EXPECT BIGGER G. T. R. DIVIDENDS

Shareholders Encouraged by the Not to Return to Her Husband, Road's Prosperity—Feeling Against Extension

London, Jan. 13. - It is stated that the Grand Trunk board of directors, in view of bumping traffic receipts, intend to show a little less gonservatism regarding dividends. Indeed, the third preference holders are hoping to again enter the dividend list, for the urged to remember that her expected second half of 1902, probably receiving

dividend of from 1 to 11/2 per cent. A shareholder, writing to the Financial Times, says that if the Grand Trunk directors propose to support financially the Grand Trunk Pacific project, the shareholders must oppose it in every legitimate way. He says the committment of the Grand Trunk to such a tremendous new engagement would be like reverting to

the Tyler regime. ST. LAWRENCE ROUTE. The Followers of the Pretender Overwhelm Sultan's Troops-

Anxiety at Rabat.

Madrid, Jan. 13 .- Fighting is proceeding between the troops of the Sultan of Morocco and the forces of the pretender to the throne, according to a dispatch received by the Globe from Fez. The followers of the pretender are said to be overcoming the imperial troops. The correspondent of thre Globe adds that the inhabitants of Fez have risen against the Sultan, and that anxiety reigns at Rabat, where the Europeans are in favor of an immediate attack by the pretender's forces. The Sultan's representative at Tangier has been ordered

THE COAL COMPANIES' SIDE

Statements Made Before Strike Commissioners.

Evidence of Some of Their Witnesses Refuted-The Relief Fund.

Philadelphia, Jan. 13. - The proceedings before the anthracite coal strike commission yesterday consisted principally in calling witnesses by the Delaware and Hudson Company to tell of the conditions existing in and about its collieries, and to refute certain testimony presented against the company when the miners' side was being heard.

Abel L. Culver, comptroller of the Delaware and Hudson Company, said the wage statements handed in on Saturday are final, and that the miners' representatives have agreed that they are a fair presentation of the case. Mr. Culver was cross-examined for

the miners. Mr. Darrow asked witness if the company raised the price of coal 50 cents after the strike ended, and he replied that it had, and that, so far as he knew, the price is still maintain-ed. Mr. Culver said that the company was selling coal at tidewater at \$5 a ton for prepared sizes. The company sells to middlemen.

CHILDREN DIE FROM EXPOSURE

Blizzard in New York State Blocks the Rallways-Hard Work for Section Men.

Queensport, N. S., Jan. 13. - Two children, named King, of Port Felix, were caught in a snowstorm and died mister, about ten years of age, and had been visiting friends near Queensport. On Saturday morning they started to walk home in company with Melbourne Jamieson, of Cole Harbor. One the high barrens they were overtaken by the storm. Jamleson tried to get the children to go to Cole Harbor with him, but they would not go, and took a short cut through the barrens to Fort Felix. Jamieson, finding until nearly noon. the children obdurate, followed, and overtook them and tried to reach Port Felix. In the blinding snowstorm they lost their way. Jamieson put his over-coat and mitts on the children and carried first one and then the other through the deep snow until they were exhausted. At one point he kindled a fire and tried to persuade the children to stay there while he secured help, but they would not stay. A second attempt was made to kindle a fire, without success. Finally, the boy got to the Port Felix road and back and found the girl dead and Jamieson unable to speak. The boy died of exposure and exhaustion the

ICE-BOUND IN DETROIT RIVER. PROPOSAL TO LIFT THE BLOCKADE

The Embargo Causes Distress in Venezuela-Powers Discuss the Situation.

Berlin, Jan. 13 .- The Foreign Office has been somewhat puzzled by President Castro's last note. He avoids specific acceptance of the powers' stipulations, and seemingly leaves the basis for a settlement as indefinite as in his preceding dispatch agreeing to arbitration. The President's reply has really not advanced the matter at all, but it is confidently supposed he has given Minister Bowen Following or the heels of the most full power of attorney. The State Department at Washington has advised the Foreign Office that Mr. Bowen has sailed from La Guayra. Nothing more will be done from this side until Mr. Bowen shall have reached Washington. It is hoped a full agreement will be attained without Rome, Jan. 13.-Negotiations between

the co-operating powers relative to raising the blockade of the Venezuelan coast are proceeding, the main point being the question of guarantees for the payment of claims should the warships be withdrawn. The Italian Foreign Office recognizes the correctness of the contention in Secretary Hay's last note, that a continuance of the blockade will only further impoverish Venezueia, and make the settlement of the claims more difficult, and is desirous of meeting the suggestion of the United States. At the same time, it cannot act without an agreement with Germany and Great Britain. As the quickest solution the suggestion is again mooted whether the United States might not again be asked to guarantee the payment of the sums awarded, now that the tinuance of the blockade will only further

ment of the sums awarded, now that the situation has so completely changed. BLOCKADE IS CAUSING DISTRESS. Washington, Jan. 12.—A cablegram re-eived from Minister Bowen at the State Department conveys the information that considerable distress is being felt through the operation of the blockade in the cutting off of food supplies.

Berlin, Jan. 10.—A dispatch to the Lokal Anzeiger, from Caracas, says Minister Bowen's departure for Washington awakens fears among the members of the foreign colony at the Venezuelan capital lest acts of violence be committed against them during his absence. But President Castro, it is added, has promised the for-eign residents full protection.

That's the proper propor-tion of animal and mineral matter in the bones of a healthy child - thirty-seven per cent. animal and sixtythree per cent. mineral. The bones of the average rickety child show about seventy-nine per cent. animal and twenty-

one per cent. mineral matter. It's this lack of sufficient mineral matter in the bones that makes a child have rickets. Deformities of the chest and head, bent legs and curved spine are some of the results of rickets.

The disease is one of early life, and the first symptoms are shown in the digestive organs. Usually the appetite is poor and the child grows dull and fretful. There are pains in the limbs and joints. The pulse beats quicker and the veins become slightly swollen; gradually the whole body becomes tender and the face shows signs of waste, depres-sion and weariness. Then operation coul other terms. the action of the disease begins in the bones. The legs are first to show the effects when they fail to support the child properly. As a matter of fact, the bones cease to grow at this stage. Proper nourishment for the whole body, and particularly for the bones, is the best possible treatment; in fact, it is the only treatment.

Scott's Emulsion is therefore the natural remedy for rickets, as pure cod liver oil is the most effective of all remedies for this disease. The hypophosphites of lime and soda contained in Scott's Emulsion feed the bones and furnish them with the means to grow properly. It also helps the digestion and provides nourishment that cannot be secured so well in any other way. It quickly enables the rickety child to make up lost ground, and insures a healthy, natural growth. Being as palatable as cream and more nutritious, Scott's Emulsion is easily accepted by the most delicate stomach.

These claims are not made off-hand. We know from nearly thirty years contact with such cases that Scott's Emulsion will do just what we say it will do. We will be glad to send you a sample free so that you can judge for yourself.

I Will Cure You of

Rheumatism

Else No Money Is Wanted.

Any honest person who suffers from Rheumatism is welcome to this offer. I am a specialist in Rheumatism, and have treated more cases than any other physician, I think. For 16 years I made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years and I found a costly chemical in ears ago I found a costly chemical in Germany, which, with my previous dis-coveries, gives me a certain cure. I don't mean that it can turn bony I don't mean that it can turn bony joints into flesh again; but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times. I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your driverist. postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottle Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds, the cost is only \$5.50. If it fails, I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism must be drugged to the verge of danger. I use that can affect throme references. I use be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of ton harbor.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2,000 tests—I never found another remedy that would

cure one chronic case in ten.

Write me and I will send you the order.

Try my remedy for a month, as it can't harm you anyway. M it fails it is free.

London Times Gives the Boer Leaders a Hard Rap—Can't Squeeze Chamberlain.

London, Jan. 13 .- The Times, editorially referring to the attempt of the Boers at Pretoria to go behind the terms settled at the Vereeniging conference, says it was perhaps thought and hoped by the Boers that Mr. Chamberlain in South Africa when confronted by about a hundred Boer delegates would be more easily squeezed than Chamberlain in London, with his own colleagues around him. If that was the calculation of the Boers, they now know more about the sort of man they have to deal with than they did in the past. The whole thing was evidently well planned. Though the form of the address was conciliatory, the matter consisted of an uncompromising restatement of demands as to the amount to be given back to the Boers, while through the cajolery in the address pierced something not unlike a veiled menace that loyal cooperation could not be expected on any

GREAT DISTRESS AMONG POOR

People Driven to Help Themselves From Moving Coal Trains-Work of Combines.

Windsor, Ont., Jan. 12.-The fuel situation in Windsor is rapidly becoming worse as the weather grows colder and the small supply of fuel less. The few cords of wood that reached the city Saturday were but a drop in the bucket. This morning 36 cords more of softwood arrived, but it was so poor in quality that it will last but a short time. Orders are again being taken for softwood at \$4 a cord. Albert Hatching, who supplied the wood, said yesterday that the end of the week he would bring in 100 cords of hardwood from Romney. It is said that one of the railways this morning secured five carloads of coal in transi for Windsor.

GREAT SUFFERING. Toledo, Ohio, Jan. 12. - There is intense suffering here among the poor, owing to the cold. Anthracite coal is quoted at \$12 a ton.

Kansas City, Jan. 12. - There is no moderation in the zero weather, and suffering because of lack of fuel will prove severe. Similar conditions exist throughout this section. St. Paul, Minn., Jan. 12. - Fuel is scarce, and although there is not yet an actual famine, there is much suf-fering throughout this section. The temperature today ranged from zero

be obtained and the soft coal supply is exhausted in many places, resulting in much suffering. HELPING THEMSELVES.

Hoosick Falls, N. Y., Jan. 13.-The coal situation here has reached a serious stage and there is much suffering. The only way to get coal is to rob cars consigned to New England points. Every night people equipped with bags, baskets and barrels board the slowly moving freight trains and supply WORK OF CONSPIRING DEALERS.

Chicago, Jan. 13. - The special grand fury called to investigate the conditions responsible for the coal famine continued to hear evidence yesterday. Twenty-five men, some at the head of wholesale firms, and others connected with corporations operating mines came in answer to summonses Evidence is said to have been secured tending to prove that the operations of the alleged conspiring dealers are planned in secret, and that daily con-ferences were held until the investigation began.

ACTION AT ALBANY. Albany, N. Y., Jan. 13.-Attorney-General John Cunneen was to have given a hearing in the aplication of William R. Ottawa, Jan. 10.-Last November the nayor, through Lord Minto, made a equest to the British Government for a refund of the war export tax of one shilling per ton on the 4,300 tons of Weish coal purchased by the city. Mayor Cook has just been advised that the lords of the treasury say they have no power to return the duty paid in the case in question.

COAL FROM KINGSTON. Toronto, Jan. 13.-Mayor Urquhart has gappled with the fuel question. He met the Board of Control, and it was decided that the municipal coal piles must be replenished right away, and the first thing to be done is to bring up the 1,200 tons of Welsh coal belonging to the city and now lying in Kings-\$23 A TON.

Mayor Urquhart received a telerram from the mayor of Milwaukee asking if any hard coal could be nurchased here to relieve the suffering poor of that city. Coal is \$23 a ton there, and hard to get at that price. "Not sufficient anthracite coal here to supply our needs. Thomas Urquhart, mayor," was the reply,

Veterans' Land Grants.

Toronto, Jan. 13. - A number of applications for veterans' land grants have been applied for at the crown lands department since Jan.1; although, according to the act, no application made after Dec. 31 last is valid. During the week between Christmas and New Year's there was an immense rush of applications for forms, numbering nearly a thousand, and it has been decided that all forms applied for before the first of the year, even though not filed until after the legal time had expired, will be held valid. What disposition will be made of the claims of those at present applying has not yet been decided. Before entertaining them is will be necessary to submit an amendment to the act at the coming session of the Legislature. The claims are being reserved, and possibly some such step will be taken.

REMARKABLE SUCCESS

Of a New Catarrh Cure.

majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages. In fact, wherever there is mucous

membrane there is a feeding ground for catarrh. The usual remedies, inhalers, sprays, douches or powders, have been practi-

cally failures, as far as anything more than temporary relief was concerned, because they simply dry up the mucous secretions, without having the remotest effect upon the blood and liver, which are the real sources of catarrhal dis-

Dr. Ainslee, in speaking of the new catarrh cure, says: "I have tried the new catarrh remedy, Stuart's Catarrh Tablets, upon 30 or 40 patients with remarkably satisfactory results. They clear the head and throat more effectually and lastingly than any douche inhaler that I have ever seen, and although they are what is called a patent medicine and sold by druggists, do not hesitate to recommend them as I know them to be free from cocaine and oplates, and that even a little child

ONE PERSON KILLED, TWO DYING

Burnea to Death at Windsor,

Batavia, N. f., Jan. 13.-A freight train on the Canandaigua branch of the N. Y. C. crashed into a sleigh containing five persons, at a grade crossing east of Stafford, yesterday. Of the occupants of the sleigh, one received injuries that caused death a few hours later, two were fatally injured, and two seriously hurt. They are all members of the family of J. Mott. A second sleigh, which was following close behind Mott's, was overturned by being brought to a sudden stop to escape running into the train. Four persons in the second vehicle were injured.

The dead-John Mott, 19 years of age, skull fractured, died at 7 p.m. Fatally injured-Lemuel Mott, 11 years of age, skull fractured in several places; Mrs. Lena Mott, spine broken. The others hurt are Kate Mott, daughter of Mrs. Mott, J. J. Mott, Miss Mary Butmore, occupant of second sleigh; Mrs. Katherine Bossert, Mrs. Priscilla

Butmore and Mrs. Anna Butmoret. The two sleighs were part of a funeral procession. A severe storm was raging at the time and apparently no one in the Mott sleigh, which was a covered affair, heard the approaching train. Part of the funeral procession passed safely over the tracks before the Mott sleigh was struck. The crash and the cries of the injured warned the next sleigh.

FATALLY BURNED. Windsor, Jan. 13. — While Chief Engineer William J. Belsom, of the big car ferry Lansdowne, was battling with a giant ice floe in the Detroit River on Saturday, his wife was burned to death at their home, in this city, and not until several hours later did the husband learn of the terrible tragedy. About 10 o'clock Mrs. Belsom, carrying a lighted lamp, started for the basement to attend to the furnace. When half way down the stairs she slipped and fell, the lamp being smashed, and throwing burning oil over her clothing. There was no one near by to hear her agonizing screams, and she was fatally injured before help arrived. Mrs. Belsom was 53 years of age, and for over 30 years had resided in Windsor. She had been long prominently identified with the Windsor Avenue Methodist Church and its

THE LONDON ADVERTISER COM-PANY (Limited.)

London, Tuesday, Jan. 13.

The Civic Fuppets. The usual display of Conservative horgishness took place at the inaugural meeting of the city council yesterday in the striking of committees and making of appointments. So far as the arrangement of the members on the committees is concerned there is nothing to be said; they will all do their duty doubtless in the positions in which they have been placed. But the

chairmanships were evidently filled for political reasons, and no other. On No. 2, the proper person for chairman was Ald. Campbell, who polled the highest vote at election, and who is perfectly familiar with the business of the council; but it went to a new man-Ald. Judd. On No. 2, Ald. Gerry, by length of service and by his personal popularity, as well as his special fitness to look after the public works, should have been chosen; but a new man went there-Ald. Wyatt. On No. 3 a show of fairness was made by the selection of Ald. Greenlees. But, if fitness for the position was to be considered, and if fairness was to be shown, Ald. Greenlees would have been placed where he could do the most good for the city, by making him chairman of No. 1 :- an arrangement which would have been quite satisfactory to his colleagues, and would have been a better exhibition of fairness than by putting him at the head of the least important committee in the council.

In the appointments to the various boards the porcine proclivities of the Conservative managers were still more noticeable. On the Board of Education, the Board of Health, and the Library Board all appointments were Conservatives-two to each board.

The Western Fair directors from the council are six in number-the mayor and five aldermen-all Conservatives. Ald. Campbell suggested that Ald. Saunders, who has been an active member of the Western Fair Association for a great many years, and has done more to make the fair a success than the entire city council, might be properly made one of the directors; but that could not be allowed, for Ald. Saunders happens to have Liberal leanings.

The London and Port Stanley Railway Board consists of the mayor and nine aldermen. Out of the ten they really did find a place for two Liberals. The remaining eight Conservatives will doubtless be strong enough to prevent Ald. Greenlees and Campbell from doing any harm-from a Tory point of

Of course, it all looked very unanimous-to an outsider. The Liberals did not propose to waste time by opposing what had been cut and dried by the Conservative authorities, and only required a formal indorsement by the Conservative aldermen. Every one of the faithful had his little slip of paper ready, with the names to be moved at the proper time. Once the cog of the machine slipped-one motion had gone astray, and Ald. Judd had to hunt among his papers to find it.

Well, it is all over; the faithful seven and the mayor stand loyally by the leaders, and obeyed the orders received from the proper authority. Now we hope they will all try to do their duty by the city-so far, of course, as allegiance to the Club will allow.

The Coming Session.

The coming session of the Legislature will be unusually interesting. The almost even balance of the parties will lend an unwonted excitement to the proceedings of the House and tax the energies of the leaders; but the situation has its disadvantages. The Opposition will likely be more intent on maneuvering in the effort to put the Government "in a hole," than on forwarding public business. Mr. Whitney and his followers will not be in the most cheerful temper, and we may expect a great deal of acrimony and tall talk from that quarter. An old parliamentary hand, such as Mr. Ross is, will not be out-generaled. His present majority of five will be ample for any emergency, and it will probably be increased before the session is over. The Opposition may be able to make things unpleasant and obstruct Government measures to some extent. but the Premier will be in a post on to carry out his programe in full. It is generally believed that the license law will be further amended, in respons. to the enormous vote for the liquor ct of 1902. The Government may also ubmit new plans for the promotion of ettlement in New Ontario. American vndicates have been negotiating for he pu chase of large tracts for colonzing pu p s s, and the Covernment av have made provisional agreements ith one or more. If so it may be aken for granted that the first and mly object has been the settling and eveloping of the country, not the de of land for the sake of the

evenue. It is to be hoped the Govern-

ent will frame a comprehensive as

sment act and a general electric

al way act, both of which are abso-

ately necessary. Altogether the

eal of practical and progressive legis-

sion should be productive of a good

Mr. Macdonald's ideals.

The new editor of the Globe, Rev. J. A. Macdonald, bids adjeu to denominational journalism in the last number of the Presbyterian. It is both a farewell and a salutatory, as he philosophizes on his new sphere of labor and the duties and responsibilities of his position,

"The difficulties of the position are both many and serious. It is held by many, and practiced by not a few, that politics is the science of crook-edness and corruption. That is because men are morally crooked and corrupt. Neither in politics nor in any other honest sphere is it either necessary, or in the long run, useful, to be false to truth and honor. In a moral world, where the nature of things is against the coward and the liar, there is safety only in the straight road, and I take up the reduties of the managing editorship of the Globe with the de-liberate resolve to yield neither to the practical selfishness of the few, nor to the loud-voiced clamor of the many, but to stand steadfastly for those things which to me seem first and best in the life of Canada. In this I am the more confident because of the emphatic assurance of loyal support given by those who have most to do with the making of the paper, as well as of the paper's own traditions and ideals. Under the editorship of my predecessor, Mr. J. Willison, the Globe has been, not at all a mere party organ, but a great newspaper, true purpose to the ethical principles and moral truths underlying all sound politics and high service. The position is at once the more important and the more inviting because it was so long held by a man of not only superior ability, but high ideals, and

who in the vexing strife of controversy, uttered nothing base." Mr. Macdonald has set a high mark and we hope he will reach it. He will have a keenly critical constituency and may expect to draw the fire of political opponents, who will be on the alert to find contradictions between the editor and the preacher. Mr. Macdonald's graceful references to Mr. Willison are well-deserved. The latter will begin the publication of his new paper in a few days. It is awaited with keen interest.

A Church Census.

The New York Sun comments on the results of the church census which is being taken by the London (Eng.) Daily News, and claims that the British metropolis is below New York in the matter of church attendance. On Sunday, Dec. 14, the News took the church census of the borough of St. Pancras, which is peopled chiefly by the poor. The population is 235,317, the males numbering 114,303 and the emales 121,012. In the morning the church attendance was one 'n twelve of the population, and in the evening one in eleven. The men at both services aggregated 10,597, and the women and children, 29,253. The attendance at the Anglican churches was 17,275 and at other churches 22,575. So far the News has taken the censuses of four boroughs, with a combined population of 806,770, and these showed a church attendance of 159,297, adding together the morning and evening congregations. The number of regular church-goers is much less, no doubt, as many attended both services and were counted twice. The average attendance at the churches of the several denominations in St. Pancras was:

45 Anglican Churches and missions 190 9 Methodist 153 11 Baptist 192 10 Congregational 170

The Ottawa correspondent of the Toronto Globe, who is usually "on the inside," says that Mr. Thomas Coffey will be called to the Senate to succeed the late Mr. O'Donoghue. The Liberals of Western Ontario are strongly supporting Mr. Coffey's claims, and his nomination has been highly popular with all parties, classes and creeds, It may be premature to call him "Senator Coffey," as the several appointments to the Upper Chamber will not be officially made for some days, but our worthy fellow-citizen can at least be congratulated on the expressions of esteem and confidence which have been called forth in every portion of the Dominion by his candidature. It will be surprising if he is not the Government's choice as well as the choice of

The citizens of London will wish Mr. C. A. Kingston and his gracious partner health, happiness and long life in their new home in California. Mr. Kington has been a model official, and those who have filled the mayor's chair during his tenure of ofice will testify to his valuable assistance in managing the council. He had the rules at his fingers' ends. His legal training also tood him in good stead, and doubtless saved the city solicitors' fees in many cases. A Curious Kindness.

[Boston Herald.] Apropos of the great horseflesh banquet of the Society for the Prevention of Cruelty to Animals in Berlin, it is somewhat difficult to see exactly where the kindness comes in, either to man or beast. Serving up broken-down horse soup, pickled horse tongue, filet of horse and roast horse is very much the same sort of kindness as that manifested by the Walrus toward the Oyster, in Lewis Carroll's pathetic

"I weep for thee, the Walrus said, And de ply sympathize, And speaking thus he quickly gulped One of the largest size." Or lines to that effect. We quote from happy childhood's memory

Police Check Kissing.

[Louisville Courier-Journal.] Jackson, Miss., Jan. 3 .- The first arrest ever made by an officer of the city of Jackson for kissing, was made at the Union Depot, and a precedent has been established that will be strictly adhered to in the future. During the afternoon when the waiting-rooms were crowded with ladies and children complaint was made to the police that a wung couple, strangers in the city. were making themselves ridiculous by their repeated osculations. The police called the couple to time.

Not a Superfluous Point. [Montreal Star.]

Dr. Felix Adler made a good point the other day in an address which he delivered before the Ethical Society in New York, when he said that many men seemed to think that Christianity applied only to private life, not to business or politics.

Three Women.

"I will grant each of you one wish," assented Fate to three women.
"I choose beauty," exclaimed the voungest. 'Give me power," said another.

"And to me a low, persuasive voice," the last murmured. Each had her will. The beauty of the first was ruined in an accident. The power of the second lasted but one season. But the third woman kept her talisman through a long life, and from many things, among them power.-Lippincott's.

Nawly Discovered.

Dr. Bauschinger, of Heidelberg University, who gives special attention to the search for asteroids, thinks that very few brighter than the tenth magnitude remain to be discovered. The number of fainter ones, however, shows no sigh of exhaustion. The records for 1901 show that 36 asteroids were discovered in that year, and it is worthy of

There often comes a time in the struggle with pulmonary disease when the victim loses heart and gives up hope. The ambition to be up and around gives way before growing weakness, and the sufferer keeps to the bed.

No one who suffers from lung disease should lose heart or give up hope while there is a possibility of cure. In many cases Dr. Pierce's Golden Medical Discovery has cured lung "trouble" when the cough was obstinate and deep seated, with hemorrhage, emaciation, nightsweats and general weakness. A great many men and women are living to-day in the full enjoyment of health and happiness who had been "given up" by doctors, but found a perfect and permanent cure in the use of "Golden Medical Discovery."

"My wife had hemorrhage of the lungs," writes W. A. Sanders, of Hern, Mason Co., W.Va. "She had ten hemorrhages, and the people all around here said she would never be well again. But she Jegan to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and flesh. After taking ten bettles she was entirely well. Should you think this would do you any good to publish, just use it, and if any one disputes the merits of this almost omnipotent medicine they may enclose self-addressed envelope with stamp, and I will answer, the same as written in this letter."

A PATHETIC LETTER.

"I had for a fong time been thinking for trying the Tasteless Samaria Prescription treatment on my husband for his rinking habits, but I was afraid he vould discover that I. was giving him nedicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly ill spent, I threw off all fear and determined. mined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Tasteless Samaria Prescription, and put it in his coffee as directed next morning, and watched and prayed for the result. At noon I gave him more, and also at supper. He save him more, and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nurve in my body tingling with hope and hapiness, and I could see a bright future hapiness, and I could see a bright future pread out before me a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts and everything else dear to a woman's heart; for my husband had told me that whisky was vile stuff, and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept on giving him the medicine till it was gone, and then sent for another lot, to have on hand if he should relapse, as he has done from promises before. He never has, and I am writing you this etter to tell you how thankful I am. I honestly believe it will cure the worst cases."

LOATHSOME

ACCESSORIES DONE AWAY WITH

We all know that at this time of the year the poets sing plaintively of the "springtime, Gentle Annie," and that hand in hand with their poetic effusions go the encomiums of the patent medicine man for his nostrum. We have nervines sarsongillas comhave nervines, sarsaparillas, com-pounds, etc., in such profusion that we doubt not every ill that this poor, frail humanity is heir to must have different decoctions; we find as a general case, that they start in a wrong way to secure us from the aches and pains they so blandly tell us are so easily removed. The nervine, for in-stance, is to treat those delicate little telephones which spread their brain network through the body. The sar-saparilla will have the blood in such exceeding good form that each vein and artery will scarce be able to con-tain the rich flood. Whereas the com-pound man will tell you rather in the ack than the flow of words, that he has a mixture which in some mysterous manner wil overtake and oust from one's body every ache and ill that an advanced medical science can conjure. This reasoning is all wrong. To get to the root of the matter, on should treat that organ from which all the others are but tributaries, and draw their sustenance therefrom, namely, the stomach. You who have all winter led a jolly good life, who have been to your parties and routs, with its attendant high living, must find it hard to account for that taste in the mouth on awakening in the morning, an occasional dizziness, which seems to obscure the vision, causing things to seemingly swim in a mist; you are cranky at the office, you meet old courtesy; finally with scant driven by sheer loss of condition to become a regular dog in the manger; to you we want to talk. What is the meaning is clear. Your system still holds a nasty residuum, which in its foulness taints eventually your entire body. pimples, carbuncles and all the loath some accessories of a diseased condition follow one another until you become a burden to vourself and your "cure-all" remedy. Celery King regulates the stomach, clears out all this nasty putrid matter, the blood derives a benefit, the complexion clears, the brain shakes off its lethargy and in a short time the old hearty self comes back, light-hearted, happy, gay. That's what Celery King claims

Letter Writing.

All children should be carefully instructed in the art of letter writing, and should be encouraged to write to parents at regular intervals when away from home. An instance is recalled, and such instances are not infrequent, where a daughter who married and left her old home in her early vomanhood wrote to her parents every week for 50 years. In too many families the tie is broken when children lepart, or is not strengthened by fa.thful and systematic correspondence. The strongest family affection s subjected to a severe test when brothers and sisters separate and very rarely or never renew the old family

Owing to cheap postage and east of communication, the arrival of a letter is not such an important event as it was when postage was costly and mail transit was slow. In former days letters from absent friends were warmly welcomed and carefully preserved. Children should be encouraged to write letters, because the habit is educative if practiced under the direction of intelligent parents. Nothing reveals one's knowledge of the language more certainly than a letter or other written effort. Our forms of speech are acquired chiefly in the family, and not in the schools. The accuracy of one's written and spoken language depends upon parents rather than upon teachers.-Philadelphia Public Ledger.

"Saint Zola."

The Kleine Zeitung, has made the interesting discovery that although the late Emile Zola is not likely to be reckoned among the saints, his family could boast of a canonized member. "St. Zola" was a native of Brescia, in which town there is still living at the present day an eminent lawyer of the same surname, who practices in the court of appeal. John Baptist Zola was born between 1570 and 1580, and in the year 1600 entered into the Jesuit order guese India, and made his way thence to Japan, where he died as a martyr on the scaffold in 1620. The late Pope Pius IX. canonized this "Saint John-

PIONEER'S EXIERIENCE

H. S. Barnes. Almost an Octogenarian, Cured of Kidney Trouble by Dodd's Kidney Pills.

Rat Portage, Ont., Jan. 12 .- (Special).—Seventy-nine years of age, but hale and hearty, H. S. Barnes, of this place, is a splendid specimen of the pioneers of New Ontario. To his numerous acquaintances he often tells the following story:

"I was troubled with kidney complaint. I suffered severely with pains across my back, and with a scalding burning sensation when urinating that was very painful. Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house and commenced using them. It was not long before I felt better and looked better. My friends started to greet me with 'Hello, Mr. Barnes, how young you are looking!' My kidney complaint was completely cured by Dodd's Kidney Pills." Dodd's Kidney Pills make the old feel young again.

Alfred G. Gives an Infirm Negro a Ride to Town With Coaching Party.

Newport, R. I., Jan. 13 .- A negro laborer, well advanced in years and infirm, William Riley, is telling his friends about a ride that he had last week with Mr. and Mrs. Alfred G. Vanderbilt. Mr. Riley was out on the island and while hobbling home late in the afternoon he heard the clatter of horses behind him and turning saw a coach approaching. It was Mr. Vanderbilt's He storned his however derbilt's. He stopped his horses and asked the old man if he would not like to ride to town. Stammering an acceptance, Mr. Riley clambered up to the top of the ceach and took a seat beside the fashionable party, there being on the coach besides Mr. and Mrs. Vanderbilt, Miss Neilson and Mr. Reginald C. Vanderbilt.

On the way to town Mr. Vanderbilt inquired where his possenger lived and he was landed at his door on Bath road. As the coach passed through the city the appearance of the old man on the top attracted no end of at-

was begun this morning, Chief Justice

Meredith delivered the

charge to the grand jury. The instructions were very brief and consisted mainly of a criticism of the present inadequate conditions for dealing with those who are committed to the jails for examination as to their sanity. There are at present in the jail 23 per-

term prisoners, guilty of minor offenses, two awaiting trial, and ten investigation as to their sanity. ferring to the last named, Justice Meredith deplored the fact that it was comforts and associations of a jail whose only fault was the unfortunate loss of their reason. Within three miles of London was an insane asylum, yet these unfortunate conditions were existent here. He did not mean this as a criticism of any person or persons. It was simply a lack of up-to-date methods. He thought a possible solution of the question was the placing in the asylums throughout the country of wards in which those awaiting examination could be placed. It is a wellattested medical fact, he said, that diseases of the mind required instant attention, if a cure is to be effected. This was almost impossible under the con-

ceive widespread attention The visiting of hospitals and charitable institutions was optional with the

THE MYSTERIOUS VISITOR IS NOW INVADING MANY HOMES.

It Strikes Young and Cld Who Are Physically Weak and Predisposed to Disease.

PAINE'S CELERY COMPOUND

Fortifies the Body, Cleanses the Blood and Gives Strength to Resist All Attacks.

That mysterious visitor, "Grip," is now invading many homes and strik-ing down the young and old who are weak or predisposed to disease. It is now well known that the disease spreads rapidly to the various members of the households into which it has been introduced. It accords with the theory of infection, also, that the disease has usually attacked the persons liable to infection. Dr. Richard Sisely, in his book on "Epidemic Influenza," says the disease is almost entirely propagated by infection.

In past winter seasons it has been fully and happily demonstrated that Paine's Celery Compound is a tower of safety when Grip is prevalent. When this scientific and health-giving medicine is used it strengthens the nervous centers of all the vital organs; it purifles the blood, regulates digestion, gives healthy tone to the whole system, enabling young and old to feel secure from the ravages of disease. pervous, dyspeptic and ailing people will find in Paine's Celery Compound a true protector and shield from the dangers of Grip. odges of Independent Oddfellows were inherited \$85,000 from an uncle who installed in their new offices last died in Ireland over a year ago, Charles M. Starrs, employed by the New York and Brooklyn Casket Company, at No. 41 De Kalb avenue. Brooklyn, says he is going to remain

It is no fanciful inheritance, for Mr. Starrs has just brought it back from Ireland. He has put in in four banks, but to his friends, who suggested that he retire from the undertaking business, the young man has declared that he likes the business and will continue to

draw his \$14 per week. His uncle was James Walter Cun-ningham, who died in December, 1901, in Galway County. The settlement of the estate, considered in that country very large, was placed in the hands of Dublin attorneys. They found that Starrs and his two brothers and their aunt, Mrs. Jane McDoweil, had moved to New York.

They found also that the brothers of Starrs, one a fireman and the other a clerk in the New York Postoffice, had died in 1901. The undertaker's assistant was dis-

covered by Lawyer Carl A. Hansmann, of No. 6 Wall street. It was found that Mrs. McDowell had been an inmate of St. Vincent's Hospital for seven years, suffering from paralysis She, too, has come in for \$85,000. When it was thought that no near of the Irish uncle could be found, McCaffrey, a second cousin forward as a claimant for the

certain date if no other relatives were located. On the day the fortune was to be given to the second cousin, Charles Starrs arrived in Dublin and established his claim. Starrs said yesterday: "I am in this

business now and I'm going to stay. I will get \$20,000 more by the first of March and so will my aunt. She is over 70 years old, and it's a blessing this money came to her."

She was sitting in the kitchen of her apartment on the second floor of No. 208 West Thirty-seventh street, when she heard some one at the parler door.

Opening the kitchen door softly, Mrs. Harris saw a man trying to pry open the parlor door with a chisel. She ran down the hall, and before the man had time to realize what was happen-ing, had seized him by the coat collar and thrown him to the floor.

The man struggled to get free, but Mrs. Harris said: "You can't get away from me; I've got you right." The struggle attracted other persons in the house and a boy was sent for Mr. Harris. He arrived in a few minutes to find the alleged burglar at the mercy of his wife, who had him pinned to the floor. Harris took charge of the man and turned him over to

THE DRUNKARDS' ACT. At the end of ten days' operation, it generally acknowledged that the new icensing act, the drunkards' act, as it is most generally called, is one that will work great good to London and to a considerable extent remove one of London's reproaches, that of drunk-

enness in the streets. The east end publicans don't know when they may be charged with the new crime of giving drink to an habitual drunkard, sober though he may seem. But west of Temple Barthat is in the fashionable quarter—the licensed victuallers hail the new act as an aid in maintaining the respectability of their houses. It is recognized by the trade as a distinct triumph for the Government in licensing legislation. Hotel proprietors, managers of large public houses and secretaries of bonafide clubs are practically unanimous in its praise.

One manager of an important retail house remarked to a representa-tive of the Pall Mall Gazette: "It is the best licensing measure ever pass-ed. The results it is working have been most beneficial. The effect has been to rid the bars to some extent of undesirable customers, and the exemplary sentences passed by the magistrates on habitual drunkards have had a good effect on that class.

Wholesale Price of Anthracite in Chicago Is \$11.50—Proof of Combine.

Chicago, Jan. 13.—The wholesale price of anthracite coal has been advanced the present wholesale price \$11 50 a ton. Dealers could give no particular reason for the raise in price further than the "condition of the market." They declare the supply of hard coal is still small, and that there is little prospect of more for some time.

It was asserted last night that one of the witnesses before the grand jury, Mitchell Urges Miners to Relieve the investigating the coal situation, yesterday, testified that there was combination, and that about one dozen companies are parties to the agreement to keep up the price of coal.

Six of the Fair Sex Camping on the Trail of Nebraska's Legislature.

Lincoln, Neb., Jan. 13 .- An organized lobby of half a dozen women, with Miss Laura M. Gregg, secretary of the State Woman Suffrage Association, in charge, has opened headquarters here. Its avowed object is to secure favorable legislation for women at the hands of the Legislature now in session. A constitutional amendment giving the ballot to women will be asked for if a canvass of the Legislature shows that it

will be successful.

One law that the women propose to push with vigor is to give the wife on the death of the husband one-half of the estate, apart from the personal property,

n fee simple, the other half going to the children The state association is on a firm business basis, with over fifty local organizations. Men are received on equal footing with women, and by this means a powerful sentiment is being formulated. Miss Gregg believes it is certain to give the women of Nebraska the ballot within a few years.

Generous Offering Upon Anniversary of First Presbyterian Church.

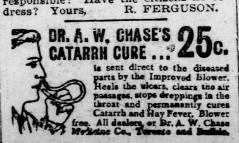

The congregation of the First Presbyterian Church made a splendid effort on Sunday towards reducing the debt upon their church. This was the anniversary of the church, and the members decided to mark the event by a very generous contribution to the debt fund. The sum of \$942 was collected at the morning service, and this was increased to \$1,115 at the service in the evening. This is gratifying testimony to the strength of the First Church congregation and the personal interest that the members take in its welfare.

CAR SERVICE COMPLAINED OF

South London Passengers Suffer Hardship-Illness Caused by Wait.

To the Editor of The Advertiser: At 9:45 last night car No. 70 of the belt line, coming from the east, dumped its load at the corner of Dundas and Richmond streets, and went north instead of going to South London. A group of South London passengers had already been in waiting at the "corner" for 15 minutes prior to this. The next belt line car that came from the east dumped its load at the same place and went north. At 10:20 car No. 70 again came around to the corner, and not until then did South London passengers get a south car. and Had Many Friends.

John Ferguson McCrae, eldest son of Rev. Dr. McCrae and a former newspaper man of this city, died early this morning at the family residence, Wilton Grove, after a long illness.

Mr. McCrae, while in this city, won the esteem of hosts of friends who will hear with every deep regret of his death. He was 23 years of age and came to London about two years ago to join the reportorial staff of the News. He proved himself a clever writer and was highly thought of by his fellow-workers here, all of whom since ely regretted the illness which forced him to leave London about a year ago. He went west and was a member of the staff of the Calgary Alebrtian for some time. Continued inhealth compelled him to return home and for the past few months he has been steadily growing weaker. Mr. McCrae lived in Collingwood before moving to Westminster. Three

brothers, George, Gordon and James, and two sisters, Dena and Helen, besides his parents survive. The funeral will be held on Thursday to Pond Mills Cemetery.

He knew that our father, who was a very proud man, and I also, would never consent to such a union, and so he took the matter into his own hands. Our father was very feeble at that time; we knew that he could not live many months, and Allan meant to keep his marriage a secret only as long as he should live. He said he would have waited, only he could not bear to see the girl working so hard for her living, and he wanted the right to take care of her. ABOUT LONDON'S SPEEDWAY. For the past few weeks local horsemen, and more especially those who own a "speeder" and a good nag to pull it, have taken the fullest advantage of the gool sleighing to test the speed at which their horses can go. In spite of the vigilance of the police many interesting brushes have taken place, and instead of utilizing the summer "workout" as a means of exercise, horsemen have taken to stepping down the avenues as a strenuous mode of testing speed. The material used is for the most part new and of fine quality, and such well-fought contests take place that recruits have been drawn to the ranks in many instances. The sport is interesting, and the report that dangerous conditions surround it is unbased. Horsemen say that the time when anyone was injured in a brush is beyond their recol-The everyday bobsleigh has done much more towards maiming over-daring children than the speeding cutter.

The increase in the number who en joy speeding has caused old horsemen to sigh for an appropriation of street upon which they might speed, and it is rumored that a petition to the effect may soon be set going. A large number of pedestrians have manifested their interest in the informal little races which have taken place, and more approval has been expressed than the opposite. Fully a score of men with steppers have added a dash of brightness to the avenues this winter.

WOODSTOCK 8, SEVENTH REGI-MENT 3.

Woodstock, Ont., Jan. 12. - Woodstock's speedy little aggregation trimmed the Seventh Regiment intermediate team in an O. H. A. game at Canterbury Rink tonight. The home team played with such vigor the visitors seemed to lose heart when the score showed up 6 to 2 at the end of the first half. It was a decidedly poor exhibition of hockey and there was no excitement. The game started at 9:15. The line up: Seventh Regiment-Goal, Leddy; point, Smith; cover, Gouthier; forwards, Lawlor, Sippi, Taylor and Woodstock-Goal, Maltman; Kelly. point, Ryder; coverpoint, Caiser; forwards, McClurg, McLettan, Pasco, Referee, C. Farnsworth, Young.

LOCAL TEAM BEATEN. A team from John Green & Co.'s went to Mount Brydges on Saturday night and were defeated by the home team by a score of 5 to 0.

TWO GAMES TONIGHT. The playing of two junior City League games will no doubt attract a number of spectators to the Jubilee Rink tonight. St. John's I will play the Hortons, while St. John's II. will meet the Waterloos. TEAMS ARE STRONG.

The strongest Seventh Regiment team yet put on the ice will appear tomorrow night when they will play championship game with the St. John's Athletic Club team. It will be as follows: Goal, Leddy: point, Smith: coverpoint, Gauthier; forwards, Lawor, Kelly, Sippi, Taylor. The St. John's people have also reinforced their team and the best game of the season is hoped for.

AYR WAS BEATEN Ont., Jan. 12.-In an intermediate W. O. H. A. game played here tonight. Prestan won by a score of 10

goals to 2 from Ayr. BRANTFORD BADLY BEATEN. Paris, Ont., Jan. 12.-The aggregaion which the Brantford Club sent over to play a return match tonight with Paris in the intermediate O. H. A. did but little towards upholding the standing of their club. The game, although a very good exhibition, was very one-sided, the visitors apparently being totally unable to check the repeated rushes of the home forwards. At half time the rubber had passed the Brantford goalkeeper six times and the Paris but twice. In the last half Paris scored four more, Brantford none, making the final score 10 to 2 in favor of Paris.

MILITARY TEAM WON. Kingston, Ont., Jan. 12.-The first game in the junior series, O. H. A., was played here tonight between R. M. C. II, and Queen's II. The Cadets were in fine fettle and made many brilliant rushes, and at half time the score stood: Cadets 6, Queen's 0. At full time the score was: Cadets 14, Queen's 4.

CLOSE GAME FOR WOODSTOCK. Owen Sound, Ont., Jan. 12.- Owen Sound and Woodstock juniors. O. H. A., met on the Owen Sound rink for the first time this season. It was a closely contested game and resulted in vor of the visitors by a score of 7

ORILLIA 6, PENETANG 2. Orillia, Ont., Jan. 12.—Orillia and Penetang juniors, O. H. A., played the astest game of junior hockey yet played in this district at Orillia tonight. The score was 6 to 2 in favor of Ortilia.

ent, of the Pittsburg Street Railway Company, has made hockey the feature at Duquesne Garden, and it is the company that foots the bill. The method he pursues is a simple one and relieves him of all the personal worry incidental to securing players for the teams. He apportions \$3,000 to each team and appoints a manager to dis-burse the sum. Each manager gets what players he pleases as long as he keeps within the \$3,000 limit for the season. The hockey year opened this season on Nov. 28 and will close on March 10. As will be seen by the foregoing list of prices the general price paid is \$15 a week, with \$20 to the captain. It rests, however, entirely with the manager. There is a continual agitation for increases in salaries here as in other lines, only there is but little chance for raises, because of the almost inexhaustible supply of players to be had in Canada at the standard price.

Although the medicine business should, above all, be carried on with the utmost conscientiousness and sense of responsibility, the unfortunate fact is that in no other is there so much humbug and deception. The anxieties of the sick and their relatives are traded upon in the most shameful manner; impossible cures are promised; many preparations are abso lutely worthless, and some are positively dangerous to health.

As a consequence, all proprietary remedies are regarded with suspicion by many people, and the good suffer for the bad.

BELMONT GETS BENNINGS. Washington, D. C., Jan. 12.—The Washington Jockey Club today recorded a deed conveying the Bennings track property to August Belmont for a nominal consideration. This action is in accordance with the recent reorganization plans of the club designed to settle the large indebtedness to Mr. Belmont and third parties.

WONDERLY COMMANDS \$15,000. New York Sun: "J. B. Haggin has no regular jockey, but he may have second call on Otto Wonderly, who is under contract to J. H. Carr, unless John A. Drake steps in and buys the boy's services outright. Wonderly commands a salary of \$15,000, and probably will make twice that amount.

WANT TO REORGANIZE. Toronto, Jan. 9 .- A meeting of the Canadian Jockey Club is called for Friday next, Jan. 16, at 3 p.m., at the offices of the Ontario Jockey Club in this city. This club, which is en-dowed with authority over racing in Canada, has not been an active body since its institution, and the meeting is called for the purposes of reorganization. The original members of the Canadian Jockey Club, whose number has not been added to, while several have retired from active interest in racing, are: William Hendrie, Andrew Smith, Robert Davies, Ontario Jockey Club; J. M. Lottridge, William Hendrie, jun., Hamilton Jockey Club; J. P. Dawes, James H. Wardlow, Bell-Air Jockey Club, Montreal; John Davis, George M. Hendrie, Windsor Jockey Club; George M. Beardmore, Toronto Hunt; H. Montagu Allan, Montreal Hunt; Adam Beck, London Hunt. What steps towards an active assumption of the powers conferred on it will be taken at the meeting cannot be forecast, but it is not intended to establish a stud book or a registry other than that now existing, but the C. J. C. will probably take its position as a body having reciprocal relations with and maintaining within its jurisdiction the same authority as is exercised by the Jockey Club in the east and the Western Jockey Club in the Western States. Racing is now in a sound con-

CANADIANS BEATEN. Mountain Ash, Wales, Jan. 12. - The Canadians for their match today with the Welshmen here were short handed. Powers is in the hospital at Edinburgh, Scholfield is laid up at Cardiff, and Ogilvie, Tait, Marshall and Randall are away. Two Swansea men offered their services to fill the gaps and were accepted. The weather and the grounds favored the game today, but from the outset the Welshmen were looked upon as sure winners, though regarded only as of the second class. The crowd numbered about 1,500 and they witnessed a most uninteresting game. The Canadians did not seem to have improved by experience, their catching and passing, as compared to their opponents, being very poor, and at no stage of the game had they the slightest chance, the Welshmen scoring when and how they pleased. The score at the close of the match was: Mountain Ash 25, Canadians 0. A match on Wednesday next has been arranged with the Maesteg Club. On Saturday, the 31st, the team goes to Paris. McClure, interviewed by Western Daily Mail, said that the game as played in Canada at present was a sort of mongrel football.

WRESTLING.

JIM PARR WON. Buffalo, N. Y., Jan. 12.—Rough tactics characterized the wrestling bout between Jim Parr, the English champion, and Tom McInerney, the Irish champion, at the Olympic Athletic Club tonight. Parr won the first fall in 20 minutes and 30 seconds, and McInerney the second in the same time. The men had been on the mat 12 minutes in the third bout, using particularly rough methods, when the referee gave final warning that he would disqualify the man who next offended. McInerney struck Parr, and he was at once disqualified, the referee declaring Parr the winner.

ANOTHER FOR McLEOD. Fall River, Mass., Jan. 12.—Dan McLeod, the world's champion catch-as-catch-can wrestler, defeated Alfred Laiscelle, of this city, tonight in a handicap match, securing two falls in less than twenty minutes. The agreement was that Mcminutes. The agreement was that Mc-Leod should throw his opponent twice in a wrestling hour. GAUTHIER THREW ATHERTON.

Batavia, N. Y., Jan. 10 .- A. Gauthier, of Montreal, the Canadian wrestling hampion, defeated Ed Atherton, of his place, last night in a splendidly ontested match. Atherton secured the irst fall, catch-as-catch-can style, in 5:10. At Graeco-Roman style Gauthier gave Atherton a terrible gruelling and downed him in 24:13. The final pout was at catch-as-catch-can, and Gauthier won it in 30:15.

with the noted professional oa man when he was rowing in Australia. It was out of friendship for Hanlan that Mr. Watson made his gift. According to was out of friendship for Haulan that Mr. Watson made his gift. According to the conditions of the gift, the cup will become the property of the club winning it three years in succession. As there has been no intermediate eight-oared race in previous Harlem Regattas, Hanlan decided to make the cup a prize for that contest. Hanlan says he intends to decontest. Hanlan says he intends to de-velop two Columbia crews for the race, and hopes that one of them will be able to land the cup.

SKATING.

A SPEED SKATER'S ADVICE. With a long, cold winter predicted, says the Toronto Globe, there is apt to be a lot of skating in this part of the country, and what Harley Davidson, one of the world's fastest skaters, has

to say will be of interest. There is an art in speed skating as well as in fancy skating, though the followers of each sport are unwilling to admit this to be true of the other. This article will treat mainly of attainment of speed on ice, and to begin with the following injunction is one that must be observed by all: "Practice all you can and breathe through your nose."

Rhythm of motion is all-important to one anxious to excel in speed skat-

The stroke must be long and regular and the body must swing along with the stroke, always maintaining perfect balance over the leg that is on the forward stroke. The speed skater's arms are usually

held behind his back, except in sprint races, where he swings them with the body, adding strength and speed to the torward stroke. The rink skater has greater diffi-culties to contend with than the outdoor exponent of the sport, in that he has many turns to negotiate. Usually these turns are very short. In turning a corner at high speed the skater leans to the side he is to turn, at an angle of sometimes 20 degrees, and it's

an art to keep his feet, requiring great For the person who has just mastered the first principles of the game, and who desires to take to speed skating, the following will be of advan-

The alternate movements of the legs

of the skater are called "strokes." The skater runs or glides forward ipon one leg-say the right-at first nearly in a straight line, but toward the end of this stroke he curves away toward the outer side-that is, in the case put, the right side. At the end of the stroke he thrusts his skate strongly against the ice

sidewise and backwards, gripping surface with the inside edge of the blade of the skate, and thus obtains the impetus necessary for driving him along during the next stroke. Meanwhile, the outer leg has been brought back from the final thrust of

the previous stroke toward and over the middle line, and has been drawn well under the body. As the stroke of the right leg is curving away from the middle line toward

its finish the left skate is placed upon The skater then, throwing his weight forward, rests it upon the left leg, up-

on which he runs or glides in a manner similar to that described for the right leg, and so on.

During the time that the skater runs or glides upon his skate he maintains

a steady balance upon it. To do this he leans over the leg upon which he is running toward the outside, so as to bring his center of gravity immediately over his skate. When he is doing this the skate follows the direction of the body and leans over toward the ice on the same side, and the skater runs upon the outside edge of the blade. The skate can thus run straight and steady, the edge of the skate acting as

a guide and preventing the skater from wobbling.

Just before the front thrust the skater ceases to balance himself or the outside edge, his skate curves outward, but his weight does not follow it, and he comes upon the flat of his skate and then finishes on the inside edge.

In racing the stroke is close to the middle line most of its length, and the curve at the finish is not sustained. To make a vigorous backward thrust with the leg, and at the same time to place the other leg on the middle ine and receive upon it, with steady balance, the weight of the body thus driven forward, and to run upon it" along this line, is a feat requiring much practice and skill. In order to assist him in accomplishing it in

FEW RATS AT THE JAIL

The Hungry Rodents Can Get Nothing to Eat There.

Boston Castle is not troubled with the dungeon rat that has been such a source of suffering to the hero of many novels published in the last 20 years. Ruthless rodents don't gnaw the prisoner's legs while he sleeps nor do armies of them attack him, scratch out his eyes and "make the terrors of the prison a thousand times more

"We don't have many rats down here," said Governor Boston this morning. "Sometimes we see two or three, but as a general thing they don't come around. There is nothing for them to eat lying loose around here, and no doubt that is why they

PUPILS ENTERTAINED

Delayed Christmas Programme at Harding Hall Carried Out.

The entertainment, which was postponed from the Friday evening before Christmas because several of the teachers and a number of the pupils were taking part in the musical romances, was given on Friday evening. A number of the parents and friends of the pupils were present. The school orchestra, which now numbers ten, is making commendable progress under Mr. W. H. Woulfe. Miss A. C. Hartley, B. E., the teacher in expression, favored the audience with a selection, which was well received. The following programme was rendered :

TREATS PEOPLE OF COLNE

Mr. Peter Birtwistle Does Not Forget His Old English Home.

Mr. Peter Birtwistle, who now lives at London, Ontario, Canada, is a former resident of Waterside, says the Colne, England, Observer, of Dec. 26. But though he has long left Colne, and made his home in Canada, he does not forget old associations. For over twenty years he has provided a Christmas treat to the old folks of Waterside who are over 50 years of age. They have a substantial knife and fork tea in the Providence schoolroom at Waterside, in addition to monetary gifts of no inconsiderable amount. After tea the old men are given tobacco and snuff. Yesterday, in addition to all this, a lantern entertainment was given, and a most interesting feature of it was the exhibition on the screen of the portrait of the old friend at whose expense all this is carried out-Mr. Birtwistle himself—and many of the old residents of Waterside. The money is sent by Mr. Birtwistle to Mr. John Schofield, his brother-in-law, who lives in Chapel street, Colne, and its dis posal is undertaken by the Providence Chapel authorities. Generosity coming so consistently and from so far afield will doubtless be thoroughly appreciated by the recipients.

The case of McGivern vs. Street Railway was stricken from the jury list at the assizes yesterday afternoon. Mr. George C. Gibbons, K. This action is one for \$15,000 instituted by Mrs. McGill, of St. Thomas, whose husband, an engineer, was killed in a collision on March 28 last. The case is of special interest, as it brings up the question of the right of the relatives of deceased employes to sue for damages outside the scope of the amount recoverable under the workmen's compensation act. In this

action the plaintiffs intend to try to prove that the defendant company was liable in common law, and for a much larger amount than the three years wages, which is The plaintiff will claim that the company was guilty of negligence in not providing a proper communication be-tween the conductor and the engineer, as the conductor saw the approaching danger, but had no way of warning leceased in time. Under the proisions of the workmen's compensation act a company is re-sponsible only to a certain extent for the negligence of its servants, and one line of defense that the defendant company will take is that rules under which trains were operated were the within the meaning of the act, and that therefore they are not responsible for any result of his alleged negligence beyond the extent set forth in the act. This is the first case of the kind that has arisen in Canada, and is of such great importance to the railway company that they asked for a delay in order to consult the highest legal talent. For the plaintiff there appeared Mr. George C. Gibbons, K. C., of this city, and Mr. J. B. Davidson, of St. Thomas, and the company was represented by Mr. Wallace Nesbitt, K. C., of Toronto, and by their solicitor, Mr. Foster. It is said that should the company lose the case they will fight it all the way to the Privy Coun-

VALUE OF TESTIMONY

Greater Than Assertion.

There is none of us so hardened but that when we have been able to aid our fellow-creatures by conferring a benefit or bringing a little comfort into their lives we like to have appreciation shown. This generally affords more pleasure than the performance of the act itself, and in this connection the following letter from a Texas lady

"Dear Friends: I address you as such, for you have been such to me. I suffered for three years off and on with piles. I was treated at the hospital, and the new and elegant hospital, of Memphis; they only gave me temporary relief. I came west thinking the change of air and water would benefit me; five months ago the bleeding piles came back on me and bled so much that I thought I would die.
"I have had four of the finest doctors in this section of Texas; all they work of their general manager, and did was to finally nearly let me go to that he is a servant of the company, my grave; all they wanted was a big sum of money from me and to operate on me. I said no, no surgeon's knife would enter me; if it was my time to die God knew it, and when I died I would die all together.

"I began hearing about your medicine. I had no faith in you, but I sent and got a box of your Pyramid Pile Cure; in two days the blood flow had slackened to one half the amount, and slackened to one half the amount, and in one week I felt so much better I walked four blocks and did a little housework. I was not bleeding then; in three weeks I was well.

"God bless you for putting such a wonderful medicine within the reach of suffering men and women. I shall never cease to recommend your medi-cine or be without it; also I used your Pyramid Pills. Sallie A. Hearndon, Paris, Texas."

Testimony like this (for the genuineness of which we vouch) should be more convincing than all claims and assertions, and should leave no doubt in the mind of the reader as to the merit of the remedy. Pyramid Pile Cure is sold by druggists for 50 cents a package, or will be mailed by the makers to any address upon receipt of price. Write Pyramid Drug Com-

A peculiar alteration made by the Czarina has been much talked about and criticised in St. Petersburg. She has had the study of Alexander II., which up to now has been preserved untouched, turned into a bathroom. In this room Alexander II. signed the manifesto which abolished serfdom in Russia, and thus gave liberty to 23,-"However coo.000 of his subjects. long I may live I shall never be able to do a better deed," Alexander said when he had signed it. He expressed the wish that the room should remain just as it was. For 40 years nobody touched this sacred spot. But now, by order of the Czarina, all the documents and historical records have been put into a lumber room. The imperial library in St. Petersburg has taken
