The Japanese Government first made the sale of opium a Government monopoly; then it prohibited nonsmokers from acquiring the habit, thus shutting out the youths; then registrawho thereafter would only be able to purchase the drug on presentation of a license: smokers were encouraged to ers the baneful influence of opium.

Mr. Midzuno gives figures to show how satisfactory has been the outcome of these methods of control. After the regulations had been in force for short time the licensed opium smokers numbered about 165,000. Seven years later, although the population had in-

## Skin Diseases, ALMOST PANIC IN

A diseased or disfigured skin will always leave its stamp on the mind of the individual. Many people suffering from dis-figuring skin diseases avoid society and lose all pride in their personal appearance. When the skin breaks out in eruptions and sores it is due entirely to an impure condition of the blood.

In all such cases Burdock Blood Bitters will quickly purify the blood and drive all the impurities out of the system.

"There's a Reason"

Cases of Smallpox Have Aroused the Neighborhood.

The last few days have witnessed something like a panic in East Williams Township, due to the spread of a smallpox outbreak. The malady was brought into the township, it is thought, by Miss McCullam, a daughter of David McCullam, of East Willlams, who returned from the Northwest in a car where there were persons suffering with the disease. Miss McCullam did not appear to be touched by the disease, and she was allowed to go, though the rest of the passengers were quarantined. Sometime later Miss McCullam developed the disease, and her three brothers contracted it

Lately a number of new cases developed. Mr. R. Cowan first sickened of it, and though his family have so far escaped, of course, the danger of infection is great.

Miss Moore, a school teacher, a daughter of J. Moore, also caught the disease, and the family of D. Campbell, some six in number, are all suffering from it. Mrs. K. Rose, too, has contracted it, and her children are also sick, though in their case it is not thought to be smallpox. All the schools of the district have been quarantined. as well as the Baptist and Presbyterian churches of both East Williams and OF FRANCHISE Poplar Hill. A meeting was held on Monday to consider the advisability of quarantining all the school children of the district. There have been other cases reported, but these have not been verified, and they are likely nothing more than the fears of the panicstricken people, to whom everything is inclined to speak of smallpox.

At times the wind blew a Shortly before noon a man who was on his way home from the Grand Trunk station lost his hat, and for ten minutes was unable to find it. The wind was blowing at a pretty stiff rate at the time, and a big cloud of snow came whirling up the street. The man "ducked" his head to meet it, and fust as he was passing the laneway leading into Howden's hardware the wind took his hat. He looked behind him, expect ing tgo see the hat roll nierrily down the street. But to his surprise it was nowhere to be seen. He then looked in the laneway, but still no hat was opened about the middle of March, or visible. He came out to the street was wet and in poor condition. ## LOCAL HIDE PRICES

## a Bushel in London.

This morning's market was a quiet 9.62c; one, and owing to the blustering weather and the slippery condition of the roads in this district very little produce was offered.

Hides have advanced one-half cent 100 on the pound and are new selling at 9, 8 and 7 cents per pound for No. and 3 quality, respectively, Wheat continues to sell at \$1 per bushel, and will probably remain at the 9.29c; January, 9.27c. present price, as there is said to be changed.

Poultry is also scarce, according to farmers and buyers, and although there has not been a general boost in prices a number of chickens sold on the square yesterday at 15 cents a pound. The hay brought in today was of inferior quality in the majority of cases, very few first-class loads being offered. The following are the quota-
