for another year's yield of milk, it is a good time for the farmer to start testing his cows and knowing what each one does—or does not. The dairy farmer who does not keep systematic records of each milking cow in his herd is not doing justice to himself nor to his cows. He may be over-feeding a record-producer or he may be under-feeding a worthless scrub, either of which is not a paying proposition.

A farmer may have a world-record cow and not know it if he does not test. Tom Barron, of Brantford, Ont., never would have known that he had a cow capable of producing nearly 1,600 lbs. of butter in a year, if he had not been testing Bella Pontiac. As a result of a year's testing, this cow advanced in value from between \$200 to \$300, to a value of anywhere between \$5,000 and \$10,000. Pretty good pay for only one year's work on one cow!

The actual time of weighing and testing, probably did not take Mr. Barron over two minutes a day for weighing the milk three or four times a day; while the testing was done by Government-employed men in the Record of Performance, the actual cost of which was very little—practically nothing but the cost of board and lodging for the inspectors while at the farm two days a month. In addition, the cow was tested under Record of Merit rules part of the time for which the owner is required to pay the supervisor \$3 per day and traveling expenses. It is doubtful if the whole cost of having this cow's milk tested officially for a year was more than \$150. This was money well invested, but before it was invested, Mr. Barron had himself carried on tests that demonstrated something of the great possibilities of the cow. But suppose, on the other hand, he had kept blindly on? What an opportunity would have passed right by the Barron farm!

The dairy farmer has three systems of public testing open—two applicable to those who keep pure-bred cattle—of these open to one bred, Holstein-Friesian; the other, open to all dairy or dual purpose breeds. The third is the cow testing association open to all dairymen whether they keep pure-bred cows or grades. All should easily be able to get into one or other of these three plans for testing cows—Record of Performance, Record of Merit, or Cow Testing Association, and receive the benefits which come from contact with others interested in a similar line of work.

There may be farmers who, for various reasons, are unable to take up testing in any one of the three public systems mentioned, but who would like to know what each cow is doing in the herd. This may be done by following the following rules: To do any job well, we must have proper tools. This applies to cutting wood, digging a ditch, or to any one of a

dozen pieces of work on a farm. So, for testing cows, we must have suitable tools. These are: a milk scale, preferably of the circular-dial, two-hand-type; milk pails all of the same weight, a milk sheet properly ruled for days, or three days a month weighing for each cow; and a lead pencil attached to the milk sheet for convenience. If every dairy farmer went no further than this and weighed each cow's milk regularly throughout the year, he would have taken a marked step in advance over the "by guess and by gosh" method of simply not knowing what his cows are doing or not doing.

The milk scale can be bought from any dairy supply house at a cost of from \$3 to \$5, and when properly cared for, will last 25 years. It should be kept dry, oiled occasionally, and not be subjected to heavy loads. It should be used only for milk weighing purposes. Good milk pails cost from \$1.25 to \$1.50 each from hardware dealers or tinmiths. If there is any difference in weight, this can be adjusted by adding solder on the bottom of the pail. Although the daily weighing gives the farmer the widest possible knowledge of what each cow is doing, weighing three times a month is accurate enough for all practical purposes, say on the 1st, 10th, and 20th. If a cow gave an average of 30 lbs. daily for a month, she would be credited with 900 lbs. for that month.

The milk scale may be hung from the ceiling of the stable or milk room by means of a wire or rod; or, it may be suspended on a wall bracket so that the pail will be clear of the wall when weighing. The milk sheet may be tacked on the wall, or kept in a cabinet which can be made or purchased. It should be kept clean by having a glass or paper for the milk-er's hand to rest upon when recording weights. If everything be convenient it will not take a minute a day to weigh and record each cow's milk in the herd.

At the end of the month, the totals should be obtained for each cow, and these transferred to a Herd Record Book. On the evening of Dec. 31st next, the monthly totals for each cow should be added, and the average for the year made. All cows which have not produced at least 6,000 lbs. of milk, except their milk tests high in fat, may be regarded as unprofitable. Some owners are adopting standards of 8,000, 10,000 and 12,000 lbs. of milk per cow per year. When we consider that the average pounds of milk per cow is probably between 3,500 and 4,000 lbs. we can see that there is much room for improvement in the dairy herds. This improvement can be brought about only through improved breeding, and by weighing the milk from each cow during the whole lactation period.

The foregoing is the first step in systematic improvement of dairy cattle. The next is that of testing for milk fat. Fortunately, in the Babcock

test we have a comparatively simple method of determining the fat content of milk. The owner may test the milk himself by using a four-bottle machine, costing about \$10. He ought, however, to take a few lessons, or a short course, in testing.

It is very important that the sample be properly taken. After all the milk is in the pail, stir and take out about a tablespoonful, placing it in a bottle having the name or number of the cow marked on the bottle. Do this night and morning, preferably for two or three days. In hot weather, a preservative will be needed if samples be taken for more than one day. Preservative tablets may be purchased of dairy supply houses. If these samples are taken once a month during the lactation period, results will be satisfactory. Some claim that if samples for fat testing be taken during the second and fifth months of lactation, that this gives results accurate enough for all practical purposes. The main point is to take samples for testing, often enough to know how each cow's milk tests for fat. This is especially true where milk is sold on the fat basis.

To apply the results: Suppose a cow has given 930 lbs. of milk during the month, and her milk tests 3.6 per cent. She will be credited with 930 x 3.6 plus 100 equals 33.48 pounds fat, or nearly 40 lbs. of butter for that month. (When calculating butter from fat, add one-sixth to the pounds of fat.) Although this may look like considerable extra work, when it is once started and the owner becomes interested in knowing just what each cow is doing, the work is easy and the time is not begrudged. With every farmer using systematic methods in his stable, the work is not only more interesting, but much more profitable.

Protect Locks from Rust.

Sometimes very simple devices will do a lot for protection and convenience and can be made by anyone. Padlocks are frequently found frozen, and also rusted from continual exposure. Here is something that prevents all this. Cut a piece of rubber from an old boot leg, about six-by-six inches. Tack it to a strip of wood one-by-six inches, and nail it to the building above the staple that holds the padlock, so that the rubber will hang down over the lock. Here you will always find your padlock dry and not frozen. Do this when the lock is new. It can't rust then.—W. E. F.

The risk of being struck by lightning is five times greater in the country than in cities, and twenty times greater at sea than on a railway.

Four hours' hard thinking exhausts the tissues as much as ten hours of manual labor.

Women's Clubs in the Province of Quebec

After learning the principles of domestic science and agriculture in domestic science schools and conversing with the girls and young women of our rural districts in the Province of Quebec, are organized into clubs under the name of "Women's Clubs" (Cercles de femmes). The first of these clubs was established in 1915. There are to-day seventy clubs, including 4,740 French-Canadian farmers' wives and daughters, under the general supervision of Mr. Alphonse Desjardis, B.S.A., whose headquarters are at the provincial Department of Agriculture, Quebec.

In seeking to promote the economic interests of mankind, the essential part played by woman and the influence that she exercises upon the vocation of children should not be forgotten. Under intelligent management by devoted women, the domestic science schools endeavor to influence women to remain on the farm. They do this by training dutiful wives, thrifty housekeepers and experienced helpers for the "man with the hoe." However, it is only a small number, as yet, of farmers' daughters who go to these centres of science and practical training. The majority of the women and girls in our rural districts have yet to be reached, and the women's clubs are the means by which this work can be done. The fundamental idea of this undertaking is to keep our population on the land, to protect it against the lures of the city that attract our rural youth, and to direct this youth towards its natural and normal vocation by fostering a liking for the parish or community life, and for the parish or community life. This movement, which has for its motto "Cling to the home and to the farm," has therefore a double object: to attach women to the home by indissoluble ties, by making pleasant and easy the accomplishment of her duties as housekeeper, wife and teacher, and to keep on the land our sons and daughters by making rural life more attractive. The Quebec Department of Agriculture gives a liberal assistance to local organizations that will take part in this useful, patriotic and social work.

The means employed by the clubs are practical, limited in number and well defined; the aim (a) to make more attractive and easier for the woman the accomplishment of her moral and material duties towards her husband, her children and herself; (b) to show her and her family how indispensable and how health-giving the work of the farm; (c) to make her the champion and main support of the community organization, main-

Moose

The strong pigs in the litter never lose their start on the smaller ones. It is these larger ones from which we get the greater profits. A great deal depends on the condition of the sow, whether she will produce good strong pigs and feed them well, or a litter of weaklings and then have nothing for them to eat; whether her system is nice and cool or feverish and hot.

In the one case the sow will be good-natured and let the pigs suck, and will furnish plenty of milk; in the other, fretful and peevish, the chances are that she will eat her pigs as soon as born, if she gets a chance. All these conditions depend very largely, if not entirely, upon the way the sow is treated and fed during pregnancy. It is an almost unending occurrence for a brood sow, reared out on good pasture, to set a pig. Sows are not cannibals by nature, and are only made so by poor feeding, lack of exercise, etc.

Pigs should not be weaned until they are at least eight weeks old, and if the sow is not to have a second litter, or if there is time enough in case she is, it is better to let the pigs suckle until they are from ten to twelve weeks old. Farmers often get in a hurry and wean pigs when they are only six weeks old, but unless there is an abundant supply of milk and especially good care is given, the pigs are likely to become stunted, sometimes so severely that they never recover. The cheapest way to put gains on young pigs is through the sow. She has a strong digestion, and can turn coarse grains and pasture into easily digested milk.

Careful experiments show that a pound of weight taken from the sow will make more than one pound of gain in the pigs, the flesh of the animals containing more water. The sow should be fed to produce a high yield of milk, and the pigs should be kept with her until they get to eating a full feed of both grain and pasture. When the time comes to wean the pigs, cut down the sow's rations to water and a little grain. Take away the stronger pigs first, leaving the weaker to suckle for a few days longer. These few things carried out will have much to do toward pork profits.

Teach Children to Avoid Traffic Dangers.

Parents should teach their children to be the utmost care whenever they are in traffic, either congested or otherwise, if they wish to save them from danger which, as time goes on, will be worse instead of better, unless some unforeseen wisdom is put into action by authorities.

Just here is where our greatest difficulty lies. Our classes are too large, and we would like to have three classes instead of two, but the salary is totally inadequate to the services rendered and we feel it would be impossible to devote more time than she is doing unless we substantially increase the remuneration.

Home and School Club Encourages Music in the School

By May P. Munro, Fergus, Ont.

This year our Home and School Club experimented with the question of encouraging the teaching of music in our Public school. How did we do it? First, our club renovated a hall (part of the school property) and equipped it with chairs and other furniture. Then, adding to an existing piano fund, we bought an instrument and presented it to the School Board. With the sanction and co-operation of that body we persuaded one of our club members, a lady who has had a thorough training in both instrumental and vocal music, to take charge of the music classes. We divided our school into two classes and gave each class about a forty-minute lesson per week. Our idea was to simply teach the children to sing songs, but our teacher goes deeper than this, and is following the course laid down by the Department of Education.

I would like to bring to your notice the fact that, no matter how proficient a music teacher is or how much experience she has, no Government grant is given to a school board unless the teacher of music holds a teacher's certificate and has taken a few months' course in music. If we had that grant it would aid materially in the salary question. We expect to finance our music classes by means of entertainments and a school concert once a year.

I might say that Guelph is up against the same difficulty we have. They wanted to engage a local teacher of splendid attainments, but they would lose the grant, so they engaged a qualified teacher from Brantford to come three days a week. We think our music lessons are most valuable. The children are learning to sing by note in proper time, and with proper inflections. They are getting a number of songs which are used in the schoolroom, and are a great help to the teacher who is not able to sing or to teach a new song. Of course, we realize results would be better if we could have two lessons a week instead of one, but, on the whole, we feel that our efforts are bearing fruit.

frames to see that they are properly adjusted. To give full efficiency, not only must the centres of the lenses correspond to the ocular centres, but the distance of the lenses from the eyes must be proper. There should be just sufficient space to prevent the eyelashes from touching the glass.

Wearing Spectacles.

BY DR. C. H. LERRIGO.

If you are forty or past, and you suddenly discover that your vision is not what it used to be, don't be alarmed. It is nothing more than a natural deficiency. It means that the crystalline lens of the eye is not so flexible as heretofore. It is beginning to harden. It never will work again quite as well as in the old days and you must give it the artificial aid of a glass with a slightly convex lens.

The fitting of spectacles assumed in middle life to adjust such natural changes can be done without any use of "drops" in the eyes to dilate the pupils. The real need for "drops" is when there is astigmatism or some other error of refraction and the doctor needs to examine the whole eye very carefully. This is even more likely to be required in children who need glasses than in adults.

The fact of the matter is that it is more important to have the eyes of a child correctly fitted than those of the adult. When children, especially those in school, require spectacles, it is usually because of near-sightedness (myopia). The ciliary muscle, which controls the lens of the eye is exceedingly active in children and a proper examination is quite impossible until it is put at rest. That is why medicine is dropped into the eye by the doctor before the examination is made. The medicine quiets the muscle and the doctor is able to see properly and judge of the real condition. Perhaps it is worthy saying that homatropin, the medicine now chiefly used by doctors for eye examinations, is quite temporary in its effects, the eye becoming active again in 36 hours or less.

Never make the mistake of using spectacles bought at a notion store or of a travelling peddler. It is greatly to trust the care of your precious eyes to some man whose education in the specialty is limited to a few weeks training in "fitting glasses." You need one thoroughly trained, not alone in the eye but in all of its relations to the whole human complex. When you get your glasses of the doctor tell you just how to wear them, and have him personally examine the

GETTING A START

It is a sad fact that many of us are square pegs in round holes and remain so throughout life because we have not the gumption to get out of the hole we are in to find the niche in this world we are supposed to fit.

We are these ill-fitting pegs because our interests are elsewhere. In some, the interest is in the ideal which so seldom becomes real and in other it is dead or sleeping, or perhaps in some degrading activity. But regardless of where it is, if we cannot bring it to our occupation it is our duty to ourselves and to others to find some useful endeavor in which we can fully bring interest and occupation together.

Anything which will help to do this in early life is certainly a big thing. And inasmuch as the boys' and girls' club work has done this and is doing it, it is evidence that it is a big thing. The value of the boys' and girls' club work in this regard was impressed upon the writer when he was talking to a prominent club leader at one of the gatherings of club members. Every little while the leader would point out a young man or a woman as one who had started a nice herd of cattle, developed a profitable flock of poultry, or has built a good foundation in some other line of agricultural endeavor.

When young folks in their teens have found an occupation in which they can put their full enthusiasm and interest and have made a good start toward a big success in that occupation they are extremely fortunate, and the influence, or activity, which has helped them to do this can not be estimated too highly.

We older folks should give our fullest co-operation and wish God-speed to any activity which will help young folks find themselves in the time of their youth.

Great Men.

Average men are the raw material from which above-the-average men are made. No matter how average an average man may be, he can lift himself above the average if he will try. We all start out in the world perfectly helpless. In later years we become helpful and useful to ourselves and others in the exact proportion that we use or neglect the brains the Lord has given us.

If you are content to be nothing and do nothing, you will be nothing and do nothing. You will succeed only in so far as you work and strive to succeed. How poor you are, or how ignorant you are, has nothing to do with it. The men who go the farthest are usually the men who start with the least. It is the spirit that is within you that counts.

To the man who rightly tries, all things are possible.

Alberta Purchases Fine Bull.

What is stated to be one of the finest young Holstein-Friesian bulls on the American continent, has been purchased by the Alberta Department of Agriculture, for the Holstein herd at Stony Plain demonstration farm, which will later be moved to the government farm at Halfway House, near Edmonton. This bull, Sir Sylvia, was born, aged a year and a half, was purchased from the herd of Senator A. C. Hardy, of Brockville, Ontario, and is the product of a long line of noted ancestors which have held world's records for milk and butter production.

The dam of Sir Sylvia is Pietje Car Born Dekol, No. 330771, and has a record of 38.77 pounds butter and 760.9 pounds of milk in seven days, and 6,201 pounds of milk and 304.79 pounds butter in 60 days. The sire is Champion Echo Sylvia Pontiac No. 154779, known to-day as one of the outstanding breeding bulls on the continent. He has already 27 A.R.O. daughters, including Lady Waldorf Sylvia, with a record of 34.45 pounds butter in 7 days, and in 305 days of 19,945 pounds milk and 903.14 pounds butter, as two year old. Another two year old daughter, Echo Sylvia Bell, produced 31.14 pounds butter in 7 days, and another, Sylvia Pauline Echo, produced 30 pounds butter in 7 days. The dam of Champion Echo Sylvia Pontiac is the celebrated May Echo Sylvia which holds the world's records in butter and milk production for 7, 30, 60 and 100 days. Her record for 7 days is 1,005 pounds milk and 41 pounds butter; for 30 days it is 3,767.30 pounds milk and 169.72 pounds butter; for 60 days it is 7,927.10 pounds of milk and 323.32 pounds butter; for 100 days it is 12,899.80 pounds of milk and 505.34 pounds butter. The sire of Champion Echo Sylvia Pontiac, or the grand-sire of the new Alberta bull, is Spring Farm Pontiac Cornucopia No. 77172. His dam, K.P. Pontiac Lass, had a record of 44.18 pounds butter in 7 days. The half-brother of Champion Echo Sylvia Pontiac, the sire of the new bull, was purchased some years ago by the Carnation Milk Company for \$106,000.

Love yourself through your neighbor. Says Sam: Some children worry a lot about giving their old folks the proper bringing-up nowadays.

No good work is ever lost; many laborers must be content to sow; others will come to reap the harvest.—Max Muller.

Sheep Notes

Breeding ewes suckling lambs all summer become run down in flesh and out of condition. This is not a fault of the ewes, but rather a desirable quality, as it shows a tendency toward liberal milk production essential to growing a profitable lamb crop.

After the lambs are weaned the ewes should be put onto scant pasture for a few days to dry up the milk flow and give the system an opportunity to adjust itself. The ewes need from now on every possible chance to recruit up in flesh in a natural healthy manner. Heavy feeding is not advisable for the present.

If possible turn the ewes onto a stubble pasture. There is always a variety of feed on stubble land that will stimulate the appetite, and at the same time cause the ewes to take on flesh gradually, which will put them in good condition for the mating season. If the stubble pasture becomes scant supplementary feeding may be advisable or other pasture that is not too succulent to induce scouring should be provided.

In every flock there are a few ewes that show unusual tendency toward milk production and if they have suckled twin lambs during the summer, are likely to be well reduced in flesh. These ewes should be closely watched and given the best of care as they are the most valuable ewes in the flock. It may be necessary to divide the flock and put the thin ewes by themselves where they may receive a light grain ration.

Australian Aborigines are usually regarded as a very low type of humanity; yet one who recently died was a clever shorthand-writer and a keen student of English literature.

These Are The Values

That Bring Such Crowds of Eager Buyers to the Mayhew Store Every Day

Women's Very Distinctive and Smart Coats with Fur Trimming

at the remarkably Low Price of \$19.50 and \$25.00.

Specials This Week in our Silk Department

\$2.50 beautiful Palette Silks, all the new shades, \$1.89 per yard.

\$2.50 Crepe de Chines, 40 inches, all new shades, \$1.59.

Canton Crepe, special at \$2.50 per yard.

Canton Crepe Meteor, special quality, for \$3.95 per yard.

Exclusively Designed Blouses

Smart, two-toned effects, trimmed with silk crepe knit—see them before buying—\$3.95, \$5.75 and \$8.75.

Special Items of Interest

Regular 75c Bleached Sheet, 8-4, for 49c per yard.

Regular 55c Circular Pillow Cotton, 42-inch, for 39c per yard.

Regular \$1.25 Women's Heather Hose on sale for 89c per pair.

Men! The Biggest Clothes Value You Can Buy. Wonderful Overcoat Values.

Usters, Chesterfields—big, fleecy, plaid backs—a style and size for every man. Priced at \$19.50 to \$28.50.

And say, Men! See our New Fall Hats and Caps, New Fall Hosiery, New Sweater Coats, New Radio and Fish-neck Neckwear, and New Shirts.

Distinctive styles—honest workmanship—worth while wear.

The Best Values in Reliable Footwear will be found at Mayhew's

Now that the wet weather is coming on, you will be looking for good, honest footwear. Try us for your next pair. We GUARANTEE SATISFACTION.

QUESTIONS and Bible Answers

17 Parents will encourage children to look up and ponder the Bible answers, it will prove a precious heritage to them in after years.

Why is Jesus called the burden bearer?—Matt. 11: 28-30.

NEWBURY

Tom Woods, of Windsor, is visiting his parents here.

George Churchill and wife of London, spent the week-end at S. Fennell's.

Mrs. Frank Foster, of Detroit, visited her parents, Mr. and Mrs. James Patterson, last week.

Miss Edith Martin has returned after visiting at J. Blain's, Aldborough.

A sale of homemade baking will be held in the public library on Saturday afternoon and evening by the Anglican Women's Guild.

For several reasons the Women's Institute will meet on Wednesday, Oct. 25th, at the home of Mrs. Frank Robinson.

Mr. and Mrs. Hugh Callan, of Toronto, are visiting his sister, Mrs. Lamb.

Miss Winnifred Owens, of Leamington, was home for the week-end.

Misses Winnifred Archer, of Detroit, and Nessie Archer, of Elora, spent the week-end at their home.

Miss Elsie Seaton was home from London for a few days for the wedding of Miss Dorcas Glennie.

Gordon Haggitt and bride, of Windsor, who have just returned from their wedding trip to Calgary, have been visiting his mother, Mrs. Glennie.

A pretty wedding took place at the home of the bride's parents, Mr. and Mrs. Glennie, on Saturday afternoon at 4 o'clock when their only daughter, Dorcas Elaine, was married to Raymond George McComb, of the post office staff, London. Rev. C. D. Farquharson performed the ceremony in the presence of the family and friends.

The pretty home, with its decorations of fall flowers and autumn leaves, with the archway beneath which the wedding party stood tastefully trimmed and centered with a large white bell, made a picture long to be remembered. The shades were drawn and the electric light added to the beauty.

The pretty young bride, who was given in marriage by her father, was winsome indeed in a sand-colored crepe de chine dress beaded with gold beads. She carried a sheaf of sunburst roses. Little Miss Olga Beamish, of Bothwell, in a frilly maize organdie dress, looked like a pretty butterfly carrying a basket of flowers. She wore the groom's gift, a gold locket and chain. The young couple were unattended.

After congratulations the company sat down to the tables which were loaded with good things, the bride's table being centred with the lovely wedding cake. Rev. Mr. Farquharson called upon each gentleman present, to which each responded with a

speech. Mr. and Mrs. McComb left on the evening train amid showers of confetti and rice for Detroit. The bride's travelling suit was navy blue turtleneck, with hat to match. The gifts included silverware, china, several cheques and an ostermoor matress. Guests were present from London, Delaware, Windsor and Bothwell. All good wishes follow them to their new home in London.

WARDSVILLE

A meeting of the W. M. S. was held at the home of Mrs. King on Monday evening in the manner of a farewell to Mrs. McLean. In the course of the evening Mrs. McLean was presented with a life membership in the W. M. S.

Rev. George Kerr, of Bothwell, preached very interesting sermons on Sunday at the Methodist church here in the absence of Rev. Mr. Bridgette.

Mr. and Mrs. Hugh Canon, of Toronto, are visiting Mr. and Mrs. Henry Archer.

Dr. Bert Wilson called on friends in the village on Wednesday.

Mrs. Potter is in Oshawa attending a W. C. T. U. convention.

Mr. and Mrs. Thos. H. Weer and Sammy spent Sunday with Mr. and Mrs. Alex. Stewart.

Mr. and Mrs. George Faulds and Sandy Faulds were in London Tuesday attending the funeral of their uncle.

Mrs. Porter went on Saturday to Highgate, where she expects to spend the winter.

Sunday, Oct. 1, was Children's Day in St. James' Anglican church.

Rev. Mr. Murphy spent a few days last week in Dutton and Simcoe.

Jack Douglas is visiting in Detroit.

Mrs. Clark, of Toronto, is visiting at Miss McVicar's.

Miss Hilda Blott spent the week-end at her home here.

Mrs. McLean, having sold her home and disposed of her goods by auction sale, will leave this week for her future home in New York City.

About 25 young people gathered at the rectory on Friday evening for a social time. It was the first A. Y. P. A. meeting of the season and considerable business was transacted.

A short program was given and a pleasant time enjoyed. A dainty lunch was served by the hostess. Plans were made for a masquerade pie social to be held on Oct. 31. James O'Hara was chosen delegate to the A. Y. P. A. conference to be held at St. Catharines on Oct. 17, 18 and 19.

The funeral of the late John McIntyre, of Cashmere, was conducted Friday afternoon from his late residence on the bank of the River Thames to the Purcell cemetery. His only son was buried about ten weeks ago.

A Power of Its Own—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

MELBOURNE

One of the most interesting events of the season took place here on the 5th inst., when Rev. Dr. Brown and Mrs. Brown celebrated the 25th anniversary of their wedding. Over sixty friends called at the parsonage in the afternoon to offer congratulations. The reception hall, drawing room and study were beautifully decorated with cosmos, the dining-room with autumn leaves, sweet peas and gladioli.

Mrs. Brown received in a becoming gown of black canton crepe, and was assisted by Miss Mather, Mrs. Staples, Miss Jennie Chalmers, Miss Cornelle, Miss Richards, Mrs. Hardy, Mrs. S. Clarke, Mrs. G. McLean, Mrs. Kain and Miss Robinson. Many beautiful and useful silver gifts were presented to Dr. and Mrs. Brown.

The students of Melbourne continuation school motored to Delaware on Oct. 6th and took part in the field day sports there.

Mr. and Mrs. Dewar, of Glen Robertson, spent a few days here, the guests of their son, Dr. R. D. Dewar.

Rev. Mr. Hopper, of Delaware, conducted anniversary services in the Methodist church here on Sunday.

The span of roadsters owned by Sparling Clarke securing the first prize at Strathroy fair and the third at London fair have been separated, one being sold to a Brantford man for a handsome figure.

Misses Jennie and Mildred Robinson, of London, spent the week-end with friends here.

Mrs. Brandon, of Wardsville, is the guest of Mrs. Geo. Richards.

Mrs. W. A. Currie, who opened up a millinery parlor here recently, is doing a good business.

Anniversary services were held in the Methodist church here on the 8th inst. Rev. Mr. Hopper, of Delaware, preached two excellent sermons. The choir deserve great credit for the special music given at the services, under the leadership of Mrs. Sparling Clarke and Miss Edna Petch. Miss Frances Norsworthy, of London, and Miss Alice Trotter sang solos.

Although the weather was not favorable it is considered that this anniversary was one of the best ever held here. Floral decorations made the building very attractive.

Anniversary services were held in the Presbyterian church here on Oct. 1st. Capt. McGillivray, of St. Thomas, preached, and the choir kept up their reputation by supplying good music.

Andrew McLaughlin, of London, formerly of this place, assisted the choir with violin solos, and Charlie Auld sang. The weather was ideal and the people flocked to the church in such numbers that chairs were taken in, filling every space. Even then many found it necessary to remain outside.

Little Lloyd Down, who fell and broke his collarbone, is doing nicely.

Mr. Musgrove spent a few days in Drumbo and Woodstock recently.

Born—Oct. 7th, to Mr. and Mrs. Charles Mills, a daughter.

Mr. Musgrove has purchased a horse and buggy.

Miss Pearl Pettit, who has been visiting in Mitchell for the last three weeks, returned home Sunday.

Mrs. Henry Pettit and son Ross motored to Mitchell Saturday and spent the week-end there.

Mr. and Mrs. McGuire, of Chatham, were guests of Mr. and Mrs. Will Down Sunday.

The Ladies' Aid will meet at the home of Mrs. Casper Ramey Thursday afternoon, Oct. 12.

Miss Linton, of Caradoc, is visiting her sister, Mrs. David Down.

Nettie Elmore spent the week-end visiting friends in St. Thomas.

John Gunn, of Alvinston, visited at H. Winger's recently.

Anniversary services of the union Sunday school held in S. S. No. 4, Ekfrid, were largely attended.

Mrs. Hugh Black has been on the sick list.

Mrs. E. J. Campbell spent Thursday the guest of Mrs. J. Dobie.

Mrs. Will McBride and baby, who were visiting her parents here, were called home suddenly owing to the illness of her husband.

Miss Gladys McAlpine, of Glencoe, spent the week-end at H. Smith's.

NORTH EKFRID

Little Lloyd Down, who fell and broke his collarbone, is doing nicely.

Mr. Musgrove spent a few days in Drumbo and Woodstock recently.

Born—Oct. 7th, to Mr. and Mrs. Charles Mills, a daughter.

Mr. Musgrove has purchased a horse and buggy.

Miss Pearl Pettit, who has been visiting in Mitchell for the last three weeks, returned home Sunday.

Mrs. Henry Pettit and son Ross motored to Mitchell Saturday and spent the week-end there.

Mr. and Mrs. McGuire, of Chatham, were guests of Mr. and Mrs. Will Down Sunday.

The Ladies' Aid will meet at the home of Mrs. Casper Ramey Thursday afternoon, Oct. 12.

Miss Linton, of Caradoc, is visiting her sister, Mrs. David Down.

Nettie Elmore spent the week-end visiting friends in St. Thomas.

John Gunn, of Alvinston, visited at H. Winger's recently.

Anniversary services of the union Sunday school held in S. S. No. 4, Ekfrid, were largely attended.

Mrs. Hugh Black has been on the sick list.

Mrs. E. J. Campbell spent Thursday the guest of Mrs. J. Dobie.

Mrs. Will McBride and baby, who were visiting her parents here, were called home suddenly owing to the illness of her husband.

Miss Gladys McAlpine, of Glencoe, spent the week-end at H. Smith's.

DAVISVILLE

Master William Duffey has returned to his home in Detroit after spending a month with relatives around here.

Glad to hear that Mrs. Percy Shred is able to be up and around again.

Mr. and Mrs. Daniel Hillman entertained on Monday evening last at a shower for their daughter, Mabel, before her departure for her new home in Detroit.

Mrs. Gordon Armstrong, of Dawn, spent last week at the home of Mrs. Robert Armstrong.

KILMARTIN

Miss Prudence Moore spent the week-end with Miss Chambers, Muncey.

Mr. and Mrs. Carl Russell and children, of Detroit, visited friends here last week.

Miss Christena Little attended the Sullivan-McLean wedding at Kerwood last week.

The Ladies' Aid met at the home of Mrs. Duncan Walker last Thursday. The next meeting will be at the home of Mrs. Neil F. Munroe on Wednesday, Nov. 1st.

Mrs. John Secord is visiting friends in London.

Miss Kathleen Chambers is attending the teachers' convention in Strathroy this week.

Miss Eleanor McIntyre, of Glencoe, spent the week-end with Mrs. Andrew Douglas.

Neil Munroe is home from Detroit. Jack Calderwood, of Detroit, spent the week-end at Duncan McKellar's.

Mr. Calderwood's wife and family, who have spent some time at her home here, accompanied him to Detroit where they will make their home.

Rev. Mr. Robertson has returned from his vacation, and occupied his own pulpit last Sunday.

Jack Munroe spent a week in Detroit recently.

Mrs. Angus McGregor, who spent a week at Dan McGregor's, has returned to her home in Wawanessa, Man.

The sacrament of the Lord's Supper will be dispensed in Burns' church, Mosa, on Sunday, October 22. Preparatory services on Friday.

STRATHBURN

Mrs. D. H. McRae, while cleaning the front steps at the house on Saturday, slipped and fell, hurting her wrist and hip badly. Fortunately no bones were broken and she is recovering nicely.

Godfrey McMurchy, of North Glencoe, and Wm. Tomlinson, mail courier, had a collision with their auto at the corner of the Simpson sideroad west of here on Tuesday. Mr. McMurchy's car had one of the front wheels smashed.

Mr. and Mrs. George Dolson, of Toronto, are spending a few days this week at the home of L. Siddall. Mrs. Siddall and Mrs. Dolson are sisters.

Gordon Burchell, of the West, is visiting his sister, Mrs. Bert Simpson.

Wm. Dobson's eldest girl is recovering from a serious illness.

The Battle Hill U. F. W. O. met at the home of Mrs. Nixon on Wednesday, Oct. 4. A well-prepared paper by Mrs. Bert Gould on "Habits and what they lead to" was read in her absence by Mrs. Alfred Gould. Mrs. H. Weekes and Mrs. J. Lethbridge each read interesting bulletins from head office. Mrs. E. Currie and Mrs. Bert Simpson played a piano duet. A dainty lunch was served by the hostess.

It was decided that the club send a vegetable shower to the Children's Shelter in London on Monday, Oct. 9. Plans were made regarding the chicken supper to be held on Nov. 10. On Friday the ladies met at the home of Mrs. James Gilbert and showered her with handkerchiefs prior to her leaving to spend the winter in Florida.

MOISA

The No. 9 branch of the W. I. met at the home of Mrs. Archie Burke on Thursday, Sept. 28, with Miss Annie M. Walker, president, in the chair. There were 20 members and 7 visitors present; collection, \$4.40. Miss Jessie Mitchell and Miss Sarah McLachlin were appointed delegates to attend the London convention to be held Nov. 7, 8 and 9. An interesting paper entitled "Making our lives a success" was given by Mrs. D. C. Graham, and a vocal duet was rendered by Miss Sarah McLachlin and Mrs. Stuart Nisbet. Mrs. Godfrey McMurchy and Mrs. J. C. Graham were appointed to take charge of the program for the next meeting, to be held at the home of Mrs. D. C. Graham on Thursday, Oct. 26. Lunch was served by the hostess.

Miss Florence Hick is attending the teachers' convention at Strathroy.

Misses P. and A. Mitchell, of Chatham, attended the funeral of their aunt, the late Mrs. Mitchell.

Mr. and Mrs. D. L. McGugan and Mr. and Mrs. J. A. Armstrong, of Cairo, were visitors at M. C. McLean's last week.

Miss Lizzie McDonald, of Euphemia, visited friends in this vicinity last week.

SHIELDS SIDING

Thrashing and silo-filling are over for this year.
